

## The Sincerest Form of Flattery.

An old saying which is well illustrated in the case of Dr. Chase's Syrup of Linseed and Turpentine.

IT is easy to imitate, little brain power and little energy are required. Small capital invested in imitations sometimes brings large returns—for a time.

No real success, no reputable business was ever built on imitation. As a treatment for throat and lung troubles no medicine ever attained anything like the success in this country that has been reached by Dr. Chase's Syrup of Linseed and Turpentine. To-day there is no medicine which has so many imitations.

The skill and ability which was put into the preparation of this great family medicine, the expenditure of capital and energy which were required to introduce it to the public, made it an enormous success.

The imitator and substitutor come along and would steal this reputation.

They imitate the name and package, but the merit of the preparation they can never obtain.

They may deceive the public into using one bottle, but they will undermine their business. People will not continue to trade with an unreliable dealer, the risk is too great.

If you are one of the thousands who have learned the merit of this preparation, take warning and be sure you get what you ask for. The portrait and signature of Dr. A. W. Chase is your guarantee.

# Dr. Chase's Syrup of Linseed and Turpentine

Is the favorite home treatment for Croup, Bronchitis, Whooping Cough, Asthma, Coughs, Colds, and Throat Irritation. It prevents Pneumonia and Consumption. It is sold by all dealers at the advertised price, 25 Cents a Bottle, family size, three times as much, 60 Cents. EDMANSON, BATES & Co., TORONTO.

TO PROTECT YOU against imitations the portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every bottle.

### LIBERAL VIEW OF CHAMBERLAIN GREATEST BLUFFER ON EARTH

Prominence Given to Him and His Campaign Due to Newspaper Trust and His Friendship With Editors—Yankee Politicians in England.

Editorial World: As a former resident of Toronto, but living in the metropolis of the world, I am a constant reader of your bright and snappy papers. I find that I can get all the news of my native land in your paper in about half the time it takes me to wade thru the other Toronto papers. But the World, in common with the other dailies in Canada, has fallen into the fault of presenting only one side of the great fiscal fight that is on in this country. But there are two sides and I am not ashamed to say that I am on the side that is not for Joe. I do not think that you are greatly to be blamed for giving more space to Joseph and his grandiose speeches than to the orations of Lord Rosebery, for Chamberlain is for the moment the man in the public eye. Yet I do not want you to lose sight of the fact that there are a Rosebery, a Campbell-Bannerman, an Asquith, and many other men of first-rate ability on the other side of the fight. Joseph has not the game all in his one hand by a good deal.

Britain's Greatest Campaigner. There is this to be said of Chamberlain, he is the greatest campaigner Britain ever saw. His strength lies in his little measure in the fact that he stands high with the editors, the reporters and the managers of the papers throughout the land. He makes good copy. He is spectacular. The editors can feature his speeches. He is their "meat." The American newspapers are nothing more pronounced than in its influence on the newspapers of Britain. The American press has been just as Roosevelt and Mark Hanna do in the press of the United States. Joseph is quietly working to create the press. He has as his right hand man one Sir Gilbert Parker, in this all-important part of his crusade. What Parker does not know of newspaper boomerang is yet to be discovered. The Harmsworths, for instance, are for the moment lauding Joseph, and that means filling 3,000,000 dailies daily with the praises of the new apostle. They have between 20 and 30 dailies in different parts of the realm. This "truth" in newspapers is a development of the last few years, but it threatens to throttle local free opinion. For instance, the Liberals had a strong paper, "The Leader," in Newcastle-upon-Tyne, but it was bought up by Pearson's syndicate after a few hours' negotiation, and within 48 hours was denouncing Liberalism and praising Chamberlainism. To offset this defection, "The Echo" of Darlington opened an office at Newcastle and is making good. It is the hope of Liberals that it will beat the renegade "Leader."

Joseph a Great Bluffer. Then again the leaders of Liberalism are handicapped by the fact that they cannot put on the insinuating manner that is the charm of Chamberlain. The common habit of Lord Rosebery is a bit stiff as a rule, due, no doubt, to his natural nervousness and shyness, but many of the biggest bluffers are practically unapproachable in their natural reticence. Chamberlain is the other way. He is a "Yankee" politician in England. He pulls very wide and uses the heavy old platform of "buff" in a way that would warm the heart of a Jim Blaine or a Bob Plimpton. Personally, I believe that Chamberlain is losing ground every day. Liberals have no faith in his sincerity, accuracy or his wisdom—a distinction from conspicuous ability in administration. The newly appointed

### DIPHTHERIA ON INCREASE BUT SMALLPOX DECLINES

Reports of Drs. Bryce and Hodgetts Read at Provincial Board of Health.

The quarterly meeting of the Provincial Board of Health was held yesterday afternoon in the office of Dr. Bryce. All the members were present, including Dr. Kitchen, St. George, Dr. Casling, Dr. Bryce, secretary; Dr. Casling, Toronto; Dr. Oldright, Toronto; Dr. Boucher, Peterboro; Dr. Thompson, Gt. Barrington; Dr. Douglas, Cobourg. Most of the afternoon was taken up with the reports of Dr. Bryce on the spread of diphtheria and of Dr. Hodgetts on smallpox. As to the former, there has been a considerable increase since the opening of the schools, the disease being spread largely by direct contagion. In Chesley 23 cases were traced to a house from which milk was distributed. A marked decline in the number of cases of smallpox was reported, and Dr. Hodgetts held out the hope that there were no indications of a general appearance of the disease this winter.

Diphtheria on Increase. Dr. Bryce's report for the quarter showed that in August there were 162 cases, of which only 84 were due to the six diseases dealt with by the Public Health Act. The remainder were due to diphtheria, which had increased considerably with the opening of the schools. In 27 municipalities reporting 122 cases there were 24 deaths in August, 38 in September, and 24 in October. The returns for October to date from 52 municipalities gave 461 cases and 54 deaths. In referring to Toronto, where the cases of diphtheria have run up from 51 in September to 118 in October, with 13 deaths, the secretary said: Of 770 cases which had occurred to the end of October the city, 448 had been treated in hospitals, or 57.9 per cent. Up to date the Medical Health Officer reported 319 cases and 19 deaths, and stated that since March all cases have been treated in hospital. The rate per cent. treated in hospital is 12.22 per cent. for the whole 10 months, and of these 9 out of a total of 19 deaths occurred in January, when only a part were treated in hospital.

Even more satisfactory report has been received from Guelph, where for years it has been the custom to receive almost all diphtheria cases in hospital. Here 9 cases were reported without a single death. On the other hand, in London, where there is no contagious disease hospital, 94 cases were reported in a single month. A number of fatal cases occurred in January and February.

200,000 Railway White Ribbons. Chalmers, O., Nov. 18.—The convention of the W.C.T.U. today appropriated \$200 for an exhibit at the World's Fair. The report of the work among the railroad employees showed that over 200,000 white ribbons were being worn, and that the railroad companies were now wearing the full road temperance button. Social falls, in the intention to take up the Republic plan.

New Beach Property Owners. An informal meeting of property owners in the vicinity of New Beach was held on Tuesday night at the residence of W. McTear, who is endeavoring to discontinue the formation of an association, and it was decided to call a general meeting of the property owners at the New Beach Fire Hall, Queen-street, on Tuesday, Nov. 24, to consider the matter. All property owners in that part of the city are requested to be present.

### PUBLIC AMUSEMENTS.

Considerable interest has been awakened by the announcement of the appearance at the Princess Theatre of Aubrey Boucicault next week, in Theodore Bart Royce's new comedy, "Captain Charlie." The name of Boucicault has long headed the list of prominent English-speaking actors. The late Mrs. Boucicault, father of Aubrey, gave the stage many excellent productions, which amounted in all to 450 produced plays, and his name will be handed down to posterity if for no other reason than that he was the author of "The Wages of Sin," which is now being played at the Theatre. Young Boucicault has not only inherited his father's talent as an actor, but is also a playwright of no mean ability, for last season he dramatized "Alt Jeldberg" and starred in it.

Clyde Fitch has outdistanced all modern competitors in the amount of money which he has made during the same period of time. He is a new and high order. The girl and the judge is said to be his best. It is a beautiful love story with an undercurrent of sensationalism, and is told in the playwright's most ingenious manner. Eleanor Montell, who possesses great histrionic ability and beauty, will appear in the leading role on the occasion of its presentation at the Grand Opera House, and will be accompanied by Miss Montell, a daughter of Eugene Blair, a favorite in Toronto.

Two Thousand Shirts for Men. On one of the shirts of the late Philip J. Anderson, calling attention to a special sale of men's shirts. These shirts are the celebrated "Fidelity" brand, and as every body knows have never been sold for less than \$1.25 and \$1.50. Mr. Anderson has bought the entire stock of a prominent dealer, being his own season's new patterns, and having bought them at little more than cost, he is offering them at a special price, every one of which sold at no more than 50 cents. The shirts are made of the finest quality of material, and are guaranteed perfect. The sale starts on Monday, and will continue for two weeks, on the 10th and 11th. Mr. Anderson has bought the entire stock of a prominent dealer, being his own season's new patterns, and having bought them at little more than cost, he is offering them at a special price, every one of which sold at no more than 50 cents. ### STUMP IN SHIPMENTS.

Up to Oct. 31 a total of 8140 cords of grain had been moved to the 1st front, principally from points in Manitoba. For the same period last year 11,002 cords had been shipped. Last year the weather prevailed from the date of cut till the close of navigation, so that the crop was not only harvested, but threshed quickly, and found its way to the railway much earlier in season.

Clyde Fitch has outdistanced all modern competitors in the amount of money which he has made during the same period of time. He is a new and high order. The girl and the judge is said to be his best. A well-groomed woman in the delight of her husband's eye and the envy of the block.—DRESS.

But no Canadian woman can be well-groomed in winter without a Fur Jacket—without a stylish Fur Jacket of good quality. Such jackets we sell only. In our show-rooms there is a stock conversationally estimated to be worth \$200,000.00. All but one-eighth of this was manufactured in our workrooms from fur purchased direct by us. You will appreciate what this all means to you should you purchase from us. Even a look through the show-rooms will convince you.

In Alaska Seal Jackets we are usual claim superiority over other makers. Our stock this season embraces a very perfect collection of high-class Seal Jackets with different trimmings and linings.
