

Address THE MAIL, Toronto.

THE WEEKLY MAIL.

THE
GREAT DOLLAR NEWSPAPER.

THE WEEKLY MAIL will be sent to any Post Office in Canada or the United States, or to any address in England, Ireland or Scotland, postage prepaid, for

\$1.00 PER ANNUM,

OR THE

DAILY MAIL FOR \$6.00 PER ANNUM.

It is nearly eight years since THE MAIL was established, and during that time it has gradually acquired circulation and influence, which renders it second to no other newspaper in the Dominion. The Publishers take pleasure in announcing that THE WEEKLY MAIL has met with a very large measure of success in the year just closed, and that notwithstanding the general depression in business, and the consequent falling off in circulation of almost every other paper in Canada, THE MAIL, both DAILY and WEEKLY, has made a very great advance.

Special Editors have been engaged for the various Departments, and no pains or expense will be spared to make the whole paper INTERESTING and RELIABLE.

THE MAIL will remain true to the principles it has always advocated, and it is intended to make it, by the aid of such additional strength as ample capital can afford, even a more potent champion of the Conservative cause. All of the old Departments of

Telegraphic News, Political Intelligence and Editorials, will be continued with Unabated Vigour.

During 1880 the following departments will receive special attention, AGRICULTURE in all its branches. Special prominence being given to correspondence from Farmers on Agricultural Subjects. Illustrations will be used wherever they will make the subject clearer or in any way increase the practical use of the letter-press.

OUR MARKET REPORTS will be a speciality: we will use every means to secure complete reliability. The Market Reports of THE MAIL are noted as the most reliable in Canada.

OUR LITERARY DEPARTMENT will be a leading feature. Stories both short and continued from the pens of the best authors, and in many cases illustrated.

THE LADIES' DEPARTMENT, under charge of Ladies of experience, will, we have no doubt, prove an interesting and valuable feature. Fashions, Household, Culinary Matters, the Care of Children, &c., will be included in this department.

HEALTH IN THE HOUSEHOLD, under the charge of an able medical man, will add to the value of THE WEEKLY MAIL.

Canadian Farm Annual for 1880.

ILLUSTRATED WITH 140 ENGRAVINGS.

Containing valuable information and practical suggestions for the Canadian Farmer, will be presented to every yearly subscriber to the Weekly Mail.

CONTENTS.

Design for a Handsome Country Residence.—Front view, side view, prospective view and two Plans. Full specifications and descriptions. 8 Engravings.

Two Designs for cheap Dwelling Houses.—Front views, plans, sections, descriptions and specifications. 8 Engravings.

Design for Country Church, with descriptions, &c. 1 Engraving. Design for Country School House. 3 Engravings.

Fences.—Board and Rail Fences Compared, Seasoning, System in Splitting, Laying out the Fence, Post and Rail Fence, Cattle Fence, Post and Board Fence, Slab Fence, the Fence for the Farm. 24 Engravings.

Wheat.—Soils, Varieties, Preparation of the Soil, Rotation, Fallowing, Manures, Preparing old Soil, Harrowing, Fall Wheat, Spring Wheat, Diseases and Enemies, Winter Killing, Smut, Rust, Insects, The Midge, The Hessian Fly, The Grain Weevil, &c. 16 Engravings.

Management of Hedges.—Preparing the Soil, Selecting Plants, Cultivation, Underraining, etc. 10 Engravings.

Contrivances in Rural Economy.—Bag Holders, Thistle Digger, House Cleaner, Wood Carrier, Drawing Posts, Snow Ploughs, Removing Trees. 10 Engravings.

Garden Insects.—The Onion Fly, the Centipede, the Parasp and Parsley Worm, Flat-backed Centipede, Cut Worm Moth, Stripped Flea Beetle, the Garden Flea, Cabbage Moth, Cabbage Aphid, Cucumber Squash Bug, Squash Coccinella, Asparagus Beetle, Tomato Worm, Potato Beetle, Snapping Beetle, Wire Worm. 54 Engravings.

Art Needlework.—12 Engravings. Besides a quantity of other matter being prepared.

CLUB AGENTS WANTED.

HAGYARD'S PECTORAL BALSAM

For the speedy and permanent cure of
Coughs, Colds and all diseases
of the Throat and Lungs.

HAS NO EQUAL.

It is manufactured from the best known and most reliable BALSAMS, GUMS AND VEGETABLE TONICS, in chemical union with the extract of Wild Cherry Bark and Liquorice, in their fresh and unadulterated forms, and is the most pleasant and effective combination that can be secured, with a view to permanent relief or cure.

ITS MEDICAL PROPERTIES.

Its chief medicinal properties are HEALING, SOOTHING, STIMULATING, TONIC, AND EXPECTORANT. The Liqueurice soothes and removes all irritation and inflammation, cleansing and healing the mucous surfaces of the throat and air passages leading to the lungs; and Wild Cherry Bark has a superior Tonic power, and is among the most valuable medicines in use.

From its very nature it becomes almost a specific in all diseases affecting the mucous surfaces, such as we find in the Stomach, Bowels, and Digestive System; in the Lungs and Respiratory System, and in the Uterine and Urinary Systems. Hence from acting on the mucous surfaces of the entire Respiratory System, its wonderful curative efficacy is seen in curing:

Hoarseness, Coughs, Colds,
Quinsy, Influenza, Croup,
Whooping Cough, Asthma,
Bronchitis, Spitting of Blood,
Wasting of Flesh, and all
Diseases of the Lungs.

All the above complaints and many complicated cases of inflammation of the mucous surfaces are the neglect of a slight cold, which might easily have been averted by the timely use of the Pectoral Balsam. Sometimes there is a chilliness or creeping sensation pervading the whole system, or there may be a violent headache, accompanied with constipation of the bowels, and in other cases pains and aches, or a tightness across the chest. When any of these symptoms are present there is something radically wrong, and which requires prompt attention, otherwise the blood will take up the poisonous matter that the mucous surfaces are charged with, and the whole system becomes deranged. Then local fever commences. The cheeks are flushed, the air passages from the throat to the lungs become coated with a thick glue substance, making it difficult to breathe, which if not removed, will, in a very short space of time, produce Ulcers or Chronic complaints difficult to cure, such as Asthma, Bronchitis, Consumption, and other diseases of the throat and lungs, the strength fails, cold sweats, sleep disturbed, dry hard cough, the flesh wastes, and general debility sets in. Hagyard's Pectoral Balsam, when used according to directions, will cure or relieve any of the above complaints unless Consumption in the third stage. One 25c. bottle has cured hoarseness of three or four weeks' standing. One or two bottles have cured old coughs. One or two doses often relieve sore-throat. One bottle has cured Bronchitis. A few doses will relieve Croup or Asthma. There is no case of Throat or Lung Disease that the Balsam will not relieve and do all we claim for it. Its healing, soothing and Balsamic properties are such that they act direct on the diseased parts. Thousands of bottles have been sold annually and are highly spoken of by those who have used it. Mothers and nurses should keep it for cases of emergency.

A cure will be greatly assisted by applying Hagyard's Yellow Oil freely over the Throat and Lungs, or when there is a Constipation of the Bowels, Dizziness of the Head, Debility, Depression of the Spirits, Prostration, Chilliness, and a feeling of soreness all over the body, the patient should take one or two doses of Hagyard's Pills or some other good opening medicine, which will in ninety-nine cases out of every hundred hasten a cure.

A total eclipse of the Sun, January 11th, 1880. Visible as a partial eclipse in British Columbia and in the greater part of the North-West Territory.

EGYPTIAN SALVE,

FOR

RHEUMATIC PLASTER,

For dressing and healing all kinds of

Cuts and Wounds, Pains or Weakness in
the breast, side, back or limbs,

Corns, Bunions, Rheuma-
tism, &c.

FOR TOOTH-ACHE OR NEURALGIA

Where the face is swollen—by applying it to the
face it will draw out the pain, and make a wonder-
ful cure.

THE EGYPTIAN SALVE

Is put up in rolls, and requires to be spread on
cloth or thin leather, by holding it to a lamp or fire
which has the advantage of always keeping it fresh.
It is put up in large rolls, and sold at the very
small price of 12½ cents. It is within the reach of
all, and no family should be without it. The genu-
ine has on the wrapper, E. L. SOULE & CO.,
Brougham.

RHEUMATISM

Has been very effectually cured by freely applying
the Egyptian Salve, wrapping the limbs or parts
affected in plasters of it. If the limbs or joints are
swollen, it causes the swelling to disappear, and
always the pain, and at once gives the greatest
ease, and in many cases effects a permanent cure.

Try everything else, and then give

HAGYARD'S Yellow Oil

ONE FAIR TRIAL.

It is universally admitted as being the cheapest liniment ever sold, on account of its healing qualities. Thousands can testify to the wonderful cures the Yellow Oil has made. IT IS CHEAP BECAUSE IT RELIEVES PAIN INSTANTLY. Rheumatism will disappear before it like snow before the sun. From one to six bottles will cure the worst case of acute or chronic Rheumatism.

YELLOW OIL is equally good for man and beast, and never fails to cure Cuts, Sprains, Bruises, Galls, Corns, Scratches, Cracked Heels, Weak and Stiff Joints, Swelling of the Glands of the Throat, and may be used with good effect in cases of inflammation by applying externally over the part affected.

Those who have never used HAGYARD'S YELLOW OIL will do well to give it a fair trial, so that afterwards they can have some good liniment they can put their utmost confidence in; and should it not do all we say, they can return it to the party from whom they bought it and have their money refunded, as we guarantee every bottle to give satisfaction, or refund the money.

Chilblains, Scalds, Cracked Hands, Bunions, Corns, Sprains, Bruises, Sore Breasts, Sore Throat, Inflammation, Contracted Muscles, Chafes or Galls, Itch, and almost every disease flesh is heir to, will, in ninety cases out of every hundred, find relief, if not permanently cured, by the continued use of the Yellow Oil.

In recommending the YELLOW OIL, we do so with the utmost confidence, knowing the many curative qualities it contains, and the general satisfaction it has given to those who have used it. Many of the diseases above mentioned can be cured by one bottle, but might, in stubborn cases, require from one to six, and, in all cases, the directions accompanying each bottle should be strictly followed.

Many persons enquire what HAGYARD'S YELLOW OIL is made from, that it has so many valuable properties, and whether it can be taken internally in cases of Croup, Asthma, Sore Throat, &c. In reply, we have known it to be used for Croup, and it gave instant relief; also in cases of Asthma, in connection with Hagyard's Pectoral Balsam. Sore throat it cures at once, and will reduce swelling in the Throat by applying it externally. Those who have never used the YELLOW OIL ought to at once, and you will never after regret it. Price 25c. per bottle.

CERTIFICATES.

JAMES BOBBIN, Bobbinton, Ontario, writes:—"We have used Hagyard's Yellow Oil, and find it answers every purpose for which it is recommended."

TORONTO, Sept. 27th, 1879.

Messrs.

MILBURN, BENTLEY & PEARSON,
31 Church Street.

GENTLEMEN—Being subject at times to the very worst description of sore throat, I tried Hagyard's Yellow Oil, and it has in every case completely cured me in twenty-four hours. Previous to using it I suffered so for days that I could not even open my mouth, much less swallow anything. I recommend it to all my friends.

Yours truly, GEO. S. STREET.

TORONTO, Dec. 29th, 1876.

Messrs.

MILBURN, BENTLEY & PEARSON,
31 Church Street.

DEAR SIRS—Some two weeks ago, I got my hand badly burned, and used Hagyard's Yellow Oil, and to my surprise it completely removed the pain, and one bottle made a perfect cure. I can, with confidence, recommend it to any person requiring a quick cure, as I felt no pain or soreness after the first application.

Yours truly, JOS. CONROY.

MR. CHAS. CAMERON, stage proprietor, Collingwood, says, Hagyard's Yellow Oil is the best liniment he ever used, and recommends it with confidence.

VICTORIA

HYPOPHOSPHITES

This famous Vitalizing Medicine acts like magic, rapidly restoring the Strength and Appetite, promoting sound and refreshing Sleep, and imparting Tone, Vigour and energy to the whole system.

For Consumption, Weak Lungs and Chest, and Throat Diseases, it is the best and surest Remedy known, and it is unparalleled in its efficacy as a GENERAL NERVOUS TONIC and BLOOD AGENT.

Write your name in kindness, love and mercy, on the hearts of those you come in contact with, and you will never be forgotten.

To make a Maitee cross—tread on her tail.

BELFOUNTAIN, JANUARY, 1879.

MESSRS. MILBURN, BENTLEY & PEARSON.

GENTLEMEN,—My son was taken about two years ago with Asthma, which was attended with a very bad cough, and was in a very bad condition. He commenced to take your Victoria Hypophosphites about six months ago, and has found great relief from its use, and I think it will make a permanent cure of his case in a very short time. He has taken about six bottles. Others are taking it in my neighborhood with like beneficial results.

J. F. BYANS.

"Insults," says a modern philosopher, "are like counterfeit money. We cannot hinder their being offered; but we are not compelled to take them."

Judge: "Have you anything to offer to the court before sentence is passed on you?" Prisoner: "No, Judge, I had ten dollars, but my lawyers took that."

R. WALKER & SONS,

TORONTO AND LONDON.

Of all diseases to which frail humanity is liable, there are none more generally neglected in their commencement, or more fatal in their termination than those arising from defective or suppressed perspiration, whether we regard them in the trivial light of a slight Cold, or whether we view them in the terrific form of Pulmonary Consumption—the latter, alas! but too frequently the sequel of the former. At the very first symptoms of a Cold, Hagar's Pectoral Balm should be administered. For sale by all dealers.

MESSRS. MILBURN, BENTLEY & PEARSON.

TROWBRIDGE, March 2nd, 1873.

GENTLEMEN,—About the first of November last I contracted a very heavy cold, which settled on my lungs, and through it I was so hoarse for about two months that I could hardly speak. I used a number of different dollar bottles without any good effect. One day, reading your almanac, I noticed that Hagar's Pectoral Balm was recommended. I resolved to try it, and after using three 25 cent bottles, was entirely well.

Yours truly,

CHAS. COSENS, P.M.

DISEASES OF THE BLOOD AND STOMACH.

Sick Headache, Costiveness, Indigestion, Liver Complaints, Jaundice, Foul Stomach and Breath, also Skin Diseases, such as Scurf, Scrofulous Sores, Swellings, Fever Sores, White Swellings, Tumours, Old Sores or Swellings, Salt Rheum, Scald Head, Tetter, Erysipelas, Pimples, Blotches, Eruptions, Sore Eyes and all affections of the Skin, Throat, Kidneys and Lungs, and Impurity of the Blood.

There is scarcely any disease in which purgative and opening medicines are not more or less required, and much sickness and suffering might be prevented were they more generally used. No person can feel well while a costive habit of the body prevails; besides, it soon generates serious and often fatal diseases, which might have been avoided by a timely and judicious use of proper medicine. Great care has been taken to perfect

National Pills

to meet this want. They purify the Blood and remove all corrupt humours and unhealthy accumulations from the stomach, cleansing and invigorating the whole body. They are mild in their action. They do not leave the bowels costive. They can be taken at any time without injury to business. They purify and strengthen at one and the same time.

They are the most searching medium in use, removing all impurities from the blood, from which we derive our strength and mental capabilities. From the blood our systems are built up and kept in repair, hence it behoves us to keep our blood in a perfectly healthy condition; for when we purify our blood, we not only cure the disease, but we put our system in such an improved condition that we are less liable to disease.

The National Pills may be taken at all times without restriction to diet or occupation. They are sugar-coated and are put up in air-tight boxes and as a Family Medicine have no equal.

For sale by all Dealers.

Price - 25 Cents.

A man addicted to snoring remarked to his bedfellow in the morning that he slept "like a top." "I know it," said the other, "like a humming top."

It is easy enough, it is said, to pick up a horse if you know how. The best way is to let the lines get under his tail, and then lift. And it will surprise you to see how easily you can raise the horse over the dashboard and into your lap.

Yellow Oil is the best cure for Frost Bites.

She was Irish, and sweet seventeen. She said, "Sooner than live on charity, I'd beg from door to door."

The complexion is made beautiful by using our Victoria Glycerine Jelly daily.

"Come now, stupid," said the school-master. "You don't know how much two and five make. Now listen. In one pocket I have \$2 and in the other \$5." "Let me see them, and I will tell you." School was dismissed.

Deafness and Earache are often relieved by using Hagyard's Yellow Oil.

A sociable man is one who, when he has ten minutes to spare, goes and bothers somebody who hasn't.

Any man who can swap horses or catch fish and not be about it, is just about as plus as men ever get to be in this world.

Continue to use Hagyard's Pectoral Balsam for Coughs, Colds and all Throat and Lung difficulties.

A man advertised for a good girl to cook. A friend asked him how it was intended to cook her.

We have known many a man to sit around waiting for something to turn up until that something was his toes.

"What's a dollar?" asks the Graphic. It's just the same as gratitude; something of which we owe more than we have.

A Dublin professional man addressed an artisan, who was waiting in his hall, rather brusquely: "Halloa, you fellow, do you want me?" The answer was neat: "No your honner, I am waiting for a gentleman!"

VICTORIA

COMPOUND SYRUP OF

HYPOPHOSPHITES

For the prevention and cure of

CONSUMPTION,

Diseases of the Chest,

DEFECTIVE NUTRITION,

General Debility,

AND ALL

Nervous Complaints.

The HYPOPHOSPHITES.

Being a REMEDY for Consumption, when once developed, are equally and ABSOLUTELY A PREVENTATIVE in cases of predisposition, from any cause; as easy to employ as tea, coffee, sugar or salt in the kitchen. So certain are its results that in FEW CASES among children or adults, where hereditary predisposition has existed, has the disease ever developed itself, when the Remedy has been faithfully used; while it exerts a manifest influence in quickening the growth of infants and young children; possessing, in these respects, A POWER IN THE ECONOMY UNEQUALLED BY ANY AGENT KNOWN TO MEDICAL SCIENCE.

By their use as an occasional aliment to the vital forces, the HYPOPHOSPHITES are a CERTAIN MEANS of maintaining the health and strength of the labouring classes, students, clergymen, fragile children, women during the periods of pregnancy and nursing, and of all persons of sedentary habits, or those who, either from excessive labour of body or brain, are called upon for a greater expenditure of NERVOUS OR VITAL FORCE than is or can be supplied through the normal channels of recuperation.

"I know," says Dr. CHURCHILL, "that the HYPOPHOSPHITES will prove not only as SURE A REMEDY IN CONSUMPTION as Quinine is in Intermittent Fever, but as EFFECTUAL A PRESERVATIVE as Vaccination in Small Pox."

EFFECTS of the TREATMENT

On the Nervous System.

One of the first effects is an INCREASE OF THE NERVOUS OR VITAL ENERGY, followed by a feeling of unusual comfort and strength. This is more marked and earlier manifested in proportion to the degree of weakness and nervous debility previously existing.

The nervousness, or irritability, is allayed; the patient experiences a pleasant calm, and the sleep becomes profound and refreshing.

On the Blood System.

The effect upon the Blood System is equally marked. The quantity and colour are rapidly increased; the countenance becomes fuller and fresher, the lips red and the eyes brighter; the superficial veins are swelled out, and according to the doses employed and the duration of the treatment, the patients show striking evidence of the PLETHORA or fulness of blood.

On the Nutritive System.

The appetite is increased often in an extraordinary manner; the patient gains flesh, and the features, especially after the first two or three weeks, show a marked improvement in appearance. The remedy acts beneficially in all cases of impaired nutrition.

In all cases the dose requires to be gradually increased, commencing at the smallest dose according to age, mixed in half a wineglassful or less of water, which may be sweetened if necessary.

From our Correspondents.

Belmont, Ont., May 7th, 1877.

GENTS.—Send me one dozen bottles "Victoria Syrup of Hypophosphites." I have been using your Syrup for the last two years in my practice, and prefer it to any other preparation, and believe it to be the best in all cases where the Hypophosphites are required.

"I should just like to see somebody try to abduct me," said Mrs. Smith at the breakfast table the other morning. "H'm! so should I, my dear—so should I," said Mr. Smith, with exceeding earnestness.

Hagyard's Pectoral Balsam should always be kept at hand in case of cough, colds, and other throat and lung troubles.

A Scotchman and an Englishman were disputing as to which of their respective countries had produced the most eminent men. Every name was claimed by the Scotchman as that of a man who had been born north of the Tweed, till finally the Englishman said, "Surely you won't claim Shakespeare as a Scotchman." The canny Scot replied, "Well, if Shakespeare wasna a Scotsman, he was clever enough to be ane."

Do as your conscience dictates and you will not go far astray.

How to get fat—go to the butchers.

BALTON, Dec. 30, 1878.

MESSRS. MILBURN, BENTLEY & FRARSON.

GENTLEMEN—I take great pleasure in giving testimony in favour of Victoria Syrup of Hypophosphites. I have been selling it for the past two years, and my customers all speak very highly of it. Many permanent results from its use have come under my notice. I can with perfect confidence recommend it to those requiring a remedy for nervous complaints, general debility, weak lungs, &c.

S. J. SNELL, Druggist.

If Noah had foreseen the future, and killed the two mosquitoes which took refuge in the ark, he would have rendered some of the strongest words in the English language unnecessary.

A clock records time with its hands, but a regiment marks time with its feet.

To do business a man must have dollars and sense.

It is a combination of vegetable diuretics and tonics blended together, making it one of the best compounds manufactured to assist digestion.

IT REGULATES THE STOMACH.

Giving it a healthy action.

Removes all Impurities from the Blood,
And corrects all derangements of the digestive organs, causing animals in low condition to fatten in one half the time they otherwise would. All kinds of stock will improve under its use, leaving them less susceptible to disease.

IT RESTORES THE APPETITE

Strengthens and invigorates the whole system, and

MAKES THE COARSEST PROVENDER PALATABLE

As a diuretic it has no equal. It can be fed at any time and season, and when used according to directions will be found invaluable for horses and oxen that have been over-driven or worked; also for distemper and loss of appetite.

It Improves the Blood,

Removing Scurvy,

Roughness of the Hair,

Hide-Bound.

And all diseases that arise from abuse or exposure. We guarantee satisfaction or refund the money, which our agents are instructed to do.

"Dan," said a young four-year old, "give me a sixpence to buy a monkey." "We have got one monkey in the house now," replied the elder brother. "Who is it, Dan?" asked the little fellow. "You," was the reply. "Then give me sixpence to buy the monkey some nuts." The brother could not resist.

A HORSE'S PETITION TO HIS DRIVER.—Up the hill, whip me not; down the hill, hurry me not; in the stable, forget me not; of hay and corn rob me not; of clean water, stint me not; with sponge and brush, neglect me not; of soft, dry bed, deprive me not; if sick or cold, chill me not; with bit and reins, oh I jerk me not; and when you are angry, strike me not.

The Greatest Combination KNOWN.

HAGYARD'S

YELLOW OIL

Removes Pain as if by Magic!

USED INTERNALLY AND EXTERNALLY.

This article is so valued by thousands of families that they would not be without it for money, yet it is one of the Cheapest Medicines ever offered to the public. It differs from most medicines in that, while curative internally, it surpasses all other articles as a local outward application, while the rapidity of cure is almost marvellous. In other words it acts with the utmost rapidity. Scientific persons are aware that the combination of certain ingredients in a fixed relative proportion will produce a compound of greater efficacy than any or all of the ingredients not so combined, and further, possesses new qualities and properties not in any other way obtained. The secret of the curative and anodyne properties of the Yellow Oil lies in the combination of its ingredients, which is different from anything before compounded. Its astonishing result is not limited to a few ailments, but has a wider range of application than any other medicine offered to the public.

No danger from exposure to cold when using, but will cure Frost Bites in twenty-four hours. No house should be without a bottle of Hagyard's Yellow Oil, in case of accident. There is no preparation offered to suffering humanity that has made so many permanent cures or relieved so much pain and misery. It is called by some the Good Samaritan, by others, the Cure-all, and by the afflicted an Angel of Mercy. The party buying has no risk to run, as we guarantee every bottle to give satisfaction, or refund the money.

Equally Good for Man and Beast!

AMHERSTBURG, Ont., April 24, 1879.

To Messrs. Millburn, Bentley & Pearson,
Toronto.

Whilst driving from Harrow to Amherstburg, one of my horses was taken with a severe attack of colic, which completely used him up. After trying all the remedies I could get, without any result, your traveller accidentally came along, and asked me to give this a trial, handing me a bottle of Hagyard's Yellow Oil. The first dose done him good, the second put him on his feet, and I was able to continue my journey. Half a bottle saved my horse's life. I would recommend it to all requiring a medicine for colic, and am confident it is a medicine that every horse man should keep. Thanking you for the benefits received,

I remain, yours sincerely,

F. W. HERRING.

Traveller for Messrs. Hyslop, Russell & Co.,
Hamilton.

When Patrick was told that the price of bread had fallen, he exclaimed, "That is the first time I ever rejoiced at the fall of my bistfriend."

NEGLECTED COUGHS AND COLDS.—Few are aware of the importance of checking a Cough or Common Cold in its first stage, that which in the beginning would yield to a mild remedy, if neglected soon preys upon the lungs. Bayard's Royal Pectoral Balsam is considered a safe and effectual remedy.

"But you know, pa," said the farmer's daughter, when he spoke to her about the addresses of his neighbour's son, "you know, pa, that ma wants me to marry a man of culture." "So do I, my dear—so do I; and there's no better culture in the country than agriculture."

A young lady had coquetted until the victim was completely exhausted. He rose to go. She whispered, as she accompanied him to the door, "I shall be at home next Sunday evening." "So shall I," he replied.

FREEMAN'S

WORM POWDERS

Being entirely free from all unpleasant taste, the Powders are easily administered, and in every case produce the best possible results, eradicating every trace of worms when they exist. They are not only prompt and certain in their action, but are perfectly safe and harmless, containing nothing that will injure the most delicate constitution, and when given according to directions will destroy worms.

London has 460,000 dwelling-houses. If you are going over there to find Smith, and don't know the name of his street, you had better postpone your visit.

A Virginia Judge holds that a husband cannot be slandered by his wife. They are one in the eyes of the law, and she has a right to slander either half.

HAGYARD'S

PECTORAL

BALSAM.

Cures coughs, colds, influenza, and all diseases of the lungs, throat and chest. The most obstinate cases yield to Hagyard's Pectoral Balsam; and whenever there is costiveness or constipation of the bowels, use Hagyard's Sugar Coated Pills. In the treatment of these affections, purgatives are required in the very commencement of the attack, and will frequently effect a cure without any other remedy. The cure will be hastened by freely using the Pectoral Balsam. Sold everywhere. Twenty-five cents per bottle.

FREEMAN'S

ANTHELMINTIC

WORM POWDERS

Certain Death and Destruction to Worms.

THE MOTHERS' FAVOURITE REMEDY.

A Neat, Pleasant and Reliable Medicine.

*Reasons for the Great Popularity of these
Powders.*

1. They are pleasant to take, and recommended by Medical men.
2. They produce no injurious effects on children.
3. They are adapted to the delicate, as well as the robust.
4. They destroy the worms, and are also tonics to the bowels.
5. They contain purgative ingredients, and consequently children are not required to take nauseating doses of castor-oil, or other medicines after their use.
6. The worms are often so effectually destroyed that their decomposition is complete before they are evacuated from the bowels.

How the Presence of Worms May be Known.

The symptoms necessarily vary with the kind of worms and their location, but the following in whole or in part are always present:—Itching at the nose; pale lips; at times nausea, or gnawing pain in the stomach and bowels; bad breath; occasional cough; grinding of the teeth, or moaning when asleep; sudden starting from sleep as if frightened; one or both cheeks very red at times; sometimes ravenous desire for food, at others loss of appetite; headache; languor; listless or irritable in temper; bloated stomach or abdomen; irregular or rapid pulse; body feverish; sometimes fainting, convulsive fits, or epilepsy; paleness or wasting of flesh may occur even though the appetite is good.

PRUDENT MOTHERS

Observing the worm symptoms resort at once to these powders and thus prevent the serious impairment of their children's health.

☞ If you have a friend with a Cough or Cold, tell him to try Hagyard's Victoria Balsam. He will thank you for your advice. The price is only 25 cents.

Wives of great men oft remind us
We should pick our wives with care,
So we may not leave behind us
Half our natural crop of hair.

This is to certify that I have used Hagyard's Pectoral Balsam in my family for the past five years, for Coughs and Colds, and can with confidence recommend it for the same.

R. BALLANTYNE,
Agent Guelph Mercury.

When the kidneys fail to do their work the
Victoria Buchu and Uva Ursi will move them
into action.

A pickpocket taken with his hand in some one else's pocket endeavoured to invent all manner of impossible explanations of the phenomenon. "What's the use of your trying to lie about it so clumsily?" said the magistrate, benevolently; "haven't you a lawyer?"

To guard against fits—buy ready-made clothing.

Old Phineas Rice was one of the quaint types of the itinerant Methodist preachers. He had a hard patch to cultivate once, and when he made his report to the Conference following he reported the church "looking up." The Bishop presiding expressed his pleasure, but asked for an explanation, because no one expected success in that parish. Dr. Rice was equal to the occasion, and added, "Well, Bishop, the church is on its back, and can't look any other way." There was a roar of laughter all over the Conference.

VICTORIA

COMPOUND FLUID EXTRACT OF

BUCHU & UVA URSI

Of the numerous medicinal preparations now in general use, few have equalled this preparation in the rapidity with which it has obtained extensive and deserved popularity among medical practitioners and the public generally, and in the wonderful results and decided and unequivocal satisfaction that have followed its use as a **Specific Remedy** in the various affections and diseases of the **Bladder, Kidneys**, and other parts of the **Urinary System**, whether existing in the male or female, adult or child, arising from whatever cause, and of either long or short duration.

The eminent and learned European physician, Dr. RUBINI, for many years was celebrated for his **Wonderful Cures of Disorders in those Organs**. His name was known in every Court of Europe, and Crowded Heads resorted to him for advice. After his death, the Prescription was obtained from his family. Two of the ingredients entering into this celebrated Medicine, viz:—

BUCHU AND UVA URSI.

are now used by all physicians for the cure of such diseases.

The great secret of Dr. RUBINI'S eminent success lay in the combination of these two ingredients with certain other *vegetable* productions: these are all combined in this medicine, which is prepared with the utmost care from his formulae.

In the many DISEASES PECULIAR TO FEMALES, the

Victoria Buchu & Uva Ursi

is unequalled by any other medicine, as in

Green Sickness, Deficient, Painful, Profuse and Irregular Menses, Ulcerated and Weakened Uterus, in Leucorrhœa, or Whites,

and for all the Functional Complaints incidental to the Sex, whether at the period of puberty, the fruitful era, or at the decline or change of life.

It has been found useful in **Uterine Hemorrhage after Delivery**, and is prescribed extensively by the most eminent physicians after **Confinement**, and for enfeebled and delicate constitutions of both sexes, and all ages; it *improves the Digestive Powers and strengthens the Weakened and Debilitated Secretory Organs.*

This medicine, while possessing Diuretic and Diaphoretic properties, is palliative or soothing, allays pain, and possesses healing, tonic, and alterative properties, and hence is peculiarly and especially applicable in those **Urinary Diseases** attended by **Mucous, Bloody and Purulent Discharge**, or where **Micturition is painful**, or when *partial Paralysis is found to exist.*

IN INFLAMED BLADDER AND URETHRA,

resulting from Gonorrhœa, it acts as a palliative in allaying the irritation and pain, and at the same time proves valuable from its tonic property.

PRICE \$1.00 PER BOTTLE.

MILBURN, BENTLEY & PEARSON.

PROPRIETORS, P.O. Box 1035, TORONTO.

VICTORIA

Carbolic Salve.

This remarkable curative and healing SALVE is GREATLY SUPERIOR to all other external applications whatever, as it possesses all the wonderfully **CLEAN-SING** and **HEALING** virtues of **CARBOLIC ACID**, which has been found by the whole Faculty to possess **CURATIVE QUALITIES** not discovered in any other chemical preparation.

This Salve is the most wonderful

HEALING COMPOUND

Ever discovered for the rapid and perfect cure of every description of breach of integument, from a simple scratch or bruise to the most aggravated Ulcer, including

Cuts, Wounds, Bruises, Burns, Scalds, Sore Nipples, Broken Breasts, Fever and Scrofulous Sores, Ulcers of all kinds, Abscesses and Boils, Piles, Pimples, &c., and Chronic Diseases of the Skin of every description.

It quickly allays inflammation and subdues pain, destroys proud flesh, cleanses thoroughly, removes all impurity and suppuration in obstinate sores and wounds, and heals rapidly WITHOUT A SCAR!

It never drives the disease inward to TAKE EFFECT ON THE INTERNAL ORGANS. Its properties, when applied, go directly to the diseased part, attract the virus to the surface, and HEAL THE SORE FROM THE BOTTOM. Its use renders poulticing unnecessary, as the parts affected need only to be carefully washed with Castile or Carbolic Soap and warm water, by a soft sponge, before its application. It should be kept in every household, ready for use at all times.

This Salve is for sale by Druggists everywhere. Price 25 cents per box.

"What are you about?" angrily said a country editor to his wife, who was touching up her complexion before the mirror. "Only getting up my patent outside, dear," was the reply.

"John, did you take the note to Mr. Jones?" "Yes, but I don't think he can read it." "Why so, John?" "Because he is blind, sir. While I was in the room he axed me twice where my hat was, and it was on my head all the time."

The newest thing in socks—a baby.

"Woman is a delusion," said a crusty old bachelor in his sanctum recently. Snodgrass retorted, "Well, man is always hugging some delusion or other."

Every dog has his day, but the nights belong to the cats.

"This," said the dentist, "is my office." "And that?" inquired a visitor, pointing to the apartment where stood the tooth-pulling chair. "Ah, that," replied the proprietor, "that is my drawing room."

One day, Billy, that's my brother, he and Sammy Dobby was playin' by a mud hole, and Billy he said— "Now, Sammy, les play we was a barnyard. You be the pig and lie down and woller, and I'll be a bull and beller like everything." So Sammy got down on his hands and wollerred while Billy bellerred like distant thunder. Bimeby Sammy hecum out muddy. You never seen such a muddy little feller, and he said—"Now you be the pig and let me beller." But Billy he said—"I ain't a very good pig 'fore dinner, and little be time 'nuff for you to beller when yer mother sees yer close."

A little nonsense now and then
Is relished by the wisest men.

"One thing," said an old toper, "was never seen coming through the rye, and that's the kind of whisky one gets now-a-days."

The man who originated the saying, "Hurry is the mark of a weak mind," never was chased by a bull dog.

CHOLERA !

DR. FOWLER'S EXTRACT

OF

WILD

STRAWBERRY

The Leading and Standard
Remedy of the Nine-
teenth Century !

This is the MOST PLEASANT,
RAPID, RELIABLE, and EF-
FECTUAL REMEDY yet dis-
covered for curing

DIARRHŒA,
DYSENTERY,
CHOLERA MORBUS.

Indeed every variety of SUMMER
COMPLAINT and FLUXES,
yield to its influence; nor is its
efficacy alone confined to this train
of complaints, for it is unsurpassed
as a curative agent in

Scur Stomach, Colic, Cramps,
Sea Sickness, Vomiting,

*And other Irritations of the Stomach
and Bowels.*

Thousands of infants die annually in
our midst from Cholera Infantum, Diar-
rhœa, and Summer Complaint, whose
lives might be spared by its timely use.

The value of this medicine as an
antidote in the foregoing diseases, rests
not alone in its ability to cure them,
but in doing so quickly, without any
injury to the system, and at the same
time giving tone and vigour to the en-
tire digestive organs; while from its
stringent properties it checks undue
secretions, and consequently over-action

of the Bowels, Stomach, &c.; it allays
the irritation occasioned thereby, and
at the same time gives new strength
and healthy normal tone to these organs,
and insures the proper amount and
normal character of the secretions.

THE

Extract of Wild Strawberry

Exhibits its most efficacious, specific
and salutary effect upon children, who
are prone to suffer from TEETHING,
COLIC, DIARRHŒA, AND OTHER
FLUXES OF THE BOWELS, from
improper food, such as RAW VEGE-
TABLES, unripe or SOUR FRUIT,
BAD MILK, IMPURE WATER,
CHANGE OF WATER, or where ir-
ritation is brought on by want of proper
digestion of food taken.

General directions on each bottle.
In extra or urgent cases, give the Straw-
berry every fifteen or thirty minutes.

PRICE 37½ CENTS.

VICTORIA BAKING POWDER

FOR RAISING ALL KINDS OF

BREAD, ROLLS, PANCAKES,
CAKES,
PASTRY PIES, &c,

VICTORIA BAKING POWDER !

*Prepared on the Strictest Chemical
Principles, and Guaranteed*

FREE FROM ANY ADULTERATION !

In making Bread with this Powder,
neither alcohol nor acid is formed, and
if it be used according to the directions
it will produce LIGHTER, SWEETER
AND WHITER BREAD than by any
other process.

MANUFACTURED ONLY BY THE

Victoria Chemical Company,
TORONTO, ONT.

Ladies Travelling Alone.

Before starting on a long journey, familiarize yourself with the route, and with the names of good hotels at various stopping places.

Never travel with just enough money, but always carry enough for any possible emergency. This will save much anxiety.

Wear but little jewellery, and keep the larger part of your money in some inside pocket out of sight.

Always look after yourself, and do not allow a stranger to procure your tickets or checks for your baggage.

Avoid, if possible, making changes in cars by night; but when unavoidable, go with others. Do not become separated from the crowd.

If in any doubt as to changing cars, checking baggage, etc., inquire in advance of the conductor.

Under all circumstances endeavour to retain your presence of mind. One who can do this will have no trouble in travelling alone.

A Columbus man says he started thirty years ago to make \$1,400,000. He has got the fourteen, but the others bother him.

A French lady was expecting her third child, asked her first born, a boy of six, whether he would rather have a brother or a sister. After reflecting a moment, he said, "Mamma, I have a little brother already, and if it's all the same to you I would rather have a horse."

FREEMAN'S

WORM POWDERS

Are put up ten powders in a package, each powder containing one dose for a child under three years of age, which makes it one of the cheapest Worm Medicines in use. They are universally admitted to be a safe and certain remedy for all kinds of worms, and are recommended by all who have used them.

DR. FOWLER'S

EXTRACT OF

WILD STRAWBERRY

This is a pleasant, certain, safe and effective remedy for Diarrhoea, Dysentery, Canadian Cholera, Cholera Morbus, Cholera Infantum, or Summer Complaints, Sour Stomach, Gripping Pains, &c.

The successful use of this Valuable Preparation has demonstrated beyond a doubt its great curative properties and superiority as a remedy for the above-named complaints. It is not surpassed by any other preparation. All who use it speak of it in the highest terms.

USE HAGYARD'S

YELLOW OIL

For the following internal and external complaints: Internally for Kidney Diseases, Sore Throat, Cramp in the Stomach, &c.; externally for Sprains, Bruises, Galls, Rheumatism, Neuralgia, Pain in the Sides, Back or Head, Frost Bites, Burns, Scalds, Chilblains, Sore Throat, Rheumatism in the Chest, Stiff Joints, etc., etc.

THE YELLOW OIL

Since first introduced, has been a valuable friend to many persons suffering from the above diseases, and it will be found equally as valuable for Horses and Cattle as it is for the Human Family.

ATTERCLIFFE, May 22, 1878.

Messrs.

MILBURN, BENTLEY & PEARSON.

I have been using your Victoria Hypophosphites for Dyspepsia, Indigestion and Weak Lungs, and find its results very satisfactory, and recommend it to my friends for the same. All that I have heard speak of it, do so in the highest terms.

FRED. WINGER.

Dr. CALDWELL'S

DYSPEPSIA REMEDY

Is a sure cure for Dyspepsia and Liver Complaints, and their effects, such as

Heavy pains in the Stomach, Costiveness, Heart Burn, Indigestion, Water Brash, or Sour Stomach, Disagreeable Taste in the Mouth; it Regulates the Appetite, Relieves Palpitation of the Heart.

It strengthens and invigorates the Digestive organs; a single dose relieves occasional excesses in eating or drinking. It is the best medicine for children troubled with Sour Stomach, and indispensable to such as are feeble and delicate, causing them to grow healthy and strong. Those requiring a medicine for any of the above diseases, or delicate children, will find Dr. Caldwell's Dyspepsia Remedy invaluable. One bottle has cured Dyspepsia of over five years' standing. One dose will cure a SOUR STOMACH and EXCESS IN EATING OR DRINKING. Half a bottle will SWEETEN THE BREATH. It is a positive cure for INDIGESTION and every form of DYSPEPSIA. From ONE to THREE Bottles will cure the worst case. Only 20 or 30 drops for a dose. No change or restriction of diet necessary.

VICTORIA

Hypophosphites!

This famous Vitalizing Medicine acts like magic, rapidly restoring the Strength and Appetite, promoting sound and refreshing Sleep, and imparting Tone, Vigour and Energy to the whole system. For Consumption, Weak Lungs and Chest, and Throat Diseases it is the best and surest Remedy known, and it is unparalleled in its efficacy as a General Nervous Tonic and Blood Agent.

Mr. Pints has four beautiful daughters—just half-gallon of sweet lasses.

Of the 70,250,000 English-speaking people in the world, 17,750,000 are Episcopalians, 14,000,000 Methodists, 13,500,000 Catholics, 10,000,000 Presbyterians, 8,000,000 Baptists, and 7,000,000 Congregationalists.

Hagyard's Royal Yellow Oil cures Rheumatism, no matter of how long standing. It is indeed a messenger of mercy to suffering humanity. As an application in sprains and bruises, it stands pre-eminent.

A robust countryman, meeting a physician, ran to hide himself behind a wall. Being asked the cause, he replied: "It is so long since I have been sick that I am ashamed to look a physician in the face."

It is evident that the earth is feminine from the persistence with which she refuses to tell her age.

As two newly-arrived Irishmen were walking up street in San Francisco, a pavement trap-door opened suddenly, and a Chinese store porter emerged. "Be gorra!" said one of them, "if the haythens haven't got a tunnel ciane through from China, bad luck to them!"

FREEMAN'S Worm Powders never fail to remove worms, and can be given to the most delicate children.

A gentlemen had occasion to correct his daughter, aged four, recently. After it was over, and she had sat awhile, she went to her mother and enquired, "Don't you think it would do papa good to go out of doors."

A good-natured traveller fell asleep in a train a short time ago, and was carried a few miles beyond his destination. "A pretty good joke this, isn't it?" said he to a fellow-passenger. "Yes, but carried a little too far," was the quiet rejoinder.

CERTIFICATES FOR
DR. FOWLER'S
EXTRACT OF
WILD
STRAWBERRY.

'I do not feel Safe without it, when Travelling.'

TORONTO, March 20, 1878.

Messrs. Milburn, Bentley & Pearson.

Gents,—I have had occasion to use Dr. Fowler's Extract of Wild Strawberry in my family a number of times for the past ten years, and can say without hesitation that it has in every case effected a cure in diarrhoea, dysentery, cholera-morbus, etc., and in some cases where the patient has been given up by the best of medical skill, it has been used by me with great success, one bottle often working a cure. In several cases, when I have sent the remedy to my friends in the oil regions of Pennsylvania, its results have been marvellous, particularly in two cases of dysentery, where the patients were considered entirely beyond any help. Both were cured with one bottle only of the Wild Strawberry. I assure you I do not feel safe without it, and as I am travelling a great part of my time, I find it constantly one of the finest things known to allay the unpleasant sensations of sea-sickness or other nauseaousness of the stomach. On one occasion, while in New York, I had the misfortune to have a severe attack of diarrhoea, and to my astonishment could not find any of Dr. Fowler's Extract in the city. I sent to Toronto for it, and received a bottle from you, and used it before finding myself relieved of the complaint. With great respect,

Yours truly, **GEO. B. STOCK,**
Oil Merchant.

A VOICE FROM RED RIVER.

Mr. H. S. WESBROOK, speaking of the benefits received on Red River from the use of Dr. Fowler's Extract of Wild Strawberry, refers to a severe case of cholera-morbus which was relieved in half-an-hour. "I cannot recommend it too highly for those requiring such a medicine."

"I have always found it the same."

Mr. C. J. LADD, of Delaware, Ont., writes: "I have used Dr. Fowler's Extract of Wild Strawberry in my family for many years, and have always found it cure when other remedies failed."

From One who has used it Twenty Years.

TORONTO, Ont., April 25, 1878.

Messrs. M. B. & P.

Gentlemen,—For the past twenty years I have used Dr. Fowler's Extract of Wild Strawberry, whenever suffering from Dysentery or any summer complaint, and have always found it a perfect remedy. I have a lively recollection of the days of boyhood, when, in the season of fruits and flowers, its wonderful virtues in curing all the sudden fluxes of the bowels, to which youngsters are very subject, won from me an admiration that I cannot describe. And time has only added to my admiration of its remarkable qualities. I have used it, and seen it used for a score of years in Canadian cholera, diarrhoea, colic, vomiting, etc., and never knew it to fail. It always cures without injury to the system, and I am pleased to see it universally used throughout the Dominion.

I am, gentlemen, yours faithfully

T. S. EARLE.

"My customers speak very highly of Dr. Fowler's Extract of Wild Strawberry."—C. McRAE, M.P.P., Bolsover.

"Can recommend Dr. Fowler's Extract of Wild Strawberry to the public without hesitation."—A. McLEAN, Riceville.

"Dr. Fowler's Extract of Wild Strawberry is a specific for all summer complaints."—J. A. HOGAN, Woodslee.

"Can recommend Dr. Fowler's Extract of Wild Strawberry as being one of the best remedies known for cholera-morbus and all summer complaints."—D. S. BAIRD, Fitzroy Harbour.

"I have no hesitancy in recommending Dr. Fowler's Extract of Wild Strawberry as the best medicine of the day."—G. W. EARL, St. Catharines.

"Dr. Fowler's Extract of Wild Strawberry continues to give good satisfaction."—R. CORBETT, Druggist, Rosemont.

"I would advise any one suffering from summer complaints to give Dr. Fowler's Extract of Wild Strawberry a fair trial."—CARMAN M. GOULD, M.D., Castleton.

"Dr. Fowler's Extract of Wild Strawberry gives perfect satisfaction."—THOMAS DOUGLAS, Cambay.

"Can recommend Dr. Fowler's Extract of Wild Strawberry with confidence."—JUDGE S. S. PECK, Minden.

"I have great pleasure in recommending Dr. Fowler's Extract of Wild Strawberry."—H. LAISHLEY, Elgin.

"My customers bear high testimony to the virtues of Dr. Fowler's Extract of Wild Strawberry."—T. STEVENSON, Orangeville.

The following are the dates of the opening and closing of the seasons under the game laws:—Deer opens 15th September, closes 16th December—partridge opens 1st October, closes 1st February—woodcock opens 1st August, closes 1st January—snipe opens 15th August, closes 1st May—hares or rabbits opens 1st September, closes 1st March—ducks, black, wood, grey, and teal, opens 1st September, closes 1st January—all other kinds of ducks opens 1st September, closes 1st May.

To make a candle burn all night in a sick room or elsewhere, put finely powdered salt on the candle until it reaches the blackened part of the wick. In this way a mild and steady light may be kept through the night, from a small piece of candle.

The police of New York are being vaccinated. Unless precaution, they never catch anything.

A young gentleman meeting a handsome milk-maid, said—"What will you take for yourself and your milk, my dear?" The girl instantly replied, "Yourself and a gold ring, sir."

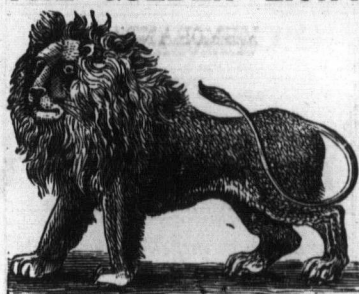

HAGYARD'S PECTORAL BALSAM.—The most efficacious remedy ever discovered in almost all cases of consumption, coughs, colds, asthma, shortness of breath, bronchitis, croup, and all diseases of the lungs.

"My son," said an old lady, "how must Jonah have felt when the whale swallowed him?" "Down in the mouth," was the young hopeful's reply.

A cubic inch of gold is worth \$210—a cubic foot, \$62,880—a cubic yard, \$9,797,762. This is valuing it at \$18 an ounce. At the commencement of the Christian era there was then in the world \$427,000,000 in gold. This had diminished to \$67,000,000 at the time America was discovered. Then it began to increase. Now the amount of gold in use is estimated to be \$6,000,000,000. Yet all this welded into one mass would be contained in a cube of twenty-six feet.

What is that which lives in the winter, dies in summer, and always grows with its root upwards?—An icicle.

DR. BOYER'S GALVANIC FLUID

IS COMPOSED OF

IODINE AND AMMONIA,

Combined with Essential Oils,

PRODUCING

ELECTRICITY,

And is one of the most powerful Ex-
ternal Remedies in the world for the
cure of

Rheumatism, Lumbago, Neuralgia,
Bruises, Sprains, Swellings, Frost
Bites, Chilblains, Stiff Joints,
Chapped Hands, Headache,
and Pain in the Back, Shoul-
der, Breast, Side, and there
is not a Sprain, Bruise or
Pain it will not relieve
OR CURE!

FOR EXTERNAL USE ONLY.

THE ELECTRIC OR Galvanic Fluid

Is one of the most powerful elements in nature. Electricity, one of its principal ingredients, is so omnipotent an agent that it will not only decompose water, neutralize the acids and alkalies, change venous blood into arterial, and polarize and dissolve metals; but such are its wonderful powers of penetration that it will enter the system and quiet every pain, when guided by the hand of science and experience. Although the ancients discovered the existence of electric-ity, it appears that they were not sufficiently acquainted with its nature to enable them to apply it to any useful purpose. It was left for FRANKLIN to capture it, MORSE to har-ness it, and BOYER to bottle it. Dr. Boyer by long and patient perseverance, succeeded by the combination of essential oils to ac-complish this end. Dr. Boyer's Gal-
vanic Fluid acts with lightning rapidity in curing Rheumatism, Lamé Back, Pain in the Side, Shoulder or Head; a few applica-tions have a magical effect. Sore Throat, Frost Bites, Sprains, Bruises, Swellings, &c., have been cured by a single application. There are thousands cured annually. Many of the most learned and experienced physi-cians admit **DR. BOYER'S GALVANIC FLUID** has no equal for the relief of pains and aches.

NOTE.—Each bottle has a rub-ber cork which should be kept
in the bottle when not in use.

An Irishman who had on a very ragged coat was asked of what stuff it was made. "Bedad, I don't know: I think the most of it is made of fresh air."

"I cannot imagine," said an alderman, "why my whiskers should turn gray so much sooner than the hair on my head." "Because," observed a wag, "you have worked so much harder with your jaws than with your brain."

Jones, who is engaged to a heiress, calls her Economy, because she's the road to wealth.

CUTS, BRUISES, SPRAINS AND SWELLINGS are so common, and certain to occur in every family, that a bottle of Royal Yellow Oil is the best investment that can be made. It is more certain than the doctor—it saves time in sending for a doctor—it is cheaper than the doctor, and should never be dispensed with.

Speaking of cheap things—It costs but little to get a wife, but does not she sometimes turn out a little dear.

The witty Duke of Wharton having introduced a Scripture story into one of his speeches in the House of Lords, was asked by a right reverend prelate when he should have done preaching. "When I am made a bishop, my Lord," was the sarcastic reply.

Why are pretty girls like oat-meal cake? Because they are apt to give the heart-burn.

Why are birds like farmers? Because they depend on their crops for support.

Why are real friends like ghosts? Because they are often heard of but seldom seen.

Why does the minister have more wives than any one else? Because he often marries a couple at a time.

A grocer had a pound of sugar returned with this note: "Too much sand for table use, and not enough for table purposes."

At an evening party a country girl declined frosted cake, because she thought it might give her a cold.

67/8.

DIRECTIONS FOR USING HAGYARD'S ROYAL PAIN REMEDY.

— O —
The great Household Panacea for sudden attack of
Sickness caused by Exposure or changes
of Climate.
— O —

For Cramps, Colic, Diarrhoea, Pain in the Stomach, Summer Complaint and Cholera Morbus, take a teaspoonful or more of the Pain Remedy in milk or hot water sweetened, every half hour or oftener if required. And, in severe cases bathing the stomach and bowels freely with the medicine, laid on warm with flannel. Keep the flannel moist with the medicine diluted. The Pain Remedy may often be given with castor oil in such cases with good effect.

Nervous Headache, bathe the head and temples freely until the pain ceases.

For Sick Headache and Sea Sickness, take a teaspoonful of the Pain Remedy in a wine glass of milk or hot water sweetened with loaf sugar, every hour, and apply as for nervous headache, till relieved.

For Sore Throat, take one teaspoonful of Remedy in a little milk, gargle and swallow, and bathe outside.

For Cancer in the Mouth, Throat and Stomach, or for a wash for the mouth and a gargle for the throat, make a strong mixture of the Pain Remedy in milk or water, sweetened with loaf sugar, three times a day. Gargle and swallow as for sore throat.

For Rheumatism, Neuralgia, and Spinal Affection, bathe freely until the pain is all gone, then apply it morning and night for a week, taking the Pain Remedy inwardly on going to bed, and use Hagyard's Pills, say twice a week.

Fever and Ague, or Chill Fever, take from one to three teaspoonfuls of the Pain Remedy in about quarter of a pint of hot water or milk, well sweetened with molasses nine, six and three hours before the attack is coming on, bathing freely the chest, back and bowels with the Pain Remedy pure, one hour before the attack comes on. Should the stomach be foul, take Hagyard's Pills before using the Pain Remedy

For Scalds, Burns, Frost Bites, Chilblains, Galls, Bites of Dogs, Sprains, Bruises, &c. In using the Pain Remedy you will be guided by the severity of the case. Where the patient cannot bear it pure, dilute with water and apply saturating cotton with it, keeping the wounded parts covered with a cloth moistened with the Pain Remedy diluted. It might also be well to take the medicine internally.

Influenza or common Coughs and Colds, &c., take one teaspoonful of the Pain Remedy in half a glass of hot water or milk sweetened with molasses or sugar, four times a day before meals, and on going to bed bathe the chest and throat freely with the Remedy night and morning, and inhale it from the hands. Repeat the treatment till relieved.

ASTHMA, same as for coughs, &c., repeating the doses every hour until relief is obtained.

For Dyspepsia, take one teaspoonful of the Pain Remedy in milk or water sweetened, immediately after each meal. Let your diet be nourishing, but taken at regular intervals; being careful not to overload the stomach at any time, nor to eat too soon after severe exercise.

For Liver Complaint, take a teaspoonful of the Pain Remedy in sugar and water, or milk, three times a day, bathing the left side and between the shoulders well with the medicine, at least twice a day. At the same time use Hagyard's Pills. Spikenard, steeped in cold water, will be found useful as a common beverage while taking the Pain Remedy for this disease.

For Toothache and Earache, insert Cotton wool saturated with the Remedy, apply it to the gums and cheek and ear externally, and as a toothwash the Remedy mixed with water is the best preventative of decay, and also sweetens the breath.

There are cases where the Pain Remedy can be used with great benefit—such as Diphtheria, Kidney Complaints, Pleurisy, use as for Colic and Cramps, Deafness, Piles, sudden Colds, Chill Fevers. Many of these are cured in ten minutes by the judicious and timely use of Hagyard's Pain Remedy.

GENERAL DIRECTIONS

pasted on each bottle, and may be varied according to the constitution and severity of the case.

What his Father Rode.

A teacher in one of the Westfield (Mass.) public schools was startled the other day at the answer she got from one bright little fellow.

On the blackboard was the picture of an ostrich, and the teacher described its great strength and power of endurance, closing by saying it was the only bird upon which a man could ride.

"I know another," spoke up a little chap.

"Well, what is it?"

"A lark."

Unsuspectingly the teacher asked, "How can you prove that, Johnny?"

"All that I know about it is, that mother every little while says father's off on a lark, and when he comes home he looks as if he had rode awful fast."

"Here, you young rascal, walk up and give an account of yourself. Where have you been?" "After the girls, father." "Did you ever know me to do so when I was a boy?" "No, sir, but mother did."

"How came these holes in your elbows?" said the widow Smith to the irrepressible small boy. "Oh, mother, I hid behind the sofa when little Jack Horner was sayin' to our Jule that he'd take her, even if you had to be thrown in; and he didn't know I was there, and so I held in and laughed in my sleeves till I bust 'em."

"How had you the audacity, John," asked a Scottish laird of his servant, "to go and tell some people that I was a mean fellow, and no gentleman?" "Na, na, sir," was the candid answer, "you'll no catch me at the like o' that. I aye keep my thochts to myself."

CHILLBLAINS AND FROST BITES.—A few applications of Hagyard's Royal Yellow Oil is a sure cure.

A rather gaily-dressed young lady asked her Sunday-school class "What was meant by the pomps and vanities of the world?" The answer was honest, but rather unexpected.—"Them flowers on your hat." That was a sermon on "top-knot come down."

Madder Red.—No 1.

Take one lb. madder for every 2 lbs. yarn or cloth; soak the madder in a brass or copper kettle one night in warm water, enough to cover the yarn you wish to colour; next morning put in 2 ozs. madder compound for every 1 lb. of madder you have so soaked, then wet your yarn or cloth in clean water and wring it out; afterwards put in the dye; now put the kettle on the fire, and bring it slowly to a scalding heat, which will take about half an hour if a light red is wanted, and longer if a dark one, the colour depending upon the time it remains in the dye. When the colour is made, rinse the cloth immediately in cold water, and it will then be finished.

Wine Colour.

1 lb. of wool—redwood, $\frac{1}{2}$ lb.; madder compound, 1 oz. Soak the powdered wool in warm water all night, mix the madder compound with about half a pint of water [in a glass] and add it to the rest; rinse the wool in warm water and put in the dye, boil about half an hour, take out the wool and rinse in cold water.

Pale Pink.

1 lb. wool or cloth, $\frac{1}{2}$ lb. good redwood, and $\frac{1}{4}$ lb. of alum. Soak the wool all night in warm water, add the alum, and boil the clothes with these ingredients for about an hour; take it out and rinse it in water. A cheaper yet handsome pink may be obtained by substituting nickwood for madder, in the receipt for madder red.

Yellow.

For each lb. of wool or cloth, fustic 1 lb., alum, 1 lb.; put all in an earthen vessel and pour on sufficient hot water to cover the wool, and keep it warm all night; give it half an hour's boil in a brass kettle, and then rinse in cold water. A much deeper and richer yellow may be made by using turmeric powder instead of fustic, and proceeding in the same manner.

Green.

For each lb. of goods, fustic, 1 lb., with alum $3\frac{1}{2}$ ozs.; steep, but do not boil until the strength is out, and soak the goods therein until a good yellow is obtained; then remove the chips, and add extract of indigo of chemic, one tablespoonful at a time until the colour suits.

Blue.

For 2 lbs. goods, alum, 5 ozs.; cream of tartar, 3 ozs.; boil the goods in this for one hour; then throw the goods into warm water, which has more or less of the extract of indigo in it, according to the depth of colour desired, and boil again until it suits, adding more of the blue if needed. It is quick and permanent.

Brown.

For each lb. of wool, alum, $\frac{1}{2}$ lb.; cream of tartar, 2 ozs.; boil for half an hour; soak for one night in sufficient warm water to

cover the wool. Red powder, $\frac{1}{2}$ pound; fustic, $\frac{1}{2}$ pound; and logwood, 2 ozs.; then take the wood out of the alum water and boil with the wool for half an hour. If a dark brown is wanted, add about a tablespoonful of copperas.

Orange.

For 5 lbs. of goods, muriate of tin, 6 table-spoonfuls; argol, 4 ozs.; boil and dip one hour; then add to the dye, fustic, $2\frac{1}{2}$ lbs.; boil ten minutes and dip half an hour, and add again to the dye, madder, one teacupful; dip again half an hour.

N.B.—Cochineal in place of madder makes a much brighter colour, which should be added in small quantities until pleased. About 2 ozs.

Purple.

For 5 lbs. of goods, cream of tartar, 4 ozs.; cochineal well pulverized, 2 ozs.; muriate of tin, $\frac{1}{2}$ teacup. Boil the cream of tartar, alum and tin 15 minutes, and then put in the cochineal and boil 5 minutes; dip the goods 2 hours; then make a new dye with alum, 4 ozs.; Brazil wood, 6 ozs.; logwood, 14 ozs.; muriate of tin, 1 teacup, with a little chemic, work again until pleased.

MRS. FREEMAN'S NEW DOMESTIC DYES IN POWDER,

Sufficient in each Package for 2 or 5 lbs.
of Silk, Wool, or Cotton Goods.

These Dyes will be found superior to the old process, and cost less. The process being so clean and simple there appears no reason why every lady should not be her own dyer. By beginning her experiment on a ribbon or feather in a basin of boiling hot water, afterwards to larger articles of dress, carpet rags, &c. The STRENGTH, BRIGHTNESS, and DURABILITY of the colours they produce recommend them to every family in the Dominion of Canada and they are largely sold in the United States.

Full directions accompanying each package.

Mary and Jenny, two country lasses, were discussing their new minister. "D'ye ken what he puts me in mind o'?" said Mary; and then archly answered, "Just o' a kiss frae a body ye dinna like."

ONE THING SURE.—Hagyard's Sugar-Coated Pills never gripe nor sicken, and that their operation strengthens the system.

A Tipperary man the other morning hailed a fellow-labourer with, "So ye've got a baby at yer house. What is it—a boy or a girl?" "Guess." "It's a boy." "No." "Well, then, it's a girl." "Faith," said the delighted father, "somebody's been telling ye!"

Standing before a fruitstand, a gamin said—"Hollo! old fellow, how much for your oranges!" "Twenty cents a dozen, sonny." "Do you throw the thirteenth into the bargain?" "Yes, my lad." "Well, give me the thirteenth to-day and I will buy the dozen of you to-morrow."

Use Hagyard's Royal Yellow Oil for cuts, bruises, sprains and swellings.

A member of the rhetorical class in a certain college had just finished his declamation, when the Professor said—"Mr. — do you suppose a general would address his soldiers in the manner you spoke that piece?" "Yes, sir, I do," was the reply, "if he was half scared to death."

The fellow who dropped into a chair containing a tack has been uneasy ever since, and now sits down on the instalment plan.

Quack—"So you prefer my medicines to those of Dr. Pillsbury?" Miss Mulligan—"Och, indeed, docther, dear, ye're a dale better than the other ould humbug."

"Don't show my letters," wrote a young man to a young lady whom he adored. "Don't be afraid," was the reply: "I'm as much ashamed of them as you are."

HAGYARD'S YELLOW OIL

Is Superior to anything else

For the quick and permanent cure of Rheumatism, Neuralgia, Lumbago, Spinal and Bronchial Complaints, Deafness, Head-ache, Ear-ache, Cramps, Sprains, Bruises, Galls, Stiff Joints, Swelled Hands, Sore Nipples, Stiff Neck, Chilblains, Tetters, Frost Bites, Chapped Hands, Cuts, Wounds, or any diseases that are painful or sore.

It is the only article ever brought before the public that will do its work perfectly; has been used by thousands, and pronounced to be the best remedy for relieving pain ever discovered.

EVERY BOTTLE GUARANTEED TO GIVE SATISFACTION. OR MONEY REFUNDED.

15 BEECH STREET, TORONTO,
March 14th, 1878.

This is to certify that my son, aged 9 years, met with a serious accident by having one of his feet run over by a Grand Trunk express train, and it was supposed amputation would have to be performed. We had two doctors attending him for some days, without any perceptible improvement. I was then induced to try Hagyard's Yellow Oil, which reduced the pain after a few applications. To my surprise we could discover a decided improvement from the first few applications. As soon as we saw this improvement we discontinued the doctors' prescriptions, and the lacerated foot continued to mend until, I am free to say, my boy was well in as many weeks as we expected it would take months, not taking into consideration the amount of pain he was relieved from. He is now as well as could be expected, after having his heel and ankle so badly crushed, and is free from stiffness of the joint, which the doctors said could scarcely be avoided.

JOHN SPINKS.

FOR SALE BY ALL DEALERS.

RHAGYARD'S YELLOW OIL combines in such an eminent degree all the healing, curative, and extracting qualities known to medical science, that it is truly a family medicine that cannot be dispensed with. When applied to any swelling, sore, burn, chilblain, frosted part, skin eruption, etc., its effects are magical. It is highly esteemed wherever known, and its enormous sale annually is the best certificate of its merits.

DR. ABERNETHY,

Notwithstanding his abrupt and eccentric manners, was considered one of the most skillful physicians that ever adorned the noble profession of medicine. His experience, derived from the most extensive practice in London, England, together with his very superior natural talents, place him at the head of the faculty. It has always been difficult to form a combination with which to expel worms from the human system, irrespective of the kind. Abernethy overcame this difficulty when he discovered the formula from which the

VERMIFUGE CANDY

Is prepared. Whether worms exist or not, the Candy will at all times be found beneficial when a purgative medicine is required. Other candies contain no purgative, and therefore require the administration of Castor Oil, Senna, or other disagreeable cathartics, which most children dislike.

Dr. Abernethy's Worm-Killer

obviates this difficulty, as it contains the necessary purgative within itself. When taken according to directions, which accompany each box, the

ROYAL WORM-KILLER OR VERMIFUGE CANDY

Is certain to expel worms where they exist, when all other remedies have failed.

Our food furnishes material for the growth and nourishment of the body by absorption and assimilation. Thousands of people have a poor appetite and a delicate digestive system, and food becomes almost repulsive to them. When in this state, nothing will so soon improve the appetite, restore vitality to the blood, and strength and energy to the entire system as VICTORIA COMPOUND SYRUP OF HYPOPHOSPHITES.

HAGYARD'S ROYAL YELLOW OIL, as a cure for Rheumatism, both acute and chronic, has no equal; its effects are truly astonishing. We have had some hundreds of cases through our hands, all of which we treated with the Yellow Oil, and in nine cases out of ten it has effected a complete cure.

HAGYARD'S PECTORAL BALSAM

Is recommended with confidence for the cure of

**Coughs, Bronchitis, Colds,
Wasting of the Flesh,
Hoarseness, Night Sweats,
Asthma, Spitting of Blood,
Croup, Whooping Cough,
Influenza, &c., &c.**

Which require prompt treatment, the neglect of
which is in most cases the cause of

Consumption, Decline,

—AND—

PULMONARY AFFECTIONS.

When the disease has not made too much progress,
it can be entirely cured, and for this purpose
no better medicine can be used than

**HAGYARD'S
PECTORAL BALSAM.**

Full Directions accompany each
Bottle.

ANTHELMINTIC

WORM POWDERS.

WILL DESTROY THE WORMS AND RESTORE
THE PATIENT TO HIS NATURAL HEALTH,
by using them according to directions accompanying
each package. Although the child or adult,
as the case may be, do not pass the worms so that
you may see them, nevertheless, by the judicious
use of the WORM POWDERS, you will find a great
change in their health; and as they are perfectly
harmless in their effect upon the system, the mother
should not fail to use them when there is the least
suspicion of worms; and should worms not exist,
the WORM POWDERS will be found beneficial as
a purgative medicine. They are pleasant to take,
and are highly recommended by persons who have
used them, and can testify to the great good they
have done.

RECEIPTS FOR DYEING

General Instructions.

It is absolutely necessary that every article to be
dyed, as well as every utensil to be used in dyeing,
should be perfectly clean.

Every article to be dyed should be thoroughly
scoured in soap and well rinsed out. In order to
secure uniformity in colour, and to avoid spots on
wool, yarn or fabrics, it is desirable that every ar-
ticle should be dipped in warm water, just before
putting into the dye bath.

In all cases soft water should be used, and in
quantity sufficient to cover the articles completely.

As soon as an article is dyed, it should be aired a
little, then well rinsed out, and afterwards hung up
to dry, but not wrung out.

In putting dresses and shawls out to dry that
have been dyed, they should be hung up by the
edge, so as to dry evenly.

To Dye Black.

On wool, silk or cotton. For every lb. of cloth
or yarn, it will require one oz. of the extract of log-
wood and half an oz. of blue vitriol. Prepare an
iron kettle with a sufficient quantity of soft water,
to prevent the cloth or yarn from being crowded,
bring the water to a scalding heat, then put in the
yarn or cloth, and when thoroughly wet take it out
and let it drain; then add the blue vitriol, and when
dissolved and the water carefully skimmed, put in
the material to be coloured, and let it remain half
an hour at a scalding heat, airing it occasionally,
then take it out and rinse it in soft water; empty
the vitriol water into another ve-sel, and dissolve
the extract of logwood in a sufficient quantity of
water brought to a scalding heat and skimmed; put
in the cloth, keeping the dye at the same tempera-
ture, and let it remain half an hour, airing it fre-
quently; then take it out and drain it, and add the
vitriol water to the dye; put it in again, and let it
remain fifteen minutes, airing it as before; cleanse
it in soft water and let it drain and dry.

Bright Pink.

Two ozs. of cochineal, $\frac{1}{2}$ oz. cream of tartar; steep
the cochineal in warm water sufficient to cover the
cloth for two hours, or until the strength is entirely
extracted, and add the cream of tartar; then wet
the cloth in clean water, wring it out and put it in
the dye; bring it to a scalding heat; let it remain
a few moments and it will be finished. This will
colour 3 lbs. If a light colour is wanted, use less
cochineal, if a darker, more; the shade depends
upon the quantity of the cochineal used.

Scarlet.—No. 2.

Take soft water sufficient to cover the cloth or
yarn you wish to colour, bring it to a boiling heat,
in a copper kettle, then add $\frac{1}{2}$ oz. cream of tartar
for every pound of cloth; now boil a minute or two,
and then add 2 ozs. of powdered lac, and 3 ozs. of
madder compound (the lac and the compound must
be previously mixed in an earthen bowl), boil five
minutes; now wet the yarn in warm water and
wring it, and put it in the dye; then boil the whole
nearly an hour, take the cloth or yarn out, and
rinse it in clean cold water.

Scarlet.—(Very Superior).

One-and-a-half ounce of cochineal, 1 oz. cream of
tartar, and $\frac{1}{2}$ oz. sol. of tin; powder the cochineal
and rub it through a bag into blood-warm water
sufficient to cover the yarn; when it is a little warm
put in the cream of tartar and simmer, then add the
solution of tin. Your yarn must be wet with clean
water; steep in the dye until the yarn is properly
dyed. Dye your yarn before you wash it. This will
colour one pound.

HAGYARD'S CONDITION POWDERS

For Horses, Cattle, Sheep, Pigs, &c.

AS A BLOOD PURIFIER THEY HAVE NO EQUAL.

They regulate and

Keep the Stomach in a Healthy Condition.

They act on the Diseases of the

URINARY ORGANS,
DIGESTIVE FUNCTIONS,
RESPIRATORY ORGANS,
AIR PASSAGES,
BROKEN WIND,
HEAVES.

And almost every disease horses are liable to. If used in the Fall and Spring would prevent a great deal of sickness and improve the stock. First-class breeders throughout Ontario recommend them.

HAGYARD'S CONDITION POWDERS will be found a perfect Tonic and restorer after attacks of any acute disease, such as Influenza, Inflammation of the Lungs, Distemper, &c., as they purify the blood and sinous fluids, causing health to return. Every person owning stock of Horses, Cattle, Sheep, Pigs, &c., should always use this Medicine. It is always beneficial, and so harmless that it can be given at any season of the year with impunity. Price 25c. per package, or 5 for \$1.

HAGYARD'S ROYAL BLACK OIL.

A WELL-KNOWN AND EXCELLENT STIMULATING
LINIMENT FOR MAN AND BEAST.

The proprietors have numerous testimonials as to the superiority of this Oil over other Black Oils now in use, for the cure of Rheumatism, Sprains, Bruises, Wounds, Cuts, Corks, Saddle-Galls, Burns, Sweeney, Curbs, etc.

DR. A. E. FIFE'S Vegetable Worm Lozenges.

This Preparation should be used in preference to all others, since they are PURELY VEGETABLE—so mild in their action that THE MOST DELICATE CHILD MAY TAKE THEM WITH BENEFIT. The unexampled success that has attended the use of these Lozenges in every case where the patient is really affected with WORMS, renders them worthy the attention of all. The inventor made it a point to ascertain the result of their use in such cases as came under his observation, and has invariably found that THEY PRODUCE THE MOST SALUTARY EFFECT. Certificates might be produced from persons using them, if necessary, but we believe that, since they are prepared after the most approved plan of compounding medicines, and are so highly esteemed by the profession, no intelligent person will fail to try them where any symptoms of worms appear. ALL WE DESIRE IS A TRIAL, feeling confident that, once used, their superiority will be at once acknowledged. Much sickness, undoubtedly, with children, attributed to other causes, is occasioned by Worms. PARENTS, GUARDIANS AND OTHERS having the care of children, cannot attend too closely to symptoms, as neglect often causes prolonged sickness. Some of the symptoms are General Languor, Peevishness, Irregular Appetite, Sallow Complexion, Pale about the Eyes and Mouth, Itching of the Nose, Foul Breath, Gnawing Pains at the Stomach, Crying out in Sleep, Sudden Starting, Grinding the Teeth, &c., &c.

HOUSEHOLD RECEIPTS.

HONEY CAKE.—One cupful honey, one and one-half cupfuls sugar, one of butter, five of flour, three of eggs, one teaspoonful soda.

SNOWDRIFT CAKE.—Three cups of flour, two cups of sugar, half cup of butter, one cup sweet milk, whites of five eggs, and two and one-half teaspoons of baking-powder.

CORK CAKE.—Five cups of sifted flour, three cups of sugar, two cups of butter, one cup of milk, four eggs, and one teaspoonful of saleratus.

JELLY CAKE.—One cup of sugar, two-thirds cup of cream, one-half teaspoonful of soda, two eggs, one teaspoonful cream-tartar. This amount will make six thin cakes, between which spread jelly to suit the taste.

CRAMP.—To keep off cramp in the legs tie a piece of yarn two or three double just below the knee. Try it, ye sufferers.

NUT TAFFY.—Three pounds of sugar, two cups of water, two tablespoons of vinegar, a piece of butter the size of an egg, with nuts as desired. Do not stir while cooking; pour into a dish to cool.

GRAHAM BREAD.—Three pints of Graham flour, one and a half pints of white flour, one-half pint of molasses, a little salt, one cupful yeast. Mix rather wet with a spoon.

HOUSEHOLD RECEIPTS.

PICKLE FOR PRESERVING EGGS.—Mix one gallon water, one pint of Liverpool or rock salt, half pound of unslacked lime, and half of cream of tartar. Stir until all are dissolved, and let stand two or three days before putting eggs in.

RAISINS are rendered quite digestible if boiled or steamed before using them.

MAPLE SYRUP.—One pound of maple sugar, two pounds of white sugar, dissolved in sufficient water, and boil five or ten minutes.

REMARKABLE cures of serious, long-standing Rheumatism have been effected by Haggard's Yellow Oil.

PIE CRUST.—One cupful lard, one cupful butter, one cupful cold water, four cupfuls flour.

GRAHAM GEMS.—Mix your Graham flour in a thick batter with warm water; a tablespoonful of lard to about a quart of water; one-half a cupful of molasses with one-half teaspoonful of soda beaten in; stir the mixture briskly, put it in a hot pan, and bake in a very hot oven.

Has no equal for the permanent cure of
**Coughs, Colds, Sore Throat, Asthma,
Croup, Whooping Cough, Bron-
chitis, and all Lung
Diseases.**

Every bottle guaranteed to give satisfaction.

RATES OF POSTAGE.

Postage on all matter transmissible by post—within Canada—to Prince Edward Island, Newfoundland, Great Britain, &c., &c.

Letter Rates.

Between places within the Dominion.....	3 cts. per ½ oz.
Between Canada and the United States.....	3 do. do.
Between Canada and Newfoundland.....	6 do. do.
Between Canada and the United Kingdom.....	5 do. do.

Pre-payment should, in all cases, be made by Postage Stamp.

Registration Fees.

Within the Dominion.....	2 cts. each letter.
To the United States.....	5 do. do.
To Newfoundland.....	2 do. do.
To the United Kingdom.....	8 do. do.

These Registration Fees are, of course, in addition to the Postage.

Newspaper Rates.

Between places in the Dominion, publishers prepay their edition in bulk, at the rate of one cent for each pound weight; no further charge on delivery. Transient newspapers within the Dominion, to the United States and to Newfoundland, 1c. per 4 oz., and to Great Britain 2c. each.

On Canadian Periodicals.

From office of publication, or from news-agencies, for places in the Dominion, to the United States or to Newfoundland, the postage rate is the same as for Newspapers, i.e., 1c. per lb.; when paid by the bulk weight, Transient Periodicals, 1c. per 4 oz.

Periodicals and Books for United Kingdom.

Are subject to the British Book Rates, namely:—

Under 1 oz.....	2c.
Between 1 oz. and 2 oz.....	4c.
Do. 2 oz. and 4 oz.....	6c.
Do. 4 oz. and 8 oz.....	12c.

And so on, the scale progressing by a rate of 6c. for every 4 oz.

Local or "Drop" Letters and Postal Cards.

1c. per ½ oz., to be prepaid.

Canadian Postal Cards of 1c. each, circulate within the Dominion, Newfoundland, and United States.

Miscellaneous Postal Matter.

On Books, Pamphlets, Occasional Publications, Printed Circulars, Prices Current, Hand-bills, Book and Newspaper Manuscript, Printer's Proof Sheets, Maps, Prints, Drawings, Engravings, Lithographs, Photographs, Sheet Music, Documents, wholly or partly printed or written, such as Deeds, Insurance Policies, Militia and School Returns, or other documents of like nature, Packages of Seeds, Cuttings, Bulbs, &c., Patterns or Samples of Goods or Merchandise, when posted in Canada, for any place in Canada, the rate is 1c. per 4 oz. in weight, to be prepaid by stamp.

Miscellaneous matter as above specified, for the United States or Newfoundland, may also be forwarded on prepayment of the 1c. per 4 oz. rate, with the exception of packets of samples and patterns of merchandise addressed to the United States, on which a special rate of 10c. has to be prepaid, which must not exceed 8 oz.

WEIGHTS AND MEASURES.

The provisions of the present law, as to the weights of a bushel of the undermentioned articles, namely:—Wheat, Indian Corn, Rye, Peas, Barley, Oats, Beans, Clover Seed, Timothy Seed, Buckwheat, Flax Seed, Hemp Seed, Blue Grass Seed, Castor Beans, Potatoes, Turnips, Carrots, Parsnips, Beets, Onions, Salt, Dried Apples, Dried Peaches and Malt, when bought or sold by weight, is specified by the cental and parts of a cental or 100 lbs.

QUANTITY OF SEEDS USUALLY SOWN TO THE ACRE.

Tomatoes, for transplanting in beds	1 lb

VALUABLE TABLE.—The following table will be found valuable to many of our readers:—

- A box 16½ x 16 in. sq. and 8 in. deep, will contain 1 bush.
- A box 12 x 10 in. sq. and 9 in. deep, will contain ½ bush.
- A box 8 x 8 in. sq. and 8½ in. deep, will contain 1 peck.
- A box 8 x 7 in. sq. and 4½ in. deep, will contain ½ peck.
- A box 7 x 7 in. sq. and 4½ in. deep, will contain 1 gallon.
- A box 5 x 5 in. sq. and 4½ in. deep, will contain ½ gallon.
- A box 4 x 4 in. sq. and 3½ in. deep, will contain 1 quart.
- A box 3 x 3 in. sq. and 3½ in. deep, will contain 1 pint.

A SINGLE TRIAL of Hagar's Royal Pectoral Balsam never yet failed to relieve Coughs, Colds, and Bronchitis. It strikes right at the seat of the diseases, and scatters it almost instantly. Try it once, and you will never be without it. Price 25 cents, and sold everywhere.

HAGYARD'S PILLS

ANTIBILIOUS and CATHARTIC,
SUGAR-COATED,

FOR

LIVER COMPLAINTS, GOUT,

JAUNDICE, DYSPEPSIA, RHEUMATISM.

AFFECTIONS OF THE BLADDER
AND KIDNEYS,

FEVERS, NERVOUSNESS, ERYSIPELAS,

DISEASES OF THE SKIN,

IMPURITY OF THE BLOOD,

INFLAMMATION, MELANCHOLY,

SICK-HEADACHE, COSTIVENESS,

Pains in the Head, Breast, Side.

Back and Limbs,

BILIOUS AFFECTIONS,

FEMALE DISEASES, &c.

There is scarcely any disease in which purgatives and medicines are not more or less required, and much sickness and suffering might be prevented were they more generally used. No person can feel well while a costive habit of body prevails; besides, it soon generates serious and often fatal diseases which might have been avoided by a timely and judicious use of proper Cathartic Medicines.

The proprietors can recommend Hagar's Pills with the utmost confidence, believing them far superior to those in general use; being more mild, prompt, safe, and uniform in their operation.

THEY ACT DIRECTLY ON THE BLOOD, AND ARE MILD IN THEIR OPERATION.

Age will not impair them, as they are so combined as always to dissolve in the stomach.

In small doses they are alterative and gently laxative; but in large doses they are actively cathartic, cleansing the whole alimentary canal from all putrid, irritating and fecal matters, and producing healthy secretions of the stomach, liver, and the various other organs of the body.

HAGYARD'S SPICE

FOR

Horses, Cattle, Sheep & Pigs,

AND ALL KINDS OF FARM STOCK.

Will be found invaluable at all seasons of the year, when change of season requires change of diet, and the great object is to assist digestion, improve the appetite, and give a healthy tone to the stomach, invigorating the whole system, thereby assisting nature to throw off any disease that may exist, causing new blood to flow and the animal to thrive in much less time than it otherwise would. Animals will fatten with less expense, although fed on the same quality and quantity of food. It is also valuable for **Milch Cows and Calves.**

FREEMAN'S STOVEPIPE VARNISH.

Highly recommended by all who have used it not only for its brilliant and durable black polish, but for its being

INODOROUS,

And warranted to be the quickest dryer now in use for STOVE-PIPES, MANTELPIECES, TIN-WARE, IRON OR WOODWORK.

VICTORIA CARBOLIZED Glycerine Jelly.

The Ladies' Favourite.

For beautifying the complexion, and for removing Tan, Sunburn, Freckles, Pimples, &c., also for Chapped Hands, Chilblains, Frost Bites, and Sore Lips.

VICTORIA SULPHUR SOAP. Largely composed of pure sulphur; contains all the virtues, so much extolled, of the Sulphur Bath itself.

VICTORIA CARBOLIC SOAP. Highly appreciated for hygienic and toilet purposes.

DR. WILSON'S MAGNETIC OINTMENT,

FOR THE CURE OF

Weak, Sore and Inflamed
Eyes, Scrofula, Fever Sores,
Salt Rheum, Piles, Broken
Breasts, Sore Nipples, Cuts,
Bruises, Burns, Scalds, and
all Cutaneous Diseases.

IT IS USED EXTENSIVELY FOR

Croup, Shortness of Breath,
Sore Throat, Hoarse-
ness, &c.

DR. WILSON'S MAGNETIC OINTMENT is composed of valuable Gums, Resins and Extracts, all being pure, and having a special reference to their virtues and peculiar powers in subduing Pain and Inflammation. It stands pre-eminently at the head of all the Ointments, as it never drives the disease to take effect on the internal organs. Its properties when applied, go directly to the diseased parts, and as it passes into the circulation, it separates all the poisonous and corrupt humours, and attracts them through the perspiring vessels to the surface, and in that way entirely eradicates the disease from the system. In curing SCROFULOUS SORES it has no parallel, having perfectly eradicated this horrible yet common disease after every other remedy has been used in vain. It is simply asked that the afflicted will try one bottle, which will do more to introduce it than volumes written in its favour.

Another Cure for Hydrophobia.

Another alleged cure for hydrophobia is reported from Russia. It is simply the inhalation of oxygen gas. A little girl who had been seized with convulsions was made to inhale three cubic feet of the gas, when the symptoms disappeared. They returned the next day, and the treatment was repeated with such success that they had not returned at last accounts.

THE VICTORIA COMPOUND SYRUP OF HYPOPHOSPHITES

Is the most important Agent known to Medical Science, from its power to relieve every form of Nervous Disease. Its anodyne effect is remarkable—tending to produce the most refreshing and renovating sleep. It should be used promptly in every case of loss of nervous Force from whatever cause, as the Easiest, Most Direct, and Most Appropriate Remedy.

The effect upon the cough and expectoration is often very rapid, causing their disappearance or alleviation sometimes in a few days; but in regard to these symptoms there is a considerable difference in the effects, depending upon the extent and gravity of the lesions, and the stage of the disease. The night sweats, however copious they may have been, almost always disappear at the end of a week or ten days—except in cases of persistent diarrhoea, near the close of the disease, when they remain obstinate; the pains over the chest, which many patients feel so acutely, either cease, or very considerably diminish within a few days; the patient feels, on the second or third day, and sometimes even from the first, a decided increase of strength; the urinary sediments diminish and disappear; and there is a renewed feeling of vigour, cheerfulness and comfort. The effect, in all determinate cases, is to cause a modification and gradual disappearance of all the general symptoms that characterize the disease, except those which pertain to the local lesions; and even these yield, though more slowly, when they have not proceeded beyond a certain pathological condition.

The Hypophosphites have also other effects, the importance of which can hardly be over-estimated. Besides stimulating and increasing the NERVOUS ENERGY to its maximum force, they increase the quantity and improve the quality of the BLOOD, and they also strengthen the nutritive functions; thus maintaining these conditions of robust health at their highest degree of intensity compatible with physical enjoyment.

The Purity of the Hypophosphites absolutely essential.

THE ABSOLUTE CHEMICAL PURITY of the HYPOPHOSPHITES IS THE FIRST CONDITION of THEIR CURATIVE ACTION; when impure, they create a feeling of uneasiness and constriction in the epigastrium, which NEVER OCCURS, IN ANY INSTANCE, WITH CHEMICALLY PURE SALTS. The manufacture of the HYPOPHOSPHITES requires great delicacy of manipulation, and a large experience, which few chemists

possess. We, therefore, CAUTION our Patients and the Public against imitations of the VICTORIA Preparation of HYPOPHOSPHITES, which are spurious and worthless, and often POSITIVELY INJURIOUS, containing as they do ingredients inserted for creating a false and immediate appetite, to the ultimate injury of the patient. The VICTORIA SYRUP OF HYPOPHOSPHITES is prepared strictly in accordance with the FORMULA and DIRECTIONS of the original discoverer, and is certified to be chemically pure, having been analyzed at the Laboratory of the Toronto University, by Professor Croft, one of the highest authorities in Canada. The genuine has the Queen's Head engraved on the wrapper, and can be obtained from almost any Druggist. Ask for the VICTORIA HYPOPHOSPHITES.

A LETTER FROM WHITBY.

WHITBY, Feb. 25, 1878.

Messrs. Milburn, Bentley & Pearson.

GENTLEMEN.—With me your Victoria Hypophosphites has worked wonders. For the last twelve years I have had frequent and severe attacks of asthma. During the time I have been afflicted I have tried all the remedies recommended by skillful physicians, besides a great many patent medicines, hoping to find relief; but all proved failures. Last November, at the urgent request of a friend, I was induced to try your preparation of Hypophosphites. I was then in a very low state of health, and several times I thought I would not be able to perform my duties until the end of the year. To my surprise and delight, at the end of a week my general health was greatly improved, and up to the present time I have not had a severe attack. I have only used a bottle, but do not intend to be without it. I wish you to feel at liberty to use this testimonial in any way subservient to your interests in the cause of humanity. It costs *tuto, cito et jucunde*—safely, quickly and pleasantly.

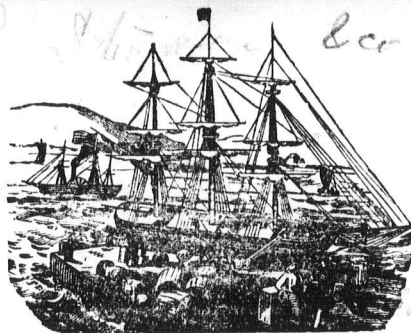

Yours, with great respect,

J. C. SMITH,
School Teacher.

VICTORIA Carbolic Toilet Soap

This TOILET SOAP possesses all the well-known antiseptic and disinfecting properties of Carbolic Acid, is agreeably scented, has a healthy action on the skin, prevents irritation, removes the effects of perspiration, and should be regularly used by families. Cholera, Small-pox and Fever patients should be washed with this Soap; and its use by persons liable to infection will materially prevent the spread of disease. Price 15 cents per tablet.

1880.
