Nursery Burglar Proves Only Billy, Making A Call

Drops In To See Lady of 6, Who Is Out; Mother Summons Police

NEW YORK, April 22—Four-year-old Billy Coak, of 140 Claremont avenue, Montclair, N. J., yielded to the social impulse yesterday and went calling. He went to the home of six-year-old Mildred McAllister at 47 Christopher street, 132nd nursery, Billy recalled from a previous, authorized visit, teamed with entrancing toys.

MILDRED was at school. Her mother, Mrs. John D. McAllister, did not see Billy enter and shortly afterward telephoned to the Police Headquarters that there was a burglar upstairs.

Chief of Police Reilly and a patrolman entered the house with drawn revolvers, while Mrs. McAllister remained on the lawn, her hands over her ears.

PRESENTLY the policeman emerged. Mrs. McAllister removed her hands from her ears. They were leading Billy. He had hung his coat and cap on a bedpost and was engrossed in a toy railroad when the police interrupted him.

HON. P. J. VENIOT TO REPLY TO PREMIER

Will Deal Exclusively With Grand Falls Development Question This Afternoon

Special to The Times-Star

FREDERICTON, April 22—Hon. P. J. Veniot, leader of the Opposition, will hold the stage in the House this afternoon when it is expected that he will make an exhaustive reply to Premier Baxter's speech on the Grand Falls development, dealing practically exclusively with the question of Grand Falls development.

It is understood that Mr. Veniot will deal at length with the opinions of W. N. Tilley, eminent lawyer, and H. G. Acres, consulting engineer for the former Hydro commission, and endeavor to show that under the present government's scheme only two large industries will benefit from Grand Falls power development, while no provision is made for smaller industries. He will also contend that under the newly proposed scheme the lower sections of the Saint John River and the central part of the province can never be reached from Grand Falls.

The main subjects of Mr. Veniot's speech will, it is understood, deal also with the recent speech of Hon. E. A. Reilly, chairman of the Hydro commission, the agreements on the development of Grand Falls, the prices of Hydro power and the estimates by the International Paper Company, and the capacity of Grand Falls.

Bachelor M.P.'s To Bar Doors Against Women At Dinner

LONDON, April 22—The greatest interest is being manifested in the dinner of the bachelor members of the House of Commons concerning which there was some debate as to whether the only single member should be admitted. There will be no waives and the utmost precautions will be taken to prevent women from entering the dining room and making a demonstration against bachelors as there is some fear they may attempt to do. Admittance will only be by password. The menu is to be bear devices glorifying single blessedness and the toast to be drunk will all be in favor of the state of single blessedness with strong denunciations against those who have left the single life for womanly attractions since the last banquet and against the marriage state.

DIOCESAN SYNOD COMMITTEES ARE NAMED

Budget System of Contributions Is Approved

IS BISHOP'S PLAN

Amendment Urging Use of Special Collections Is Voted Down

FREDERICTON, April 22—The Diocesan Synod of the Anglican Diocese of Fredericton this morning discussed the budget system of contributions. His Lordship Bishop Richardson brought up this matter. He suggested a plan whereby offerings might be earmarked for certain purposes. Under his proposal the offering for King's College was removed from the budget and made optional with the parishes. His Lordship explained that his recommendation was in the nature of an experiment. An amendment calling for the use of special collections from time to time, when regular contributions were made by budget, was opposed.

The amendment was voted down and the recommendations of the Bishop carried.

Warsaw Announces Polish Cabinet Resigns But Remains in Power

WASHINGTON, D. C., April 22.—The Polish legation last night made public the following cablegram from Warsaw:

"The Polish Telegraphic Agency is authorized to state that rumors which have been spread today from Berlin to the press, of an alleged coup d'etat in Warsaw and an alleged proclamation that a Fascist government would be established are devoid of all foundation. The Skrzynski cabinet sent in its resignation today. However, it was not accepted by the president of the republic, the consequence of which is that the cabinet remains in power for the time being."

Canadian Press.
LONDON, April 22.—Number 17 Bruton street, Mayfair, today, as yesterday, was the centre of attraction for baby-worshipping women and girls, who crowded to the spot, to view the house in which Great Britain's newest princess was born early yesterday morning to the Duke and Duchess of York. At all social gatherings last night the toast was "The New Baby Princess."

Speculation is rife as to what name will be chosen for the princess. Among the most popular in the minds of the public are Elizabeth, Mary and Victoria. Elizabeth makes a strong appeal to the popular imagination because of the possibility of the little newcomer some day ascending the throne, thus giving Britain another "Good Queen Bess," and another Elizabethan era.

HER EYES ARE BLUE

A vital question regarding the princess, from woman's viewpoint is what is the color of the baby's eyes. This has been answered by those who profess to know. They assert that the eyes are blue. They also declare that the princess weighed more than seven pounds on her arrival. The physicians in attendance report her strong and healthy, and as having a quantity of hair.

The christening of the infant is expected to take place in the Chapel Royal at St. James' Palace. The godfathers will be King George and the Prince of Wales, while the two godmothers, Queen Mary and the Countess of Strathmore, will be godmothers. Nothing concerning the christening, however, has been officially announced.

GRANDPARENTS PLEASED.

King George and Queen Mary and Queen Maund of Norway had a peep at the little girl yesterday afternoon, and are declared to have expressed much pride in her. The Royal grandparents had been up since an early morning hour, when they were informed of the new arrival.

Throughout the day messages of congratulation from all parts of the empire arrived at the mansion of the Earl of Strathmore where the baby was born, for the Duke and Duchess of York. The endless stream of messengers so taxed the front door bell that late in the afternoon it was put out of commission. Electricians were called in and their efforts to fix the bell gave the crowds outside cause for much amusement.

In addition to messages of felicitation, flowers in large quantities were sent to the mansion and before midnight, the rooms were filled. Masses of tulips, roses and carnations were brought or sent by sealed relaying, friends and numerous sheafs of aaffolds came from humbler folk.

LOST PORTUGUESE FLIERS ARE LOCATED

Missing Since Tuesday, Spaniards Proceed

Canadian Press
LISBON, April 22.—The Portuguese naval aviators, Lieutenants Moreira and Terrera, missing since Tuesday, when they began a flight to Madeira and the Azores, have been picked up, together with their plane by a fishing boat, says a message received today. The aviators are said to be injured. They are being taken to Madeira.

BANGKOK, Siam, April 22.—The Spanish fliers, Captains Loriga and Galzarra, who are on a flight from Madrid to Manila, arrived here today.

King May Attend English Cup Final

LONDON, April 22.—His Majesty the King will attend the final for the English Football Association Cup between Manchester City and Bolton Wanderers on Saturday if the weather is fine. The game will be played in the Wembley Stadium.

SPRING MEDICINE

The body is like a machine; it has to be adjusted to the conditions under which it lives. Spring marks the change from cold to warm weather, from weather to hot weather conditions.

With many people, the body cells do not readily adjust themselves to the new conditions of resisting the effects of the heat and need assistance. Father John's Medicine is both food and tonic, a body builder as well as a body rejuvenator. It contains the purest cod liver oil scientifically blended with other valuable ingredients by specially designed equipment, which makes this old-fashioned medicine easy for the weakened system to digest. Father John's Medicine is absolutely free of alcohol and dangerous drugs.

Father John's Medicine contains no drugs, no alcohol, but one of Nature's great food-medicines, which is easily digested and promptly made use of by body cells. In use for over seventy years. Try it.

AGENTS' GENERAL INTERVIEW LARKIN

Suggest Increased Representation of Canadian Provinces in London

LONDON, April 22.—Increased representation of the Canadian provinces in London is believed by the various provincial agents-general here to be advisable, and they submitted their views on the matter today to Hon. P. C. Larkin, Canadian High Commissioner in London.

The deputation suggested that the High Commissioner should use his influence towards the appointment of an additional agent-general to jointly represent the three prairie provinces, which now possess no direct representation. It was also suggested that New Brunswick and Prince Edward Island might secure the services of the Nova Scotia Agent-General to represent them in addition to his present duties.

These propositions were, of course, entirely with the provinces concerned for them to divide themselves, the deputation admitted, but were regarded as very desirable.

SAINT JOHN, N. B., APRIL 22, 1926.

WELCOME!

Rotary has been described in many ways and from various angles. Among other things, it means more sunshine in life. There are misguided people who are in the habit of saying that life is a dull, drab, squalid journey, filled with fears and obsessions, except for the fortunate few upon whom the gods have conferred good fortune. Any such conception is wholly false. It is not life that is at fault, nor the scheme of things, those who stand in any such attitude toward our journey through this existence are folk warped, perhaps by inherited tendencies making them incapable of shaping their course rightly, perhaps by ill-health breeding a tenacious pessimism.

One of the things Rotary aims to accomplish for its votaries and for humanity, particularly for any who need mental glasses to restore a right perspective, is to guide them back to the normal viewpoint, which is that man was intended for happiness, and that by just dealing, and through a well-balanced conception of the universe, his meaning, his purpose, his life, he may attain that state.

It is not selfish happiness that is sought. It is that happiness which springs from a sense of well-being and a conscious but humble conviction of well-doing. Happiness, Sir George Parkin once told a Saint John audience, consists in the conscious pursuit of some worthy object. Success is by no means always necessary to happiness; that success in the material sense. Many a man dies before he reaches his chief objective; yet he is not rightly to be regarded as a failure, or as unsuccessful if with the last strength at his command, he was still going forward. Even his last effort was to crawl toward a worthy goal, death found him doing the right thing. Such a death does him credit and sweetens his memory for those whom—temporarily—he has left behind.

Rotary is poles apart from mere "sob-sister uplift." It does not draw its inspiration from that class of reformers described by Roosevelt as having "unflinched consciences." Rotary is health, sanity, optimism, and the real goal of the greatest number, not doing so with a complete recognition of the truth that we live in a world of weaknesses and frailties as well as in a world of courage, devotion, self-sacrifice and boundless aspiration.

Saint John welcomes the Rotarians for many reasons—for what they are, for what they have done, for what they will do. Greeting, then, and may the reservoir of sunshine prove inexhaustible.

SAUCE FOR THE GOOSE, ETC.

The people of Great Britain pay their war debt to the United States—and they are paying it at the rate of \$200,000,000 a year—why should not the certain States of the American Union which bought bonds in England and other countries just after the Civil War, and which subsequently repudiated those obligations, repeat after the long lapse of years, and settle up? What is sauce for the goose must be sauce for the gander, or these matters are bound to develop an unfortunate and an irritating complication.

The cablegrams of this morning make it known that certain British Chambers of Commerce, which is meeting today, requesting the United States Government to assist British claimants in obtaining a hearing before the Supreme Court of the United States in connection with the default of the Southern States in question. Why not? There is, perhaps, little expectation that the Southern States will meet their just demands. That impression is based upon the contention that the debts are outlawed, that they are in no sense a legal obligation of the United States Government, and that Great Britain would not think of bringing pressure to bear at Washington in order to recover the money. But the agitation will grow, because the average Englishman, taxed to the hilt in order to pay his proportion of the \$5,000,000,000 borrowed by Great Britain in the American money market in order to finance its Allies and to save the war, can see absolutely no distinction between one debt and another. Money is money.

The moral aspect of the issue is highly important, and takes on new weight

DINNER STORIES

A DRAFT of Missouri mules had made the mistake of going too near one.

His comrades caught him on the rebound, placed him on a stretcher and started for the hospital.

On the way the injured one regained partial consciousness. He gazed at the sky overhead and felt the swaying motion as he was carried.

Feeling he lowered his shaky hands over the side, only to find space.

"My gosh," he groaned, "ain't even hit the ground yet."

ALL the talk of hiphopated citizenship has evidently had its effect upon a San Francisco youngster.

This view of the whole debt problem is accepted by a great many Americans, and several American newspapers of light and leading have been most outspoken in saying that the American Government's attitude in pressing for the last dollar in its debtors is wholly indefensible.

Another member of the Booth family famous as Salvation Army leaders, Gen. Bramwell Booth, world leader of the army and son of William Booth, the founder, is coming to the United States in the near future. He will conduct territorial congresses in Chicago and New York during April. The New York congress is expected to be the largest in the history of the organization.

General Booth governs more than 100,000 Christian "soldiers" in 60 or more countries and colonies who work among the poor and unfortunate. He has led the Salvation Army forces since 1912.

At 70 he is healthy and active. His sister Evangeline, is in command of the Salvation Army in North America. She was commander of the Salvation Army in London for five years and spent eight years as commander in Canada. Since 1904 Evangeline Booth has headed the army in the U. S. and its possessions.

Her brother, Ballington, formerly occupied that position. The U. S. organization is the wealthiest of the 60 some branches.

Ballington Booth, after differences with his brother Bramwell over the destinies of the organization, broke away in 1916 and formed the Volunteers of America, a religious reform and relief organization. The brothers have not reconciled today.

Ballington Booth was identified with the Salvation Army in England under his father and was commander in Australia before coming to the U. S.

POEMS I LOVE

"In Flanders Fields," by John McCrae. "O' all the poems called forth by the Great War, this seems to me the noblest. It is remarkable that it should have been written by a man who, practically all his life had seen a physician; more remarkable still that he should have chosen to express himself in a rather difficult French form of verse, which is usually employed only in the lightest moods by writers of vers de société. Yet this rhapsody takes on a dignity, an almost pontifical solemnity, in the hands of this authentic poet; and it will last longer, I venture to say, than any other utterance of the tragic years that began with August, 1914.

We are the Dead. Short days ago We lived, felt dawn, saw sunset glow, Loved and were loved, and now we lie In Flanders fields.

Take up our quarrel with the foe: To you from falling hands we throw The torch; be yours to hold it high. If ye break faith with us who die We shall not sleep, though poppies grow In Flanders fields.

THE BEST OF ADVICE

HENRY JAMES says that effort of attention is the essential phenomenon of will.

Every reader knows by his own experience that this is so, for every reader has felt some fiery passion's grasp. What constitutes the difficulty for a man laboring under an unwise passion of action is that the passion is not such a simple matter as it seems. It is as easy physically to avoid a fight as to begin one, to pocket one's money or squander it, or to check them in mid-career. The difficulty is mental; it is that of getting the idea of the wise action to stay before our mind at all.

This is what James means when he says that effort of attention is the essential phenomenon of will. James observes, "by a resolute effort of attention, the difficult object ere long begins to call up its own congeners and associates and ends by changing the man's consciousness altogether. And with his consciousness, his action changes, for the new object, steadily in possession of the field of his

thoughts, infallibly produces its own motor effects."

IN all this one sees how the immediate point of application of the volitional effort lies exclusively in the mental world. The whole drama is a mental drama. The whole difficulty is a mental difficulty, a difficulty with an object of our thought.

THE BUBBLER.

SWEET little lips of the tiniest child kiss and caress you each day. Many the youngster who often has smiled—halted, and then walked away. Tired from their playing, and running about, always they think of you first. Cooling the water, that slowly seeps out—quenching the little one's thirst. People of age may be passing your way, worn by the hours in the sun. How can you wonder how greatly you pay? Think of the good you have done. Hands, all a tremble, will coax you to slumber. Then, when your contents are freed, cooling the draught that comes bubbling out—giving the drink that they need.

Bubble, yes bubble—then bubble some more. Flow ever gently, and kind—now we all know what you're standing there for—right where the tired folk can find. Nothing on earth is as tempting to all, as water that bubbles on through. "Sip me, you thirsty," it seems in your call. We drink—and the drink is to you.

WE pay \$2340 a pound for the Tip alone—selected Iridium—hardest metal known. We fuse it by hand into a point of Gold, and polish it to jewel-like smoothness. We skillfully temper the point to yield to any hand, yet resume its original shape, so no style of writing can distort it. It is magnified many diameters, and five times inspected by Parker experts. A final inspector fills the pen with ink and gives it the Parker writing test. All this before the last O.K. that guarantees the point if not misused for 25 years. It needs no "breaking in." Are You Tired of Living With Uncongenial Relations?—Are You Faced With the Dread Mother-in-Law Problem?—Are You Discontented With Household and Baby Tending?—Try the Simple Remedy of Separation.

Did you ever consider how little intelligence we display in dealing with the obvious side of life, and how much unnecessary fret and worry we endure just because we are too stupid to apply the perfectly obvious remedy to the ills from which we suffer and which rob us of all peace and happiness?

We are clever enough about material things. We can find a way out when things are wrong there. We don't torture our bodies. When we get a pebble in our shoe we don't go limping along in agony, mile after mile. We sit down and take it out, and pursue our journey in comfort. When we have a door that creaks, we don't let it rasp our nerves until we are ready to scream. We get out the oil can and apply a little lubricant where it is most needed.

But when it comes to the spiritual side of our daily lives, the things that make us so far more wretched than any physical discomfort could do, we don't even attempt to remedy the situation. We just suffer and suffer. We don't even try to save ourselves. Take family life as a vivid example of this.

UNDoubtedly, the greatest source of misery in the world is the enforced living together of uncongenial persons. There are brothers and sisters who are born antagonistic to each other.

But because these people belong to the same family they often go on living together for thirty or fifty years, destroying each other's happiness, bringing out all that is worst in each other, hating each other more day by day.

It seems incredible, but there are thousands of men and women who are thus unnecessarily martyred just because they have not enough intelligence to perceive that the thing for them to do is to part and go as far as possible from those who make their lives a torment to them.

AT CLOSE range, mother's nagging drives Mary frantic. Fifty miles away she can see it in its true light as a perverted expression of love. Sharing the same room, Jenny and Mary have their backs up perpetually and spit and claw at each other like two cats. But when they marry and go their different ways they feel an affection for each other that grows deeper the more they are parted. And John and Tom, who fought all through their boyhood, never really appreciate each other until one settles in California and the other in New York, and they meet once a year on Mother's Day or Old-Home Week.

Separation. What a simple remedy for a terrible evil!

WHAT folly for us to have all the peace and happiness of our lives destroyed by living with those who rub our fur the wrong way and keep us irritated and ill-tempered, when all that is needed is for us just to have enough sense to part!

And there is the terrible mother-in-law problem that wrecks more homes than drink or gambling, or immorality. Why can't we solve that by the simple expedient of never letting it exist? Experience has shown that not once in a hundred thousand times can a mother-in-law and a daughter-in-law live in peace and harmony under the same roof. Almost invariably they make each other perfectly miserable with their jealousies and suspicions, and they tear to pieces the poor men over whom they fight like snarling dogs over a bone.

EVERYBODY knows this. Everybody has seen it happen over and over again. Everybody is perfectly aware that there is no other bitterness equal to that engendered by a family feud. Yet otherwise sane people deliberately precipitate a catastrophe which they might perfectly well avoid by not attempting to live together.

And while, of course, there are situations in which it is impossible to escape living with uncongenial people or in-laws, most of the time it could be easily avoided if we had any nerve.

THEN there are the quarreling husbands and wives. The husbands and wives who begin the day by a spat over the breakfast table, who nag and fret at each other, who criticize and find fault and argue, and who spend their time wondering what the food-killer was doing that it didn't spend them on the day they were married.

Why haven't they enough brains to perceive that when things get to that pass between a married couple the remedy indicated is temporary separation? They think that the trouble with them is that they are fed up on each other. They are bored. They have got to the place where they get on each other's nerves, and if they only had sense enough for one or the other to buy a railroad ticket instead of consulting a lawyer, it would save nine-tenths of the divorces.

WOMEN have more time to brood over their dissolutions and wrongs than men have, for it is the curse of housework that it occupies your hands and not your head. So it is generally the woman who gets disillusioned first and who starts things by being peevish and fretful and hard to get along with, and taking it out on the poor dud she marries for not being the hero of her girlish dreams.

When a woman gets in this mood she can see nothing but her husband's faults and weaknesses, yet a three weeks' absence from him alters her whole perspective, delights the tired of romance in her heart, and changes her back into the girl with whom he fell in love. Surely the time will come when husbands, perceiving that their wives are becoming less alluring and more given to argumentation, will have enough intelligence to say: "My dear, I think you need some new clothes and a little trip."

AND the same remedy would apply equally well to woman's discontent. When a woman gets so that she slaps the baby and snaps at the older children and snarls at her husband and skips the dinner and loathes her home and envies every bachelor girl with a job and wonders if she could get into the films, it is just because she needs a change.

If she had the brains that the Creator promised a fishing worm she would put on her hat and go off somewhere by herself and take a week's rest. And when she returned her children would look like angels instead of brats to her, she would have butter in her mouth when she talked to her husband and she would rather be mistress of her own little bungalow than the queen of the movies.

WHAT a pity we don't apply a little common sense to the solution of our troubles! It would be so good for the things that ail us.

Paris Presents Novelties For Day and Sport Wear

HERE are three highly useful outfits that would take care of any day event. For morning or sport wear is the smart little suit of beige tweed, with decorative pockets and side belts, worn with a green silk blouse and green felt hat. For afternoon nothing could be more attractive than the ensemble of marine blue serge with its pleats and interesting pockets and tie of tan silk embroidered in gold. The coat, warm enough for early spring and very late fall wear is of gray English wool embroidered and banded in black and colored with black fox fur. All are from Amy Linker, the famous French couturier.

BEHIND THE SCREEN

FROM the ranks of beauty contest winners comes Dorothy Hughes to make a bid for screen honors. Three years ago she was chosen as "Miss New York" to represent Gotham at the Atlantic City beauty pageant. The following year she won the honor again.

In 1923, at the age of 16, she was picked from 8,000 girls who entered a contest conducted by a newspaper. Since then she has appeared in several Broadway musical comedies, but never before the camera.

When Joseph Cummings Chase wanted to paint the typical American beauty he selected Dorothy Hughes as his model. Willy Pogany also had her for some of his murals.

David Wark Griffith recently saw a screen test of her made at the Paramount studios and gave her a part in "The Sorrows of Satan," along with Adolphe Menjou, Carol Dempster, and Ricardo Cortez.

Here's proof that the second generation of movie stars has arrived.

Eight years ago Edwin Carewe, now a Fir National director, made "Paris First" with Harold Lockwood and Ruby de Remer in the leading roles. Today Lockwood is dead and Ruby de Remer is out of the picture.

The same parts are now taken by Lloyd Hughes and Dolores Del Rio. When the original was made Hughes was a school-boy and Dolores was studying in a Mexican convent.

Jack Pickford may direct Mary and Doug in a picture abroad if present plans materialize.

Paramount has loaned Betty Bronson to First National to play the leading feminine role in "Paradise," opposite Milton Sills.

"Patlocked" is a Paramount picture, the 67th production which Allan Dwan, a director thought nothing of turning out from two to three pictures a week, and writing the scenarios for his next week's pictures between times," says Dwan.

"While most of the pictures were one-reelers, still we used to have plots, scenarios, props, and actors for a two-reeler we would take as much as a week to do it, but if we did it

A Thought

There is he that maketh himself rich, yet hath nothing; there is he that maketh himself poor, yet hath great riches.—Prov. 13:7.

PARSIMONY is enough to make the master of the golden mines as poor as he that hath nothing; for a man may be brought to a morsel of bread by parsimony as well as profusion.—Henry Home.

IN NEW YORK SEE SAWING UP and DOWN BROADWAY

WHAT'S a few million dollars worth of property when the weather gets warm enough for baseball?

So far as youngsters from 10 to 40 are concerned a lot's a lot, so long as it is big enough for three bases and a home plate.

One such lot, where some sort of ball game goes on from dawn to dusk, is located on East 54th street and is valued at \$1,000 a front foot. The backstop of the players is a 25-story building. The teams are about as democratic an assortment as can be found among these American cities.

Some youngsters start the game before school. A few jobs youths pass by and join in. At noon the clerks from the great office buildings get a little exercise. Trucks draw up and teamsters sneak off a few minutes for an inning or two. Those who have plenty of time kindly withdraw from the game so that the hurriedly get home have a few minutes fun. Factory workers appear in mid-afternoon and after working hours many of the spectators find places on a team. Meanwhile a considerable crowd gathers and the curb and sidewalk is all but blocked.

Not the least of the involvements of these games is the constant danger of losing baseballs. Young gamblers wait in the street for a foul, grab the ball and run to some more isolated diamond. The ball is thrown to the conditions under and those putting up the money are entitled to play.

SOME recent figures on population congestion in Manhattan can throw some light on why conditions under which humans play are created with such difficulty.

The most crowded sections of the city contain 40,000 persons per square mile and the general average for the city is more than 10,000. Thirteen states in America boast an average of but six persons to the same area.

And, so far as the "swinging up and down" is concerned, more children of foreign-born parents attend the public schools than do children of native born.

Of the 10,000,000 population are native whites of native parents. It is now an odd whet that the half of this to find in New York, a New Yorker.

There are something like 15 persons to each dwelling and the number of non-persons actually owning a home is negligible.

Such conditions are bound to create "swinging up and down" in the general that are not easy of solution.

The miracle is that youngsters become so used to the conditions under which they are forced to live.

TODAY'S RECIPES

Custard—Follow these rules when you make custard: One egg will thicken three-quarters of a cup of milk. This is the standard measure for a custard which holds one-half pint. If you are using a pint, or two cups of milk, but most of the two cups of milk, you must use two cups of sugar. You may use one cup of sugar and one cup of milk, but most of the two cups of salt will be enough for the two cups of milk. You may make the custard in individual baking cups or a large baking dish. You must not bake. Break the eggs in a bowl, add the sugar and the salt. Beat until the mixture is frothy and well blended. Pour the milk, cold or warm, over the eggs. Strain into a baking dish. Set the custard dish in a pan of water. When all that come ready prepared, have a low fire in the oven. It ought not to run higher than 200 degrees Fahrenheit. This temperature allows the egg to thicken the milk but keeps the milk from boiling. The water bath in which the custard is standing should be kept at the temperature below that of boiling milk. Bake from a half to three-quarters of an hour.

Jellied Vegetable Salad—Take a small can of tomatoes and put them into a saucuppan with an equal amount of water, or any kind of stock if it is at hand. Add a minced onion, some chopped celery, a chopped pepper, a little parsley, two cloves, half a bay leaf, a tablespoon of chopped ham or bacon, pepper, salt, a teaspoon of sugar and a little bit of red pepper. Boil until the tomatoes are boiled to pieces, then add three-quarters of a package of powdered gelatin that has been dissolved in a little water. Use a pint jar of the mixed cooked vegetables that come ready prepared, or else have several kinds cooked, diced and ready. Wet the square molds and add a slice of hard boiled egg to each. Then pour over the gelatin to fill each mold and set away in a cold place to harden. When ready to serve, use a light mayonnaise made without mustard, or a heavy French dressing. Unmold the blocks on fresh lettuce leaves and garnish with stuffed olives.

A Sunny Kitchen

HOUSEWORK goes better when there's sunshine in the kitchen. When you can't have sunshine, the next best is color. Have everything you work with colorful. It lifts the spirits. Majestic Colored Irons are right in line with this idea—bright cheerful blue, green or brown. And they won't burn black, cloud or fade. They withstand heat. They withstand hard knocks. Your ironing is better and more quickly done because the sole of the colored iron is hotter. The heat is reflected downwards by the thick coating of colored porcelain. At the same time it is cooler to work with—your hand is always comfortable.

"The marriage of Miss Grace Janet Mary Kubring, daughter of the late Rev. Gustave A. Kubring and Mrs. Kubring of Toronto, formerly of Saint John, to Mr. Edwin J. Hallett, M.C., of Halifax, took place yesterday at 12 o'clock in the chapel of Wycliffe College, officiated. The chapel was beautifully decorated with palms, foliage plants and white flowers. The bride, who was given away by her brother, Mr. Paul Kubring of Ottawa, looked charming in a long-sleeved gown of white satin, which fell over a handsome under-petticoat of Carrickmacross lace. Her long panel train was of Carrickmacross lace lined with white tulle. Her veil was also of the same lace folded to the head and held with a coronet of orange blossoms. She wore the bridegroom's gift, a diamond and sapphire pin. Her shoes were of silver, and she carried an exquisite bouquet of Batterfly roses and lilies of the valley.

The bridesmaid, Miss Williamina Aird, wore a gown of Nile green georgette with long sleeves, and hat of green and Miss Gladys Shep. Her shoes were of silver, and she carried a bouquet of Batterfly roses and lilies of the valley.

British House Rejects Measure to Legalize Wagering By 126 to 94

LONDON, April 22.—The House of Commons last night rejected the bill intended to legalize betting and license bookmakers, 126 to 94. The rejection of the bill was moved by Edwin Scrymgeour, prohibition member for Dundee.

The question of legalizing betting and putting a tax on it has been under consideration for a long time. The house has been steadily opposed to such a measure as well as several members of the cabinet, some of whom Mr. Churchill was said to have won over to his side.

Friends and Relatives Had Sworn John and Joe Were At Dance

MEN AND WOMEN ARE ORDERED TO BE HELD

Clerk Reads Typewritten Confession of Duo and Court Room Ordered Closed

NEW YORK, April 22.—"Well!" said Mr. and Mrs. Michele Stuccio, Mr. and Mrs. Bernard Burton, Violet Burton, their daughter, all of Brooklyn, and Mrs. John Morris, of Woodhaven, Anthony Burton, address unknown, Joseph La Rosa, of Woodhaven, and Mrs. Caroline Apicello, "Lise and Jean!"

The remark, which described the situation as few other remarks could, was made after Judge Thomas G. Laughlin in the Kings County Court had ordered the men held in \$1,000 bail charges of doing a favor for John Burton, eighteen, Mr. and Mrs. Bernard Burton's son, and Mrs. Michele Stuccio.

Subsequently the court returned in the cases of Mrs. Burton and Violet, but the other eight passed an hour in cells before their money bonds were raised.

RULE VERY STRICT The rules about doing favors for people in Brooklyn courts are very strict, which the Olette, as some persons refer to a group of eight, apparently forgot when the signal came, sounding down the street that John and Joe were in trouble and wanted a favor done.

John and Joe, it developed, had been arrested on charges of robbery. Harry Daly's confessions store, Brooklyn, had been held up on the night of April 20, 1925. Forty-eight dollars had been taken and Daly had screamed so loudly that the police arrived in time to fire five shots at five fleeing thugs.

There's one thing that can be said, and, indeed, will be said—about the Burtons, the Stucios, the Morris and their friends, and that is, when a favor is asked they don't stand around bagging about the ways and wherefores. They step right up and, signed on your favor, all wash up and signed on the dotted line.

Just so it was in the Kings County Court Monday and Joe came up for trial. How, they asked triumphantly, could John and Joe have been robbing at a wedding party at Burton's own home at the very moment the police were robbing?

"In point of fact," Mr. Burton said, "John was filling in for me. He was robbed, and Joe was dancing. Now I ask your honor how could they be somewhere else?"

OH, FIDDLESTICKS! It did, indeed, seem for a time that they had his honor there! One by one the kindly souls mounted the witness stand and told of John's and Joe's presence at the party, at the conclusion of which Frederick Kopf, Assistant District Attorney, arose and read to the jury from a typewritten paper. It was John's and Joe's complete confession to the robbery.

There was a heavy silence, and then Lawrence McLaughlin, counsel for the defendants, rose and said that his clients would plead guilty.

"Lock," Judge McLaughlin said, "the doors of the courtroom and arrest the witnesses. The charge against them is perjury."

That, it seems, is the way a favor is described in court, and that is the charge they will face in this same court next week.

Judge McLaughlin accepted the pleas handed them to jail for sentence next week. The length of their sentence won't matter to the witnesses. There's a right way and a wrong way to accept a favor, and it was the right way then if civilization isn't what it used to be.

MONTREAL KIDDIES MAD-DOG VICTIMS

MONTREAL, April 21.—That rabies exists among dogs on the island of Montreal was the statement contained in a notice issued by the Prefecture Bureau of Health here today.

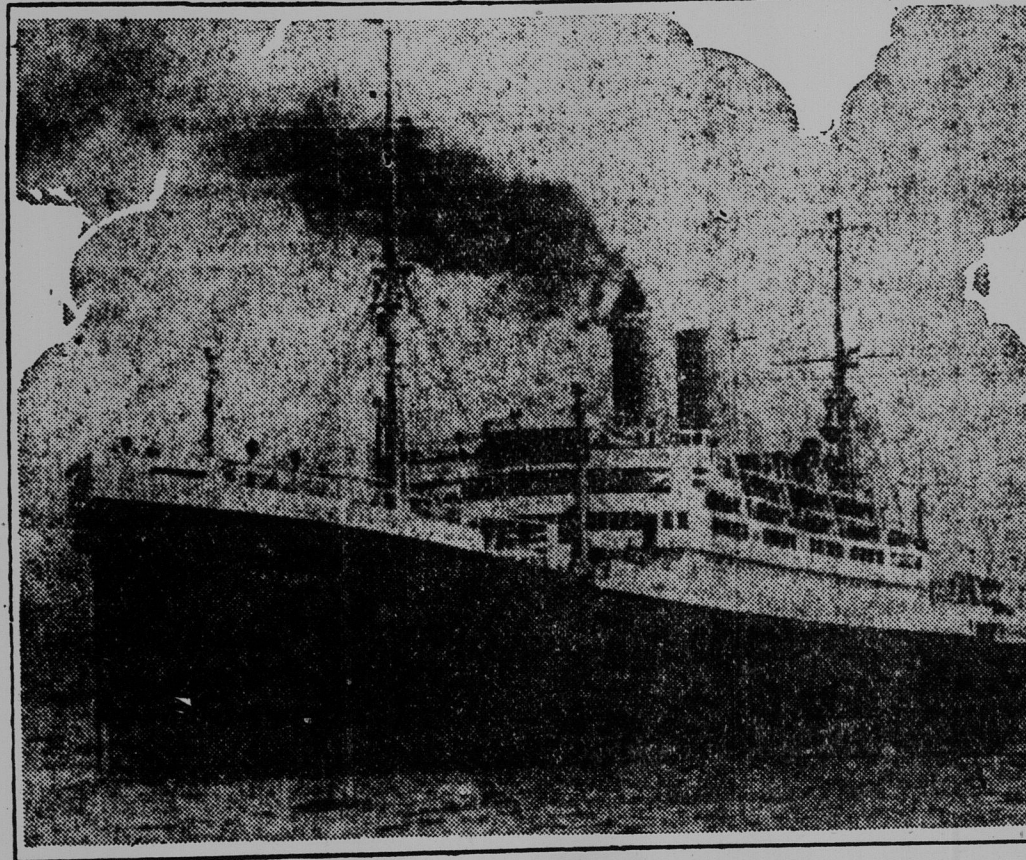

It declares that certain cases of rabies among dogs were diagnosed and controlled by pathologists of the federal health department at Ottawa, and adds that children have been the victims of every one of these dogs. Many of the children bitten, continues the notice, have not followed treatment, but it would be folly to conclude that they are not infected as the disease sometimes takes three months before it sets in.

ENGLISH CUP FINAL STAGE IS ALL SET

Manchester and Bolton Wanderers to Clash Saturday After 22 Years

Canadian Press Despatch. LONDON, April 21.—Twenty-two years ago Manchester City defeated Bolton Wanderers in the final round of the English Football Association Cup. The game was played at the Crystal Palace and the victors triumphed by the only goal scored in the game.

On Saturday next Manchester City will again meet Bolton Wanderers in an English cup final, the encounter to be staged at the Wembley Stadium. The question on everybody's lips is: "Will history repeat itself?" or will Bolton Wanderers, who are making their second trip to Wembley in three years, emerge in the contest at the expense of the score as they did when in 1923 they beat West Ham United in the concluding stage?

There are few who will hazard a guess as to the probable outcome. Manchester City have been irresistible in their cup engagements; in the league their performance has been disappointing. To reach their present position, Manchester have had to play six games, which included one replay. Bolton have had to go eight times, including three replays, and of those three, two were with Notts Forest, of whom they were defeated.

The respective cup records are: Manchester City 4, Corinthians 3, at London. Fourth round: Manchester City 4, Huddersfield Town 0, at Manchester. Fifth round: Manchester City 11, Crystal Palace 4, at Manchester. Sixth round: Manchester City 6, Clapton Orient 1, at London. Semi-final: Manchester City 3, Manchester United 0, at Bramall Lane, Sheffield. Third round: Bolton Wanderers 1, Accrington Stanley 0, at Bolton. Fourth round: Bolton Wanderers 2, Bournemouth 2, at Bournemouth. Replays: Bolton Wanderers 6, Bournemouth 2, at Bolton.

He Was Unable To Bend His Back

SO SAYS SASKATCHEWAN MAN BEFORE HE USED DODD'S KIDNEY PILLS

Mr. Olaf Hansen is One of the Many Who Found Immediate and Complete Relief

STRAVBURG, Sask., April 21.—(Special)—"I used Dodd's Kidney Pills one year ago. I had an awful backache and tried nearly everything for it except Dodd's Kidney Pills. I got a box of 'odd's Kidney Pills and after the first box I could feel my back was getting the second injury. My back was so sore that I could not bend my back, but now I can."

This statement comes from Mr. O. Hansen, a resident of this place. Other sufferers tell of pains relieved and health restored through the use of Dodd's Kidney Pills. They act directly on the kidneys. They strengthen the kidneys and put them in good shape to strain all the impurities out of the blood. This is absolutely necessary if the body is to be kept perfectly healthy. Dodd's Kidney Pills have built up their reputation only on the work they have done.

"PHOTOGRAPHY" LECTURE SUBJECT BY PROF. HARVEY

Speaks of It in Science, Industry and Medicine Before Engineers

REFERS TO ADVANCE IN RECENT YEARS Gives Hints Re the Taking and Developing of Pictures

The results of scientific research in photography in recent years were vividly described last evening by Prof. E. L. Harvey, M.A., of the University of New Brunswick, Fredericton, at a meeting of the Saint John branch of the Engineering Institute of Canada.

This brings to an end five years of effort on the part of the Retail Merchants' Association to obtain refund of luxury tax on automobiles. The luxury tax was first imposed on automobiles in May 1918 and was increased in May 1922 and was in force for a short time and again withdrawn. Since that time the association has been endeavoring to obtain a refund to the dealers, and while the matter has not yet been definitely decided the information supplied the association is that the prospect for refund will likely be passed.

The amounts of refund that the dealers in the various provinces hope to obtain are as follows: New Brunswick, \$73,872.08; Nova Scotia, \$74,522.09; Prince Edward Island, \$29,158.69; Quebec, \$324,783.91; Ontario, \$284,826.24; Manitoba, \$122,999.48; Saskatchewan, \$187,077.50; Alberta, \$171,488.20; British Columbia, \$117,714.61.

Photography is now extensively used in science, in combination with the microscope in a process known as micro-photography, whereby the cell structure of woods and metals may be photographed and with this information, the loads they can carry in engineering structures, can be more properly determined.

Photography has many dollars-and-cents uses in industry today, he said. Motion photographs of people at work on particular tasks are taken and studied made whereby lost motions may be eliminated and production increased. Periodic errors in geared machinery have been photographed and adjusted by means of micro-photography.

Photography is of great use in medicine, and particularly in X-ray work. In the early days of X-ray work about 1896 scientists ascertained that the rays were gradually being absorbed by the body. The X-ray work was first used extensively during the South African war, when it was found bullets could be located in the human body by this use. Today it is extensively used in connection with the light against tuberculosis and other diseases.

Color rendering is one of the recent advances in photography whereby any combination of colors in a landscape or other scenery may be accurately shown in their true colors without any retouching. Mr. Harvey said. It is also possible to photograph paintings, and pictures damaged with stains or spots, can be photographed and by neutralizing the effect of the stain it will not show on the resulting photograph.

The experimental work carried on in 1907 on long distance photography and the present application in newspaper work were briefly mentioned whereby photographs are today being sent over the wire and printed.

A number of slides, specially secured from London, England, for this lecture, were shown on the screen. The slides also gave demonstrations on a blackboard of some elementary rules to follow when taking pictures.

A vote of thanks to Prof. Harvey was extended on behalf of those present by Geoffrey Stead, M.E.I.C., and H. A. Crookshank, M.E.I.C.

The Retail Merchants' Association of Canada has received the following telegram to the secretary of the New Brunswick branch of the association: "The Retail Merchants' Association successful getting estimates brought down one million six hundred ninety thousand."

This brings to an end five years of effort on the part of the Retail Merchants' Association to obtain refund of luxury tax on automobiles. The luxury tax was first imposed on automobiles in May 1918 and was increased in May 1922 and was in force for a short time and again withdrawn. Not a Laxative

"The continued use of laxatives and cathartics only aggravates constipation and prevents the absorption into the blood of the nutrients from the digested food."

Nujol is an internal lubricant, not a laxative, so regular and you will prevent the absorption into the blood of the nutrients from the digested food.

Constipation is dangerous for anybody. Nujol is safe for everybody. It does not affect the stomach, and is not absorbed by the body. Medical authorities approve Nujol because it is so safe, so gentle and so natural in its action.

Nujol makes up for a deficiency of natural lubricant in the intestines, softens the waste matter and thus permits thorough and regular bowel movements without griping.

Nujol can be taken for any length of time without ill effects. Unlike laxatives, it does not form a habit, and can be discontinued at any time.

Letter Tells of Wonderful Relief After Taking Lydia E. Pinkham's Vegetable Compound

Coniston, Ontario.—"After a severe operation and a three weeks' stay in a hospital I returned home so weak that I was unable to move a chair. For four months I was almost frantic with pain and suffering until I thought sure there could not be any help for me. I had very severe pains in my left side and suffered agony every month. One day when I was not able to get up my mother begged me to try your medicine. My husband got me a bottle of Vegetable Compound and once and I took it. I started a second bottle, and to my surprise and joy the pain in my side left me completely and I am able to do all my work without help. I am a farmer's wife, so you see I can't be idle long. In all, I have taken six bottles of Lydia E. Pinkham's Vegetable Compound, five boxes of the Compound Tablets, two bottles of Lydia E. Don't Let the Price Tag Do All the Talking

It is a great injustice to goods of genuine quality, when a customer succumbs to the argument of lower price without knowing the whole truth. But it is a greater injustice to the customer also.

When the whole truth is told, Sani-Bilt Furniture really costs less than any other upholstered living room furniture on the Canadian market. Comparing dollar for dollar value is cheaper than any other.

Sani-Bilt Furniture has a larger output than any other upholstered furniture manufactured in this country, therefore, its manufacturing costs are less, and its selling price is less to the trade, and the retail dealer can sell it for less than he can sell other goods of similar construction.

Furthermore, Sani-Bilt Furniture is sold at a range of prices to suit all ordinary financial circumstances and every requirement of good taste.

"Cheapness" is No Guide

There may be Chesterfield Suites with strikingly designed and colored cover fabrics, offered at prices apparently cheaper than for Sani-Bilt Suites covered in quieter, and perhaps more refined taste. But these "cheaper" suites are not guaranteed. Is it fair to compare cheap, old "renovated," rubbishy stuffings to new fresh sterilized, sanitary fillings such as used and guaranteed by Sani-Bilt?

Is it fair to compare rough, second-grade lumber to clear, solid, well-finished No. 1 hardwood, such as used in the Sani-Bilt frames? Or rough-and-ready slip-stitch carpentry to rigid, screwed, glued and corner-blocked joinery—the sound construction—guaranteed by Sani-Bilt?

Is it fair to yourself as it is fair to Sani-Bilt when an insignificant difference in price overlooks the extra number and quality of the Sani-Bilt, oil-tempered, steel coil springs, and the extra security by which the stout cross-tied cords hold them upright in their proper place? Doubtless you have shuddered at the "humps and hollows of poverty" such as disgrace cheap Chesterfields after a few years' wear, when the springs begin to lean and sag. The extra springs give Sani-Bilt Furniture much longer life. It stands up.

Look for the Guarantee

Above all it is fair to yourself to buy a cheaper Chesterfield Suite sold under a guarantee limited to one year—perhaps under no guarantee at all to a Sani-Bilt, guaranteed without reserve, mothproof for life long! A cheap flashy brocade or a bold, striking tapestry design may soon cover a frightful nest of moths. Surface spraying with a poisonous solution is worse than no protection at all, because it gives a false security.

Read the Sani-Bilt guarantee. Sani-Bilt guaranteed furniture is more truly economical, whatever the price. It is absolutely and permanently mothproof. It is moth-proof inside, as well as out. It is solidly constructed and honestly upholstered with heavier quality of canvas webbing under the springs than any cheaper Chesterfield suites on the market. It offers the widest variety of artistic covering fabrics in Canada.

Look under the Snyder-Guaranteed Cushions for the Sani-Bilt label. The label and the guarantee are more important than the price tags, but Sani-Bilt is always the cheapest in the end, whatever the price tags.

PREMIER ON AIR
MAKES EFFORTS
TO SAVE FORESTS

Broadcasts Appeal from
C. N. R. Station In
Ottawa

URGES CAUTION

Prime Minister Declares Five
Trees Burned For Every
One Used

Ottawa, Ont., April 22—In a
message broadcast through station
CNR, Premier King last night ad-
dressed the public in a plea for
to be taken by the public to preserve
Canada's heritage, the forests. The
message was given in connection with
the government "Save the Forest
Week."

The Premier said, in part:
"I know of few problems in Canada
today, where solution is of greater
moment to the future prosperity of
our country than this one of curtailing
our present annual forest fire losses."

CAUTION IS URGED
"I am glad, therefore, to add my
voice to that of the great body of pub-
lic spirited citizens in this country
who are associating themselves with
this forest fire prevention campaign in
the week of Save the Forest
Week. I ask of each of my hearers
tonight, that they consider carefully
the situation with which we are all
confronted in Canada in this matter
of conservation of our forest resources.
And I ask particularly, that each one
keep in mind next summer, when trav-
elling in or near the forest, the para-
mount necessity of care with fire in
the woods, not only personal care, but
the installation of similar measures in
measures in the minds of friends and
associates. Only in this way can we
in Canada curtail the ravages of fire
and forest fire demon, and preserve
Canadian forests for the use and benefit
of the people of Canada not only in
the present but for the generations to
come."

CANADA'S HISTORY.

Premier King referred to Canada's
history as affecting its forests and the
gradual progress of its lumbering in-
dustry. He referred to the devastation
caused by forest fires, and added:
"The net result has been for Canada
that, in the history of our country, we
have not only burned our good trees
for every one we have used, but in
large parts of our forests we have re-
leased our valuable timber with wood-
less hills and valleys. The result is
that today, of the original great and
widespread forests that once covered
this country, we have just a little
over one-quarter left."

STILL HOPE, HE SAYS.

"We must not, however, be too down-
hearted, because we still possess a won-
derful forest heritage, and if we care
for it, cut it as it should be cut, and
will still be able to build a bigger,
better and a more beautiful Canada
for the future."

In conclusion, Premier King said:
"We must reduce our forest fire
losses through the medium of preven-
tion rather than of control. Ninety per-
cent of our forest fires are the direct
result of human carelessness or negli-
gence. Eliminate to any appreciable
degree this factor, and our problem is
largely solved."

EVIDENCE SHOWS
BEER OVERSTRENGTH

Home-brew Case Resumed in
Moncton Court and Further
Adjourned

Special to The Times-Star
MONCTON, April 22—Charged with
having liquor for sale in a place other
than his private dwelling, Edgar Ar-
naud appeared in the court yesterday.
The case arose from a raid made by
the police about three weeks ago, on
the premises of Howard O'Brien, Lewis
street, when a quantity of home-brewed
liquor was unearthed.
James Sherrin, counsel for the de-
fence, raised some doubt as to the
strength of the liquor at the opening
session of the trial, with the result that
the case was adjourned. In the mean-
time the liquor was analyzed and a cer-
tificate produced to show that it con-
tained 8.3 per cent alcohol.
The accused was put on the stand
in his own defence and after his evi-
dence the case was adjourned until
Tuesday.

Keeping Your
Schoolgirl Complexion

By FRANCINE

Copyrighted 1926 by P. O. Beauty Features

The Kind of Soap
Beauty experts use themselves

A soap made for ONE purpose
only: to foster good complex-
ions; and thus, to safeguard
yours in this way.

BEFORE Palmolive came women
were told "use no soap on your
face." Soaps then were judged too
harsh.

Then came Palmolive—a soap
made by experts in beauty with 60
years of soap study behind it; a
soap made to be used freely, lavishly
on the skin.

On the advice of beauty authori-
ties, the whole world soon adopted
it. Youth preserved, beautiful com-
plexions came to thousands as a
result.

Made for one purpose only—to
safeguard your complexion—
Palmolive affects the skin as no
other soap. Just try it one week in
this way. Note then your com-
plexion.

The daily rule that thousands
follow now:
Wash your face gently with
Palmolive Soap, massaging it softly
into the skin. Rinse thoroughly,
first with warm water, then with
cold. If your skin is inclined to be
dry, apply a touch of good cold
cream—that is all.

Do this regularly, and particularly
in the evening. Use powder and
cosmetics if you wish. But never leave

them on over night. They clog the
pores, often enlarge them. Black-
heads and disfigurements often fol-
low. They must be washed away.
Just do this and your skin will be-
come soft and lovely—wrinkles will
be less a problem as the years ad-
vance.
Get real Palmolive
Do not use ordinary soaps in the
treatment given above. Do not
think any green soap, or represented
as of palm and olive oils, is the same
as Palmolive.
It costs but 10c the cake—so little
that millions let it do for their bodies
what it does for their faces. Obtain
a cake today. Then note what an
amazing difference one week makes.

"POSITIVE AGITATION"

A perfected principle in home cleaning science, sponsored
by the world's oldest and largest maker of electric cleaners

OLD—old as housekeeping
itself; yet new—new as
tomorrow morning; this is
"Positive Agitation" as em-
bodied in the sensational new
Hoover.
It is beating—the first essential
of thorough rug-cleaning—of a
sort hitherto unknown, ren-
dered exact and positive by
mechanical means.
This new Hoover floats the
carpet or rug on a cushion of
air, and then, in soft, swiftly
repeated taps of instant pres-
sure, vibrates it like a pennant
in a breeze.
Nothing has ever resembled it.
It is new, startling, revolution-
ary! It far surpasses even the
standard-design Hoover in these
particulars:
1 For the first time, it makes
possible "Positive Agitation"
of floor coverings.
2 By actual test, in the ordinary
cleaning time, it beats out and
sweeps up from carpets an
average of 131% more dirt.
3 It is an even greater rug-
saver; the oftener a carpet is
cleaned with a Hoover the
longer that carpet will wear.
4 It is virtually service-proof,
every part, including the new
motor, requiring no oiling.
5 It increases the efficiency of
its remarkable dusting tools
because of its 50% stronger
suction.
6 Its exclusive dust- and germ-
proof bag is now washable.
7 Its form and finish are of
stunning beauty; and every
new feature insures greater
operating ease.
You owe it to yourself to see
and understand this new
Hoover, now being exhibited
by Authorized Hoover Dealers.
It is still only \$6.25 down, with
the balance in easy monthly
payments.
It represents the greatest single
contribution to efficient home-
keeping made in many years.
You'll know when you see
it in action.

VENIOT OPENS HOUSE DEBATE TODAY

Liberal Legislator Among Provincial Directors and Another, Niles, Will Support Baxter Government's Proposals; \$1,870,389 Estimates Passed to Date

BY JOHN J. DUNLOP
Special Correspondent to The Times-Star

FREDERICTON, April 21.—The debate on the Grand Falls development bills opens in the House tomorrow afternoon with Hon. Dr. P. J. Veniot, leader of Opposition, as the first speaker. Two bills, relating to the incorporation of the Saint John Paper Company, Limited, and the New Brunswick International Paper Company, Limited, were introduced into the house this evening on a petition by Premier Baxter. They will go to the rules committee tomorrow morning and will be given first and second readings tomorrow afternoon. During the second reading, the Opposition chief will speak and he has made it known he will strongly oppose them, re-affirming the principle of public ownership.

A prominent Saint John business man, George McAvity, president of the T. McAvity & Sons, Ltd., is named in the bills as incorporator and provisional director for both companies. Other New Brunswick men include Archibald Fraser, president of the Fraser Companies, Ltd., J. W. Brankley, Newcastle, and O. B. Davis, M. L. A. for Victoria County.

The two outsiders are A. R. Graustein, president of the International Pulp and Paper Company, Ltd., and George S. Montgomery, K. C., counsel for the International Paper Co., Ltd., which will control the stock of the companies. Both bills are lengthy and in addition to formal second reading will be placed before the corporations committee to be gone over section by section.

VENIOT SPEECH AWAITED

Hon. Dr. Veniot's speech is awaited with much interest. In his throne and budget speeches, he has announced he will refrain from touching on the Grand Falls matters until they were definitely before the House.

The inclusion of Mr. Davis, an Opposition member from Victoria county, among the incorporators came as a surprise and confirms reports that both he and his colleague, J. W. Niles, will support the Government's proposals in this regard. The split in the Opposition ranks is only on this evening, however, Mr. Davis said this evening.

THOSE IN COMPANY

The bill incorporating the Saint John River Paper Company sets out that

Archibald Fraser, Fredericton; George H. Montgomery, K. C., Montreal; Archibald R. Graustein, Framingham, Mass.; George McAvity, Saint John; O. B. Davis, of Grand Falls, N. B.; and J. W. Brankley, Newcastle, are incorporated as this company with the head office in Grand Falls, N. B. The capital stock of the company is fixed at 100,000 shares of no par value.

POWER GIVEN COMPANY.

The company is given power to generate, purchase, sell and distribute electrical energy with full rights to develop at the Grand Falls. Authority also is granted to acquire the rights and property of the Grand Falls Company, Ltd., while the plans and data of the New Brunswick Electric Power Commission with respect to such development are made available to the new company upon approval of the Lieutenant-Governor-in-council. The new company is given extensive powers in the matter of construction of its works at Grand Falls and in expropriation proceedings. Special provisions are contained for expropriation.

TAX EXEMPTIONS.

For a period of 40 years from the date of the first generation of power by the company, the company and its property in New Brunswick pertaining to the development and transmission of power shall be exempt from all municipal and other taxation and assessment, other than a tax of \$5,000 a year to the school district at Grand Falls.

Contracts for the sale of power to Fraser Companies, Ltd., and the New Brunswick International Paper Co., Ltd., are approved, while a reservation of 22,800,000 kilowatt hours for use for purposes other than the manufacture of pulp and paper also is made for the New Brunswick Electric Power Commission.

Special provisions are made for stock of the company, which is given wide powers in this regard. Directors of the company need not be shareholders and no dividend shall be declared which will impair the amount paid in as capital on the outstanding shares of the company. The act to regulate the issue of shares and securities by the Public Utilities Board, as amended, shall not apply to the company.

The company is required within six months from the passing of the act or until such time as the Lieutenant-Governor-in-council shall extend, to commence bona fide construction of the hydro-electric works and shall within two years from the passing of the act or such further time as the Lieutenant-Governor-in-council shall extend, expend a sum of not less than \$1,000,000, otherwise the act is null and void.

PAPER CO. DIRECTORS.

Archibald R. Graustein, of Framingham, Mass., president of the International Paper Company, George H. Montgomery, K. C., of Montreal, and John W. Brankley, of Newcastle and George McAvity, of Saint John, are named as the incorporators and pro-

HOULTON, Me., April 21.—There is but little stirring in the Aroostook potato market. Boston, New York and other receiving points are not waiting for shipments to any amount and growers, with any to sell, are holding out.

A few sales were reported today at \$8.20 to \$8.30 a barrel for number ones. State Commissioner of Agriculture, F. P. Depopulation Figures Startle Synod Meeting at Fredericton

Rev. Canon McKim Says He Has Written Off 200 Families From Congregational Records, All Leaving City, and Neighboring Church Had Same Experience

FREDERICTON, April 21.—The problem of depopulation in New Brunswick to which reference was made by His Lordship Bishop Richardson in his charge to the synod on Tuesday again received attention today. Rev. Canon Vernon, general secretary of the Social Service Council of the Church of England in Canada, discussing immigration pointed out that New Brunswick was not alone in feeling the death of her people. Ontario and the West were feeling the same and the fact that the Island of Montreal today contained one-tenth of the population of the Dominion was significant.

Rev. Canon McKim, of St. Luke's church, Saint John, gave some startling information of a local character when he said that in the past three years he had written off two hundred families from his congregational records in addition to individuals, all leaving the city. The condition he said applied to an adjoining Baptist congregation in about the same proportion. The subject was discussed in the course of considering the report from the sub-committee of the board of missions.

The controversy which arose during the morning session over the report of the governors of King's College in the course of which the Evangelical School of Thought expressed its view with regard to the Divinity School of King's College was not resumed. Dr. A. H. Moore made a brief explanation on a matter raised by Rev. Canon McKim, after which the entire report was adopted as presented.

BOARD OF MISSIONS REPORT. The synod considered in detail the special report of the sub-committee of the Board of Missions, which recommended...

meaded a general canvass of each parish and mission before the opening of each financial year, the universal use of duplex envelopes and a special effort to bring about the use of the budget side of the envelope as well as use of special envelopes at stated times for the object of the budget. The report recommended that the Bishop arrange to hold an investigation regarding certain missions to learn the cause of large arrears. It also was recommended that the services of a financial agent be engaged for the purpose of determining a proper basis upon which to adjust the assessments on all aided missions.

Rev. Canon McKim, after commenting upon the loss of people from his parish, made a strong plea for the right of the individual to act-mark his own gifts as he might see fit. Even the adoption of a system which might involve a break down in relations with the General Synod was suggested by the speaker. Other speakers pointed out that the budget system represented the corporate will of the diocese in distinction from the individual will. The report was adopted after the discussion.

PRISON FARM URGED. The report of the Social Service Council was read by H. Usher Miller. It made reference to the action of the council in requesting that the New Brunswick Social Service Council urge upon the Provincial Government the advisability of establishing a prison farm, either provincial or maritime. Similar action had been taken in regard to a request for more thorough investigation of facts before the issue of marriage licenses.

Payments for the new Inter-Provincial Home for Young Women at Corner Brook were placed on the same basis as similar payments for the maintenance of the Maritime Home for Girls at Truro, the diocese of Fredericton paying three-eighths and the diocese of Nova Scotia the remainder.

RURAL DEPOPULATION. Canon Vernon, of Toronto, general secretary of the Social Service Council of Canada, was heard. He complimented His Lordship Bishop Richardson...

upon his contribution to the discussion of the problem of depopulation presented in his annual charge. His Lordship had struck the right note. The problem was one for solution not only in the Maritime Provinces but also all over Canada. There was too great a trend to the cities. It was a national problem and a church problem. If the church should die in the rural sections, in a generation or two it would die in the urban centres also.

BISHOP AND LADY ENTERTAIN. Canon Vernon emphasized the human side of immigration rather than the statistical. He termed the Church of England in Canada the greater means of maintaining British tradition and connection. The work of the Social Service Council was one of the means of maintaining that tradition.

At 5 o'clock His Lordship and Mrs. Richardson entertained the delegates to the synod and their ladies at a reception at Bishop's Court. The reception was largely attended.

MORNING SESSION. FREDERICTON, April 21.—King's College figured largely in the proceedings at the Diocesan Synod this morning. The proposed "fifty-fifty" basis for organizing the divinity school being the cause of a difference of opinion.

The diocese was appealed to on behalf of the King's College campaign by the Bishop Coadjutor of Nova Scotia, Hamilton Williams, and the president, Rev. Dr. A. H. Moore.
