### REFERENCES.

|| Indicates that the individual to whose name it is affixed has omitted Greek.

\* Has omitted both Latin and Greek.

† Has studied French.

N. B.—In making the above classification, the aim has been to connect the name of each student with the Class with which he may be reasonably expected to complete the curriculum of study, although his advancement may not just now exactly correspond therewith.

## LITERARY STANDING.

This being determined by the Record of their daily Recitations is assigned to the Students at the close of every Term. There are four ranks or degrees of excellence; the *First*, or highest is occupied by those who have, in the judgment of the Officers of Instruction, succeeded in making very nearly perfect preparation for all Class Exercises in their respective Departments of Study throughout the Term; and the *Second* by those who have, in this respect, done *exceedingly*—the *Third*, by those who have done *moderately*, and the *Fourth* by those who have done only *passably well*.

#### COURSE OF STUDY, CLASSIFICATION, &c.

THE Course of Study is designed to ensure to the Student thorough preparation for comfortable entrance upon a course, either of special training for Agricultural, Mechanical or Commercial pursuits, or of specific study for professional life; it is therefore systematic and extensive, including all the branches of Science and Literature, which are taught in the best conducted educational establishments on this Continent and in Great Britain.

The aim in arranging the order in which the several subjects for study succeed each other in the course, has been, not only to secure, to the greatest possible extent, the symmetrical development of all the intellectual powers of the regular Student, but at the same time also to accommodate the class of worthy young men who, being able to spend but a short time in the Institution, wish to devote it all to particular studies.

The Students being classified according to their respective scholastic attainments, are arranged in three distinct Departments. Each Department is subdivided into classes, and has assigned to it its own appropriate portion of the course of study.

---

#### I. PRIMARY DEPARTMENT.

This is designed as an initiatory department for such of the more youthful pupils as may be unprepared for the exercises of the second department.

TIME.—The time to be occupied in it will depend altogether upon the capacity and industry of the pupils. As soon as they are able to do the regular work of the classes of the higher department, they will be advanced to it.

## STUDIES.

Reading, Writing, Arithmetic (fundamental rules), and first lessons in English Grammar, Geography, and History.

## II. INTERMEDIATE DEPARTMENT.

## TIME—TWO YEARS.

---

A portion of every Sunday is devoted to the united Study of the SACRED SCRIPTURES, under the direction of the Chaplain.

---

### THE COURSE OF INSTRUCTION

Is such as is, after careful observation and matured experience, judged best calculated to interest the youthful mind, and to develop most harmoniously all its powers. The best text books extant, in the various studies, are placed in the hands of the Student, and he is required to make himself acquainted with successive portions of these as they are from day to day definitely assigned by the Teachers, and to furnish satisfactory evidence of such acquaintance in his recitation-rooms at appointed hours. To do this he must study, and persevering in so doing, week after week, he acquires the *habit of methodical study*.— But to prevent the preparation for the recitation-room from becoming mere *task work*, and the recitations mere memoriter repetition of words and phrases, the Student is encouraged to extend his range of enquiry beyond the limits of his text-book, —to investigate and think and talk for himself;—to lead him to do so is the constant endeavour of all the Officers of Instruction.

Courses of Lectures are delivered, from Term to Term, upon various subjects which are included in the Course of Study.

---

### TERMS.

The Academical Year is divided into two Terms,—one of twenty-four weeks, beginning on the first Thursday after the first day of January, the other of nineteen weeks, beginning on the first Thursday in August.

---

### PUBLIC EXAMINATIONS.

Commencing on the last Monday morning of each term.

---

 VACATIONS.

Three weeks preceding the Term beginning in January, and six weeks preceding the Term beginning in August.

Additional charges will be made for Tuition in the higher Departments, but the expense for Board, &c., and Tuition, will in no case exceed £30 per annum.

Ten Shillings per week will be charged to those who remain during the Vacations.

*The amount of the ordinary expenses must be paid in advance—one half at the beginning, and the remainder at the middle of each Term.*

 SITUATION, BUILDINGS, &c.

Sackville, being at the head of the Bay of Fundy, is a retired Country Village, pleasant and healthy, and easy of access from all parts of the Lower Provinces.

The Academy Buildings are elegant, spacious and comfortable, and delightfully situated upon an elevation of ground, so that they command one of the richest and most extensive views in British North America. A gentleman from Boston, who visited it some years since, thus truthfully described the main Building:—"This Building, which is of wood, is a noble edifice, one hundred and fifty feet in length, and about fifty in width, and three stories high above the basement. It has a handsome portico in the middle of the facade, with four Doric columns from the ground floor to the roof of the main building. \* \* \* Its internal arrangement is planned in no narrow or stinted measure. The rooms of the lower or ground story, including

chapel, library, recitation-rooms, parlours and sitting rooms, are high, large, airy and commodious. The study and sleeping rooms of the Students are of sufficiently ample dimensions. There are accommodations for about eighty boarders. The basement, which is built of red sandstone or freestone, is occupied with dining hall, kitchen, &c., all light, dry and comfortable \* \* The edifice is well and firmly built, and is neatly and comfortably furnished. It was erected at an expense of between five and six thousand pounds." Since this gentleman's visit there has been an expenditure, in the erection of other buildings in connection with the Institution, of at least a Thousand pounds.

### LIBRARY, APPARATUS, &c.

The Institution is liberally supplied with all the auxiliaries desirable for either the enterprising Teacher to aid him in his work of Instruction, or the ambitious Student to facilitate his honorable progress.

The Library, containing about three thousand well-selected volumes, is always accessible.

The Recitation-Rooms, Laboratory and Lecture-Room, are amply furnished with Geographical and Astronomical Maps and Globes, and Philosophical, Astronomical and Chemical Apparatus.

### GOVERNMENT.

This will be parental and mild, although strict and firm, Measures of disciplinary severity will be employed only after consultation and serious deliberation, and after the trial of other means has been found insufficient to secure the observance of the rules of order and propriety. Every reasonable precaution will be used to preserve a healthy state of moral feeling. It is determined that no one shall continue in the Academy, whose character and habits are found to exert an *influence unfavourable* to good morals or good order. Daily records of scholarship and conduct will be made with great care.

### MISCELLANEOUS REMARKS.

All who design to become Students in this Institution, should enter, if at all possible, at the commencement of a Term, as the regular classes are then organized; pupils, however, will be received at any time.

The only pre-requisites for admission into the Primary De-

partment are a good moral character, ability to read and spell, and age sufficient to enable the Pupil to prepare regularly for recitation.

Students in good standing can receive an honourable dismissal from the Institution, at the end of the Examination at the termination of any Term; and at no other time except in special cases.

Parents and Guardians are respectfully requested to write to the Principal directly, should they find it necessary to recall a Student in Term-time.

Students who may pass a satisfactory examination in all the Studies of any of the Departments, will be entitled to a regular Certificate or Diploma.

Classes will be organized and instructed in the French Language, and Scientific Agriculture, whenever required by a sufficient number of Students. Where it is preferred, the study of French may be substituted for Latin and Greek, in the Intermediate Department. By omitting the Latin and Greek in the Collegiate Department, the Studies of that Department may be completed in from two to three years.

Persons who may not wish to pursue either Course regularly, will be allowed to enter any of the Classes, in order, for which they are qualified.

But where there is no intimation of desire on the part of the Parent or Guardian of the youthful Student, dictating a modified course—he will be examined, and have his place assigned in the Department which he may be found prepared to join; and will be required to pursue the regular course as above given, while he may continue in the Institution.

Parents and Guardians are *earnestly advised* that the lads should be furnished, *very sparingly*, if at all, with spending money. Money sufficient to meet incidental expenses should be lodged with the Governor and Chaplain of the Institution, or with some other responsible person.

Each Pupil shall bring with him:—Not less than three suits of clothes; eight day and three night shirts; six pairs of stockings; two or three pairs of shoes; two hats or caps; also, a cloak, or overcoat; an umbrella; combs and brushes; and a Bible, with marginal references.

*Parents are particularly requested to send every Article marked with the name of the Pupil in full.*
