### SOLDIERS ENTERTAINED BY PALGRAVE PEOPLE

Excellent Reception Tendered to Two Hundred and Thirty-Fourth on Route March.

PALGRAVE, Ont., July 10 .- Favored 234th Battalion broke their camp at Caledon East today and marched to Palgrave. The roads were very dusty and hilly, causing frequent halts. Arriving at Palgrave they camped for the

night.

An excellent reception was tendered them by the people of this village, who served the battalion a very substantial dirner. In the evening the usual accruiting meeting was held, it being largely attended. Today's march completes about half of the battalion's recruiting trek. Every day has been excellent for marching, and as yet no rainy weafor marching, and as yet no rainy weather has been encountered.

From the recruiting standpoint the results have been favorable, and altho comparatively few recruits have signed, nevertheless many have promised to report in the fall after the crops are off the land. Tomorrow the battation marches to Bolton, where the 12th of July will be spent. A good meeting is expected on this date, as a large Orango celebration is being held in Bolton.

### ST. THOMAS RATEPAYERS WILL VOTE ON BYLAW

City Council Considers Proposition to Build Hosiery Factory at Cost of Fifty Thousand,

ST. THOMAS. Ont., July 10.—A special meeting of the city council was held this evening to consider a proposition from the Monarch Knitting Company of St. Thomas and Dunnville to build a hosiery factory here at the cost of \$50,000. The company asks for a loan from the city of \$30,000, without interest, for five years, and a fixed assessment of \$10,000 for ten years. The finance committee decided to put the question before the citizens, and a bylaw will be voted on early in August.

and a bylaw will be voted on early in August.

Pte. Victor Kane of the 142nd Battalion, who met his death by drowning at Camp Borden Sunday morning, was born and educated in St. Thomas, and entered the employ of the Wabash Railroad here, but was stationed at Chicago for a few months prior to his enlisting. The remains when found are to be brought to St. Thomas for burial. His father and two uncles are residents of this city, and two sisters and two brothers also survive him.

Several Thousand Men Stormed Headquarters After Parade and Broke Number of Windows and Doors-Trouble Apparently Due to Discomforts of Evening in Sultry Weather.

no time the whole camp seemed to By a Staff Reporter.

CAMP BORDEN, July 11.—Between and 8 o'clock tonight a riotous outbreak with several thousand troops of the London district participating, took place near the new headquarters building. They swarmed into the open air howling, waving sticks, struggling and threatening officers. Within half an hour after the trouble started headquarters was stormed, the rioting men throwing stones, breaking a great

number of the windows and swarming up onto the roof.

A massed band concert was ordered by the officers, but the strains of "O Canada" failed to quieten the turbulent spirit of the men from the London district. The way the men talked to-night incitcated that there would not be a review by Major General Sir Sam Hughes tomorrow if they had their way. Men of the 161st Battalion op-

Many Rumors Aflost.

All sorts of rumors filled the camp, and the various stories could not be verified. It was reported that three men had died of prostration. Also that a whole platcon had left comp. One man in the 161st was taken from the guard house after the officer in charge had been threatened.

The whole trouble started after the coremonial parade this afternoon. The

NIAGARA FALLS, Cnt., July 10.—
Two bylaws were voted on today by the ratepayers of Stamford Township, one requesting the government to take over and operate the plant of the Ontario Distributing Company in Stamford and Niagara Townships, pending the enactment of legislation that will permit the municipality taking over its own lighting plant under hydro-electric supervision, and the other a \$28,000 own lighting plant under hydro-electric supervision, and the other a \$28,000 debenture bylaw for the purchase of the plant. Both bylaws carried the question by 2 vote of 100 to 34 and the enabling bylaw by a vote of 31 for and 51 against. Owing to the farmers being busy with their crops there was a small vote polled, only about 20 per cent, of the vote.

Guarded with Bayonets.

Between 9 and 10 o'clock, as the Lordon men were still in a rioutous mood, a row of guards with rifles and fixed bayonets were stationed on the side of the 170th Battelion's area, nearest to the area of the distubers. The men of the 170th and Mississauga Battalion from Toronto were placed at ten-foot spaces along the entire length of their tent line. They were not only guarding their own lines but also the whole southern half of the camp, where all the other Toronto district regiments are encamped.

The riotous London sudiers walked in angry groups close up to the 170th Mississauga men, jering and threatening. Some called on the men of the 170th to "throw away their rifles."

A Bloodless Charge.

At 10.30 the 170 Battalion sentries charged into the London men with fixed bayonets and routed them, but there were no casualties. Five or ten shots fired in the air, added to the general excitement. An officer of the 170th shouted that if his men were ordered to charge again they would really use the bayonets. The rioters quieted down considerably after this warning.

The whole trouble started after the coremonial parade this afternoon. The men came back to camp choking with thirst and dust. The 163th Oxford men gathered together after considerable howling, and started on the run for the lines of the 186th. They were stopped in time by Col. McMullen, and it was thought that the matter was over.

Shortly after seven tonight, however, the tumult started again in front of the 149th lines, and the air became charged with the spirit of unrule. In

NO CITY ENGINEER.

Special Meeting to Appoint One "Scrambied" By Ald. Newlands. HAMILTON, Tuesday, July 11.—Hamiton will be without an official city engineer for at least another month. The special meeting of the joint commission of works and board or control members scheduled for yesterday was "scrambled" by Alderman David Newlands.

The Ward Seven representative arrived late and found the meeting in full swing. He sat in the back benches and refused to enter into the discussion until finally when a motion to appoint E. R. Gray to the chief engineership and A. P. Kappele to the business managership was put, Ald. Newlands made his first announcement.

"I think you are all of a kind" He said "You are doing business without a quorum." Everybody started talking at once and the meeting broke up in confusion.

# HUMBER BOULEVARD WILL BE DIVERTED

Council Adopted Commissioner's Recommendation Yesterday.

WILL FILL THE "GAP"

Guaranteed Harbor Bonds for Million and Half-Ald. McBride Angry.

Ald. Sam McBride was the original "I told you so" actor at the city council meeting yesterday. When the pro-posed diversion of the Humber Boule-vard scheme from the Humber Valley to the high ground to Bloor street, came up for discussion, the alderman declared that recent events proved his contentions in council some years ago that R. Home Smith had put it over the city to thte extent of \$125,000. "Do you remember me then saying" he said, "it was the greatest steal ever put over the citizens? I told you then that \$125,000, the amount you guaran-teed to provide for the construction of

Ald. Gibbons wanted to know how the city was going to divert Bloor street when the section it was proposed to close up was in York County. And of a high level bridge or a fill. Also

what either would cost.

Ald. Robbins: "We ought to be careful. I understand that whereas we voted \$125,000 for the boulevard it may

that only recently he learned that if the city's \$125,000 did not complete the boulevard, R. Home Smith had no responsibility to finish the work. The proposed change, he declared, was the most economical way out of the difficulty. It would take many times \$125,-000 to converted a boulevard thru the culty. It would take many times \$125.000 to construct a boulevard thru the
marsh, and while Mr. Smith believed
he could hold the city to its original
bargain he had agreed to the change
in parts.

"If you spend \$125,000 on that marsh," he said, "you might just as well throw it in the lake."

McBride's Opinion.

Ald. McBride took the floor and reminded the council of his admonitions minded the ccuncil of his admonitions when the original agreement was discussed. "The \$125,000 was simply a bait amount to get the city interested. Home Smith has got you by the throat now and he can squeeze you just as tight as he likes to the extent of \$125,

Nays—Mayor Church, Controller Camperon, Ald, Nesbitt, Maguire.

Ald. Gibbons wanted to know how the city was going to divert Bloor street when the section it was proposed to close up was in York County. And where it was proposed to cross the marshy ground, he thought accurate information should be at hand as to whether it would be effected by means of a high level bridge or a fill. Also with previous funds he would not carried the commission had accomplished with previous funds he would not

of a high level bridge or a fill. Also what either would cost.

Ald. Robbins: "We ought to be careful. I understand that whereas we voted \$125,000 for the boulevard it may cost us half a million."

Controller O'Neill frankly admitted that only recently he learned that if the undertaking, and if the city was to not a stop to the work at this stars. to put a stop to the work at this stage they would take the opportunity. ## "LIKE FATHER, LIKE SON.

Kipling says: "When you hear the East a-calling you can't hear nothing else." Its the same with old soldiers. When the time comes they "can't hear nothing else." A few weeks ago George Oakley of Cedarvale avenue walked into the recruiting office of the 70th Overseas Battery in the Lawlor Building and enlisted. He is the proud lather of a fine son who had previously joined the "Buffs." By a wise regulation, it is decreed that a father can claim a son, so a transfer is being arclaim a son, so a transfer is being arranged. The father used to "serve the guns" in the imperial service; now the boy will help him to pepper the "Huns." The "young 'un" will have to step to beat Dad.

LONDON, July 10.—(4.37 p.m.)—Premier Asquith, in explaining the Irish agreement in the house of commons tobill should remain in force during the war, and twelve months thereafter, and if parliament had not made further provision by that time for a government of Ireland, the period could be extended.

Representatives of the imperial executive, the prime minister said, would have control of the Defence of the Realm Act.

Mr. Asquith said the new bill would contain general provisions reserving for the exclusive authority of the imperial parliament and government not only the navy and the army, but all matters arising out of the war.

He emphasized that there was no intention on the part of these who might be associated with the government of Ireland to encroach in any way in regard to a successful prosecution of the war.

"We have here," the premier said, "an arrangement such as never was possible before," and he appealed to the members of the house to take advantage of the opportunity, which might never recur.

Mr. Godfrey was extremely cordial to the Fox Players, invited them to his home, and willingly gave his consent to their taking as many pictures as they liked on his grounds. He then announced to them that he had a projecting machine of his own set up in his house, and a small camera for taking moving pictures. He was, in fact, a movie fan of the first order. At nights during the stay of the company, Mr. Godfrey invited them to his house, entertained them, and showed them moving-pictures in which they themselves had acted. In the day he would follow them around the grounds, watching the camera work. Many of his friends came around, and a temporary camping outfit was arranged consisting chiefly of a great supply of cushions. When scenes were shifted to other parts of the estate, the cushions followed on a large wagon, and the temporary seats for spectators were set up.

heavy loss to the enemy.

"Yesterday afternoon, as already reported, two more German counter-attacks in mass against our positions in the wood were crushed by our artillery. Again, last evening, the enemy bombarded the wood with all natures of armaments and launched two strong attacks against it from the east and southeast. The first of these was completely repulsed. The second succeeded in penetrating the southern end of the wood, but the Germans were at once ejected with heavy losses. Later in the night a fifth desperate attempt was made to drive us from our positicns, but this also was completely crushed by our fire.

"The enemy's casualities in these five fruitless attacks have been severe.

"The enemy's casualties in these five fruitless attacks have been severe.

"At other places on the battle-front progress has been made. Northwest of Contalmaison we captured a small copse and three more guns, and this morning we have taken several hundred more prisoners.

"On the Flanders front the enemy's artillery was active and heavily bombarded our trenches near Hooge for three hours. In this neighborhood we made three successful raids into the German front line."

### Back to Good Times Again

That from a financial standpoin Canada is benefiting by the war, and that she is entering upon an era of unparalleled production and prosperity are the deductions fairly to be drawn from an interesting article in The New York Annalist reprinted by The Monetary Times entitled "Canada's Assets and Liabilities, Income and Outgo,

Our national debt has increased on account of the war, but not to anything like the amount our business has increased, because of the money spent by the allies for munitions and supplies in Canada. The war shut off for a time our supply of money from England, but we have managed to borrow \$300,000,000 in New York, and after the war we will have two strings to our bow. True, European immigration has ceased, and American immigration has fallen off. Indeed The Annalist says that for every American farmer who comes to Canada six return from Canada to the United States, but there is nothing to indicate that we have not share to his widow. men enough to till the land, and with peace there is bound to come an enormous immigration into Canada of farmers from the American West. Immigrants in even larger numbers will come from the United Kingdom but a large proportion of them will be without much experience in farming. The tourist trade, said to be worth \$10,000,000 a year to Canada, has not fallen off materially. Our railway earnings have made sensational advances and the balance of trade, formerly always against us, now flows in our favor to the quarter billion mark

Real estate values are below the normal, being proverbially quick to fall and slow to rise again, but there has been no panic and they will appreciate immediately after the war, as did real estate values in the United States at the close of the Civil War. It may and 1910, \$21,712.74; 1911, \$18,718.84; be true that Canada's overhead expenses as a nation are high, and that cities have been improved and rail ways constructed to a point beyond our immediate needs. This means some temporary inconvenience in the way or meeting annual interest upon huge municipal and corporate issues, but it also means that we are prepared in advance for a big immigration. Construction work had pretty well come to a standstill before the war broke out and the war saved us from a

serious unemployment problem. Some lines of business are undoubtedly suffering. We should think that the government uniforming 300,000 soldiers would have its effect upon merchants who handle men's wear. On the other hand there has never been such demand for and activity in fabrics and wearing apparel for women and children. One must be dull not to observe that employment is general, labor scarce and money more abundant than formerly. The bank deposits show it, and there is more money passing in hand to hand circulation. True, the large amount of money in the banks shows that big BEAURICH CIGARS capital is holding back from big inyestments for the present, but with the end of the war must come a tide of prosperity such as swept over the Northern States after the Civil War.

Deutschland Unter See! A new and expensive style of nav-

igation has been opened up by Gerhad a cargo of 1000 tons of valuable drugs and dyestuffs, so that the voyag vould be commercially profitable. As far as the profit goes, any voyage in these days would be profitable with a cargo on board. The return cargo promises to be equally profitable. The 'Deutschland" expects to take back 700 tons of nickel and as much rubber as she can stow away.

The Ontario Government is quite satisfied that no Canadian nickel can get on board the "Deutschland," but the Germans are equally positive that they will get a nickel cargo. Perhaps they have discovered a nickel mine in New York somewhere. The next ques tion is, after they have shipped their nickel, will they be able to deliver it? Will it get to Bremen?

This is a question for the British navy to answer. It is a pity that the

The increasing question of the re-stricting to empire firms all orders given out by government departments, municipalities, railway authorities and indeed by all bodies spending public monies or enjoying public charters, has been the subject of constant work on the part of the committee thruout the First in the asset column we find at Jutland, as he declared, why does tematic canvass made of practically Britain, with the result that a tained, strong representations will be made, and it is hoped that the iming, it may be said that we produced follow the conditions of sea traffic, and perial government, the Dominion government than ever from field, forest, mine Germany must do the best she can in foster imperial trade and industry.

Export Business.

About another matter recently taken up by the committee is that of the financial necessity of organizing our export trade. Recognizing that export trade ranks with men and munitions as trade ranks with men and munitions as a vital factor to success they consider that the first thing to do would be for the government to establish a temporary department—as they have done in the case of the ministry of munitions—to organize and stimulate production in this country with a vital factor to success they consider the gas before getting into bed, then accidentally turned it on again. He was a comparatively wealthy man, and a reserved than the French, tears ran down their thin cheeks. They stood at attention when the band played God Save the King, which is set to the same music as the Swites National Rev. Lawrence Skey as executor. in the case of the ministry of muni-tions—to organize and stimulate pro-duction in this country with a view to increasing export trade. Trade needs sympathetic treatment and organization; this could be secured by such a department as indicated, and its special requirements could thereby be dovetailed with the needs of the admiralty, war office and munitions de-

partments. To turn from the public and pro-paganda work of the committee to the work of its office, it may safely be stated that the method adopted dealing with enquiries as between buyers and sellers both of produce and nanufactured goods thruout the empire, has met with the approval of the parties concerned. As compared to 858 individual enquiries dealt with in the last annual report, enquiries have been received from 1991 individuals, 447 of whom were from the United Kingdom and 1544 from overseas. The number of enquiries emanating from these correspondents is considerably in excess of 4000, and the accumulation of direct information and of increasing personal channels has made it possible

inquiries could not be dealt with by the office direct, they have been referred to other bodies, whose peculiar province it is to deal with their respective requirements, the office in its turn receiving reciprocal enquiries. The large increase, both in the number of enquiries and in the range of enquiry made, may be set down very largely to the fact that the methods employed for obtaining information and for acting upon it have been invariably personal and impartial.

Make Arrangements Now. The wide experience and connections of many members of the committee provide the office with an invaluable source of accurate information on this side, and the constant stream of fellows from overseas arriving in London and returning to their respective homes has put the office in persona touch with commercial men in every part of the empire. This has tended to supplement the invaluable work done by many of the honorary corresponding secretaries on behalf of the

The bibliography of trade publications and the increasing collection of reports by chambers of commerce with the committee's own private reports form, in addition to the personal sources above mentioned, an index to the trade of the empire, which by periodical careful pruning and selection must increase in value from year The epoch passed of Wilhelm's reign, The iron rule of blood and crime. ports form, in addition to the personal

An order was also asked to close the crossing over the tracks at Water street near the proposed crossing.

The commissioners granted an order thru which the Bell Telephone Co. must remove its poles, wire and cables from parts of certain streets in "Kitchener" formerly Berlin, Ont. The company is required to start laying conduit pipes on August 15 and complete the work within a month, leaving three years for the removal of the poles now operating the overhead system.

The war office, in announcing these gains, today reported a lull on the French front north of the Somme during the night. ing the night.

By advancing in the region of Barleux the French last night brought up their right wing to within less than two miles of the Somme, south of Peronne. The Village of Biaches, recaptured in yesterday's fighting, lies less than a mile northwest of Peronne on the Somme.

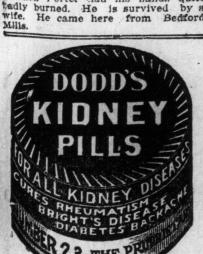

The French now threaten in their next thrust on the south bank of the Sorume to squeeze the Germans out of all their positions west of the river in the bend of the Somme. The Germans already have withdrawn their heavy guns to the east bank of the river. guns to the east bank of the river.

The historic City of Peronne is now at the mercy of French guns. French lines are now drawn so close that not only long range pieces but small field guns are emplaced within easy range of the Peronne Railway Station. From a rise of ground near Barleux, French officers can look down upon the town from across the river and watch the movements of German troops.

The statement follows:

"The submarine Deutschland, which I have the honor to command, is the first of several submarines, built to the order of the Deutsche Ozean Rhederi G. M. B. H., of Bremen, which will be followed by the Bremen shortly.

"The idea of the building of this submarine emanated from Mr. Alfred Lohmann, the president of the Bremen Chamber of Commerce. He brought his idea in the fall of last year before a small circle of friends, and the idea was taken up at once. A company was formed, under the name of the Deutsche Ozean Rhederei G. M. B. "Regarding things in Germany, I may mention that everybody is convinced of the final victory of the German arms and those of our allies. All facts of the last 22 months go to prove that there is no doubt of this. All Poland and Courland, a country of the country size of two-thirds of Germany, are since twelve months under peaceful rule, and the entire country has been put under the plow, and thousands of ecres will be serving for the next win-ter's supply of foodstuffs. won the first verdict, 6 to 2. Dunn's men hit the ball hard and often and there was no doubt about who should have won. Manning retired after he had yielded 9 hits and 4 runs in six innings. McTigue gave 2 runs and a like number of hits in the other three innings. On the other hand the Leafs were not overburdened with luck when it came to hitting. Several hard clouts were produced, but they were right at the Baltimore fielders. Sherman also had a nice spitter working, and the locals had a

habit of popping up in a pinch.

Manning found the sledding tough right from the drop of the hat. Twombly found the Toronto pitching much to his liking and piled up a double and two singles, driving in five of the enemy's six runs. Manning got thru the first mining when it looked dangerous. Crane struck out, but Kopf singled. Manning picked him off first and then hit Miller, who promptly stole second. Twombly walked and pulled off a double steal with Miller. Lamar rolled out to end it.

The Leafs had a rosy chance in the first inning, but failed. Truesdale flew out to deep centre, but Smith tripled to deep left. Murray's effort was a puny grounder to the pitcher. Graham lined

deep left. Murray's effort was a puny grounder to the pitcher. Graham lined into the right fielder's hands, We showed in front in the second. Thompson tripled and Blackburne raised & sacrifice fly that let him score. The Birds got to Manning in the third and went ahead and stayed there. Sherman walked and Crane singled. Kopf sacrificed, and then Miller rolled to third. Blackburne scooped the ball up smartly and pegged to the plate. Sherman turned back to third, and in the meantime Crane moved up to third. McKee chased Sherman back right to the bag and then heaved the ball. Trout picked it up behind the third bag and threw to Smith. Smith tagged Crane and also touched Sherman, but the umpire ruled that Crane was the man out. Twombly came along with a double that scored two.

Truesdale booted Sherman's roller in the fifth and before we could retire the visitors they added two to their total. Crane sacrificed, and Kopf sent Sherman home with a single. Miller rolled out, but Twombly scored Kopf with a single.

After the first two men had singled in the seventh Manning was benched, and McTigue sent to the mound. The next batter sacrificed, and Twombly again got in some of his deadly work. He sniped a single into Trout's trench and two more of the enemy charged the home fort. We held the line for the rest of the day and the enemy were unable to attack again.

BASEBALL GOSSIP.

Bill Carrigan, leader of the world's champion Red Sox, is seriously thinking of converting Babe Ruth, his young left hander, into an outfielder. Ruth is one of the hardest hitters in the American League, and holds the honor of being the only player ever to drive the ball over the right-field fence at Sportsman's Park in St. Louis. Carrigan's team is not hitting well, and this is one of the reasons why the world's champions are not out in front in the American League race. Walker has been hitting the ball hard, but both Duffy Lewis, hero of the last world's series, and Harry Hooper have been in a batting slump for some time. It is possible that Carrigan may play Ruth in the outfield and pitch him every four or five days.

Charley Mitchell was a great admirer of John L. Sullivan. He told Frank Moran in the dressing-room before the fight with Bombardier Weils that our Jawn was a considerable boy with his dukes.

"He was a tremendous hitter when he hit you," said Mitchell. "I knew all about it had sense enough to keep away from his right paw. He could cave your chest in with one of his blows if you were fool enough to be prowling around with your chest hanging out on the line. Another thing, I wore long spikes, an inch long, in my fighting shoes, a thing that Sullivan neglected. He floundered around in the mud, for you remember we fought in the open country during a drizzle.

"Every time he tried to hit me he would slip and I'd clinch. As soon as I got my arms around him I'd start to climb him to his very hips, the long spikes in my shoes cutting him to the bone. If there is any one who thinks that John L. Sullivan wasn't

Two very close games were played in the Senior Y.M.C.A. Baseball League on Saturday afternoon at Broadview. The first game brought together Broadview and Woodgreen. The latter looked to have the game well in hand until near the end of the game, when Broadview crossed the plate four times, winning by 7 to 5.

NATIONAL LEAGUE.

St. Cyprians managed to win their C. & M. League game with Evangelia on Saturday, altho both teams were short of men. The Riverdale players batting first, scored 24 for 7 wickets, of which 13 were put on for the first wicket, Gaunt being top scorer with 8, E. Davis and W. Huddlestone taking 4 wickets for 14 and 3 for 8. respectively. The St. Cyprians opened disastrously with 3 down for 2 runs in the first two overs of Gaunt and Gilbert, but E. Davis put some life into the game and scored ten before being caught in long field, and Wise, 14, not out, and T. P. Wood, with 6, were the other best scorers, the game being won with 36 runs at the fall of the 7th wicket. Gaunt took 4 wickets for 12, Gilbert 2 for 14, Shroud 2 for 5 and Jamieson 1 for 5.

# **ALLIES MAKE GAINS** ON SOMME FRONT

Determined German tempts Fail to Stem Great Offensive.

BRITISH PRESS ON

After Taking Trones Wood, They Advance Further Northward.

LONDON, July 10 .- The Anglorench armies pressed forward on both sides of the River Somme in severe fighting last night, despite determined German attempts to stem the great offensive.

The German War Office admitted

this afternoon that British troops penetrated Trones Wood, north of the river. Berlin also admits that the French penetrated the Village of Biaches, less than a mile from the City of Peronne, the Village of Barleux and other German positions. In several encounters the Germans were forced to yield ground, but afterwards regained the lost positions by counter-at-tacks, the German War Office claimed. A brier bulletin from General Haig, British commander-in-chief, announced that the British, after capturing the southern end of Trones Wood, have made further progress northward.

The French War Office announced slight advances north of the Somme end the capture of 500 yards of German trenches in a surprise attack in the Champagen region. The German War Office contradicted this statement with the announcement that all fresh attacks in the Champagne were

> ITALIANS CLEAR OUT FOE FROM TOFANE VALLEY

Capture Important Peaks and Defeat Austrians Near Gorizia.

Special Cable to The Toronto World.

LONDON, July 10.—The Italian war office announces today that Alpine detachments have cleared the Austrians out of a great part of the Tofane Valley on the upper Boite, between peaks No. 7 and No. 2, and they have captured a strong position on Tofane No. 1, commanding the valley. They surrounded the garrison of this last peak,

1, commanding the valley. They surrounded the garrison of this last peak, taking 190 prisoners.

Between the Astico and the Brenta the artillery and air services on both sides were active. Austrian shells set fire to Pedescala and other places in the Astico Valley. An attempt of the enemy to attack Monte Selugio was promptly checked.

On the heights northwest of Gorizia, on the Isonzo front, the Austrians launched an attack against the Italians, but they were checked by artillery fire.

Which the fiercest struggle is now proceeding.

The hasty character of the Germans' retreat has led to the conclusion here that the Germans have insufficient forces to make a serious stand in this quarter, where a Russian attack was not expected, and the Stokhod line may go undefended.

By the capture of the Villages of Goulevitchi and KKacheva the Russians have further imperiled the Germans' hold on Kovel. In the event kovel falls, military experts declare the Germans will be forced to retire

Extreme Weakness in Industrial Alcohol Affected Other War Stocks.

## MONEY GROWS TIGHTER

Call Loan Rate is Highest in About Nineteen Months.

NEW YORK, July 10.—An extreme de-line of 21 points in United States In-lustrial Alcohol, one of the better known loans to 6 per cent., a new high rate for day-to-day accommodations since the re-opening of the Stock Exchange in December, 1914, were the outstanding fea-tures of today's nervous and feverish

In view of the enormous disbursements connected with the mid-year payment of interest and dividends, together with heavy income tax payments, the 6 per cent. money rate, which applied mainly to belated borrowers, was not considered unusual. Some intimation of the advance was contained in last Saturday's returns of local clearing house institutions, whose actual reserves disclosed a shrinkage of almost \$36,000.000, bringing the excess reserves down to \$53,546,060, the smallest total reported since the new method of weekly statements came into operation.

method of weekly statements came into operation.

General Heaviness.

A majority of the other war stocks were heavy in sympathy with Alcohol, but recessions were relatively nominal. Tennessee Copper, whose production of acids caused it to be ranked among the munitions rather than metals, also suffered in the further liquidation of shares of that description, and American Coal Products fell 7½ points. Motors, for the most part, were subject to additional pressure, and United States Steel receded a point on publication of the June tomage statement, showing the first decrease in unfilled business—about 300,000 tons in almost a year.

Representative rails, particularly Reading and Canadian Pacific, were heavy at times, the arrival of further large quantities of foreign-owned American securities from London causing some fear of fresh selling from that quarter. Sales of stock aggregated 455,000 shares.

# SOFTER TENDENCY

Munition Stocks Weak With Declines General-Smelters Also Lower.

Softness was displayed yesterday by several issues on the Toronto stock exchange, chief among which were Steel of Canada, Canada Cement, Dominion Steel and Consolidated Smelters. The local market received better support from New York, where stocks were weak. Steel of Canada led in the downward movement, dropping nearly 3 points to 53½. A late rally set in in the afternoon, which was responsible for a partial recovery to 54½, while an odd share or two sold

selling down from 65% to 64% and closed at the lowest point. closed at the lowest point.

Selling pressure was again in evidence in dealings in Smelters. The stock sold down from 36½ to 34½, a new low record, but closed better at 35½. Barcelona was moderately active and firmed up a trifle to 15. Dominion Steel dropped from 54¼ to 52%. General Electric was a little easier, selling back ½ point to 115½.

Nova Scotia Steel was only lightly dealt in, but held firm around 128.

Mackay sold at 83. It is announced that the Postal Telegraph and Com-mercial Cable companies have notified

their employes that they have the right to subscribe for preferred stock of the Mackay Companies (the holding concern) to the amount of 10 shares each, at a price of 64. The stock sold here at 681/4 last week, and as high as 691/4 last month, while the low for

The market has evidently been under bear pressure lately and the better warnews has helped those interested on the short side. On any further drive the market should be a purchase, as market should be a purchase, as short interest may find it difficult to get back their stocks.

# LONDON STOCK EXCHANGE.

LONDON, July 10.—Money conditions are hardening and further improvement in exchange is considered necessary in order to keep balances here if rates rise in New York.

The stock market started the week in good spirits on the favorable war news. Steady investment buying is in progress in gilt-edged securities, the allied loans, Cuban Ports and Russian mines at advancing prices. Marconi and Petain Syndicate issues were the features in the industrial section. American securities were irregular and neglected and chosed dull.

# RECORD FIGURES.

The Canadian Northern makes a remarkable showing in the first week of its now fiscal year. Gross for the week ended July 7 was \$885,100, which is a new high record for any seven-day period in the history of the road, the previous high having been \$884,400, in the second week of June, and the high during the big grain movement last fall, \$847,500, in the first week of last October. The increase over last year for the past week works out at \$455,700, or 106.1 per cent.

# DECLINE IN SILVER

Market at the Standard Was Small With Trading Dull-Adanac Higher.

Quietness prevailed at the Standard Stock Exchange yesterday and the market had a generally easier tone. There was little news of any kind to influence stocks one way or the other, except in the Cobalt lists, where the drop in the price of silver was largely responsible for declines. There was little evidence of public participation in the proceedings and there was little in the way of a feature. It was, in short, a typical midsummer market. The volume of business was limited, running slightly under 70,000 shares. What trading there was was fairly well distributed thruout the list.

The Porcupines, Dome Extension was easier, opening at 37 and selling down a point to 38, closing at the latter figure. Dome Lake, on the other hand, showed a tendency to firm up a little, going from 31 to 32 1-2. A block of fifty shares of Big Dome went thru at \$26.25. Jupiter was quiet and lest one-half point on the close, at 32, while McIntyre dropped-back a point from 155 to 154. Hollinger changed hands at \$29.65. McIntyre Extension was dull at 45 1-2. Vipond opened lower at 48, but closed a little better in the afternoon, at 48 1-2. Teck-Fiughes sold at 27 1-2 and West Dome Consolidated, after showing strength early in the morning, dropped back again to 36 1-2, a decline of 11-2 from

In the afternoon, at 48 1-2. TeckHiughes sold at 27 1-2 and West Dome
Consolidated, after showing strength
agrain to 36 1-2, a decline of 11-2 from
the high. Newray remained unchanged at 40 to 40 1-2.

The silver stocks showed the effects of the declining price of silver, which has gradually gone back from the record high point at 77 3-8 back in April.

At 60, that was the quotation in New York yeaterday, it is still above the average, and, if it remained around intat level, would still net the producting companies a substantial profit.

Costs of production have increased considerably since the war started, the price of explosives and other necessaries having taken a big jump. In addition there is the increase in the cost of labor.

Adanac was again the feature of the Cobaits, advancing still farther, to 186, a new high record, but failed to hold the full gain. It closed at 184, a net advance for the day of 2 points. Quite a block of Beaver was put on the market and was absorbed at 38. Chambers-Ferland opened stronger, but cased off to 19 1-2. Coniagas sold at 54,75. Timiskaming was rather active, sciling off from the opening at 57 to 55 1-2, but firming up a little again in the afternoon and closing a little better, at 24. Lorraine sold at 25 to 25 1-2, Nipissing held steady at \$6.90, and a broken lot of Hudson Bay went thru at \$58.

Mining Notes HIGH GRADE SHIPMENT.

The Chambers-Ferland is assembling another car of high grade ore and will make a shipment within the next two weeks. The ore is largely from the veins on the 425 and 450 foot levels.

## COPPER AT PORT ARTHUR

Advices from Port Arthur state that there is much more interest being taken in mining in that district this year than there has been for several years. A promising looking copper prospect has been discovered at Mine Control about 190 miles west of Port prospect has been discovered at Mine
Centre, about 190 miles west of Port
Arthur, on the Canadian Northern
Railway. Some ore will be shipped to
Trail. B.C., for testing. The find has
resulted in a number of prospectors
going to the district. Prospectors are
busy on the iron ranges, northeast of
Nepigon, working for the Canadian
Northern.

DIVIDEND STATISTICS

June was a big month for dividend

June was a big month for dividend disbursements by the mines of North America. During the month no less than 68 companies participated, paying shareholders \$34,067,016. This is almost two-thirds the total for the year nost two-three 1908. No other industry such a record. Fifteen copper companies paid over fifteen millions. The gold-silver-lead-zinc group paid \$13,-174,486, of which Canada with nine companies contributed \$1,029.592. CROWN RESERVE TAKES OPTION

A despatch from Cobalt says that Crown Reserve has taken an option on the Reward mine in Inyo County, California, and work has already been started upon it. The Reward mine is an old one containing both gold and silver. It is stated that the option has been obtained on very favorable terms.

For some time now since the mine at Cobalt showed signs of playing out, this company has been looking on the Reward has been looking out, this company has been looking on. been obtained on very favorable terms.
For some time now since the mine at Cobalts showed signs of playing out, this company has been looking for other properties with a view to prolonging its life. Apparently they are not confining themselves to northern Ontario. A short time ago an option was taken on the Globe property in California but was later dropped.

## MONTREAL EXCHANGE.

MONTREAL EXCHANGE.

MONTREAL, July 10.—Further pressure on war order stocks in New York and acute weakness there in some of the specialties furnished Camadian traders with their cue today. Cement, Iron and Steel of Canada were singled out for special attention and a moderate volume of selling forced declines off 1½ to nearly 3 points in those issues. Steel of Canada was the weakest of the three falling from 56% on Saturday to 54, but railled briskly in the late trading, selling two points above the lowest. It was offered down to 55½ at the close, and finished about 1½ off for the day. Coment railled a small fraction from the lowest closing at 54, after touching 63%, but the final bid at that price represented a recession of about two points from Saturday. Iron closed at the low of the day with a lose of 1%.

Selling in these issues was generally viewed as in the nature of a bear drive. Outside of the stocks mentioned, weaker features were Smelters, which fell 1% to 35, and closed at the low. Bridge, which was offered from 223 on Saturday to 218, with some small sales at the latter price, and Scotia, which sold off to 125% after opening firm at 130½. Decidines of 1 to 2 points were recorded among stocks like Bell Telephone, Steamship preferred, Brazilian and Quebec Railway.

Total business for the day, 6410 shares; 57 mines; 287 rights; \$33,900 bonds.

# TURKS BOAST ABOUT

Claim Russian Offensive in Tchoruk Sector of Caucasus Collapsed.

CONSTANTINOPLE, July 10.—The Turkish war office issued the following statement today: "Our reconnoitring forces came in contact with the Russians, who were ejected with Kermanshah at a point 25 kilometres east of the city, while they were on the way to join their main forces. After a fight of seven hours the Russians were compelled to fiee to Sineh. "On the Caucasus front the offensive undertaken by the Russians in sive undertaken by the Russians in the Tchoruk sector several days ago

the Tchoruk sector several days ago in an endeavor to arrest our advance collapsed against our flanks. Our counter-offensive regained for us some parts of the ground previously taken by the Russians. We captured a large quantity of munitions and supplies. Attacks against some parts of our left wing were repulsed easily.

"The cruisers Yawuz Sultan Selim and Midullu (formerly the German cruisers Goeben and Breslau) attacked a squadron of hostile transports off the Caucasus coast, sank four ships and several sailing vessels, and bombarded the new harbor works near Puab, southwest of Novorossysk, causing a conflagration in a large petroleum depot and in material at another place, During the passage they saw no hostile vessels. An enemy torpedo boat approached Fotche and was driven off by our artillery.
