Ranchers Seize Los Angeles Aqueduct; Divert Water Supply 44 JAILED IN MAINE RUGRUSADE

CITY GUARD OUSTED, FLOW OF WATER IS TURNED INTO RIVER

Feud Over Means of Irrigation Develops Into Siege by Cattlemen.

90 DAYS SUPPLY

City Has Enough Water for the Present Impounded Along Route.

Bishop, Cal., Nov. 17.—Los Angeles aqueduct waste gates, near Lone Pine, were captured yesterday by a small army of Owens Valley men, who brushed aside city employes on guard and diverted Los Angeles' chief source of water supply into the Owens river.

Determined to keep the water of the aqueduct flowing through the spillway until Los Angeles settles its long standing water feud with valley ranchers in a manner acceptable to them, the raiders defied aqueduct authorities and Inyo county sheriff to drive them out.

State of Siege. The raid today had settled into an organized occupation backed by the efforts of several hundred men and women.

Sixty men, left on guard at the waste gates last night, were relieved by others today, Harry Glasscock, editor of the Owens Valley Herald and spokesman for the ranchers, declared and thereafter for as long as necessary the guard will be maintained by relieving with fresh men every 24 hours. Should 60 men not be enough, the force would be increased, he said. Yesterday 100 men held the gates.

Food for the aqueduct guard is being prepared by women in Bishop and sent to the waste gates 30 miles away by motor truck. Los Angeles water supply is assured for 90 days by water impounded at several sites along the aqueduct south of here. Inyo county authorities refrained from action pending the outcome of an appeal for state troops sent to Governor Friend W. Richardson. Sheriff Collins who urged immediate use of troops as the only possible way of dispersing the raiders without bloodshed.

Ranchers maintain that the aqueduct has robbed their farms of water necessary for irrigation.

BRAVED PLAGUE, TEACHER HONORED

Nora Sterry Rallied Panic-Stricken Mexicans in Los Angeles.

Los Angeles, Nov. 17.—Miss Nora Sterry, principal of a school which was in the quarantined pneumonic plague district of Los Angeles, today is wearing a gold medal, symbolic of the gratitude of its residents. Miss Sterry, who had taught there for 12 years, went through the quarantine lines when they were established to aid the Mexican residents, who had confidence in her.

When she entered the plague-stricken district she raised the U. S. flag over the schoolhouse and made the school the centre of new hope for the 1,600 Mexicans who, shut off from the rest of the city, were panic-stricken. She comforted them and convinced them that the plague would be conquered. She established a kitchen in the school and prepared meals for those without food. Mexican musicians were recruited and each afternoon a concert was given in the school yard.

Miss Sterry, in departing from the district after the quarantine had been lifted, was surrounded by grateful residents and girls bearing flowers. As the musicians played the medal was presented. It was paid for with pennies collected in the neighborhood.

WILL RECOMMEND PUBLIC CONTROL OF CANADIAN MINES

Labor M. P. Scores Federal Government Action in Western Canada.

CONCLUDES TOUR

Tells Church Audience That Country is Actually Owned by U. S.

(By Canadian Press.)

Winnipeg, Nov. 17.—"It simply means that we fly the British flag, but are actually owned by the United States," declared J. S. Woodsworth, M. P., Labor member for Winnipeg north, discussing natural resources problems at the Labor church here last night. He made his declaration while discussing recent federal grants in pulpwood areas, stating that this was an unjustifiable proceeding, another big industry being handed over to Americans.

Mr. Woodsworth who has just concluded a tour of the western provinces, discussed the coal mining situation and the recent strike in Alberta and declared the fundamental difficulty was overdevelopment. The Dominion government control of the national resources, mining rights had been granted in excess of the necessity of the case, and there were a number of companies producing coal with heavy overhead charges and no markets. He mentioned the fact that he had ultimately on the order page for next year the recommendation that the mines should be controlled by the people, rather than by private interests.

Mr. Woodsworth told of addressing several meetings of farmers in the west and said the agriculturists had a great deal more sympathy for labor now than previously. Many of them had their farms heavily mortgaged and they were reduced practically to a state of serfdom.

TELLS OF KAISER'S THREAT TO SUICIDE

Berlin Editor Recounts Passage Between Wilhelm and Von Buelow.

Berlin, Nov. 17.—A story of how former Emperor William once threatened to commit suicide, is revealed in a book written by Theodore Wolff, editor of the Tageblatt, dealing with Germany's policy during the chancellorship of Von Buelow.

Emperor William had in 1905 induced Emperor Nicholas of Russia to sign a treaty of alliance which pledged Germany to aid Russia in Europe, but not in Asia. Von Buelow disapproved of the treaty and orally tendered his resignation. Thereupon William wrote Von Buelow a pathetic letter in which he said the chancellor's resignation gave him such a shock that he had collapsed and he feared he would have a serious nervous illness.

In the letter Kaiser reminded Von Buelow that to please him he had ridden in Tangier on a strange horse, notwithstanding his crippled left arm and that the horse had nearly killed him.

Tried to Please. "I rode among the Spanish anarchists," said the letter, "because you wanted me to and because your policy would benefit by it, and now after I have done all this, you wish to leave me. If you now disavow your policy I should be made to look ridiculous which I cannot survive."

Then comes a postscript saying, "The morning after the receipt of your resignation you will not find your Kaiser alive. Think of my poor wife and children."

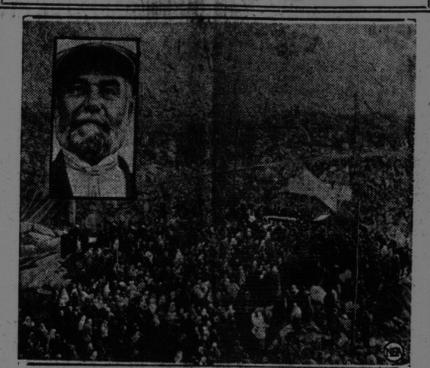

Von Buelow, according to Wolff, finally withdrew his resignation and his reward, the writer declared, came three years later, when the Kaiser dismissed him with the remark: "I have chased the scoundrel away."

They owned sawmills, great farms, several factories.

Verigin, born in Russia, spent 15 years in Siberian exile before he was allowed to come to Canada at the request of the Canadian Government, Count Tolstoy and the American Society of Friends. He was killed by a mysterious explosion on board a railroad train.

Called "Bobbed Hair Sissies" By Preacher; Church Choir Strikes

Washington, Nov. 17.—Bobbed-hair members of the choir of Mount Vernon Place Methodist Episcopal Church, South, have gone on strike against the term "bobbed-hair sissies," applied to them by the Rev. Burke Culpepper, a Memphis evangelist.

After reciting a Bible story, the Rev. Mr. Culpepper turned to the choir, and, telling of the foibles of the present day, made the remark which nettled several of the singers. An indignation meeting was held, and, according to one source, at least half of the women members of the choir have refused to continue their services.

The Rev. William A. Lambeth, pastor of the church, termed the incident a "hempet in a teapot," and declared only two or three young women had refrained from attendance.

Meanwhile, the Rev. Mr. Culpepper has opened a new fusillade on bobbed hair, quoting Scripture to bear out his contention that it is not in accordance with the teachings of the Bible.

Boston Students Resent Charges; Say All Branded For Conduct of Few

Boston, Nov. 17.—Thousands of college students of Greater Boston, girls and boys, indignant over the exhortation they received in the report of an undergraduate committee which investigated living and social conditions among those not quartered in college dormitories.

The cause of the protest is that of them are stigmatized by the alleged conduct of a comparative few. They pointed out, some of the girls tearfully, that while the student investigating body declared that the worst of the conditions involving immorality, drinking and gambling were in the Back Bay district rooming houses and apartments, the general public would make no such fine distinction, and that all students in Greater Boston would be branded.

The Tech, undergraduate newspaper at the Massachusetts Institute of Technology, in an editorial captioned "Are We Headed for Hell?" goes to the defense of the student body, and while admitting that such conditions as charged probably do exist in some places, points to the fact that the reports are grossly exaggerated so as to include college students as a group, whereas the wrongdoers form a small minority of the student body in Boston.

Headed by Dr. George H. Wright of the Harvard Dental School, a committee of five has been formed to make a further investigation and to bring in a report at a meeting which will be held Wednesday. Boston university officials say they have been familiar with conditions as outlined in the report, and have taken all steps to combat them.

LILLIAN FOSTER IS CENTRE OF STORM AT ACTORS' BALL

Fist Fight Follows Refusal of Introduction to Actress Who Played Here.

BOTH MEN CUT UP

Turmoil of Fighting Marks End of Annual Stage Assembly.

New York, Nov. 17.—Lowell Sherman, one of New York's best known matinee idols, engaged in a fist fight with George Baxter, also an actor, at the Actors' Equity Association ball which ended at the Hotel Astor early yesterday in a turmoil of fighting, it was learned today.

The quarrel between Sherman and Baxter was caused by Sherman's refusal to introduce Baxter to Miss Lillian Foster, appearing in a current Broadway show, according to Baxter. The fight started in Sherman's box which he occupied with his mother and Nora Bayes. Ethel Barrymore occupied the adjoining box. Both Sherman and Baxter bore marks of the conflict. There was no complaint to the police. Has Pocket Picked.

John Saporeny was arrested on a charge of grand larceny on complaint of Jack O'Brien former pugilist who claimed that \$400 was picked from his pocket during a fight, at the ball. Basil Gallagher a newspaper man of Metuchen, N. J., was slashed with a razor by a negro after leaving the ball. Charles Cambridge the negro was arraigned in police court and held in \$10,000 bail for the grand jury on a charge of felonious assault. Nearly 100 persons who were leaving the ball joined in the chase after Cambridge when he fled following the attack of Gallagher.

Miss Foster, who recently made a big hit as star in a new Wood's production, "Dionysus," was leading lady for the F. James Carroll play in St. John during the winter season of 1922-23.

MODERATION LEAGUE KEEPS UP COURAGE

Not Dismayed, Says Secretary, and Will Continue to Function.

Toronto, Nov. 17.—The Moderation League of Ontario is not dismayed by the result of the plebiscite on the O. T. A. Cyril D. Boyce, Secretary of the League, said when asked whether there was any truth in the story that the Moderationists' organization was to be disbanded, exclaimed, "Absolutely none!"

"We didn't disband before, when we were beaten by over 100,000, and we are not going to disband now, and we are just as busy today as we were during the plebiscite campaign, and just as strong numerically," Mr. Boyce pointed out that up to this summer the Moderation League had but three branches, whereas it now has 60. "All these 60 branches will continue active," he continued. "We are organizing executive meetings throughout the country at the present time, and have no thought of lessening our efforts."

Objects To Catholic On Harvard Board

New York, Nov. 17.—(United News)—Charging that the "outspoken purpose of the Roman Catholic church is to control American education," John Jay Chapman, an overseer of Harvard University and an author, has assailed the recent election of a Catholic to be a Harvard fellow.

In a letter made public Sunday night to Bishop William Lawrence, of Massachusetts, one of the six fellows of Harvard, Chapman said: "Liberalism presupposes free discussion and, under the present conditions of Protestant speechlessness, the presence of a Roman Catholic on the governing board of a non-Catholic College or school makes it impossible for the board to discuss the great issue frankly."

It was not indicated to whom the letter refers but it is taken to mean James Byrne, A.B., LL.B., LL.D., a New York attorney.

The gorilla which weighed not less than 150 pounds, escorted the length of the pier by his mistress, and seemed amiable until the photographers lined up to snap him. He became nervous and showed temper at the attempt to turn the handles on the cinch machines, and all photographing was discontinued.

John Daniel II, netted to his mistress approximately \$20,000 on his American tour. He traveled 12,000 miles over America.

LOOKS FOR BIG GRAIN SEASON

Dr. W. L. McDougald, president of the Montreal Harbor Commission, who was invited to address the Board of Trade here at its annual meeting on Dec. 4, regrets that his commitments on and around that date are such that it will be impossible for him to come to St. John to attend this meeting.

LIBEL CASE STARTS

Interest in Circuit Court proceedings which opened here this afternoon is considerably heightened by the special jury case concerning alleged libel, brought by J. Harry Driscoll against Dr. H. A. Farris, superintendent of the East St. John County Hospital.

### JERSEY CITY AGAIN HAS \$1,000,000 FIRE

Jersey City, N. J., Nov. 16.—Jersey City's entire waterfront today was seriously menaced by fire which assumed such proportions that two large Erie Railroad piers, 14 river barges, a steam lighter and much valuable freight were destroyed before the combined forces of this city and Hoboken, together with two fireboats from New York, succeeded in bringing it under control.

It was the city's second million dollar blaze in three days, two blocks in the downtown industrial section having been laid waste. Friday a fire which raged unchecked for five hours.

### WEDDINGS

#### Miller-Bordeaux

A pretty wedding was solemnized this morning in Holy Trinity church, with nuptial mass at 8.45 o'clock, Rev. Francis Cronin officiating, when Miss Florence Mombelieque Bordeaux became the bride of Peter Miller. Both are of this city. The bride, who was given in marriage by her cousin, Frederick McInerney, looked charming in a fawn suit with hat to match and fawn shoes and stockings and fawn fur, and carrying a shower bouquet of Columbia roses and sweet peas. They were unattended.

Mr. and Mrs. Miller left on a honeymoon trip to Boston, going by way of Montreal. The groom's gift to the bride was a seal coat. Many costly and beautiful gifts were received including a reading lamp from the employees of the Triple C. Clothing Co., where the bride was employed, also a set of cooking utensils from the firm and a water set from Mr. and Mrs. Finestone. Many friends will unite in wishing Mr. and Mrs. Miller much happiness.

### BOYS' INJURIES

It was said this morning by Mrs. W. P. King, mother of little Osborne King, that all five of the toes on the right foot had been badly crushed and one of the toes would have to be amputated, when the lad was struck by a street car on last Thursday. The boy, who is about four years of age, was running down the street and as he turned to cross bumped into the street car. He had not been across the street and called back by his mother as at first reported. Mr. King said that the motorman of the street car did not see the lad until he was picked up.

### Sure Way to Get Rid of Blackheads

There is one simple, safe, and sure way that never fails to get rid of blackheads. That is to dissolve a little of this, get two ounces of peroxide powder from any drug store—sprinkle a little on a hot, wet cloth—rub over the blackheads briskly—wash the parts and you will be surprised how the blackheads have disappeared. Big blackheads, little blackheads, no matter how they are, simply dissolve and disappear. Blackheads are a mixture of dust and dirt and secretions that form in the pores of the skin. The peroxide powder and the water dissolve the blackheads as they wash right out, leaving the pores free and clean and in their natural condition.

### Members of Third Order St. Francis Make Profession

An impressive ceremony took place in the Cathedral of Immaculate Conception, after the benediction last night, when about 100 members of the Third Order of St. Francis, made their profession and were received into the Third Order by Rev. Pinare Raymond, a Franciscan priest from Mal-

seet, at the juncture of the Tobique and St. John rivers, where with two other members of the order and five Franciscan Sisters they conduct a mission, have a school and a hospital and do social service work among the Indians.

Following their reception into the Third Order of St. Francis the new members were addressed on their duties by Father Raymond. Father Raymond preached at all the masses

in the Cathedral yesterday on the Third Order. High mass was sung by Rev. Father Michael Murphy, of Milltown, who is in the city on his vacation.

## Keep Friends with Health

HEALTH is too valuable an asset to be considered lightly. It is very essential, if you are to take a leading part in business, to get the greatest pleasure out of life. Abundant health depends upon steady nerves—nerves untroubled by poisons often unknowingly taken daily into the system.

These poisons are Caffeine and Tannin—in tea and coffee. They are detrimental to the whole nervous system—frequently cause restless sleep, excitability, indigestion and other troubles which affect health.

Keep friends with health through Instant Postum, the hot, full-bodied drink which is friendly to all. Delightful and wholesome at any time, it is made instantly in the cup with boiling water. Economical—costs half-a-cent a cup. Ask for it at your restaurant, your club and on the train. For those who prefer it, there is Postum Cereal, made by boiling for twenty minutes.

"I want you to try Postum for thirty days. I want to start you out on your test by giving you your first week's supply.

"Will you send me your name and address? Tell me which kind you prefer—Instant Postum or Postum Cereal (the kind you boil). I'll see that you get the first week's supply right away."

The Evening Times-Star

The Evening Times-Star printed at 23-27 Canterbury street, every evening (Sunday excepted) by New Brunswick Publishing Co., Ltd., J. D. McKenna, President.

ST. JOHN, N. B., NOVEMBER 17, 1924

CANADA IS INTERESTED.

Canada should be very much interested in one of the developments following the recent British election.

The Sunday Observer says that there is little probability that the Dominion will be able to accept the protocol.

It has not been shown how the British fleet could be used to uphold the decision of the League of Nations as long as the United States remains outside it without enlarging rather than controlling the area of complication.

Equal to the fact remains that the protocol is the work of an incomplete league and, while elaborating the provisions for the maintenance of order, it has not elaborated the means of meeting the creative needs of justice.

The language is new, yet the Observer's statement is not entirely new. Mr. Baldwin very recently, before his ministry was formed, said that the protocol would have to be closely scrutinized, and that the use to which many members of the League believed the British navy should be put would call for considerable examination.

What he meant, of course, was that any concrete proposition to employ British naval power as a policeman for the League, to enforce its decisions in all the seven seas, might naturally cause hesitation, distrust and even hostility in Britain and in the Dominions, and that in such a matter it was obviously necessary to make haste slowly.

That deliberance revealed something of Mr. Baldwin's character to a great many who had not previously any working knowledge of the man and his methods. Great Britain, with Mr. Baldwin and Mr. Chamberlain as pilots with respect to foreign relations, will truly serve the real interests of world peace, but these men will not hurriedly commit themselves or the country to any agreement which would tend to limit complete British independence and control of the Navy, or to any compact which would not leave Great Britain free to guard its own interests; nor would they consent to any action which would diminish Great Britain's prestige or power, or in any sense limit the control and direction of British sea power.

The Observer believes that in order to bring about all-round disarmament there must first be a conference of all the chief nations, which circle obviously includes Germany, Russia, and the United States. It asks: "Will these Powers attend the proposed conference next June?" meaning the conference called by the League of Nations for Geneva next summer. It goes on:

"If these three Powers do attend, the whole question of the protocol will not escape being re-opened. If they do not attend, the protocol and the conference will fall to the ground."

President Coolidge long before his election to succeed himself said in a public speech that when conditions in Europe had become more settled it was his purpose to sound the principal nations of Europe as to the advisability of holding another disarmament conference to complete the work undertaken at the famous Washington arms conference. Now that Mr. Coolidge is elected he cannot, if he is to keep faith with himself, his nation, and the civilized world at large, refrain from participation in the Geneva meeting, at which both France and Great Britain earnestly hope the cause of world peace will be advanced another stage.

The temple of peace, as was said of Rome, is not built in a day. Therefore, Mr. Baldwin's unhurried examination of the whole question of the League of Nations and Great Britain's position therein, exhibits marked foresight and no little political wisdom. Even if Germany, Russia and the United States should not be represented at Geneva—although the United States, barring extraordinary developments, must be there—the Observer's conclusion that the conference will fail, and its hint that the League of Nations will be virtually destroyed, amount to one of those cocksure declarations which events are likely to disprove.

guard completely against injury to the cause of Imperial unity.

Lincoln said that he hoped to free the slaves, but that his main object was to save the Union. We may paraphrase this observation "Honest Abe's," and say confidently that the leaders of the Empire will take the view that while they will give any reasonable distance to give the world lasting peace, their first consideration must be the safety and the straightening of the British Empire. First things must come first.

ROSEBUD DAY.

Once each year the Local Council of Women, representative of all the women's organizations in the city, makes an appeal in behalf of the Children's Aid Society. This appeal is necessary because the Society does not get a large enough grant from the Municipality to enable it to carry on its work.

This year it asked for \$7,000, but the grant was reduced to \$5,000. Even had it received the amount asked for it would still have been compelled to appeal to the public for some assistance. There is, therefore, the greater urgency for a generous and general response to the appeal of the Women's Council on Rosebud Day.

The work of the Children's Aid Society is two-fold. At the outset the Home was established to care for children committed to the Society by the courts, and to be placed in foster homes. Since, however, the Protestant and Catholic orphanages find themselves always with a waiting list, it became necessary for the Society to deal with what may be termed compassionate cases, and provide temporary shelter for children whose parents, for one reason or another, but usually illness and extreme poverty, were unable for a period to care for them.

Since it was organized the Children's Aid Society has placed many children in foster homes, where they are treated as members of the family and are growing up to be valuable members of the community. Many of these were rescued from the most deplorable conditions. The Society has had the satisfaction of seeing some girls who were its wards, some years ago happily married, and in homes of their own. While it has been instrumental in sending some girls who were delinquents to the Maritime Home for Girls, it has saved others from that necessity by taking them into its Home for a time and then having them placed in good situations.

A very important part of the Society's work, concerning which the public hears little or nothing, is that carried on by its agent, Rev. George Scott, in visiting homes where conditions affecting the lives of the children are bad, and bringing about an improvement without taking the cases into court.

The Children's Home in Garden street is an admirably conducted institution, which citizens may visit at any time and see for themselves what is being done. To realize fully, however, the significance of the work, it would be necessary to see the children in their original surroundings, before the Society interested itself in their welfare.

The appeal of Rosebud Day is an appeal for the children, and for those children who are in the greatest need of shelter and care, and the heart of every citizen will doubtless be moved to respond, so that the Society may be able to carry on its work for the balance of the year without restricting its activities or being compelled to worry through lack of necessary funds.

The Reward of Honesty. (New York Evening Sun.) There are times when men are prone to smile cynically over the old adage that "honesty is the best policy." As they say, "I have seen too many men skirting the edge of dishonesty on the crest of the wave of success and too many who are incapable of deliberate dishonesty struggling in the trough. The old adage is justified, however, by an interesting event in North Dakota this week. For many years John Burke was a favorite of the people of that state. A Democrat in a Republican community, he was thrice elected to the governorship. He did not appeal to the popular mind because of the brilliancy of his intellect, but because of his reputation for rugged honesty. After serving as treasurer of the United States he imagined himself a financier, came to New York, entered into the brokerage business, and failed. No one accused him of dishonest intent—his reputation came to his rescue. He turned over every penny he had to the creditors of his firm—even to his paid-up life insurance, and at the age of sixty-three went back to North Dakota to earn his bread. No one blamed him. No one shamed him. Every one sympathized with him and praised him—because he was an honest man. And on Tuesday he was elected to the Supreme Bench by an overwhelming majority. After all, "honesty is the best policy."

Touchy Operation. (First Aid Bulletin, Ottawa.) "Now," the lecturer said, "suppose you had been called to see a patient with hysterics—someone, for instance, who had begun to laugh and found it impossible to stop—what is the first thing you would do?" "I suppose," his "funny bonny" promptly replied the new student.

No Wonder They're High (Life). "But isn't that awfully high price? Why are apples so expensive?" "Well, Ma'am, I might say—for entomological, meteorological and—ah—sociological reasons. In other words—the Tent-caterpillar, the drouth and the eighteenth amendment."

War Debts Have Reached a Tremendous Total. (Financial Post.) According to a study recently completed by the Bankers' Trust Company of New York in anticipation of the discussion of plans for adjusting the inter-nation debts, the total of the inter-nation loans on armistice day was \$2,599,177,000. Post-armistice loans aggregate about \$7,500,000,000, bringing the grand total as of today up to about \$29,100,000,000.

Logical Enough. (Judge.) A Scotchman went to the box office after witnessing the new show. "Will you kindly retain me the amount of the amusement tax?" he said. "Why?" asked the manager. "I wasna amused," said the Scotchman.

Local Color. A score or more of tiny American citizens of Japanese ancestry were gathered in a street in the Oriental section of Honolulu. Two of them were beating on tin cans, and the others were singing at the top of their voices. "Pretty sight," remarked a tourist to a friend. "Isn't it?" the friend replied. "So characteristically Oriental. I wonder what song they are singing." "Probably the Japanese anthem," said the first.

Why Families Submerge. (From The Saskatoon Star.) It is still perhaps too early to point out that the get-rich-quick methods of English-speaking North Americans lead ultimately to the disappearance of those families who now wear the white collars, and their replacement by a heterogeneous mixture of "foreigners" whose quick adoption of the same get-rich-quick philosophy enables them to beat their forerunners at their own game.

Fort William Is In It, Too. (From The Milverton Sun.) There seems to be a tight race between Elmira and Sault Ste. Marie as to which place will carry off the honors for their freak zoo.

INDUCTED AS RECTOR AT TRINITY

Rev. C. Gordon Lawrence Takes Over Duties—First Sermon. A large congregation was present yesterday morning, when Rev. C. Gordon Lawrence was inducted as rector of Trinity church by His Lordship Bishop Richardson. The keys of the church were handed over to the new rector by W. Shives Fisher, senior warden of the church.

Bishop Richardson took as his text "I am the Good Shepherd," and spoke of the parable of the Good Shepherd. It was, he said, a notable event which called the people together and recalled to his mind the day nearly 25 years ago when he had himself been inducted into the charge of this historic church. He dealt with the problems and duties of the minister and people, and in closing expressed the hope that God's blessing would rest upon the church, people and rector.

Preaching his first sermon as rector of Trinity church, Rev. C. Gordon Lawrence last night deeply touched the large congregation which filled the church to capacity. He spoke of the words in the Revelation of St. John the Divine where the gates of the Eternal City are opened as being of one single pearl. Mr. Lawrence said he believed the pearl was meant to typify purity and John had referred to a pearl who was the gate to the Holy City was the same gate and every gate was a single pearl, Christ. Then Mr. Lawrence spoke of the things which a pearl represented, and which were characteristic of Christ. The pearl represented self-sacrifice as it was made through suffering and the attainment of all good came only through suffering. It represented risk as to obtain pearls human lives were risked in the venturing. Mr. Lawrence wondered if the congregation had ever thought of God as the Great Adventurer who had risked tremendous things in giving His Son to take upon Him Humanity. It was not the agnostic who believed nothing he had not proved, who was the sportsman, Mr. Lawrence held, but it was the Christian who was the true sportsman and who told this seems too good to be true but I will risk my life to prove it. As the last thing which the pearl represented Mr. Lawrence spoke of optimism. The pearl was symbolic of the power of God to bring the best out of the worst.

In closing Mr. Lawrence quoted "I wish to be honest and to turn away from the wickedness which he hath committed and doeth that which is lawful and right he shall save his soul alive." It was a message of optimism he would often utter from that pulpit, he declared.

Rev. Mr. Lawrence will leave this afternoon for Montreal and will be absent until Nov. 26. While there he will study the methods of directing some of the larger churches.

Children's Day. Children's Day was observed yesterday at St. Luke's church following custom that has been adhered to for 29 years and to the children who had graduated from the primary department in the main section of the day school Bibles were presented by H. Usher Miller, superintendent of the school. The singing of the children's choir was a service of the church yesterday. Credit for training the children goes to Mrs. H. Usher Miller, assisted by Miss Gladys Atkins, Mrs. Kenneth Sney, Miss Margaret Higgins and Miss Bessie Chittick. Miss Mary Philbrick sang at the morning services. Rev. Canon R. P. McKim spoke at the morning service. In the afternoon Rev. W. A. Geddes, Anglican missionary from Hershell Island, spoke on missionary work. Mr. Miller gave the address at the evening service.

Rev. J. S. Bonnell, minister of St. Andrew's church, announced last evening that \$1,000 had been raised by special contribution for missions. The amount was raised in a single Sunday and established a new record for the church.

Rev. John Line, D. D., Professor of Theology at Mount Allison University, was preacher in Centenary last evening. His remarks were impressive. Robert Irvine was soloist. Rev. G. Fulton, pastor, announced at the opening of the service that Miss Lillian Deindahl, member of the church and choir for many years, had died. At the morning service, Rev. H. B. Strothard, secretary of the M. R. E. C., preached, Leonard Roberts sang.

Observe Anniversary. The 70th anniversary of St. David's church was celebrated yesterday. Rev. R. W. Dickie, D. D., of the Crescent street church, Montreal, spoke at both services. Dr. Dickie paid a tribute to Rev. A. A. Graham, a former minister, who now is in Saskatoon. The music was specially arranged for the occasion. Among those who helped make the musical programme a success were Mrs. R. H. Harris, Mrs. Moore, A. C. Smith, E. C. Girvan, Mr. Craikbank and Mr. MacGowan.

Rev. William Fraser, minister of the Presbyterian church in St. Andrews, conducted the morning and evening services in St. Columba Presbyterian church, Fairville, yesterday and in the morning had for his text Galatians 6: 1. He spoke of just and unjust criticism and said that the meanest and most contemptible form of criticism was the anonymous letter. He admonished the people to love as brethren, to be pitiful and to be courteous. The children from the New Brunswick Protestant Orphanage attended the service and Mr. Fraser spoke specially to them

MURDERED MAN'S BODY IS FOUND

Hamilton, Ont., Nov. 16.—The mystery surrounding the disappearance of Fred Genesee, taxi driver, was solved Saturday morning when workmen found his body on the mountainside a half mile east of Stoney Creek. Genesee was murdered and the circumstances of his death are similar to those surrounding the murder of Joe Baytoizac, whose body was found on the mountain near Albion Falls a week ago. Revenge is believed by the police to be the motive of both crimes. Genesee, it is understood, was friendly with the police.

The services in the Main street Baptist church yesterday were conducted by Rev. William Lawson, whose sermons were heard with close attention and much appreciation. Services in the Zion Methodist church were conducted yesterday by Rev. W. C. Machum, a missionary to China, who is on furlough. He delivered two impressive addresses on China, Past and Present, and the triumph of suffering in the preaching of the missionaries. The unfavorable weather kept many away from the morning service, but a large congregation attended the evening service. The appearance of the preacher's family, two boys and two girls, in Chinese costume, who sang, "I Am So Glad That Jesus Loves Me," was a special feature of the evening service.

NEW MEMBERS FOR Y. M. C. I. Fifteen new members were admitted to the Y. M. C. I. yesterday afternoon at the regular weekly meeting. She was one of the promoters of social service work among the less privileged girls of the city, and took great interest in the many endeavors that were for the betterment of the less fortunate girls and women. For several years she took charge of her home, when her mother's failing health and her father's infirmities made her duty at home the obvious one. With cheerful faith she declared her confidence in God to Rev. Robert G. Fulton, her pastor, when he called upon her yesterday, just before the end came. International Skating Meet Is Awarded To Saint John

TO STAGE GREAT WINTER CLASSIC HERE 2ND TIME

Signal Honor Conferred on This City by Skating Officials.

KASKY STILL OUT

Awarding of Meet to This City Delights the Fans.

New York, Nov. 16.—The international outdoor ice skating championships for 1925 were awarded to the New Brunswick Skating Association at St. John, N. B., by the International Skating Union...

The application for reinstatement of Harry Kasky, Chicago amateur skater and a member of the 1924 American Olympic Skating Team, was rejected.

That St. John will again be the scene of the great international speed skating championships will be glad tidings to thousands of enthusiasts in this city.

Citizens will recall the first great skating meet staged in this city in 1922, under the auspices of the Y. M. C. I., when Lily Lake was visited by thousands of spectators...

this city, indeed, was in a class by itself when it came to holding skating competitions.

One of the big features of this meet will be the fact that a St. John boy, Charlie Gorman, will be out defending his title of International champion.

Wille Logan, who is conceded to be one of the greatest young skaters in America, will also be there seeking new laurels on the blades, while a score of others will be ready to pit their skill and speed against all-comers.

From this it will be seen that the meet this year should be one of the greatest ever staged in America, and there is no doubt that the citizens of St. John will see to it that it will go down on the annals as the "best ever."

The schedule for the games in the City Bowling League for this week are: Monday, on Black's—St. Peter's vs. Wanderers.

SAYS FOOTBALL IS MORE POPULAR THAN BASEBALL

Writer Points Out That Attendance is Greater—Gives Reasons.

New York, Nov. 17.—(United Press)—In the phenomenal growth of football to a position where it is possibly America's most popular sport, the inter-sectional idea of competition has had a most important part.

Football has become so popular that there is no way of gauging the future growth of the game. The biggest problem now is to find room for the millions of interested fans who want to spend their Saturday afternoons watching a battle of two teams, in which the majority of the spectators have no personal interest.

"When the Yale Bowl was built," Huff said recently, "the idea to provide a place for 80,000 spectators was considered foolish. But look what has happened since. The Yale Bowl is not one-half big enough to accommodate crowds for the big games."

Discussions of the popularity of football always bring a rise out of the old reliable baseball circles. They claim that baseball is the national pastime and that certain baseball games would fill a stadium just as large as any of the football stadiums.

It perhaps is a fact that greater numbers of youngsters and older athletes are engaged in playing baseball if the football statistics to get accurate figures on the numbers of youngsters who engage in the two sports some surprising facts might be obtained about the popularity of football.

From a spectator's standpoint, football certainly ranks baseball in popularity. You can see 80,000 baseball fans braving the chill and discomfort of a wintry November afternoon to watch any baseball game.

**GOVERNMENT STOPS  
 WORK ON C.N.R. LINE  
 IN SASKATCHEWAN**

Is Taken as Part of Campaign to Discredit Work of Senate.

MONEY IS IN BANK

Upper House Killed the Bill, Saying Expense Not Justified at Time.

Montreal, Nov. 17.—Additional evidence of the extent of which the King Government is prepared to go in its campaign against the Senate is disclosed through its action in having work stopped on the Turtleford branch of the Canadian National Railway, which, it was recently announced, would be proceeded with as a result of an arrangement entered into with the Saskatchewan Government, says a special despatch from Ottawa to the Montreal Gazette.

It will be recalled that this is one of the branch lines held up by the Senate during the last session of Parliament. As the result of negotiations conducted between the management of the National Railway and Saskatchewan, it was agreed that railway funds that had lain for some years in the bank at Regina should be made available for the construction of this branch. Preliminary arrangements had been made for building, and then the work was countermanded by the Ottawa. It seems the position taken was that to proceed with the work would be to act in defiance of the will of the Senate, and, consequently, of Parliament.

This expressed desire to pay meticulous attention to the will of the Senate has caused a certain amount of amusement here. Had the building of the Turtleford branch been proceeded with, it would have been nothing more than was done in the case of the Long Lac cut-off in Northern Ontario. Dir-

ing the debate on the Branch Lines Bill in the Senate in 1923, Senator McMeans drew attention to the fact that before Parliament had been asked to give its consent. Nor did the throwing out of the Branch Lines Bill in 1923 interfere with the building of this line.

The facts in the case are that the Senate did not throw out the bill last session because it objected to the providing of a railway service for the Turtleford district, but because the expenditure of the sum of money required was not the slightest doubt that, if the money feature of the undertaking had been solved at that time without approaching Parliament for the amount, the bill could have passed. Now the work is held up because the money problem has been solved in another way.

The incident makes it plain that the Government is merely looking for a grievance on which to conduct a campaign against the Senate. It thinks that by delaying the construction of this branch line it will keep alive a grievance in a portion of the country that is very loud in its protests, and thus provide a certain amount of material for the campaign that is to follow.

**SPEAKER LEMIEUX  
 HIGHLY HONORED**

Liberals of Gaspé Offer Him Nomination as Birthday Gift—Will Accept.

Ottawa, Nov. 17.—Stating that he still feels young enough to serve one more term in Parliament, Hon. Rodolphe Lemieux, Speaker of the House of Commons, has written President Charles Lamb of the Liberal Association of Gaspé County that he will again seek the support of the electors of the riding at the next Dominion elections.

The distinguished Parliamentarian's announcement that he is not contemplating retiring from the political arena just yet is embodied in a reply to a remarkable tribute of esteem and confidence from a most representative body of his constituents on his natal day.

His Fifty-eighth Birthday.

Speaker Lemieux recently attained his fifty-eighth birthday. Accompanying the congratulatory messages, letters, telegrams, petitions from all parts of the riding where he was first elected in June, 1896, was a unique birthday gift, the offer of the Liberal candidature in Gaspé County at the next Dominion elections.

In his letter of acknowledgement Speaker Lemieux wrote Mr. Lamb, in part: "I need not say how gratified I am and I realize that my friends from the County of Gaspé are kind enough to renew their expression of confidence in me on the occasion of my birthday. The time is not far distant when I shall have rounded out 30 years of Parliamentary service on behalf of my electors. I feel that I am young enough to serve one more term in the House of Commons.

"Therefore, you may advise the good Gaspé people that I accept this generous offer with a deep sense of gratitude. If I am spared by a merciful Providence, I will again seek their support at the next Dominion elections."

**The Grain Treasury of the World**

INTO the Twin Ports at the head of the Lakes pours the golden stream of grain from Canada's Empire of the West.

Here is the grain treasury—the greatest in the world. Here, marvellous loading and unloading facilities to speed the grain movement to Eastern markets. Train after train empties its golden freight into the gigantic elevators—at the rate of three million bushels a day! Huge grain ships, equal in size to ocean liners, are filled, when need be, at nearly double that rate.

Fort William and Port Arthur have storage capacity for 53,285,000 bushels, 42,490,000 of which are provided

for by 24 elevators, connected with the Canadian Pacific Railway.

In 1923 nearly 300,000,000 bushels were shipped from these ports.

Aside from their importance as Lake Ports, the Twin Cities have thirty million dollars invested in manufacturing. A wealth of minerals in contiguous territory, a wealth of lumber and pulpwood, and water-power in abundance for their development; a strategic location in the matter of shipping, and their position on the main line of the Canadian Pacific, give the Twin Cities advantages in the way of commercial development enjoyed by few cities on the continent.

DO YOU KNOW that there are more than 2,000 station buildings on the Canadian Pacific, about equally divided between eastern and western lines; that the average payroll is over 80,000 men?

**WAS 35 YEARS ON  
PRESS ROOM STAFF**

**David M. Marshall Passes  
Away After Short  
Illness.**

David M. Marshall, a valued member of the press room staff of The Telegraph-Journal, died at his home at Little River at an early hour this morning. Besides his wife, he is survived by two sons, David G., and Ernest C., and four daughters, Mrs. Ian R. MacLaughlan, Mrs. George E. Howard, Mrs. Gordon D. Stewart, and Miss Annie M. Marshall, all of this city. Two brothers, William, Toronto, and James C., St. John; and two sisters, Mrs. Harry Gillies, McAdam, and Mrs. George Mitchell, St. John, also survive. Funeral arrangements will be completed later.

Mr. Marshall had been confined to his home about two weeks before his death, and it was one of the rare times he was away from his post, which he filled acceptably for some 35 years. He was one of the senior employes in the building in point of service, and at the time of his death, he was in his 83rd year. He was a member of the St. John branch No. 86 of the International Pressmen's and Assistants' Union, the members of which deeply regret his passing.

Mr. Marshall was blessed with a happy disposition which made much for his own pleasure in life and that of those about him. He had entered upon his duties in the press room when but a youth, in the days of the Daily Telegraph, and he had lived to see marked growth in the business and great increase in the number of papers issued daily, in the final stages of which his work counted. As before intimated, he was a very faithful man at his task, willing and dependable. By all in the employ he was well thought of and it was with great sorrow that the news of his death was heard this morning.

**ANOTHER SCOUT  
TROOP ORGANIZED**

**Fairville Baptist Boys Form  
One—Others in the  
Making.**

A very enthusiastic meeting of boys was held on Saturday evening in the gymnasium of the Fairville Baptist Church when Rev. C. J. Johnson, H. Lister and Dist. Sec. L. J. Johnson organized a troop of Boy Scouts there. C. I. Sears was chosen as Scoutmaster with A. F. Foy as assistant scoutmaster. Rev. C. J. Johnson will be troop chaplain, and the troop committee will consist of Robt. M. Thorne, Rev. G. E. Clarke, and one other yet to be chosen.

Mr. Lister and Mr. Johnson engaged the boys in various scouting games and instruction which interested them greatly, and there is every promise of a very active troop there.

This evening a re-organization meeting of Holy Trinity Troop No. 16 will be held at 7 o'clock in the Y. M. C. I., when plans will be made to obtain a meeting place, and to give the troop a new start.

**Other New Ones.**  
On Tuesday an organization meeting will be held in St. Patrick's Hall, West Side, where Rev. J. J. Ryan hopes to have a Boy Scout troop established. On Wednesday there will be a meeting in the Glen Falls Community Hall at 7 p.m., with a view to organizing a pack of Wolf Cubs under the leadership of Percy Williams of Coldbrook.

On Thursday at 7 p.m. a re-organization meeting of the Scout troop of Victoria Street Baptist Church will be held. This promises to result in the establishment of a strong troop, as several promising young men have signified their intention of becoming members of the big brotherhood of Scouts.

A meeting will be held on Friday at 7 p.m. in the Fairville Presbyterian Sunday school hall with a view to establishing a troop of Boy Scouts in connection with that church.

On Saturday at 8:30 p.m., the St. John District Troop, which is composed of troop leaders, patrol leaders and seconds from the several troops in the city, and of which His Worship the Mayor has consented to be honorary scoutmaster, will meet at the Y. M. C. A. for supper, which will be followed by a regular troop meeting. F. Choppin is scoutmaster of this troop and L. L. Johnson, district secretary, is assistant scoutmaster.

**STREET RAILWAY  
PLANS ANNOUNCED**

M. A. Pooler, general manager of the New Brunswick Power Company, announced this morning that the extension of the street car line out Manawagonish road to Moore's hill has been completed. He said he estimated that it would be the end of the week before the cars were sent over the new line as the overhead work, extending the wires, etc., was not finished as yet.

The late Saturday night car to West St. John, he said, proved so popular last year that he had decided to put it in service again this winter. It will be started on Saturday night, November 23, and is due to leave the head of King street at 12:30 o'clock.

With reference to the storm he said it had not in any way inconvenienced the railway. The company has six sweepers, two plows and salt cars ready for winter battles. All were thoroughly gone over during summer months, he said, and are in first class condition.

**MILITARY INSPECTION.**

Col. W. B. Anderson, C. M. G., D. S. O., commanding M. D., No. 7, will conduct the annual inspection of the 90th Battery at Newcastle on Wednesday night. He will be accompanied by Lt.-Col. H. C. Sparling, D. S. O., general staff officer. The 90th Battery is commanded by Major H. H. Ritchie.

**SAVS FAINT; NOT DRUNK**  
Three men were arrested over the weekend on a charge of drunkenness. Two were allowed out on deposits of \$5 and, failing to appear before the magistrate this morning, they were taken to court. One man who was present in court denied that he was drunk. He said he had nothing to eat that day and had become faint. He acknowledged having a glass of liquor. Sergeant Ralph Dykeman testified and the man was adjudged guilty and fined \$5 or two months in jail.

**ONE FINED; TWO

**KINDERGARTEN  
WORK IS TOLD OFF**

The annual meeting of the Free Kindergarten Association is being held this afternoon in the Board of Trade rooms. Mrs. Allan G. McAvity is president and Miss Marjorie Knight is secretary. Reports were to be received from the schools for the year elected. The secretary's report showed the enrollment in the five schools in the city to be about 250. The average attendance at the schools has been high during the year. The association closes the year with a deficit of about \$200. The Board of School Trustees contributes \$5,000, but the association itself raised about \$500 more than that. Sickness among teachers and payment of substitute teachers was quite a heavy item, as well as equipment renewals.

**IS CAUGHT AFTER  
MARTINON BREAK**

**Young Man Overtaken by  
Auto, Restores and is  
Let Go.**

The summer cottages of George Merrill and Lee Wright at Martinon were broken into on last Friday by a young man who said he was walking to Fredon, but at what few goods he had taken were recovered he was allowed to go.

Mr. Merrill was the first to discover the break on Saturday morning and as a young man had been seen on the road with a kit bag on his back he made chase in his automobile and caught up with the visitor at Blagdon. When questioned by Mr. Merrill he admitted that he had been in the cottage and taken a kit bag and couple of sweaters to keep him warm. As the lad seemed to be telling the truth when he said he had entered the house only for shelter and returned the goods taken, Mr. Merrill decided to let him proceed on his way.

The lad had a key which fitted one door in Mr. Wright's cottage and was in one room, but so far as could be seen had not taken anything from there nor had he made any attempt to destroy anything. Admittance to Mr. Merrill's cottage was gained by removing the screws from the hinges on the back door. None of the other cottages in the neighborhood had been disturbed.

**FIRST SNOW COMES  
EARLIER THIS YEAR**

**Winter Weather Greet's Citi-  
zens on Nov. 17—Mer-  
cury Drops Sharply.**

The balmy weather, which had prevailed here for some weeks, came to an abrupt ending during last night when a storm set in from the northwest bringing with it a fairly heavy snow fall. The storm heralded the approach of winter for the thermometer within 12 hours dropped from 46 to 21 degrees above. Early on Sunday morning the storm broke and the rainfall was heavy. Later there was a light fall of snow, which, however, did not remain long on the ground. In the afternoon the weather cleared and the sun shone. Later in the evening another change took place and rain began to fall. It continued at intervals for some hours and early this morning snow began to fall. The wind was from the northwest and at times reached 36 miles an hour.

D. Hutchinson, who is in charge of the meteorological observatory in Douglas avenue, said today that the change was very sudden and unexpected. He said that there was no snow to speak of last year until December 16 when there was a fairly heavy fall, which remained on the ground until December 20. No snow, he said, covered the ground last November.

**As Hiram Sees It**

"Well, sir," said Mr. Hiram Hornbeam to The Times reporter, "you orto 'ave seen the hens this mornin' when Hanner let 'em out. The way they tip-toed round in the snow an' looked sideways at it was as good as a play."

"I assume," said the reporter, "that you have your sleets all ready for use."

"I hev so," said Hiram, "but I aint reckonin' on usin' 'em stiddy jist yit. We haint had no Injun summer yit. That fine weather we hed was jist a hold-over from the summer. But you don't ketch Hiram with his arm in a sling. Jist as soon as the enough snow you'll see me back in the woods with a pair of bob-sleds yan'kn' out wood for next year. I believe in keepin' the old wood-shed full, an' giving the wood lots o' time to dry. An' if I didn't I'd hear from Hanner. The's some critters that'll let the bull winter afore the summer's over. They do all their work jist like that an' then holler about hard times. I dassa you got some folks like that right here in town, too. When winter comes they haint got nothin' when but their complaints an' they hev them all the time—By Hoo!"
