## CONFIRMATION SERVICE

Six candidates were confirmed by Bishop Richardson in Burt's hall on Sunday morning, three of the number being adults. The service was most impressive. The sermon was a powerful discourse on the biblical and historical authority for confirmation. His Lordship was most eloquent in defining the Church's use of the word "Catholic." In earnest tones he declared that "I would stretch forth my hands to the uttermost ends of the earth and gather in every baptized person—Methodist, Baptist, Roman, Anglican—as comprising the Catholic church, 'the whole of Christ's church militant here on earth,' for which in our prayers we ask God's blessing."

At this service more than 200 were seated, many stood throughout and a number were unable to gain admittance to the hall. Immediately after the service His Lordship was conveyed to Glassville by James Montgomery with his auto. At that place a number were confirmed, and also a class at Beaufort. The party returned to Hartland late in the evening, those comprising the number besides Bishop Richardson and Mr. Montgomery being Mrs. Montgomery, Rev. N. Franchette and Miss Lou Smith.

## Mount Pleasant

Vernon Clark has returned to Lowell after a two weeks holiday with his parents here and friends at Centreville.

Born—to Capt. and Mrs. Cheney, a son, July 28.

Mr. and Mrs. Russel Hatfield and Miss Dorothy Hatfield spent Sunday at Randolph Rideouts.

The circle meets every two weeks in the Orange hall. A good place to spend a pleasant time and visit friends.

There was a baptism in the Coldstream, July 19. Some faithful Christians that had been on the way for forty years were baptised over the second time.

Miss Elva Greer is visiting at Allen Green.

Reed Gruetier is helping James Scarran hay.

Robert Scarran has returned home after visiting his brother James. The brothers had not met for thirty-two years.

Richard Clarke's family has moved home from Peel where he is running a store.

Mrs. David Phillips' children surprised her with a picnic on her birthday, July 31. Four daughters, three sons and fourteen grand children were present besides a large number of friends. As merry a crowd as ever enjoyed an afternoon. She received many tokens of remembrance.

Nora and Mary McGinley of Norton, Kings county, are visiting Mrs. George Lloyd of Gorden'sville.

## Mrs. Nelson Boyer

The death of Mrs. Nelson Boyer occurred very suddenly on Saturday morning at the home of her daughter, Mrs. Joel Hartley, East Florenceville. She was of advanced age and her death was due to this cause. She awoke about 1.30 a. m. complaining of a bad feeling, and passed away within an hour. Her death occurring during a heavy thunder shower the rumor went abroad that lightning was the cause. This report was an error.

Mrs. Boyer's husband died some years ago. Besides Mrs. Hartley she leaves two sons, George and Oakley, of Bristol.

Eric Lane and George Aiton with friends drove up from Woodstock on Sunday afternoon.

## RHEUMATISM ARRESTED

Many people suffer the tortures of lame muscles and stiffened joints because of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the whole system. To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and rebuild your strength. Scott's Emulsion is helping thousands every day who could not find other relief. Refuse the alcoholic substitutes.

### WAR AND MARKETS

Throughout the country there is widespread terror at the realization of war. In the rural communities, more especially, there is much misapprehension concerning what the war will eventually mean. Markets and prices will undergo an entire readjustment. Trade will follow new channels and commodities will develop new values. On the whole the farmers throughout Canada will stand to gain. Wheat already is soaring to the great benefit of the west, while the eastern farmers will get a healthful lesson on raising their own bread and biscuit.

The demand for oats is already setting in and a new record for high prices is sure to be made this fall. Beans will also go high, for hitherto when the prices arose to a certain level Austrian importations prevented further advance. This competition is cut off by reason of the war. Butter supplies in Great Britain are expected to be short on account of European products being cut off. Canada is likely to find a market across the water for all dairy products.

All meat products will go higher than ever, and the horse market will stand firm.

It is not unlikely that there will be a big demand for export hay. In fact the war will raise the price of all farm products with the possible exception of potatoes.

It is not apparent that manufactured articles will go higher, except cotton goods.

The terror of the war is not so much in the disturbance of markets. It is that the heart's blood of our sons and brothers will be drained on the battle field. Thousands of the brave men Canada will contribute to the cause of Empire will leave their mortal remains on the field of battle.

### CANADA'S NAVAL EFFORTS

The Laurier Naval Act has never been repealed and it is the only working law to guide the Conservative government in the present crisis. The nucleus of the proposed Canadian naval fleet, the two training ships, Niobe and Rainbow, are now in active coast defence. Had the Conservatives, when they came in power in 1911, pursued the Laurier naval policy, with which they previously had been in agreement, Canada would now be equipped with a fleet sufficient for all needs in this dire hour of necessity.

On the other hand had the Borden proposal of contributing three Dreadnoughts to the British fleet gone through Canada should have expended \$35,000,000 and the construction of the vessels would have no more than commenced. Canada's contribution would have been entirely non-effective in this present war—and she would have been financially

## Piano Contest Start

### Big Result of One Day's Work Need Not Dishearten Beginners

Away go the Contestants for that Beautiful Piano that is winning the admiration of every one who sees it. Only two contestants as yet and time right now for others to enter. The more entering the merrier and shorter the contest; and the less work for each individual.

Miss Vera S. Page, who leads this week, started in work only on Tuesday of this week, and in less than 5 hours she made the excellent showing that is set opposite her name. Any one who has vim and hustle can enter now and overtake Miss Page, but if they put it off too long they will

Vera S. Page, . . . . . 15,000  
Phoebe McLean, . . . . . 3,000

crippled to the extent of \$35,000,000, which amount if need arises, she may yet supply in this crisis.

Had the Laurier Naval Act been carried out Canada today would be in a position to defend herself, and no British vessels would need to patrol the Atlantic and Pacific coasts.

Had not the Borden proposal been defeated Canada would not now be in a position to supply the mother country with cool millions of money in this present time of her need.

### LOYAL WOMEN

The Observer's Andover correspondent records the fact that the women of that town are already responding to the call of the Women's Council and kindred societies for the contribution, by themselves, of \$100,000 for the purpose of equipping a hospital ship to go with the British fleet. Women of Canada never projected a worthier idea than to send forth a ship bearing the Red Cross, an emblem no nation of the earth will fire upon.

It is earnestly hoped women of Hartland and other villages of Carleton-Victoria will not delay in furthering the project. Every womanly woman will contribute her mite, or never again raise her eyes with honest pride to the glorious Union Jack.

Because the Valley Railway Company refuses to produce its books before the Royal Commission, Frank B. Carvell has announced that he cannot close the prosecution of the Dugal charges as affecting the railway. The mere fact that the company defies the request of the Commission to bring on the books is damning enough, and there is no apparent need for prosecuting the case further. Let alone being proud of the record the books would disclose, the government is ashamed to produce them, and they dare not make public the secrets they conceal.

The mission of The Observer is solely to treat of news and political matters as they directly affect the people of the Upper St. John Valley. Therefore it cannot undertake to discuss the war or publish war news except from the viewpoint of local interest. Every family served with a daily paper should take and read a daily paper and keep posted on the momentous events of this troubled time.

### Condition of the Crops

Hay has turned out a far better crop than it looked just before cutting; indeed, it is rather more than an average. Nearly all the immense yield was housed without being wet at all. Grain is looking fairly well but rain is sorely needed. Potatoes give excellent promise and shipping will commence in a few days.

## WHEN FOOD TAXES YOUR STRENGTH

You Need the Tonic Treatment of  
Dr. Williams' Pink Pills

When the food you take fails to nourish when it causes you pain and often a feeling of extreme nausea, the cause is indigestion. Your stomach is too feeble to do its work and you will continue to suffer until your strength and your digestive powers. Your digestion has failed because your stomach is not receiving the pure, red blood of health to give it strength for its work.

The tonic treatment of indigestion by Dr. Williams' Pink Pills for Pale People succeeds by building up and enriching the blood supply, so that the feeble digestive organs are strengthened, appetite is restored and tone given the whole system. Thousands have proved this personal experience, as is shown by the following typical instance. Mrs. James Boyle, Dartmouth, N. S., says: "For years I was a sufferer from indigestion. I could not take food without feeling terrible distress afterwards, and in consequence I was badly run down. Sometimes after eating I would take spells of dizziness with a feeling of numbness throughout my body, and at other times my heart would palpitate so violently that I feared I would die. Naturally I was doctoring continually, but without getting better. Then my husband got me a supply of Dr. Williams' Pink Pills and before long I found they were helping me, and I continued to take them until I was restored to health. I was never in better health than I am now, and I owe it all to Dr. Williams' Pink Pills."

These Pills are sold by all medicine dealers or you can get them by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

## HOSPITAL SHIP FUND

The women of Centreville and vicinity first heard of the movement by Canadian women to equip a hospital ship. In three days they raised more than \$265. Mrs. F. M. Brown took the matter in hand and contributions came freely in from outlying districts as well as the village proper. The moving picture man contributed an evening's proceeds and an ice cream social was held to swell the fund. Next week The Observer will give further details of this.

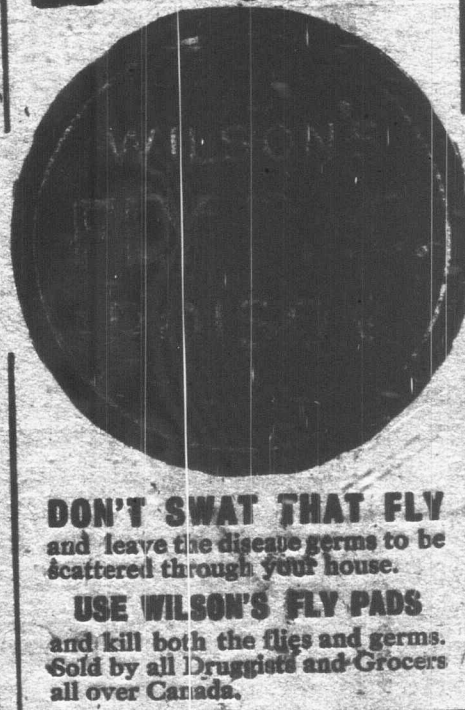

At Victoria; through the effort of Mrs. E. C. Jenkins, who appointed Miss Ruth Shaw collector, the sum of \$20 was raised yesterday.

## Indigestion and Headaches

Arising from Constipation. Cured and Regular Habits Established by Dr. Chase's Kidney-Liver Pills.

In the western Provinces, where so many thousands live far from doctors and drug stores, very many rely on Dr. Chase's medicines to cure disease and maintain health and strength. This letter gives some idea of what perfect control Dr. Chase's Kidney-Liver Pills exert over the most common ills of life.

Mrs. H. K. Hawes, farmer's wife, Eastburg, Alta., writes: "For about ten years I suffered from constipation, indigestion, headache and languid feelings. Treatment from two or three doctors afforded only temporary relief, so I turned to Dr. Chase's Kidney-Liver Pills, and with most satisfactory results. Headaches have disappeared, regular habits established and general health very much better. Both my husband and I can speak highly of Dr. Chase's Kidney-Liver Pills as we have both been greatly benefited by them." One pill a dose, 25c a box, 5 for \$1.00, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

## GAINS 40 POUNDS IN 40 DAYS

Remarkable Results of the New Tissue Builder, TonoLine Tablets, in Many Cases of Run-Down Men and Women

Prove It Yourself by Buying a Box of TonoLine Tablets Now.

"By George, I never saw anything like the effects of that new treatment, TonoLine Tablets, for building up weight and lost nerve force. It acted more like a miracle than a medicine," said a well-known gentleman yesterday in speaking of the revolution that had taken place in his condition. "I began to think that there was nothing on earth that could make me fat. I tried tonics, digestives, heavy eating, diets, milk, beer, and almost everything else you could think of, but without result."

Any man or woman who is thin can recover normal weight by the best new treatment, TonoLine Tablets. "I have been thin for years, and began to think it was natural for me to be that way. Finally I read about the remarkable processes brought about by use of TonoLine Tablets. I decided to try myself. Well, when I look at myself in the mirror now I think it is somebody else. I have put on just forty pounds during the last forty days, and never felt stronger or more 'nervy' in my life."

TonoLine Tablets are a powerful inducer to nutrition, increase cell growth food, increase the number of blood corpuscles, and as a necessary result build up muscles and solid, healthy flesh all round the figure.

For women who can never appear stylish in anything they wear because of their thinness this remarkable treatment may prove a revelation. It is a beauty maker as well as a form builder and nerve strengthener. TonoLine Tablets cost \$1.00 for a 30-day treatment—at drugists, or mailed by American Proprietary Co., Boston, Mass.

## PLAY WRITING.

### It Is Profitable But Full of Heart-breaking Delays.

Not a seat in the theatre is vacant. In the stalls are men who have won distinction in public life — famous judges, barristers, politicians, doctors, well known society people, and in the eyes of the management most important of all—the dramatic critics of almost every paper in the metropolis that pays attention to the theatre. The circle and the gallery are crowded with people who are proud to boast that for years they have not missed a "first night."

In one of the boxes there sits Smith, the author of the new play. Now and again he tugs nervously at his tie or runs his hand through his hair. He groans when a sparkling piece of dialogue is so delivered that his point is lost on the audience; he wishes very much that he could steady his nerves by putting on that old briar pipe that helped him to write the play.

The actors, too, are nervous. Success or failure means so much to them. The weeks of rehearsal for which they have had no payment will all be wasted if the play is not a success.

But it is a success. Enthusiasm grows steadily, and at last the delighted "house" cheers again and again, and calls loudly for the author. Possibly the author does appear on the stage to stammer his thanks; more probably the chief actor announces that Mr. Smith has left the theatre.

Perhaps Smith, hitherto an unknown man, is now walking along the Embankment with his head among the stars. His achievement is doubly remarkable — he has not only written a play that promises to charm the public, but he has actually succeeded in getting it produced.

Many dramatic aspirants are quite convinced that it is more difficult to get a good play produced than to write one.

Managers of West-End London theatres are bombarded with plays. Hundreds come annually, many from the very last people who might be expected to attempt this form of art, and who betray their inexperience and who betray their inexperience.

One well-known dramatic critic relates that in a play submitted to him he found this stage direction: "Enter Henry, smelling of tobacco." Managers receive some three-act plays that would only last half an hour, and others so long that they would have to be presented in serial form, and would even extend over several nights.

But managers, and particularly actor-managers, are very busy men, and have little time for reading through reams of manuscript. So the patience of Job while their plays are being considered, and in the case of some unbusinesslike managers plays have been known to languish in the archives of the theatre for two or three years, before the luckless authors received them back.

Experienced dramatists do not as a rule approach managers with a complete play, but write instead the first act and a full synopsis or "scenario." If the "not approach" the manager he pays, perhaps, \$5,000 down on condition that the play is finished by a certain date, and he has the right to purchase it on stipulated terms.

If he likes the play when it is finished, he writes another check, and agrees to produce it within a certain time. If he fails to do so the author has so much money to the good and he still the play to dispose of.

This is a merciful arrangement; otherwise some struggling dramatists would be in danger of starving, before they received a penny of the royalties. The royalties, of course, are shared. The royalties, of course, are shared to some extent by the fame of the author. A fairly common scale is 5 per cent. on the first \$5,000 gross receipts and 10 per cent. on the remainder.

### Lord Haldane's Cigar.

Lord Haldane is reputedly the

heaviest smoker in the present British Cabinet, and very rarely indeed arrives at the meetings at No. 10 Downing street, on Cabinet days without puffing at a choice cigar. It is amusing to see him slacken his footsteps on approaching the House as if to get the most possible from the cigar, and then on the very doorstep take a deep pull before obviously reluctantly throwing it into the street. "Lulu" Harcourt and Earl Beauchamp are both inveterate cigar smokers, the only difference being that the Colonial Secretary was a holder. John Burns, on the other hand, very rarely is to be seen smoking. Only after his day's work is over does he indulge.

## AN ANCIENT SHIP.

Timbers Found in England May Date Back 400 Years.

At the present time there is a controversy raging in England over some old ship timbers. One party contends that the remains are those of a warship of the time of Henry VIII., while the other believes them to be portions of Sir Francis Drake's famous flagship the Golden Hind.

J. Seymour Lucas, R.A., the British artist, after seeing the relics, is come to the conclusion that they are those of a sixteenth century vessel, possibly the famous Henri Grace a Dieu, which was built at Woolwich in 1558. It was little more than 12 months ago that the borough council of Woolwich, in preparing a site for a new electricity station on the south bank of the Thames first unearthed the timbers of this old ship.

The late Sir William White, who inspected them and was of the opinion that they came from an eighteenth century merchant vessel. This opinion was not very keenly held, as was so, to preserve the remains.

The theory of Mr. Lucas, the artist, who painted "The Armada in Sight," has put quite a new aspect on the matter. He considers that the closeness of the ribs and size of the keelson are irrefutable evidence of the date of the hull. In addition, he has seen two wheels, evidently from a gun carried on the time of Henry VIII.; some stone cannon balls and pieces of Elizabethan pottery, all taken out of the hull.

The theory that the vessel is the Henri Grace a Dieu is forward by the Woolwich antiquarian society. There was a dock built at Woolwich in 1521, to which the hull of the Henri Grace a Dieu was taken, after the fire which destroyed her. Then arises the question: "The question arises, how came the hull to be buried? It is believed that after the hull had been placed in the dock something in the nature of a landslide occurred which removed both ship and dock bodily.

This, at any rate, is held to explain the circumstance that part of the timbers are still sunk beneath an old house. Very little is known concerning the methods of ship construction in vogue in the reign of Henry VIII., and it is not surprising that expert opinion is divided as to whether the Woolwich wreck may be taken to be that of the Henri Grace a Dieu.

It was the Henri Grace a Dieu which Henry VIII. built in 1515, that was burned at Woolwich in 1558. In this vessel Henry VIII. embarked on Dover on May 31, 1520, to meet Francis I. at the Field of the Cloth of Gold, the incident being the subject of a picture by Holbein in Hampton Court Palace.

For the present there is a good deal of doubt about the identity of the relics of the Woolwich, and it would, therefore, be premature to accept the theories put forward, but undoubtedly the possibility of a ship of Tudor times being recovered, causing widespread interest, and already there have been several offers of financial help to reconstruct the hull of the vessel.

### Modern Business Man.

Dean Inge, of St. Paul's, whose lectures on things modern have won for him the sobriquet of "the gloomy dean," declares that Protestant asce-

ticism is responsible for that singular product of our civilization known as the modern business man. He said recently:

"When one reflects that a man is constitutionally indolent, that his natural desires are easily satisfied, and that unremitting attention to money-making disqualifies its votary from enjoying the finer pleasures of life, it must be clear," he said, "that nothing but a queer sort of religious self-mortification could induce many persons to choose the life while the successful business man was an honest merchant, abiding the earth and really creating wealth to the public advantage, his work might be an instrument of valuable moral discipline. But now that the merchant had dethroned the merchant; now that wealth was appropriated rather than created, the connection between religious austerity and business was almost dissolved, and there was the underlying spectacle of the unscrupulous speculator, who made his home in his office, while his wife in squandered his ill-gotten millions in vulgar and senseless extravagance."

## The Rosetta Stone.

The Rosetta Stone, now in the British Museum, is a stone discovered in 1799 by M. Boussard, a French officer of engineers during the French occupation of Egypt under Napoleon. In an excavation at Fort St. Julien, near the city of Rosetta, it is a piece of black basalt, 3 feet 7 inches in length and 2 feet 6 inches in width, and contains part of three distinct inscriptions; the first or highest in hieroglyphics, the second in enchorial or demotic characters, and the third in Greek.

The Greek text, when translated, showed that the inscription was an ordinance of the priests decreeing certain honors to Ptolemy Epiphanes on the occasion of his coronation. 198 B.C. It contained a command that the sacred letters (hieroglyphics), the letters of the country (demotic), and Greek letters—this for the convenience of the mixed population of Egypt under its Greek rulers.

### A Plucky Student.

A wonderful story of pluck and determination is revealed by the announcement that Mr. Anand Mackenzie is one of the new Masters of Arts at Cambridge. Mr. Mackenzie is deaf and dumb, and is the first individual so afflicted to take the degree of M. A. at an English university. His record is still more remarkable owing to the fact that he paid the fees out of his own earnings.

## International Kerosene Oil Engines

(Hopper Cooled)

The I. H. C. Kerosene Oil Engines are the latest product in internal combustion engine development—one which lessens the cost of operation one-half that of the ordinary gasoline engine and develops the rated horse power. The I. H. C. line is complete, and includes a size and style of engine for practically every purpose. No matter what condition of service, the I. H. C. line offers an unequalled opportunity for the selection of efficient and economical power. They are the cheapest engine you can buy, as the only way to judge the cost of an engine is by the results obtained and the length of satisfactory service it will give. Besides this, every I. H. C. engine is made to develop from ten to twenty per cent. more than its rated horse power before it leaves the factory. For further information and catalog apply to your nearest local agent, or

Fire early this morning destroyed the I. C. R. elevator at St. John and 75,000 bushels of wheat about to be shipped to England. The loss is near a million dollars.

The Church of England Sunday school enjoyed a picnic on R. W. Pratt's grounds yesterday afternoon. The weather was delightful. The crowd was conveyed by G. F. Neales. Various forms of races were indulged and there was much merriment. The rector wishes to thank Messrs. Pratt and Neales for their efforts in making the affair a success.

Paul Raymond, of Middle Simonds, after reading the last Observer must have contemplated his left hand with puzzled consternation. This paper nearly ruined its reputation for truthfulness when it stated he had lost a finger in a lath machine. It was not Mr. Raymond who was so unfortunate, but a better looking man, Frank Shaw, of Upper Brighton, who was the victim of this distressing mishap, and that both men were thus slandered by the innocent Observer is only a part of the penalty they must pay for looking so much alike.

Charles A. Flint and son, of Ashland, Me., is here looking over the site for erecting an electric plant. Both men are successful electricians and erected the plants at Ashland and Fort Kent. They have the little Presque Isle in view as a source of power and if they meet with sufficient encouragement they will be able to supply lights for stores at a rate of less than two cents per night, and to residences for a cent and a quarter as the average cost per light for an evening. That the village lacks electric light and power is its greatest drawback. It is to be hoped Messrs. Flint will not be discouraged before trying out the project.

## INSPECTION OF POTATO FIELDS

J. B. and Mrs. Daggett of Fredericton spent Sunday with Mr. and Mrs. L. E. McFarland. With Prof. Gussow, Dominion entomologist, Mr. Daggett is making a thorough examination of the potato fields throughout the Valley. The presence of powdery scab cannot be determined thus early, but another disease, called "black-leg," was found to badly affect some fields. Farmers were instructed how to get rid of this pest. Mr. Daggett said that most of the farmers had followed instructions with regard to the preparation of seed and ground to prevent the prevailing diseases, and in every case excellent results were showing. The fields where proper measures were taken plainly show the care bestowed upon them.

In several cases farmers were averse to having Mr. Daggett and Prof. Gussow enter their fields, but were much impressed when the gentlemen proved to them that the condition of the tubers was exactly what the tops indicated to them.

## PIANO CONTEST

The demand for a friendly contest for the possession of our Handsome Amherst Piano is so insistent that the management has yielded, and will therefore offer this magnificent instrument FREE to the candidate who enters the contest and gets the largest number of votes.

The rules of the contest are very simple. Any person anywhere may enter, except relatives and employees of the manager. Candidates may solicit subscriptions anywhere. Persons desiring to enter will use the blank below, which is good for 1,000 votes to start with.

Date..... 1914  
Manager Observer Ltd., Hartland, N. B.  
I desire to enter your Piano Contest and will endeavor to win. Please register me 1,000 votes with this application and send me canvassing outfit and instructions.  
Name.....  
Full address.....  
(Cut out, fill in and mail to The Observer, Hartland, N. B.)

## How to Get Votes

Votes will be given for either new or renewal subscriptions as follows:

Subscription for 1 year at 75c counts 1,000 votes  
" 3 years at \$2.00 " 5,000 "

Merchants throughout the county will also give coupons for cash sales, good for ten votes for every cent spent with them. A list of these merchants will be published next week.

This contest is expected to be short and sharp. Notwithstanding the county has been thoroughly canvassed in recent contests, the chance for getting subscribers is good. The manager will give candidates all possible help and valuable suggestions. The contest will probably end in September, and workers will have the best time of the year to get around the country.

It is very important that candidates get to work early. Now is the time! Do not put it off. The early bird catches the worm.

The Piano is the same as that offered two weeks ago—a magnificent Amherst Piano in beautiful mahogany case with bench to match. Candidates may personally inspect it at Hartland or at Mrs. Adney's show rooms.

No special favors will be offered any candidate. All will be treated alike. The candidate who secures the greatest number of votes wins the Piano. Every other candidate who gets 200,000 or more votes will get a Suit or Coat, which they may select themselves to the value of \$20.00.

**CAN'T LOSE HAIR**  
Twenty Years from Today a Baldheaded Man will be an Unusual Sight

One of the most prominent druggists of America made a statement a few weeks ago which has caused a great deal of discussion among scientists in the medical press.

He said: "If the new hair grower, Mildredina Hair Remedy, increases its sales as it has during the past year it will be used by every man, woman and child in America within eight years."

"When Mildredina Hair Remedy is used almost universally dandruff will disappear and with its departure baldness, itching scalp, splitting hair and all scalp diseases will follow, and twenty years from now a bald head will be a rarity."

There is only one way to cure dandruff and that is to kill the germs. There is only one preparation that will kill the germs and that is Mildredina Hair Remedy. This unusual hair restorer with its record of thousands of cures will grow hair on any head where there is any life left; it will cure dandruff, stop falling hair and itching of the scalp in three weeks or money back.

It is the most pleasant and invigorating tonic, is not sticky or greasy, and is used extensively by ladies of refinement who desire to have and to keep their hair soft, lustrous and luxuriant. Fifty cents for a large bottle—druggists everywhere. Mail orders filled by.

## On the Advice of His Doctor

He Used Dr. Chase's Ointment for Protruding Piles With Splendid Results.

Too often a doctor can only think of an operation when asked for a treatment for piles. Some are sufficiently broad-minded to use the most effective treatment available, which is undoubtedly Dr. Chase's Ointment, as was proven in the case referred to in this letter.

Mr. Simon E. Jones, Railway street, Inverness, N.S., writes:—"I have found Dr. Chase's Ointment the best treatment obtainable for protruding piles. For three years I suffered from piles, and was advised by a local physician to try Dr. Chase's Ointment. I had tried many treatments in vain, and therefore know which is the best. I can highly recommend Dr. Chase's Ointment, and you are at liberty to use this statement."

The record of cures of every form of piles which stands behind Dr. Chase's Ointment is the strongest guarantee you can have that it will promptly relieve and cure this ailment, even in the most aggravated form. 60c a box, all dealers.

## OWES HER LIFE TO "FRUIT-A-TIVES"

### Cured Both Stomach Trouble and Headaches

PALMERSTON, ONT., JUNE 20th, 1913. "I really believe that I owe my life to 'Fruit-a-tives'."

Ever since childhood, I have been under the care of physicians and have been paying doctor's bills. I was so sick and worn out that people on the street often asked me if I thought I could get along without help. The same old Stomach Trouble and distressing Headaches nearly drove me wild. Sometime ago, I got a box of "Fruit-a-tives" and the first box did me good. My husband was delighted and advised a continuation of their use.

Today, I am feeling fine, and a physician meeting me on the street, noticed my improved appearance and asked the reason. I replied, "I am taking Fruit-a-tives." He said, "Well, if Fruit-a-tives are making you look so well, go ahead and take them. They are doing more for you than I can."

Mrs. H. S. WILLIAMS. "Fruit-a-tives" are sold by all dealers at 50c. a box. 6 for \$2.50, trial size 25c. or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

## WE KNOW RESISTOL WILL HELP YOU

### To Regain Your Strength and Energy

Report of the Hotel Physician in a Leading New York Hospital on the Cure of Brain Fatigue and Nervous Exhaustion

"A few years ago we considered that we were doing well if we cured to per cent. of the cases of Brain Fatigue and Nervous Prostration brought to us, but since the introduction of Resistol into our hospital we cure more than 90 per cent. of all the cases in its various forms brought to us. It builds new tissues, gives new energy, new life, new blood and strength to any part of the body attacked by these diseases."

Resistol is a powerful tonic nourishing stimulant obtained from vegetable drugs. Resistol contains no narcotics or other dangerous drugs which merely deaden pain temporarily but give no permanent relief or cure the cause of disease.

Resistol is a powerful body builder and blood maker; it is the best remedy known to the medical profession to enrich thin, watery blood and supply new rich blood to the whole body.

It will be found a most valuable remedy in cases of over stimulation in which the excessive use of liquor causes depression, dullness of the faculties or intoxication; it counteracts the depressing effects and restores the system to its normal condition.

FREE—To prove the wonderful merits of RESISTOL we will mail a large sample bottle for 25c in silver or stamps for postage, etc.

**Concrete Fence Posts Last Forever**

THEY never rot away in the ground. They stand the hardest knocks and never have to be replaced, for they are practically everlasting. They are easily and cheaply made and are the most satisfactory of all fence posts.

**Concrete Drain Tile Cannot Decay**

Concrete drains do not decay and are cheaper, because they do not rust, corrode and stop up drains, hence they need no digging up or relaying.

Let us send you this free book, "What the Farmer can do with Concrete." It shows you how to make concrete fence posts and will save you many dollars when doing other building round the farm.
