Politics Put Down as a Cause of Lunacy in Ireland.

The Bank of England and American Securities.—Sir Horace Davey Elevated to the Bench.—Continental Collieries Closing.—English Factories shut Down From Lack of Coal.—A Anniversary of the Scotch Church at Rotterdam.—The Czech Revolt.—Yesterday's Cholera Record in England.

PARIS, Sept. 14.—The Brazilian Government's delegate now has announced receipt of an official despatch from Rio Janeiro dated 4 p.m. yesterday, saying that the insurgent vessels only bombarded the town of Niteroy in Rio Bay, the old capital of Brazil, and present capital of the Province of Rio de Janeiro.

The despatch also says it is incorrect that the insurgent ships claimed in leaving the bay. The despatch states that Niteroy heroically resisted all attempts of the rebels to land, and that the army of the National Guard, police and public side with the Government and are ready to defend the republic. All the states, it is claimed, are unanimous in condemning the revolt.

The delegate also pointed to the fact that the message makes no mention of the bombardment of Rio and he says that he cannot believe that it is so.

Rebels Burned Gambon.—A Gunboat in the Bay.

PARIS, Sept. 14.—The German corvettes Arcona and Alexandrine departed hurriedly last night for Rio Janeiro.

President Piexoto controls the telegraph. All news must consequently be accepted with reserve.

The rebel squadron to-day bombarded Gambon and seized the gunboat Alagoas.

All officers of the cable company had to be abandoned owing to the fire on the vessel. The fort on the flagpole of the rebels. The ironclad Bahia, which was steaming to Paragary, has been ordered back to Montevideo. The gunboat Teradentes is now at Montevideo where it is expected an attack will be made by the rebel transport fleet.

The complement of Brazilian naval officers is 486. Of these 296 have joined the rebel army.

The flight lasted six hours.

The first gunboat to appear in the bay, the signal "cease firing" was displayed on the fort. The noise of the bombardment was deafening. From all the advice at hand, however, it appears that little damage was done either to the forts or to the warships. The 20-ton breech-loading guns of the Aquidaban did not appear to be well-handled, and many of their shells failed to explode.

Rebel marksmanship was displayed by the gunners in the forts. Considerable excitement prevailed in the city during the continuance of the hostilities. At 3 p.m., after the bombardment had lasted six hours, the signal "cease firing" was displayed on the flagpole, and the rebel fleet withdrew. There were a few casualties among the Government troops. The loss to the rebels or the damage to the ship is not known.

THE EMERGENCY WOMAN.

She Doesn't Lose Her Head When Things Go Wrong.

Materially, the woman who is calm and collected in a panic and aids materially in subduing it, when someone falls in a faint, knows just what should be done and proceeds to do it, thereby perhaps saving a human life...

Such a woman is thoroughly unselfish. She gives the better half of herself to the service of humanity without expecting or demanding any return.

There is another type of emergency woman who deals with mental and moral attributes instead of material things.

She is almost as efficient in her own way as the other, although instead of a practical or a balm, she gives a smile, a kindly word, a cheerful grasp of the hand, a tear of sympathy.

There is encouragement in her voice, sunshine in her smile, and a better atmosphere where she is. It is her mission in life to make the best of everything by a constant trust in God.

Had the Bishop of Calgary carried his point the delegates of Montreal would have been instructed to refuse to enter into the synod until it was provided that the retention of the provincial and diocesan synods should be optional with the different provinces and dioceses.

Dean Carmichael of Montreal pleaded most eloquently, and even when the delegates had to vote—and the majority were on their feet—in a faltering voice and with greatest emotion the result of the motion.

A committee formed declared the delegates a senate, based on the Winnipeg scheme, subject to the revision by which provincial synods may or may not be retained.

There will be a convocation service in Convocation Hall, Trinity College, at 5 p.m. to-day for the purpose of receiving honorary degrees on the bishop and some of the other clergy.

A SYNOD BUT NO CONSTITUTION.

Result of the Deliberations of the Anglican Delegates Yesterday—Convocation in Trinity To-Day.

A large number of interested Anglican delegates assembled in Convocation Hall, Trinity College, yesterday morning at 10.30. Though the bishops had agreed to accede to the invitation of the delegates and had presented themselves, it was most questionable what action they would take.

It was learned that the bishops had held a long and heated discussion and their final decision was not unanimous. So it was evident that if not the majority a large portion of the minority would contend that a General Synod was in existence.

It was soon discovered that a large majority of the bishops were of this mind, and were determined to maintain that the constitution, which the Provincial Synod of Canada had proposed in the "Winnipeg scheme," was the actual constitution of the General Synod which they claimed to be in existence.

This discussion was not one on technicality. It was a dispute which had or has its roots in the fact that the Church of England into two classes. The Winnipeg scheme grants to the bishops second-class status, which gives them certain arbitrary powers.

The Most Rev. Mackay, Westman and Courtney maintain that the synod was in existence, that the Winnipeg conference created itself into a synod, and that the delegates had been chosen for a General Synod. Rev. Drs. Langry, Johnson, Kelly, Blair, Mr. Justice Harrington, and Messrs. Davidson, Wilson and Worthall made powerful arguments against such a contention.

The bishops at length appeared to recognize their inferiority in strength and argument and were ready to make concessions, and finally yielded this point. A committee was proposed to draft a form of declaration. The Rt. Rev. Bishop Silotte of Calgary attempted to expedite matters, and raised a question, the solution of which was brief but the most exciting of the day, and one small error might have wrecked all the hopes of establishing a General Synod.

Had the Bishop of Calgary carried his point the delegates of Montreal would have been instructed to refuse to enter into the synod until it was provided that the retention of the provincial and diocesan synods should be optional with the different provinces and dioceses.

Dean Carmichael of Montreal pleaded most eloquently, and even when the delegates had to vote—and the majority were on their feet—in a faltering voice and with greatest emotion the result of the motion.
