Eastern Sicily Rent By Earthquake; Hundred Or More People Are Killed; Volcano is Active

Panic Stricken Sicilians Flee From The Angry Aetna; Spend Night In Fields and Churches

RAILWAY WRECKED; FREIGHT CARS ARE LIFTED AS IF BY A GIGANTIC HAND

Two Towns Completely Destroyed; Hundreds of Homes in Others Wrecked; Villages Are Devastated—Volcano Threatens to Make Disaster Worse

Naples, May 9—A series of violent earthquake shocks in eastern Sicily have killed many persons and destroyed or wrecked several villages. The disturbances, which began last night, about ten o'clock, continued today. The volcano Aetna is becoming active and there are fears of an overwhelming eruption.

Communication was interrupted by the quake and it was not until today that the full seriousness of the disaster was learned. The property damage is vast, running into millions. There were three heavy shocks followed by intermittent undulations. The greatest force was spent near the villages of Acireale, Lincera and Magano. Lincera was destroyed, and many persons there were caught beneath falling debris and killed or injured.

A dispatch from Messina said that forty persons had been killed and forty injured at Lincera. Another message said that thirty had been killed and 120 injured at Acireale. At Magano a passenger train was derailed and many persons were hurt.

People Flee From Mt. Aetna

Within two hours after the first shock flames gathered at the crater of Mount Aetna and the rumbling in the interior of the volcano increased.

At dawn today great clouds of black smoke could be seen rolling upward

from the mountain, obscuring the sky. Many persons in hamlets upon the side of the mountain, left their homes in fright. The district hit by the earthquake shocks is thickly populated.

Acireale has a population of 27,000, Catania province, in which the main force of the tremors centred, has suffered more from earthquake than probably any other region on the globe.

The state railway of Sicily was wrecked near Acireale, part of the wreckage being hurled 700 feet into the air by the terrific force of the quake. Trains were derailed and heavy freight cars were lifted upward as though by some gigantic hand. As soon as the government learned of the extent of the disaster, special trains were rushed into Syracuse, and other cities, bearing physicians, medical supplies and soldiers, who will conduct the relief work.

A dispatch from Catania says that the people of that city were panic stricken by the earth tremors and many of them rushed from their homes and spent the night in the fields or upon their knees in the cathedrals. The shocks were also felt at Messina, where members of the destruction of that city in 1908, still lingered vividly.

Say 100 Killed

Acireale, Sicily, May 9—At least 100 persons were killed and as many

more injured as a result of the terrific earthquake which shook a score of towns and villages in this section, last night.

Reports of dead and injured poured in every effort was being made to care for refugees. The village of Bougiardo alone reports ten dead and twenty injured. Two towns with a population of 1,000 or more, were completely destroyed. Hundreds of houses in other towns were wrecked.

Acireale, a seaport town, is well built on a height at the base of Mount Aetna, and every road leading to the city today was choked with sobbing, praying refugees fleeing from their homes.

Lincera, with a population of 900, and Veneria, a town of 2,190, were completely destroyed. Hundreds of houses were wrecked in the villages of Zerbitis, Pennisa, Belpasso, Maria, Vergine, Mangano and Zaffrano. The entire population of a hundred villages at the base of the volcano had deserted the town today, and fled to the open country, fearing a disastrous eruption of the volcano as well as further earthquakes.

Before every wretched shrine, priests gathered today with hundreds of refugees who petitioned the intervention of the Virgin Mary in the calamity falling upon them.

HUERTA DECLARES HE WILL NEITHER RESIGN NOR FLEE

Sees Danger of War Outbreak at Vera Cruz—Refugees Tell Different Tale and Say He is Within Few Days of The End

Mexico City, May 9—General Huerta has no intention of resigning or resorting to flight.

In statements to newspaper men in conversation with his advisers, and in every movement in his direction of affairs, the dictator made this clear today. He indicated that it would be no surprise to him, if some incident at Vera Cruz, under present conditions, brought on actual war before peace negotiations are fairly under way.

Vera Cruz, Mexico, May 9—General Navarrete, the Federal commander now at Jalapa, has mounted many guns at Cerro Gordo, to resist any American advance on Mexico City. If the American troops are obliged to march on the capital, Cerro Gordo is expected to be the place where the Mexicans will make their main stand.

Torreon, Mexico, May 9—Troops are being rushed to the front as rapidly as possible and only await the bringing up of heavy artillery and supplies before the attack on Saltillo is begun. The advance

is steady and the investment is rapidly approaching completion. Villa expects to have 20,000 men against something more than 15,000 Federals in Saltillo.

General Carranza arrived in Torreon last night.

Belive Huerta Near End

Vera Cruz, May 9—President Huerta has mined the streets of his capital. If he is overthrown, he plans to wreck the city, making the world gasp at the catastrophe that marks his downfall. This is the amazing story brought here by Oscar Bruin, a prominent mining man of Oaxaca. Huerta has reason to prepare for the end, said Mr. Bruin today, for he is hemmed in on all sides. He has stopped drinking in the afternoon.

Fleeing to the Americas, who are the only ones who will spare his life, or dying in the ruins of his capital or at the hands of a rebel firing squad are his alternatives. Most of the refugees believe his fate will be determined within a week.

There were also many flowers from relatives and friends. The body was taken to Hillsboro by train and interment will be made there this afternoon.

SWEPT OVER NIAGARA

Unknown Man in Small Boat Goes Over Horseshoe Falls to Death

Niagara Falls, Ont., May 9—Resigned to his fate after an almost superhuman effort to reach the Canadian shore, an unknown man was swept to his death over the Horseshoe Falls in a small boat. His plight was not discovered by those on shore until he was well into the danger zone and any effort to rescue him would have been futile.

When first seen he was probably 250 feet out and had his boat pointed toward the Canadian shore at an angle of about 45 degrees. He was rowing frantically.

When the boat was probably 100 feet from the brink the man rose to his feet and waved to those on the shore, throwing both arms out and upward. He held them in this position as the boat reached the brink and toppled over into the basin below, carrying its victim to his death.

When he abandoned hope of self rescue the unknown let go his oars and sat in the boat watching its course toward the inevitable death. It is estimated that fragments of the boat were seen floating about in the basin below the falls.

MATHIESON TO THE FEDERAL CABINET?

P. E. Island Rumors of a Political Shuffle

HE IS ISLAND PREMIER

A. A. McLean May Get a Judgeship and Provide Him Seat in Ottawa House—Hon. W. S. Stewart Likely New Leader of P. E. I. Government

(Special to Times)

Charlottetown, P. E. I., May 9—There is a widely circulated report here, apparently based on a good foundation that Premier Mathieson will soon abandon provincial politics to take up federal. The move on the political checker-board which will probably be made to bring this about, are said to be as follows:

Dr. Roche, the present minister of the interior, will retire; Arthur Lynn, solicitor general, will take his place, and Premier Mathieson will take the solicitor generalship. A federal constituency must be found for Mr. Mathieson. This will be provided by the resignation of one of the present Conservative members for Queens, A. A. McLean. He will likely get something more permanent than an M.P.'s job, and the nearest thing in sight is county judgeship. There seems to be no doubt that whatever arrangement is made, Mr. Mathieson will, in the course of a few weeks, retire from the leadership of the local Conservative party.

The man spoken of as his successor is Hon. W. S. Stewart, who was acting premier this season, during Mr. Mathieson's absence on one of his delegations to Ottawa.

Patrick McNelis was arrested yesterday on a warrant charging him with assaulting James A. Green on May 6. The case stands for Monday.

NEW LIBRARY BULLETIN

Bulletin No. 2, volume 8 of the new Free Public Library series has been issued by Miss Martin, the valued librarian. It is, as its predecessor, arranged on the decimal system, which makes for better results. This bulletin is of seventy-seven closely printed pages. It is methodically arranged under such classification as books relating to Canada; geography, description and travel; literature; biography; history; fiction; etc. Of the books relating to Canada, some are very valuable additions to the library, and some have special claim to St. John attention. The "Loyalists of the American Revolution," reports of the commission of Conservation; writings by John and James M. Macoun; catalogue of paintings, drawings, etc., from the National Art Gallery of Canada; "One Thousand Facts About Canada," issued by the Agricultural Department of Canada; Dr. A. A. Stockton's vice-admiralty court digest and cases; "The Amaranth," a magazine conducted by Robert Shives; Recollections of Sixty Years in Canada, Sir Charles Tupper; "Ancient York Mason" in British America, by James Vroom; "Review of Historical Publications in Canada," by G. M. and W. S. Wallace, the Year Book of Canada, 1870, and Rules and Forms of the Canadian Patents Office.

It has been well said by a prominent librarian that "a public library is the one great civic institution supported by the people which is designed for the instruction and pleasure of all the people; young and old, without age limit; rich and poor, without class limit; educated and uneducated, without culture limit; its function being to instruct and benefit. There is positively no limit to the things which a public library can legitimately do in carrying out its purpose except the limitations of financial resources."

WIDOWED, FINISHES HUSBAND'S CONTRACT

Tacoma, Wash., May 9—Signaling the entrance of woman into a new sphere of activity, Mrs. Nelson Bennett turned over to the Northern Pacific Railroad the completed Point Defiance tunnel, in the north end of this city, which is to shorten the Tacoma-Portland line and greatly reduce the grades.

Upon the death of Nelson Bennett, a pioneer railroad builder, last July, Mrs. Bennett notified the company of her intention to assume the contract obligations of her husband and promised to finish the great \$4,000,000 project on schedule time.

Personally superintending the work on the big tube, Mrs. Bennett soon had matters running smoothly. More than 800 men were under her control and the monthly payroll was in excess of \$18,000. From eight to ten hours every day the resolute woman executive was "on the job," personally supervising the work of her subordinates.

Her untiring energy was rewarded when the finishing touches were put on the mile long tunnel and it was pronounced ready for the passage of trains.

THE BOY SCOUTS

Meeting Today Takes Steps To Place Movement on Firm Basis Here

The first steps towards placing the Boy Scout movement in New Brunswick upon a substantial and permanent basis was taken this morning at a meeting in the Board of Trade rooms. The meeting was called by Lieutenant Governor Wood, who presided. His Honor explained that His Royal Highness the Duke of Connaught was very anxious that the order should be put in a strong position before his tenure of office expires and he desired to see New Brunswick do its share.

The organization of a provincial association was proceeded with and officers were elected as follows: Honorary president, Lieutenant Governor Wood; president, Colonel Wedderburn, Rothesay; 1st vice-president, Alex. Mungall; 2nd vice-president, Mr. Harris, Moncton; commissioner, Malcolm McAvity, and secretary, R. Ingelton, St. John. The council will be composed of Rev. E. B. Wyllie of St. Stephen and others to be chosen by the executive.

A local council for St. John was also organized with: President, W. S. Fisher; commissioner, R. A. McAvity and secretary, R. Ingelton, with a council composed of the local scout masters.

When the general meeting adjourned a session of the newly organized provincial association was held. Col. Wedderburn presiding. The association discussed plans for the extension of the work and selected a finance committee consisting of Lieutenant Governor Wood, Sir Frederic E. Barker, Senator W. H. Thorne, Col. Wedderburn, James F. Robertson and A. C. Skelton.

If sufficient funds are secured it is possible that a permanent secretary may be engaged for organizing.

HALIFAX TRAMWAYS BILL IS GIVEN SECOND READING

Halifax, May 9—The Halifax Tramways bill, known as "No. 97," which has been vigorously debated in the legislature for weeks, early this morning passed its second reading on nearly strict party lines, 20 to 14, and was sent to the committee of the whole house for further consideration.

BANK ELEVATOR IS GIVEN SEVERE TEST

An interesting test was made on the new elevator in the Bank of British North America building one day this week. It was what is known as the "drop test" to try the safety brake on the car in case it broke loose from the cable which supports it.

In the test the cable was set loose and the car was suspended near the top of the shaft by a manilla rope. A ton weight was placed in the elevator and the rope cut with an axe. In spite of the fact that the car was dropping at the rate of 800 feet a minute, at which speed the safety appliance is tripped, it was brought to a gradual stop after going but fourteen feet. The test was a complete success and the elevator is now ready for the power to be turned on and the car put into commission.

WANT ARCHBISHOP OF CANTERBURY TO ATTEND CONGRESS IN TORONTO

Invitation Early so That Plans May Be Arranged—Heavy Welcome Assured

Toronto, May 9—Invitations have been sent by the committee of arrangements to the Archbishop of Canterbury and other members of the Upper House of the Church of England, to attend the church congress and opening of St. Alban's cathedral next year. The reason for the invitations are being sent at this early date, was that the clergy invited are of such eminence that their arrangements have to be made many months in advance.

The Archbishop of Canterbury will be re-welcomed to Canada with great heartiness, if his engagements will permit his acceptance of the invitation.

The previous church congress in Canada, held in Halifax, was attended by two bishops from Great Britain, those of London and Glasgow, and a larger representation of the British Episcopal is expected at the congress here.

Men and Women of Mexican Army Ready to Fight America

Photo by American Press Association.

Mexican federals are a queer lot of soldiers from the eyes of an American. They take their fighting as naturally as a duck takes water and as easily. They take their time in their campaign as in their living. The men are always accompanied by the women, who act as general housekeepers for the camp. Here is a typical view of men and women in the Mexican army.

Easy & Practical Home Dress Making Lessons

Prepared Especially For This Newspaper by Pictorial Review

A TAILORED MOIRE

up with unanimous enthusiasm, and their lead has been followed on this side of the Atlantic, with the result that tailored costumes either developed or trimmed with moire are prominently presented in the new spring and summer fashions.

Four yards of 44-inch material will make this design, and, as moire ranges in price from \$1.50 to \$5.50 a yard, the cost of the dress may be limited to the income of the owner.

Today's lesson deals principally with the making of the little coat, because it may be made in any favored material and worn separately. To cut it, the pieces with the triple "TTT" perforations are laid on a lengthwise fold of the goods and the remaining pieces with line of large "O" perforations on a lengthwise thread of the material.

Now, for the making. Pleat lower edge of the front, placing "T" on small "o" perforations and tack. Center-front indicated by double "oo" perforations. Join front and back sections as notched. Slash back on lines of three small "oo" perforations; finish edges for openings to pass pleated ribbon through, in the front.

Adjust collar to position underneath front and stitch along single small "o" perforations, bringing single large "O" and double small "oo" perforations in collar and in front together; tack extension at upper edge of back to position, notches even. Close sleeve and cuff seams as notched, sew cuff to sleeve, notches and seams even. Sew in armhole as notched.

The skirt is high waisted and finished with a wide grille of soft satin, which is fastened at the front.

Misses' costume consisting of floured skirt and coat, carried out in tan-go moire. The collar and cuffs are adjustable and may be of any favored material.

The Vogue for moire has never reached such a height as it has attained this season. Paris designers have taken it.

Daily Hints For the Cook

Rice or Tapioca Custard Pudding
Boil 1-3 cup of rice in plenty of water; when cooked, pour into a strainer. Put the strainer that holds the cooked rice under the cold water faucet, turning it over gently by shaking sieve. Butter your baking dish well, toss the cooked rice in dish, add 1 pint of milk, 1-2 teaspoon salt, 2 tablespoonfuls of sugar, nutmeg to taste and 8 well-beaten eggs. Stir up. Put into oven, with indicator at 200 degrees or in a very slow oven, so it cannot boil, as it turns watery if it boils in oven. Stir in the beginning until it begins to curdle, then leave it alone until done, only turn it round so it will brown all over.

Use 1-8 cup pearl tapioca in place of rice, soaked over night in plenty of water. Drain off in the morning, then add custard and bake same as rice pudding.

At the horse races at Autell, white was conspicuous in many dresses.
All the wraps seen were made in cape style, some long and full and others reaching only to the waistline.
French women showed a predilection for dresses in sombre hues, as black and navy in gabardine and in taffeta. White serge dresses were also popular.
A large number of English visitors wore bright and startling colors in four-lard and Scotch plaid taffeta.

Much of the millinery worn at the races was trimmed with flowers.
The week-end trunk is quite a novelty. It is made of patent leather and has three trays. It is lined with dainty flowered cretonne. It is very light and is intended to take the place of the suitcase.
A stylish suit for afternoon is made of vistarina poplin with the new short jacket. The skirt is fashioned with two ruffling tunics.
Emerald green charmeuse is a popular color and material for an evening dress. A touch of yellow in the corsage is worn with it for contrasting effect.
The crystal beaded chiffon tunic is as popular as ever on evening gowns.

TORTURE OF SCIATICA CURED QUICK! "NERVILINE" A SUCCESS EVERY TIME

Stops the Pain Quick—Acts Like Magic—is Harmless and Pleasant.

Sciatica is the most severe pain man can suffer. The great sciatic nerve is deeply placed, and you can reach it only by a pain remedy, as penetrating and powerful as NERVILINE.
The glory of NERVILINE is in its strength—in its marvelous power of penetrating deeply. In severe pains, such as sciatica and neuralgia, NERVILINE demonstrates its superiority over every other remedy.
Extraordinary pains, such as rheumatism or sciatica, can be overcome only by a

remedy as extraordinary as NERVILINE. In many lands it has shown itself to be the best for little pains, best for big pains, and best for all pains.
When one has acute rheumatic pains, stiff joints or a stiff neck, don't experiment—seek a remedy that cures. Like lightning in rapidity, as sure as fate in its certainty of relief, NERVILINE can never be surpassed for the removal of pain, no matter what advance science may make. It is perfection in its line.
Do not trifle with ordinary or oily liniments, use NERVILINE. Prove its efficacy—it's the one liniment that rubs right into the core of the pain.
A large 50 cent bottle will cure the aches and pains of the whole family. Trial size, 25 cents. Sold by all dealers everywhere, or the Catarrhozone Co., Kingston, Canada.

STARTLING COSTUME IN BLACK AND WHITE

Quickly Freed from Grease and Grime and Easily Kept Spotlessly Clean with Old Dutch Cleanser

The more startling your costume this season the more likely it will be to find favor.

To demonstrate this point it seems necessary only to look at this checked suit which, worn at the races recently, drew much commendatory attention. It is made of closely woven black and white material with the new bias over-skirt and cordings.

The collar, cuffs and gaiters are gray.

A TRIBUTE TO JAMES LOWELL

While general expressions of regret are forthcoming from all directions at the death of James Lowell, no locality or people feel his loss as keenly as does Lancaster, where his labors were more abundant not only as councillor for the parish but as citizen and friend.

Every one in the community knew him, his genial manner and good fellowship breaking down all formalities, and not the slightest difference was noticed in his attitude from the time he became councillor until the electors reposed in him their trust as a member of the provincial legislature; he was the same offhand friend to all, election or no election.

Some have asked the secret of his success in the county, and it may be of interest for a resident to express an opinion after following his career through several campaigns, as well as in the time between.

Mr. Lowell was first a man, and afterwards a politician. Many reverse the order and so may well question how such signal success could be his. An opponent in political matters to Mr. Lowell need never have feared the next day after election or at any time later to meet him, ask his advice, or greater still, his aid, for there was no room for malice in his make-up.

Man after man in Lancaster can bear testimony to this, and his majorities over rivals were proof that many tax-payers classed as opponents by Mr. Lowell's own political party must have voted for the man they knew him to be over the head of their own party, and without Mr. Lowell's knowledge, for both tory and grit, except in the election of 1911 when many issues conflicted, voted only one way, and that way was Lowell.

His generosity (never the so called charity) was proverbial in these parts. Few really were acquainted with the scope of his givings, and that is another sidelight on his big-hearted self.

Public weal seemed his hobby, and if the hours spent in committees consultation while attending public duties were counted, the community would be surprised to learn how much of his life he had really given in their behalf.

Usually in the run of years one outstanding figure appears in every community whose record is difficult to attain. Such a personage was James Lowell to the rank and file of county folk, and he is mourned today sincerely, by many who will not even be able to attend his funeral, in grateful memory for all he has accomplished and shown to be possible in one very, very human man.

RECENT WEDDINGS

The marriage of William Henry MacGowan, son of Mr. and Mrs. H. L. MacGowan, of this city, and Miss Jean Thompson Logan, of Amherst, was solemnized by Rev. F. G. MacIntosh on Friday, May 1, at Sackville. Both bride and groom are residents of Amherst (N. S.).

The wedding of Frederick J. Maher, formerly of St. John and now of Edmonton, Alta., to Miss Katherine McGourty, also of this city, took place on April 29 in St. Mary's Cathedral, Calgary. Miss Rose Harvey of Calgary acted as bridesmaid and A. H. McGuire of St. John was the groomsmen. Rev. Dr. A. E. McDonald performed the ceremony. Mr. and Mrs. Maher will reside in Edmonton after a trip to Banff.

ANSWER THE QUESTION.

The attention of that high-minded and eminently judicial newspaper, the Standard, is directed to the fact that if Mr. Borden and Mr. Hazen had not assented to the Gutelius agreement the Gutelius agreement would not have been in force last winter. The more than two columns of space which the Standard this morning devotes to a discussion of this subject does not obscure the fact that Mr. Borden and Mr. Hazen endorsed the Gutelius agreement. Will they endorse it again? That is the question asked by the Times yesterday, and to which the Standard offers no reply but abuse of this paper. Fortunately the attitude of Mr. Hazen cannot long be in doubt. A strong delegation is going to Ottawa, representing the city council, the board of trade, the trades and labor council and Fairville board of trade. The members of this delegation, most of whom are Conservatives, say that the Gutelius agreement must not be renewed. What does the Standard say about it? What does Mr. Hazen say? What does Mr. Borden say? Even if the Times were shown to be utterly unworthy of any consideration as a newspaper the facts concerning the Gutelius agreement remain, and when the test comes Mr. Hazen, Mr. Borden and the Standard must stand up to be counted. They are on trial just now, and not the Times and Telegraph.

CIVIC IMPROVEMENT.

In some cities of the United States the Chambers of Commerce take a great deal of interest in civic affairs and in matters relating to civic welfare generally, as well as those which relate to trade and industry. For example, the Chamber of Commerce in San Francisco, which was formed in 1911 by the consolidation of several organizations, has an inspection bureau which devotes its attention to public works. The bureau was started some years ago by an organization called the Merchants' Association, and was carried on later by what was called the Civil League of Improvement Clubs, and finally by the Chamber of Commerce. At the time the bureau was first established the city needed many public improvements, but the citizens were somewhat skeptical about bond issues, and it was for the purpose of reassuring the public that an inspection bureau was established. At first it had only one inspector, but since 1911 five have been employed most of the time, with an office staff in addition. All the expenses are paid by the Chamber of Commerce, and its officials inspect all public works in course of construction and report thereon to the Chamber, independent entirely of the civic authorities. The Chamber took the ground that the people should know how the city's money is being expended, and that there should be an independent means of getting the information; hence its inspectors watch the construction of schools and hospital buildings, sewers, the water and fire protection system, garbage disposal, the water works, railway, etc., and submit reports every month, showing the status of every piece of work under construction, and giving comments and criticisms, as well as an audit of the moneys disbursed. If defects in any work are found, a protest is promptly entered. This appears to be an unnecessary bureau if the people have confidence in their civic rulers, but it would probably not have been established if the members of the San Francisco Chamber of Commerce had not felt that it was necessary. Another illustration of activity by a Chamber of Commerce comes from Atlanta, Georgia. The city was in great need of municipal improvements, but there was hesitation about entering upon the work. The Chamber of Commerce collected data, and showed conclusively the need for immediate construction of sewage disposal plants, a water works system, new schoolhouses and other civic improvements. Twenty-five members then investigated the question of a bond issue of three million dollars, and reported to the municipal authorities in favor of the issue. It was necessary, however, to obtain a two-thirds vote, and at the request of the municipal authorities the chamber conducted a campaign of education, with the result that while eighty-four per cent of the registered voters cast their ballots, only sixty-six persons voted against the bond issue. The Chamber of Commerce also assumed the expense of securing two members from the Municipal Research Bureau of New York, to investigate every branch of the city government and report to the municipal authorities, the report being published and distributed throughout the community. Where the active members of the business community take so much interest in civic affairs, and work in co-operation with the constituted civic authorities, it is much easier to secure needed civic improvements and to better the living conditions in the community. There is too great a tendency, perhaps, to regard the civic government as a thing apart, and to expect it to do very much more than it is capable of doing unless actively supported and encouraged by the business community. Moreover, whatever makes for civic improvement

and better living conditions is better for the business as well as the social interests of the city.

NEW COMMERCIAL DAILY.

Canada's new daily commercial journal, the Journal of Commerce, made its appearance on Tuesday. Hon. W. S. Fielding is the president and editor-in-chief, and Mr. J. C. Ross, M. A., the managing editor. It is announced that the paper will have its own special correspondents in every important centre in Canada, with leased wires to New York and special cable arrangements with London. In the leading article in the first issue the Journal of Commerce says: "Up to the present time, Canada has never had a financial-commercial daily. Those back of the new enterprise believe that the time is ripe for the publication of such a paper in Canada. Many countries smaller in population and in resources than the Dominion have their own daily commercial papers. In Australia, the Daily Commercial News and Shipping Lists serves as a barometer for Australian commercial conditions; the Journal Do Commercio of Rio de Janeiro is doing a similar work for Brazil; in the United States there are almost a score of daily financial and commercial dailies, while in Great Britain, such papers as the Daily Journal of Commerce, of Liverpool and others of a similar nature have a world-wide reputation. Canada today has a yearly trade in excess of one billion dollars, while hundreds of millions of dollars of British and foreign capital is pouring into the country for investment. The country's banking institutions, her insurance companies, her investment houses, her transportation systems, her manufacturing industries and commercial houses compare favorably with those of any other country in the world. It is with the object of serving these that the present weekly Journal of Commerce is to be turned into a daily financial-commercial newspaper." The Journal of Commerce is an eight page paper, and the first number is filled with very interesting news for business men. The fact that Mr. Fielding, who has been Canada's finance minister, and is also a trained newspaper man, is at the head of the new daily, is a guarantee of intelligent treatment of all questions relating to industry, trade and commerce, and financial questions in general. The Journal of Commerce will be heartily welcomed both in newspaper and business circles throughout Canada.

Of course the actor men could not do justice to the production on the baseball grounds yesterday. There was no heroine in the cast.

The record of the carriage of trans-Atlantic mails as kept at Ottawa during the past winter shows that Halifax has no justification in that record for claiming an exclusive mail service.

There was a further decline in the revenue of Canada last month. The Borden government, however, does not show any indications of a policy of retrenchment, especially War-lord Hughes.

Sir Thomas Shaughnessy is not very optimistic in regard to business in Canada. He does not look for any great recovery until the fall, and a change then would be contingent upon a good crop. However, Sir Thomas regards the basic conditions of business as sound.

We are again informed that the Liberal party is anti-British and disloyal, and of course the information comes from friends and allies of the gentleman who boasted that his ancestors "shot holes in the British flag."

Congratulations to Mr. W. E. Hopper, formerly of the Times' staff, who has been promoted to the position of managing editor in Montreal for the McLean trade papers. Ability and industry have received a deserved recognition.

The observance of Mothers' Day is a pretty custom, and will no doubt be honored quite generally in St. John tomorrow. If it were daily honored the burden on many a heart would be much lighter. Unhappily it is too much the common habit of thought on the part of young people to give themselves up to pleasure, without much consideration of the burden so cheerfully borne by toiling mothers. It is also too much the habit of young people away from home to forget the mother who longs for word concerning them and their experience in life. The sweetest of human memories are those associated with mother love, and the home, however humble, of a childhood that knew the care of a good mother.

WILL TAKE LONG REST

Frederick Gleaner, City Clerk J. W. McCready left on the steamer Victoria for St. John en route to Norton, where he will remain for an indefinite period. He was accompanied by Mrs. McCready. The city clerk's health since his return from Montreal has not shown any improvement and his physicians have considered it advisable that he take a long rest.

BIRTHDAYS OF NOTABILITIES

SATURDAY, MAY 9. This is the natal day of President George C. Creelman, head of the Ontario Agricultural College, Guelph, and one of the foremost agricultural educationalists in America. He was born in Collingwood, Ont., forty-five years ago and was among the first of the students of the institution over which he now presides. On graduation he went to the United States, where he became a professor in the Mississippi Agricultural College. Returning to Canada in 1897 he was made superintendent of farmers' institutes, a position which he filled most acceptably owing to the geniality of his character. He was appointed to his present position just ten years ago. Big, jovial, whole-souled, he is the life of any party in which he is included, and through his abundant energy he is doing much for the improvement of Canadian agriculture. Also born to-day:—Hon. W. A. Charlton, Toronto, born New York State, 1881; W. S. Dingman, Stratford, born Lambton County, 1889; J. J. McArthur, Ottawa, born Aylmer, Q., 1866; D. W. Robb, Amherst, N. S., born Amherst, 1856.

SUNDAY, MAY 10.

James William Tyrrell, second of the three Tyrrell brothers whose explorations in Northern Canada have added great value to the country, was born fifty-one years ago today in Westport, Ont. He is by profession a civil engineer and on graduation became topographer of the Geological Survey of Canada. In 1885 he joined the Hudson Bay expedition as hydrographer and since then with his brother, J. B. Tyrrell, he has been pretty well all over the interior of Northern Canada. The results of his journeys have been published in a book, the contents of which make exceedingly interesting reading. He now resides in Hamilton, where he carries on the business of a civil engineer. Also born today:—Mahon K. Cowan, Toronto, born Blytheswood, Ont., 1868; S. H. Ewing, Montreal, born Londonderry, Ireland, 1884.

Hearing a noise at the kitchen entrance the man of the house slipped quietly to the rear door and suddenly opened it. The grocer's delivery boy was there with a basket containing a dozen eggs, a pound of butter, and some Roquefort cheese. "O, it's you, is it, Billy?" said the man. "My wife is always afraid that she hears a noise here, especially when it begins to grow dark. She thinks it's a robber!" "Well, she needn't change her mind on my account," gloomily responded the grocer's boy, handing over the goods and presenting the bill, which called for \$1.78.

In L'Esprit des Français is an instance of the sharp, biting wit for which Alexis Piron, a French epigrammatist, was famous.

A young author whose ability was by no means equal to his conceit, was discouraging at length upon the merits of his work.

"I am tired of writing of that which others write of," he said. "I want to create an original work, something that no one has ever written about or ever will write about."

Piron turned quickly to the speaker. "Why not write your own eulogy?" he said.—Youth's Companion.

WOMAN WANTED A BARBER Even Hotel Manager Thought the Demand Unusual

Mrs. Lois Hughes, who as manager of the woman's floor at the hotel is a sort of court of reference when woman patrons of the hotel make a request of an unusual nature, was eating luncheon after a busy morning when a bell-boy entered the restaurant, approached her table and whispered something.

"She wants a barber?" asked Mrs. Hughes.

"Yes, ma'am, a Holy Bible," repeated the bellboy.

"You'll find one on my desk," said the manager, turning her attention again to her luncheon.

After an interval the boy came back. "She don't want a Bible, ma'am, at all," he said. "She wants a barber."

"A barber? Impossible. Perhaps she means a laundress."

"No, ma'am she said a barber, and she's real mad; says she has been telephoning about the hotel for twenty minutes."

So the manager, with visions of a headed lady's having strayed into the hotel incognit, hurried to her office and took command of the situation.

"You wish a barber, madam?" she inquired sweetly over the telephone, after having been connected with the room on the 16th floor where came the command.

"That's what I said, and I have been saying it over and over again to sixteen persons. Why can't you send a barber up?"

"But madam—" "Yes, a barber. My husband is not feeling well and he doesn't want to get up and he wants the barber to come up and shave him in bed."—New York Times.

CHAMCOOK PLANT IS NOT TO BE REOPENED Canadian Sardinie Co's Affairs to Go Into Hands of Receiver—Eastport Gets Fish

Eastport, May 9.—Those who were looking forward to the opening of the Canadian Sardinie Co, plant at Chamcook, N. B., were disappointed this week to learn that the affairs of the company were to be placed in the hands of a receiver on request of the banks and the prospects of the resumption of business at Chamcook are very remote. The few who remained in the Canadian village anticipating that the factory would reopen are now preparing to move elsewhere.

The sum of \$25 a hoghead was paid for herring this week but that price is expected to drop considerably when the spring run of fish is on in earnest. The arrival of 100 hogheads of fish at several of the factories in this city and the call to work for several hundred employees on Wednesday morning, May 6 was a welcome sound after about six months of idleness. Steam has been started in a number of other plants which will open as soon as fish arrives.

The body of John Gould, well known in Moncton and vicinity, was discovered in a field near Truro, N. S., and from the external appearance he had been dead for some weeks. Mr. Gould was between seventy-five and eighty years of age and had no settled home, but traveled about the country.

CHAMCOOK PLANT IS NOT TO BE REOPENED Canadian Sardinie Co's Affairs to Go Into Hands of Receiver—Eastport Gets Fish

Eastport, May 9.—Those who were looking forward to the opening of the Canadian Sardinie Co, plant at Chamcook, N. B., were disappointed this week to learn that the affairs of the company were to be placed in the hands of a receiver on request of the banks and the prospects of the resumption of business at Chamcook are very remote. The few who remained in the Canadian village anticipating that the factory would reopen are now preparing to move elsewhere.

The sum of \$25 a hoghead was paid for herring this week but that price is expected to drop considerably when the spring run of fish is on in earnest. The arrival of 100 hogheads of fish at several of the factories in this city and the call to work for several hundred employees on Wednesday morning, May 6 was a welcome sound after about six months of idleness. Steam has been started in a number of other plants which will open as soon as fish arrives.

The body of John Gould, well known in Moncton and vicinity, was discovered in a field near Truro, N. S., and from the external appearance he had been dead for some weeks. Mr. Gould was between seventy-five and eighty years of age and had no settled home, but traveled about the country.

A farmer in the country last Autumn gave a job to a seely-looking individual who had applied to him, and who had assured him that he never got tired. When the employer went to the field where he had put the tramp to work he found the latter lolling on his back under a tree.

"What does this mean?" he asked the employe. "I thought you were a man who never got tired?"

"I don't," calmly responded the tramp. "This doesn't tire me."

"I mean—I've known you long enough to drop the 'me,' haven't I?"

Happenings of the Day in the Stores and in The Streets of the Big North End

Indiantown Warehouse Burned Down

The Steamer Hampton's Building Destroyed, With Walter Northrop's Motor Boat—General News of North End

Fire broke out about four o'clock this morning in the steamer Hampton's warehouse on the wharf at Indiantown, owned by P. N. & Son, and used by the Kennebecasis Steamship Company. The building was burned down. The water is well up on this wharf and there is a foot or more in the warehouse when the fire started. The warehouse is not being used by any of the river boats this year, as there is as yet no boat on the Kennebecasis running to St. John. There was in the building, however, a motor boat owned by Walter Northrop, on which he had been working for several weeks getting it in good condition for the summer. Mr. Northrop bought the boat last fall and had just completed building a cabin. The boat was destroyed.

The origin of the fire at such an hour cannot be accounted for, especially as the floor of the building was covered with water, in one corner of the shed there were several cans of kerosene, there was also some refuse lumber which had been left in the warehouse since last year and some shavings from the work being done to the boat.

Besides the boat owned by Mr. Northrop, another motor boat was stored in the warehouse all winter, but was launched this week.

It is fortunate that there was so much water around the building, as this kept the fire from spreading and prevented any damage being done to the wharf.

Two North End boys were arrested on Thursday evening on a charge of stealing watches from the store of Daniel Doherty yesterday afternoon. The boys, who are ten and thirteen years of age, were sentenced to five years each in the Boys' Industrial Home, but were given their freedom pending their future good conduct. The youngsters promised they would be more careful in future and stay off the streets late at night.

A big paving job is planned by Commissioner Potts for his first season in office, as he decided yesterday to lay tar macadam on the south side of Main street from Portland street to Kennedy street, connecting two pieces already paved. The commissioner also plans to grade off Bridge street near Victoria street, and to level off Victoria street considerably.

C. P. R. WORK IN WEST.
Not Affected by Financial Depression.
Winnipeg, May 9.—Sir Thomas Shaughnessy was in Winnipeg yesterday.

for ten minutes on his return after a trip of inspection through the west. Sir Thomas said that the financial depression would not affect the company's work in the west and that all projects now started would be carried through to completion. He announced the policy of the C. P. R. in regard to the Oriental question. The C. P. R. preferred white labor, but if it were not obtainable, he said the company could hardly be expected to stand back with its arms folded. Sir Thomas while at Bassano opened the dam which is the key to the vast irrigation system established by the company.

FACTS!

That's What Skin Sufferers Should Know—The Facts—For 15 Years D. D. D. Prescription Has Been The Standard—Now Read

It is in this last decade of medical research that internal drugs have proven as worthless for skin disease as for toothache. It is also in our modern rush of medical enlightenment that salves and ointments have been discarded. First, because they cannot penetrate the tissues correctly; second, because they clog the deep pores of the skin and imprison the disease germs.

To affect a cure of skin trouble, the remedy must be in fluid form. This statement, now proven, was first made 15 years ago by a famous skin specialist and it was his tireless work that resulted in the discovery of D. D. D. Prescription, a simple, soothing, cooling wash.

Apply D. D. D. to the skin and see how the itch is gone—instantly—the moment the liquid is applied!

D. D. D. Soap Keeps Your Skin Healthy

Then see anyone who has used D. D. D. according to directions and ask if the cure was not permanent.

Remember: D. D. D. Prescription has been recognized as the standard skin remedy for many years, while imitations in liquid form as well as salves and ointments have come and gone.

Druggists generally carry D. D. D. and we recommend it strongly. If you have any kind of skin blemish, rash, or insect bite—no matter how slight—call at our stores and ask us about D. D. D. Prescription.

Ask us also about D. D. D. Soap—a specific for tender skins.

The first full size bottle is sold with the guarantee that unless it is effective in your own case, your money will be refunded. You alone to judge.

Bloom of Youth Now Easily Attained

You no longer need to "doctor" that sallow, freckled, black-headed, rough, blotchy, pimply or over-red skin. You can remove it, instead—easily, painlessly, instantly, by a new scientific process, which anyone can use without assistance. The dead and near-dead surface skin, with all its imperfections, is gently, gradually absorbed—and a radiant youthful and beautiful complexion comes forth! Go to your druggist, get an ounce of pure marcolized wax; at night apply enough of this to completely cover the face; don't rub it in. Next morning remove the wax with warm water. The result after a few days is astonishing. You wonder why this secret wasn't discovered long ago.

Put an ounce of powdered vasoline into a half pint white basin, bathe the face in the solution and—*say!*—there's nothing that will so effectually, so promptly, smooth out all those hateful lines.

Passadena, Cal., women here asked the city council to pass an ordinance prohibiting tobacco chewing in the street cars.

THE ART OF BUYING COAL

(Power.)
Suppose a corporation using approximately 200,000 tons of coal a year at \$8.50 per ton were to effect by intelligent purchase a saving of 25 cents per ton. This would amount to \$50,000 per annum—an item worth striving for.

Although the conditions of price and saving given above are not true of the purchase of coal by the State of New York, the coal consumption of its various institutions is approximately the figure stated, says the editor of Power.

One of the channels through which Governor Glynn hopes to effect economy is that of the purchase of coal by specification for all state institutions. Heretofore, the purchasing committees of the various state departments have each purchased coal in its own way and most of the state departments are physicians who have little knowledge of the importance of the quality of fuel, to say nothing of approved methods of purchase.

**Saves Money

Saves Time**

THESE are three reasons why it pays to use Bishopric Wall Board and Sheathing.

"Bishopric" makes for a warm house in winter and for coolness in summer. As a substitute for lumber sheathing, Bishopric Sheathing Board will give the very best results. Nail to the outside studding of your building, with lath side exposed, then nail on weather board. This affords double protection and gives insulation between sheathing and siding.

"Bishopric" is strong, rigid and impervious to all weather conditions.

Tomorrow Mother's Day

Write a Letter to Her or Wear White Flower in Honor of Her Memory

Tomorrow will be observed in St. John churches in honor of "Mother." The Times publishes the following by request:

By John B. Gruelle Oh, mother, that I could do for thee That I could pay back a thousandth part Of the love thou bearest me;

That I could give thee the strength I hold, Now that thou growest old; That I could strengthen thy feeble step, And let not thy hand grow cold!

Oh, mother, that I could give to thee, Now that thou canst not see, That I could give back the sight, my dear, That thou hast given me!

Oh, mother, that I could give to thee, Now that thou leavest me— Oh, mother, that I could give to thee The life thou hast given me!

The movement to observe Sunday, May 8th, originated with Miss Anna Jarvis of Philadelphia, and the anniversary which the world will remember and observe this year is the anniversary of the death of her mother.

Grief over the death of her mother, Miss Jarvis says, brought to her a realization of the sorrow which a mother's death must always bring to someone.

And so she began her campaign for a Mothers' Day, a day on which the mothers of the world, living or dead, would be honored.

The idea is simple. All that is asked is that men and women over the world shall pin a white flower to their dress on the second Sunday in May and write a letter home to mother, if she is living.

The idea is so full of appeal that poor unfortunate beings who are not sure they ever had a mother take a curious and pathetic pride in displaying the white flower.

Miss Jarvis began her campaign by writing letters to newspapers. The papers favored the plan and now the day is generally observed throughout the United States and large cities in Europe.

To Wesley Memorial Methodist church Moncton, is due the credit for introducing the idea into New Brunswick and there is every promise that it will be generally adopted in every city of importance.

"If your mother is dead," says Miss Jarvis, "remember her, with a kindness to some unfortunate person."

This year marks the fifth since Miss Jarvis began her work to have the mothers of the world properly honored, and this year will eclipse all previous years, by the general observation of the plan.

The day is for everyone, regardless of religious belief or color. "I want Mothers Day to exist for all—Christians or Jews, young or old—the figure of a mother must stand to all for what is most worthy and true."

Of the beautiful tributes written on the subject of mother, the following is given as the most appropriate:—

Mothers In the springtime of his life she lived. He remembers her so well now, She is not dead, though the grass above that tear-strewn mound is growing green once again. She lives a life eternal within his heart.

From that moment when he lay upon her breast and his heart began its beating next her own—a moment when the depths of human feeling are touched and awakened and the heights of human possibilities disclosed, she loved him, lived for him—and died for him.

He did not understand—then—the great, almost superhuman task asked of her by the Creator; nor could he see—then—that the heart-breaking load she carried would have crushed the strongest of men; he only knew—then—that she was both father and mother to him.

And yet she bore her burden with a saintly smile and a patient soul that makes her now appear as a heavenly angel temporarily placed here by the Divine Maker to guide through the terrible meshes of an earthly life the being she had crossed the darkened valley of death to bring into existence.

He sees her now. With eyes of memory he watches her pass to and fro by his darkened bed, smoothing his aching brow, holding his feeble hand, murmuring "My boy!"

He sees her with frail, tired arms and without body bending over her daily tasks while he, unmindful and unheeding romped in the mud in childish play.

He sees her toiling, toiling, toiling, throughout her never ending days—and he does not understand.

Her wan face greeted him when he tumbled from slumber's arms—and he remembers now that mother gave him the choicest bits from their scanty loaf.

He sees her from his little bed sewing and darning and ironing "for my boy." And then there grew a time when she was too weak to longer struggle with the burden that grew the deep wrinkles upon her face and marked her body with wearied seams of pain and lifelessness.

Then when her work was done—when

TO STOP HAIR LOSS AND RID YOUR SCALP OF DANDRUFF, USE NEWBRO'S HEPPICIDE

Do you have dandruff? Does your hair fall out? Is it getting thinner and the parting more pronounced every day?

If so, we advise you to get busy right away or before it is too late. We are not trying to scare you. We are simply telling you the truth. If you would ward off impending baldness you must check that hair loss and rid your scalp of dandruff.

Don't resort to the use of an untried, off brand hair preparation when genuine Heppicide costs no more. You are liable to disappointment if you experiment. Start right and start now with the right remedy and stick to it—Newbro's Heppicide.

Use Heppicide daily for a while, then three times a week will be sufficient. Watch the change which takes place in the condition of your hair and scalp.

that tiny baby had been led hour by hour, day by day, week after week, through all those long days—her only ray of sunshine, "My Boy!"—into the world of manhood, a strong, God-fearing man-loving man—she lay down the life she had lived for him, and went to her glorious reward.

What though her hands were shapeless and rent with the disfigurements of toil? To him they always were and always will be softest and whitest and best.

What though her body was bent and faltering? To him she is still the most beautiful of all.

Therefore, on Mothers Day, when so many have the blessed privilege of laying at living mothers' feet the flowers of love, other multitudes will with him live over sweet memories of days when mothers walked by their side, and he will wear the white flower for her—for her to whom he owes his being, his life, manliness, and hope of meeting her in the great hereafter.

So upon the threshold of this dear day, while the fragrance of the unpicked flower links itself to his tender memories, he writes these lines for the mother awaiting him upon the other shore.

POTATO DISEASES. There has been issued by the Department of Agriculture at Ottawa a remarkably well executed folder, Farmers Circular No. 4, entitled "Potato Diseases Transmitted by the Use of Unsound Tubers," showing in natural colors, representations of specimens of diseased potatoes. Diseases and other blemishes represented are potato canker, powdery scab, hollow potato, internal brown

The scalp is clean and free from dandruff. The hair looks strong and healthy and does not fall out. There is vigor and snap where before the hair was dead, dull and brittle. The itching which is so annoying stops and you enjoy a feeling of coolness and cleanliness hitherto unknown.

Any dealer will sell you Newbro's Heppicide in 50-cent and \$1.00 sizes and guarantee it. If it doesn't do as promised, and you are not satisfied, he returns your money. But you'll be satisfied. The first application will convince you that Newbro's Heppicide is the very thing for the hair. Its odor is delightful.

Applications may be obtained at the better barber shops and hair dressing parlors.

E. Clinton Brown, special agent.

Special reference is made to potato canker and powdery scab, the latter of which occurs already in Canada and should be carefully avoided. The folder points out that, under the destructive Insect and Pest Act of Canada, any person using for seed potatoes infected by potato canker or powdery scab is liable to prosecution. Potato growers who suspect the presence of either of the latter diseases are requested to send specimens to the Dominion Botanist, Central Experimental Farm, Ottawa.

This folder, prepared by H. T. Gussow, Dominion Botanist, will be sent free to those who apply for it to the Publications Branch of the Department of Agriculture at Ottawa.

Dr. Chase's Nerve Food as a Spring Tonic

Dr. Chase's Nerve Food is the greatest of spring restoratives, because it actually forms new, red corpuscles in the blood.

Mrs. Jules Scarbo, Moulinette, Stormont Co., Ont., writes: "I think it is my duty to write and let you know the great benefit I received from taking Dr. Chase's Nerve Food."

"I read in the almanac about Dr. Chase's Nerve Food and bought 3 boxes from Mr. Armstrong, druggist at Mille Roches. Before completing the first box I felt the benefit and now believe the cure to be thorough and complete."

and complete. I am feeling fine and eat and sleep well, thanks to the wonderful good, accomplished by Dr. Chase's Nerve Food. I wish everybody troubled as I was knew of this grand medicine, which is so quick in action and so permanent in results. It will always have my praise."

You can avoid the feelings of fatigue and depression which make spring so dreary by very many who are not in robust health. Sleeplessness, irritability, indigestion and headaches soon disappear when you increase the vitality of the mind and body by using Dr. Chase's Nerve Food. 50 cents a box, 6 for \$2.50, all dealers or Edmondson, Bates & Co., Limited, Toronto.
