This is a most unusual occurrence at Me. Leod, and the good people of the town felt very sore about it. The "cow boys" are rough in their appearance but good hearted, and free in their manners, and are not given to dist onesty. There were several expatriated horse thieves, and other suspicious characters, however, lurking about the town and no doubt some of them had a hand in it. With this exception our visit was a very pleasant one and long to be remember

The opera-tion taking about 6 weeks in the spring, commencing about 15th May, and from 3 to weeks in the fall. I am sorry to say that the mange has been very prevalent on this and other ranches, introduced, it is said by the Government horses, (of which there are about 100 at the farm) about two years ago, and further aggravated by the straying round of Piegan and other Indian horses which are infected with it in an aggravated form. Strenuous efforts are being adopted by Captain Stewart to eradicate the disease. authorities have just sent down and efficient veterinary surgeon, Mr. Poett of the M. through the active measures adopted the disease will be stopped. A mixture of coal oil, tar

an lother ingredients is now thoroughly rubbed into the skin of the horse with a brush and the job is done. Whilst upon this subject of diseases in horses and cartle I may say that although at present in this part of the north-w they are singularly free from those diseases which are prevalent in other cattle countries, yet there is no safeguard established to prevent its introduction at any time, which would be a very serious matter to the cattle interests of this country. I would, therefore. strongly urge upon the Dominion authorities the absolute necessity of appointing a competent officer as Quarant ne Inspector to see that no infect d cattle or borses are

and then left for G yndon, Minn, where he will meet Mr. Schrieber, who is en route to British Columbia. Mr. Van Horne will return to the city in about a mouth. Gen. Supt. Egan said he had a very pleasant trip indeed and enjoyed it immensely.

He reports the work of construction on the C. P. R progressing rapidly. The track is laid down o the first tunnel, which is about tive miles from the summit. Contractors are at work to the first crossing of the Col-umbia and it is expected that some of them will commence on the west side of the first crossing in a very few days. The work is of course very heavy through tims section of country along the Kicking Horse. He says that notwithstanding the difficulties to be surmounted in connection with the work that the line will be fully completed within one year from next October, and that the Canadian Pacific will then extend

In reply to a question he said that in the event of the road being extended to Coa Harbor, they had no inten ion of aban loning Port Moody, as both lines would be required Indeed, it might be necessary to use the whole inlet for railway purpose, and possibly the Port Moody line might in time be carried down the shore of the inlet to Coal Harbor. He had not been sent out, however, to settle those matters finally, but to examine the subject. As soon as the road was finished the company intended to put on lines of steamers between China, Japan and elsewhere. They expected to do an immense business, because they could carry at less cost than any other transcontinental road. The trade of this country, he said, would be enormous, and it was probable the company would require the whole of Burrard

The McLeod team, having lost the tosa, sent in Mr. Hanson and Rev. Mr. Trivett to the bowling of Messra. Gordon and Wright. (Capt.) Hanson speedily succumbed to the second ball from Gordon, and he was succeeded by the Hon H. Boyle, who made two single runs off Gordon. Mr. Trivett was howled in the fourth ever by the Calgary Captain for nought and was replaced by J. Garnet, captain of McLeod eleven. These two made a determined stand and some free hitting was indulged in. The McLeod captain hit two balls of Wright clear over the old fort (scoring 6 each besides several twos and threes. A separation was at last effected between these two by a beautiful ball from Gordon which lifted light and the correct score.

A recent number of the Montana Sun will be read with interest by our people

"Great changes have taken place in the system of weather since the first settlement of Montana ; these changes have been so gradual that it is no easy task to describe or point them out Old timers tell us, that when they first came to this territory, the summers were much cooler than they are now, and for many years they did not red member a single warm night. The evenings were cool and the mornings frequently very cold. One reason ascribed for the change is that in those days there was more timber and the surface of the earth was covered with long luxuriant grasses, which prevented it from being heated by the suns rays during the day. At sundown the air is said to have become damp and cooll, and continued to increase in coolness until warmed by the sunshine of the succee.

The summers in early times were mostly dry. Frost and snow set in earlier in for-mer times than of late. Snow usually com-menced about the 1st of Oc ober. November was regarded as a winter month as winter frequently set in with severity during that month, and often at an early period of it. The springs were formally somewhat cooler and accompanied with more snow than they

are now. The changes in these respects are hot considered favorable to vegetation. as the latest springs are uniformly followed by the most fruitful season. It is the law of the vegetable world, that the longer the vegetative principle is delayed the more rapid when put in motion.

REMEMBER the meeting of the Genera Committee re Langevin Banquet at M-Ramsay's office this evening at 7.30.

LT. GOVERNOR DOWDNEY will not be here with Sir Hector Langevin this week. He expected within a short period to visit this was expected out he has telegraphed that section of country, it was determined

Just as we go to press we hear that Sea man's band of Crees at Whitefoot Lakes have stopped a surveying party from finish ing their work.

H. MUNNA, Esq., of Drumbo, Ontario, Dominion Arbitrator, was a caller, at the Non'WESTER office on Thursday last. left for the mountains on the same and he will be here to the banquet.

MILLWARD has painted a very artistic sign for Mr. Peterson, agent of the Saskatchewan Free Homestead Co. A red deer's head occupies the center, and it is natural as life.

Ws will thank our farmer friends through oat the country to send us samples, however small, of cereals and roots. We are de-termined that Catgary district shall be represented at the Toronto exhibition.

W. F. WHITCHER, Esq, late Commissioner of Fish-ries, was a pleasant caller at the Non'-WESTER office to-day. Mr. Whitcher is looking hale and hearty and he is delighted with Calgary and surroundings.

THE Bachelor's Ball, which was to take place on Friday evening next at Boynton Hall will take place on the ceding evening, that is next Thursday evening. This change has been made out of courtesy to the Langevin Banquet,

MR, McCoskriz is now a full fledged photographer. He has taken some excellent pictures lately. This morning he sook the Church of the Redeemer, together with a group of leading citizens.

THE Reception Committee re Sir Hecto Langevin's visit here, kindly return their thanks for the generous and courteous manner in which they have been dealt with in the matter of the Hall by the ball committee. Although the tickets and invitations were issued for the ball on Friday evening next the managers have kindly consented to have the ball on Thursday evening in order to accommodate the re copilon committee and the public generally.

Our special reporter brought in with him from Mr. Bunce's farm, High River, some splendid specimens of oats and wheat, some of which sown in the latter part of April is quite sipe and ready for the sickle. One bunch of oats measured 6 feet 2 inches, and numbered 43 stalks all from a single seed. The wheat sown in April is very fine and ready for cutting. Mr. Bunce also sent in some fine opions. We should like to send these down to Dr. Sweetland, Ottawa, of frosty notoriety to put in his pire to smoke.

THE stories going the rounds of the press concerning the inhuman treatment of the man Pennocks are wholly denied. In just ce to Sergt. Speer and Pickering the Non' WESTER is authorized on undisputed author ity to state that there was no inhumatreatment in the case. It is true that better conveyance might have been used at the time, but it was not known until afterwards that the unfortunate man was likely to become so violent. No inhumanity was

I A VERY pleasant little company assembled in Mr. Shelton's store this morning, the oo caston being the presentation of a splendid photographic album to T. H. Schneider, Esq., on the occasion of his departure for BRANDON Winnipeg. Mr. Schneider has been in business here some mouths past, and during his short stay here he has made a bost of friends. He took his departure this aftersoon for Winnipeg, where he will probably engage in business. The Non' WESTER wishes Mr. Schneider many happy days.

WE understand that the adjourned sittings of the District Court will be he'd in Calgary by Col. McLeod, Strpendiary Magistrate. on Friday next 6th inst. For some reason best known to the Clerk of the Court w have not been favored with the advertise meut of the holding of the Court. This i a matter which requires the utmost publicity and is certainly one in which no favouritism shall be shown. We are pleased to know that the Court will be held this time in Boynton Hall which will be much more convenient and suitable in every way than the police barracks.

THE distinguished Minister of Public Works will arrive here on Friday next at noon. He will be met down the line by a special committee of the General Committee and at the station by the committe and citizens generally. An address of welcome will be presented to him on his arrival, and the banquet will take place in Boynton Hall in the evening. The committee are working energetically, and evergthing is being done to make the occasion a hearty welcome to the distingtished statesman and

AT a meeting of gentlemen held to consider the best means of presenting a statement of our wants, wishes and grievances to the members of the Government who are request the newpapers of Calgary to call upon everyone throughout the country to appoint a co nmittee composed of Messra Bleeker, Geddes, McVitty, Elliott and Braden to whom a statement of their claims can be presented so that these may be submitted in proper form to the various ministers in accordance with the resolution. Any one wishing to have his wants known may state his wishes to any member of the committee. The opportunity is thus afforded to settlers to get their claims for land discussed, and it is hoped by this method a satisfactory solution may be arrived at,

THE school meeting on last Wednesday evening was fairly attended. The chair was occupied by George Murdock, Esq, and Mr. Howard Donglass was appointed secretary. Adetailed statement of the receipts and expenditure was submitted by the secretary and treasurer, Mr. Douglass, which will be found elsewhers. Messrs. Freeze and Braden were appointed auditors. The accounts were examined and tound correct, and the report of the auditors was adopted. The old trustees, Messrs. Douglass and Mc-Nail were elected, and Mr. Freeze was elected in place of Mr. Custello, who has left the place. A resolution was passed to open two subscription lists, one for persons willing to subscribe for the term ending the 31st December. Mr. Douglass stated that the sum of \$350.00 would be required for the four months. The subsceiption list was opened and the sum of \$72.00 subscribed on the spot. Votes of thanks were passed to the trustees and to the chairman for the efficient manner in which they performed their duties.

about a quarter past seven in the morning in a stable temperarily used as a barn, and in which hay was stored. The total absence of any reason or suspicion accounting for the origin of the fire has given rise to a general opinion that the hay must have heated and spontaneous combustion taken place. There was a considerable wind plowing when the fire was first uoticed and which endangered the safety of other buildings. Every precaution appeared to have been taken by the police authorities to guard against accident by fire. The water reservoirs were full of water and the Babock Fire Extinguisher brought into immediate use. It is generally conceded that a desperate and systematic fight was made to prevent a spreading of the flames, thus the other stables and adjoining buildings were saved. The supply of water appears on the whole to have been good. The mechanics and laborers of the North-west Coal and Mining Company were working near the scene of the accident and used every means in their power to aid the police. None of the other buildings, camprising the police post at Fort MacLood, have been in any way

Private advice received from England by the Dominion Government Shows that the suggested entrance of Jamaica into the Dominion is not an idle story. Negotiations looking in that direction have been privately carried on for some time past. The underlying incentive is to find another permanent market for Jamaica sugar,

The secretary of the Historical Society's programs committe, Winnipeg, has received a telegram from Montreal stating that the deputation of one hundred and fifty members on the special excursion is timed to leave Owen Sound on Saturday evening Sept. 6th, so that the deputation may be expected here on the evening of Tuesday, 9th September.
