### TO THE PUBLIC.

The Publisher of "THE UPPER CANADA LAND, MERCANTILE & GENERAL ADVERTISER," begs respectfully to draw the attention of the Land Proprietor, the Merchant, and the Public in general, to the plan adopted for producing an extensive circulation to the Advertiser, throughout the Province.

The Publisher from experience is well aware of the facilities which occur to the Emigrant, in readily finding Land suitable to his views & means. This publication will, at one view, furnish him with a list of Lands for sale belonging to the Crown or to the Canada Company; also an extensive list of partially cleared farms & wild Lands, the property of individuals.

The Advertiser will be forwarded weekly, to Quebec, and placed on board every Steam-boat from thence; also to Montreal, to Prescott and along the Line to the Western parts of the Upper Province. An advantage is thus afforded to the old settler who may be disposed to change his location, or to add to his property by purchase of that which he might find offered for sale in this publication.

To the Merchant every facility is afforded of having his advertisements under the most extended circulation.

The Market Prices current of the chief towns in the provinces will be inserted, together with every information relative to Steam-boats and Shipping, with whatever is essential to a Mercantile paper.

The public will find the Upper Canada General Advertiser, a vehicle for Advertisements and a mode of enquiry not heretofore to be found in the Province, the utility of which, when experienced, will, the publisher trusts, bring what is his aim, "public patronage."

## WILD LANDS.

### LANDS IN UPPER CANADA.

TO be disposed of by the Canada Company.—The Canada Company have large Tracts of Land to dispose of, which may be classed as follows:—

1st. SCATTERED CROWN RESERVES.—These consist of Lots or Farms of Two Hundred acres, or less, in almost every Township in the Province. They are a fair average of the other lands in the township, as they formerly belonged to the Crown, and were selected on a principle, fixed on, previous to the lands being surveyed.

2nd. BLOCKS OF LAND of from 2 to 16,000 acres.—These are chiefly situated in the Western District, and are of a very rich soil. They are well worthy of the attention of communities of settlers, who, from relationship, or from neighborhood, are anxious to settle together.

Among these may be mentioned the township of Guelph, which, under the management of the Company, has been settled in an unprecedentedly short period, and contains a village of nearly 500 inhabitants and a population amounting to nearly 2,000.

3d. The HURON TRACT.—This is a fertile Tract of about a million of acres and already containing from 2 to 3,000 inhabitants. The land is rich and well watered, and possesses every advantage that a settler can require. The town of Goderich, its capital, founded in 1828, already contains upwards of 100 houses with good stores; Inns, Schools, and a Place of Worship open to all sects. A Steamboat to communicate with Lake Erie, has been built; Mills are established in various parts of the Tract; and the roads are as good as it is possible to have in a new country.

Several of these Lots are adjoining to Lands reserved by the Government for a Town at Cameron's Falls, where Mills will be erected this year—the terms of sale are

5s. per acre, if paid immediately on entering upon the land.

7s. 6d. per acre, if payable in 3 years—by 4 equal instalments, the first to be paid upon entering upon the Land, the remainder by annual instalments.

10s. per acre payable in 6 years, first instalment as before, the 2d in 3 years afterwards, and the remainder by annual instalments.

15s. per acre payable in 10 years, the first instalment as above, the 2d in 6 years afterwards, and the remainder by annual instalments.

Or Settlers can have the Lands to lease for 14 years, at one halfpenny per acre per annum. No settler except he has a large family can have more than 100 acres—immediate and actual settlement strictly required.

When it is considered, that the lowest price at Auction of Government Lands in these Townships is 10s. per acre, payable by instalments, in 3 years, with interest at 6 per cent., the above moderate terms are liberal.

The class of Emigrants settled in these Townships and those adjoining are most respectable. No person can be disappointed, either in the soil, climate, or situation of these Townships; they are probably the most beautiful and best watered in Upper Canada, being in the centre of the chain of Lakes forming the intended line of Navigation from Lake Huron down to the Bay of Quinte on Lake Ontario. The Scugog River which empties itself into Sturgeon Lake in the Township of Fenelon, affords an easy transport for Goods or Produce to within 18 miles of Lake Ontario, through the fertile Townships of Ops, Cartwright & Reach, a Steam-boat is now launched on Chemong Lake, back of Peterborough, which will next autumn, when the locks of Bobbidgevia Rapids have been completed, ply between Peterborough and Cameron's Falls, and up the Scugog river. The best route for Emigrants this year going up to these Townships will be by way of Cobourg or Port Hope on Lake Ontario, to Peterborough, from whence there is easy conveyance by water—next year there will be, a shorter and easier line of communication with Lake Ontario, by means of the navigation of the Scugog river. For further particulars apply to Messrs. Bellingham and Wallis, Montreal; Alexander McDonnell, Esq., Government Agent at Peterboro'; or to the Subscriber at Cameron's Falls, Fenelon, who will be happy to render emigrants settling in these Townships, every information or assistance in his power. thus prepare them to become industrious and useful members of society.

**THE BRENTON JUVENILE ASYLUM** at Hackney Wick, was opened on these principles, with about ten acres of land, and a suitable range of buildings for schools, workshops, &c. The success of this experiment for boys has been so great as to induce the Society to form a similar establishment at Chiswick for girls, which is called, by permission, **THE ROYAL VICTORIA ASYLUM**, at which females are now admitted from the age of ten to fourteen years. In both these institutions the same plans are adopted; the children are employed during the greater part of the day in all these labours and handicrafts which will best fit them to become house servants, or apprentices to different trades; and a proper portion of each day is devoted to religious services and general instruction in the school. As soon as the children are trained in these new habits, they are apprenticed (with their own free consent, and that of their parents or guardians) either to respectable individuals in the Colonies, or to suitable situations in the United Kingdom.

A Committee of influential gentlemen has been formed at the Cape of Good Hope, which has already enabled the Society to provide for a considerable number of children in that Colony. Similar Committees are about to be formed for girls as well as boys in the British Colonies in North America, as well as in other Colonies, to which the children can be sent with due regard to their health and welfare.

The extent to which these plans can be carried into effect must depend upon the support which the Society may receive from the public.

The Committee invite the friends of the poor children, whose cause they advocate, to examine the establishments; and they recommend a perusal of the Report (to be had, with a List of Subscribers, at the office of the Society,) from which they will more distinctly learn the nature and design of the institution, the principles upon which it is conducted, the extent of support which it has hitherto received, and the amount of benefit it has already been enabled to confer, not merely upon that class of beings whom it is the direct object of the charity to assist, but upon the community at large.

The following are extracts from the Laws and Regulations:—

\* A donation of £5, or upwards, shall constitute a member for life.

\* A subscription of 5s. or more, yearly, shall constitute an annual member.

\* All contributors shall receive upon demand, at time of payment, presentation tickets to the amount of their subscription.

\* Any person contributing the sum of £12 10 or producing tickets to that amount, shall be entitled to place one child, from 10 to 14 years of age, on either the male or female establishment, if the child be approved by the Committee after examination.

**Exeter Hall, Strand.**

\* The number of children received during the year just expired has been 256 Boys and 29 Girls, making the total number of 315; and 213 Boys and 37 Girls have been provided with permanent situations in the colonies within that time.
