LITERARY SOCIETY AT PARADISE

Splendid Programme on St. Cecilia Night—Willing Workers Hold Interesting Session—Social And Personal Notes.

Paradise.—Mrs. Vernon DeLaney and infant son of Springfield, Mass., are visiting at the home of Mrs. DeLaney's mother, Mrs. Geo. Starratt. Mrs. Leslie T. Porter of Yarmouth, N. S., is the guest of her sister, Mrs. J. C. Phinney.

Mr. Fred Worthylake, who has been critically ill at the Memorial Hospital, Middleton, is slowly but steadily regaining health.

Mr. Chesley Rice is ill with a case of grippe.

Rev. A. E. Kochaly of Truro, N. S., in the interests of the Armenian Relief Association of Canada, occupied on March 1st, the pulpit of the Paradise church. In these days of much organized effort, religions and philanthropic, when upon reflection one is tempted to "count the calls," Mr. Kochaly comes with a message so convincing and appealing, he is able not only to make the tears of sympathy flow but the works of the good Samaritan to grow. Mr. Kochaly while here won a hearty response on behalf of Armenian Relief, renewed some old acquaintanceships and made new friends for himself as well as for the work he is carrying on.

A social evening under the auspices of the Women's Institute will be a feature of the present week. On this occasion, Thursday evening, March 4th, at the home of Mr. Byron Chesley and Miss Maggie Chesley, the gentlemen will accompany the ladies. A special entertainment is being provided.

A pleasing and profitable evening was enjoyed Feb. 28th by the Willing Workers and their teacher, Mrs. H. W. Longley. Following the transaction of regular and special business members of the class contributed a much enjoyed programme at which time Mrs. Longley reviewed the class history, covering the past thirteen years. A guessing contest was enthusiastically appreciated as well as was the prize, the same given by Mrs. Vernon B. Morse and won by Miss Lillian Leonard. Plans for the future include the presentation of a drama by the Willing Workers. The class will be entertained March 17th at the home of Mr. and Mrs. H. D. Starratt.

Mr. and Mrs. C. S. Bothamley, Mr. and Mrs. Arthur Phinney, Mr. J. S. Longley and some, attended the banquet of Friday evening, Feb. 27th, given in connection with the Agricultural Short Course held recently at the Demonstration Building, Lawrencetown.

The Paradise Literary Society greatly enjoyed a special meeting, dedicated to Saint Cecilia, at the home of Mr. and Mrs. Arthur Phinney on Friday evening, Feb. 24th. The assistance rendered by Mrs. H. Ruggles, Miss Ethel Daniels and Mr. D. Messenger of Bridgetown, who were present by invitation of the hostess, was greatly appreciated by those present. Col. C. E. Bent, with his sturdy team of horses, very kindly furnished

INTERESTING LECTURE BY PROFESSOR BALCOM

Prof. N. M. Balcom of Acadia University staff gave a very interesting lecture, the fourth in the University Extension course on the subject, "My Neighbor." He discussed the question almost wholly from the economic view. He showed by concrete examples how the different parts of the world had become increasingly dependent upon each other for the material things of life. A particular example was given in connection with clothing purchased in Canada and made in Great Britain from wool shorn from Australian sheep. Hundreds of examples could be given. It was essential to show how neighboring countries were dependent upon each other for the economic prosperity. He praised the work of the League of Nations in so far as dealings with trouble involving small powers was involved but stated that the League had never taken action in disputes to which major nations were interested parties.

FUMIGATION PLANT.

Halifax Delegation Makes Request of Minister of Agriculture, Also For Adequate Storing Warehouses Properly Heated For Apples and Potatoes to be Exported

Ottawa.—A delegation including R. E. Finn, M. P., Halifax; L. H. Martell, M. P., Hants, and E. A. Saunders, Secretary of the Halifax Board of Trade, waited upon Hon. W. R. Motherwell, Minister of Agriculture Friday evening, the establishment of a fumigation plant at Halifax for bulbs and shrubs. The deputation also asked for the immediate construction of adequate facilities affording proper heating for apples and potatoes awaiting exportation in that port.

Hon. Mr. Motherwell promised to give both requests consideration.

EARTHQUAKE FELT IN BRIDGETOWN

Tremors Occurred About 10:20 and Caused Considerable Excitement About Town.

About 10:20 on Saturday night the town was visited by a slight seismic disturbance or in common talk a small sized earthquake. Persons who do not notice anything unusual but people in their homes noticed furniture of different kinds shake and buildings trembled slightly. The disturbance occurred all over Eastern Canada and a large part of the United States. The shock was the heaviest yet felt in New York though no serious damage was done. In the Annapolis Valley the quake was more severely felt than in other parts of the Province. In some hilly parts of the country the effect was quite strongly felt. Mr. P. G. Paul, of Rattling Beach, Digby, had just retired before the shock came which lifted him in his bed. The duration of the quake was short but its presence created great excitement all over the county and furnished an experience entirely new to most people. It is said Bridgetown had an earthquake forty-two years ago.

TOWN PLUNGED IN DARKNESS

Fall of Tree During Gale Breaks Electric Light Wires—Bishop Hackley and Dr. John Cameron Among Visitors—83rd Anniversary of Birth of Mrs. Amos Burns, Clementsport.

Annapolis Royal.—Last week panicles were found in full bloom by Mrs. James Spurr and others, snowdrops were forcing themselves through the ground, and many other signs of spring apparent. On Thursday evening, however, a decided change came, beginning with a terrific gale of wind which for over twenty-four hours raged unabated, accompanied by driving snow. Nearly a hundred feet of plank was blown from the sidewalk of the Granville Bridge and but for the prompt warning of Noble Berry, Albert Baltzer and Hugh Ruffe, who were crossing at the time, on the middle of the bridge, a serious accident might have occurred. Shortly before midnight, a tree fell and struck the electric-light wires, plunging the town in darkness and damage was also done to one of the wharves, several chimneys and many ornamental trees.

Much sympathy is extended to Mr. and Mrs. Warren Harris on the death of their little son Arthur Harding, who was born on Saturday and passed away on Tuesday morning.

Two prominent visitors are expected in town this week. On Thursday evening, Dr. John Cameron of Dalhousie College, will give an illustrated lecture on "King Tutankamen and his times" in the Town Hall, and on Friday Mr. Rev. Bishop Hackley will arrive for a stay of three days. That evening he has consented to deliver an address at the Community meeting in King's Hall. On Saturday a reception will probably be held and Sunday will be devoted to confirmation in the different churches—the service at St. Luke's being in the evening.

Mr. and Mrs. George W. Bellevue are receiving many congratulations on the arrival of twins—a daughter and son—on Monday evening.

Mrs. Winifred L. Nourse, who had spent several weeks at the home of her parents, Capt. and Mrs. Norman Roop, returned to Brookline, Mass., on Friday.

Mr. Arthur M. King went to St. John, on Saturday, to attend the funeral of his cousin, William A. King.

Mrs. Harvey Marshall, who spent several weeks with her niece, Mrs. L. B. Braine, has returned to her home in Bear River.

Mr. Gerald McElhinney went to Kentville, on Tuesday, and assisted that evening at the Song Recital in the United church.

A very pleasant dance was given on Monday evening at King's Hall, which was well attended, in spite of the inclement weather. The music was furnished by Rippey's Orchestra and the chaperones were Mrs. A. Cole and Mrs. F. M. Urquhart.

Mr. and Mrs. W. A. Livingstone entertained on Tuesday evening at a four table bridge party—the prize-winners being Mrs. W. Farnsworth, Mr. Kerr Merriam and Mr. Lewis M. Howe.

On Wednesday, Feb. 18th Mrs. Amos Burns of Clementsport, celebrated her eighty-third birthday. The anniversary was made a memorable occasion by her family and friends, and many gifts and expressions of good-will, including a poem written expressly for the occasion by a name-sake, were tendered her. Since then, her frail state of health has made a more quiet celebration necessary, but with her husband, Capt. Amos Burns, for many years the well known traveller for De Long and Seaman, Boston, and several of her eight surviving children, around her, the anniversary was fittingly observed. A wide circle of friends join in wishing this gentle, kindly lady health sufficient for many more celebrations.

Mr. Arthur Bent, formerly of the local branch of the Royal Bank of Canada, but later transferred to Gloucester, C. B., passed through here on Monday on his way to Yarmouth, where he will be located for the present. Mr. Bent's home is at Granville Ferry.

NOTES AND NEWS OF LAWRENCETOWN

Florida Visitors Like Their Own Nova Scotia Best—Personal and Social Items of Interest.

Lawrencetown.—Mrs. Donald Chase Port Williams, has spent a few days in town at the home of Mrs. J. Bancroft.

Mrs. Beauford Chase was a guest at the home of Mrs. J. B. Hall.

Mrs. Shaw, Clementsport, is a guest at the home of Mrs. S. (Dr.) Primrose.

Miss Elsie Kinney is at home, after spending some time with her sister, Mrs. R. Morse, at Newton Centre, Mass.

Mrs. F. Porter has also returned to town, after spending some weeks abroad.

Mrs. A. H. Whitman and Miss Jean are quite recovered from their attack of la grippe.

Miss Veniott, Clarence, Mrs. S. Bent H. Sheridan, Paradise, Miss Newitt, Digby, have been guests at the home of Mrs. W. Selig, Morgan St.

Mr. N. Parker, Nictaux, has been in town using some electrical device for melting ice in the water pipes. In several places the treatment was a great success. Mr. Parker is a son of our worthy magistrate, Mr. W. Parker.

Mr. James Morrison is much better. He also suffered from al grippé. A card from Mrs. L. D. Hanley, Florida, "We enjoy Florida very much but we like our own country best." That is well spoken, Mrs. Hanley is a right lady.

Ladies of the Methodist S. C. are busy in the good cause.

Sunday night some sacred pictures were shown that were most interesting and instructive. The male choir furnished the music.

We hear our young people are getting up a real jolly play, "The Village Lawyer." All have heard of a Sea Lawyer. Strange to say in Lawrencetown though well supplied with divinity and medicine, we at present have no law.

Last week a "Chain Tea" was held at Mrs. H. H. Whitman's residence. About 50 ladies and two brave gentlemen were present. A dainty tea in liberal quantities was served by state lady matrons and lovely maids. Three large rooms gave ample space for games, music and social intercourse. Some very handsome costumes were seen. Two quite recent brides graced the function.

WEST PARADISE.

Mr. Leland Burke of Port Wade, was a recent visitor at the home of Mrs. Abbie Saunders.

Lieut. Eugene A. Poole has gone to Halifax, to take a short military course.

The Crokinole Club was very agreeably entertained Thursday evening at the home of Mr. Charles Daniels. Delightful refreshments were served by the hostess, Mrs. Edward Bent, Miss Maude Daniels and Mr. Edward Bent were the winners in the game.

VERY INTERESTING TALK ON MUSIC BY MISS ETHEL DANIELS

Last Thursday evening in the vestry of the United church, Miss Ethel Daniels gave a very interesting talk on Music to the C. G. I. T., with their leaders and members of the Girls' Work Board.

Miss Daniels gave a synopsis of music from an early period to the time of the famous old masters as Bach, Beethoven, Brahms, Liszt, Schumann, Chopin and Wagner, showing their pictures.

She went more into detail, telling many of their hardships and failures and showing that perseverance brought success.

Speaking briefly of other composers, Miss Daniels passed from one to another, coming to those of the present time. She played some of the best selections from old masters, Hungarian Rhapsody, Liszt, Fantasia, Mozart, Sanata, Greig, Prelude, Debussy, Polonaise, Bach.

Two selections by Scott and Taylor, modern writers.

A vote of thanks was extended to Miss Daniels by the girls for her kindness.

RELIEF FOR ARMENIANS

Rev. A. E. Kochaly Graphically Describes Yearlong Deeds of Turks And Measures Now Taken For Relief of 250,000 Orphans—Sunday Meeting Here Pledges \$100 to Fund.

A very well attended mass meeting was held in the Baptist church on Sunday evening after the regular services and addressed by Rev. A. E. Kochaly, Maritime Secretary of the Armenian Relief Association of Canada, as he told something of the sufferings of his people and the present needs of 250,000 orphaned children, the victims of Turkish atrocities. The periodic massacres of the Armenian people by the ruthless Turk has constituted one of the very darkest blot on modern civilization and the Turk has only been able to thus carry on his nefarious work or even to maintain a foothold in Europe itself because of the jealousy and division of the greater powers. The United States has given most generously in money to the suffering Armenians but had the American government accepted a mandate for Armenia the later massacres would never have occurred. Such policing as the world secures in disorganized and unfortunate parts it gets from Britain and from Britain alone. These few remarks above are the Monitors and must not be confounded with the address of Mr. Kochaly. It has for a long period been a settled policy of the Turks to exterminate the Armenians because they are believers in the Christian religion. The present horrible situation Mr. Kochaly said has developed mostly because the Armenians dared take the side of the Allies in the Great War of the East." During the war 200,000 Armenians fought on the side of the Allies. These with the Russian in the beginning fought towards they fought with poor equipment and kept the Turks from capturing Baku, the great oil centre. So material was their assistance that General Ludendorff expressed the opinion that the war might have ended differently had not the Armenians kept the Turks from capturing Baku the great oil centre.

After the infamous order of the Talaat Bey that "An end must be put to their existence, however criminal the measures may be, and no regard must be paid to either age or sex"

MURDERER OF F. RISTEEN GETS 7 YRS.

Mrs. Risteen Sentenced to Prison as Accessory—Review of History of Case Where Annapolis County Man is Done to Death.

Salem.—Pleading guilty to manslaughter, George W. Plummer, Jr., of Beverly, charged with murder in the second degree of Fred R. Risteen in Beverly, was sentenced to a term in state prison Wednesday of not less than seven nor more than 10 years.

Mrs. Marion A. Risteen, wife of the slain man, pleaded guilty to being an accessory after the fact, and was sentenced to the women's prison at Sherborn. Sentences were imposed by Judge McLeod in superior criminal court.

Find Body in Pond.

The body of Risteen was found weighted down with automobile parts in Norwood's pond, on the Haskell estate in North Beverly, on Oct. 4th. For 10 days the death was a complete mystery. It was solved only after Mrs. Risteen broke down under the strain of questioning and viewing her husband's exhumed body.

She then confessed that Plummer had killed Risteen and that she had been forced under threats to accompany the slayer while he disposed of the body. Risteen disappeared Sept. 21st, failing to report for work at the Northeastern Oil Company in Salem the following day.

On Oct. 4th, three schoolboys found the body of a man floating in the pond, wired and weighted down with cylinder parts from an automobile. Owing to the similar methods used to dispose of the body, the murder was at first believed to have been connected with that of a garage man at Burlington.

George Plummer, caretaker on the Haskell estate and father of the accused man, identified the material used by Plummer in binding and weighting the body. Confronted with Mrs. Risteen's confession, Plummer also confessed. He admitted that he had killed Risteen during a drunken brawl after the latter had accused him of intimacy with his wife.

He said that he had killed him "in a fair fight," and while he admitted Mrs. Risteen had accompanied him when he disposed of the body in Norwood's pond, he absolved her from any part in the actual slaying.

Mr. Risteen, who was thus foully murdered was well known here and was for some time in the employ of Mr. J. C. Dalrymple and boarded at Mr. Murdoch McLeod's on Queen St. He was a quiet, civil spoken man and members of this family in Beverly assert that he had never been known to drink or get into bad behavior in any way.

There would appear to be some features connected with this case which have not been and may never be fully explained. The case from the outside looked much more like deliberately planned murder than merely manslaughter.—(Ed. Monitor.)

HAMPTON.

Congratulations to Mr. and Mrs. Geo. Banks on the birth of a son, Feb. 18th, Geo. Murray.

Mr. and Mrs. Edwin Risteen, Port Lorne, spent Wednesday 25th at the home of Mr. and Mrs. Ralph O'Neill. After an illness of several weeks, Mrs. Delilah Handspiker passed away at the home of her daughter, Mrs. Norman Hamilton. Much sympathy is extended to the bereaved ones.

PERSONAL MENTION

One of the nicest courtesies you can show your friends is let them learn through this column of your visit whenever you go away. Let us know when you have visitors at your homes. The Monitor will consider it a courtesy whenever you give us an item of this kind. Write or phone No. 12 or 102.

Rev. P. R. Hayden expects to leave today for Boston, where he will enter the New England Baptist Hospital for an operation. He hopes to return in about three weeks and his many friends trust much improved in health.

Mrs. Foster Miller, who has been visiting her parents, Mr. and Mrs. Wm. A. Howe, South St., returned to Boston Friday.

Mr. and Mrs. Henry Wheelock returned on Tuesday from their wedding tour to the U. S.

Mr. O. L. Davis of R. H. Davis & Co., Yarmouth, was a guest over the week-end of his sister, Mrs. M. E. Armstrong and of Dr. Armstrong.

Mrs. Viola Tupper has returned from a visit to Halifax where she was the guest of her uncle, Dr. C. E. McLaughlin and of Mrs. McLaughlin.

Mrs. F. R. Fay was a guest a few days last week of her sister, Mrs. Geo. W. Bellevue, Annapolis Royal.

Mr. Melbourne Palmer of Aylesford was a recent guest of Mr. and Mrs. Joshua Campbell of Upper Granville.

Mr. K. L. Crowell left on Tuesday for Truro, where he will attend a Congregation of the Great War Veterans.

Mrs. Charles Chadwick and granddaughter Margaret Burgess, who have been spending the winter with Mr. and Mrs. Galus Isnor of Upper Granville, left on Tuesday for their homes in Manchester-by-the-Sea, Mass.

Miss Miller resumed her duties on the Public School staff the latter part of the week and Miss Hayden on Tuesday. Both teachers had attacks of "flu" which has been exceedingly prevalent the past few weeks in some parts of the Province so much so that school departments have been closed.

The many friends of Mrs. Henry Prat who a week ago went to Halifax will be pleased to learn that she has been successfully operated on and is now making satisfactory convalescence.

Miss Roxie Barnes accompanied Mr. and Mrs. R. W. Donaldson to Massachussets.

Steamer Swept by a Giant Wave. Cabin and Cargo Holds are Flooded, Vessel Damaged, And Passengers Injured.

Digby.—Almost two hours late, the C. P. R. steamer Empress, from St. John, fought her way into port in a badly battered condition Friday morning and the passengers suffering from a harrowing experience.

When about half-way over the Bay the Empress, which was running broadside to the terrific gale, was struck by a gigantic sea on the port side. The impact was terrific. Windows were smashed, sleeping compartments flooded and the main and ladies' cabins reduced to a scene of desolation. The passengers were harried in all directions and several suffered minor injuries. Tables, chairs cushions and everything movable were thrown about amidst indescribable confusion. One of the passengers, who was thought lost overboard, was

ABEE GETS MONEY.

Insurance Company Settles Out of Court For Policy on Brother's Life.

Montreal.—The action of the Rev. Adair Delorme against the London Guarantee and Accident Company, was settled out of court this morning. The insurance company had issued a policy for \$2,000 on the life of his half-brother, the late Raimond Delorme. Since the acquittal of the Abbé on a charge of murdering his half-brother, he has entered suit against the Sauvegarde Insurance Co., and the London Guarantee and Accident Co., to secure amounts of policies issued on his brother's life.

The amount involved in the settlement was not stated.

William C. Stapleton, principal of the Dartmouth schools, has been appointed inspector of schools for the district of Colchester and East Hants in succession to the late W. R. Campbell who passed away in December.

Press Comment

JOHN BULL'S BURDEN.

London Evening Standard: The long-overdue settlement with the European Allies is now rendered imperative. The British taxpayer, who pays £15 lbs. per head as compared with the French taxpayer's £6 lbs. and the American's \$5 lbs., cannot be expected to acquiesce in the principle that Great Britain shall pay for all and be paid by none.

LABOR ITS OWN LANDLORD.

Boston Globe: One of the striking differences between the British Labor movement and the Labor movement in this country is that co-operation in enterprises have prospered far more in England. Beginning with the efforts of a few laborers to save sixpences, the British co-operatives have grown into vast concerns doing enormous business. In this country it has not been so. The record of such attempts tells of a high percentage of failures.

UNCLE SAM AND SINGAPORE.

Chicago Tribune: We in the United States may frankly recognize a selfish interest in this case. It is a counterpoise to a bellicose Japanese policy. It strengthens the hands of our natural, if not inevitable, ally in any serious struggle in the Pacific and offsets in some measure the strategic disadvantage our sacrifices of the right to create bases in the East has imposed upon us. That disadvantage affected of course the British Dominions, whose vital interest in the peace of the Pacific parallels our interest in the peace of the Pacific.

GOVERNMENT RAILWAYS THAT PAY.

Cape Argus: The present unprecedentedly satisfactory position of the railways is a triumph of business management. It may be necessary to remind the public that the report which shows these results deals with a period during which the late Government was in office and Mr. Jagger was Minister of Railways. Mr. Jagger was par excellence the business man of the Cabinet, and he was determined that the provisions of the Constitution enjoining "business principles" should be carried out. It is to him mainly—assisted, of course, by the loyal support of the state—that we owe the disappearance of the huge deficit and the establishment of the railways upon a sound basis. And it can not too often be repeated that this success has not been won at the price of efficiency or progress. The increase in mileage, the record traffic, revenue and surplus are sufficient to refute any such assumption.

THE DOMINIONS AND BRITAIN'S FOOD.

London Times: It should not pass the wit of man to devise some scheme whereby, without taxing the food of our own people, we can alter to some extent the course of trade to the mutual benefit of the Empire and our own population. National safety and economic advantage lies in the production at home of as large a part of the nation's food as possible, but these islands cannot in any conceivable circumstances produce sufficient food for the whole population and the intention of the Government is to enable the Dominions to supply a larger share of the margin that must be imported from abroad.

BEATING THE WHITE PLAGUE.

London Daily Express: Modern medical science has led a crusade against the insidious enemy that lurks in the dirt and confinement of cities and thrives on ill-nourishment in its victims. So successful has been the campaign that the ravages of consumption are now definitely being

A PLEA.

(Author unknown.)
Lord, let me bring a little grace to every dark and gloomy place; Let me rejoice that I can give some splendor to the life I live. A little faith when I am tired, A little joy when I am sad, A touch of friendship now and then To mark my comradeship with men.

Lord, let me bring a little mirth to all who share my days on earth; Let something I have said or done remain, when I have travelled on, To prove the man I tried to be. And make men glad they walked with me; A flower, a smile, a word of cheer, Make these my gifts from year to year.

Lord, not for high renown I ask, Let me bring merit to my task, A fair compassion I would be For all who share life's toll with me; When heavy burdens weigh me down Grant me the courage not to frown And howsoever my hopes shall end, Let me not cease to play the friend.

Lord, let me carry where I go Some little joy to all I know, Let these into my life be wrought— A little faith, a little thought, A little mirth, a little glow, Let these into my life be wrought— Lord, let some little splendor shine To mark this earthly course of mine.

MAY INVESTIGATE GASOLINE PRICES.

If Combine Exists Prosecution May Follow.

(Toronto Mail.)
Toronto will ask the Attorney-General to investigate gasoline prices and take action to prosecute the oil corporations under the Combines Act if the probe reveals conditions existing in restraint of trade. Every city in Ontario will be asked to join with Toronto in pressing the case before the Attorney-General.

Resolutions to this effect were unanimously adopted by the Civic Legislation Committee yesterday, after Ald. Claude Pearce had given information on the activities of what he termed the "oil octopus."

Even members who had opposed Ald. Pearce's previous fight for legislation to control gasoline prices stated that it was due to his agitation that gasoline in Toronto, now that prices had commenced to soar again, it was time, they said, that action of some kind was taken. It was the general feeling that the resolutions recommended by the committee would pass Council with little or no opposition. The text of the resolution is as follows: "That this Council respectfully requests the Attorney-General for the Province to investigate the recent increases in the price of gasoline and oil to see if they are justified by conditions in the crude oil markets, and also for the purpose of ascertaining if there exists in the gas and oil business a combine in restraint of trade in violation of the law; and that a copy of this resolution be sent to all urban municipalities in Ontario, with the request that their Councils be asked to co-operate with the City of Toronto in this application to the Attorney-General's Department."

NEW INSPECTOR OF SCHOOLS APPOINTED.

Louis d'Entremont, M. A., Inspector of Bilingual Schools in Nova Scotia, has been appointed Inspector of Schools for Division No. 7, including the County of Richmond and South Inverness. Mr. d'Entremont is a graduate of Collier St. Anne and of the Provincial Normal College, in which he was for some time an instructor. He is at present taking a pedagogical course in the University of France, in the City of Paris, having been awarded an Acadian scholarship of 7000 francs from the French Government.

He is expected to return to the Province about the middle of April, when he will succeed M. J. T. MacNeil, B. A., one of the most accomplished, as well as the veteran dean of the Nova Scotia Inspectorial staff. (Halifax Herald.)

It's a mean man that isn't a hero in the eyes of his dog.

MOSCHELLE.

Miss Rita Berry returned from Clementsport, having spent several weeks with her grandparents, Mr. and Mrs. Geo. Berry.

The St. John Guild met last week at the home of Mrs. Leonard Ritchie and will meet next week, Feb. 26th at the home of Mrs. C. Frude.

Mr. and Mrs. Hansen, Potter and daughter, Geraldine, of Upper Clements, were Sunday guests of Mr. and Mrs. Henry Ritchie.

Mr. Charles Ramsay of U. S. A. who is visiting his parents in Perth, is paying a short visit at the home of Mr. W. B. McLeod.

Miss Mildred Fair, teacher at Stoney Beach, spent the week-end at her home.

MISERABLE AND ALWAYS IN PAIN

Lydia E. Pinkham's Vegetable Compound a Dependable Help for Mothers

Port Grenville, Nova Scotia.—"I took your medicine for a terrible pain in my legs and for weakness and headaches. I seemed to float all over, too, and my feet and hands were the worst. I am the mother of four children and I am a little tired, the first one of four I could nurse. I took Lydia E. Pinkham's Vegetable Compound before the baby's birth, so you can see how much it helped me. I cannot praise it too highly for what it has done for me. I took all kinds of medicine, but the Vegetable Compound is the only one that has helped me for any length of time. I recommend it to any one with troubles like mine and you may use my letter for a testimonial."—Mrs. ROBERT MCCULLLEY, Port Grenville, Nova Scotia.

Before and after childbirth the mother will find Lydia E. Pinkham's Vegetable Compound a blessing.

Many, many letters are received giving the same sort of experience as is given in this letter. Not only is the mother benefited, but these good results pass on to the child.

No harmful drugs are used in the preparation of this medicine—just roots and herbs—and it can be taken in safety by the nursing mother.

98 out of every 100 women reported benefit from the use of this medicine. C

ALBANY.

Ronald Whitman, son of Rev. M. B. is the guest of his grandparents, Mr. and Mrs. E. J. Whitman.

Mr. Melbourn Goucher and son Jackson, are busy with their tractor sawing wood in this vicinity.

Mr. and Mrs. George Palm have each been sick with the prevailing flu.

Miss Gladys Connel is proving herself a very efficient little nurse among the sick.

Miss Dorothy Zwickler went to Yarmouth Saturday 21st, where she will be the guest of Mr. and Mrs. Fred Palmer.

Mr. Lem Vernal and family have moved over to South Albany and are now occupying their house over there.

Mrs. Jonathan Woodbury has moved over to spend the remainder of the winter with her daughter and son-in-law, Mr. and Mrs. H. Oakes.

On Tuesday evening, Dr. A. G. Nichols, who has charge of the Pathological Department of the Victoria General Hospital, and is one of the Lecturers at the Dalhousie Medical School, gave a most interesting, instructive and educational lecture on "How the Body Protects Itself From Disease."

The lecturer told first of the various devices the body has for protecting itself, and how it overcomes disturbed and interrupted conditions caused by accident or disease. Then, by use of an interesting set of slides, he illustrated his lecture, showing the composition, and activities of cell life and the wonderful way in which these operate to overcome disease. He explained the uses of antitoxins and vaccines; and in closing paid a tribute to one like Pasteur and Lister, who had done so much to make possible the preventive medical treatment we have today, which has probably increased the average length of life 20 years since the time of Genesis. The average life expectancy has increased three or four years during the past 20 years.

DALHOUSIE CENTRE.

Rev. P. R. Hayden held service here Sunday, Feb. 22nd, and quite a large congregation in attendance.

Mrs. Norman Buckler who has been visiting her sisters, John Jackson, Paradise, and Miss Louisa Harris, Annapolis Royal, has returned home.

Miss Elsie Sheridan and brother Harold, of West Partridge, were in weekly guests at the home of Mr. and Mrs. Freeman S. Ipp.

Mr. Bonnie Longmore, of Bridgetown, spent Sunday, Feb. 22nd at the home of Mr. and Mrs. N. Buckler.

Mr. and Mrs. Harold Buckler, were guests at the home of Mr. and Mrs. Edward Swift, Centreville, Sunday 22nd.

Miss Olive Buckler is visiting her uncles and aunts, Mr. and Mrs. Aldon Swift, Bridgetown, and Mr. and Mrs. Edward Swift, Centreville, and other relatives of Bridgetown.

A surprise party met Feb. 19th at the home of Mr. Samuel Swift. The occasion being the birthday of his mother Mrs. Mary Carter, and a very pleasant evening was spent, and a beautiful repast was served. Before leaving they all sang "God Be With You Till We Meet Again." Wishing Mrs. Carter many more happy birthdays.

Mrs. Thos Todd was the guest at the home of her daughter, Mrs. James Hamish, Louisa, Feb. 21st.

We are glad to see the robins again and the autos also passing through our village.

OXYGEN CARRIERS

Millions of red-blood cells, oxygen carriers, are born in a healthy body every day. The ability of these cells to enrich the blood depends upon how well you are nourished.

Scott's Emulsion

brings to the body rich vitamin-nourishment that is easily absorbed by the blood-making organs to build strength. Scott's Emulsion nourishes and strengthens wonderfully well.

Scott & Bown, Toronto, Ont.

DR. A. G. NICHOLS, OF DALHOUSIE, GIVES UNIVERSITY EXTENSION LECTURE.

On Tuesday evening, Dr. A. G. Nichols, who has charge of the Pathological Department of the Victoria General Hospital, and is one of the Lecturers at the Dalhousie Medical School, gave a most interesting, instructive and educational lecture on "How the Body Protects Itself From Disease."

The lecturer told first of the various devices the body has for protecting itself, and how it overcomes disturbed and interrupted conditions caused by accident or disease. Then, by use of an interesting set of slides, he illustrated his lecture, showing the composition, and activities of cell life and the wonderful way in which these operate to overcome disease. He explained the uses of antitoxins and vaccines; and in closing paid a tribute to one like Pasteur and Lister, who had done so much to make possible the preventive medical treatment we have today, which has probably increased the average length of life 20 years since the time of Genesis. The average life expectancy has increased three or four years during the past 20 years.

The lecture was remarkably free from technical terms that are often the despair of the lay-listener.

DISTRIBUTION OF CANTEN FUNDS.

Money Will be Used For Benefit of Ex-Servicemen and Dependents.

Ottawa.—Hon. H. S. Bland, Minister of Soldiers' Civil Re-establishment, will bring down a bill in the House of Commons shortly to provide for the distribution of the canteen funds held by the Government. The bill will be practically the same as that introduced last year, which failed to pass the Senate. It will provide for the payment of \$100,000 to a central board of three trustees appointed by the Government to act without remuneration, "to be used in such amounts and in such manner as it may deem best for the maintenance and assistance of an adjustment service and bureau for the benefit of ex-servicemen and their dependents."

A BRIDGETOWN PARTY IN CALIFORNIA.

On February 14th Dr. and Mrs. Stewart Burns of Los Angeles, gave a Valentine and birthday dinner party in honor of their nephew, Laurie Palfrey, formerly with the Bank of Nova Scotia at Bridgetown and Halifax, but now connected with the Merchants National Bank of Los Angeles. Besides Mr. Palfrey the following guests all formerly living in Bridgetown, were present: Rev. Clayton Legge, and Miss Susie Legge of Los Angeles, Miss Florence Dodge, of Santa Monica, Mrs. Georgia Bath Moriarty, of Pasadena, who leaves on March 7th for New York via the Panama Canal, Reita C. Abbott of the California Bank, Los Angeles, and Mrs. Harry Abbott and son Beverly, who are spending the winter in California. Other guests included Laurie Palfrey, service men and their dependents."

Payments of \$50,000 to the United Services Fund of Great Britain, and \$50,000 to the American Red Cross, will be provided for, and \$20,000 will be held to pay outstanding accounts.

The residue of the fund will be divided into nine provincial allotments in the proportion indicated by the following percentages.

Alberta 7.52; British Columbia and the Yukon, 11.21; Manitoba, 16.64; New Brunswick, 4.72; Nova Scotia and Prince Edward Island 6.28; Ontario, 41.27; Quebec, 11.62; Saskatchewan, 7.12.

MAY RAISE THE TARIFF ON FISH

Ontario Exporters Alarmed by Reports From United States.

Toronto.—Grave concern is felt by Ontario fishermen over the proposal of the International General Association of Fishermen in the United States made to the United States tariff commission to increase the tariff against fish caught in Canadian waters from one to three cents per pound. It is estimated that if this proposal materialized, fishermen of this province would lose approximately \$750,000.

The provincial department of fisheries has been apprised of the situation and may take up the question with the United States authorities.

All fishermen along the shore of Lake Ontario and Lake Erie would be affected. The value of the catch in Ontario last year totalled over \$3,000,000.

DEPRECATED THE NEW WORLD WAR.

Kipling Declares War is a Terrible Thing to do. He says that it is a terrible thing to do, and that it is a terrible thing to do.

London.—Rudyard Kipling was one of the principal guests at the annual banquet of the Chamber of Shipping of the United Kingdom, held in London, Saturday night, deprecating the new world war which, he said, was being carried on, with invisible weapons—the warfare of ill-will. He likened this island to a ship which he called H. M. S. Britain.

"H. M. S. Britain," said Mr. Kipling "carries a passenger list, including stowaways of 45,000,000 and owing to the peculiarities of her construction there are never more than six weeks' supplies of consumable stores aboard her at one time. The balance must come by ship and if the shipping does not come, a fortnight would deliver us to panic indescribable, and three months would see us embarked on the gallant adventure of cannibalism.

"These are facts which underlie the camouflage of our existence on H. M. S. Britain. Naturally, they do not trouble the passengers aboard her, any more than the sight of the sea worries the passengers on your floating palaces. But once in a while something happens at sea, to remind us that a ship can be lost in a few hours and on land, we have seen all the Russians, one sixth of the land area of the Globe, dive under in a few years.

"Now, ships are lost for all sorts of reasons. But when a nation is lost the underlying cause of the collapse is always that she cannot handle her transport. Everything in life, from marriage to manslaughter, turns on speed, and the cost of which men, speed and thought, can be shifted from one place to another. If you can tie up a nation's transport you can take her off your books.

"We have suffered from one scientific attempt to prove this, which very nearly succeeded. For the moment, however, there is a lull in wars fought with visible weapons. We are deep now in a world war, that aims to destroy the spirit and will of man in his home and at his work.

"The man whose morale can be gasped and gasped at, in time of peace till he condones and helps create every form of concession, that will ruin himself, and his neighbor, is doing his country infinitely more harm than a thousand casualties on the battlefields. It is cheaper to induce your enemy to cut his own throat for what you have persuaded him are lofty motives, than to do it for him against his will, and this is the essence of the new mode of war—to create ill-will, which is the mother of despair, and through that ill-will to exploit the damnable streak in each of us, which leads us to stop our own work and talk about the duties of others. The rest follows by itself.

"The aftermath of war, which still hangs around us like mustard gas," continued Mr. Kipling, "helps this attack, for if you have driven a densely crowded, highly civilized population through a whole cycle of primitive emotions, they are bound to come out of it shaken to the core of their souls, and in that state they are as open to moral and mental infection, as a tired man is to influenza.

"So we have now Great Britain crowded to the rails with passengers, each of us, which leads us to stop our own work and talk about the duties of others. The rest follows by itself.

"If the will to work be too long delayed, then all that our race is made of or stands for must pass into the hands of whatever nation first recovers that will. Our recovery has been held back by the propaganda of ill-will, and despair that is meant to wreck all effort at its source. But do you think the engines of H. M. S. Great Britain can be adapted to burn this kind of fuel? I don't. Men have grown a little tired of being told off to hate their neighbors by numbers at word of command. This section may or not mark the turn of the tide, but at least it gives a time of slack water, during which H. M. S. Great Britain may begin to get under way and again work up to the highest pressure."

Montreal.—Canada within the next few weeks will receive about \$800,000 as the first installment of German reparation payments under the Dawes plan, being 4.35 per cent. of the \$5,000,000 gold marks which Great Britain has already received.

LENDING MONEY TO FRIENDS A GOOD WAY TO LOSE THEM.

It is all right to lend your friends money if you never ask them for it. They will seldom pay you when they agree to do so, and they won't like you if you press them.

When you have lent a friend money he is quite likely in the future to avoid you. Possibly he thinks you'll forget if you don't see him; possibly he is ashamed because he has not met the obligation and hasn't the courage to meet you face to face. If you want to get rid of a bore, all you need to do is lend him money.

As a general rule, however, unless you are regularly in the business it is a pretty poor practice to lend any one money.

MELVERN SQUARE. Mrs. Harold Mason and two children of Falkland Ridge, were recent visitors at the home of her parents, Mr. and Mrs. George Brown.

Mr. and Mrs. George O'Neal spent the evening with their daughter, Mrs. B. W. Woodbury, of North Kingston.

Mrs. Stuart Dodge, who has been quite ill, is better.

Mr. and Mrs. M. Reid were recent visitors of Mr. and Mrs. E. Reid of North Kingston.

A pleasant evening was spent at the home of Capt. and Mrs. Carter, when a large number of their friends met at a surprise party in honor of their daughter Lillian, who left on Friday for Calgary, Alberta, where she will be one of the principal actors in an important event to take place shortly after her arrival. During the evening Miss Esther Baker in a pleasing manner presented Miss Carter with two gold pieces instead of the usual shaver. Radio music formed an interesting form of entertainment.

Miss Braine was a week-end visitor of her aunt, Mrs. Fred Schaffner of Middleton.

The women of the Baptist Sewing Circle were entertained last week at the home of Mr. and Mrs. Hallett Armstrong of North Kingstons. Messrs. George Merriott and L. Palmer provided the teams to convey them there. After a very pleasant afternoon tea was served by the hostess.

Mr. and Mrs. Spurgeon Cox went to Hampton one day last week.

WHAT PROMISES TO BE INTERESTING LAW SUIT. Annapolis Royal.—What promises to be an unusually interesting law suit was started here Wednesday when a writ was issued in the Supreme Court by Daniel Owen, K. C., on behalf of Cecil Phinney of Middleton, against Harold Coldwell of the same town. Phinney is suing Coldwell for \$10,000 damages alleging that the latter has alienated his wife's affections. In the ordinary course of events this case will be tried in June in Bridgetown.

CLUB ROOT RESISTANT TURNIPS. (Experimental Farms Note.)

That some strains of turnips are resistant to club root is borne out by tests conducted by the Experimental Stations at Kentville, N. S., Charlottetown, P. E. I., and Nappan, N. S.

At Nappan, in 1922, six acres were sown with Monarch seed (home-grown) and two acres with Bangholm club root resistant seed, (obtained from the Charlottetown Station) on a field infected with club root. The six acres of Monarch yielded 3195.5 bushels or 265.9 bushels per acre. Of these, 295.6 bushels or 49.3 bushels per acre were not fit for use. Owing to club root 10 to 15 per cent of the plants never developed. The total loss on this field was more than 50 per cent. The two acres of Bangholm club root resistant yielded 494.5 bushels per acre and showed less than 2 per cent affected roots, while the infection not sufficient to make them unfit for use. In 1923 four acres were again seeded with Monarch and two with Bangholm club root resistant seed, but on a newer field not so badly infected with club root as the field used the previous year. The four acres of Monarch yielded 3357.6 bushels or 328.4 bushels per acre, while the two acres of Bangholm club root resistant yielded 1845 bushels or 922.5 bushels per acre. Fifty per cent of the Monarch roots were affected more or less with club root, while the Bangholm club root resistant were 2 per cent affected. In 1924, this test was repeated but on new land, and, as the season was unfavorable for club root development, all roots were free from the infection.

In the variety test made in 1923 on infected soil, the following results were obtained:— Bangholm Sludsgaard D. L. F. and Shepherd Swede No. 2656 (Denmark) no infection evident, Bangholm club root resistant Charlottetown 1.4 per cent, while the other 16 varieties ranged from 3.2 per cent to 46.7 per cent infection.

In 1923 one-half acre was planted out with disease-free roots for seed production which yielded at the rate of 800 pounds of seed per acre. The seed of this seed was sold to farmers. Of the farmers receiving the seed only one or two reported infected roots.

By careful selection, its resistant qualities are retained this strain of club root resistant turnips should prove of great value to the farmers of Eastern Canada. In Nova Scotia alone, some 12,000 acres were seeded of roots in 1923. It is conservatively estimated that one half that area is infected with club root. If seed of the club root resistant strain had been used and the same increased yields secured as above recorded, there would have been an increased return to the farmers of Nova Scotia of over \$189,000 or \$31.65 per acre for 6,000 acres infected, if the roots were

valued at 15 cents per bushel. During 1924, about 350 pounds of this seed was produced at Nappan. It will be for sale in limited quantities of 2 pounds per farmer at \$1 per pound. It is desired that farmers receiving this seed should save sufficient roots from which to grow their own seed and perhaps a surplus for sale.

W. W. Bair, Superintendent, Experimental Farm, Nappan, N. S. CENTRAL HANGINGS. Seek Change in Law to Have all Executions in Penitentiaries. Fredericton.—In an effort to have Harry D. Williams, condemned to be hanged here on April 23rd, for the murder of his half-nieces at Postville, executed at the Maritime Penitentiary at Dorchester instead of at the county jail here, petitions are to be circulated for public signature asking the Minister of Justice to have the Dominion law changed so that execution of all murderers will take place at the central penitentiaries instead of at the county jails. It is hoped a change in the law can be made before the date of Williams execution. It is said that all the high sheriffs of New Brunswick are uniting in the urge.

CLEMENTVALE. On Sunday morning, Feb. 10th the primary class, presented their S. S. teacher, Mrs. Prudence Chute, with a birthday gift. Mrs. Fred Millett has returned to Boston, after spending a few weeks at her home here. Mr. Clarence Mason preached in the Baptist church Sunday morning, Feb. 22nd. Miss Frelow Hubley made a short trip to St. John, N. B., last week. Mrs. Sewal Corbett and Sewal Jr., left for New Britain, Conn., last week, after several weeks visit with her mother, Mrs. Margaret Trimmer. Mr. Willard Potter, of Methuen, Mass., made a short visit to his parents, Mr. and Mrs. Eber Potter last week. Mrs. Eber Potter, who has been quite ill for the past two months is slowly improving. Her daughter, Mrs. Murray Harris, of Bear River, has been with her for several weeks.

DELINQUENT TAX PAYERS OWE CANADA OVER 168 MILLIONS. Ottawa.—Arrears of revenue due the Dominion Government total \$168,599,796.70 for the year 1923-24, which is an increase of more than \$2,000,000 over the previous year, according to the preliminary report of George Gonthier, Auditor-General, for the year ended March 31st, 1924. Mr. Gonthier states that some of the items in arrears 'accrued 15 or 20 years ago.'

WRITE AND WAIT FOR AN ANSWER, OR TELEPHONE AND GET YOUR ANSWER RIGHT AWAY--WHICH?

When a man has a proposition to make an out-of-town customer, more often than not he puts it in writing, mails the letter, then waits--waits perhaps days!--for an answer. He has no assurance that his proposition will be accepted, yet for days his hands are tied; he can't make the proposition to anyone else.

Maritime Telegraph & Telephone Company Limited

AMATEUR BROADCASTER FINED Chipman, N. B.--John Mills, proprietor of a garage here, has been fined \$50 under the Radio Telegraphs Act, for operating a homemade broadcaster without a license.

LITERARY SOCIETY AT PARADISE.

(Continued from Page One.) transportation for a merry party of about a score of the members. The lovely Patron Saint of Music was plainly prominent on this occasion, and her smile of acceptance seemed to rest and abide upon each and every oblation in the program, which was as follows. Piano Solo--Miss Ethel Daniels. Vocal, "Star-rise"--Mrs. H. Ruggles. Paper, "The Great Musical Composer"--Mr. E. G. Morse. Duet, "Whispering Hope"--Mrs. (Col.) C. E. Bent and Mr. A. Phinney. Quartette "Come Away"--The Paradise Male Quartette. Piano Solo--Miss Ethel Daniels. Vocal, "Shepherd Song"--Mrs. H. Ruggles. Paper, "The History of Musical Instruments"--L. Bowley, B. Sc. Duet, "Friendship"--Miss Elinor and Mr. H. W. Longley. Piano Solo, "The Old Refrain"--Mr. D. Messenger. Quartette, "Drink to me Only With Thine Eyes"--Paradise Male Quartette. Vocal Solo, "A Highland Man's Toast"--Mrs. Cutten. Piano and Harmonica Selections. Mr. A. Phinney and Mr. L. Connell. Art Gallery, an exercise in "placing" distinguished persons, scenes from nature etc. from pictures thereof. No mention has been made of enclosures of which there were not less than three or four.

BELLEISLE. Mrs. A. G. Marshall is visiting Miss Josephine Willett. Miss Susie M. Troop is visiting her aunt, Mrs. William Amherman at Grandville Ferry. Mrs. Alice Jones is spending a few weeks with her sister, Miss Mary P. Gesner. Mrs. Lucy Graham of Lawrencetown spent a few days last week with friends and relatives here. Miss Cora J. M. Parker spent the week-end in Aylesford with her cousin, Mrs. W. L. Nichols. Professor Blair of Kentville was a recent guest of Capt and Mrs. A. C. Willett. The play entitled "Mrs. Temple's Telegram" given by the Belleisle Amateurs in Belleisle Hall on Thursday evening was a decided success. Despite the unpleasant weather and bad roads the hall was full and the sum of \$34.00 was taken. Miss Betty McLean of Bridgetown is visiting her grandparents, Mr. and Mrs. R. L. Dodge. The members of the Belleisle Fruit Co., held their annual at Home in Belleisle Hall Thursday evening. A bountiful supper was provided by the ladies which was much enjoyed by all, after which a short play entitled "Circle Meets at Mrs. Temple's" was given by ten of the ladies. Professor Blair of the Experimental Farm, Kentville, was present and gave a very interesting talk on spraying and other farming interests. At a late hour the meeting closed. All present having spent a pleasant and profitable evening.

PORT WADE. M. Morgan, the Fishery Officer, was in the village and at Victoria Beach last week. F. R. Parker came near having a serious accident coming down the mountain near Victoria Beach with a heavy load of logs and a fine pair of oxen. The back bolt came out of the tongue and the load got away from the tongue, running down the hill and demolishing the sled, otherwise no damage done. Loose hay is quite plentiful this spring and selling for about \$8. per ton. Arch B. Kendall sold a pig weighing about 200 lbs at retail at Victoria Beach one day last week. We understand we will have a new ferry boat and lower fares after the coming election. Good enough! Report goes that M. Bayley of the Lincoln Pulp Co., me. U. S. has leased the rails of this section for his pulp trolley. The station buildings for a cook house and a 1/2 acre of land for his roasting business. Some of the neighbors are talking seriously of visiting Uncle Sams for a few months.

STONEY BEACH. Mr. Howard Adams of Deep Brook, was the week-end guest of Mr. and Mrs. S. H. Blaney. Mr. and Mrs. S. Longmire spent Sunday with Mr. and Mrs. Victory Halliday at Hillsburn. Miss Abbie Longmire has gone to Deep Brook to spend a few weeks. Mr. and Mrs. (Capt.) G. B. MacRae spent Sunday with Mr. and Mrs. Blaney. Mr. and Mrs. Herman Winchester spent Thursday with their daughter, Mrs. Covert at Karsdale. Mrs. James Rice spent the week with her sister, Mrs. James Rhodes at Grandville Ferry.

UNITED CHURCH ANNOUNCEMENTS, Bridgetown. March 5th, 10 a. m.--Sunday School; 11 a. m.--Public Worship, Mr. J. M. Fuller; 7.30 p. m.--Public Worship, Rev. J. H. Freestone. Wednesday March 4th, 7.30 p. m.--Prayer Service; 8.30 p. m.--Choir Practice. Friday, March 6th 7.15--Young People's Society. Grandville, March 5th 11 a. m.--Public Worship. Belleisle, March 5th, 3 p. m.--Public Worship. Pastor, Rev. J. H. Freestone. UNITED CHURCH NOTES. The Third Quarterly Official Board Meeting of Circuit will be held Monday, March 9th, at 7.30 p. m. The Local Board Meeting at close of the Circuit meeting. OBITUARY. Stanley Brown. Middleton--The funeral service of the late Stanley Brown, whose death took place very suddenly from heart trouble, was held Thursday at Torbrook. Mr. Brown was one of the outstanding men of his community and had taken a prominent place in the Conservative party in this county. He is survived by a widow, five boys and two girls, also three sisters and a brother, scattered throughout different parts of Canada and the United States. Four of his sons and one sister came home from the States to be present at the funeral. Rev. W. D. Wilson officiated and interment took place at Nictaux Plains cemetery.

PARKEE'S COVE. Service in the Baptist church on Sunday at 2 o'clock by Mr. Howard Hartlin Llc. February has been an exceptionally fine month, something unusual, probably we will have a rough March and that will make a long tarry winter. We are very sorry to report Mr. William Snow sick at time of writing hope a speedy recovery for him, for his wife Mrs. Snow has been an invalid for years. Dr. Smith is in attendance. Elton Longmire and Victor Halliday of Hillsburn have been very busy with their gasoline outfit sawing in the woods-piles for the people here. It is much quicker and easier done than the old method of manufacturing the wood for the stores as in the olden times. The Misses Leta and Marie Longmire of Hillsburn, were guests of Mr. and Mrs. Miller recently. Mr. Fred Miller of Port Lorne, is a house guest of his father, Mr. Thomas Miller this week. Mr. and Mrs. W. H. Anderson and family visited Mr. Anderson's parents Mr. and Mrs. Austin Halliday of Hillsburn the 25th. Mr. Rollins Hudson of Grandville, is visiting friends here this week. Miss Winnie Clayton has gone to Middleton for an indefinite stay. Mr. Rosie Halliday and Miss Lena Longmire of Hillsburn were the guests of Mrs. Lewis Hudson over the weekend.

PEROTTE. Mr. Cecil LeCain has returned home after spending a few days with his grandfather at Round Hill. Mr. Charlie Ramsay has returned to U. S. A., after a month's visit with his parents and other relatives. Miss Theo Longmire is visiting her friend Miss Elsie Goldsmith, for a few days. A terrific wind storm, accompanied by snow, passed over here the 25th inst. It was quite a change after a month of spring-like weather. Mr. George Copeland is visiting friends at Annapolis and Paradise. The Crokinole Club met last week at Mr. Wallace Goldsmith's. A slight shock was felt in this vicinity Saturday night 25th inst., the houses trembled and it caused quite a commotion. Everyone thinks it must of been a distant earthquake.

FALKLAND RIDGE. George Swallow heard and saw a red robin Saturday, Feb. 21st. Roland Marshall spent the week at Prince Albert. Iona Marshall is visiting her sisters at Aylesford. Robert Swallow went to Middleton Monday, returning the same day. Mrs. Grant Messenger of Clarence, is spending the week at her old home in this place. Harry Whynot made a business trip to Middleton on Friday. Ralph Balcom and Ralph Veinot recently spent the day at their homes. Little Gertrude entertained a number of her girl friends at a birthday party, Feb. 25th. E. Balcom, of Paradise, who has been spending a few days at his mill here, returned home on Friday. After three weeks of sunshine and warm, foggy days that took off all our snow, the mercury has dropped, and on Feb. 27th we had a blizzard. March was surely being ushered in like a roaring lion. DANGER! We are now facing the most dangerous period of the year. Atmospheric conditions are causing an outbreak of "Flu." Watch your fires so that the home will not get below its regular temperature. Keep the Coal bin on the job and save Doctor bills. J.H. Longmire & Sons. Office Ruggles Block, Phone 165.

IS OUR CLIMATE CHANGING?

Railroad on Ice Across The Susquehanna River From Havre de Grace, Completed January 15th, 1852.

Who says the climate of Maryland hasn't changed in the last 73 years? Anybody who believes that we have just as vigorous winters now as we did a half a century ago would find how entirely mistaken he is if he were to glance through the old records.

Just 73 years ago last month the weather was so bitterly cold that the rivers in this section of the State were frozen over, and except for overland or overice routes, travel and traffic was blocked.

The ice on the Susquehanna river at Havre de Grace was so thick that ferrying the trains on the Philadelphia, Wilmington and Baltimore railroad across the river—the mode of travel at this point at this time—was utterly impossible. But connection had to be made somehow so a track was built on the ice and just 73 years ago the track was completed.

For nearly six weeks—or from January 15th, 1852, to February 24th, of the same year—this track was in constant use with the exception of a day or two while it was being moved from its first position to one more solid. During these six weeks 1,278 cars were hauled over the track. And that it was felt that the track was secure is shown by the fact that the United States mail was carried across the river in that way. Other cars were laden with baggage or merchandise. Nearly all the cars were eight-wheelers. They were, of course, very much smaller affairs than those in use today.

Not the slightest damage was done to any property carried over or to any person who made the trip. Besides those persons whose business or personal affairs compelled them to do so there were some venturesome souls who made it for the sake of the experience. Their stories of the ride are handed down as interesting bits of family records and in some cases are still told by the survivor of the experience himself.

In all, 10,000 tons were carried across the river on the ice, and of this amount 4,000 tons were merchandise of various kinds.

Though the gradual change in climate, with the warmer winters that have fallen to the lot of dwellers in Maryland, especially in the last decade or two, make a recurrence of such an experience highly improbable even if prolonged cold weather were to return, it is not at all likely that

MRS. CYRIL E. MARSHALL,
49-11p. Granville Street.

MOUNT ROSE.

The many friends of Miss Mary Marshall will be glad to know that she is gradually improving in health. On Sunday she was able to go for a short drive, taking dinner with Mrs. P. L. Sabean before returning home. We are sorry to report Mr. Asabel Whitman confined to the house with a severe attack of pleurisy.

Mr. Willard Whitman of Williamston, was calling on old friends in this place on Friday.

Clifford Green, who recently underwent an operation for appendicitis at the S. M. Hospital, Middleton, was able to return home on Tuesday last.

The railroad would be forced to build a track over the ice to get its passengers and freight across the river. Ferrying is somewhat out of the fashion at that point on the Susquehanna. Continuous journeys on solid ground have been made possible by the erection of the great bridges that span the river.

The heavy trains and heavy equipment of today are also changes in the last 73 years which would make a repetition impossible.

The photograph of the railroad running across the ice now hangs in the City Council Room and is an interesting picture. It was presented to the city by Mr. George L. Hopper, in 1907.—(Havre de Grace Republican.)

H. H. PLUMMER PASSES SUDDENLY.

H. H. Plummer, prominent citizen of Berkeley and a nationally known authority on veneer and door work machinery, died suddenly this morning at his home 2636 Eina street. He had not been ill and news of his passing will be a shock to friends and business associates on both sides of the bay.

Mr. Plummer was at the head of H. H. Plummer and Company of San Francisco, a plant which specializes in wood work machinery and plant equipment. He has made his home in Berkeley for 13 years and was prominent in civic work both in this city and San Francisco.

Mr. Plummer was born in Boston 62 years ago. His education was gained in the east and he was graduated from the Boston Institute of Technology. He came to California some years ago and became established in business in San Francisco. He was known throughout the orient and in India for his work in veneer machinery.

He was a member of the Masonic Fraternity and of the Hugh De Payne Commandery of Melrose, Massachusetts, and of Ames Temple of Oakland. He was also a member of the Canadian Railroad Club, of the Hoo Hoo Association, a lumbermen's organization, of the Transportation Club of San Francisco, the San Francisco and Berkeley Chambers of Commerce and the University Club of Tacoma, Washington.

Mr. Plummer is survived by his wife, Mrs. Medora B. Plummer and two children, Miss Alice Gertrude and H. H. Plummer, Jr. Both of the young people are graduates of the University of California.

Plans for the funeral services have not been completed.

Mrs. Plummer was formerly Medora Bishop, daughter of the late William Henry Bishop and sister of Frederick Willet Bishop of Paradise, Nova Scotia.—(Ed. Monitor.)

KEEP THE WORK FOR CANADIANS

In the eleven months ending with November Canada's export of pulpwood totalled 150,177 cords, of which the value is \$12,886,192. The finished product into which this Canadian raw material is to be made is paper, most of it newsprint. The turning of seven times the price paid for it in Canada. That is to say, the process of manufacture to which this Canadian pulpwood is to be subjected in the United States will add about \$90,000,000 to its value. Why is the benefit of this wealth-producing lost to the wood into paper will cost about Canada? To convert the \$12,000,000 worth of Canadian pulpwood into \$90,000,000 worth of paper, it is not necessary to send the raw material into the United States. We have pulp mills and paper mills in Canada. In the past eleven months their output of paper in one form or another amounted to about the same sum as the American product of the exported pulpwood will amount to, that is, \$90,000,000. Why favor United States mills and United States wage-earners when we have industries of our own to sustain? Naturally the United States prefers to buy pulpwood from us as far as possible, rather than paper. It is thereby enabled to give employment in wages among its own workers. If Canada kept its pulpwood for its own mills, our neighbor would have to buy twice as much paper from us as it now buys, and our own workers and our own business circles would receive the benefit of the additional money distributed in wages on that account. We must conserve our pulpwood resources for the benefit of our own expanding paper industry. If we do not, the spruce forests of the country will cease to be the support of any industry and our condition as a pulp and paper manufacturing country will become as precarious as is that of the United States.—(Mail and Empire.)

Public Auction

To be sold at Public Auction on the premises of W. E. Johnson, Port Lorne, on Tuesday, March 17th at 2 o'clock sharp the following live stock:

HIGHWAY NOTICE

Closing of Roads.

The attention of the public is respectfully called to an Act to amend Chapter 77 of the Revised Statutes of 1923 of "The Load of Vehicles Act," passed the 9th day of April, 1924, A.D. Be it enacted by the Governor, Council and Assembly, as follows:—

1. Section 7 of Chapter 77 of the Revised Statutes, 1923, the "Load of Vehicles Act," is repealed and the following substituted therefor:

7. (1) No person shall operate a motor vehicle that is subject to the provisions of the Motor Vehicle Act on any highway in any municipality after the first day of March and before the first day of June following without the permission of the Superintendent of Highways or of such other officer as may be appointed by the Provincial Highways Board for that purpose first had and obtained.

(2) The Provincial Highways Board, from time to time in each year may, and is hereby authorized and empowered with the approval of the Minister of Highways, to exempt from provisions of Sub-section 1 of this section, for the whole or any part of the period between the first day of March and the first day of June following in the year and for which the exemption is granted, every person operating any motor vehicle or a motor vehicle of any particular class that is subject to the provisions of the Motor Vehicle Act, on all highways within any municipality or municipalities which highways in the opinion of the Provincial Highways Board will not be unreasonably damaged by reason of the granting of such exemption.

SOUTH WILLIAMSTON.

Miss Aileen Shankel returned to Wolfville to resume her studies at the Ladies Seminary.

South Williamston Aid Society met at the home of Mrs. Arthur Bishop on Tuesday last.

Mr. Burpee Graves recently returned from Mass., called on friends here on Sunday.

The Red Cross Nursing Class held the usual weekly meeting at the home of Mrs. B. M. Shankel, who is kindly throwing her home open to the use of the class. The subject for the day was taught by Mrs. Holmes Reid, graduate nurse.

Mrs. Mary Beeler of Annapolis, Md. spent the week-end at the home of her niece, Mrs. F. Clyde Bishop.

Mr. and Mrs. Maxwell Schaffner, have returned to their homes here again.

Sorry still to report illness at the home of Mr. C. F. U. Whitman, Lawrencetown South. This time the serious illness, of their little son Gerald, with scarlet fever.

Mrs. Charles Roach is at present in hospital.

Mr. T. Chipman and family of Bridgetown, called at the home of Mr. Wm. FitzRandolph on Thursday.

RADIO DISTURBANCES.

For weeks past owners of radios in Yarmouth have been greatly interfered with by outside disturbances which have, at times, made it practically impossible to receive many of, and fully appreciate the fine programmes which have been broadcasted. The matter just previous to Mr. Hatfield, M. P., going to Ottawa, was placed before him, and he was asked to take the matter before the Department and it possible have an expert sent to Yarmouth to remedy the trouble. That Mr. Hatfield did, and a telegram received yesterday stated that an expert was now in Halifax locating trouble similar to what prevailed in this town, and as soon as his work was completed there he had been instructed to proceed to Yarmouth.—(Yarmouth Herald.)

SOUTH WILLIAMSTON.

Mr. Elbert Whitman, wife and little son Boyd, arrived from Somerset, Kings Co., on Thursday last. Mr. Whitman is making a good recovery from his recent severe operation performed at Montreal by throat specialist Dr. Henry.

On Wednesday evening, Feb. 13th, the local Nursing Class held a public meeting at the Williamston Hall which was addressed by Dr. L. R. Morse of Lawrencetown on subjects of interest to the class, "Communicable Diseases and First Aid in Emergencies. Sufficient to say the general Doctor was at his best.

Mrs. MacKenzie has returned to the home of Mrs. G. McDonald, her sister-in-law, for an indefinite period. Sorry to report Miss Mabel Grant, on the sick list. She is at the home of her parents, Mr. and Mrs. F. Grant. Mr. Bolton Shankel has also been in poor health.

Mrs. Albert Randolph is at the home of her daughter, Mrs. Frank Chipman, Nictaux, for rest and change. We hope to see her much improved in health on her return.

Miss Lina Whitman has been at her home here for a few days.

Mrs. John Schaffner entertained friends on Thursday last, including Mr. and Mrs. Wm. Phinney, Lawrencetown.

APPOINTED WARDEN OF PENITENTIARY.

Dorchester, N. B.—G. T. Good has been appointed Warden of Dorchester Penitentiary. Mr. Good joined the staff of the penitentiary as guard in 1919; was promoted to Warden's Clerk in 1920, and promoted to Storekeeper in 1921, and has been Acting Warden for over a year and a half. The appointment dates from February 1st, 1925. He was overseas during the Great War and received his Commission as Captain on the Field.

BEAR RIVER HYDRO PROJECT FAVORED IN DIGBY TOWN.

Digby—Yarmouth's Ottawa delegation had its first meeting at eleven o'clock Tuesday morning when at Digby it was met by a delegation from the Council and Board of Trade of the town and invited to the Town Hall to consider matters pertaining to hydro.

Mr. Mayor Dr. Ducrest, of Digby, addressed the gathering and explained what their committee were doing with the matter. The situation was solemnly viewed from practically all angles and it was finally decided the Digby committee composed partly of members of the Town Council and Board of Trade should put their plans in the form of resolutions, and send copies to the Town Council of Yarmouth and also to the Board of Trade of that town. The meeting favored the development of the Bear River project.

EXPORT INCREASE.

\$5,000 Tons More Business Through Halifax During January.

Montreal, Que.—An increase of eight thousand tons of export business through the port of Halifax was made during January of this year according to an announcement made Tuesday by Mr. J. E. Dalrymple, traffic vice-president of the Canadian National Railways.

This increased business was due very largely to the inauguration of sailings by Canadian Government Merchant Marine vessels from Halifax to Australia and New Zealand. Without these services the trade would have gone almost entirely by way of New York and the Canadian National Railways would have obtained only a portion of it as the traffic consisted largely of automobiles from the Detroit and Walkerville districts.

WIVES WANT CHANGE.

The problem of the happy marriage is generally thought to be new, something peculiar to the jazzy, restless, high-pressure days we live in. But in the fundamentals, says Henriette Pragonara in the Birmingham Mail, it is as old as mankind itself.

It is a commonplace that a man and a woman can drift apart simply because they have ceased to find anything to say to one another. The woman gets dissatisfied; her thoughts roam away from her man and a sense of revolt against her dull life makes her mood dangerous just at the time when her husband thinks her placid and wishes that she would take an interest in him and his doings.

A man too often forgets when he sets out in the morning to make his living that he is going for the next eight hours or so to live a varied life. Possibly he works in an office, he would call it a dull life. But even a routine life is a change from the life of the home. In fact, he walks out of one life into another, and in the evening walks back again. Meantime the wife of the "woman's-propriety-place-the-home" type of husband has not changed either her environment or her interests. And the husband probably gets impatient if she begins to tell him of household incidents, forgetful of the fact that those incidents are the only things that have happened in her life all day.

They never realize, these dull-witted men, that the wives, whose narrow range of interests they sometimes deplore, want to walk out of their home life for a few hours; they want a change, they want human contacts, not only those casual contacts which the husband makes in the course of his business day.

NOVA SCOTIA SHALE RICHEST IN WORLD.

The result of tests being conducted at the Nova Scotia Technical College, Halifax, under the direction of the Dominion Council of Scientific Research, of oil shale found in Nova Scotia, particularly in Pictou County, were announced recently, and reported the Nova Scotia shale the richest in the world, giving 50 gallons of high-grade paraffin to a ton of shale.

The report stated that one hundred million tons of the shale were readily accessible and stated that vast oil industries similar to those in Colorado and the Western States might well come into being in this Province. The tests will be conducted indefinitely.

FOR MOTHERS OF YOUNG CHILDREN

Mothers are quick to praise anything which brings health and comfort to their little ones—any medicine that will make the baby well and keep him well will always receive hearty recommendation from the mother. That is why Baby's Own Tablets are so popular. Thousands of mothers, throughout the country, not only use them for their own little ones but are always delighted to be able to recommend them to other mothers. Thousands of mothers have proved Baby's Own Tablets to be without an equal in relieving their little one's any of the many minor ailments which arise out of a derangement of the stomach and bowels. Baby's Own Tablets are the ideal laxative—easy to take but thorough in action. They banish constipation and indigestion; break up colds and simple fevers; expel worms and make the toiletting period easy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

APPLES IN LONDON.

Under date London, Feb. 12th, J. O. Sims writes:

I regret to have to report the fact that Nova Scotia apples recently to hand have been very far from satisfactory, the condition with many lots leaving much to be desired. The trouble commenced with fruit ex the S. S. "Cornish Point" and has been seen ever since in many parcels of fruit ex steamers "Hawtry" and "Comino." The fruit has been bruised, bruised or wasted in many instances, but on the other hand there have been lots of really good apples. I attribute the cause of the defective fruit to be severe weather at time fruit was being shipped.

In the circumstances buyers have been very cautious in their bidding resulting in wide margins in values especially for the inferior grades. Bidding values for fruit ex steamers "Hawtry" and "Comino" were as under:

No. 1	22s 25s
Stark	22s 25s
Baldwins	19s 25s
Gold Russets	25s 30s
Ben Davis	21s 22s
Spies (Stack)	20s 25s
Domestics	3 to 5 shillings less.

Good apples are in request and directly the defective fruit is out of the way and the confidence of buyers is re-established we shall see prices on a higher level.

I advise you to hold your Ben Davis and Nonpareils for late shipment. We shall get the first shipments of apples here from Tasmania about the middle of April. Even then the arrivals of this fruit will be light. The first two boats carry altogether a total of only 45,000 cases.

WHAT IS A FRIEND?

What is a friend? I will tell you. It is a person with whom you dare to be yourself. Your soul can go naked with him. He seems to see of you to put on nothing, only to be as at you are. He does not want you to be better or worse. When you are with him you feel as a prisoner feels who has been declared innocent. You do not have to be on your guard. You can say what you think so long as it is genuinely you.

He understands these conditions in your nature that lead others to misjudge you. With him you breathe freely. You can take off your coat and loosen your collar. You can air your little vanities and envies and hates and vicious stinks, your meanesses and absurdities, and in opening them up to him they are lost—dissolved in the white ocean of his loyalty.

He understands. You do not have to be careful. You can abuse him, neglect him, tolerate him. He is like the water that cleanses all you say. He is like wine that warms you to the bone. You can weep with him, laugh with him, pray with him. Through it all he sees, knows and loves you. A friend, I repeat, is one with whom you dare to be yourself. —(Forbes Magazine.)

OIL SWINDLE.

North Ontario Farmers Seek to Recover \$200,000 Which They "Invested."

London, Ont.—Believing that they are the victims of one of the biggest swindles ever put over in Ontario, a group of North Middlesex farmers are asking the Government to assist them in recovering \$200,000, invested by them in Texas oil stocks.

Already legal machinery has been put in motion at Toronto to have a criminal investigation officer sent to Texas. The actual amount of money sunk by the farmers is \$288,000. One man alone is said to have paid over \$17,000 in Canadian Victory Bonds for shares in the company. Already this same man mortgaged his home for \$1,000 to invest in oil wells that were represented before producing 250 barrels a day.

CANADIANS ROUSED BY HEAVY TAXATION.

Bankers Criticize Conditions in Comparison With Economic Developments Here.

Seek to Eliminate Tax.

Toronto.—Canadian economic ills are coming in for a good deal of criticism at the annual meetings of several of the chartered banks when the inevitable comparison occurs of conditions in the Dominion and in the States. However, bank officials, professors of political economy and the powerful financial group in Montreal, all agree that industrial conditions can be improved, but only by prompt Government action.

The strongest criticism is directed against the heavy taxation that is retarding industrial enterprise. While the American Federal expenditures have been undergoing drastic reduction the Canadian national debt, on the other hand, has been increased by nearly \$5,000,000 during the last year, and during the same period the public income has suffered to the extent of approximately \$11,000,000 by diminished customs returns as the result of the enforced economy of the buyers, who have curtailed their purchases abroad. Therefore, Sir Herbert Holt of the Royal Bank of Canada strongly recommends the establishment of a Central Budget Bureau in Canada similar to that in operation in the United States, directed by an efficient and non-partisan officer, who would realize that public funds for a long time yet must be expended on only the barest necessities.

Great Economy.

Since so much of the burdensome taxation is due to the nationalization of two railway systems, all authorities agree that the National Railways must be conducted in the same way as a private company, that is, that unprofitable lines must be abandoned until sufficient population and production along their routes shall insure their advantageous operation.

Again, as the expense of maintaining transcontinental railway lines is due to the long stretches of unproductive country, and as Canada is now depending largely upon potential but undeveloped resources, careful, selected, agricultural immigration is recommended. The immigration policy must be such, it is urged, that the farm settlers will be assisted and advised after their arrival in Canada "in order that the number who fail to achieve success in their new environment may be reduced to a minimum."

Furthermore, in order to retain within the Dominion both skilled Canadian mechanics and also the acclimatized industrial settlers of former years, these financial authorities recommend the policy of the United States as an example for their own country to follow. In particular they urge a protective tariff for these products that enter in the home market from foreign competition, and also a heavy export duty upon Canadian raw materials such as pulpwood and minerals, the manufacture of which in Canada would provide work for the unemployed and prevent the exodus to the States.

Needs Earning Power.

Since Canada urgently needs every dollar of earning power that it can possibly secure, the energy developed from its water powers should be conserved for exclusive use within the Dominion, for only by such conservation can Canada reduce her annual bill for coal bought from her southern neighbor.

One bank official closely in touch with the cattle industry of the western provinces urges that in any future international agreements with the United States this country should arrange that its cattle be no longer excluded from the American markets. Finally, the Montreal financial group urges, as the best means of securing effective application of the principles enunciated, the election of a strong coalition government that will work for the good of the whole Dominion, and not simply for any one class or any one district.

More Loaves

From Purity Flour you will get more loaves than from the same quantity of ordinary flour. Purity is the strongest and most nutritious flour made—it absorbs more water, and the housewife benefits in her baking and reduces the family budget.

The Purity Flour Cook Book will be mailed postage paid to you for thirty cents—it's worth more. Write for one to-day to Western Canada Flour Mills Co., Ltd., Toronto, St. John, N.B., Winnipeg.

INTERESTING CASE BEFORE CO. COURT.

Decision Reserved in Case of Custody of Children of Late Dr. Young.

Annapolis Royal—Judge George Grierson has been holding a special sitting of the County Court to hear a habeas corpus application in connection with the custody of two infant children of the late Dr. F. W. Young, formerly of Lawrencetown. After the father's death these children were taken by their mother to Baltimore.

In 1919 proceedings were laid in the American courts and the children were placed in the custody of Mrs. Ida Elliott, of Lawrencetown, who was later appointed guardian of the children here. Since 1919 the mother has made two attempts to regain possession of the children. The first attempt was before Judge Drysdale and the second was heard by Judge Mellich. Both efforts failed.

These new proceedings are supported by a mass of affidavits on both sides. Under Dr. Young's will the children, now 16 and 18 years of age, will become entitled to between ten and fifteen thousand dollars when they come of age. Judgment was reserved.

THREE BILLIONS SPENT FOR NEW AUTOS DURING 1924.

Washington.—The world spent \$3,260,000,000 for new motor vehicles in 1924 according to Percy Owen, chief of the automotive department of the Department of Commerce.

"Returns from the department's trade agents throughout the world indicate that during the past year there was assimilated 3,200,000 passenger cars and trucks and 200,000 motorcycles which total number at the very conservative figures of \$1,000 cycles, enables the department to approximate the amount spent for automobiles in general," says Owen.

AN EMOTIONAL CLIMAX.
Tears Flow at Unionist Pastor's Last Service in Continuing Presbyterian Church, Lunenburg.

Lunenburg.—The emotional climax of the Church Union question in Lunenburg town was Sunday night's service in the St. Andrew's Presbyterian church, when Rev. A. D. MacKinnon, Unionist, who recently resigned as pastor of the congregated which voted strongly to continue as a strictly Presbyterian church, delivered his farewell sermon to an audience composed of both Union and Non-Union elements in his congregation, as well as a large number of people from other town churches attracted by the unique occasion.

In Lunenburg history, the service was the most dramatic church event that has ever occurred. The church Union question has been taken very seriously in this town, as the division of opinion, emphasized by the pastors' resignation, indicates; but the firm convictions of either side of the controversy has not been sufficient to engender a spirit of victory in one or the other.

Hot elements, therefore, approached the culminating event tonight, not only without exultation, but with a definite feeling of sadness and regret that it had become inevitable; and as the people filed in Sunday night an atmosphere of almost palpable gloom deepened as the audience increased in size.

In this atmosphere the preliminary song and prayer service was conducted, and when Rev. Mr. MacKinnon rose to begin the final sermon of his eight and a half years pastorate, a silence so tense as to be painfully strained eyes and ears to see and hear every movement and every sound uttered by the minister.

The Holy Book could hardly supply a text more apt than that which the preacher chose. Quoting from Ezekiel, with no evident attempt at effect, his simple announcement of four words struck the ears of his congregation with the force of profound drama when he said: "The End Has Come."

With this text as his theme, Rev. Mr. MacKinnon reviewed his pastorate of St. Andrew's, recalling the progress made in the various fields of the church's work, and stressing his regret at being compelled by his convictions to finally sever his connection with a people whom he loved so much, and among whom he had labored with so much pleasure for many years. The sermon was an eloquent address which made a deep impression on all those present, and when the service was brought to a close by the congregation joining in the singing of "God be With You Till We Meet Again," the repressed feelings of many could be no longer controlled, and tears, of which, no one was ashamed, welled from scores of eyes throughout the gathering.

Before the congregation dispersed D. McKittrick, a resigning elder of the church, read an address referring to the work done by Rev. Mr. MacKinnon, likening the minister "to the apostle of old, who preached Christ and Him crucified, and who sought earnestly to bring men to see the error of their ways." The address also commended Rev. Mr. MacKinnon for having faithfully administered the ordinances of the church, and pointed out that the services during his pastorate had been well attended, a large number of members had been added on profession of faith, and the cause of missions had had in him an earnest advocate.

Mrs. MacKinnon was referred to in the address as an able assistant to Rev. Mr. MacKinnon in his pastoral work, having taken a keen interest in the various organizations of the church, and having by her engaging personality and kindness of heart won the esteem of the community.

Following the address, Miss Marion Power presented Rev. Mr. MacKinnon with a purse of gold.

During Rev. Mr. MacKinnon's pastorate 228 names have been added to the list of communicants, and contributions have been increased by 40 per cent.

Sunday morning, St. Andrew's pulpit was occupied by Rev. Jabez Appleby, pastor of Central Union church the pastors of the two churches exchanging for the morning services. Rev. Mr. MacKinnon, in the course of his sermon, thanked the people of Central Union church for their call to him to act as co-pastor until June, but announced that other plans precluded his acceptance.

Sunday night, after the regular church services, the choir of the two churches gave a song service in Central Union.

Rev. Mr. MacKinnon, Mrs. MacKinnon and their daughter, left Lunenburg on Wednesday for Waterville, King's County, where they will remain until July, this year, when Mr. MacKinnon is to become pastor of the Bridgetown Union church.

Patient: "Well, you pulled me through, Doc."
Doctor (modestly): "It was the work of Providence."
Patient: "Yes, but you'll charge for it."

WHEN THE NERVES ARE OUT OF GEAR
They Need New, Rich Blood to Restore Their Tone.

Men and women with nerves out of gear become irritable and fretful and are blamed for ill-temper; whereas the fault is not theirs. Their poor health is the cause. The tired, over-busy wife or mother, whose household cares have worn her out; the breadwinner whose anxiety for his family has worried him until he is thin and ill, are the nerve sufferers who become run down. Their nerves, like all bodily organs, need healthy blood; worry tells on their digestion and their nerves are ill-fed. In a course of Dr. Williams' Pink Pills for Pale People, the patient becomes full of energy and happiness for themselves and others returns. Mrs. Wm. Hughes, Coldwater, Ont., has proved the value of Dr. Williams' Pink Pills, and does not hesitate to say so. She says: "Two years ago I suffered untold agonies with my nerves. The pains in my head and the back of my neck were unbearable. I was depressed and cranky all the time. All the rest I took and best of medical attention did me no good. I was advised to try Dr. Williams' Pink Pills, and after taking them for a time felt much better. I continued their use with great benefit, and after my baby was born they were the only tonic that helped me nurse her. I found them a splendid blood enricher, and cannot recommend them too highly."

You can get these Pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

THE KITCHEN GARDEN.
(Experimental Farms, Note.)

Location
Every home should have its kitchen garden. Some may have a very small area in the back yard or along a fence; others may have large areas available, but each should undertake only what can be well cared for. A kitchen garden requires regular systematic care and attention. When these are supplied, it will return luscious fruit and crisp fresh vegetables throughout their seasons and will stock the cellar for winter use, with most healthful food. Make the kitchen garden near the house. It will then receive more attention and can be made a success.

The tools required are few. The four chief tools being a spade, a digging fork, a rake and a hoe. A plow and harrow if available, will greatly lessen the hard work.

A definite plan should be made during the winter showing the layout of the garden. The seeds should be ordered early. Most of the work can be completed before the regular rush of spring work commences. A plot of land 66 feet by 66 feet, well fenced, should supply enough vegetables for the average family. Paths should be arranged so that the worker can easily and quickly get to any row in the garden. Two paths might cross at right angles through the centre of the garden each way.

The garden should have a heavy application of manure well worked into the soil. A coat from three to five inches thick would require five tons or more for the one-tenth acre suggested. Plow this under in the autumn when possible or work well rotted manure thoroughly into the land in the early spring. Do not work a heavy soil when it is wet. If a light mulch is made with a garden rake on the top of a damp soil the land will quickly dry out on a fine spring day and good tilth can be obtained by working.

Beds of asparagus and rhubarb might occupy the fence corners. Plantations of raspberries, gooseberries and currants might be set along the fences. Rows of strawberries might line either side of the paths dividing the garden into four equal parts. Vegetables having a long season should be grouped together to keep the garden tidy. Vegetables that have a short season should be planted in rotation so that one crop may follow another in their season. Several seedlings of some sorts will give a practically continuous supply of fresh vegetables.

(a) The vegetables to be sown very early are: beets, carrots, lettuce, onions, parsnips, peas and radishes.

(b) Those to be secured from hotbeds and hardened to stand some frost are: cabbage, cauliflower, celery and tomatoes.

(c) After danger from frost is over the following may be planted: beans, corn, cucumbers, potatoes and squash. Many other choice vegetables may be added after the first year's experience. Don't undertake more than you can do well and what you can do in the time available. Have everything handy.

J. A. Clark, Superintendent, Experimental Station Charlottetown, P. E. I.

"It may be hard for a rich man to enter the kingdom of heaven," said Rastus to the preacher, "but it's just as hard for a poor man to stay on the earth."

6600 MILES UNDERGROUND RAILWAYS.

When we talk of railways in Canada, says the Natural Resources Intelligence Service of the Department of the Interior, we naturally think only of the Canadian National and the Canadian Pacific systems. These two organizations, for one reason or another, are constantly getting into print.

Canada, however, has other railways, quite as important for the purpose for which they are being used as the two larger systems. In the coal mines of Nova Scotia there are over 6,000 miles of underground passageways, which have been excavated to produce the coal for which this province is noted. In these passageways there are laid over 200 miles of railways, on much of which electric locomotives and trains of cars bring the coal to the bottom of the shaft. This railway line is rarely heard of for the reason that we are more interested in the coal than in the means of securing it.

In British Columbia's forests there are 21 railways, with 615 miles of railway line, equipped with 116 locomotives and the necessary cars for bringing out the logs. These are not in any sense toy railways. They are standard in every respect and have to pass inspection. We hear much of the size of some of the logs taken out of the forests of British Columbia, but give little thought to the means of getting them out.

In Northern Ontario many miles of railway are laid underground to bring out the gold, silver and nickel ore of that wonderful mining area. This is not heard of as only the metal production is considered.

The part these railways play in the development of Canada's natural resources is of the greatest importance, and will increase as the exploitation of our mines and forests proceeds.

CANADA'S GREAT LOSS.

It may not be generally known but Canada has the highest fire loss ratio of any country in the world, the figures being \$21,000,000 per year—\$400,000 per week \$57,000 per day and \$40 per minute, day and night. Every man, woman and child has to pay \$3.00 per year for fire waste, while in Europe it is the equivalent of 33 cents.

"The cost of every single article we purchase is indirectly increased by the premium for fire insurance, and the merchants are indeed a poor set of business men these days if they do not include their insurance premiums in the general cost of their merchandise." That carelessness, in a great number of instances is the direct cause of a large number of fires in Montreal and the consequent terrific wastage, is the opinion of many of the leading officials of the Montreal Fire Department. "Be careful!" should be the slogan of the people; declared a fire inspector, "and one cannot be over-cautious in the matter of fire prevention. It is estimated that nearly 75 per cent of all fires are the direct result of carelessness on somebody's part—a cigar or cigarette stub—a lighted match thrown thoughtlessly on the floor—an overheated stove, where there is no metal or asbestos protection on the immediate walls or ceiling—defective chimney construction and wiring—all these, and numerous other petty causes, are the reason for the staggering amount of our fire loss, and to think that a few cents thought on the part of the public generally would save all this!"

INTERESTING CASE BEFORE CO. COURT.
Decision Reserved in Case of Custody of Children of Late Dr. Young.

Annapolis Royal.—Judge George Grierson has been holding a special sitting of the County Court to hear a halcyon corpus application in connection with the custody of two infant children of the late Dr. F. W. Young, formerly of Lawrencetown. After the father's death these children were taken by their mother to Baltimore.

In 1919 proceedings were laid in the American courts and the children were placed in the custody of Mrs. Ida Elliott, of Lawrencetown, who was later appointed guardian of the children here. Since 1919 the mother has made two attempts to regain possession of the children. The first attempt was before Judge Drysdale and the second was heard by Judge Melish. Both efforts failed.

These new proceedings are supported by a mass of affidavits on both sides. Under Dr. Young's will the children, now 16 and 18 years of age, will become entitled to between ten and fifteen thousand dollars when they come of age. Judgment was reserved.

SENTENCE REDUCED BY APPEAL COURT
Decision Rendered in Yarmouth Case by Newly Constituted Criminal Appeal Court.

Yarmouth.—Last week the Criminal Appeal Court at Halifax rendered its decision in the case of Rex vs. Hamilton and Rex vs. Doucette, reducing the sentences of both defendants from four years to two years.

Hamilton and Doucette were tried at the last June sitting of the Supreme Court at Yarmouth before Chief Justice Harris on the charge of breaking and entering the store of Tillie Smofsky at Carleton, Yarmouth County, and committing an indictable offence therein. They were found guilty and sentenced by Chief Justice Harris to four years in Dorchester.

An appeal was taken against the sentence by their solicitor, P. H. Patterson, on the ground that it was too severe. The case was argued before the Appeal Court last week and Monday their Lordships rendered their decision reducing the sentence from four to two years. The case is of interest as it has only been recently that an appeal can be taken against a sentence, and it is almost the first, if not the first time, that the newly constituted Criminal Appeal Court of Nova Scotia has reviewed and changed a sentence given by one of its own Judges.

WAR-TIME WHEAT PROFITS.
Western Canadian farmers will be some half-million dollars richer this spring by the distribution amongst the Western provinces of the surplus profits of the operations of the Canada Wheat Board, which marked the 1919 crop. The order-in-Council which authorizes the disposition of this much-disputed surplus, now proposed in the Treasury of Canada, has not been signed, and details of the amount available and of how much will go to the respective provinces have not yet been made public, but it is understood the Government has decided to return the money to the Western wheat growers, whose grain, marketed under war-times wheat pool conditions, netted for the now extinct Canada Wheat Board a profit over the estimated returns. The amount available in the Treasury was estimated last session at \$550,000.

J. A. MARVEN, LTD., HAD SATISFACTORY YEAR.
Moncton.—The annual general meeting of J. A. Marven Ltd., was held Tuesday afternoon at the office of the company. The report of the auditor, R. Carter, was read, which reviewed a satisfactory year. A dividend of 7 per cent was declared payable March 1st. The old Board of Directors were re-elected: J. A. Marven, L. H. Higgins, J. E. Masters, E. A. Reilly, K.C., and W. F. Ferguson. A good number of stock-holders was present.

At a subsequent meeting of the Directors, J. A. Marven was re-appointed President and General Manager, L. H. Higgins, Vice-President and S. L. Holder, Secretary-Treasurer.

GASOLINE TAX.
Toronto.—Under the new tax of three cents per gallon on gasoline, as made public by the premier Wednesday, all purchasers of gasoline for any purpose whatsoever, industrial, cleaning, motor cars, tractors, and motor boats will be obliged to pay the government its impost, according to Premier Ferguson.

"As the tax will be collected from the man who first handles the gasoline, in Ontario after it comes from the manufacturer, the tax will be included in the price to the purchaser," said the premier.

SCALLOP FISHERMEN MAKE A RICH HAUL.
After many weeks of enforced idleness and hard luck due to ice in the Bay of Fundy which made it impossible for them to carry on their work, the Digby scallop fleet are back on the job and have made daily trips to the beds in the Bay of Fundy. The boats are making a rich harvest during the continued spell of fine weather one of them stocking \$1,000 for the week's trip. Scallops are bringing about 40 cents a pound at the present time.

CENSUS FIGURES.
In 1922 Canada with a population of 8,788,483 paid in taxes about \$561,460,637. This staggering sum was made up as follows:

Municipal Taxes	\$178,664,291
Provincial Taxes	47,342,406
Dominion Taxes	335,453,941
Total	\$561,460,637

This total was 19 per cent of the year's total net production of all Canadian industries, including mining, fishing, agriculture. It was almost half the net agricultural production and exceeded the combined gross production of Canadian forests and mines. It was 50 per cent of the net manufacturing production in that year. Consciously or unconsciously, every family in Canada is paying a share of this amount either directly or indirectly, through the cost of living, or both.

THREE BILLIONS SPENT FOR NEW AUTOS DURING 1924.
Washington.—The world spent \$3,260,000,000 for new motor vehicles in 1924 according to Percy Owen, chief of the automotive department of the Department of Commerce.

"Returns from the department's trade agents throughout the world indicate that during the past year there was assimilated 3,300,000 passenger cars and trucks and 200,000 motor-cycles which total number at the very conservative figures of \$1,000 cycles, enables the department to approximate the amount spent for automobiles in general," says Owen.

MIGHT HAVE BEEN WORSE.
It was toward the end of a theatrical performance when one man turned to another and said in a harsh grating voice: "Look here, you have sat on my silk hat. It is ruined."

The other looked at the silk hat. It was indeed a wreck. "I am sorry," he said. "That is too bad, but," he added, "it might have been worse."

"How might it have been worse?" exclaimed the first man angrily.

"I might have sat on my own hat," came the unfeeling reply.

Does your pen Qualify? Yes, it's a Waterman's

Any fountain pen's usefulness depends upon three things—the nib, the ink supply and the flow.

The nib must conform—the ink supply must be generous, the flow must be steady and continuous.

There is a Waterman's nib to suit every possible style of handwriting. The ink supply in every Waterman's is greater than that of any other pen of similar size. The "spongy" feed—exclusive to Waterman's—is the one method by which a steady flow of ink is assured.

It is because of these features—because of its ability to write properly at all times—that there are more Waterman's in use than all other makes of fountain pens combined.
