# MONTREAL Homœopathic Record

DEVOTED TO THE INTERESTS OF HOMŒOPATHY AND OF THE MONTREAL  
HOMŒOPATHIC HOSPITAL.

VOL. IV. No. 11

MONTREAL, NOVEMBER, 1899.

25cts. A YEAR.

## Montreal Homœopathic Record

— PUBLISHED MONTHLY —

By the Woman's Auxiliary of the Montreal  
Homœopathic Hospital.

Communications relating to business and subscriptions to be sent to the Business Manager, care Sterling Publishing Co., 17 St. Gabriel St.

Manuscripts, news items, etc., should be addressed to the Editor Record, care Sterling Publishing Co., 17 St. Gabriel St.

Our friend Doctor R. S. Copeland, of the Homœopathic Medical College of the University of Michigan, at Ann Arbor, calls our attention to some inaccuracies in the paragraphs which have appeared in the September and October issues of THE RECORD, touching the new Hospital which is to be erected in connection with their College. The Doctor says:

" Besides the site, the city gave a fine brick residence, worth, at least, \$10,000, to be used as a nurse's home. The appropriation for the building was \$60,000 instead of \$25,000, as stated in THE RECORD. With equipment added the plant will be worth, at least, \$100,000. Ground is broken and work will be pushed as far as possible before winter. The contract calls for the building to be finished August 1st, 1900. The college has a larger attendance than last year and all the interests of Homœopathy at the University of Michigan are well preserved."

We congratulate the city of Ann Arbor and the State of Michigan on the pro-

gressive and liberal character of its legislators. That little contribution by the city council of the "fine brick residence, worth, at least, \$10,000, to be used as a nurse's home" will make envious the management of our own Hospital, who, thus far, have looked in vain for some kind friend to fill a similar long felt want here. Our congratulations all the same to Doctor Copeland and his associates at Ann Arbor on their good fortune.

The management of the Hospital are deeply grateful to the kind friends, members of the congregations of the American and Olivet Baptist Churches, who, on Thanksgiving Day, marked their Hospital Thanksgiving collections for the Montreal Homœopathic. The aggregate result, \$44.92, is greatly appreciated. Not less so were the kind words of appreciative gratitude uttered by Rev. Mr. Dadson, of Olivet Baptist, on behalf of several clergymen of the Baptist connection who had had personal experience of the kind and capable treatment given at the Hospital.

A noted surgeon of London, who was called to attend the Queen just at his lecture hour at one of the large colleges, had written upon the bulletin board, "Dr. — will not lecture to-day. Gone to attend the Queen." Some miscreant wrote underneath the message "God save the Queen."—Medical Dial.

## OBITUARY.

By the sudden and peculiarly sad death of Mrs. A. D. McLean, Miss Kisbey as she graduated, comes the first break in the ranks of the graduated nurses of the Montreal Homoeopathic Hospital. Miss Kisbey graduated in May, 1898, in company with Miss Willoughby, but did not take up regularly the practice of nursing, being married a few months after her graduation. Those who knew her in connection with her work at the Hospital can bear witness to the self-sacrificing devotion which she brought to the discharge of her every duty. She had a particularly kind and sympathetic disposition, and no exertion of hers which could in any way contribute to the pleasure or ease the pain of a suffering patient was ever withheld. She herself had passed through a most dangerous illness at the Hospital, and the care and thoughtful attention she then experienced was afterwards a constant incentive to her to do for others similarly situated. Married but a few months, with every prospect of a long, useful and pleasant life before her, the end has come all too quickly and left her many friends only the memory of a sweet, devoted and purely unselfish life.

Mrs. McLean was a daughter of Hon. Judge Kisbey, of Dublin, and a cousin of Mr. H. M. Patton.

At a meeting of the Woman's Auxiliary, held on the 15th instant, a resolution was passed expressive of the deep sorrow of the members for the sad death of Mrs. McLean, and their heartfelt sympathy for Mr. McLean in his grief.

Mrs. McLean was a true and faithful friend to the Hospital; ever ready to help, so wisely, so efficiently in every emergency. Words cannot express our appreciation, but we shall miss her and shall certainly never forget her many kindnesses.

Pieraccini, in *Il Policlinico*, says that cases of tetanus, even of the severest description, caused by the method of Bacelli, the subcutaneous injection of a 2 per cent. solution of carbolic acid, are now so frequently reported in Italian medical literature that no room is left to doubt the efficacy of the treatment. A curious fact was that no traces of the acid could be found in the urine at any time.

## HOSPITAL NOTES.

General regret is expressed at the decision of Dr. Wm. McHarrrie to locate in Fargo, N. Dak. He had just finished a splendid post graduate course at Chicago and was preparing to return to Montreal when he was the recipient of a most flattering offer from the flourishing North Dakota city. The best wishes of his Montreal friends will follow the doctor and Mrs. McHarrrie to their new home.

Miss Kent was hurriedly summoned home by the serious illness of her sister.

Tell your friends about the Monday evening free clinic. Patients should be at the hospital by 8 o'clock.

The work in the outdoor department is steadily increasing.

A nurses' home is badly needed. Who will contribute the first \$1,000?

Dr. Morgan is giving considerable attention to electricity and has some very fine instruments at his home that are frequently called into requisition for hospital patients.

The bazaar was voted a success and greatly enjoyed by all in attendance.

Early preparations should be made for the annual Christmas tree at the hospital.

Let all our friends remember the hospital with generous Xmas gifts. No more worthy object could anywhere be found.

Annual cash contributions are wanted for the hospital.

Visitors to our public wards who have become acquainted with little Gordon Wilkinson will be glad to know that he is steadily improving, after a most serious

operation, and will soon be at home again.

\* \* \*

Dr. Weirick, the new house surgeon, has been kept very busy since assuming charge of his position. He is attentive and energetic and will be of great assistance to the physicians having patients in the hospital.

\* \* \*

Some one has suggested that a series of private entertainments in favor of the hospital might be arranged for the winter. Let the idea be carried out.

man's Auxiliary of the Montreal Homœopathic Hospital, held on Wednesday, Oct. 25th, 1899:

- President—Mrs. J. T. Hagar.
- 1st Vice-President—Mrs. Von Rappard.
- 2nd Vice-President—Miss Baylis.
- Treasurer—Mrs. Sutherland-Taylor.
- Secretary—Miss A. P. Moodie.

COMMITTEES.

- House—Mrs. Sumner, Mrs. Gaunt.
- Training School—Mrs. Phillips, Mrs. A. Patton.
- Sunday Services—Mrs. Thomas.
- Entertainment—Mrs. Morgan, Mrs. Sheffield, Mrs. de F. Smith, Miss McCulloch, Miss Ames.

OCTOBER DONATIONS.

A friend from Lenoxville, through Mrs. W. E. Phillips, fresh creamery butter for patients and nurses.

Montreal Flower Mission, flowers for patients.

A friend, 2 boxes of blocks, pictures and books for children's ward.

Lady Van Horne, barrel of potatoes.

Lillia Keach, papers for children's ward.

Mrs. W. E. Phillips, 2 baskets of grapes for patients and nurses for Thanksgiving dinner.

Mrs. S. Baylis, dishes for Hospital.

Mrs. Geo. Sumner, 1 doz. cans of vegetables for Hospital, old linen and vials.

Mrs. S. Taylor, old linen and papers.

A kind friend, a new electric battery for operating room.

Wm. Davidson, basket of fruit for nurses.

A lady, aged 60, sensation in left heel as of a worm crawling around; exceedingly annoying during the day and kept her awake nearly all night. Had troubled her several months and was getting worse all the time. Cured with a few doses of the 30th *Lachesis*.—T. L. Hazard, M.D., in *Hahn. Advocate*.

CASH SUBSCRIPTIONS AND DONATIONS.

RECEIVED IN OCTOBER.

G. Durnford	.....	\$ 10 00
Roswell Fisher	.....	25 00
H. Barbeau	.....	10 00
E. A. Whitehead	.....	5 00

WOMAN'S AUXILIARY.

The following are the names of the officers and committees elected at the adjourned annual meeting of the Wo-

“RADNOR”

Dr. J. R. Kippax, Professor of Medical Jurisprudence in the Chicago Homœopathic Medical College, writes: “Radnor Water is an agreeable and exceedingly pure table water, and surpasses the leading German Waters in therapeutic value.”

## ANNUAL BAZAAR.

CASH.

## ANOTHER VERY SUCCESSFUL AFFAIR.

On Friday, November 10th, in Beaman's hall, the Woman's Auxiliary added another to the list of successful sales annually gotten up for the benefit of the Hospital. Mrs. Von Rappard and Mrs. Geo. Sumner were indefatigable in their efforts and were ably assisted by the following ladies: Mrs. Dr. Griffith, with Mrs. Baikié to assist her, had charge of the home-made preserves and pickles, and showed some very daintily put up jars of fruit and attractive jams.

Mrs. Sandham and Mrs. Buchanan had the children's table, with Miss Dollie Sandham and her young friends to help. The contents of this table were the results of Miss Dollie's convalescence from a long illness and enthusiastic work of her and her friends for the Children's Ward. Her first intention was to have the sale at her own home, but many helpers and donations caused the work to grow beyond the original plan and a special place was made for her at the annual sale. The result was most gratifying to all concerned.

The cake table was well supplied and Mrs. C. H. Binks, Mrs. Allan Binks and Miss Bancroft disposed of all their stock before the bazaar closed.

Mrs. G. S. Wait, with Miss Reach, had a large quantity of tempting candy in pretty boxes which the Misses Ruby Gnaedinger, Irene Von Rappard and Inez Baylis assisted in serving.

Mrs. Sheffield, Miss Ames and Miss Baylis had the useful and fancy articles to dispose of as well as a large family of dolls. Mrs. W. F. Brown, Miss Moodie, and Miss Lucy Sheffield made willing helpers in realizing a large amount from the sale of these articles.

Miss Gracie Sumner had the toy table. Mrs. Gwilt and Miss Barr had some pretty lamp shades and paper work, as well as toilet articles to sell, and Mrs. Dobbin, assisted by the Misses Pelton and Miss Costigan, had the tea room under their care.

At the last report over three hundred and fifty dollars had been handed in as the result of the day's sales.

The ladies desire to thank all who took part, and those who contributed in any way to make the effort a success.

List of contributors to the various tables as far as reported:

Mr. Jonathan Hodgson.....	\$ 20 00
A friend.....	5 00
Mrs. Geo. Reed.....	4 00
Dr. and Mrs. A. D. Patton.....	1 00
Mrs. R. A. Garratt.....	1 00

## List of contributors of articles for sale:

Mrs. T. Hadley, Verdun; Mrs. Stevens, Mrs. Wardle, Mrs. Brodie, Mrs. Gunn, Bainsville; Miss Somerville, Mrs. Penniston, Mrs. Gardner, Mrs. D. Kearns, Misses Curry, Curry Hill, Mrs. Elliot, Miss Burton, Mrs. J. E. Somerville, Barnardo, Manitoba; Mrs. Sudderd, Miss McLeod, Mrs. Clark, Miss Marie Robertson, Mrs. Hector Macenzie, Dr. Laura Muller, Miss Moore, Mrs. J. A. Sheffield, Mrs. St. Pierre, Mrs. Ames, Miss Ames, Mrs. W. S. Paterson, Mrs. W. Childs, Mrs. Kennedy, Mrs. Graves, Mrs. D. A. Budge, Mrs. J. J. York, Miss Moodie, Mr. and Mrs. Geo. Sumner, Miss Babcock, Mrs. Pringle, Mrs. W. Stanley Phillips, Mrs. and Miss Baylis, Mrs. G. S. Scott, New York, Miss Lizzie Guiney, Mrs. Jas. Patton, Mrs. Baker, Mrs. W. H. McDunnough, Mrs. S. M. Baylis, Mrs. J. A. Mathewson, Mrs. W. E. Phillips, Mrs. A. Donnell, Newark, Del.; Mrs. G. De F. Smith, Mrs. Von Rappard, Mrs. Hagar, Mrs. Griffith, Mrs. Morgan, Mrs. R. Hall, Miss Willoughby, Mrs. G. S. Wait, Mrs. Binks, Mrs. Munn, Mrs. Bell, Mrs. Densmore, Mrs. C. W. Colley, Mrs. G. W. Phelps, Mrs. J. Farrar, Mrs. Wm. Kerry, Mrs. C. A. Jacques, Mrs. W. Scarle, Mrs. J. A. Bell, Mrs. R. J. Evans, Mrs. H. H. Henderson, Mrs. J. Cowan, Mrs. Scholes, Mrs. Mingie, Mrs. J. Cassils, Mrs. S. Fraser, Mrs. Sumner, Mrs. Gaunt, Mrs. Julien, Mrs. Capen, Mrs. S. Bell, Miss Morkel, Messrs. Robert Hall, Hudson & Hebert, J. Walker, Magor, W. Paul, C. Holland, Geo. S. Wait, Tinning, Jas. M. Aird.

A down-cast editor has drawn up some new game laws which he wants adopted. The following is summary: "Book agents may be killed from October 1st to September 1st; spring poets from March 1st to June 1st; scoundalmongers from April 1st to February 1st; umbrella borrowers from August 1st to November 1st, and February 1st to May 1st, while every man who accepts a newspaper two years, upon being presented with his bill, says, 'I never ordered it,' may be killed on the spot without reserve or relief."

## MEDICAL PROGRESS.

The study of logic has fallen into disfavor, yet probably it was never more needed than at the present day, for to the logical mind there are some queer sayings and doings these days. Not to be personal, let us suppose an impossible case, yet a parallel one, say, of a homoeopathic journal that gets angry at everyone who stoutly upholds Homoeopathy and Hahnemann and says that such conduct is a clog on "medical progress." Do you not see the point? (Of course no homoeopathic journal does this, but it serves the purpose of illustration.)

If the man who supports and upholds Homoeopathy and Hahnemann is a bar or a clog to "medical progress," why, then, so is Homoeopathy and Hahnemann; both are outgrown and out of date, and so is a homoeopathic journal if this attitude be taken.

"Medical progress" has progressed to antitoxin, but the homoeopath believes, nay, *knows*, that the indicated remedy is far better and safer. Is it a bar then to "progress" to so believe? Isn't it rather a question of fact? If we may quote Hahnemann, the end of medicine is to cure the sick. Which will cure the greater number of cases, and with best general results, antitoxin or Homoeopathy? If the latter, then the bar and clog on medical progress is not in the men who sturdily uphold Homoeopathy, but—elsewhere.

Not until "medical progress" can show a procedure or a remedy that will cure the sick in a speedier, safer and pleasanter manner, and cure a greater number of cases, than will the Homoeopathic remedy, can the upholding of sound homoeopathy be truthfully termed a bar and a clog to "medical progress." Homoeopathic Envoy.

## HOW TO LIVE A HUNDRED YEARS.

A writer in *Pacific Health Journal* on "How to Live a Hundred Years" cites the case of a Captain G. E. D. Diamond, at present 102 years old and still hale and hearty. Among other measures the captain adopts the following:

"He is a great advocate of the use of pure olive oil, which he uses moderately but constantly, both externally and internally. This idea, he says, was suggested to him from reading the record of the old Jewish custom of anointing with olive oil, which they produce in great abundance. His morning and evening baths are taken with water at the ordinary temperature, not having been heated. Each bath is followed with vigorous rubbing, and once a day with rubbing with olive oil. Not more than a teaspoonful is used, but it is rubbed in till none remains upon the surface. It is especially applied about the joints. He attributes his restoration of hearing and sight much to the continued anointing with olive oil. Captain Diamond is a perfect sleeper. During childhood he took eight or nine hours sleep, but later in life he needed but five or six hours. Once in bed it is for absolute rest and oblivion to active life. Once awake he is up and about his business. He has always been a single man, but active and energetic in business."

The *Belladonna* 30 sore throat is bright red, with feverish condition, flushed face and headache. *Mercurius* 6 sore throat has moist mouth, swollen glands, inability to swallow; quinsy, enlarged tonsils, putrid sore throat. *Phytolacca* 3 sore throat is dark red, accompanied by fever, aching head and limbs. Dark red throat, dry and sore, *Esculus* 3. Feeling of a sore lump in the throat when swallowing. *Igambia* 30—Medical Advance.

## ABBHEY'S

# EFFERVESCENT

## SALT.

A pleasant effervescent aperient, taking the place of nauseating mineral water. Recognized and prescribed by eminent members of the profession in Great Britain and Europe and Canada.

## SULPHUR.

GEO. ROYAL, M.D., DES MOINES, IOWA.

Prof. Materia Medica and Dean of the  
Homeopathic Department of the  
Iowa State University.

A good old Presbyterian sister, speaking of her pastor's sermons and his ability to meet and overcome every objection to his arguments, said: "He just drives everything before him. Usually he can do it with English, but once in a while, when it seems best, he uses Greek, Latin, or Hebrew as seems most suitable."

So with *Sulphur*, it is a remedy that "drives everthing before it." Give *Sulphur* 30th, 200th or higher, if you please, to an individual who is afflicted with that cachexia called by the various names—psora, scrofulosis, or tuberculososis, and observe not only what will go "before it" but also what will remain after it has passed. For the purpose of comparison I will state what I have observed. I have given *Sulphur* for a dirty, dry skin in a child who screamed every time he saw the nurse coming towards him with soap and water, and have seen the skin become moist and the little fellow cry with delight in his bath-tub of water. I have given it for comedones and seen a clear complexion as the result. A man came to me once and said: "Doctor, you must do something for me or I must go out to the barn to eat and sleep. For several months my body stinks so that every member of my family avoids me. The more I bathe the worse the odor." A few doses of *Sulphur*™ drove this odor before it, never to return. Again and again have I seen a delayed eruption hasten to the surface before *Sulphur*. As repeatedly have I seen a suddenly suppressed exanthematous or eczematous eruption find its way back to the surface, thereby preventing convulsions, coma and death. All forms of skin eruption have disappeared before *Sulphur*, providing *burning* was the most marked sensation. There is itching, to be sure, but that changes to burning after scratching. The burning is aggravated by bathing as are also the dryness and itching. I have seen boils so numerous as to be on all parts of the body, disappear one after the other and leave a clear healthy skin after giving *Sulphur*™. Passing now from the outer to the inner skin we note the same effect.

How often do we find redness of the mucous membrane of the eyes, nose, mouth, anus, vagina or urethra. Not only is the membrane red, but dry, and the *burning* is intense. There is a little mucus secreted but it soon dries and increases the *burning*. When I find the above group of symptoms and the patient tells me that they have been present "since the measles or scarlet fever or some other eruption suddenly went in" I give *Sulphur* and assure my patient, with the utmost confidence, that every symptom will be eradicated.

Next to the skin and mucous membranes *Sulphur* acts most prominently on the circulation. Local congestion is produced at those points when you have the *burning*, heat and uneasiness. I have given *Sulphur* for  $\rho$  a in the vertex < stooping, pressure in forehead, fullness of the head as if filled with blood, heaviness and confusion, and as a result a suppressed hæmorrhoidal or leucorrhœal flow was re-established and all the head symptoms banished. On several occasions the hæmorrhoids also disappeared after a short course of *Sulphur*. I have given *Sulphur* to girls just before the first menstrual flow, girls who had been chubby, fair babies, who had enjoyed a good complexion until within the previous six or nine months, when the skin became dry and dirty, the sleep restless, the appetite capricious and unnatural, the bowels constipated, the breath foul, the mucous membranes red, a dry hacking cough appeared accompanied by several foci in the lung and a slight afternoon fever. I have given *Sulphur* in such cases, hastened the menstrual misus, equalized the circulation and seen the patient develop into a strong healthy woman, not withstanding the fact that some of her aunts and older sisters began to decline at that same age and in a few years died of tuberculososis.

I have given *Sulphur* to a pneumonic patient whose lung was solid, when the afternoon fever was increasing, when the skin was becoming dry and more inelastic, when the feet and hands were hot and burning, in short, a case in which resolution should have taken place several days before and in which an abscess seemed inevitable. For this condition I have given *Sulphur*™. Had resolution taking place so rapidly that tartar emetic was needed within twelve hours. I have also given *Sulphur* in pneumonia when *Phosphorus* seemed the remedy in bringing about resolution, but failed to do so until a dose or two of *Sulphur* was given after which *Phosphorus*

acted promptly. I know some laugh at the idea of *Sulphur* having the power of rousing the vital energies, but those who have tried it and know the result will continue to use it and let the others ridicule. But why need I write more about *Sulphur* this hot day? The old-timers used to associate *Sulphur* with sin, presumably, because of its most marked sensitive *burning*. But *Sulphur* reminds me of sin in another sense. Men sin not because they *do not know* better, but because they *will not* do better. Men refuse to give *Sulphur* not because they *do not know* its indications, but they simply *will not* give it when indicated. Such men are too progressive to use *Sulphur*. "Why the old man Hahnenmann was in his dotage when he wrote about and used *Sulphur*, and he has been dead fifty-six years. We are up-to-date physicians, using the latest remedy (clad), and our pharmacist has promised a new combination tablet-triturate composed of *Sulphur*, *Bryonia*, and *Esculus*, which will banish constipation, portal-congestion and hemorrhoids at one shot."—Medical Advance.

---

#### HINTS.

*Malaria aff.* 2, has been found by Dr. Bowen, of Fort Wayne, Ind., to be a great remedy in long standing cases of rheumatism. Also it is said in 30th potency to be effectual against all malarial complaints.

For cases of trembling hands *Lolium temulentum* has proved curative in many instances.

*Acidum succinic crudum*, 2x trit., has met with much success this season in the cure of hay fever.

Chronic cases of irritation of urinary passage and bladder have been relieved with the tincture of *Saururus cernuus*, 20 drops in a wine glass full of water twice a day.

*Cratogeomys*, in 10-drop doses in a tablespoonful of water twice a day, has proved brilliantly curative in various forms of heart disease when all other means failed.

Where is much sediment in the uric acid or brick dust sediment—a few doses of the tincture of *Thuaspi larsa pastozis*, 30 drops in half a tumbler of water, will often clear up the whole trouble.

In cases of sore throat Pine Apple Juice

Syrup makes a good drink. Nothing better in diphtheria. The Boericke & Tafel pharmacies carry it.

In severely distressed stomach, when all else fails, try *Homarus* 3 three times a day.

When food is needed, yet all food is distasteful, give the patient Pure Unfermented Grape Juice—not the kind preserved with chemical, but the sterilized juice. All patients relish it.

In answer to a query, we can state that the "Athena Skin Soap" is not medicated, but is an exceedingly pure, high-grade, milled toilet soap. It has a fine effect on the skin, and the longer one uses it the better it is liked, as we can personally testify.

*Natrum phos.* is said to be a remedy for catarrh of the bladder.

*Natrum sulph.* is a great remedy for grippe or influenza. Keep it on hand against the evil day. It is the great Dr. Schuessler's "specific," but for all that we believe it acts, as do all curative drugs, on the law of similia.

If ill from after-effects of vaccination, take *Thuja* 30 once a week.

Every time the nose is blown there is a little blood with the mucus is a call for *Phosphorus*.

"Has to swallow all the time," is a symptom of *Causticum*, also "cramp-like sensation in the lips."—Homœopathic Envoy.

---

Mr. L., aged forty. Last December had an operation for hemorrhoids. During February developed bilious fever, which lasted three weeks. The last week of March was taken with la grippe, which has left him very weak; has not been able to sleep for past two weeks; has frontal headache, distress following meals, and is weak and exhausted.

He was given *Kali phos.* 6x three times a day. After one week reported improvement, but returned at the close of the second week to assure us he was cured. This patient attributed his condition of insomnia to worry. He had worried over the thought of an operation and taking an anæsthetic. During the sickness that followed he worried over financial matters, until insomnia was the result. Where worry and anxiety act as factors in producing insomnia *Kali phos.* will benefit.—Dr. A. L. Blackwood in the Clinique.
