

LISTOWEL STANDARD.

FRIDAY, APRIL 8, 1881.

LORD BRACONFIELD'S condition is still considered critical, and his prospects of recovery are by no means assuring. It is believed that should he recover he will retire from public life, and that either Lord Salisbury or Lord Cairns will be his successor in the leadership of the Conservative party.

Her Majesty, who was arrested in London the other day for proposing the assassination of the Emperor of Germany, is evidently a bloodthirsty tyrant. The advertisement of the assassination of the Emperor of Germany, which was published in the "Frederick" the day after the assassination of the Emperor of Germany, is a most abominable libel. The Emperor of Germany is a most abominable tyrant, and his assassination is a most abominable crime. The Emperor of Germany is a most abominable tyrant, and his assassination is a most abominable crime.

EXTENSIVE SCHEME OF COMMERCIAL COLONIZATION ENTERPRISE.

Ottawa, April 5.—James E. Perrault planned to the Government to-day the plans of the "Union Commerciale Franco-Canadienne" company, of which he is secretary, in order to obtain the subsidy of \$50,000 voted during the last session in favor of a fortnightly line of steamers between a French port and Montreal in summer, and Halifax in winter. The company which he now represents as a delegate to the Dominion Government has subscribed a capital of \$240,000, and is composed of French and French Canadian capitalists. Its purpose is a three-fold one. First, the establishment of a line of steamers between Montreal and Halifax in summer, and Halifax in winter. The Government grant a subsidy, which will be crossing the Atlantic in a couple of months. Secondly, the colonization of a tract of the Northwest, which will be settled by French and French Canadian settlers who are not well assisted in their efforts by a colonization society, possessing a capital of \$240,000, which will undertake to settle an area of 100 square leagues within the space of ten years. The intending emigrants are to advance to the passage money, but to give them a furnished dwelling, agricultural implements, a yoke of oxen, and sufficient provisions to enable them to avoid the rigors of their first crop, the whole advance to be reimbursed to the company in ten equal payments bearing interest at 6 per cent. Thirdly, the company intends making a special exhibition of French products at the Provincial Exhibition to be held in Montreal this fall. Should the Government grant the subsidy, the company will begin operations at once, as it is anxious to have the first steamer of the Northwest as early as the first day of July.

CENTRE WELLINGTON.

The annual meeting of the Liberal-Conservative Association for Centre Wellington was held at Fergus on the 2nd inst. Notwithstanding the unfavourable weather, a very large and enthusiastic assembly of the leading men from the various municipalities in the riding was gathered together.

In consequence of the resignation of the president of the association, J. M. Fraser, late of Galt, Hugh Roberts, of Pilkington, was appointed chairman of the meeting pro tempore. Dr. Orton, M. P., then gave a resume of the proceedings of the last meeting of the Dominion Parliament and of his part therein. He showed clearly and briefly the patriotic action of the Government in regard to the Pacific Railway, and showed up in an equally clear light the false and unconstructive, and unpatriotic policy in regard thereto of the Opposition, at the same time fully explaining the position of the Liberal-Conservative Association, which, in order to make their sensational deposit of \$125,000, were obliged to pledge one-half of their whole collective property to the cause.

FALLEN FROM GRACE.

To help the Christians, who are warmly discussing the merits of an optional prohibition law for Ontario, to get their minds on the subject, or perhaps to help them still more, the Toronto Globe has sent to Maine a reporter who is said to be a prohibitionist and another who is said to be a non-prohibitionist. The Globe has sent to Maine a reporter who is said to be a prohibitionist and another who is said to be a non-prohibitionist. The Globe has sent to Maine a reporter who is said to be a prohibitionist and another who is said to be a non-prohibitionist.

VIOLENT EARTHQUAKE SHOCKS.

Constantinople, April 4.—A strong shock of earthquake at Chio, in the island of that name, yesterday destroyed many houses and seriously damaged others. The earthquake was felt by the inhabitants who were killed, and the remainder are encamped in the fields. Many of the neighboring villages were destroyed. During the panic the Eastern Telegraph Co.'s office was pillaged. The stocks were left in the island of Syria and Smyrna.

THE FLOODS IN DAKOTA.

Yankton, D. T., April 6.—Lower Yankton was submerged to-day. The people were removed to the upper portion of the city. No lives are imperilled, but considerable damage was done to property. Intelligence has been received from Bon Homme, that of fourteen persons ten have been rescued. A family named Bates and one named Hladman were drowned. Several other families are probably lost, six miles this side of Greenwald. The people have been removed to this place, and no lives were

lost there, but the village is completely washed away. It is reported that the place has been postponed till the 22nd inst., owing to the unit condition of the roads.

A BIDDULPH EPISODE.

The principal case tried at the Middlesex Assizes was that of Margaret Howe against Chas. W. Kent. The plaintiff claims damages for the death of her husband at the hands of Kent in the spring of 1876. The trial happened on the Queen's Birthday. The defendant was an unfeeling wood at Dr. Fenwick's, and Kent was sewing upon his lot, where building operations were going on. Two plasterers were at work in the new building, and Kent's foreman, Hodgson, was in another part of the lot. Suddenly one Collins entered the premises, fired a gun, and made a violent assault on Hodgson. He got him down and was kicking him by the hair of the head and dragging him by the collar. Kent saw this and helped him. This Kent did after consulting with the two plasterers. He pulled Collins off of Hodgson and Collins attacked him very savagely. Then a man named Kennedy, came running into the lot, shouting "Kill him, kill him," and he was killed by Kent. He lived long enough to say that he had a gun, and that he was a plasterer. He was killed by Kent, and his body was found in a ditch.

THE IMPERIAL BUDGET.

Mr. Gladstone's Statement in the House of Commons.—Proposed Reduction of the National Debt. In the House of Commons Mr. Gladstone rose at 5.25 o'clock to make his budget statement and was loudly cheered. He said the gross revenue for the year ending on 31st March 1881, was £24,041,000, showing an increase of £1,341,000 over the estimate, and a total increase from taxation of £378,000. Mr. Gladstone proposed to reduce the duty on foreign beer about a shilling and a penny, and also to augment the duty on imported spiced beer. He said the expenditure last year was £23,810,000, or £714,000 less than the estimate, and £2,544,000 over the estimate. He proposed to reduce the duty on foreign beer about a shilling and a penny, and also to augment the duty on imported spiced beer.

INSTALLING A PASTOR.

The installation of the Rev. Mr. McCreary as pastor of the Wesleyan Congregational Church. The Rev. A. F. McCreary, B. A., late of London, was installed as pastor of the Wesleyan Congregational Church on Monday evening last. The church was filled, and the platform was occupied by a number of clergymen of all denominations, among them the Rev. Messrs. Fox, of Zion, Church, Warren, of Yorkville; Barton, of the Northern Congregational Church; Dr. Wild, of Bond Street; Parsons, of Knox Church, Presbyterians; Cade, of Queen Street Primitive Methodist, and one or two others. The Rev. Mr. McCreary, a brother of the late president, and towards the close of the meeting read letters of regret from Dr. L. Antill and Rev. Messrs. McLeod, Salmon, Hunt, and Watson.

HOWICK.

The three census enumerators for Howick are: Messrs. Robt. Maiboo, Joe. Dewar, and Thos. K. Beatty. Gorrie agitated for a salt well and then subsided; Wroxteter, in much less time, organized a company and sold \$1,500 worth of stock.

PALMERSTON.

FATAL ACCIDENT.—Early on Monday morning week a child belonging to Robt. Corrigan, G. W. R., was severely scalded by pulling over a tea pot, the contents of which fell on the whole front of the child's chest and arms, causing the little sufferer great pain. Medical assistance was immediately procured, and towards evening the child died. The child was but seven months old.

LOGAN.

As Mrs. Cleaver, of Moncton, was returning from Grandfather, where she had been on business, on Tuesday afternoon she was relieved of \$212 cash and a draft on the bank for a considerable amount, by some person or persons on the train between Mitchell and Moncton, in discovering her loss she immediately stopped payment of draft, and returned to Stratford to institute a search for the missing money. As yet she has met with no success.

CARTHAGE.

Fire.—At an early hour on Monday morning the residence of Mr. Moore, the general proprietor of the Carthage mills, was discovered to be on fire. The firemen turned out with their usual promptness, and succeeded in checking the progress of the devouring element before much damage had been done. The origin of the fire is, as usual, to a defective stove-pipe.

PERSONAL.

Mr. John Allen, who has been on a tour through the United States during the past winter, has probably lost, six miles this side of Greenwald. The people have been removed to this place, and no lives were

lost there, but the village is completely washed away. It is reported that the place has been postponed till the 22nd inst., owing to the unit condition of the roads.

STRATFORD.

The Government architect will shortly pay Stratford a visit to report on the suitability of the site offered by the Town Council for the new Post Office and Custom House.

Early Wednesday morning the store of John R. Williamson, situated on the main street of the city (in embryo) was broken into by a party of burglars. The store was broken into by a party of burglars. The store was broken into by a party of burglars.

WALLACE.

The municipal Council of the Township of Wallace, met pursuant to adjournment, at Gowansville, 25th inst. All the members present. The report of the committee on the petition of the residents of Wallace, relative to the proposed railway, was read and confirmed. The committee on the petition of the residents of Wallace, relative to the proposed railway, was read and confirmed.

ENTERPRISE.

The Ontario Government has appointed J. H. McHenry, Esq., a Justice of the Peace, to fill the vacancy created by the death of Mr. John Kastner, at Sebringville. The Ontario Government has appointed J. H. McHenry, Esq., a Justice of the Peace, to fill the vacancy created by the death of Mr. John Kastner, at Sebringville.

LAUCHLIN KENNEDY.

Lauchlin Kennedy, of the 7th company of the 10th Regiment, was killed in his bush on Thursday afternoon, was killed in his bush on Thursday afternoon, was killed in his bush on Thursday afternoon.

The Dryden horse and cattle fair will be held on Tuesday, 19th April. This week's Ontario Gazette elevates Ridgeway to the dignity of a town.

THE CROWN PRINCE RUDOLPH OF AUSTRIA.

The Crown Prince Rudolph of Austria and the Princess Stephanie of Belgium are to be married on the 10th of May. The Crown Prince Rudolph of Austria and the Princess Stephanie of Belgium are to be married on the 10th of May.

The Queen's Plate is to be run next Dominion Day on the Woodbine Park, Toronto, under the auspices of the Ontario Jockey Club.

STAR IN THE INDIAN SKY.

When the thunder comes down it appears to all—a clear and all, and even after it has subsided we see, or think we see, a trail of glory in the sky. In the moral firmament there are sometimes seen, or thought to be seen, stars of glory and splendour; and these are the souls of the just, who have departed this life in a state of grace.

LISTWELL STANDARD.

FRIDAY, APRIL 8, 1881.

TOWN AND COUNTRY.

J. G. Tremaine sells coffee for 25c per lb. Don't forget to call and see W. J. Stewart's...

Places of business will be closed on Friday next, it being Good Friday.

Bring your Butter and Eggs to Tremaine's...

A large and varied stock of Canned Goods, &c. W. J. Stewart & Co.

Don't despair about the weather; Vendor says that spring will set in immediately.

W. J. Stewart's First-class Coat, Vest and Pants made immediately. Liberal wages.

W. J. Stewart gives his white sugar for \$1 1/4 the good tea for \$1. Good Spring Tea for 40c.

The Elma Agr. Society's spring show of stallions and bulls was held at Newry on Wednesday.

Chamber sets in abundance, at prices to suit the times, at W. J. Stewart & Co.

Get your Glassware and Crockery at Tremaine's. Large stock of all descriptions on hand.

Reduced railway fares will be in force during the Easter holidays, from the 13th to the 19th inclusive.

D. W. Palmer & Co. are sole agents in town for Carling's Milwaukee Lager. Holes supplied as usual.

People ask why W. J. Stewart sells so cheap. The answer is this: he sells for cash and the nimble sixpence is better than the slow shilling.

A HANDBOOK set of chandeliers have been ordered for lighting the town hall and Council chamber with gas.

When you want good Oatmeal, Cornmeal, or anything else, go to F. G. Tremaine's, Wallace Street. He keeps Flour and Feed of all kinds.

It is astonishing how few unmarried ladies are over 25 years of age—at least in the census returns.

Don't forget the Toronto Tea Store when in town, for Cheap Tea; good value for the money.

JAMES SPENCE, for many years postmaster at Etcho, died last week. He was upwards of sixty years of age.

In Crockery and Glassware, W. J. Stewart invites inspection. The finest Tea Sets in town from \$2.50 to \$10.00.

HOWARD CARTER'S church choir concert troupe give an entertainment in the Osborne hall on Monday evening next.

Butter, Eggs, Dried Meat, Apples and Potatoes taken in exchange for groceries at W. J. Stewart & Co.

Choice sugar cured Hams and speck sold at Tremaine's. No alfalfa feed; also pure Leaf Lard.

The skating rink was reopened this week, the ice being in good condition. Holders of season tickets, however, are not guaranteed ice after the 24th of May.

D. W. Palmer & Co. have secured clearance of the best brands of imported Wines and Liquors for medicinal purposes.

From 3 to 4 cents were paid for ordinary stock at the cattle fair on Friday last. The fair was well attended, and a number of sales were effected at these figures.

MONEY SAVER.—The clearing sale of boots and shoes in F. G. Tremaine's store will continue on Thursday next. In order to save the trouble of carrying, all the bargains will be given. Call at once.

D. W. Palmer & Co. have the cheapest assortment of milk cans and flower pots ever offered in Listwell.

Fair day was a "bonanza" for our business men. So great was the rush that some of our clerks were obliged to be quite impossible to wait upon all their customers.

Price Apples in large quantities at 6c per lb. and \$1.25 per bushel at Tremaine's Store. Call soon.

Come along, give W. J. Stewart a call, and be convinced that he does not blow in the paper and then back down. When you come to do as he says.

The Western Association of Congregational ministers held their annual convention in the Congregational Church in this town on Tuesday and Wednesday evenings of the present week.

D. W. Palmer & Co. keep constantly on hand the largest and best selected stock of the choicest Liquors, Wines, &c., in town.

This "Canadian Monthly" for April contains a number of papers on various topics of interest, and other literary matter calculated to enhance the reputation of this excellent Canadian Magazine.

Go to J. G. Tremaine's. Wallace Street for Tea. His 2c tea is the best in town, and his 4c tea is the best in the province.

"KISMET."—The Ladies' Aid of the C. M. church wish to announce to ticket holders and the public that Miss Georgia Sutton will give her lecture on "Kismet," in the Osborne hall on Thursday evening, April 14th.

China, Crockery, Glassware and lamps at reduced prices, at Tremaine's Store.

In the suits Symmons vs. Livingstone & Strickland last week, action was brought to recover extra freightage on a shipment of tow from Listwell to Frankfort, New Hampshire. Judgment was reserved.

Don't forget the place next door to Roy McDonald & Co., where you will always find J. Stewart with full stock of groceries, and always obliging.

At the late quarterly meeting of the Standing Committee of the Congregational Church in London last week, the late Rev. H. Bartlett's child was placed on the orphan's list, by which he will be entitled to a pension from the Widows' and Orphans' Fund.

D. W. Palmer & Co. of the Toronto Tea Store are giving 11 pounds of brown sugar for the dollar, in all lots, and 8 of granulated. Give us a call.

A few more days and there will have been five months' winter. The first snow fell on the 14th November last, and it has been a "stayer" ever since. There were about four months of good sleighing—an unusual occurrence in our most protracted winters.

D. W. Palmer & Co. keep in stock the latest Tea in town, and they are to be tried. Try it and be convinced.

TORONTO.—Messrs. I. Kay and P. Love have purchased H. Knight's barber shop. The new firm are prepared to wait upon the public, promising a decided improvement in the appearance of each individual caput that is submitted to their hands and shears.

LAST BOXING.—On Saturday evening last Miss Chamney, daughter of Mr. Thos. Chamney, of Wallace, had the misfortune to fall down the steps leading from the chair room in Heston's factory, fracturing her arm by the concussion. We understand that the injured lady is progressing favorably.

The agricultural implement agent and vendor of native nostrums took advantage of the large gathering on Friday to advertise their wares. About all the leading implement manufacturers in the country were represented, and the opportunity was lost by the invertebrate agents to point out the merits of their respective machines.

HOMES.—Meyer, horse buyer, of Berlin, shipped this week from here thirty-two horses. He is purchasing for the American market. Messrs. Hay & Kidd are also doing a large business this season in horse buying. Good animals fetch good prices, and a heavy drain is consequently being made on the best horses in the neighborhood. It is just possible that farmers may be found ready to part with their horses, even though tempting prices are offered. The probable inconvenience of having to depend upon an inferior class of stock is worthy of consideration.

TARRED AND FEATHERED.—A correspondent of the Barrier Gazette states that when Richard Davis, the organizer of glass companies, visited Penatanguishene a few days ago he was tarred and feathered. They do things differently in Listwell. Instead of presenting the glass man with a coat of tar and feathers, our worthy Mayor loans him an overcoat and assists his passage out of town with an X.

PUBLIC SCHOOL BOARD.—The Board met on Tuesday evening in the Council Chamber. Present, Messrs. Bradley, chairman, Sutherland, Newman, and Terhune. Account of A. D. Freeman, assessor for 1880, was ordered to be paid. Report of Principal of attendance during the past month laid on the table and filed. The Board resolved to advertise for 15 school tenders for the use of the school, tenders to be opened on the 20th inst. On motion, the account of A. B. McCullum, B. A. for contract for the entrance examination to High School in December last was ordered to be paid, less half the amount, received from applicants. Board adjourned.

Result of an examination held in the Senior Department of the Listwell Public School on Friday last; maximum 220, Maggie Reid 220, A. Pook 220, A. McGee 210, C. Green 210, J. Reid 210, C. Walton 210, D. Draper 210, E. Welch 210, J. C. Smith 210, H. G. Smith 210, W. C. McClintock 210, M. Gamble 210, L. Weir 210, C. T. Pitt 210, M. Sutherland 210, W. H. Hest 210, M. G. Green 210, J. L. Lillio 188, M. McDowell 184, R. Kells 175, J. Bogues 166, B. Large 154, W. Thompson 59.

THE ILLUSTRATED SCIENTIFIC NEWS.—The April number of this interesting and popular magazine is just out. Among the various subjects illustrated in this number is an engraving of the late Emperor of Russia's steam yacht, "Lydia," a series of views illustrating wood working attachments for lathe lathes; Prof. Secchi's solar photographic apparatus, with six distinct views of the sun taken by this instrument; engravings of the boats and apparatus used on Lake Geneva for determining the velocity of sound in water; a new machine for decorating enameled surfaces; engravings of several curious animals and objects in natural history; and an elaborately illustrated article on Bee culture. Every number contains thirty-two pages, full of engravings of novelties in science and the arts. Published by Munro & Co., 37 Park Row, New York, at \$1.50 a year, and sold by all new dealers.

VENUS'S APRIL WEATHER.—Mr. Venno predicts as follows for the month of April: There will be sharp frost in the morning, but with snow fall on the 14th or 15th; but the spring will open favorable, and everything will be pretty well advanced by April 15. Floods may be expected in Chicago about the first week in April, with high winds also prevailing in the early part of the month. Snow falls are probable about April 5. Navigation is likely to open on Lakes Ontario about April 7. The St. Lawrence will be open about the 9th or 11th, and the first steamship will probably arrive about the 12th inst. The weather will be very stormy in the Lower Provinces about the 20th, with very high waters prevailing, but by the 24th it will be a dry month. There will be warm weather following the 20th, ending in thunderstorms on the 24th and 25th. Navigation is likely to open in each year on the 25th and 26th, and snow falls are not unlikely to occur in England at the close of the month. The month will end like a May month.

UNDEVELOPMENT.—On Wednesday, Mr. J. B. King, Grand Secretary of the Grand Lodge of Ontario, L. O. O. F., visited Listwell for the purpose of instructing the subordinate lodges of this district in the secret work of the Order, which was materially changed at the last meeting of the Sovereign Grand Lodge. Between fifty and sixty delegates were present from Stratford, Kincardine, Palmerston and intermediate points, besides a large number of delegates from the Listwell lodges. Sessions were held in the afternoon and evening, the latter being especially well attended. We understand that the business of instruction was conducted in a very satisfactory manner, all the brethren present being familiarized with the recent changes. Considerable time was spent in the evening in discussing the Grand Secretary's labours not being brought to a close until the night had been far spent. A delightful adjournment was made for a short time in order to entertain Grand Secretary King and the visiting brethren with supper provided by mine host of the Commercial Hotel.

SPRING SHOW.—The spring exhibition of the Elma & Wallace Agricultural Society was held in the Agricultural grounds on Friday last, and was attended by an unusual number of farmers and others. The quality of the stock exhibited was in several of the classes superior to that of former years, and the number of stallions had a reluctance to show their animals until they are in their best condition, consequently early spring fairs frequently fail to obtain their presence. As the seed grain exhibition had been abandoned this year, a later date might have been chosen, when a better show of stock would no doubt have taken place. Apart from the somewhat limited number of entries in some of the classes, the exhibition of horseflesh was very creditable. In heavy draughts, McKenrick's "Young Sovereign" taking first prize, "Honest Jimmie," carried off first prize; "Black Douglas," owned by E. Henry, McKenrick, was awarded second; "Henry" obtained first on "Duke of Argyle," for horses under 4 years; second, "Young Ontario," owned by David Smart, of London, Ontario. In harness, "The Salletter," owned by John Mackan, Monkton, captured the red ticket, Conrad George's "Young Sovereign" taking second. In carriage and roadsters, "Champion," owned by W. Poveley, Glenoraud, took first; second, taken by Chestnut, owned by Thos. Salletter, Wallace. Hicks' "Baron Rothschild" was the only entry in the blood class. There was a very good exhibition of Durham bulls, indicating that the farmers in this neighborhood are becoming alive to the advantage of raising improved stock. The prizes were awarded as follows: Age of Bulls, first, "Earl Archie," from the Bow Park herd, owned by A. Aitchison, Mornington; second, "Pioneer," owned by John S. Nichol, Wallace. Two-year-olds, first, "Dr. Livingstone," owned by George Cleland, Elma; second, "Young Baron South," owned by Alex. Wallace, Wallace. Yearlings, first by D. H. Day; second by John Alexander, Elma. John Inglis, Elma, was awarded a prize on a yearling grade, "Duke of Wellington." The judges were Messrs. John McMillan, Seaford; J. W. Johnston, Minico, and John Carruthers, Wallace.

AN OPEN LETTER.—To the Reader.—Dear Sir.—I would be very glad to get your measure for a suit of clothes. I do a large trade in this line, and I have a good stock of all the latest fashions. I will be glad to send you a good suit of clothes for your money. Please give me a call when you require clothing, or anything else in General Dry Goods, Groceries, &c., and everything in my power will be done to make the deal pleasant and satisfactory. Give me a call, and in the meantime, I am, Yours respectfully, JOHN RIGGS.

THE LATEST PATENT.—The latest patent for a new kind of steam engine, which is said to be the most powerful and economical ever invented, is now being manufactured in Listwell. It is a great improvement on the ordinary steam engine, and is well adapted for use in factories, mills, and other places where a large amount of power is required. It is a very simple and durable machine, and is well adapted for use in all climates. It is a great boon to the manufacturing industry, and is well adapted for use in all parts of the world. It is a very valuable addition to the list of inventions, and is well adapted for use in all parts of the world. It is a very valuable addition to the list of inventions, and is well adapted for use in all parts of the world.

Listwell cows no doubt feel like tendering the town fathers a vote of thanks for granting them the freedom of the town during the day time. Should any recalcitrant boy be found prolonging its work of pruning shade trees, and gathering in the tender cabbage, etc., beyond the prescribed hour, it may expect to have the constable after it with a copy of the consolidated by-laws of the town—latest edition—in which event 'twere better for said boy that in days long past he had been put under the millstone.

Town Council.—The regular monthly meeting of the Listwell Town Council was held on Monday evening, 4th inst. The Mayor, in the chair, the Reeve, Deputy Reeve, and Councilors Scott, Deavitt, Woods, Hest, Gille, Fennell, McMillan, and Ferguson. The minutes of the previous meeting were read and confirmed. An application was read from J. A. Armstrong, of south side, from intersection of Dodd St., the petitioner offering to pay half the cost—referred to and Bridge Committee. J. G. Alexander applied for refund of dog tax referred to Finance Committee. A communication was read from Mr. D. D. Hay, in reference to part of his farm being placed on assessment roll as a separate lot—referred to Finance Committee. A number of accounts were read and referred to Finance Committee. The Chief of the Fire Department made a statement to the Council of the management of the Brigade funds during the past year. The Committee on Fire, Gas and Public Buildings reported, recommending the purchase of a six-light chandelier for the Council Chamber; a twelve-light chandelier for the hall, and small chandeliers for lighting the engine room and entrance to the hall, the cost of same to be \$62. On motion the report was adopted, and the committee were instructed to procure the chandeliers named in the report. The Chairman of the Relief Committee reported that the Committee had undertaken to assist an indigent person to his friends, and that there were no cases of relief under the charge of the Committee at present. It was arranged that S. Deavitt moved, seconded by J. W. Scott, that the report in regard to the payment of moneys by the Chief of the Fire Company be received as satisfactory—carried. The Committee on Parks and Shade Trees reported that they had met the Directors of the Elma and Wallace Agricultural Society in reference to obtaining the use of the agricultural grounds for a park. The Committee found the Agricultural Society unprepared to consider the matter; it was arranged to meet the Society again on Saturday, 10th inst. J. A. Hacking moved, seconded by A. McDonald, that the parks and shade trees committee be instructed to report at next meeting of the Council, of the advisability of making a public park of the old school ground, and of cost of removing buildings and fencing ground; and also to meet the Agricultural Society with reference to making a public park of the agricultural grounds, and to report on any other matter as they might be thought advisable—carried. D. B. Dingman moved, seconded by A. McDonald, that this Council allow Messrs. S. G. Gillingham & Sons two rooms of the old school building for storing produce during the coming two months, provided proper care is taken by them of the building and premises, at such rental or other arrangement as may be made with the proper standing committee—carried. By law No. 73 to amend By-law No. 63, was read three times and passed, the amending By-law allowing cows to run at large from 10 a. m. to 7 p. m. from 1st April to 1st December in each year. L. Woods moved, seconded by John Binning, that all sidewalks adopted by last year's Council shall be built as soon as possible—carried on division. A. S. Deavitt moved, seconded by F. E. Gibbs, that the Chairman of the Board of Works be instructed to ask for tenders for the building of all sidewalks built this year—carried. John Binning moved, seconded by J. W. Scott, that the By-laws of the town, now laid before the Council by Mr. Ferguson, be accepted—carried. Council adjourned.

BIRTHS.

McNair—In Malvern, on the 7th inst. the wife of Mr. James McNair, of a daughter.

McIntosh—In Wallace, on the 2nd inst. the wife of Mr. G. McIntosh, of a son.

IN REWEAVED WORK we defy competition. We have a large stock of all the latest styles in all classes of Boots & Shoes. Excellent assortment of Men's, Boys', Ladies', Misses and Children's Wear

NOTICE TO CREDITORS

JOHN KELL, DECEASED.

Parson to the Revised Statute Ontario, Chapter 10, Section 34, the creditors of John Kell, late of the township of Elma, in the County of North York, deceased, who died on or about the Fourth day of December, 1879, are hereby notified that the said John Kell, deceased, has left a certain amount of money, to-wit: \$500, which he has deposited in the hands of J. A. Armstrong, of Listwell, P. O., Ontario, the executor of the said John Kell, deceased, and that he will pay to any creditor of the said John Kell, deceased, a statement of his accounts, and a discharge of the same, if any party entitled thereto, having a regard only to the nature of the securities (if any) held by the said John Kell, deceased, and the claims of which they have notice, and that they will not be liable for the same, or any part thereof, so distributed, in any such manner as they may see fit, until they have notice of the time of such distribution.

Dated 1st April, A. D. 1881.

J. B. DINGMAN, Solicitor for Executor
