PROBS. Some showers; not much change in tem-7 Killed and Scores Hurt in Train Wreck Due to Over-Speeding

Five Coaches Wrecked and Lives of 400 Passengers are Endangered---How Great Majority Escape With Comparatively Slight Injuries is Miraculous -- Conductor's Coolness Saved

SEVEN ARE DEAD; OTHERS MAY DIE GRAPHIC STORIES OF AWFUL SCENES.

FAST RUNNING.

Superintendent James Oberne handed the following statement to The World at the scene of the wreck

"We have examined everything. Our experts, Mr. Smith and Mr. Fairbairn, the C.P.R. track engineer, have carefully investigated every inch of track. Personally, I examined the rolling stock, as did Mr. Fairbairn. The rolling stock was perfect, and there was not a defect in the rails.

"The cause of the accident must have been fast Jas. Oberne. running." General Superintendent."

CALEDON, Sept. 3 .- (Staff Special.) - | trusted to make the curve without Running at 60 miles an hour, down risk of jumping the rails.

There is, all told, a grade of 100 feet the famous horseshoe curve grade, a to the bottom of the mountain.

cursionists aboard, jumped the track

The train left Orangeville some Orangeville.
twenty minutes late, and a lengthy injure

twenty minutes late, and a lengthy stop was made to take on passengers at Calcdon.

Commencing a couple of miles just out of Calcdon the "horseshoe curve," the only one of its kind in America, extends for nearly a mile.

It has long been regarded by railmay men as one of the spots where care is specially required. The curve is, roughly, in the shape of a horseshoe, the distance from one cork to the other being 600 feet, but, so sweeping is the detour made that trains must travel about 1600 yards in making this descent of the Calcdon. The special for not a good clip, and the official told the official told from the special for not a good clip, and the official told frain would come to graff.

There is only a slight grade, on leaving Orangeville, but as the locomotive enters upon the turn, the speed rapidly increases, and it has been customary for trains to sway sharply, one side being considerably uptilted, or, at least, it so appears to the passengers. There are few sections of railway line in the province where the passenger, who is inclined to timing the state of the province where the total tota idity, has more reason to feel uncomfortable, but the long immurity from on a mile-a-minute clip. Young Carr
accident at the point has made it laughed at his fears. MacCallum took
appear that the danger was more apthe regular, as did several other pasparent tran real, and that a train sengers. traveling at ordinary speed could be! Alex McLeach, a farmer, whose house

C.P.R. exhibition special, with 400 ex-Speed Increased. As the train approached the curve,

Engineer George Hodge was at the out and the seats and windows smashed in the collision with the front cars.

The work of rescuing the people in the cars did not take long. Out of all the cars did not take long. Out of all the cars did not take long. Out of all the people in the cars did not take long. Out of all the people in the doomed train not a soul emerged from the wreckage without soul emerged from the wreckage without soul emerged from the wreckage without some mark, but miraculously, the out some mark, but miraculously, the cars did little one at the rear and telescoped into the one at the rear and telescoped into the or no crushing.

Speed increased.

As the train approached the curve, here to-day.

Six were killed outright, one died at the Western Hospital, Toronto; a dozen are seriously injured, and scores were cut and bruised and badly shaken up.

That 100 people were not crushed to death is marvelous.

The train, composed of six passanger coaches and one combination smoker, with engine 855, was made up at Orangeville on the arrival of a four-coach special from Markdale, carrying hundreds from the north to the Toronto, fair.

Engineer George Hodge was at the throttle, with Fireman Herb Martin in the crash about a mile from Caledon the two coaches ahead of mine, and world, he stated that he could not say world he stated that he could not say standling in the draw. "All I know is that if was the train was traveling. "All I know is that if was standling on the stated that he could not say standling in the train was traveling. "All I know is that if was the train was traveling. "All I know is that if was the train was traveling. "All I know is that if was the train was traveling. "All I know is that if was the train was traveling. "All I know is that if was the train was traveling. "All I know is that if was the train was traveling. "All I know is that if was the train was traveling. "All I know is that if was the train at with the world ware at with its coupants a distance of 20 feet and stopped dead still.

SCENE AT THE WRECK: Showing overturned engine and telescoped cars in which the loss of life occurred.

SURVIVORS TELL OF WRECK HORRORS MEASURES FOR RELIEF WERE PROMPT

Engineer Sent Passenger to Drive to Town for Doctors and Stimulants - Physician's Wife Played Noble Role as Nurse.

Harry Thompson of Mitchell was one t the fortunate occupants in the third car from the engine, and describes his impressions as follows:

The train was composed of about seven coaches, as near as I can remember. I boarded the middle one. It was fortunate that I chose the one I did, for in the crash about a mile from Caledon

running half its length and crushing

day, were on their way to Toronto on their honeymoon. They were in the thru which they could crawl. With the Continued on Page 6

Continued on Page 6

The engine was turned completely over, and the crew found an opening thru which they could crawl. With the thought of the possible explosion of the boiler, or being scalded to death by steam, they were terror-stricken when

I first saw them. Engineer's Plea. "The engineer spoke to me: 'For God's sake, young fellow, get a horse at that house,' pointing to a farmer's house within a stone's throw, 'and bring some dcctors and whiskey from town.

"Another man and myself ran to the farmer's, whose name is McCrashe, and readily got the horse and buggy.

"We aroused the town, and everyone,

it seemed, ran or drove to the scene. Every physician, who were three, I believe, ran their horses to the wreck, and the station agent telegraphed for and the station agent telegraphed for the regular train, which was running back of ours, about half an hour, to bring relief from Orangeville.

"These few minutes must have seem-ed ages to the injured and those who were pinned underneath the wreckage. It couldn't have been more than 20 min.

couldn't have been more than 20 minules, however, when the first relief arfrom Caledon. "A short time afterward the regular train arrived from Orangeville and brought seven or eight more surgeons.

"In the meantime the crew and sur-viving passengers did all in their power Continued on Page 6

Painful Scenes Witnessed as Half - Dozen **Ambulances Trans**fer Wounded to Hospital.

Forty of the injured were brought but slightly injured and disappeared in the crowd upon alighting from the train. The others were taken to this

Western Hospital in police wagons and o'clock and a crowd of several hundred people gathered at Dupont-street and bathurst-street, where the ambulances were drawn up. The three city ambulances were on the spot, even that one in use at the exhibition grounds one in use at the exhibition grounds having been pressed into service. Harry Ellis had an ambulance and three men, and Bates & Dodds had two men and an ambulance, as did B. D. Humphrey. In addition to these the patrol wagons from Nos. 8 and 1 police stations were there to remove those suffering lesser injuries.

As the train drew in, white faces peered from the car windows. In the

As the train drew in, white faces peered from the car windows. In the last coach, tourist No. 1042, were the more seriously injured. These jay upon beds improvised of seats.

The pitiful procession to the ambulances began, With faces twitching with pain and clothing stained with blood, men and women were loaded on the waiting stretchers and borne thruthe end of the uncoupled coach to the waiting ambulances. Others staggered out with bandaged heads and disheveled clothing, leaning on the arms of doctors, constables and clergymen, some of whom had come down with the relief train, while others had gathered from the neighborhood to lend a helping hand.

Several clergymen's wives were pre-sent to assist the wounded. At the Hospital. At the Hospital,
At the hospital when the hurrying ambulances began to arrive the sad but husy scenes were repeated. Quiet nurses and silent-footed doctors in white coats moved about among the cots where the more seriously injured were placed, while in the emergency ward stitches were put in and splints or plasters applied with unhurried speed.

The injured were patient. Althomany must have suffered untold agony no word of complaint was heard. A low groan when a stretcher joited unavoidably or a stifled scream as an arm was set or a dislocation reduced was the only protest against almost unendurable pain.

Upon receipt of word of the disaster here Assistant Superintendent F. G. Martyn arranged for the despatch of a relief train bearing Dr. E. Bryans

a relief train bearing Dr. E. Bryans of the Western Hospital, with Nurses Misses Atkinson and Newton with other city doctors. This train met that bearing the injured to the city just beyond Bolton Station and returned with

ONTARIO'S BIG HOLT.

The feature of the summer of 1907 from the farmers' standpoint, in the Province of Ontario, was the long-continued and persistent drought and the late harvest consequent thereon. We do not remember of having seen so many sunburnt pastures thruout the month of August or so many grasshoppers in possession of the parched sod; and it is a long while since there were so many oats stooked in the fields as there was towards the end of the month. Nevertheless the crop, on the whole, while not an average one, will be a fair one and prices ought to show a decided upward tendency. Wheat must go up, oats must go up, hay will be dear, and potatoes oughtalso to bring an advanced price. How much feed will there be for the live stock? The real marvel of the situation and the strength of Ontario as a farming country is that we can raise such crops as we have raised in view of the long and lasting dry weather. Nature here finds a way in the night time by dews, by vapors and by cool air conditions to take the place of the ordinary rainfalls. It is not every country that is similarly blessed:

FINE DISPLAY OF FURS.

There is profit as well as pleasure in a visit to Dineen's just now. The winter fur style grand opening at the famous fur establishment, corner Yonge and Temperature Yonge and Temperance-strets, com-menced on Monday. It is inaugurated with a special ten days' sale of the rare and costly Canadian and foreign furs, which are being shown, and ther furs, which are being shown, and ther is no more varied or more handsom display anywhere on the continent. You will be more than interested i you avail yourself of the cordial in vitation which is extended, and you will see what you like, whether yo want to purchase or not. Dineen's reputation for quality, style and reliability is known from coast to coast.

Hon, Radolphe Lemieux Gives Notice of a Reduction in Postage.

Last night's Telegram, with evident authority, made the following important announcement:

"The people of Toronto, yes of all the cities of the Dominion, will be delighted to learn that the postmastergeneral, the Hon. Rudolphe Lemieux, with an enterprise and interest that has always characterized him since his taking of office, has decided to give to the cities of the Dominion a one gent rate for drop letters, instead of the two cent rate which now pre-

"It is a boon long looked for. Away back in 1871 the rate was one cent for drop letters. Then about 1889 It was raised to two cents, and the regulation was carried into effect, notwithstanding strong opposition in the house of commons, particularly by Messrs. Brown and McKay, who then

represented the City of Hamilton. "For years the boards of trade have protested against the two-cent rate. The people have also thru their representatives endeavored to impress the postmaster-general with the necessity of reduction to the old rate of one cent, but without avail.

"It is said that during the short time that the Hon. Mr. Aylesworth was postmosater-general he ed very favorably on such a reduction, but it was left for his energetic successor in office to make the change hat will very shortly go into ef-

NOT SO DEFINITE.

OTTAWA, Sept. 3 .- (Special.) - Hen. Rodolphe Lemieux stated to The World to-night that the reduction of drop-jetter postage in cities to one cent was being contemplated by the department. Nothing definite has been decided, and the question at any rate will have to come before the governor-general in

Hamilton Happenings

Board of Wd . Prepare List Grievances - Site for the Sanitarium.

HAMILTON, Sept. 3 .- (Special.)-License Inspector Birrell has threatened to prosecute Peebles, Hobson & Co., grocers, on the charge of selling liquor after hours last Saturday night. This firm and the inspector have clashed before. It is intimated that if a charge is laid there will be some interesting developments in the way of retaliation and that politics will play an important part.

Board of Health.

The board of health to-night decided to accept the offer of William Southam to donate a hospitable for in-curable consumptives, but it left the matter of selecting a site to the eldermen. The site proposition has been the cause of all the delay in accepting the cause of all the delay in accepting the offer, which was made some time ago. The donor proposed to build the hospital on the city hospital gronds, but as there was considerable opposition to this plan, other sites were con-sidered. Among these was a site alongside of the present consumptive sanitarium on the mountain. At a re-cent meeting, however, the officers of the consumptive sanitarium decided that it would be impracticable to conduct the two hospitals on the same

Board of Works. The Dominion Railway Commission will be asked to settle the trouble betwen the city and the Grand Trunk over the Ferrie-street bridge. The board of works to-night decided to ask the commission to order the railway to complete the bridge in every detail before ahnding it over to the city, according to agreement. The board also dealt with a number of other mat-ters. Permission was given the Hamil-ton Bridge Works to connect their two shops across Barton-street by a tramway, on condition that the company indemnifies the city against damages. The board will pay a visit to the ter-IN THE MATTER OF THE ESTATE ritory of Sanford-avenue, thru which THE MATTER OF THE ESTATE

MACKENZIE KING LEADER OF ONTARIO LIBERALS?

May Enter Legislature and Succeed Graham as Head of the Opposition.

The annual meeting of the Ontario General Reform. Association will be held at this city to-day.

H. M. Mowat, K.C., is president, and F. G. Inwood, secretary. Representatives of the Toronto Reform Association will be present, and will exnominating candidates both for the provincial and the federal houses.

No action will be taken at this meeting with reference to the leadership of the Liberals in provincial affairs, the no doubt an informal discussion will take place.
Friends of Mackenzie King feel tha

if he is inclined to enter the political field the Ontario house offers a better opportunity to a man of his years and talents, than the federal house holds out at the present time. The first thing to secure for Mr. King is a seat, and the constituencies men-tioned are Brockville, from which Mr. Graham has just resigned, North Oxford and Brantford.

At this meeting a reports will be presented as to the progress made in the revision of the lists, as the party generally expect that the lists now the next provincial and the next Dominion general elections.

Liberals think that Premier Whitney will appeal to the country in June next, and while the Dominion

C. L. A. SEML-FINALS Maitlands and Trenton Meet To-

> News. The C.T. A. district committee com posed of T. F. Doyle, Vice-President J. K. Forsyth, T. W. Tegart and Secretary W. H. Hall met last night at the Iroquois Hotel and arranged the following games in the semi-

Day at Island-Lacrosse

Oshawa (junior) Saturday next. Markdale and Guelph (junior) play in Orangeville Tuesday next. The winners to play the winner of the to play the winner of the latter game, The Maitlands of the north end and

Trenton will meet to-day at the island in an intermediate semi-final game. The Trenton twelve have conquered everything in the east, and as the Maitlands only Saturday last beat last year's intermediate champions, the Junction Shamrocks, the game should certainly be an interesting one.

Torontos victory against Montreal on Labor Day has put new life into the team, and the boys, according to the press agent, are determined to take one fall out of Tecumseh before the season closes. This will likely be the final game in Toronto this season, and a good crowd will no doubt go to Rosedale on Saturday next. Skeld-Rosedale on Saturday next. Skeld-ing will play between the poles for the Torontos. He is filling the posi-tion in fine style, and looks to be a comer. Manager Murphy is highly elated over the article put up by him and with a little more experience he should make one of the best men between the flags in senior lacrosse.

Sporting Editor World: Yes, Cornwall believes themselves the best ever because they beat the Shamrocks on Saturday. "Where ignorance is bliss, The Irishmen surely though Tecumsehs would beat Nationals for a tie finish, and a couple of extra gates.
The Indians were either unequal to
the task or anxious to end the season. But it is not yet, for have not the Irishmen to entertain Capitals in Montreal next Saturday? A win for Caps and the green Irishmen and yellow Indians would have to play off.

The borror of it!

W. W.

It is thought here that the D. Madill reported injured in the wreck is Detroit

Wonderful Nugget

One of the most remarkable discover-ies on record is being shown at the exhibition. The people wonder at seeing a shoe polished with the "Nugget" polish, and mmediately afterwards washed. The water runs off the shoe "like water off a duck's back," and the shine is not destroyed, which proves that this paste is a waterproof polish. The demonstrator

then proceeds to dry the shoe on a plean towel, but the polish does not rub off and soil it, which is conclusive evi-ience that it will not come off on the clothes in wet weather.

The "Nugget" is on sale at the usual price (10c a tin), and will no doubt be universally used in a short time, par-

Dr. KOHR'S RESTORINE 🧺

New Century,—the most wonderfur Medicine ever discovered. It is astoruging the Medical world. 10,00 cases cured in one month in Parls. The National Medical Board has recommended this Remedy for use in the Iusane Asylums where, as is well known, a ma'ority of the male immates are victims of lost Vitality in its most terrible form. In Hurope the remedy is endorsed by all governments and is now used as a Specific in the great standing armies of both France and Germany. Stops losses in from seven to ten days so that they never feturn. Drains entirely cease after a few day's treatment. The skin becomes clean, the eyes bright. Confidence returns, step elastic, bowells regular. Headaches disappear. No more weak me mory, the mind becomes bright and active. A Food for Brain and Blood. A permanent cure no matter how chronic the case, Just send us to-day your name and address plainly written and a 5 days treatment of Restorine will be sent FREE in plain sealed package. Do not hesitate a moment. We will treat you with success and with konest confidence.

ESTATE NOTICES.

For the last half-dozen rounds Thomas showed signs of returning strength. The suddenness with which the end came in the thirty-second round took many by the thirty-second round took many by or about the 7th day of May, 1907, are showed signs of returning strength. The suddenness with which the end came, in the thirty-second round took many by surprise. They clinched and broke away. Thomas taking a left on the jaw that staggered him backward. Ketchell then rushed in and drove Thomas to the floor with a vicious left in the 'stomach, followed, by a terrific right cross to the jaw. Thomas took all the count the rules allowed, and when he got up it was plain the end was in sight. He was no longer able to protect face or body, and three times went down under a rain of right and left swings, the force of which put him out so effectively that his seconds mercifully tossed up the sponge. Both men were severely punished.

THE TORONTO WORLD

A Morning Newspaper Published Every Day in the Year.

ARREST THE RAILWAY PRESIDENTS AND PUT IT UP TO THE ONTARIO GOVERNMENT.

The Canadian Pacific and the Grand Trunk Railways are trying, in the Province of Ontario, to do a two-dollar business with a one-dollar

By equipment we mean track, cars, stations, most of all, men to run

By men, we mean efficient men, not overworked men. No equipment worth mentioning, for use in Ontario, is built in On-

tario. Do we get the leavings? It is high time that the people of Ontario rose in rebellion against the administration of the railways of this province from Montreal. The World is bold enough to say that more than half the railway accidents that are happening in this province, the loss of life, the delay in traffic, the lack of accommodation, the lack of train mileage, the apparent indifference to public rights, from all which we suffer, are due to the fact that there is no genuine executive administration of these railways, either the Grand Trunk or the Canadian Pacific, within the province, but that everything has to be done in Montreal, and what is done in Montreal is done by men and officials indifferent to the situation that actually prevails

in this province. For weeks now The World has been trying to tell the people of Ontario that the railway managements in Montreal think anything is good enough for this province, notwithstanding the fact that the large portion of the earnings of the Grand Trunk and the Canadian Pacific railways is from the Province of Ontario, where the population is denser than in any other portion of Canada; and where the amount of traffic, whether freight or passenger, is greater than in any other portion of their respective

Repeated demands and reports have been sent from this province to Montreal for increased accommodation and improved equipment, but, so far as the public can see, all these requests are ignored or treated in a perfunctory way, or are pigeonholed, as the caprice of the overworked executives in Montreal may suggest. One great trouble in Ontario to-day, and one cause of the enormous loss of life, both to the public and to the men who man the railways, is due to the lack of equipment. By lack of equipment, we mean inferior cars, poor engines, weak engines, heavy grades that could easily be removed, lack of siding accommodation, lack of switches, lack of night station hands and lack of double tracks, where double tracks should be.

There is another thing that The World wishes to point out to the people of Ontario, and that is this-that the two great railways deliberately decided on a policy some years ago of transferring as much of the local work pertaining to their systems in Ontario as they possibly could to Montreal. The engine-building departments and the car-building departments have been snatched out of Ontario and transferred to Montreal: and to-day there is not an engine being built in this province by these railways, notwithstanding the fact that there are more cars and more engines of the best kind required here than in any other portion of the country. Anything will do for Ontario, is the rule of the management; any kind of old equipment; and if new equipment is conceded, then Ontario must wait until it can be built in Montreal, or some place out

The people of Ontario are to blame for this wretched treatment which they are receiving at the hands of the chief executives of the Grand Trunk and the Canadian Pacific. They have a means of rectifying the evils; they can put the Attorney-General of this province and the law officers of this province at work to ferret out the cause of these accidents. They have in their hands the power of taxation, as exercised by the legislature of Ontario. There is no prospect of any kind of decent and sufficient railway service being given to this province until the legislature and the government of the province take up the question and bring the situation to

For some reason or other, Ontario is a by-word in Montreal, and especially so in Montreal railway circles, and any suggestion to improve the railway service of this province is immediately tabooed by these gentlemen in Montreal, whose chief energy seems to be to expand the railway equipments outside of this province and to build transcontinental railways, and to promote land sales in the west, and to maintain a monopoly of telegraphs in the west, and things of that kind, rather than to give a proper service to the province and to the people who supply the main, and certainly the most profitable, portion of their revenue. They defy the law and repudiate their statute obligations, and no court or crown officer has the courage to enforce them!

There will never be a decent railway service in this great, rich and prosperous province until both the Grand Trunk and the Canadian Pacific put their respective services in charge of a chief executive, with the rank of vice-president, with full power to spend money on the improvement and expansion of the system in proportion, at least, to its earning power, and even its borrowing power.

And even more than this we have a right to, and it is that all the engines, all the cars, switches, rails, etc., used in this province be made in this province. At present Ontario is allowed to supply cedar telegraph poles, if they are cheaper than they can be had in New Brunswick, and our people have the privilege of being victims of a smash-up every other day in the year!

Let Attorney-General Foy issue a warrant for the arrest of Sir Thomas Shaughnessy, and we may get at the true cause of yesterday's disaster on the Orangeville horseshoe curve.

> Fine Salt—that dissolves quickly on the food-flavouring deliciously -never gritty, never bitter, WINDSOR TABLE SALT.

George Baxter's farm house, and her life is despaired of. Her legs were mangled and her shoulders crushed.

Mrs. Wright is at the McLeash home with her earn torn off and severe fractures of her limbs and several proken ribs. Both legs were badly bruised and her physician does not hold out a great hope for her recovery.

Doctor's Wife is Nurse.

Mrs. W. H. Jeffs, Eglinton, with her husband, Dr. Jeffs, was on the train immediately behind the wreck. They arrived upon the scene 10 minutes after the wreck, and Dr. Jeffs was the first surgeon on the spot. He turned in and worked until others arrived. Mrs. Jeffs, who helped her husband with his work,

and her physician does not hold out a great hope for her recovery.

In the third coach, where four of the seven were killed, was probably the most remarkable escape of the awful disaster.

R. A. Jelly of Shelburne, with his work to be done, and that helped me. After the men had done the heavier wife, was sitting close to the window. In his arms he held his 2-year-old baby. Armstrong, one of the victims, sat right in front, while Tucker was a worked until others arrived. Mrs. Jens, who helped her husband with his work, told The World as she worked about the relief train, of the scene.

"It was terrible," she said, "but there was work to be done, and that helped me. After the men had done the heavier work of taking the injured from the wreckage there was much that a woman could do."

few seats away,

To The World Mr. Jelly was glad to fainted, or were to hysterics, and all say that he and his wife and the babe had to be sent back to Caledon to be

scratch.

"I can't tell how. The baby was in my arms. In a twinkling all was dark and the baby shot thru the window. How I got out or the wife I don't know. The baby did not know she was hurt, and never opened her mouth until she could see me, when she cried. Not one of us had a bruise."

Wreckage Cleared Away.

"The nerviest man I ever saw in my life was an old gentleman with a broken leg. He was lying on the platform of one of the wrecked cars. His face was white with agony. His hands were clenched and his teeth bit thru the fiesh of his under lip as he kept back the cries which his suffering tried to force from him. As a physician came up to him and instructed myself and another to remove him to the side of the care.

Rev. J. T. Mooris, Owen Sound, formerly of this city, and a brother-in-law of ex-Ald. Brandon of 199 Beverley-street, Toronto, was on the regular train which followed up the ex-cursion and was on the scene as soon and probably sooner than any other man not on the fatal excursion. "There were three Armstrong brothers on the doomed train," he said

last night. "When I jumped off the forward car of the regular, which was closely following the excursion train, I found one of these brothers sitting at the side of the track, and when I approached him, asking him where he was hurt, the man was sitting with his head in his hands and he said:

"Mr. Morris, I'm killed!" "At first I thought the man had been stricken insane. On his right hand lay a body and beyond that another. A young lad of tender years was standing nearby crying as if his heart

weight of humanity.

Dr. S. Alliston of Caledon East opened the inquest at Peter Baxter's house at 6 o'clock.

"After answering my question Armulifer and said:
"After answering my question Armulifer and said:
"The relatives have notified Harry Ellis, undertaker, that they will be in the city to-day.

The relatives have notified and said:
"Do you see the man dead next to me? He is my brother, and the city to-day.

He has relatives in the city, his "After answering my question Armto me? He is my brother, and the boy standing there is his son. The nieces, one of whom is a teacher in nieces, one of whom is a teacher i

me alone, Mr. Morris."

Rescued Brother's Body. "I never met but one nobler man Township. than this Armstrong brother. There he sat, uninjured, but 'dead' as he said. He had gone into the wreck, as I afterwards learned, and dragged his brother's son from the wreckage. As he was taking his nephew from the wreck he saw his two brothers lying unconscious. He got the boy free and crawled back. In the darkness he brought the boy's dead father out. Leaving the body for the dis-tracted sor to guard the faithful wreckage and dragged out his other orother. This man was unconscious.'
Rev. Mr. Morse said this last Armstrong was so badly injured that he could hardly recover."

THE DEAD.

Prince Edward, and Bean of Welland. The morning session was largely devoted to the presentation of and dis-cussion on the president's address, which was of a most comprehensive nature and dealt in trenchant form with a number of so-called grievances. Tariff taxation was roundly condemned, as was the principle of granting bounties on the production of iron and steel. The railways also came in for a severe scoring, in seeking successfully to evade a fair as-

sessment on their roadways. The present generation were charged by President McEwing with living extravagantly and regret was ex-pressed at the decline of business integrity among men holding public positions, and acting as guardians of trust funds.

A general discussion followed, for A general discussion followed, for the most part commendatory of the president's remarks.

Following the morning session, and prior to the afternoon convention, a committee waited upon Congressman Josiah Quincey of Boston, Mass., U.S. A., and J. M. Whitney, democratic candidate for the governorship of Massachusets, who are on a visit of Massachusets, who are on a visit to the national exhibition and deeply Interested in their native state in the farmers' organizations. Handsome Swiss Dresses At Big Reductions

A handsome lot of Swiss Embroidered Dresses, in mull, batiste and linen, that we must positively clear up this week. The dresses are splendid in every way, but our stock is much too heavy, and our fall goods are now arriving every day, so we must clear them, even at a loss. This makes a splendid opportunity for out-of-town visitors to secure one of these beautiful Dresses at much below cost. They are neatly put up in boxes, and come in colors of pink, sky, navy, black, and white, with handsome embroidered shaped skirt, 2 1-4 yards of 46-inch all-over embroidery for waist, and 4 1-2 yards of edging to match. Here are some of the prices:

A \$9.50 dress for \$6.85 A 13.50 dress for , 9.90

Exhibition Visitors

Should avail themselves of their visit to the Fair to see Dr. McLaughlin's World-renowned Electric Belt. He will be in his office, 112 Yonge Street, from 9 a.m. to 6 p.m. daily. Wednesday and Saturday till 8.30 p.m. He invites you to consult him regarding your health.

are rheumatic, full of pains and aches, or suffering from any disease that drugs have failed to cure—I want you to come to me. I can cure you with my wonderful Electric Belt, and I'll give it free to any weak man or woman. I want every weak, puny man, every man with a pain or an ache, to get the benefit of my invention. Some men have doctored a good deal—some have used other ways of applying electricity—without getting cured, and they are chary about paying money now until they know what they are paying for.

If you are that kind of a man, this Belt its yours without a cent of cost to you until you are cured.

That's trusting you a good deal, and it is showing a good deal of confience in my Belt; but I know that I have a good remedy. or suffering from any disease that drugs

DR. McLAUCHLIN'S ELECTRIC BELT IS CURING OTHERS. WHY NOT YOU?

Nature is the greatest doctor on earth. When she can't cure it is because she needs aid. Now, most people have an idea that this aid is drugs, and when they get sick or suffer from pain of any kind they proceed to dope their stomachs with the stuff that is sold for medicine. That doesn't help any; in fact, it does a great deal of harm. The dope that you put into your stomach is poison, and poison weakens the organs and nerves of your body. What Nature needs is electricity.

Get back to nature. Consider how she cures and gives her assistance. Nature will cure you if she has the power. This power is electricity. That's because electricity builds up—supplies nourishment, strength to the body. Drugs destroy, tear down, because they contain poison instead of nourishment. Of course, poison will ease pain. Why? Because it paralyzes the nerves. The nerves are delicate wires that enable you to feel pain. If you poison your nerves with drugs you can't feel the pain until the stupor wears off. Then/the pain comes back and you have to repeat the dose until nature removes the cause of the pain.

Electricity is a relief from the old system of drugging. It does by natural means what you expect drugs to do by unnatural means. Instead of swallowing a lot of poisonous drugs, which wreck the nerves and stomach,

to do by unnatural means. Instead of swallowing a lot of poisonous drugs, which wreck the nerves and stomach, you apply my Belt about your body, and feel the soothing, vitalizing force of electricity penetrating your vitals, giving health and restoring strength to every part that is weak.

I believe in finding the cause of every ailment and removing it. If it is in the stomach, I restore the power there; if in the nervous system, I build up the nerve force; in the kidneys, the blood or the organs of generation, I find the cause and supply to the body the needed help, and after I have removed the cause, nature will cure the disease.

MR. ANDREW W. LANGFORD. MR. ANDREW W. LANGFORD, Stratford, Ont., writes: I will state that your Belt cured me completely of indigestion and lost vitality.

If you are skeptical, all I ask is reasonable security for the price of the Belt, and you can

Reciprocity in Tariff Between Canada and U.S. Theme for an Interesting Discussion

FEW PEOPLE IN STATES

Hon. Whitney Argues That Canada Would Be Benefited by Policy, But President George is Not Impressed.

ANOTHER FINE DAY ATTENDANCE 65,000

The guest of honor and chief speakor at the directors' luncheon at the exhibition yesterday was Henry M. Whithey, ex-president of the Dominion Iron & Steel Co., and a prominent figure in Boston financial circles. There were also a large number of prominent stockbreeders and fruiterers present from the tity and other points in the province, two of three of whom took part in the fiscussion on the speech of the Ameritan visitor.

In introducing Mr. Whitney, President George made reference to the fact that that gentleman was a candilate for the governorship of Massachu-ies in Canada because they had been ctts, and that reciprocity was the unable to get over that invisible well, thief plank in his political platform as representative of the Democratic party. With Mr. Whitney's ideas, under certain conditions, he believed that every bind of his auditors and the general public would be in entire accord. A closer relationship between Canada and the United States on an equitable basis would be a very desirable consummation, but the great problem would be to the country's growth.

Alex McNeil, president of the Canadian Fruit Growers' Association, said that the matter of the tariff was one of indifference to the fruit growers, and notion that the matter of the tariff was one of indifference to the fruit growers, and that the matter of the tariff was one of indifference to the fruit growers, and that the matter of the tariff was one of indifference to the fruit growers, and that the matter of the tariff was one of indifference to the fruit growers, and that the matter of the tariff was one of indifference to the fruit growers, and that the matter of the tariff was one of indifference to the fruit growers, and that the matter of the tariff was one of indifference to the fruit growers, and that the matter of the tariff was one of indifference to the fruit growers, and the growers are the first growers and the proposition of the country's growth.

Mr. George, "much could be done to remedy what is at present a very one-bided state of affairs." He suggested the trailed state of affairs." He suggested the building up of the material prospeach country which were in general use been fully recognized, although the trailed supporting the drawers can be removed to permit of cleaning glass. A size exhibit to display the products of manufactured with adjustable shelf brackets, the frame being made from quartercut American white oak.

It would take more than a large-size exhibit to display the products of interpretation of the material prospection of the material prospection of the nation, has not, perhaps, each country which were in general use been fully recognized, although the trailed to permit of cleaning glass. A "standard silent salesman" is also manufactured with adjustable shelf brackets, the frame being made from quartercut American white oak. each country which were in general use been fully recognized, altho the trade in the other might be placed on the returns offer some very significant tree list. There was no necessity for figures to the enquirer who is interest-trade treaties. These were generally a source of nothing but complications, the desired to see more Canadian products going to the United States, but he could not agree with the suggestion, that Canada give free entry to Argent, and is shown in statistics. But the that Canada give free entry to Ameri- apple, is shown in statistics. But the tan manufactured goods in return for directors of the Canadian National Ex-the abolition of the duty on raw ma- hibition classify these producers of

A Good Attachment.

A patented hose supporter for both ladies and gentlemen is the article that the Dominion Novelty Manufacturing Company are featuring this year at their exhibit in the manu-V. Tilzer facturing annex. This hose supporter is a clincher—there's no mistake about that, and it doesn't tear the stockingLuders either, that's another thing.

The supporter for ladies is attached to the corset in a manner which is somewhat difficult for men to descibe, ter and cheese at the dairy building altho the comfort and effectiveness of were made yesterday and the prize winners in order are listed below. In the butter exhibit, section 12. R. M. Player qualifies for the trophy, this the method is easily understood. One gentleman was rather skeptical as to the effectiveness of the new clasps, which the company patented in March last, and gave a vigorous tug at the apparatus, the business end of which was attached to a stocking on an ar-tificial leg. It wouldn't budge an inch and stuck to the garment like a bull-

Potash as a Fertilizer.

hibits in the tents at the exhibition grounds is undoubtedly that of the Potash Syndicate. While of especial interest to farmers, it is instructive to all. The tent is very prettily and tastiles are 1,709,533 members, including sisters of the Rebekah degree, and in 1906 \$5,005,753.37 was expended in relief by the order. The total receipts for the year from all sources was \$15,all. The tent is very prettily and tastiles 307.90.

At the tent of the Independent Orweild spring up to compete with the older districts. The districts of the speaker referred to Canada as being able to find a market for its products more easily than anywhere else. The great need of Canada was transportation. The United States would be glad to join Canada in the development of its almost unlimited resources. Chairman George candidly disagreed with the views of the visitor, the pleased to hear them expressed. He believed that protection was necessary for Canada, and while, as Mr. Whitney had said, Canada might develop as had the United States, he didn't know how the people were going to pass the interm. He spoke of large t'nited States firms which had established big factor-

S. Anargyros Exhibit. An exhibit which should command a great deal of attention is that of the manufacturers of Murad and Mogul cigarets. Their stand is situated near

The Ideal Silent Salesman.

One of the specialties this firm is guessing contest has been inaugurated, exhibiting is really an ideal silent which will be open to all visitors to exhibiting is really an ideal silent salesman. It is set on legs instead of having the base go down to the floor. All visible parts of the frame are made from selected quartercut American white oak, and finished in golden oak with rubbed and polished surface. The glass is polished plate, top plate bevelled. Shelves are plate glass with bevelled. Shelves are plate glass with contestant, on which he (or she, as the edges planed. The doors run-on ball-bearing pulleys and metal track, while the legs are of oxidized copper. This salesman is well designed and worth inspecting.

Attention is also being called to the "Ideal Notion Case" which is a salesman and the published in the papers. and the person fortunate "Ideal Notion Case," which is recom-mended for the convenient display of requested to call at No. 30 Church-st for the cheque.

Meet me at Newcombe's Rest Room I. E. Shantz & Company.

This year in machinery hall the firm have confined their exhibit to show-Old fashioned butter scotch has been the rage at the exhibition grounds ever since the start of the fair. Lovers of candy flock around the stand where it is sold and an increased the start of the fair to be easily operated, and has the most perfect mechanism invented.

It is worthy of the time and attentions of visitors.

Snap Hand Cleaner. When at the exhibition wash yo and is recognized to be a leader in its line. Nothing but the best cream
Cleaner at the exhibition wash your hands with Snap Antiseptic Hand the leader in its line. Nothing but the best cream
Cleaner at the manufacturers' annex flooded, 173,339; embankments broken, ery butter is used in its manufacture, and get that deliciously clean feel

of cleanliness and perfection. The employes are all skilled workmen, and the work that they turn out is sufis advantageously shown. Dean's war canoes are also attracting considerable attention from canoe experts.

For Bakers and Butchers. coal and stock scale. There is also a missionary topics, etc. variety of dough-mixers and very complete sausage machines.

Canada Metal Company. trade thruout Canada.

Anyone interested in this line should call at their stand, where their staff of travelers are always willing to give them the glad hand and show them around. They are located at the east side of the main entrance to the stand work.

In the machinery hall, near the east crence to those of the Presbyterian church in Canada. A motion was also passed unanimetal, including ingot lead, tin, copper, antimony, aluminum and spelter. The above-mentioned materials are work. main entrance to the used in the manufacture of solder par, wire, bronze, plumbers' wiping, electri-cal and canners' wire solder. Having decided to spend less than you earn and to save the surplus, the next step is to deposit the surplus in a strong, safe financial institution, where it will be absolutely sa and earn a fair rate of interest. This should be done regularly and systematically. Whatever you can spare from your weekly or monthly income, if only a dollar, should be immediately deposited to your credit. Open an account now—one deliar will do it—and add to it at regular intervals. Saving will thus become a habit, and your surplus will be safe and growing. Three and one-half per cent. Interest will be credited to the account four TIMES A YEAR.

Railroad Earnings.

*Decrease.

Charles Head & Co. to R. R. Bon
City Dairy common do. preferred C, N. W. Land The upward movement made further performers in to-day's stock market, with the prices of practically all issues traded in making good gains on Dominion Steel common 24 22

The transactions were mainly between inside interests and the public. Where sales were forthcoming the support was sufficient to absorb stock without much recession, while orders were easily filled in such issues as Sao Paulo and General Electric without unnecessary bidding. Market incidents were unimportant. Twin City showed another heavy loss in earnings, but this had no influence on the price of the stock, which, as a matter of fact, held firmer than it did at the close of last week. The earnings for Toronto Ralls were again at a substantial increase, but the only real demand for this stock is at Montreal, where the price was about a point higher to-day. The buoyancy at New York is gradually improving local sentiment, but the money market precludes any broad speculation.

With the prices of practically all isomorp to day and on the public. Where sues traded in making good gains on an increased volume of transactions. There were no new developments to Dominion Telegraph 18 Amal. Cog do, preferred Lalet or the breaking of the copper trade deadlock had a beneficial effect, particularly on the allied Issues, the strength in which helped the rest of the list. The most important factor, however, was the further easing off in the money situation, six months' money for the first time in several weeks being obtainable at a little above six per cent. The bear traders tested the market several times for a reaction, but found a substantial demand on fractional Coal Lake of the Woods 42 Chalme Anc. Co. Mexican Laletof the Woods 42 Chalme Anceroan do, preferred 42 Chalme Anceroan do, preferred 42 Chalme Anceroan do, preferred 43 Chalme Anceroan do, preferred 44 Chalme Anceroan do, preferred 45 Chalme Anceroan do, preferred 56 Chalme Anceroan do, preferred 56 Chalme Anceroan do, preferred 56 Chal Reading, in all of which a good sized short interest is believed to exist, and the comparative scarcity of offerings made it easy to mark prices up. Union Pacific was a strong feature, and the Hill stocks were in good demand. Considerable covering of shorts was in evidence, but a fair proports. was in evidence, but a fair proportion of the buying apparently represented accumulation and at no time was there any marked pressure of Imperial Merchants

was there any marked pressure of lamperial 217½ long stock. In the afternoon profit-taking caused some moderate recessions, but there was not recessions, but there was not recessions. sions, but there was no impairment of the firm undertone. The closing was irregular, but firm near the top.

BUSINESS REMAINS DULL.

World Office. Tuesday Evening, Sept. 3.

Toronto operators in the stock market made practically no response after the three days' holiday in the market. Trading to-day was much quieter than it was lost week, and prices moved when business was done in a most languid manner. There was nothing to entituse the market, and the apathy of the public was entirely in consonance with the surroundings. Local speculators find it impossible to play domestic securities on margin, and have, therefore, betaken themselves to the Wall-street proposition, which shows a better disposition to bullthan has been the case for several weeks. The feature at the Toronto exchange was the inherent strength of most of the speculative issues. If there were few buyers, it was equally plain that there was not a plenitude of sellers. In market circles, sentiment was cheerful, and a rally, tho it may be delayed, is confidently expected.

FOREIGN MARKETS FIRM A New Financial Further Sharp Rise in Grain Options at Chicago With Rally Company

The Title and Trust Co. of Toronto, recently organized, will be ready for business shortly, in the new Continental Life Building, corner of Bay and Richmond.

It represents an entirely new idea in Canadian finance—the insurance of real estate titles, together with mortgage loans and the sale of such mortgages with he Company's bond of payment. The title guarantee affords absolute protecion from defective tax and title searches, the Company assuming full responsi bility for any possible mistakes.

Toronto's growing importance as a financial centre makes ample room for the new company, which includes the following well-known names on its

BOARD OF DIRECTORS.

E. F. B. JOHNSTON, K. C., Toronto . President HON. W. A. CHARLTON. Toronto... First Vice-President W. J. GAGE, TorontoVice-President NOEL MARSHALL, Toronto Vice-President

GEO H. HEES, Toronto. W. K. GEORGE, Toronto. W. R. HOBBS, Toronto. JAS. B. TUDHOPE, M.P.P., Orillia. J. A. KAMMERER, Toronto.

R. WADE. Orillia. ALLAN MACPHERSON Longford Mills. JACOB KOHLER, M.P.P., Cayuga.

In addition to Title Insurance, the Company will do a GENERAL TRUST BUSINESS, its operations covering the entire Canadian field. Its services will be equally at the command of men of small means, or the capitalist with a million. Care has been taken to get the organization thoroughly perfected in advance, and in making its introduction to the general public, it adds the assurance of absolute safety, backed by a large deposit with the Dominion Govern-

In 1904 the camp produced 158 tons, valued at \$136,217; in 1905, 2144 tons, valued at \$1,473,196; in 1906, 5129 tons, valued at \$3,900,000.

COBALT --- Rothschilds Mine Closed, But May Be Opened Up --- COBALT

Rumors of an Important Find on Foster Cause Strength of Stock.

World Office,
Tuesday Evening, Sept. 3.

Except for a little buying in Foster he Toronto miring markets to-day lisplayed the same apathy as has exsted for some time. The scarcity of the scar displayed the same apathy as has existed for some time. The scarcity of Win bids when bidders appear is quite apparent, but the speculative element is too nervous to buy extensively for a prospective rise. The demand for Foster was quite strong all day and the law and the l too nervous to buy extensively for a prospective rise. The demand for Foster was quite strong all day and the price made a gain of about three points. The buying did not appear to be based on specific information, but after the close of the market it was announced that a new and promising vein had been found on the company's property. Cobalt Central continued to show much activity on the New York curb, but there was no attempt to follow this here except by way New York curb, but there was no attempt to follow this here except by way of quotations. The sentiment around the markets is much improved and advances rather than set backs are now the principal topics of discussion.

Colonial Investment 6.25
Constal Canada 6.25 NEW YORK, Sept. 3.—Rumors that an important announcement in Cobalt Central is pending have led to a rise over 10 points in the stock within the last ten days. The advance was accelerated by the rush of the shorts to cover, altho the English syndicate, of which the Earl of Chesterfield is the head, placed some of the largest orders in the local market. As a matter of fact, all of the Cobalt stocks have improved intrinsically as a result of the development work that has been done in that camp during the present summer. It is announced that some of the leading companies will begin the operation of their concentratin nts constructed during the summer at an early date. A ploneer in this regard has been the Cobalt Central Mines Company, which controls some of the richest property in the Canadian camp. Altho one of the newest of the producing mines, the Cobalt Central has so systematized its development work that it will be among the first to put into operation the economical and labor-saving devices which have so long been in use among the mining camps of the west. Ever since the discovery of the Cobalt camp several years ago, methods almost primitive have been used in the district. After Oct 4; howof the Cobalt camp several years ago, methods almost primitive have been used in the district. After Oct. 1, however, the Cobalt Central and several of the more progressive companies will concentrate all their ore, and will greatly reduce cost of production, with the result that the efficiency of the mines will be increased over 50 per the mines will be increased Cornmeal—Firm; fine white and yellow, cent. MIRACULOUS ESCAPE OF BABY IN RUNAWAY

Dr. Pidgeon Decides to Remain in Town-York Township Council Has Quiet Day.

TORONTO JUNCTION, Sept. 3 .-

The fifteen months old child of Mrs. Close, 48 Union-street, had a miraculous escape from death at 5.30 o'clock this evening. One of the Robert Simpson Co.'s delivery wagons was proceeding along Dundas-street at the proceeding along Dundas-street at the Occidental Hotel, when the front axle snapped, and the shock of the wagon falling forwards frightened the horses, causing them to bolt. The driver, Chas. Ross, was thrown to the ground, and tho his shoulder was badly hurt by the fall, he managed to hold on to the reins and so prevented the horses from making much headhold on to the reins and so prevented the horses from making much headway. The horses rushed straight towards the sidewalk, where Mrs. Close was standing, with her child in the baby carriage. Before she could get out of the way, the horses sprangright over the child, and the wagon struck the baby carriage and smashed it to pleces and the child sold of struck the baby carriage and smashed it to pieces, and the child rolled off the high curbstone into the road under the wagon, sustaining no more serious injuries than a slight scratch on its forehead and on one of its legs. The mother almost collapsed thru nervous excitement, and had to be assisted into a house close by, where she soon recovered. The baby, which is a pretty child, with large blue eyes, seemed not the least frightened and lay in its mother's arms, appearing quite interested in all that was going on around it. The horses proceeded down Dundas-street, dragging the front wheels of the wagon and whiffle trees behind them, and nearly upset a wagon that was coming in the opposite direction. They ing in the opposite direction. They were caught shortly afterwards and brought back to Rutledge's livery stable.

stable.

At the meeting of the presbytery to-day in St. James-square Presbyterian Church, committees from Victoria Church, Toronto Junction, and from First Presbyterian Church, London, presented their claims for the services of Rev. Dr. Pidgeon. The presbytery has the power to decide what course a minister must pursue in a case of this kind, but after hearing some of the arguments, Dr. Pidgeon decided it was his duty to remain in the Junction, altho he has

Junction fire hall to-night and made the acquaintance of the firemen. He states that when a horse in the fire department in Kansas City has servdepartment in Kansas City has served the public for a term of 15 years, it is allowed to go on the retired list, and is supported by the municipality until it dies a natural death.

Kathleen Russell, 35 years old, and unmarried, residing with her parents on Dundas-street, near Janes-street, just outside the town limits, was arreste dto-night, and is believed to be nsane. She has been terrifying the neighbors by throwing stones and bottles at every one she sees, and has become a menace to the public safety. She will appear before Police Magis-

trate Ellis to-morrow and will likely be remanded for an examination by the medical authorities. Oscar Weaver was arrested to-night

with the money he had stolen.

The engineer, fireman and crew of the C.P.R. train, which was wrecked near Cardwell Junction this morning, are all residents of Toronto Junction The marriage of James Keating, fireman at No. 2 fire station, Toronto Junction, will take place at 4 p.m. tomorrow in St. Mark's Church. money bylaw, amounting to \$7945.55. YORK MILLS.

Sneak Thieves Rob Rectory While Pastor Was Preaching.

YORK MILLS, Sept. 3.-Sneak thieves are operating in this vicinity, the latest victim being Rev. Mr. Ash croft, rector of the Anglican Church at this place. While the rector and his family were at church on Sunday the thief or thieves obtained entrance to the house, thru a window and ransacked the place from top to bottom, turning everything upside down. They were evidently bent only on securing money taking some \$13 in money and some county police are looking the matter up.

Meet me at Newcombe's Rest Room. to-day's Liberal convention.

GITY-OWNED RAILWAY

Attitude of Street Railway in Usurping Roadways Stirs Up the Business Men.

"Since coming into this chamber, this afternoon, I have twice been told that under the decision of the privy council the Toronto Railway Company may lay its tracks upon any and every street in the City of Toronto. If this be true, if no contract, however carefully drawn, can preserve to a municipality the control of its own streets, then I for one and I think every other citizen in Toronto, however opposed he may have been in the past to public ownership, is ready to hold up his hand for the expropria-tion and municipal operation of our

street railway system."

Thus said J. W. Woods, president of Board of Trade, in addressing the city council yesterday afternoon respecting the proposed street car line upon Bay-street. There was a scared silence and a holding of breath as he spoke, but he finished amid loud applause. Indeed the meeting hung out red amps for the Toronto Railway. The proposed Bay-street line was put to the sword, only the mayor and Con-trollers Hocken and Harrison protestng. The University-avenue line was blotted out without a contest. The Carlaw-street line was approved. The

other proposed lines and extensions go back to the board of public works. Subway for Yonge Street. Before adjourning notice given of a resolution requiring of a subway under Yonge-street from the northern limits to the bay, and under Queen-street across the city east and west.

Controller Hocken took a fall out of the Ontario railway commission, his worship vigorously protesting. Mr. Hocken believes that Toronto has nothing to hope for from that tribunal. He has no respect for the board or its judgments. He intimated that the legislature was not much better. R. J.

C.P.R. tracks. The council went into committee upon the proposed street railway exons, and heard various deputa-

J. W. Woods, president Toronto Board of Trade, said that the street car company was applying for every street south of Queen-street except Leader-lane. He was told that the company had the right to take any and all streets. If this be true then company had the right to take any and all streets. If this be true then the time was ripe to expropriate the railway and start upon municipal ownership and operation of this great

Mr. Symington of the Shedden Cart-Mr. Symington of the Sheat age Company declared that the present loops were not a success. They had added to, instead of decreasing, the congestion. Seven hundred loads were hauled upon Bay-street every day. It was about the only street left. The Scott-street loop, Mr. Symington declared to be a burlesque. Street cars stood idle for minutes and

hours while the crews assembled on the curb and discussed politics or anything else.

Wm. Langton of the Dominion Transfer Company said that during the month of May his company hauled 25,000 tons over Bay-street.

Mr. Wilkie of the Hendrie Company

carters of the G.T.R., said that his company had 74 teams and hauled over 1000 tons a day. It was essential for traffic that Bay-street be not interfered with.

J. D. Allan, on behalf of the mercantile interests, said that business could not be carried on without fa-cilities for intra-urban transportation. Demand Reduced Taxes.

W. R. Brock, in objecting to the Bay-street extension, said that the taxes would have to be reduced one half on Bay-street if the cars were allowed on that thorofare. Dr. J. N. E. Brown objected to the University-street line. He felt that the hospital would object. The less

Frank Slattery, barrister, who sides on University-avenue, said that dren. The proposed street car line would ruin the street Lewis Gurofsky, in behalf of the synagogue upon University-street, ob-

jected strongly to University-street being used. Let the company use Teraulay-street. Rev. Mr. Thompson, pastor First greement with the City of To-e sewer connection on Heath-Deer Park, was signed.

Baptist Church (colored), corner Uni-versit yand Edward-street, protest-ed in behalf of his congregation. The street car line would militate against 11, effective church service. Ald. McMurrich moved that the

matter be laid over until the meeting of the council on the 9th inst. Ald. McGhie opposed The meeting was called to consider the report—why not consider it? Controller Hubbard opposed post-ponement, but he was opposed to the Bay-street concession. The motion to adjourn was voted down, only Messrs. McMurrich, Adams and Church voting

In committee a general discussion followed. Ald. J. J. Graham moved to strike out the University-avenue Controller Hubbard moved Carried. to strike out Bay-street. This, stoo, carried, altho Controller Harrison spoke against it, and the mayor and Controller Hocken were evidently inclined to support him.

Meet me at Newcombe's Rest Room. Party Stalwarts.

R. Patterson and J. B. Watson of Kincardine are in the city to attend

74 LOADS AT CITY YARDS

Many of Poor Grade - Prices About Steady-Market Slow-Lambs Easier.

Receipts of live stock at the City Market since last Friday, as reported by the railways, were 74 carloads, consisting of 1050 cattle, 298 hogs and 200 calves.

As regards quality of cattle offered, it was a repetition of what has been coming for several markets, only worse.

Trade was all right for a very small percentage of the cattle that are classed as good these days, but for the great bulk of offerings the market was dull, with prices no better, if not werse.

Exporters,

There were one or two loads of light

There were one or two loads of light exporters, 1200 to 1250 lbs. each, that were bought for to be slaughtered here for butchers' purposes, that sold at \$4.85 to \$5.05 per cwt.

The best butchers' sold at \$4.40 to \$4.65; fair to medium sold at \$3.75 to \$4; common at \$3.25 to \$3.50; canners at \$1.50 to \$2; cows, \$2 to \$3.50 per cwt. Feeders and Stockers.

The only, feeders and stockers offered are what is known as eastern cattle, of poor quality, which are next to being unsaleable, as no person seems to want them for any purpose.

Milkers and Springers. There is a fair to good market for good springers and choice quality milkers, at \$35 to \$54 each.

Veal Calves. Good quality veal calves met an excel-lent market, but common, inferior calves sold at low prices. Quotations ranged at

sold at low prices. Quotations ranged at from \$2 to \$6 per cwt. There were a few calves sold at \$6.50 per cwt., and \$7 would be paid for the right kind.

Sheep and Lambs.

Deliveries were large, with prices easier. Export ewes sold at \$4.25 to \$4.50; bucks at \$3.50 to \$3.75 per cwt.; lambs at \$5 to \$5.75 per cwt.; lambs at \$5 to \$5.75 per cwt.; lambs at \$6.25 per cwt.

Hogs.

Deliveries light. Mr. Harris reported prices unchanged at \$6.25/for selects and \$6 for lights and fats.

Hocken believes that Toronto has nothing to hope for from that tribunal. He has no respect for the board or its judgments. He intimated that the legislature was not much better. R. J. Fleming's say so was taken in opposition to the testimony of the board of control.

Mayor Coatsworth called him to order.

Ald. McGhie feared that such talk would so embitter the board that the city could never hope to have an application granted.

Mr. Hocken stood his ground:

"It couldn't be any worse than it is now," he insisted.

It was nearly 3.30 when the mayor, plug-hatted and white-gloved, called the council to order.

A petition was presented by Controller Ward praying the municipality to purchase the Victor ravine for park and playground purposes.

A resolution was introduced by Ald, Geary favoring the railway viaduct solution of the Yonge-street and other grade crossings.

A bylaw was introduced and read a second time respecting the widening of Lansdowne-avenue, south of the C.P.R. tracks.

The council went into committee

springers at \$43 to \$50 each.

Alfred Pugsley bought for the Harris
Abattoir Company 300 lambs at \$5 to \$5,75
per cwt.; 125 sheep at \$4.50 per cwt.; 75
calves at \$3.50 to \$6,25 per cwt.

James Ryan bought 6 milkers and
springers at \$32 to \$47 each.

Wesley Dunn bought 1200 lambs at \$5.85
per cwt.; 250 sheep at \$4.40 per cwt.; 150
calves at \$7 each.

Market Notes.

Market Notes. Messrs, Stewart Milsap of Milsap, Ont.;
J. A. Wartman, Newburgh; R. L. Smyth
of Fargo, Ont., and Fred Walker of Camden East, were amongst the many visitors at the market.

Wool Underwear, single and double breast, absolutely unshrinkable, very fine and soft, non-irritating, sizes 34 to 46, Thursday, per ment ... 1.00 "Pen Angle" Brand

Natural Wool Underwear, fall and winter

weight, guaranteed unshrinkable, will not irritate the skin, sizes 34 to 42. per garment 1.00 Sizes 44 to 50, per garment 1.25

Men's English Natural Wool Underwear, winter weight, made double breast or double back, guaranteed unshrinkable, sizes 34 to 46, per garment 1.50

If this garment shrinks in washing we will replace it free.

COSTS REDUCED.

Chief Justice Mulock has decided that only those witnesses who were called can be charged against Peter McMichael, who was found guilty of being a member of the plumbers' combine and fined \$250. Only fourteen of the thirty summoned were called. A reduction of \$150 is also made in counsel fees, and the total costs will be reduced to the neighborhood of \$1000.
