On this statement of the facts no fair-minded Conservative will defend the treatment of Mr. Smith. He is a victim of the spite of the member for the riding, Mr. William Smith, who some years ago was denounced by a high court judge for the corrupt expenditure of money in a Provincial election. Hundreds of Canadians, occupying conspicuous positions, have been his pupils in the Oshawa High School, of which he was the principal for over 30 years. There ought to be an organized protest for the purpose of forcing the question of Mr. Smith's dismissal upon the personal attention of Mr. Borden, whose former pleas for justice to civil servants rise to confront him now.

THE DICKENS FAMILY.

Death has deprived Londoners of a visit from Alfred Tennyson Dickens, the last of Charles Dickens' sons, save one. Alfred Tennyson Dickens, named after his godfather, the poet, had been for some months on a lecture tour in America, undertaken in mature age through the spur of financial necessity. The Conservatives have swept Prince Edward Island, only two Liberals surviving in an Assembly of 39 members. OUT FOR BEAUTY - A POET'S QUEST. [John Masefield.] One road leads to London, One road runs to Wales. My road leads me seawards

To the white dipping sails. One road leads to the river, As it goes singing slow; My road leads to shipping Where the bronzed sailors go.

Leads me, lures me, calls me To salt green tossing sea: A road without earth's road-dust. Is the right road for me. A wet road heaving, shining, And wild with sea gulls' wries;

A mad salt sea-wind blowing, The salt spray in my eyes.

My road calls me, leads me West, east, south, and north Most roads lead men homewards. My road leads me forth

Canada, during the last fiscal year, mported \$19,387 pounds of coffee. Incidentally, it may be mentioned that 370,188 pounds of chicory also came in.

And no less than 194,330 new bathtubs were added to the national laundry. They came from those terrible United States, too.

Though the Americans sent us 47,103 bells and gongs, that number was not sufficient to wake us up on Sept. 21.

Between us we managed to eat 5,-199,084 pounds of macaroni and ver-micelli. Did you get your share? Neither did we.

We took about 27,275 pounds of Boston baked beans and 3,234,648 pounds of prepared cereals from our next-door neighbors.

Our determination to brush our hair compadour cost us during the year \$199,009 in new brushes that came across the line. One thousand three hundred and

Strange to relate, only about 1,700 pounds of that all-devouring American hog got through the gate.

There are many other things in the annual customs report which go to show that we buy very much more in the United States than the Americans buy here. We had a chance to turn the tables, but we turned it down.

BURIAL OF DICKENS

The Remains Will Probably Rest in a Cemetery at New York.

New York, Jan. 3.-Alfred Tennyson Dickens, son of England's great novelist, will probably be buried in the vicinity of New York. Since his sudden death from gastritis at the Hotel Astor last evening, the body has lain in an undertaking establishment, and today this cable message was arrived from his sister, Mrs. Kate Perugini, at London: "Make necessary arrangements if Alfred left no instructions. would have desired simple funeral, subject to approval of his daughters."

Supplementing this came a cable message from J. and N. Tait, Australian managers of Mr. Dickens' lecture tour. They had been cabled in the hope of reaching Dickens' two daughters, who live near Melbeurne: "Advise following instructions from Mrs. Perugini," said the message. Apparently the daughters in Australia had been reached.

Pending more definite instructions hose who were in chage of Mr. Dickens' ecture tour will hold the body, but W. Glass, who has charge of the arrange ments, said today that in all probability the interment will be in a New York Cemetery, with simple services.

If these can be made there will be professional hockey in Guelph this winter."

He went on to say that Peter Charlton, who is at present in the city, will be manager and captain of the Guelph team, manager and captain of the Gueigh team, and he has already secured options on the services of several very promising players. Cross, formerly of Brantford, will be in goal; Charlton will play point, H. The Berlin team will be practically the same as represented that town on the ice last winter, with the exception of Lehman, their sensational goal tender.

HOCKEY FANS, ATTENTION!

What is the opinion of the London bockey fans in regard to the practice of smoking at the rink during a hockey match?
That is what the local hockey club and rink management are trying to find out, and in an effort to help them out, the Sporting Editor wants the fans and fanettes to write to The Advertiser their opinion in the matter. In the past smoking has been indulged in to such an extent that the players have had difficulty in distinguishing the puck when lifted into the air, and the hockey club officials are trying to put a stop to the practice. Besides, several complaints have been received from ladies who attend the games, and letters have been written to the rink management about it. The theatres and other public places have prohibited smoking, and the rink during a hockey game should be no exception. The Advertiser would like to hear from the lovers of the game, especially the ladies, in connection with the matter, and will publish all letters sent in. Address your letter to the Sporting Editor, in care of The Advertiser.

London, Jan. 3. - An extraordinary military riot is reported to have occurred at Longmoor Camp, where there is a mounted infantry school connected with the Aldershot division. The Scotsmen among the troopers on New Year's Eve became incensed at the curtailment of their holiday. It is stated ing through the lines of police and solthat they smashed up the huts in the diers surrounding the patriarchate, camp and bombarded the officers with bricks. The assembly was sounded by the bugler on guard, and all the officers and non-commissioned officers turned out to quell the disturbance, but the mutineers formed a square and Lest off their superiors.

Some of the non-commissioned officers were injured by blows from belts and sticks. Eventually an officer, who is a noted boxer, challenged one of the men to fight. The men immediately formed a ring, and one of them stood up to the officer, but was soon badly defeated. Upon this, the men sullenly returned to the wrecked huts. NISSOURI SCHOOL

Judgment Dismissing Application Permits Trustees to Go Ahead.

A LONG-DRAWN DISPUTE

Full Text of Decision as Handed Down By Mr. Justice Middleton.

As a result of the judgment of Mr. Justice Middleton dismissing the action for a mandamus applied for by the West Nissouri school board to compel the erection of a continuation school, the school board will proceed at once with the construction of the building. The result of the suit vindicates them, it is claimed, and they may proceed at once with their work. There is a possibility of a jurther appeal, however, against the accision of Mr. Justice Migaleton.

The action has been an interesting one, and much reeling was wrought up over the anair. It appears that some years ago, Inspector Thompson, of East Middlesex, asked the board of education of Thorndale to call a meeting true. You are the judge, and once havat Thorndale to discuss the question ing seen my illustrated book and read it, you will be as enthusiastic as my hunof a continuation school.

the question was thoroughly discussed it was decided to build the school. The county council was consulted and approved the proposition.

The End of the Trouble.

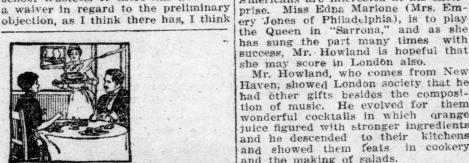

The council of West Nissouri Township was appealed to for the necessary money, and the money bylaw was regularly passed. However, objections were taken, and an injunction was issued. The case came to trial before the judge in London and the action was dismissed. Later a writ of mandamus was taken out, and it was on this writ that Mr. Justice Middleton gave his decision. Ottawa, Jan. 4.-The Borden cabinet

This was inaugurated under the Laurier Government by Hon. Rodolphe Lemieux yet the credit is all taken by Hon, L. P. Pelletier and the Borden cabinet. Indeed, to read some of the Conservative papers one would never think that it was Mr. Lemieux who first broached the question of cable rate

reduction. Then came the return of the subscription made by the city of Quebec towards the construction of the Que bec bridge. This was arranged Hon, G. P. Dearing said he feared to tell his directors of the loss thus incurred. This was followed by a loss of \$44,000 through a transfer of supposedly good assets, and then came the forgeries that led to the complete downfall of the aged cashier and his son, Bank Examiner Johnson testified

The illustrations shown here represent two styles of the collection of Waists we are offering during January for \$1.49. Nothing so effective has been shown before at this price, and for informal events ladies will find one of these blouses exceptionally neat and attractive. There are several designs of embroidery, all equally as good as the ones here represented, and the style is right up-to-date. Sizes 32 to 44.
