TWENTY SEVEN DEAD, HUNDREDS INJURED IN CHICAGO RACE RIOTS

PREMIER MARTIN OUT OF THE BIG RACE FOR LIBERAL LEADERSHIP

Fielding Has Many Friends and is Said to Be the Likeliest Man, But Dewart is Popular on Every Side.

Special to The Toronto World, Ottawa, July 29.—It is semi-officially announced that the name of Premier Martin of Saskatchewan will not be presented to the coming national convention as a candidate for the leadership. It is said that Mr. Martin has never been decided to withdraw from the race. It is further stated on what seems to be good authority that many other prospective candidates will be scratched, and that only three names will be presented to the convention, viz. Hon. Wm. S. Fielding, Hon. Geo. F. Graham and Judge D. D. McKenzie. Apparently nothing is to be left to the chance of a stampede at the convention. No dark horses are to be unblanketed at the last moment, and everything will be to a large extent predestined. The preliminary work of the convention will be carried on by the convention committee, consisting of the eight Liberal provincial premiers, Hartley Dewart, K.C., and a number of senators and members of the house of commons. This work will be in session on Thursday, Friday and Saturday of this week, arranging the program of the convention, its method of procedure, and its presiding officers.

Returned Soldiers Appoint Committee to See Managers and Miners' Union.

Cobalt, Ont., July 29.—At a meeting of the returned soldiers of the district, held in the town hall here this afternoon, a committee to wait upon the Mine Managers' Association and the Miners' Union was appointed in an effort to obtain some basis for a settlement of the present strike here. The resolution enthusiastically endorsed motion calling for the exclusion of all aliens from the mines. The proceedings, over which Postmaster Walter Binney presided, became lively at times, and there was considerable plain speaking.

It will sit after ratification of the treaty. The members will have diplomatic standing and will be aided by staffs of technical advisers.

Dismissed from the Service

London, July 29.—Lieut. Joseph Savoie of the Quebec Regiment has been dismissed from the service.

TO BEAT A MINORITY MARK BALLOTS YES, SAY LIBERTY MEN

Representatives Promise Soldiers and Jews Will Fight Prohibition.

The large Foresters' Hall was crowded last night by a representative and enthusiastic gathering of the supporters of the Citizens' Liberty League. Many surprises were sprung at the meeting, the chief amongst them being a gift of \$500 to the funds of the league by F. C. Sutherland of Sutherland Bros., minor brokers, King street, and the support of the soldiers to the league was promised by W. J. Carmichael, secretary of the G.A.C., and by R. C. Wood, managing editor of G.A.C. Journal. The Jewish vote to support the aims of the league in their prohibition campaign was promised by Archie Dramin. The proposition for a tag day was turned down, as Col. Machin was against it, declaring the league wanted nothing of that kind of publicity—they wanted a high-class campaign, and to fight square. Every city, town and village in Ontario was being organized by the league, he declared.

Religious Persecution in Bolshevick Russia

Orsk, July 29.—Religious persecution continues in Bolshevick Russia according to information received by the intelligence service of the army. These reports say that the Moscow Bolsheviks have taken over the famous Novodevichy and Yevlavskiy monasteries and have used as barracks for Chinese and Lithuanian soldiers. It is also reported that the famous Novodevichy monastery, Nevskaya Lavra, is being used as a moving picture theatre and dance hall for Bolshevick soldiers.

MUST SHOW JUST REASON FOR STRIKE

Judge Robson Holds That Principle of Collective Bargaining Largely Conceded.

Winnipeg, July 29.—Judge Robson, head of the royal commission to inquire into the cause of the strike, struck a new note in the investigation today when he told a witness, A. F. Wood, that the recent strike had been called solely on the demand of collective bargaining he could not see that discriminating a clear case against labor by employers. This demand, said the commissioner, had been conceded by the iron masters, the citizens' committee and apparently by every body except a few individuals, and employers could not withhold employment from a man if he admitted that the reason for the strike was just between now and eleven o'clock tonight that there were no other reasons back of the strike than the principle of collective bargaining.

TWENTY TONS OF FOOD DESTROYED IN WINNIPEG

Winnipeg, July 29.—The unanimous opinion of city food and dairy officials, expressed today, is that the deplorable waste of food now being reported from day to day is a direct result of the recent general strike. The health committee is utterly powerless to do anything, even if it decides to recommend a probe.

Government to Purchase Canada's 1919 Wheat Crop

Will Guarantee Minimum Price and Sell in Open Market, Distributing Profits Among Farmers.

Ottawa, July 29.—While no formal announcement of the government's plan for handling the 1919-1920 wheat crop will be made until tomorrow, its provisions are pretty well known and have been accepted as satisfactory by the millers, the grain growers and others interested. The government will purchase the entire crop, guaranteeing to the farmer a minimum price on the basis of \$1.75 per bushel for No. 1 northern at the head of the lakes. The government will then sell this wheat in the open market and distribute the net profits among the farmers.

They had behaved like gentlemen and made lasting friendships.

What Started Trouble

Chief of Police Garrity today suspended a policeman who charged with failure to arrest a white youth who threw a stone which struck an unidentified negro youth, knocking him from a raft at the twenty-ninth street beach Sunday afternoon. The negro was drowned and that incident has generally been conceded as the start of the riots.

were sent to their homes today to remain off duty until the rioting had ceased. Patrol wagons were utilized to convey the negro employees to their homes for their protection and to assist in the street car strikes. All street repair work was stopped today because about one half of the employees are negroes and street cleaners also were laid off.

The department of public works closed nine public playgrounds in neighborhoods where whites and negroes are the patrons. The department also deputized 400 special policemen to help guard public property and it was planned to use 800 additional guards tomorrow if necessary.

Many Scattered Fights. Filtering of negroes into the Loop from the "bell" led to a number of fights late today. In which several persons were injured. One negro escaped a mob by running into one of the largest stores on State street, talking the elevator to the eighth floor and clambering down a fire escape in the alley. A white man was wounded in the leg when a fire burst into a crowd of whites at Michigan avenue and Thirteenth street, while a black was beaten by a crowd at Harrison and State streets.

Several fights took place at State and Vanburn streets. At least three negroes were stabbed and beaten at this point during the early evening. Near this intersection a colored man who said he had served three years in the Canadian army overseas, and who had been both wounded and gassed, was severely wounded.

Threaten to Apply Torch. The menace of fire was added to an already serious situation when Fire Marshal O'Connor reported that he had been informed negroes were threatening to apply the torch to homes of whites on the south side. The marshal said every available fireman was being held in reserve to meet such an emergency.

A repetition of the desperate fighting in the county jail during the day and negro prisoners during the day was made impossible by locking the blacks in their cells and placing a machine gun in position to rake both the cell doors and the main entrance to the jail interior. Sheriff O'Connor said he was ready to meet any attempt to storm the jail from the outside.

Several of the big department stores sent to the police department a large number of delivery trucks for taking to their homes negroes who had sought refuge in the station during the day. Each wagon load of blacks was heavily guarded.

A mob of whites attacked the Provident Hospital, an institution for negroes, tonight, and in the shooting that followed one negro was probably fatally wounded and two policemen, one of whom was shot in the back, were wounded. When the mob surrounded the hospital an attempt to enter the building was beaten off by police.

The body of a negro who had been shot to death and burned was found tonight in the street and the district when the police responded to a riot call. He had been stabbed also, the gasoline poured on his body and set fire.

Other witnesses observed similar scenes in writing the names or names of possible suspects as they ran or fled. John O'Neill and R. T. Edwards were among the names mentioned. The recent fire was caused by a resident of the district. One declared with conviction his belief that the fire was caused by a pro-German agent who had been arrested on the morning of May 24 because he had made a strong anti-Hun speech at the Dundas presentation party of the previous night. Edwards expressed a strong opinion that if the guard had been certain of the districts the fire bug would long ago have been apprehended.

Farmers Guards Barns. Various witnesses today certified that the farmers were guarding their barns as well as possible and all declared that they had as yet only a suspicion to go upon in suggesting the possible identity of the pyromaniac. The anonymous letter and the Dundas presentation party of the previous night. Edwards expressed a strong opinion that if the guard had been certain of the districts the fire bug would long ago have been apprehended.

The fighting today centered mainly in the heart of the "black belt" along Thirty-fifth street and to cope with the situation the police massed reserves of men, rifles, patrol wagons, ambulances and motorcycles in the vicinity. Some four thousand police troops were under arms in the city and as many more were under orders to be ready for emergencies. There were two streets flung up, however, as far south as Fifty-first and State streets, and three vicious fights took place in the downtown district, on Wabash avenue, in broad daylight.

DEATH FOR NEGROES BEFORE INJUSTICE. Chattanooga, Tenn., July 28.—Declaration that before the negroes of the country again will submit to "many of the injustices which we have inflicted on the hands of the white men, they will have to kill more of them than they have killed in the great world war," is made in a letter written to President Wilson by Rev. J. G. Robinson, presiding elder of the African Methodist Episcopal Church at Chattanooga, and made public here today.

The letter written by the Rev. Robinson, who acted as spokesman for the delegation of bishops and laymen of the African church, presented a pledge of loyalty to President Wilson at the outbreak of the war, appeals for the present support of the government to prevent lynching and to force southern states to place negroes on juries.

Brockville Veterans Resent Returned Man's Discharge. Special to The Toronto World. Belleville, July 29.—At a meeting of the Great War Veterans of this city, held last night, great dissatisfaction was expressed over the treatment accorded Comrade Fisher, a mail carrier here, who received three days' notice from the post-office authorities that his services were no longer required in order to make way for a mail carrier of the permanent staff.

Comrade Fisher, on his return from overseas, having lost an eye in France, was taken on the temporary staff at the local post-office and has filled his position to the satisfaction of the authorities for over a year.

The veterans feel that Fisher should be retained even though he did not go overseas have to step down and make way for efficient recruits.

Comrade Fisher is a married man and on account of his disability received in France has no other work he can undertake.

POINT TO SUSPECTS OF CAUSING FIRES ON GLENELG FARM

Names Handed Privately in to Court — "A Neighbor" Wrote Warning Letter.

Special to The Toronto World. Durham, July 29.—Glenelg township was largely represented at the fire investigation which was opened here today by Fire Marshal Rogers, and which, it is expected, will close tomorrow. Of the hundred odd farmers present at the town hall today, about one-half were witnesses, and there are said to be as many more to be called tomorrow.

A feature of today's proceedings was the testimony of Jacob Levine, a Durham merchant, who also has a farm near Glenelg. He told of having allowed his farm house to be used for a few dances, and having received a written warning from some one signing himself "A Neighbor" advising that if any more dances were held there the barn "would surely go up in smoke." He mentioned three persons suspected by him as authors of the warning letter, the names being privately communicated to the court.

YORK COUNTY AND SUBURBS

RATEPAYERS MEET AT MT. PLEASANT

Delay Re Tenders Causes Naming of City Hall Deputation.

Mount Pleasant ratepayers held another rally last night, when a good big crowd gathered at Hodgson school to devise ways and means for pushing ahead the long-promised, long-delayed line on that highway. It was a lively meeting, too, with some sharp exchanges, the participants calling it made a spade, accidentally, Aid. H. H. Ball showed up some of the inconsistencies of the men who are talking secession from the city.

There was some criticism of the delay on the part of Commissioner Harris in getting along with the tenders for the work on the Mount Pleasant line. Fred Bell charging that the plans and estimates ought to have been ready for submission before this. On motion of James O'Brien, a committee was named to go down to the city hall and try and find out what was holding up the work.

High Taxes. George Hodgson spoke at some length on the high assessment and high taxes in the old municipality of North Toronto, and reference was made to the reduction obtained by Aid. H. H. Ball on his property on Merton and Yonge. A German came back with the clear-cut statement of the big reduction was obtained before the judge, and in open court, an appeal open to every man who chose to avail himself of it. He charged that a good deal of the high assessment in the northern part of the city was due to real estate men, who had given options at unheard-of prices as high as \$400 a foot, and which in no sense represented the value of the property. The city in turn had followed in the train, and the outcome was shown in retrospective.

In answer to Mr. Hodgson, that the Mount Pleasant men were working at cross purposes with the North Toronto ratepayers, James O'Brien, in respect to transportation, James O'Brien said that they were satisfied that the committee was shown in retrospective. They did not want to do anything that would delay the consummation.

C. W. Benson, president of the local association, was in the chair.

Other witnesses observed similar scenes in writing the names or names of possible suspects as they ran or fled. John O'Neill and R. T. Edwards were among the names mentioned. The recent fire was caused by a resident of the district. One declared with conviction his belief that the fire was caused by a pro-German agent who had been arrested on the morning of May 24 because he had made a strong anti-Hun speech at the Dundas presentation party of the previous night. Edwards expressed a strong opinion that if the guard had been certain of the districts the fire bug would long ago have been apprehended.

A principal will also be appointed. Tenders will be received by the position of caretaker of the building for the ensuing school year.

William Peters, father of the Canadian-born family, came to Ontario in 1886 and purchased Maple Grove, then a prosperous farm settlement in the wood country near the town of Port Hope. He died in 1888 and the farm passed to his son, Nicholas Peters, and in 1891 the farm came into the hands of the present owner, William Peters, who works it with his son.

Last week's barn raising was carried out with all the features of the old days when "bees" played a large part in the social life of Ontario when they do today. In addition to the hundred and more odd farmers who put the big timbers in place, the Peters family entertained visitors from all the surrounding districts. The most recent additions to the agricultural community at Canton, whose farm adjoining the site of the new building was Professor Edwin Tyndall of Philadelphia, an "old boy" of Canton, and a former student of the University of Toronto, who visited to his aunt, Mrs. William Miller, a new boyhood friendship.

AFGHAN EMISSARY OFFERS OBSTACLE

Says War May Result to Britain as It Did to the Germans.

Rawalpindi, Punjab, India, July 29.—The progress of the Afghan peace conference, opening on Saturday, encountered an obstacle when Sirdar All Bakhsh Khan, president of Afghan delegation, disagreed with Sir Hamilton Grant, chief of the British delegation, regarding the causes of the war, and denied that the Afghans had first sought peace. He admitted that the British were militarily superior, but pointed out that the Germans were in a similar position in the European war, saying that the British won because they had combined all possibilities.

"Such a combination is open to Afghanistan," he continued. "The Indian government must not suppose that the Afghans are sleepy, ignorant people. The European war aroused aspirations in all nations."

Sirdar All said that Afghanistan stood as a barrier between Bolshevism and India, and asserted that if the war should be renewed and the British won, such a victory would admit into India the flood of Bolshevism under which Russia was submerged. He declared that a just and honorable peace would check the flood as far as the Caspian Sea.

The remainder of the proceedings were held in camera. If the Afghans obtain an unreasonable Sir Hamilton Grant may have to terminate the conference.

Before calling a man a liar be sure you are right—then use a telephone. It is impossible to beat an ignorant man in an argument.

SILESIA VOLUNTEERS ISSUE CALL TO ARMS

Zurich, July 29.—The Freiheit declared that the military circles have not given up hope of resuming war whenever the chance offers, especially on the eastern front. The paper reproduces an appeal of the Goerlitz corps of volunteers as follows: "Silesians, to arms! A precious part of your province is to be taken from the empire. Enough of protest on paper; we must act; you must defend your province by the force of arms. Think of 1813. A nation unwilling to sacrifice everything in the defence of the country is an unworthy and a doomed nation. The Goerlitz corps of volunteers, a component part of the army of the empire, is called upon to take part in the defence of Silesia. Silesians enlist in our corps!"

BIG PREPARATIONS FOR GUELPH LABOR PARADE

Special to The Toronto World. The processions will be by trades, and every trade in the city will be represented.

Besides the procession there will be baseball and football games, bicycle and pedestrian races and dancing in the grounds. There will be lots of bands to supply the music for a real, big, old-time celebration.

DEFECTIVE BOILER CAUSES EXPLOSION

Kingston Jury Blames Government for Failure to Have Necessary Inspection.

Special to The Toronto World. Kingston, Ont., July 29.—That there had been carelessness on the part of Thomas Anglin, owner of the cheese factory, in not having the boiler in the factory inspected was the view of the coroner's jury investigating the death of John Potter and Robert Holdman, who died from injuries received when the boiler exploded last Saturday night. The provincial government was also censured by the jury for not having the law enforced, which would bring about a stringent inspection of all stationary boilers. It was also recommended that the government at once take steps to have the law enforced.

Anglin admitted that two years ago his boiler had been patched and that there had been no inspection made. A government boiler inspector who made an inspection of the boiler Monday declared that the boiler was a very poorly and weakly constructed one. He feared the government had fallen down in the matter of the inspection of stationary boilers, as they had not sufficient staff. He admitted that over 100 factories had been inspected in this way around the Peterboro district, but said the Kingston district had apparently been overlooked.

ACT AGAINST WOODSTOCK TO CLEAN CEDAR CREEK

Special to The Toronto World. Woodstock, July 29.—A. H. Clynick, manager of the Woodstock Wagon Co., has decided to waste no further time attempting to have the Woodstock officials attend to Cedar Creek, which is kept in an almost perpetual state of pollution owing to the inflow of the city sewage. The stream flows thru the west end of the city, past many residences, and one of these is Mr. Clynick's. The water is filthy, unsanitary and very unhealthy most of the time.

GUELPH INTEREST IN RADIAL ISSUE

Mayor Calls Public Meeting for Discussion of Proposed Agreement.

Special to The Toronto World. Guelph, Ont., July 29.—It is evident that many citizens are still undecided as to whether or not the agreement between the Grand River Railway Co., the City of Guelph and the Guelph Radial Railway Co. is in the best interests of Guelph. The subject, however, is one that has aroused intense interest and wherever one goes the bylaw is being discussed. This is a good sign and should result in the ratepayers going to the polls on August 11 fully convinced that the vote they cast is in the best interests of the city.

ROSEDALE CHOSEN FOR STADIUM

By three votes to two, after an hour and a half's discussion, the board of directors yesterday voted the erection of a stadium at Rosedale grounds at an estimated cost of \$2,000,000.

At the meeting, the board of directors, which was composed of the mayor, Aldermen Maguire and Robbins, and the majority of Councillors McRobbie and Cameron.

Two things are required for a stadium, said H. C. Somerville, city engineer. The first is a site of about 100 acres.

Dr. W. A. MacLaren and A. W. Carrick also thought Rosedale grounds unsuitable for a stadium.

Ex-Alderman James McCausland, who favored Rosedale, said he had had enough experience to know there were always objections.

Controlled Maguire said he had suggested leaving the stadium in the Rosedale grounds when the city took them over.

GERMAN CENTER LABOR CONFERENCE

Statement Made at Peace Commission of the French Chamber.

Paris, July 29.—An official report of the meeting of the peace commission of the chamber of deputies, says that the commission heard Stephen Pichon, the foreign minister, who was assisted by Jules Cambon and M. Fromageot. M. Pichon replied to various questions of an international character.

The foreign minister and M. Clavelle, minister of public works, explained conditions with regard to the international labor. They pointed out that Germany, without forming part of the society of nations, could enter into the society of labor provided for in the peace treaty on the demand of the conference as accepted by the allied and associated states.

The commission then heard a report on the military clauses of the treaty which recommended strengthening of the control and means of investigation which articles 203 and 213 give the society of nations. The report gave rise to a prolonged debate.

CANADIAN ENVOY BREAK RECORD FROM LONDON TO CAIRO

Undertake Important Mission for British Government—Thrilling Trip.

Ottawa, July 29.—How two Canadian airmen broke the flying record from London to Cairo is related in an interesting record of the trip which Lieut. Harry Yates of the Royal Air Force has forwarded from Egypt to his parents in Ottawa.

Lieut. Yates and Lieut. James Vance of Toronto undertook the trip for the British government on a few hours' notice.

Their mission was one of great urgency by reason of disturbed conditions in the near east, and time was of utmost importance—hence the use of the airplane. They left London on the evening of June 25 and reached Cairo shortly after dark on the evening of the 26th, having broken the existing London-Cairo record by 10 1/2 hours.

They spent two of the five days on forced landing, due to petrol trouble, so that their actual flying time for the 3000 miles was just three days. They averaged from two and one-half to three hours sleep per night, and one hot meal a day and were very greatly fatigued at the journey's end.

After their arrival they were tendered a dinner by Brigadier-General Salmons, and complimented by Gen. Alcock.

Lieut. Yates writes: "We both thought it was over several times. Two-thirds of the route is over country which is mountainous right to the water's edge, and a forced landing means a certain crash. We had three forced landings with petrol trouble; as luck would have it was my trick at the wheel on each occasion—the first (which aged me at least two years) happened just after we entered the desert. There were two mountains on three sides and the fourth. I managed to get down into the bed of a mountain torrent, and a broken tail end; I thanked my lucky stars that I knew Handley-Page's 'A' 10."

The president told the senate the purpose of the treaty was to provide assistance for France in case of unprovoked aggression by Germany without waiting for the advice of the council of the league of nations that such action should be taken, and explained that it was to be an arrangement "not independent of the league of nations, but under it."

"The covenant of the league of nations," the president said, "provides for military action for the protection of its members only on the advice of the council of the league. If given, it is to be presumed, only upon deliberation and acceptance only by the governments of the member states only if in their own judgment justifies such action."

Pointing out that the treaty "shall receive the approval of the council of the league of nations," the president said it was not a matter of form, until, upon the application of one of the parties to it, the council of the league, acting, if necessary, by a majority vote, should give its approval of the covenant of the league afford her (France) sufficient protection.

Mr. Wilson said he was moved to sign the treaty by the ties of friendship binding the two countries, and the assistance France gave America in its struggle for independence. Without this assistance, the president said, it was seriously to be doubted whether America could have won its independence.

"Nothing can pay such a debt."

TREE CHOPPING AS A NATIONAL SPORT

Former Champion of Australia Explains How It is Done.

Assume a hypothetical tree. You, an average citizen, armed with an average axe, want to fell it. You don't care in what direction it falls, so long as it does not fall on you. You want to perform the feat in the easiest and quickest possible way?

H. Jackson, former champion tree chopper of the United States, in a chopping contest, told his technical mystery. "Every tree," said the Australian, "leans somewhat—that is, its upper part is heavier than the lower part. A glance will usually show you on what side the tree leans. Attack that side, cutting a sizeable notch, the cutting done on the other side, because the lean of the tree effects a compression of the wood."

"Then cut into the other side. The lean in your tree, accentuated by your first notch, will bring the tree over readily. That is the easiest way to fell a tree, and it avoids the compression of the wood by a forest giant falling on your head."

"Otherwise there are no set formalities, the wood-chopping expert declared. "With any and depth of notch must be determined by practice. So also the subtleties of working the wood. Adopt a loose, swinging motion, which enables the tree accuracy. In chopping, as in prize fighting, the tight-but-practice will lend the accuracy which enables the axe edge exactly in the previous cut."

National Sport. "America should adopt the sport of chopping down trees," declared the national sport of Australia," declared Champion Chopper Jackson.

"Vacation time is near," he cried. "An excellent opportunity for the city man in July and August to break the neck of a new and fascinating sport. When you go to the country take an axe with you and learn the joys of chopping down trees."

Fine Idealism! But the more practical man will keep in mind the village constable, the workhouse and the long-range guns and bombs from German airplanes fell in Paris.

BOBBIE WAS WISE. Bobbie: If you was playing ball, you'd want sister to pitch it's'pose? Cholly: Why? Bobbie: You like her curves.

MUSINGS OF MARTHA. If th' weddin' ceremony included, besides 'love, honor and obey,' 'cook his meals, wash his clothes, darn his socks, an' sew on his buttons,' there'd be fewer hasty marriages.

SOMETHING TO WORRY ABOUT. Considering how little is accomplished, one sometimes wonders if it is really worth a hungry sigh and a time to do so small a thing as a person

FRENCH REFERENCE ACT SENT TO U.S. SENATE

Wilson Says It Will Only Be Operative Till League Can Guarantee Protection.

Washington, July 29.—President Wilson today transmitted to the senate the special treaty with France by which the United States pledges itself to come immediately to the aid of that republic in the event of an unprovoked attack by Germany, and assured for its early ratification "along with the treaty with Germany."

Submission of the treaty came after sharp criticism by senate Republicans who, just several days ago, had openly charged on the senate floor that in failing to present the draft of the pact along with the treaty of Versailles, the president had violated the spirit of articles of the document. The president did not follow his usual custom of presenting the treaty in person. He sent it to the senate by special messenger along with a message explaining its object.

The Franco-American treaty is almost identical with one signed between Great Britain and France. One difference between the texts as made public by the French foreign office, to which the text of the league of nations and United States pledges itself to go "immediately" to the assistance of France, while Great Britain "consents" to assist that country in larger quantities than ever in anticipation of the increased price.

DISTRIBUTION OF SUGAR STOPPED BY REFINERS STRIKES

Unfulfilled Expectation of Jobbers and Buyers Over Prices Also Counts.

Ottawa, July 29.—Inconvenience caused by strikes in Canadian sugar refineries some weeks ago, coupled with the unfulfilled expectation of jobbers and buyers of sugar that there would be a drop in price, which count in difficult conditions of sugar distribution at present. At a conference called by the Canadian Trade Commission, complaints were read from western fruit packers that eastern refiners were exporting sugar to profit in the west, while the home interest was under a shortage. It was claimed by the Western Canada Fruit Jobbers' Association, Calgary, that delivery in the last two months was sixty per cent. below corresponding months a year ago. Refiners, however, refuted this and showed that 12,000,000 pounds more sugar were shipped from eastern refineries to the west this year than in the corresponding months last year, while 6,000,000 pounds in excess of last year's supplies had been sent by the British Columbia Refinery.

Jobbers Held Out Too Long. Refiners claimed the rumors of approaching higher prices in the United States had brought about large buying in the west for stock; that jobbers throughout Canada had held out too long, expecting a fall in price and that they were now ordering in larger quantities than ever in anticipation of the increased price. They stated that the government had urged them to seek export trade, but that to date considerably less than ten per cent. of the Canadian production had been exported. It was explained that the strikes early in the year in the sugar trade had resulted in a more convenient period, resulting in large orders being placed, and that their effects on the west and consumers were only now being felt.
