40TH YEAR—ISSUE NO. 14,357

TWO CENTS

Ontario Government Promises Western Ontario Two Thru Highways

MINISTER PROMISES TWO THRU HIGHS FOR WESTERN ONTARIO

Hon. F. C. Biggs Approves Longwood Route and London-Leamington Road.

POPULARITY ASSURED

A deputation so large that only the legislative chamber could accommodate it yesterday asked Premier Drury and Hon. F. C. Biggs, minister of public works, to designate a permanent highway in the Ontario western peninsula, the approximate cost of which would be \$3,000,000 spread over a five years' period of construction.

Mr. Biggs, however, promised to designate two highways which will double the length of road construction; but as he did not declare how permanent the character of construction is to be, it remains a matter of conjecture what expenditures the double scheme may ultimately involve.

As stated in The World of yesterday, the deputation represented all the municipalities between Niagara Falls and Windsor, numbered over three hundred mayors, wardens, Reeves and councillors. When it entered the chamber, shepherded by Major Tommie, M.L.A., Windsor, it showed a divided purpose in regard to the request about to be made upon the government. The road has already been designated from Niagara Falls to London, and the great majority of yesterday's delegation favored designation of the continued route to Windsor, over what is known as the Longwood road (87 miles), and a military and stage-coach highway which was traveled in the days of the parliament of Upper Canada. The representatives of Essex County however, headed by Warden Teller, reviv of Halesigh Township, wanted also a southern route along the old Talbot road, 127 miles thru London, St. Thomas, and Leamington, and they were willing to give every support to the centre line, they wished the united delegation to put the dual scheme up to the government, which would ever the minister of public works should decide.

Russell T. Kelley, president of the Provincial Highway Association, in view of the opinion that the deputation asked for too much they might lose all, and upon a vote being taken, after Warden Teller had made his point of view clear, and the meeting decided to press only for the Longwood route, thru Lambeth, Langwood, Thamesville, Chatham, Tilbury, Maidstone, to Windsor.

When Hon. F. C. Biggs had fully approved that part of the scheme, he said that he would do the same thing (Continued on Page 9, Column 2).

JAMES G. KENT CALLED BY DEATH

President Kent-McClain Co. Dies Following Operation—Funeral Tuesday.

Following an operation on Monday night James Gowans Kent, president of the Kent-McClain Company, died at his residence, 120 Madison avenue, aged 65, after an illness extending over six months.

The late Mr. Kent was born in Selkirk, Ont., in 1855 and had been a resident of Toronto for over 45 years. He was the founder of the Gowans Kent Crochery Works, but during the last 15 years he has been president of the Kent-McClain Co., which position he occupied until his death. When he developed an illness that prevented his attending to business, he was a member of the old St. Andrew's Church. He is survived by his wife, Caroline Wylie, a brother, John G. Kent, manager of the Canadian National Exhibition, and a sister, Mrs. Robert Hamilton, of Brantford, Ont. Three daughters, all of whom are married, also survive. The funeral will be held on Tuesday from the residence to Mt. Pleasant Cemetery.

G.T.R. AGREEMENT Tabled in Commons

Ottawa, March 2.—A copy of the agreement between the government and the shareholders of the Grand Trunk was tabled by Hon. Dr. Reid in the house this afternoon.

The agreement follows the provisions of the Grand Trunk acquisition act passed last session. Accompanying it are a series of schedules indicating companies controlled by the Grand Trunk and its subsidiaries, the par value of the first, second and third preference stocks and the common stock (which the government is to acquire by arbitration) is given as \$27,074,492. The value of the debenture stock is given as \$31,926,125.

After Three Months' Search Small's Fate Still Mystery

It was just three months to the day yesterday that Ambrose Small, who walked out by the front door of the Grand Opera House and disappeared from the world. Ever since December 2 it has not been living south so far as known, has set an eye on the missing millionaire. When Ambrose Small went out of the world of Toronto he disappeared completely and left not a single trace behind that could be called a clue. The police authorities have worked diligently and long in trying to locate the whereabouts of Mr. Small and to clear up the mystery of his sudden exit from his usual surroundings. The detectives who had the case in hand have followed every clue no matter how minute, but all their efforts to locate the missing man have been in vain. Whether Mr. Small is alive or dead is as great a mystery today as it was in December last. John Doughty, the private secretary to Mr. Small, for information as to the transfer of his theatres to the Mon-

CANADA IS READY TO DEAL WITH UNITED STATES FAIRLY FOR DEEPER ST. LAWRENCE

Toronto, Hamilton and Kingston Men Advocate Canalization at Waterways Commission—Project Was Initiated in U. S.—To Meet Again May First.

Buffalo, March 2.—The initial hearings on the proposal to canalize the St. Lawrence river, at a cost of \$100,000,000, to be borne by Canada and the United States, adjourned this afternoon, to meet on May 1. When the first sworn testimony on the feasibility of the plan will be taken. Proponents will submit proof, and will be subject to cross-examination by opponents of the project. It was announced.

The place for the May meeting has not been decided. Delegations from Canada, the western and eastern States submitted lists of cities desiring to be heard, and from these the commission will make up an itinerary to be announced later. Delegations from Canada and the western States championed the cause of the St. Lawrence route at the closing session of the two-day meeting held here this afternoon. Charles D. Craig, executive secretary of the inland waterway commission, said it was a crime to allow the potential power of the St. Lawrence to go to waste. "We are facing a transportation emergency in the west, and Canada is ready to co-operate with us," said Mr. Craig. "We are facing a common peril. That is why the west is solid behind the movement. We will show you, when we swear witnesses, something of transfer charges both here and in New York that make present routes unprofitable."

Speakers from Canada who favored the undertaking were: E. S. Gourlay of the Toronto Board of Trade, A. C. Gardner of Hamilton, E. C. Lewis of the Canadian Deep Waterways and Power Association, and John M. Campbell of the Kingston Board of Trade.

"We have a future that will warrant canalization of the rivers of Canada to give us navigation and power," said Mr. Gourlay. "We have spent \$9,000,000 at Toronto to deepen the harbor, and Hamilton will spend \$20,000,000. Canada is ready to deal with the United States fairly, and on international lines."

Mr. Lewis sought to correct the idea that canalization of the St. Lawrence was a Canadian project. It originated in the United States, he said, and Canada readily considered it. He declared that private capital was ready to build the canal without cost to either country in return for the power privilege, although he did not favor private control of power rights. He estimated the saving on transportation of wheat from the west to tidewater by way of a St. Lawrence ship canal at 5c a bushel.

Neither grain nor iron ore, which some of the speakers felt, should be carried profitably to tidewater, opposition speakers declared. It was also maintained that the millions of dollars required for the new waterway would be only the initial outlay. Shallow harbors and lake channels would offer the next expensive problem, it was claimed.

PAVES WAY FOR HAPSBURGS' RETURN

Budapest, March 2.—Admiral Horthy, who was formally elected the regent of Hungary Monday, and voted an honorarium of three million kroner by the national assembly, is a member of a very old Hungarian family and is believed to be a strong partisan of the former Emperor Charles. His election is regarded in some quarters as a step towards a military dictatorship and the possible return of the Hapsburgs to the throne.

POLICE ARREST ALLEGED BANDITS Two Deserters and One Other Held on Hold-Up Charges.

Three more alleged hold-up men were arrested yesterday afternoon and after being examined at headquarters by detectives, several charges of robbery and housebreaking were made against them. Alfred A. Laferriere and Arley Smith, both aged 19, living on Carlton street, are said by the police to have admitted deserting from the Royal Canadian Dragoons and being bandits. John B. Butler, aged 23, 119 East Queen street, last Friday night, and after holding up the clerk, Carl Minchin, found and gagged him, then robbed the cashier of \$50. They also stole clothing and White was arrested the same day by Plainclothesman Pickering trying to sell the clothing in a second hand store on East King street.

Mr. Minchin, father of the clerk, was on Yonge street yesterday afternoon when he saw Laferriere boarding a street car and wearing Carl Minchin's overcoat. The father called for some men to take hold of Laferriere and the same time he ran for the car. Laferriere jumped from the car at Alice street and Policeman Wormald gave chase along Alice street. Neighbouring men hearing the noise slipped and fell. Wormald arrested him and took him to detective headquarters. From headquarters he was taken to the Western Hotel and Kostner went to the Carlton street house and arrested Smith.

Peace Conference Has Come to Realize That It Would Be a Weak Spot.

London, March 2.—A noteworthy phase of the present meeting of the peace conference is the changed attitude towards Germany. In high diplomatic circles it is asserted that the conference should come to realize that Germany ruined would mean a weak spot and a dangerous spot in Europe.

NO NAVY FOR TURKEY

London, March 2.—A noteworthy phase of the present meeting of the peace conference is the changed attitude towards Germany. In high diplomatic circles it is asserted that the conference should come to realize that Germany ruined would mean a weak spot and a dangerous spot in Europe. Great Britain and personally Mr. Lloyd George, the British premier, are credited with being the chief forces in bringing about this policy. The French peace delegation is described as moving toward this point of view reluctantly, although it is moving. It is asserted that the French are less immovable than when M. Clemenceau was at the helm of state. How to get Germany on her feet is one of the largest questions the conference is now considering. It is considered probable that it will sanction an international loan to Germany, but the question of justice is basic one. It is expected that a plan will be arranged which will offer inducements to the rich smaller neutrals countries to subscribe to a loan. Even should these representatives believe, will contribute, officially or unofficially, also his financial commitments of various sorts arising from the war are greater than those of any other nation.

ROBSON LETTERS ARE MADE PUBLIC

Ottawa, March 2.—(By Canadian Press)—When the House adjourned today, the correspondence between him, himself and Judge Robson, covering the last three years, was made public. The correspondence, which is being printed in a book, shows the relations between the two men from the time Robson was premier in Winnipeg. The acting premier, in his acknowledgment, accepted Judge Robson's resignation with regret.

On the same day as he resigned, Judge Robson wrote a letter to the acting premier giving his views on the operation of the board of commerce, wearing military uniform and in his room the police found two cavalry swords. Laferriere had a loaded gun on him and a pair of spiked knuckledusters in his pocket. John Butler was later caught on Queen street by Ward and Kostner. The charges against him are one he, along with Smith and Laferriere, robbed a house at 334 Victoria street of clothing and jewelry. They had been in the house for two days.

WM. PHELPS TO DIRECT C.N.R. EUROPEAN OFFICE

Montreal, March 2.—The appointment of William Phelps, director of the Robert Reford Company, Limited, to the position of European manager of the Canadian National Railways, and of the Canadian Government Merchant Marine, with headquarters in London, was announced today by D. B. Hanna, president of the Canadian National Railways.

Mr. Phelps will be leaving for England about the third week of the current month. The scheme in its inception, however, was an agricultural one essentially. (Continued on Page 5, Column 3).

Faculty of Medicine Hums Like Hive of Angry Bees

Special Committee's Recommendation to Reduce All Associate Professors to Mere Teachers Characterized as Put-Up Job—Rumored Dr. Cameron's Removal Aimed at.

From information gathered by The World yesterday the faculty of medicine at Toronto University seems to be undergoing a process of reconstruction from the inside in a noticeably quiet manner.

Some time back the university authorities decided to reorganize the faculty of medicine in all its branches. The medicine branch was the first to be affected and it is said the recommendations made and the appointments preferred under the scheme did not altogether satisfy the general run of the medical men of Ontario.

The next branch of the faculty to be attacked under this reorganization scheme was that of surgery, of which J. H. Cameron, M.B., is the professor. A committee composed of seven doctor members was nominated to draw up a scheme for thorough reorganization of the department and it is said to have presented to the faculty a report last night which is now being discussed in the corridors of the department and it is claimed that a storm in medical circles is now raging. The committee, it is claimed, was appointed without the chief professor, Dr. Cameron, being consulted and has met for discussion without the professor being even aware of its existence, further, it is said, only two of the doctors on the committee hold Toronto degrees in medicine, the remainder receiving their licenses to practice surgery or medicine in either England, Scotland or Ireland. No reflection is cast on the British degree, but it is pointed out that these five could hardly have as great an interest in Toronto University as those who had studied surgery and medicine at Queen's Park.

Chosen by Clique. Those medical men who are up in arms against the constitution of the committee claim it was chosen by a clique at the university, who are gunning for the principle of "You scratch my back and I'll scratch yours."

The supporters of the Unionist government in the Commons at Ottawa apparently are a solidarity against an election. Why then worry about the leadership of their party? The you lead a force to water he doesn't have to drink! Premier Drury and Mr. Raney as by the prohibitionists up to a bone dry river where they can't drink. If they vote and also they decline to lead the people of Ontario up to the same spring.

A. H. BULLEN DEAD.

London, March 2.—The Times announces the sudden death at Stratford-on-Avon of Arthur Henry Bullen. Arthur Henry Bullen established in 1904 the Shakespeare head press at Stratford-on-Avon. His publications have to do with the works of the earlier English poets. He was born in 1857.

CHRISTYS, LONDON.

For more than one hundred years The Christy Co. of London, England, has been manufacturing men's hats. The third generation of the Christys is now running the business. For many years they have been the largest makers and exporters of high-grade hats for men. Their hats can be procured in all civilized countries of the world. The demand is so great at the present time that it is difficult to get shipments. The Christy Co. have been fortunate in receiving a very large shipment, comprising silk hats, Derby and soft hats and a full range of tweed caps and motor caps. If you buy a Christy-made hat you get not only correct style, but the best value in the hat trade. For a full line of Christy hats visit D'Neen's 140 Queen Street, and see the new styles for spring.

FERGUSON EXPLAINS DOMINION ALLIANCE RECEIVES UNFAVORABLE REPLY TO DEMAND HANDLED TO ATTORNEY-GENERAL

Ex-Minister Says Scheme Promised Well for Re-establishment and Agriculture.

NOT MANY COMPLAINTS

G. Howard Ferguson's dream of a loyal colony of settlers disseminating British sentiment along the Transcontinental Railway east and west from Kapuskasing, and incidentally the somewhat sale of a pulp limit to a party from Ohio, was rather briefly told the Nickle commission as the feature of yesterday's session of the settlement inquest. Mr. Ferguson did not appear to have made to his mind who is to blame for the failure of the unfortunate \$800,000 enterprise, but he was sure that nothing was owing to lack of patriotism on his own part.

Mr. Ferguson is the ex-minister of lands and forests, who practically initiated the Kapuskasing settlement scheme. His grave reason why the Kapuskasing site was selected, the first was that the soil appeared good for agriculture, being partly in the clay belt. Another reason was the proximity of the site to the most beautiful spots in North Ontario.

About the time he came into the lands department an arrangement was made with the Dominion government for an intervention camp for aliens at the other side of the river across from Kapuskasing. One part of the contract with the Dominion government was that the province would give a thousand acres of land if the Dominion cleared it and established an experimental farm. The clearing and farming had been done when the Ontario settlement scheme was started. There were then visible signs that grain growing, vegetable growing and general agricultural work would succeed in the province. There were also undeveloped powers of the river which would make possible the growth of a town, and of industrial enterprises connected therewith.

NO CONTROVERSY—LET PROVINCES DEAL WITH PROFITEERS, He Advises.

Ottawa, March 2.—(By Canadian Press)—When the House adjourned today, the correspondence between him, himself and Judge Robson, covering the last three years, was made public. The correspondence, which is being printed in a book, shows the relations between the two men from the time Robson was premier in Winnipeg. The acting premier, in his acknowledgment, accepted Judge Robson's resignation with regret.

W. E. Raney Says Effect of Prohibition Party's Proposals Would Carry Legislation into a Doubtful Field of Jurisdiction.

Attorney-General Raney yesterday mailed to Rev. Ben Spence for the Dominion Alliance his reply to the demands made recently, which have been generally taken to represent the demands of the bone dry element of the prohibition party.

INSIDE KNOWLEDGE

When the city council were discussing the motion of Aid. Singer, that an investigation into police court matters be made, Rev. Ben Spence made a remark that nearly upset the council's native dignity. In speaking on this matter he made reference to a recent escapade with his son, in which the policeman quite accidentally "I am not qualified to talk about police court matters," he said. "I never met the fellow. The farthest I get is the police station."

WILL CO-OPERATE WITH GOVERNMENT

U. S. Railway Workers Agree to Give Law With Arbitration Clauses a Trial.

Washington, March 2.—Definite steps were taken today toward settlement of the railroad wage controversy which has been pending since last August. Representatives of railroad workers, with the exception of one group, agreed to co-operate with the government and the railroads in giving a trial of the new transportation act, with its arbitration clauses, and President Wilson, in letters to both the Association of Railway Executives and heads of the fifteen workers' organizations, requested that they select representatives to sit on the bi-partisan wage board. Prompt action was urged by the president in order that the negotiations between employer and employe might not longer be delayed.

The one group of workers which has not entered into the agreement "to go along with the president" was the Brotherhood of Maintenance of Way Employes and Shop Laborers, which recently withdrew from the conferences between union heads and the railroad administration. Committee members of the Brotherhood of Maintenance of Way Employes, however, will meet in Chicago on Thursday, and it is believed, will follow the lead of the other workers in compliance with Mr. Wilson's request.

cent, Dr. A. S. Grant, secretary; James Hales and Meadames Stephens, Ward and Pugsley, representing the W.C.T.U., paid a brief visit to Premier Drury and left with a memorandum calling for the taking of a vote on the question of liquor importation as follows: Toronto, March 2, 1920.

To the Premier and Cabinet of Ontario. Gentlemen: At a meeting of the Ontario referendum committee, held in this city on January 20, 1920, it was decided to approach your honorable body requesting you make application to the federal government for the taking of a vote on the question of prohibiting the importation of spirituous liquors for beverage purposes into this province and a special committee was appointed to bring the matter before you.

The Ontario referendum committee is representative of all the sentiment in the province in favor of prohibition, both in religious, social, temperance and economic circles, and we are asked by that body to urge that the legislature of this province apply to Ottawa for the taking of such a vote at the earliest date possible.

We are endeavoring to have Ottawa arrange for a uniform date on which this vote might be taken in all the provinces.

WILL CONFER TODAY ON G. T. MANAGEMENT

Ottawa, March 2. (By Canadian Press.)—Howard G. Kelly, president of the Grand Trunk Railway, and D. B. Hanna, chairman of the board of directors of the Canadian National Railways, will be in conference tomorrow with the minister of railways in regard to membership of the temporary board of management for the Grand Trunk System.

HAMILTON

Hamilton, March 2.—At the 43rd annual meeting of the Hamilton Protestant and Loan Society the members favored changing the name to the Hamilton Protestant and Loan Corporation.

CALDER AND REID REPORT ON BORDEN

State Premier's Health Better and He Will Attend Session Later.

Ottawa, March 2. (By Canadian Press.)—Hon. J. A. Calder and Hon. J. D. Reid returned today from New York, where they met and conferred with Sir Robert Borden on matters relating to the seasonal program, including the franchise bill and railway situation. They report the prime minister has greatly improved as a result of his sea voyage.

HAMILTON RECORDS GOOD ICE HARVEST

Toronto Prices Not Likely to Go Down—Depends on Freight.

Hamilton is crowding because its ice harvest this year is so plentiful that the price, as compared with that of last year, will fall 15 per cent. Toronto is sorrowful because local dealers say there will be no reduction in price from last season in the Queen City—even at that, Toronto will be paying far less for its summer ice than Hamilton.

ARRANGE CAMPAIGN FOR WAR MEMORIAL

Provisional Committee Calls for General Meeting Next Week.

Hamilton, March 2.—A meeting of the provisional committee formed some months ago to take into consideration the erection in this city of a suitable memorial for the Hamilton soldiers who fell in the world war, met this afternoon in the board of trade rooms.

BELEVILLE WOMAN'S HUSBAND STILL MISSING

Hamilton, March 2.—Summoned by a letter to meet her husband, Mrs. M. J. Foster of Belleville, came to Hamilton yesterday, but was doomed to disappointment, as her spouse failed to make his appearance. The missing husband came to Hamilton several years ago, but had not corresponded with his wife since November, she claims. A short time ago she received a message telling her that if she came to this city, he would meet her at the station. After many hours of waiting at the G.T.R. depot she was taken to the Salvation Army for the night and left for her home today. It is feared that the letter was a fake and that her husband may have died.

BUILDING PERMITS \$218,775 IN FEBRUARY

Hamilton, March 2.—Permits to the value of \$218,775 were issued by the building inspection department during February. The forty-two permits were made up as follows: Four brick dwellings, \$12,000; 11 frame dwellings, \$19,000; three stores and additions, \$13,000; one alterations and additions, \$18,000; one factory, \$181,200; five garages, \$47,500.

RED CROSS MAY BAR FORMER ENEMIES

Governors of Congress at Geneva Will Have to Decide the Question.

Geneva, March 2.—At the opening of the congress of Red Cross Societies here today, Henry P. Davison, chairman of the board of governors, sketched the growth of the movement since its inception at Geneva 87 years ago and the tremendous advance in medicine and surgery during the war.

ADD CHARGE OF ARSON CASE TO COUNTY COURT PROGRAM

Hamilton, March 2.—In the county court the charge of arson against Fred Rodden, who has been accused of being responsible for a fire at the Mercury Mills a short time ago, has been added to the list of criminal cases. It has been announced that the actions of Leeks v. City of Hamilton, and Schumaker v. Dominion Brewery have been settled by parties.

ARMSTRONG L. O. L. ENJOYS EXCELLENT CONCERT

Armstrong Lodge, L. O. L. sometimes and really better known as the Veterans' Lodge, the oldest, or one of the oldest in the Dominion, organized in 1853, tendered its members and friends a delightful concert at Victoria Hall last night.

FOR COLDS, GRIP OR INFLUENZA TAKE AXAX-TIVE BROMO QUININE TABLETS

Look for E. W. GROVE'S signature on the box. 30c.

PROCLAIM INDEPENDENCE OF SCHLESWIG-HOLSTEIN

London, March 2.—A despatch from Flensburg, Schleswig-Holstein, says it is reported that representatives of the Schleswig and Holstein organizations, together with members of various political parties, assembled at Rendsburg, Holstein, today to proclaim the emancipation of Schleswig-Holstein from Prussia and the establishment of a new state.

GENERAL STRIKE HAS ENDED; WORK IS RESUMED AT MILAN

Milan, March 2.—The general strike, which was declared here yesterday as a result of a clash between troops and the demonstrators, was ended today. Work has been resumed throughout the city.

COMMISSIONERS WERE ABSENT

Copenhagen, March 2.—The coup in Schleswig-Holstein in which a new state was established by the cutting away of Schleswig-Holstein from Prussia occurred while the three leading members of the international commission were absent from Flensburg. The commissioners, Charles M. Darling, head of the plebiscite commission for Schleswig-Holstein, representing Great Britain; Gustav Schumaker, representing Sweden, and General Claudel, representing France, are hurrying back and are expected to reach Flensburg tonight.

ARE PREPARING TO OPEN PETROGRAD TO NAVIGATION

London, March 2.—Active preparations are being made to open Petrograd to navigation, says a wireless despatch received here from Moscow. Merchant ships are being fitted out to resume relations with western Europe.

G.T.R. APPOINTMENTS

Montreal, March 2.—Vice-president W. D. Robb announces the appointment of R. H. Fish as general superintendent, eastern lines, Grand Trunk Railway System. Mr. Fish will have headquarters at Montreal.

MAY NOW ADVERTISE

Winnipeg, March 2.—Local evening newspapers published normal editions today after four days of "ad-less" papers, caused by shortage of newsprint.

St. John.—February this year hung up a new record for snowfall at St. John that has not been exceeded for 59 years, to date. The month's total was 51.8 inches. In addition to this 2.72 inches of rain fell.

YORK COUNTY AND SUBURBS RIVERDALE WOULD DEFER T.S.R. BUY

Ratepayers Complain Entire System Unsuitable to Modern Cars.

Regarding the taking over of the Toronto Street Railway forthwith, as requested by Ward Six Ratepayers Association and others, the following resolution was adopted by the Riverdale Ratepayers Association at their regular meeting, held in Leslie Street School last night: L. W. Mullen, president, in the chair.

Resolved, that the city council be requested to defer the taking over of the Toronto Street Railway until the expiration of the franchise, in 1921, owing to the fact that it is not a single complete, wide, modern devil-strip, but is a patchwork of modern cars, and the T. S. R. is a miserable service, endeavoring to force the city to take the business off its hands and so unload all its obsolete rolling stock, knowing that it would be impossible to give a service without using its present equipment.

Other questions discussed were the housing situation; more police protection for school children at crowded street crossings; the elimination of the unsightly Hydro poles on East Gerrard street, and the placing of the electric wires underground, and the removal of the water-trough on Pape avenue, near East Queen street.

LODGE COLERIDGE, S.O.E., ENJOYS PLEASANT PIE SUPPER

A successful pie supper in connection with Lodge Coleridge No. 361, Sons of England, was held in the church of the Resurrection, Woodbine avenue, last night, when 80 members sat down to table, presided over by Bro. Geo. Mitchell, president.

DANFORTH WOMEN'S MISSION TO HOLD BIG CONVENTION

Active preparations are now under way for the forthcoming Methodist Women's Missionary Society convention of the eastern district, which opens in Hope Methodist Church, Danforth avenue, tomorrow, under the presidency of Mrs. J. B. Willcott.

SIX-YEAR-OLD IMMIGRANT BRAVES ATLANTIC VOYAGE ALONE

An interesting immigrant has arrived in Hamilton in the diminutive vessel of Jean Giffard, six years old, who apparently made the journey entirely by herself. That she was sent in care of the Pacific Association is the belief of the Hamilton branch, but she has evidently strayed from her intended destination, as no enquiries have been made at their office concerning her.

BUS LINE CHANGES OWNERSHIP

The Todmorden Bus Line, which was successfully inaugurated some months ago by Norman Bird, a returning veteran, is now being run by the corner of Broadview and Danforth, along Don Mills Road to Pape avenue, has changed ownership and will be operated by the new proprietors, Philip Pedlar and Sons of Todmorden. Commencing tomorrow a regular 15 minute service with 5 cents being charged, and 5 tickets for 25 cents will be charged.

EPIDEMIC LEAVES TODMORDEN

The flu epidemic has abated considerably within the last few days in the Todmorden district and but a few isolated cases of the disease have been reported. According to the statement of a prominent local doctor, the absence of the stability of Russian temperament. Captain Rawson's remark was very enthusiastically received by the audience.

PASTOR PREACHES FAREWELL SERMON

Rev. W. M. Kannavin, pastor North Broadview Presbyterian Church, who has been appointed to the vacant pastorate of St. John's Church, Hamilton, preached his farewell sermon at his own service before a crowded congregation last Sunday.

YORK COUNTY AND SUBURBS LEAGUERS HEAR COLONEL MACHIN

Tells Earlscourt Branch, Church Makes Decent Citizens Immoral.

A meeting of the Earlscourt branch of the Citizens Liberty League was held last night in Belmont Hall, R. C. Wood in the chair. The speaker of the evening was Lieut.-Col. H. A. C. Machin, president of the league, who had traveled from Ottawa, especially to be present. The colonel was in a fighting mood, and said only just begun to live, and the future would be surprised by anything that had been done in the past. He congratulated Earlscourt for its work—it was better than most sections. The Ostracism had been tried out but it failed, and the day was not far distant when members of the league would be marked like others as true and loyal subjects of the King.

He asked the public not to take him as an anti-Christ or as being against the church, as he was in fact an Anglican and he knew the value of Christianity. The speaker said the Citizens Liberty League was opposed to the Sordani government and also to the Drury government because it had discriminated in class legislation.

I will ask Premier Drury, said Col. Machin, to teach your farmers to speak the truth and to remind him that only 500 farmers paid their income tax last year. Drury has said, we are now the people's party, but the U. F. O. said, "Nothing doing."

MRS. H. A. BERLIS BETTER

Mrs. H. A. Berliss and little boy 7 years old, who have been suffering from the flu for the past three weeks, are now slowly progressing towards recovery.

SIMPSON AVENUE SOCIAL

Under the auspices of the Ladies Aid connected with Simpson Avenue Methodist Church, a well attended congregational tea and social evening was held at the church last night.

LEAVE SPLENDID RECORD.

In closing their accounts of war work and other activities, the Riverdale Women's Patriotic League leave behind them a splendid record. The amount raised since the organization of the league, in October, 1915, was \$22,487.45, which for the most part was expended for overseas, where no less than 270,588 articles were shipped.

RUSSIA MOST DEPENDABLE.

The truth about Russia was the subject of an address at Broadview Y. M. C. A. by Capt. Norman Rawson, United States Army. The speaker was with the Canadian expedition on the Murman Coast, Russia. Captain Rawson outlined his impressions of the Russian and his problems of today. He stated that the Russian is an absolutely honest man, most dependable, and that Russia will mark giving an account of her true self, because of the stability of Russian temperament.

TRANSPORTATION CONGESTED.

Owing to the curtailment of the Bloor street T. S. R. service over the viaduct, which for some time past has been recently taken place, a considerable inconvenience has been caused and much congestion at rush hours morning and evening. Working people are compelled to take the Carlton cars in going and coming from their work altho this route is crowded.

Christy Hats

London, England

Christy English Hats are known the world over for the superior quality of the felt used in the manufacturing and the excellent quality of trimming. A very large shipment of the above is just open, comprising Slik Hats, Derbys and Soft Hats, and a full range of tweed caps and motor caps.

Table listing hat prices: Silk Hats \$7.00 to \$10.00, Black Felt Derbys \$8.00 and \$10.00, Soft Hats—all colors \$8.00 and \$10.00, Tweed Caps \$2.50 to \$5.00, Motor Caps \$2.50 to \$4.00.

Prices are very moderate, considering the great advance in raw material and labor.

## INCREASED IMPORTS FROM OLD LAND

Trend of Exchange Noticeably  
Affects Local Customs  
Returns.

A decided drop in imports from the United States and a corresponding increase in imports from Great Britain are reported by the local customs staff for the month of February. The total figures are not yet available, but members of the staff handling imports say a decided change in the import situation, manifestly due to the trend of exchange, was very noticeable thru the month of February. Imports from Great Britain in January totaled over \$17,000,000, which was a record, and February is expected to set another high one.

The World was also informed that imports of German goods are expanding very rapidly. Several Toronto firms have been bringing in considerable quantities for some months. The World was told, but it was only in recent weeks that this trade has attained any considerable proportions. Important articles in the list are toys, music and precious stones. The low value of the German mark gives the importer in Canada a great advantage, and the opinion is expressed that if some action is not taken by the government the country will very shortly be flooded with certain lines of German goods, and the infant manufacturers of these lines in Canada will be forced to the wall. Much higher prices are being paid in Germany for goods, but the increase, according to Toronto dealers, does not come anywhere near approximating the discount of the mark.

## AUSTRIA'S TAXATION BILL

Vienna, March 2.—A taxation bill introduced in the national assembly today will provide revenue amounting to 2,231,000,000 crowns. It includes a special levy on wealth.

**MURINE'S** Resists, Relieves, Soothes, Heals—Keep your Eyes Strong and Healthy. If they Tingle, Smart, Itch, or Burn, If Sore, Irritated, Inflamed or Granulated, use Murine often. Safe for Infant or Adult. At all Druggists in Canada. Write for Free Eye Book. Murine Company, Chicago, U. S. A.

## MOTHERS' PENSIONS WIDELY DISCUSSED

Labor Varies in Opinion on  
Including Those Not  
Married.

Labor in Toronto is not of one mind relative to Dr. W. A. Riddell's mothers' pensions bill, as already drafted. Some agree that all helpless mothers, barring those who make a living of sacrifice, should be permitted to come within the meaning of the act; others believe that the law of marriage being a sacred institution, should be so considered, and lived up to by both the individual and the government. Others dare not express an opinion upon this point.

Mrs. Rose Hodgson, secretary of the Toronto Women's Labor League, in conjunction with Mrs. MacGregor, president of the same league, is in full sympathy with any movement humane in principle, and both express the opinion that a mother is a mother no matter under what circumstances. Foreign-born mothers, they believe are as entitled to the provisions as any other widows or helpless mothers. While many of the unmarried mothers might need special treatment, Mrs. Hodgson and Mrs. MacGregor believed that there were unmarried mothers of good principle who would make good mothers, and who should, therefore, be given equal rights with the married mothers. Likewise, those mothers whose husbands were in prison.

## WHOLESALE GROCERS CONVENE

The wholesale grocers of Toronto are holding their second annual convention at the King Edward Hotel. A membership of 80 was reported and the association was said to be making good progress. President W. P. Eby presided. Three wholesale grocers from Michigan are attending the sessions.

## O. T. A. CONVICTION QUASHED

The conviction of Charlie Yep, Kemptville, who was fined \$200 and costs under the O. T. A., was yesterday quashed by Justice Masten, who held that there was no evidence to convict him of participation in the sale of liquor.

## TO INTERCHANGE DATA ON TRADE STATISTICS

A meeting of the executive committee of the Toronto branch of the Canadian Association of British Manufacturers and their representatives was held last evening at the Walker House, with the president, G. A. Marshall, in the chair. Considerable business of vital interest to the growth and welfare of the association was carried thru, and the community interests of this association and the Federation of British Industries was further enhanced and consolidated by an arrangement for a regular interchange of trade statistics, the distribution of manufactured products and the sources of and the ability of Canadian producers to supply requisite raw materials to the manufacturers of the United Kingdom. Communications were read from the National Union of British Manufacturers, respecting the tour of this country by a delegation from their association, and action was taken with a view to arranging a suitable reception of and entertainment of the delegates when they arrive in Toronto.

## WANT TO LINK UP

According to the statement of the promoters, the petition for signatures in connection with the proposed annexation with the city of the portion of York township south of Cronyn avenue, between Pape and Donlands avenues, which is closely built in, is being freely signed by the residents, and over 50 per cent. of the ratepayers have already affixed their names. There is an urgent need for sanitary conveniences in the section and the linking up with the city sewerage system is keenly desired by the residents, it is stated.

## RIFLEMEN ELECT OFFICERS

The following officers were elected by the Ontario Rifle Association at their annual meeting for that purpose in the armories yesterday morning: President, Sir Edmund Osler; vice-presidents, Lieut.-Col. W. W. White, Lieut.-Col. A. E. Gooderham, Gen. V. A. S. Williams; council, Major T. Murphy, Col. Haig, Sergt. M. H. Lee, Capt. C. R. Crowe, Lieut.-Col. J. Bruce, Capt. A. Pain, Col. J. I. McLaren, S. M. Creighton, Lieut.-Col. G. H. Gillespie, S. M. Coldham, Major W. C. King, Major W. H. Williamson.

## NEW S. A. APPOINTMENT

Lieut.-Col. Arthur Smeaton, who for the past five and one-half years has been financial secretary for the Salvation Army in Canada East, is leaving today for his new appointment. He will be superintendent of the Salvation Army Organism at Lytton Springs, California.

## SPEED LIMIT FINES LESS BY \$12,000

Municipalities on Toronto-Hamilton Highway Present  
Annual Statements.

The increased speed limit allowed on the Toronto-Hamilton highway has cost the commission \$12,000—at any rate, they are less that amount in fines for exceeding the limit. The commission yesterday met representatives of the highway municipalities and submitted this annual statement. George H. Gooderham occupied the chair and pointed out that owing to the increased cost of labor the expenditures were heavier. He pointed out that the only item on the statement which might not be supposed to be used for maintenance for any road was that of \$1,728.65 for tarring roads and cracks on the 24.1 miles of concrete.

## WANTS LINKS JOINED

F. C. Biggs, minister of highways, was present, and hoped the commission had some scheme to connect links now missing in the highway. Mr. Gooderham thought it time that the same as they pay towards the maintenance of provincial highways, namely, 70 per cent. From June to December, 1919, there were 75 accidents on the highway, 25 personal injuries were sustained, and there was one fatality.

## PILES

Do not suffer another day with itching, bleeding, or protruding Piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and as certainly cure you. 40c a box; all dealers, or Edmanco, Bates & Co., Limited, Toronto.

The Toronto World

FOUNDED 1880. A morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited.

WEDNESDAY MORNING, MARCH 3, 1920

Harness and Ride the St. Lawrence

Perhaps the most beneficent continental parliament that has ever sat in the city by the World Newspaper Company of Toronto, Limited.

The main consideration is the efficient conduct of public business. Parliament has not yet included the relation between a stick premier and a stick nation.

The development of St. Lawrence power should pay for the canalization of the river, so that big ocean steamers will be able to traverse the Great Lakes.

Hydro-electric power is an incalculable boon. When the electric spark brings the Leviathans of the deep to wharves that are two thousand miles from the ocean, then, indeed, shall we be in the midst of great marvels.

The Sick Men of America

No more curious coincidence in high politics has ever happened than the double mystery that envelops the health of the chiefs of the two great nations of this continent.

There may be nothing in the story that Sir Robert, while on the Atlantic, was unable to remember the names of people who met him.

While the physical condition of presidents and premiers is under consideration it is not impertinent to express a little solicitude about the well-being of Mr. Drury.

In the United States, conflicting stories about Mr. Wilson do not dispel anxiety about his fitness for presidential duty.

manent, and not a temporary condition. A patient who is suffering as the president is, from diseased arteries of his brain, and where the disease has progressed to such a point as to produce paralysis of one side of the body, should, under no circumstances, be permitted to resume the work of such a strenuous position as that of the president of the United States.

Mr. Wilson certainly is acting like a man with a whip. He expects every official inferior to become a perfect "Yes, sir." Over Europe he stretches his rod, the Europe makes a wry face.

The constitution recognizes the possibility of presidential incapacity, but says nothing as to how, when or by whom it shall be determined.

The Canadian premiership is held on a different tenure. Technically, Sir Robert Borden is premier so long as the governor-general does not dismiss him, or he does not resign.

The main consideration is the efficient conduct of public business. Parliament has not yet included the relation between a stick premier and a stick nation.

Citizens-in-waiting at the Riverside crossing yesterday morning at eleven o'clock saw the first robin of the new summer of Grand Trunk nationalization.

Hydro-electric power is an incalculable boon. When the electric spark brings the Leviathans of the deep to wharves that are two thousand miles from the ocean, then, indeed, shall we be in the midst of great marvels.

The First National Robin

Citizens-in-waiting at the Riverside crossing yesterday morning at eleven o'clock saw the first robin of the new summer of Grand Trunk nationalization.

Hydro-electric power is an incalculable boon. When the electric spark brings the Leviathans of the deep to wharves that are two thousand miles from the ocean, then, indeed, shall we be in the midst of great marvels.

Electioneering Strategy

Sir George Foster replies to an opposition demand for an immediate general election by telling Mr. King that the electorate will not throw the Union government out to put a Liberal government in.

A principal Ontario concern in the next Dominion election will be the degree to which the Farmer-Labor alliance can be solidified and extended.

The new political forces of Canada have opposed to them experienced politicians and skilled financial generalship.

A new policy of frightfulness is proposed towards Canada by The American Economist, the organ of the American Protective Tariff League.

APPRECIATIVE

say, it's mighty white of them to keep him tied up.

THE DAY AT OTTAWA

BY TOM KING.

Ottawa, March 2.—The event of the day was the return of the envoy from New York. Hon. J. D. Reid and Hon. J. A. Calder arrived in Ottawa at noon today, after a personal review with the prime minister.

Mr. Burnham of Peterboro made a characteristic speech in which he expressed his opinion freely of the farmers and the prohibitionists.

No announcement was made in the house as to the result of the minister's visit to New York, but the Liberals evidently had some inside information.

The old-time feud between Ontario and Quebec broke into flame today, when Mr. Burnham of West Peterboro, who is a member of the Liberal party, was invited to put up with any inconvenience that he might incur by his absence in the hope that he would be restored to his duties.

Major Nowak took occasion to re-statement the Liberal members of the house had all of them run for parliament in 1917 expecting to be beaten because they were unpopular.

URGE A COLLEGE TO TRAIN FIREMEN

Ottawa, March 2.—A movement has been inaugurated to have a fire college established in Ottawa, using as a nucleus the Ottawa fire department's training school.

Mr. Burnham of West Peterboro, who is a member of the Liberal party, was invited to put up with any inconvenience that he might incur by his absence in the hope that he would be restored to his duties.

DENIKINE'S ARMY TRAPPED

London, March 2.—General Denikine's army has been trapped in the Kuban Peninsula, southeast of the Sea of Azov, it is claimed in a Russian official statement dated Sunday and received today by wireless.

A FATEFUL DRIVE

CHAPTER 21. It is curious how quickly people begin to take for granted what in the beginning they look upon as a great favor.

So, too, in a remarkably short time, did David accept the fact that Alice was too busy to stop long to talk in the day, but that Lois would always entertain him.

"I hate to let a whole 24 hours go by without seeing you," he told Alice. "That's why I'm around in the afternoon. It's so long to wait until evening."

"Oh, Alice, always so busy," Alice protested, her eyes smiling up at him affectionately. "And indeed, she was. She tried to interest Lois in her work over in the foreign section of the town, but after one visit Lois refused to go."

GASOLINE PRICES GROSSLY EXCESSIVE

British Committee Ascribes Increase to Enormously Powerful Combines.

London, Mar. 2.—Existing prices of gasoline are condemned as "grossly excessive" in a report submitted by a committee appointed under the provisions of the Petroleum Act to investigate prices.

The Standard Oil Company and the Shell Corporation are named in the report as the combines mainly concerned, and it is declared the existing price of No. 2.0 motor oil is about 20 per cent. too high.

QUEBEC VILLAGE HAS FIRE TRAGEDY

Four Children and Two Adults Burn to Death at St. Fereol.

Quebec, March 2.—The little village of St. Fereol, in the county of Montmorency, fifteen miles below Quebec, was the scene of a tragedy last night.

GLAD TO SEE WILSON IS STANDING BY HIS GUNS

London, March 2.—Anton Trumbitch, the Jugo-Slav foreign minister, speaking today concerning the Adriatic question, said:

Renaming Streets of Paris After France's War Heroes

Paris, March 2.—Paris has honored France's great war heroes by renaming a number of streets. Boulevards have been named after Georges Clemenceau, Pétain, Foch, Joffre and Poinecaré.

Food in Britain 136 Per Cent. Over Prices Before the War

London, March 2.—The cost of all principal articles of food in England rose in January to 136 per cent. over the average level and is 125 per cent. over the average level in February, according to statistics prepared by the American chamber of commerce in London.

Parish Priests of Spain Threaten to Go on Strike

Madrid, March 2.—It is reported that if the government does not meet the demands of the clergy for higher stipends, the parish priests will go out on strike.

JUGO-SLAV NOTE BACKS UP WILSON

Object to "Unjustifiable Annexation of Purely Jugo-Slav Territories."

Washington, March 2.—Strict adherence to the British, French and American agreement of December 9 on the Adriatic question characterized the reply of January 20 of the Jugo-Slav government to the French and British ultimatum on January 14.

The Jugo-Slav note, which was made public today by the state department, raises the same objections as set forth in President Wilson's note of January 19 protesting against the overturning of the previously agreed solution of the vexatious problem.

The single insistent difference which distinguishes the point of view of the Jugo-Slav reply from that of the agreement signed by Secretary Polk on behalf of the United States December 9 is over the cession to Italy of the island of Dalmatia, which, according to the Wilson note, is purely Jugo-Slav and from an economic point of view indissolubly united with Dalmatia.

Concerning the readjustment of "the Wilson line as proposed in the French and British proposals," the note declares such an "unjustifiable annexation of purely Jugo-Slav territories would bring about a new and flagrant violation of the principles of nationalities. It would inevitably create a permanent hotbed of irredentism within the frontiers of Italy of a nature precisely analogous to that which was held as a justification of the claims of Italia Irredenta, in which its return to the mother country was demanded."

The agrandizement of Italian territory to the east of the Wilson line in Senozetha region, the note asserts, cannot be justified on the grounds of better protection for Trieste. By bringing a line within six kilometers of the Saint Pierre railroad junction, it is added, the Vienna artery of the Jugo-Slav railroads would be directly menaced.

The "extraordinary complexities which the ascription of the territory between the coast and the Fiume railroad line would create, according to President Wilson's memorandum, were likewise objected to on account of "unsurmountable obstacles" in the Jugo-Slav note.

While accepting the independence of Fiume and Zara, the Jugo-Slav government records its objection to the separation of the diplomatic representatives of the cities from the control of the league of nations. As in the Wilson memorandum, it is argued that such a course paves the way for rebellion and annexation.

Along with the continued acceptance of the independence of Zara, the Jugo-Slavs emphasize the imminent consequence of commercial ruin which must ensue with the separation of Zara from its administrative association with Dalmatia, and for this reason the right to transfer the Credit Foncier Bank of Dalmatia from Zara is requested, as well as all matters pertaining to the provincial administration now lodged in the city.

The solution of the Albanian proviso, the Jugo-Slav government suggests, would be best followed by a continuance of the status established by the conference of ambassadors in London in 1913, which was for a local autonomous government without outside interference. In the event of any other solution, the note declares, the northern frontier adjoining Jugo-Slavia would have to be modified.

The question of the division of the Austro-Hungarian war and commercial fleets, the note declares to be a part of the Adriatic problem, and a settlement on this point is demanded.

OSGOODE HALL NEWS

Borden Denies the Report He Will Be Governor-General

New York, March 2.—Premier Borden today issued a denial to the Canadian Press of a despatch from Ottawa, printed in a local paper yesterday, to the effect that he was to be named as the next governor-general.

"There is no foundation whatever for such a report," he said. The premier also declared that the question of separate representation for Canada in foreign countries had not been discussed by him with the imperial authorities during his visit to England.

TECHNICAL ORGANIZER

Frank S. Rutherford, B.A.Sc., Appointed Head of Industrial Branch, Department of Education.

The Hon. R. H. Grant, minister of education, announces the appointment of Frank S. Rutherford, B.A.Sc., at a salary of \$3,500 per year...

The position was advertised by the civil service commission and Mr. Rutherford was selected from among the applicants who were in active service during the war.

He is a graduate of the faculty of applied science of the University of Toronto and an associate member of the Engineering Institute of Canada.

He is a trained public school teacher and has had varied experience as an engineer.

He enlisted in August, 1914, as a sapper in the Second Field Company Canadian Engineers, Toronto, and went to England and France with the first contingent.

He returned to England as a sapper and later to Canada on duty as sergeant and given a commission on construction work for the school of trench warfare.

He was also connected with the imperial ministry of munitions as traveling examiner. In February, 1919, he was discharged from the army to take up employment with the department of soldiers' civil re-establishment.

ANNUAL REPORT ON POSTOFFICES

Postmaster-General's Department Shows Surplus of Over \$2,300,000.

Ottawa, March 2.—(By the Canadian Press)—The report of the postmaster-general, which was tabled in the commons this afternoon, shows a net revenue for the fiscal year 1918-1919 of \$21,602,713.63, an increase of \$257,318.20, as against an expenditure of \$19,273,533.94, an increase of \$1,227,026.04.

Philadelphia, March 2.—The city council today adopted a resolution to extend a cordial welcome to Philadelphia of Eamon de Valera, "president of the Irish republic."

RAISE IN NURSES' PAY

Kitchener, Ont., March 2.—(Special)—The Local Graduate Nurses' Association has decided to raise the nurses' tariff in Kitchener and district.

SENATE ADOPTS TWO RESERVATIONS TO PEACE TREATY

One of Them Affects the Much-Debated Monroe Doctrine.

DEADLOCK IS COMING

Washington, March 2.—Two more of the Republican reservations to the peace treaty, one of them affecting the much-debated Monroe doctrine, were adopted in the senate today.

The Monroe doctrine reservation, which has been the subject of a long and bitter fight, was adopted by a vote of 55 to 34 in November, when only nine Democrats supported it.

The other reservation acted on asserts the full jurisdiction of the United States over purely domestic questions and was adopted 55 to 25.

Little debate attended the senate's action, all elements apparently conceding that the successive roll calls were merely formalities to let every one get on record one more before the final deadlock, which now generally is expected to put the treaty over into the campaign.

On the Monroe doctrine reservation seven Democrats who did not vote for adoption in November, swung over to the Republicans on today's roll call. They were: Senators Beckham, Kentucky; Fletcher, Florida; Pittman and Henderson, Nevada; King, Utah; Smith, Georgia; and Myers, Montana.

The amount of money withdrawn and savings accounts closed during the year at the postoffice savings banks were both greater than in the preceding twelve months.

### MACHIN PREACHES TOLERANCE GOSPEL

#### President of Citizens' Liberty League Addresses Women's Branch.

Leut.-Col. H. A. C. Machin, president of the Citizens' Liberty League, gave an address at Foresters' Hall yesterday afternoon to members of the women's branch, Mrs. Louise Phillips, president, in the chair.

That women have a mission whereby they can educate the home, the church and the state was the message of the speaker. Before the war Canada was intensely selfish, said Col. Machin. Gambling was practiced everywhere. Men grew rich overnight. The question, "What is there in it for me?" was heard on every side. Men are in a much better position today for the war. Neither were the league out to make the prohibitionist drink a gallon or two of whiskey a day; at the same time, no one was to say another should not have a little nogg at night if he wanted it.

Loss or Gain? Those who are forced to go to church in the morning and at night, with the Bible in their hands, are not bettered by their experience, according to Col. Machin, who, on the other hand, said that if these things are done voluntarily there is immediate gain. If the world were governed by love, patience and humility then there would be no reason for organizations such as the Liberty League. I do not wish to be unfair to any government, said the speaker, but one of the things that are going against Canada is class government. Today we have the spectacle of a Farmer's government. Surely they are Canadians and British first, why divide into any class? Today there are only between three and four hundred farmers in the province of Ontario paying taxes, the audience was told. Col. Machin would say to Mr. Drury, get hold of your farmer friends and preach the truth so that they will have eight or nine hundred in the future. What the league would set out to do is to take constitutional means to right what they consider their wrongs, and in the doing, their slogan is charity, decency, love—charity to all.

### DRIVE THE TURK OUT OF EUROPE

Says British Intelligence Officer, Addressing Women's Press Club.

At the weekly meeting of the Women's Press Club held yesterday afternoon, Captain D. Stevenson, late of the British Intelligence department, and lately returned from Russia, told something of the life of the women in Turkey and the contrasting conditions in the little state of Georgia. The speaker also touched upon the misfortunes of the people of Armenia, who were the first to declare themselves a Christian nation and declared that the Turk should be driven out of Constantinople. The Bolsheviks were described as worse than the Hun.

Another guest was Miss Mary Shaw of the Otis Skinner Company, who was accompanied by Miss Kent. Miss Shaw, who won the hearts of her audience, was introduced by Mr. Hector Charlesworth as one who had upheld the Shakespearean drama at its best. She told of the "Garnet Club" of New York of which she is president, in which every class of women is represented, where there are no rules until occasion arises, making them and where the sisterhood of women is the outstanding incentive. The musical part of the program was charmingly contributed by Mrs. Healey Williams. A vote of thanks to those who had contributed to the program was moved by Miss Dorothy seconded by Miss Marshall Saunders. The hostesses were Miss Louise Mason, Miss M. Houston and Miss Mona Coxwell.

### CONVICTIONS NOT UPHELD

Justice Masten in the weekly court at Osgoode Hall yesterday, quashed the conviction of Edward Kelly and John Aileen who had been found guilty by the O.T.A. by a Kingston magistrate. The case of Sam Hogan, who was said to have given a fictitious name to a press company when he obtained the liquor, was reserved. Wolfe Island was the scene of the misdemeanors.

### For the Little Ones

To Keep Their Digestion Perfect Nothing is so Safe and Pleasant as Stuart's Dyspepsia Tablets.

An experienced observer in charge of a large office said it was a waste of words to tell most people to eat plain food. They prefer the food that delights the eye. Cheeking up on the after effects, the usual distresses of gasiness, sour risings, water brash, loziness and so on may be avoided by following the meal with one or two Stuart's Dyspepsia Tablets. These supply the stomach with an alkaline effect, thus promoting normal conditions in its health. This puts the O.K. on excellent rich food. Men and women are but children of a larger growth when it comes to eating the foods that resist, even though they may cause indigestion.

Indigestion is not necessarily confined to those who live high. It may follow so simple a process as the flavor of a bay leaf, thyme, garlic,

### RUSSIAN BLOUSE EFFECT AGAIN COMING INTO ITS OWN

This basket weave cotton fabric in brick color used in the making of the blouse is extremely smart and will find favor in the southland as well as during the summer months in the north. Skirt is of natural tussah.

### "What's in a Name?"

Facts about your name; its history; its meaning; whence it was derived; its significance; your lucky day and lucky jewel. By MILDRED MARSHALL.

### JOSEPHINE

The origin of Josephine lies in Scriptural history. When after long waiting and hoping a son was born to Rachel, she named him Joseph, the name coming from a word meaning an addition, because she hoped that there would be still another child added to her family.

The beautiful character of Joseph assured him namesakes beyond number, and in 1821 a festival day was fixed by the Pope in honor of St. Joseph, the husband of the Blessed Virgin. This spread the use of his name afar. Spain adopted it, calling him Jose Maria, or Pepito for the contraction. In this way, Pepita or Josefa, the feminine form, arose.

The daughter of Maria Theresa was called Maria Josepha and these names were seldom separated in France, Italy and Germany. The famous Empress Josephine really bore the name of Marie Josepha Rose. Her unfortunate career as the wife of Napoleon made her such a dramatic figure in French history that Josephine became the favorite name of French dandies, who sometimes contracted it to Efigene or Finette. In Switzerland, the name became, thru some curious contraction, Boppli, and is still used as such among the peasants.

Josephine was introduced into England straight from France, and no effort was made to change it, or place the stamp of the Anglo-Saxon upon it. America, taking it over straightway contracted it to Josie, but Josephine is always given in baptism. Josephine is popular in all Latin countries, except Spain, which retains Josefa. Sweden has a musical Josefina.

Jet, signifying sorrow, is Josephine's talismanic stone. If worn by her, it would drive away the causes of sorrow, disease and suffering. Thursday is her lucky day and 2 her lucky number. Her flower is the snowdrop of purity. (Copyright, 1920, by the Wheeler Syndicate, Inc.)

### OLD "TIMES" FIXTURES SOLD BY AUCTION

The office fixtures of The Times newspaper, which ceased publication last fall, were sold by auction yesterday. Fairly high prices were paid for the smooth shiny desks in the business office, but there were some bargains in the news-room and sanctum in the nature of filing cabinets, chairs and desks, which had been scarred and marked by the trusty jack knives of the soliloquizing cub reporters. The fact that stories and poems pulsating with the bubbling spirit of the day's events and at times with a bubbling spirit of another kind, had been written on these desks, meant nothing to the bargain hunters, who were looking for just plain wood. The drawing table on which McConnell did his bit to turn the rascals out, sold for two dollars to a man who thought it would make a good checker board.

It is understood that other parts of the plant will be offered for sale shortly, and that negotiations are also on for the sale of the land and building.

### WILLS AND BEQUESTS.

E. T. Malone, K.C., has renounced his right to apply for probate as executor, has applied for probate of the will of his brother, James McLeod Pritchard, who died Feb. 23, leaving an estate valued at \$18,775. The household goods and personal effects are bequeathed to his sister, Annie Pritchard, who receives the income from the residue and so much of the principal as may be necessary for her maintenance. On her death the brothers and sisters who survive inherit.

By a will, made February 7 last, two days before he died, John Emack directed that Mrs. Ethel Emack should receive the income from his estate, and so much of the capital as may be necessary, but not to exceed \$200 in any one year, for the maintenance of her daughter, Madeline Emack, until she reaches the age of twenty-one, when the daughter inherits absolutely. The estate is valued at \$8,000.

Alfred Hearn, expressman, inherits the net cash, two lots of townships, valued at \$500, and the property at 158 Lansdowne avenue, \$5,500, which makes the estate of value \$6,000. Hearn, who died in Toronto, February 19, and whose will, dated November 9, 1919, was filed for probate yesterday.

William Ernest, William S. E. and Herbert L. Grant, all of York, Ontario, respectively, will share equally in the estate of Mrs. Mary Ann Granger, who died in Toronto, June 2 last, leaving no will.

### TWO YEARS AND LASHES

"I think it is the worst case that has come before me, and I have had many," remarked Judge Coalworth in the sessions yesterday in sentencing Henry Watkins to two years in the penitentiary with lashes. Watkins was found guilty of indecent assault on a young girl, and Crown Attorney Greer declared that the case was one for exemplary punishment. The prisoner will be whipped twice, and will receive ten lashes each time, the whipping to be administered the first and third months after confinement.

### TORONTO MALE CHORUS.

The Toronto Male Chorus, under the leadership of Mr. E. R. Bowles, which has delighted Toronto audiences during the past three seasons, will give their fourth annual concert at Massey Hall on Thursday evening next, March 4. An excellent program of male voice music has been prepared, and patrons will not be disappointed in the work of the chorus, which has a membership of 200, and sings with a variety of tone and with a wealth of expression not confined by any similar organization on the continent. The assisting artist will be Max Rosen, the phenomenal young American violinist, at any drug store in the United States or Canada—price 50 cents—and then note how comfortable the stomach feels. Your most excellent ointment use garlic without a protest.

### SOCIETY NEWS

CONDUCTED BY MRS. EDMUND PHILLIPS.

The Hon. Edward Brown is at the King Edward from Winnipeg. The Hon. Robert Rogers was at the King Edward yesterday and found time to order the furnishings of his new house in Winnipeg.

The Archbishop of Nova Scotia and Miss, who they will spend several months, where he will attend the anti-Anglican conference in London.

Lady Gage and the Misses Gage are leaving shortly for Atlantic City. Mr. and Mrs. Hector MacInnes have arrived in town from Halifax, Nova Scotia, and are at the King Edward.

Miss Mackay and Miss Margaret Phippen returned from Atlantic City on Sunday. Mr. Gordon Phippen is still there.

Mr. Charles Ellis left last week for England.

Mrs. George Dunbar is giving a small bridge party this afternoon for Mrs. Mrs. Arthur Wells who did such splendid work for the Friends of France, has accepted the position of corresponding secretary on the pretentious board I.O.D.E. Mrs. Wells has been a member of the board for some time, and this is a very popular appointment.

The marriage took place recently in Toronto of Vera Gertrude, only daughter of Mrs. C. H. Passmore, to Capt. Herbert E. Shaughnessy, eldest son of the late Mr. George Shaughnessy, and of Mrs. George Shaughnessy, Park road.

Mr. George S. Driscoll, Mrs. John Irving and Mr. R. G. Chamberlain have arrived at the King Edward from Montreal.

Mrs. William Gale is giving a small bridge party this afternoon at her house in Bedford road.

The following have taken boxes at the Toronto Skating Club on Friday, March 19: His Honor the Lieutenant-Governor, Mrs. H. D. Warren, Lady Eaton, Hon. Frederick Nicholls, Mrs. James Scott, Mrs. George Broughall, Mrs. T. H. Watson, Mrs. George Wilson, Prof. Hoops, Mrs. Van Nostrand, Mrs. G. O. S. Lindsay, Mrs. Yoris Peterson, Mrs. W. K. Pearce and Mr. A. H. C. Proctor.

Mr. Harold Jarvis (Detroit), who has arrived in town from Montreal, has been staying with Mrs. William Hope, Dorchester street, who gave a dinner party for him.

The Toronto Travel Club had a most delightful afternoon at the house of its president, Mrs. B. G. Wood, Sussex street. Madame Parland gave an interesting address upon the "Manners and Customs of Rumania," at the close

### C.P.R. ACCIDENT NEAR METAGAMA

#### Partial Derailment of Toronto-Vancouver Train—Seven People Slightly Hurt.

Montreal, March 2.—(By Canadian Press.)—The accident to train No. 3, westbound from Toronto to Vancouver, reported in a despatch this afternoon from Sudbury, caused the derailment of the six rear cars of the train, which consisted of ten cars, according to information received at the head office of the C.P.R. here. Of the derailed cars, the one at the front, a coal car, alone overturned. The accident, which was caused by a broken rail, occurred half a mile east of Metagama, at 10 a.m. yesterday, and the track had been cleared and traffic resumed by 4 p.m. Seven of the passengers were injured, but all the injuries are reported to be slight, and none of those injured needed to go to a hospital. Doctors from Chapleau went to the scene of the wreck and attended those who had been hurt.

Owing to the accident, the west-bound Imperial Limited was delayed for four hours and 25 minutes.

### ROAD SUPERINTENDENTS CONFER.

The provincial conference of road superintendents and engineers was continued yesterday at Queen's Park. A. B. Manson, city engineer, Stratford, read a paper on "Simultaneous Penetration Surfaces," and E. A. James dealt with a subject that he is familiar with, viz., "street paving in towns and villages," illustrating the work done by the Toronto and York Roads Commission.

In the afternoon an interesting and general discussion of highway laws was developed, following an informing statement of the subject by W. A. McLean, deputy minister of highways.

The conference continues today.

### FELL DOWN SHAFT—WENT HOME.

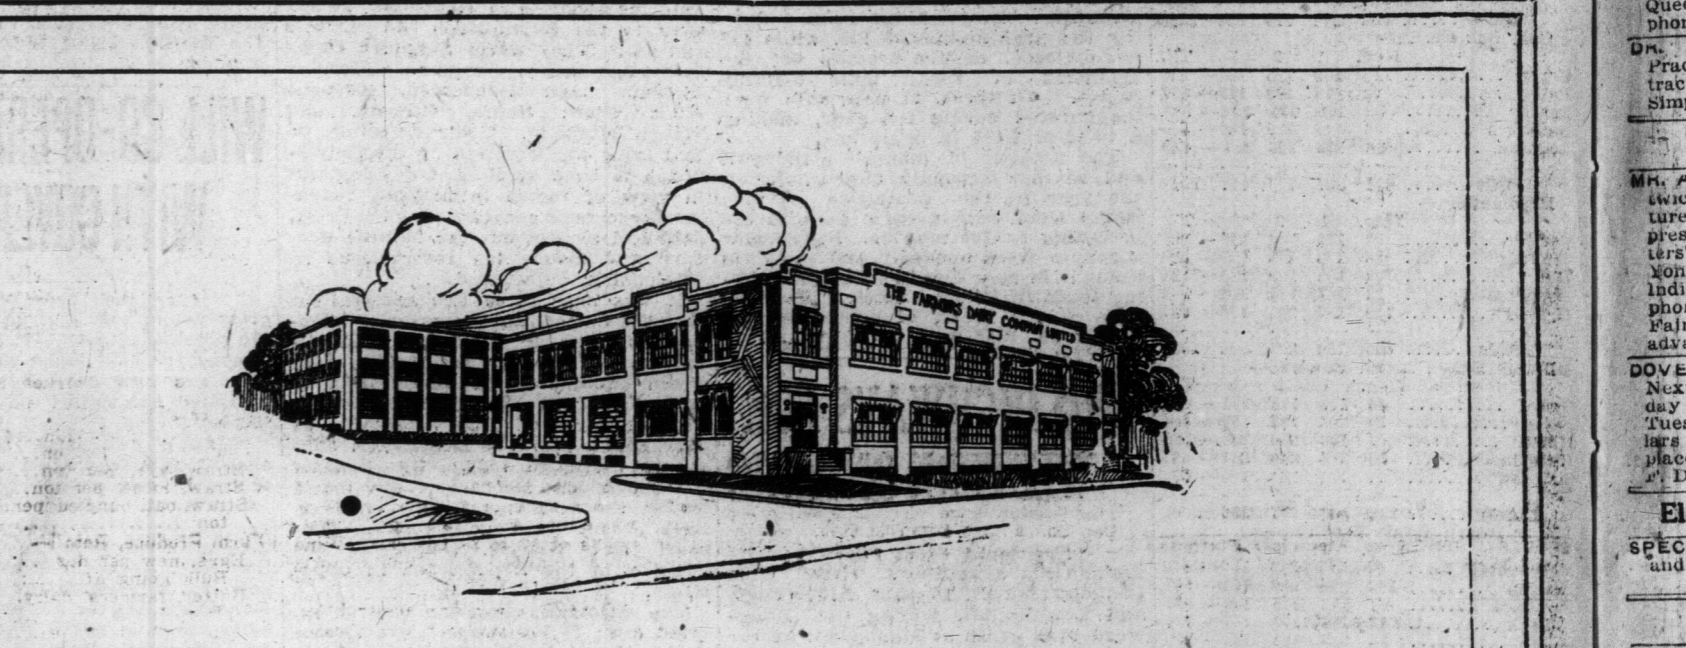

Frank Hopkins fell down an elevator shaft at 29 Temperance street yesterday afternoon. Hopkins was taken to the General Hospital, where it was found his injuries were only slight, and he was able to go to his home at 270 Palmerston avenue.

### "FLU" VICTIMS NEED FRUIT.

An appeal for fruit, oranges and eggs was issued by the Flu Relief Depot, 37 West King street. Busy workers are still preparing soups and custards for the sufferers and a large staff is on hand every day. Among those noticed yesterday were: Mrs. Geo. Salter, Mrs. Charles O'Leary, Mrs. Wm. Walsh, Mrs. Macdonnell, Miss Lorretto Walsh, Mrs. James F. Egan and Miss Hanrahan. The depot is under the supervision of the Catholic Women's League of Canada, in connection with the Neighborhood Workers' Association, and the work is conducted on non-sectarian lines. Mrs. W. A. Kavanagh is head of the social service department and Miss Gertrude Lawler, M.A., is president.

### NO HOUSING GRANT LEFT.

Hon. H. C. Nixon yesterday received deputations from Windsor and Ottawa, asking increased housing grants. Ottawa wants \$750,000 more or about as much as has already been expended. Mr. Nixon said the housing appropriation has all been expended, but if an additional grant is forthcoming the government will give all inquiring municipalities consideration.

# Justly Famous--Justly Popular

Toronto should be proud of The Farmers' Dairy—the finest, most up-to-date, best equipped dairy on this continent—one of the few great dairies in the world!

Dairymen—all over Canada and the United States—in speaking of buildings or equipment—invariably look upon The Farmers' Dairy as a model—a standard.

The Fame of this institution is continent-wide—and justly so.

No expense was spared in making it just as perfect as science, experience and study could achieve.

Every corner is flooded with sunshine. Smooth concrete on every floor. Shining white enamel surrounds each room. Every piece of equipment gleams with the brightness of copper, glass and white enamel.

But building so fine a dairy was but part of this institution's ideal of service.

Better milk—and better delivery—have made The Farmers' Dairy as popular as it is famous.

Ontario's finest farms supply us with richer-than-ordinary milk—milk from well-tended, well-fed cows.

You'll find Farmers' Dairy delivery service completely satisfying, too!

**NEW YORK STOCKS  
DULL AND HESITANT**

Pressure Limited to High-Grade Specialties—Firm Money Tendencies Seen.

**GOOD NEWS IGNORED**

New York, March 2.—Business on the stock exchange today was extremely dull and hesitant, the market taking little further heed of the supreme court ruling in the United States Steel "trust" case, and other developments usually accounted as favorable.

The decision of the railway brotherhoods to accept, temporarily at least, the terms of the new railroad bill excited virtually no influence, beyond a moderate hardening of transportation in the later dealings.

Trading was the lightest and narrowest in volume of any full session in many weeks, but pressure was limited to high-grade specialties, embracing motors, oils, equipments, leathers and textiles. Reactions of two to six points in those issues were only partly reversed at the apathetic close. Sales amounted to 465,000 shares.

Firm money tendencies were an overshadowing factor over all other events bearing upon quoted values. There was no lack of call money at 10 per cent, but 9 to 9 1/2 per cent was offered for time funds without appreciable response.

That the more rigid credit conditions are extending to interior centres was evidenced by advices from Chicago, where short-term rates also stiffened, and buying of merchants' bills was said to be almost negligible.

Brokers reported very little trading in foreign exchange, but quotations in that market were mainly higher. The rate for demand bills on London rose to \$3.43 1/2, or within 2 of its extreme rally from the acute depression of a month ago.

Liberty and Victory issues featured the bond market, the former rallying substantially, while the latter fell to low records. Other bonds, including international, were mixed and trivial changes. Total sales, per value, \$14,350,000. Old U. S. bonds were unchanged on call.

**PETROL OIL DEVELOPS  
SATISFACTORY OUTPUT**

The quarterly report of the Petro Oil and Gas Company, with properties in southwestern Ontario, covers operations from Dec. 1 to the end of February last. The directors announced that No. 1 well was connected up with the separator on Dec. 13, 1919 and is now delivering oil and gas in a very satisfactory manner, at the rate of about one car of oil every 10 days and from 450,000 to 500,000 cubic feet of gas per day.

Owing to the influenza epidemic the work at the field was somewhat delayed but, notwithstanding this, the drilling of well No. 2 has already reached a depth of about 1,100 feet and the 12 and 10 inch casing has been successfully set and, barring accidents, the well should be completed about the second week in April.

The oil line has been thoroughly tested and the company is not only now delivering its own oil to the tank cars but is also in a position to carry oil thru this line for other companies at a profitable rate. The present field equipment is of sufficient capacity to handle the product of another five or six wells without any additional expenditure.

The material for well No. 3 has been ordered and the sinking of this well will be proceeded with as soon as No. 2 is completed, and so on until all the property has been fully drilled.

Some facts regarding the No. 1 well are: The gas flow came in at 2,228 feet. The oil came in at 3,284 feet. Total depth of well 3,210 feet. Analysis of the oil already shipped to the refinery shows the oil to be of very high quality and it is being eagerly sought for, say the directors, at a price very much above the average.

In conclusion the report says that the shareholders have a splendid, revenue-producing property and they

can look forward to an increasingly profitable future as development progresses.

**LARGE ORE BODIES  
SHOWN ON HERRICK**

They Are Also Regular and Well-Defined, as Case in Hollinger.

On the Herrick Gold Mine of West Shining Tree, and on the Hollinger Consolidated of Porcupine, the ore bodies are large, regular and well defined. This adds greatly to profits, because it adds tonnage, reduces cost and makes the mining problem comparatively simple. There is a considerable amount of gold in the oceans of the world, but it is valueless, because the percentage of metal per ton of igneous rocks. Originally it was very thinly diffused. But shortly after the crust of the globe cooled and solidified there were many volcanic flows in the north. Thru these in later geological times plutonic rocks came to the surface. These eruptions made fractures and ore channels, generated a great deal of heat, and also set in circulation large quantities of hot water. Thus the gold was leached from its former matrix, and in a great concentrated form was deposited in the veins.

Gold-bearing veins are found in sediments. But their presence is due to an igneous flow. The blanket beds, or conglomerates, of the Rand belong to the sedimentary series. Thru these eruptions of diabase came, and finally enticed the veins. Diabase has also played a most important part in the Shining Tree. In fact, it brings this Canadian field into close relation with the greatest gold region ever known. The big Herrick vein is satellite to the diabase at Shining Tree to the same extent as the vein systems on the Hollinger Consolidated are satellite to the porphyry, or those on the Lake Matachewan at Matachewan are satellites of the quartz syenite or granite porphyry.

Gold deposition and accumulation in veins is a consequence of igneous flows. There is no known instance where it has been absorbed in commercial quantities by dolomites or other sediments from the waters of the sea.

L. S. Grant of Minneapolis, Minn., has taken over a group of claims in Skead township, known as the Jackson claims, and according to reports intends to start aggressive development work as soon as possible.

There is a revival of activity of the district west of Timmins about twenty miles where the Lally Gold Mines carried on operations some years ago. Mr. Benson is sinking with hand steel on his claims adjoining the old Lally holdings.

The Bourke Mines decided to close down temporarily and a meeting of directors will probably be held shortly to consider plans of future development. The work on the vein, which is 400 foot level shot out some excellent ore, and it is understood that recent drifting on other levels has been equally satisfactory.

While it is expected that the plant at the Keora-Porcupine will be ready for operating in a short time, the new shaft is being started with hand steel and naturally progress has been comparatively slow.

The newly-formed Lightning River Gold Mines has taken over a group of eight claims in the Keselidj district, near Amikougami Lake, and two claims in Egan township.

**MORE EXPLORATION  
OF SAVAGE PROPERTY**

Cobalt, March 2.—About forty tons are being mined daily at the Savage mine and treated in the McKinley-Darragh mill. There remains about a thousand tons of broken milling rock of low-grade to be sent to the mill.

The McKinley management has decided to carry on some more exploration work at the Savage, and cross-cutting is to be started at once.

This is the first exploration work done since the mine was dewatered some years ago. It was pumped out primarily for the purpose of restoring the milling rock known to exist underground, but was left there because of its low grade, when the mine was closed down some years ago.

**SUN LIFE MAKES  
SPLENDID STRIDES**

Applications for New Assurances Exceed One Hundred Million Dollars.

Montreal, March 2.—Conditions were unusually favorable for the writing of new business and the conservation of that already on the books, stated President T. B. Macaulay of the Sun Life Insurance Co. of Canada in his report at the annual meeting today. For the first time in the history of the company, the applications for new assurances exceeded a hundred million dollars (\$100,386,848.37). New policies issued and paid for in cash were 28,774 for \$86,548,849.44, an advance of \$24,367,457.40 over the figures for the preceding year.

The business in force now stands at 223,622 policies for \$416,358,462.05, a gain of \$75,548,805.92 or 22 per cent. These figures reflect the prosperity prevailing throughout the country, and are evidence also of the high quality of the company's business. This is further emphasized by the fact that there has been a considerable reduction in the number and amount of policies kept in force under the company's automatic nonforfeiture provisions, and a decrease also in the amount due on such policies.

During the year an arrangement was completed for the reassurance of the Provincial Life Assurance Company, with outstanding policies amounting to \$3,389,428.00. This business was secured on a basis which will benefit the policyholders both of this company and of the provincial company.

The income from premiums, interest, rents and other sources amounted to \$25,704,201.10, an increase of \$1,053,101.41 over the total income for the preceding year.

The reduction in the volume of annuity transactions which was so noticeable during the period of the war has now been overcome, and the receipts of last year (\$2,103,318.88) show a handsome advance over the previous year.

No total payments to policyholders or beneficiaries for claims by death, maturity of endowments, surrenders, profits, etc., amounted to \$12,364,100.14. The claim by death which fell during the year, the still abnormal, were less in amount than in the previous year, and the assurances in force, which are coming from a much larger amount, the influenza epidemic caused heavy losses during the early months, and a few claims due to the war have not yet been reported.

Developments at the 140-foot level continue in excellent high-grade on the vein discovered two weeks ago. A new high-grade vein was encountered last week at the 200-foot level of the Princess property of the La Rose, adjoining the McKinley-Darragh, and it looks as though will be La Rose's best year. Production for this month is the best in years, and the March production is sure to show a tremendous increase from new discoveries.

**MINING NOTES**

The high grade found recently at the 140 foot level of the University property of La Rose Consolidated was made in the keowin, and even better results can be expected for a much larger amount of the vein gets into the conglomerate. The station at 140 feet was set in keowin with the idea of drifting would soon be above the contact.

The Coniagas has started work on Trethewey's Cobalt property which was recently purchased. Operations will be carried out on a modest scale until the mine is developed into shape for becoming a regular source of ore for the Coniagas mill. It is proposed to gradually increase the number of machines as development warrants.

In addition to what may be found underground, there remains quite a tonnage of old tailings to be treated. These dumps which may be found to contain profitable milling values.

Negotiations for the purchase of the accumulations of old tailings from several Cobalt mills on Chambers-Ferland property have been broken off, and the Northern Miner understands that the purchase of these old tailings may be being done by the proposed buyers.

If the deal had been consummated it would have been of great financial assistance to the Aladdin Company, as the reported price was large.

The Bourke Mines decided to close down temporarily and a meeting of directors will probably be held shortly to consider plans of future development. The work on the vein, which is 400 foot level shot out some excellent ore, and it is understood that recent drifting on other levels has been equally satisfactory.

While it is expected that the plant at the Keora-Porcupine will be ready for operating in a short time, the new shaft is being started with hand steel and naturally progress has been comparatively slow.

The newly-formed Lightning River Gold Mines has taken over a group of eight claims in the Keselidj district, near Amikougami Lake, and two claims in Egan township.

**MORE EXPLORATION  
OF SAVAGE PROPERTY**

Cobalt, March 2.—About forty tons are being mined daily at the Savage mine and treated in the McKinley-Darragh mill. There remains about a thousand tons of broken milling rock of low-grade to be sent to the mill.

The McKinley management has decided to carry on some more exploration work at the Savage, and cross-cutting is to be started at once.

**MINING STOCKS  
IN MORE FAVOR**

Trading Broadens Out and Tone is Firmer in Majority of Issues.

FRANCIS H. SISSON

At the gathering of representatives from all parts of the Dominion, of trust, loan and insurance companies to be held at the King Edward Hotel, Toronto, tomorrow evening, one of the chief speakers will be Francis H. Sisson, vice-president of the Guaranty Trust Company of New York. It is the occasion of the annual meeting of the Dominion Mortgage and Investments' Association.

Mr. Sisson, before being elected vice-president of the Guaranty Trust Company of New York, was prominent in United States railroad circles as assistant chairman of the railway executives advisory committee.

**LA ROSE'S PROPERTIES  
SHAPE UP SPLENDIDLY**

A Cobalt wire to Howard Graham and Co., yesterday said: Developments at the 90-foot level of the University property of La Rose have disclosed a 30-foot wide ore body. Drifting has already been pushed 29 feet along the ore body. Three high grade veins from two to three inches wide, are showing, while the whole 30 feet of the ore body is a network of stringers of native silver, making the ore body very rich. Fifteen bags of high-grade ore are coming from this vein system alone.

Developments at the 140-foot level continue in excellent high-grade on the vein discovered two weeks ago. A new high-grade vein was encountered last week at the 200-foot level of the Princess property of the La Rose, adjoining the McKinley-Darragh, and it looks as though will be La Rose's best year. Production for this month is the best in years, and the March production is sure to show a tremendous increase from new discoveries.

**MINING STOCKS  
IN MORE FAVOR**

Trading Broadens Out and Tone is Firmer in Majority of Issues.

Encouraging signs of a revival of public interest in the mining market were noted yesterday. Not only was the tone distinctly firmer than for some days, but business broadened out in a manner to cheer brokers, and the turnover of more than 103,000 shares was double that of a number of recent days. Both gold and silver stocks shared the favor of buyers, while the oil group, as represented by Petrol Oil, Bothwell Oil and Vacuum Gas, was by no means overlooked.

Dome Lake seems to have found bottom after its precipitate drop, and yesterday's sales were between 9 1/2 and 10 1/2, a net gain of 1/4. It is announced that the Dome Lake has closed down, for a time at least, the reason given being lack of ore. The rumor that there has been a change of management is denied. Kirkland Lake sold as high as 76 on a 60-day delivery basis, while the bid otherwise was at 73, as compared with 72 on Monday. Lake Shore rallied two points to \$117, and McIntyre a point to \$2.06, but Hollinger showed renewed heaviness, being on offer at \$6.70.

Porcupine Crown was the most active of the gold issues, nearly 17,000 shares coming out. The trend was reactionary, the loss at 35 1/2 being 1 1/2 points, which was not surprising following a series of upturns as profit-taking naturally came into play.

Manager Stewart of the Porcupine Crown Mine announces that operations will be resumed at the mine at once.

Prior to closing down in July, 1918, the Porcupine Crown was an important producer, and was paying dividends at the rate of 12 per cent, annually. Ore reserves have recently been estimated at approximately \$500,000, and with fair prospects of this amount being added to as a result of carrying on deeper operations. The grade of the ore is fairly high, averaging over \$10 a ton, and thus assuring a substantial margin of net profit. The treasury contains upwards of \$200,000 in surplus.

Frams, the newly-listed gold stock, made its bow on the exchange yesterday, when there were transactions at 15.

In the Cobalts, the shining lights were McKinley-Darragh and La Rose. The former sold up 1 1/2 points to 70 1/2, closing at the top. The annual report is not likely to appear for several weeks yet, but those more or less "in the know" predict that it will justify hopeful expectations entertained. There is quite a stream of bullish ad-

**Dividend Notices.  
CANADA PERMANENT  
MORTGAGE CORPORATION**

QUARTERLY DIVIDEND

Notice is hereby given that a Dividend of TWO AND ONE-HALF PER CENT on the current quarter, being at the rate of TEN PER CENT PER ANNUM on the paid-up Capital Stock of the Corporation, has been declared, and that the same will be payable THURSDAY, THE FIRST DAY OF APRIL.

The transfer books of record, at the close of business on the fifteenth day of March.

By order of the Board.  
GEO. H. SMITH,  
Assistant General Manager,  
Toronto, February 25th, 1920.

**Meetings.  
BIDWELL OIL AND GAS,  
LIMITED**

(No Personal Liability)  
Take notice that the Statutory Meeting of Shareholders of Bidwell Oil and Gas Limited, (no personal liability), will be held at the Head Office of the Company, 609-4 Lumber Building, Toronto, Ontario, on Saturday, the 20th day of March, 1920, at three o'clock in the afternoon, when the subjoined resolution will be proposed.

Resolution—Resolved that the Company create one issue of Fifty Thousand shares of Eight Per Cent, preferred stock.

By order.  
NEWTON C. SHAVER,  
Secretary.

Notice touching the results on the La Rose's University property, and yesterday the price of La Rose took a two-point upturn to 52. Adanac was active, but remained anchored around its low level of 3 1/2. Beaver at 63, Peterson Lake at 2 1/4, and Timiskaming at 44 finished without net change. At the local Timiskaming office no confirmation of reports of important discoveries within the past few days on No. 9 vein and on the Gans lot is given. Crown Reserve was easier at 36 1/2, and Trethewey at 48 1/2.

Bothwell Oil, the newcomer in this section, firmed up a point to 32 1/2. Petrol Oil, which has just issued an encouraging quarterly statement, was firm at 59, and Vacuum Gas steady at 20.

**THE REAL STORY  
OF  
PORCUPINE**

We are preparing an illustrated booklet, which will tell the real facts about this great gold-producing district in an interesting way.

A copy will be sent free on request.

**Something Different in Mining**

I have spent many years in the Porcupine field and recently was able to arrange for the purchase of the old "Frame Lot." There are two very promising gold-bearing veins on this property, which I have examined carefully. Vein No. 1 is extraordinarily long—its great length and the presence of copper-pyrite indicating a deep-seated origin—with a strong probability of excellent results, both in size and values, being obtained at depth. Vein No. 2 is even larger and more important, with a width of at least five or six feet. It is an exceptionally strong vein, heavily mineralized, and showing distinct and unmistakable indications of proving to be a large and valuable ore body. The assay results from a pit blasted to a depth of about six feet, showed \$12.50 a ton. The Big Dome Mine has three shaft heads on their property erected along their main ore body. If you draw a straight line through these three shaft heads and continue it west it would run right across the Frame Lot. The formation and lay of the land on this property is such that preliminary development work can be done at a much less cost than is usually necessary and in much less time. Instead of sinking a shaft and having to install hoisting and pumping machinery, we can simply tunnel through the hill and then drift along the veins east and west, and if my opinion is correct, we will find these will widen and enrich materially on development. A successful mine pays its shareholders tremendous profits. I have very sound reasons for thinking that Frame Porcupine will be a successful mine. The risk involved is far less than usual. If you are willing to assume this comparatively small risk, I strongly advise you to apply immediately for as many shares as you can possibly buy at the present low price.

J. F. MCKENZIE,  
Manager, Frame Porcupine Mines.

Frame Porcupine is Different Because:  
Its Capital is moderate.  
60% (Control) of the entire Capital is in the Treasury.  
All Stock issued in payment of Property is pooled for six months, with provision for extension of another six months if necessary to protect the market for the shares.  
There are no Commissions or charges of any kind against this issue—every cent goes into the Treasury. The stock is listed on the Standard Stock and Mining Exchange, where the shares can be bought or sold.

Simpsons Salons for Imported Gowns

Infinite Variety Is the Keynote of the New Spring Frocks.

Navy serges and tricotines for street wear flaunt extravagant embroideries of Oriental inspiration in wonderful colorings and gold.

Here is a tricolette of lissome grace—there a white baronet satin stitched with burnished copper threads—styles which milady craves for the races.

Georgettes, lovelier than ever and more fashionable, too, in summery shades and literally weighted down with beads, wrought into designs that beggar description. Or in printed designs so wonderful and new that one must see to comprehend.

Printed foulards, too, and pussy willows that need little adornment other than the beauty of their fabrics, and the touch of bouffancy they effect.

And, sounding the most appealing note of all, navy tafetas—so spring-like, so adapted to every occasion. Much Oriental embroidery of ancient design and exquisite beading to brighten them.

Above all, the insistent lure of the east translated into styles, fabrics and design, that make our frock collection surpassing wonderful, and the salons the loveliest spots imaginable in which to shop.

Simpsons—Third Floor

Spring Notes

The Eastern Influence So Strongly Permeating the Spirit of the Times

—has boldly entered the realm of the new season's fashions to flaunt itself in a score of ways as alluring as they are "different" and daring. The foremost designers have embodied them in the smartest of frocks, suits, wraps, hats and accessories we have ever shown. For instance:

Colors are borrowed from the fauna and flora of the old lands—from the plumage of their birds—from ancient jewels—from fine old tapestries.

One sees the lemon, paradise turquoise and scarab green of Egypt, as well as the rich deep blue found on statuettes in the pyramids. Chinese blues, too, Italian jades, Algerian and Moroccan reds, Javan batik-prints and Japanese flower colorings.

Those used mostly in the exquisite embroidered and beaded designs that adorn not only the wonderful frocks and blouses of the season, but extend to suits and coats as well. For instance, one of the smartest suits we are showing for misses has a veritable sunset on its collar—long rays of red and blue and green and dull gold—while a street frock is rich with Japanese embroidery in native design and coloring.

Design, too, turns Eastward for inspiration. Here it is used in the Sphinx-like hats which dominate the French Models displayed in our Millinery Openings—novel affairs flat at front and back, with great ears of straw, silk, fruit or unique ornaments. Again you catch its effectiveness in the harem veil that droops over Milady's eyes or the turned-under harem hem that finishes her frock. Twas to Russia designers turned for the bloused tunic and the Cossack over-blouse—to India for the becoming draped Hindoo turban—to Egypt again for the exquisite lotus-design that elaborates one of our handsomest frocks.

All these, and many other new and absorbingly-interesting notes of the Eastern world you will find expressed in our Opening Displays throughout the Store—displays that surpass all we have hitherto shown from the standpoints of artistic beauty, modishness and appeal.

Dainty Little Electric Handmaids In the Shape of Up-to-Date Electric Appliances Abound on the Sixth Floor. They Are Built to Save Your Time, Energy and Pocket Book. A Splendid Assortment.

Some to make ironing more or less of a pastime, some to prepare little after-theatre rarebits with ease and despatch, and some to boil an egg and make husband's toast at the breakfast table. Little electric assistants that have no human failings, are economical in price and doubly so in operation. The variety of uses to which they can be put is surprising.

The way to take worry out of domestic routine and to lighten household care will be demonstrated to you gladly in the great electric appliance display on our Sixth Floor. These offers will show you how paying an investment you can make.
