

NEW ADVERTISEMENTS.

THIRD PAGE. Men wanted... Phoenix Mills Administration...

LOCAL NEWS.

CARDUAG BRIDGE.—The bridge across the Keswick at Cardigan station is being repaired...

OUR HORSES.—Reid, Peabody and Dr. Brown's horses which are at the Bangor fair are highly spoken of by the Bangor Commercial.

TO BE.—Miss Annie Wasgott, of Bangor Me., a niece of Dr. Torrens of this city is to be married to Edgar A. Whitledge, of Lawrence, Mass., on the 14th of October.

LOTHINGEN EXPRESS.—The C. P. R., is arranging for the running of a lightening express between Halifax and Chicago, during the world's fair. It will average sixty miles an hour.

IN THE FAMILY.—Mrs. H. A. Costigan, formerly Miss Downing, carried off the ladies and gowns prizes in the M. R. A. rifle matches at Winnipeg.

ABOUT A.—The schooner, Genesta, ran aground at the wharf above the highway bridge on Thursday and required some strong efforts to tow away again. A dredge is wanted there to bury it.

ORANGE LODGE.—An Orange lodge has been organized at the month of May with John P. Pond of Durham, master. Members of the order from this city and Maryville took part in the organization.

DIVORCE CASE.—Deputy Sheriff Hawthorne was at Keswick on Wednesday serving papers in respect to a divorce suit, entered at Houlton, between Keswick parties. The wife who lives at Keswick it is said will not defend the suit.

SENT UP.—Private Dupluis, who appears to have a penchant for getting into trouble has been sent to jail for four days for stealing money from one of his comrades. His pay will also be kept back till the amount of the loss is made up.

ENGINEER REMOVED.—David W. Brown, engineer of the Woodstock bridge, has not given satisfaction and has been removed. Alfred Haines of St. Marys has been sent to Woodstock to look after the work. Hon. P. G. Ryan visited the bridge and apparently not satisfied with the condition of affairs.

ST. MARY'S SOAP WORKS.—Rumors are in circulation that the soap company intend in a short time to start up their works and that Mr. Foster will run the factory. J. M. Wiley has taken a hold of the business and will make it pay. The plant is good, the site excellent, all that appears to be required is push.

BRICKS FLYING.—James O'Brien and Edward Segge have been hurt at the York street school building. O'Brien was struck by a brick that fell from a staging. He received a severe wound on the head but will come out all right. Segge was also struck on the face by a brick, receiving quite a cut which bled profusely.

GORED BY A BULL.—John Cullingham of Keswick had two ribs broken and received several other injuries on Friday, the 30th ult. He was crossing a field when he was attacked by a bull, caught on the animals horns and thrown against a fence. He had strength enough to get over the fence, and thus escape with his life. He was brought here for treatment.

RETURNED.—Dr. Linn, who has returned from a trip to Manitoba with a number of his many patrons, his Dental Office on Queen street, Fredericton, is again opened; also that he has secured the services of Dr. Agnew as assistant and that all branches in their profession will receive careful attention. Nitrous oxide gas administered for painless extraction of teeth. Gold filling and extracting teeth specialties.—31.

KNIGHTS.—On Tuesday evening, Fowler uniformed rank, Knights of Pythias of this city had a parade through the streets, headed by the Fredericton brass band. The men looked and marched well, their uniforms were uniformed and plumed helmets causing much favorable comment. They with their friends spent a pleasant time at Pine park. This is one of the organizations that the city feels proud of.

OLD BUT EVER YOUNG.—All should read the "Book of Monte Christo" commenced in next issue of THE HERALD. It is a standard story, those who have read it will be glad to read it again while those to whom it is new will be infatuated with it. Don't miss the opening number. If you are not a subscriber send in your name at once, and get the best weekly paper published here as well as the best copy that has ever been published.

ENGLISH MURDERER.—The Reporter in a recent editorial says anent the rumors respecting a local election that "a certain element, the key to the situation in York county at least, is out of harmony just at present." Mr. Pitts murders the English language in such a beautiful manner that he thoroughly justifies his readers. Will he please inform us what dire threat or magnificent editorial display he has hidden under the above sentence?

HEALTH MEETING.—A special meeting of the provincial board of health was held at St. John on Thursday evening. The meeting was held in consequence of the dread of cholera and the reports respecting the condition of the quarantine station. Dr. Currie, of this city, was in attendance. He said that steps would be taken to have the buildings put in order and that a vigilant quarantine would be established at all the provincial ports.

BROWN'S COUNSELLORS.—The friends of Coun. McKean of Brunswick who are inclined to carry Coun. Spencer Inch with him in the approaching municipal contest. As all are aware these councillors do not agree on the appointment of an assessor and many thought that as Coun. McKean had been longest at the board his views should have carried. Coun. Inch's nominee got the position and one of Coun. McKean's friends was left out. This friend and others would like to know if they will be asked to support Mr. Inch.

DETECTIVE ARREST HIM.—F. Jefferson Hall reached this city from Boston where he had been implicated in violations of the law and registered at the Barker. His profile and description had been forwarded to detective Roberts who kept him under surveillance. Having no order to arrest the man, Hall was allowed to go. On Wednesday morning Detective Geo. M. Robinson of the Boston police reached here but his bird had flown. His mail had been ordered back to Albany and a despatch was sent from there to arrest the man who called for his mail at that office.

FLOATING IN THE RIVER.—Voy and Logan, two young men of St. Marys, report that on Saturday they saw the body of a man floating in the river, passing under the highway bridge at the third span from the St. Marys shore. From the current it is supposed that the body has either lodged under the raft jacks above Babbits mill or will be found in the Gill boom. Both young men are respectable and can be treated with the fullest confidence. No one appears to know anything about a drowning up river within the past fortnight. A body in the water for a longer time than that during the warm weather would not float. It is believed that the young men were mistaken as nothing has been seen although search has been made.

STARTLING DISAPPEARANCE

William Smith's Child Lost at Doak Settlement.

Considerable talk has been excited on account of the mysterious disappearance of a child at Doak Settlement, two miles below this city, on Saturday last. The lost child is an infant of but nineteen months. William Smith, the father, is a farmer and on Saturday afternoon was working in front of the house, about fifty rods away. He went to the house to get a drink and gave the child some milk to drink. It sat on the doorstep to drink it. The mother called it into the house but it did not go and she closed the door which on account of being too large did not shut closely. In about fifteen minutes after the child was missing and up to the present has not been heard of. The neighbors at once began a search and some forty or fifty persons have been scouring the woods all week. The city council took the matter in hand and Phillips and Roberts were sent down. Their finding was similar to the statement given. Several theories are advanced. Some say that it has been stolen by tramps while for a day or two the general talk was that the child had been devoured by bears. On Thursday afternoon Mr. Farrell and the police went down to the scene of the disappearance, but failed to find any clue. It is advanced by several that on account of its age would not be likely to travel far and would be able to get to the woods by the time it was missed. Others say that it would not be seen crossing the fields, though there were farmers in neighboring fields, as it might go along the fence or in the dead furrows and would then be hidden by the ridges of ground.

Mr. Smith is well known to most of the citizens as for many years he was mail carrier for the I. C. R. He went with his family to Doak settlement about two years since. There are four other children.

While at Smith's on Thursday afternoon, the house was searched from top to bottom by Mr. Farrell and the police yet they failed to discover any clue. The mother was subjected to a rigid cross examination and reiterated the statement as given above. Mr. Smith was told of the rumors in circulation that either himself or wife had dealt unfairly with the child and he was recommended to put himself in the hands of the police magistrate and to ask for the fullest investigation. He appeared at the court on Friday morning and did so. Before the police left the house on Thursday, Mrs. Smith was asked: "If you knew that the child was missing, would you have any objection to your name being put in the papers as a witness to the fact that the statement you have made respecting the disappearance of your child is true?" She replied that she would.

A report was in circulation that a former resident of the settlement named Snape, was seen with his dog in the vicinity of the house about the time that the child disappeared and a request was made by Mr. Smith that the police magistrate should ask the chief of police of St. John to visit his house and see how many children were there.

All sorts of rumors are prevalent but nothing in the shape of a clue has been reached. Mr. Smith tells the story of the disappearance plainly and removes all doubt from the mind of a listener. Mrs. Smith, who is not strong, being subject to epileptic fits, does not show so much sorrow as a healthy woman would do, and this is interpreted by some to be against her. She however, tells her story plainly and does not deviate in the least from the first statement made by her.

BOOM IT! All Citizens Should take an Active part in the Exhibition.

It is in the interests of the city that the provincial exhibition to be held here during October 5th, 6th, and 7th, should be boomed by all. Every one should work with a will to strengthen the hands of the society that this show will long be remembered as the most successful ever held here. A grant of \$50 has been donated by the society to the firm who will make a display that will be pleasing to all. The Foresters from Millville, Keswick, Maryville, St. Marys and this city with all visiting brothers will, it is believed, have a torch light procession on one of the evenings of the fair. Prizes will be offered for all classes of farm produce, as well as in all lines of home manufacture and fancy work. Competent judges will decide and the contest will be carried on as impartially as possible. Let all try to have an interest in the show, either by putting in an exhibit or by helping along the demonstrations. Some beautiful horses will be shown, and reports from St. John, Chatham, St. Stephen and Woodstock are that horses will be sent from each of these towns to compete in the races for which cash prizes of over a thousand dollars will be awarded. Special rates will be the rule on all steamboat lines and railway routes, and visitors will find plenty of room and good accommodations.

THE MCADAM ROBBERIES. Grant and Nason to Stand Trial at next County Court.

On Friday night, the 30th ult., policemen Roberts and Phillips went to McAdam Junction, and in the morning started the yard of the machine shop where in a few minutes they created something of a sensation by shackling several young men to the nearest telegraph poles. A short time since the James House and H. Dinsmore's shop were entered at night and cigars, porter and other property stolen and destroyed.

A complaint was lodged against Otis Grant, Percy Grant, Melbourn Nason and John Shea, and their trial began on Monday before Mr. Marsh and finished on Thursday. Griffin, a night watchman testified that he heard a noise in Dinsmore's shop about twelve o'clock on the night of the burglary and that he hid himself in some weeds near the building, that he saw one of the Grants and Nason come out of the building, that one said to the other: "We made a good haul this time." When cross examined by A. J. Gregory, when asked the question, he said that he was not on duty at the time, that he had not seen the men, that he had not seen the property, and that he had not seen the men.

The Presbyterian Sabbath school, in connection with the working band, are making every arrangement for the holding of an enjoyable picnic. The spot selected is an attractive one. It is on the farm of Mr. McLean on the line of the Canada Eastern railway and will be found specially favored by nature for such a purpose. The many sports planned for will be looked upon by attentive persons who will see that opportunities will be afforded to everyone to engage in them. For the winners, handsome prizes are provided and are on exhibition at the store of McMurray & Co. Refreshments will be for sale on the ground, and for those who have not provided, a basket dinner will be served. Everybody is sure to come; if not in the morning at least in the afternoon as the train will carry you on the same ticket. The picnic will be held on Tuesday next.

UNDER THE MOONLIGHT.—Thursday, Sept. 6th, has been chosen as the date for the Royal Arcanum outing from this city. As this will be the 14th anniversary of the founding of the order here the intention is to have a grand time. A visit will be made to the picnic grounds at Gagewton during the day when the C. R. I. band will discourse some of their best music. An efficient committee was left out. This friend and others would like to know if they will be asked to support Mr. Inch.

YOUTHFUL CRIMINALS.—Last night A. Haslin was guarding J. J. Weddall's store and about ten o'clock saw a youth enter by a back window. He caught him and gave the alarm when Phillips caught two others who were waiting outside. The store has been entered for the past five nights and money taken. One of the boys is but twelve years old, the other about sixteen or fifteen. Their names are Jarvis, Webb and Rowe.

HIGH LEVEL ROAD.

A Public Work that will Benefit all the River Farmers.

The road through Douglas to Keswick has long been a favorite with the up river farmers especially when they had heavy loads to and from town as it was very level. There was one place, however, that was always dreaded; that was the piece of road that crossed the farms of Jos. Hawkins, John Williams, Mrs. Scott and Dr. F. M. Brown. All through the spring and fall freshets it was flooded and full of holes. Farmers from Queensbury, Southampton, Bright and Douglas felt when they got their teams through without breaking a leg. Bad as it was it became ten times worse when the railway was built. Teams had then to cross the track and across it on this mile of road and trains could not always be seen. As they ran close to and above the road horses that would face the train at a level always located frightened and if they could not be kept on the road there was a fall over the side of about four feet and then there was the river. All will remember the narrow escape made here by Frank Bird and several ladies who accompanied him last spring. His horse, a valuable one, was dashed to pieces and the sleigh strewn in fragments along the track. Many farmers tell of having their loads on the railroad track for a hundred yards or so, bumping over the sleepers, till a cut could be made across the fields. Everyone who drove the road felt relieved when this dangerous spot was built. Teams had then to cross the track and across it on this mile of road and trains could not always be seen. As they ran close to and above the road horses that would face the train at a level always located frightened and if they could not be kept on the road there was a fall over the side of about four feet and then there was the river. All will remember the narrow escape made here by Frank Bird and several ladies who accompanied him last spring. His horse, a valuable one, was dashed to pieces and the sleigh strewn in fragments along the track. All will remember the narrow escape made here by Frank Bird and several ladies who accompanied him last spring. His horse, a valuable one, was dashed to pieces and the sleigh strewn in fragments along the track. Many farmers tell of having their loads on the railroad track for a hundred yards or so, bumping over the sleepers, till a cut could be made across the fields. Everyone who drove the road felt relieved when this dangerous spot was built. Teams had then to cross the track and across it on this mile of road and trains could not always be seen. As they ran close to and above the road horses that would face the train at a level always located frightened and if they could not be kept on the road there was a fall over the side of about four feet and then there was the river. All will remember the narrow escape made here by Frank Bird and several ladies who accompanied him last spring.
