WAR EAGLE FALLS 83 POINTS AND DRAGS THE LIST DOWN A LITTLE—DIRECTORS OF WAR EAGLE ARE GENERALLY HELD TO BLAME—CONSOLES THE SAME, AMERICANS UP AND MONEY HERE AT 5½ P.C.

Montreal, Feb. 6. This morning's session was dominated adversely by the depression in War Eagle, owing to the closing of the mines. The break in the first price was one of 65 points and this was increased by another 18. It was but so a short time ago that an additional 2½ or 3 p.r. to the dividend was spoken of that there is difficulty in realizing that, operations being stopped, dividends must cease. The only kind of excuse offered for the directors was that the miners were about to go out on strike and that the directors thought it would be better for them than for the miners to stop operations. It is unfortunate for the credit of the directors that they issued Centre Star stock before this mine stoppage was over. Had they then even intimated that the stoppage was possible, buyers would have made their investments with their eyes open. However, investments would not have been made at all had the managing directors told all they knew about the mine.

Payne selling at 92 was 6 points lower, Republic at 93 lost 4 points, Montreal-London was slightly lower and Virtue at 50 sold at 4 points under the price of last transaction. All the mining stocks suffered depression owing to War Eagle.

Other stocks declined from the same influence, although London market opened from ½ to ¾ higher and though in Wall Street there was no weakness. The local list suffered with the great slump in War Eagle. Canadian Pacific was ¾ lower at 96½, which is about ½ lower than parity. The close, however, was firm toward strong, and indicates advance when War Eagle's influence ceases.

Rich. and Ont. at 113½ was ¾ lower, but kept very steady at that, the 500 shares being all marketed at 113 or ¾ above it.

Gas at 190½ was sold at yesterday's prices. Twin City at 64 was 1¾ lower, while Montreal Telegraph at 172 was ½ point lower. The liquidation in War Eagle had a lowering effect on the market as a whole this forenoon.

STRAWS.

In the dispute between employers and employees of the coal fields, Indianapolis, neither side got what it asked for, but both agreed to a compromise, the miners' scale which was unanimously adopted. This is said to be the biggest advance ever known—eighty cents a ton on picked mine screen coal.

* * *

Primary receipts of wheat continue very light, about 50 per cent. of last year's, and point in this way to a continued decrease in the visibles. Primary stocks of

corn are small and shape for good advance this month. Norton and Switzer, Chicago, also advise buying wheat on depressions.

KNOB HILL MEETING.

The second annual meeting of the Knob Hill Gold Mining Company was held yesterday afternoon, at the president's office, Victoria Square. There was a large attendance and reports were read from Superintendent Williams and Mr. Graves, the general manager, both of which were considered very satisfactory. Alderman C. F. Smith, in moving the adoption of the report, spoke of his quite recent visit to the mine and to the business-like manner in which everything seemed to be conducted. The president also addressed the meeting, outlined the policy of the company. Mr. Miner's remarks were warmly applauded. The election of directors was then proceeded with, resulting in Messrs. S. H. C. Miner, J. P. Graves, C. J. Chisholm, H. G. McIntosh, D. A. McCaskill, W. H. Robinson and A. L. White being chosen. The executive officers were chosen as follows: President, S. H. C. Miner; vice-President, and general manager, J. P. Graves; treasurer, G. W. Wooster; secretary, A. L. White.

MONTREAL MINING EXCHANGE.

**WAR EAGLE SLUMPS 100 PER CENT.
CAUSE — PAYNE AND REPUBLIC
CESSATION OF DIVIDENDS. THE
WEAKER — MARKET GENERALLY
SOFT.**

Montreal, Feb. 6.

This was certainly a "Black" Tuesday in our local mining world. The sudden and altogether unexpected and, we believe, unwarranted cessation of dividend in connection with the War Eagle and Centre Star mines was a surprise to the shareholders as well as the public at large. We cannot but severely blame the directorate for their short-sighted policy in commencing to pay dividends on the Centre Star property, unless they knew positively they could continue to do so. At present our information is incomplete, and we therefore refrain from passing judgment until the real facts are at our disposal. If the close down is in connection of the strike now believed to be imminent, the directorate would be exonerated from blame, considering that such a thing is beyond their control, but according to their circular issued yesterday, prospect of strike among the men is not the cause. There was no stock sold on the Mining Exchange, as very little stock is held at present, but on the Stock Exchange the price varied from 160 to 170. The effect on all the other stock was unfavorable.

Republic, consequently, was weaker and sold at 94. 2500 shares changing hands.

Montreal-London was inclined to be soft and reacted to 26 and 25½. 2000 shares being sold, the stock was offered at 26½, 25 being bid at the close.

The second annual meeting of the Knob Hill was held yesterday afternoon. The report, which was read by the Superintendent was considered most satisfactory.

Golden Star was also weaker, selling at 23 and 23½, 8000 shares being dealt in. It might be advantageous to acquire some of this stock round these low prices; we bear on good authority that the ore at present being developed is of a very good grade.

NEW YORK EXCHANGE.

AMERICANS IN LONDON $\frac{1}{4}$ TO $\frac{5}{8}$ OVER CLOSING — SUGAR REFINERIES BEING CLOSED — LIQUIDATION THEN RALLY — STEEL STOCKS STRONG.

Now York, Feb. 6.
The early London market is favorably affected by a rumor that was totally lacking in confirmation to the effect that Ladymen had been relieved. Subsequently, however, considerable doubt has been cast on the rumor and prices are now somewhat lower, although still showing gains over our closing. Consols are higher than for some time.

The announcement is made that Reading will recommend the declaration of a $1\frac{1}{2}$ p.c. dividend in March, and that the intention of the executive committee is that the stock may be looked on as a fairly sure 8 p.c. dividend payer. This will be the first dividend that Reading has paid since 1893.

It may be taken as an indication of the satisfactory condition of the anthracite coal trade. The activity and sharp advance which took place in Norfolk and Western is accounted for in two ways. 1st, it is said that the earnings of the company justify the advance as not only is the preferred stock a 4 p.c. payer, but the earnings at present indicate that a similar amount will be earned on common.

Another story is that the Pennsylvania Co. has been a large buyer and intends to control the policy of the company in the future in the same way that it at present controls the policy of C. & O.

Yesterday's buying of Nat. Steel and American Hoop was thought to be for inside interests. The latter company is said to be making enormous earnings and predictions are made that it will enter the dividend paying ranks as a 6 p.c. payer before summer.

The market is broadening and has a healthier undertone than for some time.

Commission house business is of larger volume than it has been at any time since last spring. Sentiment of the Street is decidedly optimistic.

Now York (noon), Feb. 6.
All the influences at the opening were bullish. Prices for Americans in London showed gains of from $\frac{1}{4}$ to $\frac{5}{8}$ over closings. Consols strong.

The recommendation of a 3 p.c. dividend to be paid on reading first preferred was taken as an indication of the satisfactory condition of hard coal trade.

There was a story that Norfolk was gradually passing into the control of Pennsylvania, and lastly it was announced that investigation by experts of Third Avenue had disclosed a satisfactory state of affairs, and that the negotiations with Messrs. Kuhn & Loeb for financing the floating debt were approaching a satisfactory conclusion.

Commission houses were more active than for a long time and the bulk of their orders seemed to be on buying side.

London took about 15,000 shares in first half hour. After half hour liquidation made its appearance, causing a reaction throughout the list, but at no time was there any weakness, and the buying on decline seemed to be of an excellent nature. The only weak stock on list was Sugar sold down on announcement that A.S.R. intended temporarily to close all its refineries. This is a dull season in the sugar business, and the closing simply means that the dull time is to be taken advantage of in order to protect the ma-

chinery and plant. However, ever since Mr. Havemeyer's utterances of a few weeks ago, there has been a feeling of nervousness on part of holders of Sugar stock, and any news of a seemingly bearish nature naturally results in liquidation.

The Steel stocks are strong, notably Nat. Steel and Hoop on dividend rumors.

There was very heavy trading in Norfolk and Western at opening, but it was thought that stock was freely supplied from Philadelphia.

There was heavy liquidation in South Pacific, but below 40 the stock has ample support.

During last 15 minutes there has been a falling off in the pressure to sell, while the buying power seems undiminished. The result being a fairly good rally.

MINING NEWS.

WAR EAGLE AND CENTRE STAR.

It was rumored on the street yesterday afternoon that the reason of the slump in War Eagle was that the directors had decided to stop the dividend. Shareholders of War Eagle and Centre Star received the circulars this morning which we reproduce in another column, and which confirms the rumor current yesterday.

To say that the feeling among holders of stock is bitter is to put it mildly, and it seems to us the present action of the directors does not conform with their actions and promises of the past. When War Eagle shareholders were offered Centre Star stock a few months ago at \$1.50 or 50 per cent premium, and were given to understand that dividends in Centre Star would commence in January at the rate of one per cent., they took the directors at their word and subscribed for the stock never dreaming that there was any possibility of such a set-back as this.

At that time readers of the Exchange News will remember we questioned the value of Centre Star stock, as in our opinion we did not consider a mining stock that had never paid a dividend, no matter what its prospects, should sell at such a high premium. The stock, however, was over-subscribed, the result of the confidence the public had in the men who had the direction of the property. Now, the directors knew at that time of the failure of the electrical plant, which had been installed in the early part of 1899, with such a flourish of trumpets, for they had ordered a new steam plant to take the place of the defective plant, yet, after placing the stock at a premium on the promise of dividends to commence in January 1900, and after only one dividend is declared, and not yet paid, the shareholders are coolly informed that owing to defective machinery shipments will have to cease and will not be resumed until the new machinery is installed, which will be several months.

How are the mighty fallen! Among our mining stocks War Eagle and Centre Star were looked upon and spoken of with pride, not because the investing public believed in the intrinsic value of the properties, but because of the confidence they had in the men who were at the head of these organizations. They were looked upon as absolutely reliable and as towers of strength. We would not care to repeat some of the remarks that were made to-day, about these same gentlemen, it is sufficient to say that the public have received a shock and a rude awakening which will long be remembered.

WAR EAGLE COMPANY CLOSES ITS MINES IN ORDER TO RE-EQUIP THE PLANTS.

The War Eagle Consolidated Mining Company has issued the following: To the shareholders of the War Eagle Consolidated Mining and Development Company, Limited, and the Centre Star Company, Limited:

Dear Sir.—In accordance with the advice of the management at Rossland, as set forth in the accompanying letters, the directors have decided to close down the mines for the present. We desire to add that we have every confidence in the future of the mines when the plant, etc., is in good working condition.

Yours, truly,
GEORGE GOODERHAM,
President.

CENTRE STAR MINE.

Rossland, B.C., Jan. 16.
The Centre Star Mining Company, Limited,
Toronto, Ont.

"Gentlemen.—The stoppage of War Eagle shipments makes it necessary to also suspend shipments from the Centre Star mine. As you are aware, the Centre Star hoisting equipment is only temporary, and was intended merely to bridge over the interval until the new machinery and head works are in place. The minimum tonnage required by the smelter has been made up from the joint productions of the Centre Star and the War Eagle mines. The Centre Star equipment is sufficient to handle its present share of the tonnage, but is not able to meet the requirements of the mine if a larger production is attempted. The new machinery has been greatly delayed by the inability of manufacturers to get their materials on time. Moreover our construction is being pressed in the dead of winter, in the face of unusual difficulties. It will, therefore, be several months before the new equipment is in place. Meanwhile we will be able to continue our development and to place it well in advance.

Respectfully yours,
EDMUND B. KIRBY,
Manager.

Toronto, Feb. 5.—There was a big sensation in stock exchange circles to-day owing to the issuance of circulars to the stockholders of the War Eagle and Centre Star companies, announcing that shipments from both properties must be stopped because of the insufficiency of the hoisting plant and the lack of proper ventilation. New and improved machinery will be installed at the earliest possible period but dividends must cease until the new plant is properly installed and development renewed. Some evidently knew of the intention to shut down and the stock was sold very largely in the morning before the circulars were published. The opening price of War Eagle was 203, and the closing 235%, the heaviest loss in the stock in any one day's operations. Mr. Gooderham to-night said that the mines would be shut down to-morrow and every hand paid off.

WHAT MR. BEATTY HAS TO SAY.

Mr. W. H. Beatty, of Toronto, who is a director of the War Eagle and a large shareholder, was at the Windsor yesterday en route for Ottawa. Being asked if he thought the suspension of shipment and dividends by the two big mines was a wise policy, Mr. Beatty replied at once in the affirmative. He said he had every possible confidence in the mines, but he thought that a temporary suspension was the best thing to be done under the circumstances. The action was taken to permit of the installation of new and better

machinery, which would ultimately lead, it was predicted, to better results.

THE GREY EAGLE CO.

At the Windsor Hotel yesterday there was a meeting of the provisional directors of the Grey Eagle Gold Mining Company, Limited, when S. H. O. Miner was elected president; J. E. Graves, vice-president and general manager, and A. L. White, secretary-treasurer. It was decided that the head office should be in Montreal, at 60 Canada Life Building, and the registration office at Phoenix, B.C., with Mr. J. F. Heinonway as agent. Besides the above-named gentlemen Messrs. A. B. W. Hodges and A. L. White are on the board with Mr. W. Y. Williams as superintendent. The above proposition has already been two-thirds taken up, Boston taking over 200,000 shares, with Montreal a good second.

EVENING STAR.

The returns from a carload of ore sent from the Evening Star to the Trail Smelter have been received by Manager Chamberlain. It was in the shape of a check for \$662.20, which was the sum nett after the freight and treatment charges had been deducted. The ore went \$28.80 to the ton. It came from the drift on the 125-foot level, which is now in for a distance of 10 feet. Within the past few days the ore on this drift was found to run as high as \$48 to the ton. From the above it will be seen that the ore in the Evening Star is of a high grade. Development work on this property, which is to be carried out on an extensive scale, should develop a valuable mine.

CHICAGO MARKET.

WHEAT LOST $\frac{1}{2}$ CENT AND CLOSED WEAK — PROVISIONS STRONG.

Chicago, Feb. 6.

Liverpool—Wheat after opening $\frac{1}{2}$, $\frac{1}{4}$, $\frac{3}{4}$ d lower for March, May and July, owing to weak buying in Chicago yesterday, closed still at $\frac{1}{2}$, $\frac{1}{4}$, $\frac{3}{4}$ d from the opening.

Liverpool opening 5-9 $\frac{1}{4}$, 5-9 $\frac{1}{4}$, 5-9 $\frac{1}{4}$ for March, May and July, closed 5-9 $\frac{1}{4}$, 5-9 $\frac{1}{4}$, 5-9 $\frac{1}{4}$.

Paris wheat 15 lower, flour 10 lower.

New York opening for March at 75 $\frac{1}{4}$, May 74 $\frac{1}{4}$, July 74, was the same as last night's closing, but lost $\frac{1}{4}$ - $\frac{1}{2}$ in the first half hour.

Wheat in Chicago opened $\frac{1}{4}$ to $\frac{1}{2}$ lower than the closing of last night, owing to indifferent advices, and broke $\frac{1}{2}$ of a cent in the first hour.

Speculation has gone into stocks, outsiders don't want to buy wheat, with such large stocks and no demand.

Corn is strong, $\frac{1}{4}$ higher, owing to more demand.

Cats steady but dull.

Provisions opened strong and went gradually higher, 15 cents higher at one time.

Pork, Lard and Ribs are in strong hands and will sell higher.

Hot weather in Argentine caused firm closing in Liverpool corn.
