TAILORING as you want it.—**SWIFT'S.**
A MAN in Windsor was pecked on the hand by a game chicken and blood-poisoned set in, resulting fatally in four days. Yet there are lots of men going about in perfect health who have been persistently henpecked for years.

MAPLE SYRUP has been brought into town freely this week, but some of the farmers are too busy boiling the sweet sap in the sugar bush to worry over the sale of their product, especially when they know there is a good market for it any time.

OWING to the severe storm there was not a very large congregation at the mid-week Lenten service in Trinity Church to hear Rev. Rural Dean Robinson, of Strathroy, but those who braved the blizzards were well repaid by hearing an excellent discourse on Christ's Temptation.

TASTY designs in dinner sets and odd pieces at P. DODDS & SON'S. Fancy crockery and glassware of all kinds, A full stock.

THE harem skirt is not new in Canada. The older generation in Ontario can recall when the squaws in all the Indian reserves wore them. Their costume consisted of blue cloth trousers, fringed with beads in some cases, a calico skirt and blouse and a blanket for a shawl. Some of the hats they wore—when they did wear hats, were almost as grotesque as those in fashion today.

ON Tuesday evening last a literary meeting of the A.Y.P.A. was held at the home of Miss LaMura Dodds. An excellent address on "The Theological History of Canada," was given by L. J. Williams, B.A. The musical part of the program was enjoyed by all. The next meeting of the society will be held at the home of Dr. Kelly on Tuesday, March 28th.

SPECIAL suit prices, our \$10.00, \$12.50 and \$13.50.—**SWIFT'S.**

THE gang of boys who almost nightly create a disturbance in the neighborhood of the Chinese laundry and persistently annoy the Chinaman are cautioned to mend their ways or steps will be taken to punish the offenders. The disturbance they make is not only annoying to the laundry man but the adjoining tenants will not stand for it much longer. Take a hint, boys, and save trouble for yourself and your parents.

THE London Retailers' Association are after the rural folk and wish to have them come to London on a certain week shortly to their "Annual Spring Opening." The Association is composed of houses of all lines of business, and through an advertising agency this week we received copy for a big advertisement, which we strictly refused to insert. We believe in protecting our home merchants as far as in our power so to do. Do you do it?

A VERY successful meeting of the Ladies' Institute here, was held last Wednesday evening, March 8th, at the home of Mrs. John Shirley. There were twenty members and ten visitors in attendance. Six new members were enrolled. A carefully prepared essay on the life of Sir Walter Scott was read by Mrs. D. G. Parker. This branch, although not long organized, is making a reputation for itself, and that these meetings are both attractive and instructive is shown by the rapidly increasing membership. The next meeting will be held 14th at the home of Mrs. D. G. Parker.

REV. M. KELLY has received a unanimous invitation from the congregation of the Brantford Cong'l church to become their pastor and to assume charge in May. Although it is altogether likely that Mr. Kelly will ultimately accept, he has not yet definitely decided. He has been in charge of the Watford and Zion churches for seven years and the congregations of these churches will be sorry to lose him. The church in Brantford is a fine one in the heart of the city and the congregation large and influential.

WE are selling a stiff felt hat at \$1.50, cost you \$2.00 in the city.—**SWIFT'S.**

A VERY pleasant evening was spent at the home of Mrs. N. B. Howden, on Friday of last week, when the Daughters of the Empire gave a farewell tea to Mrs. Alexander before leaving for her new home in Saskatoon. The members of the Tecumseh Chapter are very sorry to lose Mrs. Alexander.

WHAT might have been a serious runaway occurred on Monday afternoon on Main street. Walter Scott, 2nd line, and his sister were driving over the railway bridge in a buggy when a fast train passed under the bridge and the horse becoming frightened made a bolt, but only went a few rods when the buggy collided with a dray. The harness broke and released the horse and the occupants of the rig were thrown heavily to the ground, but happily without other injury than a shaking up and a liberal coating of mud.

THIS year marks the three hundredth anniversary of the issue of the authorized version of the Scriptures and the event will be commemorated by special sermons in all the Anglican churches. The date set apart for this event is Sunday, March twenty-six, and Bishop Williams is notifying all the clergy of the diocese to that effect. Special sermons, appropriate to the occasion, will be preached. It is considered there is a peculiar fitness for the Anglican church to celebrate the event for the authorized version is the gift of the English church to the English people. Therefore the Anglican church should lead in the celebrating of the event.

THE Watford Branch of the Women's Institute held a very enjoyable social evening in the school room of the Congregational church, last Tuesday night. The program was both interesting and instructive. A paper showing concisely the objects of the Institute was given by Miss A. Kingston and an essay on "Character Building" was read by Mrs. J. A. Brown. Excellent music was furnished by the orchestra and gramophone. Rev. Mr. Burton acted as chairman. A dainty luncheon was provided by the ladies, to which all did ample justice. The evening closed by singing the National Anthem.

PERSONAL.

Mrs. Wm. Williamson is visiting relatives in Armona.

T. Wentworth Stewart is visiting at Mr. I. P. Taylor's.

Dr. Reid, of Wyoming, was home for a short time last Sunday.

WARWICK.

Mrs. Scott, mother of Walter Scott, 2nd line, is very ill at present.

The Warwick Mill will stop chipping for the season on Friday, March 31st, 173.

The marriage was solemnized on Wednesday afternoon of Albert Peasley to Mrs. Alison, daughter of Mr. Robert Fleming, all of the 4th line.

The Women's Institute held a very interesting meeting on Thursday last at Mrs. McAusland's. The program consisted of a suitable paper on "How to Keep Young" by Mrs. D. Auld, selections on the organ by Miss Ethel Thompson and Misses McAusland, also a humorous reading by Miss Grace Auld, and a general discussion by the members on "Buttermaking." Next meeting, for April, to be held at Mrs. D. Falloon's.

THE LAND OF THE JAP.

Interesting Letter From Mrs. Wm. J. Thompson, of Watford.

Shidznoka, Jan. 27th, 1911.

EDITOR GUIDE-ADVOCATE:

Dear Sir,—Many thanks for the paper. I have received it every week thus far. The last one I received was printed Dec. 30th. I got it January 20th, 1911. I promised you to write a letter for the Guide, if you think it worth printing. I hardly know what to write about. I think Japan is the most wonderful country in the world. The mountains are clothed in beauty; no barren mountains in the parts of Japan I have visited. The most beautiful trees I ever saw; orange groves and tea are cultivated on the sides of the mountains. Shidznoka, the city where our people live, is eighty miles from Yokohama where we landed after a voyage of thirteen days across the Pacific. Shidznoka is in Central Japan. There are fifty thousand inhabitants in it. It is clean and airy and noted for its manufacture of lacquer ware, delicate basket work in curio, and its great productions of tea. The most interesting place of worship is The Temple of Senjus; the Shintosts worship there. I visit the temple very often. The interior of the temple has large pillars of lacquer; the central part of the temple ceiling is painted with dragons. We are always told not to fail to notice the carvings on the gates which lead to the shrines. One of the carvings represents a lioness with her cub. Truly they have fine carvings in Japan. They have a set of colored statuettes of ninety-five soldiers who fell in the Chinese war besides hospital nurses and Chinamen. Several other figures in the grounds are made of cement, representing cavalry men.

THE best excursion from Shidznoka is by jinrikisha to Kunoosan, here was the first burial place of the great Shogun Ieyasu. According to some Ieyasu's body still lies here and others say his body was taken to Nikko. As we reach the temple we ascend a steep zig-zag cut in the rock one thousand steps when we get to the top where the temple is, the view of the sea is glorious but we obtain a still better one from a venerable gnarled tree called the (mononu no matsu). They tell us the temples have been purified to a certain extent by the Shinto party thirty years ago, but they still retain their Buddhist ornamentation.

ON one side of the temple is the wooden effigy of a sacred horse, then as we proceed up a flight of steps we come to the drum tower, then we pass the treasure houses. As we go round the interior we see pictures of thirty-six poetical geniuses and there is an elaborate bordering of chrysantheums. The last flight of steps leads us up to the stone tomb of Ieyasu and Mrs. Dougal J. McPhail, a son.

WE happened to go on the anniversary of the Shogun and we saw them go through their services. Buddhist priests in beautiful robes of pale green silk and brown brocade silk went through their prayers and sacrifices with many different salutations. I felt a strange feeling at the top of that great mountain overlooking the sea, at the devotion and earnestness of those priests. Their robes were well worth seeing. We had lunch in one of the priest's houses and wended our way downward, took jinrikisha for home well pleased with our day's journey. I'm afraid I have taken up too much space already so I will leave some of the other things I wanted to say for a future letter. With every good wish for a prosperous year for the Guide-Advocate, I remain, Sincerely yours,

MRS. W. J. THOMPSON.

OPERATIONS AVOIDED

By Lydia E. Pinkham's Vegetable Compound

Belleriver, Que. — "Without Lydia E. Pinkham's Vegetable Compound I would not be alive. For five months I had painful and irregular periods and inflammation of the uterus. I suffered like a martyr and thought often of death. I consulted two doctors who could do nothing for me. I went to a hospital, and the best doctors said I must submit to an operation, because I had a tumor. I went back home much discouraged. One of my cousins advised me to take your Compound, as it had cured her. I did so and soon commenced to feel better, and my appetite came back with the first bottle. Now I feel no pain and am cured. Your remedy is deserving of praise." — Mrs. EMMA CHATEL, Valleyfield, Belleriver, Quebec.

Another Operation Avoided.
Poughkeepsie, N.Y. — I run a sewing machine in a large factory and got all run down. I had to give up work for I could not stand the pains in my back. The doctor said I needed an operation for womb trouble but Lydia E. Pinkham's Vegetable Compound did more for me than the doctors did. I have gained five pounds. I hope that everyone who is suffering from female trouble, nervousness and backache will take the Compound. I owe my thanks to Mrs. Pinkham. She is the working girl's friend for health, and all women who suffer should write to her and take her advice. — MISS TILLIE PLENGZ, 3 Jay St., Poughkeepsie, N.Y.

Thirty years of unparalleled success confirms the power of Lydia E. Pinkham's Vegetable Compound to cure female diseases.

Mary in History.

From the London Globe.
The name of Mary has played an important part in history. In Scotland the first Royal Marie was the daughter of Duke Arnold of Gueldres, who married James II. and afterward became Queen Regent. Then we have Marie of Lorraine, who married James V. after refusing Henry VIII. Their daughter was the famous Mary, Queen of Scots, the most romantic and fascinating figure in the whole history of the olden Marys. Then there was Mary Tudor. Henrietta Maria became the ill-fated wife of Charles I. Mary of Modena was the second wife of James II. Mary, the daughter of James II. by his first wife, by her marriage with William of Orange invested their joint reign with a glory which is even now undiminished. Since then we have had several princesses named Mary—one the daughter of George II., another of George III., while the mother of our late Queen was Mary Louise Victoria. But the most essentially English of all Marys in the history of our present beloved Queen.

A deaf sheepman went out with his dog and herd. A dumb man picked up a hub and spoke. An unfeeling man bought a hat of cloth and felt. A blind man reached for a plane and saw. Truthful and sober-minded citizens tell us that they saw a horse fly, a chimney swallow, a board walk, a sword fish and picket fence. Truly this is a wonderful age.

GOOD DIGESTION SHOULD WAIT ON APPETITE.—To have the stomach well is to have the nervous system well. Very delicate are the digestive organs. In some so sensitive are they that atmospheric changes affect them. When they become disarranged no better medicine is procurable than Parmelee's Vegetable Pills. They will assist the digestion so that the hearty eater will suffer no inconvenience and will derive all the benefits of his food.

As a country physician was driving through a village he saw a man amusing a crowd with the antics of his trick dog. The doctor pulled up and said: "My dear man, how do you manage to train your dog in that way? I can't teach mine a single trick." The man looked up, with a simple rustic gaze, and replied: "Well, you see, it's this way: you have to know more'n the dog, or you can't teach him nothing."

A Profitable Partnership.

A father with a view to encouraging his young daughter aged 20 to purchase a Canadian Government Annuity, so that she may have an absolutely sure income of \$300 a year so long as she may live from and after the age of 55, offered to contribute \$25 a year for this purpose if she would from her earnings contribute the balance of the annual premium necessary to secure the said Annuity, an offer which the daughter readily accepted on ascertaining how small an amount she would be required to pay. She found that by a saving of \$2.27 a month, in addition to the \$25 a year (or \$2.09 a month) to be paid by her father, the Annuity of \$300 would not only be secured, but that it would be paid for 10 years in any event so that should she die before the 10 years expired the Annuity would be continued for the remainder of the term to such person as she might name, thus insuring a positive return of \$3000, but, as has been said, with the proviso that should she survive the 10 years the Annuity would be continued to herself so long as she might live. Should death occur before 55 all that had been paid in with 3% compound interest would go to her heirs. It is certainly a most attractive investment, and other fathers or mothers desiring to set so excellent an example to their children of any ages may ascertain full information on the subject by applying to their Postmaster, or direct to the Superintendent of Annuities, Ottawa, to whom all letters go free of postage.

A LIGHTHOUSE KEEPER'S STORY.

From the light-house at Lobster Cove Head, Bonne Bay, Newfoundland, Mrs. W. Young, sends an experience of Zam-Buk, which should certainly act as a true beacon light, guiding all sufferers from skin disease to a safe harbor of refuge.
Mrs. Young says: "I suffered with eczema for seven years, and to my great delight Zam-Buk has cured me. The disease started on my breast, and spread until it extended over my back. The itching and burning—especially when the affected parts were warm—were terrible; and yet when the eruption was scratched or rubbed, it turned to bad sores, and caused great pain. I went to a doctor, and tried various prescriptions, but seemed to get no benefit, so tried another doctor. Again I got no relief, so tried a third doctor, and then a fourth. Although they all did their best for me I got no relief from my pain.
"Seven years is a long time to suffer, and I had got used to the thought that I could never be cured when I saw a report in 'The Family Herald' telling how beneficial Zam-Buk was in cases of skin disease. I thought there would be no harm in giving this balm a fair trial, and bought some.
"Well, from the use of the very first box I saw Zam-Buk was going to do me good. I persevered with it, and the improvement it worked in my condition was really wonderful. It eased the irritation, stopped the pain, and the sores began to dry up and disappear. In short, I found Zam-Buk all that was claimed for it, and within a very short time it worked a complete cure in my case."
Not only for eczema, but for ulcers, abscesses, varicose veins, bad leg, poisoned wounds, cuts, cold sores, chapped places, piles, ringworm, children's eruptions, burns, scalds, and all skin injuries and diseases, Zam-Buk will be found unequalled. All druggists and stores sell at 50c. a box, or post free from Zam-Buk Co., Toronto, for price. Refuse harmful substitutes and imitations.

Sellers of Things.

I do not want to buy a sheep, a hayrack, or a ham; I only ask that I may keep my way just as I am. Yet people think they know my needs, and try to sell me junk; and that is why my bosom bleeds, and why this life seems punk. The agents stop me on the street, they hammer at my door; they run me down with tireless feet, they threaten and implore. I do not want to buy a whale, a circus, or a bruno; to have no salesmen on my trail would be a priceless boon. I hate to hear men talk of sales, of profit and of loss; they send me dodgers through the mails, and hope I'll come across; they throw big posters on my porch, and also in the yard; when I go out to smoke a torch, it jars me pretty hard. I do not wish to buy a tree, a worthog, or a snake; if salesmen would but let me be, my heart would cease to ache. And when I do go forth to buy, with wads of shining cash, I'll hunt up men who never try to sell me useless trash. I do not want to buy a trout, a side of bacon cured, or to have my back teeth taken out, or to have my life insured.—Walt Mason.

A blind pig has been found located in an OWEN Scud potato bin. It was discovered by a peeler.

A Birds' Hotel.

Although there is, perhaps, a tendency nowadays to house our pets in more comfortable quarters than was once thought necessary, the limit of luxury in birdcages has surely been reached in the unique structure known as the "Hotel Canary." It has been built in his spare time by Mr. Arthur E. Dunning, of the clerical staff of the American embassy in Berlin. In size, says the Strand Magazine, the Hotel Canary is seventy-five inches long by fifteen inches wide and it has a height, including the tower, of fifty-one inches. It contains rooms for a winter garden with a fountain and two flower-rooms, one at each end. The rooms are fitted with all modern improvements, such as electric light, running water, and so forth; while they are also provided with automatic feeding dishes.

RHEUMATISM Cured by Booth's Kidney Pills.

T. E. Foster, of St. John St., Fredericton, N. B., says: "I have found more actual relief from Booth's Kidney Pills than in all else I have ever tried for rheumatism. The pains in my limbs have lessened greatly and I am better and stronger than in years previous. My appetite has built up and I eat and sleep better than I have in over three years. My general health is greatly improved and I can credit this only to Booth's Kidney Pills."
"This is the Booth Kidney Pill way. These wonderful Pills are sold under a guarantee to refund your money if they do not relieve any sufferer from rheumatism or any disease having its origin in the kidneys. They cure backache, dull shooting pains, thick and cloudy urine, gravel and stone, rheumatism and all diseases of the kidneys and bladder.
Booth's Kidney Pills are sold by all druggists and dealers, 50c. a box, or post-paid from The R. T. Booth Co., Ltd., Fort Erie, Ont. Sold and guaranteed by T. B. Taylor & Sons.

Swift Justice.

A Yorkshireman was standing at the Blackpool flying meeting, when he remarked: "I understood that justice is meted out very quickly in these parts."
"Quite right," exclaimed the Lancastrian. "I should think it is. Why, mate, only yesterday an airman fell out of his aeroplane, and he was tried and sentenced to six months in jail before he hit the ground."
"You don't say so! What was the charge?"
"Aggravancy; he had no visible means of support."

The Children's Hair

A Little Extra Care Now May Save After Years of Regret
Children play so hard that the head perspires and the hair has a tendency to mat and get sticky, on the scalp. Soap and water doesn't seem to remove it, but the hair must breathe to be healthy. Just try Nyal's Hirsutone. Rub it into the roots of the hair with the balls of the fingers. The children like it and will ask you to use it. Hirsutone loosens up the accumulated dust and perspiration and the hair and scalp can then be easily and thoroughly cleaned. After it is dried give another application of Hirsutone. After you have used it for a while you will admit it is the best you have ever used. Your Nyal Drug Store will cheerfully guarantee Hirsutone to do all that is claimed for it.

He applieth for admission to a regular company, and is informed that his liver is no better than a pail of sand and that the valves of his heart are rusted out. He hieeth away to buy a liver pad and a bottle of Squill's heart regulator, but before night the undertaker hath him in the refrigerator.

CANADA CEMENT COMPANY LIMITED

Annual Report of the Board of Directors

TO THE SHAREHOLDERS:

Your Directors beg to present herewith the annual statement of the affairs and financial position of the Canada Cement Company, Limited, as of the 31st December, 1910.

In presenting the Balance Sheet, we call attention to the Company's strong financial position as disclosed by the large amount of cash on hand, and other quick assets, and the comparatively small amount of current liabilities. After providing for interest on our Bonds and Dividends on our Preferred Stock for the year, we have been able to set up reserves for depreciation, extraordinary repairs and renewals, bad debts, etc., and carry forward a substantial balance to Surplus Account.

The consumption of cement during the past year was not as large as anticipated. Our business also suffered on account of the Railways not being able to meet our full requirements for cars during the heavy shipping season; consequently, we carry over from last year 781,116 barrels of cement.

Early in 1910 the price of our product was fixed at a lower price than cement had ever been sold for in Canada, excepting for a short period in 1909, but your Directors are pleased to state that the anticipated savings in manufacturing and distributing our products were such that they were able to still further reduce this price.

We trust, when you consider the above mentioned conditions, and also the fact that during 1910 our plants were only operated to 57.6 per cent. of their capacity, the profits shown will be satisfactory to the Shareholders.

During the current year, we look for a larger natural demand, which demand will be stimulated by continuing to manufacture a strictly high grade article, and by selling it at the lowest possible price. This anticipated increase will enable us to operate our plants to better advantage than in the past, but we do not expect that the demand will be sufficient to enable us to put into operation either of the two plants which have been idle since the organization of this Company. However, it is confidently expected that the increased demand, and increased output, will result in further savings in the cost of manufacture and distribution, and it is the policy of your Directors to give your customers the benefit of these reductions.

The Shareholders' profits will depend on the increased volume of the Company's business, the policy of the Company being the maintenance of such a stable position as will insure regular and uniform payments of interest on its bonds and dividends on its Preferred stock, and at the same time be in a position to withstand any unforeseen emergency that may arise consequent on business depression or otherwise, which condition naturally necessitates the accumulation of, and the maintenance of, a large cash reserve.

It is also the policy of the Company to equalize the price of cement throughout Canada in so far as the physical conditions make such possible, and in furtherance of this policy, your Directors have arranged to purchase a site near Winnipeg, on which they will erect, this year, a mill to grind clinker, which clinker will be shipped from one of our Eastern mills. The buildings, machinery, etc., will be planned so that, should it at any time in the future be advisable, a Burning Department can be added, and the clinker produced on the property.

And further, an agreement has been entered into whereby this Company expects to acquire, in the near future, a property at Exshaw, which, added to our Calgary plant, and the projected plant at Winnipeg, will put us in the position of anticipating any extraordinary growth in the consumption of cement in the Great West.

With the view of educating the public, and popularizing the use of cement, in addition to the ordinary advertising, the Company has published a small book illustrating some of the many uses to which cement may be put, for which book there has been a great demand, 25,000 applications for same having been received during the past six months.

For the purpose of stimulating interest in the Company on behalf of the Employees, both in efficiency and cheapening production, as well as creating a feeling of mutual goodwill, your Directors deem it expedient to introduce a system, already adopted by several large industrial corporations with beneficial results, viz., to enable employees to become the possessors of Preferred and Common Stock at prices which will be attractive to them, the employees paying a fixed amount per share per month out of their earnings, and the Company carrying the stock for them, charging a rate of 5% interest. If the plan is put into effect, all dividends will be credited to the employees applying for the stock. Said stock will be held in trust for the employee for a term of five years, excepting in exceptional cases, such as death, when his heirs will receive what benefit a deceased employee has derived from subscribing to the stock.

Your Directors feel that the policy, as herein outlined, will, as nearly as possible, make the interests of the consumers, the employees, and the shareholders identical, and will inure to the most enduring and beneficial results for all concerned.

All of which is respectfully submitted.

On behalf of the Board of Directors,

WILLIAM C. EDWARDS,

President.

Taylor & Sons.

Confidence in the Mails.

Having sent a strong box key by mail in an unregistered letter, a clerk was told by his employer that the key "arrived O. K." but that the means of transportation adopted showed too much confidence. In answer the clerk said, "Ever since a New Year's eve incident of two years' standing my confidence in the postoffice is great." And pressed for an explanation he said: "That evening, or early in the morning rather, a man came out of a restaurant rather the worse for celebrating. He had a wallet in his pocket containing considerable money and was uncertain as to the honesty of his companions. He went to a letter box, forced the wallet through the slot and continued to make a night of it. It required considerable red tape to recover his property, but he got it."—New York Tribune.

Tippling and Treating.

There are two practices in this country that are being justly condemned. One is tippling and the other treating. To be sure, we are not responsible for originating either. Away back in the days of Queen Elizabeth every coffee house had a box bearing the inscription, "To Insure Promptness," hence T. I. P. Neither is treating an innovation. Some of the Caesars, so says history, used to get huffy when their guests could not see the bottom of the glass often enough. But both have got such a hold on Americans that they have come to be recognized as national habits, and the latter sometimes as a national evil.—Indianapolis News.

A Willing Witness.

"Did his actions have an air of verisimilitude?" the lawyer asked the witness.
"What was that, sir?"
"I say, did his conduct wear an air of verisimilitude?"
"Oh," replied the witness. "Sure! He was verisimilitudin' all round the place."—Saturday Evening Post.

Women and Their Idols.

"Women adore idols."
"Do they?"
"Don't they? Why, when a woman's idol proves human she's stronger for it than ever."—Toledo Blade.

An unjust acquisition is like a barbed arrow, which must be drawn backward with horrible anguish or else will be your destruction.—Jeremy Taylor.

OVER-WORKED KIDNEYS

Cause. Rush of Blood, Fullness, Dizziness.

J. T. Chetland, the well-known railway engineer of Hamilton, found the strain always resting upon men of his occupation vastly intensified by a tendency of the blood to rush to his head, and often at times when clearness of vision and great steadiness were demanded. Finding some difficulty in bending—a stiffness with pain having settled in his back, it occurred to him that his kidneys might be at fault. "This was a happy idea, for by it I not only got rid of the pain but many other troubles as well. I took a full dose of Dr. Hamilton's Pills and was glad to note that some obstruction of the kidneys, which I had lately noticed, was at once relieved. The flushed appearance of my face gave way to a more rational color and there was a perceptible improvement in my appetite. Dr. Hamilton's Pills certainly act splendidly upon the blood, removing heat and fulness and that sort of dizziness that makes a man at the throttle wish when it seizes him that he were elsewhere." No medicine gives such unquestionably good results for stomach, liver, and blood troubles as Dr. Hamilton's Pills; they are mild, certain, and always curative. Refuse any substitute. All dealers sell Dr. Hamilton's Pills, 25c per box, or The Catarrhose Co., Kingston, Ont.

SPRING REMINDERS OF RHEUMATISM

Raw, Damp Weather Starts the Pain, but the Trouble Lies in the Blood.

Spring weather is bad for rheumatic sufferers. The changes from mild to severe weather, cold, raw, damp winds following mildness start the aches and twinges, or in more extreme cases, the tortures of the trouble going. But it must be borne in mind that it is not the weather that causes rheumatism, the trouble is rooted in the blood—the changeable weather merely starts the pains. The only way to reach the trouble and cure it is through the blood. The poisonous rheumatic acids must be thrown off and driven out. This is a solemn medical truth every sufferer should realize.

Liniments and outward application may give temporary relief but they never did and never can cure rheumatism. Any sufferer will tell you this is true. The sufferer is only wasting time and money with this sort of treatment, and all the time the trouble is becoming more firmly rooted—and harder to cure. There is just one sure, speedy cure for rheumatism—Dr. Williams' Pink Pills. They act directly on the weak, impure and tainted blood. They purify and strengthen it and thus root out the cause of rheumatism. Here is a bit of proof out of thousands of similar cases that might be given.

Mrs. F. X. Boisseau, St. Jerome, Que., says: "For almost two years I was a terrible sufferer from rheumatism. The trouble first located in the right leg, making work about the house impossible, and walking very difficult. I tried to cure myself by means of all sorts of liniments and lotions, but with no result—it was money wasted. The trouble constantly grew worse and became more unbearable. Finally it attacked the other leg, and I was all but helpless and completely discouraged, thinking I would be a sufferer the rest of my life. At this time I read in our home paper of the trouble being cured by Dr. Williams' Pink Pills and decided to try them. After using the Pills for several weeks I could see that they were helping me, and I continued taking them until I had used nine or ten boxes, when all symptoms of the trouble had disappeared and I could walk as well as ever I did. Had I known of Dr. Williams' Pink Pills earlier, I would have saved myself much suffering and much money spent in useless treatment as well."

Whether you are ailing or not a few boxes of Dr. Williams' Pink Pills will increase your vitality and give you increased strength to withstand the torrid summer weather coming, when even the strongest feel easily fagged out. You can get these pills from any dealer in medicines or by mail at 50 cents a box or six boxes for \$2.50, from the Dr. Williams' Medicine Co., Brockville, Ont.

Bank Burglary at Wyoming.

Friday night an unsuccessful attempt was made to rob the branch of the Bank of Toronto at Wyoming by two burglars. When C. R. Weaver, the teller, who sleeps in the bank building went to his room Friday night he was seized by two masked men and bound and gagged and tied in bed. After securely fastening the young man so that he could not cause them any inconvenience the burglars proceeded down stairs to the bank proper. Here they smashed the combination on the private safe of the manager but failed to secure any money. They then turned their attention to the bank vault and endeavored to gain entrance to the vault. Mr. Weaver upstairs managed to wiggle himself loose from his fastenings and getting free he got his revolver and through the opening in the floor directly above the bank vault he fired

ed on the would-be-robbers. The intruders returned the fire from revolvers in their possession and then made a hasty exit from the bank building driving off in the darkness with a horse and buggy. The police at various points were notified at an early hour Saturday morning to be on the look out for the burglars, but so far no clue to their identity has been obtained.

Toronto Markets.

Toronto, March 14.—Receipts at the city cattle market were loads, with 852 head of cattle, 3,570 sheep and lambs, 200 hogs and 217 calves.

The choicest butcher cattle were picked out early, selling firm at \$5.75 to \$5.90. These were in small lots of twos and threes, a couple of choice heifers, 1,000 pounds, selling at \$5.90. Good straight loads of medium choice butcher were steady at \$5.60 to \$5.70, and good to medium at \$5.25 to \$5.50. A few odd selected fat cows and heavy bulls sold firm, one choice heavy bull selling at \$6 and a fat choice cow at \$5.40. The general run of fat cows and bulls, however, are 10c, to 15c, easier than last week.

The balance of the day's offerings, consisting for the most part of light cattle of poor quality, were a slow sale, with prices generally tending easier, though quotations were not materially changed from yesterday's levels.

Common mixed butcher, \$4 to \$4.25; canners, \$2 to \$2.50. Calves are easier at \$3 to \$3.50. Lambs steadier at \$6.80 to \$7. Ewes steady at \$4.25 to \$4.85.

Hogs unchanged at \$6.75, f. o. b., and \$7.05, fed and watered at Toronto. Fat, choice hogs, over 200 pounds, called out at 50c, less than regular quotations.

These are the days when SECURITY should weigh heavily with intending investors. All kind of inducements are now offered to draw your savings into speculative investments. Promises of higher rates of interest often result in the loss of all or part of the principal, with worry consequent on the thought that THE SAVINGS OF A LIFETIME HAVE BEEN WASTED IN A FEW MONTHS.

ADVANTAGES OF HOLDING AN INDUSTRIAL MORTGAGE & SAVINGS CO. 4% DEBENTURE.

1. There is no better security offered to you to-day in Canada.
2. Your money is invested in our own Province on farm lands and municipal debentures, with which you are thoroughly familiar.
3. You are saved all worry and unpleasantness consequent on loaning your money either on notes or mortgages.
4. Not a dollar is invested outside the Province of Ontario.
5. The debentures and deposits are the first claim on the entire assets of the Company which now amount to nearly two million dollars.

branches of the Ontario Farmers' Technical College, viz.: The Ontario Agricultural College.

This organization was started two years ago for the purpose of bringing the schools of the Province into closer connection with the College. The work is now past the experimental stage. In 1909 there were 117 schools co-operating in the work and last year 237 schools. It is expected that this year there will be a much larger number of schools taking up the work. Interest in industrial or vocational education is growing, and with our Government taking legislative steps to support this line of work, it should not be long before practically every school in Ontario has modified its work in the direction of giving the boys and girls some practical instruction of Agriculture into the curriculum of the Public Schools has been tried several times. The plans offered by the Schools' Division may be found to help in the solution of this problem.

For this year the Schools' Division is arranging to send out seed packets for children's gardening, seed grain for small experimental plots, shrubs, vines and tulip bulbs for school ground improvement; tree seeds and agricultural seeds, are also included in its distribution. To schools undertaking to frame it and give it a place on the walls, a picture of the Agricultural College is sent free also. For some of these things no charge is made, provided the material is used strictly for educational purposes; for most of the material, however, a charge is made as it is not possible, nor considered advisable, to undertake a free distribution of valuable material.

In all phases of the work, teachers and pupils are provided with instruction sheets, booklets or charts; they are not left alone in the work, but have the experience and co-operation of others who are doing the same kind of work elsewhere.

Any teachers or trustees interested in the work may secure information regarding it by addressing as below.

An Interesting Report.

Published elsewhere in this issue is the Annual Report for the past year of the Board of Directors of our Canada Cement Company, as read by the President, to the Shareholders, at the Annual Meeting held in Montreal on the 21st of February.

The frank statement of the policy and the general attitude of fairness evidenced by this address, are such as to warrant more than passing comment. Any lay member of the community reading the Report must surely feel disposed to echo the hope expressed by the President, that the increased demand and the increased output in the year to come will result in further savings in the cost of manufacture; and it further cannot be but felt by the public at large that any such reductions that may be obtained will, according to the broad-minded policy of the Company, be used as an advantage to the customers of the Company—the concern depending for their profits upon representing volume of business.

Especially interesting is the statement that the policy of the Company is such as to tend towards equalization of the price of cement throughout Canada so far as possible.

Another noteworthy feature of the Report is the provision made for employees to become possessors of stock. This is, as pointed out, a policy already in force in some of the larger institutions, and shows that the Canada Cement Company are quick to appreciate any means of stimulating interest and confidence upon the part of the staff.

The strong financial position of the company is a well known fact, and all that is necessary to ensure the continued success of the concern is continued prosperity of the country, together with an increased realization of the importance and economy of cement as a building material.

You Can Get FREE a 50c. Bottle of Psychine (Si-Keen)

Because we want you to know this wonderful remedy as we know it.

Do you know another such sweeping proposition as ours? Did you ever hear of anyone offering to prove any curative preparation along similar lines? All the risk is ours, all the cost is yours.

You yourself are to be the sole judge of all we claim for Psychine. Its beneficial effect alone will tell you, without prejudice, without any self-interest from any source.

It shows our confidence—this plan—does it not? Yet our confidence to us is not phenomenal, not out of the way.

Nor would our confidence seem extraordinary to you were you in our place, and were you to know the things we know.

We've known Psychine for a third of a century—almost a generation. We know of the hundreds of thousands it has cured.

We have hundreds of thousands of unsolicited testimonials. It doesn't require any great stretch of confidence to know from facts like these.

Psychine cures by increasing and strengthening the white corpuscles of the blood, or phagocytes. These white corpuscles eat every disease germ that finds entrance to the body, when they're strong enough and in sufficient numbers.

And Psychine builds these white corpuscles because of certain medical herbs it contains, nature's true remedy. Which science now knows will do just that.

We go to great expense to make Psychine. Our materials come from the ends of the earth.

They are compounded in one of the finest laboratories, in apparatus that is costly in the extreme.

But costly and all as it is we know what it will do, hence the reason of our buying a 50-cent bottle from your druggist and giving it you, free.

Now if you have any of these ailments, fill out the coupon and mail it to us to-day.

You'll never regret your decision so to do.

Now, we don't ask you to take our word for the tremendously beneficial effect of Psychine. Fill out the coupon, mail it to us and we'll give your druggist an order (for which we pay

him the regular retail price) for a 50-cent bottle of Psychine to be given you free of cost.

We will undoubtedly buy and distribute in this manner, hundreds of thousands of these 50-cent bottles of Psychine.

And we do that to show our entire confidence in this wonderful preparation.

A confidence that has been based on our thirty years' experience with this splendid preparation, with a full knowledge of the hundreds of thousands of cures it has made.

COUPON No. 122 To the Dr. T. A. SLOCUM, Ltd. 193-195 Spadina Ave., Toronto I accept your offer to try a 50c. bottle of Psychine (pronounced Si-Keen) at your expense. I have not had a 50c. bottle of Psychine under this plan. Kindly advise my druggist to deliver this bottle to me. My Name..... Town..... Street and Number..... My Druggist's Name..... Street and Number..... This coupon is not good for a 50c. bottle of Psychine if presented to the druggist—it must be sent us—we will then buy the 50c. bottle of Psychine from your druggist and direct him to deliver it to you. This offer may be withdrawn at any time without notice. Send coupon to-day.

Sixty-eight per cent. of New York theater patrons are women. This does not include the matinee attendance, where they are almost unanimous.

"Were you nervous when you proposed to your wife?" asked the sentimental person. "No," replied Mr. Meekton, "but if I could have foreseen the next ten years I would have been."

"Where can I get some of Holloway's Corn Cure? I was entirely cured of my corns by this remedy and I wish some more of it for my friends." So writes Mr. J. W. Brown, Chicago.

After much experiment the French government has decided not to adopt aluminum coinage, because it is too light, and will slip through the fingers unnoticed. Experiments are now being conducted with bronze containing 10 per cent. of aluminum, which, if adopted, would reduce the weight of coins about one-half.

Stomach Troubles Cured by Vinol

HERE IS PROOF "I suffered so long from stomach trouble and indigestion, that I lost flesh rapidly—VINOL cured me after everything else had failed. It strengthened my digestive organs—gave me a hearty appetite, and I can eat anything without the slightest distress. I do not believe anything equals VINOL for stomach trouble and indigestion."

W. E. WATERHOUSE, Portland, Me.

Mr. Thos. G. Wallace, of Detroit, Mich., writes, "I suffered for years from a chronic stomach trouble. VINOL entirely cured me after everything else had failed."

It is the curative medicinal elements of the cod's liver, combined with the strengthening properties of tonic iron contained in VINOL, which makes it so successful in restoring perfect digestion, and at the same time building up the weakened run-down system.

Try a bottle of VINOL with the understanding that your money will be returned if it does not help you.

Shiloh's Cure. A novel method of cutting down trees has been devised by a Berlin inventor, says Science Siftings. It consists in the use of a small steel wire, which is looped about the tree and sawed back and forth by an electric motor. The heat generated is sufficient to burn a thin channel through the wood. A tree twenty inches in diameter can be felled in six minutes. The charred butt of the tree may easily be marked with chalk, and the charcoal layer is so thin that it does not hide any decay or other defects in the wood.

A Fight on The Eaglet. Story of an American Privateer. By LOUISE LA ROSS. Copyright, 1910, by American Press Association.

The American privateer Eaglet cruising off Nova Scotia captured a British merchantman, Ellen Boyne, but the Eaglet's captain, not finding her cargo of sufficient value to make it worth his while to tow her into port or being prevented from doing so by the proximity of British cruisers, decided to burn her. The crew of the Boyne were taken aboard the Eaglet and a few days later were put ashore not far from Halifax.

When it became known what was to be done with them one of the Englishmen stepped up to the Eaglet's captain and said to him: "I would like to join your crew, captain. I don't care much what flag I sail under. I've been a soldier in the British army, but deserted to get rid of a sergeant's wife who wanted to get me tangled up with her. Thus I took to the sea, and here I am. If I go ashore I might be recognized, for the regiment I deserted from is at Halifax. Besides, I would rather remain afloat."

"You don't look rugged enough to breast ocean storms," replied the captain, eying the youthful figure of the man, whose eyes were blue, hair flaxen and on whose rosy cheeks not the slightest sign of a beard had yet appeared. "How old are you?" The man hesitated, then said that he didn't know; he had never known his parents and never had been told his age. "I can fight, captain," he added. "In the army I learned sword and bayonet exercise."

"What's your name?" "Ralph Bronson." "Well, you may stay with us if you like."

Ralph Bronson, leaving the captain, went straight to one of the American sailors and, with a pleased expression, said to him: "It's all right, Jack; I'm to be one of you." "Well, Ralph," replied the other, "since you don't wish to go I'm glad you're permitted to join us."

From the moment Ralph Bronson had come aboard the Eaglet he had striven to make friends with Jack Drury. Drury had neither encouraged nor repulsed the youngster's proffered friendship. The two were very different. Ralph being delicately organized, while Jack was a stalwart fellow and something of a leader among his fellow tars. "I don't see what the boy wants of me," he said to them, "unless it is protection, and he seems quite able to take care of himself."

One morning a ship was espied on the horizon, and the Eaglet's captain stood over to investigate her. He had a breeze which the ship had not, and by noon was near enough to her to make her out. He judged she was British, but could not tell. He fired a shot across her bow, whereupon she broke the blood red banner of England and, opening ports, ran out several guns. The Eaglet responded by breaking a flag on which there were a palmetto tree and a snake—the stars and stripes had not yet been adopted—and the fight commenced. When it ended by the British vessel striking her colors Jack Drury had taken a leadership and covered himself with glory, but he had lost his right arm and an eye. Ralph Bronson had kept beside him and when the crew of the privateer boarded the Britisher paraded a blow of a cutlass which would otherwise have split his friend's skull. But just then Bronson was knocked senseless by a blow from a musket, and before he had regained consciousness Drury received the wounds that cost him his arm and an eye.

But Ralph was only temporarily disabled and during the next few months devoted himself when not on watch to nursing the hero. When Drury was able to be about again he appeared a very different man from what he had been. At first he was honored by his fellows, but the enthusiasm attending war heroes after they have become useless is short lived. Drury could not do a seaman's work, nor was he, thus disabled, fitted for an officer. He was invited by his captain to remain on board as scullion in the galley, and in this unwarlike position his glory faded.

Among a crew made up of heterogeneous elements it was natural that there should be enmities. Notwithstanding the affection the Eaglet's crew bore Drury there were several of them who hated him and one who, no sooner had Jack got about again after being disabled, began to show his spleen toward him. It was the old story of the sick lion. This man, Par-

Deathly Cramps, Stomach was Bloating

A Bad Case That Proves Cramps and Stomach Disorders are Cured Fast by Nerviline.

"The distress I suffered from cramps last summer was so severe I thought it meant death," writes E. R. Emerson, of Guys Hill, P. O. "I was doubled up with pain and in such bad shape I couldn't walk a hundred feet. I remembered having Nerviline on hand and took half a teaspoonful in sweetened water. In five minutes I was well and my stomach derangements disappeared entirely."

NERVILINE AN INSTANT RELIEF

For cramps, flatulence, diarrhoea and disorders of the stomach and bowels, Nerviline knows no equal—one million bottles used every year—fifty years on the market, that's proof enough of its merit. Large bottles, 50c., trial size, 25c. All dealers or The Catarhoxone Company, Kingston, Ont.

sons, had been thrashed by Drury and had suffered the ignominy of having his nose rubbed in the scupper. Upon Jack's disability he had made up his mind secretly to get his revenge. But he knew that with the whole crew behind his enemy he must continue to throw the responsibility of a quarrel upon him. He began by casting a slur on everything Jack said. One day when Parsons had virtually given Drury the lie the latter turned on him and said: "See here, Parsons; this has been going on long enough. You have been trying to pick a fight with me and have succeeded. But you must be handicapped to meet my conditions. Bandage your left eye and tie your right arm behind your back and we'll settle the matter with cutlasses."

Parsons agreed, but the crew objected on the ground that Drury since the infliction of his wounds had never regained his general health and strength. But Drury would not listen to their objection, and a meeting was arranged. It must take place when the captain was in his bunk. He would not allow fighting among the crew, since he considered that such liberty would eventually cost him every man jack of them. The junior officers were not so particular, and if the captain could be eliminated their interference was not to be feared. So it was agreed that the affair should take place an hour before the coming aft of the midwatch, or 3 o'clock in the morning. At that hour in fair weather the captain was below asleep, and the second mate, who was in charge of the ship, had promised to accidentally fall asleep himself on the poop deck.

The night before the meeting was to take place Ralph Bronson stepped up to Parsons and said to him: "Parsons, you're a dog to force a fight on a disabled man. Why don't you take a well one?" "So you're going to chip into this affair, are you? We all know that you're tacked on to Drury and must be treated as he is treated. After I'm through with him I'll rub your nose in the scuppers."

"Just as Drury once served you." Parsons, with a scowl, went off.

The Bald Headed Man may Look Wise

But If He Had Been He Would Have Hair Now

You do not want a scientific treatise on the hair follicles—you are not particularly interested in the name of the German scientist who isolated the bug that is said to cause baldness. What you do want to know is how to save the hair you have and make it strong and lustrous. Nyal's Hirsutone will do it better than anything else. It is not claimed that Hirsutone is a wonderful scientific secret—but it is the concrete result of all that is proven in the scientific treatment of sick and diseased hair and scalp. It is a happy combination and you will notice a prompt improvement in the feeling of the scalp and the look of the hair.

Hirsutone loosens and removes all scaly and matted deposit on the scalp—stimulates the hair bulbs and gives new life and vigor to the hair itself. Nyal's Hirsutone gives back to the hair and scalp just what it has been robbed of by your neglect and abuse. It is time to start right. Use Hirsutone. It is one of the Nyal remedies and no higher recommendation can be given it. They are all good. Ask your Nyal Druggist. He recommends it.

about his duties. Bronson was disappointed. He wished to pick a quarrel that he might take Drury's place. Going below, Ralph, who was to be his friend's backer in the fight, had a final talk with his principal, and it was arranged that he should awaken Jack in the morning.

At four bells Ralph went to Jack's bunk. Jack was sleeping quietly. Ralph stood looking at him for a few moments, then stole away on tiptoe, took up a cutlass and went on deck. "What's the matter?" said Parsons as Ralph approached. "Has he backed out?"

"No; he's asleep. I've come in his stead."

"Oh, I don't want to fight a boy. I must have the man who challenged me."

"You'll fight me before you fight him, for I'm between you and him, and you can't get at him without going past me." With that Bronson took up a position he had learned in the British army. Parsons went at him as he would attack a Malay pirate. Ralph stepped lightly aside. Parsons turned and brought his cutlass down over Ralph's head. Ralph received it on his own weapon. His arm was bared, his sleeve being rolled above the elbow. The arm was round, but there was a fair muscle on it. Parsons, angry at not being able to get at his enemy, thought little of caution and exposed his left side, and Ralph rammed his weapon clean through it. Parsons looked about him wildly for a few moments, the blood spouting out of his wound, then fell in a heap on the deck. Then Ralph Bronson toppled over too.

When Drury awoke and saw the sun shining in through a porthole he could not understand the situation. There was no one near him at the time of whom to ask questions. So, springing up, he got into his clothes and went on deck. Everything was peaceful. The crew were going about their duties, as usual. The only noticeable feature was a man on his knees swabbing a place on the deck. Drury went up to him and, seeing that the water in his bucket was red, became more mystified than ever.

"What are you doing?" he asked the man.

"Swabbing Parsons' blood."

"Parsons' blood?"

"Yes; he was killed in a fight this morning at three bells."

"Who fought him?" asked Jack, fairly aghast.

"Ralph Bronson."

"Then," said Drury, "I'm going to kill Bronson."

But Bronson knew what his friend's first emotions upon knowing that he had been tricked would be and had gone into hiding.

Drury sought the boy, half minded to carry out his threat, but could not find him. Then Ralph's devotion began to dawn upon him, and he sought him to take his hand and gulp out his thanks. Still not finding him, he waited till it was time for Ralph to go on watch. Ralph did not appear. Then for the first time it occurred to him that Bronson might have been killed or at least mortally wounded. But a member of the crew reassured him, telling him that the boy had not received a scratch.

"Then what's he hiding from me for?" asked Drury.

"Dunno. After the fight they took him to the captain's cabin. The captain gave 'im a bunk by himself. That's all I know about it."

Drury fretted and fumed. At four bells in the afternoon an American ship appeared, coming right on the Eaglet's course. When she drew near she was spoken, and the Eaglet's captain went aboard of her. He returned with a bundle.

At six bells Drury received word that the captain wished to see him in his cabin. Drury hurried there and found not the captain, but Ralph Bronson in woman's clothes.

That's the end of the story. In a few days the Eaglet stopped at Newport, where Drury and the woman—whatever her name might be—went ashore and were seen no more on the privateer. Later a sum of prize money was paid to John Drury and Emma Bronson Drury in equal shares.

Report of Engineer Code read on his examination of the lands of Charles York and Frank Bell, in the endeavor to find the best course for draining these lots and relieving them of the overflow of water. The levels taken in the locality indicated that the best fall for drainage was south to town line Brooke and Euphemia and thence to Martin Creek.

Trustees of S. S. No. 13, Brooke, applied for a loan of \$1200.00 for the remodeling and improving of the present school house, the application stating that they had the consent of the ratepayers at a meeting called for that purpose.

Fisher—Monro, that application be entertained, and Clerk instructed to prepare a by-law for submission at the next meeting, authorizing the issue of the debentures required for loan.—Carried.

Auditor Shirley and Risk presented their report of the financial transactions and standing of the Township for 1910. Receipts \$5103.38, expenditures \$54927.31, Balance \$176.07. Assets \$18777.17, liabilities \$12303.07, balance \$6474.10.

Darvill—Fisher, that Auditors' Report be accepted and 300 copies printed for general distribution. The minutes of Council of 1910 to be published with the report.—Carried.

Messrs. Gilroy and Turner asked that a by-law be passed to permit the construction on the east side of the allowance for shade of a cinder or gravel walk between the southern boundary of the Village of Alvinston, and the cemetery, also to grant the sum of \$100 in aid of the work.

Darvill—Monro, that permission be given to construct the walk asked for on the easterly side of the allowance for shade of a cinder or gravel walk between the southern boundary of the Village of Alvinston, and the cemetery, also to grant the sum of \$100 in aid of the work.—Carried.

Edgar J. Rilett of the Township of Euphemia applied for payment for damages to his horse and harness by horse going over an embankment at the time the roads were so icy. He, claiming it there had been a railing alongside, the accident would not have occurred.

Notice received that Mr. John Morcom had discontinued his suit for damages for injuries to himself and damages to engine, by breaking through a culvert over No. 1 drain, leading into a private residence.

Darvill—Monro, that the Clerk be instructed to get the costs in connection with this matter taxed, leaving Mr. Morcom to pay his own.—Carried.

By-law submitted to authorize the construction of the Edgar Drain No. 2, and the borrowing by debenture of the sum of \$681.00, the estimated cost of work.

Fisher—Tait, that by-law be provisionally adopted, printed in pamphlet form and copies served on each of the parties assessed, with notice that Court of Revision on by-law would be held in the Orange Hall, Inwood, on Saturday, the 15th day of April, 1911. Albert Sutton to be Commissioner and to serve by-laws.—Carried.

By-law submitted authorizing the construction of the 7-8 con. Blind Line Drain, and the issuing of debentures to the amount of \$662.00, to defray cost of work.

Fisher—Sutton, that by-law be provisionally adopted, printed in pamphlet form and copies served on each party assessed, with notice that a Court of Revision on by-law would be held in the Orange Hall, Inwood, on Saturday, the 15th day of April. Arch. Monro to be Commissioner and to serve by-laws.—Carried.

Fisher—Monro, that Council as a committee of the whole, visit and inspect the bridges and culverts that may need rebuilding or repairing, and the roads in and places that may need expensive improvements.—Carried.

Darvill—Tait, that the by-law to provide for the establishment and maintenance of a municipal owned telephone system in the Township of Brooke, be introduced and read a first time.—Carried.

Sutton—Moore, that the Telephone By-law be read a second time.—Carried.

Fisher—Darvill, that the by-law authorizing the construction and maintenance of municipal owned telephone lines in the Township, be read a third time and finally passed.—Carried.

Monro—Sutton, that Council do now adjourn to meet in the Village of Inwood on Saturday, the 15th day of April, 1911.—Carried.

Miss A. Sawers, Brucefield, is visiting

Dr. and Mrs. Sawers, in the village. Rev. Dr. McDonald, Kilmartin, called on Mr. and Mrs. Stewart at the Manse on Thursday last.

The W. F. M. S. met at the home of Miss Eva Bailey, on Wednesday afternoon.

The topic at the Young People's Guild Sunday evening was taken by Mrs. D. Walker, who gave an excellent paper on "First Aid for the Tempted." Mr. Stewart also addressed the young people.

The Literary Society, under the organization of St. Andrew's church, will meet in the Napier town hall on Friday evening, March 17th. A debate will be held on "Resolved—That women should have equal rights with men in voting." Speakers on the affirmative side are Bert Buchanan, Elva McIntyre and Ogilvie Gough; on negative side, Fred McPhail, L. Kadey and Howard McLean. A close debate is expected. A musical program will follow. All are welcome.

Robb—Higgins.

A quiet event took place at Christ church, Nekomas, Sask., on Monday, March 6th, being the marriage of Charles S. Robb, of Kellier, Sask., to Violet A. Higgins, youngest daughter of the late James Higgins, of Watford, Ont.

The ceremony was performed by the Rev. A. C. Calder. The bride was handsomely attired in a gown of Alice blue with trimmings of lace.

The happy couple left on the evening train for Kellier, where they will make their home. Their many friends join in wishing them a long and prosperous married life.
