TACTICALLY DEFEATED

Czar's Army Captures Important Railway Centre in Western Galicia.

By Frederick Rennett, Special Correspondent to the London News and the Toronto World.

PETROGRAD, Feb. 15.—Since the great German forces brought their last concerted sweeping movement across East Prussia to the borders of Russia the conditions facing them have imposed a radical change in their tactics. The central aim of the operations was very clearly defined up to the point when the Russians succeeded in drawing out from the gap between their north and south wings, beginning to pass beyond them on both flanks. The Germans now find that they have still to fight combinations of Russian columns inside the fringe of Russia and in the bare, thinly populated plains of northeast Poland. The determined fight that the Russians have maintained at an angle between Russia and Poland along the line of Lask-Gratovo where they still hold the ascendancy, has prevented co-ordination of attack by the German army that crossed eastwards on the borders of Poland and its northern partner which is now held up against the Russian defences on the Niemen.

This arrest of the German combination has led to a noticeable scattering of Russian columns inside the fringe of Russia and in the bare, thinly populated plains of northeast Poland. The determined fight that the Russians have maintained at an angle between Russia and Poland along the line of Lask-Gratovo where they still hold the ascendancy, has prevented co-ordination of attack by the German army that crossed eastwards on the borders of Poland and its northern partner which is now held up against the Russian defences on the Niemen.

NEUTRAL SHIPPING IS WARNED BY GERMANY

Name and Flag Should Be Painted High to Guide Submarines.

Canadian Press Despatch.
LONDON, Feb. 15, 7:30 p.m.—A despatch to Reuters' Telegram Co. from The Hague says:

"The German admiralty states that when a name and a national flag are painted on the side of a neutral ship, in order to insure protection from a German submarine attack, they should be water line, as otherwise they may not be observed from the submarines, which are now being used in great numbers above the water. Rough weather and high seas increase the necessity for neutral ships observing this precaution."

Berlin Claims Russians Have Been Driven Across Pruth River.

Canadian Press Despatch.
BERLIN, Feb. 15.—By wireless from Savelite.—The Overseas News Agency quotes The Berliner Tageblatt as saying in a despatch from Budapest that Austro-Hungarian forces have entered Czernowitz, the capital of Bukovina. The Russians are said to have been driven across the Pruth River and to have retreated towards Noworodok on the Russian border.

The evacuation of Czernowitz by the Russians was reported in a despatch from Berlin on Feb. 10, but was not confirmed.

Mens' Fur Garments at Give-Away Prices to Clear.

It seems almost unbelievable that handsome, rich fur-lined and fur coats are going at the Dineen store at such sensational prices, but orders have been given to the salespeople at 140 Yonge street to the effect that "every fur must sell before the end of the month." The prices are particularly low on the entire stock in men's department—all styles of fur coats, caps, gauntlets, driving robes, coachmen's outfits, etc., as well as swaggers and heavy weight coats in all this season's newest effects. Decide to look over this department today. You can hardly fail to find something you can buy with substantial profit to yourself.

NAVY TO CLOSE GERMAN PORTS SAYS CHURCHILL

Importation of Food Supplies Will Be Cut Off Entirely.

Canadian Press Despatch.
LONDON, Feb. 15.—Great Britain has finally decided to clamp on every German port, and to cut off the importation of food supplies in retaliation for Germany's submarine policy. This announcement by Winston Churchill, secretary of the admiralty, in the commons today was greeted with loud cheers.

The announcement of the government's declaration with regard to Germany's food supplies came almost coincidentally with the receipt of two despatches from the United States, one saying that Count Von Bernstorff, the German ambassador, had informed the Washington government that Germany was willing to abandon her submarine policy, provided Great Britain ceased interfering with cargoes of foodstuffs, and the other saying that the agents had advised neutral shipping that they had declared those waters which Germany had declared would become a dangerous military area three days hence.

Mr. Churchill disclosed for the first time the total naval losses as the result of the war. These, he said, were upwards of 5000 officers and men, a majority of them victims of submarines. Germany's naval losses were about the same.

Concerning submarines, Mr. Churchill outlined what Great Britain proposed to do as a counter to the German submarine policy.

WASHINGTON SO TOLD

British Reply to U.S. Note Intimates More Stringent Measures.

Canadian Press Despatch.
WASHINGTON, Feb. 15.—With only three days remaining before the German admiralty proposes to carry into effect its proclamation ordering a submarine campaign on enemy merchant ships, developments in the diplomatic situation moved rapidly today thru the medium of the United States Government's memorandum on the diplomatic interests of the various belligerents.

Count Von Bernstorff, the German ambassador, delivered a note to the United States, which was promptly transmitted to Great Britain in which Germany offered to relax from her plan of destroying enemy merchant ships if restrictions imposed by the allies on shipments of foodstuffs to continental and insular Germany were removed. Otherwise, the note announced, Germany proposed to continue and intensify her submarine warfare, and also the stranding of mines in waters surrounding Great Britain and Ireland.

Alleged wording of British merchant vessels is given by the German Government as ground for attacking enemy merchant ships without search or prize hereafter as in the category of warships. The ambassador's communication was sent from Berlin before the receipt of the American note delivered by Ambassador Gerard and is supplemental to the German note of the new war zone.

More precautions by Allies. At the same time that the German ambassador conferred with Secretary Bryan and Counselor Lansing, the complete text of the British reply to the American note of protest on neutral shipping, regarding merchant craft hereafter as in the category of warships, was sent from London.

PORTS BEING GUARDED

Action is Essential for the Safety of Naval Bases.

Special to The Toronto World.
WASHINGTON, Jan. 15.—The British embassy today informed the state department that His Majesty's government had decided that subjects of the enemy nations, whether they be of the crew or passengers of vessels entering certain ports of the British Empire would, in the future, be liable to removal or detention. The action is pointed out as being a precautionary character, but regarded as essential for the safety of the ports in question. The following is the list of ports in which the present subjects of Great Britain's enemies will hereafter be prohibited from entering: Aden, Albany, Alexandria, Ancon, Auckland, Barbados, Bermuda, Bombay, Brisbane, Calcutta, Capetown, Colombo, Durban, Esquimaux, Falkland Islands, Fremantle, Gibraltar, Halifax, Hongkong, Karachi, Kingston, London, Lyons, Madras, Malindi, Mauritius, Melbourne, Mombasa, Otago, Penang, Port Antonio, Port of Spain, Port Louis, Port of Spain (Trinidad), Port Said, Rangoon, St. Helena, St. John's, Nfld., Suva, Sydney, Swire, Singapore, Suez, Suva, Sydney, Burwood Island, Victoria, B.C., Wellington and Zanzibar.

Shed and All Contents Destroyed—Bombs Caused Havoc Among Stations, Electric Works, Bridges and Factories, Reports an Amsterdam Despatch.

Canadian Press Despatch.
AMSTERDAM, Feb. 15.—(1:10 a.m.)—The Vandeblad's Sluis correspondent, in a despatch concerning the raid last week of thirty-four British aviators over portions of northern Belgium, says that at Ostend the sheds of the sea railway station were badly damaged and the Hotel des Terminus, near the station, was slightly damaged. The De Smet de Nayer bridge suffered heavily, and all communication with the sea station was broken.

At Blankenberghe, the correspondent says, the station and the railway were destroyed. At Zeebrugge, he adds, the central electric works and a factory were destroyed and the bridges there could not be worked, owing to a lack of electricity. A Zeppelin shed with all contents was destroyed, the correspondent adds.

BRITISH STEAMER DAMAGED BY MINE

Twelve of Crew of Wavelet Drowned When Boat Capsized.

BEACHED NEAR DEAL

Two Terrific Shocks Felt by Ship, and Much Water Flowed on Board.

Special Cable to The Toronto World.
LONDON, Feb. 15.—A despatch to The Daily Chronicle from Deal on Sunday says: Another British ship has been damaged, this time off the Kentish Knock lighthouse. It is feared that a dozen men perished. The ship, making water badly, was directed to the Downs, and ultimately ran ashore at Pegwell Bay, a mile north of Deal, where she remains beached in a comfortable position. The ill-fated vessel is the Wavelet, 193 tons, owned by W. P. Neesham of Hartlepool, and she carried a crew of 24. She is laden with timber and was bound from Penzance for Leigh, under the command of Capt. Cole, who said he had come to the conclusion that the ship was damaged by a mine.

"I was standing on the bridge with Pilot E. Curtis of South Shields, and we were close together, talking at the moment the disaster happened. Without a moment's warning a terrific shock seemed to hit the boat immediately below where we were standing. Ten minutes afterwards there was a second shock. With the immense volumes of water which came on the decks from explosives or the hull of the ship, it is impossible for me to say the first boat the men rushed for when they imagined that the ship was sinking was being struck out on the davits, but one side was slacked out too much with the result that the boat tilted on one side and the crew got into her, 13 in all, were hurled headforemost into the sea. So far as I could make out, the second boat was being got out by a stoker, but finding himself in difficulties, the chief engineer went to his assistance, and while the two men were in boat, the painter, probably because too short, broke. They were on the open sea for about an hour until picked up by patrol boats. Including the 13 missing men are the third engineer and chief mate. Most of the crew are English north country men, and two or three from Scotland.

Liberal Caucus Today Will Seek to Adjust Differences.

By a Staff Reporter.
OTTAWA, Feb. 15.—Liberal members of parliament are to go into a caucus tomorrow, ostensibly on the budget, but the real subject under discussion will be the policy of the opposition during the present session. Sharp differences of opinion have already developed between the militants of the party, headed by Hon. Dr. Pugsley and the pacific wing for which Dr. Clark or Red Deer, has already spoken. The inspector said that Sir Wilfrid Laurier has not committed himself and will no doubt be largely influenced by the expression of opinion from his followers at tomorrow's conference.

FINANCE MINISTER MADE STATEMENT ON CANADA'S WAR BORROWINGS.

EXCESS NOTE ISSUES

Sir Wilfrid Thought Case of Eight Years Ago Was Different.

By a Staff Reporter.
OTTAWA, Feb. 15.—When the house opened this afternoon, Mr. Kyle, the Liberal member for Richmond, N.S., interpolated the minister of finance respecting the excess issue of Dominion notes during the parliamentary recess, and the loans made to the chartered banks and railways.

Precedent Cited.
Mr. White admitted that these advances to the railway companies would require confirmatory legislation, but pleaded the precedent established by Hon. Mr. Fielding in 1907.

Sir Wilfrid Laurier thought there was some distinction between the transactions by the excess issue of Dominion notes in 1907 being loaned directly to the Bank of Montreal.

Replying to another question, Mr. White said that since August, \$14,439,787 of Dominion notes had been issued by way of loan to the chartered banks against collateral other than gold, of which amount \$7,047,297 had been repaid.

Loan of \$60,000,000.
Asked as to how much money, if any, had been borrowed from the Bank of England, Mr. White said that the British Government had arranged to loan the Canadian Government 12,000,000 pounds for war expenses during the balance of the fiscal year ending March 31, and of this amount 8,000,000 pounds had been advanced up to date, including 5,000,000 pounds advanced by the Bank of England for the Imperial Government.

Domestic Who Killed "Bert" Massey Said She Had Been Molested By and Was Afraid of Her Employer, and Shot Him in Self-Defence.

Carrie Davies did not go into the witness box last evening at the resumption of the inquest into the death of Charles Albert Massey. Instead, Inspector of Detectives Keenan read to the jury her statement which she made on the night of the murder. The girl was in the room for a few moments early in the evening and was brought forward by a police matron to be identified by Ernest Pelletier, the newsboy who witnessed the shooting, as the maid who answered the door for him. Although very pale she showed no sign of nervousness.

After the jury had been out about ten minutes, James Burford, foreman, returned with the following verdict:

"We find that Charles Albert Massey came to his death in the City of Toronto, County of York, on February 1, 1915, as a result of a pistol shot which we believe was fired by one Carrie Davies, and that the accused Carrie Davies did feloniously and with malicious aforethought kill and slay Charles Albert Massey."

Allowed Other Evidence.
At the urgent request of H. H. Dewar, K.C. counsel for Miss Davies, Chief Coroner Arthur James Johnson allowed the evidence of two witnesses, Mrs. M. E. Massey and Dr. McLaughlin, bearing on the mental condition of the girl during the month of July last, when, while summering at the island, she is said to have been subject to violent mental derangements in addressing the jury, however, the coroner emphasized the point that with regard to her mental condition when she was shooting they as a jury had nothing whatever to do.

After the verdict was returned Chief Coroner Johnson made the following significant statement:

"The government will probably see fit to order some investigation into the mental condition of Carrie Davies at this time, and it will be upon this finding that it will be decided whether she will ever be tried. If a person is proved to be insane, the government, thru the attorney-general's department, has the power of sending the person to an asylum. That is the way these cases are sometimes handled."

Girl Made Statement.
The most important evidence of the evening was the statement of the girl made to Inspector Kennedy, which he read to the jury. The inspector said that on the night of the shooting, somewhere about 8 o'clock, this little girl, Carrie Davies, was brought to my office. Detective Levis was present, and I first cautioned her that anything she said might be used as evidence against her later. I also explained that she need not answer the questions if she so desired. I did not ask her to sign the statement, and there was no shorthand report made. I took down the answers to my questions in long-hand. The following is the statement made public by the inspector last evening:

Q—"What is your name?"
A—"Carrie Davies."
Q—"How old are you?"
A—"Eighteen."
Q—"How long have you been in Canada?"
A—"Two years."
Q—"Where were you born?"
A—"In England."
Q—"Where have you worked since coming to Canada?"
A—"At Mrs. Massey's, 188 Walmer road."
Q—"Have you been employed there ever since you came out?"
A—"Yes."
Q—"How many are there in the Massey family?"
A—"Three—Mr. C. A. Massey, Mrs. Massey and one boy."
Q—"What time did this shooting take place?"
A—"About twenty-five minutes past six."
Q—"Where did it take place?"
A—"At 188 Walmer road, on the street."
Q—"What happened?"
A—"I shot him; I guess he is dead now."
Q—"What did you shoot him for?"
A—"I really shot him in self-defence."
Q—"Who did you shoot?"
A—"Mr. Massey."
Q—"What do you mean by saying you shot him in self-defence?"
A—"He looked dangerous at me yesterday, and I thought he was going to do the same today."
Q—"What did he do to you yesterday?"
A—"Told me Sister."
A—"He caught me on Sunday afternoon and kissed me twice, and I ran upstairs, and then he called me in to make his bed, and as soon as I went into his room he said 'This is a nice bed, and caught hold of me. I got away from him and ran up."

TUESDAY MORNING, FEB. 16, 1915.

A Fountain of Infamy

Germany seems determined to impose to everybody the same mercenary and conscienceless character which has distinguished her own attitude in her relation to her neighbors.

Great Britain could be bought at any time. Every nation has its price, had been adopted by the Kaiser as a diplomatic axiom.

Germany has evidently one of the calculations that Germany had made. It was a surprise to the Kaiser when he found that his L.O.U. did not pass current in international politics.

Germany is not satisfied, and has now approached Italy, according to the latest advices, with another L.O.U.

This entire liability on the part of Germany to appreciate such intangible considerations as national honor and good faith has not been an element of strength to her so far and we may be assured that Italy is no more susceptible to such dastardly considerations than other civilized powers.

Germany, Germany would treat her worse than she was treating England. Prince Von Buelow, in making these statements, illustrated as low a standard of national morality, and as barren a conception of national ideals, as history anywhere presents.

The last forty years of Germany's national life has apparently done more to brutalize Europe than could have been deemed possible in the days when Victoria, the Kaiser's grandmother, stated the future of the empire on the friendship of Germany.

Some quibbling has been done about the denomination of the war taxes, and it is seriously suggested that they are not war taxes at all, inasmuch as not a cent of the money collected in these taxes will go to pay war expenditures.

The war funds are raised by loans which will be paid later. The proper procedure according to this view would be to raise loans for current expenses and apply the tax collections to the war expenditures.

For the ordinary man, who has to do the paying, and is not immediately interested whether his money goes to long or to short credit accounts, and who will feel quite satisfied that if there had been no war there would have been no war taxes, the important point will be that the taxes are no heavier than they are.

British and Germans in the United States

The Canadian-American of Chicago points out that if the necessary views taken by Prof. Demburg are to be given weight, then it is not Germany which will gain the advantage of the argument.

The British contribution is larger, the British foreign-born numbering 3,363,792, and the British native-born 4,673,628; while the German foreign-born numbers 2,910,937, and native-born 6,276,160.

When it comes to trade the argument is still less favorable to German influence. United States exports to Germany in 1914-15 amounted to \$244,734,376.

Exports to British dominions totaled \$1,069,593,617; so that the British market is more than three as good for the United States as the German market has been.

Dealing With Pirates

"We are not going to stand idly by and see Germany carry into effect her threat to play the pirate part and raid English shipping. It is probable that a new plan of action will bring the full pressure of the British naval power to bear upon Germany."

Which these significant words Rt. Hon. Winston Churchill intimated, that important developments may be expected during the week.

There is a suggestion that a forceful aggressive movement may be made by the British fleet, against the Germans. British 15-inch guns can out-range anything Germany at present possesses, and there is nothing about the German flag which can stand up to Britain's biggest vessels.

At several street crossings around the Vatican soldiers had built temporary wooden bridges. These, with the passing of boats up and down the river, therefore created the impression that a section of Venice had been brought up to Rome.

The embankment near the military college, which was still in course of construction, collapsed this afternoon. Serious damages have been detected in the Riformatori bridge, and all passage over the structure has been forbidden.

U. S. Senate Will Investigate Charges of Undue Influence on Both Sides.

Canadian Press Despatch. WASHINGTON, Feb. 15.—Charges and counter-charges from Democratic and Republican sources concerning influence for and against the government ship purchase bill, which have spotlighted the subject of a week, were made the subject of a special investigation today by the Senate.

The rubber was in the form of sheets and mainly colored. Each of the 118 bales in the consignment contained about four pounds. The entire consignment was refused shipment when the consignment was discovered. It is said, as the Credit's pier, officials of the White Star Line said that the office of the United States district attorney had been furnished with the name of the consignee and consignor.

CLAIMS PAYMENT FOR STOCK SOLD

R. A. Harris Sues E. T. Townsend for Commission on Sales of Mining Issues.

APPEAL FROM FINE

Dominion Bridge Co. and G. A. Fuller Seek Release From Former Decision.

Mr. Justice Lamer gave judgment yesterday at Osgoode Hall in the action of R. A. Harris of Athery against E. S. Townsend of Sudbury. The defendant is managing director of the Golden Rose Mining Co., and the plaintiff claims that when the value of the mine was discovered he entered into an agreement to act as agent for the company and sell 4000 shares of stock at par.

For every four shares he sold he was to receive one share as commission. He states further that by verbal agreement he was to have exclusive right to sell stock in Orillia. The defendant sold stock in Orillia and refused to give the plaintiff his commission.

His lordship found the verbal agreement supported by the evidence and the estimate of variations in the first agreement were made at the request of the defendant.

Regarding the amount of stock sold and the price received, Justice Lamer dealt with one case in particular, that of 1400 shares sold in Orillia at \$4 1-2 cents per share. The defendant says he sold them, but his lordship was of the opinion that the work of the plaintiff made the selling easy for Mr. Townsend and that Mr. Harris would have made the sale had he not been sick. He thought plaintiff was entitled to commission at the rate of 25 per cent.

With reference to the plaintiff's claim that he could have made certain sales if defendant had not interfered, a reference was ordered to the local master at Barrie to take an account of the shares sold by defendant in Orillia and credit it to the plaintiff at 25 per cent commission; also to charge against the plaintiff all shares already transferred to him.

Appeal From Fine. An appeal is proceeding in the first appellate court in the appeal of the Dominion Bridge Company and the G. A. Fuller Company from the fine of \$5000 each imposed by Mr. Justice Lamer for maintaining a nuisance.

The case arose from the alleged nuisance of the year in the Dominion Bridge Company and the G. A. Fuller Company from the fine of \$5000 each imposed by Mr. Justice Lamer for maintaining a nuisance.

List for Today. The list for today is: First appellate court: Healey v. Ross, Dixon v. Linn, Edwards v. North Bay, Boudreau v. Tremblay, Murray v. Murray, Kirkwood v. Storey, Journal Printing Co. v. McVally.

CIVIC ESTIMATES UNDER DISCUSSION

Cut in Property Department and Slices Taken From Others. STREET CARS READY Three Will Be Shipped From Factory Today for Bloor Line.

The board of control spent yesterday in going over the estimates of some of the civic departments and there are more long days at this work to follow before the task is completed and the estimates are ready to be sent to the council.

Most of this was in one item, \$7000 for a lavatory at Toronto and Adelaide streets being deducted. City Architect W. W. Pearce asked \$75,100 for 1915 as against \$24,944 for last year. The amount asked for is slightly over that expended last year, most of it being accounted for by salary increases.

Chief Electrical Inspector Shields wants \$25,100 to carry on his new department. The last estimates are up \$531, last year's being \$51,165. The large item of the fall is salaries, which amounts to \$23,165.

It costs the city over \$16,000 a year to handle from 11 to 15 cases daily in the juvenile court, the estimates for this year being \$10,464. Of this amount the controller yesterday cut \$7,460.

The city assessors will begin their work of making the 1915 assessments on March 1. The commissioner hopes to show a substantial increase over last year.

Three new cars for the Bloor street civic car line are now ready at the factory and will in all probability be shipped today.

The 1800 pounds of milk has not come from the South. Agriculture, Ontario, is now producing milk in the farm district of that province.

The city received two more \$1000 cheques yesterday for soldiers who have died on the battlefield. The men are Thomas Montgomery and William Auburn. A cheque has already been made out for the death of Joe Randall, making six that the city has received to date.

Major Church will propose that the conferring of the grade of honorary citizen be put in the hands of the police instead of Property Commissioner Chisholm as at present.

The property committee yesterday afternoon appointed a sub-committee composed of Ald. Walton, Weir, McGuire, Ball, and Roden to report on the lighting of the city streets.

City Auditor Sterling, after an audit of the books, reports the combined revenue and renewal funds of the Consumers Gas Co. to be \$4,721,000, equal to 24.26 per cent of the paid-up capital of \$4,832,000.

Operating expenses were \$2,622,000, an increase of \$177,700. Dividends amounting to \$48,137, at the rate of 7 1/2 per cent, were paid. Total plant, real estate and equipment of the company is valued at \$8,812,122. Total assets are \$10,882,127, an increase of \$754,000.

Baseball International Opens April 2

THE LEAFS START OUT AT RICHMOND

Jack Dunn Will Manage New Club—Distinguished Delegates at Schedule Meeting.

NEW YORK, Feb. 15.—Four weeks from today the International League will announce its playing schedule for the coming baseball season, and there will be no change in the eight-club circuit, except that occasioned by the transfer of the Baltimore Club to Richmond, Va. The schedule, which is to be prepared by President E. G. Barrow and Jacob J. Stein of the Buffalo Club, will begin on April 27. In the opening games on that day the clubs will play as follows: Toronto at Richmond, Montreal at Newark, Rochester at Jersey City and Buffalo at Providence.

This much was announced here tonight by President Barrow after a four-hour conference, at which all the club representatives, Alvin M. Smith, president of the Richmond, Va., Club, and Jack Dunn, formerly of Baltimore, who will manage the transferred club this year, were present, the others in attendance being: James J. McCaffery, Toronto; Sam Lichtenhein, Montreal; J. J. Stein, Buffalo; C. T. Chapin, Rochester; Stephen D. Flanagan, Providence; T. Fogarty, Jersey City; Charles H. Ebbets, Sr., and H. W. Melhus, Newark.

President Barrow also announced that a stock company was being formed for the purpose of purchasing the Jersey City franchise, and that it would be operated in either Jersey City or the Bronx, depending, he said, with a view to including the National and American League clubs of this city to permit the purchasers of the Jersey City franchise to locate in the Bronx. He was not prepared to state whether the effort to get this permission would be successful, but he had been entrusted with the entire matter, and hoped to be able to make a definite announcement by the end of this week.

The transfer of the Baltimore franchise to Richmond was ratified today. When the club owners meet here again on March 15 to adopt the schedule, each club will be required to put up a security bond of \$10,000 as a guarantee that its contractual obligations will be fulfilled. President Gilmore of the Federal League arrived here early today. He said that there was no truth in the rumor that the Indianapolis Federal Club was to be transferred. He also asserted that within forty-eight hours Messrs. Sinclair and Powers, who recently purchased the Kansas City franchise, would decide whether they would locate in Newark, N.J., or in the Bronx.

FRUIT TEAMS PLAY THE GAME

The hockey game, White & Co. v. McWilliam & Everist, which has been the topic of conversation in fruit circles for the past week, came to a climax Saturday afternoon at Bayville Park. Advance notices heralded this as a friendly game, but from the start it developed into a battle royal, the final period resembling a life-and-death struggle between the Russians and Turks. In fact, the referee had considerable difficulty in maintaining any kind of order and satisfying all concerned.

White & Co. had apparently the largest band of rooters, and right at the start spurred their boys into action, with the result that they scored two goals before McWilliam & Everist's team got going. The latter, however, proved to be the best pluggers, and in the final period evened matters up. When the final bell rang the score stood five-all.

It was agreed to play a minutes' overtime, in which no goals were scored, so the game finished even-Stephen, and hostilities were postponed till some future date.

There were many of a speculative nature present ready to run a shoeing into a fruit store, and vice-versa. Quite a little bitterness cropped up during the progress of the game, which threatened to mar the pleasant relations; however, at the finish each team gave three lusty cheers for their opponents, and, with hand-clapping all round the rooters and players went home better friends than ever.

HOKEY

On Wednesday night at the Royal Tompkins building the City Playgrounds and Grand Trunk Intermediate O.H.A. team will clash. The first meeting of these teams resulted in one of the closest games of the season. At full time the score stood a tie, and was finally won by the Playground boys by one point. Both teams are battling for the leadership of the group, and this game means a whole lot. The first game in the league of the Junior O.H.A. will also be played on Wednesday night between City Playgrounds and All Saints. Both these games will be fast, and a lot of clever basketball will be seen.

BASKETBALL

The Sunderland F.C. are open to receive applications from any of the clubs to use the Sunderland Athletic grounds on their away dates. Full information can be had from the secretary, Hounslow Heath, 47 St. Clair avenue west, or phone Junet. 2100.

SAINTS AND VICS FOR THE HONORS

First Game at Arena Tonight and Third Meeting of These Two Clubs.

The stage is set and everything in readiness for the first game of the senior O.H.A. finals at the Arena tonight. The hockets have been gobbled up and the crowd will be large. The same two clubs battled for the premier O.H.A. honor last year in it again, and the same two clubs are in it again. This time with their peering back-checking, beat named T.B.A. The Victoria team has the heaviest support and this is what rules the betting. Victoria have two new players put in that they will win their third title this year, and they have won the Vics are strong finishers and will win the round. They may lose the first game, but will always have enough left to come on and win the final game and the round. You can't tell this to the local support.

DRAW FOR THIRD ROUND OF CUP

Second Round of English Cup Showed an Improvement in the Money End.

LONDON, Feb. 15.—The receipts from the second round of the English cup ties, which was finished last Saturday, showed a welcome improvement over that from the first round games, when it is considered that only half as many matches were played. Four hundred and two thousand people paid \$90,700 to see the thirty-two ties on Jan. 9, while the second round, in which only sixteen games were decided, attracted 416,038 people, the gate money totaling \$148,465.

In the first round last year \$121,480 was taken in, while the second round this year produced \$109,065. The Chelsea-Arsenal game was the biggest attraction this season, heading the list, with just a little more than \$40,000, while the Bradford City-Middlesbrough contest was close up, with \$35,000.

Many clubs are already feeling the pinch badly thru the big falling off in receipts, and when the season closes, at the end of April, serious trouble will have to be met. As little provision can be made for salaries thru the summer months, unless the year is terminated before Victoria. The outlook for soccer next season is far from encouraging. The draw for the third round, tied to be played on Saturday, resulted as follows:

Manchester City v. Chelsea
Southampton v. Hull City
Sheffield Wednesday v. Newcastle U.
Birmingham v. Oldham Athletic
Bolton Wanderers v. Burnley
Sheffield United v. Bradford
Queens Park Rangers v. Everton
Only one tie will be played in London, Queen's Park Rangers entertaining Everton. London's other club left in the competition, Chelsea, will visit Manchester to tackle the city club, where they should force a draw and win the replay on their own grounds.

Butler the holders of the cup, will have to work hard in their away tie with Bolton Wanderers, who defeated Millwall so easily last Saturday.

LINDSAY FOR SEMI-FINALS

KINGSTON, Feb. 15.—On heavy ice that spoiled all attempts at combination, the play was fast. K. C. L. defeated Lindsay in the Junior O.H.A. match here tonight by the score of 4 to 3. Lindsay wins the round by 10 to 6.

The line-up: Walsh, goal; Ferguson, Carroll, defence; Paul, rover; Stewart, centre; Gratton, right wing; Toland, left wing.
Lindsay (3): O'Loughlin, goal; Flavell and Sargent, defence; C. Carey, rover; McElroy, centre; Sandercock, right wing; A. Carey, left wing.
