MANUEL AT GIBRALTAR DOUBTFUL YET WHETHER ALL PORTUGAL REVOLTED

Round - About Despatches Tell of the First Day's Fighting at Lisbon—Casualties Were Very Heavy.

That King Manuel is safe out of Portugal is deduced by despatches from Gibraltar, which say that he landed there Thursday night with the Queen-Mother, the Dowager Queen and the Duke of Oporto. The royal family of Portugal is therefore now under British protection.

A rigorous censorship still prevents the details of occurrences in Lisbon from becoming known, but despatches that have come thru by way of the frontier and direct indicate that the fighting in the streets of the Portuguese capital was of longer duration and of a more severe nature than at first reported. Nothing is known of Thursday's events at Lisbon.

The situation in the provinces is very doubtful. A despatch from Oporto gives brief details of demonstrations held there on the day after the rising occurred at Lisbon. Since then, however, word from Oporto said that quiet had been restored.

Notification has been sent to the foreign powers by the provisional government of the proclamation of a republic.

LISBON, Oct. 6.—While the City of Lisbon is in the hands of the revolutionists, and a republic has been proclaimed, with Theophile Braga as provisional president, and other prominent Republicans constituting the ministry, there are still many thousands in and around the capital who are loyal to the monarchy.

The monarchists include a portion of the Lisbon troops massed in entrenched camps about the city. These have refused so far to ally themselves with the revolutionists, and the provisional government is taking steps to enforce allegiance.

The people of Lisbon are ignorant of events in the provinces, and it is therefore not known whether the movement is broad enough to sweep the country. Nevertheless, the Republicans are proceeding as the transformation of the monarchy into a republic was an accomplished fact, to stand for all time.

Revolution Precipitated. For months past preparations have been going on for the overthrow of the King, and it was definitely arranged to raise the cry of revolt on Wednesday. It so happened that the King was about to take up his residence at Cascaes, and the arrangements were made to proceed there. The navy, which is the chief support of the revolutionists, thereupon decided to act immediately, otherwise that defensive arm of the country would have offered no assistance in carrying out the plan.

Monday, at midnight, the Republican chiefs, accompanied by numerous parties, went to the barracks of the sixteenth regiment, where the doors were immediately thrown open to the populace, and arms were distributed to thousands. The barracks of the first regiment of artillery were next visited, and the drums were dragged forth. The revolutionists marched to the highest point in Lisbon, a fine strategic position, where artillery was promptly brought into action.

The government troops immediately took up a position in the centre of the town, about two miles distant from the revolutionists, where heavy guns and the emperor's encampment were the enemy. Meanwhile the insurgent cruiser Adamaster steamed up in front of Lisbon, ready for a bombardment while the revolutionists proceeded down the river, taking her station opposite the seamen's barracks, which, having joined the revolutionists, was surrounded by a force of municipal guards.

The cannonading commenced, and the whole town trembled to its foundations. A regiment of municipal cavalry made a brilliant charge in an endeavor to take the emperor's encampment near the railway, but were met with a terrible fire by the artillery. This regiment was almost annihilated, only three men escaping.

The revolutionists showed extraordinary courage and sustained an attack on all sides by superior forces for two days and nights. On Tuesday the Adamaster shelled the Necessidades palace, and King Manuel and the Queen-Mother Amelie were forced to

King Manuel at Gibraltar

GIBRALTAR, Oct. 6.—King Manuel of Portugal is now under British protection. The Portuguese royal yacht Amelie, having on board the king, the queen mother, the Dowager Queen, and the Duke of Oporto, entered this harbor at eleven o'clock this evening. Shortly afterwards the king and the queen mother came ashore, and drove to the summer residence of the governor, Sir Frederick Forester-Walker, at Europa Point.

WHAT WILL HAPPEN TO PORTUGUESE COLONIES?

May Be a Secret Agreement Between Britain and Germany as to Their Division.

BERLIN, Oct. 6.—The fate of the Portuguese colonies is a matter of serious comment among diplomatists here owing to the fact that when Portugal was in great political and financial difficulties in 1897 and 1898, the German and British Governments discussed the eventualities of Portugal being unable to keep a secure hold upon her colonies. It was the plan of Cecil Rhodes that the Portuguese colonies should be divided between Great Britain and Germany. Rhodes talked on the subject with Emperor William, and shortly afterwards the text of a so-called secret conference was published. This provided that Great Britain should take over the east African and German the west African colonies of Portugal in the event that circumstances should arise rendering Portugal unable to longer securely govern them.

At the time both London and Berlin issued official denials of the existence of such a treaty, but those well-informed know that such an arrangement was considered and they believe that the matter may be reopened if disorders in Portugal are prolonged.

NOT MUCH WEIGHT WAS ATTACHED TO NEW CLUE

Young Man Had Stains Washed From His Clothes at Home Early on Night of the Murder.

GODERICH, Oct. 6.—(Special).—On the statement of two little girls, that a young man living in the neighborhood of the house in which Lizzie Anderson was murdered, had given them 15 cents each, was tried before the grand jury on Wednesday morning. The girl, who is now being investigated to-day, and they learn by Ray the son of a man had been seen in the neighborhood of the house on the night of the crime, but where it at first looked as though he had been out all night by the date of the crime, it is stated that it can be proved that he was at home early, and not much weight is attached to that clue, as it is to be further investigated.

It was on this account, and partly, too, because the authorities are waiting for a material witness from out of town, that the inquest was adjourned until seven o'clock to-morrow night, after a session of only fifteen minutes to-day.

Young Steven Horton, who was arrested and brought back from Stratford, because he left town suspiciously a few days before the murder, was taken before the magistrate to-night on a charge of stealing a shirt, and was allowed off on suspended sentence. It was learned that he had been advised to skip by Ray the son of a man in connection with another affair, and his departure with a borrowed shirt has no connection with the murder.

There will be no outside counsel imported by the crown to conduct the inquest, as has been stated in some of the papers.

A 35-FOOT CHANNEL

Government Inspection Preliminary to Deepening St. Lawrence.

MONTREAL, Oct. 6.—(Special).—Hon. L. P. Brodeur, minister of marine and fisheries, accompanied by representatives of the harbor commissioners, the shipping federation, and steamship companies, left the port this morning on the government steamer Lady Grey to make an inspection of the ship channel between Montreal and the Beaujeu banks, some miles below Quebec. It is confidently expected that the inspection is preliminary to an official announcement that the marine department will next spring proceed to the work of deepening the channel to thirty-five feet all the way up to Montreal.

A RETROSPECT.

Oct. 7, 1862.—The treaty of Paris went into effect in Canada, Cape Breton and St. John's Island were annexed with the lesser islands adjacent thereto to our government of Nova Scotia.

COUNCIL GOES SLOW IN NAMING AN M.H.O.

With Two Hastings Supporters Away, Council Vote by 11 to 10 to Defer Decision for a Week—Goodchild and Hill Are Hardly in the Running.

The city's medical health department is still without a head, despite a feeling almost approaching certainty that when the city council met yesterday afternoon it would accept the recommendation of the board of control that Dr. Charles J. O. Hastings would be appointed to succeed Dr. Sheard at \$5000 a year. Despite the freely expressed determination among the aldermen to lose no further time, a motion by Ald. Maguire to refer back the appointment so that it could be given more consideration, was carried by a vote of 11 to 10.

Everybody appeared surprised at the outcome, including Ald. Maguire, who said afterwards that he had not expected to see more than three or four votes against Dr. Hastings. That the latter will ultimately be appointed is, however, regarded as practically assured, as the majority of the board announce a determination to adhere to their recommendation. Moreover, Ald. McCarty and Hamby, both outspoken supporters of Dr. Hastings, were absent yesterday, and their presence would have turned the tide.

No definite instructions were given to the board as to when they are to report again. The board does not hold a regular session before Monday's regular meeting, but a special meeting will probably be called later next week.

The Votes.

The voting resulted as follows: Dr. J. F. Goodchild, nominated by Ald. Welch; For, the mayor, Ald. Dunn, Welch, Hilton, May and Maguire—8; against, Controllers Ward, Church, Foster and Spence, Ald. Graham, McBride, Weston, Rowland, Spence, Heyd, Phelan, McCausland, Anderson, Baird, O'Neill and Chisholm—16.

Dr. William Hill of Minneapolis, nominated by Controller Spence; For, Controller Spence, Ald. Anderson, Baird and Chisholm—8; against, the mayor, Controllers Ward, Church, Foster, Ald. Graham, Welch, Weston, Rowland, Spence, Heyd, Phelan, McCausland, Maguire and O'Neill—16.

Ald. Maguire's motion to refer back: For, Ald. Weston, Chisholm, Maguire, Baird, Anderson, May, McBride, Hilton, Welch, Dunn and Controller Spence—11; against, the mayor, Controllers Ward, Church, Foster, Ald. Graham, Welch, Weston, Rowland, Spence, Heyd, Phelan, McCausland, Maguire and O'Neill—16.

Ald. Maguire's motion to refer back: For, Ald. Weston, Chisholm, Maguire, Baird, Anderson, May, McBride, Hilton, Welch, Dunn and Controller Spence—11; against, the mayor, Controllers Ward, Church, Foster, Ald. Graham, Welch, Weston, Rowland, Spence, Heyd, Phelan, McCausland, Maguire and O'Neill—16.

Ald. Maguire's motion to refer back: For, Ald. Weston, Chisholm, Maguire, Baird, Anderson, May, McBride, Hilton, Welch, Dunn and Controller Spence—11; against, the mayor, Controllers Ward, Church, Foster, Ald. Graham, Welch, Weston, Rowland, Spence, Heyd, Phelan, McCausland, Maguire and O'Neill—16.

Ald. Maguire's motion to refer back: For, Ald. Weston, Chisholm, Maguire, Baird, Anderson, May, McBride, Hilton, Welch, Dunn and Controller Spence—11; against, the mayor, Controllers Ward, Church, Foster, Ald. Graham, Welch, Weston, Rowland, Spence, Heyd, Phelan, McCausland, Maguire and O'Neill—16.

Ald. Maguire's motion to refer back: For, Ald. Weston, Chisholm, Maguire, Baird, Anderson, May, McBride, Hilton, Welch, Dunn and Controller Spence—11; against, the mayor, Controllers Ward, Church, Foster, Ald. Graham, Welch, Weston, Rowland, Spence, Heyd, Phelan, McCausland, Maguire and O'Neill—16.

Ald. Maguire's motion to refer back: For, Ald. Weston, Chisholm, Maguire, Baird, Anderson, May, McBride, Hilton, Welch, Dunn and Controller Spence—11; against, the mayor, Controllers Ward, Church, Foster, Ald. Graham, Welch, Weston, Rowland, Spence, Heyd, Phelan, McCausland, Maguire and O'Neill—16.

Ald. Maguire's motion to refer back: For, Ald. Weston, Chisholm, Maguire, Baird, Anderson, May, McBride, Hilton, Welch, Dunn and Controller Spence—11; against, the mayor, Controllers Ward, Church, Foster, Ald. Graham, Welch, Weston, Rowland, Spence, Heyd, Phelan, McCausland, Maguire and O'Neill—16.

Ald. Maguire's motion to refer back: For, Ald. Weston, Chisholm, Maguire, Baird, Anderson, May, McBride, Hilton, Welch, Dunn and Controller Spence—11; against, the mayor, Controllers Ward, Church, Foster, Ald. Graham, Welch, Weston, Rowland, Spence, Heyd, Phelan, McCausland, Maguire and O'Neill—16.

Weston, Chisholm, Maguire, Baird, Anderson, May, McBride, Hilton, Welch, Dunn and Controller Spence—11; against, the mayor, Controllers Ward, Church, Foster, Ald. Graham, Welch, Weston, Rowland, Spence, Heyd, Phelan, McCausland, Maguire and O'Neill—16.

Ald. Maguire's motion to refer back: For, Ald. Weston, Chisholm, Maguire, Baird, Anderson, May, McBride, Hilton, Welch, Dunn and Controller Spence—11; against, the mayor, Controllers Ward, Church, Foster, Ald. Graham, Welch, Weston, Rowland, Spence, Heyd, Phelan, McCausland, Maguire and O'Neill—16.

A SOUND SLEEPER

SETTLEMENT IS IN SIGHT IN THE POLE DIFFICULTY

Directors of Electric Light Company Favorably Consider Proposal Which is Hoped to Satisfy City.

There is every possibility of at least a temporary settlement of the injunction suit brought by the Toronto Electric Light Co. against the city, when the case is resumed before Justice Middleton in the non-jury assize court this morning. The terms of a basis of settlement, which were revised yesterday afternoon by E. F. Johnston, K. C., solicitor for the company, were considered by the directors.

According to General Manager H. H. Macrae, the company regarded the proposal favorably. "A settlement has practically been reached," he said, "but the final points of dispute will not be arrived at until the court opens to-morrow morning."

Asked whether the city's attitude as set forth in the replies of Corporation Counsel Drayton to the company's series of questions had been modified at all with the aim of compromise, Mr. Macrae replied that it had been considerably.

So far as can be learned, it is only a temporary truce that is being patched up, however, so as to allow the city to proceed with the erection of hydro-electric poles without prejudicing the company's right to continue the litigation.

The idea was," said Mr. Johnston, when asked as to the basis of settlement and the proposals he made to the company, "that the suit remain as it is now, and that the city should have the opportunity of getting rid of the danger from the wires, but, in the meantime, the rights of the parties will not be affected, and the company can go on with the suit at any time. I did not think it proper to stop a public work."

Corporation Counsel Drayton said last night that he was not aware of any modification of the city's stand. The city had sent a statement of its terms to the company and had not had a reply, but he looked for a settlement.

When the suit came up for hearing yesterday morning Mr. Johnston wanted an adjournment for two or three days, with the idea of reaching some settlement, but Mr. Drayton did not favor such a course. Mr. Johnston said that the matter was one in which the public was interested, and the result might affect the city for years to come. He thought the whole trouble would be obviated if both the city and company were required to put all their cards on the table, and the company were anxious to settle the question and prepared to discuss it with a view to some mutual arrangement. He complained that the company's affidavits had remained unanswered for a week.

"That consideration has no weight," said his lordship.

"The reason we have not come to a settlement," said Mr. Drayton, "is that your lordship's advice has not been followed, and the engineers have not come together."

"The worst thing has happened that could," said his lordship, "the writing of letters at long distance."

ANTICIPATES A GENERAL ELECTION NEXT SUMMER

Government Afraid of Borden's Western Tour—Appeal to Come While Farmers Feeling Good.

OTTAWA, Oct. 6.—(Special).—The number of Liberal politicians who are in the city to-day, or have been here during the past week, is extraordinary. Most of them are after some position which will ensure comfort, if not opulence, in their declining years. At least this is the common report. So far no one is heard to claim successful presentation of his case, though some of his friends declare that Mr. Prowse, a Liberal member from Prince Edward Island, has been promised a senatorship towards the end of next session.

Many hold the opinion that there will be a general election next summer. They anticipate a short session, with very little debatable legislation, which would leave the opposition in the predicament of having to go to the country without a final fighting session.

Sir Wilfrid Laurier will attend the imperial conference in London and the King's coronation in May and June, and meanwhile the farmers will be collecting the payments for this year's crop from the banks. With this important section of the electorate in a pleasant and satisfied frame of mind, their crops in the ground and growing green, the premier would hasten to the hustings, gather in a majority of the constituencies and give his government another term. The belief is not unanimous that Sir Wilfrid Laurier will defend the great body of the electorate if he goes to the country before the redistribution of seats, which must come after the census of 1911.

It is certain that the government fears the effect of R. L. Borden's proposed tour of the west next summer. His western tour three years ago was eminently successful. The opposition claim that he will be successful again.

CALL TO PROF. LAW

Will Be Decided at Special Meeting of Presbytery.

The recent call by Old St. Andrew's Church to Prof. Law was supported yesterday at the regular meeting of the presbytery, by R. S. Gourlay and Jos. Oliver on behalf of the congregation. It was allowed to stand for a special meeting of the presbytery in the Temple Building on Oct. 20. In the meantime, the board of management of Knox College will be advised of the situation.

SPECIAL TRAINS TO BERLIN

Will Leave Toronto and London on Tuesday Noon.

A special train service on the Grand Trunk has been arranged for Tuesday, in connection with the hydro-electric power display at Berlin.

Specials will leave Toronto and London at 12:30 sharp, calling at intermediate stations, and return trains both ways will leave Berlin at 10:30 p.m.

J. HOWARD HUNTER DEAD A VICTIM OF PNEUMONIA

Was Provincial Inspector of Insurance Since 1881, Having Been a Successful Teacher.

John Howard Hunter, provincial inspector of insurance, passed away at his home, 82 St. Mary-street, last night, after a week's illness, from pneumonia. Mr. Hunter, who was 72 years of age, was at his office in the parliament buildings on Thursday of last week, but returned ill to his home in Horn at Bandon, Ireland, in 1859, he came to Canada as a youth and graduated from Toronto University in 1861, taking the degree of M.A. next year.

He followed the teaching profession for some years. His first principalship was that of the grammar school at Beausville, and in 1865 he became head of the united grammar and common schools of Dundas. In 1871 he was made principal of the grammar school at St. Catharines, and three years later accepted charge of the provincial institute for the blind at Brantford. Here he remained until 1881, when he was placed in charge of the department of insurance for Ontario, for which his knowledge of law, mathematics and finance fitted him.

Mr. Hunter was well known as a writer of subjects, both in the insurance and insurance matters. He was associated with his sons, W. T. and A. T. Hunter, in the authorship of treatises on insurance. He received the commendation of both English and Canadian journals.

Mr. Hunter leaves a widow and a family of four sons and three daughters. His eldest son, George, is chief justice of British Columbia, and the other sons are W. H. Hunter, Capt. A. T. Hunter and John H. Hunter of Toronto. His daughter, Mrs. Margaret MacFarlane of New York, and the Misses Annie and Grace Hunter.

FATAL ELEVATOR ACCIDENT

One Killed and Three Injured, Two Fatally, as Result of Fooling.

LONDON, Ont., Oct. 6.—(Special).—As a result of a peculiar and distressing elevator accident at the biscuit factory of D. E. Perrin & Co., four men were killed and three injured, two fatally. Earl Barrett, aged 16, who lost his life, was putting in his first day's work at the factory. John R. Wellspring and Sam Gover are in Victoria Hospital with fractured skulls and it is stated cannot live. Alexander Russell, also of this city, sustained a fractured shoulder and knee cap.

Barrett was the elevator operator. He and the others were fooling and someone shoved a truck under the car when it was going down. The elevator was blocked, the cable kept uncoiling and when the truck was knocked out the car fell with all four. The impact snapped the cable and the boys dropped about six stories.

Crew Were Saved. KINGSTON, Oct. 6.—Members of the crew of the steamer Phoenix, which sank on Saturday above South Bay Point, have reached Kingston. They say the tow line holding the barge Sherman was cut as the steamer sprang a leak and was filling fast. The boat sank after a race for shore, and the crew was saved.

SCHOOL MEDICAL INSPECTION A FARGE

That's the Opinion of Dr. Helen MacMurphy, Who Places the Fault on System Designed by Inspector Hughes, and Declines to Proceed Under It.

What is it that the poet had to say about the fury of a woman scorned? Perhaps Chief Inspector James L. Hughes, of the city school system, recalled it last evening at the meeting of the board of education, when Dr. Helen MacMurphy, one of the recently appointed medical inspectors for the schools, in a carefully prepared communication, fully acquainted the board with an opinion, not alone on the present red tape "system" of medical inspection, but of the chief inspector personally.

"The information and statements in that letter are incorrect," said Trustee Dr. Bryans, after only two pages of the eleven long typewritten sheets had been read by the secretary. "It is too long, anyway, and I think that every member of this board should have an opportunity of perusing such a communication personally before any discussion. I would move that each member be supplied with a copy, and that the matter be referred to the management committee for consideration."

Trustee C. A. B. Brown challenged Dr. Bryans' right to make such statements in regard to a communication to the entire board, but with little more discussion it was decided that the matter should come before the management committee.

System Too Involved. Dr. MacMurphy, after noting that she was not an applicant for appointment, but feeling that "the medical profession, at home and abroad, having done me the honor to consider me fit for such a position, it was for me to do my best to fill it," declares that the letter of instructions issued to Dr. Graham was an error on the part of the officials of the board, makes it only too evident that it is the intention of that official at least, that my colleague and I shall be placed in a subordinate position, both to the chief inspector of public schools, and possibly also to the school nurses."

The instructions work out as follows: 1. The teacher decides whether or not a child requires attention. 2. The teacher reports the names of those requiring attention to the principal. 3. The principal reports the names to the chief inspector.

4. The chief inspector decides whether or not the case should be dealt with at all. 5. If the chief inspector decides in the affirmative, these cases will, except in special cases, be first investigated by the staff of nurses. 6. The superintendent of nurses will then report to the chief inspector daily the cases which should be attended to by the medical inspectors, and the chief inspector will send the names and addresses of the boys to Dr. Graham, and the girls to Dr. MacMurphy.

7. Cards are to be sent out to notify parents of matters requiring their attention. 8. The principals are to report to the chief inspector once a week the names of those upon whom the parents cards have been sent. 9. These cases are then to be given once more to the nurses, who are to ascertain what has been done for the children.

10. If the nurses think that the child should be sent to a hospital, dispensary, etc., for treatment, the superintendent of nurses is to notify the chief inspector, and he is to communicate with the hospital, dispensary, etc.

Trouble From the First. "The first three cases dealt with, occurred on the same day, and I was on duty, show how the above system works," wrote Dr. MacMurphy. Before we left the city hall on Friday, Sept. 23, about 11:30 a.m., the chief inspector said to Dr. Graham (who was not stated that the child was a boy), "the principal of the school has just telephoned to say that a child is away from school with infantile paralysis, and wishes to know whether the other children of the same family should be sent home. Now, Dr. Graham, what do you say?"

"I listened to this with the deepest interest. Only two days before, I had seen the records and pathological findings of three fatal cases of this disease occurring in the city since Aug. 29, and discussed with the pathologist at Toronto General Hospital, and with other physicians. Besides, the medical health

Continued on Page 2, Column 1.

A Matter of Choice. At this season of the year the business man drops in somewhere for a new hat. He is shown styles of both American and English manufacture and given his choice. But not always is the fact laid before him that the English-made hat commands a higher price in New York than the home product. At the same time, it sells in Canada for less money. The English hat has both style and quality. Recognizing this fact and acceding to public demand, the Dinesen Co. some time ago secured the sole agency in Canada for the well-known firm of Henry Heath & Co., whose make of hat is known the world over. All the fall styles are now in stock and Mr. Dinesen is particularly pleased with the display they make. Store open Saturday night. Write for catalogue.

Portugal's President

Dr. Theophile Braga, who has been named president of the provisional government, is a man about 55 years old, and a graduate of European universities. He began the practice of medicine in Lisbon when a young man, and has been prominent throughout Portugal for many years past.

About three years ago Dr. Braga identified himself with the intellectual wing of the Republican party, and became president of the Committee of Seven of that organization. In this office he wielded great political power, and his undoubted honesty and well-known integrity won many supporters for the party which was destined to obtain control of affairs. He was long associated with Dr. Bernardino Machado, one of the foremost professors of the Lisbon University, and who is prominent mentioned as the first president of the new republic.

35-FOOT CHANNEL

Government Inspection Preliminary to Deepening St. Lawrence.

MONTREAL, Oct. 6.—(Special).—Hon. L. P. Brodeur, minister of marine and fisheries, accompanied by representatives of the harbor commissioners, the shipping federation, and steamship companies, left the port this morning on the government steamer Lady Grey to make an inspection of the ship channel between Montreal and the Beaujeu banks, some miles below Quebec. It is confidently expected that the inspection is preliminary to an official announcement that the marine department will next spring proceed to the work of deepening the channel to thirty-five feet all the way up to Montreal.

A RETROSPECT.

Oct. 7, 1862.—The treaty of Paris went into effect in Canada, Cape Breton and St. John's Island were annexed with the lesser islands adjacent thereto to our government of Nova Scotia.

1863.—The Miramichi fire, a conflagration covering five thousand square miles, and in which 100 persons lost their lives, occurred in New Brunswick.

NEW CLOTHES TIME

IF it were not for the seasons changing, manufacturers of clothing would be out of work half the year. As it is now, they are always on the move and looking ahead. While you were enjoying the cool breezes of the lake and river during the hot months, our tailors and designers were planning for your Fall and Winter comforts, and the results of their tireless efforts are shown in our vast assortment of Beautiful Suits and Overcoats now ready for your inspection and admiration. You simply can't help but admire them. Because we have placed before you the finest and most comfortable garments that you can possibly wish for. Oak Hall is going to be Popular with MEN—especially with men who are careful, both of their appearance and their money.

When you know us better—you will find that we do not do things by halves. It would be folly on our part to present to such keen critics as the men of Toronto are, anything less than THE BEST CLOTHING, and the BETTER we can make it the better for us. How well we have succeeded, we wait the judgment of men. PRICE is not the all important factor in good clothes, but we have taken good care of that end of it, too. Suits range from \$10.00 to \$40.00. Overcoats from \$10.00 to \$45.00.

Special Notice.—We carry a splendid stock of Dress Suits, Tuxedos, Prince Alberts, and Fancy Vests for all occasions.

OAK HALL, CLOTHIERS

SCHOOL MEDICAL INSPECTION A FARCE

Continued From Page 1.

office of the City of Toronto had stated (press reports) that it was unnecessary to take any special precautions to prevent the spread of this disease. And further, how often we find that a few quiet kind words from the school doctor sent to investigate such a case have shown that the alarming report has little or no foundation.

Hampered by Instructions.
"I thought I saw an opportunity to be useful in this case. In any threatened epidemic, early and accurate professional knowledge may save much money and many lives. But the instructions leave no room for this, and when after consulting Dr. Graham, the chief inspector enquired whether I had anything to say, I could only give a reply in accordance with my instructions."

"The second case occurred on the very next school day, Monday, Sept. 26, when I was visiting a school. A little girl came into the room and said to the principal: 'Please, sir, do I have to go swimming?' It makes my ears heat."

"Yes, you must all go," said the principal, "but here is the doctor, go and ask her."

"This was entirely improper, according to my instructions. But had I waited for even half of the above regulations to be enforced, it might have been too late. I thought it my duty to protect the child, and discovered a perforation, and advised the principal accordingly against swimming."

A Tangled Case.
"The third case was reported to the chief inspector on Sept. 26. The report reached me at 1.30 p.m. Sept. 27, and stated that there were spots on the child's throat, that this had been a suspicious case all thru, and that the child looked pale and weary. The report did not give the name of the school, and the address was too vague to indicate to which of two schools, two miles or more apart, it might be. Had I been in touch with either the doctor or the nurse, it would have been an easy matter to deal with the case. But the above regulation absolutely prevent 'team work' between the doctor and the teacher, or the doctor and the nurse, or the doctor and the parent."

"So I did the best I could. I reported the case at once to the medical health officer of Toronto, and then went to the school where it seemed most probable I should find the child. She was not there, but I found some relatives of hers there who told me what school she attended. I went to that school and found that her name was on the register, but the best efforts of the principal and his assistants failed to

discover her among their flock of more than one thousand children. Finally, at noon the next day, I got a telephone message to say that she was at an annex to that school, and went thither only to find that she had been allowed to go home five minutes before. On the next day, I finally found her and found that it was not diphtheria. But suppose it had been?

Is It Worth While?
"Such is the working of the present system of medical inspection. Is it worth while?" asked Dr. MacMurchy, who added that the school medical officer should be a leader in school hygiene, and noted that within the past few weeks an unrivaled opportunity had occurred to establish here the kind of school which is at once the most advanced, and the most hopeful prospect of the school hygiene movement—the open air recovery school. The opportunity passed for want of the school doctor to utilize it."

"It will be observed, also, that the instructions do not give the medical officer any opportunity of real usefulness to children, so backward that they need special classes," continued Dr. MacMurchy, who referred to the crippled children who cannot attend school, but who need instruction, and mentioned that a large number of normal school boys under 14 are not attending day school, as they should. "For this, she had months ago recommended a school annex."

"Again, your medical officer should be conversant with the most recent movements and discoveries in school hygiene all over the world," said the letter, which noted "a simple but most effective example" of the craze for the removal of tonsils very slightly enlarged and small adenoid growths, which will disappear of themselves, is passing away."

A proper use of the handkerchief for the removal of mucus from the nasal passages should be an essential in the training of children.

Concerning the Inspector.
"Medical inspection of schools, to be worthy of the name, must bring the doctor into contact with the scholars," asserted Dr. MacMurchy, who, in conclusion "to the real crux of the situation," paid a high compliment to the executive ability and genius for hard work of the chief inspector, with his well-deserved international reputation as a medical officer and public health officer."

"While this is acknowledged, it also remains true that the real question at issue at present is how long he should be permitted to obstruct progress in this modern educational movement for the public good," said Dr. MacMurchy, who regretted that the system of medical inspection had been removed from the direct control of the board and placed solely under the direction of "one whose attitude of mind may be judged by the above regulations, which are entirely innocent of any true conception of the functions of the medi-

cal officer or of the principles of inspection."
"The attitude of the chief inspector is still more clearly shown by his words and actions when my colleagues and I were summoned by telephone at short notice to meet him and the superintendent of nurses on Friday. At this first meeting, for the crime of letting down in a notebook some half dozen necessary words, referring to the above regulations, which were delivered to us extemporaneously by the chief inspector, that gentleman stormed out at your board's obedient servant: 'I haven't time for you to write this down. You are not starting right. I don't like it. I have another engagement in 15 minutes. I tell you right now I want you to pay attention to me.'"

"To a question addressed to me, referring entirely to medical organization, I replied that my colleague and I were endeavoring to give our best attention to the question of organization, but it was so important that we required a little time. The storm again broke: 'I am telling you what the organization is. You have nothing to do with it, and if you do not intend to obey the committee, let me know and I will report you to the committee.'"

"I am making no complaint. Far from it. This did me no harm. But it illuminated the situation. I do not regard this as at all a personal matter, especially as the chief inspector and I are on good terms, as far as I am aware. But I had at that moment a keen feeling of sympathy, not for myself, but for the teachers of our public schools (who do for us a work always hard, often thankless, but glorious and inspiring, too, and of infinite importance), because it is evident that such proficiency in the art of discourtesy and in the arbitrary use of a little brief authority could not have been acquired without long practice."

Will Continue If Desired.
"This is the situation in which I am placed. What ought I to do? I cannot think it right to act on impulse and refuse to have anything further to do with this matter. The opportunity is great. The work is good. I trust the people of Toronto, and I have the full-

est confidence in your board as their representatives. Now that I have relieved myself of responsibility by placing this matter before you, I am willing for any reasonable period, say three months, to continue to write on faithfully, and to the best of my ability, the above instructions, if such is the wish of the board."

After stating that the work meant a sacrifice of time of more than three hours daily, and of money, Dr. MacMurchy respectfully requested that she should be allowed to send her reports to the secretary-treasurer of the board, also noting that the \$500 per cent salary should be regarded "merely as a temporary allowance to enable the work to be begun."

ABOLISH TOLL-GATES

Will Soon Be a Thing of the Past in Quebec, Province.

MONTREAL, Oct. 6.—(Special.)—It is semi-officially announced that the toll gates will soon be a thing of the past in the Province of Quebec. Hon. Mr. Taschereau, minister of public works, stated at the Tesser banquet at Three Rivers that this question would be settled at once, and as the government has just bought a bridge in the district of Quebec for \$100,000, it is more than probable that the private interests in the Montreal and other sections will also be purchased by the Quebec authorities.

L. E. Rivet, M.P., also states that he does not believe that the Province of Quebec and the English provinces are further apart than they were forty years ago. On the contrary, the member for Hochelaga, who, by the way, will address the Canadian Club in St. Thomas on the race question Oct. 23, declared that there is a national feeling knitting the whole country together.

STRUCK OVER HEAD.

BRANTFORD, Oct. 6.—(Special.)—Frank Simons, an employe on the Holmdale Sewer Construction, is lying here in a critical condition as a result of being struck in a row with two Armenian employes Tuesday afternoon. Simons was struck across the face and head with dinner pails and has not since regained consciousness. Two local Armenians are under arrest.

Plasterer In Trouble.

Joseph Highman, 63 Barton-avenue, was arrested yesterday by Detective Murray charged with theft of \$12 from the Plasterers' Union. It is money paid to him by men wishing to join the union.

HAMILTON HAPPENINGS

TECHNICAL EDUCATION OF BENEFIT TO WORKERS

Commission in Session at Hamilton —Dundas Considering Amount of Power Required.

HAMILTON, Oct. 6.—(Special.)—The royal commission on technical education began the taking of evidence in the city council chamber here this evening. A number of leading educationists, manufacturers and other citizens addressed the commission. F. J. Howell, a member of the board of education, pointed out the benefits the technical school here had been to young men and women. R. W. Roy, of the Bridge Company, said technical education would make mechanics more competent, while H. J. Waddie of the Canadian Drawn Steel Co. said the provision of technical education would be of immense benefit to workers in his particular line.

W. O. Sealey, M.P., dwelt on the need of developing the commercial side of agriculture. He said they had succeeded in making two blades of grass grow where one grew before, but they had difficulty in finding how to properly prepare produce for market.

Police Were Grateful.
A presentation was made this evening at No. 3 police station to Louis Lefkowitz, John Pabel, Joseph Lackie, Mrs. Ida Murphy and Mrs. Murdoch, the parties who came to the assistance of the policeman arresting John and Phillip Wintermule, three weeks ago. Each received a gold-headed umbrella. The presentations were made by Chief Constable J. B. Robinson.

The regular meeting of the library board was held this afternoon. Accounts to the value of \$1022.58 were ordered paid. The librarian reported that the number of books added to the library during September was 210. The borrowers' cards now amount to 12,685, an increase of 77 on August.

At the meeting of the building committee, enlargements and alterations in the plans of the Carnegie Library were submitted by Architect Peene and adopted.

Owing to the rain the track and running events had to be called off at the Freeton Fair this afternoon.

Exams a Necessary Evil.
Inspector Smith, who spoke on examinations, said they were a necessary evil. He explored the fact that out of 202 candidates who wrote in the entrance examinations, only 99 passed. A lot of the failures, Mr. Smith said, were due to the serving of the papers. As a result of Mr. Smith's paper a resolution, condemning the arithmetic and geography papers at the last entrance examinations as unfair, was passed.

Dundas Power Question.
At a meeting of the citizens of Dundas, who are anxious to secure a concession this evening, Gordon C. Wilson, M.L.A., was elected chairman of a committee, which will be sub-divided into committees to canvass the town and see how much power could be taken.

das, who are anxious to secure a concession this evening, Gordon C. Wilson, M.L.A., was elected chairman of a committee, which will be sub-divided into committees to canvass the town and see how much power could be taken. When this information is secured, it will give the committee some idea of how much power the Hydro-Electric Commission could be asked to give an estimate on. The meeting also decided to ask the Ontario Railway Board to visit Dundas, and enquire into complaints that have arisen about the alleged poor service of the Hamilton and Dundas Railway Company in putting up.

Hard on Taxpayers.
The internal management committee of the board of education held an important session this evening. It decided to adopt the recommendation of the committee that considered the mix-up that occurred over the annexation of a portion of Barton Township, to the effect that the annexation agreement should be revised, so that both residents in the city and in the township who send children to the Ottawa street school, should be taxed the same, whereas now the township taxpayers get off more easily than the city taxpayers.

At the request of Dr. Thompson, who complained that, owing to a shortage of teachers, he was compelled to crowd collegiate institute pupils into a smaller space than that allowed by government, J. B. Robinson was selected as an extra teacher, at a salary of \$1400 per annum. A committee was appointed to meet a number of young men, who would be interested in the collegiate institute on Tuesday night.

While in Toronto call on Authors & Cox, 125 Church-street, makers of artificial limbs, trusses, deformity appliances, braces, supports, etc. Oldest and most reliable manufacturers in Canada.

Hotel Hanrahan, corner Barton and Catherine-streets, Hamilton, conveniently situated and easily reached from all parts of the city. Erected in 1904. Modern and strictly first-class American plan. Rates \$10 to \$12 per day. Thos. Hanrahan, proprietor. Phone 1465.

DOMESTIC SCIENCE

Board of Education Not Inclined to Develop It.

"There is nothing more important in the education of the young girls of this city, the wives of the future, than the study of domestic science," said Trustee Dr. Ogden last evening at the Board of Education, referring to the request of the Y.W.C. Guild to open up a class in that subject. The request was, however, referred back to the management committee.

It was reported that the domestic science classes at the technical school were overcrowded. Trustee Rawlinson suggested if such were the case, that another night school class in that department be opened in George-street school.

A petition was presented by Trustee Davis on behalf of the residents in the vicinity of Kent school. The petition claims that the opening beside the stairway of the new school is dangerous to the children marching in and out of classes, and that the board should fill in the vacant space with prism glass.

The tender of Robert Bennett for the flooring of Oakwood High School for the sum of \$4450, was accepted, special joints, J. B. Smith & Son, \$106.25, for steel beams, \$2318.

TAXES BEING WELL PAID

City Treasurer Reports Over 72 Per Cent of Total Levy Received.

City Treasurer Coady, reporting to the mayor on the second collection of taxes, payable on September 10, says: "The total amount of taxes collectible for the year is \$5,585,681, and the amount paid to date is \$4,011,918, and the total payments to date amount to \$4,042,978, or 72.4 per cent of the whole levy for the year, leaving \$1,542,703, or 27.6 per cent of the total levy to be collected on the last instalment. It will be gratifying to the council to learn that, taking into consideration the amount due, the present return represents the largest payment at this stage of the collection received for over twenty years."

The total amount of the levy for 1910 is \$428,019 more than that of 1909, and the amount paid to date, \$1,042,578, is \$246,227, or nearly 25 per cent more than the payment received at the corresponding period of last year.

FRIDAY MORNING, OCT. 7, 1910.

COUNCIL AND THE M. H. O.

Because of the accidental absence of two aldermen from the council yesterday, the board of control's recommendation that Dr. Charles J. Hastings be appointed medical health officer was sent back to the board. The controllers at least know their own minds and will certainly stand to their guns. A few days' delay will not change the situation, and whatever is to be said to the credit of Dr. Hastings can only be said in stronger terms as time passes. Indeed, the lapse of a day or two may strengthen his case, as it is already stated that names have been employed against him without any authority, while those who have been foremost in the support of the one or two other candidates mentioned, admit that Dr. Hastings is their second choice, and that among Toronto candidates, he is the only man to be regarded.

We are not inclined to blame the council for delaying the settlement of the matter. Many issues have been raised which are not to be decided off-hand. If the aldermen are really in earnest, and are not affected by mere personal interest, their investigations will strengthen Dr. Hastings' appointment when it is ultimately made. They may assure themselves that the half has not been told of his qualifications, and they may ascertain beyond the shadow of a doubt that the practical unanimity of the medical profession and the press in this important matter is not without the best grounds.

There may have been lobbying in favor of the minority candidates. There are statements to that effect. Unfortunately that is a feature of our present civic methods. But the aldermen who have the city interests at heart will ignore these movements, and attend only to the main issue. Having demonstrated Dr. Hastings' fitness for the position, they will support the board of control's recommendation when it is once more sent to them.

CANADA'S NATIONAL POLICY.

Where the local free trade organs habitually fall down badly is in the lame and impotent conclusion of their argument. They profess to believe that Canada would be much more prosperous and that her industries and commerce would expand far more rapidly and profitably were the present moderate measure of protection removed, but just at the point when a call for that policy is made they immediately in order it never comes. When something of a practical nature is at last essayed, the whole matter simmers down to a suggestion that there might be reciprocity in coal exchange or other individual line of trade. If our Cobdenite contemporaries are really convinced that under existing world conditions, particularly those peculiar to the United States, Canada and her national, industrial and commercial interests would be immediately and immeasurably benefited by a system of free imports, it is their plain duty to follow the example of the anti-corn law agitator and bend all their energies to that end.

To the World the proposition that Canadian industries would not suffer from the competition of manufacturers advantaged in their foreign trade as those of the United States unquestionably are, seems mere midsummer madness. United States producers are of an entirely different opinion and have not been slow to express it either. Forewarned ought to leave Canada forewarned if her people have any real regard for a continuance of that development which has given their reason to hold the twentieth century as their own. That is the common sense view which refuses to disturb a policy that has brought and is bringing so many benefits in its train. This does not mean that adjustments called for by changing circumstances, and calculated to advantage, the country generally, should not be made. But it does require that the principle underlying the national policy should be maintained in its integrity.

ONTARIO IMMIGRATION.

Whatever the excellence of the Ontario building in the strand, and however great the crowds that throng its useful precincts, there can be no doubt, from all accounts from the rural districts of Ontario, that it is not London immigrants that are needed here so much as the solid yeomanry class from "the provinces" in England and the sister kingdoms. The people in London, no matter how estimable in other respects, are not the material to make frontiersmen or pioneers in the northern ranges of Ontario. In fact, it is a poor policy to place them in conditions where they can only develop an active and vociferous grouch, which has its effect in pre-

venting others better fitted to the climate and the conditions, from taking up their residence in their room.

We are sure that there may be something done to arouse the interest of the Midlanders, and the men of Devon, and the west, and the still harder hill-men of the northern county combers. These are the people who will appreciate the almost free lands of Ontario, and who will be prepared to face the toll which farm life under any conditions requires.

The London people are also largely of the submerged class, whereas the rural Englishers, who are prepared to emigrate and settle, generally have enough capital to make a good start and to furnish themselves with a good homesteading. Some of these families come out even now with cash in hand up to \$20,000. For such as these Canada is plining, not in any snobbish spirit, but with the knowledge that every family of this class means the employment of unattached individuals and the rapid building up of a higher standard of living than the early settlers could possibly attain.

Thrift is a virtue in certain circumstances, but it degenerates into a vice, whether it takes the form of parsimoniousness or close-fistedness, or the nearsighted inability to see the advantage of spending for the sake of gains to come. People of this class in England are not afraid that other people may make a dollar at their expense, and this form of meanness is chronic in Toronto and Ontario generally. Whatever benefits one man, benefits the next man, and whatever benefits one part of the community, benefits all. This principle is insufficiently recognized by Ontario people, and an influx of those who have found the advantage of its application in other situations would be one of the best things that could happen to the province thru the acquisition of a population imbued with it.

It is all very well to bring out the Londoners, but it would be vastly better to get immigrants from the farms, who can appreciate what Ontario has to offer them in fertile acres and bumper crops, and who have some conception of the value of rural life and prosperity.

AN IMPERIAL EXHIBITION.

Considerable interest attaches to the proposal to hold in London, within the next few years, an imperial exhibition on similar lines to those that have proved so successful, particularly the Franco-British exhibition of last year, and the British-Japanese exhibition still in progress. Popular and educative as these have been, they yield in attractive quality to one specially associated with the imperial states and certainly, if really representative, none could excel it in diversified quality. The British flag circles the world and floats over climes and countries able to furnish enough for a record gathering. And there are other weighty reasons and purposes which easily account for the approbation the proposal has already elicited.

Altho the actual date has not yet been fixed, the indications are that 1915 will ultimately be chosen. The quadrennial imperial conference falls in that year, and on June 23 the Prince of Wales will come of age. That year will also see the expiry of the one hundred years of peace between Britain and France, and also between Britain and the United States, since the last gun in the war of 1812 was fired at New Orleans, on Jan. 8, 1815. The idea of this exhibition was first mooted by Sir Peter Stewart Bain, chairman of the general executive council of the South African National Union, and the industrial character of the provisional committee is an assurance that the plans will be laid on a scale commensurate with their imperial character.

HISTORY OF PROVINCIAL SCHOOLS.

No one is so competent to record the rise and progress of education in the Province of Ontario as Dr. J. George Hodgins, the venerable historiographer to that department of the government. For sixty-five of the ninety years which leave him still in active service, he has been associated with the department, and the present volume, printed by order of the legislative assembly, is a worthy crown of his long disinterested labors. It includes the period from 1785 to 1910, and its two parts deal respectively with the establishment of public and high schools and collegiate institutions in the cities and the establishment of public and grammar schools in the towns, villages and townships of the province. The sketches of the numerous institutions are highly interesting in themselves and will prove of lasting historical value as will the numerous illustrations and portraits. Dr. Hodgins has done his work with conscientious care and deserves all public appreciation for his labor, but it is to be hoped, not the last, fruit of his unrivaled knowledge of things educational in Ontario.

Change in Great Lakes Service, Canadian Pacific Railway.

Commencing October 10, the great lakes steamers of the Canadian Pacific Railway will leave Owen Sound 1.30 p.m. instead of 5 p.m., daily, except Friday and Sunday as heretofore. Special steamboat express leaving Toronto at 1 p.m. on sailing days will make last trip leaving Toronto Saturday, October 8, and leaving Owen Sound for Toronto Sunday, October 9. Passengers desiring to connect with sailing from Owen Sound will leave Toronto at 8.15 a.m., commencing October 10.

R. 603 for an order construing will, as to payment out of court of moneys paid in under an insurance policy. Judgment: The policy endorsement made payable to Amanda Hope Francis, mother of the insured. The insured by his will directed the \$500 to be paid to his executors to invest and retain all the interest earned by the investment as a fund to which the mother might resort in event of her having exhausted her own money, her funeral expenses are also to be paid from the fund, and after her death, fund is to be applied for general support of his family. The mother sur- vived the insured a few days only. Her estate is left to the grandchildren, who will take under their father's will if the word "family" is construed as children. Here the word family may well mean children, and that is its primary meaning, and the court would only attach a secondary meaning, which would invalidate the gift with direction, so by the contract. The claim of the executor fails and the share paid under the will, and the share paid under the contract, is to go to grandmother's costs.

port of his family. The mother survived the insured a few days only. Her estate is left to the grandchildren, who will take under their father's will if the word "family" is construed as children. Here the word family may well mean children, and that is its primary meaning, and the court would only attach a secondary meaning, which would invalidate the gift with direction, so by the contract. The claim of the executor fails and the share paid under the will, and the share paid under the contract, is to go to grandmother's costs.

Re Foster and Township of Rateless. J. M. Ferrer, for Foster. J. G. Kerr, for the township. Motion to quash a bylaw of the township for the licensing and regulating the keeping of billiard tables for hire, and fixing a license fee. Judgment: I cannot, upon the material, find that this bylaw is in its nature prohibitive even though the defendant claims that the keeping of billiard tables for hire is a billiard room in the township. There may be no reasonable demand for such a place, and the fact that even in the absence of such a demand there are persons who are engaged in such a business, and that this is the case. The motion fails on all grounds, and must be dismissed with costs.

Before Falconbridge, C.J. Kemmerer v. Willis and Singlehurst. J. H. Ludlow, for plaintiff. W. R. Smyth, K.C., for defendant. Willis, G. Oiler and S. G. Crowell, for defendant. This action was by a broker for \$2175.50 for the sale of certain shares of stock against the defendants, two other brokers, under an alleged agreement, which defendant Singlehurst denied knowledge of. Judgment: Defendant Singlehurst has proved to my satisfaction paragraph 5 of his statement of defence and the existence of a partnership between plaintiff and Willis has arisen and has been, to some extent, considered by other judicial officers. The evidence which the plaintiff presented to me. This action, therefore, falls as against Singlehurst, and he is entitled to judgment on his counter claim. Judgment: Judgment result upon the temporary credit allowed in the reference and costs. I do not pass upon the alleged agreement set up in the statement of claim of the plaintiff, as I should probably hold that the plaintiff had failed to discharge the onus of proof. Willis therefore may have judgment against Willis if he wish, without costs. Thirty days' stay.

Divisional Court.

Before Falconbridge, C.J., Britton, J., Riddell, J. Re Solomon White, a solicitor-E. Week, K.C., for appellant. R. McKay, for respondent. Motion by appellant by the solicitor from the order of Middleton, J., of May 27, 1910. The order appealed from had directed that an attachment do issue against the defendant for producing a bill of costs for taxation pursuant to precepte order of Feb. 10, 1909, issued from the office of the local registrar at North Bay. Judgment: Appeal dismissed with costs.

Farra v. McPherson-E. Oiler, for plaintiff. A. E. Frapp, K.C., for defendant. An appeal by defendant from the judgment of the County Court of Carlton, of June 24, 1910. The court being of opinion that the court appealed from had no jurisdiction to entertain the plaintiff's action in the nature of a writ of certiorari, and the appeal treated as if the county judge who tried the action had done so at the request of the defendant. Judgment: The action was to recover \$225, being the amount paid by plaintiff on a draft drawn on him by defendant and accepted by him and which defendant alleged was for accommodation to defendant and not because of any indebtedness of plaintiff to defendant. At the trial judgment was given plaintiff. Judgment: Appeal allowed with costs. Judgment appealed from vacated and judgment to be entered for defendant dismissing the action with costs. Judgment appealed from affirmed.

Crunkite v. Coy-W. R. Smyth, K.C., for plaintiff. Appeal by defendant from the judgment of the County Court of Prince Edward of 22nd June, 1910, argued yesterday. Judgment (v. Jones) dismissed with costs.

Sager v. Sheffer-J. E. Day, for plaintiff. L. F. Heyd, K.C., for defendant. An appeal by plaintiff from the judgment of the County Court of York of 14th June, 1910. At request of plaintiff, consented to by defendant, argument adjourned until 7th inst.

Hall v. Sealey-W. Froude, K.C., for plaintiff. Appeal by defendant from the judgment of the County Court of Huron of 28th April, 1910. At request of counsel for plaintiff, consented to by defendant, argument adjourned until 12th inst.

Mickleborough v. Strath-A. C. McMaster, for plaintiff. G. Bell, K.C., for defendant. An appeal by defendant from the judgment of Tetzzel, J., of 28th May, 1910. This was an action to have it declared that a lease from defendant to plaintiff is determinable, and that they are no longer liable for the rent in respect thereof by reason of certain alleged inconsistent acts of defendant. At the trial the action was dismissed with costs, and judgment awarded defendant on his counter claim for \$264.25. Plaintiff's appeal therefrom argued and judgment reserved.

McMaster v. Winn-J. MacGregor, for plaintiff. W. E. Raney, K.C., for defendant. An appeal by plaintiff from the order of Middleton, J., of 26th September, 1910, which directed that the defendant stay the action on the admission of parties that the only question for adjudication was the question of the costs of the action which had been settled and paid in order as to costs. Appeal argued. Judgment reserved.

Hill v. Glanford-G. Lynch-Staunton, K.C., for plaintiff. J. G. Farmer (Hamilton), for defendant. An appeal by defendant from the judgment of Sutherland, J., of 25th May, 1910. This was an action to recover \$5000 damages for the death of George Hill, who was killed by falling from a bridge in defendant township, alleged to have been negligently built and left unprotected. At the trial the action was dismissed with costs. Appeal argued. Judgment reserved.

Leneve v. Arnold-J. S. Fraser, K.C.

MONTREAL 2651

TO CAMPAIGN IN KOOTENAY

Number of Ontario Ministers in the Party.

Arrangements have just been completed by the board of moral and social reform and evangelism of the Presbyterian Church for a great campaign in the district of Kootenay and Kamloops. In all about 20 towns are to be visited, including Fernie, Grand Forks, Nelson, Trail, Rossland, Cranbrook, Revelstoke and Golden. The meetings are to start on the 14th inst., and will conclude early in December.

Among the special workers taking part will be Rev. Robert Atkinson, Chelsey; Rev. William Beattie, Cobourg; Rev. E. R. Knowles, Galt; Rev. William Paterson, D.D.; Rev. B. P. Thornton, Colborne; H. M. Brown, Buxton; G. Knight, Barrie; N. S. W. J. McBretny, Toronto; Robert Symes, Hamilton, and W. W. Weaver, Toronto. Rev. F. A. Robinson will accompany the workers as secretary and director of campaigns.

It is expected that F. W. Anderson, Toronto; Principal McKay of Westminster Hall, Vancouver; Dr. J. G. Shearer and Rev. R. J. Wilson will assist in the conduct of institutes which will be held at the close of the campaigns in most of the important centres.

MONEY FOR PLAYGROUNDS

Two \$100 Subscriptions Received—Mere Wanted.

James L. Hughes, treasurer of the Toronto Playgrounds Association, gives out the following information in regard to the work of that organization: "Two gentlemen, George H. Gooderham, M.L.A., and W. R. Johnston, have recently sent cheques for \$100 each to Mr. C. A. B. Brown, president of the Toronto Playgrounds Association, to aid in the playground work of the city. The subscription of \$100 entitles the giver to life membership in the association. Mr. Gooderham, in sending his cheque, says: 'It gives me great pleasure to enclose herewith my cheque for \$100 to aid in the splendid work of the Toronto Playgrounds Association.' The association needs money, and will be glad to have a few more life members."

St. Bartholomew's Church Cornerstone.

On Saturday at 4 o'clock the cornerstone of the new St. Bartholomew's Anglican Church, corner of Wilton and Bloor-avenues, will be laid by Bishop Beavey, D.D. The rector, Rev. G. I. Taylor, assisted by visiting clergy, will conduct the service. Hon. A. B. Pyno, A. E. Kemp, T. R. Whitesides, M.L.A., Dr. Charles E. Sheard, Joseph Russell, M.P., R. F. Starnes, W. H. Caniff, and other prominent laymen will address the gathering. The rector and churchwardens would be pleased to have a large number of friends witness this ceremony.

LOCKOUT IS OVER

Manchester Cotton Spinners Have Settled Grievances.

MANCHESTER, Eng., Oct. 6.—The trouble between the Federation of Master Cotton Spinners and operatives, which resulted in the lockout of 130,000 operatives, was settled to-day. The mills will be re-opened on Monday.

MEMORIAL TO CHAMPLAIN.

BURLINGTON, Vt., Oct. 6.—At a meeting of the members of the memorial committee of the Lake Champlain Commission of the State of New York and Vermont, it has been decided to make the memorial to Samuel de Champlain a lighthouse, instead of a colossal statue of the discoverer, as had been proposed.

Buffalo Industrial Exhibition—Single Fare for Round Trip.

Tickets to Buffalo and return, according to Buffalo Industrial Exhibition, at rate of single fare, \$3.10, will be in effect at all C.P.R. Toronto offices October 7 and 11, with a return limit of leave Toronto for Buffalo, 1.30 a.m., 9.30 a.m., 1.15 p.m., 2.35 p.m., 5.20 p.m. and 7.10 p.m., carrying through chair smoking cars, coaches and parlor cars. Tickets, etc., C.P.R. city ticket office, northwest corner King and Yonge-streets.

Independence League.

NEW YORK, Oct. 6.—The Independence League has formally nominated John J. Hopper for governor, and W. R. Hearst for lieutenant-governor.

PROVISIONAL GOVERNMENT ISSUES PROCLAMATION

"Braganza Dynasty, Mischievous and Disturbing, Has Been Forever Exiled," It Says.

THE BOY SCOUTS

Crossing Canada, Sir Robert Baden-Powell, founder of the Boy Scout Movement, left an army of enthusiastic Scouts in his wake. The principles of the organization appeal to both parents and boys, and hundreds of Canadian youths are joining the ranks. The Globe will print weekly complete stories of the progress of the movement. Each Saturday's Globe will contain the latest news on Scout matters.

LOOKS LIKE MORE DELAY IN EXTENDING INTAKE

Pipe is Not Ready and Sand Reef Must Be Removed—Revenue From Railway Grows.

Indications are against the city's being able to carry out the plan of extending the intake pipe 500 feet before next year. While the undertaking was that the pipe was to be delivered by the Canada Foundry on Oct. 8 and the extension completed in nine days, only a section of the pipe is now ready for the difficult part of the work, have yet to be made. Moreover, a sand sheet 2 feet deep around the mouth of the intake in fifty feet of water has to be pumped away. At the delivery job of laying the pipe demands fine weather, it is unlikely that anything can be done until next spring.

At the board of control meeting yesterday the analysis of water samples taken on September 28, showed that at a point 500 feet out from the mouth of the intake the number of colonies of bacteria was greater than at the mouth, but that at 2000 feet out there was a marked improvement, inducing Controller Spence to declare again that the extension should be 2000 feet.

Acting on the city's instructions to purchase property needed to extend The Grange, dedicated as a public park by the late Dr. Goldwin Smith, so as to provide for the extension of water supply to St. Patrick-streets, the assessment commissioner has expended \$36,000 in acquiring the necessary land including houses. There are 13 parcels of land, the highest individual price paid being \$9000.

Altho the board of control considered the prices asked for property on Elizabeth-street needed for the proposed extension of the water intake, it was so enormous, it was felt that no better terms were likely to be obtained elsewhere. The rates range around \$150 per foot, and the buildings are merely frame shacks. The total is about \$17,000.

The city's share of street railway receipts for September is \$43,312, compared with \$20,542 in that month of the company's gross receipts for the month were \$428,924, an increase of \$47,000 over September of 1909.

The city is at last freed from small-pox. The last case of the disease, which had been open since April 15, being closed yesterday, a boy of seven years was discharged. There have been 20 patients treated since April 15, without one death.

A deputation of St. George-street residents will appear before the board of control next Monday to protest against hydro-electric cement concrete poles being erected on that street. They want the wires placed underground, but the mayor points out that poles will be necessary in any event for street lighting.

Fight for Commutation Rates. Controller Church is to redraft his motion to apply to the Dominion Government for \$150,000 for the extension of the railways to treat Toronto as well as Montreal in the matter of commutation rates. The mayor promises his support.

Mayor Scary is to speak at the board of trade banquet at Sherbrooke, Que., on Oct. 17.

The contract of the Interurban Electric Company, Limited, to supply current for the extension of street lighting in the seventh ward, expired on Oct. 1, and the company offers to renew it for three years on the same terms.

Town Property Levied On. The mining town of Glace Bay, which has been the scene of many recent troubles, is to be levied on for street lighting when it became known that the property of the town had been levied on by the high sheriff of the county at the instance of the municipality of Cape Breton. The warrant claims an amount of \$18,000 due the county for the town's share of joint expenditures.

DOUBLE-TRACKING OF YONGE ST. BEFORE BOARD

Chairman Leitch Says Only Question of Law—Big Event Out in King Township.

NORTH TORONTO, Oct. 6.—(Special.)—The meeting of the Ontario Railway Board, which took place in the city this morning, to hear the complain preferred by Herbert Waddington and Mr. Winter, with respect to overcrowding on the Metropolitan, and the subsequent declaration of Chairman Leitch that they were fully convinced of the necessity of double-tracking Yonge-street, has given rise to the greatest adverse criticism here. Mayor Brown, Solicitor Gibson and a majority of the council board do not hesitate to express their disapproval of the conclusion arrived at by the chairman of the board, after a few only of the witnesses had been heard, and these largely Toronto men.

"A ridiculous proposition," said his worship, Mayor Brown, "and I can tell you I don't think very much of it. Do you think they can saddle the enormous cost of improving Yonge-street in order to make it a highway for the haulage of freight cars and every other conceivable kind of cars thru the city, to benefit the Metropolitan Railway? I don't think so. We will, of course, follow the thing right thru to the end."

Solicitor Gibson was equally non-committal. He said he would not admit the right of the railway board to order the double-tracking, and will oppose the application of Mr. Waddington and Mr. Winter at every turn.

"I believe that the Township, King and the municipalities thru which the Metropolitan Railway passes ought to be asked to support the objection of the town and city," said a North Toronto member of the board, "and the Metropolitan Railway will try the same high-handed methods further up the line that they are trying here before long. Yonge-street property will be enormously damaged. The Ontario Railway Board, nor any other board, will ever attempt to make us put down double tracks. They have not the right to do so."

Before the commission the first witness called was Herbert Waddington, who, examined by his lawyer, Gibson, declared that Yonge-street would be relieved of the congestion, but a double track would, much time was lost thru haggling between railway employees as to the right of way.

"What is your conclusion?" said Mr. Grant.

"There are not enough cars for the evening and other rush hours, and you cannot operate more cars until you get a double track."

Traffic Manager Wilson stated that more trailers could not be used, owing to the grade between the C. P. R. crossing and Glen Grove, which was eight per cent.

R. B. Beaumont of the Rosedale Gold Club declared that 350 members of the club were anxious for better accommodation, and said that a switch to be effective would require to reach half way from Glen Grove to the city.

Registrar Holmsted of Osgoode Hall also took exception to the stiff conditions of the cars.

Beverly Jones, R. H. Green and other members of the golf club gave evidence and further testimony was on the point of being submitted when Chairman Leitch intimated that the committee were already convinced of the necessity for a double track.

fully 500 were in attendance. The celebration of Dr. Carmichael's 50 years' pastorate was also made the occasion of the regular meeting of the Toronto Presbytery.

From St. Andrew's congregation in King City came an address couched in the most loving terms and accompanying it a purse of gold which Dr. Carmichael was made the recipient of a magnificent bouquet of roses.

From the congregation of St. Paul's there was a loving tribute in the nature of a cheque for a substantial amount, while the Toronto Presbytery presented Mrs. Carmichael with a handsome silver vase filled with the choicest American Beauty roses.

Following these proceedings there was an address in Gaelic from the Gaelic Society of Canada, to which Mr. Carmichael replied in that language.

Representing Queen's University was Rev. Professor Jordan, and from Knox College Rev. Dr. Gaudier, bringing kindly greetings and these the venerable minister replied in a most eloquent and under deep emotion. He recounted in simple language the difficulties incidental to the early ministry, and referred to a strong bond of sympathy existing between him and the members of his family and the congregations of St. Paul's and St. Andrew's.

"I have stood for the old truths, while I have been a stranger for the new ones," was a phrase which, perhaps, more than any other by the doctor will serve to show the stable yet progressive character of the man.

After Dr. Carmichael had spoken, short addresses were given by Rev. Dr. Bruce of Toronto, a lifelong friend, Angus McMurtry, K. C., Rev. John Nell, Rev. Dr. McTavish, Rev. W. A. McTaggart and Rev. Dr. Parsons.

Later refreshments were served and a social time was spent by all. So widespread was interest in the celebration, that large as was the attendance, it was estimated that under normal weather conditions from 1000 to 2000 people would have been present to do honor to the minister and Mrs. Carmichael. A sacred concert, scheduled to take place in the church in the evening, was called off owing to the miserable weather. The party from Toronto returned on the 6 p.m. train, reaching the city shortly after 7 o'clock.

James Carmichael was born in the Township of Beckwith, Lanark County, of Scotch parents, in the year 1829. He attended the public school near his father's home, and by good hard work taught himself to enter Queen's University, Kingston, from which, after his graduation, he went to Glasgow University. It was while in Glasgow that he formed a strong friendship with the late Dr. Norman MacLeod. On his return he was called to the ministry of St. Andrew's Church, King, to which he was inducted on Oct. 6, 1860. Dr. Carmichael has received many calls to other churches, but remained true to his first love, the church of St. Andrew's, where he has spent several years lecturing in church history in Queen's University. Active and alert, he bids fair to see many more years of active service.

MARKHAM FAIR.

Thousands of Citizens Will Visit Banner Show This Afternoon.

MARKHAM VILLAGE, Oct. 6.—(Special.)—The greatest exhibition of live stock ever held in Ontario outside of the big centres is now in readiness here for to-morrow's show, and given fine weather (and this is forecasted), the greatest crowd in the history of the town will be seen here. To-day's heavy downpour, while it practically reduces the attendance to a minimum, has not dampened the hopes of the directors, and they confidently look for a bumper crowd to-morrow. Friday will be the last chance the citizens of Toronto will have to see a record show of live stock and everything else that's good. Big prices are being given and it is manifestly the duty of Toronto people to turn out in thousands on Friday and boom the fair along. York County has contributed enormously to the support of the Canadian National and one good turn deserves another. Special train (half fare) leaves the Union Station for Markham direct at 9.30 a.m. Friday morning and another at 12.30 noon. A trip out thru the very garden of Canada is too good an opportunity to be lost. All aboard for Markham!

A GREAT EVENT IN KING.

Rev. Dr. Carmichael Concludes Fifty Years of Pastoral Work.

STRANGE, Oct. 6.—(Special.)—A memorable event in the history of this village, and district, and one which will long live in the minds and hearts of all present, was the formal recognition here to-day by the united congregations of St. Andrew's and St. Paul's Presbyterian Churches of the minister and his venerable partner. It was a wonderful tribute of love and respect and it is questionable if Canadian history can furnish a parallel case of fifty long years of devoted Christian work in one parish.

The morning broke auspiciously, dark and gloomy, and thruout the day there was not even a ray of sunshine to brighten up the surroundings, but in spite of this, more than 100 representative clergy and prominent laymen came up on the morning train, while from the surrounding neighborhood

QUEEN-MOTHER BLAMED TREATED WANDER AS CHILD

Openly Scolded Him One Day For Breaking a Window—Adhesion to Clericals Cause of Trouble.

NEW YORK, Oct. 6.—Dr. Maurice Baumfeld of Berlin, correspondent of The Berliner Tageblatt, who returned to New York Saturday after several weeks' sojourn in Lisbon, gives interesting details of the revolution in Portugal which came under his observation when traveling thru that country last month. He came in personal contact with many men who are prominent figures in the revolution.

The revolution, according to Dr. Baumfeld, was precipitated by the queen mother's adhesion with the clerical party, led by Jacinto Candido, a member of parliament and in high favor with the queen. It was asserted soon after King Manuel announced his liberal policy that the clerical party was fostering a plan to dethrone the king because of his liberal tendencies, and so-called the clerical party, without, however, assenting to the plan to raise De Braganza to the throne.

"The queen treated the king like a child," said Dr. Baumfeld. "One day she had him returned to the palace from an automobile ride King Manuel broke a window, and although a score of notables were present the queen mother scolded him amazingly for his peevish behavior. This caused a public discussion in the wine shops and other places where the populace gathers at night."

TWO KINDS OF REBELS.

"In one of these shops I saw a man break a bottle of wine, pointing to the liquid as it ran over the floor, he shouted, 'As this wine flows so will blood flow in the streets of Lisbon with in a few days! The monarchy is doomed!' There were several soldiers present, all of whom applauded the sentiment."

There are two wings of the revolutionary party, said Dr. Baumfeld. The so-called 'intellectual' branch, the more powerful, is led by Dr. Theophile Braga, now president of the provisional government, the other, the radical branch, being led by Dr. Affonso Costa, a former member of the parliament. Dr. Costa has many followers, drawn principally from the lower classes, nearly all of them illiterate and strongly in sympathy with the doctrines of force and violence, or 'marchal' as they are called among the better classes in Portugal that Dr. Costa's predominance in public affairs will prove calamitous, and he will be resisted.

HAD A CANTALOUPE TO SELL

But Nobody in Hotel Rotunda Seemed to Want It.

Great are the tribulations of the freshman who wants to join a university fraternity. An amusing example of some of the methods employed by "frats" in the mystic process of "initiation" was afforded last evening to a number of people in the King Edward rotunda.

MARRIED IN HANDCUFFS.

OTTAWA, Oct. 6.—Handcuffed to a turnkey, Ozias Maillaire, a comely youth of 28, at St. Joseph's Church here, just been married to Miss Josephine Servant of Hull. Her going thru the wedding ceremony just on the eve of her husband's leaving for Kingston to spend five years in the penitentiary is the most example of devotion ever witnessed in this city. The groom was sentenced here a day or two ago to five years for stealing \$100 from Canadian Portelaise.

MINE ON FIRE.

DANVILLE, Ill., Oct. 6.—Hartshorn's coal mine, near this city, is on fire. All of the miners were taken out safely shortly after 11 o'clock this morning.

MARKHAM 65c Return, via Grand Trunk

Account "Markham Fair." Special train will leave Toronto 12.30 noon, Oct. 6 and 7; returning from Markham 10.45 p.m.; also on Oct. 7, special train will leave Toronto 9.30 a.m., returning from Markham 6.10 p.m. same date.

Secure tickets at city ticket office, northwest corner King and Yonge streets. Phone Main 4209, or at depot ticket office.

The RUSSILL HARDWARE CO., 126 EAST KING STREET

PROF. MARSHALL REPLIES TO PRINCIPAL OF QUEEN'S

Says Head of University Was Consulted About His Exclusion From the Quarterly.

KINGSTON, Oct. 6.—(Special.)—John Marshall, now of Weyburn, Sask., today telegraphed a statement regarding his resignation from the staff of the Queen's. He says he did so because he had no desire to have a reputation of last winter's persecution.

He claims that from the time his article on the navy appeared in the press there was a concerted effort to make his position intolerable. He says that Principal Gordon was consulted as to his exclusion from the Quarterly, and was told that Professor Marshall should not associate with the staff. Members of the British group at the college refused to speak to him all winter. He was through of the senate committee and dropped from the editorial staff of the Queen's Quarterly.

He found it impossible to work with Prof. Cappon, head of his department. The latter, he says, should be registered, G. Y. Chown, that he (Marshall) was "too damned independent."

In addition Prof. Marshall says: "Two professors in their classes denounced my navy article, and it was thought to intimidate me by having it stated that Sir James Whitney was reported to have said that he would make no radical on the staff. I am not saying Sir James said this, for I hold him in high regard, but that is how they thought to frighten me."

The extra mural exercises were searched for a handle and students were gradually invited to make complaints. One who wrote an essay I had criticized perhaps too harshly. Even he accepted my explanation."

Dr. W. S. Dyde, professor of mental philosophy, offered the principalship of the Presbyterian College at Strathcona, Alberta, and will likely accept. He has been at Queen's for twenty years.

As its present building has been sold, the Ontario Club has secured a thirty-day option on the stone building at Wellington and Jordan streets, now used as the head office of the Standard Bank. If the Ontario Club buys, the price will be \$20,000, and the club will spend \$30,000 more in remodeling the interior and in furnishings.

The buildings at No. 1 East King-street, formerly occupied by Jeffrey & Co., has been leased by the Imperial Bank of Canada, who intend to establish a branch on the ground floor. The new branch will be opened as soon as extensive alterations, now in progress, have been completed. The manager has not yet been chosen.

Argentine Crop Causes Alarm

Wheat Markets Ease Off Again

Uncertainty Regarding Argentine Situation Stimulates Trading, But Profit-Taking Induces Backward Movement.

World Office, Thursday Evening, Oct. 6. Liverpool wheat futures closed today 1/4 to 1/2 higher than yesterday; corn, 1/4 to 1/2 lower. December wheat at Chicago closed 1/4 lower than yesterday; December corn, 1/4 lower. October wheat at Winnipeg closed 1/4 lower; October oats, 1/4 lower. Chicago car lots today were 32, contract 11, corn 28, 81, oats 11, 66. Minneapolis wheat receipts today were 23 cars, against 265 a week ago, and 276 a year ago. Duluth receipts of wheat were 96 cars, against 224 a week ago, and 518 a year ago. Winnipeg wheat receipts were 616 cars, against 612 a week ago, and 630 a year ago; oats, 11; barley, 8; flax, 25.

Primarys.

To-day, Wk. ago, Yr. ago.		
Wheat, 1c. 1/2, 1.17, 1.09	1.12, 1.09	2.02, 1.90
50 sh. 1/2, 1.09	1.09	2.02, 1.90
Corn, 1c. 1/2, 1.09	1.09	2.02, 1.90
50 sh. 1/2, 1.09	1.09	2.02, 1.90
Oats, 1c. 1/2, 1.09	1.09	2.02, 1.90
50 sh. 1/2, 1.09	1.09	2.02, 1.90

Winnipeg Inspection.

Winnipeg receipts of wheat today graded as follows: No. 1 northern, 28; No. 2 northern, 21; No. 3 northern, 20; No. 4, 15; feed, 20; no grade, 11; rejected, 22; No. 5, 6; other, 8.

Argentine Cable.

Broomhall's cable says: Weekly Argentine wheat estimates: 800,000 bushels this week, against 976,000 last week, and 726,000 last year. Corn, 3,000,000, against 2,819,000 bushels. Our agent cables that locusts have appeared and are causing some apprehension in northern provinces and those areas are advancing southward. Rain is still badly needed all over the grain belt.

Snow's Report on Wheat.

Snow's October report makes the spring wheat crop 400,000,000 bushels, against 370,000,000 last year. He makes the northwest crop: Minnesota, 85,000,000 bushels; North Dakota, 80,000,000; South Dakota, 40,000,000; total 205,000,000 bushels, after allowing for abandoned acreage. Government report will attempt to estimate spring wheat of yield on total acreage originally seeded. This is being figured in wheat to confuse local reports, but an estimate around 230,000,000 bushels would seem reasonable expectation. Snow's report indicates that government estimate for oats will be close to 1,100,000,000 bushels.

Corn Crop Report.

Snow's October report says corn is made beyond possibility of increase. Condition 80.3 per cent., or 1.5 per cent. better than last month. On his acreage indicated crop of about 1,800,000 bushels, or 138,000 bushels more than last year. Old corn in farmers' hands 3.7 per cent., or 135,000 bushels, against 79,000 last year. Increased corn supply this year in comparison with last, 185,000,000 bushels. Crop reports 1,038,000,000 bushels, against his estimate of 980,000,000 last year. Crop in Wisconsin, Minnesota and the Dakotas is 50,000,000 less than last year, but the increased crop of Illinois, Iowa and Nebraska alone more than offsets this loss. The report indicates that government will show corn condition around 80 per cent., which on official account will make crop of about 2,075,000,000 bushels. We believe official estimate will be more 2,000,000,000, or considerably over 2,000,000,000 bushels more than last year.

ST. LAWRENCE MARKET.

Receipts of farm produce were light on account of the rain storm, no hay or grain being on sale. Prices given in table are nominal.

Wheat, bushel	30 5/8 to 30 3/8
Wheat, goose, bushel	9 1/2
Wheat, choice sides, cwt	10 1/2
Barley, bushel	12 1/2
Peas, bushel	12 1/2
Hay, bushel	10 1/2

137 CARS OF CATTLE PARADES

TRADE SLOW, SALES DRAG

Several Loads of Stockers Unsold

—Sheep and Calves Steady

—Lambs and Hogs Easier.

The railways reported 137 carloads for Wednesday and Thursday, consisting of 1000 cattle, 772 hogs, 2400 sheep and lambs, and 121 calves. The quality of the bulk of the cattle was common to medium, very good being on sale. A few of the best butchers' cattle sold at steady prices, the top being \$5.75 for 1500 lbs. weight, 1970 lbs. each, sold by Mayhew & Wilson. Prices in the cattle market Thursday ranged from steady to low. Most of the good stock was steady, with a few of the common and medium sold 1/4 to 1/2 lower. It was a slow draggy market for everything that wasn't good.

Stockers and Feeders.

On the sale of the stockers and feeders on Wednesday and Thursday, the market was slow and the north-west; had it not been so, there certainly would have been some. The bulk of the offerings in these classes were common to medium quality, and sold at 20c per cwt. lower than last week. Good quality feeders, 200 to 300 lbs. each, were in demand to firm prices. For prices see the many sales of both stockers and feeders given below. Prospects are for lower prices, especially for the light stockers and medium to common feeders. There are several loads left unsold at the close of the market.

Milkers and Springers.

There was a moderate supply of milkers and springers, which sold at strong prices, ranging from \$2.85 to \$3.00. We call attention to the sale of 26 milkers and springers by the firm of Dunn & Co., which is a fair showing of the general trend of the market.

Veal Calves.

Receipts of veal calves were light, only 121 for the two days. Prices ranged from \$2.50 to \$3.00. Three extra choice reached \$3.50 per cwt.

Sheep and Lambs.

Deliveries of lambs were large, which caused prices to decline. The bulk of the lambs for the two days sold at \$5.75 to \$6.00 per cwt., or an average of \$5.85.

Hog Prices are Lower.

Mr. Harris quotes selected feed and watered, at \$3.50, and \$3.15 to drovers, for hogs f.o.b.: cars at country points.

Simpson's Saturday Sale of Worthy Footwear

Seven Thousand Pairs of Boots and Shoes

Our Saturday morning shoe sales are regarded throughout the length and breadth of Toronto as the greatest economy events in the footwear line that have ever been planned here. Saturday 2.95

See Page 14 For full page adv. THE SIMPSON COMPANY LIMITED See Page 14 For full page adv.

CHICAGO MARKETS.

J. P. Bickell & Co., Manufacturers' Life Building, report the following fluctuations on the Chicago Board of Trade:

Wheat	Open	High	Low	Close
Dec.	98 1/2	98 3/4	98 1/4	98 1/2
Jan.	100 1/2	100 3/4	100 1/4	100 1/2
July	109 1/2	109 3/4	109 1/4	109 1/2

CHICAGO GOSSIP.

J. P. Bickell & Co. say at the close of the market: Wheat—Lower. Firm cables and renewed rumors of deteriorating crop prospects in Argentina, together with the fact that but little advance and desire for profit closed session with a loss of 1/4. Speculation light, but situation improving. We continue to advise purchase on sharp breaks for moderate profits.

New York Dairy Market.

NEW YORK, Oct. 6.—Butter, steady on fancy grades only; receipts, 4001; creamery, third to first, 24c to 26c. Cheese—Firm on top grades; receipts, 4000; prices unchanged.

Reduces Oil Prices.

NEW YORK, Oct. 6.—The Standard Oil Company announces a reduction of 1/4 points in refined petroleum in cases making the price 10c per gallon, and a reduction of 1/4 points in refined in bulk from \$4 to \$3.75.

EXPECT 2000 DELEGATES AT Y.M.C.A. CONVENTION

The arrangements for the international convention of the Y.M.C.A. to be held in Massey Hall, Oct. 28-31, are being rapidly perfected. At least 2000 delegates, with 3000 visitors additional, are expected, the delegates, including men from the Philippines, the Orient, and all parts of Europe, and about 50 from Great Britain.

ASK NOTHING IN RETURN

Postmaster-General Lemieux on the British Preference. (Canadian Associated Press Cable.) LONDON, Oct. 6.—Postmaster-General Lemieux, in addressing the Spinix Club, announced that Mr. Fielding's surplus this year will be \$5,000,000. The main cause for the astounding prosperity was due to the British preference against all comers, and he added, we ask nothing in return; we do it with loyalty and friendship because it has been the cause of prosperity in the Dominion. Whatever may be the result of reciprocity negotiations at Ottawa, British preference will remain as the cardinal principle of our success. Mr. Lemieux also expressed the hope that universal penny postage would be established.

NOT A RAILWAY MAN.

The story that F. E. Robins, of Robins, Ltd., was buying land in the Township of York in the first and second concessions for a street railway project, is incorrect. Mr. Robins is not looking so far into York County, through carelessness, ran him down causing severe bodily injury. Defending assent asserted plaintiff did not exercise care. Jury returned verdict for \$246 and costs. The action brought by Mrs. Minnie Forsyth against the Toronto Suburban Railway Co. for \$5000 damages, for alleged injuries received while riding on defendant's car, was settled out of court. She was about to alight when the car started and she fell. The car started and she fell. The car started and she fell.

British Cattle Markets.

NEW YORK, Oct. 6.—London and Liverpool cables quote American dressed weights at 12 1/2c to 14 1/2c per pound, dressed weight; refrigerator beef, unchanged, at 10 1/2c to 11 1/2c per pound; beef, unchanged, at 10 1/2c to 11 1/2c per pound.

WOMEN'S \$1.50 SLIPPERS AT 99c.

500 pairs Women's Slippers, buskins, Oxford and pumps, for house wear, evening wear and street wear; made from all the popular leathers in popular 1910 fall and winter styles; common sense and high heel styles included; all popular sizes, 2 1/2 to 8; regular \$1.25 and \$1.50. Saturday .99

WOMEN'S \$3.00 BOOTS AT \$1.99.

1,600 pairs Women's Boots, stylish, easy fitting, long wearing, patent calf, kid, gunmetal, tan Russia calf and chocolate kid leathers; blucher, button and lace tops; medium and heavy soles; high, medium and low heels; all sizes, 2 1/2 to 7 1/2; regular \$2.50 and \$3.00. Saturday 1.99

WOMEN'S \$2.50 EVENING SLIPPERS AT \$1.49.

500 pairs Women's Slippers, evening wear and house wear; tan Russia calf, patent calf, chocolate kid and tan Russia calf leathers, short vamp; ankle strap, one to four straps; bar, silk tie and button styles, flexible soles, high, medium and low heels, all popular sizes; regular values \$2.00 and \$2.50. Saturday 1.49

WOMEN'S \$4.00 BOOTS AT \$2.49.

Travellers' Samples of Fine Furs

It's a rare thing to hear of remarkable values in Furs turning up just when every woman's thoughts are turning towards these expensive but necessary articles.

They are the 'advance styles' for next season. Every piece is perfect, and just as well made as the English furriers could make them.

Black wolf Columbia sable, mink marmot, grey squirrel, English mole, white Thibet and Belgian hare.

\$1.00 Women's Dress Gloves Underwear for Women and Girls

Women's first quality Lambskin Dress-Gloves, one dome fastener, plique finger, neat self stitched backs, perfect fitting; sizes 5 1/2 to 7 1/2, white, black, tan and grey.

Anticipate your cold weather requirements, and come for Women's or Children's Underwear Saturday.

\$5.00 Silk Petticoats \$2.95

100 Ladies' Petticoats of good quality tafetas, sky, brown and black colors, made with deep flounce, trimmed with self strapping, stitching and pin tucking.
