40TH YEAR—ISSUE NO. 14,391 TWO CENTS

EXPECT ALL VETERAN BODIES IN THE DOMINION OF CANADA WILL DECIDE TO AMALGAMATE

Prominent Officers of Leading Soldier Organizations Attend Great Banquet in Ottawa, and Declare Success Will Only Accompany Unity.

By Canadian Press. Ottawa, April 5.—A unique gathering, which holds every promise of becoming historic, took place at the Chateau Laurier tonight, when representatives of all the chartered returned soldier organizations in Canada sat down to dinner and took the initial step which is hoped to lead to the amalgamation of all the returned soldier bodies of the Dominion.

The members of the delegation which today interviewed the cabinet on the question of cash bonus to returned men, met on amicable terms the members of the Dominion command of the Great War Veterans' Association of Canada. J. Harry Flynn, president of the United Veterans' League, chief advocate of the \$1000 bonus demand, responded to a toast by The Veterans' Entente Cordiale, which was proposed by C. Grant McNeill, Dominion secretary of the G.W.V.A., and they were in absolute accord on the question of the unity of the veterans.

"Unity has been my dream," said Mr. Flynn, "and ever since I have been active in returned soldier work I have urged a one grand organization.

"Wipe out past misunderstandings," urged Mr. McNeill, "bury our personal differences and let us get together on common ground."

These behind unity. The dinner was arranged by a group of Ottawa returned men active in the advocacy of united action on the part of all organizations and Captain D. P. Grant, past president of the Ottawa G.W.V.A., presided. The key-note of the whole proceedings was comradeship and there was manifested a desire to unite all sections into one returned soldier force.

The gathering was of the highest importance, inasmuch as it may lead to the amalgamation of the G.W.V.A., United Veterans' League, the Grand Army of Canada, the Army and Navy Veterans' League, Naval Veterans' League and the Original Club of Toronto, which had been represented. For months past it has been the common belief that these various returned soldier bodies were loggish and high personages have pointed their fingers at the apparent dissension in the ranks of the veterans. But tonight's meeting proved that the dissension was more apparent than real and that the master of general policy there was little fundamental differences between them.

Hopes for a Federation. Captain Grant, who was in the chair, said the opportunity afforded by the presence in Ottawa of the different returned organizations and their representatives had been taken advantage of to hold such a dinner. Some of them had long held the opinion that all the organizations should be united. He hoped this would be the initial step towards a great get-together.

OPERATORS OPPOSE A UNIFORM SCALE

Coal Mine Owners Present Statistics Showing It to Be Impracticable.

New York, April 5.—John L. Lewis, international president of the United Mine Workers, announced tonight that he had taken charge of the interests of the anthracite miners and would attempt to speed up the negotiations of a new wage agreement for the hard coal fields. He said the sub-committee appointed to make a comparison was met this morning and that he is "optimistic that a settlement will be reached."

The mine operators, he added, expected to complete their presentation of statistical data in reply to the miners demands early this week. It is quite probable, he said, that they will then offer counter-proposals and the committee "will get down to business and render definite decisions."

The employers at today's meeting of the committee went on record as being opposed to granting the miners' demand for a uniform wage scale for various occupations in the hard coal fields. They presented statistics and purporting to show the impracticability of granting such a proposal.

The operators also presented further data to refute the operators' data in reply to the earnings of workers in the anthracite fields. The coal diggers have already submitted figures based on the new Pennsylvania compensation commission, in support of their demand for a sixty per cent. wage increase.

After listening to the operators' data to record the committee adjourned until tomorrow.

METHODIST MINISTER IS OFFERED REWARD

Ottawa, April 5.—John N. Burnham, M.P. for Peterboro, in an interview told The Canadian Press this morning that he would give \$25 to the first Methodist minister in good standing who would dare say that when God found Noah drunk, he should have prohibited wine. Methodists are becoming more tolerant than Roman Catholics ever was, he states. No wonder liberty is laughed at in Ontario, concluded Mr. Burnham.

ALLIANCE DELEGATES WILL NOT BE PRESENT

Referendum Committee Will Hold Organization Meeting Today.

"DRY FORCES" ARE DIVIDED

The Dominion Alliance and the referendum committee are drifting further apart, and there seems to be little likelihood of their joining hands over the coming battle for a "bone-dry" Ontario. The Rev. Ben Spence is sticking to his guns, and Dr. Grant, the leader of the referendum forces, is not budging an inch from the position he has taken up in regard to the contentions of the alliance.

Today a meeting of the referendum committee has been called in Willard Hall, when over 100 delegates from over fifty counties of Ontario are expected to be present. The meeting is purely one of organization to prepare for the referendum vote, it was stated yesterday, "other matters" may also be discussed.

On inquiry yesterday, the alliance officials declined to state who would officially attend the referendum meeting. Mr. Spence would make no statement on the matter, but Henry Sutherland, the treasurer, declared that the alliance officials were fully qualified to attend the meeting, but they did so it would be as private individuals and not as alliance representatives.

Defends Mr. Spence. Mr. Sutherland, in defending Mr. Spence's attitude, declared that the attacks made upon him, declared the whole trouble to be found in the fact that Mr. Spence knew more about temperance than all the rest of the others put together. While terming the attacks on Mr. Spence as "low, mean and dirty," Mr. Sutherland declared "they are all jealous of Mr. Spence's wider knowledge and experience."

Strength of Native Wine. The question of native wine and its percentage of proof spirits is still a very active one between the contending factions in temperance circles. Mr. Spence declares Dr. McGill, the Dominion analyst, in his report on the Niagara Falls Wine Company, found the wine to contain 38 per cent. maximum, and 16 per cent. minimum of proof spirits.

On this point Dr. Grant refuses to waver. He calls Mr. Spence's arguments in regard to native wine and clearing the ground, mere camouflage. The doctor declares he has higher authority than Mr. Spence for the stand he is making. The referendum committee tried to get native wine barred out from sale, but the government some time back, retracted the request, said Dr. Grant yesterday. "It is not an important matter anyhow," continued the doctor, "and instead of knocking the government for the legislation it has given us, we should be thankful to it for the most advanced federal temperance measure yet passed. This native wine measure can be dealt with later, if necessary. The referendum is the question of the moment."

SEVEN ASSOCIATIONS OF RETURNED MEN URGE A CASH BONUS

Joint Delegation Waits on Government—Told Flat Gratuity Not in Favor.

FINAL ANSWER LATER

Ottawa, April 5.—(By Canadian Press.)—With a policeman guarding the entrance, the government today received a delegation of returned men in favor of the Flynn scheme of a cash bonus running from \$1000 to \$2000, but J. Harry Flynn himself was not present. He accompanied the delegation almost to the door of the premier's office, but did not enter. He had previously been notified by Sir George Foster, acting premier, so Mr. Flynn informed a Canadian Press representative, that while the government would be pleased to receive the delegation, he himself would not be received, "for reasons which will be evident to you."

"In reply," Mr. Flynn added, "I have sent a challenge to Sir George Foster, inviting him to resign his seat in North Toronto, and informing him that if he will do that I will contest it against him. The result will tell who has the approval of the people."

The delegation was representative of seven organizations—United Veterans' League, Grand Army of Canada, His Majesty's Army and Navy Veterans' Association, Naval Veterans' Originals Club, Veterans of France, and American Volunteers with the C. E. F.

The reply of Sir G. Foster, and through they were just a calm discussion of the facts of the case. Each of the associations represented presented, thru its delegate, formal approval of the cash bonus proposal, and afterwards Sir George Foster replied.

JOHNSON LEADS WOOD

Detroit, April 5.—With partial returns from more than half the counties in the state tabulated, United States Senator Hiram Johnson had attained a big lead over Major General Leonard Wood for endorsement as the Republican nominee in yesterday's presidential preference primary. Figures from 446 precincts out of 2421 in the state gave: Johnson 34,670, Wood 18,682.

Harvest Harvest and Governor of Illinois were engaging in a close race for third place, with the figures showing: Lowden 10,012 and Hoover 8,771.

A close race developed in the Democratic column, Herbert Hoover holding a very slim margin over Governor Edward of New Jersey. The figures from 237 precincts showed: Hoover 2,818, Edwards 2,870.

In the incomplete returns the fight for third place on the Democratic ticket was between former Secretary of the Treasury McAdoo and William J. Bryan. McAdoo had 2,165 and Bryan 1,916. Palmer was in the rear with 1824.

EXPLAINS NEED OF RETURNED MEN

Sir A. C. Macdonell Says Pensions and Re-establishment Must Satisfy.

Kingston, Ont., April 5.—(Special.)—"If we want the Canadian soldier to be contented," said Major-General Sir A. C. Macdonell, commandant of the Royal Military College, addressing the Canadian Club at its luncheon today, "we have got to satisfy him with an adequate pension and in his re-establishment. He cannot understand why he cannot have what he considers his harmless amusement of Sunday afternoons. Conditions as they are in Canada just now seem to favor the rich in many things more than they do the poor and the soldier misses his camaraderie, games and club and all that sort of thing. If you take everything and don't substitute something better, it certainly follows that you will find him talking and breeding discontent on corners of the street. This is one of the problems we are vitally interested in and the time to take them up and air them is right now."

General Macdonell said he had often been asked what type of men as a general rule won honors at the front. "My experience was that the honors came to the boy with a good mother," he said.

BOSTON HOUSE PASSES DAYLIGHT SAVING BILL

Boston, April 5.—The house of representatives today passed the daylight saving bill as recently amended by the senate to provide for the plan to become effective the last Sunday in this month. It is expected the bill will be adopted finally by the senate tomorrow, when it will go to the governor.

New Highway to Cross City Along Bloor and Danforth Means Extension of Bloor to the Point Where It Converges With Dundas Street, Five Miles West of City Limits.

It is understood that the Ontario highways department has decided to connect the new system of highways with Danforth and Bloor street, instead of having it pass down the Kingston road to Queen street, to the Hamilton highway. As proposed, the Hamilton highway will follow the Kingston road to Scarborough postoffice, where it will continue along Scarborough avenue "D" to the Danforth road along Danforth road and Danforth concession to Bloor, and along Bloor street, thru the city, over a new high level bridge at the Humber, to Kipling avenue, which is to be commenced in the city limits, then along Kipling to the Dundas road and by this highway to Hamilton. A slight variation to this, which is also proposed, is to continue the new highway along the Kingston road to Danforth extended, and then along the route mentioned above, will give an uninterrupted highway from Montreal to Hamilton and western Ontario.

East of the city limits, the Danforth road will be widened ten feet on each side, giving a total width of eighty-six feet, which is equal to the present width of Danforth avenue. Work will be commenced in the Scarborough section almost immediately, and the engineers hope to complete the work as far east as the Rouge River, eleven miles from Toronto, before next autumn.

FIRE A VOLLEY OVER THE HEADS OF DUBLIN CROWD

Soldiers Faced Hostile Crowd While Making Arrests in a Saloon.

OUTRAGES UNFORESEEN

Dublin, April 5.—Extensive military precautions were taken in and around Dublin and other cities, and the examination of persons entering or leaving was directed at preventing a possible armed revolt. But no such comprehensive plan was known against public offices and barracks as occurred were foreseen.

It has been very quiet today. Until late in the afternoon the absence of soldiers from the streets was conspicuous but at five o'clock a military lorry with armoured soldiers drove up and raided a small saloon known as the "Republican Bar" of O'Connell street, and arrested five men. A hostile crowd soon assembled and sang a Sinn Fein song. The soldiers fired a volley over the heads of the crowd, which did no harm.

The destruction of tax records will greatly embarrass the authorities and delay the collection of the income tax. Most payments were made by the end of March, but in hundreds of cases the tax payers are in arrears, and doubtful and disputed claims remain open, and their clearing up will be postponed.

Nearly one hundred police stations and barracks all over Ireland were demolished. They had, however, been previously abandoned by the government because of the difficulty of the few policemen in charge holding them against attacks by hundreds of armed men.

Sir John Taylor, assistant under-secretary of Dublin Castle, says the number of barracks destroyed is 153, and that their demolition will entail a heavy burden on the tax payers. Warships have arrived in Loughswilly, in the northern part of County Donegal, and are patrolling northern waters.

A report received here from Strabane, County Tyrone, says that during the attack on the police barracks in Donegal one member of the attacking party was killed.

TO INCREASE RATES FROM BRITAIN TO U. S.

London, April 5.—The north Atlantic shipping lines have decided to increase freight rates very substantially from the United Kingdom to North America as from April 1, says The London Times. The decision is attributable to the high level of working expenses and the rise in the price of bunker coal.

The newspaper adds that a message received yesterday gave an intimation that American and other lines may increase passenger rates 10 per cent. owing to additional costs in operation. The present surcharge, however, is to be slightly reduced, and the increase in passenger rates may appear to indicate, says The Times, that provision is being made for a permanent increase in passenger rates.

He was labeled "John Doe" and ordered deported to Italy, whence he came.

Winnipeg Strikers, Convicted on Seditious Conspiracy Charge, Face Justice Metcalfe Today.

Winnipeg, April 5.—The strike leaders convicted on charges of seditious conspiracy and common nuisance on March 27 will appear before Mr. Justice Metcalfe for sentence tomorrow morning at 10 o'clock.

Following the opening of court, counsel for the defence will move for a reserve case to be taken to the court of appeals, and also for the admission to bail of the convicted men pending the decision of the appeal court.

Protests against the imprisonment of the six convicted men, passed at the meeting of the District of Columbia commissioners, who instructed the police to arrest the women after warning them. Captain Doyle and two policemen were sent to the embassy in a patrol wagon and found Mrs. Mary Walker of 222 Vandeventer avenue, Astoria, Long Island, and Miss Maida Carroll of 166 West Twenty-ninth street, New York City, carrying banners on the sidewalk. One banner bore the inscription: "America! Abrogate all treaties with England! The other read: "American women condemn your reign of terror in the Irish republic!"

Captain Doyle informed the banner-bearers that unless they left in 15 minutes they would be arrested under federal statutes, but they refused to depart.

Attacked the Picketers. The women had believed two others nearby police station, along with their banners. After they had been held for half an hour they were released on orders of Mr. Leskey.

The district attorney explained subsequently that the police had acted before Mr. O'Brien had had time to notify his clients of the government's felony punishable by a penitentiary sentence.

Simultaneously Mr. Leskey commiserated his decision to the District of Columbia commissioners, who instructed the police to arrest the women after warning them. DAIRIES WILL REJECT PRODUCERS' PRICES

Manager of City Dairy Says Average of \$3 Per Can for Summer is Exorbitant.

PRODUCERS SEEK INQUIRY

The Toronto Milk and Cream Producers' Association almost unanimously decided at its semi-annual meeting yesterday to ask an average price of \$3 per eight-gallon can of milk delivered at the points of distribution in the city during the summer months. Farmers propose that prices be arranged on a sliding scale ranging from \$3.10 per can, as at present, to a probable \$2.90 for the same quantity in June, when production is cheaper, but with an average rate of \$3 for the six summer months. It is not expected that if this slightly lowered rate goes into effect it will have any effect on the retail market, as 64 cents are contained in each can, and the reduction is only 10c for this quantity. Contrary to expectations, there was little agitation at the meeting to retain the present price.

Exorbitant, Says Dairyman. W. J. Northgrave, general manager of the City Dairy Company, last night scoffed at the idea of paying any such price for milk in the summer months as that asked by the Milk and Cream Producers' Association. He declared that this association controls only about one-fifth of the Toronto trade and that the dairies would boycott its members rather than pay exorbitant prices. Mr. Northgrave predicted that producers would lose a sale for their milk rather than lose a sale for their milk. He stated to The World that in New York the present price is \$2.56 per cwt, while here it is \$3.10 for 8 1/2 lbs. the execution of which cannot be deferred. The sole object of these measures is to bring Germany to a due respect of the treaty; they are exclusively of a coercive and precautionary character.

Millerand Turns Deaf Ear. Dr. Geopfert, president of the German peace commission, called on Premier Millerand this evening, with the object of trying once more to persuade him as to the character of the German operations in the Ruhr, which is presented now in German circles, will be invited, within a week, and seek to persuade the premier to forego application of the guarantee measures.

Dr. Geopfert, however, it is understood, made no impression on M. Millerand. General Nollet, chief of the French military mission in Berlin, who saw the premier leaving for Berlin, declared that the Reichwehr were altogether out of proportion to their supposed task. Besides, far from quitting the neutral zone, they were pursuing the struggle with ardor against the workmen, and were being concentrated in strong force. Thus, said General Nollet, a division quartered at Muenster, of 14 battalions, four squadrons and 18 batteries, has begun to penetrate the forbidden zone 50 kilometers from the Rhine.

The views of the allies are not yet known—the various premiers are on vacation and have not answered M. Millerand's telegram. The French premier, however, has not yet conferred with Sir George Graham, charge of the British embassy in Lord Derby's absence.

U.S. Government Puts Stop To Picketing British Embassy

Washington, April 5.—The federal government moved today to put an end to the picketing of the British embassy, which was renewed this morning by women sympathizers with the movement for an Irish republic.

A United States District Attorney Leskey informed Matthew O'Brien, counsel for the women, that if his clients persisted they would be prosecuted under a federal statute, which makes the offering of an insult to a diplomatic representative of a foreign government a criminal offense.

Government Issues Note Explanatory of Attitude—German Military Intervention Uncalled For—If Disarmament Clauses Had Been Carried Out, There Would Have Been No Revolution.

Paris, April 5.—The attitude of the French government in the present crisis is defined and explained in a note issued tonight. After reiterating that the government has no hostile designs toward Germany, desiring on the contrary the resumption of normal relations with that country and expressing realization of the difficult situation of the Berlin government, the note declares that the German government has given way to pressure by the militarist party, not fearing solemn stipulations of the Versailles treaty.

The note continues: "The sequence of facts follows: The first request for permission for the entry of extra troops into the Ruhr district was made by the military authorities on March 15. It was renewed from Berlin on March 17 in the name of the legitimate government by Von Haniel, who had remained in Berlin with the consent, at least implied, of the insurgent government."

"All information from the allied missions, and again on May 1st, yesterday, from the high commissioner at Coblenz, does not cease to show that the situation created by the military authorities on March 15, it was renewed from Berlin on March 17 in the name of the legitimate government by Von Haniel, who had remained in Berlin with the consent, at least implied, of the insurgent government."

The note then points out that if the German government had carried out the disarmament clauses of the treaty there would have been neither the Kapp insurrection nor an army in the Ruhr and, as a result, the situation of the Ruhr would not have been as serious as it is today. It is an indispensable safety clause of article 1 of the Franco-Anglo-American ultimatum, designed as a "casus foederis," those who are insufficient to assure the protection of France. It concludes: "The abrupt offensive of the German troops in the Ruhr obliges the French government today to consider military measures, the execution of which cannot be deferred. The sole object of these measures is to bring Germany to a due respect of the treaty; they are exclusively of a coercive and precautionary character."

Millerand Turns Deaf Ear. Dr. Geopfert, president of the German peace commission, called on Premier Millerand this evening, with the object of trying once more to persuade him as to the character of the German operations in the Ruhr, which is presented now in German circles, will be invited, within a week, and seek to persuade the premier to forego application of the guarantee measures.

The American army authorities are keeping in close touch with all developments for information, but their direction is in the hands of Washington.

LOSE 200 MEN KILLED
German Troops in Fresh Fighting in the Ruhr District.

Berlin, April 5.—The government forces have lost 200 men killed in fresh fighting in the triangle formed by Duisburg, Dortmund and Essen, according to official information given the correspondent this morning. Except in this triangle, fighting gradually is being restored in the Ruhr district. It is estimated that at least two weeks will elapse before conditions are normal. The assertion was made today that the military employed in the Ruhr region, with the exception of a few additional battalions, does not exceed the force authorized by the peace treaty and that these troops will be withdrawn as soon as order is restored. It is declared that the entente up to the present has expressed no opposition to the government's military measures in the Ruhr region, although the French have continued their attitude of protest.

INDUSTRIAL CRISIS
OVER IN DENMARK
Agreement on Settlement Reached at Meeting of Employers and Workers.

Copenhagen, April 5.—The agreement for a settlement of the industrial crisis was reached at an early hour today at a conference between representatives of the employers and workers. Later a general meeting of the representatives of the labor unions decided to call off the general strike.

The Social Democrats, commenting on the settlement, says that King Christian was compelled to bow to the firm will of the people, and it declares the road now is clear for the democratization and socialization of the state. None of the bourgeois papers appeared this morning.

The first act of the new ministry was to comply with the socialist demand that general amnesty be granted all political offenders now in prison.

The official list of the new cabinet, made public today, is as follows: M. Friis, premier and minister of defence; Oscar Scavenius, minister of foreign affairs; M. Somme, minister of agriculture; H. P. Prior, minister of trade; M. Vedel, minister of the interior; M. Schroeder, minister of justice; M. Kofoed, minister of finance; M. Jensen, minister of labor; M. Pedersen, minister of education; M. Riis-Jensen, minister of communications; M. Ammentorp, minister of worship.

The ministry is purely provisional, and, according to the Social Democrats, is composed exclusively of men opposed to the king's recent action in dismissing the cabinet of M. Zahle.

M. Scavenius is a relative of former Foreign Minister Erik de Scavenius.

Copenhagen, April 5.—An encounter, resulting in a number of casualties in wounded, occurred today outside the foreign office, between extreme Socialists and the police. A police motor car was overturned and two policemen were badly beaten. Revolver wounds were sustained by a few of the demonstrators.

This is virtually the only instance so far of apparently premeditated violence during the crisis here.

TURKISH PREMIER
TOO NATIONALIST
Resigned Because He Refused to Discourage Nationalist Activities of Nationalists.

Constantinople, April 5.—Announcement was made today that the resignation of the cabinet of Sali Pasha, and the designation of Damad Ferid Pasha by the sultan to form a new government was caused by the refusal of Sali Pasha to renounce his Nationalist principles and declare the forces of Mustafa Kemal, the Nationalist leader, revolutionary, and insurrection against the Constantinople authorities.

The sultan, it is said, is undoubtedly against the Nationalist forces and their demands, and the new cabinet probably will be composed chiefly of members of the Liberal party, which is willing to accept any peace terms, in the hope of retaining the sultan in Constantinople.

The Nationalists are seizing the funds of the Ottoman National Bank branches thruout Anatolia.

GERMAN REFUGEES

Geneva, April 5.—Thousands of German refugees, the majority of them wealthy, are gathering on the northern Swiss frontier and unsuccessfully demanding entrance into Switzerland.

The refugees declare they consider the occupation of Frankfurt and other southern German cities by the allies a question of only a few days, and, therefore, are anxious to leave Germany.

Hamilton, Ont., April 5.—Sam Prince, who escaped from Barton Street Jail about a week ago, has been captured by Constables Buckett and Curtis. As the officers were aiding in the raiding of a house on West Barton street, they were given a "tip" as to where they might put their hands upon Sam Prince. They immediately investigated, and in a rear of a house on Greig street. In the kitchen they saw Prince, sitting quietly, suspecting nothing. P.C. Buckett quietly stepped forward, and he and P.C. Curtis pounced upon Prince and handcuffed him before he realized that his days of freedom were done. Appears in Police Court.

In police court this morning, Prince faced charges of breaking jail and stealing from Connor Bros. jewelry store, South Locke street. He pleaded not guilty and was committed to the magistrate. The crown requested a remand of one day and the case was laid over till Tuesday.

He was remanded for a week to enable the crown to get the necessary evidence against him, and the delay he made his escape from the jail by climbing the twenty-foot stone wall around the exercise yard.

Members Decline to Sacrifice President in Interest of Peace.

Owing to some cause unexplained, several officials and members of the executive connected with the Danforth Poultry Association resigned in a body, and the vacancies were filled at the regular monthly meeting held in Playter's Hall, Danforth avenue, last night.

Nelson M. Brimston, president who occupied the chair, in reviewing the situation, stated that he was a member of the organization from its inception, seven years ago, and thought that the resignations of the officers who were mostly chartered members and always good workers for the association, might have caused the resignation of himself as president, and his management of the association's affairs.

"I have always worked to the best of my ability for the association's benefit, and rather than that the officials should be lost to the organization, I will tender my resignation," said Mr. Brimston, who forthwith handed his resignation in writing to the secretary.

A somewhat lengthy discussion ensued in which several members took part. J. Sheppard pointed out that in his 20 years' experience in various poultry associations, dissensions were the cause of many of the best poultrymen resigning their memberships. "Five years is practically the life of any active official in a poultry association," declared Mr. Sheppard.

Mr. Brimston's resignation was eventually refused by a majority vote of the association.

The following officers were elected to fill the vacant offices: J. Pantling, first vice-president; W. Tobin, second vice-president. Six members were elected to the vacant offices on the executive committee.

The report of the annual show held last November was submitted by the show secretary, Roy McLaugherty, receipts were \$571.70, with expenditures of \$325.05, leaving a balance on hand of \$246.65. It was decided to submit the report to the auditors for approval. It was also decided to hold a show of eggs, White, light and dark brown and bantams at the May meeting.

MARKHAM IN DARKNESS
HYDRO WIRE BROKE

Easter Made Disagreeable by Wind, Slush and Rain.

Those Markhamites who were fortunate enough to have new Easter hats last Sunday decided to either go to Florida or else wait here and re-box their bonnets for the time being and pray for more elements weather. The cause was an unhappy combination of snow, wind, rain, slush and darkness, the latter caused by a break in a ground wire of the newly-constructed Hydro power line to the village, which has only supplied light for four days.

The storm started out like a belated January blizzard and three inches of snow fell in as many hours. Rain followed the snow and the more religiously inclined part of the village returned home from the Easter services thru three inches of slush and darkness.

The Hydro electricians were informed of the disconnection and the break was located and repaired yesterday afternoon. All complaints regarding the coming of the twenty-four hour service as a great boon, as power from the local generating plant was formerly turned off at 11 p.m. and the electric fire control used by housewives during two afternoons a week. The only complaint in the new service is occasioned by a slight flicker in the light which is very noticeable at times. It is in the present time the Hydro supplies 105 volts whereas the old plan was capable of producing 115 volts. However, according to Hydro authorities, this difference will be made up shortly.

BATTLE THURSDAY
ON PEACE MOTION

Democrat and Republican Members of U. S. House Are Rounding Up Forces.

Washington, April 5.—Republican and Democratic leaders of the house began rounding up their forces today for the big fight Thursday over the joint resolution put forward by Republicans declaring the war with Germany ended. Telegrams were sent to absent members of both parties to return here in time to vote on the resolution Friday.

While the Democrats are expected to vote almost solidly against it, it will have solid Republican support. Its passage by the senate also is predicted by Republicans, although Democrats declare the president will veto the measure.

Chairman Kahn of the military affairs committee declared in a statement today that if the resolution was passed and signed by the president, American military forces in Germany could be returned home, although orders for their withdrawal would rest with the president.

Mr. Kahn called attention to the fact that, according to the terms of the treaty, the Coblenz bridgehead, held by American troops, will be evacuated after four weeks. Germany fulfills all her obligations, while the Cologne bridgehead, now held by British troops, will be handed over after five years.

Representative Igoe, Democrat, Missouri, in a statement to the house, declared "much confusion and litigation would follow the ending of the war without proper provisions by treaty for a ratification of all the acts of the United States affected property of German nationals." He said the resolution "is without precedent."

Representative Caldwell, Democrat, New York, announced that he would support the resolution.

FEARS PROHIBITION WILL CAUSE REVOLT

Secretary of Liberty League Says "Dry" Forces Are Trying to Rush Government.

The secretary of the Citizens Liberty League has issued a statement reviewing developments in the liquor situation and declaring that the temperance people are trying to force the hand of the government.

"On March 5th, The Toronto Star commented editorially on this vote as follows:

"The hardy citizens of the Yukon have voted for prohibition and the Liberty League can scarcely attribute this to the influence of the Rev. Ben-Eden, the Lord's Day Alliance and the local uplifters."

As showing how misleading the comment of The Star was, the following telegram was published in The Evening Telegram of March 5:

"To Rev. Dr. Andrew S. Grant, referendum committee, from Dr. Norman Cuthbertson of the Yukon peoples prohibition movement:

"Great prohibition victory scored by Yukon, final returns for the Yukon liquor plebiscite gives a substantial clear majority for the bone dries against all combined forms of wet systems. Your support greatly helped at critical hour."

The support referred to was financial assistance given by the Ontario referendum committee.

"Now, for the truth about this 'great prohibition victory.' With the tactics common to the 'pusy-footers' all over the American continent, the vote was taken at a time favorable to their cause. When the vote was taken half of the electors of the Yukon were absent for the winter, not returning till May. The questions submitted to the electors were as follows:

1. Are you in favor of the sale of spirituous and malt liquors in licensed premises?

2. Are you in favor of the sale of spirituous and malt liquors thru government agencies?

On this plebiscite the "drys" secured a majority of forty-four per cent, the combined votes for government agencies and licensed premises.

In view of the facts I have given above, the readers can form their own conclusions about the "great prohibition victory."

The vote was taken on the same date as the election for members of the Yukon council.

In view of a trick ballot of this kind, it is a pretty sure guess that there will be a period of unrest in the Yukon district when the boys come home.

In our own province of Ontario, the Dominion Alliance and the referendum committee are pushing the job in an attempt to stampede the government. They have in mind the successful tactics of the Committee of One Hundred in stampeding the Ontario government, which afterwards had disastrous results for the latter.

The hysterical vapors of the "pusy-footers" during the past few weeks are directed to forcing the hands of the government to enact further prohibitory legislation. The government would be well advised to turn a deaf ear to these clerical dictators. Hence the O. T. A. was put into force, our province has been seething with unrest and discontent. Any attempt to foot absolute prohibition in Ontario will result in revolution, and the responsibility will not be on the Liberty League. Prohibition begets Bolshevism. Our government should watch the signs of the times.

LABOR NEWS TORONTO PRINTERS DEMAND ADVANCE

Book and job office printers may go out on strike. They have been urged by officials of the International Typographical Union, who point out that the employers in the trade have so far refused to negotiate with the union upon the demands of the men.

The matter will come to a head next Saturday night at a special meeting to be held at the corner of King and York streets. A conference was called for a month ago, said an official yesterday. "Since that time the employers have done nothing at all not even to reply to our communications. Apparently they rest their case upon the fact that the present agreement was signed in 1912. We all know that since the agreement was signed wages have risen all along the line, and the cost of living has increased. There is a strong feeling for an increase over the sum now received. \$32 a week."

PLUNKETT EXPECTS BILL WILL FAIL

Predicts Utter Breakdown of Government's Measure for Ireland.

Dublin, April 5.—Complete breakdown through Ireland of the Lloyd George Home Rule Bill, which has passed second reading in the house of commons, was forecast yesterday by Sir Horace Plunkett, president of the Dominion Home Rule League.

"If this bill becomes an act, as seems possible, it will fail in Ireland, simply because it will be to the Irish people what its predecessors have been to the British government—a scrap of paper," Plunkett declared in an interview with a United News correspondent.

Lloyd George describes his bill as more generous than that of 1914, but, politically, it is the least generous of any measure yet proposed. Its purpose is not home rule for Ireland, but, as the prime minister has declared, it is a restoration of state rights, similar to the American plan for state legislation, and this upon a people who have already acquired that right under the British constitution.

"Under the existing act, which the proposed bill will repeal, the Irish Nationalists had won their national congress. Now they are offered two state legislatures in two states, which is in no sense a national parliament, and its power to create one is illusory.

"Anglo-Irish conflicts have been prolonged by the retention of Irish representatives at Westminster. The internal Irish problem of agreement between the Protestants and Catholics will be aggravated and perpetuated by the deliberate creation of two states, with areas so defined as to reduce the chance of union to a minimum.

One ray of hope in the tragic gloom of the recent debate on the bill was shed by representatives of the Labor and Independent Liberalism, who supported substantially the same policy as the Irish Dominion League. They thereby established a policy which will be the practical alternative when the present government policy breaks down in Ireland and England.

"The Dominion Home Rule League plan is steadily gaining ground in the British dominions, and for obvious reasons it will be generally supported. During my recent visit to the United States, I was struck only to be explained to be approved. Among other evidences of this trend of opinion, I have just received a copy of a resolution passed unanimously by the Friendly Sons of St. Patrick of Orange, New Jersey, endorsing the Dominion League's demands."

Britain Would Turn Down Warfare by Submarine

London, April 5.—The British admiralty has never concealed its view that the work of the submarine was a horrible form of warfare, and nothing would give it greater pleasure than if the submarine could be "buried down," it was declared by Walter Long, first lord of the admiralty, in a recent discussion of naval matters in the house of commons.

Mr. Long added, however, that he does not know whether this was practical politics, as a method of defence by submarines was very attractive to small and poor countries which could not keep up costly fleets of battleships or cruisers.

WILL AGAIN DISCUSS COMPULSORY TRAINING

Likely That Question Will Again Be Brought Up in the House of Commons.

Ottawa, April 5.—(By Canadian Press).—Advocates of the compulsory physical training for the young men of Canada are not a bit daunted by the shelving of the resolution discussed for an afternoon by the house of commons, last week. One member who spoke in support of the scheme to compel young men between the ages of 18 and 25 years to undergo training, the object of which is the defence of the country in case of need, stated today that the resolution standing in the name of H. M. Mowat, Parkdale, would most likely be brought up again this session. This member declared that the idea was much misunderstood by those in opposition to it, and that he and other men, farmers and professional men all over the country had expressed their interest in the compulsory training, and only effective and fair method of establishing a defensive system for the country.

RAIDS IN IRELAND BY ARMED BANDS

Many Barracks Were Blown Up and Other Buildings Destroyed by Fire.

London, April 5.—Reports continue to reach London today of the destruction of property by raids in Ireland by armed bands, most of which occurred Saturday night. Police barracks seemed to have been the main objectives of the raiders. Among the places where the barracks were either burned or blown up were Cork, Clonlough, Punkerlin, Clonakenny, Ballymakey, Bolla, Ballinderry, Ardara, Ballybegue, Rathcoole and Drinaga. Several barracks in north Tipperary also were destroyed.

Other buildings destroyed include the Ballyvourney courthouse, while the Press Association reports the Protestant schoolhouse at Milltown burned, and that Glin the stables and glass windows, the organ and various articles of furniture broken on Sunday night in St. Paul's Protestant Church. Raids were carried out on customs and excise tax houses in some places, notably at Nenagh and Sligo, where the income tax papers were destroyed.

The Dublin postoffice this morning reported the destruction of telegraphic communication to the north of Ireland. In connection with the searching by the police of the Glasgow steamer arriving at Londonderry, the London Times says it is stated that the authorities learned that certain persons were believed to be on their way to Ireland from America by way of Glasgow. It is reported also that after the passengers left the steamer a box of ammunition was found on the deck. The supposed owner, surprised by the police, jumped it overboard to escape the consequences.

According to the Dublin correspondent of the Times, all active Sinn Feiners there sleep in different places each night to avoid arrest and deportation to England. The military barracks around Dublin were removed Sunday.

The Press Association says that the authorities have received reports that more than sixty police barracks and posts, for the most part unoccupied, were destroyed during the week-end, and that two police were shot and seriously wounded at Ballyhaunis.

MORE LIQUOR DRUNK IN UNITED KINGDOM

Returns for Last Year Exceeded 1918 by Sixty Per Cent.

London, March 29.—The consumption of intoxicating liquor in the United Kingdom was approximately 60 per cent greater in 1919 than in 1918, but about 35 per cent less than in 1913, the last year before the war, according to figures submitted to the United Kingdom Alliance by George S. Wilson, its political and literary secretary.

The increase over the figures for the last year of the war is attributed to the fact that the army and navy employments, the reduction in hour of labor, and the demobilization of some 3,500,000 soldiers, as well as to the fact that a larger output of beer has been produced and an increased quantity of spirits withdrawn from bond.

The figures submitted by Secretary Wilson show a total of \$228,000,000 expended for liquor in 1919, as against \$142,000,000 in 1918, and \$138,000,000 in 1913, while Scotland's expenditure totalled \$28,000,000, or 27 1/2 per cent, and that of Ireland \$27,000,000 or 26 1/2 per cent.

HOPE TO SALVAGE CANADIAN RECRUIT

Federal Merchant Marine Officials Refer to "Exaggerated Reports."

Montreal, April 5.—At headquarters of the Canadian government merchant marine today it was stated that reports as to the position and condition of the Canadian recruit now lying on the edge of Baturax-aux-Vaches, are not only exaggerated, but misleading. There are only small quantities of rice and malt in the cargo, and these are quite insufficient to infatuate and burst open the ship. "Further, it is stated that the statement that officials of the Canadian government merchant marine are to make a survey of the ship this week is incorrect. A contract was made last week with the Canadian Salvage Association of Quebec and other operators, which will be initiated as soon as weather conditions permit.

CENTRALIZATION AND DISCIPLINE

Sacrifice Also Contributed to Bolsheviki Victories, Declares Lenin.

Moscow, April 5.—Consolidation of party interests and centralization of departmental activities as the result of Russian victories "on all fronts" were emphasized as the keynote of the Soviet government's policy by Vladimir Lenin, Bolsheviki premier of Russia, speaking at the opening session of the ninth convention of the Communist party here today.

"That this miracle of victory happened," he declared, "notwithstanding the imperialist world was against us, is the result of centralization, sacrifice and discipline."

Recent peace proposals received by the Soviet government denote a "change of sentiment in the outside world and an entente policy indicative of lack of unity," Lenin said, adding: "Our position cannot be determined from the viewpoint of justice."

Lenin's address, which outlined the political activities and general policy of the general Communist committee, was the most important feature of the day. Representatives of Swedish and Norwegian workers were welcomed at the conference, and a general committee was elected.

SHOULD CONSIDER WELL MANDATE FOR ARMENIA

London, April 5.—The London Times this morning suggests that the council of the League of Nations, which is to consider the mandate for Armenia which has been made to it by the supreme council, should consider the order of the mandate and the proposals of the supreme council, but, before declaring itself, insist upon receiving a binding declaration of intention from the allied governments, and a precise definition of the practical means which those governments and the neutral members of the league are ready to place at its disposal.

"For what is at stake," says the Times, "is not only Armenia, but possibly the very existence of the league of nations itself."

"IT HAS SIMPLY TRANSFORMED ME"

Amadee Grenon Says Change Tanlac Brought is Almost Unbelievable.

"The radical change which Tanlac has brought in me is almost unbelievable. It has simply transformed me into a new man. I have lost weight in a remarkably short time," was the statement made by Amadee Grenon, who resides at 1237 Catherine street, St. John's, N.B., and who is a salesman with the well-known firm of Debarats Printing Co. Limited, and his endorsement would give the most skeptical that Tanlac is indeed a powerful reconstructive medicine.

"For a whole year I suffered from indigestion, and I had the pains in my back at the height of my belt were so fierce that they bent me in two and made me walk like an old man. I did not remain either standing or sitting for more than about two minutes together, the pain was so terrible. Only when lying down on my side could I get any relief and I often went whole nights without sleep. I used endless belladonna plasters, but they seemed to have no effect whatever and then, after meals I used to feel as though I had swallowed a big stone, and the gas would form so in my stomach as to nearly suffocate me. I would be constipated and frequently I had such severe headaches that I would have to quit work and go to bed.

"It was the statements of other people which led me to give Tanlac a trial, and I had taken only half a bottle. First of all the lumbago pains in my back disappeared entirely, and I have not felt any more of them since. My appetite became excellent and, indeed, surprising, and I now have no difficulty at all to digest my food. I am free from the terrible headaches that used to afflict me. I have only taken two bottles of the medicine, but I find that I have gained ten pounds in weight. I would not be without it for worlds, and every day when getting ready to go to my work, I never forget to take my dinner-pail my dose of Tanlac."

Tanlac is sold in Toronto by six-cent Tamblin Drug Stores. A special Tanlac representative is the Tamblin store, 117 Yonge street, where he is meeting the public daily.

WARSAW CROWDED WITH REFUGEES

Problem of Providing for Them Has Baffled the City Authorities.

Warsaw, April 5.—Warsaw is humming with war activity, and is crowded to its very doors with hordes of poverty-stricken refugees from the areas for which the Poles and Bolsheviki are fighting. Travelers say it is the most crowded city in eastern Europe. The population is estimated to have increased from 800,000 to 1,500,000 since the war began. Everything from the war-stricken areas began streaming into the city about a year ago, and have been coming ever since, hoping to find food and places to sleep. The problem of providing for them has baffled the city officials.

In the poorer districts, basements, which for generations were used for storage purposes, have been used for refugees sleeping quarters. In instances, 15 to 20 persons, and even more, asleep on the basement floor, on the ground floor, and in the stables or in buildings intended for schools. Many of these refugees are women, with children, who have come out of the east, virtually without funds. During the day these people are partly supplied with food by the municipality, or some of the welfare organizations. Many exist only by begging.

Warsaw tenements, always crowded, as New York's east side has been for years, are jammed with humanity, not only before, and during the severe weather, when there was an epidemic of influenza here, old men and women and children died by the hundreds every day, in this land of the poor.

City officials see no relief in sight until warmer weather comes, when the hope of the people will gradually begin leaving for the country to work on farms.

RETURNING GERMANS HAVE A HARD ROW

Business Men and Others Are Meeting With a Warm Reception.

London, April 5.—Large numbers of German and other undesirable who were deported from England in the war have managed to make their way back to London, but have encountered warm receptions when their identity has been discovered. They managed to cross from the continent by working their way as sailors on tramp steamers from northern England, and Spanish ports.

These Germans who have come back to England to take up business find it a hard row to hoe, says The Evening Standard. One German business man gave it up and returned to his fatherland after being refused admission to five London hotels. He found a room in a Bloomsbury boarding house, but two days later the other boarders discovered him and notified the manager, who could not live under the same roof with a German, and he was turned out.

A German butcher in a London suburb was prevented by his neighbors from reopening his old store the other day, also he had lived in England for 40 years, and there are many similar cases.

Neither captain nor crew of the steamer Spica, the first German cargo ship to enter the Irish port since August, 1914, were allowed ashore at Methil, and, in defiance of local feeling, the vessel did not display the German flag.

On the other hand, a revival of "Tanphauser" at Covent Garden opera recently drew a crowded and appreciative audience of society people. The east, however, was wholly English.

OTTAWANS MAKE NEW BIG CLAIM

Three Who Say They Own Heart of Quebec, Now Declare Relationship to Champlain.

Quebec, April 5.—Following the three Ottawa citizens and the Montreal woman, who claim title to the estate of Louis Hebert, first settler of Canada, and whose claim cover part of the upper town of this city, there comes another big claim. This time, the claimants allege relationship to Samuel de Champlain, the founder of Quebec City, and are both Quebecers, Mr. Albert Boulet, Richelieu street, and Mrs. E. Soulard, Scott street.

The estate claimed covers part of Place Hill, Quebec City, the present site of the citadel of the Federal Observatory, Cote Fields, and the site of the Ross rifle factory, the site of the Quebec jail and other smaller places, covering in all an area of 12 miles in the very heart of the city. The claimants value the estate at \$25,000,000.

DEMAND IS DROPPED FOR INDEPENDENCE

Position of the Syrian Government is Said to Be None Too Brilliant.

London, April 5.—The demand made of the allies that the independence of Syria be recognized, has virtually been dropped by Prince Feisal, who some time ago was made king of Syria, according to a despatch to The Daily Mail from Damascus, dated March 29. The despatch says it is thought Prince Feisal might now easily be induced to visit London and explain matters. It adds that the Syrian government's position is none too brilliant. The Bedouins of the Hauran district and the Druses strongly oppose the government's call for them to enter the army. The Bedouins, especially angered, seized the town of Beraa, whither Feisal's brother, Emir Zeid, hastened in order to try to appease them, but without great success. The government now has summoned all the Hauran Sheiks to Damascus, hoping to win them over, but the situation is rather serious, says the despatch.

REVOLUTIONIZING WRITING IN CHINA

Phonetic Script and Typewriter With Only 39 Characters to Be Used.

Shanghai, April 5.—Chinese of future generations will write in phonetic script and use a typewriter with only 39 characters instead of plying a brush to draw 10,000 or more hieroglyphics if mission workers succeed in an effort to replace the Chinese characters by a new writing in use in China for more than 4,000 years. The work of the missionaries is at last beginning to receive official sanction and they entertain hopes that eventually the Chinese brush, ink block and ink tablet will have to go to give place to more modern methods of writing and printing. Their purpose is not only to simplify China's handwriting system, but to give the country a common tongue to replace the Chinese dialects, which renders even the native who has grown from his own home district almost as helpless as a foreigner.

The system of phonetic script now urged upon the Chinese by the missionaries in England in 1903 by Wang Chao. Beside its 39 characters, it contains 10 numbers, three or four capitals, and Rev. E. G. Chewsbury of Shanghai, secretary of the China Sunday School Union, and a member of the phonetic promotion committee, has devoted 30 years to teaching in China, and the new script into use on American typewriters with complete success. For this purpose typewriters with blank type faces are obtainable from factories and the characters are cut from these faces here by Chinese engravers.

The Chinese government attaches importance to the effort being made as seen in the following excerpt from a recent mandate issued by the ministry of education:

"We recognize that because of the difference between our classical and spoken language, education in the schools makes slow progress and the keen edge of the spirit is blunted between individuals and in society at large, has thereby been blunted. Moreover, if we do not take prompt steps to make the written and spoken language the same quickly, any plans for developing our civilization will surely fail."

THE GIRL WHO SMILED THRU

By MARGION RUBINCAM

ALICE HAD HER WAY.

CHAPTER 50.

Alice and her mother talked it over next day. As usual, Mrs. Fairbanks wanted whatever Alice did. But she offered one objection only, and that was "of course, having a baby in the house is an act of extra work, and will take extra money. We have already been drawing on our principles in the matter, and the extra father left does not begin to reach."

"I know it will be extra trouble," Alice said. "But I'll give up some of my settlement work for a year or so. By that time, the baby will be so constant a care. As for the money, even the two dollars extra every month we have in a few years, and as soon as I finish my much study as I want, I'll be able to find a good position somewhere!"

"She spoke vaguely enough. Confounding money-making, Alice was almost as indefinite in her ideas as her mother."

Mrs. Fairbanks began looking on the more cheerful side of the question at once. "The extra work won't matter, my dear. I'm getting stronger all the time. I can do every bit of the housework now and I'm sure I could take care of the baby, too. I wonder whether ideas have changed much since I brought you up?"

"That settles it, then! I'm going down and beg for it," and Alice started away down the street. She waved a greeting to Clara, whom she saw at a block away, but went on with her song to herself. It was a long time since Alice had sung as she would or vented her feelings.

From the settlement house she phoned to Mrs. Godfrey's and was told she could reach her at the Marlowes. So, in haste, she called on the always went about the town. Alice trotted over to the big artificial stone house.

"We have asked one afternoon just before Alice was to take the baby. 'I haven't decided,' Alice answered. 'I don't want my own name very much, and mother won't let me have it. What is your name?' she asked at the little gray-haired lady with her hair done in curls."

"Berenice," said Mrs. Marlowe. "I think it's an ancient Egyptian name." "How lovely," Alice exclaimed. "Berenice Fairbanks—how does that sound?"

"Very pretty," Mrs. Marlowe approved. "Lawrence went home with her. 'If you won't think me intrusive,' he said, 'I want to make a suggestion—let your father look over your mother's investments. If he can get her a high per cent. on her money, in a safe investment, it will cover the interest of the new addition to your family.'"

Two or three days when in every big city there was a general feeling of uneasiness every spring. In some cities it also was the custom for landlords to give one month's rent free to incoming tenants. Such a custom was to indicate a nearly equal balance of supply and demand. This is normal. It will be at least five years before this condition is again met.

"There is one hopeful sign that building costs will be reduced eventually. Architects and contractors everywhere are working more hard to devise new and short processes of building. They also are experimenting with new materials. Thus many builders recently attended a national convention called to discuss the proposal of building concrete houses, which are poured into moulds and can be turned out much more quickly than the average brick or frame house can be completed."

Washington, April 4.—High rents and high building costs in the United States have come to stay for years, President LeRoy K. Sherman, of the United States Housing Corporation, predicts.

"There is no reliable indication of a drop," he said. "The housing shortage now is just as acute as it ever was. It is conservatively estimated that the country now is short about 1,000,000 dwellings."

"In my opinion it will take at least five years to catch up and get back to normal." Sherman, as president of the housing corporation, has built 5,000 houses in big cities in all sections of the country. Experts working under him kept elaborate cost sheets in every conceivable angle of the building business.

Here is his verdict: "Only in Washington does there seem to be even the beginning of relief from the tremendous pressure of the shortage of dwellings that grew up during the war period," he said. "In Chicago, New York, and other big cities the shortage of dwellings seems just as acute as ever."

"The cost of labor and building materials holds the promise of going down. The general cost of building has increased from 65 to 70 per cent. since 1918, according to accurate cost sheets of experts in the corporation. These figures have been tested by careful application to the construction of dwellings of almost every variety."

"Many people who have money to build houses now are holding off because they hope prices will drop. This has a tendency, of course, to keep prices up. To get the nation's housing situation back to normal we must build at a rate calculated to keep abreast of the normal increase in demand for dwellings plus an additional rate which will make up the shortage of 1,000,000 homes now existing. So far as I can see now, we are not building even at a rate fast enough to take care of the normal increase in demand."

"In normal conditions I mean conditions similar to those prevailing in the country during the pre-war period."

In forestry circles it is anticipated that the cooperative committee for England and Wales, Scotland and Ireland will be constituted shortly under an order-in-council. Maj. G. L. Courtenay, M.P., has been invited to become chairman of the British committee.

It is understood that the British committee on agricultural lands will meet at some time in the near future to consider these schemes.

Other large landowners have given a number of acres to the authority, and further gifts of land are expected. The authority is arranging to plant some of the land this season.

Number of Plans The Forest authority has shown the keenest desire to co-operate with private enterprise, and to avoid anything in the nature of conflict. In regard to grants and loans to private enterprise, a number of schemes have been submitted to the authority, including one which would allow the land to be made available to the public. It is understood that the British committee on agricultural lands will meet at some time in the near future to consider these schemes.

A firm of timber merchants has sold to the authority an area of 800 acres, including some agricultural land and a farmhouse, at such a price that the rent is almost sufficient to pay the interest on the whole of the purchase money.

EXPERIENCE OF VETERAN

(Continued from Page 1.) moved. Capt. Charles A. Wake, D.C.M., of His Majesty's Army and Navy Veterans, proposed the toast of "Our Veterans." Capt. A. K. Collier of the Originals' Club of Toronto, made up of first contingent men proposed the toast of "Canada." He said there were no better Canadians than the United Empire Loyalists. "I am sure that this get-together gathering has the hearty approval of his organization," the speaker said. "I am sure that this get-together gathering has the hearty approval of his organization."

POOR ED. BARROW HAS HIS TROUBLES

Red Sox Make a Very Poor Showing in Spring Center.

TRADES FALL THRU At Knoxville, Tenn.—The jubilant Giants and the Red Sox resumed their northward trek last night, going from here to Asheville, N.C.

The prospect of the Sox gaining strength thru the medium of a trade with the Yankees is not as bright today as it was a few days ago, and result of the tidings which scout Joe Kelley of the Yankees brought from Jacksonville, Kelley told Ed. Barrow that Miller Huggan was willing to trade Ping Bodio, Herold Price and Hank Hamann for Oscar Vitt, Harry Schatz and Mike McNary, or a pitcher and one starry batsman for a few weeks.

Meanwhile, the Sox go from bad to worse. They made the poorest showing so far when they lost to the Yankees Saturday. They were absolutely hopeless in the face of the outcries of Fred Toney and Arthur Heath, while Harry Harper, on whom Barrow depended to check the Giants' 1919, was "sorry wild, and cannot put anything on the ball when he is out over the plate.

The Giants took on their "inferno" in the first inning, and then closed up simply mopping up a victory that was almost made sure by a hit which was virtually presented to them.

On the other hand, the Giants are continuing to shine splendidly, and the barometer next week in excellent shape. George Kiehl is the only member of the club who has not returned to the field. The big first baseman in a leading slump just now.

At Louisville, Ky.—Philadelphia National-Louisville Association game postponed; cold weather.

At Jacksonville, Fla.—After five weeks in this town the Yankees and Dodgers pulled out of here last night. The Yankees made a bit of progress in their last ten days here, and look pretty fit.

At Huntington, W. Va.—Boston National-Detroit Americans, no game, snow.

At Dallas, Texas.—R.H.H. Mustang National-Boston Americans, 10 0 1. Ten innings. Batteries—Foster and Lee; Hunt, Conley and Robertson.

CITY AMATEUR LEAGUE HAS SAME FOUR CLUBS

At a meeting of the City Amateur Baseball League, held at the City Hotel last night, the franchise of the Wellington Club, held by the late Geo. Carey, was turned over to Mr. Corney Burns, who will continue to operate under the same name. The annual meeting of the league will be held on Monday, April 12, at which meeting the officers for the coming year will be elected and umpires and scorers will also be appointed. The four clubs composing the league all say they will be in good shape to start the season, and no doubt will furnish the patrons of the games played on the Don Flats with high-class ball.

CANADIAN NATIONAL RAILWAYS IN SPORTS

Great enthusiasm has been shown in the organization of the Canadian National Railways Association by the employees. Two largely attended meetings have been held, and it has been decided to take active part in sports. The association will also take care of all social activities. At last night's meeting it was decided to hold the annual picnic at Orillia on Saturday, June 26.

THEY ALL LIKE GEORGES.

New York, April 5.—The Army and Navy Veterans' Association Toronto unit, represented by Mr. Phil Danie's, today enrolled Georges Carpentier as an active member of the association. The boxer's wife was presented with a ladies' auxiliary button, and his manager, M. Desamps, who saw service with the French forces, was also made a member. Carpentier and Desamps were both presented with a silver medal, the symbol of the association.

Two Pitchers For Leafs From Boston

Herzogs Deserts Club and Sandberg Accepts Terms—Six Youngsters Get Walking Tickets.

President McCaffery received a long telegram from Manager Hughie Duffy of the Leafs last night, in which the Toronto pilot stated that Ed Barrow, leader of the Red Sox, had turned over Pitchers Murphy and Holbrook to Toronto. Duffy added that they came highly recommended.

No word has been received from Herzog since he left the Detroit Tigers in regard to Catcher Yelle and other players that the Toronto manager has been wanting for some time. Catcher Sandberg has accepted terms. He is to be married, and will join the Leafs in Springfield, N.C. Twenty-six players are at the camp at Columbus, Ga., but six are being sent to their homes this week. They are hardy ready for A.A. ball. Whether Babe Dye, the Toronto boy, is in the league is not stated.

Manager Duffy thinks so well of the youngsters he is unending that he will keep a string on each for future use. Gangel and Dunn, two of the recruits, are being sent to join the Springfield Club of the Eastern Association. A change has been made in the exhibition trip. The Leafs will not pull up stakes at Columbus until Thursday, and will not play in Atlanta, Spartanburg, S.C. until their first stop.

The winter status as to the weather in Columbus is very cold, and very little work can be done. The official list of contracts filed with J. H. Farrell, secretary of the National Association, show that Jack Dunn has been sent along with the document with the signature of Harry (Tommy) Thompson. The next move will be to see if President Duffy of the International League is going to back down and let Dunn run the league. Thompson is the property of the Toronto Club.

The local club will have released outright Eckenrode, the hitless outfield wonder, and sent Albert McInnes to Albany.

The team sailed the same night on the Melita for Liverpool. Arrangements were made for light training aboard the ship. The players are division players for seven-man hockey, which will be held at the Olympic Games. Mike Goodman, the Canadian champion skater, will play rover and act as a third defenseman. Goalkeeper Byron's injured eye is likely healed. The team decided not to accept an invitation to visit London and will return to Canada in a body after the Olympic games with the exception of Centre Player Fredericson, who is going to London to "try" commercially for a period of six months. The Ontario Amateur Baseball Association officials are busy preparing for a big season. Baseball is making great strides throughout the province, and owing to the fact that it has not had some years ago back in the game again. A number of new districts and town leagues are affiliating with the O.A.B.A. this year. The O.A.B.A. sub-committee met at 22 College Street on Friday night to make arrangements for the annual meeting on Saturday afternoon, April 7, and also to consider applications for affiliation and re-statements. President Frank Robbins and Secretary Geo. C. Walker, both of Hamilton, Ward Patterson of Parbro, with W. J. Smith and S. L. Armstrong of Toronto, compose the sub-committee.

The Melbas will hold a special meeting in their new clubrooms tonight. A Hotel last night, the franchise of the Wellington Club, held by the late Geo. Carey, was turned over to Mr. Corney Burns, who will continue to operate under the same name. The annual meeting of the league will be held on Monday, April 12, at which meeting the officers for the coming year will be elected and umpires and scorers will also be appointed. The four clubs composing the league all say they will be in good shape to start the season, and no doubt will furnish the patrons of the games played on the Don Flats with high-class ball.

The Ontario Junior Football Association met in Hamilton on Saturday, when a full attendance of delegates and members of council was the order. The outstanding feature of the meeting was the perfect harmony that prevailed, which promises good for the future success of the game. Vice-President Armstrong of Toronto occupied the chair, W. Donohue of Hamilton being ineligible to officiate as president owing to his connection with the senior body.

The meeting, which commenced at four o'clock and continued until 11 p.m., discussed every important business which will have a telling effect when all the details are worked out. The most important business of the evening was the definition of what constitutes a Junior player, and after two hours' discussion the delegates arrived at a harmonious agreement in the subject, the text of which will be published in the next issue of the "Sport." It was also agreed not to run the Juvenile championship this season as the Hamilton juveniles do not come under the jurisdiction of the association.

Olympic Games Are Worth While Looking at Them From Every Angle London, April 5.—Are the Olympic games worth while? Do they engender the proper international feeling of sportsmanship? Are they properly conducted? Three pertinent questions regarding the Olympiads are capably discussed by P. J. Baker, former president of the Cambridge University Athletic Club, and an entrant in the Olympic games at Stockholm in 1912, in a recent interview Mr. Baker said: "Preparations for the revived Olympic games to be held at Antwerp next August are already in train; the Olympic Council has issued an appeal for the necessary support for British competitors, and has received for response a good deal of criticism as well as a good deal of approval. "That being so, it is time the case for the games was clearly put, as a good deal of misconception obviously exists in regard to them. Personally, I believe that in the past they have been im-

BLUE RIBBON SALE AT THE REPOSITORY Tomorrow, When Large List of Trotters, Pacers and Ponies Go Under Hammer. The annual Blue Ribbon Speed Sale, to be held at the Repository tomorrow (Wednesday), commencing at 11 a.m., has attracted a large entry of trotters and pacers, in addition to the usual consignment of ponies, hickies and thuro-wags. A notable contribution of harness horses has been made by the Ontario Chatham horsemen who are forced to abandon his plans for a campaign this season because of a change in ownership. This lot includes a promising pacer in Bill, Jr., by Waldron, Jr. (2:10 1/2), and also the famous Billy Spring (2:08 1/2), also Medio Lepoint, a young mare by Medio McKinney, and out of Lapoint (2:04 1/2), a former champion race mare. These two and others were purchased last winter to race. A Beaverton consignor offers a fast green pacer by Joe Batten II. (2:07 1/2) that won a heat in 2:18 1/2 last summer with but six weeks' work. He is a sure 2:10 pacer. Oro Layburn, by Oro Wilkes (2:11), dam Chira Layburn, is a fashionable bred pacer, retaining the ability to stake and one of the gems of the sale. He is handsome too. Horsemen looking for a brood mare of approved lineage should not overlook Miss Bingle Jackson, by Jack McKerton (2:07 1/2), and heavy sulkster, to Chis-cott (2:04 1/2). The resulting foal should be worth a neat sum on birth. The balance of the sport consigned consists mostly of green trotters and pacers, many of which are attractively bred or have shown some racing development either in training or in actual races.

COMMUNISM RESUMES ITS ACTIVITIES TODAY

Franchise Bill Likely to Be Feature of a Busy Week. FIGHT IN COMMITTEE. Real Contests Over Contentious Clauses Are Still to Be Staged.

Ottawa, April 5.—(By Canadian Press.)—The parliament buildings will resume session today, following the Easter recess, when both the house of commons and senate will again take up their activities. Members from Ontario and Quebec constituencies who spent the Easter holidays are returning to the capital. It seems likely that the week will be a busy one, as the franchise bill, one of the most contentious measures to come before parliament this session, must be put thru the committee stages.

Departmental estimates are yet to be prepared and those of the railway department are likely to cause a great deal of controversy. The opposition seems in no mood to let any of the estimates pass without a good deal of discussion, as was indicated by the fight on the \$20,000,000 shipbuilding vote, which was put thru only after decided opposition.

It seems unlikely that the budget speech will be delivered this week, when it does come it will probably be a great deal of criticism from both the opposition and cross benches. There is, as yet, no indication what the tariff proposals of the government will be, but it is expected that a number of bills to approve of the widely differing factions in the house.

FISHERMEN FOLLOW ICE. Sarnia, Ont., April 5.—The prevailing southern and western winds have driven the ice westward to the end of the lake and it is thought that on this account the fishermen will be able to set their nets earlier than usual, as it seems that the greater portion of the ice has disappeared for good. As soon as the men are sure that the ice will not return they will put out the nets.

There always will be dishes to wash as long as folks continue to eat. But why worry about them? Most women who have to do their own housework and fret over the fact that there are dishes to be washed, don't know what a pleasure it is to have plenty of bubbling hot water at the turn of the faucet.

On the question of a flat cash bonus, he said: "I can say to you that the government has not from the first been favorably disposed to paying to the returned soldiers: 'Here, John and Thomas and George, here is \$1000, or \$1500 or \$2000. You have fought for us. Take the money and sign us a clean check and we are done with you; you are done with us.' I do not think, and the government does not think, that would be the best plan. The government has never thought it would. But the government will give consideration to what you have stated, and it will give you its answer within a reasonable period."

At the opening of his remarks, Sir George referred to the exclusion of Mr. Flynn from the proceedings. The government, he said, has been very glad to receive the delegation and to hear it express its views so reasonably, so fairly and so frankly. "We do not," Sir George added, "always get the same reasonable treatment. That is, perhaps, because we are not face to face with each other."

COAL-HANDLERS' STRIKE HOLDS SHIPS IN HALIFAX

Halifax, N. S., April 5.—Local coal handlers numbering about five hundred, did not go to work today, owing to the expiration of their wage agreement with their employers. The agreement was signed on October 1, 1919. The scale is for 65 cents per hour for day work and 70 cents for night, up to 11 p.m. The men asked for 85 cents per hour for day work and one dollar per hour at night in their new schedule. The strike of the 400 coal handlers which commenced today, is a demand for increased wages, will hold up several of the steamers at present in port loading cargo. Two Purser lines, the Royal Mail steamship company and the Canadian National steamship company, are also affected by the strike. The Chaudiere arriving this morning, will be held up.

The danger of further floods at Three Rivers removed, it is also at Sorel, Batiscan, etc. The Canadian government steamer Lady Grey left for Grandines this morning to break thru the ice there, but returned to Port Neuf, for fear the barrage might snap under the pressure of the ice, and crush her among the floes.

OTTAWA SHOE SHINERS MAY GO OUT ON STRIKE

Ottawa, April 5.—Shoe shine boys in this city are worrying over the possibility of a strike. They are demanding higher wages. If this can not be secured, according to some of the better known "Knights of the Polish," there is a possibility of a walk-out if higher wages are not forthcoming. At present their wages range from \$7 to \$10 a week. The jump in the cost of a shine from 10 to 15 cents cuts off considerable revenue from "tips" they claim.

FLOUR IN STORAGE WILL LAST TILL FALL

Influences at Market to Keep It Off the Market, Says Merchant.

According to a statement made by a large grain and flour merchant, there is enough winter flour stored in Canada in second-hand bags to last to next fall. This merchant has considerable quantities stored away, and has been requested by the millers not to put it on the market at the present time. Brokers and bakers are not under the control of the wheat board, and can store just as much flour as they like. Further, it is claimed that the big mills are amenable to "wooden men," (their own men) who are placing the flour in very safe-keeping and hiding. In the opinion of another large Toronto broker, "The millers must have been just crazy to go to Ottawa and ask for a rise in price of flour." The smaller millers, says this merchant, are quite satisfied with the prices procured for them by the wheat board, and personally he had found no difficulty in placing orders for 40,000 barrels of the 80,000-barrel order recently placed by the wheat board.

Would Abolish the Board.

On the other side of the picture there are leading flour dealers such as W. B. Browne, who consider that the wheat board have made a mess of everything and that the only solution of the present situation is to abolish the board and return to the open market basis. Mr. Browne thinks if the government could be persuaded to finance exports and extend credits to buying countries, the system would work better than the present one under the wheat board.

The Italian then fled. An arm was given and the police summoned, but the man has not yet been located.

COMMONS WILL DEBATE STATUS OF THE DOMINION. Ottawa, April 5.—(By Canadian Press).—Canada's status as a nation is to be debated by the House of Commons. A new point has arisen in the minds of some members. It is the effect that the refusal of the United States to become a member of the league of nations will have upon the Monroe doctrine. Just what effect this will have is to be the subject of a lengthy question coming from Major G. W. Andrews, member for Ontario. It is expected that Hon. N. W. Rowell, president of the privy council, and one of the best ported men on the floor of the house will make a statement on the floor of the house.

JEWELRY STORE BURGLARIZED. Montreal, Que., April 5.—Charles Herman, jeweler of 775 St. Lawrence Boulevard, discovered this morning that his store had been entered during the week-end, and \$10,000 worth of jewelry, including thirteen diamond pendants, stolen.

Protection

WHETHER you build a Factory, Warehouse, Barn or a Shed, assure yourself of a serviceable roof—one that will give continuous hard wear under varying weather conditions.

NEPONSET PAROID

solves your roofing problems. It enables you to lay a roof that will remain a good roof under all conditions, in all weather, cold, heat or rain.

The base of Neponset Paroid is a high-grade rag felt thoroughly impregnated with asphalt, making it positively waterproof and fire-resisting.

It is further reinforced with a talc surface, grey in color; or with a permanent slate surface, red or green in color.

Neponset Paroid is not only impervious to the driving storms, but protects you against fire through falling embers.

EASY TO LAY—With every roll of Neponset Paroid is supplied sufficient nails and cement with full directions.

There is a Neponset dealer in your district. Write to us for his name and a copy of our illustrated booklet "Roofing Canada."
