FIERCE STORM IN ONTARIO WEST BUILDINGS UNROOFED AND WRECKED; TREES BLOWN OVER HAMILTON'S LOSS IS \$250,000

St. Thomas, Chatham and Sarnia and Surrounding Districts Swept by Wind and Hailstorm of Cyclonic Variety—Buildings and Trees Torn from the Ground by Force of Gale—Telegraph Wires Go Down.

Hamilton, June 8.—(Special.)—The worst storm that ever struck Hamilton occurred shortly after 3 o'clock this afternoon.

Nothing like it ever visited this district before. It was a regular western cyclone, and the damage that it did cannot be estimated, but it will probably reach a quarter of a million dollars.

Tops of brick houses right down as far as the gable were lifted up and blown away, a distance of 50 feet in some instances. Plate glass and other windows in many buildings were blown in.

There were panics at some of the schools, and at the city hall. The only redeeming feature of the storm was that no one was hurt. It lasted for only about 15 minutes, but in that short time 50 feet of the roof of one of the Deering buildings was blown off. A portion of the roof of the vinegar works, on South James-street, was torn off. On Milton-avenue near the Westinghouse Works, there are seven brick houses. The tops of the first, third and fifth were torn clean off and deposited in the back yard.

Walls of houses not completed were knocked over in all parts of the city, and brick chimneys were blown down by the score.

The Cataract Power Company was a heavy loser. The street car system was tied up for an hour, and the whole street lighting system was put out of business and was not in commission up till midnight.

Mrs. Askew, North Bay-street, was frightened out of her house by a falling chimney. In her absence a fire broke out at the house and stole \$50. Trees in all parts of the city were either torn up by the roots or torn to pieces. Some trees and branches that were impossible. On one street in the eastern part of the city the chimneys were blown off eight houses and the chimneys of Russell and Queen-streets were blown off.

Lightning along the wires set fire to Lucas' bake shop, but the flames were extinguished by the brigade.

A number of fishermen on Lake Huron had a fierce tussle with the gale, and reached shore with great difficulty.

Maxwell Church, on the sixth line of Plympton, was struck by lightning, which tore a hole in the roof. Wind-battle school, on the same line, was blown down, and his barn injured.

Alex. Bowles was moving a frame house from Sarnia to the country by the London road. The storm lifted it into the ditch near the Perche bridge.

The S.S. City of Toledo was caught in the storm near Courtright and tied up at St. Clair where she was several times wrenched from her fastenings. The electric services were utterly paralyzed.

TEN WORKMEN IN DANGER
NEW HOSPITAL BLOWN IN

Niagara Falls, Ont., June 8.—A terrific wind and rainstorm struck this city to-day from the southwest, 10 minutes before it was hot and sultry, the sun shining brightly.

The wind and rain drifted in sheets and shook things up lively on every street in the city. The greatest damage it did was in the blowing over of two large brick chimneys and crushing in two wings of the new General Hospital, under construction.

Some ten workmen just got away from the building as the chimneys toppled over. Brick Work Contractor J. Blair, who was on one of the top storeys, was unable to get out, and the brick and mortar fell all around him. The only injury he seems to have received was badly burned eyes with lime from the falling brick.

How he escaped death is a mystery. The loss to him and Contractor Robertson in the loss to woodwork will reach several thousand dollars.

After the storm, that lasted 30 minutes, it became quite calm again. This evening about 10 o'clock it struck town again. The wind blew a small tornado, accompanied with rain and sharp lightning, lasting about 45 minutes.

It is expected no damage was done other than interrupting telegraph and telephone wires.

BARN BURNED AT BEAMSVILLE
OTHER PLACES ALSO DAMAGED

Beamsville, June 8.—The severest thunder storm of the season passed over Beamsville about 4 o'clock this afternoon, doing considerable damage to telegraph and telephone lines, beside setting fire to and completely destroying H. Conins' valuable bank barn with nearly all its contents.

Only a team of horses was saved, while several thousand feet of lumber, several hundred bushels of wheat, tons of hay, all his farming implements, including reapers and mowers, wagons and much poultry were destroyed. The total loss will be in the neighborhood of \$5000, insured for \$1000.

Three buildings, including the stores of A. J. McArthur and A. M. Center, were struck during the storm, but with slight damage.

IN THE PATH OF THE STORM

A storm of wind, rain and lightning swept over Western Ontario yesterday between Hamilton and the border line, and did enormous damage. In Toronto, also the electrical display in the afternoon, and again at night, was vivid, and the downpour heavy, no great damage is reported, except to the telephone and telegraph services, which were badly demoralized, although the out-of-town disturbances were the more to blame.

The observatory reported that "in Ontario and Quebec thunderstorms during the day were both numerous and of marked severity. An important depression which has been hovering over the Northwestern States for the past few days is gradually breaking up."

Damage is reported as follows:
Hamilton—Damage estimated at \$250,000; roofs of brick houses blown 50 feet; 500 feet of roof at Deering Works blown off; trees and windows innumerable broken.
St. Thomas—Magnificent avenue of trees on Wellington-street nearly all ruined; M.C.R. shops unroofed; Trinity Church damaged; shop struck by lightning; man's skull fractured by falling tree.
Rodney—Bender Hotel and Patterson House unroofed; walls of store collapse; trees foot thick broken.
Aylmer—Magnificent \$7000 barn blown down.
Chatham—Storm terrific; Park-street Methodist Church steeple blown down; trees suffer greatly; Dowsley Axle Works' roof riddled by hail; livery stable destroyed; telephone and telegraph poles and wires blown over; many buildings unroofed.
Sarnia—1700 square feet of roof at lumber mill ripped off; trees uprooted and blown against house; new house blown over; lightning sets fire to one shop.
Niagara Falls—Two wings of General Hospital, under construction, crushed in; ten workmen narrowly escape.

and the roof of the opera house suffered severely.
Fortunately, no lives were lost.
The damage, it is now estimated, will run to many thousands of dollars.

IMMENSE DAMAGE AT SARNIA BIG LUMBER MILL UNROOFED

Sarnia, June 8.—(Special.)—Sarnia received the full brunt of the storm and, while happily no loss of life occurred, suffered great material damage.

W. F. Lawrence & Sons' new lumber mill had 1700 square feet of roofing blown off and destroyed with the shafting and belts.

Two trees at Christina and Johnston-streets were destroyed, one being lifted out by the roots and hurled against Watson's house, smashing windows, cornices and roof.
A new house on Davis-street was lifted off its foundations and toppled over.
Richard Lynch's house, on Wellington-street east, was badly smashed, and Louis Starr, who was within, had his arm cut by flying glass. Dr. James closed the severe wound with ten stitches.

John Ross' barn was demolished, and chimneys on Russell and Queen-streets were blown off.
Lightning along the wires set fire to Lucas' bake shop, but the flames were extinguished by the brigade.
A number of fishermen on Lake Huron had a fierce tussle with the gale, and reached shore with great difficulty.

Maxwell Church, on the sixth line of Plympton, was struck by lightning, which tore a hole in the roof. Wind-battle school, on the same line, was blown down, and his barn injured.

The S.S. City of Toledo was caught in the storm near Courtright and tied up at St. Clair where she was several times wrenched from her fastenings. The electric services were utterly paralyzed.

LEVESCONTE EXONERATED.

Benchers Decide That His Conduct Was Not Unprofessional.

The benchers met yesterday and received the report of the discipline committee, which investigated the allegations of unprofessional conduct preferred against Barrister Levesconte, arising out of the negotiations with Chris Holland for restitution to the Ideal Bedding Company.

Mr. Levesconte was held to have been exonerated.

CONTRACT FOR STEEL RAILS WILL GO TO CANADIANS

Ottawa, June 8.—The transcontinental railway commission has received four tenders for supplying 85,000 tons of steel rails for that part of the railway which is now under construction. The Sydney, N.S. Company and the 800 people have tendered. There is a tender from the old country, and another from the United States. The likelihood is that the contract will be divided between the two Canadian tenders.

ANGELICAN AND PRESBYTERIAN NOT SO VERY FAR DIVIDED

Mutual Regard and Hope for Union Expressed at the General Assembly.

London, June 8.—(Special.)—At the morning session of the general assembly, President Patrick reported in connection with Manitoba College, Winnipeg, a larger number of degrees obtained, and the completion of the King memorial professorship fund, with a total of \$52,535. A discretionary power was asked for to substitute arts for theology at the college when desired. They did not think skepticism accounted for the diminution of students, but the extreme attractiveness of other pursuits, together with small incomes offered to ministers, often less than that of a laborer. They would fix the minimum at \$1000 and 5 menses.

FARMERS AND THE TARIFF PROTECTION THEY WANT

Suggestion is Made That Essex and Kent Be Allowed to Grow Canada's Tobacco.

Ottawa, June 8.—(Special.)—On motion to go into supply this afternoon Mr. Clements (West Kent) addressed the house on the tariff question. He read a recent return showing the imports and exports between Canada and the United States. The duties levied by the American government, he said, are uniformly higher than ours.

He insisted that our duties on farm products should be at least as high as the duties on the same products by foreign countries.

He pleaded for a higher duty on tobacco. The 14,000,000 pounds imported from the United States could well be grown in the Counties of Essex and Kent. It was an expensive business to start in and the farmers would not attempt it without adequate protection.

He favored free coal for Ontario. He also favored utilizing the surplus of the postoffice department to establish a rural delivery system. The farmers were being crushed by the present tariff that discriminated against them. Mr. Martin (Wellington) differed from Mr. Clements. He read a resolution passed by the Ontario Farmers' Association demanding a lower tariff. The farmers generally thought that our duties were too high.

Mr. Hendershott (Haston) said that our present tariff was a tariff for revenue, but they objected to a tariff that was simply a scheme of taxation. Mr. Clark (South Essex) said that the farmers were not opposed to a protective tariff, but they wanted agricultural products protected as well as manufactured articles.

He admitted, however, that at present the farmers were very prosperous. He objected to the use of different stamps for domestic and imported tobacco. He also favored an increase in the duty on vegetables.

Mr. McKenzie (South Bruce) thought that the farmers were prosperous. Many were going to the Northwest, but they found a ready market for their farms in Ontario. This showed that farmers were clearing over their holdings. As a class they were prosperous.

In supply Mr. Genong (Charlotte) pointed out that the farmers were prosperous. Mr. Clarke (South Essex) said that the farmers were not opposed to a protective tariff, but they wanted agricultural products protected as well as manufactured articles.

COLLECTING CITY MAILS - NEW CONTRACT IS MADE

Kingston Man is Successful Tenderer—How Work Will Be Performed.

The contract for collecting the mails in the City of Toronto for the next four years has been awarded to Philip H. Small of Kingston, a son-in-law of E. W. Folger, formerly one of the Temiskaming Railway commissioners. It is likely that Mr. Folger will have charge of the work.

It is understood that the contract price is in the neighborhood of \$20,000 per year. There are 931 letter boxes in Toronto and 119 parcel receptacles. On the sixteen routes the average distance covered in collecting the mails each day is 339 miles 3400 feet made up as follows: Week days, 412 miles 3810 feet, and Sunday 83 miles 4100 feet per day. Special trips on week days, 20 miles 1320 feet, and on Sunday seven miles 4790 feet.

By the contract for the collection of mail matter between the several substations, the letter-boxes, and the general postoffice, which comes into effect on July 1, a material saving of time will be effected. For the past four years the contract has been performed by Joseph Power, and in the specifications in the official blue book for the carrying out of the work was \$9950 a year. Under the new system letters may be deposited in any letter box in the city as late as 12.20 a.m. with the assurance that they will be collected the same night and leave stations recently sent out to the world's tenderers this is stipulated. In future five wagons will leave some central point at 12.20 sharp every morning, visiting every box in the city. The most outlying point in the city will share equally with the most central. It is the intention of the government to install 180 new boxes in the near future, and provision for this was likewise embodied in the new contract.

A committee of three Toronto post-office clerks have gone to Ottawa to interview the premier and postmaster-general with regard to an increase in wages. They ask that the present minimum of \$400 be raised to \$500, and that the annual increase be \$100 instead of \$50, until the maximum of \$1500 is reached. There is a deputation also going from Montreal, to join in the request. There are 150 clerks in the Toronto postoffice interested. The schedule is as follows:

Table with 2 columns: Minimum, Maximum. Rows for Fourth class, Jr. third class, Sr. third class, Sr. second class, First class.

In all but the last class the annual increase is \$50 a year, but in the case of the "first-class" clerks the salaries and duties are fixed by the postmaster-general.

JURY TALKS OF TRAVEL PRESTON OUGHT TO FLY

"He is So Good, You Know,"—Tilt Between Members of Committee.

Ottawa, June 8.—The meeting of the parliamentary committee on agriculture this morning witnessed some lively altercations between members and scraps of spicy evidence from the witness, Alfred Jury.

At the opening of the committee Mr. Jury explained that he was in error at a former examination when he said that he had asked Mr. MacDonald of Pictou to put certain questions to him and that the member declined.

Mr. Monk asked him to explain what he meant by saying he had applied for shares in the North Atlantic Trading Company, and Mr. Jury replied by reading a letter he sent to Mr. Preston, asking, sarcastically, for some shares. It was obviously not a sincere application. Mr. Monk asked the reason of the disreputable relationship between Mr. Jury and Mr. Preston.

"I object to that question," interposed Mr. Carvell. "Are you solicitor for the defence?" asked Dr. Sproule. "I am a member of the committee," replied Mr. Carvell, somewhat warmly. "You're too cross," said Mr. Derbyshire.

Mr. Jury went on to say that he learned from the agents that Mr. Preston would not advertise their official positions, while he always advertised his own. "Some vanity in it?" suggested a member. "Yes," said Mr. Jury, "some vanity on both sides."

The extent of knowledge. Mr. Wright of Muskoka made a little speech to the effect that the committee should not insist on ascertaining how the witness knew things. As long as he knew them it was all right.

"Very good," commented Mr. Derbyshire on these remarks. "Oh, we don't care for that elephantine wit," retorted Mr. Wright. "I think this gentleman's physical development surpasses his mental development."

"You've got a swelled hat this morning," answered Mr. Derbyshire, not disconcerted, "but you did very well, better than I thought."

Mr. Monk asked if Mr. Jury could tell why Mr. Preston took so much interest in Leopold's labor bureau. Mr. MacDonald, Mr. Ethier, and Mr. Carvell all contended that this answer would not be genuine evidence. Mr. Jury's opinion as to a man he disliked should not be taken.

Mr. Jury read a letter which he thought was a threat by Mr. Preston that would establish more labor bureaus. Mr. Carvell would not let the witness pass judgment of this kind. "Are you and Mr. Preston enemies?" asked Mr. Blain.

"Not very friendly," said the witness. "Don't call me Preston," added the witness a moment later, when he was inadvertently given that name by Mr. Carvell.

Preston's Property. Mr. Jury took issue with Mr. Preston's statement that Louis Leopold & Co. was the Canadian Labor Bureau in London. Mr. Jury claimed to have seen Leopold booking passengers behind the backs of the proper owners of this bureau.

"Who does own the bureau?" asked Mr. Blain. "Mr. W. T. R. Preston or Preston & Co.," answered the witness. Mr. Jury read a letter from Rev. Leonard Dewar, in which it was stated that Mr. Preston recommended to him to Leopold his ticket.

"Preston is gone to Canada to get your scalp," was the advice Jury said a friend gave him with regard to his traveling expenses. Mr. Jury said Mr. Preston did not at once report him after he first learned of his plan of charging first-class fare and traveling third-class.

"I always travel first-class now," said Mr. Jury, "and charge it up. The country does not make anything out of it. They only do me out of my treating money—that's all."

He did not know how Mr. Preston added the witness, "he is so good, you know. He has wings."

Preston had ordered the agents to travel third-class and had deducted from the expenses the difference between first and third. The agents appealed to the department, and Preston was ordered to refund the deduction which he did.

"I did this openly," said Jury, speaking of his charging first-class. "There was no sneak about it. I had told Preston about it when Preston first went to England."

A motion of Mr. Monk's of means to promote the adoption of means to promote the Canadian labor from the operations of the Labor Bureau in London, was defeated. An amendment carried reporting the evidence adduced to this house as has been taken.

TOWN LOTS IN BRANDON

An Opportunity to Share in the Growth and Prosperity of This Promising City.

Two hundred choice building lots in the City of Brandon, Man. the great wheat city of the west, will be offered for sale by Auctioneer C. M. Henderson at his salesrooms, 87-89 East King-street, at 2.30 and 7.30 p.m. Tuesday, June 9. An investment in Brandon real estate at the present time should prove a good one, as Brandon is one of the coming cities of the west. In the past two years Brandon has practically doubled in importance as a railway centre. It is on the main line of the C.P.R., and 24 passenger trains per day enter into it. Eleven branch lines also run into Brandon. It is expected that the Canadian Northern from Winnipeg, the Canadian Northern from Neepawa, the Great Northern (the James Hill road), which is now graded into Brandon from St. John, North Dakota, will have trains running into this city this season. This Grand Trunk Pacific, now under construction, also goes thru Brandon. The population of Brandon in 1901 was 5842, while in 1905 it had grown to 12,000. The banking institutions of Canada realize the commercial importance of Brandon; for the following branches have already established themselves: Montreal, Merchants, Commerce, Imperial, Dominion, Hamilton, British North America and Northern. Brandon's geographical position is remarkable because it is the centre of the great stretch of wheat land. Further information as to terms, etc., can be obtained at 106 West King-street.

Annual Games Decided on Friday With Many Contestants.

In spite of a thunderstorm, which occurred in the middle of yesterday afternoon, the St. Alban's Cathedral School's annual games camp off with great success.

There was a very large entry, over 80 per cent of the boys attending the school competing in one or more of the events.

A greater number of visitors were seen among the spectators than on any former occasion.

Among the competitors were F. Arnold, A. Amnden and R. Hearn, who showed excellent promise as coming athletes.

Great thanks are due to the Rev. H. T. Archibald for his very able assistance towards the successful carrying out of the program.

The games will be given on June 23 at Wychwood Park, the residence of the headmaster, on which day the annual water sports will be held at 2:30 p.m. The following is a list of the winners:

ARGONAUT REGATTA TO-DAY.

The Results of the Preliminary Last Night—Henley Eight Sail.

The second night of the Argonaut regatta preliminaries resulted as follows: First heat—Holmes 1, Murphy 2, Cope 3, Kingsford 4.

First base on balls—Off McCaffery 1, off Hardy 2. Strong City Hardy 3, three-base hit—McFarland, two-base hits—Meek, Yancey, Wedensaul, Tamsett, McFarland, Neel, Sacrifice hits—White, La Chance, Double-play—Hardy to Rock to La Chance, HIT by pitcher—McCaffery 1. Umpire—Kelly. Time of game—1:50.

Today the finals will be run off. The following is the draw: Semi-finals—First heat—McLaughlin, A. B. Smith, Law, Es. Second heat—Humes, Dudley, Dixon, Corbett. Third heat—C. Toms, Quigley, Alken, Murphy. Fourth heat—Watson, Wright, Cochrane.

The first two men of each heat will qualify. In the second round of the semi-finals, the winners of first and second heats and the second men will row off. In the second heat, the first two men of three and four will compete, and in the finals the first two men of the first and second heats will row.

There were some 200 Argonaut supporters at the Union Station yesterday morning to give the Henley eight a send-off. All the men wore hats with the Argonaut colors on. They sail this morning.

Toronto Swimming Club. Already this season a great many members of the Toronto Swimming Club have taken advantage of the fine weather and excellent condition of the water, and are looking forward with enthusiastic interest to the opening of the club's season this afternoon.

The feature of today's program is a team race, 50 yards, which will be keenly contested by teams of six, chosen from all members. All are requested to be on hand early.

Can You Blame 'Em for looking at a man as who garbed as the average man is who buys his clothing at 'The Plastic Form Parlor'?

There are so many misfits in the world that it's a pleasure to look upon a good fit. One thing we pride ourselves upon is the appearance of men outfitted in "Plastic Form" clothing. Another is the low prices they pay us.

Special for Saturday Two-piece Outing Suits, single and double breasted, with belt straps and cuff buttons. \$10.00

The Plastic Form Parlor, 93 Yonge Street One Door North of Shea's. A. JOHNSTON, Manager.

Every Man who knows the value of Purity, will insist on having KUNTZ REGAL LAGER

It's a mellow beer. After brewing, it goes into well-ventilated fermenting rooms and then into spacious storage until fully aged.

That's why "REGAL" never makes you bilious. It's pure and has the required age.

We think too much of it to ever let a single bottle leave the brewery that can't stand every test for quality.

Don't you think enough of your health to insist on having an absolutely pure beer—like KUNTZ "REGAL" LAGER?

Brewed and bottled by The Hamilton Brewing Association, Limited Hamilton, Ont.

GOREMYKIN'S NEXT TO GO HAS DISAPPOINTED CLAR

Failure to Pacify Lower House Means His Finish—Cabinet in Rebellion.

St. Petersburg, June 8.—According to reliable reports from Peterhof, Emperor Nicholas has decided to retire Premier Goremykin. From the first it was apparent to outsiders that Mr. Goremykin did not possess force, capacity or skill necessary to the ship of state in the present crisis, and his majesty, who is extremely dissatisfied with the premier's sorry failure to make any headway toward rapprochement with the lower house of parliament, is now ready to sacrifice him. But the emperor seems to be torn by conflicting considerations of his advisers are urging him to make a frank surrender and accede to parliament's demands for a ministry from the opposition majority. These influences are hardly likely to prevail against the party headed by General Trepoff, which believes that no further concessions should be made. The emperor himself is receiving from court rebels who are confident of being able to unhorse Goremykin.

Bad Intensions of Goremykin. The Reche regarded the government's decision to shield itself in the matter of the death penalty bill behind the provision of the fundamental laws requiring thirty days' notice to the cabinet before the consideration of a bill as being a sign that bad influences are gaining the upper hand. Peterhof, but the paper comments upon the wisdom of the Constitutional Democrats in refraining from making any demands for the suspension of the law. Despatches from the interior continue gloomy, and show that the gradual tension of the agrarian disturbances and partial strikes now affects several provinces. The latest disturbances reported are at Kiev and in the Ukraine. Numerous collisions between peasants and rural guards have taken place, but nothing in the nature of a mass movement has yet occurred.

Edited Intensions of Goremykin. A sensation has been caused by the disclosures of M. Vladimiroff, a correspondent of The Twentieth Century, formerly The Russ, who investigated the case of Mile, Spiridonov, and who is now in the Baltic provinces investigating the representations there. He discloses that the eight men executed at Riga were innocent, and adds that they were forced to confess by tortures which put the Spanish inquisition to shame.

Altho the social revolutionists have proclaimed a temporary cessation of the terrorist campaign, there is little abatement in the murders of police officials in the interior. Mounted gendarmes yesterday charged a crowd of workmen at a munition cartridge factory at Vassil-Ostrov, who emerged from a meeting singing the Marseillaise. The gendarmes used their whistles to disperse many and wounding two men seriously.

In Parliament. The storm produced by over-night developments broke as soon as the lower house of parliament opened today, exposing the split between the radical and moderate elements of the Black Hundred publications, which was communicated in writing. It practically amounted to a flat refusal to make any explanation, beyond a hint on the ground that lower house was exceeding its right and is only entitled to explanations upon matters submitted directly for its examination.

Demands a Reply. After reading this communication President Mourmouhoff officially written a letter to the premier insisting upon a reply, on the ground that the publications directly affected the dignity of the president, and upon a motion of M. Petrunkevitch the president's action was unanimously approved. When the government's decision, instead of contained in the form of a communication from ministers of war, the navy and the interior, was communicated to the house, M. Naboukoff in behalf of the Constitutional Democrats offered a resolution accepting the government's decision, but in the name of the demands, contending the government must accept the notice of the bill as a violation of the constitution.

WHEN WOMEN WAGE WAR.

One Hit in Eye With Hook and Lays Charge of Assault.

Mrs. Willie, 20 Clifford-street, had her neighbor Mrs. Daniels, in court yesterday afternoon before Daniel Lamb, J.P., on a charge of assault.

The plaintiff said Mrs. Daniels called her names and hit her in the eye with a book for no cause whatsoever.

Mrs. Daniels said Mrs. Willie called her a wicked cat, and followed her to her home. The defendant was fined \$1 without costs.

The next case was somewhat similar, but this time it was S. Swartz, a merchant on York-street, charging B. Greenberg, a rival merchant, with assault.

Swartz said Greenberg had knocked him down and hit him, injuring him so that a doctor had to attend him. Both men were bound over to \$10 each to keep the peace for six months.

E. A. English was charged with running an automobile on Queen-street without a light. The case was remanded to the 11th inst.

Joseph Lalonde was fined \$1 for ill-treating a horse.

THE JUNGLE

The Book Everyone is Talking About

The Cause of the Chicago Packers' Investigation

The President of the United States has begun another investigation, started, they say, through this book, "The Jungle," written by Upton Sinclair.

Before giving it to the public, the American publishers sent an able lawyer to Chicago to investigate "Packington" conditions so as to be sure that they could in fairness publish the book. His report amply verified the truth of the story.

AUCTION SALES.

POSTPONED MORTGAGE SALE OF Valuable Freehold Property, known as Victoria Park.

Under and by virtue of the powers contained in a certain mortgage, bearing date the 25th day of July, 1904, and which will be produced at the time of sale, there will be offered for sale by public auction, on Saturday, the 9th day of June, 1906, at the hour of 12 o'clock noon, at the auction rooms of C. J. Townsend & Co., 59 King-street east, in the City of Toronto, by C. J. Townsend & Co., auctioneers, the following property, land and singular that certain parcel or tract of land lying and being in the Township of Scarborough, County of York, more particularly described as follows:

Firstly—That parcel of land being composed of the southerly portion of the westerly half of Lot No. 35, Concession A, of the Township of Scarborough, and which is bounded on the north by the westerly line of the said Victoria Park, containing by admeasurement fourteen acres, more or less.

Secondly—All that portion of a certain water lot, as shown on a plan of survey made by F. J. Gibbons, Esq., dated 10th July, 1878, of record in the Department of Crown Lands, and portion of water lot 25, containing at least one acre, and situated in the Township of Scarborough, Ontario; and also the westerly half of the easterly limit of the westerly half of the said Victoria Park, containing by admeasurement 15 minutes west along said water's edge 2 chains and 30 minutes, and east along said water's edge 5 chains, more or less; to the westerly limit of said westerly half of said Lot 35, Concession A, of the Township of Scarborough; thence south 13 degrees east along the production of the westerly limit of said Lot 35, 7 chains and 30 minutes, and 10 minutes east; thence south 83 degrees west along a point distant 7 chains and 30 minutes from the westerly limit of the easterly limit of the westerly half of said Lot 35 from the point of commencement; thence south 83 degrees west along said westerly limit produced 7 chains to the point of commencement, all as more particularly described in the Vendor's Statement of the 1st of February, 1879.

Thirdly—Commencing at the northwest corner of the said Victoria Park, where it intersects the south limit of Queen-street; thence westerly following the south limit of Queen-street to the middle line of the allowance for road formerly adjoining said Victoria Park property on the west; thence south along said middle line to the water's edge; thence in an easterly direction along the water's edge to the westerly limit of said Victoria Park property hereby conveyed; thence northerly and following the westerly limit of said Victoria Park property to the place of beginning.

The property in question is vacant land situated a short distance from the westerly limit of the City of Toronto, immediately south of Queen-street, fronting on Lake Ontario, and is said to contain at least one acre and a half, together also with the water lot in front thereof, extending into the lake a depth of 7 chains, and a frontage on the south side of Queen-street in the neighborhood of 600 feet, and extends southerly from Queen-street to the water's edge, and is an excellent property to subdivide into building lots, because of its splendid situation and water frontage.

The property will be offered for sale in one parcel, subject to a reserve bid and to prior right of purchase by the BAIN, and due as of June 9th, 1906, \$117,000.00, and which lien or charge the holders have agreed to discharge by the date of payment of the interest to date of payment.

Terms of Sale—Ten per cent, of the purchase money to be paid to the vendor's solicitors at the time of sale, and the balance within thirty days thereafter. For further particulars and conditions of sale apply to—

MASONIC TEMPLE IN NORTH.

Ashlar Lodge to Build Commodious Home for Craft.

There is a strong probability that the Masonic fraternity will seek another home on the expiration of the lease of two floors of the Temple Building. Ashlar Lodge is about to erect a temple at the corner of Yonge-street and Davenport-road, and it is expected that some of the lodges now meeting in the Temple will take quarters in the new building. The project on foot for some months, for the erection of a downtown Masonic temple for the whole craft, has been abandoned. Ten blue lodges and several chapters meet in the Temple, and the Masonic Hall Trust is making an effort to have these lodges renew the lease for ten years at an increased rental. It is understood that five blue lodges have agreed to renew, one lodge will renew on condition that certain improvements be carried out in the present lodge-room, while Rehoboth Lodge has refused almost unanimously to authorize its representatives on the hall board to renew.

A Magnificent Showing.

Mr. F. X. St. Charles & Co., agents for Canada of the firm of "B. Leon Croiset," have lately shipped to White Horse, Yukon Territory, another consignment of B. Leon Croiset vintage of 1890, at \$65.00 per case. This is the third shipment of its kind that has been forwarded to the Yukon for Dawson City. (The same quality which is used at the Elysee, in Paris, by the President of the Republic.) Mr. Ychaussant, representative of the firm of B. Leon Croiset, at present in Montreal, intends shortly to take a trip to the Yukon, in view of advertising the finest brands of brandies.

Cheaper and Just as Good.

A suit between George Gouinlock and the Ralph Clark Co. was summarily disposed of by Judge Morson in division court yesterday, who awarded the architect \$75 on a disputed claim of \$30. Ordinarily such cases would go before a high court, but the difference in fees—it would have cost about \$700 in the high court, while the division court cost \$6 in fees and about \$20 to lawyers—attracted the litigants.

More Land for Fruit Farm.

F. Rittenhouse, a Lincoln County "old boy" who has made millions in Chicago, and who some time ago presented a fine school to his native village of Jordan, and more recently an experimental fruit farm to the provincial government, has purchased the fifty acres of Oscar Harris of St. Catharines, and makes it an additional present.

Bishops Returning.

London, June 8.—(C.A.P.)—The Bishop of Quebec sailed yesterday on the Victoria; the Archbishop of Rupert's Land by the Dominion liner Canada.

THAT OVERWORKED, PLAYED OUT FEELING AMONG WOMEN

There are thousands of females all over our land who are broken down in health and dragging out a miserable existence, overburdened with disease peculiar to their sex, apparently growing old while yet young. Often they have pale or sallow complexion, hollow, sunken eyes, with a lifeless look; the face has a pinched and haggard appearance; they are weak, weary and trembling, often extremely nervous, starting at every little noise. Many are apparently bloodless, with cold hands and feet, while others are flushed by an unequal circulation of the blood, dizziness, and sometimes dizziness of vision, loss of memory, and often loss of appetite and sleep, and are worried with terrible dreams. Palpitation of the heart, nervous prostration, smothering and sinking spells, shortness of breath and the sensation of pins and needles are all indications of a weakened condition of the heart or nervous system, and should any of them be present we would strongly advise the use of

MILBURN'S HEART AND NERVE PILLS

They bring health to the broken down, energy to the weakened constitution, tone up the tired, overstrained nerves, and strengthen the weak heart. Mr. Edward Jackson, Hall's Bridge, Ont., writes: "For a year I was greatly troubled with nervousness and loss of appetite, and could not sleep at all. After taking a few boxes of Milburn's Heart and Nerve Pills I was completely cured and can recommend them to all sufferers. Milburn's Heart and Nerve Pills 50 cents per box or three boxes for \$1.25, all dealers or The T. Milburn Co., Limited, Toronto, Ont."

PROVINCE MUST GIVE BACK THAT WHICH LEGAL INSURANCE

Ex-Premier Ross Denies Any Agreement, But Suggested That a Settlement Be Made.

In the non-jury assizes yesterday Justice Teetzel ordered that \$11,200.00 be paid by the Ontario government to Mrs. McDougall, widow of the late Alfred McDougall. The sum represents two insurance policies which were assigned to government on representations alleged to have been made by Hon. G. W. Ross that McDougall would not be presented for his delinquency. There was \$16,681.07 realized on the policies, the government paying \$451.04 in premiums and lapses. The balance, \$12,230.03, goes to Mrs. McDougall. The government have \$2906.78 of this, and the balance is in court.

Mrs. McDougall declared that, before she was suspended, her husband had asked that she make over the policies, but she had refused. Afterwards her brother, Dr. Ogden, had given an undertaking that there would be no prosecution if the assignment were made, and it was done.

Mrs. McDougall said her father and Dr. Ogden had led her to believe they had seen Mr. Ross. Hon. Mr. Ross is in Mt. Clemens for his health, but a special commissioner last Monday secured from him an affidavit in which he denied making any agreement with anybody, or agreeing to agree that there would be no prosecution if the policies were assigned to the government. In view of the unfortunate condition in which the father were, thru no fault of their own, he would suggest that a settlement be arrived at favorable to them.

ITALIANS WRECK LAUNDRY.

Mother Leads Mob Against Chinaman Who Shoots Child.

New York, June 8.—Angered by the persistent annoyance and persecution of a number of small boys, Chin Lou, the proprietor of a Chinese laundry on Second-avenue, fired one shot from a revolver at some boys last night. The bullet struck and killed a three-year-old boy who was playing in front of her residence, across the street. The shot entered under the child's arm and did not inflict a serious injury. Infuriated by the shooting of her child, the mother, accompanied by a number of other Italians, rushed into the laundry and stabbed Hue Fong, an employe of Chin Lou. The Italians wrecked the laundry and tore up shirts, collars, cuffs and under-wear until there was hardly a whole garment left.

THE HEIGHT OF ACCURACY.

Marvelous Instruments That Measure Electricity. The meters, which measure the flow of electricity into homes and business houses, must be the perfection of accuracy. The variation of a hair's breadth means a loss either to the consumer or the company supplying the power. The days of the flat rate are over. The metered service is the only equitable one. The Montreal Light, Heat and Power Company, owing to the rapidly increasing number of homes, office buildings and factories using electricity for illumination and power, have just ordered two thousand one hundred (2100) Westinghouse Wattmeters. This company have, perhaps, the largest list of customers of any in the Dominion. After exhaustive tests, their choice of the Westinghouse Wattmeter is the best commendation of their accuracy.

Rosedale School Concert.

A large and appreciative audience attended the physical culture and kindergarten entertainment given by the pupils of Rosedale school in St. George's Hall last night. The kindergarten drills, particularly "The Birth of the Butterfly," and "The Songs of the Seasons," were very beautifully carried out under the direction of Miss Bell, the kindergarten dressmaker. The elder pupils, who have just finished course of physical culture under Miss Jessie Carter, gave an exhibition of the strenuous Roman and Greek athletic exercises, which showed excellent physical results, and in the closing tableaux were beautiful. Recitations and songs extremely well given by the pupils assisted in affording a most enjoyable evening.

C. E. A. Convention.

Niagara Falls, Ont., June 8.—The annual convention of the Canadian Electrical Association will be held at Niagara Falls, N.Y., on June 19, 20 and 21. It is expected that five hundred delegates will attend. A feature of the meeting will be the addresses and papers by eminent electrical engineers of the United States.

Customs Appointment.

Niagara Falls, Ont., June 8.—James P. Coan of Thorold has been appointed a permanent customs officer at this port to fill the vacancy on the staff caused by the transfer of Officer J. C. Bartle to Ottawa.

More Land for Veterans.

Six townships have been set apart by the Hon. Frank Cochrane in Algoma, above Chapleau, a divisional point on the C.P.R. west of Sudbury, for the filing of veterans' land grants. The townships are D'Arcy, Chewett, McCormac, Boardman and Gemeny. Cochrane, a new municipality in Nipissing near the north channel of Lake Huron, is also set apart for the same purpose.

Provincial Appointments.

The following appointments have been made by the attorney-general's department: P. Mulvihill, Upper-governor clerk of the seventh division court, Ontario, vice R. L. Gaughan, resigned; J. W. Dealy, Senora, clerk of the first division court, Rainy River district, vice P. Clark; Wm. Sharpe, Durham, bailiff of the second court, Grey, vice Jas. Carson, resigned.

SUICIDE FROM TERROR.

Hunted Round the World by Former Nihilist Comrades.

The mystery of the Pimlico suicide is at last solved, and the story of the unfortunate woman who took her life is one that may well figure among the most sensational of the criminal chronicles of the world, writes a Paris correspondent. The real name of the woman who called herself "Marie Derval" was Helene de Krebel. She was 37 years of age, and belonged to a good Russian family. She was deeply interested in the freedom of the Russian people, and about three years ago became an active member of the Russian revolutionary party. Unfortunately, she fell in love with one of the leaders of the party, and after living with him for a brief period, she was deserted by him for another woman. Helene de Krebel, maddened by jealousy, vowed vengeance on her betrayer, the police man, and on all connected with them. In pursuance of her plans for vengeance she went to the Russian police and sold to them a number of the secrets of the revolutionary party. This occurred about two years ago. Immediately afterwards she fled from Russia and went to the United States. She had not been there more than a few months before news reached her that she had been condemned to death by her former comrades in the Nihilist movement. Paris-stricken, she left America for England, went to France, and returned to her native land, living the life of a wandering Jewess, or of a female Orestes, pursued not only by the furies of remorse, but also by those of terror. Seven months ago Helene de Krebel came back to Paris again, and took up her residence in a little house in the suburb of Neuilly, where she and her people and lived very quietly, altho she was known to have plenty of money. Money is still lodged in her name in a Paris bank, as a considerable quantity of valuable jewels. She was a very reserved woman, and spoke very little to anyone. About nine weeks ago her maid brought her a letter with a Russian stamp. Immediately she saw the handwriting on the envelope she became very agitated and screamed: "All is over now, but my life shall not be theirs." She went to her writing-desk and wrote a hasty note to one of her relatives in Russia, and told her very few people and lived very quietly, altho she was known to have plenty of money. Money is still lodged in her name in a Paris bank, as a considerable quantity of valuable jewels. She was a very reserved woman, and spoke very little to anyone. About nine weeks ago her maid brought her a letter with a Russian stamp. Immediately she saw the handwriting on the envelope she became very agitated and screamed: "All is over now, but my life shall not be theirs."

DR. PIERCE'S FAVORITE PRESCRIPTION FOR WEAK, OVER-WORKED, DEBILITATED WOMEN.

Say They Are the Important Matters—Board of Control—City Hall Notes.

The mayor said yesterday that he had written to the city engineer regarding the disgraceful condition of the roadway on Manning-avenue, just north of Queen-street. He had just driven over it and felt considerably jolted. The mayor on his little drives around town notices things and is continually reporting them to the heads of the various departments. Whether he follows it up to see whether action is taken dependent on the report. However, he is very careful regarding the little matters which, combined, make big things in the interest of the city. Leaving it Too Long. There is not yet an appointment to the commission of industry. Controller Jones tried to force the board of control to discuss a recommendation yesterday morning, but Controller Ward argued that it was too late to get the matter in proper shape before the next meeting of council. Controller Jones fought the contention and said that if the board did not want to make a recommendation they should say so, and did not want to be compelled to introduce a motion in council. It was definitely decided to deal with the matter next Wednesday.

DR. O. IS FOUND GUILTY.

Sancti-tewann Official Let Go on Suspended Sentence. Prince Albert, Sask., June 8.—Jas. Sinclair was convicted last night on the charge of conspiracy to stuff the ballot boxes in recent provincial elections. Sentence was suspended, and Sinclair was released on his own recognizance. The other three deputy returning officers were not present, and their whereabouts are unknown. The defence did not take the stand. The case came up before Justice Prudergast and a jury on Wednesday. The accused was returning officer in the recent Prince Albert district election for the provincial legislature. The case opened with Mr. Turgeon, crown prosecutor, acting for the crown; A. E. Doak of Prince Albert, and Mr. Ellsworth of Mooseomin for the private prosecution; H. E. Ross of Prince Albert and Norman Mackenzie of Regina for the defence. The accused pleaded not guilty. Mr. Mackenzie objected that the charge was not laid in the proper court. It should have been tried before two magistrates, and was not a case for the supreme court, being political rather than civil or criminal. Mr. Ellsworth contended that the charge was properly laid, and should be proceeded with. His lordship held that the case had proceeded too far to entertain objections, and it was a proper case for the crown to take up. Mr. Donaldson, provincial right candidate, testified to having received a registered letter on Dec. 3 from Sinclair, the accused, informing him of the granting of three northern polls. This letter was mailed at Shellbrook, 35 miles west of the place named, and sent to Regina. The Simpson Company have proposed to add to the street a strip of land, over which a building supported by pillars will be erected. This means that the wagon will be under a sort of archway on the street.

James St. Extension.

Once more the board of control has wrestled with the James-st. extension, and it was finally decided that the assessment commissioner prepare a plan showing a street 66 feet wide from Queen to Richmond. The Simpson Company have proposed to add to the street a strip of land, over which a building supported by pillars will be erected. This means that the wagon will be under a sort of archway on the street.

HEADED FOR THE WEST.

Three Boys From Toronto Headed Off at the Falls. Niagara Falls, Ont., June 8.—Three runaway boys from Toronto were captured here by United States immigration inspectors as they attempted to cross the lower steel arch bridge. Their names are Edward Williams, aged 13 years; Albert Summerfield, aged 15 years; and John Smith, aged 14 years.

Chase Casgrain Injured.

Montreal, June 8.—Thomas Chase Casgrain, K.C., ex-M.P., one of Montreal's leading lawyers, is laid up with a broken bone in his foot. He fell down stairs last night, and as a result suffered so much pain with his foot that this morning he submitted to X-rays at Hotel Dieu, where the fracture was discovered. He will be laid up for some time.

The Watch-Dog in your Vest Pocket

YOU can buy Health Insurance now.

Several good "Accident" Companies sell it.

Sixty dollars per year will bring you \$25.00 per week, for every week you are Sick.

But, your time alone may be worth far more than that.

And \$200 per week might not pay for your suffering.

That's why "Cascaret" Insurance which prevents Sickness, is worth ten times as much money as other "Health" Insurance.

Yet "Cascaret Insurance" will cost you less than Ten Cents a week.

That gives you a "Vest Pocket" Box to carry constantly.

"Indigestion" means food eaten but only partially digested.

"Constipation" means food retained in the body undigested too long, till it decays. It then supplies the poisons of decay to the system, in place of the nourishment it might have supplied.

Isn't that a tremendous handicap worth insuring against?

What does it cost to Cure Constipation or Indigestion, with their train of small and great ills, and to insure against a return of them?

Not so very much.

One 10 cent box of Cascarets per week, at most, perhaps half that.

One candy tablet night and morning, taken regularly for a short time, is warranted to cure the worst case of Constipation or Indigestion that walks the earth.

One tablet taken whenever you suspect you need it will insure you against 90 per cent of all other ills likely to attack you. Because 90 per cent of these ills begin

in the Bowels, or exist through poor Nutrition.

Cascarets don't purge, don't weaken, don't irritate, nor upset your stomach. No—they act like Exercise on the Bowels, instead.

They stimulate the Bowel-Muscles to contract and propel the Food naturally past the little valves that mix Digestive Juices with Food.

They strengthen these Bowel-Muscles by exercising them.

The Bowel-Muscles can thus, in a short time, dispense with any Drug assistance whatever.

The time to take a Cascaret is the very minute you suspect you need one.

—When your Tongue is coated a little.

—When your breath is not above suspicion.

—When your head feels dull, dizzy, or achy.

—When you have eaten too heartily, or too rapidly.

—When you have drunk more than was good for your digestion.

—When you have a touch of Heartburn, Gas-belching, Acid-rising-in-throat, or a Coming-on-Cold.

Carry the "Vest Pocket" Box where it belongs, just as you would your Watch, Pocket-knife or Lead-pencil.

It costs only 10 cents. At any drug-gist.

Be sure you get the genuine, made only by the Sterling Remedy Company, and never sold in bulk. Every tablet stamped "CCC."

A sample and the famous booklet "Course of Constipation," Free for the asking. Address Sterling Remedy Company, Chicago or New York.

12,000 LANGSHIRE MEN GO TO LONDON TO PROTEST

33 Special Trains Convey Mammoth Delegation Objecting to Educational Bill.

London, June 8.—Thirty-three special trains brought to London this morning 12,000 Lancashire churchmen to protest against the education bill. The protesters proceeded to Regent's Park, where they massed and, accompanied by bands of music, and carrying banners, marched thru the principal thoroughfares of the metropolis. The procession was headed by the Bishops of London and Manchester, and included many clergymen.

The chief resolution submitted to the meeting recorded an emphatic protest against the bill on the ground that it is destructive of all forms of religious instruction in the elementary schools, and contained the assertion that the only true safeguard of religious education in the schools is a continuation of the denominational schools.

The visitors for the most part were factory employes, forming a typical Lancashire crowd, but all classes were represented, and they all came at their own expense. Consequently the protest was more significant than most of such demonstrations.

VICTIMS OF WHITE DAMP.

Eight Taken From Mine Dead, Two Being of Rescue Party.

Anacosta, Mont., June 8.—One of the most serious accidents in the history of coal mining in Montana has occurred in the mines of the Northern Pacific at Rocky Fork.

Eight men are dead, all victims of the white damp that filled the corridors of the mine after the fire, which started on Wednesday. Of the dead, two were members of one of the parties that entered the mine in the effort to reach the men known to be there.

At 7:30 yesterday morning the first rescue party started down No. 6 incline, proceeding cautiously, as it was found that there were still traces of fire. When they reached a depth of 1200 feet all were overcome, but several managed to struggle back to where they could be reached.

LOAN COMPANIES' CAPITAL SHOWS LARGE REDUCTION

Amalgamation of Several Concerns Accounts for Decrease in Stock.

The annual report of the registrar of loan corporations has just been issued. There is a falling off of the amount of capital due to transfer of assets of a number of corporations to other companies. These amalgamations include: Assets of Canadian Homestead Loan, purchased by Standard Loan; Canadian Savings and Loan, amalgamated with Business and Erie Loan; assets of Chatham Loan, purchased by Reliance Loan; assets of Ontario Building and Savings Society, purchased by Colonial Investment and Loan Co.; Scottish American Investment Co., withdrawing from business in Ontario; Trust and Loan Co. of Canada, withdrawing from business in Canada. Comparative tables show the totals of liabilities and assets of the various companies at the end of 1904 and 1905 as follows: Capital stock, authorized \$112,535,571.28 for 1905, \$121,715,571.28 for 1904; subscribed capital (permanent), \$68,757,790.86 for 1905, \$74,589,994.15 for 1904; subscribed capital (terminating), \$7,275,460 for 1905, \$15,325,780 for 1904. The liabilities to shareholders are: \$64,491,210.55 for 1905 and \$65,805,527.43 for 1904; liabilities to public \$1,713,045.38 for 1905, \$1,848,419.19 for 1904; contingent liabilities, \$45,613,322.07 for 1905 and \$24,812,272.51 for 1904. The total assets for 1905 are \$189,818,178, and for 1904 \$171,966,429.58.

The receipts total: By corporations for their own use, \$110,423,034.52 for 1905, \$94,503,141.21 for 1904; received as trustees, \$72,955,643.70 for 1905, \$25,422,913.19 for 1904.

There was expended on corporation account in 1905, \$110,423,034.52, and in 1904, \$94,503,141.21; on trust account, in 1905, \$72,955,643.70, and in 1904, \$25,422,913.19.

Loans were written off in 1905 to the value of \$164,517.90, compared with \$358,849.09. The average rate of interest paid on deposits was 3.588, compared with 3.758 in 1904, and on mortgage stock 4.271 in 1905, and 4.296 in 1904. The average rate of interest on mortgages of realty was 6.0375, compared with 6.102 in 1904, and on securities 6.1025, compared with 5.859 in 1904. The number of mortgages enforced in 1905 was 248, and in 1904 212, with amounts aggregating \$459,419.53 in 1905 and \$345,936.21 in 1904.

The report notes several loan company amalgamations.

State Capitol Burned.

Baton Rouge, La., June 8.—The old historic state capitol building caught fire late last night. The principal cause of the fire was a gas lamp. Thousands of Baton Rouge citizens joined the firemen in an effort to save as much as possible of the structure and its contents.

The roof of the senate chamber fell in soon after the fire was discovered. The fire was checked after it had consumed almost the entire eastern half of the building above the first floor. Damage amounts to \$50,000.

I GIVE IT FREE

To Men Until Cured. Not One Penny in Advance or On Deposit.

I wish you could know for yourself the wonderful effect of the galvanic current on weak and nervous men. I wish you could realize the health and happiness that will be yours when this wonderful force infuses every nerve and vein of your body as accomplished through my treatment. I have been curing thousands every year for forty years, and have proved that my method will cure any curable case. So positive am I of my power that I am prepared to take all the risk and will give to any man suffering from Nervous Debility, Varicocele, Brains, Lack of Vigor, etc., from Rheumatism, Lame Back, Kidney, Liver or Stomach Troubles, the use of my world-famed Dr. Sanden Electric Belt, with Electric Suspensory, absolutely FREE UNTIL CURED. If I fail you don't pay me anything whatever. I leave you to be the judge and ask not one penny in advance or on deposit. I cannot do more than this to prove the value of my treatment, so if you will call or write I will at once arrange to give you a Belt suited to the requirements of your case, and you can pay me when cured. Many cases as low as \$5.00, or for cash full wholesale discount. You will also get the benefit of the inestimable advice my forty years' experience enables me to give my patients. This long continuous success has brought forth many imitators. Beware of them. You can try the original, the standard of the world, free until cured, then pay for it.

Call to-day and take a Belt along, or send for one by mail. I have two of the best books ever written on Electricity and its medical uses, and containing several hundred wonderful testimonials, which I also send free, sealed, by mail. Address

Hart graduates first in classics and W. S. Wallace, first in English (classical option); W. A. Rae gets first place in classics in the third year, completing a continuous chain of three firsts in classics for Harbord; G. A. Urquhart, a nephew of the ex-mayor, gives promise of following in his uncle's footsteps by winning first place (equal with J. T. Shirett) in political science.

GIVEN UNIVERSITY HONORS

AT NEW CONVOCATION HALL

Annual Ceremonies Made More Notable by Surroundings—Premier Whitney's Part.

Addresses full of hope and confidence in the development and progress of Toronto University, under the methods of reorganization adopted, were given at the annual convocation held yesterday afternoon.

The event was a notable one, apart from its following closely upon important provincial legislation affecting the university, inasmuch as it marked the opening of the new convocation building. Uncompleted the situation is, making necessary the hurried improvising of seating accommodation within the building, the ceremonies were conducted fortably in the presence of the largest assembly that has ever gathered at a university convocation in Toronto.

Dr. Hoskin made warmly congratulatory remarks upon the successful outcome of the university's efforts of members of the government, the board of trustees and alumni association. All these bodies had lent a willing hand towards the creation of a grand and splendid convocation hall. Its opening marked the inauguration of a new order of things and he hoped the university would make even more splendid progress in the future.

THE BIRTH OF A NEW CITY.

Great Activity at Kaitia Island. Prince Rupert, the new city of North-western British Columbia, and the Pacific Coast terminus of the Grand Trunk Pacific, has indeed begun, and the foundations are laid of the coming metropolis of the western province of the Dominion. The camps of the surveyors, both those of the Dominion and the Grand Trunk Pacific Railway Company, are pitched on and near the future city's boundaries.

It Heals the Lungs.

most orator of the Methodist Church, and a warm friend of higher education in Canada. Premier Whitney was given a cordial reception, and was invited to introduce for the honorary degree of LL.D. J. W. Flavell, Byron E. Walker, D. C. L., Rev. H. J. O'Connell, M. A., Rev. Donald Bruce, M. A., and Rev. H. U. Colquhoun, M. A., members of the university commission.

The proceedings opened with introductory remarks by the chancellor, who alluded to the presence of a peculiarly happy and auspicious day, since it was the first time that a convocation had been held within the new walls, towards the creation of a grand and splendid convocation hall. Its opening marked the inauguration of a new order of things and he hoped the university would make even more splendid progress in the future.

WOMAN'S WORLD

A Popular Visitor.

Captain Harry Graham is to be the guest of his excellency the governor-general in Ottawa next week. Captain Graham has many friends in Canada, made while he was aide-de-camp to the Earl of Minto. On the other side of the line he was well known under his pen-name, Col. D. Screamer, a pseudonym attached to several volumes of topical poems, and to numerous similar contributions to American magazines. He was also in the public eye for a time as the fiancee of Miss Ethel Barrymore, but the engagement was broken some little time ago.

An Interesting Engagement.

Canadians learn with interest of the engagement of Lord Harewood, eldest son of Lord and Lady Aberdeen, to Mrs. E. S. Cockayne, whose first husband was the leading physician in Sheffield, Mrs. Cockayne who has for some years been a friend of the Aberdeen family, is a great-grand-niece of John Bunsby.

The Summer Wrap.

Few women can afford to indulge in three or four wraps to supplement their outdoor attire, but one good, light summer coat, which will wash or clean successfully, is a possession which would be well worth the cost. This season Tussore silk coats come first in favor, and answer all purposes, possessing a certain amount of warmth, and being a large part in managing the extensive and very valuable estates of his father, who holds that all his sons should become practical men in the affairs of life.

Canned Pineapple.

Cut fine or sliced silver fork, pineapple, make five pounds. Wash and cut as for stewing one pound rhubarb. Over the pineapple pour one-half pint of cold water, add three or four whole lemons, and three or four stalks of celery. Let the pineapple boil half an hour and stew the rhubarb until it divides. Drain the liquid from the pineapple, add three or four stalks of celery, and three or four stalks of celery. Let the pineapple boil half an hour and stew the rhubarb until it divides. I HAVE RECEIVED INSTRUCTIONS TO CLOSE OUT 200 CHOICE BUILDING LOTS, SITUATED IN THE CITY OF BRANDON, MAN., THE GREAT WHEAT CITY OF THE WEST.

These lots are situated in a most desirable location on high ground overlooking the beautiful Assiniboine River and Assiniboine Valley, and in one of the healthiest and most beautiful locations in the whole city, only fifteen to twenty minutes' walk from the heart of the business centre.

The purchase of these lots must prove a profitable investment, for with the inevitable growth and prosperity of Brandon they must necessarily increase in value very rapidly.

This is a good opportunity for small or large investors. Many have become wealthy from the enhanced value of lots purchased in such a progressive city as Brandon.

AS A RAILWAY CENTRE

Brandon's geographical position is remarkable because it is the centre of the great stretch of wheat land. It is for this reason that Brandon is already such an important railway centre.

Also, that Brandon has practically doubled in importance as a railway centre in the last two years on account of the further extensions of the C. P. R., situated, as the city is, on the main line of the C. P. R., over which there are 24 passenger trains per day running into Brandon. Eleven branch lines are now running into Brandon. The North Manitoba, the Northwestern and Minnedosa branches, the Hamilton Line and the new Forest extension lead directly into Brandon.

The Canadian Northern, from Winnipeg to Brandon; the Canadian Northern, from Brandon to Neepawa; the Great Northern (the great James Hill road), which is now graded into Brandon from St. John, North Dakota, will have trains running into this city this season, it is expected.

The Grand Trunk Pacific, which is now under construction, goes into Brandon. Therefore, through all these railways converging to this city, it is made one of the greatest railway centres of the Northwest.

You should take advantage of this sale. Attend, buy five or ten lots. Value of property in this city has increased over 500 per cent. in the last three years.

There is no investment on the market to-day that equals this proposition. It appeals to the public in all walks of life. Proposed new street railway will run to this property.

Small investments now will bring big profits later. The population of Brandon in 1901, 5549. The population of Brandon in 1905, about 13,000.

The surest way to determine what is the conservative opinion being formed as to the probable prosperity of this city is that of our chartered banks.

The great banking institutions of Canada, realizing the commercial future and importance of Brandon, have established the following branches: The Bank of Montreal, the Merchants' Bank of Canada, the Canadian Bank of Commerce, the Imperial Bank of Canada, the Dominion Bank, the Bank of Hamilton, the Bank of British North America and the Northern Bank. The Hochelaga and Union banks propose establishing branches there this year.

Start now and take advantage of this proposition and secure lots, if only a single lot; buy it and get on the ground floor.

Three years ago this Thomas Shaughnessy, president of the C. P. R., while addressing the City Council, said he was really realizing more and more the importance of Brandon as a distributing point, and the C. P. R. had decided to extend their lines, their station and build an extension to the freight shed, and make this a divisional point. All this has been accomplished last year, the yards have been extended, station enlarged, new freight sheds have been built, and roundhouse, new stock yards and the overhead bridges completed.

The preceding are only a few of the many evidences ensuring Brandon's prosperity and progress.

A MODERN MEDICINE.

HASTE TOWARDS REFORM FUNNY IF NOT SO TRAGIC

Report to President Roosevelt Shows Packers Busy Carrying Out Reforms.

Medicines of the old-fashioned kind will sometimes relieve the symptoms of disease, though they can never touch the disease itself—they never cure. Ordinary medicines leave behind them indigestion, constipation, nausea and headache, purgatives leave the patient feverish and weakened. Dr. Williams' Pink Pills, on the other hand, do direct good to the body, blood and nerves. They fill the veins with new, rich, red blood; they trace the nerves; they drive out disease by going right to the root of the trouble in the blood. They always do good—they cannot possibly do harm. Mrs. Geo. Henry, Sixty-five, Ont., says: "It is with thanks that I tell you that Dr. Williams' Pink Pills have cured me after my doctor had said it could not be cured. I suffered from an almost constant fluttering of the heart, and sometimes severe pains. The least exertion would leave me breathless and tired. My appetite was poor and my head ached nearly all the time. I had lost all ambition to do any work and felt very hopeless. I had taken a great deal of medicine without any benefit, until I was advised to try Dr. Williams' Pink Pills. These have made a remarkable change in my condition, and I am feeling better than I have done for years. I gladly give my experience in the hope that it will benefit others. It is now, Dr. Williams' Pink Pills build up strength as they did in Mrs. Henry's case in just one way—they actually make new blood. That is all they do, but they do it well. They act on the bowels; they don't bother with mere symptoms. They go right to the root of the trouble in the blood. That is why these pills cure anaemia, headache, heart palpitation, indigestion, kidney trouble, rheumatism, lumbago, neuralgia, St. Vitus' dance, paralysis, general weakness, and the special ailments of growing girls and women. But you must have the genuine with the full name, Dr. Williams' Pink Pills for Pale People, on the wrapper around every box. Sold by all medicine dealers or sent by mail at 50 cents a box or six boxes for \$2.50 by writing the Dr. Williams Medicine Co., Brockville, Ont.

DR. REAUME'S CONDITION.

Windsor, June 8.—Hon. J. O. Reaume is still at the Hotel Dieu. He is very anxious to resume his public duties, and his impatience has not hastened his recovery. He hopes, however, to leave the hospital for his home in a day or two. Not only has his general health been shaken and his strength impaired by the severe ordeal through which he has passed, but conversation is both painful and exhausting, as well as detrimental to the healing of the wound left by the operation.

Sympathy for Oppressed.

Chicago, June 8.—The final session of the twelfth annual convention of the Congress of Religious took place yesterday. Resolutions were adopted, expressing sympathy for the persecuted Jews of Russia, and the natives of the Congo Free State in Africa, pledging the co-operation of all denominations to effect the suppression of all such abuses.

ULTRA VIRES TO BE HONEST SAYS C.P.R. ABOUT G.T.R.

More Argument Over Division of That Western Tract of Land—G.T.R. Claims Necessity.

The suit of the C.P.R. to compel the G.T.R. to divide the 17-plus acres of land near the Central Prison, bought by the latter railway in 1903 from the Ontario government, was concluded before Justice Teitel yesterday, who reserved judgment.

Mr. Armour, for plaintiffs, declared that, to show that the whole of the land was not necessary to the G.T.R., there was a letter from Mr. Hays offering the northern half, but the C.P.R. claimed that they were entitled to one-half share of the street frontage.

Supt. Brownlee of the G.T.R. gave evidence to show that the land was required by the G.T.R., which was short of tracks through the western part of the city.

The property adjoining and surrounding the land in question had also been bought by this company, Mr. Brownlee said. It was the intention to build sidings and storage tracks on this property. He had strongly urged the buying of property in the west end of the city ever since he became connected with the G.T.R.

"These lands won't be used, will they, for track purposes till your scheme for the west has been completed?" asked Mr. Armour.

"It is necessary now. If we had the time and material we would go ahead now," replied the superintendent.

"When do you think it will be necessary for storage tracks?"

"By the middle of August it should be ready for coal."

Manufacturers and consumers then placed their orders. Between 400 and 500 cars were received daily at the front and storage tracks were needed. During the last five years, since he became connected with the road, coal had been stored at sidings at the exhibition grounds at Hamilton, at Merritt and at Port Erie.

Mr. Armour argued that there was a well-defined arrangement between the general managers of both roads as to the division of this land, and an arrangement for a specific division. No attempt was made to upset the arrangement till Mr. Hays took charge of the negotiations.

"The whole of this land was not necessary for your purpose at that time," said Justice Teitel to Mr. Cowan. "You don't even go that far to-day."

"The only way we can acquire property not necessary for purposes of the railway is for the whole to be acquired in order to get the part which is required," was Mr. Cowan's reply. If a railway company acquired property which is necessary for purposes of the railway, not necessary when acquired, but subsequently becomes necessary, then that property cannot be conveyed.

Mr. Cowan contended that no railway official not a director of the company could agree to convey land.

"Do you mean to say," asked the court, "that Mr. Hays, as general manager, could not make a contract binding on the Grand Trunk Company, if he were manager and not a director?"

"No court can take cognizance of a bargain such as made by one corporation with a rival corporation against each for the purchase of public lands," was Mr. Cowan's reply.

"My learned friend's argument," said Mr. Armour, in reply, "is the best reason for the statement that corporations are absolutely without any conscience. Is it legal for a railway to fix its lands that it can't carry out its agreement? Is it ultra vires to be honest? Can my learned friend plead that it is not in his charter? His defence may be legal, but it is dishonest from the point of view of morality," observed Mr. Armour.

These are Solid Reasons Why You Had Better Buy Your Automobile from Us

One Reason is This— The twelve makes of automobiles we sell represent a selective process which has considered every motor car in the world's markets.

Another Reason is This— Every car we sell, WE sell. Therefore, if ever it is required (as with the finest car it is now and then required) that the maker fulfil his guarantee to the buyer, then your recourse is to us. So that the automobile we sell carries a double guarantee—our own added to that given by the maker. But it is to us you look to make good both guarantees. You look to us, here on the ground, close by,—not to a maker perhaps in France or England or Italy—neither to a maker's branch manager, who must refer your claim or protest to some remote headquarters, perhaps abroad. You look to us—we safeguard your purchase. You cannot know beforehand how much that means to the automobile owner—but you may take our word for it that it means a great deal in mere everyday convenience, quite apart from the fact of the double guarantee. And isn't that double surety worth buying? Isn't it, when you need pay nothing additional to get it?

And Here's A Third Reason— No matter where you travel in Canada, we have a business connection, either a branch headquarters of our own or an agency controlled by us, somewhere near you. That means not only a local source of supply for your motor car needs,—it means that you are never remote from a place directly interested in seeing to it that your car runs satisfactorily and suits you perfectly. It means a responsible somebody directly at your command,—a somebody easily accessible and actively and constantly interested in maintaining our reputation with you and the reputation of the car we sold you. Practically, our branches and our agency connections localise our business to all Canada. Each of the branches carries repair parts and accessories, and each is manned by skilled experts. And our branches and agencies are conducted upon the policy that the man who buys a car from any one of our connections must be taken care of by every one of our connections. When you consider that no other concern in Canada can promise you any such thing, doesn't it seem that our way is a good way for you?

ARM AND DRILL WORKMEN.

Emisaries Sent out to Incite Land Hungry Peasants to Violence.

Moscow, June 8.—There is a noticeable increase in revolutionary activity here, and it is evident that the leaders are preparing to take advantage of the first opportunity to start an armed uprising. The workmen of the factories and mills are being systematically armed with Mauser rifles and drilled under the supervision of army reserve soldiers.

In spite of the repressive measures adopted by the authorities, revolutionary meetings are held nightly in the industrial sections. The leaders appear to be confident that the morale of the troops of the garrison is undermined, as they have received from some regiments promises of support in the event of a conflict.

Revolutionary emissaries have been sent out in all directions into the country to incite the land-hungry peasants to appropriate land and strike on the big estates. The plan evidently is to secure unity of action in the country and cities and inaugurate a strike with a general strike.

The leaders evidently hope for a complete rupture between the government and parliament which would furnish the necessary opportunity for an uprising. The situation has greatly alarmed the big landowners of Moscow, and the big landowners of the country.

A Splendid Picture.

The Toronto Art Museum is to be congratulated on the acquisition of Mr. E. A. Hornel's splendid picture "The Captive Butterfly," which attracted so much attention at the recent exhibition of the Glasgow School of Painters. It was acquired through the generosity of Mr. Byrham Walker, the president, who would furnish the president with a rival set of art lovers for the sum of \$750. Mr. Hornel's undoubted genius has received recognition on both sides of the Atlantic—the Buffalo gallery having bought two of his works, and the gallery of Edinburgh, Glasgow, Leeds, Bury, Bradford and the Walker Gallery at Liverpool being also purchasers of the examples of this master. Pending the erection of an art museum, "The Captive Butterfly" is on exhibition at the galleries of Thornton, Smith & Co., 11 West King, where the public is cordially invited to inspect it. A considerable number of copies have already been promised towards the erection of an art museum in Toronto, and already many valuable pieces and paintings have been bought.

LAST CHANCE FOR PASTORALS

Ben Greet's Co. Give Their Final Performances To-Day.

To-day at Toronto University Ben Greet and his company will make their farewell appearance in Toronto for a considerable time, as Mr. Greet's plans for next season do not contemplate including Canada by his itinerary. "Twelfth Night" this afternoon at 8 o'clock and "Much Ado About Nothing" this evening is his program. These two plays represent the maturity of Shakespeare's genius, both being written about the year 1600. In "Twelfth Night" Mr. Greet gives a remarkable representation of Malvolio, Miss Scott being Olivia and Miss Thorncliffe Viola.

As Saturday is a school children's holiday a special rate for children at the afternoon performance of 25 cents has been made.

In the evening Mr. Greet plays Benedick in a manner which demonstrates the marked versatility of the actor, who will play Caliban one evening. Bottom the next and Benedick the next.

The weather promises to be fine and warm, and the recollection of the past weeks will linger in the memory of all who see them.

LONG TERMS FOR HIGHWAYMEN

Sentences of 3 and 5 Years Imposed—A Charge of Bigamy.

Douglas Dyson, for highway robbery in Stanley Park and shooting at a G. T. R. constable, was yesterday sentenced to five years in Kingston Penitentiary on each charge. He is a young man and took his sentence hard.

James Douglas, for assisting in the hold-up, said "Thank you, sir" for a sentence of three years.

John Manser, arrested for non-support, will face a charge of bigamy. It is said he married Mary Anne McPhillips in 1898 and Isabella Robinson in March last. The second wife, who laid the non-support charge, was also taken into custody on the bigamy charge, as having been aware of Manser's previous marriage.

Quon Chin was fined \$75 and costs for breach of liquor laws.

TIME LIMIT FOR BRANCHES

Ottawa, June 8.—The railway commission spent the morning considering the Grand Trunk Pacific branch line company bill.

Clauses relating to caving vessels, wharves, wharfage appropriation, hotels and restaurants, parks, telegraphs, telephones, cables, televisions, electricity, mines, bonds on handling, aid to settlers, obtaining mining rights, agreements with other companies, lodges, tolls and guarantee bonds by the Grand Trunk Pacific Co. were adopted with a few minor amendments designed chiefly to protect municipal right on the highways.

The most important amendment was made at the suggestion of Mr. Turfitt, who was backed up by the western delegation. It provides the various branch lines must be begun within two and completed within five years, and all branches not so begun and the right to be lapsed after the expiration of two and five years.

Undoubtedly Smallpox.

The Ontario Health Department has received information that several cases of smallpox have been under treatment in Seneca Township for six weeks. It was stated the other day that residents of the township believed the eruption to be Cuban itch, but the health inspector says it undoubtedly is smallpox.

ALL IN ORE.

The Manhattan-Nevada Strikes it Rich.

(Special to The Mining Reporter).

Manhattan, Nev.—The drift from the company shaft on the George group of the Manhattan Nevada Gold Mines is now forty-one feet, and the entire face of the drift is in ore of a high milling grade. The large black quartz ledge has not been encountered on account of the dip, but very high values are expected at the junction of these two veins. It is expected that the next five feet will bring the drift at the point desired.

HAMILTON'S FIRE DEPARTMENT

Regulations are Revised, But Chief Can't Discipline Men.
Hamilton, June 8.—(Special.)—The members of the fire and water committee were in session till midnight, revising rules and regulations of the fire department. There were 226 rules when the committee started, and they cut out about fifty of them.

They refused to give Chief TenEyck power to discipline or dismiss firemen. Rules requiring the men to spy on each other, and subjecting them to dismissal for incurring debts, and many other regulations were abolished. They will take effect at once.

"LIBERTY HALL" A SUCCESS.
A Finished Production Was Given Before Large Audience.

"Liberty Hall," the Toronto Press Club's play, was given its initial rendering last night before a large audience at Shea's Theatre. In every respect the production was a decided success, reflecting the highest possible credit on members of the cast, and those responsible for the staging and general details. The presentation of a number of beautiful bouquets to the ladies of the company was a most pleasing feature that evoked hearty applause. Another large audience is expected to-night, when "Liberty Hall" will be repeated.

As Mr. Owen, R. S. Pigot was at all times master of the part. His manner was easy, but never presumptuous, and in the tense moments his response to the demands was virile without over display of feeling. Douglas A. Paterson, as "Tommy," portrayed the part of the simple-hearted shopkeeper with a finesse of art that made the character live, move and have being at all times.

DUTY OF THE UNIVERSITY TO REALIZE EXPECTATIONS

Generosity of the Province Should Be Acknowledged by Greatest Effort.

Three hundred graduates in arts and medicine were the guests of the chancellor and senate of Toronto University at the commencement dinner held in the gymnasium last night.

At the guest table were: the chancellor, vice-chancellor, the president and council of the university, Dean Reeve, Thomas Hodgins, K.C., LL.D., Prof. Frisby, University of Washington; Judge Holcombe, Grand Rapids; Prof. Schofield, John King, K.C., A. H. F. Lefroy, J. M. Clark, K.C., and the faculty of University College.

Chancellor Macdonald proposed the toast to "The King."

In proposing the next toast, that of "The University of Toronto," the chancellor coupled the names of Thomas Hodgins, K.C., a graduate of fifty years ago, and Prof. G. Frisby of Washington, a graduate of sixty-three years ago.

To-day, he said, was the first convocation in the new hall, which when completed, would be a credit to the City of Toronto and the province at large. For a great number of years the university has been struggling for need of money, but in spite of this fact the work was done well.

The province had risen to an improved sense of its responsibility towards its great institution, which had shown itself in the action of the legislature during the past year. All parties have united in this great principle, with the result that last session a \$550,000 grant was made to the university. From now on the university had secured a good income. Commencing next month for the first year the university would get \$255,000.

A Duty.
"It is the duty of all of us," concluded the chancellor, "to show our appreciation of the people of this province and our determination to do everything to make this great university what the people desire it to be. I desire that there shall be unity between the colleges, the faculty and the students. Under the new order of things I hope the students will get together and place the university on the highest plane of efficiency."

In responding to the toast Mr. Hodgins referred to the day he graduated when there were only 27 undergraduates. He recalled the class, many of whom held the highest positions in their respective spheres to-day. He sketched the growth of the university and predicted a brilliant future.

Prof. Frisby told of the great success of the graduates of Toronto University in the United States, and based his remarks on the fact that he had received in Toronto forty-three years ago.

Toronto University had stocked the shelves of the new hall, and to-day were sending out a very high grade of students who held their own wherever they had gone. The university had undertaken a grand and best job for a brilliant future.

Dr. Worrell, K.C., referred to the great work of the university and predicted a brilliant future. It was their duty to see that the association prospered in Toronto, and that strong branches were formed in all the cities of the continent.

Looking Backwards.
T. A. Coyne of St. Thomas responded to the toast of the Alumni Association. He recalled the first meeting of the Western Association, held at London twenty-one years ago, at which the present chancellor was present. He recalled the growth of the university in a larger measure of what the founders had planned. The university was due in a large manner to the formation of the Alumnae Association, which was the beginning of greater things.

E. Guss Porter, M.P. of Belleville, brought the allegiance of the graduates of the Bay of Quinte district to the university. He said that the graduates were members of a body politic and should reach out to all parts of the world; wherever graduates, empire builders as they are, were, they should feel the kindly touch of their alma mater.

Principal Hutton proposed the health of the guests.

Judge Holcombe of Grand Rapids, Michigan, presided at the dinner. He had presided fifty years ago. He would make another prophecy. Fifty years from now there will be a university on the North Pole and trains running east and west from Siberia to Greenland. The funny thing about the university to-day was the union of Trinity and Toronto. He never had when he was a student, any use for Varsity students. They had no use for Varsity students. They had no use for Varsity students.

Prof. Ramsay Wright proposed the toast of the graduating class. On behalf of the graduating class of University College, A. Little, B.A., gave a neat speech.

frequent use of the words "strike-off." It was an offensive term. Nevertheless, Mr. Cochrane (East Northumberland) had occasion to use the term a few moments later.

"What do you mean?" demanded Mr. Gervais (Montreal).

"You ought to know," Mr. Cochrane retorted, "you have been defending scandals in the committee and we know that you would not do it without a reward."

Mr. Gervais refrained from stating that he hoped to become solicitor-general.

Reducing N.W.M.P. Force.
Sir Wilfrid Laurier relieved Mr. Broderick and put thru some estimates respecting the Northwest mounted police. He announced a reduction of the force in the prairie provinces and also in the Yukon.

Dr. Thompson (Yukon) protested against the government's system of bookkeeping, which charged against the receipts of that district a disproportionate share of the cost of maintenance of the N.W.M.P.

Mr. Lake (Quebec) complained of some political activity on the part of an inspector of the force at Regina, who acted as magistrate in a political case.

Sir Wilfrid Laurier expressed his regret. He had always impressed upon the force that the members must abstain from politics. He had commanded the inspector to at once resign as secretary of the Liberal Association, when he learned that he was acting in that capacity.

Mr. Turriff (East Assiniboia) claimed that the inspector was one of several who held the court, but there was an appeal from their decision.

Mr. Roche (Marquette) brought out

JURISDICTION OF KEEWATIN

Continued From Page 1.

The premier excused the action of the Dominion government in taking jurisdiction of Keewatin. There were no people there. The only jurisdiction was criminal jurisdiction. If some criminal had been there, should not the N.W.M.P. pursue him? Hence, a commission was given jurisdiction over it.

Dr. Sproule insisted that the school question under the matter.

Sir Wilfrid Laurier insisted that Keewatin was never held or hurt by the school laws of Manitoba. It never belonged to Manitoba. It was always federal property and subject to federal law. It could not affect the separate school question.

Dr. Sproule: We shall live to see.

Mr. Lennox (South Simcoe) sustained Dr. Sproule's contention.

Mr. Jackson (Selkirk) thought there was no danger to the Protestant religion from any schools in Keewatin. The total population of the district was 130. Within fifty years there could not be gathered together enough children to form one school. There were no schools in the district, and there never would be. It was a mere dream.

Mr. Lennox was not satisfied, but believed that there was some "skullduggery" behind all this. Why were we chartering railways for this country if no one could ever live there?

Dr. Sproule insisted on his position at some length, but the premier failed to reply.

Victoria, B.C., June 8.—(Special.)—The statement is made by intimate friends of Sir Henry Joly de Lotbiniere, now on his way to Quebec, his term as lieutenant-governor of British Columbia being completed, that the reason for the peremptory cancellation of all ceremonies in the nature of a public farewell was a dangerous stroke of apoplexy which his honor suffered, and which rendered any excitement dangerous in the extreme.

Queen's University.
The report of Queen's University, presented at the opening of the afternoon session, showed: The attendance at Queen's this year was 1942; and the general fund of the university's college fund \$3708.15. Some progress had been made towards raising the half-million endowment fund, which now totals \$28,000.

Rev. Robert Laird suggested that the church did not appreciate the magnitude and the importance of the undertaking. It was by the beginning of a great forward movement. The trustees were asking an additional \$308,000, but the church was in better condition to meet the demand than ever before. The field for Christian ministry in the west was growing daily, and it was desirable that the church keep in close touch with the university, for the west needed men as well as money.

J. K. Macdonald, Toronto, moved and reported, and Dr. McMullen seconded.
Church Union.

The Anglican deputation, headed by His Lordship the Bishop of Huron, visited the assembly for the purpose of support in the church union movement.

Bishop Williams said that the national church of Scotland and that of England stood for education, reverence, knowledge and sobriety, truth and righteousness. National life in Canada was now in a formative period, and if Canada was to be a great nation she must follow on the lines laid down by the motherland churches.

I am here to tell you that the Anglican Church is prepared to discuss religious union. (Prolonged applause.) The subject of Christian union was first brought forward by the Anglican Church at their conference in Toronto. I am sure that we of the Anglican Church are with you in healing the breaches of the church of Christ.

"The most friendly farmers are those who keep their fences up," he said.

CUBA -- THE LAND OF SUNSHINE

CANADA-CUBA LAND AND FRUIT COMPANY, LIMITED

\$25 PER ACRE

The company's estate covers over 140 square miles of the best fruit, vegetable and tobacco lands to be found, and is now under the able management, in Cuba, of Mr. James W. Curry, the former Crown Attorney of Toronto, who is now residing on the company's estate.

As a permanent place of residence as well as a health and pleasure resort, Cuba, owing to its climatic and scenic charms, is attracting wide attention. Any person from a northern climate can live in Cuba in summer with as much comfort as in Canada, while the winter months are, of course, very much more comfortable than in a land of snow, sleet and blizzards.

\$25 PER ACRE

On and after AUGUST 15 the price of all this Company's land will be increased to \$40.00 PER ACRE.

In two years from this date you won't be able to duplicate these Fruit Lands in Cuba for less than \$80 per acre, this is the experience of all other companies doing business in Cuba. Florida Orange growers are flocking to Cuba in large numbers, because they will not plant again in Florida on account of their plantations having been retarded or destroyed by severe frost. **In Cuba frost is unknown.**

This Company will undertake to have your plantation cleared, plowed and planted at the mere cost of trees and labor, thus insuring you a permanent home for the future. No investment is more profitable or so sure as an orange plantation. Trees bear for over one hundred years. Good returns can be made by growing all kinds of vegetables and small fruits (between the rows of orange and other trees), which can be shipped to Havana, New York and Canada during winter months, when everything commands the highest prices.

Bear in mind all citrus fruit land must be a light sandy loam soil. This is the experience of all citrus fruit growers. So many inexperienced judge the light soil of Cuba falsely. We undertake to locate for all our purchasers and will get them expert reports on their location and give them the privilege of exchanging the same into any part of our property so set apart and not already sold. We give you every acre free from swamp or rock. Any low lands are not charged for. You can't get any better or fairer contract than this.

The best of practical orange and other fruit growers, who have purchased from our Company, select the lightest of our lands and claim them to be the finest land to be found in Cuba for all citrus fruits.

TO MERCHANT, MECHANIC OR CLERK: The condition under which the average mechanic or clerk exists to-day is one of ceaseless toil, from morning till night, year after year. If he has a family, after paying the land, grocer and doctor and buying coal and clothing, there is little left to provide for an emergency or old age. Contrast this condition with that under which one can live in Cuba. The owner of ten acres of land under cultivation will have an income double that which is earned by most mechanics, with the expenditure of one-half the labor. For a small sum he can construct a suitable house. His vegetable garden and fruits will supply a large portion of his food. There will be no rent bills, no coal bills and no winter clothing to buy. Under these conditions he can lead an independent, healthful, out-of-door life, having a sufficient margin between his expenses and income to enable him to put aside each year a portion for the future. His property, moreover, is constantly increasing in value. **Do you want a guarantee of independence in old age? Do you want insurance against poverty? If you do, send or call for and read every word of our Prospectus. It points the way to a comfortable income for life.** It shows you how you can easily provide, for the future, a comfortable home, direct shipment by water, our own medical attendance. Our dock is now built out to a distance of over 1000 feet. There is nothing in these statements exaggerated, as the Company has made extensive inquiry and investigation, determined only to make statements which can be verified by practical experience. That many of the statements fall far short of the whole truth and are very incomplete it is well aware; but the half of the facts and possibilities of Cuba have never been told.

Write for Prospectus and Application Forms. Make cheques payable to the Canada-Cuba Land & Fruit Co., Limited.

AMOUNTS TAKEN FROM BOOKS AND THEN PUT BACK AGAIN

Some Juggling Done With Imperial Life Accounts to Deceive Government Inspectors.

Senator Cox's Imperial Life was under examination by the insurance commission yesterday immediately after the finish of the Canada Life.

Those Bradshaw, actuary and secretary of the company, took the stand in the morning and answered Mr. Tilley's questions as to the inner workings of the company.

The afternoon was given over to the subject of agents' balances and unauthorized investments. It was shown that the Imperial did some juggling at the end of several succeeding years to

avoid having the advances to agents appear in the government return. Loans on Sao Paulo bonds were treated in the same way.

Actuary Bradshaw is about as frank a witness as his chief, Senator Cox, although he is not quite so well versed in insurance matters.

Mr. Sanderson was in the box for a few minutes after the court opened. Mr. Shepley questioned him as to several complaints against the methods of the Canada Life, out of hundreds of letters that had been received by the commission. Surrender values was the topic in nearly all of the complaints. Mr. Sanderson explained several cases that had come under his knowledge where the agent had been at fault and not the company.

This finished the Canada Life, and Thomas Bradshaw, actuary and secretary of the Imperial Life, was called. Mr. Tilley conducting the examination.

Witness told of the early history of the Imperial Life. It had been carefully nurtured by Senator Cox, who took a lively interest in its affairs and the Ames suspension. Sir Mackenzie Bowell became president.

Value of Actuarial.
Witness said he was a member of the

Institute of Actuaries of Great Britain. He had a staff of five actuaries under him in the Imperial Life. He encouraged them to study actuarial science, and sought to bring them to a state of efficiency, for, in his opinion, there was nothing so important to young companies as competent actuaries. He kept himself in touch with all departments of the company in his position as secretary.

Mr. Bradshaw, questioned by Mr. Tilley, told the commission that the premiums on most of the standard policies were fixed directly by the actuaries and not by competition. The Toronto actuaries had met and adjusted certain premiums.

Mr. Tilley next took up the charter of the company. The capital stock was a million dollars, of which 48 per cent was paid up. Counsel spent considerable time in dissecting all the provisions. Mr. Bradshaw explained the distribution of profits, taking figures and tables as his authority.

Policymakers' Voting.
The voting power of policymakers was the next item of business.

In the Imperial Life the policymakers were permitted by the terms of the charter to a voice in the management of the company if the directors saw fit. The matter had never been discussed, but the actuary thought that it would not hurt the company one iota if the

policymakers were allowed to vote. In fact, it would make that company more popular with the public at large. The vote would have to be by proxy. It had been tried in the Australian Mutual Provident, and was working well.

Mr. Bradshaw then discussed the cash surrender value in the Imperial Life, which he considered in good condition. He explained the method of dealing with a lapsed policy. The company did everything in its power to keep the policyholder in good condition, and showed other forms of insurance that might suit him better. If a three-year-old policy did lapse, the company either paid the cash surrender value or credited it to the policyholder on their books.

Mr. Tilley, in going over the list of shareholders, discovered that a certain number of shares had their dividends paid to the Central Canada. Witness could not say whether or not they were personal holdings, but Mr. Morrow explained that these shares were owned by the Canada Life, and that gave them the controlling interest in the Imperial.

On the stand in the afternoon, Mr. Bradshaw told of the duties of the executive committee, which met three times a month. They looked after investments and the salary list.

The salary list was taken up by Mr. Tilley. F. G. Cox, managing director prior to 1906, received \$6000, and in that year his salary was raised to \$8000. Mr. Bradshaw, secretary and actuary, received \$2500 from 1897 to 1899; \$3500, 1899 to 1902; \$5000, 1902 to 1905, when it was \$6000, his present salary. The directors received \$750 for each meeting they attended, but no other fees.

Mr. Bradshaw explained the item "agents' balances" in the books of the company. Four agents had been advanced money. There were two remaining balances, amounting to \$6546.85, which were secured by life policies of \$2500 and \$3000 turned over by these agents to the company. At the end of 1901 there was \$3412.44 agents' balances, but this was taken by the Imperial Life. The President Ames giving his cheque for the amount. At the beginning of the next year this was transferred back to the company. At the end of 1902, over \$8000 was advanced to agents, which was treated in same manner. In 1903 the agents' balances amounted to \$11,404.02. Mr. Ames, however, had dropped out of the company and witness said that Senator Cox took his place and paid the cheque to square the balance.

Making Things "Seem."
"Was this paid back to Senator Cox at the beginning of the year?" asked Mr. Tilley.

"No, it was not paid back until Aug. 3, 1904," answered Mr. Bradshaw.

"Why was this?" queried Mr. Tilley.

"The minutes will show that," said witness.

Mr. Tilley read the resolution of a meeting of the executive, held Aug. 2, by which Senator Cox was paid back his loan, with interest.

"How was that money treated in the books after Senator Cox was paid?"

"An individual account was opened, and later written off as an expenditure."

"The item then appeared in the blue book of 1904 amounting to \$85,123," said Mr. Tilley.

"What happened in 1905?" asked Mr. Tilley.

"The account was considerably reduced, to \$6546.85," said witness, "of which the company hold a paid-up life policy of \$6000, and two other policies amounting to \$3000."

"Is that shown in the annual statement?"

"No; it was written off. Other houses would treat them as bad debts."

Mr. Bradshaw said that he was under the impression that Senator Cox had taken over the 1903 account, but the senator disagreed, and the board decided that it was right.

"Did these figures given by the Imperial Life to Mr. Ames appear in the books of the company?"

"No."

"These items should have appeared in the annual return?"

"Certainly," said witness.

Commissioner Kent wanted to know if no returns were required by the gov-

ernment, would these transactions have taken place?

Mr. Bradshaw admitted that they would not.

Would it be fair to call this "juggling?" laughed the commissioner.

S. H. Blake, Esq., appearing for the Imperial Life, asked witness, thru Mr. Tilley, if he considered Mr. Ames' guarantee in 1901 as firm. Witness answered that it was the best guarantee, as Mr. Ames was a man of wealth.

Mr. Tilley then asked witness about further payments made to the company by Mr. Ames.

Mr. Bradshaw said that Ames gave \$25,000 to assist the company to meet expenditures in 1901. He explained that when the company commenced business, Messrs. Senator Cox, A. E. Ames and J. W. Flavell paid amounts to the company from time to time to assist in the establishment of business. For these payments the company was under no obligation. The amounts were as follows: In 1898, \$7000; in 1899, \$10,000; in 1900, \$5000; in 1901, \$10,000; in 1902, \$35,000; in 1903, \$24,000. Witness then gave an itemized account of the amounts as received each year. The bulk of the money was paid out in salaries.

Mr. Tilley could not find these amounts in the return. Mr. Bradshaw explained that these were gifts to the company.

"Was the object to keep down these items in the company's accounts?" asked Mr. Tilley.

Mr. Bradshaw became excited. He leaned far over the edge of the witness box.

A Generous Act.
"It was an exceedingly generous act. We were proud of it. It was never done in Canada before. It was all done for the benefit of the policymakers."

"Now, will you answer my question?"

Mr. Bradshaw admitted that the money was received to help the company keep down its expenses.

The revaluation of investments was touched upon. Mr. Bradshaw said that in reference to Sao Paulo loans, he considered these bonds a perfectly authorized investment, for the reason that the company was incorporated in Canada. In December, 1900, \$30,000 was advanced on Sao Paulo bonds also, on Jan. 2, another loan, thru the National Trust Company, of \$70,000. The \$100,000 was paid back in July, 1902.

Mr. Tilley went over all the dealings of the Imperial Life in the Sao Paulo Light and Tramway stocks. The stocks were kept out of the return by the transfer of cheques as per usual.

Mr. Tilley asked if any other stocks had been treated in the same way. Mr. Bradshaw did not know of any.

Unauthorized Investment.
In 1903, the Imperial made a loan of \$152,758.37. This was shown in the minutes as the purchase of \$38,748 Twin City, \$11,845 Dominion Coal, \$9945 British America, \$25,024 Western Assurance, \$60,181 Ontario Bank.

"Of these, Dominion Coal and Twin City were unauthorized," asked Mr. Tilley.

"Yes," answered Mr. Bradshaw; "but we had bought some Dominion Iron and Steel and some Dominion Coal before this."

"You knew they were unauthorized?"

"Oh, yes."

Mr. Bradshaw showed Mr. Tilley how the transaction was treated in the company's books. Mr. Tilley read the changed minute, which made the \$152,758.37 a loan to George A. Cox.

Mr. Bradshaw explained that the loan was to Senator Cox on Mr. Ames' securities, and that the senator hypothecated these to the Imperial Life.

YOU CANNOT

Secure a lease of life, hence it is important that attention be given in time to matters of great consequence to your dependents. A most important business transaction which the prudent man attends to in time, that is while he is still in good health, is to secure a policy of life insurance in a strong company, such as the

NORTH AMERICAN LIFE ASSURANCE COMPANY.

It takes very little to leave dependents well provided for, by means of life insurance, but every day's delay adds doubt to your ability to procure a policy.

In the public schools and colleges, institute of Guelph may be made. Practically all the male teachers have made application to the board of education for increases, and at a meeting of the school management committee the matter was fully considered. It was decided to recommend a general increase. A general increase has already been granted to the lady teachers.

You May Have This Belt Free UNTIL YOU ARE CURED

I believe in a fair deal, if you have a good thing and know it, you'll give others a chance to enjoy it in a way that can afford.

I've got a good thing. I'm proving that every day. I want every weak, puny man, every man with pain or ache, to get the benefit of my invention. Some men have doctored a good deal—some have used other ways of applying electricity—without getting cured, and they are chary about paying money now until they know what they are paying for.

If you are that kind of a man, this Belt is yours, without one cent of cost to you until you are ready to say to me, "Doctor, you have saved my life and here I am." All I ask is reasonable security.

That's trusting you a good deal, and it is showing a good deal of confidence in my Belt. But I know that most men are honest, especially when they have been cured of a serious ailment, and very few will impose on me.

As to what my Belt will do, I know that it will cure wherever there is a possible chance, and there is a good chance in nine cases out of ten.

So you can afford to let me try, anyway, and I'll take the chances. If you are not sick, don't trifle with me, but if you are, you owe it to yourself and to me, when I make an offer like this, to give me a fair trial. I want you to know that I have done for others.

30 Days' Improvement. Feels Like a New Man.
Dr. McLAUGHLIN, Brookville, Ont.
Dear Sir—Have worn your Belt for 30 days. I am feeling fine—the best I have for years. My stomach is very much better and my appetite has improved a great deal. I can now eat a good meal and be satisfied, which I couldn't do before. I feel like a new man entirely, and if I keep on improving the way I have, in another month or so I shall be in good shape.
Remain, respectfully yours,
FRED. J. CUTTERBUCK.

Far Ahead of Any Other Treatment.
Dr. McLAUGHLIN, North Bay, Ont.
Dear Sir—It is with pleasure that I write you with regard to the Electric Belt I purchased from you about four months ago. After using the Belt and following the directions for three months, I feel like a new man, and it is now three weeks since I stopped using it. I am satisfied to say that your Belt is far ahead of medicine or any other electrical treatment I ever tried before, and it is worth its money many times. I can strongly recommend your Belt, and shall always do it. I thank you for my heart for your wonderful remedy.
Yours truly,
O. JOHNSON.

I CAN MAKE THE BLOOD CIRCULATE IN YOUR VEINS, the nerves tingle with vigorous life, and the spirit of energy show itself in every move of your body. I have told you that Electricity is "Life," and now all scientists and doctors are approving my claim. Let me prove it to you; let me show you how my method of applying this great power has revolutionized medical treatment.

I want to help those who are weak in vitality, who are nervous, dependent and lacking in self-confidence; who feel as if old age was coming on too soon because of the dulling of their youthful fire and ambition. I want to help those who have vertigo, pain in the back, rheumatism, weak stomach and general indications of breaking down.

There's nothing surer than the word of honest men, and when such men as this admit that I cured them, you know that I can cure you.

If you would believe, use thousands of men whom I have already treated, my Belt is worth its weight in gold, and but some men don't believe anything until they see it. That's why I make this offer. I want to let you see it, and feel it, and know it by your own experience before I get a cent.

If I don't cure you my Belt comes back to me and we quit friends. You are out the time you spent on it—wearing it while you sleep—nothing more.

World Office, Friday Evening, June 8. Slow progress was made today in the evolution towards higher prices in Canadian stocks. As a rule an easier level of quotations prevailed and there was less evidence of manipulation. From a speculative view reactions were perfectly normal. Heavier transactions in specialties, such as Mackay. The ease with which these shares fell away, compared with strength of a few days ago, was obviously explainable for the reason that the pool was selling instead of buying or bidding up quotations. Heavier manipulation of specialties when the best news on a property has been made known, and this fits in exactly with these shares. It cannot be said, however, that there is any big scramble for the stock from the public at the present time, and in that event the reaction will be moderate to heavy rather than otherwise have been the case. The French demand for Toronto Railway stock has not yet reached the Toronto market, unless the 25-shares lot transferred this morning represented the transfer of the purchase of the stock. Fair amount of activity was kept up on the afternoon board, and General Electric was put up again on inspired purchases. The market was quite tame, and not profitable in any branch of the market. B. C. Packers, preferred, were moved up to the bid price without securing offerings, and it is stated that another full dividend will be paid on these shares in November. If the catch next month is only an average one. Bank stocks had a sagging disposition, and where transactions were made, losses were noted. The bullish element in the market is not disturbed by the small outside following. A gradual improvement in prices is talked of, and this is considered as a sufficient incentive to promote larger sales.

Ennis & Stoppard, McKinnon Building, 124 1/2, Lake Superior, 204; 21; Lake Superior bonds, 50 to 62; Nipissing, 5% to 6%. Talk of Wabash issuing blanket mortgage of \$200,000,000. Railway rate bill goes back to conference. Current quarter expected to show reasonable falling off in U. S. S. undilled orders. Stocks plentiful in the loan crowd.

Security of bessemer steel hampering operations of steel companies. Reported B. R. T. is now earning 7 per cent. on stock. Central Georgia will connect up to form a line thru to Gulf of Mexico. Frank A. Vanderbilt says no abatement in prosperity this year, but money outlook is not clear. Jacob Schiff in Montreal returning from Japan. Money continues to return from San Francisco in large volume. Sub-treasury gained \$1,400,000 from the banks yesterday, and since Friday \$639,000. The Havana Electric Company declared a quarterly dividend of 1 per cent. on its preferred stock, payable July 9. Books close June 22, reopen July 10.

Town Topics says: At the next meeting of the American Locomotive Company we positively assured the stock will be placed upon a 5 per cent. basis. We have very good authority for stating that negotiations have been practically concluded for a blanket mortgage of \$200,000,000 on the Southern Railway bonds in Paris. We understand that the bonds, which will be sold to foreign investors, will be the \$100,000,000 blanket mortgage issue, and that the amount placed in Paris will approximate \$150,000,000. It is also said that Messrs. Speyer & Co. are negotiating in London for the placing of a large block of Missouri, Kansas & Texas bonds—Town Topics.

Misouri Pacific and Atchafalaya were features of the trading this morning, advancing a point each. The bulls in both of those issues are very confident that higher prices will be reached, and we are very favorably disposed to Atchafalaya ourselves, as we think that before the month is out the stock will have a very material advance. The Missouri State crop report was considered a favorable factor, as it only showed a decline of 10 points in the winter wheat condition, while the corn condition is placed at 84, compared with 83 a year ago. In view of the fact that Missouri has been admittedly the largest sufferer from drought conditions, the report could not be taken otherwise than bullish on stocks—Town Topics.

Joseph says: The market is largely professional and to a great extent machine-made. When moderate gains are seen on either side of the account, turn these into hard cash. Between this and the maturing of crops there will be scores of opportunities presented for making money. For a long pull specialties. If you observe Canada Southern getting active start in and buy consistently. There is an immense short interest in Pennsylvania. The day for settling is dawning. There will be big advances seen in Louisville, Illinois, Central and Delaware & Hudson. Don't become crop scared. Buy B. R. T.

New York, June 8.—Continuation of irregular improvement is likely in the stock market, with independent advances and specific recessions the general policy, and we advocate the maintenance of the conservative bull position in creeping but aggressive market, pointing out that the professional exemplifies the wisdom of taking moderate returns. Union Pacific may be bought on all recessions. M. P. can be raised several points if the pool is willing. Another drive Reading may, as stated yesterday, be bought on reactions for turns. A bull tip is noted on Atchafalaya in a large and influential house. We continue bullish on Leocomotive, thinking that the Gates buying will carry it higher. Smelting is reported held around 158, and may be bought for turns if weak. St. Paul is still good for turns if bought when weak on recessions.—Financial News.

Both are above the average, and have a haunting beauty in harmony with the sentiment which has a charming flavor of Ireland, as, indeed, it ought to have. This song should be a favorite everywhere.

Train Running Thru Farm Property Ends Life of a Two-Year-Old.

Woodbridge, June 8.—About 10.30 this morning a fatal accident took place between Woodbridge and Hammer Summit, when Samuel Punnett's second youngest child, George, aged two years, was instantly killed by an excursion train to Niagara Falls, which passed thru here. The railway track runs thru the farm. The hired man and the little fellow's brother went on the track to the other field. Little George attempted to follow. It is thought he was looking at the approaching train when death overtook him.

Weston. At a meeting of the business men in the afternoon at the closing of the stores close on Wednesday at noon, and it is suggested that the closing hours will for the other days be fixed at 6.30, except on Friday and Saturday. Another meeting has been called for June 12, when it is expected that other merchants will fall in line.

North Toronto. Wm. White of the 2nd concession, East York, met with a painful accident while driving home. His horse shied at some object on Victoria-avenue, and ran away, throwing Mr. White out of the buggy, causing a fracture of his shoulder blade and arm. The horse was found 24 hours afterwards on the 2nd concession, West York.

York County Council. Arthur Quantz, chairman of the York County equalization committee, presided over the deliberations of that body yesterday. The other members present were: Councillors Rogers, Hartman, Lundy, Michell, Ley, Soag and Gardiner. The members present were of uniformity exists with respect to the manner in which the assessment work is carried out in different municipalities. A great deal of extra work is involved in the preparation by the equalization committee of this year's schedules.

The county council will meet on Monday morning, and on Tuesday Warden Johnston will tender the members and their lady friends a trip across the lake to Niagara Falls. The June session will occupy the greater part of two weeks, as a number of important matters will come up for discussion. The proposed grant to the General Hospital, which in the January session brought considerable opposition and was referred to the June meeting, will come up for final settlement. The enforced resignation of A. D. Davison for a number of years public school inspector of North York, has evoked a lot of heartburnings, with the result that a petition has been received to reopen the matter. The feeling against the automobile is said to be intensified, and the county fathers are coming in with strongly reinforced convictions concerning the rights of the farmer upon the county roads.

CATTLE ARE INSPECTED AT UNION STOCK YARDS

Manager Hodgson Denies That Diseased Cattle Are Sold to Trade Thru That Market.

Manager Hodgson of the Union Stock Yards denies the statements of Inspector Aude, that "the great bulk of the diseased cattle entering Toronto for consumption come thru the Union Stock Yards, and that there was no inspection of cattle there." He considered it an attempt to injure the reputation of the Union Stock Yards. "All the live stock coming to the Junction yards is inspected every market day by a duly qualified veterinary surgeon, appointed by the government," he said, "and no foundation whatever exists for the statement that there is no inspection at the Junction." Mr. Hodgson considered that the inspection of a duly qualified veterinary surgeon should be given as much credit by Mr. Aude himself. "The Union Stock Yards, from a sanitary standpoint, were unequalled by any yards in the world, every possible provision having been made there for the comfort of both live stock and cattle dealers. The statement that has also been circulated to the effect that 'slink' veal had been brought into the Union Stock Yards in large quantities by the big meat concerns of Toronto, who were afraid to bring it on the City Cattle Market, was also declared to be without foundation. The only concern using cattle of inferior quality at the Junction yards was the German-Canadian Packing Co., whose output was picked and sent to Germany, and by this firm was compelled to go to the City Cattle Market for supplies.

Mr. Aude had based his statement on the fact that he had seen diseased cattle coming to the Toronto Cattle Market than he had before the Union Stock Yards were opened, and, therefore, the cattle must be coming to the Stock Yards. This, Mr. Hodgson said, was a pretty far-fetched argument. Mr. Hodgson said that, in addition to the excellent facilities given by the Junction Stock Yards, a large public abattoir is being constructed, and nearly ready for operation to supply slaughtering accommodations of the most scientific class for the butchers, after the style of the noted Dressed Beef Abattoir in New York, which, when completed, will be one of the cleanest and most sanitary concerns of its kind in America. The new abattoir will be a great advantage to Toronto.

Mr. Hodgson also stated that Mr. Aude was so familiar around the City Cattle Market that every man and boy in the trade knew when he was on his round of inspection, and it was a very easy matter for them to get diseased cattle into the market by showing them out of one pen into another in the maze of alleys and corners for which the old cattle market is noted. As a matter of fact, the government inspector at the Junction yards was not known to the trade, and had always endeavored to keep his identity in the background, so there would be no opportunity for diseased cattle escaping his notice. There had been a few lumpy-bumps caught in New York, which were sold to the city butchers, other than such as would have been allowed to pass by Inspector Aude himself.

Simpson's Housefurnishing Club

500 Members—June and July—Carpets, Curtains, Furniture and Pictures.

PAST summer we inaugurated a Housefurnishing Club in July. In November and December we opened a Christmas Housefurnishing Club. Both were wonderfully successful. This summer we choose June as the month for a Housefurnishing Club, and will continue its operation during July. The plan is exactly the same as worked so well in the two former clubs. The advantages are greater, in so much as June is par excellence the housefurnishing month. Those who have presents to give young people this June will find our Housefurnishing Club timely to a degree.

Join to-day. Fill in the accompanying coupon and mail it at once. Take full advantage of the Club while it is at your service. Do you realize that the finest housefurnishing stock in Canada is yours to choose from at SIMPSON cash prices? And a credit account is opened for you if you join the Club, and you pay nothing for the privilege.
