# MALT COFFEE.

(CONROY'S PATENT.)

Consists exclusively of three parts of the finest coffee, combined by a patent process with one part of selected malt, in such a manner that the albuminoids, diastase, and phosphates, upon which depend the valuable properties of malt, are retained in an unimpaired condition. Thus, it will be seen that this, unlike ordinary coffee, is nutritious and rich in constituents necessary to the production of flesh and fat, while owing to the active diastase which it contains, it has been found of the greatest value in Dyspepsia, and to agree with those who cannot drink ordinary coffee.

---

PUT UP IN ONE POUND TINS.

---

**Conroy's Malt Coffee** has received the following Certificates amongst many others:—

"Undoubtedly a nourishing and health-producing article of diet."—*Edward Davies, F.C.S., F.I.C., Liverpool.*

"It can in many cases be readily taken when ordinary coffee disagrees."—*British Medical Journal, July 29, 1882.*

"Both pleasing to drink, and adds greatly to digestion."—*The Anti-Adulteration Review, October, 1882.*

"Malt Coffee, the new temperance beverage, would seem to make the nearest approach to what is required. Pure malt is in its own way as beneficial as pure coffee, being especially strengthening and nutritious."—*Morning Post.*

---

 It is made in the same way as Ordinary Coffee.

---

Pamphlets containing a short history of Coffee and its use as a beverage, and numerous Testimonials regarding CONROY'S MALT COFFEE, can be had gratis, for free distribution, on application.

### **PUBLIC ANALYST'S REPORT.**

LABORATORY,  
39 DUKE STREET, GREENWICH SQUARE,  
LONDON, ENGLAND, NOV. 21st, 1881. }

TO MESSRS. EVANS, SONS & Co. :

GENTLEMEN,—I have not hitherto had any sauce submitted to me possessing sufficiently distinctive dietetic merits to enable me to specially report upon. The "Montserrat Lime Juice Sauce," however, presents new features of such marked value that I am glad to have the opportunity of recognizing them. Very few persons are perhaps aware that table sauces of the better kind may contain no inconsiderable portion of port wine, or of the cheapest red Spanish wines, and cannot therefore be accepted as non-alcoholic. I am satisfied by my analysis of the "Montserrat Lime Juice Sauce" that the Lime Juice most advantageously takes the place of the ordinary acetic acid, and that it is entirely free from alcohol in any form. Having regard to the fact that Lime Juice has been accepted as a most suitable adjunct to Pepsine as a digestive, the peculiar value of the introduction in this Sauce is at once apparent. In other respects the Sauce is, in composition and flavor, equal at least to the best of those already before the public, and, as compared with these, the liberal quantity contained in bottles so much larger than usual, renders this Sauce extremely economical in use.

I am, faithfully yours,

H. C. BARTLETT, Ph. D., F. C. S.

### WEATHER HINTS.

If the sun sets in crimson clouds and rises brilliant, or if the stars are numerous and bright, we know in a general way, that we may reckon on fine weather.

Dews and white morning fogs are symptoms of fine weather.

A dark and vapory sun, and a sickly-looking moon, with blunt horns, and a circle round her; or pallid, big and non-scintillating stars are all signs of approaching rain.

If the sun comes up pale and then turns red, or if the moon is large and ruddy, with sharp black horns, we may count on wind.

The Chickweed is called the “poor man’s barometer,” because it shuts up its flowers when wet is approaching.

The aurora borealis, when very bright, forebodes stormy, moist, unsettled weather.

A haze around the sun indicates rain; it is caused by fine rain or mist in the upper regions of the atmosphere.—*Henry J. Vennor.*

### LARGEST CITIES OF THE WORLD.

According to the “Almanach de Gotha,” (1885), the ten largest cities, excluding all in China except Canton, are;—London, 4,764,312; Paris, 2,269,023; Canton, 1,600,000; New York, 1,206,299; Berlin, 1,122,320; Vienna, 1,103,857; St. Petersburg, 929,993; Philadelphia, 847,170; Tokio (formerly called Yeddo), 823,557; Bombay, 773,199; Calcutta (if Canton is excluded), 766,298. If Canton is included, there seems no good reason to exclude Pekin (which is about the size of Paris), Shun-King, Ching-Too-Foo (each having a population of over a million), Tien-Tsin, Han-Kow, and the other large cities of China.

"I wonder what makes these buttons burst off so?" Dora petulantly exclaimed. David looked at her tight dress, and said, softly: "Force of habit, I think."

Mr. Jones: "No dinner to-day? Where is Mrs. Jones?" Servant: "Writing, sir." Mr. Jones; "Writing what pray?" Servant: I don't know exactly, sir, but I think she said it's a new article for the Housekeeper about 'How It's Better to Keep House than to Board,' sir, or something of that sort."

Boston girl (to Uncle James, a farmer): I suppose it is nice enough in the glad summer time to live on a farm, but to go out in the cold and snow to gather winter apples and harvest the winter wheat I imagine might be unpleasant.

A "Patent Jack" man tried to sell one to a farmer. After vainly protesting that he had no barns or such to move, he agreed to take one, if the seller would agree to raise the heaviest thing on his place, and the bargain was made. The farmer then pointed to the mortgage on his land.—No sale.

"Law without Lawyers" is the title of a new book. That's nothing strange. Lemonade without lemons has been an old thing ever since picnics were invented.

Said a teacher to one of his girl pupils: "If your father gave you a basket containing 40 peaches to divide between yourself and your little brother, after you had taken your share, what would be left?" "My little brother."

A young Vermont fisherman has just landed a speckled beauty, so he writes us. We imagine from the tone of his letter that he married a freckled girl.

A young dandy was asked if he would like to be introduced to a certain young lady. "Oh, yes," said he languidly, "trot her out." The lady overheard the remark, and when he was presented, she adjusted her eyeglasses deliberately, and slowly scanning his clothing, from boot to collar, waved her hand and carelessly said, "Trot him back."

In life's race, poverty soon overtakes laziness.

"Rumitis" is the latest Philadelphia coinage for fatal drunkenness. It means the same as the old Boston term "rumdidit."

French gallantry is proverbial. A gentleman, replying to an invitation to dinner, writes: "Madame, before thanking you for your kind invitation permit me to apologise for sitting down to address you in my shirt sleeves. The heat of the past few days must be my excuse."

The clergyman deemed it hard that his congregation objected both to notes in the pulpit, and notes in his pocket.

"For a young woman to begin to pick lint off a young man's coat" is said to be the first symptom that the young man is in peril.

The cow doth humbly whisk her tail,  
And drop a tear unseen,  
Her every bellow seems to rail,  
At the upstart, butterine.

Sir David Baird, a man of notoriously violent temper, was one of the prisoners taken by Hyder Ali. The Oriental despot chained his prisoners two and two, and flung them into the squalid subterranean dungeons of the fortress. The news of this cruel incarceration, when it reached England, sent a thrill of horror through the land; but the sole comment on it made by Baird's stoic mother was, "God help the puir chiel that's chained wi' oor Davy!"

# The Montreal Business College.

Corner Notre Dame Street and Place d'Armes,  
MONTREAL.

## THOROUGH COMMERCIAL COURSE, *With Actual Business Practice,* ENGLISH, FRENCH and SHORTHAND.

The course of study is thorough and practical, and designed to impart a sound Business Education.

In the Actual Business Department, which is conducted on the Board of Trade principle, the student receives actual practice and experience in the various branches of commerce.

Students can commence at any time without experiencing any inconvenience or disadvantage.

Montreal, with its vast trade and manufactures, affords more opportunities for young men to begin life than any other city in the Dominion, and the MONTREAL BUSINESS COLLEGE is pre-eminently successful in training young men for business pursuits. It is important also to be remembered that a residence in such a business centre as Montreal, where openings are of daily occurrence, is much more preferable and advantageous than in smaller places, in which the chances of obtaining situations are very remote; particularly is this the case when the cost of living is no greater in Montreal than in other towns or cities.

The EVENING CLASSES commence in October, and continue six months.

A thirty-two page circular, containing full description of course, etc., will be sent free on application.

Address,

DAVIS & BUIE,  
*Business College, Montreal.*

**ZADKIEL'S PREDICTIONS.**

This noted almanac maker, whose name is a household word in England, pretends to foresee much disturbance and trouble for the world in 1887, an outline of which is given below :

**JANUARY.**—Russia will be scourged with fire and sword ; there will be political excitement in England and Austria about the middle of the month ; in Scotland, Holland and New York there will be financial troubles, and the markets, towards the close, will be depressed. The 17th and 26th are promising birthdays.

**FEBRUARY.**—Trouble is promised for the British Foreign Office and the President of the United States ; about the 23rd, there will be great excitement in Alexandria, where a fanatical outbreak may take place ; the Czar of Russia and the Crown Prince of Germany will have trouble in the latter part of the month. The 1st, 16th and 24th are fortunate birthdays.

**MARCH.**—There will be great political excitement in England, bitter debates in Parliament, talk of war, and an increase of the army ; Scottish affairs will become entangled, the land question will cause disputes, and more than one Scottish Banking house will be in difficulty ; Germany will suffer from Martial Fever, and her ruler will be afflicted nigh unto death ; at St. Petersburg and Moscow, incendiary fires and assassinations will be rife ; the Chinese will become martially excited, and toward the close of the month, an epidemic (small-pox or scarlet-fever) will visit England, and deaths by accident and violence be unusually numerous. Canada, about the 20th, will be disturbed by quarrels and turbulence, and in the United States, violence and turbulence will reign in some of the cities. The 6th will be a fortunate anniversary for builders, miners, farmers and mariners.

**APRIL.**—England will be disturbed in her home and foreign affairs, but will be victorious over her enemies ; the House of Commons' debates will be of exciting character, and the budget will be disappointing ; a sudden movement in Germany will cause anxiety, and the reigning family will be in affliction ; on the 20th, there will be earthquakes in the South of Europe, the

Grecian archipelago, and perhaps in Scotland. Persons born about the 20th April, or 8th May, are warned to beware of accidents, and all whose birthday falls on or near the 24th are warned to beware of quarrels and lawsuits.

MAY will be a critical month for England, France, Russia, Germany and Belgium: in the royal horoscope there is an unfortunate influence, bringing troubles, tumults and other misfortunes, and statesmanship of the highest order will be needed to avert threatened dangers. The Argentine Republic will be in danger also, tumult, discord and financial trouble prevailing, the seditious party being incited to deeds of cruelty and bloodshed. Trouble with the natives in South Africa will be apprehended, and a celebrated divorce case be heard of. Earthquake shocks will be felt in Southern Europe. The 12th is a fortunate birthday.

JUNE.—There will again be fiery debates in the House of Commons, a cabinet minister or a party leader will be subject to attack, and the Government will have to fight hard for its existence, while taxation will be increased, great expenditure incurred on arms and ammunition, and the state of the army be a subject of lively debate. Towards the end of the month, fires will be disastrous in London, and a struggle in Europe and Asia fast approaching. In Canada, martial ardor will be in the ascendant among the people. The 7th, 11th and 17th are fortunate birthdays.

JULY.—Accidents and fires will be numerous in London; strikes and violence will be resorted to by the discontented classes in France and Belgium; fanatical troubles will occur in Lower Egypt. The English Foreign office will be busily employed in the solution of intricate questions, and the War office called upon to be ready for serious events, though there will be opportunity for preserving peace, though Russia be bent on War. The middle and end of the month will be fatal to many great men in various countries, and in Scotland, Holland, New York and Manchester there will be trouble among the merchants. The 19th and 20th are evil birthday anniversaries, signifying, among other things, danger of accidents, especially by water.

AUGUST. — An important change of Government is foreshadowed, and marriages will be numerous; the 19th will open a new chapter in the history of Europe and Asia, crying havoc, and letting slip the dogs of war. The destroying angel will pour out his wrath upon Germany, France, Russia, Turkey, Austria, Afghanistan and perhaps Italy, and the Emperor of Austria will be in danger of losing his throne and life. England, however, will largely escape this trouble. Earthquake shocks will be felt in France and Italy at the end of the month.

SEPTEMBER.—France and Italy will be disturbed; in the former, violence will reign, and in the latter, religious squabbles will prevail. In Bohemia, troubles, accidents and violent deeds will be rife, and the ruler of Germany be in personal peril, while earthquake shocks will be felt in the south of Europe. At the new moon, the advancement of British interests may be looked for, the British forces will be victorious over their enemies and the star of England in the ascendant. News from the Western States will be exciting; there will be trouble with Indians and prairie and forest fires. There is reason to apprehend volcanic action in New Zealand, which will afterwards experience a dry season. Persons whose birthdays fall on the 10th will have a busy time; the 21st will prove a fortunate birth-day, and the hearts of single ladies be gladdened by offers of marriage.

OCTOBER.—Both France and Italy will be stricken; Moscow will be the scene of conflagration and many a deed of vengeance. Persons born on the 19th are warned to avoid lawsuits. The rulers of Germany and Russia will suffer from sickness or misfortune, and the Emperor of Austria be plagued and have a quarrel on his hands. In Belgium, riot and disturbance will be to the fore, and in Paris, the popular demonstrations will be a source of anxiety to the ruling powers. The 14th and 18th will be fortunate birthdays, especially for persons engaged in literature and business.

NOVEMBER will be remarkable for earthquakes, especially about the 18th and 22nd; shocks will be felt in France, Italy and Southern Europe, and perhaps in the British Isles. In Ireland there will be fresh troubles and deeds of cruelty; Galway,

Ennis and Castlebar will be scenes of violence, and Belfast will not escape. The Prince of Wales will benefit by a happy conjunction in honour and wealth. Soldiers, sailors, surgeons, cutlers, ironmasters, whose birthday falls on or near the 5th, will begin a successful year, and agriculturists, whose birthday falls on or near the 28th, will gain.

DECEMBER.—The early days will see earthquakes in Europe and New Zealand, Scotland and Ireland, and about the 23rd in Afghanistan, and probably France and Italy. About the 14th there will be much suffering among the the poor; accidents, sudden deaths, and acute rheumatism will be prevalent.

"My dear friend," said a long haired countryman to the biographical expounder of a dime museum, "is that unfortunate being really a cannibal?" and he indicated a South Sea Islander from Cork who was sitting on a divan. "Yes, sir, that great living curiosity was captured while in the act of roasting a Presbyterian missionary over a slow fire." "Great heavens!" gasped the countryman, "can't you convert him? "Convert him?" said the biographer with disgust; "do you s'pose the great American public would pay 10 cents to see a Christian?"

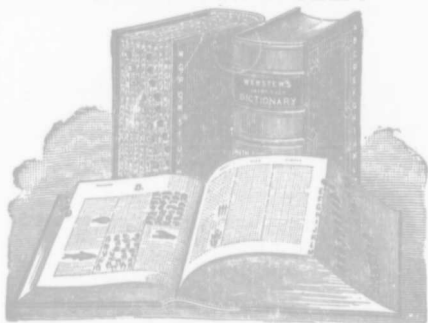

De man what thinks dat his boy ain't goin' ter lii 'c'se he's so smart, needn't be skeered. I thought dat way 'bout er boy. I seed him yiste'day. He wore er coffee sack an' wuz totin brick up er ladder. De hives an' de rash an' de jaw teeth takes mo' chillun off en one week den smartness does in er hundred years.

"Do you allow drunken people on the train?" asked a clergyman at a New York elevated R. R. station. "Sometimes, but not when they are too drunk," replied the brakeman.—"Just take a seat near the middle of the car and keep quiet, and you will be all right."

They were at the wedding breakfast, when the groom said to the little girl: "You have a new brother now, you know." "Yeth," responded the little one. "Ma seth it wath Lottie's lasth chance, so she'd better take it."

PICAULT'S  
NURSE'S TREASURE

FOR CHILDREN CUTTING TEETH,  
TO PREVENT CONVULSIONS.

---

**It is safe and reliable. It is pleasant to take.  
It is perfectly harmless. It relieves pain  
instantly. It soothes all pain.**

---

The **Nurse's Treasure** is no quack medicine, but the prescription of an eminent physician, who used it in his private practice and in his own family for many years, with such satisfactory results that he was induced to place it on the market as a Patent Medicine, and its valuable properties have ensured for it an immense sale. It produces **Natural Sleep** during the critical Teething Period.

The **Nurses' and Mothers' Treasure** is a benefactor to children, thousands of whom it annually saves from an early grave.

**Its never failing and healthy action** on all diseases common to infancy makes it a blessing to every family, giving **Health, Strength and Vigor** to the children, rest and comfort to the mother.

**Dr. Picault's Nurses' and Mothers' Treasure** regulates the Bowels, cures Wind-Colic, checks Vomiting, Diarrhoea and Dysentery, and is a sure preventive from any attack of Convulsions, so generally fatal to children.

**Its Cordial and Anti-Acid Properties** render it invaluable during the **Critical Teething Period**, in allaying pain, softening the gums, and reducing inflammation.

“Well, my man,” said a military doctor to a patient who had been on “low diet” for a long time, “how are you?” “Much better, sir.” “Could you eat a small chicken to-day?” “That I could, sir.” “What would you like it stuffed with?” “Please, your honor, I would like it stuffed with another chicken.”

A philosopher who had married an ignorant girl used to call her “brown sugar,” because, he said, she was sweet but unrefined.

## TAKE IT AS IT COMES.

BY J. W. RILEY.

Men generally to all intents—  
Although they're apt to grumble some—  
Puts most their trust in Providence,  
And takes things as they come—  
That is, the commonality  
Of men that's lived as long as me,  
Has watched the world enough to learn  
They're not the boss of this concern.

With some, of course, it's different—  
I've seed young men that knowed it all,  
And didn't like the way things went  
On this terrestrial ball.  
But, all the same, the rain some way  
Rained just as hard on pic-nic day :  
Or when they really wanted it  
It maybe wouldn't rain a bit !

In this existence, dry and wet  
Will overtake the best of men—  
Some little skift o' clouds'll shet  
The sun off now and then.  
But maybe, as you're wonderin' who  
You've fool-like lent your umbrell' to,  
And want it—out'll pop the sun,  
And you'll be glad you 'aint got none.

It aggravates the farmers, too—  
There's too much wet, there's too much sun,  
Or work or waitin' round to do.  
Before the plowin's done.  
Jest as its lookin' hard to beat,  
And maybe, like as not, the wheat,  
Will ketch the storm—and jest about  
The time the corn's a-jinin' out !

These here cy-clones a foolin' round—  
And back'ard crops—and wind and rain—  
And yet the corn that's wallered down !  
May elbow up again !  
They aint no sense, as I can see,  
For mortals, such as you and me,  
A faultin' nature's wise intents  
And lockin' horns with Providence,

It aint no use to grumble and complain ;  
Its jest as cheap and easy to rejoice ;  
When God sorts out the weather and sends rain,  
W'y, rain's my choice.

**MEAT PIES.**—Use remnants of cold roast beef, or beefsteak, or both. Cut out carefully all gristle or fat, or scorched parts. Have the pieces thin and small, as the pie is thus much easier to serve. Cook the meat until tender, thicken the gravy, and season with pepper, salt, and a very little ground cloves. Then place the meat in a pudding dish, without a crust at the bottom, pour over it some of the gravy, and cover with a good soda biscuit crust. Cut a vent hole in the top, and bake thirty to forty minutes. Serve at once.

**MUSTARD PICKLE.**—Take one head each of cabbage and cauliflowers, 3 large roots of celery, 3 good sized green peppers, one pint small onions and one quart green tomatoes. Cook each vegetable separately until somewhat tender; then drain carefully and chop pretty fine. Take a gallon of best cider vinegar, 2 oz each of ground mustard and of whole mustard seed, half a pot of French mustard, half ounce of ground cloves, and an ounce of turmeric. Scald the vinegar and spices together, and pour while hot over the mixed vegetables. It is more convenient for use to put this into wide necked bottles, sealing them all but the one left for use.

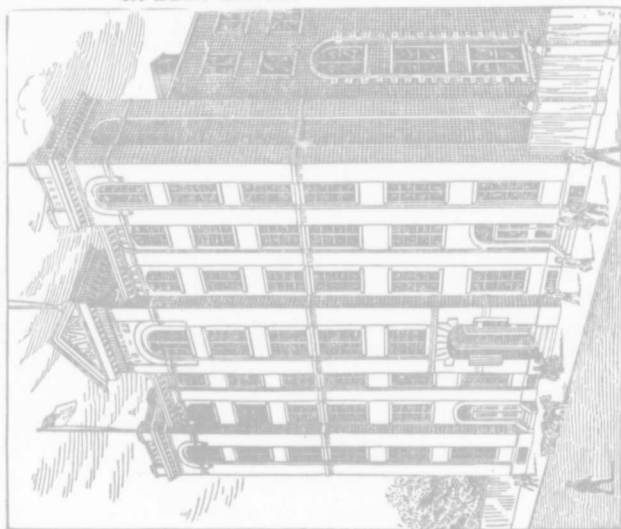

**CHOW-CHOW.**—One peck green tomatoes, half dozen medium sized onions and as many green peppers, all chopped fine. Sprinkle over them a handful of salt, and let them stand over night. In the morning, drain well and cook an hour, or until all the ingredients are tender. Then drain again and pack in jars or bottles. Scald in one gallon of vinegar 2 pounds brown sugar, 1 tablespoonful each of whole allspice, cloves, cinnamon and pepper, two tablespoonfuls ground mustard, first mixed smooth with some cold vinegar, and a teacupful grated horseradish. Pour this boiling hot over the pickle mixture in the jars or bottles, and cover tightly.

**GINGER CAKE.**— $\frac{1}{2}$  cup each of sugar, molasses, shortening (butter, lard or meat fryings), and hot water. Pour the latter over  $\frac{1}{2}$  teaspoonful of soda, 2 cups flour and 1 egg, 1 tablespoonful ginger.

### THE FRUITS OF ENTERPRISE.

It is said that "nothing succeeds like success." True; but when success is gained by honesty, fair dealing, energy and continued push in business, then indeed such success is worth having, keeping and perpetuating. Such is the case with Messrs. S. DAVIS & SONS, of this city, the pioneers, the largest, and by long odds the most prominent manufacturers of Cigars in the Dominion. A *fac-simile* of their factory is given on the opposite page, and a few of the medals awarded them are also here presented. It will be seen that they carried off the medal in Paris in 1867, and at the Centennial at Philadelphia in 1876—in both cases the highest awards in competition against the whole world. In 1863 the only medal given at the Provincial Exhibition was obtained by them, and again at Montreal in 1868 like success was attained, the medal (a silver one) being given them. In fact, whenever and wherever the firm have exhibited, the best prizes have been awarded them. Owing to the increase of Cigar manufacturing concerns which have arisen since these dates, Messrs. DAVIS & SONS thought it advisable to exhibit during the present Fall (1886) at the United Dominion and Provincial Show held at Sherbrooke last September, in order to show the public that they have lost no ground, but on the contrary, as time has flown on, their vitality is even greater to-day than ever before, particularly in the production of fine goods, which is their speciality. On this occasion there was but one prize offered for Cigars, a Bronze Medal, which they carried off; but the display was considered so meritorious by the executive that a special Gold Medal, in addition to the prize offered, was unanimously given them, thus adding another trophy to the long roll of victories already won. Anyone who saw the Sherbrooke exhibit would not for a moment doubt the accurate conclusion arrived at by the management, or doubt that the display fully merited the the distinction accorded it, for in the judgment of those well able to form a just opinion, and those who saw the Centennial exhibit, it even excelled the latter in extent, in arrangement, in general appearance and merit. Thus have the firm steadily progressed, going from strength to strength, never relaxing its energy, but rather adding to it, adopting new ideas, expanding until its goods are known from the Atlantic to the Pacific, ever keeping up and improving the quality of its manufactures, and completely out-distancing all competitors. Such a success is well worth having, working for and keeping. That such is the determination of the firm may be confidently relied upon.

## LINCOLN AS A POSTMASTER.

In the Spring of this year (1833) he was appointed Postmaster at New-Salem, and held the office for three years. Its emoluments slender and its duties light, but there was in all probability no citizen of the village who could have made so much of it as he. The mails were so scanty that he was said to carry them in his hat, and he is also reported to have read every newspaper that arrived; it is altogether likely that this formed the leading inducement to his taking the office. His incumbency lasted until New-Salem ceased to be populous enough for a post station and the mail went by to Petersburg. Dr. Holland relates a sequel to this official experience which illustrates the quaint honesty of the man. Several years later, when he was a practicing lawyer, an agent of the Post Office Department called upon him and asked for a balance due from the New-Salem office, some \$17. Lincoln arose, and opening a little trunk which lay in a corner of the room, took from it a cotton rag in which was tied up the exact sum required. "I never use any man's money but my own," he quietly remarked. When we consider the pinching poverty in which these years had been passed we may appreciate the self-denial which had kept him from making even a temporary use of this little sum of Government money.

Herr Strauss (yawning): "How you vas, Hans? You don't know nobody no more, ain't it?" Hans: "Mine frent, if you vas shut your mouth so I can see your face, den mebbe I can tell who you vas."

Hotel Man: "Say, doctor, that patient of yours has an awful appetite for a sick man. What's the trouble with him?" Doctor (confidentially): "Bad case of tape-worm." Hotel Man: "Tape-worm! I'll bet its a sea-serpent."

"What's that pencil for?" inquired Mrs. Sharp, sternly, of her daughter. "For penciling eyebrows," responded the damsel. "Well, what do you want to use one for?" "To draw." "Draw what?" "Draw a beau."

## LEGISLATIVE COUNCIL.

All applications for private bills properly the subjects of legislation by the Legislature of Quebec, within the purview of the British North America Act, 1867, whether for the erection of a bridge, the making of a railroad, turnpike road or telegraph line; the construction or improvement of a harbour, canal, lock, dam or slide, or other like work; the granting of a right of ferry, the incorporation of any particular trade or calling of any joint stock company; the incorporation of a city, town, village or other municipality, the levying of any local assessment, the division of any county for purposes other than that of representation in the legislature, or of any township or other local municipality, the removal of the site of a county, town or any local offices, the regulation of any commerce, the resurvey of any township, line or concession or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the rights or property of other parties, or relate to any particular class of the community, or for making any amendment of a like nature to any former act,—shall require a notice, clearly and distinctly specifying the nature and objection of the application, to be published in the *Official Gazette*, in the English and French languages, and in one newspaper in the English, and in one newspaper in the French language in the district affected, or in both languages, if there be but one paper, or if there be no paper published therein, then (in both languages) in the *Official Gazette*, and in a paper published in an adjoining district.

And any person who shall make application shall, within one week from the first publication of such notice in the *Official Gazette*, forward copy of his Bill, with a sum of one hundred dollars to the Clerk of the committee on Private Bills.

Such notices shall be continued in each case for a period of at least thirty days, during the interval of time between the close of the next preceding session and the consideration of the petition.

Before any petition, praying for leave to bring in a private bill for the erection of a toll bridge, is presented to the House, the person or persons intending to petition for such bill, shall, upon giving the notice prescribed by the preceding rule, also, at the same time, and in the same manner, give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and mentioning also whether they intend to erect a draw-bridge or not, and the dimensions of the same.

## LEGISLATIVE CHAMBERS.

### PRIVATE BILLS.

No petition for any Private Bill shall be received after the first two weeks of the Session. No Private Bill shall be introduced after the first three weeks of the Session. No report of any Standing or Select Committee upon a Private Bill shall be received after the first four weeks of the Session.

All applications for Private Bills, properly the subject of legislation by the Legislature of Quebec within the purview of "The British North America Act, 1867, whether for the erection of a Bridge, the making of a Railway, Tramway, Turnpike Road, Telegraph or Telephone Line; the construction or improvement of a Harbour, Canal, Lock, Dam, Slide, or other like work; the granting of a right of Ferry; the incorporation of any particular Trade or Calling, or of any Joint Stock Company, the incorporation of a City, Town, Village or other municipality; the levying of any local Assessment; the

division of any Municipality, or of any County for purposes other than that of Representation in the Legislature; the removal of the site of a County Town or of any local offices; the re-survey of any Township, or of any Township Line or Concession; or for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the rights or property of other parties, or which relate to any particular class of the community; or for making any amendment of a like nature to any existing Act, shall require a Notice clearly and distinctly specifying the nature and object of the application.

2. Such notice, except in the case of existing Corporations, shall be signed on behalf of the applicants, and shall be published in the *Quebec Official Gazette*, in the English and French languages, and in one newspaper in the English, and in one newspaper in the French language, in the district affected; and in default of either of such newspapers in such District, then in a similar newspaper published in an adjoining District.

3. Such notice shall be continued, in each case, for a period of at least one month during the interval of time between the close of the next preceding Session, and the consideration of the Petition; and copies of the newspapers containing the first and last insertion of such notice shall be sent by the parties who inserted such notice to the Clerk of the House, to be filed in the office of the Committee on Standing Orders.

In the case of an intended application for a Private Bill for the erection of a Toll-bridge, the person or persons intending to petition for such Bill, shall, in the notice prescribed by the preceding Rule, specify the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers, for the passage of rafts and vessels, and also whether it is intended to erect a drawbridge or not, and the dimensions of the same.

Any person seeking to obtain any Private Bill giving any exclusive privilege or profit, or private or corporate advantage, or for any amendment of any existing Act, shall deposit with the Clerk of the House, eight days before the opening of the session, a copy of such Bill in the English or French language and shall at the same time deposit with the accountant of the House a sum sufficient to pay for printing 350 copies in English, and 500 copies in French, and also \$2 per page of printed matter for the translation, and 50 cents per page for correcting and revising the printing. The translation shall be made by the officers of the House, and the printing shall be done by the contractor,

The applicant shall also pay to the accountant of the House a sum of \$100, and furthermore the cost of printing the Bill for the Statutes, and shall lodge the receipt for the same with the Clerk of the Committee to which such Bill is referred. Such payments shall be made immediately after the second reading, and before the consideration of the Bill by such Committee.

Bills for the incorporation of town only shall contain such provisions as may derogate from the town corporations general clauses act, specifying in each special case the clause of the general act which is sought to be departed from. Bills which are not framed according to this rule, shall be re-framed by the promoters and reprinted at their expense before the Private Bills Committee passes upon such clauses.

When Private Bills are introduced for the purpose of amending existing acts, such Bills shall enact that the clause sought to be amended be repealed, and replaced by the new clause, indicating the amendment between brackets.

In the event of the promoters not complying with this rule, the chief clerk of the Private Bills Office shall be charged with the duty of having the bills printed in that shape at the expense of the promoters.

If coffee refuses to settle, sue it.

It is a remarkable peculiarity with debts, that their expanding power continues to increase as one contracts them.

Applicable elsewhere.—Hotel keeper: We allow no games of chance in this house. Gambler: This isn't a game of chance. This man playing against me has no chance.

School Teacher: "Now, Master Kirby, suppose I should say, 'I didn't have no fun at the picnic.' How would you go to work to correct me?" Master Kirby: "I sh'd say you'd better study grammar, teacher."

A barrister, noticing that the court had gone to sleep, stopped short in the middle of his speech. The sudden silence awoke the judges, and the lawyer gravely resumed: "As I remarked yesterday, my lords"—The puzzled judges stared, as though they half believed they had been asleep since the previous day.

"Does your wife ever pay you any compliments?" asked Frederick Jimson of his friend Benderly. "Never," replied Benderly. "Well, mine does. She flatters me." "Often?" "O, yes, frequently; particularly in winter," replied Frederick. "Why does she taffy you so much in winter?" "Whenever the coal fire needs replenishing she points to the fireplace and says 'Frederick, the grate.'"

**UNCLE EZEK'S WISDOM.**

A little authority is a dangerous thing.

Labor will buy anything that is in the market.

Some men fail by being too much for the occasion.

The ridiculous side of life goes far to making it endurable.

The man who is ever talking to himself is talking to a fool.

The man who can't find anything to do is generally afraid he will.

Economy is a kind of natural wealth; it is money ever at interest.

Beware of the man of few words; he always has something in reserve.

Civility is the lowest price we pay for things, and repentance the highest.

The man who never takes a chance is beaten just as often as anyone else.

Wisdom can afford to go slow, but if a fool doesn't run he is sure to get left.

The more a man knows the more he suspects what he has already learned.

Take all the fun out of the world and every pound of life would weigh ten.

Advice is the greatest drug in the market. The supply has ruined the demand.

If mankind had capacity equal to his malice, there would be no occasion for a devil.

Virtue and Vice began life together and will leave the world when the last man dies.

The hardest man to shake from the ladder is the man who mounts a rung at a time.

Experience costs more than it is worth, but most people refuse to learn at any less price.

A terrible fellow to meet is the country constable with half-a-dozen subpcenas to serve.

The man whom idleness don't lead into mischief is either a very pure or a very stupid one.

Religion is most excellent to mix with business, but to mix business with religion is not sage.

Lies are like certain horses; they can travel farther in one day than they can get back in two.

There are lots of people who don't know anything till they run against it and then they don't know much.

If the devil were as lazy as many Christians are, he could count his proselytes each year on his fingers.

The lion and the lamb may lie down together, but I don't think the same lamb will do it a second time.

A suit of clothes that fits a man perfectly is worth more to him than a pedigree that fits him indifferently.

Everyone expects to be remembered after they are dead, and yet not one in a million can give a good reason why.

You can buy a dog for two dollars and a half, but there isn't money enough in the world to buy the wag of his tail.

The great misfortune with most of us is we are constantly looking ahead for our wisdom, instead of looking behind.

Wisdom without learning is like a sword without a handle; learning without wisdom is like a handle without a sword.

Men often climb half way up the ladder and stay there; but it is seldom they fall half way down and stop short of the bottom.

There are people who mix their religion with their business but who don't stir it up well, and the business invariably rises to the top.
