GENERAL CIRCULAR.

THE MOUNT ALLISON WESLEYAN COLLEGE was organized in July, 1862, under a charter obtained from the Legislature of New Brunswick. By virtue of this charter it possesses full University powers. An Act was subsequently passed amending the charter and changing the name of the Corporation to "The University of Mount Allison College."

The College is conducted on strictly non-sectarian principles. The general denominational control under which it is placed furnishes a sufficient guarantee that sceptical license will never be allowed within its walls, but does not imply the existence of a purpose or wish to interfere with the conscientious convictions of any. The fullest recognition, however, is given to the truths and claims of the Christian Religion. The Bible is publicly honored as the Word of God, and no pains are spared that the education imparted may be suitably leavened with religious principle.

Students may enter the College either as regular Undergraduates, having passed the Matriculation Examination; or as Specialists, who do not look forward to a University Degree.

There are Honor Courses in Classics, Mathematics, Science, Philosophy, and in English Language and Literature.

Special Students are admitted to any class or course of Lectures for which, in the judgment of the Faculty, after due examination, they are deemed prepared; and upon leaving the College, they will be entitled to receive Certificates bearing the College Seal, and specifying the particular branches of study in which they have received instruction and passed satisfactory examinations.

Special arrangements will be made for the convenience of Public School Teachers who may desire to pursue a college course while continuing to teach during the summer term.

Ladies wishing to pursue an undergraduate course will find at Mount Allison facilities for thorough collegiate training under the most favorable conditions as regards health, and domestic and social advantages. Board may be had at the Ladies' College on reasonable

terms. In addition to the regular undergraduate work the best instruction in Music and the Fine Arts is available.

Mount Allison was the first chartered college in Canada to admit women to all the privileges of regular collegiate courses and degrees.

MATRICULATION.

The Matriculation Examinations are held on the second and third days of the First Term of the Collegiate Year.

Certificates of Matriculation from chartered colleges are accepted in place of the examination. Students holding provincial licenses and non-professional certificates will be exempted from examination in any subject covered thereby.

DEPARTMENT I. - ENGLISH.

Grammar, Analysis, Outlines of English and Canadian History, and General Geography.

Books prescribed by the Councils of Public Instruction of New Brunswick, Nova Scotia, and P. E. Island.

DEPARTMENT II.—CLASSICS.

Latin*—Cæsar, Gallic War, Book IV.; Virgil, Æneid, Book VI., Latin Grammar, Harkness's. Easy sentences of English to be translated into Latin. Questions in History and Geography, arising out of the Books prescribed.

Greek†—Xenophon, Anabasis, Book I.; Greek Grammar, Hadley's or Goodwin's.

[Instead of the Classical selections prescribed, satisfactory equivalents from the same or other authors will be accepted.]

DEPARTMENT III. - MATHEMATICS.

Arithmetic—Proportion, Interest, Extraction of Square Root, Vulgar and Decimal Fractions.

▲lgebra - Addition, Subtraction, Multiplication, and Division of

*The Latin subjects for 1894 are Casar, Gallic War, Book III.; Virg., Æneid, Book II.

† The Greek subject for 1894 is Xenophon, Anabasis, Book II.

Algebraical Quantities, Simple Equations of one, two, and three unknown quantities.

Geometry — First, Second, and Third Books of Euclid, or the subjects thereof and the solving of easy Geometrical exercises.

Candidates for the degree of B. A. will be allowed to take Natural Philosophy and French as an equivalent for Greek, viz:

NATURAL PHILOSOPHY.

Elementary Mechanics, Hydrostatics, Hydraulics, Pneumatics, Acoustics, and Optics.

FRENCH.

Grammar—Fasquelle or Pujol and Van Norman; the Accidence, Fénélon's Telemaque, Books I. and II. Translations of simple and easy sentences from English into French.

SENIOR MATRICULATION.

Students may enter the Sophomore Class by passing the ordinary matriculation examinations, together with examinations on the subjects of the Freshman year, or their equivalents.

Outline of Course Required for B. A. Degree.

Freshman Dear.

- 1. Latin.
- 2. Mathematics.
- 3. English.
- 4. Science (Physics).

Sophomore Dear.

- 1. Latin.
- 2. Greek or French or German.
- 3. Mathematics.
- 4. Science (Botany and Chemistry).

Innior Dear.

- 1. Greek or French or German.
- 2. English.
- 3. Logic and Psychology.

And one of the following optional subjects:

- 1. Political Science.
- 2. Natural Science (Chemistry and Physiology).
- 3. Mathematical Physics (Statics and Dynamics).
- 4. French (for those taking Greek).
- 5. German
- 6. Hebrew.

Senior Dear.

- 1. Ethics and Evidences of Christianity.

 And three of the following optional subjects:
- 1. History of Philosophy.
- 2. Mathematical Physics (Astronomy and Optics).
- 3. Mineralogy and Geology.
- 4. French.
- 5. German.
- 6. Hebrew.
- 7. Mathematics (Higher Algebra and Trigonometry).

NOTES.

The equivalent for the two years of Greek is either two years of French and one of German, or two years of German and one of French.

For students taking both Latin and Greek there are thus four full studies for four years; those substituting moderns have one additional study.

Students choosing French or German or Hebrew as one of their optional subjects must continue the same language the following year.

Students taking the full Honors Course in any department may omit one of the optional subjects from either the Junior or the Senior Year.

During the Freshman and Sophomore Years all students are required to prepare weekly an exercise either in English Composition or Elocution.

Every Senior is required to write, and deliver during his Senior Year, three orations at dates fixed at the beginning of the session.

Students in Science of the Freshman and Sophomore Years will be required to prepare permanent note-books of all lectures and experiments. Fifty per cent. of term standing will be determined by the accuracy and neatness of these books.

All Books of Reference may be found in the Library, which is open to students at all hours.

COURSES OF INSTRUCTION.

Greek History, to death of Alexander.

Grecian Antiquities.

(Five hours a week.)

2. MATHEMATICS.

EUCLID.

FIRST YEAR - Books III., IV., VI., XI., and definitions of Book V.

ALGEBRA.

Surds, Quadratic Equations, Indeterminate Equations, Involution and Evolution, Proportion, Progressions, Permutations and Combinations, Binomial Theorem.

"Text Books—Hall and Knight's Algebra, Hall and Stevens' Geometry.

(Five hours a week.)

PLANE TRIGONOMETRY.

SECOND YEAR—As far as DeMoivre's Theorem; 'use of Logarithms, Solution of Triangles, Measurement of Heights and Distances.

SOLID GEOMETRY.

Prism, Pyramid, Cylinder, Cone, Sphere, and Regular Solids.

ANALYTICAL GEOMETRY.

Straight Line, Circle, Parabola, Ellipse, Hyperbola. Text Books-Hall and Knight's Plane Trigonometry, Smith's Conic Sections, Heath's Geometry in

(Five hours a week.)

THIRD YEAR-Mathematical Physics. Dynamics-Loney's Dynamics. Statics-Loney's Statics.

Hydrostatics—Besant's Hydrostatics. (Three hours a week.)

FOURTH YEAR-Mathematical Physics.

Spherical Trigonometry-McClelland and Preston. Geometrical Optics-Heath.

Astronomy-Young's General Astronomy.

(Three hours a week.)

MATHEMATICS.—Continued.

Mathematics.

Higher Algebra—Exponential Theorem and Theory of Logarithms, Series, Probability, Theory of Equations, Determinants, *Hall* and *Knight's* Higher Algebra.

Higher Trigonometry—DeMoivre's Theorem and its applications. Trigonometric Series and Factors. Loney's Analytical Trigonometry (Camb. Univ. Press).

(Three hours a week.)

3. SCIENCE.

PHYSICS.

FIRST YEAR—Lectures on Mass and Molecular Mechanics, Sound,
Electro-Magnetic Forces and Heat, Light and
Actinic Rays as Electro-Magnetic Vibrations.
Text Book, Gage's Introduction to Physical
Science.

Books of Reference—Deschanel's Physics, Tyndall's Sound, Heat as a Mode of Motion, Light, Schellen's Spectrum Analysis, and Cassell's Electricity in the Service of Man.

(Four hours a week with laboratory work and drawing.)

BOTANY AND BIOLOGY.

Second Year—Lectures on Morphology and Classification of Plants. Laboratory Work in Microscopic and Determinative Botany. Text Book, Gray's Lessons and Manual.

> Lectures on the Properties of Living Matter and the Great Problems of Biology.

Books of Reference—Bessey's Botany and Sach's Text Book of Botany, Sedgwick & Wilson's Biology, and Schafer's Histology.

(Four hours a week during first term.)

SCIENCE.—Continued.

CHEMISTRY.

Lectures on Atomic Theory, the Occurrence, Properties and Natural Classification of the Chemical Elements, with special reference to typical elements and compounds. Text Book, Shepard's Inorganic Chemistry, with Organic Supplement. Laboratory work each week, with careful Note-taking.

Books of Reference—Cooke's New Chemistry, Mendelljief's Principles of Chemistry, Ramsay's System of Inorganic Chemistry, and Remsen's Inorganic Chemistry.

Prizes in Systematic Theology.

Prizes to the amount of Twenty-five Dollars, offered by the son of a deceased minister for proficiency in some branch of Theological Study, were allotted to the Class in Systematic Theology, and as a result of the competition were awarded to Wm. M. Ryan (\$15); H. D. Townsend (\$10).

Prize in Biblical Study.

A prize of Fifteen Dollars is offered by G. R. Sangster, Esq., of Moncton, for proficiency in Biblical Study. Winner, 1894, William Patterson.

Gymnasium Prizes.

A Silver Medal, given by Mr. J. W. Potts, the Instructor in Gymnastics, a Gold Medal and a Silver Medal provided by the University, and several other prizes offered by merchants of Sackville, were won by the following, Sergt.-Major Kelly, of Halifax, being judge:

Howe Jones—Gold Medal. W. W. Costin—Silver Medal. A. S. Embree—Silver Medal.

Through the kindness of Jairus Hart, Esq., of Halifax, the sum of \$100 has been placed at the disposal of the Faculty to be distributed as prizes among the Undergraduate Classes of 1894-5. The allocation of these prizes will be announced at the beginning of the annual session in September.

LIBRARY.

The Library contains about 7,000 volumes. Part of these, consisting of books of reference and such books as the professors put aside from time to time for their classes for purposes of reference, may be used only in the Library itself, but not removed; the rest may be taken out by students and read in their rooms or homes. The Library contains a good collection of modern books, and is well supplied with books useful to students in all branches of study. It is also furnished with the leading periodicals, such as The Contemporary Review, The Nineteenth Century, The Fortnightly, The

Forum, Nature, The Scientific American, The Athenaeum, The Academy, Biblotheca Sacra, Old Testament Student, etc., etc.

During the past year a number of valuable additions have been made, among which may be particularly mentioned a complete set of "Notes and Queries," 86 vols., including the six Index volumes, bound in calf, the purchase money for which was provided by the following gentlemen: James B. Morrow, Esq., Wm. Webb, Esq., Joseph Allison, Esq., Rev. Dr. Brecken, Jairus Hart, Esq., M. R. Morrow, Esq., W. C. Milner, Esq., A. L. Robinson, M. A., Dr. F. Woodbury, Geo. A. Huestis, Esq., Prof. B. Russell, W. B. McCoy. A set of the first 33 volumes of the "Dictionary of National Biography," so far as published, was procured with part of a legacy left by the late Rev. John MacMurray, D. D., for many years Chairman of the Board of Regents. The Alumni Society gave Gardiner's History of England, 10 vols., and Smith's Dictionary of Greek and Roman Antiquities, 2 vols. With the proceeds from a course of lectures held last term in aid of the Library, a set of the Century Dictionary was obtained, while a considerable sum remains on hand to be disposed of during the coming year. volumes were obtained from the regular income of the Library, among which may be mentioned Gardiner's Great Civil War, Prof. Rogers' Economic Interpretation of History and Commercial History of England, Cambridge edition of the Septuagint, Clarke's History of Astronomy, Minor English Poets (10 vols.), Lord Melbourne's Papers, Ramsay's Church and the Roman Empire, Morse Stephens' French Revolution, Taine's Modern Regime, and a number of technical works on Science and Mathematics.

The following have also been received:

ng he is This is a voluntary Literary Society, the history of which reaches back for more than twenty years. Its special objects are the acquisition of readiness and power in debate, and the cultivation of a pure literary taste. Not a few of the Alumni of the Institution who are to-day prominent in the professional and legislative circles of the several Provinces of the Dominion, have been enrolled in its membership. The Society, which had entirely outgrown the well-known room provided for it in the old Lodge, has been assigned the use of the large hall in the centre of the new Residence. The hall $58 \times 34 \times 16$ feet in size, has a hard wood floor, and panelled ceiling; and the Eurhetorian Society has undertaken, with the help of the old members, to furnish it suitably.

YOUNG MEN'S CHRISTIAN ASSOCIATION.

A branch of this society was organized in 1887, and has now a membership of forty-five. Its object is to associate for Christian effort, the young men who from year to year attend the University and Academy. A committee of this Association is appointed to meet new students at the railway station, and introduce them to college life. The association has received for its use the elegant parlor over the entrance of the new Residence, for the furnishing of which funds have already in large part been collected.

GYMNASIUM.

A commodious Gymnasium, fitted up with modern appliances for athletic exercises and physical development, and under the direction of a competent instructor, is available at a moderate charge to all students.

An advance payment of \$20 on account of College and Class Fees is required at the beginning of each term.

In all Science classes in which costly apparatus or materials are used, a small laboratory fee will be charged, to be paid when a student enters his name in a class. The supply of apparatus has been greatly enlarged through the munificence of Rev. Ralph Brecken, D. D., and every effort will be made to afford the students full courses of practical demonstration, and the use of as many instruments as can be entrusted to them. The list of charges will be posted on the laboratory door at the beginning of each term. Breakages and carelessness in regard to the property of the department will subject a student to extra charges, or permanent dismissal from the class.

Students who, upon examination, may be admitted to an advanced position in the Undergraduate Course, and non-residents, who may apply for examination, will be charged the usual Class Fee in each subject.

on heed Term

The Residence, a cut of which appears on the opposite page, is designed in plan and equipment to promote in the highest possible degree the comfort and convenience of its occupants. The site is one of ideal appropriateness and beauty-elevated without being unduly exposed, and combines all conditions favorable to health and agreeable living. The building is heated and ventilated by the Smead-Dowd system of uniformly warmed and constantly changed Drainage (which natural conditions favor) and plumbing are receiving special attention according to the most improved modern methods. Pure spring water will be brought to every storey and a large number of well equipped bath-rooms will be constantly avail-The halls and all the larger apartments, such as parlors, dining-room, reading-room, Eurhetorian Hall and Y.M.C. A. parlor, and probably the students' rooms as well, will be lighted by electricity. In general, a connected parlor and bed-room will be allotted to each pair of students, though for such as prefer them, a small number of single and double rooms will be at command. The dining-room is spacious, lofty, and particularly well lighted, with a handsome panelled ceiling. In entire keeping with the general character of the interior are fine roomy apartments designed for use as kitchens, pantries, servants' common rooms, laundry, drying room, etc., etc. The general infirmary, or hospital, embraces two large rooms, withdrawn from the main lines of movement, and with a pleasant, sunny exposure. Against the possible outbreak of infectious or contagious diseases, another suite of apartments, entirely isolated from the residential parts of the building, has been provided.

An advance payment of \$40 on account of board is required at the beginning of each term.

Students will be charged for any damage done to rooms or furniture during their occupancy.

A supply of the necessary Text Books, Stationery, etc., is kept on hand in the University Office, and furnished to the Students as needed by them; and the articles so supplied are charged in the Term's bill at the lowest rates.

General Governmental Regulations, Etc.

Students, both Regular and Special, are expected to conduct themselves with propriety, and to observe all the regulations of the Faculty as announced from time to time. Students whose conduct or progress in study shall continue, after suitable admonition, to be unsatisfactory, will not be allowed to remain in the Institution.

Regular and punctual attendance at their classes shall be imperative on all students. Professors will mark the presence or absence of students immediately before commencing the work of the class, and will note as absent those who enter thereafter, unless satisfactory reasons for tardiness be assigned.

No student shall be absent from the College after 10 o'clock at

night without special permission of the President.

All students are expected to attend Divine Service on Sunday, and to be punctual in attendance at daily prayers in the College Chapel.

Without necessarily involving expulsion from College, students may be debarred from the privileges of the Residence for failure to conform

to the recognized standards of gentlemanly conduct.

No student shall resort to any tavern or place where intoxicating liquors are sold without special permission of the President; and no student who is known to use intoxicating drinks will be allowed to retain his connection with the College.

The use of tobacco on the College premises is not permitted.

Undergraduates are expected to provide themselves with College caps and gowns, and to wear them at Classes and Lectures, at Church, and at all public Collegiate exercises and anniversaries.

REGULATIONS AND ANNOUNCEMENTS.

Degrees of B. D.

Candidates for this Degree must be graduates in Arts of at least two years' standing. They are required to give evidence of satisfactory acquaintance with the subjects assigned as preliminary studies.

They are required to pass a satisfactory examination in all the subjects of the three years course of study, and to prepare for delivery a satisfactory thesis on some Biblical or Theological subject, which shall be forwarded to the Dean at least three weeks before the annual Convocation.

Persons other than graduates in Arts may pass examinations in this course, and, if successful, receive certificates to that effect.

Special facilities are offered to graduates in Arts who wish to reside in the College while pursuing this course.

Communications respecting this department should be addressed to the Dean.

Candidates for the Ministry.

Candidates for the Ministry of the Methodist Church of Canada, who have been appointed to attend College, will pursue the course of study prescribed on page 192 of the Discipline of the Church.

The Educational Society of the Methodist Church makes provision for free tuition, and aids in meeting the general expenses of young men appointed by the Conference to attend College.

Preliminary Course of Study.

This Course of Study is designed to meet the wants of young men preparing to offer themselves to be received on trial for the ministry. It embraces all the subjects prescribed for the preliminary and first year's examinations of the Methodist Conference, and may extend over one, two, or three years, according to the previous attainments and circumstances of the student. The Theological parts of this Course may be pursued in connection with Matriculation in Arts.

The English and Classical parts of this Course are prepared in the Academy and College.

Students presenting themselves for admission to this Course should bring with them letters of introduction from the Superintendent Ministers of the Circuits in which they reside. If they expect to offer themselves for the ministry at the close of the year, they must be recommended from the quarterly meeting of their own circuits, and not from the Sackville quarterly meeting. Students bringing with them certificates of such recommendation will be exempted from fees for theological tuition. Licenses as exhorters or local preachers should also, in all cases, issue from the Superintendent and quarterly meeting of the Circuit in which the student resides, and where his church membership and standing should be continued.

After examination at the close of the College year, all students in the preliminary course will return home in time to be presented at their own district meetings, in case they wish to be received on trial by the Conference.

Societies.

Two Societies have been established having a relation to this department. The one is designed for the benefit of the Theological students in the College; and the other to serve as a connecting link between them and the ministers laboring in the three Conferences of the Maritime Provinces, as well as to promote among the latter a spirit of theological and ministerial culture.

Among the students it is proposed, by means of Essays, Exegetical Papers, and Oral discussions, to stimulate enquiry as to the best methods of ministerial efficiency, and so to assist in preparing each other for the great work of preaching the Gospel and feeding the flock of Christ.

The Ministers' Theological Union will meet at the close of each Collegiate year, and, in addition to the consideration of topics of interest belonging to their work, will have an annual Sermon preached and a Theological Lecture delivered. The Rev. R. W. Weddall, M. A., will preach the annual Sermon, and the Rev. J. W. Prestwood, B. A., B. D., will deliver the annual Lecture in 1895.

The object of this Society is to bring together all those who have studied at Mount Allison, either in the College or the Academy, and to ensure the life-long devotion of Mount Allison's sons to their Alma Mater. All old students are cordially invited to become members. With a view of increasing the membership, the annual fee was reduced a few years ago to one dollar. The funds

of the Society have been devoted in past years to paying off a subscription of \$1,000 to the Endowment of the College, to furnishing scholarships to students of the College and Academy, and to adding to the Alumni Reference Library in the College. A series of resolutions with reference to nominating candidates to represent the Alumni Society on the Board of Regents, and to enable members who cannot be present to cast a vote for the same, was adopted at the regular meeting in May, 1892. Particulars may be obtained from the Secretary.

MOUNT ALLISON

Ladies' Collège

Conservatory of Music.

PRINCIPAL: THE REV. B. C. BORDEN, D. D.

The attention of the friends of female education is invited to the Mount Allison Ladies' College with a confidence proportioned to the successful history it has already achieved.

Courses of study extending from the Elementary English branches to and through the whole University Curriculum to the degree of M. A. are open to all the students of this institution. Young ladies wishing to pursue a University Course can here do so while enjoying all the social advantages and safeguards of the Ladies' College, and at the same time obtain instruction in Music, Elocution, and the Fine Arts.

The Conservatory of Music, recently opened, is under the charge of a gentleman of the very highest rank in his profession, aided by accomplished teachers. It is provided with an admirable suite of rooms adapted to the Conservatory system. Superior new Pianofortes, both for instruction and practice, are furnished. The Fine Arts Department has been reorganized and enriched by the acquisition of the celebrated Owens' Art Gallery paintings, and is under the charge of Prof. John Hammond, R. A. C.

A course of instruction in Short-hand and Type-writing has been established with a design to meet the needs of those who wish to fit themselves for employment in business offices.

All departments of instruction will be maintained in the very highest state of efficiency, and no pains will be spared to prove the Institution worthy of the public confidence and favor so generously and continuously expressed.

Catalogues containing full information supplied on application to the Principal. Students admitted at any time.
