

ENGLAND WILL GET DEATH RAY

Matthews, Inventor, Changes His Course in Spectacular Campaign.

GETS \$1,500,000. Company in England to Handle Death-Dealing Instrument of War.

(United Press.)

Paris, May 31.—At the very moment when it seemed that Grindell Matthews, English inventor, was about to abandon his country and sell to France what he believes may be the most devastating war engine of the ages, a sudden twist in the erratic inventor's movements has placed the "death ray" in English hands.

The ray is to be developed by an English Company and Matthews happily and a bit proudly declares that his machine will make England safe from all aerial attacks.

Played a Game. This suddenly and dramatically ends one of the most fantastic stories that ever started the Chancelleries of Europe. It is now believed that from the beginning the inventor, finding himself a prophet without honor in his own country, played a shrewd and desperate game in France to force his reluctant countrymen to accept his invention.

Many scientists and statesmen in Europe frankly ridicule the "death ray." The British Government apparently still looks askance at the invention, but Matthews was so convinced of the claim that development of the machine will produce a terrifying energy capable of spreading death and ruin throughout a zone of flame.

Whatever its potentialities, the machine now goes to Britain. When Matthews left England apparently in disgust and desperation, three Englishmen who had been negotiating with him in dilatory fashion became alarmed. They were further alarmed when the excited inventor launched a publicity campaign of sensational mystery which attracted worldwide attention, and gained him a speedy hearing in France. Friday afternoon Matthews offered \$1,500,000 for the invention, seven times the French bid.

Under terms of a contract drawn up later in the day an English company will be launched to carry on the "death ray" experiments. Matthews retains a fifty per cent. interest in the concern of M. Royer, of the French, Colonel Chantiers, due Thone, has a fifty per cent. interest in whatever Matthews realizes as a result of the deal the Englishman made with him here for the developing inventions other than the ray.

Matthews promises a startling demonstration in a few months. The sceptics laugh, the believers shake their heads and whisper of fiery horrors of future wars.

They, in turn, will be followed by officers of the militia and other mourners.

Col. Sparling requests that all officers of the militia here will attend wearing either khaki or blue uniforms with medals and swords for those who have them. The officers have been instructed to wear a mourning band, 8 1/2 inches wide, on the left arm above the elbow.

New Robber Alarm Is Given N. Y. Test

New York, May 31.—A new type of robber alarm, the invention of Victor C. Ronning, an electrical engineer, was demonstrated in the law offices of Davis & Hayden. The device is known as the King Robber call. Detectives who witnessed the demonstration said the racket of the ordinary burglar alarm sound like a whisper over long distance.

Mr. Ronning believes his invention will reduce burglary insurance rate 10 per cent. When a robber is discovered an employee pushes a button or steps on a treadle, setting off bells and whistles mounted over the street. A red light above the doorway of the about-to-be-robbed store or bank starts blinking.

DR. BELAND REPLIES TO CRITICISM

Conservatives Charge Lack of Sympathy and Over-Staffing by D.S.C.R. LANCASTER

Some Salary Statements—Dr. Murray MacLaren Takes Part in Debate. (Canadian Press.) Ottawa, May 31.—The House of Commons made fair progress yesterday in committee of supply. Estimates of the department of soldiers' civil re-establishment were before the committee. Criticism, chiefly from the Conservative members, was based on the claim that applications for treatment and pension did not always reach the hands of the departmental officers. Specific cases were cited in support of this contention. Opposition members also repeated the charge, made when these estimates first came up, that the department was over-staffed.

Beland Replies. To the criticism of lack of sympathy, Hon. H. S. Beland replied that the cases cited were but a very small portion of the 167,000 which came up for review year after year by the pensions board. The medical board appointed by the pensions commissioners was not under his jurisdiction. He expressed the greatest confidence in the medical men throughout Canada employed by the Department of Soldiers' Civil Re-establishment. The charge that the department was over-staffed, the minister answered by pointing to reductions from 8,000 to 2,900 employees in three years. Though there was a reduction in the number of patients, there was no diminution in applications for treatment. "If a man comes knocking at the door, you can't turn him away," he said. Examinations and classification entailed labor.

When the committee rose, all the estimates of this department had been passed with the exception of an appropriation of \$150,000 for the Federal Appraisal Board. Estimates approved yesterday totalled \$9,515,000.

Lancaster Hospital. Dr. Beland, replying, said the Lancaster Hospital had been consolidated with the one at Halifax so that it is now only a sub-unit. The doctors on duty and the salaries paid were as follows: Dr. Skinner, \$4,000; Dr. Malcolm, Nese, White, full-time medical officers, were receiving \$2,400 yearly; Dr. Bridges, \$3,000; Dr. Kitchin, \$2,000. There were in all three on full time, and four on part time, and the total salary list was \$18,040. The cost per day of its beds was \$3.26 per day, and the total number of patient days was 10,738. Dr. Beland referred regretfully to the death of Dr. McCarthy, late medical superintendent. Dr. MacLaren also paid a tribute to the late Dr. McCarthy.

Referring to hospital administration, Dr. MacLaren said he wished to refer to the change of policy which would remove from the executive head of the hospital the medical professional men who now serve as superintendents and to the change of policy which would replace them with laymen. He read a telegram from the medical profession of St. John enclosing a resolution passed at a meeting presided over by Dr. H. A. Allinghame, president of the New Brunswick Medical Association, disapproving of the policy of placing superintending duties in the administrative department and that the office of medical superintendent in the hospitals was to be abolished.

Dr. MacLaren said his attitude was in accordance with the D. S. C. R. in the process of continuing the administrative department and that the office of medical superintendent in the hospitals was to be abolished. "We must be careful not to impair the confidence of the men receiving treatment unless there are well-established grounds for criticism."

"In judging officials," he said, "the extra-professional members of the staff should be the first to go. As the legislative process continues the dismissals should be made from the non-professional rather than from the professional side."

SURPLUS GERMAN INCOME REPORTED

Excess Over Expenditures for Four Months of the Year, \$71,509,880.

According to a cable to the foreign department of Moody's Investors' Service, New York, the income of the German government in the first four months of this year showed an excess over expenditures of 286,260,000 marks, equivalent to \$71,509,880.

The detailed report of the income and outgo for April and the first four months of the year, which are of particular interest at this time because of the possible German loan, was as follows: Revenues of the German government amounted for April of the current year to 462,060,000 (gold), as compared with 226, 800,000 for March, 940,100,000 for February, 440,700,000 for January and 189,800,000 for the period Nov. 16, 1923 to Dec. 31, 1923. Thus, revenues for the 6 1/2 months ended April 30, 1924, aggregated 1,944,980,000 marks (gold), while expenditures for the first four months of the current year totaled 1,759,880,000 marks (gold), equivalent to \$419,809,880. Of the total, 1,619,910,000 marks (gold) represented income from taxes, customs and dues, 136,970,000 administration receipts and 8,000,000 the proceeds from the sale of the gold loan.

Expenditure in April totaled 396,120,000 marks (gold), as compared with 898,000,000 in March, 857,800,000 in February, 816,800,000 in January and 812,400,000 in the period Nov. 16-Dec. 31, 1923. Expenditures for the six and one-half month period ended April 30, 1924, amounted to 2,275,820,000 marks (gold), while expenditures for the first four months of the current year aggregated 1,463,420,000 marks (gold), equivalent to \$346,203,960. Of the total, 854,960,000 represented administration expenditure, 608,360,000 assignments to States and Communes, and 700,000 expenses in connection with the Peace Treaty. It must be added, that expenditures, as given above, are exclusive of sums spent in connection with the repurchase of the gold loan. For the first four months of this year, such repurchases aggregated 418,530,000 marks (gold). From the above it will be noted that in the first four months of this year Germany showed an excess of revenue over expenditure of 286,260,000 marks (gold), equivalent to \$71,509,880. If we add expenses on account of repurchased bonds there will be shown a deficit of \$27,886,260. If we take into account, however, that the funded debt of the Reich has been reduced by this amount the result of the first four months of 1924 is most encouraging. At the beginning of this month, the total German debt, both funded and floating, but exclusive of the paper debt of some 73,000,000,000,000, so-called K and E. Treasury bills (equivalent at the current rate of exchange to less than \$18,000,000), aggregated 1,924,150,000 marks (gold), equivalent to \$447,347,700, as compared with 2,281,500,000 marks (gold) or \$542,997,000 at the end of last year. Of the total, 965,970,000 represented funded debt composed of dollar Treasury notes, 210,000,000 marks and the 6 per cent. loans of 1922 and 1923, aggregating 438,970,000 marks. Floating debt totaled 1,228,180,000, including non-interest bearing debt to Rentenbank, 200,000,000 marks; interest-bearing debt to Rentenbank, 900,000,000, and Treasury notes (in Rentenmarks), 128,180,000. If we exclude reparations obligations, the total German debt amounts to only \$7.63 per capita. Assuming the German treaty payments are placed at \$10,500,000,000, the per capita debt of the Reich will amount to some \$183, which compares with a per capita debt for Great Britain of some \$796, for France of \$653, for Belgium of over \$400, for Italy of \$218, and for the United States of \$202. If all the stamps used annually in the United States were placed in a single strip, they would reach around the globe eight times.

Wants Pulpwood For Our Mills. Fort William, Ont., May 30.—Outlining points of policy which he forecast would be followed by the Ontario Government, James Lyons, Minister of Lands and Forests in the Ontario Government, speaking here today, said he favored placing an export tax on pulpwood that is now being shipped from Ontario to the United States of at least one dollar a cord. This he advocated increasing up to a point where it would conserve all the Ontario pulpwood for Canadian mills. In the opinion of experts, waste oil from auto crank cases may be utilized as fuel.

ST. JOHN, N. B., MAY 31, 1924

THE WAR MEMORIAL

The committee having in charge the Memorial to those who fell in the great war have done quite the right thing in deciding to order the monument and to carry forward the work of placing it with vigor and decision.

supporters into legislative action. By one course he will increase Liberal opposition and by another he will weaken his own following.

MAKING CRIMINALS

No one would suppose offhand that the civilian population of the United States could possibly require more firearms than the manufacturers of that country turn out for the production of enormous quantities.

This is no ordinary movement. The people of St. John cannot too promptly or too generously do their bit in commemorating in fitting fashion the heroic men who went to meet the enemy in the Empire's hour of peril.

In discussing the Memorial it should not be necessary to take this community back to the stress, the pride, the sorrow, and the devotion of the war years when ship after ship departed carrying our sons, battalion after battalion, into the frightful realities of the conflict which was to decide the whole future of civilization.

As a matter of honor, of duty, of pride, and surely as a great privilege indeed, this community should lose no time in providing the money to complete the Memorial.

ANOTHER ESCAPE

Labor is still in the saddle in Great Britain, but the Government leads a precarious life. Crisis after crisis in its existence is reported, but thus far it has escaped defeat on any question of principle which would involve its resignation.

Lloyd George wants to turn the Government out, and there is no certainty that this may not be accomplished in the near future, though at present a majority of the Liberals are following Asquith's policy of delay in the seemingly vain hope that their prospects may be improved by Labor's failure to meet many of the issues pressing for solution.

France is expected to have a new ministry within a few days, and if Premier MacDonald should make substantial progress in arranging a programme of Anglo-Saxon co-operation to deal with Germany, a plan promising great betterment in Europe and a large measure of relief for the whole Allied world, his hold upon Parliament would be increased considerably.

deal relentlessly. When it comes to dealing with vast numbers of real or potential criminals who are carrying revolvers legal restrictions and increased police activities seem to have effected small results.

THE TALE OF THE SLEEPLESS KING

(Ottawa Citizen.) It was June in the Land of Goof, and the sleepy herds browsed in the meadows, and the sheep slumbered in the shade, and the guard at the palace gate dozed in the sun.

King Bono offered fabulous rewards for a cure, but none came, and in the meantime his massive figure melted away until he was a bantamweight, and his roaring voice became a whisper.

Kipling's Counsel On Independence Through Discipline

(New York Herald-Tribune.) The gods will have their small revenge and it is one of the amusing jests of these muddled years that Rudyard Kipling, scorned for a decade by remolders of the universe, should return again as prophet for the youth of his land.

When Mr. Kipling stood up before the young Scots of St. Andrews he was profoundly conscious of the demoralization in which they floated in the wake of the war.

As if the natural turmoil of post-war doubts and theories and panaceas was not enough, enter the inventors bearing gifts that in these theories in our cars and lives!

The last few years have so immensely quickened and emphasized all means of communication, visible and invisible, in every direction that our world—which is only another name for the tribe—is not merely too much for us, but more than we can handle.

All the more need, therefore, for the fostering of the precious gift of independence whereby one may keep the tribe at a respectful distance and live by the counsel of one's own heart.

How shall this best be done? Mr. Kipling's contribution to the technique of independence is of the North. It was written with special appeal to the Scots before him. But there is truth for all as any one who has achieved independence can testify.

CONSIDER COST OF CHILDREN'S CAMP

Some Difficulties Regarding Treatment for Under-Nourished.

The question of finances is looming large in the consideration of the plans for the summer camp for under-nourished children. There have been 26 children passed in medical examination as requiring the rest and good care which this summer camp would provide and some of these children's parents have been able to promise from 50 cents to \$2 a week towards their maintenance in camp, but should the large project originally planned be carried out a camp beyond Rothesay chosen and 40 children taken the expenditure will be heavy.

Those who have the plans in hand are testing the desire of the public to have the camp and the willingness of the public to support it. Should the larger venture fall through Miss H. Melkjohn, director of Nursing Services, said yesterday some arrangements might be made to have a small camp for the most serious cases of under-nourishment among the children whose applications had been accepted. The six or eight that have definite liability to tuberculosis might be cared for with less of serious financial responsibility.

Another examination will be conducted next week for the other applicants and it may be that a number of serious cases of under-nourishment will be discovered at this second examination day, making the matter still more urgent. Another difficulty in establishing the camp is the matter of the distance from the city which would make it a problem how Miss Melkjohn could carry out the necessary supervision.

A kind offer has been received from Miss Helen R. Jack, R.N., to conduct a pantry sale next week in aid of the Lady Byng Camp and the offer has been gratefully accepted.

DEATHS

Mrs. Augustus Fox.

The death of Mrs. Augustus Fox, daughter of the late Cornelius and Catherine O'Leary, of this city, occurred in New York on Thursday evening. She is survived by her husband and four brothers, Humphrey, Cornelius, John and Daniel O'Leary, all of St. John, and four sisters, Mrs. John J. Sullivan, St. John; Mrs. Mary Sullivan, New Glasgow; Mrs. C. I. Dunfield, Windsor, and Mrs. Oland Bullis, of New York.

Humphrey and Cornelius O'Leary left last evening to attend the funeral which will be held in New York on Monday. The late Mrs. Fox was born in St. John but removed to New York in her early years, where she has resided ever since.

FIRE ON WEST SIDE

The fire department in West St. John was called out at 8:30 o'clock last evening by an alarm from box 42 for a fire in a house owned by G. Stackhouse on Water street. The fire is thought to have started from a defective fireplace on the second floor, and was extinguished after some cutting had been done. The damage is reported to have been slight.

WOMEN'S ADVANCE IN INDIA GREAT

More are Being Educated, But Only 2 Per Cent are Literate.

New York, May 31.—There are 155,000,000 women in India and only 2 per cent of them are literate, according to Miss Iris Wingate, secretary of the Young Women's Christian Association at Calcutta, who attended a convention of the association here.

"Woman's education in India," Miss Wingate said, in discussing her work, "has had to struggle against opposition that has been strong and solid. The desire for the education of boys is now almost nation-wide, but the vast majority of fathers still see no

necessity for educating their girls. A girl's whole duty in life is to make a good marriage (a matter which is in the hands of her parents) and to be a mother. She can do this, they argue, without knowing how to read or write, and, anyway, education is likely to put dangerous ideas into her head! Out of 155,000,000 women in India only 3,000,000, or 2 per cent, are literate. "That is the dark side of the picture, yet the woman's movement is growing. In the last five years there has been an increase of 200,000 in the number of girls attending school. But the most striking increase is in the number of girls who are going to college. In 1914 only 469 girls were taking a university degree. Now there are three times that number, and if you add those who are attending special schools and studying medicine there are 5,000 of them.

"It is just this inheritance of seclusion that creates one of the most serious problems facing Indian women today. There are no standards by which a woman may regulate her conduct, no traditions to tell a man how he should treat a woman when he meets her in the ordinary walks of life. In many parts of India it is still unknown for a woman to walk in the streets alone or unveiled. In Calcutta, the first city in India, it is not yet possible, even for Christian girls, to go about alone or to walk in the streets at all save for a very short distance. Thus those who enter professions to earn their living in any capacity have to make the standards and form the ideals of behavior not only for themselves but for those who are to come after them.

"In many parts of the country where the women are still backward the men are demanding help of the 'Y.' For instance, in an important Government centre a series of lectures on health and the care of babies was announced. No less than forty Indian men attended. Their wives were purdah, that is, not allowed out in public and their husbands attended the lectures to go home and give directions for their wives to follow."

The steamer Majestic arrived at Indiantown yesterday afternoon from points on the St. John River, and, in addition to passengers brought a fair freight, including provisions and a large consignment of hay. The captain reports that the water in the river is falling rapidly and will soon be down to normal.

HEART WAS SO BAD HAD TO SIT UP IN BED

Mrs. O. E. Fitzgerald, 106 Ross street, St. Thomas, Ont., writes--"In the fall of 1921, I was taken ill with my heart, but I did not pay much attention to it. I kept on with my household duties, but seemed to become worse and worse, and finally had to call in a doctor. He said I was all run down and was a nervous wreck. I had a severe pain in my chest which would move over to my heart and it became so bad I could not lie down, as when I did I had such a smothering feeling I would have to sit up in bed all night."

Doctor Says Newer Form of Iron Will Increase Strength of Many Delicate People 100% in 10 Days

In Many Instances--Persons Have Suffered Untold Agony for Years Doctoring for Nervous Weakness, Stomach, Liver or Kidney Disease or Some Other Ailment When Their Real Trouble Was Lack of Iron in the Blood--How to Tell

New York, N. Y.--In a recent discourse Dr. E. Sauer, a New England Physician who has studied both in this country and in great European Medical Institutions said: "If you were to make an actual blood test on all people who are ill you would probably be greatly astonished at the exceedingly large number who lack iron, and who are ill for no other reason than the lack of iron. The moment iron is supplied a multitude of dangerous symptoms disappear. Without iron the blood at once loses the power to change food into living tissue and therefore nothing you eat does you any good; you don't get the strength out of it. Your food merely passes through your system like corn through a mill with the rollers so wide apart that the mill can't grind. As a result of this continuous blood and nerve starvation, people become generally weakened, nervous and all run-down, and frequently develop all sorts of conditions. One is too thin; another is burdened with unhealthy fat; some are so weak they can hardly walk; some think they have dyspepsia, kidney or liver troubles; some can't sleep at night, others are sleepy and tired all day; some fancy and irritable; some are so thin and bloodless, but all lack physical power and endurance. In such cases, it is worse than foolishness to take stimulating medicines or narcotic drugs, which only whip up your fagging vital powers for the moment, may be at the expense of your life later on. No matter what anyone tells you, if you are not strong and well you owe it to yourself to make the following test. See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of this newer form of iron known as Nuzated Iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous run-down people who were ailing all the time greatly increase and even double their strength and endurance and entirely get rid of their symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time, simply by taking this newer form of iron, and this after they had in some cases been doctoring for months without obtaining any benefit. You can talk as you please about all the wonders wrought by new remedies, but when you come down to hard facts there is nothing like iron to put color in your cheeks and good sound, healthy flesh on your bones. It is also a great nerve and stomach strengthener and the best blood-builder in the world. The only trouble was that the old forms of iron, like tincture of iron, iron acetate, etc., often ruined people's teeth, upset their stomachs and were not assimilated, and for these reasons they frequently did more harm than good. But with the discovery of this newer form of iron all this has been overcome. Nuzated Iron, for example, is pleasant to take, does not injure the teeth and is usually almost immediately beneficial."

"You'll like the flavor"

In New York

New York, May 31.—Heavy lies the head that wears the crown of honesty in this old burg. John Cody, taxi driver, will tell you that.

John found a necklace valued at \$75,000 after a wealthy woman had left his cab at a depot. Without any hesitation John turned in the necklace at the tax cab office. The next day his picture and his story blazed forth in all the New York papers.

An honest man, a taxi driver at that, in New York!

That such matter makes front page news in New York is in itself a sad commentary on the spirit that pervades the city.

In a Main street town it would be taken as a matter of course that the finder of another's property would return it to its owner.

Well, to get back to John Cody. He returned the necklace, received a satisfactory reward and went on about his business.

Now he receives letters every day

None of them commend him for his honesty.

"You're a big boob!" writes one New Yorker.

"You must be off your nut," is an excerpt from another letter received by Cody.

And in the last letter he received there was a small piece of rope. Attached to it was a tag, inscribed as follows: "You'd better get a longer piece of this and hang yourself. You're no good, anyway."

One of every nine men on Broadway wearing straw hats. One of every 11 straw hats is of last year's crop.

Cranston Avenue Dwellers Will Press Claims on City Council

Property owners and residents in Cranston avenue have decided to organize in order to press more strongly on the City Council the need of improving the roadway from Rockland road to the city hydro station. A meeting of those interested was held last evening in the store of H. L. Codner, Cranston avenue. It was pointed out at the meeting that a petition had been presented to the Common Council asking for improvements to the roadway in Cranston avenue, but the city commissioner had decided that the cost would be too great and took no further action. A committee was appointed to draw up a plan of organization and another meeting will be held next Wednesday when a definite plan of action will be considered.

The two charges were laid in 1922 on the complaint of B. H. Bryan, of Logan and Bryan, and referred to assertions made by the accused in a weekly newspaper. In 1922 the accused pleaded "not guilty" but this morning he appeared with his counsel and asked permission to withdraw the plea and substitute one of guilty.

Give your roof the attention it deserves—

You expect your new house to last a lifetime. And naturally you want a roof that will last—a roof that won't rot or rust—a roof that never needs painting. Barrett Shingles, mineral surfaced in red, green or blue-black give you such a roof—durable, economical and handsome. They make a fitting roof for the finest house.

Fire-protection is another important advantage of Barrett Shingles. Sparks and blazing embers falling on their mineral surface burn out harmlessly. Yet Barrett Shingles are surprisingly low in cost. Ask the Barrett dealer to show them to you. There are also several types of roll roofings.

All the luxuries of a fine car—for it is a fine car. The same steels, the same engineering as the most costly Studebaker models—and that means the best men know. The same ease of handling, the same quiet, smooth operation, long life, low upkeep cost.

Now ride in it. Note its quick response to the slightest touch of the accelerator. Feel the thrill of its tremendously powerful six-cylinder motor. Mark its ease of handling, its comfort, its fine car refinements.

Then note its price is well within the limits of economy—the cost of upkeep low. The terms of payment liberal. It offers the supreme value of today in the \$1500 field.

**TAKEN IN IRONS
TO FIRE STATION**

Central Figure in Woodshed Shower Fails to Arrive and is "Arrested"

"Sandy" Christie, a popular member of No. 1 Company, Salvage Corps and Fire Police was given a surprise last evening that he will not forget for a long while. He had been notified to attend a special session in the company rooms, No. 8 Fire Station, Union street, and when he did not make an appearance at the announced time, a committee of scouts were sent after him. He was located in a residence in the North End with a party of lady and gentlemen friends enjoying the pleasures that can be had at a bridge party. He was called to the door, handcuffed, and conveyed in an automobile to the corps rooms, where all the members had assembled.

After a reprimand given by Captain K. J. MacRae for being absent "Sandy" was then tendered what his companions termed a "Woodshed shower." He was presented with numerous gifts including scrubbing brushes, brooms, kitchets, rolling pins, mops, rat traps, etc.

A programme was carried through successfully and "Sandy" was wished the best of happiness in the future as he is soon to leave the bachelor ranks.

ONE HUNDRED ATTEND DANCE.

The bridge and dance given by Sapphire Rebecca Lodge, No. 87, I.O.O.F., was a pleasant event, last evening, when they entertained in Orange Hall, German street. Mrs. K. W. Epstein was hostess and was assisted in receiving by Mrs. M. A. Mayle and Mrs. C. E. Magnuson, the Noble Grand and Vice-grand respectively. Mrs. H. Duke and Miss J. Flowers were the refreshment committee and the bridge tables were under the supervision of Miss A. Silliphant and Miss H. Lambert, of Jewel Rebecca Lodge, West St. John. Mrs. W. R. Anderson, D.D.G., had charge of the tickets. There were more than 100 guests, including friends of the lodge from all over the city. The proceeds raised will be used for the benevolent purposes of the lodge.

LOST CHILD FOUND.

Raymond McCarthy, the three and a half year old son of Mr. and Mrs. James McCarthy, 187 City road, became tired of playing with his companions yesterday afternoon and strayed away from the vicinity of his home. At 8:30 o'clock he was found strolling along Mill street by Police Constable Gibbs who took him to the North End police station. After searching the neighborhood, the father of the boy telephoned to police headquarters and was glad to learn his son had been located. Raymond was enjoying a piece of candy provided by the police when his father arrived and took him home about 10 o'clock last night.

**NEW UNIFORMS FOR
CADETS ARE ISSUED**

No. 1 Battalion Will Parade For Inspection at Armory Today

The new uniforms in smart khaki arrived for the 100 officers and N. C. O's of the No. 1 Battalion St. John Cadets and were distributed to their proud owners last night. The cadets paraded for inspection at the Armory this morning and this afternoon will be photographed with the St. Andrew's Cadets' kiltie branch, which has eight drums and 16 bugles. On Sunday they will have a church parade.

The cadets will assemble at the Armory on Sunday at 8:45 p. m. and will march to their respective churches, the Catholics attending service at St. John the Baptist church and the remainder going to St. Andrew's church, where Rev. J. S. Bonnell, cadet chaplain, will give a special address.

Capt. D. V. Palin, cadet officer, said last night that it was hoped that a cadet camp would be conducted at Sussex this summer for about eight days. As funds permit all of the cadets in the battalion will receive their uniforms.

Let This Car Sell Itself

Go to any man who has bought a Gray-Dort since the new management took control of the company and ask him whether you should buy a Gray-Dort. We're satisfied to have you make your decision on what he tells you.

Because we know he'll tell you that he never believed a car at the Gray-Dort price could perform so well. That he never heard of a car so free from trouble. That not once has his Gray-Dort failed him.

The reason is easy to see here at the factory in Chatham. The instructions to the engineering department, the purchasing department, the factory management have been unmistakable—"If there is any way in which the Gray-Dort can be bettered—go ahead and do it." Those betterments are evident in the performance of the car. That's why the Gray-Dort is selling itself everywhere in Canada.

At the Gray-Dort showroom they'll be glad to show you the car—and glad to give you the names of Gray-Dort owners, so you can prove for yourself that Gray-Dort today gives the greatest value in the automobile industry.

Since Closed Car Comforts Cost Little More
Why Buy An Open Car?

THE issue with motor car buyers this year is closed car comforts at open car cost. The Coach exclusively provides such advantages without forfeit of chassis quality. It is a Hudson-Essex invention. No other type is like it.

More than 140,000 Coaches are in service. Sales exceed 3,000 each week. The Coach is the largest selling 6-cylinder closed car in the world. That proves the success of value.

It is the Closed Car for Everyone

Everyone prefers a closed car. The Coach alone is the quality car within reach of all. It changed the trend from open to closed cars. Now all can enjoy finest chassis quality with all-year utility, comfort, and closed car distinction.

In two and a half years the

Coach has proved a staunchness and reliability never before associated with a closed car. In every service it satisfies the pride of ownership.

The Same Quality in Both Hudson and Essex

Hudson and Essex are creations of the same engineers. They are built under the same patents. There is no difference in quality of material or workmanship.

The price you want to pay will decide you for Hudson or for Essex. The closed car advantages of the Coach and its price surely leave no other consideration.

Yesterday afternoon about 3 o'clock the young son of Ernest Markey, who resides at 43 Horsfield street, while playing on that street, ran from the sidewalk in front of an automobile driven by Dr. E. J. Ryan and was knocked down. Fortunately for the youngster, the car was going at a slow rate of speed at the time. Dr. Ryan took the child to his home and summoned another doctor and found in the only injury received by the boy was a slight cut on the head.

FINDS BEAUTIFUL DIAMOND IN A HUMBLE SHOP

London, May 31.—From a small hairdresser's and tobacconist's shop a wonderful diamond has been secured by a diamond merchant of Hatton Garden, and its origin was a mystery stone. It is in many ways a mystery stone. It is believed to be one of the famous Russian crown jewels. It is worth many thousands of dollars. The man who found the stone had been aware for some time of its existence, and entered into negotiations to obtain it. He has now gone to Newcastle to interview a prospective purchaser to interview a prospective purchaser.

The stone is almost alive in the vivid scintillating colors it produces, and is defined as being of a light sparkling champagne color. It has been christened by the purchaser, "The Duchess of York." Its weight is 89 1/2 carats.

E. G. CAMERON IS BANQUET GUEST

Dry Dock Engineer, Leaving for Ontario, Has Faith in the East.

That the East had all the natural resources, and as many if not more of the natural advantages of the West, and that this would be the message he would carry back to the middle west with him when he departed in the course of a few days, was the statement of E. G. Cameron, A. M. E. I. C., chief engineer of the St. John Dry Dock and Shipbuilding Co., Ltd., in replying to the toast to the "Guest of honor" at a complimentary banquet tendered him by the St. John Branch of the Engineering Institute of Canada at the Hotel Dunlop last evening.

Mr. Cameron has accepted a position with the Federal Government as assistant to the chief engineer on the Welland Canal project and leaves shortly to enter on his new duties. Those present to bid farewell to Mr. Cameron were F. M. Ross, manager of the St. John Dry Dock and Shipbuilding Co., Ltd.; J. L. Belland, Ottawa; Alexander Gray, C. C. Kirby, J. A. Grant, Herbert Phillips, G. G. Hare, R. H. Cushing, C. McN. Steers, C. L. Roach, K. G. Cairns, G. N. Waring, Geoffrey Stead, H. G. Evans, E. J. Owens, D. R. Smith, J. A. W. Waring, James Gilchrist, W. T. Earle, J. E. Moore, E. G. Grant, W. John Dry Dock and Shipbuilding Co., Ltd.; W. R. Pearce, C. S. Bennett, E. A. Thomas, J. M. Lamb, Grover Keith, J. H. McKinney, Burleigh Faraday, Hial Brown, F. P. Vaughan, Murdoch, A. A. Dodge, G. N. Hatfield, J. R. Freeman, W. J. Miller, Hatfield, J. L. Holman, F. J. Punter and Bert Coupe.

The toast to the King was proposed by the chairman, G. G. Hare, M. E. I. C., and pledged with the usual musical honors. C. C. Kirby, M. E. I. C., district engineer of the C. P. R., proposed the toast to the guest of honor. Mr. Kirby expressed the regret of the members of the engineering profession and of the St. John Branch of the Engineering Institute at losing Mr. Cameron, but wished him the best of success in the wider field which he has embraced.

Replies to Toast. In reply Mr. Cameron thanked his friends for their good wishes. When he came to St. John six years ago, he said, he was under the impression that the East was a place that had been forgotten, when the rest of the universe was created. His opinion had changed and in leaving he was optimistic for the chances of the East and the Maritime times in the future and would carry that same optimistic spirit with him to the middle west. The same natural advantages and resources are to be found in the East as in the West, he said.

Referring to the work on which he was engaged during his six years here, the plan of the East and would carry that same optimistic spirit with him to the middle west. The same natural advantages and resources are to be found in the East as in the West, he said.

who had assisted him in the work. He paid a tribute also to Lee Chestnut, who had been engineer second in command of the work. Other Speakers. F. M. Ross paid a tribute to Mr. Cameron, quoting, he said, the words of one of the laborers at the job, who had, in Mr. Ross' hearing, said of Mr. Cameron that he was "a kindly soul and humble-minded." Mr. Ross also paid a tribute to Mr. Cameron to be a leader in the engineering profession in Canada within a few years.

The toast to the Institute was proposed by F. P. Vaughan, M. E. I. C., and responded to by C. L. Roach, a member of the Institute for but three weeks. J. L. Rainnie, supervisor of the federal triangulation geodetic survey, Ottawa, spoke briefly, as did also G. N. Waring. F. J. Punter entertained the assembly with comic recitations and several vocal selections. Bert Coupe presided at the piano.

2 ATTEMPTS MADE TO WRECK N.S. TRAIN

Ticket of Leave Man is Arrested by Halifax Detective.

Lunenburg, May 30.—Two attempts in two days to wreck the Canadian National Express running between Halifax and Yarmouth led to the arrest this afternoon on suspicion of Gordon Demont, a native of this county, who is a ticket of leave man from Dorchester Penitentiary. Yesterday the express was slowed up in time to remove a railway tie placed across the track near Gold River. Today the train was derailed by sections who found a pile of rocks and ties placed on the track at Chester Basin, a few miles from Gold River. C. N. R. Detective Power, of Halifax was communicated with, with the result that Demont was taken into custody while walking on the road to New Ross.

MOTHERS AND GIRLS AT JOINT BANQUET

An enjoyable Mother and Daughter banquet was held in the schoolroom of the Carmarthen street church last evening by the C. G. I. T. groups. Following the banquet there was a singing session led by Miss Gladys Jardine and then came a series of toasts. Miss Gladys Brindle acted as toastmistress. Toasts were: Miss Bertha White, Rev. E. E. Styles, Miss M. Edmondson, George Calhoun, Miss Margaret James, Miss Gladys Styles, Miss E. Brindle, Wesley Mercer, Miss Evelyn McKim, Miss Stella Earle, Miss Ethel Brindle, Miss Hilda Clark, R. Carter, Isaac Mercer.

Following the toast list there was an inspirational address by Miss M. Trotter, girls' work secretary of the Maritime Religious Education Council, and a pleasing programme in which Miss Audrey Hunter, Miss Gladys Styles, Miss M. Cran, Miss G. Barton, Miss E. McKim and the C. G. I. T. girls took part. Miss Ethel Brindle and Miss Estella Earle are the leaders of the two groups of C. G. I. T.

Chicago Dry Agent Can Not Complain of Having a Drab Existence.

Chicago, May 31.—(United Press).—The life of a prohibition agent is far from being a calm or peaceful existence, if the experience of Bryce Armstrong, head of Chicago's federal "sponge squad," is to be taken as a criterion. Armstrong, in recent months, has run the gamut of harrowing experiences for, as the arch foe of Chicago's beer runners and boot peddlers, he has been the object of their persecution. Recently, while Armstrong and members of his family slept, their apartment was bombed. The force of the explosion shattered windows in the neighborhood and hurled Armstrong from his bed. The next morning he named two of the bombers, who were leggers as the parties responsible but was without evidence except the fact that they had threatened to "get him."

Before and after the bombing Armstrong has lived and worked with the knowledge that he was a much sought target for the gunmen's "gats." Armstrong also has his troubles with politicians who are reputed to be in league with the beer runners. In stories of his experiences, and in testimony before the senate Daugherty committee in Washington, Armstrong has requested numerous attempts to remove him from office. The offers have come, he says, in threats and bribes. "The threats have been intimations that the 'booze interests' would 'get' him and members of his family and the bombing episode, still fresh in his mind, convinced Armstrong that the beer runners meant what they said. Armstrong told on the witness stand that he has been offered good positions at high salaries if he would only relent from his war against the beer runners. He has also told of being offered huge sums of money to remain away from court when defendants have his secured evidence against them on trial.

AN AWFUL ATTACK OF PIMPLES ALL OVER HIS FACE

Pimples breaking out on the face and other parts of the body is a sure sign that the blood is not in proper shape. While the skin is the object of the attack the real seat of the disease is in the blood on account of the entire circulation being poisoned. Burdock Blood Bitters quickly and effectively banish pimples and all other skin diseases as it goes right to the root of the trouble by cleansing and enriching the blood. It is a sure cure. Mr. Charles Anderson, Kellogg, Sask., writes:—"A year ago I had an awful attack of pimples. They broke out all over my face and I could not get rid of them in any way. One day a friend told me about your Burdock Blood Bitters and let me have a bottle he had to spare. After using it I noticed a change, so I bought three more bottles, and now I don't know there is such a thing as pimples."

Lieutenants Morrison will accompany the four men from the St. John R. C. N. V. R. to Esquimaux where they will arrive on July 1 and on July 3 they will join the cruiser squadron at Vancouver. The cruise will last just one month as the squadron is due in Halifax on August 3.

Police Women In London On Trial. London, May 31.—(United Press).—The London police-woman is on trial. She must justify her existence to a special committee appointed by the Home Office to reply to the question: "Are police-women a success?" If the lady Robbies can prove their case, the female force will be increased. Otherwise the present staff will be fired.

The general opinion seems to be that the lady cops will have little difficulty in proving that they are a necessary part of a modern police department. There are 87 in other English cities. London police-women do not have a regular beat, but are sent all over London as circumstances require.

DR. MACKINNON IS LIKELY TO BE NEW ASSEMBLY HEAD. Owen Sound, May 30.—Rev. Dr. Clarence Mackinnon, principal of the Presbyterian College, Halifax, N. S., will probably be elected moderator of the Presbyterian General Assembly when it convenes here on Wednesday evening of next week. The choice of the presiding officer is made by open vote and any commissioner is free to place in nomination any other member, but it is widely agreed in the church that Dr. Mackinnon is to be honored this year, and he will not only guide the deliberations of the body through what may prove to be in some respects a stormy assembly, but he will spend the following 12 months in a tour of visitation of synods, presbyteries and churches.

ALUMNAE MEET IN BADMINTON FINAL. St. Vincent's Alumnae members attended well last evening when they assembled for the finals in the badminton tournament. The excitement ran high. The spectators taxed the capacity of the rooms at St. John Baptist school. Miss Kathleen Lundy, official scorer, received a special prize. She, with Miss Genevieve Killen, was defeated in the doubles by Miss Nellie O'Brien and Miss Beatrice Mooney. The winners were Miss Muriel Corkery, B. C. L. and Miss Lillian Wallace. Miss Nellie O'Brien was the winner also in the singles, defeating Miss Mary Chaisson, president of the alumnae. Misses Kathleen and Mary O'Brien composed a committee serving delicious refreshments. Miss Chaisson presented the prizes. It was decided to make last evening the finishing event of the usual activities of the winter season.

ATTACK ON RAILWAY BUDGET POSTPONED

Drayton Motion to Adjourn Debate is Declared Irregular.

Ottawa, May 30.—The suggested storm of criticism which loomed up on the horizon on Wednesday when Sir Henry Drayton moved the adjournment of the debate on the Canadian National Railway statement passed over today. It is only temporarily averted, however. When Sir Henry arose today, loaded with facts and statistics, he was stopped by the Speaker, who discovered that Sir Henry's motion was irregular when made, and should not have been received. This speech, therefore, must stand until the House is again on railway estimates. It will probably not be shortened any as a result of the incident.

The use of New Brunswick granite, quarried and finished by New Brunswick workmen for the civic memorial was advocated in a resolution passed unanimously at the meeting of the Women's Council held yesterday afternoon in the Board of Trade rooms.

GIRLS GIVE GOOD GYM EXHIBITION

Y. W. C. A. Classes Present Fine Program on Opera House Stage.

A performance which reflected great credit on Miss Gwendolyn Richards, physical instructor, was given last evening in the Opera House by the girls of the Y. W. C. A. gymnasium classes and was watched with interest by a throng of spectators which practically filled the house to capacity.

The performers ranged in age from two to 20 and each did the bit assigned to her in first class style. The floor-drills, dumb-bell, wand and club exercises were carried out with smartness and precision; the dancing was graceful and well done, and there was injected in some of the numbers an element of pantomime that was remarkably well carried out.

The programme opened with a grand march of all the classes. The seniors then gave a finished exhibition of Swedish floor drill. Then followed an act called "Nursery Rhymes" cleverly executed by tiny tots, some of them only two years old.

Is Efficient Leader

Pierot and Pierette number which followed, executed in costume by Misses Alice Gilbert and Gertrude Rolston was about the best pantomime number on the programme.

The senior dancers' Troika number was a gaily costumed one and very effective, with Miss Angus and Miss Mabel Currie leading the merry throng in bright jockey outfits.

NEWS NOTES GATHERED FROM WORLD OF STAGE AND SCREEN

AARON HOFFMAN, PLAYWRIGHT, DEAD

Collaborated With Ernest Shipman in "Friendly Enemies."

New York, May 31.—Aaron Hoffman, one of the most prolific writers for the American stage, author of a score of plays and countless vaudeville sketches, died this week at his residence, 404 Riverside Drive, after a week's illness. He was 43 years old.

A native of St. Louis, Mr. Hoffman spent his youth in Chicago, and at 21 came to this city to try his hand at playwriting. He at once showed a natural gift for the theatre and his services were soon in demand for all sorts of productions.

In recent years his writings have been more ambitious, the best known being "Friendly Enemies," in which Samuel Shipman collaborated. This appeared during the early part of the war and carried a long run, Sam Bernard and Louis Mann acting the German-Americans who were finally brought to view the war in the same light.

It has been said that few vaudeville programmes are altogether lacking in Hoffman material. Among the famous stars of the two-day who have used monologues or sketches by him were the late Cliff Gordon, Lew Dockstader, Joe Welch, Nora Bayes, Henry Lewis, Sam Mann, Bobby North and Alexander Carr. He was a member of the Lambs and Friars Clubs.

Mrs. Clyde Franklin And Son Leave Today

Mrs. Franklin, wife of Clyde Franklin of the F. James Carroll Players, who has been residing in the city with her husband and son, Bob, during the 40 weeks the company has been playing here, will leave on the Boston boat this evening on the way to visit her parents in Ohio.

While here, Bob has been attending King Edward school and although only 12 years of age he has passed the examinations which entitle him to entrance to grade VIII next year.

Mrs. Franklin received word yesterday from her husband that he was considerably improved in health; he was suffering acutely from an abscessed tooth when the company left for Halifax. While her plans of course depend on those of her husband, Mrs. Franklin expressed the hope that the little family would be able to return to St. John next fall. This hope no doubt will be echoed by numerous friends she has made during her stay in the city.

Work has been begun at Universal City on the second of the short feature pictures being made with Jack Dempsey, world's heavyweight champion, as star. Earle Kenton, former director for Ben Turpin, is directing the second Dempsey film. It having been decided by Universal executives to alternate directors in the series. Jess Robbins, who directed the first, is preparing the third.

THORNG IN TRIBUTE TO VICTOR HERBERT

Many Friends of Composer Gather at Church for Funeral Services.

New York, May 31.—Funeral services for Victor Herbert were held in St. Thomas' Episcopal church, Fifth Ave. and 63rd street Wednesday afternoon and were attended not only by many who knew the man but by many more who loved his melodies. Men and women came in such numbers that the doors of the church were closed early, but this was through some mistake, for many were not permitted to enter, although there were vacant pews in both aisles of the church.

Hurdy-Gurdy Man Comes. While composers and musicians of eminence were present inconspicuous members of orchestras attended and even a hurdy-gurdy man came to offer tribute. Of small stature, he brought with him a simple wooden box and placing this on the steps of the church he stood on it that he might clearly see the coffin of the noted composer.

The ceremonies began with a procession that formed at the clubhouse of the American Society of Composers,

Authors and Publishers. Headed by the police department band, which played Chopin's Funeral March, this group moved west on 46th street to Fifth avenue and north on Fifth Ave. to the church. It was then a few minutes before 2 o'clock and traffic on the avenue was heavy, but this was stopped to permit the procession to proceed without delay.

ST. JOHN BOY AGAIN PROMOTED IN C.P.R.

John M. Keeffe Goes to Chicago as Traveling Passenger Agent.

Word of still another promotion in the ranks of the Canadian Pacific Railway for a St. John boy was announced yesterday when John M. Keeffe, son of Mrs. John Keeffe, was appointed traveling passenger agent at Chicago. Mr. Keeffe left Quebec last night for St. John, but will spend only a few hours here before starting on Sunday to take over his new duties.

Mr. Keeffe has been with the C. P. R. passenger staffs for the last eight years. Immediately after his graduation from the St. John High School and the completion of a business college course, he entered the employ of the company, serving first in the district passenger agent's office and later in the city ticket office.

About two years ago he was transferred to Quebec and after a few months there was appointed rail agent on the steamer Metagama. From the Metagama he was transferred to the Montcalm in a similar capacity and on the first trip of that steamer to Quebec this year was again taken on the strength of the Quebec port staff.

ST. JOHN LAWYERS GOING TO ENGLAND

This City Will be Well Represented at Great London Gathering.

Several St. John lawyers with members of their families will be passengers on the Canadian Pacific liner Montclair sailing from Quebec on July 9 for England with other Canadian bar members enroute to attend the international convention of the bar associations in London. The British and Canadian bar associations will be joint hosts to the American Bar Association, which expects to send 1,200 members over.

Included in those who have definitely planned to sail are Dr. M. G. Teed, K. C., Mrs. Teed, Miss Margaret H. Teed, B. C. L., and Miss Dorothy Teed B. A., now in Montreal; Mr. and Mrs. S. A. M. Skinner; Mr. and Mrs. H. F. Puddington, Miss Florence Puddington and Elmer Puddington; Dr. Fred R. Taylor, K. C., and Mrs. Taylor and Mrs. M. D. Tilley, Miss Alice and Miss Margaret Tilley, and S. L. Tilley Jr. Mr. Tilley's party will sail on the C. P. S. Montclair.

Mr. and Mrs. Skinner plan on leaving here about the middle of June to sail from Quebec on the Empress of Canada. Hon. Dr. J. B. M. Baxter, K. C., Mr. P. is uncertain yet, according to Mrs. Baxter, about going owing to his duties at the House of Commons. Daniel Mullin, K. C. and J. D. P. Lewin also have not decided as yet if they will attend.

Sir J. Douglas Hazen, Chief Justice for New Brunswick, accompanied by Mrs. Hazen and Miss Alice Hazen, left on Wednesday night for Quebec and sailed for England yesterday on the C. P. R. liner Montclair. Sir Douglas plans to attend the big convention.

In the list of those already booked for passage on the Montclair are the names of five lieutenant-governors, six chief justices and numerous other legal luminaries. To meet the requirements of the Canadian Bar members, the big liner will call at Southampton and other Canadian members might reach London in advance of the United States visitors and join with the British bar members in receiving the guests from the U. S. Republic.

The programme already mapped out includes a special service in Westminster Abbey on Sunday July 20, a garden party at Buckingham Palace, a banquet by the Lord Mayor of London, a visit to Sulgrave Manor, the family estate of George Washington first President of the United States and a reception at the Imperial Institute in connection with London University on July 31.

Colonel McLean was born here and left when the South African war broke out, being then still in his teens. He received his commission in the imperial army and saw service in many climes. He was with the Royal Field Artillery when the great war started, and it was during that campaign that he was decorated with orders of Commander of Michael and George and the Distinguished Service Order and later received two bars to the D. S. O. After the war he was elected M. P. for the Brigg, Lincolnshire, and sat through one session, retiring from the field at the last election and rejoining the R. F. A.

NEW RECTOR IS EXPECTED TODAY

Father Cloran was Ordained by Bishop, Now Cardinal Hayes.

Rev. James Cloran, C. S. R., recently appointed rector of St. Peter's church, succeeding Rev. William Hogan, C. S. R., is expected to arrive in the city this afternoon as a member of the mission band and later as one of the parish priests. While here he not only endeared himself to the members of the congregation, but also won high commendations for his achievements in directing members of St. Peter's societies in the presentation of theatrical and musical productions. One of his finest productions was "Forty-Five Minutes From Broadway," which scored a distinct success in St. Peter's hall and later at the Imperial Theatre.

Father Cloran was engaged in mission work for a number of years following his ordination and is conceded to be one of the best speakers in the Canadian province of the Redemptorist congregation. He completed a classical course at Cote Des Neiges and St. Anne De Despre and entered his first novitiate with the Redemptorist Fathers at Hochelaga. On September 8, 1911, he professed and became a member of the congregation of the Most Holy Redeemer. He then went to a Redemptorist seminary in Ottawa, where he studied for two years. From 1913 until 1916 he studied philosophy and theology at Mount St. Alphonse Seminary at Esopus, on the Hudson, and was ordained to the priesthood in June 1916 by the now Cardinal Hayes, who was at that time auxiliary Bishop of New York. He remained at the seminary until 1918, when he completed his studies and made his second novitiate.

SEES IMPROVEMENT IN TWO HOSPITALS

Standardization Inspector Thinks Local Institutions Both Very Fine.

Dr. H. C. Cassidy, hospital visitor for the American College of Surgeons made inspection visits to the General Public Hospital and the St. John Infirmary yesterday in connection with the standardization requirements of the College of Surgeons. Dr. Cassidy said he believed a considerable improvement had taken place in both of the St. John hospitals since the last standardization report was given. He considered that they were both very fine hospitals but he was not prepared to make any definite statements as his report is to be presented to the authorities in Chicago. Since he began his tour from headquarters in Chicago on Jan. 1 he has inspected about 300 hospitals and by the time he completes his tour he will have visited about 300 more.

Dr. Cassidy's itinerary included Illinois, Ohio, Pennsylvania, North Carolina, West Virginia, New Jersey and part of New York state. From New York he went to Montreal and has been working east since then. He came to St. John from St. Stephen, where he had visited the Chipman Memorial Hospital, and he left on the Digby boat this morning for Yarmouth, N. S. He will cross the continent from Nova Scotia to Vancouver and will be back in Chicago by Oct. 1.

This is Dr. Cassidy's first trip as a hospital visitor. Last year Dr. McEachern, the associate director of the American College of Surgeons, made the inspection of the St. John hospitals. Dr. Cassidy is a Canadian and comes from Montreal. He graduated from McGill University and has many friends among the medical profession in St. John.

QUESTION OF BOND ISSUE ARISES

Commissioner Frink Speaks of It in Connection With Paving.

"When is the public works department going to start paving our streets," is a question which is agitating the minds of the residents of those thoroughfares which were named as the ones to be undertaken this summer, take the matter at council and secure the opinion of the members on the matter of a bond issue for the work. He said it could not be done. Dr. Cassidy's opinion is that the matter should be taken up at an early date and the building of a new stable on the lot owned by the city in Rothesay avenue. The plans are ready and an estimate of the cost has been made up. This is also a subject for a bond issue.
