NOTES ON SECOND SPRAY.

Do not use Arsenate of Lime alone.

Do not add Soap to a combination containing Lime Sulphur.

If a weaker dilution of lime sulphur is used than that recommended either the quantity of Arsenate of Lime added must be correspondingly decreased or else lime must be added to prevent leaf yellowing.

Five pounds of stone or hydrated lime added to the straight lead arsenate, 10 to 15 lbs., to 100 gals, will prevent yellowing of the foliage.

Do not omit the stone or hydrated lime from the soluble sulphur arsenate of lime combination.

Do not allow Soluble Sulphur to stand exposed to the air, keep in a closed container.

M. C. Lamb, the English chemist, states that from one ton of old shoes can be extracted metals worth \$4.70; grease, \$7.25; animal black, \$50; sulphate of ammonia, \$22.50; a total of \$84.45, or about 15 cts. a pair. The grease is a good lubricant, and the animal black is equal to the best bone black.

EAT LESS BREAD

The Allies' wheat supply is perilously close to the point of exhaustion. There is wheat in Australia and India but these countries are both practically inaccessible by reason of the shipping shortage. There has been much talk of using Japanese vessels to bring Australian wheat to America, but the project is problematical at best and the amount which may be carried during the next three or four months is necessarily limited. Part of the Argentine crop has still to be moved but with increasing demands upon cargo vessels to transport soldiers and munitions, to support the Allies in their present crisis, the ships can ill be spared.

One boat on the North American route is worth two operating between the Argentine and Europe. South America has not enough surplus wheat to meet the Allies' needs, and besides, every time we, by our failure to save bread and meat, force an Allied vessel to go elsewhere for supplies we hold back from our hard-pressed fighting men at least one transport of United States reinforcements.

Our Allies look to us for wheat and we have not been giving them the quantities they need. The British Ministry of Food has just cabled this message: "Wheat imports are not arriving in quantities sufficient to meet our weekly requirements. Every effort that can be exerted in Canada to increase shipments of wheat and meat will be invaluable." The British Admiralty is prepared to provide ships to move all that Canada will spare.

With nearly four months until the 1918 wheat crop will be available for consumption, this continent cannot send more than 34,000,000 bushels of wheat for shipment overseas, unless consumption in Canada and the United States be sharply and substantially reduced. That amount falls far short of the Allies' minimum requirements. It must be increased and the only possible way in which we can do so is to eat less bread and use less wheat flour. Our economies in this direction will be the test of our patriotism until the next harvest.

CARE OF FAT IN HOME.

Fats of all kinds unless properly stored become soft and rancid. They should be kept covered in a cold dry place. Fats keep longer if left unbroken. For this reason it is best to strain the clarified fats into several small jars instead of one large jar so that a small portion may be used without disturbing the rest.

Fat that cannot longer be utilized as a food or in cooking should be made into soap.

SOAP.

5 lbs. melted clarified fat. 1 lb. of lye. 1 qt. cold water. 1-2 cup cold water. 2 tablespoons borax. 1-4 cup ammonia. 1 teaspoon salt.

Dissolve lye in cold water and let stand until cool then add melted fat slowly, stirring constantly. Mix other ingredients together and add to first mixture. Stir until thick and lemon colored. Pour in a pan lined with paper, mark into squares and let harden. When firm, break pieces apart and pile so that the air will circulate around it freely to dry it. Allow to stand at least four weeks before using. This recipe will make 21 bars of soap at a cost of less than 15 cents.

Note—Do not use an aluminum or enamel kettle which has some of the enamel loosened. Use large kettle, water will be up vigorously when added to ye.

Canada ranks third among countries in the world in the number of motor vehicles owned and operated, more than 200,000 cars being in use, an increase of 100 per cent over last year.

Kentville, N. S.

On Wednesday May 8th, Alfred P. Saunders died at Harmony aged 87 years.

Minard's Liniment used by Physicians.

Sir Robert Borden is going to England shortly to attend an Imperial conference.

McGill University is in future to admit women to the medicine and dentistry courses.

THE SECOND SPRAY.

(By W. H. Brittain, N. S. Agricultural College, Truro, N. S. and G. E. Sanders, Dominion Entomological Laboratory Annapolis Royal, N. S.)

Time of application. When the blossom buds are showing sink at the tip.

A number of different formulas have been used in this spray and as there is somewhat more danger of injury at this time than in the previous spray, more care must be exercised in the way the spraying is done.

Regular Formula.—Lime sulphur, commercial concentrates 2 1/3 gals. to 100 gals. of water with arsenate of lime 2 lbs. to 100 gals. is used at this time. In spraying with this combination, care should be taken to direct the spray at the upper surface of the leaves, or some injury may result, particularly under certain weather conditions and in some locations.

Substitutes.—Bordeaux mixture according to the Thompson formula (2-10-40) is preferred by many for this spray on account of its safety. This material has been used by a number of growers for two or more years and has resulted in a good crop of clean apples. It has been found to be perfectly safe to use on foliage at this time, causing no burning or dropping of the fruit. The fruit may not be of such bright color as when other sprays are used and there may be a very slight amount of russetting, chiefly of the "netting" type. The foliage on trees sprayed with this combination has invariably been excellent even when used four times in succession, without the yellowing or bronzing of the leaves that is likely to follow the repeated use of the 4-4-40 Bordeaux. The 4-4-40 Bordeaux used at this time will give good control of scab, but may result in from 10 to 60 per cent of slight russetting, together with bronzing of the leaves, especially if preceded by a similar spray.

Arsenate of lime 3-4 lb. or arsenate of lead 2 lbs. to every 40 gallon of spray may be used, the chief consideration being one of cost, since both are perfectly safe to use with this combination.

Modification for a Bad Outbreak of Canker Worm.

If a very bad outbreak of canker worm is anticipated the most satisfactory spray is arsenate of lead 10 to 15 lbs. to 100 gals. of water. In the interests of safety it is better not to employ a fungicide at all when this is necessary, particularly as arsenate of lead in this strength has considerable fungicidal value.

Modification for Green Apple Bug.

In spraying for green apple bug, it is necessary to use a very heavy drenching, driving spray covering the under as well as the upper surface of the leaves, applied at a very high pressure. Most sprays applied in this manner will cause no injury but the safest combination we have tested to date consists of soluble sulphur 2 lbs., blackleaf 40, 3-4 pint to 1 pint, water 100 lbs. To this we have added a soft fish oil soap at the rate of 4 lbs. to 100 gals. This causes the liquid to spread better and helps to liberate the nicotine. If the soap cannot be obtained, hard soap shaved fine dissolved in water will do, but this takes time and some kinds cause burning. Probably soap powder poured right into the tank would do the work but we have not tried this as yet. No poison should be added to this mixture or burning will result. If the orchard was given a thorough spraying with poison in the preceding application, it will not always be necessary in this one, as the foregoing mixture kills many biting insects by contact.

If absolutely necessary to use a poison, or if another bug spray is to be given, use lime sulphur

instead of soluble sulphur and leave out the soap. Reduce the strength of the poison, however, as this mixture is more likely to cause injury. This is the most important spray for the bug and unless well done is worse than wasted. To attain success begin to spray just as late as possible before the Greensteins open, use twice as much material and twice as much time as in ordinary spray and spray each limb from every angle. Use as much pressure as you can obtain even at the risk of some mechanical injury. Unless it is intended to follow all the foregoing faithfully, it is far better and will save money not to make the attempt. Even where the green apple bug is not present a spray of soluble sulphur has been employed with success by growers as a regular spray. The following formula may be used:—

Soluble sulphur	3 lbs.
Arsenate of lime	1 1/2 "
Lime	25 "
Water	100 Gals.

Application

In using lime sulphur direct the spray at the upper and not the under side of the leaves, standing well off from the trees or on the top of the cab so as not to cause mechanical injury with the strong stream from the spray gun. In spraying for green apple bug about twice as much material will be required as is ordinarily applied and as much pressure as can be obtained.

AUSTRIAN EMPEROR GOES TO GERMAN HEADQUARTERS.

Amsterdam, May 12.—A Vienna despatch reports that Emperor Charles who has been on a visit to the Italian front, departed on Friday for German headquarters. He was accompanied by Baron Burian Austrian Hungarian foreign minister and Field Marshall Von Staussenburg, Austrian chief of staff.

If thirty per cent of the men who registered in Class One under the Military Service Act were medically unfit there is occasion for heart-searching as to the health and vigor of our population.

DID HE GET IT?

Lieut. O. B. Jones, M. C., of Halifax, tells an interesting story of an incident of his Liberty Loan tour in Boston:—"It was at Tremont Temple," said the lieutenant. "A French officer was dramatically telling of hand-to-hand encounters with the enemy. At the close of his address an emotional little Boston maid, who had surged with his Boston audience to the platform to shake the hand of the hero, evinced considerable curiosity as to just how the hateful Hun had been slain."

"Which hand did you kill with, Lieutenant?" questioned the little lady. "I—I want to kiss that hand!"

Quickly a Kiltie standing near spoke up. "I've killed Germans too girlie," quoth the kiltie.

"Oh—and which hand did you kill them with?" asked the blushing maid.

"I BIT 'em to death," announced the Kiltie—and bent his head for his reward.

ENTIRE DINNER IN ONE DISH.

With the aid of vegetables it is quite possible to have an entire dinner in one dish—a dinner that is wholesome, nutritious and very palatable. How many people are familiar with fish chowder? Here is the recipe; it is enough for a family of five.

1 1/2 lbs. fish; use moderate-price varieties such as cod, had-dock; 9 potatoes, peeled and cut in small pieces; 1 onion sliced,

Synopsis of Canadian North-West Land Regulations.

THE sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or sub-Agency for the district. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency) on certain conditions.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity. In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$3.00 per acre.

Duties—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take expurchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months of three years; cultivate 50 acres adjacent a house worth \$300.

The acreage of cultivation is subject to reduction in case of rough, scrubby or any land. Live stock may be substituted for cultivation under certain conditions.

W. W. COREY, C. M. G.,
Deputy of the Minister of the Interior

Compositor Wanted

Wanted at once at this office, a competent Lady Compositor, or boy used to typesetting who can learn to set advs. Permanent position. Good wages.

2 cups carrots cut in pieces, 5 cups milk; pepper; 1 tablespoon of fat; 1 1/2 tablespoons of corn starch.

Cook vegetables until tender add fat, mix cornstarch with one-half cup of the cold milk and stir in the liquid in the pot to thicken. Add the rest of the milk and the fish which has been removed from the bone and cut in small pieces. Cook until the fish is tender, about 10 minutes. Serve hot.

The Toronto newspaper state that between April 12th and 18th, 7,910 tons of onions, turnips, apples, potatoes and fish had to be destroyed in Toronto incinerators, having been kept in cold storage in various warehouses until they were unfit for human or any other kind of consumption, even for the proposed municipal piggery in Toronto. A report has been prepared by city officials for the Canada Food Board, and for the local food controllers, giving the names of the firms from whose places the stuff was sent to be destroyed so that they may take action if it is deemed essential.

ANTI-FOOD HOARDING LAW.

The anti-food hoarding law is now in effect and on failure of persons to return portion of the supplies the latter are liable to seizure and the owners, to arrest and fining from \$100 to \$1,000. It is not really the small holders of flour or sugar at whom the law is aimed but those who hoard away large quantities of these necessities. All those who have less than a barrel of flour or no larger quantity of sugar need have little fear, but others who may have a quantity stored away must risk having the full penalty of the law imposed upon them. The aim is to get people to use what they have and then become educated to buying in smaller quantities, so that there shall be enough for all.

JACOBSON BROS.
 Canning, Nova Scotia

HELP!

A large number of Nova Scotia boys up to nine-teen years of age have volunteered to work on farms this season. It is practically impossible to secure experienced adult help, but many of the volunteers have had some experience on the land and all can do useful work. Every farmer who can employ one of them to advantage is urged to send immediately for an application form to

ARTHUR S. BARNSTEAD,
 Secretary of Industries and Immigration,
 197 Hollis Street,
 Halifax.

AVONPORT.

Mrs. W. W. Hughes was in Wolfville and Kentville last week.

Shaws Brickyard is doing fine work this Spring since the yard was dry enough to operate. A large number of men are employed.

Miss Cora Walsh is home from Halifax, Messrs Freeman Ltd., with whom she was employed has sold out their business.

The death took place at East Boston on May 21st of Elbert C. Rathburn. He leaves a wife and four children and was a native of this place.

GRAND PRE.

Mrs. Joseph Allen and her daughter Carrie spent Friday at Kentville.

The Wesleyan has the following reference to a former pastor here:—The many friends of the Rev. Richard W. Weddall, of Shediac, will congratulate him on the deserved honor that came to him at the recent convocation of Mount Allison by having conferred upon him the honorary degree of D. D., if

we mistake not, Dr. Weddall has been longer in the active work of the Ministry than any other member of the eastern Conferences. He holds a high place in the affection and esteem of his brethren and of the many people to whom he has so efficiently ministered in holy things. A son of the parsonage he has done it honor. He has also been an honor to his Alma Mater and to the Church of which he has long been a devoted minister.

MARRIED.

At the Baptist Parsonage, Wolfville, by the Rev. Mr. Miller, Howard S. Harris, of Hillaton, to Alice C. Breckin of Upper Canard.

At Toronto Ont., on April 18, 1918, by Rev. B. J. Moor, Miss Lily F. Murphy of Newport Hants Co., to Herbert L. Main, of Melanson Kings Co. Both the bride and groom have lived at Kentville.

At the Methodist Parsonage, Kentville by the Rev. A. C. Borden, April 26th., George W. Sanford of Halifax to Evorna Viola, daughter of Mr. Samuel English, North Alton.

CANNING.

Dr. Barry Burgess is home from New York spending a few weeks with his mother, Mrs. Joseph Burgess, Sheffield Mills.

Mr. Jacob Lockhart was in Kentville last Tuesday. Mr. Lockhart has been strongly urged to go to Halifax and engage in the upholstering business there and may accept the offer.

Conductor A. W. Dickie is taking a vacation and Mr. Gordon Arnold is now Conductor on the Valley line.

Miss Grace Woodworth who has been at Yarmouth as telegraph operator etc., is now regularly engaged as the station agent at Clementsport where she has spent considerable of her time of late.

Mr. George W. Newcombe, who has been all winter at Halifax on relief work there arrived home here on Monday and today he and Mrs. Newcombe leave for Lubec Maine to spend the summer.

Mr. Frank Sheffield of Upper Canard was in Halifax Saturday visiting his father Mr. DeLancy, Sheffield at the Infermary. Mr. D. Sheffield is improving and expects to return home in another week.

Rev. D. H. McQuarrie formerly of this town has been at Lunenburg with his daughter and the latter was placed in hospital there and an operation for appendicitis was performed by Dr. Forbes Miss McQuarrie is doing well since the operation.

On Sunday morning in the Canning Methodist Church an Honor Roll tablet of members of the congregation who have been in the military service was unveiled. The Band of the Depot Battalion Aldershot, about 27 pieces was present and furnished fine music and the service was an impressive one.

The Depot Battalion Band gave a fine open air program near the Armories on Sunday afternoon and also quite a program on Mr. N. W. Eaton's lawn at 7.00 Sunday evening. There are several Canning boys in this band. A great number gathered to hear the music.

STALLION IMMERSIE.

The Pure Bred Paragon Stallion Immersif owned by S. R. Jackson will stand at the stables of Spurr Woodworth, Canning through the season of 1918. Out July 20.
 S. R. JACKSON, Canard

DESTRUCTIVE FIRE AND SAD DEATH AT CANNING.

On Sunday Mr. Joseph H. Wood, of Norths Corner near Canning met with a sad loss in the destruction of his home and death of an adopted boy.

Mr. Wood and the boy who was 14 or 15 years of age had been out driving. They returned about 5 o'clock in the afternoon and Mr. Wood went to the house while the boy cared for the team. About 15 minutes later the barn was discovered on fire and the flames soon filled the whole building. Nothing could be saved from the barn it being consumed with all its contents including two horses.

The flames blew across the well preventing access to the handy water. A great number gathered and fought the fire heroically but the house could not be saved. It was burned with part of the contents.

After the fire the body of the young boy was found in the barn, where he must have been suffocated in trying to extinguish the fire before calling for help. Mr Wood's loss and affliction is deeply felt.

LES MOORE,

According to Galli Curci

The renowned Prima Donna of the Metropolitan Opera Company, when she was a young girl she found it very difficult for a long time to learn how to sing. Later she came in contact with some of the most famous singers and was able to study how they gained their effects—the secret of her success. She added that this same opportunity is provided by the phonograph which brings before you the voices and the art of all the great musicians of to-day, interpreting the genius of all the known composers.

This opportunity—the opportunity to hear Galli Curci herself—is provided by the Victrola records we have in stock. Come in and hear them!

WOLFVILLE.

Whose going fishing?
Dr. G. O. Gates and Mrs. Gates were visiting at Middleton last week.

Capt. and Mrs. Hugh C. ley have gone to Halifax and taken apartments at "Hillside"

Mr. R. H. Foster was at Bridgetown recently visiting his brother, Mr. Sydney Foster.

Wolfville is putting on its best dress for the closing exercises at Acadia.

Mr. Mason proprietor of the Opera House was in Kentville on Thursday.

Mrs. Jennie Jack of Halifax was here last week visiting her sister, Miss Annie Fitch.

Mrs. Ray Bennett of Halls Harbor has been visiting her mother Mrs. Colin W. Roscoe.

Policeman Crowell was called to Kentville yesterday to attend court.

Rev. L. F. and Mrs. Wallace have gone to Port Wade to hold a series of evangelistic services.

Miss Effie L. Cox of Middleton was a guest of relatives at Wolfville and Avonport last week.

Mrs. Carrie Ross has been visiting at Kingston with her cousin, Mr. and Mrs. Fred M. Munro.

Miss Blackadder who has been at Bridgewater visiting at the Manse returned home a week ago.

Bridgetown raised about \$31.00 for the Y. M. C. A. fund. But Wolfville about one half the size raised an equal amount.

Mrs. Palmer of Aylesford has been stopping in town for a few weeks with her daughter Mrs. Frank Barteaux.

Mrs. Keirstead wife of Dr. E. M. Keirstead of McMaster University Toronto, has been in town visiting with her sister, Miss Fannie Parker.

Mr. Bloise of Acadia has accepted the call to the Baptist Church at Tremont and will assume his duties there after the closing at Acadia.

Mr. Wilbur Vaughn has been home from the west on a visit with his parents Mr. and Mrs. John Vaughn Wilbur has answered his country's call and enlisted.

Mr. Wilbur Vaughn who is visiting his parents here after an absence of about ten years has been appointed a quarter master Sergeant and expects to leave for Europe shortly with his western Battalion.

The Presbyterian and Methodist Congregations held their United Services last Sunday and will continue same hereafter. The morning service will be held in the Presbyterian Church and the evening in the Methodist Church.

Mrs. H. W. Fraser and her sister, Mrs. William Hughes of Avonport were in Kentville on Friday. Mrs. Hughes still believes her husband to be alive though nothing has been heard from him since he was reported missing the last of October. A comrade has reported him as wounded—not fatally—on the day he was missing.

The recital of Mrs. John D. Clark of Kentville will take place in College Hall Wolfville on Wednesday afternoon May 22, at 4.30 o'clock. Miss Arlen McKenney who was to assist at this recital has been called home by the illness of her mother and Mrs. Tully of Kentville takes her place on the program. This will be an excellent recital and Mrs. Clark is pleased to have her friends attend.

Dressmaker will go out by the day to work. Miss M. Spangley, Lockhartville, N. S. 4.0

Mr. Burgess M. Blackadar who recently moved to Wolfville, will soon leave for Detroit with Mrs. Blackadar, where he has taken a responsible position with the Baker Company.—Yarmouth Light.

H TON NEWS.

Yesterday was tried before stipendiary S. Strong at Kentville from the Lockhartville section. It was on the complaint of William bowly against Austin Bowly for committing an assault occasioning bodily harm on Amanda Bowly.

We have been hearing of a case of bigamy in which a resid-

ent of Lockhartville and a returned soldier's wife was implicated. It has now been aired in court and the persons implicated sent up for trial. The fact according to the evidence that John Kelley of Lockhartville married Lena Berry in April, 1917 she at that time being the wife of Edward Williams of Brooklyn St. then on active service William returned from overseas and approving of the actions of his wife he instituted proceedings and by Kelley and Mrs. Williams have been sent up for trial, the case against Kelley being heard yesterday before Stipendiary I. B. Oakes yesterday at Kentville. He was admitted to bail to appear before the Supreme Court. Mrs. Williams' case will be heard before Judge Webster, under the Speedy Trials act.

A CANADIAN TWILIGHT.

(By Lt. Bernard Trotter.)

Peace... Peace... the peace of dusky shores And tremulous waters where dark shadows lie; The stillness of low sounds... the ripples urge Along the keel, the distant thrushes call, The drip of oars; the calm of dew-filled air; The peace of afterglow; the golden peace Of the moon's finger laid across the flood. Yet ah... How few brief, fleeting moments since, That same still finger lay at Lange-mark, and touched the silent deed, and wanly moved Across the murky fields and battle lines Where late my country's bravest kept their faith. O heavenly beauty of our northern wild, I held it once the perfect death to die In such a scene, in such an hour; and pass From glory unto glory—Time, perhaps, May yet retrieve that vision—oh but now These quiet hills oppress me: I am hedged As in that selfish Eden of the dawn Wherein man fell to rise; and I have sucked The bitter fruit of knowledge, and am robbed Of my rose decked contentment, when I hear Though far, The clash of arms, the shouts, the groans, A world in torment, dying to be saved. Oh God? the blood of Outram in these veins Cries shame upon the doom that dams it here In uncles impotence, while the red torrent runs In glorious spate for Liberty and Right; Oh, to have died that day at Lange-marck! in one fierce moment to have paid it all— The debt of life to Earth, and Hell, and Heaven? To have perished nobly in a noble cause! Untarnished, unpolled, undismayed, By the dank world's corruption, to have passed, A flaming beacon—light to gods and men! For in the years to come it shall be told How these laid down their lives, not for their homes,

Their orchards, fields and cities: "They were driven To slaughter by no tyrant's lust for power; Of their free manhood's choice they crossed the sea To save stricken people from its foe. They died for Justice and Justice owes them this: That what they died for be not over-thrown." Peace... Peace... not thus may I find peace: Like a caged leopard chafing at its bars In effectual movement, this clogged spirit Must pad its life out, an unwilling drone, in safety and in comfort; at the best Achieving patience in the god's despite And at the worst—somehow the debt is paid.

Lake Cecebe, June 1915. (Written while frail health prevented enlistment.)

HARRY PARLEE FELL IN FRANCE.

Sterling Young Nova Scotian Killed in Action on May 1st.

Morning Chronicle— Many friends in both Nova Scotia and New Brunswick will deeply sympathize with Rev. Henry T. Parlee and Mrs. Parlee, the Rectory, Stewiacke, N. S., on the death of their son, Harry Andrew (Harry) Parlee, who was killed in action "somewhere in France" on May 1st. The sad news reached his home on May 13th. While his father was Rector of Aylesford. Harry became a member of the staff of the Bank of New Brunswick (later the Bank of Nova Scotia) at that place. He was transferred to St. Stephen and afterwards to Montreal, Regina and Moose Jaw, where he was accountant, his progress having been rapid. In December, 1915, he resigned his position in the Bank and came to Halifax to enlist. He was put in the Discharge Depot with rank of Sergeant, but after giving perfect satisfaction resigned, declaring it to be a "safety first" job and that the men who were unfit for overseas work, or returned men should have such positions. He gave up his stripes after being transferred to the 193rd Highland Battalion at Aldershot. Word was sent from Halifax to his Colonel to again put him in the office, but with true British spirit he absolutely refused it,

As he said it was only another "safety first" job and he was resolved to go overseas. In England he again won his sergeant's stripes and took a course at Bexhill-by-the-Sea, giving them up once more to get to France. He was transferred to the 17th Reserve Battalion, which was reinforcing the Nova Scotia Highland Battalion, and on March 16 crossed to France and went into the trenches on April 9th as a private in the infantry. He was only there three weeks when he was killed.

As he was of a gentle, retiring disposition he was greatly esteemed by all who knew him, being splendidly loyal to his friends, his family, his church, and his country. During the four years the family lived in Halifax he and his four brothers were members of St. Luke's Cathedral vested choir, all since the war having cheerfully donned the khaki. Two sisters, Mrs. H. W. Cronk, of Brooklyn, N. Y., who is a graduate of the V. G. Hospital, Halifax, and Miss Ruth, at home, also four brothers, survive.

A younger brother, Percy Parlee, D. C. M., who enlisted in 1914 and served nearly three years at the front was badly wounded and gassed at Lens, August 17-18, 1917. Then waiting in an ambulance dressing station a shell struck the ambulance instantly killing a companion and Percy's foot was blown off. He has recently undergone a fourth operation—a most serious one—on his leg, but is now convalescing at the military orthopedic hospital, Toronto.

Lieutenant Medley Parlee and Lieutenant George Parlee are in the R. A. Forces. While engaged in flying Lieutenant Medley Parlee brought down seven Hun machines. Recently he has graduated after a nine months course in aviation, and is now an instructor in England. Archie with the Canadian Army Medical Corps, B. E. F. All are nobly doing or have done their bit for the cause of world freedom.

WHEAT IMPORTATION INSUFFICIENT

"The British Ministry of Food has cabled to the Canada Food Board; "Wheat importations are not arriving in quantities sufficient to meet our weekly requirements. Every effort that can be exerted in Canada to increase shipments of wheat and meat will be invaluable." The British Administration has prepared to provide ships to move all the wheat that Canada will spare. Only 34,000,000 bushels remain on the Continent that can be possibly available for export, unless consumption in this County and the United States is very substantially reduced.

Sugar Saving 25 Per Cent.

The recent sugar restrictions passed by the Canada Food Board will have the effect of saving about 100,000 tons, approximately 25 per cent of our normal consumption. These restrictions are rendered absolutely necessary by the shipping and rail transportation situation. There is sugar in Cuba but we cannot get it into Canada. What we can get we must conserve for preserving time.

Eat More Vegetables.

There are plenty of potatoes, carrots, turnips and onions in Canada from last year. "Eat them up", says the Canada Food

Board. "Do not waste one of them. Eating vegetables will save wheat. It is wheat that they want over there."

Eat More Fish.

Efforts have been made throughout Canada to produce and market more fish. This Country has fish resources, which have been exploited commercially for the export trade but only in the big cities have fresh fish been available regularly to private consumers. On the Pacific Coast and the Atlantic Coast, on the lakes of the West, on the lakes of Northern Ontario and the Great Lakes, fishermen will procure fish if the demand for it becomes regular and constant. Eat more fish and save wheat for the men at the Front.

The large three-masted schooner built at Meteghan by Capt. Thomas German for J. E. Gaskill, of Grand Manan, is now about completed, fully rigged and ready for launching, but is being seriously detained owing to the non-arrival of her anchors and chains. There has been three outfits shipped from England for this vessel but apparently, they have all been lost in transit, as nothing has ever been seen of them after shipment.—Ex.

Eleven persons were killed and 15 injured in a tornado which swept Iowa and Illinois states on May 9th.

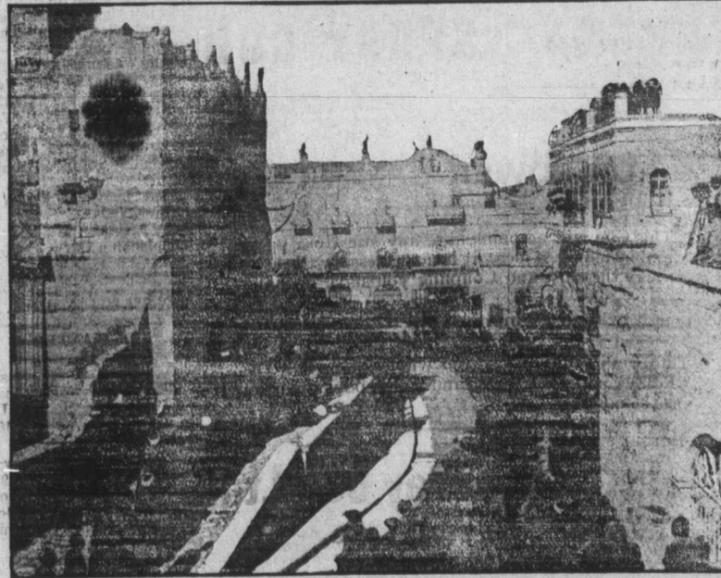

"How's your boy getting on at the training camp?"

Bachelor of Science in Agriculture has been conferred by McGill University upon Miss Margaret Newton, Summerville Que., and Miss P. C. Stanford, Dartmouth, N. S. these degree in Canada.

Granny's Talk to Young Mothers

"Granny" Chamberlain "Few young mothers realize the extent to which a cold lowers the system and makes it susceptible to contagious diseases. It has been proven that the majority of diseases arise from germs, but it is not widely known that a healthy system will repel their attacks.

Mothers should never allow a cold to run for twenty-four hours without attention. If this is made a rule there will be less sickness for young mothers to worry over. A good reliable medicine for coughs, colds, croup and bronchitis should always be kept in the home where there are children. You may say that you have no confidence in cough medicines, but that is because you have never tried

Chamberlain's Cough Remedy

This medicine is thoroughly reliable and has stood the test of nearly half a century. No, it will not hurt the children—there is nothing in it that would even injure the baby."

Yours for Health —Granny Chamberlain

Fertilizer

It is hard to make most of the farmers realize that there is a great possibility of them not being able to get what commercial fertilizer they will require this spring. But never the less it is an absolute fact and the wise farmer will take home his fertilizer soon. As if you wait till spring you may not be able to get any. As even now it is very hard to go what you want as transportation is so bad we have only a few more cars of Basic Slag to sell.

A FISHING PROCLAMATION.

An old Highland fishing proclamation was read by the Rev. Percy Coats at a meeting of the Lunenburg Fishery Board at Lancaster. The proclamation read as follows:—"This shall be a proclamation of Her Grace the Duke of Argyll: If any man be found fishing in the loch, on the loch, around the loch, through the loch afoor the Loch, or hinder the loch, his neck shall be broken in twelve places, and if he shall hereafter offend he shall be persecuted w' far war' persecution, for he shall be burned and hanged. By all the laws of the European of Scotland and Her Grace the Duke of Argyll."

THE CALL

(By Dr. Frank Crane).

You have as much sense as the next man. Use it. Rely on it. And it will grow.

You have two good hands, two good eyes, two good ears your liver and lights are in good working order, you have just as good a physical machine as Vincent Astor. Use them.

You have as much faith as St. Francis ever had, if you'd use it.

You have as much hope and cheer as much as Mark Tapley. Use it.

You have as much strenuousness as Roosevelt. Use it.

You have as good an education as Rockefeller had.

You can read the same newspapers, magazines and books Mr. Howell reads.

You can see the same pictures in the galleries that Charles Dana Gibson can see.

You have as many funny experiences as George Ade.

You have a pen and as much paper as Rudyard Kipling.

Had ship's anchor fall on my knee and leg, and knee swelled up and for six days I could not move it or get help. I then started to use MINARD'S LINIMENT and two bottles cured me.

PROSPER FERGUSON

5,000,000 YANKEE SOLDIERS OR MORE IF WANTED.

London, May 16—America preparations on the western front amazing in their immensity; and plans are being made to care for five million troops. Harry E. V. Brittain, secretary of the English Branch of the Pilgrims Club told the Royal Colonial Institute last night. If the Germans do not give in, he added, the number of American troops will be increased to any amount necessary.

ENTIRE HUN BALTIC FLEET AT CIEL.

London, 16—The entire German Baltic fleet, except a few light cruisers, was recalled last week to Kiel, where important naval forces now are being concentrated, says a despatch from Hamburg, received in Geneva and transmitted by the department of the Daily Express.

SIR DOTGLAS HAIG'S HEIR

(Westminster Gazette) The birth of a son and heir to Sir Douglas Haig fulfils for another generation the old prophecy concerning the duration of the famous family from which the field marshal derives: "Tide, tide, What'er betide, They'll aye be Hoigs in Bemersyde." Sang Thomas, the Rhymmer, and, sure enough, the lands and barony have been in the unbroken lineal possession of the family since the days of Malcolm IV.

DEATH OF MRS W. G. CLARK.

The death occurred on May 9th, at Bear River, of Annie J., wife of Warden W. G. Clark. She was a daughter of the late Alpheus Marshall, of Bear River. Besides the husband three daughters survive. The daughters are; Mrs. J. H. Cunningham, Sydney Mines; Mrs. A. G. McIntyre, New York and Miss Nan at home.

The S. S. Margaretville has been purchased from J. A. Balmont by the Maritime Fish Corp. Montreal. After repairs the steamer will be taken to Canso.

Keep Minard's Liniment in the house.

IN PRIVATE HOMES.

While the regulations governing public eating places and the orders of the Canada Food Board prohibiting or restricting the manufacture of certain varieties of biscuits, cakes, etc., wheat, sugar and shortening, are not compulsory in the case of private households, they are being observed voluntarily in thousands of homes. These regulations have not been issued for amusement, but because there is real necessity for them, in order that we may support our soldiers and Allies to the fullest possible extent. Consequently, their observance is a test of patriotism and good citizenship.

A moral obligation and responsibility rests upon every citizen to follow these regulations just as closely as circumstances possibly will admit, and to use his or her influence to secure more general observance in private homes. If every Canadian realizes a personal duty to be a food controller, there will be an eagerness to adopt the suggestions and advise of the Food Board and not to shirk that food service which is necessary in order to feed those who are bearing the brunt of the fighting and suffering.

ECONOMY WITH SUGAR.

Regulations have been put into force which are expected to effect an annual saving in Canada's sugar consumption of 25 per cent, or about 100,000 tons. These restrictions are absolutely necessary if we are to have the sugar with which to conserve the fruit crop during the summer period.

There is sugar in Cuba but the ships to carry it are required elsewhere. We have been using far more sugar than we need.

IN HOLLAND.

The little Dutch nation of 7,000,000 is in a perilous position. Germany is demanding privileges of transportation through her territory which are contrary to her neutral position. The fate of Belgium is before her and it is even hinted to her broadly that it will be well for her to remember it. She has yielded to some of the imperatives demands made upon her and she may expect further exactions. It is not quite clear why Germany should want to force Holland into the war either for or against her. If with her, Germany would then have to defend all her coast line against the Entente powers and the latter would be fully justified in invading it. The advantages to Germany would be of a doubtful character. If against Germany, Holland would invite the landing of the Allies and afford them an advantage in many ways. In either case, however, Holland would be greatly injured, if not practically devastated. The consort of Queen Wilhelmina is a German prince and many officers in the Dutch army are in favor of Germany. It is to be hoped that the brave little nation will be able to keep out of the war. If no, it is to be remembered that she can raise an army of 700,000 men, that she can flood much of her territory, and that whilst she might be devastated she is not to be despaired.

BRAZIL PREPARING FOR REAL ACTIVE ALLIANCE, SAYS SIR JOHN AIRD.

An Atlantic Port, May 16—Brazil is planning to take an active part in the war against Germany within a short time, possibly by the end of the summer, declared Sir John Aird, of

the Canadian Bank of Commerce, of Toronto, who arrived here today with Lady Aird on a steamer from South America. Sir John has been in South America for several months. He went to Rio de Janeiro and crossed by rail to Montevideo. He declared there is a great improvement in conditions in South America. Finances are 100 per cent better than they were a year ago, he declared.

"The people of Brazil are strongly pro-Ally," he said. "They realize there are thousands of young men in the country who could fight. They are asking, in an increased clamor: 'Why, if we have declared war on Germany, don't we go over and do something?'" Throughout Brazil the opinion prevails that before the summer is over the country will certainly take an active part in the war.

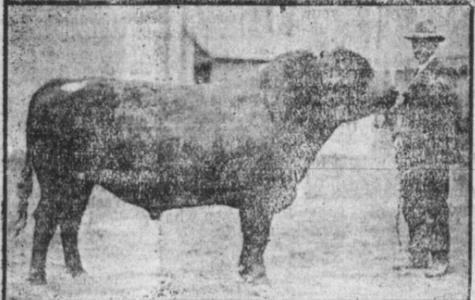

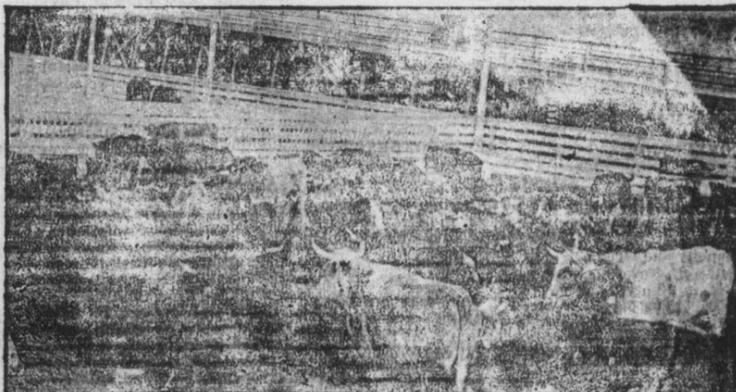

"At present, ships of the Brazilian navy, including submarines, are guarding a great deal of the South American coast."

NO LOAFERS ALLOWED.

Every male person between the ages of sixteen and sixty residing in Canada must hereafter be engaged in some useful occupation. Any person violating the new law shall be liable to a fine not exceeding \$100 or six months in the county jail, with hard labor, or on the county farm. The purpose of the law is to prevent persons capable of useful labor from remaining in idleness, at a time when the country most urgently requires the services of all the human energy available. There are a few who could be rounded up in this county who are living in idleness and are capable of work. No one should be allowed to waste time when our Allies are threatened with starvation for what we could produce.

Minard's Liniment for sale everywhere.

Western Canada's Live Stock Trade Increasing

(1) Calgary Stock Yards. (2) First Prize Angus Bull.

The effects of the increased production campaign in Western Canada are already noticeable. All over the country farmers are enlarging and improving their herds, while many others, desiring to emulate their success, are entering mixed farming in earnest. Besides feeling it a patriotic duty to produce as much food as possible, more and more farmers are finding that mixed farming in Western Canada pays. Of course, this is not a new realization. The most successful farmers of the West are those who have divided their attention between grain grow-

ing and live stock raising, but the possibilities of quick returns with the former have blinded many to the advantages of the latter. Notwithstanding the high prices now being obtained for wheat, oats and other grains, prices which a few years ago were undreamed of—mixed farming is becoming increasingly popular among the farmers of Western Canada. Nothing is too good for them. They have money to invest and are investing it wisely with an eye to the future. The country is continually being secured for well bred animals. Just now word has been received that more than a hundred pure bred Aberdeen-Angus females and bulls from the best herds of Iowa and Illinois have been loaded for shipment to Western Canada. These are choice specimens from the herds that have been producing the grand champion carloads and individuals at the International Live Stock Show; they will become seed stock for the farms and ranches of the Prairie Provinces. The movement of pure bred stock to Western Canada is going on continually—from day to day, from week to week. To-day it is Aberdeen-Angus and Shorthorns, yesterday it was Jerseys and Herefords, last week all these and others breeds as well. One day dairy cattle predominate, another day beef cattle, and another dual purpose animals. They are brought from Eastern Canada, from all parts of the States, from England and Scotland, and even from other parts of Europe. Already possessing some of the largest and most valuable herds of particular breeds of cattle, the Western Provinces of Canada bid fair to become one of the greatest cattle countries in the world. They have every advantage for the raising of cattle economically—healthy climate, low priced lands on which grow nourishing foods, an abundance of clear water, convenient markets, etc. And, what is more important, these advantages are beginning to be fully recognized by the settlers, who are making use of them to their own and the country's profit.

CONVENTION

A Convention, under the auspices of the Kings Co. Temperance Alliance and the Social Service Council and Temperance Alliance of Nova Scotia will be held in Kentville on Thursday 23rd day of May.

There will be two sessions, afternoon at two o'clock, evening at eight o'clock.

Methodist Church, Kentville.

The afternoon program will include the following:—

1. The work accomplished by the Temperance Alliance.
2. Social Service Problems, Dominion and Provincial.
3. Local Organization and Co. Problems.

The afternoon and evening sessions will be addressed by Rev. Dr. J. G. Shearer and Dr. H. R. Grant, Rev. F. E. Barrett and other prominent workers.

All churches and Temperance Organizations are requested to send delegates, and all persons interested in temperance and social reform movements are cordially invited to attend.

The time has come for a union of moral forces to undertake energetic action for the betterment of conditions along social service lines.

We appeal to all Christian agencies to co-operate in making the convention a success.
C. I. WOLFE President Co. Alliance.
S. V. SAFORD Secretary Co. Alliance.

H. B. GRANT General Secretary Social Service Council and Temperance Alliance.

CORRESPONDENCE

The following letter has been forwarded to Mrs. Fred B. Newcombe Kentville for publication in our paper.

3601 Telegraph Ave., Oakland, Calif., U. S. A.
May 7th, 1918.

Dear Mr. Editor:

I am a native of Upper Dyke Village and received my grammar-school education in Cornwallis. There are, no doubt, some of the readers of your valuable paper who will be interested in a review of those who took most prominent places in the world, and who received their common school education in the school district of Upper Canard and U. D. Village.

I have lived in California for many years: Ten years ago, I passed a summer visiting at my brother's and the county of Pictou, and in Kentville, a delightful time at the home of Mr. Fred Newcomb, and I am sure you will agree with me that there are few who have been called to that "Better Land," who were more beloved and left a greater void in the county of Kings.

The schoolhouse in Upper D. Village in which I first attended school must have been close to one hundred years old at the time it was torn down. Recently, I wrote to a friend to try and obtain a snapshot of the building and send it to me.

The first teacher that I can recall, and from whom I learned my letters, was Miss Sarah Burk. After her, the Misses Foster, of Halifax, conducted a very select school.

As I was the youngest scholar I had to recite my lessons standing beside the assistant teacher, Miss Anna Foster. She was usually occupied on some fancy sewing as she heard me recite. On her finger, was a good-sized thimble, and, as I would occasionally miss a letter, she would lift her hand over my head and close all the fingers except the one on which was the thimble: she would bring it down with a heavy thud again and again.

I am glad that those days in which the young child was persecuted have gone by.

After her came the Rev. Joseph Cox and a Mr. Wheaton, and then a Mr. Livingstone. He was from the United States and had more advanced ideas than those who had preceded him. He introduced the singing of the maps of the geography. As a sample, we will take the map of Nova Scotia and start in the center singing, "Kings—Kentville, get something hot for your liver." And this, set to the four parts of music, was very entertaining, and I recall what an excitement there was when an open evening was given to the villagers.

About this time, the Rev. Somerville taught a school, and from this school, came some men and women who filled influential places in Nova Scotia. Among that number, was the Rev. Joshua Burgess and the Rev. Henry Chase, both living in California. There was Mr. DeLancy Sheffield and his brother, Dr. Mason Sheffield. He practiced medicine in St. Johns N. B. Dr. John Barnaby and Dr. Gideon Barnaby, who practiced in Annapolis. Dr. C. Barnaby, who practiced in Halifax. Dr. B. Beckwith, Dr. Henry Chipman, who practiced in Grand Pre, filling out a life of long usefulness. Mr. Fred Chipman and Mr. Ross Chipman, his brothers, Mr. Ross Chipman lives at present in Church street. Also the late C. F. Rockwell formerly a most successful teacher and later High Sheriff for Kings County.

A son of the Rev. Somerville had a son who became Rev. Robert Somerville, and died in the United States. Living in Canning at the present time, is Mr. E. Beckwith, a successful business man. About this time, the school districts of U. D. V. and Canard were united, and from this school came some very prominent men and women, and first, I would mention the late Sir Frederick Borden, who graduated at Kings College, Windsor. Soon after he received his diploma is a medical doctor, he was elected to represent Kings county in the Dominion Parliament. He received an appointment as minister of militia, and during the Boer war, was so energetic in sending soldiers to the help of Queen Victoria that she summoned him to her court and knighted him. His only son enlisted, and I recall with what sadness I was filled when he mailed me a memorial card announcing his death. Would that Sir Frederick could have lived till the end of this present war, in which he was so much interested.

There was the Rev. Geo. Thomas and Judge C. Griffin who died while filling the office of mayor in Seattle, Wash. Dr. P. Brecken who practiced medicine in Boston. The two sons of the Rev. Mr. Hunt, Dr. Lewis Hunt who lives in England, and lawyer J. Hunt of Halifax. And lawyer John McDonald who practiced in Shelburne. Mr. A. S. McDonald who taught school successfully for some years in Cornwallis, living at present on his farm in U. D. V.

Quite a number of the young ladies who attended these schools, some of whom entered professions and others marrying successfully, living to make dear Kings County better and brighter.

And now, Mr. Editor, I think it would be hard for you to produce two schools that could show a better array of talent and successful careers.

Thanking you, dear sir for your kindness in publishing the above, I am, dear sir, yours respectfully,
A. B. McDONALD.

ATTENTION

Miss Ida Locke of Lockport arrived last week and is visiting her sister Mrs. Fred C. Rand.

Sergt. Harry Walsh of the 85th Battalion astonished his parents last week by arriving home after some time spent in the hospitals in England. He has been absent two years and is now quite well on the road to recovery from his wounds. He was most warmly welcomed home by all his friends.

What about that Front Porch floor or steps needs painting get your Paint from W. W. ROCKWELL.

FIRES IN THE COUNTY.

Sunday was a day of several fire alarms in Kentville. At noon the bell called out the firemen on account of a blaze in the woods, surrounding Aldershot. A number left by autos to assist but the large number of soldiers proved effective fire fighters and the fire was soon under control.

At 6.30 p. m. a call came for help from Canaan. There was a big fire in the woods there and it looked as if some homes might be in danger. A number of citizens and soldiers left in autos and gave valuable assistance. Over 60 acres was burned over and the fire was pretty well extinguished but liable to fan into flame again if the dry spell continues and the wind blows strong.

Monday morning fire fighters were called out to save property in the vicinity of Oak Grave Cemetery.

In this extreme dry weather everyone is criminally neglectful if fires are lighted which they cannot control.

ELBERT C RATHBURN.

The death occurred on Monday May 6 at his home, East Boston of Elbert C. Rathburn, son of the late captain Charles Rathburn of Avonport, age 44 years. He leaves to mourn their loss,

his wife, daughter of S. P. Schurman, Mount Allison, three sons and daughter, his mother, Mrs. Susan Rathburn, a brother March, and a sister Cora in Avonport, two half sisters Mrs. H. Brown and Mrs. C. C. Webster, in U. S. Mrs. Rathburn was a yacht builder by trade and a man well liked by all who knew him. m f all who knew him.

WOOL— WOOL—

The undersigned will be ready to receive Wool (unwashed preferred) June 1st to 15th inclusive. Be sure to send it along. If you are not a member of the Canadian Wool Growers Association you ought to be. They belong to a different class than the rag and junk dealers that are so hungry for your wool.

If it were not for our Association others would only offer you about 40 cents per pound. Ask those who put their wool thru our Association last year what they think of it. Would refer you to A. S. Burgess, Canning or Joseph Kinsman, Lakeville. Write or phone them they will tell you how to market your wool to profit.

We will give you a good advance if you want it, as soon as we receive your wool. Annapolis Valley Wool Growers Association, J. L. PINEO, Secty, Kentville. supas
