SUNDAY WAS BIRTHDAY OF QUEEN MARY

Day Quietly Spent by Their Majesties at Buckingham Palace

MANY CONGRATULATIONS

Princess Mary Had Birthday Last Week and is Now Fifteen Years Old—Charming Girl, Bright and Vivacious—Three Years More Before First Court

(Canadian Press) London, May 27—Queen Mary's birthday was celebrated quietly at Buckingham Palace yesterday. Her Majesty was born on May 20, 1887. The only members of the royal family with the king and queen were Princess Mary and Little Prince John. The other sons are away. Telegrams of congratulation from them yesterday as well as messages from the German Emperor and other European royalties.

Princess Mary of England celebrated her fifteenth birthday last week. She has been more after her Guelph ancestors in looks than any of her brothers, and is tall for her age—a less rare occurrence among the younger generation of the princesses of the royal house than it was among their directors. The Queen of Spain and Princess Patricia of Connaught are well above middle height, but Princess Mary has inherited the height of both.

Young as she is, Princess Mary has already a strong personality. As a small girl, she was the favorite of the royal nursery, and her brothers, who were all devoted to her, followed her lead. In these early days Princess Mary quite appreciated the dignity of her position, and a little sister, answered that she might not mind a sister, but would not care for another princess.

Princess Mary has now come to years of discretion and is a very charming young girl, bright and vivacious, fond of the queen, and an expert at all kinds of stichery and intricate knitting. Three months ago she was engaged before Princess Mary's marriage, and she appears to be a court favorite.

Dowager Queen Louise of Denmark is in a serious condition, says a Copenhagen despatch to the Daily Mail. She has been removed to Fuenos Bope, suffering from nervous shock.

Buildings Going Up at Courtenay Bay—One of the Contractors Arrived Today

High Doherty, of Montreal, of the firm of Doherty & MacDonald, sub-contractors, on the Courtenay Bay work, arrived in the city at noon today to look over the work which is now in progress. The work is being carried on under the supervision of A. A. MacDonald and at present they are employing about ninety men in the preliminary operations. The steam shovel, dumping cars, locomotives, etc., are expected here between June 5 and 8, and the work will then begin on a large scale.

CROSS THE CHANNEL BY THE AIR ROUTE IN QUARTER HOUR

Aeroplane Passenger Service to Be Started—Tourist Trips Above Paris

Paris, May 27—The Compagnie Generale Transatlantique does not intend to establish a service of hydro aeroplanes between Calais and Dover, to enable passengers to cross the channel in less than ten minutes. The company announces also that the dirigible Astra will soon inaugurate the new tourist service above Paris and the surrounding country.

CANADIAN CADETS SECOND FOR THE DUKE OF WELLINGTON CUP

Results in Rifle Shooting at Aldgate on Saturday

London, May 27—At the Aldgate shooting of the Imperial Cadet Association, which concluded on Saturday night, Sergeant Merrick won third prize in the grand aggregate competition in the form of an English bronze medal. Cadet Fox took the first prize (richness of Argyl's medal), was won by Sergeant Cass. Merrick also secured the Rochdale cup (gift of Lord Strathcona), a gold medal and match rifle.

CHOICE OF BILLETS FOR HON. MR. MAXWELL IS THE REPORT TODAY

Hon. Robert Maxwell, says report today, is to receive a very substantial reward for his past political services and in recognition of his decision to spare the party the additional chances of defeat by again appearing on the ticket. It is said that he has his choice of waiting for a secure job at about \$3,000 a year, accepting a position as inspector of concrete work on the Courtenay Bay contract for the dominion government at something like twice that salary. It is regarded as probable that he will accept the latter.

FIVE NEW MEN FOR MARATHONS

The Marathons will leave for Fredericton tomorrow morning and tomorrow afternoon will play the Fredericton team on Scully's Cove. Bates will probably pitch for the Capitals as Dinamore has returned to college. Either Lamb or Malvey will pitch for the Greys. They will also play a match on Wednesday. Manager Joe Page and D. Donald are at present in Boston, but will leave there tonight along with three new pitchers, a catcher and a first baseman. They expect to be in Fredericton tomorrow in time for the afternoon game, and may try some of their new men out.

NAVY MANOEUVRES TO BE ON A GREAT SCALE

Britain's Sea Power To Be Shown To World

Vice Admiral Prince Louis of Battenberg to Be in Command—German, American and French Fleets Also to See Unusual Activity This Summer

HE WILL COMMAND THE FLEET

London, May 27—A London cable says:—The coming summer seems likely to witness unusual activity in the fleets of the principal powers, most of which will carry out manoeuvres on a large scale. The British fleet, as in other years, will be placed on a war footing at the end of June, and the strategic work as well as tactics exercising in which it will be engaged, will present features of exceptional interest and importance.

Soon afterwards the German 'high sea fleet,' augmented by its reserve division, will begin its autumn manoeuvres, in which for the first time it will have the services of a complete draught squadron of eight battleships and two battle cruisers.

The American fleet, now dispersed to its ports after the winter manoeuvres in the Caribbean Sea and the battle practice will, at the same time, be engaged in its summer drills and exercises, while the reorganized French fleet will, it is understood, carry out an extended programme of manoeuvres.

REQUESTS OF THE TEMPERANCE MEN HAVE BEEN REFUSED

Will Not Make Rev. Mr. Robinson Head of License Board or Displace Inspector Jones—To Talk Over Next Step

The requests of the N. B. Temperance Federation have been refused by the local members of the provincial legislature and the former body has called a meeting for tomorrow evening to decide what their next steps will be. Whether they do so was said today it was not likely to be of a nature that will be pleasing to the present administration.

The request of the federation was that Rev. W. R. Robinson should be appointed chairman of the Board of Liquor License Commissioners to succeed J. B. Eagles, and that George F. Menzies should be appointed liquor license inspector in place of John B. Jones. The reply which they have received was to the effect that the chairmanship is to go to another man and that there is no intention of supplanting Mr. Jones in his present position.

Immature of New York Asylum at Least Meant Well—Mattawan Patient Would Raise Titanic

New York, May 27—Each member of the Irish Athletic Club team, which competed at the annual games for the benefit of the Manhattan state asylum last Saturday, is the proud possessor today of a check for \$1,000,000 signed by one of the inmates.

REPORT OF BATTLE

Moors Said to Have Lost 1,000 Dead and 3,000 Wounded

Paris, May 27—A report is published here that 10,000 Moors have made an attack on the French camp at Merada near the Algerian frontier, that the French troops lost 125 killed and 380 wounded, and that the Moors were repulsed, leaving 1,000 dead and 3,000 wounded on the field. The ministry of war has not received any confirmation of the report.

EARTHQUAKE SHOCKS HAMILTON

Hamilton, Ont., May 27—This city experienced something of a miniature earthquake a little before eight o'clock this morning. It lasted about twenty seconds. The shock was accompanied with a low rumbling noise. So far no explanation of it has been received. The shock was felt for several miles in the country. Inquiries have been received from New York asking Hamilton the cause of it.

UNITED STATES WILL TAKE NO PART IN CUBAN TROUBLES

President Taft so Informs Gomez in Response to Cablegram From Later

Jersey City, May 27—President Taft today sent a message to President Gomez of Cuba, saying he would not intervene in Cuba.

President Gomez yesterday sent a cablegram to President Taft in which he protests in friendly but firm terms against intervention by the United States.

"It is my duty to say that so serious a resolution alarms and hurts the feelings of a people who love and are jealous of their independence," he said after reciting that he had received from United States Minister Reuppre a note informing him that the Washington government had ordered a gun-boat to Nipe Bay and a strong naval concentration at Key West in anticipation of possible eventualities, and also in the event that the Cuban government was unable to protect American property, it was the intention to land forces for that purpose.

"I appeal to you," he continued, "as a loyal friend of Cuba, respecting her rights, that you will be convinced that this government is capable of and efficiently supported by the valor and patriotism of the Cuban people to deal promptly with a few unfortunate and misguided persons without reason or flag."

"If you understand these conditions, you will perceive that it is not the part of a friendly government to contribute under such circumstances to the embarrassment of a government and people such as those of Cuba, placed, it is true, in unfortunate conditions, but not lacking in its methods, patriotism and courage."

FORTUNE FOR BANKRUPTS

St. Petersburg Widow Leaves Million and Quarter to Help Out Business Derelicts

Berlin, May 27—One of the most remarkable bequests on record has just been made. The widow of a wealthy St. Petersburg jeweler has left a fortune of \$1,250,000 to be devoted to the amelioration and support of bankrupt business men, and their destitute daughters. Half the sum is to be spent in erecting a sanitarium for bankrupts.

INCREASE THE CAPITAL STOCK OF MAINE CENTRAL

Bangor, Me., May 27—At a meeting of the stockholders of the Maine Central on Friday, at which \$2,700,000 of a possible \$6,277 shares were represented, it was voted to increase the capital stock \$3,000,000 or from \$10,000,000 to \$13,000,000. This increase will make it possible for the directors to authorize the making of needed changes and improvements all along the line.

THIRTY BRIDES-TO-BE ARRIVE IN NEW YORK

New York, May 27—Thirty brides-to-be from Scotland and Ireland, reached New York today on the steamer Caledonia from Glasgow. Most of the young women were bound for points in Canada.

SEND \$500 CHECK

A check for \$500 as a contribution towards the expenses of the Back to New Brunswick movement has been received by the secretary of the Board of Trade of the L. H. Dunn of London, England. Mr. Dunn is a former St. John man who has not lost interest in his native city and province and who has taken this practical method of showing it, while expressing his regret that he cannot join in the movement back to the old home.

GREAT WAVE CAUSES DAMAGE

Pieton, Ont., May 27—A gigantic wave tumbled over the beach at Wellington on Sunday and did some damage to summer resort property. The wave rolled inwards five feet farther than the water had ever been known to advance at this point. When it receded, it left hundreds of fish, many whitefish, stranded on the shore.

Winnipeg Athletes

Winnipeg, May 27—A Howard, Jack Beckett and Kepor will leave tomorrow to take part in the Olympic trials in Montreal on June 8. They are going east as co-competes in the Eaton meet in Toronto on Saturday. W. Law will accompany them as trainer. T. Boyd is also going along.

ONTARIO TO HAVE ANTI-TREATING LAW

Means a Hard Blow at the Receipts Over The Bar

Toronto, May 27—The World says:—The anti-treating law, which will be discussed by the government at the next session, will be far reaching in its effect. The new legislation, it is understood, will be of a drastic nature, and will thoroughly eliminate the treating system, which was criticized so severely by Sir James Whitney on the floor of the house two months ago.

The hotel keeper, the bar-tender, the man who buys the drink, and the man who is given the treat will be presented under the new law. It is believed that by this means, the habit will be discouraged more than if action were taken against the hotel keeper's license.

The anti-treating law which, in all probability, will be incorporated in an addition to the license act, will impose heavy fines upon hotel-keepers, who violate the law for the first and second time, and on a third occasion the license will be cancelled. The bar-tender will be fined to the amount of \$100 to \$200 and the treator and "treated" will be dealt with in a similar way.

THUNDER STORMS BRING UP DEAD

New York Water Give up 20 Bodies After Two Severe Electrical Disturbances

New York, May 27—Two severe electrical storms, during the last month, brought to the surface of the North and East Rivers, a total of twenty-eight bodies. Most of them had been drowned for several weeks, and only about half of them could be identified.

La MARQUISE de FONTENOY

Famous Libel Suit Over Matter of Ability as Sculptor is Recalled

The recent announcement in the London papers that Richard Bell, sculptor, is still alive, will come as a surprise to many who remember the famous Bell-Laves trial that took place in 1883...

The information that "Mr. Bell is not dead" is the contrary of the information that in an obituary notice of Sir Charles Laves-Witterwonge, a reference was made to the latter's lawsuit against "the late Mr. Bell."

Among his most notable works was that exhibited at the Franco-British Exhibition in London, three years ago, when his superb marble group, "The Death of Dido," was the attraction of the Fine Arts Palace...

It was during the course of this trial that the curious scene I have referred to took place. Bell, in order to support his assertion that he was a sculptor, and not a mere employer of sculptors, undertook, then and there, to execute a bust, under the very eyes of the jury. His challenge was accepted; a table, clay, water, etc., were brought in, and judge, counsel and jury, watched the shapless mass gradually assume, under the busy fingers Bell, a resemblance to human head and shoulders.

However, the jury had been deeply impressed, as they watched Bell model something that they could see for themselves looked exactly like a human head, gave a verdict in his favor for \$25,000 damages.

It was in the year 1900—twelve years ago—that he succeeded to his father's baronetcy and estates, and two years afterwards, assumed the name of Witterwonge, in addition to that of Laves, as already mentioned on succeeding to the extensive property of a relative, and in compliance with the stipulations of the latter's will.

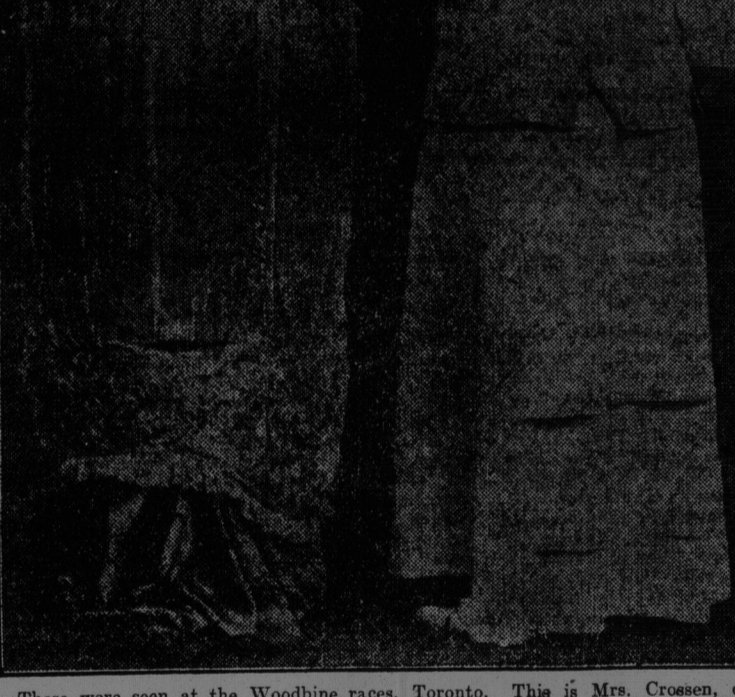

Why Be Annoyed? By RUTH CAMERON

A VERY self important young woman was being discussed by two of her acquaintances. "I avoid her when I can," said one of the two, "for she always rubs me the wrong way."

And not only do people who have this latter viewpoint on life find infinitely more happiness themselves, but they are very much pleasanter to be with. The trip through short, happened to be crowded full of incidents that were not all of them particularly pleasant.

When you find yourself starting to be annoyed make yourself see the amusing side of it all, and laugh instead. It really can be done.

Daily Hints For the Cook

APPLE CITRUS PIE Line a pie plate with good sweet, and fill with sliced pared apple. Sprinkle a tablespoon of chopped citron over the top, and cut a rounding teaspoon of butter in bits over also.

RAINBOW CAKE Yellow part—One cupful sugar, one cupful sour cream, yolk of four eggs, one teaspoon soda, lemon extract to taste, and flour enough to make a batter. Beat eggs and sugar together, add cream, soda, flour and extract last. Bake in layers.

White part—Two cupfuls of sugar, two of cream, two teaspoonfuls soda, whites of six eggs beaten stiff. Stir cream and sugar together, add soda flour to thicken, and, lastly, beat in the white of eggs. Divide this batter, and flavor the white part with almond. Color the other half pink with fruit coloring, and flavor with rose or strawberry. Bake in layers, and put the layers with colors alternating, together with icing made as follows:

One egg beaten stiff, one-half cupful of very cold sweet cream beaten into the egg; stir thick with powdered sugar, and flavor with lemon. Decorate the top with candied rose petals and violets—Portland Express and Advertiser.

NEW BRUNSWICK ALFALFA

Dairy Superintendent Has Lot of Fine Seed Which Was Grown in Sussex (Sussex Record) Dairy superintendent, C. W. McDougall has in his possession a lot of particularly fine alfalfa seed, which was taken from Wm. McLeod's plot last fall. The seed is as good as one could wish to see. It is strong and clean and should produce plants which will be stronger than those from which it was derived. Messrs. Nisnick and Fister, representing the Conservation Commission, who were in Sussex this week were shown the seed and were delighted with it. It was an eye opener to them that such success had attended the efforts of Mr. McDougall and his associates in the raising of alfalfa in the province. The seed will be used on other New Brunswick plots, and in turn the seed taken from the resultant plants will be saved and sown. In this way it is hoped that plants will be developed which will resist the rigors of the most severe winter to be encountered in New Brunswick. The Record has always been in sympathy with Mr. McDougall's campaign for the development of an alfalfa type which will be easy to raise in this section. If the problem of successful alfalfa culture can be solved it means hundreds of thousands of dollars to this country alone. While it will reduce the freight earnings of rail ways hauling feed to Kings, it will cut out the heaviest expenditure that the dairy farmer has to make. The Conservation Commission might well take up the work of developing a hardy alfalfa plant for this part of Canada. ALWAYS UNLUCKY. "I always was unlucky," he said, with a weary sigh. "What's the matter now, old man?" his friend asked. "I've spent \$5,000 on having my boy taught to play the fiddle, and now his hair's all comin' out."

THE FIGHT IS ON The legislature is dissolved and Premier Fleming has issued a manifesto. Nomination day will be June 19th, and the election on June 20. The time has come for the Liberals of New Brunswick to resume the direction of its affairs, and give the province better government.

Mr. Fleming's manifesto is the most barren document ever presented to the people of this province on the eve of an election. He pledges himself to try to get a larger subsidy from Ottawa, and to press for a settlement of the factory claims at Ottawa. He will "foster in every reasonable way" the establishment of pulp and paper mills, and put into effect his ready-made farm scheme.

That is the whole programme of the Fleming government, if elected for the next legislative term. All the rest of Mr. Fleming's more than two-column manifesto is devoted to praise of his government and to general statements which do not bind him or his government to anything. At a time when the people of New Brunswick are laboring actively and hopefully to give driving force to a great forward movement, made possible by the new relations of the province with western Canada in regard to transportation, Premier Fleming's contribution is a vague reference to pulp and paper mills, and a promise ready-made farm scheme, and a promise to beg for more money at Ottawa.

This is Mr. Fleming's answer to the immigration congress, and to all who had hoped that the government of the province would lead the way in the forward movement.

Mr. Copp and the Liberals of New Brunswick may well thank Mr. Fleming for this confession of incompetence. It will make their task easier. The people do not want four years more of neglect of the great public interests of the province. The greater portion of the premier's deliverance is a rehash of former speeches, brazenly asserting that the pledges made when his party were in opposition have been carried out. Against these brazen assertions are the facts that the number of abandoned farms do not decrease, the highways have not been improved, the public services generally have been administered in a partisan spirit, the debt has been increased by over a million dollars, the liabilities of the province by about four millions, and, despite a larger subsidy from Ottawa and an increased general revenue, there was last year a deficit of \$50,000.

It is a government with this record which comes before the people with a vague reference to pulp and paper mills, and a ready-made farm scheme which at best would not settle a hundred of the several thousand abandoned farms in this province. Surely it is time for a change.

MR. COPP SHOULD WIN The Moncton Transcript very properly points out that Mr. A. B. Copp, as the leader of his party, is giving proofs of greater breadth of view and a larger outlook on provincial affairs than his opponents anticipated. He is not content merely to attack a government which is peculiarly open to attack, but he desires to present a policy which would lead to a more satisfactory development of resources of the province. It is admitted on all hands that the great need of New Brunswick is a healthy growth of rural communities. Mr. Copp would bring the intelligent and progressive farmer within reach of cheaper money to establish himself or enlarge his operations. The opposition leader would also give the country districts better roads by taking the roads entirely out of politics and ensure the expenditure of road money in a legitimate manner, improving the highways over which the farmer's produce and supplies must be hauled. Mr. Copp would go further and enable the farmers to secure a cheap telephone service, which is of so much benefit to all dwellers in rural districts.

But there are other planks in the platform of the Liberal leader which will also commend themselves to the people, and give further proof of the statement that if made the head of the government he will pursue a progressive and popular policy, improving the public services, conserving the resources of the province, and honestly administering its affairs. More over, from the men around him he will be able to choose able colleagues, for the candidates of the Liberal party in the coming campaign will be strong men, who will command the confidence of the people. The time is opportune for a complete change. The present government has not made a good record. Confronted with the pledges made when its members were in opposition, it cannot honestly do otherwise than confess failure; and the people now know that it never intended to redeem those pledges. The Liberals are in a majority in this province. If they rally faithfully around Mr. Copp he will be the leader of the next government.

PROPERTY ADVANCING IN VALUE

(Sussex Record) It is a good sign of the times that property is advancing in price in the province. At least that is the condition in many sections. It is true of St. John city, true of the St. John River Valley and of the Sussex Valley. The reason for the upward move is to be found in the improved feeling in regard to the possibilities of the east. Everywhere one goes, one is impressed with the hopeful tone prevailing on every side. There is a new spirit animating many of our people and while we will have setbacks among us, they are getting to be more unpopular each day.

New Brunswickers, like the residents of some of the other Canadian provinces, are beginning to appreciate the good things they have thrust too long in our midst. Anybody with one eye open can see the improvement of the past few years, and it is well to remember that it is only the blind who continue to belittle the resources of New Brunswick. If we live another twenty years in this country we will see much to gratify our pride in our province. The best way to speed that happy day is to talk of its sure arrival. The real estate boom is only one of the signs, but it is a definite one and cannot be denied.

MR. COPP AS LEADER IN PROVINCE

Liberal Chieftain Has Grown Greatly in Estimation of The People—An Appreciation

(Moncton Transcript)

Since assuming the leadership of the provincial opposition Mr. Copp has grown greatly in the estimation of the people. He has shaped up to the requirements of his position in a manner that has proved as disconcerting to the supporters of the government, as it has proved gratifying and inspiring to the people. He has developed under responsibility, exhibiting qualities of leadership that have wonderfully heartened the party.

Mr. Copp had long been known to the people of the province. Everywhere he went his manifest courage and energy earned him many friends. He was not troubled with any ideas of his own importance, and he had never cultivated any of the arts by which politicians of the type of Hazen or Flemming try to impress themselves upon the people. He never considered himself like either of those gentlemen, a superior being, dispensing wisdom to inferiors.

Since assuming the responsibility of leading the party Mr. Copp has not changed his straight forward, democratic attitude to the people, but he has revealed to them aspects of his character, and powers and resources of his mind, which previously he had never troubled to show them. His speeches show that he appreciates the importance of his duties, and that he is studying diligently, and thinking deeply upon the political affairs of the province. In contrast to the narrow range of ideas and views which characterizes Mr. Flemming's addresses, Mr. Copp is showing a breadth of vision, an insight into the conditions and guarantees of modern democracy, which is a good thing, and a source of support of the intelligent electors.

Contrast Mr. Copp vigorously condemning the elimination of the property franchise for generations, with Mr. Flemming's boasting how much he had done to establish corporate franchises for the people's property. Mr. Flemming's mental processes are so antiquated that he apparently thinks it is a good thing to have capitalists the privilege of exploiting the natural resources of the province without regard to the people's interests. It is to say the premier is anxious to develop New Brunswick by assisting the reaction of the mining interests like Pittsburg, or the growth of mining camps filled with "hunkies" reduced to a state of slavery. Just because of their peculiar confusion of thought men of the type of Mr. Flemming are about the most dangerous enemies we have at the present time.

Mr. Copp sees the basic evil of the time. He sees that while it may be desirable to encourage the development of our natural resources, the government should follow the people's interests in such resources, because if it fails to do so will assist the creation of commercial despots as oppressive and immoral as those which afflict the United States.

HEAVY FINES FOR BREAKING EXCISE BOND

Rome, May 25.—Heavy fines were inflicted on Roman distillers for using alcohol taken in bond without paying duty. One firm was fined \$100,000 and five other defendants ordered to pay fines aggregating \$200,000, in addition to \$50,000 duty on spirits already used.

MORNING NEWS OVER THE WIRES

Three young men had a narrow escape from drowning in the lake near Harvey Station on Victoria Day. They were out in a canoe, which upset when a couple of hundred yards from the shore. Anna Escena after severe exertions reached the shore and Alex. Coburn clung to the canoe until rescued, but Lewis Grievie, who attempted to swim to shore, was drowning when he was caught by the occupants of another boat.

Exercises in Connection With The Cloving — The Art Work at Sackville Institution

Sackville, N. B., May 26.—The impressive closing exercises of Mount Allison University yesterday attracted large numbers to the services. The morning was marked by the annual sermon, which was delivered by Rev. C. E. Crowell, B.D., of Halifax. The farewell meeting of the Y. M. C. A. was held in the afternoon, the address being delivered by Louis D. Buckley, of Halifax, president of the college organization.

The baccalaureate service was held in the evening in the Charles Fawcett Memorial Hall. Rev. James Smith, B.D., principal of Wesleyan Theological College, Montreal, delivered the sermon. A notable feature of the musical part of the service was the rendition of Handel's Hallelujah chorus by a chorus of 100 voices assisted by an orchestra of thirty pieces.

The day was brought to a close with a song service in Beethoven Hall.

Sackville, N. B., May 25.—Owing to the rain the circus of attraction yesterday and today, interested visitors have thronged the spacious halls and have passed very favorable comment upon the work of the students. The year has been one of the most successful in the history of the department. The classes have been large, the interest great, and work better than ever before.

The progress is due mainly to the enthusiasm and faithfulness of the teachers, Professor Hammond, Miss McLeod and Miss Stuart.

The rooms of Professor Hammond naturally come in for first inspection. More and better canvases are here seen than for many years. A strong portrait of the late Charles Fawcett occupies a prominent position, while other paintings, such as landscape showing sheep, are particularly fine, the depth and beauty of coloring being wonderfully good.

Occupying a conspicuous position in one of the rooms is the exhibit of Miss Margaret Harris of Pictou, N. S., the first graduate in crafts. Her exhibit embraces wood carving, leather and metal work, designing, drawing and modelling. Miss Harris also has an unusually good showing of china painting in which the feminine hand is always delicate. In making jewelry Miss Harris is a star, making necklaces, rings and other dainty bits in a way that is the envy of her associates. Altogether her exhibition is really admirable.

The showing of leather work is fully up to the standard of other years. A new method, which has worked well, has been adopted this year in this work.

Chairs, very beautifully carved, are shown by Miss Marie Lawrence and Miss Elaine Borden, of Sackville. A chest of Scandinavian design was made by Miss Nan Chapman, of Moncton, and reflects much ability upon her skill. Miss Elizabeth Smith, of Amherst, also shows some very creditable work.

In copper work, a tray of beaten copper by Miss Dora Hewson of Amherst is worthy of more than passing notice.

The jewelry showing is more finished and better made than ever before, and is really wonderful. A ring set with a turquoise by Miss Nellie Turner, of Sackville, is especially well made.

The china painting exhibit is large and arouses a great deal of interest, especially among the ladies. Cream and gold sets

SOME THINGS MR. FLEMMING MUST ANSWER

(Carlton Sentinel)

Premier Fleming and his colleagues will soon appeal to the people and so called structural opponents. They will be called upon to explain some facts since they came to power, and some that apply in a special manner to the St. John Valley, where the people and Alex. Coburn clung to the canoe until rescued, but Lewis Grievie, who attempted to swim to shore, was drowning when he was caught by the occupants of another boat.

Philadelphical, May 25.—The twelfth international congress of navigation today declined to go on record as favoring a limit being placed on the size of ocean steamships.

Cork, May 25.—At the convention of the All-Ireland League, William O'Brien its founder, declared today that he and his friends were ready to bury the hatchet and join with the Redmondites in an effort to force the government to make the home rule bill a measure acceptable to Ireland. Timothy Healy stigmatized the financial provision of the bill as false and fraudulent.

Ronan Law, Canadian leader of the Unionists in the British parliament, is to visit this country in August.

Rev. W. J. Kirby, pastor of the Methodist church at Howesville Hill, met with a serious accident yesterday afternoon on his way to Harvey. He was thrown from his carriage, when his horse shied at an automobile, and was picked up unconscious. He is recovering.

Champ Clark captured Kentucky in the Democratic convention held on Saturday, sweeping 115 of the 129 counties.

GRAY HAIRS AND BALD HEADS

Are Disappearing in New York City and Elsewhere

Men and women are realizing that they can accomplish this so easily by simply using HAY'S HAIR HEALTH—the best and only really satisfactory preparation for restoring Gray hair to its natural color.

Mr. Fred Gumpart, of 223 W. 148th St., New York City, writes us:

"About six months ago I had a bald spot on the very top of my head as big as the palm of my hand. In about seven weeks' time, using Hay's HAIR HEALTH continuously, new hairs long and are the same color as the rest of my hair. I shall never give up using it."

by Miss Mildred Walker, of Fredericton; Miss Minnie Tait, of Shediac; and Miss Nellie Williams, of St. John, are especially good, while various pieces of Miss Gretchen Allison, of Sackville, are markedly good. A punch bowl in green and silver by Miss Marjorie Baskin, of St. Stephen, is chaste and pretty and gives evidence of much faithful work. A vase by Miss Nan Chapman is also very pretty. Miss Dora Hewson, of Amherst, has a fine exhibition of cast drawing and sketches from life, as well as Miss Alice Marshall of Sackville. The oil painting is good, showing what excellent work is being done.

A great deal of interest was excited in designing covers for the Argosy, the magazine published by the university students. The cover design which was accepted for the Christmas Argosy was drawn by Miss Dora Hewson, while the one that has been accepted for the graduating number was drawn by Miss Gwendolyn Mowse, of St. John's Nfld. The designs by Miss Nellie Turner, of Sackville, and Miss Rita Durand, of Amherst, are also excellent. Very good work has been done this year in book printing designs and borders for stationery.

The work of the class shows a growth in taste and execution. The work of the children from the Sackville public schools above the average and is very interesting.

AT ACADIA

Wolfville, May 27.—The services at the college here yesterday brought hundreds of visitors to the grounds, and the large hall was crowded long before the ceremonies began. Doctor Cutler presided, and the baccalaureate sermon was delivered by Rev. W. A. Cameron of Toronto. It was an excellent oration and held the close attention of the audience. In the evening Rev. A. K. Foster, of Worcester, Mass., preached and prayer was offered by L. R. Frost, of the Y. M. C. A., St. John.

The presentation of a translation of Sardon's three-act play, "A Scrap of Paper," by the students on Saturday night, gave much pleasure. It was under direction of Miss Anna Remick, of the seminary, and the cast acquitted themselves very cleverly. A large number witnessed the performance. Those taking part were: H. H. Pines, W. P. Potter, Misses Alice, Harold and Prudence Gilroy, W. R. McKay, R. R. Haley, A. G. Hirtle, R. G. Clark, the Misses Myrtle Vanwart, Jean McGregor, Mary Maxters and Josephine Clark, Messrs. Phinney, Hirtle, Ben Henshaw.

SHORT OF COIN

They had not been engaged very long, but already Ernest had made it apparent that the salary of a shop assistant did not admit of an ostentatious existence amid seas of diamond rings, theatre stalls, or even some chocolate cream.

Last summer they walked together to a neighboring village. The road was dusty, the evening close, and Amelia felt that life would be better worth living when she had an opportunity of refreshing herself with tea and strawberries. Ernest beatified outside the only tea shop in the place, and she smiled hopefully.

His hand stole to his trousers pocket; he fumbled nervously for a moment. "Dr-Amelia," he said, at last, "will you have something to eat now and walk back, or shall we have nothing to eat and go back by train?"

SHE WAS WISE.

"Good-bye for ever!" said the young man, coldly, as he prepared to depart. "I leave you now, never to return."

"Good-bye," said the fair maid in the parlor scene. "But before you go let me remind you that you can telephone me in the morning over so much cheaper than you can send a messenger, and you can buy me a box of chocolate with the difference."

ATHERTON EVIDENCE IN ENGLAND.

An order for a commission to take evidence in Liverpool in the case of the King vs. Fred Atherton was granted on Saturday by Mr. Justice McKenna in the King's Bench Division. The hearing in Liverpool will be held before Ronald P. Clayton, solicitor, on June 10.

Letters of administration were granted to the widow of Homer D. Forbes, in the probate court on Saturday. There was no realty. Baxter and Logan are proctors.

IN CHURCHES OF CITY YESTERDAY

Pentecost Observance in Cathedral—Memorial Window—Baptist Missions—Sons of England

Yesterday, Pentecost Sunday, at 11 o'clock Bishop Casey celebrated pontifical high mass in the cathedral. He was assisted by Rev. E. J. Conway, Rev. D. S. O'Keefe, Rev. M. O'Brien and Rev. A. W. Meskan.

Members of the Sons of England, Marlborough and Portland lodges, about one hundred in number, were present at the church parade yesterday morning.

Rev. W. W. Brewer, as a former Englishman, appealed particularly to the members in an eloquent sermon from the text, "Be Strong, Quit You Like Men."

Rev. A. C. Fenwick, who recently resigned as curate of St. Luke's church, accepted the appointment by Bishop Richardson of the rectory of the church at Upland, preached his farewell sermon in St. Luke's church yesterday morning.

THE ARGUMENT REVERSED

The Victoria County News has for an editor a capable young journalist, but is unversed in political issues. Last week he pointed out that so good was the Canadian market for produce that corn was bringing \$1.1 a ton more at Perth than at Fort Fairfield, only six miles away.

WHEN THEY BUILT SHIPS AT "THE BEND"

Edward McCarthy of Moncton Writes of Early History of Railway Town—Paper Read Before Board of Trade

At a meeting of the Moncton Board of Trade a paper on the early history of Moncton and the days when shipbuilding flourished at "The Bend," prepared by Edward McCarthy, was listened to with great interest.

In the year 1837 the "Bend of Petitcodiac," so called from a bend in the river of that name just below the site of the city of Moncton, consisted of a cluster of small houses about twelve in number, with a broad river of muddy banks and a rise of tide about 38 feet.

This business had been carried on for several years previous to 1860, when one of the owners, Mr. James Haines, was wrecked by catching on the bottom with such a rush of tide that he and his crew were carried away.

William Haines, a native of the United States, a shoemaker by trade, was one of the great industrial and mercantile men who carried on quite a thriving business in lumber between the Bend and United States ports.

In the year 1860 the firm of G. and J. Salter, who were engaged in the shipbuilding industry at the Bend, now the city of Moncton, their shipyard was first ship, called the Gambia, a bark of about 800 tons measurement, was sent to England and sold there.

The same year a firm in England gave them a contract for a coal barge. This was shaped very much like a scow with both ends alike. She was about 60 feet long, 30 feet wide, and had a depth of hold of about 8 feet.

They had a perfect passage across the deck. She was to be delivered in England, which was the last part of the vessel. It was the last part of the vessel, which was the last part of the vessel.

On the first sign of a pain in the back, Doan's Kidney Pills should be taken. They go right to the seat of the trouble, cure the backache and prevent any further complications arising.

MISS PETERS REPORTS ON PLAYGROUNDS

The Work in Canada Detailed Before National Council of Women

ELEVEN YEARS' WORK

Interest Little at First, But Now Thirteen Councils Have Playgrounds Committees—The Work in Various Cities, Including St. John and Halifax

The tenth annual report of the Committee on Vacation Schools and Supervised Playgrounds, of which Miss Mabel Peters is chairman, was sent forward by her and submitted to the National Council of Women in convention today in London.

In the year 1900 there was appointed by the local council of St. John a local playground committee to endeavor to improve the playgrounds in the city.

Whereas the establishment of vacation schools and supervised playgrounds is a necessary part of the education of the children of the cities of Canada and is a matter of public interest.

In that year, 1901, the national council met in this beautiful city of London. At the request of the national council a round table conference for mothers and teachers was held in the Normal School and it was decided that the national council should have a delegate from St. John.

It is now eleven years since this national council met in the beautiful city of London. The work of the children of Canada has increased in the work of the children of Canada.

Also in council met having these committees, reports on the work of the committees, reports on the work of the committees, reports on the work of the committees.

Halifax, May 26—Capt. H. C. Johnson, Dominion government inspector of light houses, who was in charge of the expedition sent out on the government steamer Montserrat in search of Titanic bodies, reports a remarkable discovery made at the scene of the Titanic wreck.

This is a change in the Arctic current which thereby formed a great pocket of cold water within the usual course of the Gulf Stream.

McBRIDE GOES FURTHER INTO NAVAL QUESTION

Ottawa, May 26—Premier McBride has returned from Britain more than ever convinced that Canada should have an efficient naval force located on the Pacific coast.

He does not say that the eastern coast needs a neglected, but insists that protection is required on the western shore, and the sooner the better.

"We in British Columbia are looking forward to the government's announcement of its naval programme, and we hope that it will provide for the creation of an efficient force which will provide real protection and will not waste the money which we believe the best interests of Canada and the empire require the matter to be dealt with effectively."

"While not interfering with what Canada may do or incline to suggest what should be done, I found the people whom I met in England greatly interested and looking forward to the announcement of the dominion's programme. I did not discuss the matter officially with the admiralty. I had no authority to do so. The matter is one for the dominion government alone."

LONDON'S LABOR TROUBLE WHEN HIS VOICE CHANGED

"My 15-year-old son," says Mrs. I. C. Sherman, whose home is in Brooklyn, "caught a bad cold just when his voice was changing and could not get rid of it for about a year. Vinol was the only medicine that did him any good and it was just what he needed to drive his cough away and build up his strength."

NEW THEORY AS TO CAUSE OF TITANIC DISASTER

Halifax, May 26—Capt. H. C. Johnson, Dominion government inspector of light houses, who was in charge of the expedition sent out on the government steamer Montserrat in search of Titanic bodies, reports a remarkable discovery made at the scene of the Titanic wreck.

This is a change in the Arctic current which thereby formed a great pocket of cold water within the usual course of the Gulf Stream.

This change was not known to Captain Smith, and Captain Johnson says this explains why he did not avoid the ice of which he was warned. The apex of the cold water pocket, where warm water ordinarily is, he found was at latitude 41 N., longitude 50 W.

"After making a careful examination of the currents I am convinced that Captain Smith, after receiving warning of the ice, took precautions which ordinarily would have saved his ship, but that from the unusual phenomena he was lost. The Arctic current from some unaccountable reason possibly prevailing winds in the vicinity of the Titanic—drove itself into the Gulf Stream for at least 100 miles, intruding into the cold water from the Gulf Stream. Captain Smith would get a temperature of 60 at the stern and 48 at the bow of his ship."

Opening Games in East End League tonight. The opening of the East End League is scheduled for this evening, when the Commercial and Glenwood teams will meet. Many of the best players in the city will be seen in this league and there is no doubt that the class of baseball put up by these teams will be much above the average. James McAllister has been secured as umpire. The teams are to line up as follows:

Table listing players for various positions: Catcher (Millan), Pitcher (Bovard), 1st Base (Stubs), 2nd Base (F. Chase), 3rd Base (Cooper), Right Field (Gale), Left Field (Killen), Centre Field (Paterson), Infield (McDonald).

The Fort Howe Stars defeated the Young Acadia by a score of eleven to twelve on Fort Howe on Saturday afternoon. The batteries were: for the winners, Powers and Donovan; for the losers, Johnston and Carrigan.

Conleys Called Home. Larry and Bob Conley of the Fredericton baseball team, who played here on Saturday, were called home to Dorchester, Mass., that night by a telegram stating that their grandfather was dead. They will return to the capital for tomorrow's game.

New Players For Fredericton. Gleaner—Outfielder Bert White, New England League pitcher and one or two other players are expected to arrive here in a day or two to join the Fredericton club, the local management declaring that they will continue to try out players until June 10 trying to get the best possible team together.

Washington Gets Gandill. Montreal, May 27.—"Chick" Gandill, Montreal's first baseman, the hitting sensation of the International League, will join the Washington club on Wednesday. In return for Gandill, Montreal will get four players now with Washington—Becker and Akers, pitchers and Cunningham an infielder, are three of the players. Walters have not been obtained on the fourth player, and consequently his name is withheld.

If Washington cannot deliver this player the Montreal club will be paid \$1,500. Gandill has been one of the most sought after players in the International League this year. The Chicago and Pittsburg National League clubs made sensational offers for him. He has been hitting at a phenomenal rate, having a mark slightly better than .400 at the present time, and is feeling in wonderful form.

TRY THIS ON YOUR FRIENDS. Jones and Smith met in the street yesterday and got talking. "I was on the top of a tram the other day," said Jones, "puffing quietly at my cigar, when suddenly a lady sitting next me matched it from my mouth and threw it away. "You've no right to smoke on a tram-car," she cried. "It's not allowed." "Well, what did you do?" inquired Smith. "I was rather taken aback, but in a minute I grasped the puddle she was carrying in her lap and dropped it overboard. "She glared, and then we both looked over into the road, and there was the puddle running along by the side of the tram; and what do you think it had in its mouth?" "The cigar?" "No," said Jones; "its tongue."

Moncton, N. B., May 27—(Special)—It is likely that the St. Peter's base ball team of the Inter-Society League, St. John, will play two games here with an all Moncton team on Monday, June 3.

The opening of the Moncton base ball league will take place on Saturday when the Y. M. C. A. and Y. M. C. C. will clash. George R. Wilson, charged with obtaining goods on false pretences from James Doyle & Son, has been committed for trial. He was released on \$400 bail.

PLAN PROGRAMME FOR BACK TO NEW BRUNSWICK WEEK

With the Back to New Brunswick Week only about six weeks away, the 1912 Club is getting busy with the final arrangements for the celebration. The Finance committee have done a large share of their work by raising a large fund towards the expenses and the advertising committee has helped to make the movement known from one end of the continent to the other.

The next matter to be taken up at the programme which is to be arranged for the entertainment of visitors during the week. This will be taken up at a full meeting of the club which will be held in the Board of Trade rooms at eight o'clock this evening.

THE EARLY CLOSING SITUATION

The action of the common council in repealing the early closing by-law has put the matter up to the Early Closing Association and it is probable that a meeting of the latter body will be held some time this week to consider what steps they will take. Some of the members are anxious to take advantage of the referendum as provided for in the new city charter to place the matter before the council again.

Under this provision they would draw a petition which, when signed by the proper number of citizens, would have to be considered by the commissioners. The petition would probably ask for the re-enactment of the early closing law with the amendments as requested at the last council meeting. If the commissioners decided against putting the law in force on their own responsibility they would have to submit it to a plebiscite of the citizens.

Atherton Case Awaits Commission; Wilcox to Take Speedy Trials—Matters in Probate

The trial of the case of the King vs. former Purser Atherton of the S. S. Empress of Ireland, charged with the misappropriation of funds, will not take place at the sitting of the county court which will open tomorrow morning, on account of a delay in the proceedings, necessitated by the taking of evidence in England.

The evidence, to be taken in the old country, will be very important to the crown case, and a commission is now being issued to authorize the taking of this evidence in Liverpool. The trial will take place at the next sitting of the court.

The case of the King vs. James A. Wilcox, charged with forgery, will not be on the criminal docket either, but the prisoner has elected to be tried under the speedy Trials Act, and his case will be disposed of just previous to the opening of the court tomorrow morning.

These were the only cases on the criminal docket, so with these removed, only civil cases will come up for trial.

Probate.

In the probate court in the matter of the estate of Margaret Boyle, it was ordered, at the next sitting of the court, the king's birthday and a public holiday, the citation for the passing of the accounts and order for distribution be adjourned until the following day. Amon A. Wilson, K.D., is proctor.

The matter of the estate of Mrs. Margaret McConnell, came up. She died intestate on October 15, 1907, leaving her husband, John McConnell, a laborer, and three children, John McConnell, ship laborer; Elizabeth, wife of Ernest A. Wood, pattern maker; and Mary Louise, wife of Edward R. Ross, miller. The husband died in April last, and so did the daughter, Elizabeth Wood. On the petition of John McConnell, he was appointed administrator. There is no real estate; personal property under \$500. Beverly R. Armstrong is proctor.

The matter of the estate of Miss Sarah E. Barrett also came up. She died intestate in Boston, leaving property within the city and county of Saint John, and not elsewhere. Administration was granted to the late W. Watson Allen in April, 1911. He prepared an inventory of the estate and, having died without passing his accounts, his widow now files the accounts as administrator and asks that they may be passed and allowed, and an order for distribution made. As the address of some of the debtors is unknown three months must elapse before the return of the citation which accordingly was made returnable on Monday September 7, at eleven a.m. J. J. G. Knowlton is proctor.

Ernest D. Forbes, barrister-at-law, died intestate. On the petition of the widow, Gladys Forbes, she was appointed administratrix. There is no real estate; personal estate \$800 and \$1,000 life insurance. Baxter & Logan are proctors.

HEAR EVIDENCE IN THE CASE OF ARNOLD REED

Today's Police Court Proceedings—An S. P. C. Case

The preliminary hearing in the case of Arnold Reed, aged nineteen, charged with stealing pies and confectionery from the delivery wagon of St. Clair McKiel in a street off Adelaide street, was begun in the police court this morning. Mr. McKiel had missed goods from his wagon from time to time, and Reed was under suspicion. A box of chocolates, valued at thirty-five cents, was found on him when arrested. He did not plead to the charge, but elected to be tried in the higher court.

Mr. McKiel said that he had often seen Reed about his yard, and had warned him to keep away. Quite frequently he missed goods from his delivery wagon, and he suspected Reed. On Friday morning last his wagon was standing in the yard. There were pies, cake and confectionery in it. Reed was seen near the wagon, one of the doors of which was open. He chased Reed and after catching him handed him over to the police. One box of chocolates was found on the prisoner. As far as he knew the prisoner did not live home, but slept out in barns and other places. On one occasion Reed was discovered in the witness' house while he was out driving.

Harold McKiel, a son of the former witness, told of seeing Reed running away from the delivery wagon on Friday morning last. He told his father about it. The witness asked Reed what he was doing there, and he later wanted to fight him. The case was adjourned for other witnesses. Reed was in the Boys' Industrial Home, from which he escaped once and was recaptured. He told the court this morning that he did not live with his father, and had no regular place of abode. His Honor told him that a term in the penitentiary would do him good. He was remanded to jail.

Prosser Johnston was reported by Deputy Chief Jenkins and Secretary Wetmore of the S. P. C. for driving in a heavy wagon, a horse which was unfit for work. Mr. Wetmore told the court that the horse had a sore on its shoulder and was better fitted for the boneyard than for anything else. Johnston said that he valued the horse at \$40 and thought that it was well able to work. He was told to have a veterinary surgeon examine the horse and to secure a certificate as to its fitness.

James McLaughlin, charged with using profane language in City road was fined \$8 or two months in jail. The fine was allowed to stand.

Wellington Bacon, charged with not supporting his wife, pleaded not guilty to the charge. Mrs. Bacon testified that her husband had not contributed anything towards her keep for nearly a year. She was looking after her two children and had to go out working to support them. They had not been living together for a year. Mr. Bacon had taken two children with him when he left the house. The witness said that her health had been very much impaired.

The defendant said that he could not live with his wife, as she was all the time fighting with him. He was looking after his own two children now and he thought that he was doing what was right. He swore that his wife told him to get out of the house, and that she could get on better without him.

The matter was adjourned until other witnesses are secured. G. H. V. Belyce appeared for Mrs. Bacon.

Two prisoners charged with drunkenness were fined \$8 or two months in jail, and one \$8 or fifty days in jail.
