HON. A. J. MATHESON IS DEAD SEIZED WITH HEART TROUBLE AT HIS OLD HOME IN PERTH

For Twenty Years He Represented South Lanark in the Ontario Legislature and Was Provincial Treasurer For Eight Years—Will Be Buried Tomorrow.

Hon. Arthur James Matheson, provincial treasurer, died suddenly at his home in Perth, Ont., at 11 o'clock Saturday night. In the death of Col. Matheson, Ontario loses one of its oldest public men. Since 1894 he had represented South Lanark in the Ontario Legislature, and during the reign of the Whitney Government, since 1905, he was provincial treasurer. His death was entirely unexpected, although he had been suffering from heart trouble for a number of years. He worked in his office at the parliament buildings until last Friday night. He left for his home town, Perth, on Saturday morning. Several hours after his arrival he was stricken and died at 11 o'clock.

Col. Matheson had never fully recovered from his illness of a year ago. Just prior to the opening of the legislature last year he was taken ill at the parliament buildings, and was conveyed to the Western Hospital. He was confined there for several weeks, and at times his condition was such that it was feared that he would not recover. However, he rallied, and before the close of the session, he was able to resume his duties as provincial treasurer.

Lawyer for Forty Years. Col. Matheson was born in Perth, Ont., on Dec. 8, 1842, and was a son of the late Hon. and Mrs. Roderick Matheson. His father was a senator for a number of years. Col. Matheson was educated at Upper Canada College and Trinity University, Toronto, from which he graduated a bachelor of arts in 1865. Five years later he was called to the bar and had for a number of years subsequent practised law in Perth. He served several years in the council of Perth and in 1888 he was elected mayor, which office he held for a long period. He was up to his death a member of the council of Trinity College.

A Fighting Stock. Col. Matheson came from a family of fighting stock, both military and politically. His father was lieutenant any paymaster in the Glengarry Light Infantry in the war of 1812. The late provincial treasurer, himself, took a first-class certificate in the military school and served in the Penitentiary in 1856 on the St. Lawrence frontier. He was gazetted a captain in 1851, and major in 1855, and in 1859, after

CHILDREN HAD NARROW ESCAPE

Locked Themselves in Their Bedroom and Were Rescued From Fire With Difficulty.

Two little boys had a narrow escape from being burned to death in a fire which broke out in the home of Harry Jezzel, 332 West Adelaide street, about 11:30 Saturday night. The two children, Albert, aged 12, and Thomas, aged 10, had gone to bed some time previously, and in childish fear of burglars locked their bedroom door from the inside.

The flames had a good start when Harry Jezzel, was awakened by cries from people in front of the house. He ran to the second floor and attempted to put the fire out. It was seen that the fire had burned its way thru the door and into the clothes closet on the second floor. Jezzel, for the moment did not think the two boys were in danger, as his other two children and wife were out of the house.

The crackling of the fire in between the ceiling alarmed him, however. He ran upstairs and attempted to awaken the boys by pounding on the door. When this failed to awaken them, he forced the door and pulled the children from their bed. Just above the bed the whole ceiling was in flames. The firemen rushed into the room and soon put out the blaze.

The houses at 332 and 334 are both owned by H. L. Locke, 10 East Adelaide street. The damage to the one occupied by Alex Wiesner is about \$250 with \$50 in contents. The Jezzel house and contents are damaged to the same extent.

BRYAN WILL BE STATE SECRETARY

NEW YORK, Jan. 26.—A Washington special to The New York American says: At last it is an established fact that William J. Bryan is to be appointed secretary of state by President Wilson. Although this statement is unofficial, it is hoped the less irate, and any official denials that may be made will be simply denials as a matter of policy.

Mr. Bryan has received an intimation that he is the choice of President Wilson for secretary of state, and is preparing to accept the portfolio. He has cancelled all his lecture engagements after March 4, so that he may be absolutely free to assume his new duties.

Hon. A. J. Matheson

Provincial treasurer for the Province of Ontario, who died suddenly on Saturday night at his home in Perth.

PATRIOTISM IS COSTLY LUXURY

This is Viewpoint of Nationalist Organ, Which Says English Lords Get Benefit.

MONTREAL, Jan. 26.—(Special.)—Le Nationaliste, the weekly edition of Le Devoir, has discovered that the naval contribution of \$35,000,000 will take five dollars a head out of the Quebec farmers. The Bourassa writer calculates that the County of St. Hyacinthe, for instance, with a population of 28,000, will have to contribute \$140,000 to help England, while in the United Counties of St. Maurice and Champlain, with a population of 78,000, the amount raised will be \$390,000.

Of course Le Nationaliste takes pains to explain that a government agent will not go round amongst the farmers and collect five dollars from each house, but it states that every yard of cotton and every pound of sugar they buy will be subject to the impost on behalf of English lords, who are shareholders in the Krupp-Maxim-Vickers Trust.

"The price is too dear," he declares, "for the honor of being a British subject."

FRENCH TROOPS ROUT TRIBESMEN.

MEKINES, Morocco, Jan. 26.—(Can. Press.)—The French punitive expedition, under Colonel Rebell, has routed a large force of Beni-Melid and Beni-tribesmen, inflicting heavy losses. The French casualty list numbered four killed and 17 wounded.

FOSTER PICNIC IS DISLIKED BY STAUFFER

Cost Should Be Given as Part of Election Expenses, Says Minister—Farris Report on Ontario Hydro System Classed as Manifest Bundle of Misstatements.

Bribery afforded Rev. Byron Stauffer a congenial topic at Bond Street Congregational Church last night. After denouncing corruption in various United States cities, the preacher concentrated attention on Controller Foster. He had voted for Controller Foster and believed him to be honest. He believed in having a watchdog on the board of control—just one. He did not know that he would want two, but he was not favorably impressed by the Foster picnic on the island. It could not be given under considerable cost, and if candidates for the board of control had to spend \$3500 for summer picnics, men of moderate means would be shut out of the contest. Their cost should be given as part of the candidate's election expenses.

The lavish political picnics of Boss Devereaux of New York enabled him to deliver the east side vote to corrupt politicians. The appalling corruption revealed of late in New York pointed out the ultimate influence of such campaign tactics. If Mr. Foster desired to make public donations it would be better, when he was in civic affairs as a prospective candidate, for him to confine himself to worthy public charities.

A Corrupt Machine. In Ontario the Ross government went down because it was allied with a corrupt party machine.

In Manitoba the provincial government must be held responsible for the bribery by its party machine in the Macdonald election.

No elector could blame the opposite party while willing to condone like doings on his own side.

Dead-letter laws on the statute books afforded corrupt officials opportunity to secure bribes. That was one reason why he favored the three-fifths majority clause in the Ontario local option laws. Such a substantial majority assured a sustaining proportion of public sentiment behind it.

The militant suffragettes in England had set a dangerous precedent by proclaiming that the destruction of letters in mail boxes was a justifiable form of political war. In after years, when they have received the franchise, such a doctrine might be proclaimed against them.

The Farris Report. Ontario people had recently witnessed the strange spectacle of the senate committee at Albany reporting against the publicly-owned hydro-electric system of this province. In Buffalo the papers either openly opposed public ownership of Niagara power or were dumb. The Farris report was a manifest bundle of mis-statements. The fact was that under trust ownership in Buffalo electric light and power cost double what it does in Toronto under public ownership.

ASQUITH MINISTRY IS IN STRAITS FRANCHISE ISSUE MAY SOUND DOOM

LONDON, Jan. 26.—(Can. Press.)—The cabinet council which assembles tomorrow has to decide the momentous question as to how to deal with the dilemma caused by the Speaker's ruling on the franchise question. This ruling, which was made Thursday in answer to a question asked by Andrew Bonar Law, leader of the opposition, was to the effect that if the form substance of the bill were materially changed by amendments it should be withdrawn and a new bill presented.

Such strong, conflicting opinions have been provoked by the thorny problem of the women's vote that fears have begun to be expressed as to whether the government will be able to weather the storm. It is faced on the one hand by the suffragettes who are calling upon the premier to redeem his pledge to the women, and on the other by those, even some Liberals, who express the opinion that the government has no right to force thru parliament such a revolutionary reform as the giving of votes to women without first appealing to the country.

The ministers insist that the question cannot involve any cabinet resignations, and they argue that any alternative government would be faced by exactly identical difficulties on the women's question.

Fear of some new militant action on the part of the suffragettes if the bill is dropped causes great anxiety in official quarters. The Scotland Yard authorities are taking elaborate measures to protect the cabinet ministers against possible attacks.

BALKAN ALLIES WILL GIVE TURKEY TIME TO CONSIDER TERMS ARE NOT MODIFIED

Number of Delegates Were For Ending Negotiations and Resuming War, But Majority Favored Patient Waiting—Greeks Threaten to Bottle Up Constantinople.

LONDON, Jan. 26.—(Can. Press.)—The Balkan plenipotentiaries, who have received full powers from their respective governments, appointed a committee today to draft a note to the Turkish plenipotentiaries, explaining why the peace conference must now be considered broken off. It is hoped that the draft will be ready for the approval of the full delegation Monday night.

This action of the allies is part of a series of well-considered forms of pressure with which the Balkan delegates hope to obtain their object without resuming the war.

The meeting today lasted for an hour and a half, and the course to be followed was given earnest consideration. Two distinct views were manifested—one for the immediate rupture of the negotiations, leading to a resumption of the war, and the other favoring a temporizing policy, in order to avoid irrevocable steps.

The latter course triumphed, and a committee was appointed, consisting of one member from each delegation, as follows: Michael Hadjaroff, Bulgarian minister at London; Prof. Georgios Streit, Greek minister to Austria-Hungary; Count Vovnovitch, chief of King Nicholas' cabinet, representing Montenegro, and Dr. M. R. Vesnich, Serbian minister to France, with the addition of M. Politis, of the Greek delegation, owing to his knowledge of French and his thorough acquaintance with international law.

WANT WARD ONE DIVIDED IN TWO

Ratepayers of Eastern Section Will Start an Agitation Tonight For New Boundaries.

The Ratepayers' Associations of the Beaches are to meet tonight to make known the stand of the residents of the eastern portion of Ward One on the question of changing the ward's boundaries. The claim is made that the residents of the east end of the ward are outvoted by the residents of the west end, from which all the three aldermen come, and that as a consequence the wants of the beaches and East Toronto are neglected. The meeting tonight is expected to be the start of a fight to have a large section of the western part of Ward One placed with Ward Two and thus give the eastern residents a larger voice in future civic elections.

Robbins, Hubbard and Walton, the three aldermen from Ward One, and several of the controllers, also the representatives of the other ratepayers' associations of that ward, will be present at tonight's meeting, which is to be held in the Masonic Hall, Balsam avenue, at 8 o'clock.

Edly needed improvements in the east end of the ward, including the Queen street stub line, the long-delayed sewer, roadway improvements and the library and park asked for will be taken up.

BURGLAR CAUGHT WHILE LOADING A WAGON

Captured After Chase Thru Lanes and Over Fences and After Policeman Fired Twice at Him—Expressman Claims to Have Been Duped—Third Man Escaped.

When two men were surprised by the police on Saturday night while attempting to remove a load of sugar from a lane off George street, a lively chase thru yards, over fences and along rooftops followed. During the pursuit of the fugitives, a constable fired two shots in the air, but one of the men managed to elude the officers and completely disappeared.

Constable Smith (294) strode up a lane off George street for the purpose of trying the rear doors of the stores which front on King street. He found a pile of filled bags up against a shed. As these were not there when he made his rounds previously, the officer became suspicious.

Investigation showed that the warehouse of Scott Bros. at 190 East King street had been broken open and the sugar placed in the lane.

The policeman concealed himself behind a fence and waited. Presently a wagon backed into the lane. Two of the men on it immediately got off and started loading the bags on the wagon.

Smith succeeded in slipping out of the lane without alarming the men. He ran to a signal box and notified headquarters. Plainclothesmen Norton and Knight were dispatched to assist in the round-up.

Saw the Constable. When the seventeen bags of sugar were on the rig and the men ready to leave the police interfered. But the two who had taken such a prominent part in the work saw the police too soon. One sprang from the top of the load over the fence. Smith arrested the driver of the vehicle. He then joined Norton in the chase after the man who had gone over the fence.

Policeman Fired. There are several houses and yards in the vicinity of the warehouse. The fugitive took advantage of this fact. He jumped fence after fence to and fro, ran over roofs and sometimes disappeared in the darkness.

After calling upon the fellow to surrender, Smith drew his gun and discharged a shot in the air. The man ran faster. Another shot was fired. This second one seemed to confuse the man for a moment, he hesitated before a fence and in that moment Plainclothesman Norton was on him.

In the meantime Knight was having a lively search for the second man. Owing to the darkness it was almost impossible to see where this fellow had run to.

At the station the man who gave the police the chase said his name was John Mara, 109 Berkeley street. The express driver's name was ordered as Raymond Ackerman, 273 East King. The last named prisoner convinced the authorities that he had been duped by the other two and thereby secured bail. He stated that Mara and the missing man hired him to move some furniture, and he was not aware that he was to move sugar, until they ordered him to do so.

Edward Griffith was arrested last night at a late hour, suspected of being the other man, but Ackerman declared that it was not the same person. Griffith is held on a charge of vagrancy.

Leading in Fur Reductions. This is the particularly favorable year for bargains in furs. Every year furs are cheaper in Toronto than in New York, Paris or London, and they are exactly the same kind of furs. But this has been a mild winter, and Canadian furriers have a larger stock in hand than is usual. It means a drop in the market and have made substantial price reductions. They lead in price sacrifice in some lines. Visit the show rooms and form your own judgment as to values. W. & D. Din en Company, Limited, 170 Yonge street, corner Temperance street.

NOT RECEIVING—AT WASHINGTON

FEAR REVOLT IN MONGOLIA

China Will Check With Arms Threatened Movement Toward Secession of Province.

PEKIN, Jan. 26.—(Can. Press.)—President Yuan Shi Kai, in a formal reply to the contention of the Kutuktu, the Khan of Mongolia, that Mongolia could not remain united to China, declares that Urga should not be severed from China. He says that the Chinese administration is endeavoring and intends to maintain order in Mongolia, and while numerous Mongolian chieftains and soldiers in the province have asked permission to march against the Kutuktu, he, in a desire to avoid bloodshed, has persuaded the Chinese to wait, and ascertain whether a peaceful settlement can be obtained.

President Yuan Shi Kai asks for an early reply to his note. Seats for John Drew Engagement. The advance sale of seats for the important engagement of John Drew in his brilliant comedy success, "The Princess," is a record, does not open until Thursday morning at the theatre, but Managers Shopp, announce that mail orders will be filled in the order received.

CLIP THIS COUPON

The Toronto World
EVERYBODY'S CYCLOPEDIA
—DAILY COUPON—

This coupon, if presented at the Head Office of The Toronto World or at the Branch Office, 15 Main St. East, Hamilton, next FRIDAY, JAN. 27, and SATURDAY, JAN. 28, will entitle the bearer to one five-volume set of Everybody's Cyclopaedia (regularly selling at \$12)

For \$1.98

MAIL ORDERS, ADDRESS THE WORLD, TORONTO, CAN.

The Sets are too bulky to be sent by mail, but out-of-town readers can have them for the \$1.98, the set to be sent by express, shipping charges to be paid by the receiver. OUT-OF-TOWN READERS need not wait until the days of distribution, but send orders any day of the week and shipments will be made promptly on the distribution days.

COUNCIL'S FIRST REGULAR MEETING

Many Contentious Items to Come Up For Discussion.

TO DRAFT LEGISLATION

Controller McCarthy Will Move Re-Hearing of Important Motions.

A protracted session of the first regular meeting of this year's council is looked for today, when many items of the utmost import will come up for discussion.

The legislation to be asked for by the city from the provincial legislature will be finally sanctioned and the bill drafted.

McCarthy's Motion. Controller McCarthy is indignant over the short-sighted policy of certain members of the board of control who were responsible for throwing out his motion for the appointment of a traffic commission.

Redistribute Wards. Toronto has power to redistribute its wards without special permission from the legislature, and a move in this regard may be taken today.

Sell Trinity Lots. What is considered a contentious question will be the proposal to dispose of the Queen street frontage of the Trinity College grounds for building lots, as proposed by the board of control last Thursday.

Controlter Foster will do his best to have Engineer Fellows fired altogether, but since receiving Commissioner Harris' recommendation, many of the aldermen have expressed their intentions to stand by it.

The time for the taking of the assessments for North Toronto and Moore Park will be fixed.

A bylaw to authorize the extension of Teraulay street 86 feet wide from College to Grenville and Davenport road, under the Local Improvement Act, will be submitted and probably passed.

Another special bylaw, appointing Aid Sam McBride permanent chairman of the committee of the whole, will also be submitted.

Many motions of more or less import are ready for discussion, which the members may bring forward at any time.

Lehigh Valley Railroad Company, \$50,000 bond, Jacksonville, Fla., from Suspension Bridge, via Lehigh Valley R. R., New York or Philadelphia and steamer, including meals and berth while at sea.

PROPOSED FRONT ELEVATION OF GENERAL BOOTH MEMORIAL TRAINING INSTITUTE.

TRAVELERS HAVE A GOOD BALANCE

Gratifying Reports Presented at Annual Meeting of the Association.

The annual general meeting of the Commercial Travelers' Mutual Benefit Society of Toronto was held in their rooms Saturday afternoon when the annual report which was presented and read by the president, Jos. Oliver, was adopted unanimously.

The report showed a gratifying state of affairs. Two hundred and thirty-two joined the society during the year 1912, representing \$222,000 of new insurance. There were 29 deaths and \$34,000 was paid out for death claims, and \$3500 was added to the reserve, making the total reserve fund \$60,000, leaving a floating balance of cash in hand of \$7028.25.

The largest breakfast yet. How the coffee and sandwiches disappeared yesterday morning at the Young Street Mission Sunday morning breakfast! The \$77 men present ate until there was scarcely none of the 3000 sandwiches left, and hardly a drop of the 120 gallons of coffee.

Still the demand for cast-off clothing comes. Many are in great need of clothing of all kinds, men's women's and children's.

COMIC AND GRAND OPERA AT THEATRES THIS WEEK

"The Merry Countess" at the Alexandra and the Sheehan Opera Company at the Princess—Al. H. Wilson at the Grand—Irene Franklin Comes to Shea's—Harry Lauder Tomorrow—Boston Symphony Orchestra on Wednesday.

"The Merry Countess," characterized as a veritable whirl of color, drama and song, structured subtly with the alchemy of melodic and tuneful music, and distinguished by its original cast and ensemble, direct from the Casino Theatre, New York, will be the attraction at the Alexandra Theatre tonight and all this week.

The appearance of John Drew in the brightest comedy he has had for many seasons, "The Perplexed Husband," will be the attraction at the Princess Theatre next week. The English play-wright, whose last success in this country was with "The Walls of Jericho," scored a tremendous success with his latest play in London, and duplicated it in New York when Mr. Drew used it at the Empire Theatre.

Dineen's Bargains Lead In Best Line of Furs

Retail Store and Factory of the Dineen Company, Manufacturing Furriers and Importers, 140 Yonge Street. Established 1864.

The weather may be mild, but the price of Dineen's Furs is irresistible. And anyway, you may need furs this winter yet—in any event we should have an early, long and severe winter next year—for the seasons go by opposites—so that the furs you buy now will be a great bargain, past all disputing, in a few months.

Dineen's lead the price reductions in many lines of the best furs. Visit the showrooms and form your own opinion as to the bargain values offered.

W. & D. Dineen 140 Yonge St. Company, Limited Cor. Temperance

Mothers and Fathers of Toronto

An Appeal! An Appeal!

YOU mothers of daughters: You fathers of sons: Think of the thousands who are going wrong—of the broken homes, hearts, hopes and careers—look at the great Social Question—look it in the face—and in the glow of your own personal thankfulness ask:

Who Is My Neighbor?

The Salvation Army are to build a great Social Training School in Toronto—they need your help. It will cost \$200,000, but one-half of this sum will be raised outside of the city. It will train workers in the social work as they are trained now only in London, England, and Stockholm. It will send these trained social workers to every part of the Dominion. It assumes the work which none of the rest of us want.

WILL YOU HELP?

Will you assist to establish this "University of Humanity"? SHOW AMERICA, AND ALL CHRISTENDOM, WHAT TORONTO SAYS TO AN APPEAL LIKE THIS.

Prehistoric Cities of Yucatan.

The Toronto Archaeological Society again promises its members and their friends a very interesting illustrated lecture on Thursday evening, Jan. 30.

EXTRAORDINARY ASSERTIONS MADE BY PROF. B. F. FERNOW REFUTED BY HON. MR. HEARST

Minister of Lands, Forests and Mines, in Detailed Statement, Says That Recent Remarks Were Loose Talk and Proves That Millions of Acres of Land in Northern Ontario Are the Most Fertile in Canada.

Prof. Fernow's report to the conservation commission regarding the conditions in New Ontario was "loose talk," in the opinion of Hon. W. H. Hearst, minister of lands, forests and mines, who issued a statement on Saturday. Hon. Mr. Hearst replies effectively to the remarks of Dr. Fernow. The following is his statement: "In a report just presented to the conservation commission—a summary of which has appeared in the newspapers—Dr. B. F. Fernow, professor of forestry of the University of Toronto, makes a number of assertions and conclusions of an extraordinary character. The professor made a 'rapid inspection' of conditions along the Canadian Pacific Railway, his mode of observation being a motor car, and his field of view practically confined to the right-of-way. This is not the method of a professional geologist. It is not possible to make a rapid inspection of an area variously estimated at sixteen to twenty millions of acres, and to estimate in an accurate percentage the merchantable timber and arable land in that great region. He thinks that 'probably' fifty per cent. of the area does not contain any wood, and that 'probably' the same percentage of it is undesirable under present conditions for settlement.

Hon. W. H. Hearst

Conclusions arrived at from premises so slender are valueless on their face, but the position of the professor in the Toronto University requires that some attention shall be paid to them. Twelve Years Ago. In the year 1900 the then government sent out ten exploration parties thru that part of the province lying north of the Canadian Pacific Railway. Each of these parties was in charge of an experienced provincial land surveyor. They were equipped with a skillful land looker and timber estimator, and also a geologist. These parties left Toronto early in June and returned late in October, having traversed by canoe and on foot practically the entire region assigned to them for examination, and their reports were prepared under the title of "The Report of the Survey and Exploration of Northern Ontario, 1900."

A summary of these reports showed that the great clay belt extends from the Quabec boundary west thru Sibley, Algoma and Thunder Bay districts, and contains, according to the estimate, 15,600,000 acres of good land, "nearly all of which is well adapted for cultivation. The results of the explorations showed unbroken good land nearly equal in extent to three-quarters of the whole surveyed portion of the Province, Ontario south of Lake Nipissing and the French and Mattawa Rivers.

Careful Investigation. "Since this region has been further and quite extensive surveys have been carried on in that region. It has been traversed in every direction by running lines, and has been surveyed, and scores of townships have been subdivided into lots and concessions. The results of these surveys are of such a nature as to confirm the estimate of sixteen millions of acres of good land has been increased until in the opinion of those who are familiar with the territory, twenty millions of acres is a more reasonable estimate.

"All surveys are instructed to report carefully on the quality of the land they survey for settlement purposes. Anyone reading the reports of the surveyors who have traversed that region—who cannot be quoted here—will easily come to the conclusion that, while naturally there are many rough spots or low land, these areas are limited compared with the enormous tracts of fertile soil. It is certain that there is no such thing as establishing the fact that there is a great fertile belt in northern Ontario. His reference to little being known about climatic conditions shows that he is ignorant of the literature, official and otherwise, on this subject. The professor says that he has held out to settlers that they may sell pulpwood in a very good way. This is not true. If they are located on the better half of the land and within reach of a market. No one has said that settlers can sell pulpwood if they have none on their lands, or where there is no market. What is held out is that where they have pulp timber on their lands, they can sell it. There is already a considerable market for pulp timber, and an extensive pulp and paper mill is now in course of erection on the Abitibi River, which will give a large market for the pulp timber that is now in the future will be erected in the near future."

Quality of the Soil. With respect to the quality of the soil in 1900 Mr. Kay, now professor of geology in Iowa University, reported on the soil of the Abitibi region. He brought back 27 samples of soils from various parts of the region. These were examined by Prof. Reynolds of the Ontario Agricultural College, who said: "We see a wide variety in these, and therefore we would think them to be fitted for a great variety of crops. The soils examined were largely of the heavy loam type. When vegetable matter is mixed with them they will make good soils—well suited for agriculture."

"In 1904, Dr. Henderson reported on the natural resources of the Abitibi region. He brought back 30 samples of soils, and of these Prof. Harcourt, after making a chemical analysis, said: 'The soil is very fertile, and contains a large amount of mineral constituents, and there is no reason why these should not be good products.'"

"In 1905, Dr. Henderson reported on the agricultural resources of the Mattawa region. He brought back 24 samples of soils, which were examined by Prof. Harcourt and Reynolds—the latter saying: 'Taking all together, I think it might be safely said that all these soils would be comparatively easy of cultivation, and that they contain a sufficient quantity of fertilizing constituents to render them quite fertile.' Dr. Reynolds said: 'Taking them all together, they seem to me to be good soils for agriculture.'"

"Then the department has had in that region all last summer Mr. J. F. Whitely, who has been building roads thru a large section, and who has become quite enthusiastic over the character of the country and quality of its soil. The testimony of these careful observers, who spent months in the country examining its capabilities, must be taken to outweigh any evidence picked up in a casual and rapid railway trip."

Great Deal of Timber. With respect to the timber—the estimate of the exploration of 1900 shows that there was in that region 288,000,

CAPTAIN ROALD AMUNDSEN GAVE FINE TALK

Famous Explorer as He Appeared at Massey Hall on Saturday Showing a Picture of Himself at the South Pole.

POLAR EXPLORER GAVE FINE TALK

Capt. Amundsen Told of His Discovery of the South Pole.

APPRECIATE HIS HUMOR

Tremendous Audience Saw Fine Pictures of Successful Expedition.

Captain Roald Amundsen, the Norwegian discoverer of the south geographical pole, had an extraordinarily good audience in Massey Hall on Saturday night. Polar explorers are evidently popular, if one may judge by Amundsen and Shackleton, the Fiata did not meet with the reception here that his attractions merited. Captain Amundsen's lecture was announced for 8:15. At 8:40 it was announced from the platform the line still extended from the box office to Yonge street, but the proceedings would begin in five minutes. The hall was almost full by that time, and the explorer was introduced by Frank Arnold, K.C., who as vice president of the Canadian Institute took the place of the unavoidably absent president. Captain Amundsen had his lecture fully and agreeably illustrated, and he commenced with a map and a pointer in the usual way, and described the sailing of the "Fram" from Norway in 1910. This vessel has the distinction of having been farther north and farther south than any other. The voyage across the world was pleasantly illustrated and much attention given to the indispensable dogs, without which the expedition would have been impossible. They were warned, said Captain Amundsen, that it would be difficult to bring them across the equator. But they started with 97 and arrived at the Bay of Whales with 116, so he thought that the dogs were a success. A photograph which occasioned much amusement as he exhibited a photograph of some lively puppies.

When the commissioner arose to speak the hundreds of men present gave the Canadian commander an ovation, but the applause which followed his speech was even greater. Splendid music was given at the service by the territorial band, assisted by the male choir. Secretary Warburton of the Y.M.C.A., under the auspices of which association the meeting was held, presided.

HEALING OF BROKEN HEARTS IS WORK DONE BY THE ARMY

Commissioner Rees at Strand Theatre Told an Audience of Men of Thousands Who Have Been Led to Better Lives With the Aid of the Salvation Army All Over the World.

"Commissioner, I am dying without seeing my one cherished aim brought into being, but I shall not be dead long before it shall be accomplished."

At the Strand Theatre, Yonge street, before an audience which took up all available space in the building, Commissioner Rees, commander of the Salvation Army in Canada, told of the work expressed to him by the late General Booth a few days previous to the general's death. "The general's eyes had scarcely closed in death before 'with respect to the critics and suggestions, Prof. Fernow states that as soon as townships are surveyed they are opened by the department for settlement without differentiation. This statement is quite incorrect and is based on ignorance of what is the policy and practice of the department. Before a township is opened the report and map of the surveyors who surveyed it are examined by the township route. If it is not opened, if part of it is good and part is rough, the good part only is opened. There are surveyed along the 'Transportation' Railway and within twelve miles of it sixty-four townships. Of these sixty-four townships, only twelve have been opened for settlement, and of these twelve, four are nearly filled up and the others have considerable settlement in them. Where there is such carelessness of statement when the facts could so easily have been ascertained, it is difficult to understand the motive that prompted this criticism. Further, wherever we have had any doubt about the advisability of opening townships on the Transcontinental, we took the opinion of Mr. Whitson, who was on the ground, and certainly more familiar with the character of the townships than professor Fernow."

able to accomplish much greater and bigger results. "He hath sent me to heal the broken heart," St. Luke IV, 18, might well be applied to the mission of the Salvation Army. In every department of the Army's work obedience to this command may be found. Especially is this the case in the social and rescue work. During the past three years no less than 3900 fallen women in Canada have been returned to their homes to lives of virtue. The prisoners from 87 jails and penitentiaries in Canada, of which the Army receives the daily discharge sheet, are in almost all cases not released until one of our officers is there to meet him and escort him to a place of safety. During the past year 2110 of these men have been met in the carrying out of this work—healing broken hearts—that we seek to establish this training college for our officers."

"The Salvation Army in Canada has seventy social institutions and about seventy-five departments of social work, but also in existence 29 years, we have never been in a position to give definite training. If we could only give our men and women some definite training, we would be

able to accomplish much greater and bigger results. "He hath sent me to heal the broken heart," St. Luke IV, 18, might well be applied to the mission of the Salvation Army. In every department of the Army's work obedience to this command may be found. Especially is this the case in the social and rescue work. During the past year 2110 of these men have been met in the carrying out of this work—healing broken hearts—that we seek to establish this training college for our officers."

HERO OF CIVIL WAR SHORT IN ACCOUNTS

Order For Arrest of General Daniel Sickles Is Temporarily Stayed.

HE HELD PUBLIC OFFICE Heavy Bail Is Demanded and No Bondsman Is in Sight.

NEW YORK, Jan. 26.—(Can. Press.)—Daniel E. Sickles sat amid the war relics in his Fifth avenue home last night, expecting momentary arrest in a suit brought by the state to recover \$228,476, for which he has failed to account. It is charged in a copy of the New York Memorandum Commission. Within his cell were his son, Stanton, and an aged negro retainer. Save for them he was alone.

The order for the veteran's arrest, issued by Supreme Court Justice Ridd at Albany, was a copy of the New York Memorandum Commission. Within his cell were his son, Stanton, and an aged negro retainer. Save for them he was alone. LECTURES SERIES STARTS TONIGHT

First of Eight to Be Given at Walmer Road Church.

ON VARIOUS SUBJECTS Interesting Subjects Will Be Discussed For Next Two Months.

"Socialists" of Toronto in the literary and true sense of the word will be given an opportunity during the next three months to learn, thru a series of lectures to be given in Walmer Road Baptist Church, of the progress that has been made in the social condition of the city in the last two or three years.

The lectures to be given in Walmer Road Baptist Church will not be ranting on capital and labor, but short pleasant talks on a few concrete institutions of the city which have sprung into life just recently. Toronto has moved socially in the last few years, and there are now many institutions of which the public know less than they do of the long-established police stations. The "Prison Farm" on Yonge street is new, and the lecture on it by Rev. W. D. Finlay, the superintendent, is typical of what can be expected in all the addresses. The program is as follows: Jan. 27 (tonight)—Dr. W. E. Struthers, medical inspector of Toronto schools, on "The Modern Schools." Feb. 10—Judge J. Edward Starr, Judge of Toronto's juvenile court, on "Juvenile Delinquency and the Parole System." Feb. 24—Dr. John T. Gilmour, warden of Ontario Central Prison, on "The New Penitentiary." March 10—Dr. Charles J. C. O. Hastings, Toronto medical health officer, on "The Significance of Public Health to the Life of a City." March 17—Dr. Helen MacMurphy on "The Feeble-minded." April 7—Mr. W. D. Finlay, manager city prison farm, on "Our New Prison Farm." April 14—Miss A. Dyke on "City Nurses" and Miss E. C. Ellwood, on "Social Settlements." April 21—Mr. J. J. Kelso, superintendent of neglected children for the Province of Ontario, on "The Conservation of Childhood."

Jail Cell Looms. Unless Gen. Sickles is prepared to furnish at once a \$30,000 bond, Sheriff Harburger said, he will have to go to the bond in forthcoming. There is no talking as to who, if anyone, would come to his veteran's aid.

Gen. Sickles declined to see callers or to comment on the charges against him. His aged negro servant met all comers at the door and turned them away. But for the first time in weeks, the shades of all the windows of the house were raised; and in each window there was placed an American flag.

Someone who thought that the general would refuse the process asked admittance to his home, asked Sheriff Harburger what he would do in case he found the door locked against him. "I shall not break it down—of that you may be sure," the sheriff replied. "I shall have to station my deputies around the house and before it. We have no right under the law to enter the premises by force."

London Sinner Heard. Miss Florence Eggleston, who is visiting friends here, sang "Gourd of Life." "Entreat Me Not to Leave Thee," at the Metropolitan Church on Sunday morning. Miss Eggleston is a member of St. Andrew's Presbyterian Church, London, Ont.

MIXED FARMING IS NEEDED TO DEVELOP WESTERN CANADA

Mayor Spencer of Medicine Hat Says Ranchers Realize That More Money Can Be Made—Great Railway Development in Medicine Hat, Which Is Strongly in Favor of Tax Reform.

The necessity of the farmers of the prairie provinces taking up mixed farming was strongly emphasized by Mayor Nelson Spencer of Medicine Hat, Alta., when seen by The World at the King Edward Hotel last night. He stated that the farmers of the west are just beginning to realize that wheat raising alone cannot compare with mixed farming when it comes to making money.

Eggs and butter never go below 75c the dozen and pound in a large section of the west, and now threaten to reach the dollar mark. The cities of the west are now endeavoring to bring this point home to the western farmers, and an organized effort will be made to induce mixed farming. The Canadian Pacific Railway were to double the size of the present station there, putting up a building that will rank with any of the C.P.R. thru the west. He was now assured by the Canadian Northern that this line would reach there before this coming fall, and that a large station would be erected. This is to be followed by the establishment of a money market in Northern western yards and shops and he would have an initial outlay of \$200,000. He had just interviewed M. Donaldson, manager of the Grand Trunk Pacific Railway for western Canada, and had been informed by him that the G.T.P. intended to build to Medicine Hat on the completion of the Leithbridge-Calgary line.

Tax Reform. The western mayor is a strong advocate of tax reform. Medicine Hat had adopted such a year ago and in that year had more than doubled in population and expected to do the same this year. Mayor Spencer's visit to Toronto has been in connection with raising a million and a half dollars for municipal improvements. Medicine Hat had disposed of a half million bond issue last year, two points below par, the highest of any city in Alberta or Saskatchewan, and this year they are experiencing the same success. The money is to be used chiefly in the erection of an additional filtration plant and the development of the natural gas system, the power of which the city is giving practically free to manufacturers.

Was a Benefit. The suggestion that reciprocity might play a part in the west in the next general election was ridiculed by the western mayor. The defeat of reciprocity had benefited the west to an extent even greater than its opponents had expected. Not only were American manufacturers locating branches thru the west as a result of its defeat, but the assurance given that goods from the United States would not be dumped there was a benefit.

Approve Naval Policy. MONTREAL, Jan. 26.—(Special.)—The St. Lawrence Conservative Club, a local organization, passed a strong resolution today approving of the Bordeau naval policy, and condemning the dash into the constructive policy of the opposition.

ANOTHER CHANCE TO GET A CYCLOPEDIA. Copies Will Be Ready Friday and Saturday at the Office of The World.

For several weeks The World has been distributing Everybody's Cyclopaedia on the popular coupon plan. Thousands of readers have taken advantage of the great offer and many of the letters are now being received in praise of the beautiful and useful set. It is a work that should be in every library or on a convenient shelf in every home and office, for it contains useful information that you want on the instant.

Everybody's Cyclopaedia is complete in five beautiful volumes bound in English cloth. The regular selling price is \$12 per set, but next Friday and Saturday readers of The World can have the complete set for \$1.98 and one coupon.

The price of the large cyclopaedia sets is usually so high that it is difficult to buy them. They are invariably sold on the installment plan. The publishers of Everybody's Cyclopaedia took advantage of these facts, and from a revision of all these various large cyclopaedias they have compiled all that is good and necessary, merely eliminating the superfluous matter, and from a revision of only a specialist or technical student.

The sets are too bulky to be sent by mail, but out of town readers can have them for \$1.98, the set to be sent by express, shipping charges to be paid by the receiver.

A coupon is printed elsewhere in this paper every day. Clip it and present it next Friday or Saturday.

FISHING SCHOONER TOTAL LOSS. DIGBY, N.S., Jan. 25.—(Can. Press.)—Loaded with haddock for the Nova Scotia Fish Co., the auxiliary schooner Florence May, Captain Hamilton, went ashore last night on the west side of Digby Gut and will be a total loss. The vessel had been stripped and the cargo is being saved by boatmen from Bayview and Victoria Beach. Captain Hamilton got too far in shore while clearing the treacherous rocks at the entrance to the Gut.

PORTFOLIO FOR EGYPTIAN PRINCE. CONSTANTINOPLE, Jan. 25.—(Can. Press.)—Kasik Pasha has definitely refused the portfolio of the foreign ministry, and it has been offered to Prince Said Halim, who is expected to accept. Said Halim is an Egyptian prince. He is president of the council of state and secretary of the committee of union and progress.

REPAIRS TO DUFFERIN ST. WILL BE MADE IN TIME FOR MOTOR SHOW. The recent cave-in on Dufferin street threatened to badly interfere with the annual motor show, which is to be held at the Exhibition Grounds on the 29th of February.

ITALY RAISES BIG SUM FOR STATE ENTERPRISES. ROME, Jan. 25.—(Can. Press.)—A combination of Italian banks, headed by the Bank of Italy, has bought up four per cent. five-year treasury bonds to the amount of \$50,000,000, the issue of which was authorized last December, to meet the expenses of the development of the state railway and for other purposes.

Interest Unabated SALE REPEATED THIS WEEK EVERYBODY'S CYCLOPEDIA For \$1.98 Complete

The sale of the beautiful five-volume set of Everybody's Cyclopaedia Friday and Saturday was ahead of the previous week. At the main office of The World interested readers eagerly took advantage of the wonderful book bargain. The World will repeat the offer next Friday and Saturday. The same set of useful volumes, which regularly sell for \$12, can be had at the same bargain price, \$1.98 and one coupon. Out-of-Town Readers need not wait until the days of distribution, but send orders any day of the week and shipments will be made promptly on the distribution days.

MONDAY MORNING, JAN. 27, 1913

A TRAFFIC COMMISSION NECESSARY.

No question more important than the creation of a traffic commission can come before the council as it will this afternoon. A great deal more depends on this than the temporary success or otherwise of Controller Foster and Controller Church in jockeying Mayor Hocken for position.

Controller Church also opposed, but in a few months Controller Church will be proving conclusively that a traffic commission was proposed, elaborated and carried by himself.

ACTIVE CORPORATION SPIDERS.

Robert Rufus's spider set an example of unflinching industry and perseverance for various types of humanity. And it may be remarked here that the whole fly tribe has its own opinion about the indefatigable hustle of the spider.

But the spider is right on the job, and another little web is being spun on the northeast at Leaside in the shape of an application to the legislature to give the new suburb the status of a municipality.

Another spider activity is the construction of street car-lines. Citizens are hoping that in eight years more there will only be one system of cars in Toronto, and that it will be owned and operated by the city.

can be sold or transferred to one of the radial companies, it will be rather late then to start sweeping down the cobwebs. Our corporation counsel seems to regard these cobwebs with complacency, and he is not anxious to proceed with the elimination of radial railway control in certain instances around the city.

TAX REFORM NOT SINGLE TAX.

We are beginning to see daylight in the land tax agitation. The official government organs have started to abuse what they agree to call the single tax movement of the Liberal opposition. This ought to suit everybody, as no one has any idea at present of adopting a single tax platform.

What is wanted is the levying of a portion of the unearned increment for municipal purposes. If the present Assessment Act does not allow of this relief Sir James Whitney has undertaken to give an adequate remedy, and the people of Ontario by long experience know him to be a man of his word.

THE BALKAN SITUATION.

While it is probable enough that the Turkish delegates to the peace conference had no intentions to end the war on terms such as those ultimately proposed, and that their instructions were to protract the negotiations on the hope that dimensions might arise among the powers, the prospect of a renewal of hostilities is not taken very seriously.

FINANCIAL AMERICA, WHICH HAS BEEN CLOSELY WATCHING THE GOLD MOVEMENT, PRINTED ON FRIDAY A CONTRIBUTION BY MR. JAMES S. H. UMSTED, SUPPLEMENTARY, IN A MEASURE, TO THE ARTICLES HE HAS PREVIOUSLY PUBLISHED ON THAT SUBJECT.

Agreeing with other European and United States authorities, he points out how the tremendous and still increasing absorption of gold by India is straining the reserves of that metal. "In the 25 years from 1886 to 1910," he says, "the world had 91.68 per cent. of the wealth of its gold mines left for its industrial use and monetary purposes; in 1912 it has for these needs only 74.59."

WOMAN SUFFRAGE TODAY.

Today the British House of Commons will vote on Sir Edward Grey's amendment to the Franchise Bill.

5400 TO CLOSE THE WEEK.

Two gifts for the King Edward Memorial Fund that Round Out a Good Week.

Does It Go Anyway?

A great many watches do not give satisfaction. The reason is that they have not been properly repaired. Bring yours to us and we will work wonders with it.

These specials which we advertise for today's selling are genuine bargains. We have too many of them and they must be cleared.

There Is No Comparison BETWEEN O'Keefe's Special Extra Mild Ale and other brews

O'Keefe's is just what its name implies - an extra mild ale, of special quality. It is the great home ale - the brew used by men and women who enjoy its appetizing flavor - and who know that they are renewing their vigor and strength in every glass they drink.

You may enjoy O'Keefe's Special Extra Mild Ale, even if you find ordinary ale too heavy. O'Keefe's is EXTRA MILD.

THE MISFIT PEG

I've often heard Young Skeels state: "I am a sacrifice to my party, a man of straw, a man of straw." I have had to rise with all my thoughts in hot revolt, my tea and toast I've had to bolt and hurry to the daily grind with bitter feelings in my mind.

TAFT DEFENDS STAND ON PANAMA QUESTION

No Valid Objections to Proposal for Arbitration by Impartial Tribunal.

BALTIMORE, Jan. 25.—(Can. Press).—President Taft, speaking tonight at the annual banquet of the Merchants and Manufacturers' Association, defended the administration's attitude in the Panama Canal disagreement with England.

Stock Markets Await European Developments--Brazilian 98

SENTIMENT HINGES ON EUROPEAN NEWS

Toronto Stock Market Marks Time Pending Further Developments in Turkey.

LIST SHOWS FIRM TONE

But Brazilian Is Only Issue to Improve Materially--Ultimate Trend Upward.

With the European markets in a hesitant mood and plainly awaiting further developments in the Turkish revolution, and with Wall street moving along in the even tenor of its way for much the same reason, the Toronto Stock Exchange was naturally allowed to drift into comparative dullness at the week-end. The volume of trading under way was fairly large, and it was significant that many of the specialties, usually given over to absolute inactivity, were in demand. Nevertheless, the dealings afforded no new features, and outside of the fact that the hat maintained an appearance of firmness throughout, there was very little of interest in the day's events. Speculators evidently figured that the affair in Turkey had already played its worst in the market, for there was a consistent buying demand under way in the general list, and this was accepted as indicative of the fact that much of the apprehension inspired by the mix-up in the Ottoman Empire had been dissipated. Brazilian was marked up half a point to 98 1/2 and a broken lot brought 98 3/4, while at the close the shares were still bid for at the former figure. This left a decline of two and one-quarter points from the recent high level.

Investment buying. There was good investment buying in effect throughout the day, and the strength shown by some of the preferred issues evidenced the fact that traders had to bid up prices before attracting offerings. Maple Leaf preferred, Locomotive preferred and Sawyer-Massey preferred were all higher. Steel Company of Canada gained a small fraction at 27 1/4 and Winnipeg Ralls were up a full point to 217, thus making up their recent loss. Canada Bread, Cannors and Shredded Wheat, on the other hand, were marked lower. Bread lost three-quarters at 31 3/4, while at the close three points from its recent high. Toronto Railway was unchanged at 142. Sentiment in financial circles was of a stand-off nature, and until some more definite idea of the prospects for peace in the Balkans is obtainable, the action of prices is likely to prove erratic. If the week-end news is of a favorable nature, the market should resume its buoyant action with the opening on Monday, for the ultimate trend to prices is undoubtedly toward higher levels.

STOCK MARKET SEAT AT LOWEST IN YEARS

Membership in New York Exchange Sold at Fifty Thousand Dollars.

New York Stock Exchange seats cannot be described—as at times they have been—as one of the most inactive and at the same time one of the most stable investments in Wall street. The week-end sold last Thursday for \$70,000, as compared with a seat of \$68,000 last month, \$73,000 in September and a high record price of \$96,000 four years ago. The \$70,000 figure of the present week-end is the lowest that has been quoted in 12 years, or since 1901, when a seat was transferred for \$49,500. Here is the price record of the past few years:

BIDS WERE RAISED AFTER THE CLOSE

The remarkably buoyant nature of the mining stocks at the week-end was plainly evidenced by the fact that bids for several issues were raised above the closing quotations for the day after the close of the market. On the street bids of 22 1/2 for Pearl Lake were made around 1 o'clock, and at the same time traders were offering 25 1/2 for Dome Lake and 10c for Westlauer. Such instances as these are reminiscent of the days of the Cobalt boom.

LONDON MARKET IS IN WAITING MOOD

Capel Court Inclined to Await Developments in the Near East.

LONDON, Jan. 27.—The stock market to-day showed little recovery from yesterday's decline, as dealers are awaiting developments in the near east before entering fresh commitments. Consols declined another eighth, and rubber shares were in the lead, while oil and rubber shares finished a shade higher. American securities were quiet and steady. Prices of 10 1/2 which were made public after the meeting of the directors yesterday. Estimates range from \$25,000,000 to \$38,000,000. In fact, however, that the statement for the quarter will show about

BANK CLEARINGS SHOW GOOD GAINS

Big Increase in Montreal Last Week Brought Up Totals—Decrease at Ottawa.

Table showing bank clearings for Montreal, Ottawa, and other cities, with columns for 1912 and 1913.

PACKERS ROSE TO NEW LEVEL

But Price Changes Generally at Montreal Were Narrow on Inactive Trading.

MONTREAL, Jan. 25.—With nothing in the foreign news to inspire cheerfulness, the local stock market on Saturday relaxed into a characteristic waiting attitude—business being very dull, but prices held firm. Here and there leading issues showed reactions of small fractions at the close, but these were of no more significance than that buyers were averse to bidding up stocks until the latest obstacle in the Balkan peace negotiations would be out of the way. The market thus held in check was unusually devoid of interest. C. P. R. and Montreal Power which offer a fair barometer of market conditions, gold on Saturday exactly level with closing prices of Friday. Quotations at the close of the two-hour session were likewise virtually unchanged. Detroit was again in good demand and firm between 79 1/2 and 79 3/4, closing unchanged at the former price. Dominion Steel, Richelleu and Textile were quiet and fractionally lower. Packers, Ottawa and Sherwin-Williams common were among the few stocks to show gains. Packers rose 1/2 to 159, the highest price of the present movement, while the preferred "A" series also sold at 159. Ottawa Power rose to 191, and Sherwin-Williams to 60.

BANK STATEMENT WAS FAVORABLE

New York Institutions Made Small Increase in Reserves Last Week.

NEW YORK, Jan. 25.—The statement for the week shows that they hold \$1,465,400 reserve in excess of legal requirements. This is an increase of \$381,100 from last week. The statement follows: Actual condition—Loans, increase \$13,384,000; specie, increase \$5,359,000; deposits, increase \$148,000; circulation, decrease \$164,000; excess legal reserve, \$21,465,400; increase, \$381,100. Summary of state banks and trust companies in greater New York not included in clearing house statement: Loans, increase \$48,800; specie, increase \$400,200; legal tenders, decrease \$10,200; total deposits, increase \$7,515,500.

CANADA LANDED HAD RECORD YEAR

The Canada Landed and National Investment Company reports the largest net profits in its history in its 1912 statement just out. The profits were \$185,698, some \$14,000 ahead of 1911, and the largest ever earned. The company paid eight per cent, transferred \$84,700 to reserve, and carried forward \$61,556. During the year the paid-up capital was increased from \$1,004,000 to \$1,205,000.

NET EARNINGS OF U. S. STEEL CORP.

NEW YORK, Jan. 25.—Indications are that the net earnings of the United States Steel Corporation for the first quarter of 1913 will be in the neighborhood of \$28,000,000. Had there been no wage readjustment, the net would be closer to \$40,000,000 than \$28,000,000. Wall Street, for some reason or other, has placed its estimate of United States Steel's net for the first quarter of 1913 at \$28,000,000, which is a decline of \$12,000,000 from the \$40,000,000 estimate made public after the meeting of the directors yesterday. Estimates range from \$25,000,000 to \$38,000,000. In fact, however, that the statement for the quarter will show about

WALL STREET NOT SO PESSIMISTIC

A Tendency Toward Higher Prices Shown in Sympathy With Foreign Markets.

HEAVY GOLD EXPORTS

Gain in Cash From Interior Was Reduced to Small Figure.

NEW YORK, Jan. 25.—A better tone prevailed during today's brief session of the stock exchange. Trading was conducted in a cautious way, but there was none of the depression of yesterday, and such small changes as were recorded were for the most part in the direction of a higher level. The improvement was traceable to the steadier tone in the foreign markets and consequent lightening of the adverse influences from that source, which yesterday took the form of selling by London and Berlin. Domestic conditions were little changed. The narrow and hesitating movement at the opening reflected the uncertainty of traders, but as the session advanced, the tone hardened. The upward movement in most cases was confined within fractional limits. The local traction issues were the strong features of the list. Interboro common and preferred and Brooklyn gaining 1 to 2 points on expectations of a speedy conclusion of the subway negotiations. Judge Garry's denial of rumors that the Steel Corporation would dissolve voluntarily seemed to direct the pressure which has been directed recently against Steel. The effect of the heavy outflow of gold to France and Argentina was shown in today's bank statement. Although continued to come in from the interior during the week, the diminished volume, the gain from the source was almost offset by gold exports and the actual balance showed a cash gain by the banks of \$3,000,000, the smallest of several weeks. Figures elsewhere were scaled down, Saturday releases and deposits being considerably smaller. Cobalts to the Fore. Other strong spots were Peterson Lake, which rose to 25 1/2, a gain of half a point, thus duplicating its recent high record. Timiskaming, which was up a fraction to 81 1/2, and Westlauer. The latter gained a full 3 points at 17 1/2. The annual meeting takes place shortly, and the buying is believed to be representative of an attempt to make a good showing at that time. Kerr Lake at \$3.09 secured a new high record since February, 1913. This stock affords a high yield at its present price, and is expected to move to higher levels before long. La Rose sold at 42. The Porcupine list came into the limelight for the first time in some weeks, a sharp advance in Pearl Lake, which sold up to the highest point since January, 1912, at 32, a gain of 1-4 points, and an upturn of 5 in Dome Lake, which closed a new high record, being the features. Pearl Lake is being accumulated in the expectation that the company will cut the vein at the 600 foot level shortly, and in the idea that the mine will be numbered among the big producers of the camp before many months have passed. Porcupines Are Stronger. The new Dome Lake stock will be issued on Feb. 1, and the movement in the old shares is believed to be a preliminary bidding up of the quotation on that account. At 24 for the first day of March next, to shareholders of record of Feb. 15, 1913, the ratio of exchange being 3 for 20.

GOLD BRICKS SOON AT THE PEARL LAKE

Stamp Mill on Way to Camp—Should Cut Vein at Lower Level Soon.

At the Pearl Lake gold mines property in Porcupine the cross-cut at the 600 foot level has been carried a distance of 75 feet and within a week or ten days should be reached if the calculations of the engineers are realized. It is estimated that the vein will be cut about 146 feet from the surface, the dip in evidence at the 400 level would indicate that the cross-cut should be reached at about that distance. At the office of the company on Saturday the stamp mill was already on its way to the camp, and that the mill would be rushed to completion just as soon as the necessary arrangements are completed, it is very probable. The outlook, and expects that the Pearl Lake will loom up as one of the big producers of the Porcupine district in the very near future.

JOHN BULL INVESTS IN SOUTH AMERICA

The South American Journal, London, says at end of December, 1912, \$282,100,561 British money was invested in government bonds and securities of railways and industrial operating in various republics of South America, Mexico and Cuba quoted on London Stock Exchange, against \$244,717,606 at close of 1911.

KNOX AUTOMOBILE CO. IN RECEIVERS' HANDS

BOSTON, Jan. 25.—The Knox Automobile Co. of Springfield, Mass., has been placed in hands of receivers, J. D. Moran of United States District Court at Boston, on petition of creditors. Assets are said to be about \$1,000,000 and liabilities about \$2,000,000. Present receivers have been serving as assignees since last September. Believed concern will be reorganized by Boston law firm.

OUTSIDE INTEREST SMALL IN WALL ST.

J. P. Bickell & Co. had the following: Stocks were quite firm all along the line with superior strength in Union Pacific and Steel among the leaders, and in the traction among the better. Foreign news was better, telling of the possibility of avoiding a renewal of Balkan hostilities and a more reasonable attitude toward the Balkan States. Turkeys in lower than was anticipated. Outside interest is being and barring the possibility of a favorable Minnesota election, which stocks should be sold on all rallies.

NATIONS HARD UP MUST BORROW SOON

NEW YORK, Jan. 25.—A London cable to Journal of Commerce says high authorities estimate Balkan states will need to borrow \$40,000,000 immediately. Turkey \$30,000,000 and China \$28,000,000. The news not encourage expectation of lower Balkan

BIG BUYING DEMAND UNDER THE MARKET

Public Are Bidding For Stocks and Prices Are Rapidly Advanced Thereby.

THE TRADING IS ACTIVE

Another Series of Upturns Brought About—Porcupines in Limelight.

The action of the mining exchanges at the week-end plainly evidenced the fact that there was a big buying demand under the market, and that prices could rise very easily. The trading movement was considerably above the average for a half-holiday, upwards of 81,000 shares changing hands on the Standard Stock Exchange alone. The Cobalt list was in active demand throughout, and several sharp advances bore out the idea that the buoyant undertone was nearly a point to 3, and at the close was 92-8 bid, making a new high record for the year. This company recently sold one of its numerous mining claims and has an amount of money in the treasury for each share outstanding which is about equal to the present market value. It is also understood that deals are under way for several others of its properties. Cobalts to the Fore. Other strong spots were Peterson Lake, which rose to 25 1/2, a gain of half a point, thus duplicating its recent high record. Timiskaming, which was up a fraction to 81 1/2, and Westlauer. The latter gained a full 3 points at 17 1/2. The annual meeting takes place shortly, and the buying is believed to be representative of an attempt to make a good showing at that time. Kerr Lake at \$3.09 secured a new high record since February, 1913. This stock affords a high yield at its present price, and is expected to move to higher levels before long. La Rose sold at 42. The Porcupine list came into the limelight for the first time in some weeks, a sharp advance in Pearl Lake, which sold up to the highest point since January, 1912, at 32, a gain of 1-4 points, and an upturn of 5 in Dome Lake, which closed a new high record, being the features. Pearl Lake is being accumulated in the expectation that the company will cut the vein at the 600 foot level shortly, and in the idea that the mine will be numbered among the big producers of the camp before many months have passed. Porcupines Are Stronger. The new Dome Lake stock will be issued on Feb. 1, and the movement in the old shares is believed to be a preliminary bidding up of the quotation on that account. At 24 for the first day of March next, to shareholders of record of Feb. 15, 1913, the ratio of exchange being 3 for 20.

COBALT OUTPUT

COBALT, Jan. 25.—(Special.)—Ten cars of ore, totaling over 300 tons, was the output for the week from the Cobalt camp. Nine cars contained high grade, and prominent among the shipments is the City of Cobalt, with a car of high grade. Since the recent reports relative to the change in management on the list are regular. Cobalt Lake shipped a car of low grade, the first since the mill has been in operation, as nothing but high grade concentrates is shipped from the mill. The twenty-ton car of gold ore from the Tough properties was as follows: Cobalt, owned by C. A. Foster of Havelburg, and sampled in Cobalt, was sent out during the week. The ore averages over \$400 to the ton. The record for the week follows: Grade, Pounds. O'Brien high 45,500 Congra high 87,000 Drummond high 85,200 City of Cobalt high 65,878 Towns high 50,187 La Rose high 62,419 McKinley Darr high 66,916 Cobalt Lake high 65,500 Cobalt Lake low 64,000 Total 652,693 Tough "Swatiska" gold ore 41,300 Bullion shipments were as follows: Onnces, Value. Nipissing 46,044.02 \$29,965.28 Buffalo 18,120.00 12,500.00 Total 65,164.02 \$41,465.29

BRAZILIAN WILL BE EX-DIVIDEND SOON

In connection with the recent upturn in Brazilian, it is to be remembered that the shares will be ex-dividend a week from today, and that consequently a matter of 1-1/2 points will come off the price at that time. In consideration of this fact, the present quotation of 98 1/2 is equivalent to a purchase at 97 without the dividend added.

FAILURE RECORD A FAVORABLE ONE

The number of failures in the Dominion during the past week in provinces, as compared with those of previous weeks, and corresponding week of last year, are compiled by Dun's Agency as follows:

Table showing failure records for various provinces: Ont., Que., Man., Sask., B.C., P.E.I., N.S., N.B., N.W.T., Yukon.

LIVERPOOL GRAIN EXCHANGE.

LIVERPOOL, Jan. 25.—The late strength in American yesterday caused some covering by shorts at opening and values were bid higher and following the opening, March further advanced 1/4. There continues a fair demand from the continent with millers buying. Following the opening the market was dull, the advance being checked by the larger and cheaper Plate offerings and more favorable Indian news and heavy American shipments as indicated by Bradstreet. At the close the market was dull, but steady, bid to bid higher. Corn—Opened unchanged to bid higher, in sympathy with America and the firmness in Buenos Ayres. Later demand was realizing on the pressure of Plate steamers ahead and a poor demand for spot. The American grade advanced 1/4 on former offerings. At the close of

REACTION IN CORN AFTER EARLY RISE

Chicago Inclined to View Argentine Rumors With Distrust—Wheat Sold Off.

CHICAGO, Jan. 25.—Corn and wheat today were steady, provisions firm and wheat heavy. Wheat attained the best prices of the day early on an advance at Liverpool and in sympathy with corn, all the continental markets were generally lower. Heaviness developed later when corn failed to hold all of its advance, and the trade became convinced that various reports that stocks of wheat in the principal cities of accumulation are very large. New York, for instance, claimed that a lot of it is being held on track on demurrage, while the bullish crop reports were coming from the Argentine central speculative market rather than from the corn belt itself. The local market then receded from the top and may closed only a shade over yesterday. Spot corn was dull.

Trade in oats was small and fluctuations followed those of wheat and corn, May closing a shade up. The best buying was by shorts, while the selling seemed to come from more influential sources. Spot dull. Provisions were dull but higher in sympathy with higher hogs, although the week's receipts were larger than those of the previous week. Local longs were sellers on the advance, but the close was 5c to 7 1/2c to 20c over yesterday.

Northwest Receipts. Receipts of wheat at northwest points, with usual comparisons, follow:

Year	Wk. ago	Yr. ago
Chicago	267	425
Minneapolis	83	118
Duluth	99	118
Winnipeg	287	464

EUROPEAN MARKETS. The Liverpool market closed 1/4c higher on wheat, and 1/2c higher on higher corn. Berlin closed 1/2c lower to 1/4c higher. Antwerp unchanged and Brda Post 1/2c lower.

PRIMARIES. Yesterday's closing prices of wheat, corn, and other commodities.

ST. LAWRENCE MARKET. Receipts of farm products were 300 bushels of grain, 12 loads of hay, a few bushels of corn, 40 or 50 loads of mixed produce, in the north market building, and a moderate supply of butter, eggs and poultry on the market.

BRITISH CONSOLS. Consols, for money, 7 1/4%; Consols, for account, 7 1/4%.

IMPERIAL BANK OF CANADA

DIVIDEND NO. 90. Notice is hereby given that a Dividend at the rate of Twelve Per Cent. (12 p.c.) per annum upon the Paid-Up Capital of this Institution has been declared for the three months ending 31st January, 1913, and that the same will be payable at the Head Office and Branches on and after Saturday, the 1st day of February next. The Transfer Books will be closed from the 17th to the 31st January, 1913, both days inclusive.

By order of the Board, D. R. WILKIE, General Manager. Toronto, 18th December, 1912.

Would an Overcoat Interest You at These Prices?

Tuesday we cut the price on three lines of our newest and most up-to-date overcoats. The style is correct and the materials leave nothing to be desired.

Double-breasted, button-through style, with self collar, box pleat down the back, belt across back, cuff on sleeves, slash pockets, three-quarter length, perfectly tailored, good linings; this style of coat comes in two good colors, a plain dark brown and a plain gray diagonal English tweed; another natty overcoat is made from a light brown English tweed with fancy back, velvet collar, silk sleeve linings, and yoke, patch pocket, single-breasted, buttoned-through style. Every coat the finest. Regularly \$20.00 and \$22.00. Reduced to... 15.00

MEN'S TWEED WATERPROOF COATS.

Made from a brown diagonal pattern English tweed, thoroughly rubberized, making it proof against wind and rain; single-breasted, button-to-the-chin style; beautifully tailored; a tweed coat that can be worn in winter as well as at any other time of the year. Price 13.50

SPECIAL CLEARING IN BOYS' BLUE SERGE SUITS.

22 Two-Piece Suits, smart double-breasted style, with full-cut bloomer pants; made from an imported English rough blue serge; a splendid-wearing cloth, with good finish; first-grade twilled linings; sizes 26 to 34. Tuesday 4.95
(Men's Store—Main Floor)
