

FOUR ANARCHISTS ARE KILLED BY EXPLOSION

Discovery Made Afterwards Disclose Regular Bomb Factory in Tenement House.

BELIEVE BOMBS MEANT FOR ROCKEFELLERS.

Two of Victims Were to Have Appeared in Court in Connection with Recent Demonstration Against Rockefeller Family.

New York, July 5.—In the ruins of the Lexington Ave. tenement house wrecked yesterday by the premature combustion of a powerful explosion which killed Arthur Caron and three other people, the authorities today found inflammatory literature, which was printed here, and that at the time of the explosion it was apparently a bomb factory, filled with the ingredients of death-dealing missiles.

A small printing press, revolutionary pamphlets, and circulars, an electric dynamo, two electric batteries, cartridges, and bits of steel were among the things uncovered in the search, which tends, in the opinion of the police, to show an anarchist plot at assassination. That a demonstration, halted by the handlings of some one who was preparing an infernal machine for its mission, was planned against the Rockefeller family in Tarrytown is the theory upon which the authorities are working.

Two of those killed in the wrecked apartment were prominent agitators who were to be placed on trial in Tarrytown tomorrow on charges of disorderly conduct in connection with the campaign of demonstration inaugurated against John D. Rockefeller, Jr., as a protest against his attitude in the Colorado coal mine strike.

The body of the fourth victim of the explosion was found today. It was that of Charles Berg, known in I. W. W. circles as the "Big Swede," an associate of Arthur Caron, who was killed. The other victims were Charles Hanson and Mary Claves. The woman lived in an apartment on the one occupied by Caron and his associates.

Equally interesting with the discovery by the police of the explosive nature and electrical machinery in the ruins of Caron's room was the assertion by I. W. W. leaders that Caron was not a member of the organization having been recently refused admission. They declared that the I. W. W. had nothing to do with the explosion.

A gruesome but suggestive piece of evidence uncovered was a severed hand which clutched two small bits of wire made for connection. The authorities believe that the owner of this hand was in the act of making an electric connection for one of the bombs and a battery when the explosion occurred, and he was blown to pieces, leaving the hand a mute witness of the manner in which the tragedy occurred.

Alexander Berkman, anarchist, and an associate with Emma Goldman in the publication of Mother Earth, an anarchist paper, who was questioned at length by the police yesterday, tonight declared that none of the dead men were members of the I. W. W. and that the agitation they had conducted was done in behalf of the striking miners in Colorado. He said that a number of anarchist organizations were already making plans to hold an impressive public funeral next Saturday afternoon.

A party of sympathizers, including a recruit trade commissioner service from the universities, Hon. Geo. E. Foster Working Out Plan Whereby Canada's Trade Commissioners Will Be Selected from Among College Graduates—Course of Training in Connection With Actual Work of Department of Commerce.

Ottawa, July 5.—Canada's Trade Commissioner Service is to be recruited from the universities, according to a plan now being formed by Sir George Foster, minister of trade and commerce. Details of the new scheme have not been worked out by the minister, but the chief feature of it is the training of university students for work in the Canadian trade service.

In addition to the knowledge of Canadian trade conditions and development which they will acquire at the universities, they will be given practical training in connection with the actual work of the Department of Trade and Commerce. They will thus be equipped with a thorough knowledge of the movement of the trade of the Dominion, both import and export, and will be kept in touch with the operations of the various Canadian trade agencies in all parts of the world as well as with the work of the British Consular Service, which became available for the use of Canadian import

HINDUS EXPEL FIVE OF PARTY FROM SHIP

Went Ashore to Parley About Bad Food—Leader Refuses to Let Them Aboard Again.

Vancouver, B. C., July 5.—When five Hindus who were permitted to go on to a government immigration launch Friday from the Komagata Maru to Parley with three local Hindus in regard to better food conditions, turned to board their own boat again they found the gangplank drawn up and Gurdi Singh, the leader, refused to permit them to go on board, claiming that they were playing tractor in compliance to local Hindus of the food on the boat. The immigration officers had to bring the five to the detention shed here. Three attempts have been made to put them back on the Komagata Maru, but the Hindus on the vessel refuse to allow them to get on, threatening to kill them. The trouble arose when the five complained to their friends here that Gurdi Singh, head of the band of 375 trying to land in Canada from the Japanese boat, was not giving them decent food.

FRENCH SUFFRAGETTES CARRY OLIVE BRANCHES

Demonstration of "Votes for Women" Party in Paris Conspicuously Pacific—Not a Policeman Present.

Paris, July 5.—The feature of the French suffragists' demonstration here today was the absence of the police, who are usually indispensable at all manifestations in the French capital. Another distinctive feature was the large number of advocates of the franchise for women who carried olive branches.

The crowds were addressed by leading women lawyers and authors, and at the end of the parade a statue, outside the Institute of France which was headed by brass bands and numbered about 2,000, but a large proportion of those who marched were merely afternoon strollers.

Berkman will go to Tarrytown tomorrow to attend the trials of the I. W. W. agitators.

No unusual precautions to guard the Tarrytown court room have been taken. Sheriff Doyle stated today that he did not anticipate any trouble from the friends of those who are to be arraigned.

John D. Rockefeller went to church this morning at Pocantico Hills. He motored to church, but insisted upon walking back to his estate, accompanied only by his superintendent. There were no I. W. W. agitators about the place today or tonight, and the guard on duty at the estate had little to do.

and export houses under an arrangement made by Sir George Foster with Sir Edward Grey in 1912. In England the civil service is, to a large extent, recruited from the ranks of young men who have done well at the universities.

The Department of Trade and Commerce is issuing this week a list of the more important British Consulates General, Consuls and Vice-Consuls in various countries, including Australia, Austria-Hungary, Belgium, Brazil, Chile, China, Colombia, Ecuador, Egypt, Italy, Mexico, Netherlands, Panama, Peru, Portugal, Russia, Spain, Sweden, Switzerland, Turkey, Uruguay, and Venezuela.

In issuing this list, the department states that "Canadian firms and business men may feel as free to communicate with these officials as they are to communicate with our own trade commissioners."

ST. JOHN REALIZES VALUE OF HON. MR. HAZEN'S WORK

This City's Representative in the Dominion Cabinet Deserves Great Credit for Securing Breakwater Extension is Statement of Citizens.

WORK WILL PROVE VAST BENEFIT AND MATERIALLY ADD TO SAFETY OF HARBOR

Shipping Men See Wisdom of Step and Join in appreciation of Results Obtained by the Minister of Marine and Fisheries—Hon. Mr. Hazen Has Induced Government to Undertake Much for This City.

The announcement that the government is calling for tenders for the extension of the Negro Town Point breakwater to Partridge Island has been received with much satisfaction by shipping men and others interested in the development of the harbor.

P. W. THOMSON.

P. W. Thomson, of William Thomson and Company, chairman of the traffic committee of the Board of Trade, who has given much attention to matters of harbor improvement, said: "Speaking as chairman of the Traffic Committee, I may say I was very pleased to learn that the government had decided to undertake the work of extending the breakwater. I think the government and especially Mr. Hazen, St. John's representative in the government, deserves great credit for what is being done to develop this port. The extension of the breakwater will give greater protection to the West Side berths, and improve conditions in the harbor generally. The Board of Trade has favored the extension of the breakwater for years. One drawback to the dredging and kept filling up the harbor. With the gap between Negro Town Point and Partridge Island closed up it will be an easy matter to deepen the main channel. Another thing, the closing of the gap will protect the Courtenay Bay works. Since the government went to Ottawa the government has undertaken a great amount for St. John. I hope that Mr. Hazen will soon be able to induce the government to let a contract for the proposed revetment wall on the west side, so the C. P. R. can begin filling in behind it and increase its yard space."

MAYOR FRINK.

Mayor Frink said he was very gratified at the action of the government in calling for tenders for the extension of the breakwater, as he thought it was necessary to protect the new wharves on the West Side, and also the wharves to be built at Courtenay Bay.

"The question, he added, 'has been up for consideration for some years. Two years ago when ex-Commissioner Campbell and I were in Ottawa we discussed the extension of the breakwater with members of the government and with Mr. Lafleur, chief engineer of the department of public works. Before the Courtenay Bay works were projected Mr. Lafleur was rather opposed to the idea of closing up the west channel. But after the works at Courtenay Bay were undertaken by the government Mr. Lafleur came to the conclusion that it was necessary to close up this channel in order to protect the works at Courtenay Bay."

When the matter was first discussed there was some objection to extending the breakwater because it was felt it would inconvenience small vessels and boats coming up from the direction of Lorneville, but the general opinion was that this inconvenience was not a serious consideration, compared with the improvement which would be effected in general harbor conditions. By closing up the gap a greater scour will be given to the main channel and the silt which has been settling in the harbor will be swept out to sea. Since the beacon bar was removed there has been quite a roll in the harbor under some weather conditions and the closing of the west channel will keep out the swell."

J. V. RUSSELL.

J. V. Russell, commissioner of harbors and ferries, said he was glad to know that the government would proceed with the extension of the breakwater at once, and added that he thought Mr. Hazen deserved great credit for getting the government to undertake another big expenditure in the interests of St. John. "This matter," he added, "has been discussed for some time. There has been some difference of opinion as to whether the west channel should be closed up completely, but everybody has been apparently convinced that the breakwater should be extended if not right to the island at least close to it, so as to prevent the swell coming into the main harbor. The extension of the breakwater will increase the safety of the harbor. It is a thing which the C. P. R. as well as the Board of Trade has advocated. Undoubtedly it will be a great benefit and the government is to be congratulated on undertaking the work. It will be a big job, as it is not an easy matter to get stone near St. John."

J. M. ROBINSON.

J. M. Robinson, president of the Board of Trade, said: "I am pleased to learn that the government will extend the breakwater. The Board of Trade has advocated the extension for some time. When Mr. Rogers and Mr. Hazen were here six months ago they promised us that the government would undertake to build the breakwater, and I think there will be general satisfaction that the government has procured the money to go on with the work."

H. P. ROBINSON.

H. P. Robinson, a member of the traffic committee of the Board of Trade which pays special attention to harbor matters, said it was a matter of satisfaction to know that the work would be undertaken in a short time.

THE FAR EAST OFFERS GREAT POSSIBILITIES FOR EXPANSION OF CANADIAN TRADE

Ottawa, July 5.—That the teeming millions of China, with the rapidly growing taste for the necessities and luxuries of civilization, represent an unexampled opportunity for the expansion of Canadian trade in the Far East is the report made to the Trade and Commerce Department this week by Commissioner J. W. Ross of Yokohama. It is evident, he observes, that so really serious efforts have been made by merchants and shippers on the Pacific coast of Canada to capture what is so bony at their hands, their share in China's growing trade.

SOUTHAMPTON RY. INQUIRY TOMORROW

Nearly Score of Witnesses to Be Examined—Independent Experts Make Survey of the Road.

Special to The Standard.

Fredericton, July 5.—Between fifteen and twenty witnesses are expected to give evidence at the Southampton Railway investigation which will commence here on Tuesday morning. R. A. Pringle, K.C., commissioner, will arrive at noon on Monday from Ottawa and upon his arrival plans for carrying along the investigation are expected to be announced. Some difficulty may be experienced in finding a place to conduct the investigation because of the fact that the court rooms of the York County court house will be occupied by the sitting of the York Circuit Court and the York County Council will be meeting in the council chamber on the ground floor. It is altogether likely, however, that quarters will be found in the parliament buildings.

An effort will be made to complete the investigation before the 15th when the Dugal charges inquiry will be resumed. Witnesses to be examined will include contractors, bankers and engineers, among them independent experts who have been inspecting the road during the past two or three weeks. T. J. Carter will take the case for the department of railways of Ottawa and is expected to arrive here on Monday.

The work of the arbitration board in the dispute between the management of the Hart Boat and Shoe Company and the Boot and Shoe Workers Union will probably be commenced this week. Mr. John A. Reid, vice-president of the company has been named as arbitrator for the management, while Mr. Percy A. Guthrie, M.L.A., has been selected as representative of the union. They are to select a third arbitrator. The union wants a 9 hour day in the factory, which is at present running on a 59 hour week basis.

The 71st York Regt., commanded by Col. the Hon. H. F. McLeod, M.P., returned from camp Sussex on Saturday.

DEMONSTRATION IN HONOR OF CARDINAL

Quebec, July 5.—Cardinal Begin was the object of a striking demonstration on the part of his Irish Catholic children when tonight he paid his first visit as a Prince of the Church to St. Patrick's. The scene, both outside and in the church was one of gorgeous splendor. After an address to the cardinal the address brilliantly illuminated and a purse containing the offering of St. Patrick's. A little page then advanced and gave His Eminence a magnificent bouquet of roses.

ANGELIC DIVINE DON'T BELIEVE IN HELL

London, Ont., July 5.—Rev. R. W. Norwood, M. A., rector of Bishop Croby's Memorial church, this city, and one of the most prominent Anglican clergymen in the diocese of Huron, declared in the course of his sermon tonight that he did not believe there was a hell, and in his opinion there was no damnation of the soul.

VOLUNTEERS PARADE IN BELFAST STREETS

DOCTOR IN MURDER CASE IS SHOT AT

Attack Made on Life of Dr. Carman in Whose Office Mrs. Bailey was Murdered Last Week.

Freepoint, N. Y., July 4.—Dr. Edwin Carman, in whose office Mrs. Louis B. Bailey was murdered last Tuesday evening, was shot at three times tonight as he drove in his automobile through the town of Baldwin, near here. None of the bullets struck him. The doctor was on his way home from Rockville Centre, where he had been to attend a patient.

Dr. Carman in person told the police the story of the attack upon him. He had been out making professional calls all afternoon and passed through Rockville Centre on his way home. There he met Garland Gaden, an actor, and invited him to ride home with him.

"When about a mile and a half out of town I heard a report and thought one of the tires had exploded. My friend got out of one side of the machine and I got out the other. As soon as I put my foot on the ground I heard another shot, and when I looked around I saw a man standing beside his bicycle with a revolver in his hand. Gaden and I both jumped in the car and there was another report, and a bullet went singing by my head. Gaden and I leaped far over in our seats so as to be out of range of bullets and I opened the throttle as far as it would go."

Carman on his arrival in Freepoint told his story to the police. Sheriff Pettit hurried to the scene of the shooting in an automobile closely followed by a posse. At midnight an auto full of detectives went to the scene. The authorities placed special significance upon the fact that the assassin was said to have been riding on a bicycle. During the night following the murder of Mrs. Bailey when bloodhounds were brought into play, they circled the Carman house once and then started off down the same road on which Dr. Carman was returning home tonight.

The detective who had charge of the hounds at that time said that they had much difficulty in following the scent, and expressed the belief that the person they were following was riding a bicycle. Detectives, before leaving the scene, declared they would examine carefully the territory in the vicinity of the shooting to see where the bullets hit. They said they wanted to find one of the bullets so that they could compare it with the one that was extracted from the body of Mrs. Bailey.

Second South Belfast Regiment Turns Out Armed for First Time.

END SECOND READING OF AMENDING BILL

Viscount Bryce Emphatically Denies that Britain Brought Pressure on United States in Panama Tolls Question.

London, July 6.—Armed with rifles, swords, bayonets and well filled bandoliers, eight hundred men of the Second South Belfast Regiment paraded the main streets of Belfast on Saturday, this being the first time that armed volunteers have been seen on the streets. The incident, which is a sequel to General Sir George Richardson's order permitting the volunteers to carry arms, is regarded by both sides as a serious development, but danger is feared less in Belfast than in the mixed provincial districts. The police who watched the demonstration took a census of the number of rifles.

The debate in the House of Lords on the second reading of the home rule amending bill will be concluded this evening and a division is expected tonight. Whether or not Lord Willoughby de Broke presses his motion for the rejection of the bill, the second reading is sure to be carried. The committee stage will then probably be begun on Wednesday, when numerous amendments providing for the exclusion of Ulster, with no time limit, will be discussed.

A flat denial that Great Britain had brought pressure on the United States in connection with Panama tolls was made tonight at the banquet of the American Society by Viscount Bryce, the former British ambassador at Washington. Lord Bryce said that he had simply advised his government that "if the president thinks it right to repeal or go to arbitration he will do it."

Lord Bryce added: "No country in the world has a stronger desire than the United States to do what is right, and honorable."

The American ambassador, Walter H. Page, said that the last letter to the Washington government relating to Panama tolls was written by Ambassador Bryce before the end of the Taft administration.

All the speakers referred to the international polo match and the Henley regatta as evidence of the generous feelings between the two countries.

Won't Accept Time Limit.

Sir Edward Carson, the Ulster Unionist leader, addressing a gathering of Unionists in South London tonight, declared that Ulster would reject any proposals made by the government placing a time limit of any sort on her exclusion from home rule.

Bristol, Eng., July 4.—Frederick E. Smith, M. P., one of the Ulster Unionist leaders, speaking at an anti-home rule meeting tonight, said that the House of Lords would so amend the amending bill as to make the exclusion to Ulster terminable only when "Ulster said: 'We want to come in.'"

Canada's Pavillion at Panama Exposition

This picture shows the present stage of progress on the magnificent \$300,000 pavilion that is being erected by the Dominion of Canada at the Panama-Pacific International Exposition at San Francisco in 1915. The pavilion, as shown by the photograph, is almost structurally complete and needs only ornamentation.

The building is 340 feet long, 240 feet wide and fifty feet high and covers 65,000 square feet. Lecture halls and reception rooms have been provided and there are a number of suites of living rooms for the entertainment of Canada's guests.

Canada has appropriated \$600,000 for her representation at the exposition. The first shipment for Canada's exhibit, to be placed in the main exhibit palace, has already reached San Francisco, arriving by the steamer Benefactor for Ghent. The shipment consists of the dominion's grains, fruits and other agricultural products. Her minerals and stuffed specimens cover almost the entire fauna of the country.

SAFETY FIRST, POLICY OF THE GRAND TRUNK

Instructions Going Out Today Have for Purpose Putting of Lives of Passengers Before Speed and Time.

Montreal, July 5.—The Grand Trunk Railway has decided on an extension of its policy of putting the lives of passengers before speed and time. A new set of instructions have been prepared and tomorrow will be sent to every man connected with the running of their trains in Canada. Engineers are urged in the manifesto to live up to the rules of the company. They are prohibited from speeding the train to try to keep it up to time, if for some natural cause it has gone a little behind time. Engineers are also requested to watch and report any defects they notice in passing on tracks, bridges or signal appliances.

VENTILATION IN HILLGREST MINE GOOD

Hillcrest, Alb., July 5.—Just one month previous to the explosion, into which inquiry is being made, the pit committee, consisting of four men, made a report in the pit committee's report book which was entered Saturday as evidence. This report was accepted as official by the miners themselves, and states that the committee had entered all the roadways, airways, and working passages of Sections 1, 2 and 3 of the mine and found ventilation conditions good and a little gas in numbers 41 and 42. The evidence had no new features outside of the report of two fire losses, Daniel Briscoe, who had charge of the mine the day before the explosion, and Charles Ironmonger, in the mine at the time of the explosion. Their evidence was to the effect that the Hillcrest mine was an ideal one to work in. Gas was never prevalent to any abnormal extent; ventilation was good, and the mine could not be classed in any way as a dusty one.

MANY OF COURT OFFICIALS WERE NOT INVITED

Left Out of List of Favored Ones at Archduke's Funeral Organize Procession as Protest.

Vienna, July 4.—The restricted number invited to the funeral service over the late Francis Ferdinand and his wife, in the Imperial court chapel yesterday although attributed solely to the limited accommodation gave great umbrage to many titled friends of the couple who were not invited. As a protest against their exclusion about 120 members of the noblest families in Austria and Hungary, some of them being privy councillors and court chamberlains and nearly all holding court offices, decided to march in the funeral procession from the Hofburg to the railroad station.

BARON ROTHSCHILD'S RACER WINS BIG FRENCH TURF EVENT

Paris, July 5.—The Prix Du President De La Republique was run today at Maisons-Lafitte and won by Baron Maurice De Rothschild's Sardanapale, which last Sunday captured the Grand Prix De Paris, the turf classic of France. Sardanapale won easily by three lengths from J. Tisot's Diamy, with J. Davis' Fauche De Vent third. The Prix Du President, at one mile four and a half furlongs, was this year valued at \$22,600. In the late Duchess of Hohenberg on the ground of unequal birth with the Hapsburgs, whereas, they pointed out, she was a member of the ancient Bohemian family of Chotek, her rank standing similar to their own. Emperor Francis Joseph has written an autograph to the Austrian and Hungarian premiers in which, after referring to the assassination of the archduke and the duchess, he says: "If anything can comfort me in this heart-felt sorrow it is the innumerable proofs of warm affection and sincere sympathy which have reached me the last few days from all sections of the populace."

CHINQUI CASE MAY GO BEFORE COURTS AGAIN

Montreal, July 5.—The celebrated case of Dame Rebecca Chiqui, wife of Professor Morin of McGill University, against Joseph Bezin, publisher of La Croix, which has been dismissed on a technicality by the Court of Review, will likely come before the courts again for a rehearing. As was remembered, the plaintiff, who is a daughter of the late ex-priest, "Father" Chiqui, was awarded \$3,000 damages against the newspaper in question on account of an alleged libellous article published in La Croix, but on an appeal being taken to the Court of Review the decision of the lower court was upset because the plaintiff had not been properly authorized by her husband to sue.

GOV. GENERAL'S VISIT TO NFLD.

St. John's, Nfld., July 5.—Governor Davidson leaves tonight for the west coast to welcome the Duke of Connaught, due at Bay of Islands on Wednesday morning on the warship Essex from Quebec. Great preparations are being made for the duke's reception at all points where he will land, especially at St. John's, where he will spend Wednesday and Thursday.

PART OF DOCK LOOKS LIKE HUERTA AGAIN FOR PRESIDENT

Three Thousand Tons of Steel Rails Fall with Section Port Arthur Canadian Northern Railway Dock.

Port Arthur, Ont., July 5.—A section of the Port Arthur Canadian Northern Railway steel dock about seventy feet square and containing about 3,120 tons of steel rails, collapsed at 11 o'clock tonight. The dock is practically new, built only three years ago, and it is believed the accident was due to defective timbers. A few hours previous to the sinking, a load of rails from the steamer McKee was placed on the section which collapsed. The water under the dock is twenty feet deep, and although the bottom is hard it is believed that the steel rails have sunk several feet into the ground.

CHAMBERLAIN'S BODY TAKEN TO BIRMINGHAM

Tremendous Crowd at Station—Deep Emotion Displayed As Statesman's Body is Removed from Train.

Birmingham, England, July 5.—The body of the late Joseph Chamberlain, accompanied by Mrs. Chamberlain and her mother and the Misses Chamberlain, arrived at Birmingham from London this afternoon. A floral offering from Mrs. Chamberlain in the form of a cross was placed on the coffin. A tremendous crowd awaited the cortege at Highbury and deep emotion was displayed as the coffin containing the body of the great statesman passed.

H. R. H. LEAVES FOR NEWFOUNDLAND

Quebec, July 5.—His Royal Highness the Duke of Connaught, accompanied by Col. Paquet, left this afternoon by the H. M. S. Essex for Newfoundland, where he will spend nearly three weeks. Hundreds of people lined the Dufferin Terrace to see the farewell. Col. Turner, Col. Landry, and Captain Pelletier, representing the lieutenant-governor, also a detachment of Duke boys under District Scout Master Brown, were among those present to bid H. R. H. a pleasant journey and a safe return. After H. R. H. had inspected the Duke boys lined up on the quarterdeck, as they presented arms the marines band played the National Anthem, while the Royal Standard on the Citadel was being dipped. At 1.45 p. m. the Essex hauled in her anchors and left for her destination, amid much cheering and waving of handkerchiefs.

THREE MORE BODIES ARE TAKEN FROM EMPRESS

Quebec, July 5.—Three bodies were recovered from the sunken Empress today. One was identified as that of an Italian minor named Kanaga. The two other bodies could not be identified.

LOOKS LIKE HUERTA AGAIN FOR PRESIDENT

Mexico City, July 4.—Elections for president, vice-president, deputies and senators were held today in that portion of the republic controlled by the Huerta government. In Mexico City there was an almost complete abstention from voting, and indifference was manifested everywhere. General Huerta appeared to be the favorite candidate for the presidency, and General Bissaguet, the present war minister, for the vice-presidency.

THREE FATALITIES IN MONTREAL YESTERDAY

Two Lives Lost by Drowning, and Child Run Over by a Street Car.

Montreal, July 5.—Two drownings yesterday and a child killed today comprise the death toll in this city within twenty-four hours. Leon Rooney, 14 years of age, was drowned while bathing in the river at Verdun last evening and a laborer named Desmarais fell into the river in a fit while fishing near Laprarie. The child killed was Elaine Anna, the 14 months old daughter of Albert Ferland, Notre Dame street. She was jolted out of a buggy which was struck by a car and fell under the wheels.

"THE PERPETUAL TRUSTEE" Paid up Capital and Reserve Over \$3,000,000.00

It does not follow that because you are a young man, or a comparatively young man, you are therefore relieved of the responsibility of making a will. Very early in life we are taught to live as if each day were to be our last. Pursuing this principle we will not fail to have our affairs in order—showing every consideration for our relatives and friends.

"Let all things be done decently and in order." This is a motto fundamental, and the Dominion Trust Company with its wide experience in the matter of wills wishes to be of real service to you. The company, too, is well informed as to the common fate of the heirs of those who die neglect to make a will while yet in this world. PAUL LONGLEY, Manager, St. John, N. B. VICE-REGAL PARTY TO BE IN VICTORIA DURING AUGUST

Their Visit Will Coincide With Driving of Golden Spike in Grand Trunk Pacific.

Victoria, B. C., July 5.—Information has reached the city that the Duke of Connaught will arrive in Victoria on August 10 and will probably make a stay of a week. According to present plans he will be accompanied by Her Royal Highness the Duchess of Connaught and by Princess Patricia. The duke's presence in British Columbia will coincide with the driving of the golden spike in the Grand Trunk Pacific August 15, a ceremony which he has been invited to attend, but what his intentions are in the matter is not known.

ANOTHER AVIATOR KILLED

Angeles Camp, Calif., July 5.—Arthur Rybitzky, of San Francisco, an aviator, was killed yesterday when his aeroplane was caught in an arid current above the canyon. The machine was swept into a pine forest on the mountain side and spectators could hear him crying out. He fell to the ground through trees and was frightfully mangled.

Rothsay and Westfield Telephone Service

New Five Cent Rate—Known as TWO NUMBER METHOD

Beginning July 1st, calls can be given by either of two methods, namely:

- Two Number**—Where a subscriber is willing to talk to any person at the telephone called.
- Long Distance**—Where a particular person is wanted.
- Two Number Method.** The subscriber calls the operator in the usual manner. The operator will answer, saying "Number." The subscriber will then give the operator the desired number, followed by his own number, as "Rothsay, 20," "this is Main 3014-21." The calling subscriber will hold the receiver to his ear until connected with the called telephone, or is advised "Line Busy" or "They Don't Answer." If the called telephone answers it constitutes a message. A particular person will not be procured. The Initial Rate for this Service will be 5 cents for three minutes and 1 cent for each additional minute. Messages Cannot be Reversed, but must be charged to the telephone from which they originate.

Important. As the operator cannot tell the telephone number of the person calling, it is necessary that the subscriber, on either a special or party line, should give his own number as well as the number desired. A call from a subscriber in St. John at Main 3914, wishing to get Rothsay, 28, should be given as follows:—"Rothsay, 28, this is Main 3914."

Long Distance Method. If a particular person is desired the call should be placed with the Long Distance Operator in the regular way. The initial rate for this service will be 10c for three minutes and 3c for each additional minute.

SIX BIG FIGHTS ON SATURDAY

Murray was revived. The bout was scheduled for twenty rounds.
Cross Won from Watson.
San Diego, Calif., July 4.—Leach Cross won a decision over "Red" Watson in their twenty round fight here this afternoon.
Britton Trimmed Griffith.
Canton, Ohio, July 4.—Jack Britton of Chicago defeated Johnny Griffith of Akron, Ohio, in a hot twelve round battle today. There was no decision, but the popular verdict was for Britton.
Morris Stopped Kublak.
Fort Smith, Ark., July 4.—Carl Morris of Sapulpa, Okla., stopped Al Kublak of Michigan in the sixth round today. Tommy Dixon, former featherweight fighter, who refereed, got in the way of a wild right and went through the last round with his eye severely cut.
Mandot and Dundas Draw.
New Orleans, July 4.—Joe Mandot of New Orleans and Johnny Dundas of New York fought a ten round draw here today, according to a newspaper decision.
LOWERS SPEED RECORD.
The C. P. R. flyer St. George, Capt. Cardiff, lowered the speed record held by herself between St. John and Digby when she inaugurated the double daily service on Saturday on what is wharf. She made the run from wharf to wharf in two hours and 10 minutes, making close connections with all trains on both sides of the Bay. The steamer Yarmouth makes the morning trip and the St. George the afternoon trip.

MAJOR LEAGUE BASEBALL

New York, July 4.—With the major league baseball clubs about to enter upon the second half of their 1914 campaign a comparison with the records of the past 80 years develops some interesting facts regarding the strength and weakness of the teams of the National and American circuits. In the senior organization the New York Giants led their league on July first in both 1912 and 1913. Two years ago the Yankees were making a runaway race of the pennant contest, having won fifty and lost eleven games for an average of .820. Pittsburgh was second with thirty-seven games won and thirty-five lost, giving the Pirates a percentage of .597. Chicago was third, having lost twenty-six games and won thirty. Cincinnati completed the first division with thirty-five victories and thirty-two defeats, the Reds' percentage being .52. Philadelphia, Brooklyn, St. Louis and Boston followed in the order named with percentages of .425, .407, .31 and .305, respectively. Last year's standing showed several major changes over this order, for while the Giants were showing the way, the lead was of the narrowest margin, Philadelphia was in second place and Brooklyn following the Quakers closely. In fact but 120 points separated the first four teams against approximately 300 in 1912. The New York club, ultimate winners of the pennant, had a percentage of .635 to Philadelphia's .633. The Giants had won 87 games and lost twenty-three, while the Quakers' score stood thirty-eight games won and twenty-two lost. Brooklyn, which held sixth place in 1912, was but seventy-six

ENGLISH WRITER'S REVIEW

Foreign comment on the showing made by the American golfers entered in the recent English amateur championship is unusually fair and considerate. Although the pick of the American field was entered and did not survive the fourth round it is generally conceded abroad that these players took their responsibilities too heavily and were doomed to defeat from the start. One English writer in reviewing the tournament stated: "When your men can come over and play a round just as though they were out for a country walk, and play, not to win, but to have a summer holiday, they will probably win. You handicap them too heavily before they start. Too much publicity is bad for one's nerves. Nobody knew Tubbs who defeated Francis Oulmet, for example, had even entered the tournament. He won simply because he was an unknown and was therefore playing his normal game. It was quite good golf."

PLAYERS STAND BY MANAGER

Kansas City, Mo., July 4.—A revolt of Manager Geo. Stovall and players of the Kansas City Federal League team resulted today when President C. O. Madison attempted to discharge Harry Nelly, business manager. Nelly appealed to Stovall. Stovall, after a conference with the directors, it is said, upheld Madison, announcing that unless Nelly was reinstated the club would not go to Chicago tonight to open a series there tomorrow. Members of the team agreed to stand by Stovall. An agreement finally was reached whereby Nelly left with the club for Chicago, where the matter will be taken up with President Gilmore of the Federal League. Nelly, a former Cleveland and St. Louis sporting writer, says his contract guarantees him a job for the remainder of the season. He says the stockholders were attempting to replace him with a less expensive man.

What You Should Know About BEAVER BOARD

2nd—How Beaver Board is Applied

Beaver Board is nailed in panels to the studs (wall and ceiling beams) of new rooms or directly over the lath and plaster in old rooms. The seams formed by the joining of the Beaver Board panels are covered with decorative strips which give that artistic panel arrangement so popular in the modern home. If instructions are followed, anyone handy with tools can apply Beaver Board. Beaver Board is easily handled and can be readily cut by a fine saw, sharp knife or chisel.

WEDDINGS

Brophy-Kirkpatrick.
Newcastle, July 1.—A very pretty wedding took place at nuptial high mass in St. Samuel's church, Douglas town, 7 a. m. Tuesday, when Miss Mary Annie, daughter of Mr. and Mrs. Wm. Kirkpatrick, Sr., of Douglas town, was united to Mr. John Hugh Brophy, of Bathurst, a trusted employee of the Bathurst Lumber Co., Bathurst. Rev. S. J. Cromby, of Blackville, performed the ceremony, assisted by the pastor, Rev. J. G. Cormier. The ceremony took place with in the sanctuary on the steps of the altar. Miss Eliza Wood played the wedding march. The bride looked charming in a gown of white brocade, carried a white prayer book. Miss Kathleen M. Holland, of Blackville, handsomely dressed in cream silk with hat to match, was bridesmaid, and Wm. Kirkpatrick, brother of the bride, was best man. After the ceremony a wedding breakfast, to which the contracting parties and relatives of the bride and groom were invited, was served at the residence of the bride's parents. Shortly afterwards the happy couple left on a wedding trip to Boar's Head and New York. Very many valuable presents were received, as the bride is a very estimable young lady, much honored by the present to the nuptials. The groom's betrothal ring was a gold cross and chain set with pearls, and to the bridesmaid a gold locket.

Sherard-Hare.
Newcastle, July 4.—The marriage of Miss Eva, daughter of Mr. and Mrs. Alex. Hare, of Whitesville, to Robt. W. Sherard, of Boom Road, took place at the manse, Redbank, on Tuesday, Rev. J. F. McCurdy, B. A., officiating.

Thomas Bartlett
A quiet but pretty wedding took place in Oldtown, Maine, on Wednesday, June 29th, when Miss Minnie Bartlett, formerly of St. John was united in marriage to David Thomas of St. John West. The ceremony was performed in the presence of immediate friends. Many handsome presents testified to the popularity of the happy couple. They will reside in Oldtown, Me.

CONCERNING MISSING WITNESSES

In consideration of the charges against Hon. J. K. Flemming and Hon. H. F. McLeod, in connection with the Valley Railway matter, and of the fact that some gentlemen, whom the counsel for the prosecution in the case desire to call as witnesses, apparently are not in the province, it is decidedly unfair for any newspaper to insinuate or charge that the Government of New Brunswick, or any member of that Government, is guilty of conniving at the absence of these gentlemen with the hope that while they are not in court when called upon some more or less important phases of the case may be concealed from the public.

As The Standard has already pointed out, if the Government of this province desired to conceal anything, or to get a favorable verdict from the tribunal examining the charges, it would have been an easy matter to have referred the charges to the Committee of the House, for which Mr. Dugal asked. This was not done, and the reason was that the Government was as anxious as any one else that all the facts should be made public. All the venomous productions of machine Grit newspapers cannot rob the Government of the credit for the stand taken and that stand was in the direction of full publicity.

Now it appears, or it has been so stated by Mr. Carvell or some of the witnesses, that two or three gentlemen, whose evidence Mr. Carvell believes to be material to the development of his case, are not within the jurisdiction of the Royal Commission, and at once the machine Grit press concludes that this condition exists because the Government desires it. In other words they contend that the Government, if it is so desired, could very speedily produce the gentlemen in question. Let us see who these gentlemen are and just what magic power the Government could wield to cause their appearance in court. The Times sets them forth as Mr. James H. Corbett, a Valley Railway contractor, Mr. A. R. Gould, president of the St. John and Quebec Railway Company, and "two others." Other papers mention the name of Mr. Lisman, a New York attorney, who is, or has been, identified with the construction company most interested.

The first named gentleman, Mr. Corbett, is a contractor. He held his contract from another contractor and not directly from the Government. The Government having no business connection with him it is difficult to see how that body could force him to return to New Brunswick or what penalty they could inflict if he persisted in absconding himself. Instead of raving at the Government, as it has been doing, the Times would further the case if it would suggest a means by which Mr. Corbett or Mr. Lisman could be forced to return. If, as that newspaper intimates, Mr. Corbett is being kept away as the result of a Government wish, it should be easy for the Times to suggest means of forcing him to return.

The same will apply to Mr. Lisman. That gentleman also had no connection with the Government. He was a director of the Quebec and St. John Construction Company. Acting for that company he was one of the men who negotiated a loan through the Prudential Trust Company of Montreal, but this loan was made on good security and, apparently, was only an ordinary business transaction such as those carried through every day by the local banks. The Government was not concerned and again it is quite reasonable to suggest that if the Times or Telegraph believe he is being kept away from this province through the connivance or consent of the Government they are remiss in their duty to the people if they fail to make a definite charge to this effect as well as point the way by which the Government can cause the missing one to come to St. John and undergo the cross questioning of Mr. Carvell.

Next we have Mr. A. R. Gould, also reported to be among the missing. There are many who think that Mr. Gould should return but, if he does not choose to do so is there any way of enforcing his attendance? Mr. Gould, as president of the company, would probably be a more important witness than either Mr. Corbett or Mr. Lisman, but if he refuses to come here by what process can he be forced to come? If the Telegraph or Times were administering the affairs of the province of New Brunswick, which, in the interests of honesty, it is to be hoped will

never be the case, just what measures would they take? A little explanation on these points should have more effect than all the abuse of the Government and those connected with it. If the Pugsley organs desire to impress the public mind with their real simple honesty, aside from their political affiliations, it seems to The Standard that the opportunities here suggested are too valuable to be overlooked.

THOSE "ON TRIAL"

The Times remarks: "The Standard still appears to think that it is Mr. Carvell and the Telegraph and Times who are on trial at the bar of public opinion." The Pugsley newspaper hardly states the case correctly. This newspaper has treated with all fairness the events developing in the enquiries now before the Royal Commission. We have contended that all the evidence should be brought out but we have also asked for a measure of justice to the accused. We still urge this although we realize that it is not in the make-up of Mr. Carvell or the Telegraph or the Times to give justice to any person when that person happens to be a hated Tory.

Throughout the whole course of the enquiry into the timber charges, or the Valley Railway matter, it is Mr. Carvell who has made the insinuations and has been guilty of grand stand plays. He did not hope to impress the Commission for those gentlemen, while permitting him much latitude, have been actuated by the desire to get out the facts and in their finding they may be depended upon to be governed only by the facts, and not by Mr. Carvell's demagogic utterances. Mr. Carvell is not concerned regarding the commission's verdict. In his wild appeals for "justice for the 'pee-pul'" of this great province he sees, merely an opportunity to furnish newspaper copy for the Telegraph and the Times and political capital for himself. The Standard has no wish to interfere with Mr. Carvell in the production of evidence, but we do say that the members of the Commission should prevent him from using the proceedings of that body as an opportunity to make cheap political speeches. The hearing of the charges against Hon. J. K. Flemming and Hon. H. F. McLeod is not an inexpensive proceeding. Every session of the Commission costs the dear "pee-pul," whom Mr. Carvell professes to hold in such high regard, a tidy sum of money. There is a cash value upon every minute spent and to permit those minutes to be frittered away while Frank B. Carvell is saving the air and uttering cheap platitudes for partisan political effect is not fair to those who must pay the bills.

Coming to the case of the Telegraph and Times, there is little need to dilate upon the course they have pursued. By their own columns they have been convicted of falsehood and unfairness. Mr. Brown of the Prudential Trust Company, an independent witness, who came to St. John in response to a request from Mr. Carvell, was made by the Telegraph to say things he did not say and, himself, in conversation with a representative of this newspaper, characterized the Telegraph report as garbled, biased and unfair. He would hardly have complained if his complaint was not well founded.

The vapors of the Times have been no less unfair than those of the Telegraph. From the time the charges were first launched there, and all matters connected with them, have been treated by the Telegraph and Times in a manner that reflects discredit upon journalism in this province.

The Standard is fully aware of the seriousness of the charges against Mr. Flemming in the timber limit cases, and Mr. Fleming and Mr. McLeod in the Valley Railway cases. These men are now on trial and upon the report of the Royal Commission may, to a great extent, depend their political future. But it is well to remember that they are being tried by a Commission appointed for that purpose and not by the mouthings of Mr. Carvell or the efforts of the journalistic assassins of Canterbury street. Already the newspapers named would have had Mr. Fleming and Mr. McLeod tried and convicted, if abuse could try or slander convict.

CARVELL AND BERRY.

When, on Friday, during the session of the Valley Railway enquiry, at Fredericton, Mr. George W. Fowler intimated that Mr. Carvell knew more than he cared to admit about the whereabouts of W. H. Berry, the timber scaler, and much wanted witness in the timber limit investigation, Mr. Carvell waxed very wroth and declared that Mr. Berry would return to this province if a certain telegram were sent to him. Upon Mr. Fowler's suggestion that Mr. Carvell should send the telegram that gentleman went into another passion.

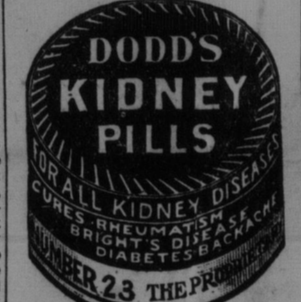

Shortly after the hearing adjourned Mr. Carvell proceeded by the first train to St. Stephen. Last night The Standard's St. Stephen correspondent wired to this newspaper the interesting information that on Saturday afternoon, Mr. Carvell and Mr. Stevens were the guests of Willard H. Berry at a Calais hotel. If this information is correct, and coming from a reputable correspondent, we have no reason to doubt it, it would appear that Mr. Fowler spoke by the book when he intimated that Mr. Carvell was probably in closer touch with Mr. Berry than any other man in the province of New Brunswick. In fact it is not unreasonable to suppose that when Mr. Carvell made the statement he did, he knew that Mr. Berry was in Calais and that he would spend the following afternoon as Mr. Berry's guest.

There is only one construction to be placed upon Mr. Carvell's statement and that is that he deliberately sought to make another sensational play for capital and political effect. All that is now required to give him all the credit he counts upon getting is to have the Telegraph and Times brush up their big type to proclaim the chief of the dark lantern brigade as the undaunted captor of the man who may become a most interesting witness when the case is resumed.

HISTORIC DAYS IN CANADA

One of the most melancholy processions that ever entered Halifax harbor was that of July 6, 1863, when the British iron sailing ship Cromartyshire, with 104 members of the crew, only three he began the practice of the legal profession. In his first contest for a seat in the House of Commons he was defeated, but in 1895 he was elected for North Monmouthshire. In 1905 he was financial secretary of the treasury, and in 1908 he became first lord of the admiralty. His conduct of naval affairs aroused much criticism.

Man is a Better Optician than Nature

Man cannot make an eye that can see—but he can make most eyes see better.

As an optical instrument the eye is defective. If the defect is pronounced, it makes itself known by various forms of wretchedness. If it is slight, it may be corrected unconsciously—but doing so puts extra strain on the muscles, and extra strain on the delicate muscles of the eye is sure to bring trouble. It is safer, cheaper and pleasanter to wear properly fitted glasses.

and mouse act, to be entirely successful, required only a little patience, the wild women invaded Westminster Abbey and exploded a bomb under the historic coronation chair. And so it goes. Life for the Rt. Hon. Reginald is just one thing, and sometimes two after another. When the premier recently received a delegation of suffragettes, he assured them—what?—that he would bring their requests to the attention of the Rt. Hon. Reginald McKenna! There must lurk in Mr. McKenna's mind a suspicion that his official title should be, not home secretary, but the goat.

Mr. McKenna was born in London on July 6, 1863. At Cambridge he won honors in mathematics, and at twenty-three he began the practice of the legal profession. In his first contest for a seat in the House of Commons he was defeated, but in 1895 he was elected for North Monmouthshire. In 1905 he was financial secretary of the treasury, and in 1908 he became first lord of the admiralty. His conduct of naval affairs aroused much criticism.

Plan For The Summer

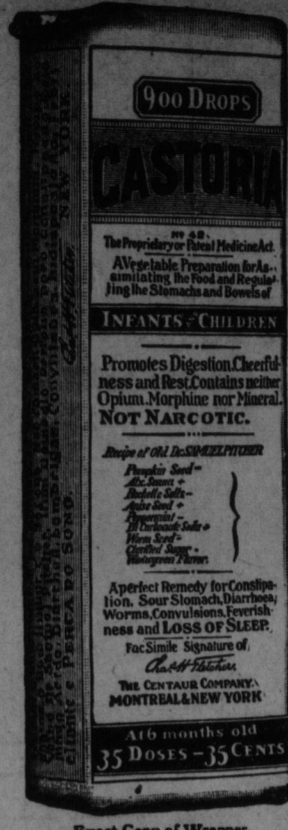

We will not see a summer vacation this year as a number of students from long distances would be inconvenienced there. Then our summers are so deliciously cool that St. John is a harbor of refuge during the hot season and study is just as pleasant as at any other time. Students can therefore enter at any time.

THE "FOURTH"

Is American patriotism waning? Is the eagle, which once screamed so shrilly on the Fourth of July, now sounding his death rattle? Is it possible—can it be possible—that the American youth no longer entertains an ambition to start the Independence Day properly by going out and killing an Englishman before breakfast? And falling to find an Englishman, blowing himself into small and scattered pieces to make a Yankee holiday?

Every subject of Uncle Sam who is "knee high to a grasshopper," and all people of other lands who know anything of the history of the United States, can remember when the Fourth of July beneath the Stars and Stripes had not degenerated into the pale, ghostly shadow of destruction and combustion. It was a real festival of liberty, when everybody could do about as everybody pleased, with suicide permissible, and only cold-blooded murder barred.

In the "good old days," when there were real patriots in the land, the observances usually commenced a week before the Fourth, and when the day of joy arrived the hospitals, physicians, firemen and undertakers worked on a twenty-four hour day schedule, and even then were rushed to death.

Look over the statistics. Ten years ago, in 1904, there were 183 burnt sacrifices on the altar of American patriotism, while the roll of the injured numbered 3,988. In 1905 there were 182 killed and 4,999 injured. During the next three years there was a diminution in the number of fatalities, although the list of the seriously injured showed no decrease.

Patriotism reached high tide in 1909, when the number of deaths mounted to 215, and the injured numbered 5,092. Since then, thanks to the "safe and sane Fourth" crusaders, there has been a notable decrease in the figures. From 131 in 1910, the number of deaths dropped to fifty-seven in 1911, forty-one in 1912, and thirty-two in 1913. Think of it! Only thirty-two people killed in the entire United States—less than one apiece for each of the States. And only 1,163 injured! It is probable that this year an even smaller number of innocent lads will ricochet over the pearly gates on a faint fire-cracker. Well may the old-fashioned patriot view with alarm, and inquire, "What is the country coming to?"

Even more alarming, as an indication of the decline of American patriotism, is the fact that the children of the United States are no longer taught to hate England and Englishmen! As late as thirty years ago all future citizens of the republic who had the advantages of education knew that England was a synonym for tyranny, and that to slay an Englishman was an act of virtue. It was the ambition of American youth to spend a Fourth of July in London, or, if that could not be accomplished, in detroit and tyran-ridden Canada, and shoot off fire-crackers under the very nose of the King or the Canadian Governor-General. But, alas, under the new-fangled system of education, the youngsters of the United States are taught that Englishmen and Canadians are blood-relations—cousins at the very least—and that England is the mother-country, instead of being a nest of vipers and the abode of opotism.

In adopting "safe and sane" celebration of the Fourth, the United States has doubtless been influenced by the example of Canada in its observance of the 74th of July as Dominion Day. But its later holiday merely commemorates the bloodless launching of a new nation, and the beginning of an era of constructive work, while Uncle Sam's festival marks an event which is associated with revolution and war.

WILL VISIT ST. JOHN ON AUGUST 11

Dominion's Royal Commission sails for Canada July 17—Spend week in Newfoundland before coming to Maritime Provinces.

London, July 6.—The Dominion Royal Commission, having concluded the hearing of evidence, paid a visit of inspection to the Port of London on Friday, taking special note of the storage accommodation at the Surrey commercial docks for Canadian cheese. E. R. Bowering, the Newfoundland commissioner, has already sailed, while the majority of the members sail by the Albatross on July 17. At Rimouski they will leave the liner and be met by Sir George Foster. From Rimouski they will sail by the Earl Grey for Newfoundland.

After a week spent at St. John's, they will cross to Sydney, N. S. They will sit as follows:—Halifax, August 5; St. John, August 11; Charlottetown, August 17; Quebec, August 20 to 22; Montreal, August 24 to 26; Ottawa, August 29 and 30, and Toronto early in September. The commissioners will travel westward via the Great Lakes and Winnipeg, concluding their sittings in Vancouver about October 10. Ocean freights, shipping and harbor facilities and cable, and postal communication will form the chief matters of consideration. Every effort will be made to prepare another interim report before their departure.

REPRESENT CANADA AT DENTAL CONGRESS

Ottawa, July 5.—The government has appointed three doctors of dental surgery to represent Canada at the Sixth International Dental Congress to be held in London, England, next month.

The Canadian representatives are: Dr. Andrew J. McDonough, of Toronto; Dr. Eudora Debeaux, of Montreal; and Dr. G. F. Bush of Winnipeg.

TURKISH WARSHIP FIRES ON GREEK VESSEL

Athens, July 4.—The Athens papers publish despatches from Chios, an island in the Aegean, that a Turkish destroyer on July 3rd bombarded and captured a Greek sailing ship, which was transporting refugees to Chios. The same destroyer proceeded to Gouai and bombarded and destroyed a monastery.

According to the despatches, fishermen at Tesmea, a seaport of Aesla Minor, opposite Chios, declare they captured a Greek transport, but with out passengers, whom they allege the Turks drowned.

LADY DRUMMOND HAS SAILED FOR CANADA

London, July 6.—Among the passengers returning to Canada by the Calgarian, which sailed on Friday, are Madame Donalds, Lady Drummond, and Mr. F. H. Wanklyn of Montreal, and Mr. J. A. Ruddick of Ottawa.

CLAUDE HANLON, BOATMAN WHO GIVES IMPORTANT CLUE

The police of Schenectady, N. Y., are still puzzled over the finding of a female torso, taken from the Mohawk River near Schenectady. The only clue so far is the finding of a piece of lace, presumably from the bottom of the victim's shirt, and an odd piece of oilcloth. Claude Hanlon, a boatman, has given the authorities a new clue. He told the police of a strange Italian of dishevelled appearance who was seen on the bank of the Mohawk near Shear's Quarry, a mile below the spot where the girl's torso was found.

PROFANITY IN PUBLIC LIFE ON THE INCREASE

Charlottetown, P. E. I., July 5.—The annual meeting of the Island Baptist Association closed tonight with a sermon preached by Rev. Dr. Cutten, president of the Acadia University. One of the most interesting reports submitted on Saturday was that on temperance and moral reform. It shunned profanity, open and brazen, seemed to hold sway largely in public life. The churches were strongly urged to lose no opportunity to show their disapproval of the abominable practice. If the profane cannot be reformed their society should be shunned. The tendency of the times is to degrade the Lord's day into a simple holiday. The practice of using it for society visiting should be strongly condemned.

Burglars break into home of Fred King—Stole trousers containing fifteen dollars.

Sackville, July 5.—Between hours of 12 and 4 this morning burglars entered the home of Fred King, Squire street, and took from the room where King was asleep a pair of trousers containing fifteen dollars in cash. King did not learn of his loss till about noon, when upon investigation he found that his home had been entered through a window, and besides taking trousers and loose change of the head of the household, the intruders had helped themselves to some dainty eatables stored in the family larder. A number of suspicious characters have been seen lurking in the vicinity, and the chief of police is now working on the case, and it is expected that some arrests will ensue.

KING GEORGE'S WEDDING ANNIVERSARY.

King George V. and Queen Mary will celebrate the twenty-first anniversary of their marriage, as was on July 6, 1893, that Princess Victoria Mary of Teck became the bride of the future monarch. The present King is the first of the five Georges to achieve domestic happiness, for every one of his predecessors that ill-fated name were involved in love affairs that were sometimes tragic and often scandalous. In temperament George V. and Mary are very much alike. Both are domestic in their tastes, and devoted to a quiet home life. Both dislike gambling, to which three of the four earlier Georges were passionately devoted. Queen Mary was engaged to marry the Duke of Clarence, George's elder brother, but that Prince died suddenly in 1892, and George, who thus became heir presumptive to the throne, sought and won the hand of Princess May.

Sioux City, Iowa, July 4.—Travelling at the rate of seventy-eight miles an hour, Eddie Rickenbacker drove his car to victory in the three hundred mile race here this afternoon and captured \$10,000 of the \$25,000 prize, \$15,000 being divided among the other contestants. His time was 3.49.02. Spencer Wishart was second and Ralph Mulford third. Wishart's time was 3.51.20 and Mulford's 4.00.26.

Crippled With Rheumatism

And Skeptical After Trying Many Medicines—Dr. Chase's Kidney Liver Pills Cured Him.

When the kidneys fail to purify the blood the poisons left in the system cause pain and suffering, such as backache, lumbago and rheumatism. Read how this skeptic was cured by Dr. Chase's Kidney-Liver Pills.

Mr. F. W. Brown, Kingsbury, Que., writes: "I have been completely cured of backache and lame back by using Dr. Chase's Kidney-Liver Pills. I also recommended the pills to a man who was a cripple from rheumatism. He was skeptical, as he said that he had tried nearly everything on earth. Finally he consented to try them, and to his surprise was greatly benefited in the first week, and the pains left his legs until he was so agile he could walk without pain or difficulty. Dr. Chase's Kidney-Liver Pills have worked wonders in this place, and we think there is no medicine like them."

Drumming Up Business.

WHEN the hot weather comes wise business men will add to their selling efforts rather than reduce them.

They will do extraordinary things to stimulate trade, and will make their offerings exceptionally attractive as to both kind and price.

The merchants of this community whose business will keep up this summer will solicit business by the most expeditious and least expensive of all known methods—newspaper advertising. Advertising is a drum, an instrument of attention and incitement; a resonant thing that calls to action. Buyers wait on the call of advertising to spend their money. They look for the summons to them in the columns of their newspapers. The newspaper is the instructor and director of the public. For a merchant to shut his eyes to this fact is costly blindness. Tell the public of this community about your offerings and service for the summer months. Temp them in various ways. They have as much money to spend in summer as at other times, and are willing to spend, but they must be shown what to spend on and for.

The supreme medium of appeal is the daily newspaper.

GOVT AMENDS THE GREATER INTEREST ORDER RE REFUND IN CANADIAN ISSUES

Order-in-Council for Refund of \$580,573 changed because of the Chaplin, Milne, Grenfell & Co. failure.

Ottawa, July 4.—Because of the failure of the London banking firm of Chaplin, Milne, Grenfell & Co., which with the Southern Alberta Land Company had \$100,000 on deposit, the government has amended the order-in-council which on May 23rd respecting a refund to that company and it is gazetted today.

A large tract of land was taken over by the company in 1908 from the Robins Irrigation Company and recently a refund of \$580,573 was made by the government. This amount had been paid to the government for an equal number of acres under the lease. As the company after spending \$6,000,000 had exhausted its reserves the refund was made by way of a loan at 5 per cent, at the same time the company for purposes of reorganization placed its affairs in the hands of a receiver.

Larger Bond and Banking Houses devoting much more attention — Some of the offerings.

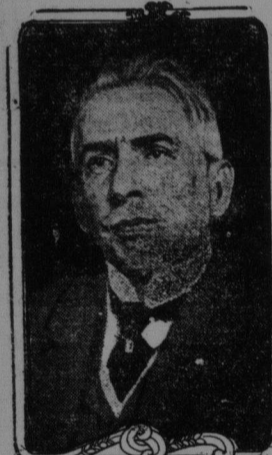

Montreal, July 4.—An indication of the growing attention which the larger bond and banking houses are devoting to Canadian issues is indicated by the list of Canadian issues brought out by N. W. Harris and Co., Montreal, in connection with the July reinvestment period. Among the Canadian issues which N. W. Harris and Co. are offering at the moment are: Montreal Tramway Co., 1st and refunding mortgage 5's at par and interest, Canada Southern Railway Co., consolidated mortgage 5's at 107 and interest yielding about 4.63 per cent. Dominion Power and Transmission Co., Ltd., 5 per cent. gold bonds at market price, yielding about 5.33 per cent.; Montreal Light, Heat, Power Co., 1st mortgage and collateral trust 4 1/2 per cent. gold bonds at market price, yielding about 4.55 per cent.; City of Vancouver 4 1/2 per cent. gold bonds, price 90 1/2, and interest yielding about 4.55 per cent.; City of Westmount municipal 4 1/2 per cent. gold bonds, price 97 1/2, and interest yielding about 4.75 per cent.

HOLD 120 ACRES IN HALLINGER BELT

G. G. Von Polense and group of British capitalists finance and purchase South Thompson Mining claim in Porcupine district.

Montreal, July 4.—It is officially announced from the office of G. G. Von Polense here that he and his British group have privately financed and purchased the South Thompson mining claim adjoining the Porcupine Crown, North Thompson and Vipond in the Porcupine district. The property is being amalgamated with the two Krist claims adjoining Porcupine Crown on the south, their holding company being named Porcupine King and Thompson Mines, Limited. This company now owns one hundred and twenty acres of property in the Hallinger belt, and in the immediate neighborhood of Crown Porcupine, North Thompson and Vipond. No shares are to be offered on the local market, the treasury having been privately financed in London. A campaign of active development is planned for the immediate future.

SMITH ON MEXICAN REVELATIONS.

Senator William Alden Smith in an interview in Washington said:—"The revelations brought out by the NEW YORK HERALD and its allied papers show conclusively that the warfare which has been waged in Mexico for the last three years has its roots safely anchored in the offices of the big oil companies in New York. The condition of affairs, while consisting heretofore largely of fragmentary evidence, before occasionally here and there a definite sworn statement, harmonized completely with the conclusions drawn by me and communicated to the Senate several months ago."

THROWN OUT OF WAGON IN RUNAWAY AND WERE PAINFULLY INJURED

Special to The Standard. St. Stephens, July 5.—Two young ladies, Freda and Hazel Brown, daughters of H. H. Brown of Dufferin were driving home this evening when their horse frightened by fireworks at Calais, ran away, overturning the wagon and throwing the two girls to the ground. Freda Brown fell on her face in the middle of Water street, and was picked up in an unconscious condition. She was taken into Dr. Brummond's office where she was revived and her injuries attended to. She is badly cut about the face. Hazel Brown was badly shaken up by her fall but escaped without serious injuries. Miss Freda Brown has been teaching school and her unfortunate accident has evoked the sympathy of her many friends.

Scovil Brothers Limited have leased from Deborah E. A. Hall, a property in King street at \$1,200 per annum for ninety-nine years.

SCOTLAND'S FIRST BISHOP

The first bishop of Scotland was St. Palladius, whose festival is celebrated today. The Apostle of the Scots was a Roman, and he was a deacon in the Church of Rome. He was sent to Scotland by Pope Celestine in 431, a little before St. Patrick's arrival in Ireland. According to Irish legends, St. Palladius preached in Ireland a few years before Patrick began his immortal career in the Emerald Isle. Palladius was not as successful as his great contemporary, and was banished from Ireland by the King of Leinster. He then proceeded to North Britain and opened a mission. He was bishop to the whole of the north of Scotland, but his work was largely in that part of the country occupied by people who had passed from Ireland into Scotland in the third century, and who had changed the name of ancient Scotland to Scotia. Palladius manifested great zeal in preaching the gospel and converted a multitude. Christianity had been introduced into Scotland about the year 200, but Palladius was the first bishop in that country, and religious historians usually refer to him as the first apostle of the Scots. The saint died at Fordun, near Aberdeen, about the year 450.

LEASE L. ERIE AND PULP COMPANY NOR'N RY. TO C.P.R. REPORTS GOOD YEAR

Special meeting of Lake Erie Company, in August, to take some action in matter.

Ottawa, July 4.—The State Department has been advised of a special meeting of the Lake Erie and Northern Railway Co., at Montreal on August 4th, for the purpose of considering the advisability of leasing the railway to the Canadian Pacific, cancelling the mortgage securing second mortgage bonds to the amount of \$500,000 and authorizing an issue of bonds and a new mortgage.

WYAGAMACK COMPANY HAD FAIRLY PROSPEROUS YEAR—OUTSTANDING BONDS 3 1/2 MILLIONS, STOCK HALF MILLION.

Montreal, July 4.—With the end of this month closes the fiscal year of the Wyagamack Pulp and Paper Co. The year just concluded has been a good one for the company, though the past twelve months have not been good months for industries in general, and it has not been a particularly easy thing to market the average second mortgage bonds to the amount of \$500,000 and authorizing an issue of bonds and a new mortgage.

PASSED THE LEAN PERIOD WITH PROFITS

Montreal, P. Q., July 4.—Earnings of large Canadian packing houses are said to have passed through the depression 1913 with undiminished profits. While complete statements of these concerns are never published it is learned that business and profits have been holding very satisfactory. It is stated that the average net earnings of Wm. Davies Co. Ltd. for the four years ending March 31, 1914, were \$567,850 as the average for the three years ending March 31, 1913, was \$340,000 it is apparent that net for the past year must have been \$481,500. Net profits of the Harris Abattoir Co. Ltd. for the year ending March 31 last are stated in round figures as over \$200,000 against over \$150,000 the previous year.

ASSENT TO PLAN FOR REORGANIZING

Bondholders of Canada Iron Corporation agree to arrangement for readjustment—Wipe out preference and common stock.

Montreal, July 4.—The bond holders of the Canada Iron Corporation formally assented to the reorganization plan which has been submitted to them by the committee chosen to make arrangements for that purpose some time ago. There will be a meeting of general creditors at the court house on July 15 where, if all still favorable, the new plan submitted will be put into effect at once. The resolution adopted by the committee yesterday provides for the cancelling of the existing mortgage and the acceptance by the first mortgage bond holders of six per cent. debenture stock to be known as "B" debenture stock in the new company, the exchange to be on the basis of par for par. Ahead of this security will be "A" debenture stock of an authorized amount of \$200,000 of which not less than \$120,000 and not more than \$140,000 will be subscribed at ninety-five to provide the necessary working capital. The old preference and common stock will be wiped out, but shareholders who subscribe to the "A" debenture issue will be given a bonus of common stock which in the event of the drastic reorganization proving as it is likely a sound and successful enterprise will offer some chance of the old shareholders recouping their losses in part at least.

Other addresses from W. J. D. Gibson on "Positioning" and by Rev. R. J. Houghton on "The Bible Development of Christian God. People were not content to go out and gather their own souls, but they were content to let others do it for them."

At the evening session the Rev. W. E. Gunn, M. A., extended greetings from the national Union of Canada, recently in Hamilton, Ont. speaking on the various special activities mentioned that had been an increase of 500 members the last year. The value of church property had increased \$350,000.

THE CONGREGATIONAL UNION OF N. B. AND N. S. IN SESSION

Sixty-seventh Annual Meeting held at Beach Meadow, last week - St. John delegates attend.

Beach Meadow, N. S., July 2-25. The sixty-seventh annual meeting of the Congregational Union of Nova Scotia and New Brunswick opened its sessions in the Congregational church here on Wednesday evening when a good representation of delegates were present from the churches in the two provinces.

The devotional service conducted by the chairman, Rev. James Middleton, was followed by a brief business session.

Rev. C. G. Claus on behalf of the people of Beach Meadow heartily welcomed the delegates to their homes and Rev. W. J. Bevis responded.

An interesting address was given by Rev. B. J. Haughton of St. John whose subject was "The Church and the Commonwealth."

Large gatherings attended the services on Thursday which began with a prayer service at 9.30 a.m. led by Mr. J. Plowright.

The reports of officers were encouraging and spoke of much good work having been accomplished in the various fields.

The treasurer, C. E. MacMichael, reported the total receipts to be \$2,044 with a balance on hand of \$496.62.

Rev. E. J. Thompson and J. W. Flawelling, secretaries, mentioned in their reports that nearly all the churches have settled pastors or student supply.

Rev. Geo. W. Ball, formerly pastor at Pleasant River, N. S., and well known throughout the provinces is recovering from his recent illness and is now recuperating at his former field.

Rev. J. A. Haughton was received as a member of the union by letter of transfer from a Boston Congregational association.

At the afternoon session the following officers were elected for 1915: President, Mr. C. B. Sheffield, N. B.; Chairman, Rev. E. J. Thompson, N. B.; Secretary, C. E. MacMichael, St. John; Treasurer, J. W. Flawelling, St. John; Statistical Secretary, Rev. Geo. W. Ball.

"The Pulpit as Seen From the Pew" was the subject of an able paper prepared by Mr. Geo. W. Doty of Yarmouth. It dealt with the various causes of failure to fill the churches with seekers after God; many men in the pulpits are not properly fitted for their work, and showing by the example of such preachers as Spurgeon, Talmage, R. J. Campbell and others that simple, earnest, direct preaching was the most successful; brevity of ten counted in bringing people back again. Every talent should be cultivated to draw the people to the church. People were not commanded to go to church but Christians were bidden to go out and gather them in.

Other addresses given were by Rev. W. J. D. Gibson on "Positive Preaching," and by Rev. R. J. Haughton, whose paper on "The Bible and the Development of Christian Character," contained much of inspiration and help for those present.

Rev. W. T. Gunn, M. A. of Toronto, extended greetings from the Congregational Union of Canada which met recently in Hamilton, Ont. Mr. Gunn speaking on the "Theological denomination" at activities mentioned that there had been an increase of 500 members reported during the last year and in the Sunday schools 700 additional members. The value of church property had increased \$350,000.

At the evening session the chairman, Rev. James Middleton, gave an address on "The Alteration of the Bible." Rev. G. E. Miller also spoke, his subject being "Pillars of the Church." The meetings continued until Sunday.

observers took time to ask many questions and consequently gleaned a lot of information along the lines for which the better farming train scheme was inaugurated.

C. W. McDougall, dairy inspector, had charge of the dairy division, J. Frank Roach and Mr. Ford the live stock for the province of the cattle sheep and several of which there were several specimens in each class. Prof. Newton and Mrs. Read has charge of the farm crop exhibits and Seth Jones poultry superintendent, was kept busy in his department answering questions.

Mr. Durost had charge of the farm drainage, chemical fertilizers and bees exhibit. D. B. Flawelling, assistant horticulturist, and S. L. Peters, fruit inspector for the province, were in attendance in the horticultural exhibit. The exhibit of farmers friends and foes, which included the insect and feather tribes, was prepared by Wm. McIntosh, Montreal for the Natural History Society, St. John, and was worthy of special mention. In the dairy department there were several placards showing the records of several herds in the vicinity of Sussex. These records not only included the milk and butter fat production but also a record of the feeds consumed by the various animals. Out of a herd of 20 cows 11 cows consumed more value in feed than they produced; the remaining 9 showed a profit, but the loss created by the old was deducted from the profit yielded by the 9 the margin of profit was very small. Out of another herd of 17 only 2 cows showed a loss and the general average of profit was consequently fairly gratifying to the owner. In the fields crop department at McDonald College at different dates of sowing pointed conclusively to the fact that it pays to have the various grains sown as early as possible.

KING'S COUNTY FARMERS INTERESTED IN THE BETTER FARMING TRAIN

Large number visited the cars at Sussex and found the exhibits and lectures instructive.

Sussex, July 2.-The better farming special which is now touring the I. C. E. under the auspices of the Department of Agriculture of New Brunswick was in Sussex on Dominion Day. Thronged of citizens of the town, as well as farmers from adjoining districts, visited the cars in the course of the day, but on account of the many other attractions only those who were directly interested took advantage of the opportunity to inspect the exhibits. Encouraging the various agricultural topics of interest with the demonstrators. Even a casual inspection of the various exhibits in the cars could not help but imbue the visitors with a higher conception of the importance of the farming industry. The closer

System proving more popular every year—Rev. P. A. Fitzpatrick preaches farewell sermon in Hartland church.

Hartland, N. B., July 4.—On Saturday evening the Methodist church was packed to the doors with people of all denominations who assembled to hear Rev. P. A. Fitzpatrick in his farewell address to his congregation in this part of the people of Hartland in general. At the close of a powerful sermon the retiring pastor spoke feelingly of his years here. The common places which usually mark such an occasion, and his last message to his flock, were heard with sincere hearts and deeply affected his hearers. Rev. Mr. Fitzpatrick came here a stranger two years ago, and in the short period of his ministry he endeared himself to all classes and creeds of the country. A powerful and earnest speaker, a powerful preacher, he has been called out of the most important fields of work within the conference, and he calls to witness with unanswerable evidence that the Bible is the Word of God, and that Jesus is indeed the Christ. This has been Mr. Fitzpatrick's message to Hartland, and always delivered with a faith and sincerity too manifest to be questioned. The Hartland congregation stands in the words of the pastor said on Sunday night that of all the churches in the conference none had a people more united or more faithful. From them he had received the utmost kindness, which with him would always be a pleasant memory. Among the congregations and people of the conference he had the most cordial relations. Last week the members of the conference gave a picnic to the retiring pastor at the grounds of Mr. J. T. E. Carr, at which he was present with a purse of gold. On that occasion, in response to the words spoken to him, he said that he felt like relinquishing the higher honor done him in the call to the Hartland church and remaining among the little flock where he had spent so many pleasant days. On Wednesday evening Mr. Fitzpatrick took a final farewell to the little band of Epworth League workers, which was organized just after his coming here. Mr. Fitzpatrick left Hartland to take up his new work in the Wesley Memorial church at Moncton.

AMERICAN GYROSCOPE SAFETY DEVICE FOR AEROPLANE WINS \$10,000 PRIZE

A signal American success in aviation was scored in Paris by the Committee of the Concours de Sécurité's award of its first prize of \$10,000 to the Sperry Gyroscopic Company of New York for the Sperry-Curtiss aeroplane stabilizer. Mr. Lawrence Sperry, who is twenty years of age, piloted the machine. The Sperry-Curtiss stabilizer is the best safety device which has ever yet been officially tested. It is possible that a flying machine the stability of which is insured by the shape or angle of inclination of its own wings would yield better results, but such a machine has yet to be discovered. Under present conditions. Mr. E. A. Sperry's invention marks a step in the path of aerial progress.

Mr. E. A. Sperry, inventor of the Sperry-Curtiss aeroplane stabilizer, is shown in the illustration. He is a young man of twenty years of age, and is a native of New York. He has been awarded the first prize of \$10,000 by the Committee of the Concours de Sécurité in Paris for his invention of the Sperry-Curtiss aeroplane stabilizer. This device is a signal American success in aviation, and marks a step in the path of aerial progress.

Cured of Piles and Eczema

By Using Three Boxes of Dr. Chase's Ointment. Mr. Abram Buh, Herbert, Sask., writes: "I want to say that I was troubled with eczema and piles and suffered greatly from the itching, burning sensations caused by these annoying ailments. I sent for a free sample of Dr. Chase's Ointment, and this did me so much good that I bought three boxes more, and after using same was cured of both eczema and piles. This is the kind of letters we receive daily from people who have been cured of these distressing skin diseases by the use of Dr. Chase's Ointment. No matter how skeptical you might be, you could not read these letters for many days without concluding that Dr. Chase's Ointment is undoubtedly the most prompt relief and certain cure for these ailments. If you have doubts send for a free sample box and be convinced. It was by use of a free sample that Mr. Buh was convinced of the merits of this treatment. AROUND THE CITY

Arrested for Fighting.

Saturday evening County Policeman Saunders arrested Frank Cavanaugh and Theo Fleming on the charge of fighting on Union street.

Chimney Fire.

About 11:30 o'clock Saturday night the fire department were called out by an alarm from box 143 for a chimney fire in a house on Sheriff street.

Accused of Stealing.

George Angus, aged 52 years, was arrested yesterday morning by Sgt. Scott and has been charged by John H. McIntyre with stealing \$25 from him in the Prince Rupert House on Mill street. The money is said to have been stolen on Saturday.

An Angry Drunk.

Five drunks were gathered in by the police Saturday. One of the prisoners James Dempster, apparently did not like being locked up in the Brussels street lock-up as he smashed the furniture in the cell and is now charged with destroying city property.

Supplying in Carleton.

In the Carleton Presbyterian church last evening Rev. A. D. Fraser preached to a large congregation. Rev. Mr. Fraser was supplying for Rev. Dr. Morison, who went to Winnipeg where he will occupy the pulpit of a Presbyterian church for several weeks. Mr. Fraser made a good impression last evening and his forceful address was given careful attention.

Chief Health Officer.

Dr. F. Montclair, Dominion health officer, is at the royal. The doctor will attend the meeting of the Canadian Medical Association here this week, and will then make his usual tour of inspection of the Maritime Provinces. To a reporter he said the new detention hospital being built on Partridge Island would be ready by the opening of the navigation season next winter.

To Change Fire Bylaw.

The city commissioners will meet this afternoon in regular session. Several routine matters will come up for consideration and the second reading of the resolution for a change in the bylaw providing a penalty for ringing a false alarm of fire will be completed. At the last session of the city council Commissioner McLellan introduced a resolution to make the penalty \$500, but it was pointed out that the meeting last week that the present penalty provided for a maximum of forty days and the increased fine would have no relation to the imprisonment. Commissioner McLellan will have a change in the resolution introduced today so that the term of imprisonment will be materially increased.

NEW MINISTERS NOW AT WORK

Revs. J.B. Champion, Hammond Johnson and W. G. Lane, take charge of Methodist congregations.

Three Methodist ministers, Revs. J. B. Champion, Hammond Johnson and W. G. Lane, took charge of St. John congregations at both services yesterday. Mr. Champion took charge of Zion congregation; Mr. Johnson started his work in Queen Square church, and Mr. Lane preached for the first time in Exmouth street church.

Rev. Mr. Champion was greeted by large congregations at both services in Zion church yesterday. The morning sermon was chiefly of an introductory character, and Mr. Champion spoke of the future prospects of church work and asked the members of the congregation to co-operate with him in an endeavor to advance the interests of Zion Methodist church and Christianity in this city.

At the evening service Mr. Champion was heard in an able address, during which he made a strong plea for knowledge and service in connection with church work. These two were so interwoven that they were almost identical. He outlined the relations of David with his son Solomon and drew a modern application from this historic drama. He urged on his hearers the necessity of properly

BURGLAR MADE BIG HIT AT MOWATT'S DRUG STORE

Over two hundred dollars taken—Thief smashed glass in front door, sprung the lock and thoroughly ransacked establishment—Daring robbery.

A crook made a daring break into Howard J. Mowatt's drug store early yesterday morning, made a clean get away with the vicinity of two hundred dollars, left no clue for the detectives to follow and the officers are at present having a difficult task in working the case. Mr. Mowatt, the proprietor of the establishment, is out of the city and his clerk, George Cox, who is in charge, was kept busy yesterday trying to avoid discussing the robbery with the large number of persons who had heard of the break and were asking questions.

The Mowatt drug store is at 255 Waterloo street and on the corner of that street and Haymarket Square. In the vicinity of Saturday midnight Mr. Cox, the clerk, closed the store, leaving everything secure. There was very little change left in the cash register which is in the front store, but in a drawer of Mr. Mowatt's desk, in the dispensary in the rear, there was some money in the vicinity of two hundred dollars.

Yesterday morning when Mr. Cox opened the store he was surprised to find that the place had been robbed. The crook had made his entrance through the front door, which is right in the glare of an electric light.

In the front door of the drug store is a large plate glass window and it was here that the thief found making an entrance rather easy as, from all appearances, he had placed his cap against the pane of glass near the lock and with something solid broke the window, making a circular opening about six inches wide. It was then only the work of a few seconds for him to put his hand through the hole, turn the spring lock and open the door. After gaining entrance and seeing that

there was not a soul about the place to disturb him he made a thorough search of the premises for money.

In the cash register behind the counter in the front store there was only a small amount of change. In another drawer was only a couple of dollars and he gathered in this amount. A number of other drawers were pulled out and left open, when he found that they contained nothing of value. Finally he reached the desk in the rear of the store. The drawer which contained the large amount of money was locked but this did not prevent the thief from opening it, as with a sharp instrument he soon broke it open and picked out the money. Nothing else was taken from the store and money was apparently the only thing the man was after.

When his pockets were well lined the thief left the store by the front door, closing it behind him. As soon as Mr. Cox discovered that the store had been robbed he immediately communicated with central police station and Detective Killen was placed on the case.

Mr. Cox, last night, when questioned about the break did not wish to talk about the matter and said that Mr. Mowatt was the only person who would know just how much money was stolen. Mr. Mowatt was out of the city, and when he returned he would know just how much was taken. As far as the goods in the store were concerned Mr. Cox said that nothing had been taken.

A couple of boards were nailed over the opening in the glass yesterday and last night when the clerk closed the store the door was locked securely with a police padlock inserted through two screw rings.

EXPERIMENTAL FARMS PROVE BIG SUCCESS

Government doing great work in aiding farmers to secure the best results—Dominion cerealist here.

"The Dominion Experimental Farm near Fredericton is being put in first class shape," said Dr. Charles E. Saunders, Dominion Cerealist, who is at the Royal. "I was much struck with the improvements made considering the time which has elapsed since work was first started there. Next spring it is the intention to sow a considerable variety of grains on this farm with the object of determining which varieties are best suited to the climatic and other conditions of the province. It is necessary to get the land in pretty good condition in order to experiment with grains. If we planted grains in rough land the results might readily lead to wrong conclusions as to the best grains to undertake to find out which varieties of grains can be grown to the best advantage, and this information is placed at the disposal of the farmers interested. In as far as possible the experimental farms supply farmers with seeds of suitable grains for planting in their locality."

Dr. Saunders said the Dominion Department of Agriculture maintained about twenty experimental farms throughout Canada. In addition to the experimental farms maintained by the Provincial Governments, there are four Dominion experimental farms in the Maritime Provinces, one at Fredericton, one at Charlottetown, E. I., one at St. John's, N. S., and the other at Kentville, N. S. Dr. Saunders leaves for Kentville today and will visit the farms in Nova Scotia and at Charlottetown.

METHODIST CHURCH AT LITTLE RIVER

Edifice formally dedicated with impressive ceremonies yesterday afternoon—Fills long felt want.

The new Methodist church at Little River was formally dedicated yesterday afternoon, the dedicatory exercises beginning at 3 o'clock. There was a good attendance, every available seat being taken. Rev. E. Thomas, chairman of the district, presided at the dedication service and was assisted by Rev. W. H. Barracough of Centenary church, Rev. J. J. Pinkerton of Silver Falls and Rev. W. G. Lane of Exmouth street church. After short addresses by the ministers present, Mr. Thomas conducted the dedicatory exercises and preached the dedication sermon. Taking for his text from Luke 11:20, "I give to thee the keys of heaven and of hell," the preacher delivered an interesting and eloquent address on the position and authority of the church. He did not think the right interpretation of this text gave the church power to forgive sins. He did not think any man or any church had the power to forgive sins. The real mission of the church was to point out to men what was right and what was wrong. Its power and authority depended upon its ability to see clearly what was right and wrong and carry its message to men.

A feature of the service was the singing of the male quartette of the Exmouth street Methodist church, which was much appreciated by the congregation.

Evening Service.

In the evening service was conducted by Rev. George Steel, superintendent of missions. Mr. Steel preached an instructive sermon, appropriate to the occasion, taking as his subject "Abraham building altars or the claims of the House of God." He pointed out that the purpose of the church of God was to minister to the spiritual needs of men, and went on to show how attendance on the church of God was a testimony to the value of the Sabbath and of morality.

The new church is a wooden structure, its dimensions being 46 by 28 feet. It will seat about 150 persons, and will afford much better facilities for carrying on the religious work of the community than have obtained in the past. Previous to the building of the church public worship was conducted in the school house.

Blindness of Virtue.

The attention of all theatre goers is again called to the important summer engagement of the Blindness of Virtue, which opens for three days and Wednesday matinee at the Opera House this evening. The interest in the production has become very great during the past few days and large audiences are looked for.

Presentation.

Frank J. Fitzgerald, head usher and stage manager of the Imperial Theatre was presented with a handsome piece of cut glass and an electric heater by members of the staff of the theatre on Saturday night. The presentation was made on the stage after the final performance. Mr. Fitzgerald will be married on Tuesday morning in St. Peter's church to Miss May Gallagher of Clarendon street, and the presentation was made in honor of that occasion.

WILL GO FOR THE COAST LINE TRADE

Howard Smith Paper Mills Ltd., to enter field against Great Britain and foreign concerns.

Among the visitors to the city is J. P. Pendock of the Howard Smith Paper Mills Ltd., which has recently put up a million dollar plant to manufacture fine linen paper with the idea of serving a market now largely supplied by Great Britain or foreign countries. Mr. Pendock is at the Dufferin.

"In the Maritime Provinces most of the linen paper is imported from Great Britain or the States, more so than in other parts of Canada," said Mr. Pendock. "But we hope to break into this market. Ours is not the first plant put up in Canada to manufacture fine linen papers, but the home production of such papers is small compared with the demand of the market. Of course the competition from other countries is keen, especially from England where they have been making linen paper for centuries.

Much of the raw material for this industry comes from Russia, but a certain portion is procured from the cuttings of linen factories in Canada. Some sulphite pulp is used in making fine papers, but that is mostly imported from Sweden as Canada has not yet got to the point where it can make sulphite pulp sufficiently white for fine paper purposes."

OFFICER WARD FINDS DOG

Searching for dog and comes across store-house for stolen goods—Boys run away.

Just through a slant last evening Police Officer Ward came across a layout that may result in the discovery of other robberies in addition to the big haul that was made in the Mowatt drug store, mention of which is given in another section of this paper. The officer had left his home near the foot of Duke street shortly after six o'clock last evening and was near the I. C. R. track which runs along the Courtenay Bay shore when he saw four or five boys walking rapidly away from the vicinity of the old breakwater. The officer's curiosity was aroused not only because the boys had made a clean getaway and had quickly disappeared in different directions but he had lost his dog and with his little daughter went in search of the animal and he thought that the dog might be at the breakwater. When he went under the breakwater which is now nothing but a section he was surprised to find a quantity of articles including packages of cigars, a number of packages of gum, a tin of jam, some tins of prepared fish, a number of tins of tobacco and alongside of a log was a new revolver.

The officer hastened after the boys together and took them to the station. It could not be learned last night if the police had any suspicions as to the identity of the boys who left the goods behind them.

PERSONAL.

L. H. Cortright, advertising manager for M. R. A. Ltd., left on Saturday for a two-weeks' vacation trip to New York.

W. Murphy of Fairville on Saturday brought into Standard office some four, five and six cent stamps which he found near the Stims' factory.

Hon. John E. Wilson returned to the city on Saturday from Hartford, Conn. He was accompanied by his daughter, Miss Clara Wilson of Hartford Hospital. Miss Wilson graduated last month from the Hartford Hospital Training School and will spend a few weeks with her parents at Fairville.

Emory White and Mrs. White, of New York, passed through the city on Friday en route to the home of Mrs. White's father, Mordecai Keirstead, Apohaqui. Mr. White will be remembered as a talented tenor singer, who sang for the Keith people here three years ago, but since that time has been appointed instructor in the largest male high school in New York City, where he is teaching 3,700 boys to sing by note. After visiting in Apohaqui Mr. and Mrs. White will go to their cottage in Maine.

Lyric and Unique.

Both the Lyric and Unique theatres will be closed this afternoon because of the death of Mrs. Andrew Gilmore.
