MIRAMICHI IS TO BE BOOSTED

At a meeting of the Chatham Board of Trade held in the Town Hall recently it was decided to take the steps necessary to bring tourists to the Miramichi during the coming summer.

A booklet on the attractions of the Miramichi will be issued and distributed throughout the Maritime Provinces and the New England states. Suitable signs are to be placed at the various roads leading into the town. The matter of a camping site has not yet been decided on. The board is also actively interested itself in the matter of the proposed electric car on the Newcastle—Chatham branch line.

CHIEF JUSTICE WANTS EXPLANATION

Montreal April 20—Chief Justice Martin has written to the Minister of Justice Hon. Ernest LaPointe regarding the action taken by Hon. E. J. McMurray, Solicitor General in remitting the penalty of the lash in the case of Raoul Beau camp; bank robber who was recently sentenced by Judge Monet to serve 25 years in the penitentiary together with 20 strokes of the lash. The Chief Justice in his letter points out that public feeling has been deeply stirred by the action of the Solicitor General in this case in view of the banditry prevalent in Montreal and asks the Minister of Justice to favor him with an explanation of Mr. McMurray's action.

FORMER NEWCASTLE MAN DISAPPEARS FROM HOME IN MONCTON

Mr. James McAfferty of Moncton and formerly of Newcastle left his home on Sunday evening and there has been no trace of his whereabouts since that time. In consequence fear has arisen that he has met with either an accident or foul play. For over a year the missing man has been suffering from a nervous disorder but has been able to perform his work and his present absence from home is of a longer duration than on any previous occasion without notifying his wife.

The missing man has four children three daughters and one son; the eldest a daughter only 11 years of age.

Mr. McAfferty is a short, stout man of medium complexion; about 37 years of age; a returned soldier and when he left his home was wearing a brown mackinaw, grey felt hat and blue trousers. The police have been notified but up to the time of going to press no clue to the missing man's whereabouts had been ascertained.

Bridge in London!

There's one form of recreation which the English share with us and, in spite of Foster, often are able to give us pointers: Auction Bridge.

As evidence of the grip of the game over there, an order for Moir's Chocolates has just come in from the Holborn Restaurant, London. Two-fifths of the order was for the Bridge Box, each package containing, of course, a pound of chocolates, a pack of playing cards, and a pad of Bridge score.

The Bridge Box is similarly from coast to coast in Canada.

WHO OWNS CANADA'S FORESTS?

The forests of Canada are owned by the people to the extent of eighty five per cent. It is true that the timber cutting rights on a portion of the forests are leased to companies thereby providing 125,000 men with steady and well paid jobs; but the ownership remains in the name of the Canadian people. This is in happy contrast to conditions in the United States where three-fourths of the forest area is privately owned. The people of Canada not only gain about twelve million dollars a year for their public treasuries from taxes on the cutting rights but what is even more important they have ample power to ensure that timber cops shall be made the inheritance of future generations; in other words the Canadian people by retaining the title to the greater part of forest area have assumed a solemn responsibility for passing on the "capital stock" of the Forest Estate to our great grandchildren in unimpaired condition.

Now we come to a little understood fact. The forests are being deter-

Crimean Veteran Praises "Fruit-a-tives"

MAJOR GEO. WALKER
Major George Walker, now a familiar figure in Chatham, Ontario, is one of the men who went through the terrible Indian Mutiny. As he says: "I am a veteran of the Crimean War and the Indian Mutiny, serving under Lord Roberts. Fierce hand-to-hand fighting and continual exposure left me a great sufferer from Rheumatism, so much so that my legs swelled up, making it impossible for me to walk. My bowels were so constipated that I was in terrible shape until I began to use 'Fruit-a-tives.' They relieved me both of the Rheumatism and the Constipation. Today, I enjoy perfect health—no more Rheumatism or Constipation." And in another letter, written December 1st, 1923 (eleven years after), Major Walker says: "Fruit-a-tives are keeping me in the best of health and I shall never be without them."

"Fruit-a-tives" are the famous Fruit Treatment—intensified fruit juices combined with tonics—that make you well and keep you well. 25c and 50c—at all dealers or from Fruit-a-tives, Limited, Ottawa, Ont.

olated not by use but by abuse. In the last hundred years 600,000 square miles have been burned up recklessness as compared to 100,000 square miles cleared by the axe. Of last year's forest fires numbering 6,000 about 5,000 were caused by careless people. Not the axe but the unextinguished camp fire; the match and cigarette are devastating the forests and robbing the next generation of badly needed timber. Forest conservation starts with those who use the forest for work or play. There will be no such thing as forest protection until the Canadian citizen regards the burning of a forest as infinitely more disgraceful than setting fire to his town hall.

WESTERN CATTLE IN EUROPE

Demand From United Kingdom Constant Since Lifting of Embargo, Says Col. Mullins.

Montreal.—Sounding a note of the strongest possible faith in, and optimism for, the future of the agriculturalist in Western Canada, Colonel H. A. Mullins, prominent rancher of Pepler Point, Manitoba, who arrived in Montreal on Sunday, submitted to an interview yesterday.

"The situation on the prairie is rapidly improving," the Colonel declared, "and the Westerner is taking courage. Moreover, many of those who in recent years left the farm are returning. I consider the tide in Western Canada is beginning to turn strongly from the city to the farm once more. The three prairie provinces especially have a tremendous future, and, if due consideration is given to their particular needs, the realization of that future cannot be long deferred."

Asked to mention some of the influences which, in his opinion, would tend to hasten the Golden Age for Western Canada the Colonel enthusiastically pleaded first for a better understanding between East and West.

"The Western farmer can also do a great deal to help himself," the Colonel added. "I consistently advocate that all farmers out there should go in for raising livestock as well as other stuff, especially for raising high-grade stock and that those now in that game should stick to it. They should also stop crowding their shipments—and this applies not only to livestock but to other products, such as grain—into three months or so of the year. Then they won't find themselves forced to take low prices because of the rush, and things will be better for the country generally as well."

Despite many recent setbacks, there is, the Colonel is convinced, a world market for good Western cattle. The demand from the United Kingdom, he says, has been constant and heavy since the lifting of the embargo, though it has been affected adversely by the recent closing of Liverpool, Glasgow and some other ports on account of the outbreak of foot and mouth disease.

Colonel Mullins is in an excellent position to speak with authority on the cattle situation, for he has been shipping cattle overseas steadily and intends to continue. Recently he shipped 148 head from Winnipeg to Montreal. The train, supplemented by cars containing 100 additional head from Toronto, left the Western city at 10 p.m. on Wednesday via Canadian Pacific and arrived at the stock yards here on Sunday morning. The Colonel following them up by a passenger train which left Winnipeg on Thursday night. The shipment is bound for Dundee via St. John, N.B. The Colonel paid a warm tribute to the Company for the manner in which it had handled his consignment. "The shrinkage in weight was unusually light," he stated, "and not only did they make up this loss of weight in a few hours in the Canadian Pacific yards here, but they are already heavier than they were in Winnipeg. This experience, and my inspection of these yards, has convinced me that ranchers may ship their cattle via Canadian Pacific with confidence that they will be splendidly and rapidly handled."

Stolen Eggs and the Silk Trade

Above—Reeling silk in the Flowery Kingdom. Below—An Empress liner loading silk at Yokohama and a Canadian Pacific silk special passing through the Rockies.

Production of silk dates far into antiquity, and for ages the manner of its production was kept secret. Up to the sixth century A.D. all raw silk was imported into Europe from China, but the Byzantine Emperor Justinian induced two monks to travel into China to procure silk worm eggs and though the export of them was punishable by death, these monks succeeded in bringing back a quantity concealed in the hollows of their pilgrim staves.

From Byzantium, silk cultivation spread into Greece and Syria, thence into Spain, and thence successively into Sicily, Naples, Northern Italy and France, being established in Italy in the sixteenth century.

Various determined attempts have been made, principally between the years 1622 and 1839 to establish the silk industry in America, resulting at one time in a not inconsiderable production, but the excessive cost of the labor involved in the rearing of the worms and in the reeling of the raw silk from the cocoons as compared with the trifling cost of such labor in Europe and Asia, has rendered it impossible to produce raw silk at commercial prices on this continent.

Most of the silk imported to America comes from Japan, Italy and China where, also, the humidity of the atmosphere contributes so little to the success of the industry in those countries. The greatest importation is from the Flowery Kingdom, and this mostly in the raw-silk form as it is reeled from the cocoons.

Silk is valuable. In one consignment of a few hundred bales, hundreds of thousands of dollars are tied up, and for this reason, that no time may be lost in making up the raw material and placing the finished goods upon the market, the product of the little silk

worm is given transportation facilities which few other commodities enjoy. The bales of skeins are stowed carefully in the vessels which transport them across the Pacific, and in such a manner that they can be speedily and safely discharged upon arrival at the Canadian or American port. No time is lost. Special trains made up of passenger baggage equipment await the arrival of the vessel if it docks at Vancouver as do the Empress liners of the Canadian Pacific, and once the valuable cargo has been sealed into the cars the train proceeds towards its destination, often making better time than the regular passenger trains.

For the reason that the route is more direct, many silk dealers in New York, where much of the silk is destined, consign their shipments via Canada and during the past few months many interesting time records have been made over Canadian Pacific lines.

On March 22nd, the "Empress of Asia" sailed from Yokohama carrying the largest consignment of silk to be forwarded from the Orient for some time. The silk was specially stowed for prompt discharge on arrival at Vancouver, and from the time the steamer docked, until the special train to New York left, there was a lapse of time of only thirteen and one-half minutes per car.

The silk was delivered in New York about midnight April 4th, the through time from Yokohama to New York being 13 days, 8 hours, and 13 minutes, calendar time. This constituted a record run as far as freight traffic is concerned, but passenger traffic is handled as readily by this company, a 21 day Europe to Orient service via St. John, N.B., or the St. Lawrence route being regularly maintained.

House Burned At Whitneyville

The residence of Albert Whitney at Whitneyville was destroyed by fire at an early hour Tuesday morning Monday night about 11 o'clock a blaze was discovered behind the kitchen stove in the walls but this was extinguished. The flames however had reached the attic and it was impossible to subdue them. Practically everything was destroyed but a few chairs. The loss is estimated at about \$3000 with \$3000 insurance.

Mrs. Peter A. Palmer, Saltburn, Sask., writes: "Dr. Chase's Ointment has completely relieved me of eczema and piles. I also used this Ointment for my baby, who broke out in eczema. A few applications were all that was necessary in her case. Dr. Chase's Ointment has been worth a hundred dollars to me—before using it I had spent a great deal more than that in unsuccessful treatment from doctors. We have also used Dr. Chase's other medicines, the Nerve Food having restored my health after suffering from severe nerve trouble when a girl."

PRIVILEGE OF CITIZENSHIP

The number of votes cast in the civic elections last Tuesday indicates that very little interest is being taken in the affairs of the community. This state of affairs is not a very encouraging sign. Of course, we realize that the reason for such a small vote is because of the large number whose taxes are unpaid, but these taxes should be paid, and then a much better expression of public opinion would be the result on election day. When we arrive at the point where all or nearly all the electors will express an opinion, there is little doubt but that a distinct improvement in the town and its government will take place.

We have at times heard considerable opposition to the principle that no citizen should cast a ballot before they had paid their taxes. If it were otherwise and any man who had no stake in the town, who contributed nothing toward the maintenance of our public services or the interest on our obligations, could have the same privilege of voting as those who pay their taxes, we could not possibly have the same results. There must be some basis of citizenship beyond the mere fact that a man lives within the corporation limits, and we certainly would not get very far if we did not have some means whereby an interest in civic affairs would be encouraged.

We know of many people, who cherish their franchise privilege and think so much of casting their ballot that they make an effort to pay their taxes and keep square with their civic obligations. If everyone on the list would do likewise, there might be different results on polling day, but the results would be the majority opinion of those who had a right to expression by their ballots and whose financial interest in the welfare of the community is unquestioned. The New Town Council should give serious consideration to this matter and immediate steps should be taken by it to have our large Default Tax List cleaned up as speedily as possible. The town needs the money due it, —the electors need their franchise and the sooner the arrearages are paid up, the sooner will our town become in a healthier condition financially, and the sooner will those, who at present are deprived, be given the opportunity of exercising the privileges of citizenship.

THE NEWCASTLE MARKET
At their meeting on Monday, March 20th last year's Town Council considered the establishment of a market in town and a committee composed of Ald. Russell, Crocker

and Morris was appointed to look into the question and report at a later meeting. This is a forward step and worthy of the consideration of all citizens. Much smaller towns than our own have a market place and it has proved a decided success to both farmer, merchant and consumer. No doubt the committee appointed will look into the matter thoroughly before making their report and we feel satisfied that when completed it will be a favorable one.

We have an eye-sore in town which in our opinion would make an admirable site for a local market place. The property we refer to is the slip between the Public Wharf and the Park wharf. This site is a most central one being on the square and easy of access from all roads leading into town and by water as well. As this property stands at present it is not only an eye-sore but it is practically of no use whatever. Considerable money has been expended by the Federal Government at various intervals in dredging this slip but it is continually filling up and very seldom ever used so that it is a needless expenditure of money where as if the property was filled in some good use might be made of it.

If a good solid concrete or rip-rap front was built connecting the two wharves mentioned the matter of filling in would practically cost nothing as it could be used for the dumping of refuse accumulated within the town and in a very short time the entire slip would be filled in and ready for the erection of market stalls.

In this way the town would become possessed of a valuable piece of property at very little expense which at present is worthless. We commend the matter to the committee appointed by the late town Council for their consideration.

Well Protected For Advances to Bank Nationale

Quebec April 20—"There is no comparison between the affairs of the Home Bank and the misfortunes of the Banque Nationale" stated Hon. George Ellis Amyot, President of the latter and a director of the Banque d'Hochelega; when asked what he had to say regarding statements made by Sir Henry Drayton before the Home Bank investigation committee in Ottawa. "The Home Bank as far as I see was emptied while the Banque Nationale tried to do all it could to meet the situation" he added. "It is not fair comparison when Sir Henry Drayton commenting on the Home Bank situation refers to the advances made to the Banque Nationale in 1921 he is correct as far as the figures are concerned. For what the Banque Nationale got it had to give a good margin of guarantee; over 20 per cent above the \$8,200,000 advanced. Sir Henry could have added however if questioned that in the spring of 1923 the advances made were so well protected that the Federal treasury had been fully reimbursed." Mr. Amyot has just returned from the Southern States.

MARIE CORELLI DIED YESTERDAY

Stratford-upon-Avon, April 21 Marie Corelli, English novelist and author of a score of popular romantic tales died this morning from heart trouble at her home here. She had been ailing for some weeks but was apparently recovering when the fatal seizure occurred.

Born in 1864 the daughter of an Italian father and Scottish mother Corelli was adopted in infancy by Charles MacKay, journalist and song writer. She was educated in a French convent and much of her early training was with the idea that she should take up the musical profession but the penchant for writing prevailed being encouraged by the publication of a number of poems.

Her first book "A Romance of Two Worlds" was published in 1886 and was closely followed by "Thelma" and others. Her works which were mostly tinged with the melodramatic, enjoyed popularity and wide sale from the start. Her style was far from flawless and her literary lapses drew sarcastic reference from the reviewers but her reply to them was that no books of hers were sent to the press for criticism.

She was an opponent of woman suffrage declaring that the members of her sex were unfit to exercise the franchise.

FUNERAL OF LATE MRS. R. P. JOYCE

The funeral of the late Mrs. R.P. Joyce of Toronto was held Saturday afternoon from the residence of Mr. Allan J. Ritchie of Newcastle. The remains arrived on the Maritime Express Saturday morning accompanied by her two sons Richard and Welsey.

Mrs. Joyce was formerly a Miss Hocken of Chatham and was well and favorably known on the Miramichi. Her death was quite sudden although she had been in poor health during the winter. Archdeacon Forsythe officiated and interment was made in St. Paul's Cemetery.

Newspapers Are Hard Hit

The decrease in the number of newspapers in Canada continues from month to month. During the past year 47 weeklies, nearly one every week, ceased publication. Amalgamations have had something to do with the change, but the dullness of business is primarily responsible. Daily newspapers have decreased from 121 to 114, semi weeklies from 34 to 30, and weeklies from 1,022 to 975. On the other hand, a small increase has taken place during the year in the number of monthly and semi-monthly periodicals. There are in Canada at the present time 1,499 newspapers and periodicals, compared with 1,553 a year ago.

CHATHAM WINS TAX APPEAL
The Appeal Division of the Supreme Court last week handed down judgments of importance in several cases. Chief Justice Sir Douglas Hazen; Mr. Justice White and Mr. Justice Grimmer were the court and the various members read judgments.
In the case of the King vs. Finley ex parte Miramichi Lumber Co. the rule was refused with costs. This case concerned assessment of the Miramichi Lumber Co. on personal property in the town of Chatham. The Company appealed against assessment. The judgment is a victory for the town.
In the case of London Insurance Company appeal was dismissed with costs.

"A GREAT SIGH OF RELIEF"
Ottawa Legislators Are Highly Pleased at Result of Church Vote in Toronto
PROBABLE RESULT OF DIVISION IN HOUSE
Standard Correspondent Estimates Vote for Union, 86; Against Union, 148

Ottawa April 9—A great sigh of relief went up from the legislators at Ottawa when it became known that the Private Bills Committee of the Ontario Legislature had so amended the Church Union Bill as to give congregations the right to vote themselves out of the Union and retain their church property instead of being dragged into the Union first, and then left to gnaw their way out afterwards if they can. It is conceded that it is much easier to be bundled into the Union than it is to make an escape from it; being once in. The fact that possession is nine points of the law would be the obstacles in the path.

Definitely frees them from these anxieties the action of the Private Bills Committee of the Ontario Legislature definitely frees them and no doubt is made that the Standing Orders Committee of Parliament will not insist on punctilious technicalities but will expedite the progress of the Church Union Bill to the Private Bills Committee where an amendment similar to the Toronto one will be added.

Congregation the Unit
When the bill comes before the House of Commons in this amended form everybody will be free to vote for it without qualms and what is more important without danger of getting into trouble with his constituents. In fact there will be merit in it; for a vote for the amendment will be a vote for the rights of the individual—in this case the congregation is the unit which is the taproot of democracy. In another light a vote for the amendment is a vote for non-interference which in most cases is the safe and sane course for statesmen.

The Roman Catholic members of Parliament; hitherto hindered by a sense of delicacy from taking part in discussion of other people's religion will be able to vote for such a salutary doctrine as non-interference almost en masse. Up to the time the Toronto amendment was broached they talked of either not voting at all or dividing fifty-fifty to show that there was no prejudice.

Constitution of the House
The House consists of 76 Presbyterians; 75 Roman Catholics; 35 Methodists; 35 Anglicans; 3 Congregationalists; 6 Baptists and a smattering of other denominations. Without venturing on anything in the nature of a prediction—it is not improbable that of the 76 Presbyterians thirty will vote for the Union; said thirty being from the Prairie Provinces where Church Union is already "a fait accompli." All the lay Presbyterians in the House east of Lake Superior seem to be solidly set against sacrificing their fine old Presbyterian identity. There is a tinge of hauteur in their attitude toward their Methodist wooers who—so they say—are satisfied with a clergy only indifferently educated. The Presbyterian mind is a Scotch mind with a Scotch hunger for logic only slightly tinged with emotion; and they ask that their spiritual directors will be well grounded in metaphysics and the humanities. The Methodist, it is alleged, is content with a great deal less.
Vets for non-interference.

THE EASTER SEASON

The Easter season brings to us the message of life. It is this that we must keep in mind in connection with this day of days. "I am come that they might have life; and that they might have it more abundantly." We must beware how ever lest we place a far too limited interpretation upon that word of such profound significance. There is in Easter the message of life beyond the grave. But that is simply; when rightly understood a corollary of life today. The marvel is not that we should live tomorrow but that we should live at all. Un fortunately there are many who do not grasp the full scope of life. To all men Christ comes with the gift divine to lift them out of mere existence into an abundant life.

LOAN OF C. P. RAILWAY OVER SUBSCRIBED

The Canadian Pacific twelve million dollar five per cent loan offered to the Canadian public was over-subscribed before the end of the day, and the lists were closed at 4 P. M. The National City Company, Ltd., Syndicate managers announced that interest in the loan was nationwide and that subscriptions had been received from every section of the country.

The result of the loan was a reassuring indication of the soundness of basic conditions throughout the country as well as an evidence of the confidence the investing public has in the future of the Canadian Pacific Railway. This has already been shown in the fact that during the past fifteen years Canadian investors have been steadily acquiring the company's common stock. The indications are that any of the bonds of this issue left in the hands of dealers will be quickly absorbed. It is felt here that the issue should enjoy as ready a market as government bonds.

July 22 and 23 have been definitely decided upon as the Banff Indian days. From now until that time, when they will set up their teepees in the town, the Stoney Indians will be busy brushing up on their equestrian feats, making bead souvenirs, and inventing stories of the good old days for the edification and education of the visitors to the Rocky Mountain resort on the days of all days. Indian day at Banff has become an institution of world-wide fame.

SMALL FRUITS FOR THE HOME GARDEN

A naturally well-drained loam is preferable for all small fruit plants. Heavier soils, however if there is sufficient subsoil drainage to prevent an excess of stagnant ground water, will give good results. On the first type of soil planting may be done without ridging, but on the latter type it is better to ridge the soil slightly with the lowest part midway between the rows. The soil should be fertilized with a liberal application of stable manure, and plowed deeply. This should be done as soon as the ground is dry enough to work in the spring so that early planting, which is an important factor, may not be delayed.

Strawberries are set in rows four feet apart and twelve inches apart in the rows. Currants and gooseberries are set in rows five feet apart each way. Raspberries are set in rows six feet apart and one and one-half feet apart in the rows. Two year old plants of currants and gooseberries are the most satisfactory for planting. Care should be taken to keep

Painful Sciatica And Neuralgia

Caused by Starved Nerves Due to Weak, Watery Blood

People think of neuralgia as a pain in the head or face, but neuralgia may affect any nerve of the body. Different names are given to it when it affects certain nerves. Thus neuralgia of the sciatic nerve is called sciatica, but the character of the pain and the nature of the disease is the same, and the remedy to be effective, must be the same. The pain, whether it takes the form of sciatica or whether it affects the face and head, is caused by starved nerves. The blood which normally carries nourishment to the nerves, for some reason no longer does so and the excruciating pain you feel is the cry of the starved nerves for food. The reason why the blood fails to properly nourish the nerves is usually because the blood itself is weak and thin.

When you build up the impoverished blood with Dr. Williams' Pink Pills, you are attacking sciatica, neuralgia and kindred diseases at the root. As proof of the value of Dr. Williams' Pink Pills in cases of this kind we give the statement of Mrs. Marion Bell, Port Elgin Ont., who says:—"Some years ago I was attacked with sciatica in my leg and hip. The pain was excruciating and finally I was forced to go to bed. Apparently all the doctor could do was to give me drugs to dull the pain, as otherwise I found no relief. I had been in bed with the trouble for eight weeks when a lady who came to see me said that she had had a similar attack, and had only found relief through the use of Dr. Williams' Pink Pills. I decided at once to try this medicine, and before I had taken more than three boxes I found relief. I continued the use of the pills and under the treatment the pain left me. I was able to walk again, and have not since had the least return of the trouble. I feel that Dr. Williams' Pink Pills have been of such great benefit to me that I strongly urge similar sufferers to give them a fair trial."

If your dealer does not keep these pills you can get them by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brookville, On.

roots of the plants moist until planted, by giving protection to prevent them from drying out.

The strawberry may best be set by using a spade, thrusting it into the soil and pressing it sideways, and setting the plant with the roots spread fan-shape in the opening so made, then withdrawing the spade and pressing the earth firmly around the roots with the foot. The plant should be set so that the crown is level with the surface of the ground. Frequent hoeing and cultivating are necessary to keep down all weed growth until runners and new plants are formed, when they should remain undisturbed except to space the runners evenly about six inches apart. After this, careful hoeing around the plants will be necessary to prevent weed growth. It is wise to set out a new plantation every year as otherwise the plants become thick and poor crops result.

The only attention necessary to give the bush and cane fruits the first few years is to hoe and cultivate sufficiently to prevent grass and weeds from starting. If these are allowed to become established it is very difficult later to rid the plantation of them and they will seriously interfere with growth and the production of good fruit. The raspberries are confined to a row not more than one foot wide and about six inches between the canes. An application of 150 pounds of nitrate of soda and three pounds of acid phosphate per acre, applied in the early spring, should be given after these fruits come into bearing.

The Senator Dunlap strawberry is one of the best. The Victoria Black, and Fays Prolific Red are two of the best currants. The Herbert raspberry is one of the best, and Downing one of the best gooseberries.

STINNES' POWER IN GERMANY

With the death of Hugo Stinnes there disappears a figure that has dominated the German scene during the last two years, or, to speak precisely, since the murder of Walter Rathenau in early Summer of 1922. Rathenau and Stinnes embodied two strongly contrasting types of German capitalism as it emerged from the war. The former was much the more winning personality and the broader spirit. He read the lessons of the war in terms of whole German people. He foresaw for his country a future devoid of imperialistic dreams and devoted to useful productivity in close and harmonious cooperation between capital and labor. Stinnes thought rather in terms of personal and class opportunity. He cannot be acquitted of the charge of capitalizing the necessities of his countrymen for his own aggrandizement. As the chief architect of the new system of "vertical" trust organization, he stood up before the world as the personification of a dehumanized efficiency.

Concerning his wealth and the farflung net of his business operations it is probable that there has been a good deal of mythologizing, yet the reality was sufficiently impressive. His finger was in everything and everywhere and sometimes the finger was followed by the whole hand and the fist. Coal, iron, steel, ships, forests, newspapers, down to the castles and chateaus of the fallen princes, were all grist. He was everywhere in Germany and also in Switzerland, Scandinavia, Austria, the Balkans, Russia. This seemingly insatiable activity was not altogether the outcome of a titanic ambition to dominate. There was also the much more humble and practical reason of putting as much of his wealth as he could—derived in large measure from the collapse of the currency—in safe storage abroad. His foreign investments were part of that flight of capital with which the McKenna committee has just been dealing. Placed at the disposal of his country, it might have brought Europe further along than we find it today.

His attitude on reparations was ambiguous. Rathenau was wholeheartedly for a policy of treaty fulfillment and peace at home. Stinnes was now here, now there. At one time he would be breathing defiance against the Allies, and the next, he would be found engaged in all sorts of parleys with the enemy.

Stinnes' reparation tactics were as a matter of fact, dictated as much by home considerations as by the foreign situation. He was bent upon the abolition of the eight hour day and other advantages won by German labor in the revolution. He steadily hammered away at the point that reparations could never be paid unless the German people consented to work harder; a thesis which may be true but which in Stinnes was regarded as suspect by a great part of the German people.

Poincare brought Stinnes to the scratch. What the weak government at Berlin could not accomplish in taming the German industrialists was brought about by the French invasion of the Ruhr. That thrust came home to Stinnes and his associates, and there followed the temporary arrangement for reparations in kind which may be said to have paved the way for the broader solution envisaged by the Dawes experiment.

A political force at home and by some regarded as the power behind Cuno and Stresemann, the Successors of Chancellor Wirth, the disappearance of Stinnes brings no loss to those elements in Germany which look forward to a straightforward settlement of the foreign problem and policy of peace and labor and democracy at home in the spirit of Rathenau.

YOUNG DAUGHTER MADE WELL

Mother Tells How Her Daughter Suffered and Was Made Well by Lydia E. Pinkham's Vegetable Compound

Vancouver, B. C.—"My daughter is a young girl who has been having severe pains and weak and dizzy feelings for some time and had lost her appetite. Through an older daughter who had heard of a woman who was taking it for the same trouble, we were told of Lydia E. Pinkham's Vegetable Compound. My daughter has been taking it for several months and is quite all right now. It has done all it was represented to do and we have told a number of friends about it. I am never without a bottle of it in the house, for I myself take it for that weak, tired, worn-out feeling which sometimes comes to us all. I find it is building me up and I strongly recommend it to women who are suffering as I and my daughter have."—Mrs. J. McDONALD, 2947 26th Ave. East, Vancouver, B. C.

From the age of twelve a girl needs all the care a thoughtful mother can give. Many a woman has suffered years of pain and misery—the victim of thoughtlessness or ignorance of the mother who should have guided her during this time. If she complains of headaches, pains in the back and lower limbs, or if you notice a slowness of thought, nervousness or irritability on the part of your daughter, make life easier for her. Lydia E. Pinkham's Vegetable Compound is especially adapted for such conditions.

Quality Plus

When you buy King Cole Tea you expect quality. But you also look for something more—for a certain taste that is pleasant to you, and that will be repeated in every cup you make. The quality is produced in Nature's Garden; but the taste is the outcome of expert blending which gives King Cole its characteristic rich flavor—the flavor you like. Is it not worth much to have your cup of tea always—as you like it?

"You'll Like the Flavor."

CANADA'S NATIONAL PLAYGROUND

Canadians are fortunate in their National Parks, in that they have within their borders Alpine scenery which is not equalled anywhere on the continent, and more and more they are realizing that holidays in Canada hold for the lover of out-of-doors all the thrills that could be found anywhere in the world. Jasper National Park contains many high peaks, eternally snowcapped, and on the sides of the mountains are glaciers which have stood the test of ages. Millions of tons of ice, stretching, in some instances, almost as far as the eye can see, lure the adventurous climber to new attempts, while in the

calm, peaceful valleys, wild game of all kinds live at peace with mankind and the world. Additional bungalows for the accommodation of guests are to be erected at Jasper Park Lodge, the log-cabin hostelry of the Canadian National Railways at Jasper National Park, in time for the opening of the 1924 season, it is announced by officials of the Hotel Department, Canadian National Railways. During last season the popularity of Jasper National Park was so great that the capacity of Jasper Park Lodge was taxed, and the additional bungalows being provided this year will take care

of many more guests. Four 4-room bungalows, each room with bath, and two 12-room bungalows, each room also having private bath, are being erected. In addition, a double-deck boathouse, with the upper floor for conventions, etc., is being constructed, and an octagonal curio building is being built near the main Lodge. Four new buildings are being erected to serve as employees' quarters, the kitchens are being extended and the main lounge is being enlarged to provide for a ladies' reception room and for a men's billiard and card room. The lodge is one of the finest summer resorts on the Continent.

Advertising!

ADVERTISING means directing the attention of others to that for which attention is desired. If you have a stock of which you are proud, or a service which you believe to be superior, direct attention to the fact every week in the columns of the UNION ADVOCATE.

Stretch out the hand of good-will, wear the smile of welcome, and command the business of the buyers of this community. Do these things and your business will expand and the profits from your business will be greatly increased.

A WORD TO THE PUBLIC.

Do you not feel a certain reluctance about going into shops that have not invited you to enter their doors? At the shop which advertises—which invites your custom—you know that you are welcome.

BORN
At St. Catharines Ont to Mr. and Mrs. Robt. Conner a son

EASTER VACATION
The town schools closed on Thursday for the Easter vacation and will reopen on Wednesday morning.

TENNIS CLUB DANCE
The informal dance held last evening by the Newcastle Tennis Club in the town hall was largely attended and those present spent a most enjoyable evening.

HOLIDAYS
Eod Friday was observed as a general holiday and the weather was delightful. Yesterday, being Easter Monday was observed by the Post office; Government offices and Banks.

Just Arrived
1 Car No 1 Government Inspected Seed Oats; also 1 Car of Buffalo Feed Oats. Place orders now. Prices Right. MARITIME PRODUCE CO.

PUTTING UP NEW LINES
The N.B. Telephone Co. has a crew of men at work putting four new copper lines between Newcastle and Chatham. The company must expect an increased volume of talking as a result of the reduced toll rate between these two points.

MISSION CONCLUDED
The Mission given by Rev. Fathers Weist and Baxter of New York in St. Mary's Church concluded last Sunday. During the two weeks in which the Mission was held large congregations attended each service.

LEGISLATURE PROROGUED
After a session lasting exactly six weeks the New Brunswick Legislature was formerly prorogued Thursday afternoon by his Honor Lieutenant Governor Todd. Only a few spectators were in attendance and the proceedings were entirely formal.

SPECIAL EASTER MUSIC
Special Easter music was heard in the various churches on Easter Sunday. The choir masters and leaders had prepared extensive programs and the music was much appreciated by the large congregations. The different churches were also beautifully decorated with flowers.

MAGIC BAKING POWDER

Magic Baking Powder is scientifically made and has never failed to give the maximum leavening efficiency. Because of this and the uniformly satisfactory results obtained by its use we recommend it as Canada's perfect baking powder.

A TIMELY SUBJECT
"Good Roads" is a timely subject now just because the roads are so bad.

DO YOUR BIT
Clean up; paint up and help make Newcastle beautiful.

PRIVILEGED CHARACTERS
There should be no privileged characters on the streets of Newcastle to endanger the safety of others. Make them give an account of themselves.

PULL TOGETHER
It is enterprise and everyone pulling together that makes a progressive town and don't let that escape your memory. To hear everyone saying something pleasant about its people and interests is the surest quickest and easiest way to make a town attractive to others.

ICE WEAKENING
The river ice is beginning to have a sleek appearance and will probably make a move towards sea during the present week. Open water is now noticeable in several places and a warm sun to make a freshet is all that is needed to give the ice its final push. Last year the ice ran on April 28th.

QUIET ELECTION NIGHT
Election night; last Tuesday; was an unusually quiet one. In the past years the band favored the public with some musical selections and the newly elected Mayor and Aldermen gave their opinions of how the business of the town should be conducted. This year the public was denied both music and speeches.

SEWING CIRCLE GOSSIP
There was some discussion at the Sewing Circle this week about the cup of coffee one gets at the Parker House in Boston. The wife of the radio operator who visited Boston recently said that she found the Parker House coffee of excellent quality but no better than LUXOR ORIENTAL COFFEE which she gets from MacPherson the grocer in half and one pound tins. It would be impossible she thinks to make a more delicious cup of coffee than she prepares for her husband's breakfast every morning with LUXOR ORIENTAL COFFEE.

A COMPLAINT
A respected citizen complained to us yesterday of the Sunday evening loafers who not only at times constitute a blockade at the Post Office Bank of Nova Scotia and Stothart Mercantile Co. corners but pass remarks within hearing of the passers by which are highly displeasing. We feel that it is only necessary to draw this to the attention of the authorities to have this matter corrected.

BAND CONCERTS
We have not the official information in hand as yet but we presume that the Town Council will this year engage as usual the Concert Band for a series of summer concerts and we trust that the arrangement will be made early in the season. These weekly concerts are among the bright things of the summer season here and highly pleasing to the citizens many of whom hear the strains while comfortably seated on the verandahs of their homes. Visitors here as well as those passing through our town by auto cannot do other than take away with them the impression that Newcastle is an up to date town with an up to date Band.

The juveniles who created so much noise last season should be taken in hand at the first sign of misbehavior and by the help in the best method a lot of trouble will be saved.

AFTERNOON TEA
The girls of the Junior W.A. of St. Andrew's Church are holding an Afternoon Tea and Sale of Aprons; Candy and Fancy Work in St. Andrew's Sunday School.

MATINEE THURSDAY
The Empress Theatre will hold a Matinee on Thursday afternoon at 4 o'clock. Admission 5 and 15 cents.

GRADUATION
At the graduation exercises of the 1934 class of the Training School for Nurses of the Lawrence General Hospital held April 11th Miss Hazel Menzies of Whitney; N.B. was one of the graduates.

Just Arrived
1 Car No 1 Government Inspected Seed Oats; also 1 Car of Buffalo Feed Oats. Place orders now. Prices Right. MARITIME PRODUCE CO.

SEED BEER AT EEL GROUND
Excise Officer Stewart recently seized a quantity of seed beer a Indian Reservation at Eel Ground. The stuff will be analyzed and if found to be over strength several prosecutions will follow.

PRESENTATION
Mr. and Mrs. J.E.T. Lindon were the recipients last evening of a beautiful presentation made by their friends and members of St. Andrew's Church the occasion being their silver anniversary. For many years Mr. Lindon has been Vestry Clerk of St. Andrew's Church and in recognition of his valuable services the congregation took this means of expressing to Mr. and Mrs. Lindon their kind appreciation.

THE NEWS OF A STORE
The news of a store should be printed with as much regularity as this newspaper prints the news of the community. This newspaper would not be a record of events if it were issued at irregular intervals or merely when big events warranted. Store advertising is not a record of the store if it is printed on any such plan.

BASKET BALL CHALLENGE
The Hustler's Basket Ball team of Chatham has issued a challenge to any team on the North Shore to either one game or a series of games; any time between the present and the 15th of May; to decide the championship of the North Shore. If there is an interested team in Newcastle; Percy Walker; manager of the Hustlers; Chatham; N.B. will give the matter consideration.

CLEAN UP YOUR PROPERTY
The time for a general cleaning up of property after the winter months will soon be here. A "clean up Day" will likely be announced by the Public Works Committee of the Town Council in the near future. But why wait—if the snow is off and the ground fit for raking. Do it at once and you will be through before "Clean up Day" comes. Then during the summer months keep your property tidy and our town will present a much better appearance. Nothing looks so bad as to see one property clean and tidy and the neighbor's property in reverse. Let us all take a pride in our town and keep our property in a clean condition.

FOR SALE.
My residence and property situated on Kings Highway. Also a Wills Player Piano in good condition. For particulars apply to A. Elva McCURDY, Newcastle, N. B.

SCHOOL BILL FLEBISCITE
The Corporations Committee of the N.B. Legislature has amended the bill relating to the Newcastle School Debentures so as to provide that a plebiscite be held.

Too much cannot be said for the spending qualities of MORSE'S Tea—that is to say—the number of cups it makes to the pound. There are just two qualities to be considered in buying tea; one is the taste; the other how it will spend. MORSE'S Teas have the finest flavor and they make the largest number of cups to the pound.

AN EASTER BLIZZARD
A blizzard like mid-winter commenced Saturday evening and raged throughout the night and during Easter morning. About 8 inches of snow fell and snowplows were put into service Sunday morning to enable citizens to attend the Easter services.

THE SENATE VACANCY
It is reported that Hon. C. W. Robinson Minister of Lands and Mines in the New Brunswick government will soon resign and that his appointment to the Senate will follow.

WINS PRIZE
Arthur Cormier 22 years of age a first year medical student at Laval University coming from Cocagne in Kent County; N.B. has been advised that he has won the \$35000 prize awarded by a special caligraphy jury representing some twenty countries sitting in Paris.

BASEBALL LEAGUE OFFICERS
The officers of the Newcastle Baseball League recently organized are:—
President—Mayor D.S. Croaghan
Manager—P.N. Brown.
Secretary—P.E. Roy.
Treasurer—G.G. Stothart.
Finance Com.—The officers and John F. Kingston.

PREDICTS GENERAL ELECTION
J.T. Stewart M.P. for West Hamilton predicts a general federal election shortly. He states that he expects to see the King Government go to the country in the fall issue. Their concessions to the west have been made with this end in view the member believes.

CREOSOTE PLANT FOR TRURO
The Canada Creosote Company is now well under way with preparations for their new plant at Truro. A suitable location has been purchased and on this site will be constructed the necessary buildings together with five miles of railway tracks.

After Grippe
SCOTT'S EMULSION
should be taken every day for a month
