Montreal Stock Market.

**MARKET DEAD—STREET RAILWAY
STRONG, BUT INACTIVE.**

Commencing with July, there will be no afternoon session of the Stock Exchange for that month and August. This morning's market was lifeless. Out of thirteen issues dealt in, nine were in peddling amounts. The trading in Pacific, Toronto Rails, Republic and Com. Cable was fair. Pacific sold below yesterday's figures, Toronto Rails advanced fractionally, Republic and Com. Cable were steady, and New Street sold at 321½. The old was not dealt in, but was quoted 323 to 324. The increase in earnings for yesterday amounted to \$594.82.

Canadian Pacific was quoted in London at 100½, and in New York at 98½. All sales were made here at 98½, the total trading amounting to 1,200 shares. The closing quotations were 98½ to 98½.

Twin City was neglected, only 50 shares being traded in at 68, or one quarter below the price at which the closing sales were made yesterday.

Montreal Street was also left entirely alone, no sales of the old being made, and only 50 of the new, all at 321½. The closing quotations for the old were 323 to 324 and for the new 321 to 322.

Toronto Rails was dealt in to the extent of 125 shares, 100 of which sold at 118½ and 25 at 118½, the latter being the closing sale, and the bid and asked at the close were 118 to 118½.

Commercial Cable was strong, sales of 150 shares being made in 50 share lots, the first sale realizing 185½, the next 187

and the closing 186½, with 186½ bid for more at the close and 187 asked.

Republic was the only stock in its class that showed life. 6,500 shares were disposed of at 132 and 132½, the closing quotations being 132 to 133.

Payne—A small lot of 200 shares brought 383. The quotations being 380 to 383.

Neither War Eagle or Montreal-London were dealt in. The latter was quoted at 56 to 60, and the former 383½ to 387.

The balance of the trading consisted of sales of a lot of 25 shares St. John Railway at 149; 24 Montreal Telegraph between 176 and 174; 25 Bell Telephone at 182; 50 Dominion Cotton at 113; 25 Molson Bank at 198½, and 38 Bank of Commerce at 153½.

AFTERNOON BOARD.

Business centred itself this afternoon in Montreal Street Railway, there was as many transactions in this stock as in all the rest put together. Sales were made at advancing figures, and an old time buoyancy seemed to have taken hold of this speciality—over 900 shares in this security alone were traded in, it closed at 326.

c Twin City also was more active than for some time past, the range however, was limited to ½, it opened at 68½ and closed at

68½, 375 shares changing hands.

Canadian Pacific was firm round this morning's prices, closing at 98½.

In other respects the market was quiet prices remaining steady to strong.

MONTREAL MINING EXCHANGE.

There was a decidedly better tone to the market this morning.

The demand was also better distributed and broader, not inclined to run into grooves as has been the case of late. Some 11 issues were under the hammer, the most active being Virtue, Big Three, and Golden Star.

Although Virtue was active, yet the feeling at the opening was still bearish. This, however, changed before the close and it recorded an advance of 1 point, closing at 49. Over 4000 shares changed hands.

Big Three also seems to have touched bottom, a change of sentiment in this case is well in order. The demand was quite brisk. It opened on the sale of 1000 shares at 20½, sold up to 22 on the sale of 1500 shares, and closed at 21, 400 more shares changing hands.

Montreal-London was quite firm round 58, 2000 shares being sold, and 5000 Black Tail sold for 22.

Evening Star continued to act very strong, although there was no actual increase in price, 2000 shares selling at 11.

Slocan-Sovereign was also dealt in to the amount of 200 shares, and 600 shares of Golden Star were sold for 7½ and 71.

In other respects the market, although quiet at stationary prices, had a firm undertone. 2000 Monte Christo changed hands at 8, and 1000 Insurgent at 9. A few sales of City of Paris sold for 65.

NEW YORK EXCHANGE.

MARKET BUOYANT—FLOWER & CO.
HEAVY BUYERS—GRANGERS ADVANCE SHARPLY.

New York, June 8.

The London market for Americans is reported as being extremely dull, the most of the usually active list showing fractional declines. The apathetic condition and the heaviness of the market is said to be principally due to the extreme heat which prevails. It is somewhat of a surprise that London does not respond to the buoyancy, which exhibited itself in the last hour of business yesterday in our market. The bank of England rate of discount remains unchanged. London was a considerable seller of stocks in our market yesterday on balance, sales being variously estimated at from 10,000 to 20,000 shares. There were a number of bull factors which came to hand bearing directly upon values in the local stock market. A true appreciation of these did not seem to strike forcibly the speculative mind till the last hour when the whole list responded to these favorable circumstances and advanced sharply. First of all was the regular dividend on Sugar together with an advance of $\frac{1}{4}$ in the price of refined. The announcement of the regular dividend was not met with any covering movement on part of the shorts, in fact when it first became known the stock declined a point or more. In the late dealings, however, some considerable buying orders came in and the price advanced very rapidly. Sentiment on Sugar, however, pending the inquiry of the Mazel committee is not bullish. It is thought that this inquiry will reveal a condition of affairs in Sugar trade which while supposed to exist is not absolutely known to exist. The increase in the Atchison dividend rate although very small, reflects the opinion of Western R. R. officials in regard to the present crop and also in regard to the future of transportation industries. The market altogether, at the close, was stronger than for some time past.

New York, noon, June 8.

Our market did not respond to the declines for Americans in London, but the list generally opened at about last night's figures.

At the opening, which was extremely dull, traders were rather inspired by the lower prices from London to sell a few stocks short. The result was a fractional decline from opening shortly after the opening. The decline, however, was destined to be short-lived, for it became apparent soon after the opening that there were very few stocks offered, and that whenever a buying order made its appearance the market advanced very rapidly. In the London specialties, houses with London connections have been moderate sellers since opening, their largest sales being in Atchison Pfd St. Paul, and Anaconda.

After the first hour's trading of the morning, the list generally became buoyantly strong and the market may be said to be extremely buoyant.

Conditions bearing on values have not changed since yesterday, and there is no news which came out over night to result in a higher market, but the buying in this morning's market has been of a manipulative character and offerings of stocks are very light. Flower & Co. have been largest buyers of Brooklyn Rapid Transit, taking about 10,000. They bought Federal Steel, Wormser bought and bid up market and owing to strength and flourish of the market, prices advanced very easily. One of the few stocks which have not responded is A. S. W. A week ago everybody in Street had the tip to buy it as it was going to declare a 2 p.c. dividend on the 15th, the character of the selling, however during last week causes people to believe that the insiders are getting out and now the rumor is that there may not be any dividend.

The market generally is very strong, there being a good demand for all good stocks.

CHICAGO MARKET.

WHEAT DULL.—CABLES LOWER—
CONTINENTAL ADVICES BETTER—
CORN STEADY.

Chicago, June 8.

Another day of enormous receipts of wheat at primary centres, reported rains in Russia and weak cables made a market that left little doubt that big traders had let go of their wheat and that the tendency was for a lower plane of values. Bear news is likely to receive most attention for a little and plenty of company may soon be expected on that side of the market. Attention is being drawn to the favorable promise for the spring wheat crop and the government report on the 10th is likely to have a depressing effect. The liquidation of big interests in the July deal has been accomplished as usual before the small trader could believe the turn had come. One of the features in the last advance has been the greater strength of the September and this has gradually advanced that option from a cent discount to about a cent premium over July. Holders of May wheat had to pay a difference to get over into the July delivery. September has gained a part of its carrying charge and the trade is working gradually back into the normal conditions before the manipulation and short stocks of one and two years past.

While advices and statistics have turned to the bear side the situation as a whole has hardly changed sufficiently to warrant an uninterrupted decline in prices. The market has lost about 5c. from top figures, and liquidation has strengthened the position speculatively. Fair sized rallies will be in order whenever the bear side gets a little crowded. A good export business was done on the break and foreign houses bought a little after yesterday's close.

There is plenty of wheat in the country. The main question is whether we can get a market for what we shall have to sell. With the shortage in this country and in other parts of the world, it is possible that there will be an equalization so that we can market the wheat we have at a fair average price. If we had any more wheat it certainly would put down the price so that on the whole the farmer would not be much better off than he will be in marketing what he has at a better price."
