Local and Special News.

—Go to Middleton on Labor Day for a good time.

—The stores in town will be closed on Labor Day.

—Latest novelties in Silk and Chiffon Neck Ruffs at Strong & Whitman's.

—Middleton is advertising a big Labor Day celebration and has the reputation of giving what she advertises.

—Mrs. Hovey has reduced the whole line of Summer Hats to 25c. How fast they go.

—Strong & Whitman's new House Stripes, in blouse lengths. No two patterns alike.

—The Maritime Baptists met in their fifty-seventh annual convention at Yarmouth on Saturday.

—Mr. Vernon Messenger was in town this week distributing advertising matter for the Halifax exhibition.

—Found at Bridgetown station, a ladies' silk parasol with bone handle. Owner may have same by calling at this office.

—The town of Liverpool, N. S., is to take a vote of the ratepayers on Monday next to decide the question of the incorporation of the town.

—For Labor Day the Dominion Atlantic Railway will issue excursion return tickets between all stations at single fare on Aug. 30th and Sept. 1, good to return until Sept. 2nd.

—Rev. W. H. Warren, formerly pastor of the Baptist church of this town, has resigned at Montague, P.E.I., except a call to the pastorate of Isaac's Harbor, in this province.

—Our town athletes who went to Middleton last year on Labor Day were pleased with the fine prize list offered. This year the sports at Middleton promise to be still better than last.

—The excursionists who left here last Tuesday for a trip along the Maine coast, touching at Eastport and Bar Harbor, returned yesterday, and are enthusiastic over the pleasures of the trip.

—For the St. John Exhibition the Dominion Atlantic Railway will issue excursion return tickets to St. John at single fare, from Aug. 25 to Sept. 6th inclusive, good to return until Sept. 9th.

—The Methodist Sunday school picnic, which was to have been held today, is postponed till to-morrow, the time serving as a more convenient hour.

—The tug Marina conveyed the picnicers to Annapolis, leaving here at seven o'clock.

—A despatch from Winnipeg, Saturday, says: "Up to date the total arrivals of harvesters' hands amount to 23,700. Among today's arrivals were many from the maritime provinces, and all were quickly picked up by farmers at good wages."

—The schools open here on Tuesday, Sept. 2nd. Three vacancies on the teaching staff of last year are being filled by Mr. Ernest Robinson in the advanced department, Miss Flora Chute in the primary, and Miss Annie Kinney in the primary.

—Great attractions are being offered by Annapolis for Labor Day, and a large number of visitors will no doubt take advantage of the opportunity to visit the town. The ladies of the Methodist church there will aid to feed the picnicers at a tent inside the market enclosure at the old fort grounds, where all the events will take place.

—There will be no camp at Aldershot this year, but there will be a divisional camp for twelve days at Sussex, opening on Sept. 9th. It will consist of the fifth and sixth divisions comprising New Brunswick and Nova Scotia brigades. The latter consists of the following Nova Scotia regiments: 68th, 70th, 75th, 92nd and 94th.

—The powder magazine at Thorburn, owned by the Acadia Coal Co., was deliberately blown up on Saturday by a fifteen year old boy named McNelly who was killed in the explosion. A seventeen year old named McDonald was injured and others had narrow escapes. The roof of the powder house was blown out and a building near by was blown to atoms.

—The marriages of two of Bridgetown's fair daughters take place today. Miss Minnie Morse is married to Mr. Edward Marshall at Clarence, at the home of her grandmother, Mrs. Elizabeth Foster, at half past nine, and the wedding of Miss Jennie Stanton to Mr. Winifred Clifton Holbrook of Sharon, Mass., takes place at the home of her father Mr. John E. Stanton.

—Bridgewater Bulletin: Mr. Holt has gone to Toronto to close with contractors of the immediate vicinity, the Canadian Manufacturers' Association in session at Halifax, passed a resolution calling for the immediate revision of the Dominion tariff, with the object of greater protection for Canadian goods, especially against goods imported from the United States. While the resolution declares that the minimum tariff must afford adequate protection to Canadian producers, it favors a substantial preference toward the United Kingdom or other parts of the Empire with which reciprocal preferential trade can be arranged. Mr. Tarte, Canadian Minister of Public Works, made the principal speech supporting this resolution. He said that Canadians must no longer see their markets slaughtered by American manufacturers; that the goods of Canada were a higher tariff and an improvement of waterways the Georgian Bay. Timely rains have done something towards replenishing the reservoir, and the leakage has been temporarily remedied, but evidently some new disposal of the pipe will have to be made to prevent a recurrence of the trouble.

—St. John Sun: Miss Lida Munro of Bridgetown, N. S., who has been visiting in the city for the past week, the guest of Mrs. Dr. Wheeler, west and contributed two exquisitely rendered German songs to the musical program of the German Free Baptist Church last evening. Some four years ago Miss Munro supplied for a number of Sundays in this church, where her sweet soprano voice and the charm of her manner won her many friends. Since that time Miss Munro has travelled extensively, visiting among other places Cape Town, where she spent some months, and later at London, England. At both the above places she was able to perform her musical studies under eminent teachers, which she did to good purpose, as was evinced by the unusual rendition of her two solos "Ora pro nobis," and "Fear Not, O Israel," last night.

—Judge Meagher, holding Supreme Court in Sydney, appears to be making himself rather unpopular, two episodes having occurred during the week in which his efforts to enforce his judicial authority resulted in considerable popular unpopularity. The Maritime Board of Trade holding session in Sydney had been grouped on the steps of the station when Judge Meagher wishing to pass out of the entrance, and not being made way for ordered the sheriff to clear the way. He followed up his order by remarks of an unpleasant nature, which the members of the Board resented, and J. E. DeWolf, vice-president, later undertook to remonstrate with the Judge, when he was promptly placed under arrest. He was released shortly, however, but by this time a general ill-feeling was stirred up. On Friday Mr. Gillies, a Sydney lawyer, while pleading his case, was temporarily ordered by the judge to sit on the bench and threatened with arrest if he refused. Mr. Gillies left the court and withdrew from the case. It is rumored that the Judge's conduct in the former instance will be brought before parliament next session by the Cape Breton M. P.

—Rev. E. E. Daley and Mr. Charles Marchant attended the Baptist Convocation at Yarmouth, as delegates from the Bridgetown church.

—Mrs. E. C. Young attended the meetings of the Women's Baptist Missionary Union at Hibernia, Yarmouth Co., last week as a delegate from the Bridgetown society.

—Rev. Fletcher Pickles, Methodist minister, now living at Neweastle, N. B., was in town last week. He has retired for a year from active work and is talking of making his home for the time in Bridgetown, the home of his boyhood.

—Mr. Frost of Boston after a four week visit to his parents, Mr. and Mrs. Robert Eggleston of Granville, Pa., daughter Ethel has left for Philadelphia, Pa., with her aunt, and will spend the winter in that city.

—John Hancock Field: Charles C. Bath of Lynn, has been promoted to an assistant in that district. He has been in our service less than two one-half years. His record is an exceptionally good one. Last year he stood fifth among all of our agents. He gave up a debit of about \$165.00, having created the larger part of it himself. He is a hustler, very enthusiastic and ambitious, and we have no hesitation in predicting his success in his new position.

S. S. INTERNATIONAL CONVENTION

Table listing names and amounts for the S. S. International Convention, including Torbrook Mines (Methodist) \$14.88, Madouville (Baptist) \$5.00, etc.

Please remember the Brooklyn convention begins on the evening of Tuesday, Sept. 2nd, and continues throughout Wednesday. The workers' conference is especially for county and district officers, who should make special effort to attend. The presence of Mr. Simpson and Prof. Sawyer, Provincial President, combined with the hospitality of the people and one fare on the railway should insure a large attendance of delegates who would be profited by their coming.

It affords us much pleasure to thank all who have contributed towards the funds, and will be pleased to receive all further sums sent in.

C. F. ARMSTRONG, County Secretary.

HYMNAL.—HALL-POOLE.—The marriage of Jas. Vivian Hall of Lynn, Mass., to Watson Dunn Poole of Salem, Mass., took place Wednesday, Aug. 20th, at Lynn. A social ceremony was performed by the Rev. A. J. Marsh of the High Street Baptist Church.

Immediately after the ceremony the happy couple left for a tour of the "Land of Evangeline," formerly the home of both parties, and are at present visiting friends at Hampton, Fort Louis, and other places of interest. Upon their return to the U. S. they will reside at Salem, Mass.

THE ANNUAL PICNIC OF THE ST. JAMES SUNDAY SCHOOL.

This enjoyable outing took place last Wednesday under the pines at Mr. Bernard Spar's, West Paradise.

Eight teams, ranging from the back-bowling to the hay wagon, started from St. James Church with the main body of the merry party, and before our kindly host could leave his barn he had twenty-five extra horses under his care, and a crowd of nearly two hundred happy souls roaming about his grounds.

The various dispositions which prompt to action or to looking on were satisfied through a long and lovely afternoon with swings, scrambles and races; while two pairs of quills, a long-suffering croquet set, and a self-sacrificing base ball provided means for that getting ahead of one's companions which seems inseparable from all social enjoyment. The program of the race was, I am assured by several of the prize winners, most correctly brought off; but the last race—the youth league—was the one which caused the greatest excitement. At first it was difficult to secure interest, and "dead ends" were suggested, but rivalry and interest on one race high, popular rivalry, duly was the winner.

When tea—a sumptuous repast—was served it was found that the old but no more were there, all were young—appetites renewed their youth league, and the infectious enthusiasm of those who organized the games, and the watchful and untiring supervision that anticipated the wishes and requirements of each individual, are factors making for success that we can not afford to forget.

Many fresh faces were there, and the old habitués hope that their welcome was extended through the friendly presence in the years to come.

Though it is still too early to speak of the St. James' Sunday school picnic, yet the standard as now set by the operators, and the high standard of reunion at the entertainment of the children merely assumes its proper value as the item of primary importance.

One is tempted before concluding, to allude to the various causes of the success of the day, though in so doing one runs the risk of being guilty of the impertinence of appearing to undervalue the energy of the management, Sunday school teachers, and the untiring enthusiasm of those who provided prizes for the children, the necessary assistance of her sister, Mrs. O. T. Daniels, and the requirements of each individual, are factors making for success that we can not afford to forget.

Mr. Copwell is attending the convention at Yarmouth, where she went as a delegate.

MARITIME BOARD OF TRADE. The eighth annual session of the Maritime Board of Trade was held at Sydney last week, over one hundred delegates being in attendance.

The president, Mr. W. A. Black, occupied the chair, and on his right sat Mr. John H. Fisher, president of the Maritime Board of Trade, and on his left the president of the Charlottetown board.

In opening the session Mr. Black stated that it was a matter of congratulation that the second met under such favorable circumstances; it was the largest gathering yet held.

Mayor Crowe was then introduced and addressed a large number of welcome to the delegates. He welcomed them cordially on behalf of the town of Sydney, and with the best wishes for a successful convention.

The president then read his annual address and the business was proceeded with.

The first subject for general discussion was "Forest Preservation." The opinions of the delegates were embodied in the following:

"Therefore resolved that in the opinion of this Board the time has arrived when laws should be directed for the protection of the timber lands of the Maritime Provinces in the most effective manner as far as possible immunities from the ravages of fire for a more careful and scientific protection as regards the cutting of timber, and also as far as may be practicable the encouragement of the planting of forests."

The transportation question was exhaustively discussed, and the resolution was unanimously passed in favor of our Canadian route for trade, and their better protection and equipment was unanimously passed.

Senator Wood, in seconding the resolution, stated that the whole of Canada's trade could not at the present time be accommodated at Canadian ports, notwithstanding the improvements that had been made at St. John and elsewhere; that the government deserved credit for what it had done in the way of facilities and lightening freight, and he felt that there was now a feeling of hopefulness in all parts of Canada which did not exist a few years ago.

Every one was looking forward to a bright future. Great industrial and agricultural development was taking place and this year Canada would see the largest immigration in the history of the country. Trade was bound to increase, and it must be provided for.

A strong resolution was passed on intercolonial trade relations, favoring closer political and commercial connection with Newfoundland and West India Islands. A. C. Bell, M. P. for Pictou, in closing a strong speech on this question, said: "We should work incessantly to bring Newfoundland within the political fabric of Canada and to bring the British West Indies and British Guiana within the fold as well."

The subsidizing of steel shipbuilding was discussed at length.

The subject was forcibly handled by Mr. T. McKean of Sydney, who impressed upon the Board the importance of the question. Mr. McKean said he did not speak for any one portion of this country, he spoke for the whole of Canada. Ship building is something we must have, and we will work it. It behooves Canadians to get to work in this matter and inaugurate a policy which would eventually place Canada first in the matter. We have the opportunity and if we do not take advantage of it we will be very regretful in our duties. He moved the following resolution, which was seconded by Mr. Campbell of Halifax:

"Whereas, it is most desirable that the Canadian products should, as far as possible, be carried in Canadian built ships; and whereas, the establishment and operation of large ship building plants in Canada would prove to be of immense advantage to the whole country; and whereas, the maritime countries have either directly or indirectly given liberal financial assistance to their marine and prospective Canadian builders have, therefore, been seriously handicapped in competing with the old established yards of Europe and the United States;

Therefore be it resolved, that the Federal Government of Canada be asked to grant a tonnage bounty large enough to enable Canadian builders to compete in this industry, and have it extended over a term of years sufficiently long to secure the permanent establishment of this industry, which is vitally important to the business interests of the country.

The resolution was passed unanimously.

C. E. Bentley, Trenton, moved the following resolution with respect to better roads:

"Whereas, the country roads of the maritime provinces are in a deplorable condition notwithstanding the large amounts granted by the respective governments as well as statute labor performed on them;

And whereas, this maritime board of trade are satisfied that the present system of disbursing the large amount voted for road purposes does not produce the best results, and the amount had condition is a serious menace to the growth and prosperity of the country;

Therefore resolved, that this Maritime Board of Trade would strongly recommend each province to appoint a competent instructor in road-making to instruct the county or district supervisor, and to oversee generally the construction and maintenance of roads.

Mr. Bentley stated that if ever we are to have good roads, the expenditure of money for such purposes must be taken out of the sphere of politics.

"Is not the last Atlantic service the absolute necessity in the development of the Maritime Provinces?" was the next question discussed, and it proved the most important one of the day.

It was concisely handled by Captain Allen of Kings county, who moved the following resolution:

"Whereas public opinion in Canada has pronounced emphatically in favor of a fast service between Canada and the United Kingdom, equal in speed and appointments to any now crossing the Atlantic;

And whereas we are of the opinion that the routes to be followed by the steamers of the line should be such as would enable them to run as nearly as possible at full speed from port to port with the least risk or detention by fog or ice, and;

Further resolved, that in the opinion of this convention the terms of Canada should be the nearest available port to Europe, where ships of such large size can come and go with safety and despatch at all seasons of the year."

Charlottetown was chosen as the next place of meeting. The following officers were elected: President, Horace Hazard, Charlottetown; vice-presidents, J. E. DeWolfe for Nova Scotia; D. H. Welch, Moncton; permanent secretary, C. E. Crook, Halifax; corresponding secretary, E. G. Wigg, Charlottetown; and J. O. Allison, St. John.

Mr. and Mrs. Wallace Marshall, Mr. Willie S. Messenger has taken a school in Tiverton, Digby Co.

CORNER KINGS COLLEGE. Especially interesting services were held in St. James' Church in this city on Sunday last, when the Rev. S. Weston Jones, rector of Christ's Church, Windsor, addressed large congregations on behalf of the professions of Kings College to the sympathy and support of Church of England authorities in this diocese.

After the usual services of morning and evening prayer, the Reverend gentleman addressed a most interesting account of this ancient and historic institution of learning for the higher education of the youth of our country. Chartered by King George the Third, having for its patron the Archbishop of Canterbury and for visitors the Bishops of Nova Scotia, giving to the country in the past years of the highest standing and attainments, and who have occupied the first place in the professions of the army, the law, engineering and the ministry. It was claimed that when done now and in the future, if members of the old historic Church of England in this maritime province about this Dominion would rally round the old university, assisting it with their sympathies, and if, if required, and thereby asserting their loyalty to their King, their Church, and their country, and to the most useful and noble foundation principle of all Church of England teaching, that the Christian education and taught in our schools, Reference was made to the religious of "St. John's" and the Roman Catholic colleges to amalgamate with "Baltimore" and "King's" and in higher education, and surely it should not be said that old King's, the pioneer for the Dominion of Canada in the way of facilities and lightening freight, and he felt that there was now a feeling of hopefulness in all parts of Canada which did not exist a few years ago.

Practical Talks and Plain Precepts for Farmers.

Edited for the Farmer readers of the MONITOR by an Anna... Valley Agriculturist

A GOOD THING FOR NOTHING.

It would pay orchardists to mail a paper to... Lockwood, Ontario, for Bulletin 12 on "Spraying."

We have to hand this week the report for 1901 of the agricultural... Central Experimental Farm at Ottawa.

SOIL CULTIVATION.

That our arable soils have undergone a great change since the first settlers strove their furrows deep, is not a matter of doubt.

THE PREVIOUS CROP.

As a factor in the physical condition of a field at a given time, the previous crop on that field is usually of great importance.

HUMUS.

As an influence on the physical condition of a soil, humus is without a peer in the world.

MOISTURE.

Moisture, or water is necessary as a solvent for much of the plant's food.

TEMPERATURE.

The heat necessary for seed germination and plant growth is a relative condition, and so dependent upon the other factors for its effectiveness as to need but little discussion.

CHARACTER OF THE SOIL.

The character of the soil, that is, whether a clay, loam, sandy loam, sand, gravel, muck or peat, is generally speaking, whether of a drift or an alluvial formation.
