DEAD NUMBER 150 IN TERRIBLE HOLOCAUST IN NEW YORK CITY

Fire in Triangle Waist Company's Factory on the Top Floors of Ten Storey Structure Results in Terrible Scores of Dead and Injured Seven Hundred Employees are Trapped with Inadequate Means of Escape—Many Jump to Pavement and Meet Horrible Deaths—Investigation in Death Trays of the City is Begun.

New York, March 25.—What will go down in history as the fire disaster of Washington square entered upon its aftermath tonight with 22 of nearly 150 victims already dead. The official death list has been lessened rather than increased. The revised counts show 141 dead tonight with 12 women and girls at death's door in the hospitals. One hundred and fifty all told, with perhaps consequently cover the casualties when those whose horrible injuries and burns, some fatal, shall have joined their fellow workers in the pine coffins at the morgues.

Careful counting still rates the female victims young and old at approximately ten to every one male. Broadly speaking, they were Jewish and Italian, living on the east side or in a small Italian quarter near the scene of the fire. All the dead being removed from the building, the coroner began an investigation into the disaster, one of several inquiries which will be conducted by the departmental agents of the district attorney's office. An inquest will be held and its result placed before the grand jury.

Many grand jurymen visited the scene and District Attorney Whitman announced that those responsible for the loss of life would be rigorously prosecuted.

Nearly all of the dead were under 30 years of age, the large majority between 17 and 22. Many were only 16 and 15 years old.

Nearly all, if not all, of the victims were employed by the Triangle Waist Company, on the eighth, ninth and tenth floors of a ten-story brick building at 23 Washington place, on the western fringe of the downtown wholesale clothing district.

The partners of the firm, Isaac Harris and Max Blanck, escaped unscathed from the office on the tenth floor, carrying with them over a dozen trunks and boxes. Two daughters and a governess, who was not an outside escapee of the building.

Cause of Fire Unknown.

How the fire started perhaps never be known. A corner on the eighth floor was its point of origin and the three upper floors were swept. On the ninth floor fifty bodies were found, sixty-three or more persons were crushed to death by jumping and more than thirty clogged the elevator shaft.

The loss to property will not exceed \$100,000.

Pedestrians going home through Washington place to Washington square at ten minutes to five were scattered by the whir of something rushing through the air before them. There was a horrible plow on the pavement and a body flung on the flags. Wayfarers on the opposite side of the street shaded their eyes against the setting sun and saw the windows of three upper floors of the building black with girls crawling to the sills. There were no fire escapes.

Many Girls Jumped.

"Don't jump! No alternative. The pressure of the maddened hundreds behind them and the urging of their own fears whirled strong. They began to fall to the sidewalk in a terrible rain of flesh and blood.

Four alarms were rung within 15 minutes. Before the engines could respond, before the nets could be stretched or the ladders raised, five girls had fallen from the eighth and ninth floors so heavily that they broke through the glass and iron roofs of the subterranean passages and were hurled into the vaults below.

In an hour the fire was out, in half an hour it had done its worst, probably the death list was full in 20 minutes.

The building stands on a corner, with exposure on two sides, but the only fire escape was the interior opening on a light and air shaft. In all there were seven exits, the single escape, two freight elevators at the rear, two passenger elevators in front and two stairways. All of them proved almost useless and practically all who escaped either climbed to the roof and scrambled thence to the street, or jumped from the windows. The machinery of the freight elevators broke down under the rapid work and they were rendered useless.

Elevator Carsummed.

After one of two trips by the elevators, the press against the doors of the shaft became so great that they were opened with difficulty. The cars, each having a capacity of 15 persons, arrived at the ninth floor. Zito struggled to close the door of the shaft when his car had been jammed full, but after he had started the car it was torn open and a number of women leaped into the shaft after the descending car, falling on the roof of the car even after it had reached the ground floor. Those who had leaped alive had been crushed to death against the walls.

With this gruesome carnage was practically clogged with the dead.

INVESTIGATION OF TRAGEDY BEGUN

GRAND JURY IN NEW YORK SUBPOENA TWENTY PERSONS AS WITNESSES.

New York, March 25.—The grand jury threw into action today the machinery for a full investigation of the Washington square fire of Saturday in which 142 lives were lost, by subpoenaing twenty persons as witnesses to establish the blame and the board and officers paved the way for an ordinance making fire drills compulsory in factories. Among the witnesses summoned are Max Blanck, one of the proprietors of the Triangle Waist Company, whose employees were the victims, and Joseph Asch, owner of the building.

Fire Marshall Beers continued his inquiry today. The work of identifying the burning building and the fire department of New York University department of New York University, which was destroyed, was listening to a lecture by Frank H. Bessis, New Jersey. He saw the smoke and saw the girls trapped on the roof. He led his class to the roof of the university, where they set the scene, bore them down to the building, swarmed out of the windows and saw the girls trapped on the burning structure.

Forty girls were brought to the hospital. A woman teacher, a cutter, all down the elevator cable 10 stories and found alive at the bottom. His hand was lacerated, his forehead was cut, but otherwise he was unhurt. He was lacerated, his forehead was cut, but otherwise he was unhurt.

Some Terrible Deaths.

Six girls fought their way to a window on the ninth floor over the bodies of fallen fellow-workers and crawled out in single file to an iron fire escape running the length of the building. More than a hundred feet above the sidewalk they crept along their perilous pathway to a swing electric feed wire spanning Washington place. The partners of the firm, Isaac Harris and Max Blanck, escaped unscathed from the office on the tenth floor, carrying with them over a dozen trunks and boxes. Two daughters and a governess, who was not an outside escapee of the building.

Cause of Fire Unknown.

How the fire started perhaps never be known. A corner on the eighth floor was its point of origin and the three upper floors were swept. On the ninth floor fifty bodies were found, sixty-three or more persons were crushed to death by jumping and more than thirty clogged the elevator shaft.

EASTERN CANADA IS AWAKENING TO THE BENEFITS OF RECIPROCITY

Public Gathering to be held in Guiddhall to Discuss Anglo-U.S. Arbitration Pact

Ottawa, March 24.—The results of the reciprocity campaign in Ontario and Quebec during the past week are all in favor of the government's policy. Conservative speakers of the stump are beginning to realize that even Ontario is awakening to the advantages of the agreement, and they are striking the issue. Leaders of discussing the pact they are resorting to old methods of slander and abuse.

At Jarvis, T. W. Crothers, M.P. for West Elgin, made a eloquent attack upon Mr. Fielding, which was strongly resented by a considerable portion of the audience. The meeting refused to go on record against reciprocity.

Efforts to suppress the industrial interests of Ontario are meeting with signal failure. With a magnificent disregard for facts, the Conservative press in the east has raised the cry that the furniture industry, among others, will be ruined if the reciprocity agreement goes into effect. Berlin, the seat of the furniture industry, was specially warned to take notice. But this industrious German community refuses to be scared. At a great rally held there a resolution strongly endorsing the reciprocity agreement was moved by the dean of furniture affairs, Mr. J. S. Athens, seconded by a local Labor leader, and enthusiastically carried.

The Fielding demonstration in Montreal on Saturday night, in which the Hon. Sydney Fisher and Joseph Asch, M.P., shared honors with the finance minister, was a magnificent triumph to the man who was chiefly instrumental in negotiating the trade agreement, and a triumph for the cause. It furnished clear proof that Sirman's attempt to capture the commercial metropolis of the east failed.

THE LORD MAYOR CALLS MEETING

Public Gathering to be held in Guiddhall to Discuss Anglo-U.S. Arbitration Pact

London, Mar. 23.—The response to a request signed by many influential persons the lord mayor of London has called an early meeting at the Guildhall in support of the arbitration movement.

A large column of Russian cavalry and infantry has already invaded the provinces of the east. The declaration of war received here today by a prominent Chinese society. The commander of the column, it is stated, refused to allow cavalry to pass.

King George Has a Frailer.

King George of England is probably the only sovereign in Europe who has an athletic trainer. He has just honored Eugene Sandow, strong man, with appointment by royal warrant to be "professor of scientific physical culture to His Majesty." The declaration, however, says that the honor is in recognition of Sandow's efforts to improve the physique of the rank and file of the British army. More than an acknowledgment that any personal benefit would be derived by the King from Sandow's services.

To Debate Ezeer Trial.

Madrid, Mar. 23.—The debate on the trial of Prof. Ferrer, the founder of the modern school Barcelona, who was executed in October, 1909, opened in the chamber of deputies today. The proposal to discuss this trial was made by the Republicans and accepted by the government, many months ago.

Roma, Mar. 23.—The celebration of the fifteenth anniversary of Rome as the capital of Italy was celebrated today amid popular rejoicings. King Victor Emmanuel and Queen Helene visited the historic castle of San Angelo where they viewed the magnificent exhibition of art of the middle ages and the Renaissance.

TWO APPLICATIONS FOR LOANS FROM CITY'S SINKING FUNDS

Committee Named to Invest City's Sinking Funds is Considering Applications for Loans Amounting to \$100,000—Committee Also Has Under Consideration Making Loans to School District in the Vicinity of Edmonton.

There is \$10,000 lying in the Edmonton branch of the Imperial Bank to the credit of the city's sinking fund account. This sum is being held only the regular three per cent bank interest. The debentures for the city are at the rate of five per cent. Obviously the city is losing money so long as these sinking funds are permitted to remain inactive in the coffers of the bank.

To meet just such a condition the city council provides that these sinking funds may be invested in any other security approved by the city at the prevailing rate of interest.

Recently, at the request of the city council, Chief Justice Harvey named two trustees to act on a committee which shall have charge of the assessment for the cost of opening up Athabasca street through the city. The two named are W. A. Dryden and F. W. Ritch, who were appointed commissioners to investigate the sheep industry in Canada and have completed a three months' tour of the United States and have submitted a report which is being reviewed by the Hon. Sidney Fisher, Dominion minister of agriculture. Since their return from the United States the commissioners have been pursuing their investigations in Eastern Canada. They have visited Western Ontario and the Maritimes, and are now in the West, where they are conducting an investigation into the sheep industry in that section. Two weeks ago they were at the Manitoba fair in Brandon. From there they went to Regina, where they held a series of meetings at Lethbridge, Calgary and Edmonton.

Alberta wool and mutton growers are, urgently requested, by W. F. Stevens, live stock commissioner, to show their interest in this investigation by appearing before the commission and informing that body of the difficulties in the way of wool and mutton production in Alberta suggesting such remedies as they think necessary under the circumstances.

THE AREA OF REGINA NOW 13 SQUARE MILES

By Proclamation of the Lieutenant-Governor-in-Council Increases Area of City from Three Square Miles to Thirteen Square Miles.

Regina, Mar. 27.—A proclamation issued by the lieutenant-governor-in-council increases the area of Regina city from three square miles to thirteen square miles. The new parcels of land to be included within the city boundary, the population of the enlarged city is estimated at upwards of twenty thousand. Prior to the addition of the new territory the Regina townsite was the smallest in area of any incorporated city in Canada.

Senienced For House Breaking.

Calgary, March 27.—A Calgary man who was found guilty of breaking into residences in Calgary, and stealing considerable jewelry, and who served a term in the Edmonton penitentiary, previously, for a similar crime, was sentenced this morning at the police court to one year. He was found guilty on both charges and given a year on each to run concurrently.

Schooner May Have Found.

Moss Point, Mar. 23.—The schooner Elizabeth Dantzier, which sailed from Havana for this port March 7, is believed to have encountered a squall in the gulf and foundered. Nothing has been heard from her by the owners in this city since she left Havana.

SNOW FALLS BRING MOISTURE.

Some Items of News From Southern Alberta City.

Lethbridge, March 27.—Recent snow falls have been very heavy and have supplied the necessary moisture in great need of moisture in that district. The crop looks promising and heretofore the very large acreage of spring wheat will be a success.

J. F. Stuart, formerly a prominent member of the Calgary Police Force, died at the residence of his daughter, Mrs. Matt Beards, aged 74. He is survived by his wife and several children.

Schooner May Have Found.

Moss Point, Mar. 23.—The schooner Elizabeth Dantzier, which sailed from Havana for this port March 7, is believed to have encountered a squall in the gulf and foundered. Nothing has been heard from her by the owners in this city since she left Havana.

APPORTIONING COST OF OPENING STREET

Assessment Committee Arranges for the Proportion of Cost That Property Fronting on Athabasca Ave. Must Bear in the Opening of That Street Through Two Blocks.

A meeting of the assessment committee of the city council was held yesterday when the appointment of the assessment for the cost of opening up Athabasca street through the city was decided upon. There is a strip of property a part of the Sandison estate, which lies north of Jasper avenue between Twenty-first and Twenty-third streets, and through which Athabasca avenue was not extended when the plan of the subdivision was submitted to the city authorities several years ago. The result is that in order to make this thoroughfare the city has had to purchase a street allowance through the two blocks.

Six corner lots, twenty-five per cent of the total cost.

The interior lots, fifty per cent of the total cost.

The city's share, twenty-five per cent of the total cost.

The property required for the street will cost \$6,000. It is figured that the improvement to the property affected by the opening of the street will be much greater than the cost of the cost which the various lots will be called upon to bear.

UNION WORKERS OF NEW YORK TO FORM MIGHTY FUNERAL CORTEGE

As Demonstrations of Protest Against Law Enforcement of Labor Law, Union Men and Women Will Follow Hearse Unidentified Fire Victims Through City and County Officials Continue Investigations Into Causes of Disaster.

New York, March 28.—Sitting down to the great mass of testimony at their disposal, the city and county officials today hoped to draw closer to the source of responsibility for Saturday's factory fire horror, when 142 lives were lost.

Investigations started yesterday by Fire Marshal Beers, and continued in other official quarters efforts to place the blame were kept up by undiminished vigor.

While officialdom was busy investigating questions which are being asked as to the underlying causes of the disaster, the mournful task of burying the dead was continued. As many as 100 bodies were buried yesterday morning, were held today. There remains 20 bodies so badly burned that identity seems impossible.

Washington, March 28.—Such rapid progress is being made in drafting the new arbitration treaty with Great Britain that President Taft today expressed the hope that he will be able to submit the document to the Senate at the coming session. The treaty is in the hands of the secretary of state and the British ambassador, Mr. Bryce. The work is going forward with the greatest possible care and undiminished vigor.

Members of the treaty hope to make it a model for all such treaties in the future. Each word that goes to make up the text is given the fullest consideration.

NEVER BE WITHOUT BABY'S OWN TABLETS

Mothers, if you wish to guard the health of your little ones against the sudden outbreaks of those ailments peculiar to childhood, always keep a supply of Baby's Own Tablets on hand. These Tablets never fail to relieve baby of distressing stomach aches, pains caused by indigestion, and the many other troubles that make baby's life miserable. The Tablets are sold under the guarantee of a government analysis to contain not one particle of opiate or other injurious drug. They may be given to the youngest baby with perfect safety. Concerning them, Mrs. Hippolite Chissey, Eastern Harbour, N.S., writes: "We have used Baby's Own Tablets for our baby and they have done her much good. Please send us two more boxes, as I find them the only medicine that helps our little one. The Tablets are sold by medicine dealers or at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

Fire at Halhite. Halhite, Sask., March 28—A fire at 2 o'clock today destroyed a farm mill and blacksmith shop here, including about three hundred bushels of feed. Two houses were threatened, but rain was falling at the time and checked the spread of the flames. Loss about \$1,800. No insurance.

Found Dead in Bed. London, Ont., March 28—Janet Annie Green, aged 50, was found dead in bed at her home on Maitland street this morning.

DEMOCRATS ARE NOT AGREED ON PROGRAM

President Taft Urges Leaders to go Now on Tariff Lines. Advises Them to Pass Reciprocity Agreement. Washington, March 28—There is talk here today that the extra session will run on late into the summer. This may very well be the case, but the talk is based on the Republican belief that the Democrats will become completely demoralized in their tariff program, while as a matter of fact that program has not yet been formulated.

Col. Hughes Objects. Col. Sam Hughes rose up and objected. He said it would be a nuisance. He said he was not going to have his rights curtailed by the Commons. He said he would not look as if he extended revision were in contemplation.

THE EDMONTON BULLETIN

Published every Monday and Thursday by the Bulletin Company, Ltd. at 1213 Avenue of the West, Edmonton, Alberta, Canada.

THURSDAY, MARCH 30, 1911.

FEELING BETTER.

It is satisfactory to note that Sir William Van Horne is recovering from the "sick and ashamed" condition in which the announcement of the reciprocity agreement threw him. Such is the pleasing intimation conveyed by a circular issued by that worthy knight to the shareholders of the Lauriatide Company, of which he is president, a company engaged in the manufacture of news paper.

THE "NORTH AND SOUTH" LINES.

Replying to a question a few days ago the Minister of Railways informed Parliament that west of Port Arthur, Canadian railways cross the international border at eight points. East of Port Arthur, Canadian railways cross the border at twenty-three points and United States railways at fifteen points.

RECIPROCIITY AND THE CATTLE BUSINESS.

The Calgary Herald imagines it has discovered an argument against reciprocity in the fact that one U. S. cattle grower has shipped some young stock into the Canadian West, fattened them on the superior pasturage here, and then sold them in this market.

The Herald could hardly have produced had it tried, more conclusive evidence than the cattle business in Western Canada is not what it should be, and not what it would be if reciprocity or other did not operate to prevent the development of the business to the point to which the natural conditions offer opportunity.

The Herald's case is equally convincing that protection has done nothing for the Canadian cattle-man. He has had the benefit of a 25 per cent duty against United States cattle.

PREACHING AND PRACTICE.

It is reported that the C. P. R. has purchased the Pierre Marquette railway. The road is 2230 miles long, of which 221 miles are in Canada.

THE MYSTERY.

In answer to a correspondent, the Winnipeg Telegram explains at length that the reciprocity arrangement will not really injure Canadian railways at all.

WITH THE ENEMY.

Of the western Opposition members Mr. Meagher, Mr. McPherson, and Mr. Staples have declared for the "interests" and against their constituents.

EDMONTON BULLETIN THURSDAY, MARCH 30, 1911.

driving the Alberta grower out of the business, and the disastrous results of the farmers from going into it. It is the stability of the prices across the line, due to the larger and steadier demand for the product, that is the cause of the production there on the increase.

The Canadian cattle grower, and particularly the Western Canadian Cattle grower, has been experiencing more than falls to the lot of most men the injury which may be done by a protected market.

PLAUDITS AND PLUNKS.

The Montreal Witness says some of the shine of the anti-reciprocity demonstration of Monday week by suggesting that the cheering was not of the spontaneous variety.

"PROTECTED."

The assault upon the reciprocity agreement in the Pierre Marquette railway has been made chiefly on the ground that it would injure the working man.

35 per cent pipe with protruded ends, pound tobacco, five to 30 per cent hat firmly on his head and hushes off through the dark of the morning under the light from 30 per cent gas lamps.

EAST AND WEST.

Montreal Witness.—The Position of the West in the Nation was the subject of a stirring address on Sunday by the Hon. Frank Oliver, Minister of the Interior, who was the guest of the Canadian Club at its weekly luncheon in the Sailors' Institute.
