FROM AN OPPOSITION POINT OF VIEW.

GENERAL BULLER BELIEVED TO HAVE PASSED THE BOERS

And Is Now Several Miles Behind Them, Within Fourteen Miles of General White's Outpost at Ladysmith.

Boer Commandeers at Springfield Have Been Obviously Dislodged and Have Retired Across the River - Important Operations Are Said to Be in Progress and British May Soon Strike Boer Entrenchments-Lord Ava Dead-Casualties at Ladysmith-General War Topics.

General Buller has evidently started in to make his second attempt to relieve Ladysmith. He wired the War Office from Springfield at 9 p.m. Friday: "I occupied the south bank of the Tugela River at Potgieter's Drift this morning and seized the point. The river is in flood. The enemy is strongly entrenched at about four or a half miles to the north." This is taken to mean that General Buller is now between the Boers at Colenso and Ladysmith.

SCENE OF BULLER'S MOVEMENTS.

The British losses at Ladysmith on Saturday, Jan. 6, when the Boers were repulsed, after desperate fighting all day, according to the War Office, were 30 officers killed and 27 wounded. Among the British rank and file 135 were killed and 242 wounded. Among the officers who met death was Lieut.-Col. William Henry Dick Cunningham, V. C., commander of the Second Battalion of the Gordon Highlanders since 1897.

It is reported in London that General Buller submitted his plans of campaign to General Lord Roberts on the field marshal's arrival at Cape Town, and that Lord Roberts sanctioned them.

General Hector Macdonald, it is reported, will succeed General Lord Methuen in command of the British forces at Modder River.

The Earl of Ava, eldest son of the Marquis of Dufferin, formerly Governor-General of Canada, has died from his wounds at Ladysmith. This news is official.

London, Jan. 12 (Special).-General Buller's 28 words announcing his forward movement of Thursday, is interpreted as meaning that he has passed around the western end of the Boer lines at Colenso, and is now several miles behind them and within 14 miles of General White's outpost at Ladysmith. The Boers a few days ago had forces with guns at Springfield, where General Buller dates his despatch. These commandos have been obviously dislodged, either by fighting or by manoeuvres, the Boers retiring across the Tugela as General Buller advanced.

Important Move in Progress. From General Buller's despatch, coupled with the fact that unofficial intelligence from the seat of war has virtually ceased since Monday, the deduction is drawn that important operations are in progress, as he cannot move far without going against the Boer entrenchments.

Disease Worse Than War. The death list from enteric fever, and dysentery at Ladysmith, averaging from eight to ten daily, is considered more serious than the 230 casualties of Saturday's fight, as it indicates the frightfully insanitary condition of the beleaguered town. A letter from Ladysmith, dated Dec. 7, says that even then 90 out of 540 men in the battalion of which the writer was a member were sick with dysentery or enteric fever, and, according to a despatch to The Daily Chronicle, dated Jan. 8, the patients and attendants in Tombl Camp, where the hospital is, then numbered 2800 men.

Boer Strength 100,000 Men. An apparently well-informed correspondent of The Morning Post says: "The Boer strength, originally 85,000 men, is now heavily augmented by Cape Colonists, and the enemy's fighting force may be estimated fairly at 100,000 men and 500 guns. The Boers are not compelled to fight as they communicate. Their grass is good, the crops are growing, vegetables, cattle and sheep are plentiful, and game is abundant.

Remarkable scenes of patriotism were witnessed in London last evening, after a short service held for the volunteers in St. Paul's Cathedral. The vast audience was slow to disperse. Ladies stood up on the chairs, beckoning and calling to brothers, sons and friends in the ranks, the latter signalling back. A scene of great animation ensued. The organist introduced a few bars of the National Anthem in concluding the voluntary. The effect of this was magical. First the volunteers and then the congregation took up the strain, and the vast cathedral was filled with enthusiastic song.

Demonstrations Renewed. These demonstrations were renewed by immense crowds outside St. Paul's Church Yard and Lodgegate Hill were black with people, and it was impossible for the volunteers to march. Individual members were pulled out of the ranks by their friends and admirers, who raised them on their shoulders and thus carried them down the steps to the church. Those who escaped being pulled out, were surrounded by cheering women.

Crowds of Cheering People. Afterward, the various theatres, where the men were entertained, and yet later, returning to barracks, these scenes were renewed, and the streets were filled until midnight with cheering people.

Only British Subjects. Mr. Reginald Wynne, chief of the Yeomanry recruiting office, says he has received numerous offers of service made by Americans. Only British subjects are allowed to join. Consequently, he says, the report that several American rough riders had enlisted in the Yeomanry is incorrect. Some Britishers, however, who are alleged to have seen service in the American army in Cuba have been accepted.

Young Duke Goes. The Duke of Marlborough has been accepted by the War Office for service in the Yeomanry.

Ceylon Sends Men. Mr. Chamberlain has issued telegram from Ceylon, showing that the Legislative Council of the colony has voted to send 123 mounted armed men to South Africa.

A MESSAGE FROM GEN. BULLER. British Now Occupy the South Bank of the Tugela River-The Enemy Entrenched. London, Jan. 12.-The War Office received this morning the following despatch from General Buller, dated Springfield, Jan. 11, at 9.20 in the evening: "I occupied the south bank of the Tugela River at Potgieter's Drift, this morning, and seized the point. The river is in flood. The enemy is strongly entrenched about four and a half miles to the north."

THE BRITISH LION: I don't know which I want to lick most, the government at Pretoria or the government at London.

W. W. OGILVIE PASSES AWAY

The Great Manitoba Miller Dies Suddenly from Heart Failure at His Home.

PIONEER BUYER OF MANITOBA

He Was the First to Put Into Operation the Roller Milling Process in Canada.

Montreal, Jan. 12 (Special).-It has been a long time since the business community received such a shock as when it was flashed about town that W. W. Ogilvie, the great miller, had just expired. It was all so terribly sudden that few could believe it at first, that so terrible a loss had in reality come to the city in which he lived so long. However, the news was true. Mr. Ogilvie came down to business as usual, attended to his correspondence and reached the Bank of Montreal to attend the regular directors' meeting at 11 o'clock.

Taken Suddenly Ill. He remained in the bank until noon, and then taking a slight rest for his home. On the way up Mr. Ogilvie became suddenly ill and was driven to Dr. Gordon's on Peel-street. The medical man saw the case was serious, and in a little while accompanied Mr. Ogilvie to his residence, Rosemount. The millionaire walked into his house at dusk, and then went upstairs to his room, where he expired 5 minutes after. Heart failure was the cause of his awfully sudden death.

Mr. Ogilvie's Career. William Watson Ogilvie was born at Cole St. Michael, Montreal, Feb. 14, 1835. He was educated at the Montreal High school. In 1850 he entered into partnership with his brother, Alexander and John, as grain merchants and proprietors of the Glenora flour mills on the Leitchin Canal. Subsequently they built mills at Goderich, Seaford, and Winnipeg, and more recently a second mill in Montreal. He was knighted by the Royal Mills. After the retirement of his elder brother, Alexander, in 1874, and the death of his other brother, John, in 1888, the entire business fell into Mr. W. W. Ogilvie's hands.

The Pioneer Wheat Buyer. Mr. Ogilvie was the pioneer wheat buyer in Manitoba. He possessed a thorough knowledge of wheat, wheat lands and the production of flour. He was the first to put into operation in Canada the roller milling process, as well as many other of the latest methods of invention in flour making. Mr. Ogilvie was on the directors of the old Dominion Board of Trade, with the Hon. John Young, Hon. Thomas White and others; had served both on the Council and on the Board of Arbitration of the Montreal Board of Trade, and was president of that body in 1893-94; had been a harbor commissioner and was president of the Canadian Exchange for two terms. Mr. Ogilvie had also been president of St. Andrew's Society. At the time of his death he was a director of the Bank of Montreal. He was a millionaire.

JAPAN MAY FIGHT RUSSIA

Japanese Newspapers Say Troops are Being Moved to Points of Vantage.

WAR PREDICTED AT EARLY DATE

Government Orders 100,000 Winter Uniforms from a British Firm as Well as Supplies.

Vancouver, B.C., Jan. 12.-Advises by the steamship Empress of Japan, which arrived in Vancouver to-day, say that many of the Japanese papers are predicting war between Japan and Russia at an early date. All the papers chronicle the rapid movement of Japanese troops to points of vantage.

George R. Gregg, ex-Mayor of Winnipeg, who arrived from Yokohama by yesterday's steamer, says the prospect of war between Japan and Russia has been in no respect diminished through the recent overtures of the St. Petersburg Government. Shortly before he left Japan the Government had placed an order for 100,000 winter uniforms with a British firm, while coincidentally the Japanese press announced the purchase of large supplies of campaign foods by the Government recently applied to the Army Commissary Department. Hundreds of horses are being mustered at Hiroshima and drilled for cavalry service.

The Kobe Chronicle looks upon war as virtually assured, and says that a few days ago a steamer left a certain Japanese port under sealed orders with a large force of soldiers equipped for the field. It also announced that three other steamers have been chartered as transports for the conveyance of troops. Their destination is Managosa, Korea. Where the Russian gulf boat Donkey, with several other vessels of the same flag, had proceeded with the Government recently applied to the Nippon Yusen Kaisha to charter some of their steamers as transports. The application was refused, the Japanese Government declining permission on the ground that it might need the steamers in its early summer campaign. It is easily understood that the situation is not improved by the Japanese active and heavy indomitable policy and the assurance given by no other than the Japanese towns that, if desired, they will supply Great Britain with complete and experienced regiments for service in the Transvaal.

Mounted Police Corporal Put the Muzzle of a Pistol in His Mouth and Fired.

WANTED TO GO TO SOUTH AFRICA

Could Not Pass the Doctor, Became Despondent and Shot Himself Dead.

Regina, N.W.T., Jan. 12.-[Special].-Corporal Lindsay of the Northwest Mounted Police came from Battiford to join the western contingent. His father and brother were both killed in the first Boer war, and he was anxious to avenge their deaths. Unfortunately he could not pass the doctor. Despondency came over him and this morning he placed a pistol in his mouth and shot himself dead.

Premier Macdonald Seen. No Date as Yet Fixed for the By-Elections for Endorsement of Ministers Chosen.

Winnipeg, Jan. 12.-[Special].-Hon. Hugh John Macdonald was seen in his office this morning, and in reply to a question, said that no date had yet been fixed for holding the by-elections for endorsement of the Ministers, but that the matter would probably be decided at the next Council meeting which will take place on Tuesday. Nothing has been decided in regard to the meeting of the Legislature as yet.

"GODSPEED" SPOKEN TO TORONTO'S BOYS

The City's Representatives Gave Farewell Gifts to Second Contingent.

ENTHUSIASM NOT LOUD,

But the Speeches Were Patriotic and the Large Crowd Was Visibly Moved.

EACH GETS A MATCH BOX AND \$5

Officers' Presents Are a Revolver, a Field Glass and \$25 - An Impressive Occasion.

The farewell and the city's presentation to Toronto's quota of the second Canadian contingent in the Armories last night was not by any means characterized by the wild enthusiasm and spontaneous outburst of patriotic feeling that took place upon the occasion of the departure of the first contingent. The elements had a great deal to do in dampening the ardor of the vast crowd present. The large drill hall was cold and uncomfortable and, with the exception of the speeches of the Mayor and Col. Denton, there was a lack of stirring addresses. Hon. G. W. Ross was depended upon to deliver the speech of the evening, but was absent for some reason or other, and the whole proceedings lasted only about half an hour.

But while the people may not have displayed their emotions, yet deep down in their hearts there was a feeling of pride as they glanced at the hundred and fifty or so strapping, grout-coated men, of their own free will, enlisted in the contingent and are now about to depart and lend their assistance to the Empire in this hour of its trouble. The whole ceremony, notwithstanding the absence of any great enthusiasm, was impressive and solemn, instead of ebullient and making a great show of things, the crowd took matters seriously and seemed to look on the stern side of affairs and to weigh the chances of ever seeing the boys again.

Crowd Came Early. Long before the troops arrived the officers' gallery and the others were crowded. In the centre of the floor a space was roped off and kept clear for the men. In front of it the platform was erected, and they had the advantage of hearing all the speeches. Promptly at 8 o'clock the strains from the band of the Governor-General's Body-Guards announced that the boys had arrived, and a few moments later, they marched in, amid cheers, and took up their positions.

A Rush for Robes at Dineen's. Sleighing furs now come up in immense quantities and varieties among the attractive fur displays at Dineen's. Provision had been made early in the season for a great sleighing winter. Over three thousand robes of every variety of fur and great number of exclusive styles, such as fashions in fancy effects have been waiting for the attention which followed the snow-fall yesterday. The robe sales yesterday, coupled with the weather-forecast's prediction that Toronto will have very little snow during the next month and a half than it has had in that time for many years, are helping to reduce the supply at Dineen's, and the prices will never again be as low as at present. Tonight, Dineen's remains open till 10 o'clock.

A CONTINGENT RELIEF FUND

Lord Minto Anxious to Have an Effinite Scheme to Benefit the Soldiers

AND THOSE DEPENDENT ON THEM.

Hence a Meeting at Ottawa Set on Foot the Canadian Patriotic Fund Association.

Ottawa, Jan. 12.—The following is officially given out as the proceedings at a meeting of the Canadian Contingent Relief Fund, held at the office of His Excellency the Governor-General on Jan. 11, 1900:

Present: His Excellency the Governor-General in the chair, Hon. W. M. Martin, Hon. R. Borden, Hon. C. E. Foster, Hon. J. C. Costigan, Sir Sandford Fleming, K.C.M.G., Mr. Courtney, C.M.G., Mr. W. White (Comptroller Northwest Mounted Police), Judge McTavish and Lieut.-Col. Irwin.

Lord Minto's Address. His Excellency the Governor-General addressed the meeting and, after thanking those present for attending, said that he did not intend to go into details, but would outline briefly what he thought should be done in the way of organizing a central relief fund, and explained that the funds already collected for the Red Cross Association were specially devoted to the relief of the sick and wounded in the field, but that the relief fund now proposed should be administered as follows:

- 1. For the benefit of the widows, orphans and other dependants of the officers and men of the Canadian Patriotic Fund who may be unfortunately killed in the war operations in South Africa.
2. For the benefit of the soldiers themselves or others (with other combatants or non-combatants) on duty in South Africa, with the authority of the Government of Canada, and their families or dependants, who may have been disabled by wounds, sickness, etc.
3. For the benefit of the wives and children and dependants separated at home for their husbands serving in South Africa.

THE HANDSPRINGS HAVE BEGUN THE HUNT FOR OTHERS. Mayor Macdonald has not yet been in office a week, but it is already evident that a mighty change has taken place. Engineer Rust is one of those who have begun to rust in the hands of the Mayor. He drew up time-table for certain routes of the Toronto Railway Company, consisting of more cars and trailers on Yonge-street, Broadview-avenue and other lines. This is the first time on record he has been in the office of the Mayor. The conference between the Mayor and City Solicitor and the Attorney-General in the case against the Consumers' Gas Company is also being conducted in the Mayor's office. The Ontario Government has been impressed into the service of the city. As a consequence of this new vigor, ex-Mayor John Shaw and Auditor Trow, appointed by him, began turning handsprings yesterday in a vain endeavor to unearth a report which it is alleged was filed with the City Clerk, but up to the present is not forthcoming.

The submission of the city's case against the Metropolitan Railway was decided on during the late administration. It is true, but Mayor Shaw only acted because a handspring administration was in sight. The city's victory over the Metropolitan is clearly a victory of the new idea that the people, and not the corporations, are the rulers of the city.

CHASE HIM OUT! The disloyal article in La Semaine Religieuse is something to be very much regretted by people both of French and English tongue in this country, and we trust that we have seen the last of this kind of writing in Canada. The author of it is said to be a member of a religious order in the Province of Quebec, who was born in France. We have an impression that a good deal of the feeling of this kind of writing in Quebec against that province may be traced to his origin in men who were born in France, and who have settled in Quebec. It might, therefore, be just as well if the authors of this kind of writing were to be chased out of the country and stopped importing others of a similar stripe. We do not think, for instance, that the author of the article in La Semaine Religieuse in Montreal would be ignored at headquarters. But if this should fall, they ought to be sufficient law in this country to conduct the reverend traitor to the frontier or put him aboard a ship at Halifax and bid him a curt good-bye. The Seminary in Montreal would be ignored at headquarters. But if this should fall, they ought to be sufficient law in this country to conduct the reverend traitor to the frontier or put him aboard a ship at Halifax and bid him a curt good-bye.

RETAIN MR. MACGREGOR. The suit against the Consumers' Gas Company is an extremely complicated one. It took the counsel who were engaged in it a very long time to prepare the briefs and to become properly seized of the facts. The information that has been gained in the previous litigation will be very valuable in the new suit that is to be entered against the company. Mr. John Macgregor has slept with the case since it was started some five years ago. We believe he has a clearer and more comprehensive grasp of the facts and the law than any other lawyer in the city, and that he should be retained to act in conjunction with what counsel is engaged. The fact that Mr. Macgregor took an active part in the recent mayoralty contest and assisted Mayor Macdonald is no reason why his services should not be secured.

THE JUDGMENT SUMMONS NUISANCE. Any legislation that tends to place the everyday business transactions of the people on a cash basis is, to that extent, at least, most desirable. The abolition of the Division Court would do more than anything else to extend the cash system in all lines of trade. If the departmental stores have made a success it is in no small degree owing to the fact that they have no use for the Division Court. They conduct all their business on the cash principle and consequently have no bad debts to collect and do not find it necessary to tax the honest for the debts of the dishonest. Public opinion in Canada, however, is hardly prepared for such a drastic measure as the abolition of the Division Court, but the time is ripe for the abolition of that other nuisance, viz., the judgment summons process of the Division Court. As we pointed out the other day, the judgment summons is used principally as an instrument for blackmail and extortion. It is productive of more evil than good, and it is high time it was abolished. This is a matter within the jurisdiction of the Provincial Legislature. Premier Ross can introduce no more popular legislation at the coming session than an amendment to do away with the judgment summons. And while Hon. Mr. Ross is engaged in riding the province of the Province of Ontario, it is high time that he should be reminded of the fact that the Province of Ontario is a large and important part of the Dominion of Canada, and that the interests of the Province of Ontario should be protected as much as those of the Dominion of Canada.

APARTMENT HOUSE-A CHANCE. The World begs to direct the attention of holders of unremunerative city property and others to the splendid chance that exists for building unpretentious apartment houses in the city. They have proved a great success in Montreal and other large cities.

A MAN LOST. Lost! No man understands the full meaning of that word like the man who has lost it. He will tell you how he was in the woods going ahead steadily when I realized I'd missed the trail. With a cry of "Lost!" I broke into a run headless and ignorant of the direction I was going.

OUTLAW BASEBALL LEAGUE. Have Money to Burn and President Quinn Says Organization Will Be Completed Soon. Milwaukee, Jan. 12.—There is evidently a great deal more to the new American Association than many of the baseball magnates in the National League care to admit. Acting President Quinn of the Association said today: "Four of the western people have signed the bonds for \$100,000, and each one has put up \$250 to carry on the work of organizing. The bonds will be collected at the end of the next ten days and signed there. The money is up in the west, so our rivals cannot say it is all bluff."

Extraordinary Furniture Selling

Are you beginning to realize that we carry here a larger stock of Furniture than any exclusive furniture store in Canada? Better Furniture, too—and when you read the prices of these pieces at \$75 to \$125 each, please don't forget that they are OUR prices, NOT the usual big retail prices of the cabinet maker, and reductions on these prices of ours are great savings—real nuggets of economy, that will assay some of them as high as \$45.00 in your favor.

The following high-class pieces and sets—in most cases just one of each—are marked down in a manner that will make Monday a very important day to Furniture buyers:

Table with 2 columns: Item description and Price. Includes items like 1 only Bedroom Suite, mahogany, 1 only Sideboard, oak, with china cabinet, etc.

It's Easy to Dress a Boy. There's no fussing over frills and frounces with him—you can just step in and make your choice of what he needs, all ready to put on.

Tailor-Made Skirts for 4.20. We are now offering fine, splendidly tailored women's skirts at this very low price.

Men's Fur Coats. Men's Fur Coats, made to order, in all the latest styles, in all the latest styles, in all the latest styles.

Armorside Corsets. Especially adapted for street figures, always giving perfect satisfaction, both in fit and wear.

Women's Coats at Half and Less. There remain from a season's great selling a few lots of women's jackets on which we have made ruthless price cuts in order to clear them out prior to our annual stock-taking.

Ladies' Jackets in black, navy, fawn, brown and castor colors, made of fine beaver cloth, lined throughout with silk, strapped seams, six large pearl buttons, coat collar, double-breasted, regular price 16.50, Monday, 7.90.

Ladies' Beaver Cloth Jackets in black, navy and brown colors, fully lined with satin, nicely braided, fly front, high storm collar, regular price 13.50, Monday, 6.00.

Sets of White Underwear. Including the five pieces, gown, chemise, drawers, corset covers and skirt. We have picked out some sets for special selling on Monday at more than one-third off the regular price.

To Thrifty Women. These very low prices in blankets, linens, cottons, etc., will mean a chance to stock up at great economy in the cost. For Monday we are offering some most attractive specials.

CITY HALL CONTRACTS MUST BE CLOSED UP NOW

Board of Control Will Have No More Dilly-Dallying Over This Matter—Works Estimates Must Be Ready as Ordered—Civic Gossip.

It is hard enough when the citizen gets up early in the morning to avoid the shock of his sidewalk. But what will he think when he finds out that he pays an alderman staff of shovellers to clean the debris of the four-dollar-a-yard carpet in the Council Chamber?

Controller Sheppard now occupies the seat in the Chamber formerly filled by the stalwart form of Ald. Burns. Behind him the windows overlook James-street. As Controller Sheppard sat among the fathers on Thursday evening the snow was falling so thickly in his vicinity that he kept his coat collar turned up. It blew in at the windows and descended on the reporters and the controllers.

One of the attendants told Mr. Sheppard that they had to keep shovelling the snow all night to save the carpet. Mr. Sheppard reported the information to the Board of Control, wondering how windows could be closed to do not fit close enough to exclude the storm. Architect Lennox marveled and promised to spread rubber over the cracks.

The Council meeting on Friday evening cleared off a long order paper in the shortest recorded time. Mayor Macdonald fell in for punctuality and despatch. The Allocation Committee had a taste of his discipline yesterday. The meeting was called for 2.30 p.m., and the Mayor was sharp on time. Ald. Lamb was also on hand, but there was no quorum. His Worship waited fifteen minutes, and a quorum not having been assembled requested that the meeting stand adjourned. He at once retired. But as a matter of fact there did not turn up later a sufficient number to form a quorum.

Controller Sheppard is applying regular business methods to the Board of Control. He is vice-chairman, and the duty falls upon him of checking accounts. He has requested the heads of all departments in forwarding their statements to send along at the same time a memorandum of the services and totals. These particulars will be kept on file for reference. Another business-like move is to get a telephone in the Board of Control room. The manual now says the chairman or board shall require the presence of the head of a department or sub-department. Hereafter the boards required have been in the habit of coming early and waiting sometimes through an entire meeting, necessarily to the neglect of regular work. In future each official will be telephoned at the exact time his presence is required.

The Mayor is already meeting the anticipation that he would require the submission of the City Engineer's credentials. He wrote to the chairman of the Board of Works yesterday, and on Ald. Lamb fell the duty of breaking the news to the Mayor who was present. The credentials will go on from the Board of Works to the Board of Control, where any discussion of the subject will of course take place.

There was a disposition shown at yesterday's meeting of the Works Committee to be critical of the order of the Board of Control requiring the preparation of the estimates forthwith. Ald. Saunders understood the Board of Control to have taken the ground that the Works estimates would go straight to the Board of Control from the Engineer. Mr. Littlejohn having been called in, gave it as his opinion that the Board of Control did not intend to interfere with the practice in the past of the Committee on Works of revising their own estimates and then sending them on to the Board of Control. But when Controller Sheppard appealed to the manual to settle the duty of the Board of Control in this respect he certainly intended to interfere with past practice. This is what the manual says: "It shall be the duty of the Board of Control (1) to prepare an estimate of the proposed expenditure of the year and certify the same to the Council for its consideration." There is room for a clash of authority on the point.

The World has received a long letter from President Kelly and Secretary Hawes of the Retail Grocers' Association with regard to the discussion in Council on Thursday upon the early closing by-law. This letter says: "Every signature upon the petition can be reached for by affidavit. We require any such records sufficient should have been made to the contrary. Our association employed three responsible men, who will swear to each signature. Our association always contended, and now contends, that the petition had the statutory number of signatures, but the committee of Council and the Council itself never acted upon the sufficiency of the petition, but upon their right to pass the by-law irrespective of any petition."

The by-law did not go through the Legislation Committee and Council, upon the declared right of the Council, put it through. The allegation was several times heard that the petitions were sufficiently signed to leave the Council no option under the statute but to pass the by-law. It appears now that such was not the case, and that the bill was, by the majority of its signatories, not obligatory. The main ground for re-consideration, therefore, is that the by-law, being found to affect a class of persons, probably not contemplated by the statute, the Council should not neglect the exercise of its right of forming a deliberate judgment. In a word the pleasure of the grocery business, chiefly poor widows who keep a few articles usually required for when the big stores are closed, would be driven to the wall. In one case a poor woman's milk depot, in which little groceries were sold, was affected by the by-law, and the woman could not sell milk or groceries after the prescribed hour.

There was an electric light in front of the Jail last night for the first time. It illumined the darkness and helped to cheer many a passer-by.

THE BOARD OF CONTROL
Seems to Be a Board of Easterners Thus Far—All City Hall Contracts Must Be Closed.

The Board of Control met yesterday morning to reconsider the Bennett and Wright drawings. The Mayor: The situation as it appears at present to us is that Bennett and Wright claim to have completed their contract with the exception of the four registers up in the assembly hall. Architect Lennox: With the exception of 25 drawings. The architect began at once a history of the contracts from ten years ago down to the present. The Mayor: What was the total amount of the contract? Mr. Lennox: About \$218,000, and the drawings \$21,000. The Mayor: Should such a large sum of money be held back for 25 drawings? Mr. Lennox: I am not to consider any contractor until the contract is finished. We cannot do a staircase finished for four or five months yet. The Mayor: What is to prevent us from closing out Bennett and Wright's contract and making a new contract with them for the unfinished portion? The architect: Nothing at all. Complaints come in. Controller Sheppard drew the architect's attention to the registers in the room of the vice-chairman, which were working. Mr. Littlejohn also mentioned that one of the rooms in the City Clerk's department had not had any heat for a month. Mr. Lennox explained that these difficulties would take time to discover, although they might be set right in an hour. Controller Sheppard: How long have the registers been in? Mr. Lennox: Three years. They have been giving satisfaction all that time. Some may have got jammed. Controller Sheppard: But the jam won't go in and then come out again. Architect Lennox: The trouble here is that clerks and others interfere with the registers and the like. Controller Sheppard: We have enough men in here looking after things. Controller Sheppard: Can you take the contract out of Bennett and Wright's hands and work done. Mr. Lennox: Yes, I have notified all concerned. The Mayor: This board will meet next week. Will you then be ready to say that you are satisfied with the original contract and make a new contract for the unfinished work? Mr. Lennox: It will take me a week to check the work, and I may have a certificate by the end of the week. The Mayor: Well, when your certificate is ready we will call a meeting of this board. I don't see what else we can do. Mr. Wright Wants Money Now. Mr. Wright asked if he could not get something on account now. Controller Sheppard: Last year's Board of Control recommended handing back the deposit of \$11,000. What was the difference between taking back one of the seven thousands, instead of the other? Mr. Wright: The difficulty was over the sub-contract, and Mr. Maia, one of the sub-contractors, came forward and wanted his drawback of \$1000 from the Board. The Mayor: I am sorry we cannot help you. It was agreed, without discussion, to let Bennett & Wright have their deposit of \$11,000. Are the Windows Loose? Controller Sheppard called the attention of Architect Lennox to the fact that last night during the meeting of Council the windows of the chamber in gusts. "It was blowing down my neck," said the controller, "enough to kill me." Mr. Lennox could not understand how some time and try to remedy the matter. Controller Sheppard: You had better do it at once. I understand that a staff had to be kept up all night shovelling snow out of the Council chamber. The attendant is here who told me so. That should not be necessary if the windows were tight. Our windows ought to keep the snow out. Mr. Lennox promised to attend to this business at once. Lennox on the Aggravation. Controller Sheppard brought up the old matter of the architect's staff. He said: "There was an instruction of Council that the staff be placed under Mr. Coats' watch." Mr. Lennox replied that he had written a letter inquiring about the officials to be dropped and had received no reply. "I am going," he said, "to insist on having these men taken off my hands."

HIS LUNGS CRUSHED OUT.

brakeman Walter Secord of Scar-

boro Meets a Horrible Fate.

Delleville, Jan. 12.—While Walter Secord,

brakeman on the G.T.R., was coupling

cars at the station here at 8.30 this morn-

g, he slipped and was caught between the

rails. A horse was driven through his

body, from which the lungs protruded, and

his condition was such that he could not

be removed to the hospital. He died about

two hours later. Deceased was about 22

years of age, and his home was in Scar-

boro, where his mother and sister reside.

BROOKFIELD ST.

Toronto, Ont., Jan. 5, 1900.

Backache and kidney trouble has been

trouble for ten years. I could not

stand up in the morning for a long time

and in the day out. I have tried all sorts

of medicine, cathartics, and pills, but

nothing helped me until I got a bottle of

Dr. Pifer's Backache Kidney Tablets at

Dr. Pifer's drug store, corner Queen and

Bedford streets. I did not get relief. The

back was soon free from trouble and the

drugs in good shape. I am delighted

with them and can recommend them

heartily.

BANK-WRECKER GOLDSMITH,

Who Stole \$91,000 From the Port Jervis National Bank, Sentenced to Eight Years.

New York, Jan. 12.—Lewis E. Goldsmith, for years the assistant cashier of the Port Jervis, N.Y., National Bank, who pleaded guilty of having stolen \$91,000 from that institution, was today sentenced to serve eight years in the penitentiary at Sing Sing.

The self-confessed bank wrecker, with a deathly pallor upon his face, stood silent while his counsel, Mr. Crane of Port Jervis, pleaded for leniency for him. Judge Thomas said that it was at first his intention to give Goldsmith the maximum penalty of ten years, but in view of the appeal made on his behalf he would make the term of the assistant cashier's imprisonment eight years.

NEWFOUNDLAND FISHING RIGHTS.

Imperial Foreign Office Declares the Question is Settled for at Least a Year.

London, Jan. 12.—The Foreign Office of Great Britain emphatically states that the question of the Newfoundland fishing rights has been settled for at least a year. The proposition that the modus vivendi be extended for another year, which was prepared in war time to discuss the matter, which is now a question of the British and the Canadian Parliament, as the latter must ratify the extension.

Handbook of Canadian Women's Work.

The Handbook which the National Council of Women is preparing for the Paris Exhibition, at the request of the Dominion Government, is making satisfactory progress. The essays have been undertaken by well known women writers, who are now at work. These essays are to comprise about half of the volume, which is to consist of some 300 pages. The remainder of the book will be taken up with information upon the various occupations and interests of women in Canada, and it is hoped that this part will form the nucleus of a future useful directory of women's work.

The essays are as follows: The work of the National Council of Women; the work of the Comtesse de Amerling; Historical Sketch of Canadian Women; by Mrs. Logan; Women and Social Life (two essays), by Mrs. Dandurand and Miss Lily Douglas; Religious and Charitable Work of Women; by Mrs. Jette and Miss Murray; St. John; Work of Women in Education; by Mrs. Jette; The Political Position of Women (two essays), by Miss Clara Brett Martin and Mrs. H. Gerin Lajoie; Industrial Possibilities of Women; by Mrs. Hoodless; Hamilton; Professions Open to Women; by Miss Derick; Montreal; The Victorian Order and District Nursing in Canada; by Miss McLeod; Hamilton; by Miss Mallock; Reconciliation; by Mrs. B. Langner; Women's Life in France; by Mrs. McEwen; Brandon; Art; by Mrs. Dignam; Music and the Drama; by Mrs. Couture; Women's Clubs; by Mrs. W. H. Fred Campbell; Women Press Writers; by Miss Fitzgibbon; French-Canadian Literary Women; by Miss Perry (Paris).

Occident Lodge at Home.

The at home of Occident Lodge, A.F. & M., on Wednesday evening was a complete success in every particular. Every room in the large building was occupied by the guests, who were delighted with the arrangements. The large dancing hall was beautifully decorated with bunting and looked like a fairy room, when the dancing was in progress. The first part of the evening was taken up by a grand concert in the lodge room, which has been recently painted and papered throughout. The artists who took part were: W. E. Dore, Mrs. McDougall, J. Alexander, Miss Cosby, Mrs. Morrison, who was supported by Mrs. (entriologist), Cashmore, Postwaite gave a cornet solo, and Jeanie Bennett sang several other selections. The chair was occupied by Mr. Morrison, who was supported by Bro. Thomas Crawford, M.L.A., and some of the past masters of the lodge. Refreshments were served in the lodge room by placing the tables the whole length, and 100 persons could be seated. Tasker did his best in that line. Dancing was kept up till early morning, when every one went home, satisfied that they had spent the happiest time in their lives. The committee, under the management of the old war horse, V. W. B. Dunn, received the hearty thanks of the members for the splendid arrangements.

German Bank Reduces Rate.

Berlin, Jan. 12.—The Imperial Bank of Germany has reduced its rate of discount from 7 to 6 per cent, and its rate for advances to 7 per cent.

Hutch Cures Disorders of Stomach, Liver and Bowels

N. C. Love Says Sales of Hutch Are Larger Than Ever.

This, the Pioneer Drug Store of Toronto, was established 1840, and has been managed most successfully and shrewdly for the past seven years by W. Latimer, Esq.

Mr. Latimer was seen in his new store at No. 169 Yonge Street, which is a large commodious store nearly opposite the old stand. "I have had large experience with various medicines, but the sale of Hutch is phenomenal. It is larger than ever. I think without question it has the largest sale of any article on the market to-day. People are being cured by it. I have heard hundreds of people speak highly of it, many of whom were completely cured of long-standing diseases."

Hutch, a doctor for ten cents, relieves painful digestion, cures sick headache, sour stomach, torpid liver, foul taste in mouth, indigestion and dyspepsia.

Sold by druggists at 25c, 50c and \$1.00, or by mail from THE WOODWARD MEDICINE CO., LIMITED, 11 Colborne Street, Toronto, and Buffalo.

N. C. LOVE & CO.'S NEW STORE, YONGE STREET. THEY SELL AND RECOMMEND HUTCH.

MRS. GARROW PASSES AWAY.

Mother of Hon. J. T. Garrow Was One of the Pioneer Settlers of Huron County.

Seaford, Ont., Jan. 12.—Mrs. Garrow, mother of the Hon. J. T. Garrow, died this afternoon at the home of her son, near Seaford, at the advanced age of 84. She was one of the early pioneers of Huron, and was held in high esteem.

"Travel and Recreation."

The current issue of Travel and Recreation is one of the finest publications ever produced in Canada. The cover is in gilt and a fine combination of colors. "Christmas Past and Present in Old Acadia" is a graphic article from the pen of Prof. Chas. D. Roberts. It describes the Acadian Yuletide customs of 250 years ago, as well as those of today. Mr. Frank Hubbell, evidently a traveler of considerable experience, tells of a trip from Dawson City down the Yukon to the ocean. It is a very interesting sketch, the writer displaying much observation of life, customs, events and the scenery. Mr. Hubbell also made some Yukon sketches, from which some of the illustrations of the article were painted by Mr. W. A. Sherwood, the artist. A trip to Cuba, from Toronto, and a "Trip into Eastern Equatorial Africa" and many other selections complete the number.

Young Liberal Club Banquet.

The Young Liberal Club's banquet will be held on the 20th inst., at the Rossini Hotel. Hon. J. I. Tarte and Hon. Richard Harcourt will be among the speakers. Application for space should be made early to the president, J. G. Ramsden, 245 Yonge street.

OTIS CAPTURES TOWNS.

Also a Large Number of Prisoners With Arms and Ammunition.

Washington, Jan. 12.—General Otis has made a report to the War Department in regard to the military operations in Lunon south of Manila, showing the capture of several towns and a large number of prisoners with arms and ammunition.

Beauchamp at Massey Hall Again.

Tomorrow (Sunday) afternoon Mr. Lon J. Beauchamp will deliver the closing address of his Toronto campaign at a meeting of the Canadian Temperance League. During his stay in Toronto he has made a very favorable impression on the people, having spoken already three times in Massey Hall, in a number of the leading churches, together with the Fred Young Mission and Central Prison. He is without any doubt, one of the most attractive speakers that have spoken on a platform in Toronto for many years. The address of Sunday will be specially for young men, entitled, "Prime Ten minutes." Mrs. McIvor-Craig will sing, and the chair will be occupied by Public School Inspector W. E. Chapman.

"S. Lucania."

OF RICH BREEDING. Another Hood Farm Jersey Bull Comes to Canada.

Craig & McCulloch of Snelgrove, Ont., has purchased from the Hood Farm, Lowell, Mass., a Jersey bull of very rich breeding. His sire is Pedro Signal Landseer, who won first prize in his class and headed the famous prize herd at the New England Fair, 1887, and is a half brother of the famous cow, Eurotasama, test 27 lbs. 11 1/2 oz. in seven days, 145 lbs. 9 oz. in one year, and one time the holder of the silver challenge cup for the largest yearly test of any Jersey in the world.

Pedro Signal Landseer is a grandson of the famous \$10,000 bull, Pedro, and of Fanny's Harry, who has 38 daughters in the 14th list. The dam of the young bull is Maquila of Hood Farm. She made a record of 21 lbs. 1 1/2 oz. on dry, when she was 2 years and 8 months old, and with her first calf gave in one year 728 lbs. milk, which tested 312 lbs. 5 oz. butter. She is a phenomenal cow and carries a large, finely-shaped udder, which extends far forward and is beautifully proportioned. It is a pleasure to handle her, and she is the right size. She is by Fanny's Harry, referred to above, and he is a son of Landseer's Harry, 20 lbs. 3/4 oz. in seven days, 508 lbs. 14 1/2 oz. in one year, the richest cow the world has ever known. She has five daughters in the 14th list and three producing sons. The dam of Maquila of Hood Farm is Brown Beattie and Merry Maiden, one of two in the 14th list. It will thus be seen that this bull is strongly bred, and his stock is undoubtedly of the highest quality.

The Farm is owned by C. I. Hood, proprietor of Hood's Sarsaparilla, and is the home of the famous World's Fair cow, Brown Beattie and Merry Maiden, one of two in the 14th list. This cow contains the richest blood in the world.

Unique Advertising. Unique designs and striking advertisements are used by advertisers simply to attract the attention of the consumer and make them buy; the quality of the goods is dependent on to make continuous customers out of those who try.

Attention is drawn to the advertisement of The Monsoon Tea Company on another page. The design is decidedly good, coming at a time like the present, when the British flag is menaced on all sides; however, it is conceded by all people to British-grown tea.

Try a packet of Monsoon Indo-Ceylon Tea from your grocer.

Petroleum for the Lungs. Thoroughly purified of everything but its nutritive and antiseptic properties, Petroleum is used by the most eminent physicians, is odorless, oil, which, emulsified and combined with the hypophosphites, is doing wonderful work in the treatment of lung and bronchial troubles. This preparation, known as Anderson's Petroleum Emulsion, has proved a welcome substitute for cod liver oil and is greatly superior in its results. Leading physicians in this country and other countries are prescribing it. One of its chief features is its adaptability to weak stomachs, being perfectly agreeable to take and a help to digestion.

For Florida and the South. Tourist tickets on sale to all winter resorts in New Jersey, Virginia, North and South Carolina, Georgia, Florida, Nassau and Cuba.

The Lehigh Valley Railroad, with its southern connections from New York, Philadelphia and Washington, makes it the most direct and quickest route, with fewest changes, to all Florida and Southern resorts. For further information, illustrated pamphlets, maps, time-tables, tickets and sleeping cars, call on Robert S. Lewis, Canadian Passenger Agent, 33 Yonge Street, Board of Trade Building, Toronto. 6184.

Monday Starts Our Quick Stock-Taking Sale.

It is desirable that the size of our stocks, which are large, should be substantially reduced in volume before stock-taking. These conditions are emphasized because in a little time new goods for spring business, now being personally purchased by our Mr. Kay in the European markets, will commence to arrive.

Many shoppers have pleasant recollections of the satisfactory character of our sale of curtains and drapery goods this time last year. We promise that they will find conditions this year just as agreeable—and probably increasingly paying to them. This is the way stocks will be sold:

—A Straight Discount of 20 per cent. will be allowed off the marked price of everything in the line of art pottery, including fine samples of Majolica, Della Robbia, Castaglioli, Barum, Farnham, Flemish and Bohemian ware and Liberty's famous Clats Grass ware.

—20 per cent. Discount Off Art Furniture and French Cabinets, Turkish and Indian carved and inlaid Turbets.

JOHN KAY, SON & CO., 86-88 KING STREET WEST, TORONTO.

Important Sale. On next Wednesday and Thursday Suckling & Co. will hold an important sale to the trade, commencing at 10 o'clock they will offer the stock of M. Fitzgould, Windmill, which amounts to about \$2500, and consists of dress goods, silks, satens, prints, foulard, stevens, quilts, embroideries, hostery, gloves, etc. They will also clear the consignment of metallic stripes, many all-wool fannels, Turkish towels, fancy spot foulard satens, stripe shirt-fabric, galata stripe fancy sleeve linings, white and ecru curtains, print patches, black figured dress. At 2 o'clock on Wednesday they will sell boots, shoes and rubbers.

Sale of Export Horses. Owing to the war it is impossible to secure steamboat space for horses at present. Consequently an extensive exporter has decided to sell by auction on Tuesday next at Grand's two carloads of very fine general purpose horses, low set blooded, drivers and carriage horses, intended for the English market. These are excellent horses and well worthy the inspection of intending purchasers.

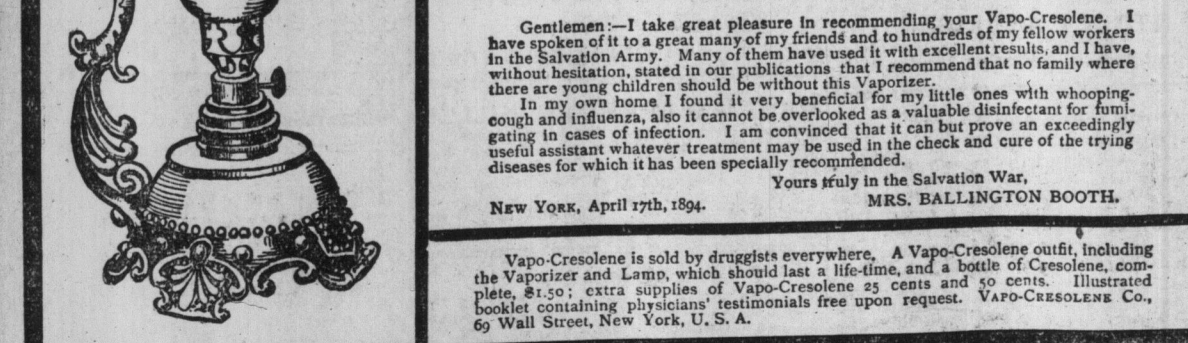

This is the Best Yet. Many useful and handsome advertising novelties have been issued by the Grand Trunk Railway, but the latest is the best yet. It is a miniature map, showing all the lines on the entire system, with the names of the stations. The map folds up into a neat leather case.

Anyone Sick?

Then you need Vapo-Cresolene in the house. There is nothing equal to it for purifying the air and making it free from all germs of disease. It quickly and completely destroys disagreeable odors, and yet is perfectly safe. It matters not what the disease may be, typhoid fever, bilious fever, or any other fever, or disease of any kind, you should use Vapo-Cresolene in the sick room.

You put some Cresolene in the saucer, light the lamp beneath, and let the purifying and germ-destroying vapor fill the room. You can prevent diphtheria, scarlet fever, whooping-cough, and other contagious diseases by using Vapo-Cresolene.

For asthma, bronchitis, sore throat and hard colds, it is the common sense cure; and for whooping-cough and croup is a perfect specific.

Gentlemen—I take great pleasure in recommending your Vapo-Cresolene. I have spoken of it to a great many of my friends and to hundreds of my fellow workers without hesitation, stated in our publications that I recommended that no family where there are young children should be without this Vaporizer. To my own home I found it very beneficial for my little ones with whooping-cough and influenza, also it cannot be overlooked as a valuable disinfectant for fumigating cases of influenza. I am convinced that it can be proved an exceedingly useful assistant wherever treatment may be used in the check and cure of the trying diseases for which it has been specially recommended.

Yours truly in the Salvation War, MRS. BALLINGTON BOUTH.

New York, April 27th, 1894.

Vapo-Cresolene is sold by druggists everywhere. A Vapo-Cresolene cist, including the Vaporizer and Lamp, which should last a life-time, and a bottle of Cresolene, complete, \$1.00; extra supplies of Vapo-Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. VAPOR-CRESOLENE CO., 67 Wall Street, New York, U. S. A.

BEAUTY IS POWER

Dr. Campbell's Safe Hair Cream is the most wonderful preparation for the hair ever known. It keeps the hair from falling out, restores its natural color, and makes it shine and grow like the hair of a young girl.

TINY TIM.

How many of us have spent a delicious hour with Dickens' little "Tiny Tim." He pleased us because he was for ever helping, or ready to help some unfortunate.

Dr. Hope's TINY TABLETS are doing exactly the same thing. They are helping thousands of unfortunate nervous, broken-down people to get strong.

One little TINY TABLET after each meal and before retiring will give you new life. If you feel tired—IT'S NERVES.

Thousands of Babies' lives have been saved by the use of Carter's Peppermint Powders. Doctors recommend them—mothers praise them—babies thrive on them. They're free from poison. 25c a box.

It is quite the fashionable thing now—a three-year-old Ethel. The child, after a glance or two at the newcomer, began to show symptoms of weeping, and a moment or two afterwards burst into such a flood of tears that she had to be taken from the room. Ethel had so bright and sunny a disposition, and so little of the cry-baby about her, that her mother felt justified in hastening after the nurse to know the cause of the unexpected outbreak. When the child was brought back, she was so confident to confide in her mother between her sobs, "I'm so afraid of that boy with the girl's head!"

Wire baskets for cooking potatoes, in the form of birds' nests, are among the novelties that are being introduced. Shredded potatoes are arranged in the larger basket in the form of a bird's nest. The smaller basket, which is filled with small potatoes, is placed in the larger one, and the whole is immersed in hot fat, and when the potatoes are cooked the smaller basket is lifted from the larger, the nest carefully taken from the basket, and the potato balls are then turned into it—as so many eggs. Anything for novelty!

A very stylish though inconspicuous cloak for evening wear is made of a very dark shade of bottle-green cashmere. It is long and buttoned right up the front, and is lined with pale green broad satin—not very expensive, as it costs only 65c per yard. There is a high collar, edged about with fur about five inches wide. The cloak is fitted to the back and tied in to the figure by a ribbon which encircles the waist. There are no sleeves, but the separate pieces which run down the front afford the way to slip the arms in. The front is made of two pieces, each side of the front are little jabots of cachemire sewed on in separate pieces, which are simply bias pieces about a quarter of a yard wide, edged with black fur like that round the collar. For warmth there is a very light color. For smartness there is a very light color, and a bit of fancy interlining just across the shoulders behind and over the bust in front.

A bow worn directly over the bust is again in vogue, declares the oracle of fashion. There are many dainty accessories forming collar and cuffs, such as ribbon bows, and for which tulle of a soft fish is preferred. Once and a half is sufficiently full for a ribbon ruff; twice as full is the allowance for a tiny ruff, and five times as full is the space to which the trimming is applied in the allowance for a rose quill, which sometimes finishes the trained edge of a satin wedding frock, and is often used to trim the neck of a center wrap. A ribbon of half an inch wide, laid in triple box plait and stitched through the middle, twice, in close rows. The outer edges, top and bottom, of the center wrap are finished with a ribbon of half an inch wide, laid in triple box plait and stitched through the middle, twice, in close rows. One is not surprised to hear that it was a little Boston girl who gave so admirable a definition of a dote. Her family had been drifting through the Berkshire Hills when they were invited by friends to remain for lunch. Soon after they were all seated at the table, Mr. Clarendon, a guest in the house, a man of curling locks parted in the middle, appeared and took his accustomed seat, which happened to be just opposite the high chair occupied by the

SIGN TOKEN OF RUDYARD KIPLING.

The True Story of Its Romantic Origin - Investigations by the Globe Kipling Club Unfold a Story of Marvelous Interest.

The origin of Rudyard Kipling's sign token (see page 8) is not generally known outside of India. To see the mystic sign on the title page of a book means that the reader will be delighted beyond measure by what it means beyond that—its intrinsic significance is another story.

Mr. Kipling himself has the token engraved in an emerald signet ring, and his private letters bear the unmistakable sign of the mystic sign on the title page of a book means that the reader will be delighted beyond measure by what it means beyond that—its intrinsic significance is another story.

It is a story of a Thibetan theosophic circle. The truth of the matter is that Mr. Kipling got the mysterious sign in the east, and not for the first time. The origin may be had in the story of "The Man Who Would Be King"—the thrilling tale of a venture which has penetrated far into the hills of Afghanistan and found a tribe of white men with blue eyes and faxen hair. The Irishman found them, but that none of them had gone beyond the third degree. Being a thirty-third degree Freemason, he introduced the tribe to some of the higher branches of the order, and became King, as he is in the story, when he set out from India.

One day there was a crisis; the heathen rebelled against the King's arrogance, and he was in a fair way to be shortened by the hand of a native. He happened to be in the temple of a one-eyed god at the time, and was sitting on the god's pedestal. Just as things were growing warm, he overturned the pedestal, and there, graven in stone, was the mysterious Masonic token which Mr. Kipling uses as a sign manual. The Irishman happened to have his signet ring studded on his arm, and he saved his own life and authority.

In after times he was deposed and killed, and the comrades who had accompanied him fled to the country after incredible adventures. It seems particularly fitting that the sign which saved "The Man Who Would Be King" is now used by the man who is King in prose and verse throughout the English-speaking world.

Grand Tour of Mexico. On Feb. 14, 1900, the Wabash Railroad Company will run a personally conducted and select party of fifty people for a 30-day tour through old Mexico. This will be by far the grandest and most comprehensive tour ever run by any railroad in America. It will be a chance of your life to visit this ancient land of the Montezumas. Every point of interest will be seen in this country, consisting of dining cars, sleepers, observation cars and baggage cars, built especially for this trip. The route will be over ten thousand miles of travel. Full particulars of this wonderful trip from J. A. Richardson, District Passenger Agent, 100 Front Street, King and Yonge-streets, Toronto.

S. Ackerman, commercial traveler, Belle Isle, writes: "Some years ago I used Dr. Thomas' Peppermint Oil for inflammatory Rheumatism, and three bottles effected a complete cure. As the whole of my summer is unable to move without crutches, and every movement is attended with pain, I am now out on the road and have possessed all kinds of weather, but have never been troubled with rheumatism since. I, however, keep a bottle of Dr. Thomas' Oil on hand, and always recommend it to others, as it did so much for me."
