Clerk of Said Municipality.

NOTICE

The Electors of Polling Sub-division No. 2, East Flamboro will vote in the Township Hall, Waterdown, on Tuesday, Dec. 6th, and not at Flamboro Centre School house.

Canada's New Coat of Arms

Every home in Canada, every Canadian school boy and girl should know the new Canadian Coat of Arms. It is a beautiful plate and should occupy a prominent place in all true Canadian homes. The people of Canada are indebted to the Family Herald and Weekly Star of Montreal for reproducing the new Coat of Arms in all its true heraldic colors and presenting a copy, 14 x 17 inches, to all readers of that great paper.

The Family Herald and Weekly Star is Canada's greatest family and farm paper and is known throughout the whole Dominion. It is wonderful value and provides every member of the family with clean, wholesome, instructive reading. It is a great money saver for the farmers of Canada and repays the subscription price one hundred fold each year. Canada is proud of the big weekly. It has no superior the world over and is improving year after year. It costs only two dollars a year and each reader for 1922 will receive free a copy of the "Coat of Arms."

A Statement Re Memorial Hall

About two years ago the people of Waterdown thinking that something should be done in the village by way of a memorial of some description in honor of those who fought and of those who fought and died in Flanders Fields. So it was decided that a vote be taken by the municipality for the raising of \$20,000 debentures for the erection of a Memorial Hall. The vote was taken and carried by a substantial majority. It was then Council's duty to carry out the wish of the people in so far as possible. But this was not the case, for part of last years council to my mind did want to build the Hall at all, putting it off or delaying it one way and another, also that the Council could not come to a satisfactory agreement with the Community League which was willing to turn over the property held by them to the corporation for a fee and simple right to the use of a room in said hall. But part of the Council could not see it this way, thinking that something was being put over them. Foolish very foolish indeed for in so far as I have seen that in any resolution there was not the slightest item embodied therein whereby any person be they ratepayer or otherwise, could have found any fault with any agreement from Community League to said Council. And being one of your representatives to the council this year it was my desire to carry out the wish of the ratepayers in as far as possible regardless of any friction. This I have done to the best of my ability. My determination was to clean this matter up if possible. So along with two other members of said council we have got things now into better conditions which I think will prove satisfactory to the majority of the Electors of Waterdown.

Yours ever,
Alfred Dale

Women's Institute

The regular monthly meeting of the Women's Institute will be held at the home of Rev. S. Bennetts on Wednesday afternoon, December 7th at 2.30. Mrs. W. A. Ryckman will give a paper on "Books that are best to read," and Mrs. Thos. Allen a "Christmas Story." Good music will be provided.

Millgrove

The Millgrove Church is being redecorated. Mr. Davids and Mr. Mitchell of Waterdown have the contract.

The Ladies Aid social held the other evening was a decided success.

The Millgrove Women's institute are having a rummage sale in Hamilton on Saturday.

Mr. John Allison has sold his farm to Mr. Gordon Goodbrand and intends building a new home on the 5th concession.

Stanley Tempelar has purchased part of the Wm. Begg farm.

Thos. Ness is building a new veranda on his house here.

The Sunday School entertainment will be held on Wednesday evening, Dec. 21st.

Locals

Mr. A. Hemingway has purchased a lot on Dundas street from Wm. Reid.

Mr. and Mrs. John Johnstone of Toronto were visiting in the village last Sunday.

St. Thomas Church will hold their Christmas entertainment on Friday evening, Dec. 23rd.

Miss Williams of Hamilton has been spending a week at the home of her uncle, Mr. J. C. Medlar.

Mrs. John Daley has returned from Buffalo after spending a couple of weeks with her sister there.

Mrs. Keir and Miss E. D. Sinclair left this week for Phoenix Arizona, where they intend spending the winter.

The Ladies Auxiliary of Grace Church intend holding a bazaar next Wednesday afternoon Dec. in the Parish Hall.

Our industrious Clothing Manufacturer, Mr. Ellis Gordon, has purchased a lot in the Copp Block from Mr. Geo. Copp.

Mr. and Mrs. Fred Woodward and two daughters of Bright were the guests of Mr. and Mrs. A. Newell over Sunday.

The newly organized "Good Time" Club will hold their first dance in the Rink on Friday evening, Dec. 2. There will also be card tables for those desiring to play.

The new Agriculture and Domestic Science school here is proving a great success, about 65 pupils are now in attendance and new ones are being added every day. Mr. H. G. Bell, B. S. A., will lecture on soils and fertilizers, Wednesday, Thursday and Friday next week.

Greenville

Gordon Morden's daughter was knocked down in Hamilton by a truck on King William St. on Monday and is in the city hospital.

Miss Marjorie Hore is improving wonderfully from treatments of Dr. Henderson, Chiropractor.

Mr. and Mrs. W. Taylor spent Sunday in Brantford.

Miss Vera Gunbert had the misfortune to break her collar bone.

The Athletic Club held a very enjoyable dance in the township hall last Friday evening.

December Sale

FARM MANAGEMENT

A Brief Study of Some of Its Leading Problems.

Systematic Method Important — A Question of Quantity, Quality, Cost, and Proceeds — Inefficiency and Carelessness to Be Barred — Good Care Will Save Many Fools.

(Contributed by Ontario Department of Agriculture, Toronto.)

We speak of uncontrollable factors. Nevertheless farm management means control. The word "uncontrollable" is used loosely, and some measure of control is possible or hoped for in every farmer's undertakings. Farm management as a science, as a study, or a planned system, is a study of the methods of control. Farm practice is the corresponding art. A farmer was invited to attend a meeting to discuss improved methods of farming. "Nothing doing," was his reply; "I know a lot more now than I can get done." A very natural point of view, for the limitations of time, the scarcity of labor, adverse weather, diseases and pests, prevent him from getting all those results which his plans and his labor deserve. Yet he must plan, and to plan intelligently he must be possessed of the best knowledge available. He must plan to produce the greatest possible quantity, the best quality, at the lowest possible cost, and then he must plan to sell his produce at prices which will bring to him sufficient encouragement and reward.

Problems of Farm Management.

These are the problems of farm management: Quantity, quality, cost, and proceeds; and since they are closely inter-related, they cannot be studied separately, but must be considered all together. For example, European farming and Canadian farming are often compared to the disadvantage of the latter. It is asserted, and it is doubtless true, that the European farmer produces more per acre than the Canadian farmer does, and that the European acre is increasing in yield, while the Canadian acre is diminishing in yield. On the other hand, the Canadian farmer produces from three to ten times as much per man as does the European farmer. In Europe, because of the dense population and the relative scarcity of land, production per acre is the measure of efficiency. In Canada, because of the scarcity of men on the land and the relative abundance of land, production per man is the measure of efficiency. In Canada the farmer has the option of applying more labor to the same acres, and producing more per acre, or applying his labor to more acres. The law of diminishing returns speedily induces him to choose his option by working more acres. A low production per acre is the inevitable result of this choice.

Management Influenced by Returns.

The farmer's interest is served by adopting such a system of farm management as will give him the greatest returns for labor and capital expended. Unfortunately, that system invariably results, in a country where there is unoccupied land, in wasting soil fertility and diminishing yields. The nation, as distinct from the individual farmer, is concerned in conserving its natural resources and in producing the greatest possible amount of wealth; that is, in maintaining the soil fertility unimpaired and producing the maximum per acre. Thus the interest of the individual farmer and the interests of the nation are opposed, so long as the farmer can spread his available labor over more acres than he can work at maximum productiveness. Those interests will not be reconciled so long as economic conditions furnish the farmer with inefficient and costly labor, and costly fertilizers.

No Excuse for Slovenly Farming.

All this, however, does not excuse the careless and inefficient farmer. Two farmers live and work side by side. Both have the same number of acres, and the same amount of capital invested. To both the same knowledge of good methods is available. One of them directs his labor, arranges his crops, selects his stock, keeps them healthy and thrifty, keeps his land clean, maintains his soil fertility, sells his produce to advantage, and succeeds. The other is haphazard. He has no plans, or wrong plans. His stock are poor in quality, and ill-fed. His fences are broken down, and his land overrun with weeds. He is going behind year by year. We all know men of both types. The difference is a difference in farm management. — President Reynolds, O. A. College, Guelph.

To the Farmer:

The purchase of a Piano or Victrola is only purchased invariably once in a lifetime. Therefore it behoves the purchaser to get the best and make sure you have the best.

I have had 25 years experience in tuning and repairing musical instruments, therefore feel quite confident I can choose the best instruments on the market.

I shall be pleased to place any instrument in your home beside any other in fair competition and let you yourself be the judge, without you feeling under any obligations absolutely. I can also save the purchaser quite a few dollars on account of my expenses being so low. I will always give you my best personal service and devote the whole of my time to supplying the country people. A postcard or telephone call will oblige.

Yours truly,

*Canada
for the
Canadians*

What Is To Be Canada's Destiny?

Shall it be that through the destruction of the Tariff as proposed by both Crerar and King, the development of Canada is to come under the domination of the United States, to be followed by gradual financial domination and as a consequence, political domination?

—OR—

Is Canada's destiny to be that of a great free nation within the British Empire group of Nations, developing her boundless resources of mine, river, water power, forest, and cultivating her millions upon millions of acres of arable land? Is her development to surpass that of any other nation?

Shall her manufacturing industries develop her minerals and raw materials into implements and goods for the benefit and comfort of her people and for foreign trade?

Shall she become a self-contained nation within the Empire, her great railways interchanging, the products of factory and farm among her own people, and her ships sailing every sea?

Shall she maintain her integrity within the Empire and protect her farms and factories against unfair competition from foreign countries?

IF THIS IS TO BE CANADA'S DESTINY THEN CANADA NEEDS MEIGHEN.

On December 6th, Canada should once again protect her farms, her factories and her workmen against the unsound theory of Free Trade, and should hold fast to her reasonable Protective Tariff, her national entity and her British connection.

On December 6th Canada should declare with no uncertain voice that she will not tolerate the false trade theories of visionaries and group leaders which tend toward her economic destruction, toward the separation of her people and the weakening of the ties that bind Canada to the British Empire.

On December 6th Canada should demonstrate unmistakably to the outside world her fixed determination to keep Canada for the Canadians.

On December 6th Canada's destiny is at stake.

Canada Needs Meighen

The National Liberal and Conservative Party
Publicity Committee

Good Care Will Save Many Foals.

The best time to grow foals, and the time when they will make their largest gains is when they are being carried by their dams. Many farmers do not realize this, and begin feeding the mare a proper ration only after the foal is here. The brood mare, when in foal, should be fed a high protein ration, a ration which is rich in muscle and bone building material. This material is supplied in the form of oats, bran, and oil meal, as a concentrate, and clover or alfalfa hay as a roughage. As soon as the young foal arrives, see that he gets a good drink of his mother's first milk. This fore-milk or colostrum has purgative properties, and will usually clear the foal's intestines of the excrement accumulated prior to birth. If the digestive tract is not cleaned by the fore-milk, give the foal a tablespoonful of castor oil and a warm water and soap rectal injection.

Watch out for navel infection. If pus and disease germs get inside the body through the opening of the umbilical cord, a local infection or joint "ill" may develop and the foal be lost.

Early After-Harvest Cultivation.

"A stitch in time saves nine." In the case of weeds prompt and thorough after-harvest cultivation prevents many thousands of weeds from developing seeds, and thus saves hours of tedious labor the succeeding season. Early after-harvest cultivation is one of the best ways to destroy annual and winter annual weeds, such as False Flax, Corn Cockle, Wild Buckwheat, Pigweed, Bull Mustard, Wormseed Mustard and Annual Sow Thistle. Plough shallow, not more than three or four inches deep, immediately after harvest, and harrow and cultivate frequently. By the shallow ploughing the weed seeds are kept near the surface and by the frequent stirring of the soil they are made to sprout, and having sprouted they are easily destroyed by further cultivation.—Dr. C. A. Zavitz, O. A. College, Guelph.

One and a half oz. of formalin in 15 1/2 oz. of water fed at the rate of one teaspoonful per pint of milk is a good remedy in the case of diarrhoea in calves.

Fresh Fruit For the Farm.

For a very small sum any farmer may have a few rows of strawberries, two or three dozen raspberries, currants, etc., which will give fresh fruit at cheapest cost. A few grapes will also pay. Selling strawberry plants and berry canes will also bring in an odd dollar or two for the wide-awake man or woman, or boy or girl.
