VOL. 12

BRIDGETOWN, ANnapolis COUNTY, NOVA SCOTIA, FEBRUARY 19, 1908

NO 41

## WALL PAPER.

I have an immense stock of **English and Canadian Wall Papers**, which I must turn into cash or produce. **DO NOT BUY** until you see our samples and **GET OUR PRICES**. I shall call shortly at every home in Eastern Annapolis County. I am positive that **I Can please you and Save You Money**, as our paper is all bought direct from factory and not from jobbing houses.

Butter and Eggs taken in Exchange at highest Market Prices.

**F. B. BISHOP.**

Lawrencetown, Feb. 17, 1908.

## BRIDGETOWN BOOT & SHOE STORE

### JUST OPENED.

Some very nice lines of Ladies' Oxford Shoes for Spring in Patent Leather, Tan or Black Dougla. Also a very nice line of Children's Slippers. Rubbers of all kinds and for all kinds of feet.

**E. A. COCHRANE.**

## Provincial Legislature

HALIFAX, Feb. 14.—The provincial legislature opened on Thursday afternoon. The speech from the throne was short. It referred to last year as an uneventful one, and to the present year as one of continued prosperity throughout the Dominion and to Nova Scotia as having received the industry of her people. The progress made towards erecting a technical school building, the establishment of the technical school, legislation for inducing desirable immigrants to locate here, the establishment of a department of industries and immigration, the surveys for the Halifax-Eastern railway, the amendments to the British North America Act, the method of paying common school grants, the question of vital statistics and old age pensions for miners were all referred to. The address in reply was moved by G. E. Faulkner, M. P., Halifax, and seconded by Dr. March, M. P., Lunenburg.

**"Life in Every Dose"**  
"I cannot speak too highly of **Paychion**, for it is the greatest medicine I ever used. I was just about 'all in' when I began the treatment, and in 3 months I was as well as ever. It is a great tonic for weak and run-down people. There is new life in every dose."  
JAS. STOLPER.  
Ridgetown, Ont., Dec. 19, 1906.  
It is a sin not to tell your sick friends about this wonderful prescription. Throat, lung and stomach troubles, and all run-down conditions quickly cured by its use. At all druggists, 50c and \$1.00, or Dr. T. A. Nicum, Ltd., Toronto.

## Empire Day Rifle Contest.

The Over-Sea Edition of the "Daily Mail" has, with the assistance of several Rifle Clubs and Associations in different parts of the world, inaugurated an Inter-Colonial Empire Day Rifle Contest to be shot on May 24th and on succeeding Empire Days. The contest has aroused lively interest in all parts of the Empire and already some 55 Rifle Associations have signified their intention of competing. Canada will be represented by no less than 40 teams from all parts of the Dominion from British Columbia to Nova Scotia; while entries have also been made from Newfoundland, the Channel Islands, India, Straits Settlements, British West Indies, Cape Colony, Natal, Rhodesia, Uganda, Irish Honours, Australia, and New Zealand. It is anticipated that before May 24th, every section of the British Empire will be represented. A Fifty Guinea Challenge Cup will be presented by the Over-Sea "Daily Mail," Carmelite House, London, England.

Messages of approval of the scheme have been received from Field-Marshal Lord Roberts, Field-Marshal Sir Evelyn Wood, General Sir John French and Major-General Lord Chelmsford. Lord Roberts has written as follows concerning the movement: "Anything that tends to draw closer the ties that unite the Colonies to each other and the mother country should be encouraged, more especially a competition of the kind which is now on the way of which by all good citizens, will do much to strengthen the ties of the Empire. I wish the Competition all success and hope its scope may be enlarged year by year. The conditions of the contest are as follows:—Rifles—300, 500, and 600 yards. Range—200, 500, and 600 yards. Rounds—The sighting shot at target. Position—Any, with lead to target. Team—Eight highest scores on day of the match to count as team. Readers, desiring further particulars should communicate with the Over-Sea "Daily Mail," London, England.

## Most Inhuman Event in History

NEW YORK, February 16.—Declaring that war between the United States and Japan would be "the most inhuman event in the world's history," and was "too heinous" to be thought of, Baron Kogoro Takahira, the Japanese ambassador to Washington, today issued a statement in New York from the Etowah, that the Japanese people knew absolutely nothing of a break in their relations to each other. The note of the twentieth century is to be, I believe, the development of peaceful settlement of disputes and differences among nations and the abolition of war. Every act on the part of those charged with the education of the youth of our country which tends to hinder that consummation by fostering the spirit of militarism is contrary to the teachings of our religion and opposed to the real spirit of the age. It is very regrettable that the best way to preserve peace is to be prepared for war. Queen Alexandra's prayer book of wisdom. In an interview reported in the Paris Gazette two years ago last spring she gave utterance to the following sentiments: "I was educated in the school of a king, who was before all things just, and I have tried, like him, always to preach love and charity. I have always mistrusted war-like preparations of which nations seem never to tire. Some day this accumulated material of soldiers and guns will burst into flames in a frightful war that will throw humanity into mourning on earth and grieve our universal father in heaven."

## Chas. W. Morse Promoter

NEW YORK, February 16.—Charles W. Morse, financier and promoter of many large combinations and manager of nearly all the constable-ship lines, returned today from his head trip to Europe, was arrested in his stateroom when the steamer Etowah reached quarantine in the lower bay, and held in custody until the ship was docked, and was then whirled away in an automobile to the home of Justice Victor Dowling of the supreme court, where he gave bond in the sum of \$20,000 to answer to two indictments charging him with grand larceny and involving the sum of \$100,000. Mr. Morse was released and went immediately to his Fifth Avenue home, where he issued a statement tonight asserting his innocence and asking the public to suspend judgment until he had had the opportunity of facing his accusers in court. He denied that his trip to Europe was a flight. He said that he went abroad to get a fortnight's rest. Both purposes were spoiled by the publication of reports that he was a fugitive from justice, he declared.

## FOR THAT TERRIBLE ITCHING.

Eczema, tetter and salt rheum keep little children in perpetual torment. The application of Chamberlain's Salve will instantly allay this itching, and many cases have been cured by its use. For sale by W. A. WARREN, BRIDGETOWN, N. S. W. WADE AND BEAR RIVER DRUG STORE, BEAR RIVER.

## THE ARTS OF WAR

### VERSUS THE ARTS OF PEACE

Judge Chesley and Colonel Fritze of Lunenburg Express Their Views on Military Training in the Public Schools in the Progress-Enterprise.

Sir, Allow me to add one to the number, small as yet, of those who protest against the proposal to add military drill and instruction in the use of the rifle to the long list of subjects taught in our public schools. I am a firm believer in the value of discipline, in all the meanings ascribed to the word by Webster, "development of the mind and character, training to act in accordance with established rules," "accustoming to regular and systematic action," "subjection to rule, or "punishment inflicted by way of correction and training." In all these senses there ought to be a great deal more discipline than is now practical in the home and in the school. But discipline in all these senses can be secured without the least suggestion of militarism. There was once a partially civilized country where, centuries before the advent of the Prince of Peace, the ideal of education for free born youths was to learn to ride well, shoot straight and tell the truth. In this country, where all our youth are free born, we may well strive to secure the last of the three elements of education recognized in ancient times, but in the nineteenth century of the Christian era we can well afford to dispense with the other two. We need upright citizens, and our whole school system should be planned to develop them. We do not need an armed and warlike population, and we should religiously refrain from cultivating in our youth, the fighting instinct and the love of military glory.

If our educationists wish to secure the benefits of discipline in larger measure in our public schools, the way has been indicated by a movement which has made considerable progress in the motherland, and which has been tried in some instances in Canada. The Boys' Life Brigade, and the Girls' Life Brigade, are based upon the fundamental idea of saving life, instead of killing. Gymnastic exercises, squad drill, instruction in hygiene are combined with instruction and exercises in first aid to the injured and saving from drowning and from fire. Hitherto the movement has been confined to churches and Sunday Schools. There is no reason why it should not be adopted in connection with our public schools. It is certainly more in accordance with the true ideals of a Christian nation—if we are a Christian nation—to teach our boys and girls to become healthy and strong and how to save life, than to teach them how to kill people.

It is really worth while for the people of Canada to stop and consider how far we are going in the matter of military expenditure. The militia estimates for the year, as published in your paper the other day, amount to \$6,411,900. The expenditure ten years ago was \$1,688,213. The figures in both cases are exclusive of the cost of the department itself, and the cost of the North West Mounted Police, items which would bring the whole present military expenditure of the Dominion up to about seven and a quarter million dollars. Is the whole show worth it?

Yours,  
S. A. CHESLEY.

Sir, Your last issue contained a letter protesting against the introduction of military drill and instruction in the use of the rifle to our public school curriculum. The writer contended that the whole military system is contrary to our religion, runs up the expense and asks, "Is the whole show worth it?"

With your permission, I shall try to state briefly a few facts on the other side of the question. I think it is generally conceded that in prescribed syllabus of our schools the limit has been reached. Some go a little farther and say it has been overdone. At all events, to keep up with the class, the pupil in the higher grades has to tax his mental ability to the very limit, in order to memorize the many subjects. He has also to devote about all his time, consequently he has little time for other work or recreation. The result is a one-sided development, the intellectual at the expense of the physical. It is to correct this evil that the drill has been introduced.

This is no untried experiment. Excellent as the German school system is, the results attained have been exceeded in Sweden, due to physical training, which has been taught for many years. Sweden not only contains a smaller percentage of illiterates than any other nation but physically and morally they excel.

The fact that the Minister of Militia not only the increasing physical degeneracy, and also realized that strong men may some day be needed in defence of the country, should not condemn the scheme. Whatever the object, the result will be the development of sound minds in healthy bodies.

Your correspondent states, "I am a firm believer in the value of discipline and quotes several definitions of the word from Webster, not one of which is correct in a military sense. Discipline is everything, and his inability to define the word is the most eloquent presentation of his credentials as a military critic—an entire insufficiency of the whole system."

"Discipline is a cheerful obedience to those over us." The teaching of rifle shooting is a great aid in imparting that element, as it trains the eye, steadies the nerves, and encourages alertness and decision. No one can shoot in an angry or excited state. He must keep cool and observe certain established rules.

The Swiss school boy of today is

carefully taught the use of the modern weapon. Marksmanship is considered a necessary element of education. The fact that Switzerland, surrounded by all sides by the armed camp of Europe, is able to protect her little republic by a force of citizen soldiers, thoroughly trained in the use of the rifle, but quietly following their peaceful occupations, until the moment should arrive for action against a hostile invader, proves that "the whole show" is worth something.

Regarding the Militia expenditure, your correspondent gives the figures of ten years ago and compares them with the estimate for the present year. Though he evidently neglected to learn to ride and shoot in his youth, he might have mentioned that since 1805 the Dominion government took over the militia duties at Halifax and Esplanade, which necessarily increased the cost. The Militia has been described as Canada's insurance policy. Ten years ago we had a cheap one; today we pay a higher premium and have a better one.

Yours truly,  
E. B. FRITZE.  
MINARD'S LINIMENT CO., LTD.  
Some time ago I had a bad attack of Quinsy which laid me up for two weeks and cost me a lot of money. Finding the lump again forming in my throat, I lathered freely with MINARD'S LINIMENT, and saturating a cloth with the liniment left it on all night. Next morning the swelling was gone and I attributed the wearing off of an attack of Quinsy to the free use of MINARD'S LINIMENT.  
St. John.  
G. F. WOODLEY.

## LAWRENCETOWN.

Church services for Sunday 23rd.—Baptist, 11 a. m.; Methodist, 11 a. m.; Episcopal, 8 p. m.  
Miss Stedman of Digby is the guest of her uncle, F. C. Palfrey.  
Mrs. T. H. Edd is in New Brunswick visiting her father, who is seriously ill.  
Miss Margaret Vance returned to her home in Halifax, after spending two weeks, the guest of her sister, Mrs. S. C. Hall.  
Mrs. H. W. Phinney and son returned home last week from a week's visit in Bear River.  
Miss Tina Babson is spending a week in Bridgetown.  
We regret to report Dr. Pinrose, and Rev. Mr. Pickles, no better, at time of writing.  
Mr. and Mrs. Clayton Zeicker of Albany spent Thursday, the guests of Mrs. Oswald.

## NICTAUX

Sunday had, in every way, the appearance of April.  
Hon. Arthur Bekswith of Montana is visiting his brother, M. N. Bekswith. It is twenty-eight years since Mr. Bekswith first went west. He understands his own soil, his business and does not intend going back. He is another of Nova Scotia's young men who have done well in the West.  
Mrs. Fred Keith and little son, have been visiting her mother, Mrs. Edwin Barreault of Nictaux Falls.  
Last week the Rugles Bros., harvested their own ice from their own pond. They report never getting better ice or getting it in better condition.

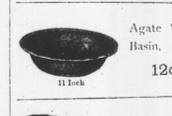

Little Miss Hazel Foster of North Kingston is visiting her aunt, Mrs. Percy Noyes.  
Last Saturday night some of our young folks joined the Division at the Falls.  
The many friends of Dr. S. C. Pinrose of Lawrencetown are very sorry to know he is in failing health.

"I tell you, Ma'am, you ought to use  
**St. George's  
Baking Powder**

If only for the reason that it is wholesome and healthful.  
The knowledge that you are NOT eating alum, lime, ammonia and sold in your food—should come for a great deal of credit.  
"ST. GEORGE'S" is made of 99.999 pure Cream of Tartar. Try it.

Why the Home Weekly  
Advertisement Pay

The reader of a small town daily or weekly usually receives the paper of his paper until such time as he can do so without being interrupted by something else. Most newspaper reading is done in the evenings, after supper, when the ears of daily toil have been for a short space set aside. It is read, as a rule, under the most comfortable circumstances by the fireside in the winter and on the lawn or verandah in the summer.

Being comfortable and free from interruptions, the reader's mind is also receptive. And for this reason, items of news or advertisements, which would receive but scant courtesy in a hurried perusal under the circumstances, are here given full attention, receive a fair amount of attention. The newspaper advertiser, therefore, reaches the man he is after—the buyer—under the most favorable conditions. It is even better than a personal interview for this reason. All persons or pretty nearly all—are prone to argument, and if you apply personally to a man whose mind is neutral upon the subject of your interview, even though he has any amount of leisure at his disposal, he will argue the point and will take a mighty lot of convincing. Particularly in this case when an attempt is being made to make a sale of an article in which the person concerned is not interested already. If he is already interested the case assumes a different aspect, and a personal interview, properly conducted, is by no means without its effect.

The Weekly Sun of Toronto says:—"In Nova Scotia, in the opinion of Principal Cumming, climatic conditions are peculiarly favorable to the greatest possible production in dairy lines, and in proof he points to his own record of an average of 13,000 lbs. of milk from the Holstein herd at Tru Agricultural College, in Nova Scotia, too, for the reason stated by Mr. Cumming, dairy production is likely shortly to be increased. Ontario dairymen, however, face all this and make money in doing so, but in order to do this constant progress along dairy lines is essential."

**Not a Miracle  
But Medical Science**

Dr. T. A. Shecum Limited,  
Toronto, Ont.

Gentlemen—  
"Some time ago I began to lose flesh and failed every day until I had to quit work. My physicians and all my friends said I had contracted consumption. I failed from 165 pounds down to 110. I was advised to go to the Rockies or to the coast. I went to both places under heavy expense. I continued to fail, and was advised by the doctors to come home as nothing more could be done for me. Home secured, I tried Pepsine and since starting its use I have gained from 110 to 145 pounds. I have used \$10.00 worth of the medicine. I am a well man and I cannot say too much in praise of Pepsine. The strongest recommendation would be weak in view of the fact that I believe it has saved my life. It is without doubt the best remedy for run-down conditions and weak lungs. I sincerely hope and trust that you will continue your good work of saving run-down people and consumptive from the grave. Wishing you and Pepsine continued success, I remain, one of Pepsine's best friends."

ALEX. McRAE,  
Sault Ste. Marie, Ont.  
Almost every mail brings us letters like the above. Pepsine will repeat this record in every case. It is the greatest medicine known. At all drug stores, 50c and \$1.00, or Dr. T. A. Shecum Limited, Toronto.

**PAPER PAIDS FOR MILK.**

Latest London Conventions for Securing Pure Milk Supply.

For years London's milk supply has been blamed by medical men and health officers for a great deal of the infant mortality.

Now the dairy companies are to deliver milk at the doors of houses in paper pails or pitchers, which are said to be absolutely proof against germs and water.

The paper pails are being made at a new factory at the rate of 50,000 daily, but they will require to be tested out at the rate of some millions daily if the demand is to be met.

These milk pails, made from wood pulp, are, of course, used only once, says What to Eat. But they will be cheaper than metal pails, pitchers, or glass bottles, for one reason, because all labor of cleaning and sterilizing will be saved.

The pail is a simple contrivance, twelve times lighter than the ordinary milk can, is stronger made and is finished off after being rendered water-proof, by being sterilized in a furnace heated up to 200 degrees Fahrenheit. Every pail has a close fitting flange cover which can be quickly adjusted, and when fixed, effectually seals the milk from any outside influence.

**ANNAPOLIS SS.**

**The Municipal Council**  
ANNUAL SESSION 1906

Ordered that road district No. 20 being that piece of road leading from Waldock line road so called, to St. George's north line be added to road district No. 15 and be known hereafter as road district No. 16 in Ward 8, City of Annapolis.

Ordered that Randolph Brown be transferred from road district No. 3 to road district No. 23 in Ward No. 1. Upon reading the petition of E. T. Nelly and upwards of twenty others, freeholders of the County of Annapolis asking for a road to be opened up leading from the Parker Dodge road so called, direct to Middleton and the report of E. T. Nelly, C. F. Armstrong and N. F. Marshall, Commissioners appointed to consider the necessity of said road and on motion it was ordered that the report of said Committee be received and approved and arbitrators be appointed to assess the damage on land of Owen Wheelock.

**REPORT OF COMMISSIONERS.**  
The following is the report:  
To the Municipal Council of Annapolis Co.

Gentlemen—  
Your Commissioners appointed to report upon the desirability and location of the proposed new road from Brooklyn to Middleton have completed their work and submit the following report of their proceedings.

We examined the new route and compared it with the one now used, and are satisfied that it will be in the public interest, to open the new road for the following reasons:

- (1) It will save three quarters of a mile in distance for all traffic between Middleton railway station and Brooklyn, Clarence and Mr. Huxley.
- (2) There will be one railway crossing instead of three.
- (3) The public now travel this new road in winter.
- (4) The cost of construction will be light, no fencing required, no clearing, no grading, no bridges, easy grades and good drainage.

We have therefore laid out the road as shown on the annexed plans three rods wide.

Proprietors.	Acres.	Estimated Damages.	Assessed
J. H. Nelly	1.00	\$60.00	\$60.00
Owen Wheelock	1.00	60.00	60.00
Henry Cox	1.00	60.00	60.00
			\$180.00

Messrs. Nelly and Cox will agree to appraise, but we failed to get a satisfactory understanding with Mr. Wheelock.

Signed, N. F. MARSHALL,  
E. T. NELLY,  
C. F. ARMSTRONG,  
Commissioners.

Middleton, Jan. 3rd, 1906.  
Jacob V. Whitman was named as arbitrator on behalf of the Council by the Warden.

Upon reading the petition of H. F. Reed and upwards of twenty others, freeholders of the County of Annapolis in Middleton, praying that the Council give them the power and privilege of straightening a bend in the north end of Commercial Street in the town of Middleton on the road leading to Port George between Samuel Denison's and Albert Taylor's land, the report of the Commissioners, G. C. Miller, N. F. Marshall and A. V. Dodge, and it appearing that notices had been posted and the law had been in all respects complied with was ordered that all proceedings had heretofore been continued and that said road be opened and known as a public road, in the County of Annapolis.

Ordered that Council adjourn until tomorrow morning at ten o'clock.

Thursday morning.  
Council met at ten o'clock.  
All Councillors present.  
Minutes read and approved.

The Warden reported verbally that he had conferred with Mr. Gikins as instructed by Council regarding the proposed road over railway lands near Carleton's Corner, but had been unable to arrive at any satisfactory arrangement.

Upon reading the petition of F. M. Nelson and upwards of twenty others, freeholders of the County of Annapolis praying that a road be laid out from Bridgetown lane so called, west to meet a road now laid out to the International Brick and Tile Company's lands, and on motion it was ordered that J. V. Whitman be a Committee to require into the necessity of said road and if necessary to lay out same and report at the April session.

Committee appointed to confer with the Committee of the town Council, Board of Trade of Annapolis town then reported verbally, that no arrangements had been up-to-date entered into for a Ferry service, but that an arrangement was under consideration.

Ordered that a Committee be appointed by the Warden to enter into

**Why Women Tire Easily**

CHICAGO, Feb. 17.—A woman, tired and exhausted by exertion because she is improperly dressed, according to the theory of Dr. E. C. Dudley, expressed yesterday in a lecture before a class in North-Western University Medical College. "No wonder her circulation is poor, no wonder she is unable to stand any exercise or exertion," said Dr. Dudley. "The upper garments are usually of some thin material and according to the caprice of fashion may or may not cover the arms, neck and upper part of the bust. A profusion of skirts are worn loosely about the lower extremity of the body and the feet held in a vice-like grip of thin high-heeled shoes, which stilt more than support."

"In strange contrast to such inadequate protection of the upper and lower extremities, the waist and ribs are swathed and compressed in a torrid zone of whalebone, corset, belt, steels, and the bands of the various outer garments worn by the women of today. The average woman wears a total of seventeen layers of bands of some sort around her waist. Allowing twenty-four inches as the average waist circumference of a Chicago woman, although there are many with larger waists, it seems that each woman has a total of thirty-four feet of bandage tightly wrapped around her waist. Dr. Dudley said his class the only way the women of today can become strong and healthy is by banishing the numerous tight bandages about the waist and giving more care to keeping the upper and lower portions of the body warm."

**Sir O. Lodge on the Future Life**

Sir Oliver Lodge, lecturing before the Rusk Society of Birmingham, on the connection between the physical and physical, contended the science of the immaterial might be as valid as the science of the material. It might be as possible, he said, for one mind to use another brain as for an author to use another man's ink.

Speculating regarding the condition of the individual after death, Sir Oliver contended he might still exist in ether without his surround as being altogether different. Science taught nothing more surely about the universe than the continuity of existence. There was no break in continuous, conscious identity. Genuine character, personality, memory and the culture of the affections and tastes were continued, while the terrestrial possessions of pain and disease were merely taken away. The powers and faculties may be enlarged and insight acquired.

**THEN YOU'LL REMEMBER ME.**

An Ohio author, now in Chicago, recently had a visit from a friend who still lives in the town where the two were boys together. He gives this account of the memory. "Nebbit," said he, with the pleasantest kind of a look on his face, you remember that little old house on Main street where you were born? When he said that that it brought up a vision of that house clear as the reality. I saw the queer little windows, the nice friendly door, the yard, the blue-skyed sky. "Yes, Bill," I said with emotion, "I remember very well." "Well," he said, "the folks have gone and put a tablet on that old house." At first I couldn't speak. I had all I could do to keep the tears from coming. The folks hadn't lost sight of me then? They knew what I was doing? A tablet was put on the house? "I admitted to myself, something beyond my deserts, but—there it was. When I could speak I said: 'And what does the tablet say, Bill, old man?' But looked away out of the window. 'Main street,' said he softly."

Grippe is sweeping the country. Stop it with Prevention, before it gets deeply seated. To check early colds with these little Candy Cold Cure Tablets is surely sensible and safe. Prevention contains no quinine, no laxative, no ting harsh or sickening. Prevention would never appear if early colds were promptly broken. Also good for fresh children. Large box, 48 tablets, 25 cents. Vast pocket boxes, 5 cents. **ROYAL PHARMACY, BRIDGETOWN, BEAR RIVER DRUG STORE, BEAR RIVER.**

**BROUGHT TO TERMS.**

In the Drayton household it is said that the father of the family has a way of presenting alternatives to his children that never fails to bring them into line.

"I wish you would speak to Bobby," said Mrs. Drayton one night. "I've told him to take his medicine and then jump into bed, and he won't do it. He just hops round, and says he doesn't want to take the medicine, and he doesn't want to go to bed!"

Mr. Drayton stepped to the door of Bobby's room, and stood there, tall, grave and impressive.

"Bobby," he said, firmly, "if you don't take your medicine at once, and then jump into bed, you will be put to bed, do you hear me, put to bed, without having your medicine at all!"

Upon which, Bobby, alarmed and confused, swallowed his allotted portion and snuggled himself for the night. —Youth's Companion.

**NOW I AM WELL**

THANKS TO "FRUIT-A-TIVES"

E.H. Manitoba.

I wish to state, for the sake of others who may be sufferers like I was, that I suffered from severe indigestion and constipation for years and that there was also womb trouble with unpleasant pains in my back which made me miserable, constantly. I tried physicians and took many remedies but I got no relief. I was induced to try "Fruit-a-tives" and I can truly say this was the first medicine that ever did me any good. "Fruit-a-tives" quickly relieved the constipation and indigestion and completely cured me of all symptoms of womb trouble. I cannot express too strongly my great gratitude to this medicine as I am as well now in every way as ever I was, thanks to "Fruit-a-tives". I can strongly recommend "Fruit-a-tives". It is easy to take and the effect is always mild like fruit.

(Sgd) MRS. M. BRELAND.

Many women suffer with what the doctors call "Womb Trouble" or "Diseased Ovaries" or "Female Complaints" etc. — when Constipation is causing all the pain. Cure the liver and make the bowels move regularly with "Fruit-a-tives" and the "Womb Trouble" will be cured at the same time.

"Fruit-a-tives" — or "Fruit Liver Tablets" are sold by dealers at 50c a box and 4 for \$2.00 — or will be sent on receipt of price. Fruit-a-tives Limited, Ottawa.

**REASON ENTOMBED.**

Because meats are so tasty they are consumed in great excess. This leads to stomach troubles, biliousness and constipation. Revive your diet, eat reason and not a pampered appetite. Get the lowest move regularly with "Fruit-a-tives" and the "Womb Trouble" will be cured at the same time.

"Fruit-a-tives" — or "Fruit Liver Tablets" are sold by dealers at 50c a box and 4 for \$2.00 — or will be sent on receipt of price. Fruit-a-tives Limited, Ottawa.

**Valuable Samples Free**

"I have used your Coltsfoot Epectorant and find it satisfactory in cases of cough, cold or croup. I have used it ever since I got a trial bottle, and have recommended it to everyone in need of it. You may use my name and address for testimonials if you wish. Hoping it will benefit others as it has done my children, I remain,

MRS. AGNES COMBER,"

1069 Francis St., London, Ont.

Coltsfoot Epectorant is the greatest cough and throat cure in the world. It is the prescription of a renowned specialist. In order that every family may have its untroubled member, we will send a sample bottle free to everyone who sends in the name and address and mentions this paper. Can be had at all druggists at 25c. Send your name today to Dr. T. A. Bloom, Ltd., Toronto.

Send for Free Sample to-day.

**A COLD WORLD FOR TOMMY.**

Father's got the fresh air craze, and mother's got it, too.

And I don't know if I can stand this blowing winter through rain.

We haven't a furnace fire, 'cause father says as where

A fire is unhealthy, so we warm with his hot air.

He gets an 'ery mornin' and thaws out both the cats.

And then goes up in our spare room an' does some aerobics.

The windows are left up all night, an' in the mornin' goes!

I have ter crack the ice up in the pitch or when I wash.

An' mother, too, she's just as bad, she walks from two to four,

And then comes back an' pulls at something hangin' on the door.

And then she takes a big long breath — it's one of her best tricks —

And doesn't breathe till she has counted up to ninety-six.

We live on matted shavin's and shred-ded doormats, too.

An' I can't use my appetite — it's just as good as new.

An' so I'm goin' to grandma's home where I can sleep and stuff.

Till mother gets her lungs filled up, an' pa gets air cruff.

**Weak Kidneys**

Weak Kidneys, surely point to weak kidney nerves. The kidneys, like the heart, and the stomach, find their weakness not in the organ itself, but in the nerve that controls and guides its action. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves, and restore the kidneys to their normal state. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine is thick and stringy, if you have aching joints, or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative. It will do for you. — Surgeon recommended and sold.

ROYAL PHARMACY. BEAR RIVER PHARMACY.

**Egg Basket Burglars**

Here are some of the things that are robbing you of the eggs you have a right to expect from your hens:

1st. Damp or wet floors. Hens do not like to stand around in the mud and mud. They will not lay if compelled to do so and some other disease is almost certain to break out among them.

2nd. A thin or broken roof. The hens always roost up close to the roof of the poultry house, and if this is thin, they will be uncomfortable in cold weather, and during rainy spells will get wet at night. Uncomfortable hens are sure to rob the egg basket.

3rd. Temptation of different kinds. These take the vitality from the hens, causing them to cease laying. A hen-house should be kept free from these by a liberal use of whitewash and carbolic acid.

4th. Too much sloppy food and a lack of gravel and grain check the hens in their laying. Plenty of grit and shell producing food becomes essential to the filling of the egg basket.

5th. Poor ventilation of the hen-house. Fresh air is about as harmful to hens as a very cold atmosphere.

**SHORT KINGS.**

There is hardly a king in Christendom whose wife does not overtop him in a head.

King Edward is quite six inches shorter than Queen Alexandra.

The Czar, a little man, is overtopped a full head by the Czarina.

Kaiser Wilhelm is of medium height, but the German Empress is tall, and that is why the proud Kaiser will never consent to be photographed beside his wife unless she sits while he stands.

The King of Italy, short and squat, hardly comes up to the shoulders of the tall, athletic Queen Helene.

The King of Portugal, though taller, is less tall than his Queen.

It is the Prince of Wales is shorter, a good four inches than the Princess.

And the young King of Spain is several inches shorter than his Queen.
