ES-SALT TAKEN IN AUSTRALIAN CAVALRY DASH

General Allenby Reports Capture of Turkish Town in Gilead.

FIGHTING ON JORDAN

Turks Attempt Surprise—British Restore Situation—Operations Continue.

London, May 2.—The official statement dealing with military operations in Palestine, issued today by the war office, reads:

"On Wednesday morning, while our infantry moved to attack the enemy in the foothills south and southeast of Es-Salt, Australian mounted troops entered Es-Salt, capturing 88 Germans and 317 Turkish prisoners."

"In the course of these operations a mounted brigade detached to watch the Jordan crossings was attacked by a superior force of the enemy, which had crossed the river during the night, and was compelled to fall back. Horse artillery batteries supporting this brigade, in the most difficult and broken country, were obliged to abandon nine guns which could not be saved, although the detachments and horse were safely withdrawn. Necessary support for this detached brigade was immediately forthcoming, and the operations are continuing."

"West of the Jordan local enemy attacks at several points were repulsed during Tuesday night."

CONCERTED DEFIANCE MAKES HOME RULE HARDER TO SETTLE

London, May 2.—Premier Lloyd George in a letter expressing sympathy with the memorial of sixty thousand Irish workers on the banks of the River Tyne, favoring immediate self-government for Ireland, wrote:

"The difficulties have not been rendered easier of settlement by the challenge to supremacy of the United Kingdom parliament that sphere, which has always been regarded as property belonging to it by all advocates of home rule, which recently was issued by the Nationalist party and the Roman Catholic hierarchy in concert with the leaders of the Sinn Fein."

TWO AVIATORS KILLED IN MAKING ATTEMPT AT PERFORMING STUNT

Fort Worth, Texas, May 2.—Lieut. James B. Ennis, Jr., of New York, and Cadet Paul Herriott, of Oakland, Calif., were killed today at Hicks field when their airplane fell about 150 feet. They had just taken the air to fulfil their part of a program calling for "stunts" in honor of Gen. John H. Gribble and his staff from Camp Bowie.

BRITISH LINER SINKS GERMAN SUBMARINE; CANADIANS ON BOARD

An Atlantic Port, May 2.—One of the biggest and fastest of British liners docked here late tonight and brought a story of a night battle with one of the enemy's U-boats off the west and largest type. The crew believe the sub was sunk and they are sure that it was at least disabled.

The first torpedo went wild, but the second came unaccountably close to the liner's stern. The ship was zig-zagging and firing at the submarine, which by this time had come to the surface.

BRITISH RAID INFLECTS SERIOUS LOSSES ON BULGARIAN FORCES

Paris, May 2.—An official statement says: "Eastern front.—There was reciprocal artillery activity west of Verdun and around Dobropolje. In the course of a raid successfully carried out against enemy posts at Macukovo, on the east bank of the Vardar, British troops inflicted serious losses on Bulgarian forces and brought back prisoners. An enemy machine was destroyed and a number of Glevsel by a French aviator."

PROVIDES FOR PLURAL VOTING.

Amsterdam, May 2.—Votes taken in the Prussian lower house today involved the rejection of Socialist Brauns proposal of the right to vote without distinction of sex, and the acceptance of a committee resolution providing for plural voting.

DURING WAR 15,000 BRITISH SAILORS SLAIN BY PIRATES

London, May 2.—(Via Reuter's Ottawa Agency.)—Havelock Wilson, president of the British Seamen's and Firemen's Union, in a statement as regards the sacrifices of the mercantile marine, says that 15,000 British seamen have been murdered by German pirates during the war. Sea murders are growing because the more determined than ever that sailors in sunken ships should not live to tell the tale.

British sailors were in deadly earnest in their determination to apply a punitive boycott to Germany after the war. All were in hearty unanimity in their determination not to handle stuff in any way connected with Germany after the war. A year ago the limit of the boycott was for two years. Now, owing to the increase of such crimes, it had been extended to five and one-half years.

He added that the seaman's league was growing daily. Already it had a hundred thousand members.

FOUGHT, DESERTED AND NOW ARRESTED

Canadian Non-Com. Captured in New York After Speaking for Liberty Loan.

New York, May 2.—Sergeant-Major Robert Lilly of the Canadian army, who served twelve months in the trenches in France, fought in many important engagements during the early period of the war and had two of his fingers shot off, was arrested here today by the army intelligence bureau and locked up, charged with desertion. The arrest was made after Lilly had concluded a Liberty Loan address to a large throng.

Lilly, who is 22 years old, was attending Leland Stanford University when the war broke out. He went to Canada, joined the Canadian army and was soon in the trenches. While in a French hospital recovering from his wounds he learned that his regiment was being reorganized and decided to re-join the Canadian army.

According to the police, Lilly escaped from France on a transport and landed in America four months ago. At the request of the Canadian authorities he was arrested in this city and sent to the military prison at Toronto. A week ago, Lilly, who has a reputation on the Pacific coast as a pugilist, overpowered five keepers and escaped.

Last week Lilly made Liberty Bond addresses at several hotels here and in the city, and collected subscriptions totaling \$58,000.

CHURCH STREET BANK ROBBED IN DAYLIGHT

Two Men With Revolvers Hold Up Teller and Ledger-keeper and Get Away.

The teller and woman ledger-keeper in the Union Bank at the corner of Church and Wellesley streets were held up yesterday afternoon at 1:45 by two men carrying revolvers and a bundle of \$1,000 which were lying in the teller's cage were taken. It is said that a bundle of bills to the value of \$5,000 was overlooked by the robbers.

The staff of the bank was at that hour depleted thru some of them being out at lunch. The street is a quiet one at that time, and the men chose their time well, walking into the bank they advanced to the cage, holding revolvers. One of the men threw pepper at the ledger-keeper, who, however, closed her eyes and did not suffer much from it. The other man rushed into the teller's cage, hit that official on the head with his revolver, rendering him unconscious, and caught up as much of the money as he could. They both then made off.

The police were notified and are looking for the two men. One is described as about 30 years of age, tall, thin, fair faced, clean shaven, dark hair, and wearing a cap. The other is thought to be about the same age, 6 feet, tall, full face, fresh complexion, black moustache, gray or fawn suit, and wearing a cap.

BANKER OF MANNHEIM ACTS AS PAYMASTER OF Foe SPY SYSTEM

Paris, May 2.—Police Commissioner Faralco, who is charged with the Bonnet Rouge investigation, at a trial today, gave evidence which tended to show connection between this case and several others that are now going on. In the San Stefano affair he discovered the name of Gustave Urie, a banker, who appeared in the Bolshoi Pasha investigation and in the affair in which Pierre Lenoir, William Desouches and Senator Humbert were involved. Commissioner Faralco said he was convinced that Marx Brauns, the Mannheim banker, was the chief paymaster for the German spy system, who operated when the German legation was unwilling to appear in a case.

MUST ATTACK SOON OR ADMIT DEFEAT AS BEFORE VERDUN

German Pause in Ambitious Attempt to Crush the Allied Armies.

STRAIGHTENING LINE

British Carry Out Local Operations, and Raid the Enemy's Trenches.

(Associated Press War Summary.)

The lull which has brooded over the western battle lines continues. The expected German attacks on the Ypres and Amiens fronts have not been launched. Here and there the opposing armies have broken forth into wild bombardments, such as usually are preludes to massed attacks on the allied lines, but they have died out after a few hours. Here and there local operations have been carried out for the purpose of straightening lines and raising the enemy's positions, but they have not developed into anything unusual.

The Germans must attack soon or acknowledge their defeat in their ambitious attempt utterly to crush the allied armies. The present phase of the battle is not unlike that before Verdun, two years ago, after the first German rush had been stopped and even attempts to carry local objectives had met with defeat.

Germany has lost heavily, but the emperor still has reserves to throw into the fight. The defeat on Monday on the Metzer-Voormezele line, southwest of Ypres, has taught the Germans that the allies are prepared to stand the ground, and there seems little inclination at the present moment to renew a conflict which threatens to be disastrous.

The report that Czech soldiers, deserting from the Austrian army, are now fighting with the Italians has been followed by a dispatch saying that Rumanians who had been captured by the Italians have asked permission to fight against the Austrians and that they are now on the firing line.

The British forces in Palestine have recaptured Es-Salt, a village from which they retired three weeks ago under pressure from a superior force of Turks and Germans.

A Berlin report says that the fortress of Sebastopol has been occupied by the Germans. This was expected after the capture of Simferopol last week.

JELLICOE REFUSES IMPORTANT POST

But Reasons Are Highly Creditable, Says Bonar Law.

London, May 2.—Replying to a question in the house of commons this afternoon Andrew Bonar Law, government spokesman, said that an important post had been offered to Admiral Jellicoe, former first sea lord, which "for reasons which I consider highly creditable to him he was unable to accept."

BIG DROP IN OATS

May Be Followed by Lower Prices in Other Commodities.

The decline in the price of oats was one of the topics of discussion among grain men yesterday, and some thought they saw the turn in the high price of living even if the war continued for a long time yet. One grain man told The World that he would not be surprised if some of the elevator interests had oversteered their markets especially in oats. He cited one firm which, he said, was carrying a heavy supply of these, and thought they might experience a similar result to those who had carried over large quantities of apples and potatoes last winter only to sell them below the fall price.

Chicago oats options have been on the toboggan for a month. The April option went out at about 80c a bushel after tumbling 13 cents, and the May option sold down yesterday to 75.3c against a price of 97.8c a few weeks ago. With a promising new crop now in the making, food hoarders appear to be getting nervous, and a little blood-letting in forced prices will be more than appreciated by the consumer who has been pretty well bled all winter.

BOTHA NOT TO ATTEND IMPERIAL CONFERENCE, SENDS HON. H. BURTON

Cape Town, May 2.—In the assembly, Premier Botha announced that he had decided not to proceed to the imperial conference. He was sending Hon. H. Burton, minister of railways and finance, to assist Gen. Smuts. He said that South Africa was almost ably represented by Gen. Smuts.

Reuter's correspondent is informed that the distinguished Boer general and legislator, Mr. Botha, has offered Premier Botha his services in Europe or Mesopotamia. Gen. Botha, who gladly accepting the offer, can use Gen. Botha's services to better advantage in connection with recruiting.

SEBASTOPOL SEIZED BY GERMAN FORCES

Berlin Reports Occupation of Famous City in Russian Crimea After Fighting.

Berlin, via London, May 2.—German forces have occupied Sebastopol, the great Russian fortress in the Crimea. According to the official communication from headquarters the town was taken without fighting. The text of the statement reads:

"In Ukraine we have broken the enemy's resistance before Sebastopol and occupied the town Wednesday without fighting."

The occupation of Sebastopol gives to Germany possession of the base of the Russian Black Sea fleet and a fortress which is rich in historical associations. The city was founded by Catherine II in 1784, and about twenty years later Alexander I. made it the principal naval station of Russia on the Black Sea. The fortifications of the city, consisting of a chain of great redoubts, were constructed by Napoleon.

The siege of Sebastopol in the Crimean War takes its place in the memorable military annals of modern times. During the summer of 1854 the English and French undertook an expedition to reduce the fortress, and were joined by the Sardinians and Tatars. The investment of the place began in October, that year, but it was not until September 8, 1855, that it surrendered. There were 127,000 men killed during the siege.

The present city rose from the ashes of the town ruined during the siege. It has a few notable buildings, including two fine cathedrals. The population in 1897 was 44,016.

MISS FRIEDA HELD RESIGNS POSITION

Sends Letter, Asserting Loyalty and Arranging German Militarism.

ALWAYS A BRITISHER

Was Born and Always Lived Under the British Flag.

Miss Frieda Held, by means of a letter of resignation, which at the request of Mrs. A. C. Courtice was read at the board of education meeting last night, not only asserted her loyalty, but also arraigned the Hun.

"In view of the fact that I have been refused the opportunity of a public investigation of clearing myself of all suspicions of disloyalty, I ask to be relieved of any further duties as a teacher on the staff.

"I trust the board will appreciate how keenly I have felt the accusations which have been made against me. I was born and have been all my life under the British flag. I am a British citizen and love the flag and democratic institutions of my country.

"I abhor the autocracy and militarism of Germany, and believe with all my heart that the world will only be safe for future generations when they are crushed.

ONE TON OF BOMBS DROPPED AND ENEMY RAID REPULSED

Report of Aerial Operations Indicates Much Damage Done. Haig Reports Defeat of Raid by Enemy Near Hebuterne.

London, May 2.—Field Marshal Haig's report from British headquarters tonight says: "A raid which the enemy attempted this morning in the neighborhood of Hebuterne was repulsed. Except for the usual artillery activity on both sides there is nothing to report."

SMART ENTERPRISE SUCCEEDS ON ANCRE

British Throw Forward Front Four Hundred Yards on Half-Mile Width.

British Headquarters in France, May 2.—Early this morning the Germans heavily bombarded with gas shells and high explosives west of Merris and the area around Villers-Bretonneux.

There was no infantry action. Possibly the purpose of these practice barrages is with a view to an early resumption of the offensive. We have been meeting any fresh enemy effort.

During Wednesday we carried out a successful local enterprise south of the Ancre, advancing half front over a width of nearly half a mile to a depth of 400 yards.

Omaha, Neb., May 2.—Two soldiers were burned to death and 18 men were burned seriously, when a captive observation balloon of the Cacquet type, exploded tonight at Florence field, the army balloon school at Fort Omaha, near here, according to a statement by Col. H. E. Harney, post commandant.

SENSATIONAL ESCAPE FROM BRANDON JAIL

Brandon, May 2.—Wm. Slingsheim and John W. Glikkron made a sensational escape from the provincial jail this morning. With a wire they managed to pick the lock of their cell, made a hole thru the ceiling to get into the passage way, then gagged the warden and tied him up with sheets, look away his keys, secured three revolvers from Governor Hanna's office and marched thru the front door to liberty.

General Foch Solidly Knits Arms Together, Eliminating Dangerous Point of Junction -- Provisions Adopted Will Enable the Speedy Moving About of Divisions.

French Army Headquarters, May 2.—Under the Germans blows the allied armies seem to be welded together as never before. There is now no point of junction at which the Germans can thrust. The process of welding together the two armies is complete, but it will not stop there. Franco-British divisions will be moved about on a solidly knitted front at the wish of our high command as freely as German divisions. Against the enemy's territorial gains must be set the fact that he had to throw 140 divisions into battle in five weeks. A considerable number of these have been twice engaged and some thrice. Adding these reappearances together, there is a total of 180 engagements of divisions, equivalent to a mass of two and one-half million men whom the enemy has already put into battle. As a German division is never withdrawn until it has sustained severe losses, on an average 2,500, it is reasonable to reckon the enemy's loss since the beginning of the battle at not less than 350,000.

The Germans began the offensive with a reserve of 60,000 in depth in France and at home. Behind these there is only the 1919-20 class, consisting of youths, half of whom are under 15. The enemy's genuine fighting reserve is thus half exhausted, but he has covered anything like half the distance to his goal. His reckless employment of divisions has left him with a total of sixty-six out of two hundred and six in France which have not yet been engaged. Of these twelve are independent divisions, which cannot be used for the purpose of an offensive. The Germans thus can have little hope that the remaining 64 divisions can accomplish what the first 140 failed to achieve.

Already the German staff is most anxiously realizing that their reserves of fresh troops are not greater than those under General Foch.

PAYING THE PENALTY OF UNPREPAREDNESS, SAYS GEN. ROBERTSON

London, May 2.—"The war is likely to last a long time yet," said General Sir William Robertson, ex-chief of general staff, speaking here today. "How long it will last no sane man would dare to estimate. The reasons why the war was not finished long ago is that we were unprepared for it when it began, while the enemy had been preparing for years. We are now paying the penalty for that unpreparedness, which in the past has caused countries to become bankrupt or ruined. But we have no intention of becoming bankrupt or ruined."

BRISK PATROL CLASHES TAKE PLACE IN ITALY WITH ENEMY TROOPS

Rome, May 2.—Brisk patrol encounters took place yesterday in the village of Stoccarda and on the slopes of Montefena, says an official statement given from the Italian army party was dispersed on Stoccarda.

"There were more intense hostile artillery duels in the zone of various points on the Asiago plateau and on the latter Piave River. Italian batteries dispersed enemy troops at Dossedimorti and made direct hits on trains in Frintolaco, Sussana and Conegliano. Italian aviators brought down three enemy airplanes. British aircraft brought down two others."

RED FLAG FLOATS ON RUSSIAN EMBASSY; A SHOCK TO GERMANY

Amsterdam, May 2.—The German Government, according to a despatch from Berlin, says it is unable to demand the removal of the red flag from the Russian embassy at Berlin as it had been recognized as the color of the Russian republic.

The government made this announcement in reply to general assurances from the Russian embassy at Berlin that it had been recognized as the color of the Russian republic.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

In Palestine Australian mounted troops, slipping round to the enemy's rear while his attacks were being repulsed by a frontal attack, have succeeded in occupying Es-Salt. This is a town or village in Gilead, quite a distance east of the Jordan. The Australians there took 350 prisoners, 23 British Germans. Meanwhile a British mounted brigade, set to watch the crossings of the Jordan, had a narrow escape. It seems that under cover of darkness a force of Turks crossing the stream higher up attacked the cavalrymen, forcing them to make a hasty retreat. Nine guns of the horse artillery, which could not be moved off fast enough in this rough and hilly country, had to be abandoned. The drivers and their horses, however, got away. Support quickly came up, checking the Turks. This incident shows that the Turks are still dangerous and require careful watching.

As the operations in Palestine are the kind known as subsidiary, they have come in for denunciations from a certain military critic, who is in agreement with all the others, including the most eminent military leaders and statesmen. The British Hurd has taken up this controversy, and he is showing that subsidiary operations have created the British Empire. Britain's protector of India, Egypt and Australia must preserve her communications with the east. She is doing so by her partnership with the United States in the campaigns against Turkey. The blundering critic wants the British forces to scuttle from these theatres of the war. The government, however, intends to stay there, and to check as well the German campaign in Flanders.

According to last night's bulletin from Field Marshal Haig, or rather from the British intelligence department at general headquarters, the repulse of an attempted German raid at Hebuterne, excepting the usual artillery firing, was the only incident that disturbed an unusually quiet day at the front. The front improved the occasion by two local operations. One brought them an appreciable advance in Hangard Wood; the other cleared the enemy out of Beaune Wood, southwest of Mailly-Raineval. They took about 30 prisoners and five machine guns. The feature of the allied aerial operations yesterday was the dropping of 100 bombs on Thionville. This was the work of British aircraft.

Unofficial cables from France report that the British have advanced their line south of the Ancre to a depth of 400 yards on a front of half a mile. The allies have improved the hill by knitting their armies solidly together, so that there remains no point of touch between the two armies for the enemy to strike at. They have also organized their divisions so that they can send them about on a solid front as freely as the enemy does. This reorganization will yield them many advantages, enabling the quicker moving up of reinforcements. It is one of the benefits deriving from the single command. This reform has probably saved the British army and the allies many useless casualties, for

former co-operation used to entail the wasteful expenditure of one ally making costly attacks whenever the other went into real difficulties. This method was slow and often called for attacks without adequate preparation.

Calculations made at the headquarters of General Foch have it that the Germans have already engaged 140 divisions against the allies, and have some in reserve. They have, in all, 186 divisions altogether employed, or 2,500,000 men. The enemy has 66 unemployed divisions remaining, 12 being Landsturm, and his losses have been a minimum of 350,000 men. He began the attack with reserves of 650,000 men to replace casualties, so that over one-half of these reserves have already gone. He has thus little further fighting margin left, for behind these reserves are only boys of 17 and 18 years.

Ludendorff now evidently believes that his military offensive is going to fail. Accordingly he is going to try a peace offensive. Italy, it seems, is to be the butt of the enemy's intentions. The first move is coming from the Vatican as they came last year in the offensive against the Italians. Mindful of Russia and her entanglement in the pacifist barbed-wire, the allied peoples are bracing themselves against the insidious attack. The allies meanwhile are propagating peace sentiments on their own account. They are now attacking the Austrian army with peace pamphlets dropped by their flying machines. These tracts probably consist of Wilsonian and the Lansdowne letters.

A zone of intense minor military activity still obtains on the Balkan theatre of the war. The British raided the Bulgarians on the Vardar River at Muckovo and inflicted serious losses. The artillery action is quite vigorous and the aerial action is still effective. The allies are working to tire out the Bulgarians and to install in them a sense of inferiority. The effect of this policy will appear in due time.

In the Crimea the Germans have occupied the town of Sevastopol. By no stretch of the imagination can it be held that the Crimea and Sebastopol form part of the Ukraine. The Germans and the Turks are seeking easy conquests and the obvious aim of the enemy is to annex the northern coast of the Black Sea. He invented the program of the self-determination of peoples, passed it on to the Zimmerwald conference in Switzerland in 1915, and induced the Socialists, always looking for big words and catch phrases which they understand, to adopt the formula. Trotsky and Lenin took up the cry, played havoc with it in Russia, disarmed their country and laid their prostrate before the march of the conqueror. This folly is giving the enemy his opportunity of annexing more and more territory and the Zimmerwald conference of the self-determination of peoples called for the handing of the Crimea over to Turkey because to Turkey it formerly belonged.

CHINESE LANGUAGE GIVEN ELUCIDATION

Professor Johns Talks Humorously of Orient Before Empire Club.

Professor Johns, B.A., M.B., who described himself as the whole department of mathematics in the West China Union University of Chengtu, so that when he went on furlough the department stopped, gave a most interesting and amusing address at the Empire Club luncheon yesterday. Chengtu is the capital of Szechwan, and is a city of 600,000 people. The province is larger than France, and this is the only university in three adjoining provinces. Chengtu is in the centre of the most fertile plain in the world, which has a population of 1700 people to the mile. The Union University is conducted by Quakers from England, hardshell Baptists and Methodist Episcopalians from the United States, Canadian Methodists and the Church Missionary Society from England, and they all work in perfect harmony.

FURLOUGH MEN BOARDED ARE PHYSICALLY UNFIT

Seventy of the "Original Finns" home in Toronto on furlough, appeared before the standing medical board at West Toronto and only two were found physically fit to resume service in the front line trenches. They were placed in class B, which means fit for duty on the lines of communication in France, and of the others, one temporarily unfit and 68 unfit for any military duty. If this finding of the medical board is adhered to only four of the furlough men will return overseas.

150 Men's Suits, Special, Saturday Morning, at \$14.75

Remember That "Procrastination is the Thief of Time"

In this case it'll probably mean the theft of a substantial saving — for suits like these are not often obtainable for \$14.75. And, according to our expectations, 8.30 will be the beginning of the end for the 150 of them. The other day we came across a manufacturer with a number of broken lines, of which he was anxious to be rid. We secured the lot at our price, and are thus able to offer you a most exceptional value Saturday. There is an assortment of worsteds and tweeds, in neat, small patterns, small checks, fancy weaves and mixtures, in shades of grey and brown, single-breasted, three-button, conservative sack styles, well tailored, with good quality trimmings and linings. Sizes 35 to 42. Saturday morning, your choice for \$14.75.

For Those Who Stand on the Threshold of Manhood---And For Some Who've Just Crossed It

Are These Smart Suits---Stylishly Cut Along the Most Popular Lines

Young men who dream dreams of stylish clothing at reasonable cost will realize their dream if they see these snappy models described below. Seeing is believing, and any young fellow who sees these suits will believe the values they offer. Come and be a believer. Here goes with a brief description:—

Young Men's and Youths' Longer Suits, three-piece styles, single-breasted, form-fitting, belted models; others with half belts only; tweed and worsted finished materials, in greys, browns and greenish grey mixtures; pin checks and novelty weaves; five buttons, "no-collar" vest, straight narrow trousers, with cuffs on bottoms and belt loops at waist. Sizes 33 to 36. Price, \$15.00.

Youths' Longers and Young Men's Suits, single and double-breasted, close-fitting sack style; a dark grey tweed in novelty weaves, with a darker thread stripe and a soft chevot finish material, in dark green mixture, with golden

brown thread stripe; a belted model comes in a light grey firm-woven tweed; has slash style pockets and is pleated behind below belt; a clever young man's model. Price, \$18.00.

Priced at \$20.00 is a light grey tweed, in pin check weave, has loose belt all round, patch pockets and step shape lapels; a nice grey Donegal tweed, with shot mixture of green and red; has half belt at back; a bluish grey tweed in fancy weave, showing a cleverly woven striped pattern, this comes in form-fitting sack style. Another striking model has four out patch pockets, closing with a button; yoke back and inverted pleats and half belt, olive and black small check pattern, with a tinge of green. The coat is unlined, and vest has four patch pockets.

SOME RAINCOAT VALUES THAT DESERVE MENTION

Particularly the Two-Purpose Raincoat-Topcoat

A garment with a mission in life is usually popular, but a coat with two missions is bound to be a favorite everywhere. These tweed coats make an ideal spring topcoat, as well as a dependable raincoat. They're made in self shades of greys, in chevot finish or small checks, and overplaid in worsted finish, with fancy check back; single-breasted, with convertible lapels, full draping back, sewn and cemented seams. Sizes 34 to 44. Price, \$15.00.

Paramatta Cloth Raincoats, English material, in self shades of olive or dark fawn, single-breasted, the buttons showing through; some button close up, others have short lapels, which are convertible; the back fits full and easy, slash or flap style pockets; all seams sewn and cemented. A thoroughly reliable coat. Sizes 36 to 44. Price, \$10.00.

A good Paramatta Cloth Raincoat, an English material, well proofed, single-breasted, button close up with military collar

and tab for across throat; a plain shade of fawn, seams sewn and cemented. Sizes 36 to 44. Price, \$6.50.

KHAKI TROUSERS, \$1.85.

Khaki Trousers of good weight, in several shades, fashioned in correct outing style, with belt loops, cuff bottom; 2 side, 2 hip and a watch pocket. Sizes 30 to 42 waist, in various lengths. Per pair, \$1.85.

—Main Floor, Queen St.

Boys' Shirtwaists of prints, gingham and some in plain khaki, all having attached collar, some with button loops inserted, breast pocket, imitation double cuff or single band cuff with button; drawstring or loop at waistband. In plain shades of cream, white or khaki and striped patterns of blue, black or helio. Sizes 6 to 15 years. Each, \$1.00.

1,500 Men's Neglige Shirts, Each, 98c. Special Saturday

This price is less than the usual cost of production---and it's only a special purchase that enables us to offer them at this remarkably low figure. They're made of firm shirting materials, in attractive hairline or cluster stripes of blue, helio, black or green, and group stripes in two or three-tone colorings in a wide range of colors; made in coat style with laundered or soft double cuffs, and in sizes from 14 to 17 1-2, inclusive. See display. Early special, each, 98c.

Five Other Specials in the Men's Furnishing Section

Men's Outing Shirts—With the warmer weather comes the demand for out-door garments; this value is one of special interest. Fine quality outing shirts of medium weight, white duck, "EATON" made, with attached reversible lay down, soft collar, breast pocket; and single band cuff that buttons, roomy sleeves and body. Sizes 14 to 18. Each, specially priced, 79c.

Men's Suspenders, assorted striped patterns, in lisle or twill webbing, made in "Police" and cross-back styles, with cast-off ends, adjustable sliding buckle, gilt trimmings. Per pair, 29c.

3,000 Garments Underwear, in finely woven flat knit balbriggan in natural shade, imported shirts, having long sleeves, snugly fitting at wrist, and drawers in ankle length, with suspender tapes, tape bound edges. Sizes 34 to 42. Specially priced per garment, 43c.

Maj.-Gen. Turner: "I wish you a full measure of success in the campaign to raise a larger sum of money to carry on and still further extend the valuable help afforded by your association to all ranks here." Maj.-General Mewburn: "Telegraphed his heartfelt appreciation of the magnificent service rendered the Canadian forces on active service."

Sir A. E. Kemp: "Please convey my best wishes for success in the forthcoming Dominion-wide Campaign." President Wilson: "May I not express the very high value I have attached to the work accomplished." Ex-President Roosevelt: "What the Y.M.C.A. has been doing in Europe has been really remarkable, and our citizens should aid them."

Lord Northcliffe: "I do not think the war can be fought without the Y.M.C.A." From a Canadian Officer: "It has been found that all games which result in physical contact have a tendency to increase the 'spirit of training,' 'fighting spirit' and 'regimental spirit.' Efforts on your part will be of National Service."

FIRE CHIEF TELLS HIS SIDE OF STORY Much Correspondence Read Before Board of Control Meeting Yesterday. Practically all of yesterday's session of the board of control was taken up with a discussion of the case of former Motor Mechanic Kenneth of the fire department.

Fire Chief Smith denied all the charges preferred against him by the ex-motor mechanic. There was no truth in the statement that all the motor trucks were allowed in the department. There had been no trouble in regard to these matters when the department had had the services of Prof. Angus, but now there had been all kinds of trouble when the city motor mechanic had stepped into the professor's shoes.

The board decided to recommend that legislative action be taken in connection with faulty work in connection with the supply of gas. The board meets again today.

FRIDAY MORNING, MAY 3.

Get the National Railway Running at Once.

The public will appreciate an early settlement of the arbitration proceedings as to the amount to be paid by the federal government for the shares of the Canadian Northern.

As soon as this is settled the government will assume the direction of the management of the road thru the new board of directors and the operating staff to be put in charge.

The road will thereupon be a public ownership proposition, and will be more or less co-ordinated with the International and Transcontinental and any other roads that may be acquired.

Public ownership of railways will then get a genuine test. And there is good reason for believing that the whole undertaking will be absolutely divorced from politics and run as a business public service proposition.

The people of the western provinces as well as Ontario are rather disappointed at the delay, they have no fault to find with the attention and persistence shown by the arbitrators in reaching a decision.

The road has to be taken over; the sooner done the sooner will the public realize what there is in the new venture of a real transcontinental railway system—from Vancouver to Halifax, and serving most of the cities and towns of Canada, as well as the great agricultural districts.

Better Pay for Postal Employees.

There is a widespread feeling throughout Canada that the pay in the post-office department should be increased. Especially should the city letter carriers, the rural mail route carriers, the postmasters of the small offices be better paid.

Farmers and Military Service.

The World believes that the farmers, who are largely inconvenienced by the enforcement of military service, will respond to the call. The burdens of war must come to us all.

Building Permits Increase in Number.

Quepik, May 2.—The prospect for a greatly improved building season in Guelph as compared with last year are exceedingly bright. The figures are sure to be away below normal for the first four months of the year.

Congdon Winner of the Race From the Yukon to Vancouver.

Vancouver, May 2.—In a race against time, which he won, F. Congdon, Laurier Liberal candidate for the Yukon, who defeated Dr. Thompson, his Unionist rival, on the election vote by the subject of inquiry by a special committee of the Dominion Parliament, arrived here yesterday on time to the day, after a hazardous journey.

Prince of Wales.

Radicals and Republicans are sometimes inclined to resent any display of virtue on the part of a monarch. They prefer to think of the Crown Prince of Prussia or King Ferdinand of Bulgaria as the typical king person. So there may not be much credit accorded to the Prince of Wales for behaving like a man in his army service.

Col. Armstrong Speaks Highly of Canadian Medical Hospitals Overseas.

Montreal, May 2.—Col. Geo. E. Armstrong, who is back in Montreal after a year and a half with the Canadian medical services overseas as special consultant surgeon, when interviewed regarding the Canadian medical services in London in which the administration of the medical services was criticized, put the question: "Were you ever in the army? If so, you know that I measure which they always allow themselves is grousing. I used to think that it was peculiar to the British army, but I find that it is just the same in the American army in France; for all I know, it is the same in the French army."

Peace Offensive About to Begin.

London, May 2.—The best indication of the enemy defeat in northern Flanders is contained in the evident imminence of a renewal of the peace offensive. Thus the German papers state that the Pope is about to issue a new peace note, while the German peace agents are busy in neutral countries, and little doubt is entertained that the visit of the Austrian Prime Minister, Burian, to the Kaiser is connected with such a move.

Government House.

Peterboro Review. The architectural pile in Toronto known as Government House, a building that has not even location to add to its attractions, stands as a silent but nevertheless condemning witness of the extravagance of Ontario in attempting to ape the greatness of royalty.

Considerable Firing by Enemy Artillery.

London, May 2.—The war office reports: "The enemy's artillery developed considerable activity early this morning in the neighbourhood of the front. Some activity was shown also during the night in the Arras, Lens and St. Venant sectors. No infantry action is reported."

Canada Food Board Urges Greater Use of Vegetables.

Ottawa, May 2.—The Canada Food Board, in its efforts to promote increased consumption of vegetables in order to prevent constipation and to make possible larger shipments of wheat and meat for overseas, is distributing the following cards through Canada urging the more general use of vegetables.

Carson Organizes Unionists Against Home Rule Bill.

Dublin, May 2.—The Southern Unionist committee, to which Sir Edward Carson has written a letter saying that the question of home rule should not be reopened in the present condition of Ireland, has organized a large body of Unionists outside Ulster in opposition to the compromise accepted by the Unionists at their convention.

Much Heroism.

Survivors of City of Athens Relate Tales of Bravery of Crews. An Atlantic Port, May 2.—Survivors of the steamship City of Athens, which was sunk in a collision with a French cruiser in a fog off the Delaware coast yesterday morning with a loss of 66 persons, related here today many tales of heroism on the part of the crews of the two vessels.

Farmers Appeal to Council.

Stratford, May 2.—Upwards of five hundred farmers from all parts of Perth County stormed the county council meeting this morning, presenting a petition asking the council to exempt them from the new order-in-council imposing a tax on the use of land.

Teacher Dies.

London Girl Gave Skin to Save Brother's Life. London, Ont., May 2.—Miss Edith Aiken, 23 years of age, a school teacher, died here last night. One year ago in order to save the life of her brother, Lieut. Aiken, who had returned from overseas badly wounded, she submitted to a serious skin-grafting operation, asserting its success by refusing to take an anesthetic.

GERMAN GOLD USED TO BUY FRENCH PAPER.

Paris, May 2.—At the resumption today of the trial of persons involved in the affair of the Bonnet Rouge, a newspaper, said to have German financial backing and to have been engaged in propaganda for the enemy, Jean Leymarie, former director of the ministry of the interior, under the Marly administration of that office, and later head of the secret service, took the witness stand.

PEACE OFFENSIVE ABOUT TO BEGIN.

London, May 2.—The best indication of the enemy defeat in northern Flanders is contained in the evident imminence of a renewal of the peace offensive. Thus the German papers state that the Pope is about to issue a new peace note, while the German peace agents are busy in neutral countries, and little doubt is entertained that the visit of the Austrian Prime Minister, Burian, to the Kaiser is connected with such a move.

Brothers to See Flavell Regarding Shipyard Strike.

Ottawa, May 2.—Hon. T. W. Crothers, minister of labor, expressed regret this afternoon that the machinists employed in the Vancouver shipyard had decided to strike without giving him time to conduct a preliminary inquiry into the dispute between the operators and men.

U. S. TO DEVELOP POWER FROM NIAGARA FALLS.

Washington, May 2.—Development of electric power from Niagara Falls to double its present capacity is proposed in a bill introduced today by Representative Flood of Virginia, chairman of the house committee of foreign affairs.

RECLAIMED FRENCH LAND.

Kingston, May 2.—Major B. T. Dickson, an arts graduate of Queen's in 1915, has been awarded the Order of the French Legion of Honor by the French Government for the good work he has accomplished in reclaiming agricultural land and redeveloping it for the government.

BOLSHIEVICK LETTERS INTERCEPTED AT FORD.

Windsor, May 2.—Following the discovery that William Zaslav, aged 24, Russian living in Ford, had been writing Bolshevik letters to friends in the United States, the man was placed under arrest today by Dominion police on instructions received from Commissioner Sherwood at Ottawa.

IRISH FEE BETTER.

London, May 2.—The Daily Chronicle's Dublin correspondent says there is an almost unanimous improvement in the feeling in Ireland in consequence of the appointment of Edward Shortt, M.P. for Newcastle-upon-Tyne, as chief secretary for Ireland. He is not merely a home ruler, but voted with the Nationalists against conscription for Ireland.

War Garden Bulletin

PRACTICAL DAILY GUIDE FOR VEGETABLE AND BACKYARD GARDENERS ENLISTED IN GREATER PRODUCTION CAMPAIGN.

Issued by the Canada Food Board in Collaboration With Experts on the Staff of the Dominion Experimental Farm.

PLANNING THE GARDEN.

In planning the 1918 garden the first thing to take into consideration is the fact that it is a war-time garden and that the vegetables which must receive primary attention are those which are going to be genuine substitutes for wheat. The logical substitute is the potato. Therefore, every one should grow potatoes this year. They repay themselves over and over again. Count on giving them the major part of the garden.

Small plants like beets, onions, lettuce, carrots, radishes and parsnips should be put in one general group. In another general group put larger plants like corn, tomatoes and potatoes. Spreading ground vines, like melons and cucumbers, which need wider spacing, should be put in a third general group. In the arrangement of the varieties of vegetables which are to be planted due care should be given to providing the greatest exposure to the sun for those crops which need it most. Plants which must ripen their fruits, such as tomatoes and eggplant, require the greatest amount of sunshine, while lettuce, spinach and other leaf crops require relatively less.

WILD FLOWERS

BY Rachael R. Todd, M.D.

CRINKLE ROOT.

Teenthwort, Dentaria Diphylla.

"The roots were a surprise and challenge to the tongue." So says the writer of nature studies, Burroughs. And so also declare hundreds of boys and girls who dearly delight to search for the "pepper root," the sweet, stinging, peppery taste, faintly reminiscent as well of mustard, with which to tantalize their youthful tongues.

The plant, as one might almost guess, belongs to the cress family, of which it is one of the handsomest members.

There are two wild Dentarias, quite common here in Ontario, both of which possess edible roots. The cut-leaved Dentaria is the pepper root proper, while the two-leafed plant is the well-known crinkle root. The plants are often misnamed, however, the one for the other, because so long as the children find it is not stinging, stinging roots, they care not especially whether they give it the correct name or not.

The cut-leaved variety is a strange and odd-looking plant. The leaves, so deeply cut that the parts of them resemble long notched fingers more than anything else, are borne on a stem in a whorl of three, compounded of three leaflets. The root leaves come a few days later than the stem leaves. The blossoms are of a pale, yellowish, or purplish hue, are four-petaled, arranged cross-shaped and clawed on the edges, and are borne in a loose raceme or terminal cluster. These blossoms are bee and fly-visited, secreting as they do some thin, yellow nectar, which attracts the insects, and so the pollination is effected.

The root is the queerest looking contrivance, looking often like a short string of irregular and very thin, woody beads, from which long, thin, coarse hairs, that act as rootlets, issue. Indeed, one child told me once that the thing reminded her of a huge wobbly castor, closely haired with thin spikes.

The two-leaved dentaria is the real crinkle root and very well-known by all country and by a few city children.

The leaves come out from the strange rootstock, standing up on long petioles or leaf-stems, and are made up of three broad ovates and slightly toothed leaflets, the whole three leaflets forming a leaf that is not unlike an imperfect clover. On the flower stem are two similar leaves, but much smaller.

The blossoms of dentaria diphylla are very much like those of the sister plant, but white, crucifer-shaped, and about half an inch wide. These two are insect pollinated, and have a very faint, woody fragrance.

The root, long creeping and crinkled all over with rough wrinkles, is brittle, in color a reddish brown, faintly tinged here and there with green, and most delightfully pungent to the tongue, with a strange peppery spicy taste that is unlike anything else.

As I have pointed out, the two dentarias are very much alike, the main difference being in the shape of the leaves, one bearing three, and the other two leaflets.

Habitants of the cool, moist woods, the dentarias are early bloomers, real wildflowers, because they will tolerate any attempt at transplanting, and often grow in large communities, altho isolate specimens, or small groups of two or three plants, are commonly found.

Easily accessible woody spots on the outlying districts of the city will yield a fruitful search for the plants. Failing to discover them yourself, do not be ashamed to ask aid from your children, who will probably be able to show you just how to best dig up and taste the spicy roots.

Getting Rid of Dandelions.

If your lawn is yellow rather than green, don't let the dandelions make you blue. There is an easy method of killing them. This is by spraying them with a solution of sulphate of iron.

Heavy growths of dandelion may be killed by spraying from a nozzle that gives a mist-like spray with a solution of 1 1/2 pounds of sulphate of iron to a gallon of water. An ordinary garden sprayer does not give good results. The solution should be sprayed over the lawn about three days after the grass has been cut, and on a bright day when the possibility of rain is slight. The lawn must not be cut or watered for three days or more after the application.

The lawns may be sprayed once a month during the entire summer, starting at the time the dandelions appear. With proper care the spray will not injure the grass. Care should be taken in applying the solution to keep it off concrete walks, as it permanently discolors them. Stains in clothing made by the sulphate of iron are not removable.

If there are only a few dandelions on the lawn they may be removed by cutting them off just below the sur-

Break Door to Evict Tenant, And Landlord Was Arrested

Halifax, N.S., May 2.—The legislature recently passed a bill incorporating the Halifax Relief Commission Bill, one clause of which provided that a tenant could not be evicted without the consent of the commission. Today a landlord put another tenant into a house where an old woman was in possession and which she refused to vacate. To eject her the landlord broke open the door of the house. The result was that under the Halifax Relief Commission Act the landlord was arrested.

Some Interesting Facts

WORK IN FRANCE—In 1917 fifty-five per cent. of Y.M.C.A. canteens were in advanced positions where civilian stores do not exist. Thirty-eight were behind the lines at Vimy and forty at Passchendaele. Eight Canadian Y.M.C.A. dug-outs were destroyed by the Germans during 1917.

Y.M.C.A. prices in its canteens are regulated by the British War Office. All canteen profits are spent on the soldiers. Each month the canteen accounts are checked by Divisional Military Field Cashiers.

Here are a few of the 1917 expenditures in France alone: \$145,000 for new huts, marquees and equipment, etc.; \$35,000 for writing materials and educational literature; \$40,000 for concert parties, pianos, gramophones, etc.; \$35,000 for moving pictures; \$40,000 for athletics. Such recreations are acknowledged to be a powerful factor in maintaining "morale" of troops.

WORK IN ENGLAND—The Y.M.C.A. operates in every Canadian Camp in England, in 15 hospitals and with 20 Forestry Units. The Canadian Y.M.C.A. operates in 79 centres in England. In one week 177 entertainments were attended by 53,000 men.

WORK IN CANADA—Military Y.M.C.A. work is conducted in Canada at 30 points during the winter and in 9 Summer Camps, in 4 Internment Camps, in 3 Red Triangle Clubs, and 12 Hospitals, while work for sailors is carried on in the splendid Naval Hut at Halifax. 98 secretaries are employed and 900 ladies give voluntary assistance.

ENEMY CAN DUPLICATE HIS OFFENSIVE EFFORT

With the French Armies in the Field, May 2—Altho Germany has engaged two and a half million men in the present offensive to date, conservative calculations indicate she is still capable of duplicating this offensive effort. The allies, however, with their new unity of command and superiority in fresh reserves, coupled with the inability of the Germans again to effect a surprise, hold the trump card.

The fatal consumption of German effectives is indicated by the fact that, while the enemy began March 21 with half a million men in the front line, they have been obliged since to engage five times that number.

The allies have identified on the west front 206 divisions (2,472,000 men) out of the German entire total of 242, including those on other fronts. To date, the Germans have engaged 140 separate divisions in the present battle—many two or three times—making a total value of 181 divisions engaged. This leaves 66 unengaged, of which ten are Land-sturm and Landwehr, incapable of offensive work.

MAY INCREASE CAPITAL.

Ottawa Gas Company's Bill Before Private Bills Committee.

Ottawa, May 2.—In the private bills committee of the commonsense today Mayor Fisher of Ottawa and other representatives of the Ottawa City Council and Board of Control resumed their fight against the bill to increase the capital stock of the Ottawa Gas Co., a subsidiary of the Ottawa Light, Heat and Power Co.

The committee on the bill decided to allow the company to increase its capital stock only to \$2,500,000. Another amendment adopted provided that the new stock must be sold in part.

The bill was still under consideration when the committee rose.
