The copy filmed here has been reproduced thanks
to the generosity of:

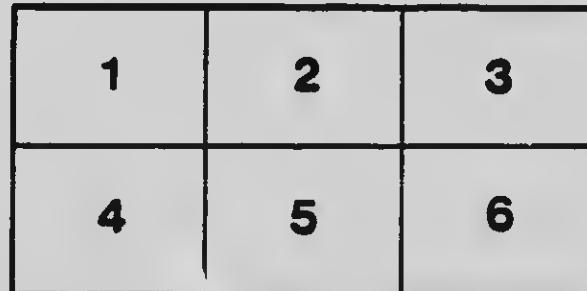

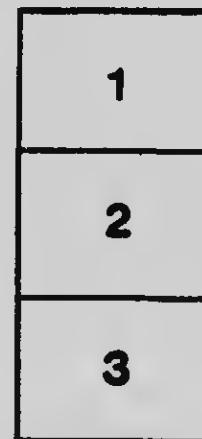

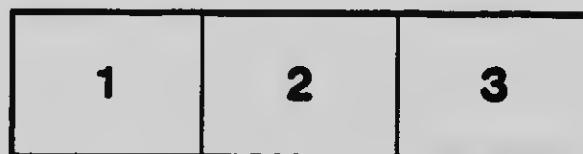

National Gallery of Canada,
Library

The images appearing here are the best quality
possible considering the condition and legibility
of the original copy and in keeping with the
filming contract specifications.

Original copies in printed paper covers are filmed
beginning with the front cover and ending on
the last page with a printed or illustrated impression,
or the back cover when appropriate. All
other original copies are filmed beginning on the
first page with a printed or illustrated impression,
and ending on the last page with a printed
or illustrated impression.

The last recorded frame on each microfiche
shell contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"),
whichever applies.

Maps, plates, charts, etc., may be filmed at
different reduction ratios. Those too large to be
entirely included in one exposure are filmed
beginning in the upper left hand corner, left to
right and top to bottom, as many frames as
required. The following diagrams illustrate the
method:

L'exemplaire filmé fut reproduit grâce à la
générosité de:

Musée des Beaux-Arts du Canada,
Bibliothèque

Les images suivantes ont été reproduites avec le
plus grand soin, compte tenu de la condition et
de la netteté de l'exemplaire filmé, et en
conformité avec les conditions du contrat de
filage.

Les exemplaires originaux dont la couverture en
papier est imprimée sont filmés en commençant
par le premier plan et en terminant soit par le
dernière page qui comporte une empreinte
d'impression ou d'illustration, soit par le second
plan, selon le cas. Tous les autres exemplaires
originaux sont filmés en commençant par la
première page qui comporte une empreinte
d'impression ou d'illustration et en terminant par
la dernière page qui comporte une telle
empreinte.

Un des symboles suivants apparaîtra sur la
dernière image de chaque microfiche, selon le
cas: le symbole → signifie "À SUIVRE", le
symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être
filmés à des taux de réduction différents.
Lorsque le document est trop grand pour être
reproduit en un seul cliché, il est filmé à partir
de l'angle supérieur gauche, de gauche à droite,
et de haut en bas, en prenant le nombre
d'images nécessaire. Les diagrammes suivants
illustrent la méthode.

1. Sketch—Lime Kiln on the Dee, Wales *D. Fowler, R.C.A.*

DANIEL FOWLER, R.C.A., Decesed.—The history of Mr. Fowler's artistic career in Canada is almost co-existent with that of Canadian Art. He exhibited at the first Exhibition of the "Toronto Society of Arts" in the year 1847 (and was the means, associated with other artists, of introducing important improvements into the management of the Art Department of those exhibitions). In 1870 he gained the Medal for Water-color Painting at the Philadelphia Centennial, the only one awarded in America. In 1880 he received the Diploma and Medal at the Colonial and Indian Exhibition in London, and he contributed largely to the Canadian Rooms at the World's Fair in Chicago. He took the deepest interest in the formation and welfare of the Royal Canadian Academy, his name being mentioned for its first President. As to his work, whatever the subject of his picture was, it was rendered with so much boldness and brilliance, with such perfect facility and strong sense of decorative color, that the effect was always charming.
