NEW ELECTION LAW BEFORE HOUSE... Hon. Mr. Aylesworth Advances Explanations Which Borden Ridicules

Hon. Mr. Aylesworth Advances Explanations Which Borden Ridicules

OTTAWA, May 5.—(Special)—Sir Wilfrid Laurier to-day made his promised announcement as to government measures yet to be introduced this session. First, there is the civil service bill, which, he said, would be introduced next week. There were also bills to provide for the extension of the boundaries of Manitoba; to amend the Manitoba Grain Inspection Act; to amend the Lands Act; respecting aid to railway construction, including the Hudson Bay Railway; relating to adjudication; to Chinese immigration; to make the Yukon council wholly elective, and to amend the customs Act

Mr. Aylesworth devoted two hours to the first clause, providing for preparation of new voters' lists in Manitoba and British Columbia. His main argument was that such a measure is absolutely necessary owing to the overlapping of federal and provincial constituencies

Mr. Aylesworth explained that the Dominion might be divided, said Mr. Aylesworth, "for purposes of describing the system of preparing lists, but a division of the Dominion into two parts, East of the Ontario-Manitoba line, East of that line voters' lists are prepared on the basis of municipal assessment rolls; and West of that line, voters' lists are prepared on the basis of provincial assessment rolls" The first clause was designed to deal with difficulties which had arisen under the latter system

The labor party have called a convention and may enter a candidate. It is stated that tenders for the transmission lines for the government power service will be called before June 1

More Argument For Suburban Service... The World picked up a lot more information yesterday in regard to a suburban train service for Toronto. The Grand Trunk claims that inasmuch as it gives a few commutation tickets on some of its regular trains it gives a suburban service

Editor World: The citizens of the town of Whitby are with you to a man in your campaign for better suburban railway service. There are 200 or more ex-residents of this town now living in Toronto, who would gladly spend three months of the year in the old home town if any reasonable inducements were given them. But the railway fare is prohibitive. We have boats running from here to Toronto in the summer for 50 cents the round trip. They are always crowded, showing that the people would patronize the G.T.R. if the inducement was great enough. Why should Whitby be discriminated against as compared with Rosebank for instance? Rosebank has had special favors from the G.T.R. for ten years. When is the line of favor to be extended as far as Whitby. Just twelve miles further on? John Hamer, Whitby, May 5

SECOND BLOW FOR ASQUITH... Wolverhampton Majority is Cut From 2865 to 8

LONDON, May 5.—The declining popularity of the present government was again revealed by the result of the by-election in Wolverhampton East to replace Sir Henry Fowler, who, as Viscount Wolverhampton, took his seat in the house of lords. The Liberals retained the seat in the commons, but by a bare majority of eight, as against the Conservatives

McEVROY IN LONDON... BARRISTER IS CHOICE OF LIBERALS TO OPPOSE BECK. LONDON, May 5.—(Special)—John M. McEvoy, barrister, was nominated by the Liberals to-night to oppose Hon. Adam Beck. Harry Fowler contested for the nomination, but was defeated

WILL LOSE NO TIME... It is stated that tenders for the transmission lines for the government power service will be called before June 1

BULGARIANS RUN AWAY TO AVOID DEPORTATION... Some Lively Scenes in the Colony on Easter Avenue, When Police and Immigration Officials Begin to Weed Them Out

A merry chase after Bulgarians took place in the city yesterday, when E. Blake Robertson, assistant superintendent of immigration, began his roundup of those who are to be deported. Mr. Robertson is after all those who have been living at the expense of the city, especially those who have been getting their meals at the House of Industry. He had five immigration officials assisting and also the co-operation of Joseph Thompson, commissioner of industries, and the police of No. 4 division

MEAL TICKETS THE CLUE... Mr. Robertson began operations at the House of Industry, where he took note and examined the passport of each foreigner applying for meals. When the list was made up he and his assistants started out after the men. Finding them was not an easy matter, as none of them were anxious to make the trip back. None of them, however, put up anything more than an argument, which was noisy, but not dangerous

FOUND HIDDEN IN TREE... Soon after the fire it was suspected that Ray Lamphere, a farm laborer, knew something of it, and a search was made for him, resulting in his arrest the same evening in the woods near here. He had concealed himself in the trunk of a hollow tree. HELDGREN HAD MONEY... Andrew Heldgren, who was a well-dressed young man from Aberdeen, S. D., appeared in town one day last winter with Mrs. Gunnes and called at the clothing bank. He had with him a draft for \$250, which he wished to cash. The bank did not know the man and it would not accept Mrs. Gunnes' endorsement for so large an amount, and so the draft was left there for collection. It was drawn on a bank in Aberdeen, S. D. in a few days the money for the draft came. Apparently this money was turned over by Heldgren to Mrs. Gunnes, said

IMPLICATED IN HALF-A-DOZEN MURDERS... Man Charged With the Slaying of a Family of Four—Two Other Bodies Lately Dug Up

ONE WAS WOMAN LIKELY MURDERESS... LAPORTE, Ind., May 5.—One of the most gruesome murder mysteries ever unearthed in this state came to light to-night, when the bodies of five persons, all of whom were murdered, were found in the yard of Mrs. Belle Gunnes, who, with three of her children, was hurried to death on the night of April 23, last

When Heldgren was here Mrs. Gunnes was trying to make a loan from a local bank. Heldgren offered to lend her the money. Early in January she borrowed \$1500 from him, just before that Heldgren had drawn from Aberdeen thru a local bank \$3000. Disembodied Body Found... When news of the death of the Gunnes home was received by John Heldgren, he started for this city to investigate the disappearance of his brother, Andrew Heldgren, from his apartment in this city. He was supposed to have started on a trip to Norway and Sweden

My! How Toronto is Growing!

Thirty years ago the population of Toronto was only 71,000. To-day it is over 350,000, an increase of 279,000. If this rate of increase keeps up in another 30 years Toronto will have a population of one million people. That should encourage investors. Thirty years ago the present popular residential centres were considered away out in the wilderness, and could then have been purchased by the ACRE for what is being paid now by the FOOT. A few fair-figured investors, who had faith in Toronto's irrestible onward march, invested and are now reaping the reward. The same conditions exist to-day. Suburban properties are offered at low prices, which will in the very near future realize extravagant prices to the investor. Toronto MUST extend her borders. The finest block of land in the market to-day is the old Dutch Farm, south of Danforth-avenue, and known as Lindenhurst. This magnificent block of some 60 acres is laid out and subdivided into building lots, 100 of which on Linden-avenue will be sold at the warehouses of Charles M. Henderson & Co., 88 King-street East, on Saturday, 6th inst., at 3 o'clock in the afternoon, and at 8 o'clock in the evening, to accommodate those who cannot attend in the afternoon. No finer or more convenient location for a suburban town can be found. The Grand trunk has a station at the Golf Club grounds, now Lindenhurst, 10 minutes from Union Station, or by Queen-street cars to Coxwell-avenue, or Gerrard-street cars to Greenwood-avenue. Intending purchasers should not fail to attend this sale, as such an opportunity may not again occur.

Lindenhurst as a residential centre is unsurpassed; it is the most elevated land around Toronto; the soil is sandy and dry; the outlook is magnificent, overlooking the beautiful golf grounds and Lake Ontario. Standing on the grounds, the city half clock is plainly discernible.

Workingmen, now is your chance to secure what you have been looking for—a splendid building lot, which will increase in value rapidly. Be on hand on Saturday afternoon at Henderson's Auction Rooms, or in the evening at 8 o'clock Charles Henderson & Co., Auctioneers.

BUILD UP THE PASSENGER TRAFFIC. At the meeting of the Grand Trunk shareholders in England the other day, considerable dissatisfaction was expressed with the management of the road, and at the lack of dividends on some of the securities.

The World trusts that Mr. Hays will have time to give a little more attention to the actual condition of passenger traffic in Ontario, and to the possibility of greatly increased revenue from it, by a revised and more progressive policy.

THE GRAND TRUNK PACIFIC. There may be two sides to the story of the Grand Trunk Pacific, but Sir Wilfrid Laurier has made it clear that the government intend to build the route from Winnipeg east on the northern line already approved, and that it will go clear thru to Moncton in N.B. Brunswick.

Nobody has yet authoritatively said that such a northern line will be impossible, and there is a good deal to be said about its being, not only the shortest route, but that it will open up a great stretch of valuable mining, lumber and farming land.

We can imagine at the same time that the Grand Trunk might like to make Fort William its eastern terminal for a while and later on after it effects a junction with the Ontario and Temiskaming line to connect up with the Grand Trunk's eastern system at North Bay and thence on to Montreal and St. Lawrence.

OF INTEREST TO HOUSEHOLDERS. Toronto householders are convinced that there is something radically wrong in the prices of meats, and more particularly in the prices of hog products. Two years ago, when hogs sold on the Toronto market at 7.25c a pound, live weight, bacon and ham prices were very little, if indeed any, higher than they are to-day, yet hog prices are now more than 1c a pound lower than they were then.

Mr. Ryan stated were built with bonds, the former getting in addition a grant worth \$20,000,000. Charges of this kind have been frequently made, and as often denounced as without foundation. But Thomas F. Ryan is not an outsider nor is his statement open to challenge because he is not a "business man" nor to ridicule because he is a "demagogue" or a "crank".

Another peculiar phase of the Canadian bacon and ham market is that the Canadian packers have prided themselves for many years on holding the highest reputation in the British markets, there are actually English exporters to-day shipping British-cured bacon and ham into Canada and obtaining for them even higher prices than our own rates.

Public Services and Watered Stocks. In his examination on oath last month before the New York grand jury during the course of the investigation into the affairs of the Metropolitan Street Railway, Mr. Thomas F. Ryan testified that 95 per cent. of the stock of all railroad corporations in the United States never cost a dollar.

How to Write Retail Advertising Copy

BY HERBERT KAUFMAN.

A skilled layer of mosaics works with small fragments of stone—they fit into more places than the larger chunks. The skilled advertiser works with small words—they fit into more minds than big phrases.

The simpler the language the greater certainty that it will be understood by the least intelligent reader. The construction engineer plans his roadbed where there is a minimum of grade—he works along the lines of least resistance.

The advertisement which runs into mountainous style is badly surveyed—all minds are not built for high level thinking.

Advertising must be simple. When it is tricked out with the jewelry and the silks of literary expression it looks as much out of place as a ball dress at the breakfast table!

The buying public is only interested in facts. People read advertisements to find out what you have to sell.

The advertiser who can fire the most facts in the shortest time gets the most returns. Blank cartridges make noise, but they do not hit—blank talk, however clever, is only wasted space.

You force your salesman to keep to solid facts—you don't allow them to sell muslin with quotations from Omar or trousers with excerpts from Marie Corelli. You must not tolerate in your printed selling talk anything that you are not willing to countenance in personal salesmanship.

Cut out clever phrases if they are inserted to the sacrifice of clear explanations—write copy as you talk. Only be more brief. Publicity is costlier than conversation—ranging in price downward from \$6.00 a line, talk is not cheap, but the most expensive commodity in the world.

Sketch in your ad to the stenographer. Then you will be so busy "saying it" that you will not have time to bother about the gewgaws of writing. Afterwards take the typewritten manuscript and cut out every word and every line that can be erased without omitting an important detail. What remains in the end is all that really counted in the beginning.

Cultivate brevity and simplicity. "Savon Francais" may look smarter, but more people will understand "French Soap." Sir Isaac Newton's explanation of gravitation covers six pages, but the schoolboy's terse and homely "What goes up must come down" clinches the whole thing in six words.

Indefinite talk wastes space. It is not 100 per cent. productive. The copy that omits prices sacrifices half its pulling power—it has a tendency to bring lookers instead of buyers. It often creates false impressions. Some people are bound to conceive the idea that the goods are higher priced than in reality—others, by the same token, are just as likely to infer that the prices are lower and go away thinking that you have exaggerated your statements.

The reader must be searched out by the copy. Big space is cheap, because it doesn't waste a single eye. Publicity must be on the offensive. There are far too many advertisers who keep their lights on their bushel—the average citizen hasn't time to overturn your bushel.

Small space is expensive. Like a one-flake snowstorm, there is not enough of it to lay.

Space is a comparative matter after all. It is not a case of how much is used as how it is used. The passengers on the limited express may realize that Jones has tacked a 12-inch shingle on every post and fence for a stretch of five miles, but they are going too fast to make out what the shingles say, yet the two feet letters of Brown's big bulletin board on top of the hill leap at them before they have a chance to dodge it. And at that doesn't cost nearly so much as the sum total of Jones' dinky display.

Just so one ad, well written and attractively displayed continuously every day or every other day for a year in one big newspaper, will find the eye of every reader, no matter how rapidly they may be "going" thru the advertising pages, and produce more results than a dozen piking pieces of copy scattered thru half a dozen dailies.

P.S.—Talk No. 13 will appear in The World on Saturday, May 9.

and charges levied from the people whose are the franchisees that were given in trust for public uses. Public ownership and operation of franchises is the only efficient means of providing the community with services and utilities free from stock watering, and on the basis of legitimate capitalization.

THE DON ESPLANADE TRACKS. Editor World: Before the Canadian Northern completes its track down the Don Esplanade why should not the city of the railway commission compel the three roads, Grand Trunk (East Line), Canadian Pacific, and Canadian Northern to consolidate the three tracks into one system, making a north track in common to the three, south track the same, and the third pair of rails for a common siding track? There could also be a common or little union station at the Queen-street bridge.

Had Palpitation of the Heart EVER SINCE SHE WAS NINE YEARS OLD. MILBURN'S HEART AND NERVE PILLS EFFECTED A COMPLETE CURE. If you find your health falling, your food apparently doing you no good, your heart beating irregularly—now slow, now fast—skipping a beat now and then, palpitations or throbbings on the slightest excitement or exertion, pain in the region of the heart, face pale, dizzy and faint spells, these all point to heart weakness, to nerve derangement, to a state of health consequent upon those which, if not corrected and cured by Milburn's Heart and Nerve Pills, will surely end in utter prostration and hopeless invalidism.

From the depths many have been raised by this remarkable remedy, as its power beyond all question most marvellous; but, why wait until you have gone so far? Taking these pills now will turn you upon a perilous path of sickness and put you on the highway to health. Miss Mary Wilson, Toronto, Ont., writes: "It is with the greatest of pleasure that I recommend Milburn's Heart and Nerve Pills. Ever since I was nine years of age I have been afflicted with palpitation of the heart, pain in my side and nervousness. As I grew older it kept increasing. After having tried numerous doctors medicines, but to no avail, I was induced to try your pills, and after using several boxes I began to improve, so kept on taking them for some time until now I can truthfully say I am in perfect health."

To Set Aside Will. A dispute has arisen over the will of the late William Chalmers Smith. Proceedings have been begun by James Austin Smith, Elizabeth Smith, Martha Hart Smith and Agnes Chalmers Smith against Charles Gordon Smith, the executor of the will, to have it set aside on the ground that the will in question is not the last will, and that it was obtained by undue influence and that the deceased was not at the time of making the will competent to do so.

Wants Possession of Property. Grace Wethers is applying to the court for the possession of the premises at 45 Woodbine Beach, and also to have an account taken to ascertain the amount, if any, owing by George Englewood to her.

Made a Survey. C. H. Fullerton of New Liskeard claims the survey system claims, prepared plans and field notes for Howes, Gibson & Co. for which he ought to be paid \$600. He is now seeking by a writ of summons to recover the amount.

Came to an Agreement. The action brought by Mrs. Jennie Stone against her husband, Richard Stone, for the possession of the Morin city or the railway commission, has been settled. Upon consent an order was obtained from the court dismissing the action without costs.

Due on Promissory Note. The Ontario Accident Insurance Co. are defendants in an action brought by the Dominion of Canada Guarantee Accident Insurance Co. against the \$492.82, the amount alleged to be due in respect of certain premiums on insurance.

Refused to Answer. Judge Britton refused the motion to commit Secretary Potts of the Cobalt Development Co., Toronto, for refusing to answer any questions after being sworn, on a ground that the petitioner was not a creditor, an action being pending to try the issue as to whether the petitioner is one.

Overdue Note. An overdue promissory note for \$870 is now the subject of an action brought by the Metropolitan Bank against H. Meighen and E. Sperley of the Township of Markham.

For Goods sold and delivered by the George Taylor Hardware Co. to Howes, Gibson & Co. and others, amounting to \$250.15, a writ of summons has been issued to recover the amount.

Supreme Court Decisions. Owing to the absence of Sir Charles Fitzpatrick, due to illness, Sir Louis Davies was acting chief justice in the Supreme Court of Ottawa, yesterday. The following judgments were rendered: Quebec Railway Light and Power Co. v. Baptiste—Appeal dismissed with costs, Davies dissenting.

Meighen v. Pacaud—Appeal dismissed with costs. Lennan dissenting. The King v. Armstrong (exchequer appeal)—Appeal dismissed with costs, C.P.R. v. Hansen—Appeal dismissed with costs.

Marks v. Marks—Appeal dismissed with costs, Davies and MacLennan dissenting. Wilcox—Appeal allowed with costs. Divisional court judgments: Wilson v. Davies—Appeal dismissed with costs.

Wabash Railway Co. v. McKay—Appeal dismissed with costs. There are 48 appeals inscribed for hearing and the Quebec appeals should go to the foot of the list.

Does Legacy Cancel Debt. If a man owes \$800 and has given his note for it, and then when he dies leaves the man \$900 in his will, is the second party entitled to receive the amount of the legacy and collect on the note? This question arises out of a motion by E. F. Weatherill, a farmer of Durham County, who is suing the executors of his father's estate. He asks \$1800 from the estate, and the executors say the legacy is intended to annul the note.

This terrible disease first broke out on the side of her head in the form of a red rash and pimples which, if rubbed or scratched sent forth a watery substance, and which later spread to the back of her head, joints of her arms and back of her legs."

NEW ELECTION LAW

Continued From Page 1. Its law, requiring that registration must take place annually, thus declaring the Dominion act no longer applicable. The Manitoba lists of 1903 were prepared without any idea that the reversal of the law would be made.

REALLY A SWELLY TIME IN PICKING DELEGATES. Second Ward Conservatives Made a Noise Captain Crawford is President No More.

All was not lovely at Prospect Hall last night on the occasion of the meeting of delegates to the Second Ward Toronto Convention by the Second Ward Conservative Association. In fact, pandemonium ruled during the greater part of the proceedings.

What Does He Know? All Mr. Aylesworth could say was that if statements made to him were correct there were hundreds of voters in Manitoba who were not registered.

What the government proposed was that in 30 days after proclamation officials were to be appointed, and lists made out in Toronto, and printed. The proposition was absurd.

The minister of justice had said that if this bill passed, he would resign. It was impossible to get Conservative candidates to stand in the forthcoming election.

KIDNEY WEAKNESS IN WOMEN. How the back aches, awful pains through the limbs, circles under the eyes, the cure is in the medicine.

PREMIER AT HAMILTON

Continued From Page 1. felt as badly as that about the present government. For the president of The Globe and its friends were both opponents under the Whitney administration. Surely they would not stay and defile themselves by the intrigues of government as bad as had been described.

All But One. The premier then enumerated the promises of the Conservative campaign four years ago and with pride and satisfaction affirmed that the long list had been accomplished, all but law reform, the foundation of which had been laid and the settlement of which would be reached with next session.

He concluded an exhaustive analysis of the finances of the province, demonstrating aggregate surpluses of \$1,656,000, by stating that the government gave back \$98,000 more to the people's pockets than had the Ross government.

Real Money. He described the success of the provincial treasurer's plan for the improvement of Col. Matheson on his clever arrangement. The province had a tangible surplus and they had \$37,000 cashing at call in the T. and N. O. Railway.

When they had something to repair in the houses they did not blow them up or chop them down. The government had gone into the subject carefully and he had no doubt the plan they had adopted would turn out successfully, as all their schemes had.

The Power Question. It would be a long story to go over the Niagara power question, but he wished to say that they did all in their power to give the Electrical Development Co. a chance and because it was a Canadian company they did that.

Trade Ended. It was a difficult and delicate matter to deal with electric machinery, in which new discoveries were coming in so fast and which in 12 months might relegate all existing machinery to the scrap heap.

The Liquor Issue. The premier paid considerable attention to the liquor question. In 1904 the government got \$228,000 for licenses, and in 1905 \$388,000. They had enforced the law without fear or favour and had been found fault with for things done and undone.

In New Ontario. Applause greeted the announcement taken with respect to the mining lands in the agricultural districts. Settlers there could take the mine, all the timber and were entitled to the minerals as well.

He reminded them of the Ross measure of bringing out individuals and whole ridings. The ordinary briber was a tyro in sin compared with the man who bribed a constituency.

BRINDALE, May 5.—(Special.)—Altho the body of the murdered Slavonian youth which was found in David Pack's bush Sunday was identified by two reputable farmers of this neighborhood, who viewed the remains at the post mortem to-day and gave a partial description of the supposed murderer to Detective Miller of the attorney-general's department, the mystery is as deep as ever.

MIMICO.

**Proposal for Local Improvement
Raises Strong Protest.**

MIMICO, May 5.—Ethel Leadham of New Toronto had the misfortune to have brushed at one of the rollers while working at the Reg. N. Boxer Wallpaper Co. Lloyd Warder, B.A., son of Postmaster Warder, died a diphtheria. It is officially reported by the health officer.

Messrs. Warner and Brown attended council meeting yesterday at Islington and presented a largely signed petition against the removal of the York Radial Railway's Mimico switch from its present place. The council, as there was nothing to be done at that time, will deal with the question in the future.

Messrs. Reaveley and Dyer of New Toronto presented a petition for a new sidewalk on St. Andrew street, to be done as a local improvement. Mr. Keith, one of those largely affected by the proposed change, opposed it. The council decided, if the different parties couldn't satisfactorily settle their differences, to obtain legal advice in the matter before answering the petition.

UNIONVILLE.

**Queen's Hotel Achieves Envious
Standing.**

UNIONVILLE, May 5.—The success attained by the Queen's Hotel under the management of the present proprietor, John Hemmingsway, has been from the first of the most gratifying nature. This fact the travelling public are quick to appreciate, and among the commercial men and travelers generally whose business renders their visit here necessary, the "Queen's Hotel" is a synonym for comfort, cleanliness and courtesy. In these degenerate days it is refreshing to find when traveling a hostelry like the "Queen's."

NORTH TORONTO.

**School Board Will Consider Repair
to Buildings.**

NORTH TORONTO, May 5.—A special meeting of the public school board will be held at the town hall on Thursday evening. The chief subject under dispute will be the recommendations of the principals and Inspector Foster regarding the repairs to the different school buildings.

Dr. Jeffs, in his official capacity as medical health officer, completed his inspection of the town this afternoon. In a number of cases, notably all the Chinese laundries in town they report the conditions as most unsatisfactory. The funeral of the late Edward Hines took place yesterday from the resi-

Political Gossip

Laurier respecting the representation of the Irish Catholics of the Dominion in the federal cabinet.

Fred. Stone, barrister of Chatham, who is likely to be the Liberal candidate in the West Kent, is said to have the ridings of preferment for a judgeship in his hand.

Toronto Liberals will contest the eastern riding of both A and B classes, and notices will be issued calling the convention for Monday next in the Odifello's Hall, Broadview-avenue. The question of calling conventions in the other Toronto ridings was also discussed, but no decision reached. They will, however, probably be held next week.

If the Quebec elections are held, as is probable, June 8th, it will mean that about 150 members of the house for ten days, before polling, will be stumping the ridings of the two provinces. How the business at Ottawa is to be carried on during this time is a mystery. It will probably mean that the business of the federal house will be at a standstill.

A large and influential body of Conservatives resident in the riding of Toronto West have obtained the consent of John Laxton, president of the ward six association for the past 18 years, to place his name before the convention as a candidate for the party in class B in the general election for the legislature.

A Brockville special says: The redistribution of the Brockville riding in provincial affairs made it necessary for the Conservative party to organize another association, and a largely attended mass meeting was held here Tuesday afternoon. About four hundred were present, many coming from the new township of Killiey and Elmsley. The principal item of the constitution was the providing for a patronage committee. This was unanimously decided to nominate A. E. Donovan, M.L.A. He was cheered again and again. Mr. Donovan signified his intention of suggesting joint meetings with Liberals.

A Windsor special says: Rumors have reached here that J. A. Tremblay of Tilbury, who was nominated by Liberals to contest North Essex, will not accept. William Price, former warden, is said to be seeking the nomination if Tremblay declines. Adolph Gignac, a disappointed office-seeker, may run as an independent candidate.

At the Conservative convention for South Huron, yesterday H. Eliber, M.L.A., was given the unanimous nomination.

West Lambton temperance enthusiasts have nominated John Cowan of Sarnia for the legislature.

D. M. Jermyn of Warton was nominated by North Bruce Conservatives yesterday for the legislature, defeating Col. Belcher, mayor of Southampton, by 2 votes. Col. Belcher moved that the nomination be made unanimous. Others nominated were H. A. Arran, Mr. Jermyn seemed to attract a certain amount of sympathy from the fact that he had fought two losing campaigns and claimed an opportunity to redeem the riding now that he had the force of the government at his back. Dr. Thomas of Tara was elected president of the association.

North Norfolk Liberals yesterday nominated Col. T. N. Atkinson, M.L.A., for the legislature.
