REJOICING IN SOUTH AFRICA. London, June 1.—The Johannesburg Exaggerated Reports of the Financial Standard telegraphs that the release of the members of the Reform Committee, with the exception of Messrs. When the fact became known President Kruger, to whom the release is due, was enthusiastically cheered. The members of the Johannesburg Exchange sent telegrams to President Kruger expressing to him their warmest thanks for his generous action, which they declared would have a beneficial effect throughout South Africa. The dispatch adds that confidence is felt that the President will extend generosity to the four leaders, who are still in jail un-

Grayhaired men and women lay alongside children and sturdy men, all crushed as if beneath heavy rollers, some of their heads being trampled into a shapeless jelly.

So immense was the concourse of people upon the Khodijnskoje Plain that hundreds of thousands were not aware for a long time that a disaster had occurred for the noise caused by the excitement of the celebrations, by the music in the open-air theaters, by crushed dead was in progress in another part of the plain, and the work of tending many hundreds of injured people was being carried on by a large

Farmers Dissatisfied With His Stand on the School Question-Has "Independent" Leanings, Too.

As was expected, Mr. James Gilmour was on Saturday nominated by the Conservatives of East Middlesex. The convention was held in the Conservative club rooms, in the presence of less than 75 delegates. Mr. Gilmour was nominated by J. B. Fram and Mr. D. C. Macdonald seconded. No other nomination being forthcoming, Mr. Joseph Marshall, ex-M.P., moved that the choice be made unanimous. This and figures justifies the assertion that was done, and the delegates adjourned to the hall, where about 150 electors sat in the front rows, waiting for the speech-making. Mr. John Geary was chairman, and on the platform with him were the candidate, Sir John Carling, Mr. Marshall and Mr. Macdonald. Mr. Geary made a 5 and 6 o'clock in the morning. Nobody expressed any dissatisfaction then, but a great replace it, a condition not without its many of the farmers did immediately after the meeting. Some of them held very excited arguments on the stairs. For a candidate who so blindly upheld the Conservative platform at the beginning of his address, Mr. Gilmour made a queer ending. He asserted that he would use his own judgment in an independent way on all matters coming before the House. He told them they had got the wrong man if they expected to send him down to Ottawa

Sir John Carling spoke of Canada's vast resources, exports, etc., and at times his voice was hardly audible. At one time a heated argument on the stairs outside nearly caused a stam-pede. Sir John had been talking about the splendid butter of Denmark, which, unfortunately, Canadian butter could not yet successfully compete with. He went on to the trade question, when a voice was heard to say: "You did not say anything about

Very Excellent Pianos-Most Elegant Instruments Seen Anywhere-Singing Qualities all that an Artist Could Desire-Broad, Rich, Massive Tone-Nothing to Fear from Foreign Competition.

THE BELL PIANO COMPANY (LIMITED), GUELPH, ONT.

Tecumseh House, London, April 28, 1896.

Dear Sirs,—It gives me pleasure before leaving Canada to testify to the very excellent Pianos of your manufacture which I have met with and used in connection with my song recitals in this country. The Upright Concert Grand which was placed at my disposal by your manager in Londen I unhesitatingly pronounce as one of the most elegant instruments that I have seen anywhere, and whilst its singing qualities were all that an artist could desire, it possessed in addition that broad, rich, massive tone which is absolutely indispensable for solo purposes. I heartily congratuate you on your latest achievements in piano construction, and believe that so long as the present high standard of your instruments is maintained your company can have nothing possible to fear from foreign competition. I am faithfully yours, R. WATKIN-MILLS.

BASEBALL.

Special to the "Advertiser." Hamilton, June 1.-London won her first championship game here Saturday from Manager Richardson's aggregation through the good work of Plummer in the box and the misjudging and dropping of fly balls of the Hamilton outfielders. The game was played before a crowd of about 800 or 1,000 people in a light sprinkling of rain, and with the exception of a couple of innings was a clean and sharp one. Ripley was responsible for London's two runs in the third by dropping a fly, and Pearce was responsible for all five in the ninth innings, as he dropped an easy fly after two men were out. Hynd, Snyder and Strowger did great stick work for London. Snyder played a very bad fielding game, but aside from his play, the whole work of the Londons was clean, sharp and gentlemanly, and they deserved to win, although six of their thirteen hits were made in the ninth. Hutchinson proved himself a star in left field, but did not hit. He signaled his entry into the league by striking out. Mickey Powers went quite lame towards the end of the game, but pluckily stuck to his work and got a good cheer for it. Pete Wood, the favorite, proved a stone wall on first base, and hit well, as did also Sippi. The score:

Keep it up, Plummer. Hynd is a London product, but he is not a whit be-hynd the imported They say Snyder did a good deal of kicking at Hamilton, but perhaps he had good grounds.

Tierney was unable to play Saturday, and Snyder had to remain at short—a spot he does not like. Hutchinson and Hynd made some grand catches. The former hit hard, but not safely.

The Hams play in London Wednesday. Tierney will be in shape, and Plummer will pitch. Look at that base hit column. The Alerts stole bases like daylight

What's the matter with Dr. Wood? He's all right. McIlroy played for Guelph Saturday, and the Alerts will protest the game. Mac has no league contract. The Alerts move up a peg, and Hamilton drops to the foot. Coming home the Alerts sang a

song something like this: Sweet Marie, 9 to 3, 9 to 3, Sweet Marie: Oh, they thought they could play ball, But they couldn't play at all, For the score stood 2 to 3,

Sweet Marie.

HOBBS' TEAM WON. A close and interesting game of ball was played on the Erie Flats Saturday afternoon between the Hobbs Baseball Club and the London and Petrolea Barrel Company's crack team. The game was marked by clever playing on both sides throughout. Second Baseman Healy's running one-hand catch of a hot liner in the fifth inning was a beauty. The battery work of both teams was good. ROAD RACE. Chicago, June 1.-The Chicago road race, the largest event in the world in point of number of entries, was started at 11 o'clock Saturday from Wheeling, 24 1-4 miles northwest, to Garfield Park, this city. The weather was fine, and at least 200,000 people were gathered to witness the finish. The riders came to the finish after traversing a mile circuit known as the Garfield Park loop, where the advantages for sight-seeing were perfect. The race was won by O. P. Nelson, a member of the Monitor Cycling Club, of Chicago, who had been riding only 629 about a year. He had been given .625 nine minutes in the handicap. The second to finish was Charles Lavin, of Plzen Cycling Club, of Chicago, who also had nine minutes at the start. Nelson's time was 1 hour, 12 minutes and 56 seconds.

The start was made exactly at 11 o'clock, the work of the starter being so precise that the 506 riders were sent on their way without a fall or a hitch. The classes were 30 seconds and the starts ranged from apart, scratch up to 15 minutes, with which allowance Joseph Badenoch, jun., a 47-year-old candidate, brother to the chief of police of Chicago, was sent away first and alone. Badenoch finished in twelfth place. Over 50 cycling clubs were repre-

> THE HAMILTON CAMPAIGN. Hamilton, June 1.-Political excitement is just beginning to be roused here. The Conservatives are doing nothing to work it up, having decided to depend on a canvass rather than public meetings. With Boville, an outand-out anti-remedialist, and Barker, a staunch coercionist, the leaders recognize that the two cannot very well be put on the public platform together. The Liberals will have a mass meeting in the next few days. They are putting up a big fight.

> AFTER MONTAGUE'S SCALP. Dunnville, June 1.—The political contest in Haldimand is becoming decidedly interesting for Dr. Montague. The relished by his friends, and the more a few days ago indicate that the feeling was very widespread. The Liberal candidate, Warden Davis, is a man of considerable ability and great personal popularity. He has entered into the fight with keenness, and if the Patron nominee withdraws, which seems very likely, the services of Dr. Montague may be required at home to keep his own house in order, or the result may be something different from what his friends anticipate and

The scandals that had been recently exposed were such as to demand the intervention of every good citizen who desired his country to prosper. Mr. The discussed the trade policy and held that Mr. Laurier's assurance satisfied him upon that score. MR. LAURIER AT EDMUNSTON.

Edmunston, N.B., June 1.-Mr. Laurier's entry into Edmunston Saturday was a triumphal one. The place put on holiday attire in honor of the Liberal chieftain, who came for the pur-pose of speaking in the interests of the Liberal candidate for Victoria. Hundreds were at the station to meet Mr. Laurier, and when he stepped from the train he was received with cheers. The hotel where he put up was gaily decorated with bunting. Mr. Dechene, M.P.P. for L'Islet, accompanied Mr. Laurier. A large delega-tion of prominent Liberals was present to meet Messrs. Laurier and Dechene. After dinner the Liberal delegates from Victoria and Madawaska met and unanimously nominated Mr. Fred Laforest to oppose Hon. John Costigan. An out-door meeting was held and Mr. Laurier spoke from the balcony of the hotel. TO BEAT A WEAKLING. Ottawa, June 1.—D. McElroy, of Richmond, has accepted the nomination of the McCarthyites in North Lanark against Rosamond, Conserva-tive, and Millar, who has been in-dorsed by both Liberals and Patrons. This means that Rosamond will be defeated. Rosamond voted against the coercion of Manitoba, but, like Sam Hughes, afterwards turned in to assist its adoption. Millar is the man for North Lanark.

MEETINGS IN WOODSTOCK. Woodstock, June 1.—The local Con-servatives held two mass meetings here on Saturday. The afternoon meeting was exceedingly tame. Dr. Montague, Mr. J. P. Whitney and Sir James Grant were to have been present. None of them came with the exception of Sir James Grant, who arrived in the evening. The evening meeting was addressed by Mr. O. A. Howland, M.P.P. for South Toronto, Sir James Grant, Mr. P. H. Bartlett, of London, and Mr. D. W. Karn, the Conservative nominee for the north riding. The Opera House was fairly well filled.

Brantford, June 1.-In South Brant, Messrs. William Paterson, L. F. Heyd and J. Bruce Walker addressed a series of meetings on the Indian reed an invitation to be present.

IN EAST ELGIN. St. Thomas, June 1.—The statement published in Toronto that Dr. Wilson, Liberal candidate in East Elgin, will etire, is not only untrue, but without the least shadow of foundation. It was made out of whole cloth probby some political enemy, with the object of injuring the doctor. The prospects of the Reform party in East Elgin were never brighter. Very many strong political opponents of the doctor go so far as to concede his election. Dr. Wilson says: "There is not a tittle of truth in the story. It is a falsehood, promulgated by my enemies, who are desirous of prevent ing my election, which is so certain that my opponents are reduced to desperate straits, as is shown by the fact that a delegation waited upon a prominent Conservative and an exmayor recently to try and obtain his consent to run against me. provided they succeeded in getting Mr. Ingram and Mr. Martyn out of the

A Sequel to It—Partition of the Estate of John Hendershott Applied For.

Thomas, Ont., June 1. -Proceedings have been taken to sell town property in Aylmer, and farm property in Southwold township, which belonged to Murderer John A. Hendershott, executed at St. Thomas with Welter, to satisfy a \$2,000 mortgage which he (Hendershott) had placed upon the properties to meet the expenses of his unavailing defense. Contractor John Mulligan, of St. Thomas who advanced the money while Hendershott was in jail recently at St. Thomas, obtained an order for partition of the lands. Against this order however, the official guardian, Dr. Hoskin, Q.C., on behalf of Hendershott's two daughters, is now appeal-The daughters are under age ing. and hold a half-interest in the properties under the will of their mother the official guardian contends that the court cannot direct the lands to be sold to satisfy a claim upon the half-interest in them, which the father alone held. KATE FIELD IS DEAD.

Chicago, June 1.-H. H. Kohlsaat, proprietor of the Chicago Times-Herald, has received a cable message dated Yokohama, and signed by Lorrin A. Thurston, ex-Minister to the United States from the Sandwich Islands, which said: "Kate Field died at Honolulu May 19, of pneumonia." Miss Field was in the Sandwich Islands as the special correspondent of the Times-Herald, and the last heard from her was a letter dated May 4, in which she informed Mr. Kohlsaat that she had been doing a great deal of horseback riding, and that the exercise in the open air had completely restored her health, which before she went to the islands had been hadly shattered. ing feature of the past week has been an article in the Nineteenth Century purporting to give the "true motive" or reason for Dr. Jameson's raid into the Transvaal and seeming to be Cehas, in any case, revived the South Red Sea. African scandal and has attracted a great deal of attention. The author of the article is Seymour Fort, who was private secretary to Sir Henry Brougham Loch when the latter was British Commissioner in South Africa. Mr. Fort declares that Cecil Rhodes was determined to push the revolu-tion in the Rand and authorized the raid on learning that President Kruger had entered into a secret political entente with Germany which presented such immediate and imminent danger to the Imperial and Afrikander interests in South Africa that Mr. Rhodes resolved, "at all hazards," to Rhodes resolved, "at all hazards," to "upset the Hollander-German cabal." But it is claimed that he had no intention of overthrowing the South African Republic.

OBJECT OF THE RAND RAID. Fort further asserts that the immediate object of the raid was to secure documentary proofs of the alliance the necessary documents, it was believed, being in the possession of President Kruger at Pretoria. Rhodes, it is also asserted, had abandoned despairingly all attempts to persuade President Kruger to co-operate with the Imperial-Afrikander interests after an interview between them which took place in 1894, and which, it is alleged, convinced him of the Transvaal President's determined hostility to Great Britain. The original plan of the raid, Fort says, was to capture Pretoria. Had that been carried out the forts, ammunition and even the town itself would have been in the to avoid further bloodshed. hands of the reformers, in a single night. Every detail was determined upon in advance; but, at the last oment, it seems, the nerve of the Johannesburgers failed. Fort con-tends that it was never intended to interfere with the liberty of President Kruger, and the officials of the South African Republic, and concludes with pointing to the attitude of Germany subsequent to the raid and to the utterances of the German press as evidence of the close relations which exist between Pretoria and Ber-

RHODES' RASHNESS. The address of Col. Cecil Rhodes (he was elected a colonel of voluntroops at Pongo, on Wednesday, has also served to revive the bitter memories of the Transvaal raid. sketched his arrangements for ending the rebellion, building forts and raising the police force, etc. But it is pointed out here that these duties do not belong to Cecil Rhodes, but to Gen. Sir Frederick Carrington, former-ly British commander of Gibraltar, who was recently appointed to the command of the British forces operating against the insurgent Mata-beles, and to Sir Richard Martin, the newly-appointed administrator of the of the British Chartered South Africa Company. The English newspapers remind Rhodes that he returned to Matabeleland as a private person and that he has no power as the Secretary of State for the Col-onies, Mr. Joseph Chamberlain, has announced to "move a single police." Consequently the speech that Rhodes made at Pongo is likely to increase the distrust of the Boers by conveying to them the impression that he has military administrative powers.

A BAD IMPRESSION CREATED. The dispatch to the Times from Cairo regarding the deciston of the mixed tribunal upon the appeals of the French syndicate against the use of the Egyptian reserve fund for the expense of the campaign up the Nile has caused a decidedly bad impression here. The Times' correspondent wired that it was an open secret that the Egyptian Government cannot make war against the Khalifa or even re-sist a Soudanese invasion without the consent of each member of the debt commission. This decision, which it is said, will be announced Monday, in every way supports the French contention and evidently means that Great Britain will have to advance Egypt the funds necessary to push the expedition forward. It is true that the matter can be referred the Court of Appeals; but there is very little hope that the latter will reverse the decision of the mixed tribunal, as it is more governed by poli-tical than by judicial considerations and France has more representatives in the Court of Appeals than the other

THE SOUDAN CAMPAIGN. that the Government has modified its might be a customs barrier outside. intentions with regard to the campaign in the Soudan. It is now probable that no advance will be made beyond Akasheh. This action is generally attributed to the uneasiness as to the attitude of the Boers, and the rossibility of such demands being made upon Britain's military strength would make it difflucult to support the movement along the Nile with substantial British force. The decision to send Indian troops to the Red Sea supports the belief that the plans have been changed. By reason of this new departure, Sir Herbert Kitchener, the present commander, will likely control operations throughout, and neither Sir Redvers Buller nor Sir Evelyn Wood will be sent out. The so-called advance seems likely to reduce itself to a gradual elongation of the fron-

A reliable estimate of the total expenditures thus far, including the Indian reinforcements, for Suakin, is \$10,000,000. With the future cost these expenses will be a troublesome figure the next British budget. Another dispatch says the news front is very satisfactory to the British military authorities. Troops and stores are advancing up the Nile without a hitch anywhere, and deserters from the Dervishes report that the arrival of the British Indian troops at Suakin has created strong impression in the Soudan.

London, June 1.-The most interest- | The Dervishes, it is stated, now anticipate a combined advance from Sua-kin and Akasheh, the Khalifa is said to greatly fear an attack upon Berber, and Osman Digna is reported to be greatly discouraged by his recent defeat, and to have advised the Khalifa that, unless reinforced, he incil Rhodes' plea in justification. It tends to retire still further from the

THE CRETAN SITUATION. The news of the troubles in the Island of Crete creates much interest here. The Cretans, it is said, are apparently determined not to yield until their wrongs are redressed. Advices from Greece show that the Cretans have numbers of sympathizers among the Greeks, and that the latter are preparing to aid the insurgents in Crete. Since the arrival of the foreign warships at Canea there has been a cessation of the disturbances in that town. The Turkish Government has issued a denial that serious disturbances have occurred, which, in view of the well-known facts in the case, is classed as absurd. The Porte declares that the whole affair is a simple

incident, provoked by the Cavass of the Russian consulate at Canea, who shot an unoffending Turk. A small affray, the Turkish Government adds, followed, and about eighteen persons were killed or wounded on both sides. between the Transvaal and Germany, restored, The Turkish note, however, does not refer to the garrison of Vamos, which is surrounded by Cretan insurgents, and which must soon yield, while the preposterousness of the re-mainder of the note is shown in the fact that eighteen battalions of Turkish troops have been ordered to Crete in order to reduce the insurgents to submission by force of arms.

THE EDUCATION BILL. There are now over 1,700 amendments to the Education Bill which is committee. THE FENIAN SCARE. In regard to the alleged revival of Fenianism in England, a leading Government detective, when asked if it true that all the present Ministers have now special personal protection, replied: No. The story published here is wide of the mark in many respects, but there in some truth in it. ganizers of the Fenian Brotherhood in London have recently been very active, and are trying to get the support of all the young Irishmen they can for an extremist policy. They have succeeded to some extent, and a considerable amount of money is coming from the United States to provide the sinews of war. As long as money is forthcoming there always is a possibility of mischief, because my experience, which is pretty extensive, shows that the men they get to

do the active work are actuated, not at all by patriotism, but wholly by the expectation of a bandsome re-ward. Meetings are being held fre-quently in London, but the Govern-ment is not likely to take any notice of them, unless some overt act is plotted or attempted." "Has not this recrudescence of Fenianism manifestrecrudescence of Fenlanism manifest-ed itself," was asked, "only since dis-sensions have enfeebled the Parlia-mentary party and constitutional agi-tation?" "Yes," was the answer. "For five years before the Parnell split Fenianism had almost died out. It began to revive shortly afterward, but in the last six months it has become in the last six months it has become more active than at any time since the dynamite outrages. American supplies are doing it."

THE MINERS' CONGRESS. The International Miners' Congress. at Aachen, was chiefly notable for the domination of Socialist ideas over mere trade unionist views. The English delegates headed by Ben Pickard, the labor leader and member of the British House of Commons for Yorkshire, west riding, Thos. Burt, M. P. for Morpeth, and other exponents of trades unionism, were borne down by the French and Belgian Socialist voters on questions of approving the nationalization of mines, state guarantees, miners' sick and superannuation funds, a fixed minimum of wages The German delegates refrained from voting on the question of nationalization of mines on the ground that a bureaucratic empire could not be entrusted with control of the miner. The Congress voted to hold their next session in London in 1897, and decided to invite Russian and American delegates to attend.

THE KAISER TACKLED BY A LU-NATIC.

Berlin, June 1.-The Emperor had a startling experience recently during a pleasure excursion with the Empress at Pfauenusel, near Potsdam. He was accosted by an escaped lunatic named Becker, a cabman of Berlin, who had made his way out of the asylum at Dalldorp. He accused his Majesty of being a usurper of the throne, which rightfully belonged to Becket. The madman ordered the Emperor banishment. Becker was seized by members of his Majesty's suite and escorted to this city, where his identity was established. Emperor William is said to have been greatly perturbed by the incident.

WILLIAM'S FRIENDSHIPS. His Majesty was the center of public attention during the past week. His protestations of friendship for Russia upon the occasion of the Czar's coronation and his banquet in honor of his grandmother, Queen Victoria, have been much remarked, especially his behavior towards the latter. He conversed most cordially with the British ambassador, Sir Frederick C. Lascelles, and this is interpreted as a sign that the relations between Germany and Great Britain have im-

At Interior will banquet them at Krolls on June 10, and the association has cheon on June 13, and possibly he may also address them on naval matters, in the hall of chemistry building, his desire being unmistakably to testify that he does not share the popular dislike for the English.

As a further evidence of the better feeling prevailing in Germany towards England, it is stated by the Saxon newspapers that the royal family of Saxony will visit England this summer, and a number of German princes, including Prince Albrecht of Prussia, will do the same.

GERMAN EMIGRATION. The emigration from German ports has been heavier this year than for five years past, especially from Russia and Hungary. About 500 emigrants pass the depot at Spandau daily, and The sale of the Earl of Durham's the North German Lloyd steamers were unable to handle all the emigrants this week. Consequently, the steerage rates will be raised to 140 and 145 marks by slow steamers.

BISMARCK'S HEALTH. Prince Bismarck's health, just now, is delicate. He has fits of somnolence, which have disquieted his family, and Dr. Chrysander has forbidden the reception of deputations. The prince intends, if he regains sufficient strength, to visit the grave of his wife at Varzin in the autumn; but he will not go to any spa.

When the blood fails to feed the nerves upon proper nourishment what can you expect but nervous prostraion, debility and nervous headaches? If the cause is found in impure blood, the cure must be in making the blood pure. This is just what Hood's Sarsaparilla does, and it has proved the true nerve tonic because it is the true blood purifier, and the solace, comfort and defender of thousands of housewives,

teachers, clerks and other sufferers of of both sexes. Just read this letter: "I think it is my duty to tell what Hood's Sarsaparilla has done for me and my family. Two years ago I was in a weak, pervous condition and had dreadful palpitations or jumping of my heart, followed by sinking spells, which would last for several minutes. Sometimes it would seem as though I would never come out of them. I was treated by the best physicians, but only for a little time did they help me. I seemed to be growing worse instead of better. I would often seem hungry, but when I ate, no matter how little, it would cause me such misery that I was often wicked enough to wish myself dead. I had that

Yesterday saw a continuation of the dedication services at the Dundas Street Center Church. The pulpit was occupied at both services by former pastors of the church, and both preachers referred to their early connection with the church and the steady progress that had been made. Rev. And he urged the congregation to continue to recollect that the preacher could not do everything. Rev. Dr. Ross, of Brantford, was the evening speaker. The musical portion of both services was magnificent, the collections large, and many were unable to gain admission to the church.

W. Pedley the First Congregational Church is prospering. Mr. Pedley is a clear and forcible preacher, and he has made many friends since he came to London. His subject last night was "Lafleche and Laurier." He quoted these sentiments, uttered by Mr. Laurier on the floor of Parliament, when speaking of the Manitoba school question: "While I occupy a seat in this House, while I fill the position that I hold, whenever it shall be my duty to take a stand on any question whatever, I shall take that stand, not from the standpoint of Catholicism nor from the standpoint of Protestantism, but I shall take it from motives which appeal to the consciences of all, independently of their religion, from motives which should animate all men loving justice, freedom and toleration." Mr. Pedley pointed out that these sentiments were those of true statesmanship, and that they were rightly applauded on both sides of the House of Commons. Leaders on both sides of the House had given utterance to similar statements, yet the Quebec bishop denounced these views, and to say anything about the charges of feet without any pain. What it 183 DUNDAS STRRET, maintained it was a sin to utter them | made against him.

or to support the man who gave them utterance! Mr. Pedley warmly combatted Bishop Ladeche's declaration as medieval and wholly opposed to modern ideas, whether entertained by intelligent Protestants or intelligent Catholics. On the question dividing parties, Mr. Pedley said he would not then speak. The pulpit was not the place for that, though he held decided views.

The pulpit of St. James' Presbyterian Church was yesterday morning filled by Rev. Mr. Gilmour, of St. Andrew's, owing to the illness of Rev M. P. Talling. In the evening Mr. Talling was able to take his pulpit, and preached an instruct e sermon on "Sabbath Desecration."

I have heard of two porters of the Tuppers, who have adopted peculiar methods to influence their workmen to conform to their ideas. At the last election, these Conservative manufacturers went the rounds of their shops, and tried to scare their workmen into the belief that if the Government were defeated there would be no more manufactur-

## Better Roads

How the Highways of Ontario Can be Very Much Improved.

W. Campbell, C.E., Highway Commissioner for Ontario, in Far-mers' Advocate

Country roads in Ontario are com-monly divided into two classes—grav-el and dirt. The terms "good" and 'bad" are frequently regarded as synonymous with these, and as our roads are usually constructed, this interchange of words is to some extent not without reason. The way to con struct a good gravel road is to first build a good dirt road from the natural soil.

A good dirt road to those who have driven through sloughs designated "bad" roads during the past spring will seem an impossibility. And yet these bad roads are chosen in June by the teamster in preference to the 'good" gravel roads. These latter are now a collection of parallel ruts, with rocks firmly set, protruding rolling loose under the wheels and the eet of the horses.

The diseases being so perfectly known, it is a poor recommendation for our inventive powers if we cannot produce the remedies. For dirt roads, take the water out and keep it out; for gravel roads, this and more. There will be less moisture remaining in the roads after the fail lrains to assist the disintegrating and upheaving action of the frost. There will be less water to be carried away in the spring, and more ample means to do it quickly. A dry foundation for a road is as necessary as for any other structure Were the benefits of drainage better known, our system of roads throughout this Province would soon be vastly improved.

Drainage must be secured at the surface of the road and beneath it. Underdrainage-there may be a few exceptions-will accomplish more than surface drainage. Where and how to place the drains is a matter regarding which no definite code of laws can be formulated, since each mile or less of combination of circumstances. face drainage is attained by rounding up the road-bed ordinarily with a rise of not less than one nor more than one and one-half inches to the foot, providing open ditches on each side of the grade. Crown the roadway on hills slightly more, so as to draw the water sharply to the ditches. Water allowed to follow the track of the wheels will wear them to ruts, and deposit a softened mass of mud at

the foot of the hill. The drains running parallel to the road about three feet below the surface and at the edge of the grade will usually afford the best method of underdraining. Take advantage of well-burned tile laid carefully to a uniform grade, with a fall of not less than tree feet to the mile, and if it can be obtained at reasonable cost, not less than six feet. Provide culverts where needed, and

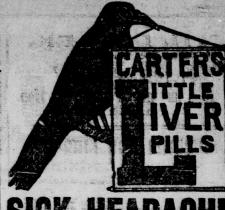

do not allow the roadway to interfere sidious attempt to interfere with their with natural drainage. Do not build franchise. Old-time workmen say culverts higher than the approaching roadway, as muddy hollows in each side will result. If possible place of a revenue tariff, and they purpose small culverts below the surface, and aiding in bringing about a change, no cover with earth, as they will be the less subject to wear and will not interfere with the smooth surface of I was told today that this attempt Avoid the use of perishable material. to win votes for Tupper by letters of a threatening character will be tried elsewhere, as it was debated at a weather will destroy the best material. The surface of the road should be kept smooth and free from ruts. Where gravel or other metal is to be applied it is best to dig a trench for its reception, otherwise the crown will be too high. Gravel is intended to perform the double service of a roof to shed the water and a floor to resist the wear of traffic and to lessen the amount of traction required. A 40 per cent greater load can be drawn by a team over a smooth gravel road in an equally good state of repair. All the work should be done on a uniform plan in a systematic and permanent manner, with a view to its extension on the same plan in subsequent years; this in a short time will secure a perfect sys-

tem of finished roads. Modern road machinery, properly operated, is economical. The and roller are indispensable. Short Session This Morning-Sergeant Adams Returns to Duty.

There were only two cases before the police magistrate this morningthose of Mr. Lyons and Nathaniel Anderson for non-payment of dray licenses. Lyons pleaded hard times and said he expected some money from the Government, and when he had received it he would pay up.

Both men were given a week's time to settle. The Police Court clerk will start in upon a new blotter tomorrow morning. The one just filled dates from April 25, 1892, and contains over 5,000 cases of various kinds.

CANADIANS AT BUFFALO. At the Parkside meet at Buffalo, on Saturday, Angus McLeod was the only one of the four Canadians entered in the professional races who made a showing. While he was watching Cooper in one race, C. H. Werick slipped into second place, and the same act in the other cost him the place again. The mile race was fought to the tape. W. M. McIntosh, F. W. The Demonstration in Honor of Laurier and Mowat.

Preparations for the Procession Completed.

Admiral Wanless,

To the Commanders of the Various Divisions-Decorating the Rink.

The great Laurier-Mowat demonstration on Wednesday evening will eclipse anything ever seen in the Forest City in the nature of a political celebration. The Young Liberals of London are determined that the welcome to these distinguished gentlemen shall be a most enthusiastic one. Equally so will be the reception of Mr. C. S. Hyman, the popular Liberal candidate.

The Princess Rink will be decorated for the occasion, and the sight in the rink will be a most impressive one. The procession will start promptly at 7:30 o'clock. The "Advertiser" gives again the route: Simcoe street to Richmond, then to Dundas street, The ourang-outang is marked at \$500 along Dundas to William street, William street up to Queen's avenue, then to the Princess Rink. Great Distress-Feeding the Destitute-Mass Meeting Called.

St. Louis, Mo., June 1 .- Although four days have come and gone since the tornado was here, the labor of the city officials in clearing away the debris is scarcely perceptible. The city at night goes without street lamps, either gas or electric lights. The only light afforded is that furnished by private electric plants. The telephone service is practically paralyzed, although the telephone company has hundreds of men at work repairing the damage to its wires. Hundreds of demolished buildings have not been touched. No one can tell if the ruins conceal the bodies of victims of the storm. In many localities a great stench arises from the ruins. Whether George N. Guards, armed with double-barreled guns, keep the watch over the work, and of the prisoners. The whole surgical ward, the consumptive wards and other wards were gone over without disclos-

ing a trace of human bodies. The authorities at Jefferson barracks have notified the central relief committee that a force of troopers will bring up to the wrecked district a large number of tents today, and establish a commissary for the purpose of furnishing cooked food for the needy. The cavalry cooks, stewards and camp men will do the work. The number of persons and families who are still without homes and without the means of getting them is great. Many wagons are in use distributing food to the hungry. Over a hundred teams were kept busy yesterday moving furniture from wrecked buildings those who did not have means to pay for a van. PRICES OF WILD BEASTS.

A Few Thousand Dollars Secures Quite a Menagerie.

Chicago News.
People in need of wild animals, either to replenish their spring stock or to start a menagerie, will be interested in a price list just issued by a company that makes it its business to scour the jungles and hunt through the forests for specimens of natural history. The prices quoted in the original are in pounds sterling, but we reduce them to dollars in the following extracts: The lion comes first on the list, as efits the king of beasts. The most expensive variety is the South African lion, which is quoted at \$1,509. His wife is marked down to \$500. The North African lion comes cheaper, at just half the price, while the Asiatic lion is worth \$725. The lionesses are put at \$400 and \$375 respectively. The English lion, useful for tail-twisting

purposes, is not quoted on the list at Royal Bengal tigers can be had at \$750 each; tigresses at \$450; and cubs at \$250. A serviceable hippopotamus may be had for \$1,650. Bactrian camels come at \$250 each, and dromedaries at \$150. The kangaroo varies greatly in price, and so does the chimpanzee, The ourang-outang is marked at \$500 straight; baboons from \$500 to \$750; Brazilian apes from \$250 to \$500, while

monkeys can be had at prices varying from \$5 to \$25 each. The most expensive bear quoted is the grizzly, which ranges from \$400 to \$600; then comes the polar bear, at \$250, and the brown bear at \$50 each. Rhinoceroses come high this spring. You can't expect to get a good one of the African variety under \$3,000, but the Indian rhinoceros is priced at \$2,-000. Elephants are worth from \$1,500 to \$2,500, and giraffes are put down at

\$6,000 per pair. Ostriches are worth \$400 per pair. Very few wild beasts, birds or reptiles are on the bargain counter. Small alligators may be had as low as \$2 50, we do not advise ladies to purchase them with the idea of raising their own sealskin sacques. Satisfactory rattlesnakes can be had as low as \$15, while pythons range from that figure up to \$100. Cranes and storks are

quoted at \$100 per pair. The price list puts the value of a full-grown gorilla at \$50,000, but the company does not guarantee to produce one even at that figure. That is only an estimate of what the creature would be worth if the dealer had him

Lew Ching himself, a yellow-faced, bony-cheeked Celestial, in an incongruous bowler hat and a drab cloak, smiled amiably at his customer, and sold him a small pack of

The Lake Erie and Western has given notice to purchasers of tickets that on and after July 1 all local tickets must be used on the same day they are purchased. All tickets not used on that day will be redeemed by the company. It is understood that a number of others will adopt the same plan. The action is taken to facilitate the work in the auditing department.

On the Minneapolis, St. Paul and Sault Ste. Marie the firemen are not side of Sir Charles Tupper, must, and very appropriately so, be considered as the head of our representatives. Sault Ste. All those terrible back aches, limb aches, headaches and a dozen other kinds of aches are simply the result of the failure of the kidneys to take the poison out of the blood. No use trying to be healthy with uric acid and other poisons floating through the system. A sensible thing to do is to get the

poisons out. Doan's Kidney Pills regulate and strengthen the kidneys, and good health follows as naturally as night follows day. Many have been cured by the use of Doan's Kidney Pills, so many that we cannot give one hundredth part of the testimony we receive, but the following certificate from Mrs. James Wilcox, 470 Dufferin avenue, London, is evidence conclusive enough for the

most skeptical: Mrs. Wilcox says: "For more than four rears I have had terrible pains across my back and in the left side, and could neither sleep nor rest. I was weak and worn out; the least exertion tired me. I felt like sitting in a chair and staying there, and in fact was unable to perform my household duties. I was very much troubled with palpitation of the heart and other symptoms of kidney disease, and felt miserable in other ways.

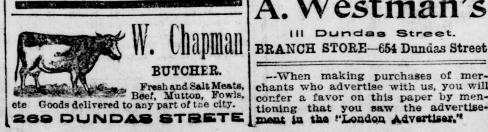

"No medicine that I took gave me any relief until I tried Doan's Kidney Pills, which my husband got at Strong's drug store. I now have no hesitation in saying that they are a perfect remedy. I have no pain in the side, the tired, worn-out feeling is gone, my rest and appetite are much improved, and I am in every way a new woman. My neighbors remark how much better I look than I did a month ago. The palpitation of the heart is gone, for which I am very thankful, and not only myseld but my neighbors who saw me before I tool the pills and who see me today and my remarkable improvement in health can bear testimony to the good effects of Doan's Kidney Pills." for Infants and Children.

MOTHERS, Do You Know that Paregorie, Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons!

Do You Know that in most countries druggists are not permitted to sell narcotice without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed? Do You Know that Castoria is a purely vegetable preparation, and that a list of

Its ingredients is published with every bottle? Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher. That it has been in use for nearly thirty years, and that more Castoria is now sold than

of all other remedies for children combined? Do You Knew that the Patent Office Department of the United States, and of

other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "Castoria" and its formula, and that to imitate them is a state prison offense? Do You Know that one of the reasons for granting this government protection was

because Castoria had been proven to be absolutely harmless? Do You Know that 35 average doses of Castoria are furnished for 35

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest !

Well, these things are worth knowing. They are facts.

Mr. Frederick Zeigler is well known in and around seaforth, where he has lived for many years. His prolonged and terrible suffering from rheumatism and la grippe is also well known to most of the physicians of that town, having been treated by them for years without any relief. Mr. Zeigler writes for the benefit of the readers of the Huron Expositor:

"Fourteen years ago I was seized with rheumatism. I have suffered terribly with it, the pains at times being almost unbearable, I tried several of the best doctors, but to no avail, about four years ago I was taken with la grippe. I then doctored with five of the best doctors for five months with little or no relief. I paid over \$150 in doctors' bills and medicines of various kinds. I at last procured three bottles of Williams' Royal Crown Remedy and Pills, and by the time I bad used one bottle I began to feel better, and when I had used two and a half bottles I was completely cured, and have remained in perfect health ever since. I believe it to be the best medicine ever introduced in or about these paris."
