JOHN McALLISTER DIED SUDDENLY

Died Quite Suddenly Monday Morning—Had a Long and Honored Career.

The death of Mr. John McAllister ex. M. P. took place at ten o'clock Monday morning, November 4th, removes from Campbellton one of the most highly respected residents of Restigouche County, and one who had the respect of all.

Although Mr. McAllister has not been able to transact business for a number of years on account of illness, he has been quite active physically and was a prominent figure on our streets. It was his usual custom to walk to the post office about nine o'clock each morning for his mail, and then go for a short walk. Monday he went as usual, returning to his home about ten. His sister noticed that he did not look well and asked him if he was sick. He complained of a pain about his heart, and then with a few gasps expired. Kind neighbors came at once and medical aid summoned but he had peacefully passed away to the great beyond.

During his life here he made many friends and although he fought three political battles he had no enemies. His open handed generosity and his political honesty were powerful in the county.

John McAllister, Q. C., was the son of the late John McAllister and Catherine Murchie, who emigrated from Scotland to New Brunswick in 1836. He was born in Heron Island, Restigouche county, July 27th, 1842, was educated at the common schools there and at the Presbyterian Academy, Chatham. He taught school for several years in Restigouche and the city of St. John, and was well known in that city during his subsequent political career. He was called to the Bar in 1879 and became a Queen's Counsel in 1895. After being admitted to the Bar he practised his profession in Campbellton and was recognized throughout the province as one of the most successful lawyers within our borders. Later on a partnership was formed between himself and the late W. Albert Mott under the name of McAllister & Mott. This firm also enjoyed throughout the province a name which any firm might justly well be proud of. The partnership was continued up until a few years before the Campbellton fire. Mr. McAllister retiring from business, owing to ill health. He was the first Mayor of Campbellton, was Swedish and Norwegian Consul in 1880-88, and United States Consular Agent in 1888-91. Mr. McAllister was elected to the House of Commons as a Conservative at the general elections, 1891 and 1896. He was defeated by James Reid, Liberal, in 1900. He was a Conservative and unmarried.

He was a Mason and a member of the Independent Order of Foresters. Deceased is survived by one sister Mary, to whom the heartfelt sympathy of the community is extended in her bereavement.

A short funeral service was held this morning at the late home by Rev. Mr. Miller, when the remains were conveyed to the depot and placed upon the Ocean Limited to be forwarded to New Mills where interment will be made. Many of our citizens were in attendance to pay their last tribute of respect to the departed, and many of them accompanied the remains to New Mills.

THE WAR IS OVER?

As we go to press word that Fredericton, St. John, Moncton and other cities were celebrating the acceptance of Allies armistice terms but the news is not official.

A despatch to the Graphic says that revolution has broken out in Germany and soldiers and sailors are marching on Kiel. Fierce artillery battle between Germans taking place at Hamburg. Germans are evacuating Ghent, and all along line Allies are gaining. Official word of acceptance of Allies terms may be received at any moment.

EPIDEMIC OVER IN CAMPBELLTON

Very Few New Cases in Town Reported During Past Week—Country Cases. Data. Public Works Dept.

The influenza epidemic is, so far as the Town of Campbellton is concerned, practically over. This morning there are only nine patients in the emergency hospital, and all these are progressing very favorably. Of these cases practically all are from outside the town.

At a meeting of the Board of Health and the special committee of the Council having charge of the emergency hospital held Monday evening it was decided to hand over the management of this hospital to the Sisters of the Hotel Dieu, and this was done at midnight Monday.

The town of Campbellton is to be congratulated in having a Board of Health and Town Council which had the courage to go strongly in the matter of fighting the epidemic and to the good work done at the outset is responsible for the fact that the epidemic is today so far as the town is concerned practically over.

In the country districts reports say that some new cases are being reported, and a few hospital cases are being sent here.

Although it is confidently thought that the worst is over.

VICTORY LOAN

Restigouche Must Stand to Her Guns—Everyone Must Buy

The Victory Loan campaign is progressing favorably, although at the present writing, with only a little more than a week to run, it looks as if Restigouche has had her limit set for her. That those in charge of the apportioning of the amounts of objectives for the different districts feel a very high opinion of Restigouche's students may be seen by the fact that Campbellton's figure of \$375,000 is more than the objective of the entire east portion of Northumberland County which has about three times as many inhabitants, and whereas Chatham which is as large as Campbellton has been asked to raise \$150,000, Campbellton's objective is \$375,000. But the people of Restigouche have earned a name not only for saving her money to every object and giving of her young manhood to the very limit.

It is now up to the residents of this town and country to live up to their reputation and demonstrate that the confidence reposed in them is not misplaced. To do this it means that every citizen must buy bonds, even if only for \$50.00. Let all do their duty.

The returns for the campaign so far are as follows:

District	Sold	Objective
Campbellton	112,750	\$375,000
Dalhousie	28,750	113,000
St. John's	34,350	50,000
Colborne	36,400	65,000
Dalhousie Parish	21,350	12,000
Addington	14,450	17,000

It will be seen that the parish of Dalhousie has passed its objective and will get its honor flag with three stars and Addington has nearly reached its objective.

ZEEBRUGGE WAS STRONGLY FORTIFIED

It is a City of Barbed Wire, Concrete, Steel and Ruins.

Belgian Army Headquarters in Flanders.—When the Germans withdrew hastily from the North Sea shore of Belgium they left behind a series of fortifications all the way from Zeebrugge to Nieuport. The entire shore is one continuous line of redoubts, reinforced concrete dugouts, trenches and barbed wire entanglements with gun pits about every fifty yards. The Germans carried off most of the guns, but they retired so hastily that they had to leave a large number behind.

The German abandonment of the Belgian North Sea was thorough and deliberate in the vicinity of Ostend where they left behind little of their material. The haste of their movement, however, increased from Blankenburg northward.

Zeebrugge is a city of barbed wire, concrete, steel and ruins. From the breakwater to points about a mile inland there are five lines each from four to five rows of barbed wire. There are also dugouts and block-houses, pointing across the sea toward England, but the beachhead is gone.

At the centre of the entrance to the locks lie two British ships sunk by the British in the gallant action of last June. The job was thoroughly done, the entrance being completely blocked except for about ten yards on either side where the Germans had sunk two small sloops. The unpaired breakwater remains as proof of the further success of the British foray into Zeebrugge.

THE TOWN COUNCIL OF THE TOWN OF CAMPBELLTON

Gentlemen:

Your committee to whom was referred the matter of request of McLennan Foundry & Machine Works, Ltd., would report as follows:

Whereas according to the reports of a committee appointed by the Town Council, as adopted May 25th, 1911, it was resolved that the McLennan Foundry & Machine Works, Ltd., as then constituted, pay a fixed rate of taxation of \$100.00 per year for school and town purposes for 15 years;

And whereas the works of the said McLennan Foundry & Machine Works, Ltd., have since that date been extended to include a shipbuilding plant within the said town;

And whereas a further application has been made on behalf of the said company to the Finance Committee that its present tax agreement with the Town be extended 15 years from this date and to cover all taxation property of the said company as now constituted and being now constituted; and that a flat rate for water at \$10.00 per year be granted;

And whereas the said application has been referred by a formal meeting of the Council to the Finance Committee for a report thereon, the said committee respectfully submit that the said committee recommend the following:

That the terms of exemption as granted the McLennan Foundry & Machine Works, Ltd., of May 25th, 1911, be extended to include the shipbuilding plant as now being constructed, and that the said shipbuilding plant be exempted from taxation for school and town purposes until the expiration of the original exemption granted, that is, 15 years from May 25th, 1911.

We would also recommend that an agreement be drawn up by the Town Solicitor and submitted to the Town Council for approval.

After considerable discussion it was thought better to lay the report on the table until the next meeting when it was hoped all the Council would be present.

Comm. Champoux said that in the matter of Mr. D. A. Stewart's protest, re exemption of certain stock of the J. & D. A. Harquail Co., Ltd., he would like to have the written opinion of the Town Solicitor on this matter and on motion the solicitor was asked to give his opinion on this.

The Council then adjourned.

NEW MANAGEMENT FOR OPERA HOUSE

S. C. Hurley Has Taken Charge for F. G. Spencer—Improvements to be Made

S. C. Hurley representing Mr. F. G. Spencer the well known amusement promoter, who has a circuit of fourteen theatres in the Maritime Provinces, arrived in Campbellton last Thursday last, to take over the management of the Opera House.

Mr. Hurley, has lately been in charge of the Hayden Gibson Theatre, Woodstock, and has been acting manager at different periods in every house on the Spencer Circuit. He is a lecturer of note, and an eloquent of marked ability, and doubtless his management of the local amusement will enhance its entertainment value greatly.

The Opera House will now be able to export the very cream of the picture market and many good things are in store for early presentations. It is expected that the epidemic ban will be lifted next week.

A well-known theatre decorator is expected to arrive in town Monday, when a complete renovation will mark the advent of the new management. The house is now undergoing a thorough process of fumigation and some changes in the electrical department are being made.

WHAT THE GERMAN NAVY HAS DONE.

(From the New York Herald.)
Case of the steamship Belgian Prince, sunk by German submarine July 31st, 1917, as sworn to by the survivors:

"The Germans removed the life-belts and the outer clothing of all except eight of us, smashed the life-boats with axes and then re-entered the submarine and closed the hatches, leaving us on deck. The submarine proceeded about two miles and then submerged."

Cases of three other British steamships:

"Steamship Westminster, sunk December 14th; boats shelled by submarine, captain and crew killed."
"Steamship Eavon, sunk February 3rd, submarine guns turned on boats, firing shrapnel, killing master steward and three others, and injuring second officer."

"Steamship Addah, sunk June 15th. Submarine fired on master's boat, killing eight men. After the boat had been sunk and the men were swimming about in the water, the submarine again fired shrapnel at them."
"Steamship Achilles Adam, 500 tons sunk, crew being rescued with shells by submarine while trying to lower life-boats. Small boat struck and destroyed, man killed. Another killed several injured before a small boat was finally lowered. Survivors roared toward submarine. Four Germans entered boat, breaking oars and smashing rudder, and then sent the boat adrift. Survivors drifted about all day and night. Four men died of exposure and others collapsed. Story officially placed among archives which record the most distasteful chapter of the sea ever written."

Whatever penalties may be exacted by the outraged sense of the civilized world, the National Societies of British and French merchant seamen have fixed their own, and let it be hoped that those of the other Allied countries will join them in this determination. These hardy toilers have agreed never to sail on any vessel that carries a German in its crew or that trades with a German port until full reparation is made for these crimes against the brotherhood of the sea. This penalty is cumulative and the score to be settled in a long one, for every succeeding atrocity an additional period of exclusion is ordered. This is justice, simple in its application and fruitful in its results, and it will be carried out despite interpositions of interferences by men whose stock in trade is mere words and more mere words.

Nor Did They Stop.
A teacher of Latin in a high school here has solved the problem of how to interest his boys in a dead language. He told about it during one of the enforced vacation days last week. "As soon as the class started to read Caesar," he related, "I picked out a passage which I thought would interest them. It is translated:—
"The Germans turned and ran, nor did they stop until they had crossed the Rhine."
"The class studied diligently from that day forward in search of other allied victories."

Every dollar makes them Holler.

AFTER THE VICTORY WHICH FREED AMIENS

The following interesting letter from a soldier who enlisted in the Canadian west was written to a friend in St. John.

FRANCE, Oct. 7, 1918.

Dear—
In writing you now I hardly know what to say or how to begin. The scenes of this vast drama, now drawing to its close, are so tremendous and awe-inspiring that one feels utterly confused, unable to take a comprehensive survey of what daily passes before one's eyes.

Of course you have heard and read about the great victory which freed Amiens.

The morning after the battle I travelled almost the whole field. I never saw in my previous experience anything like the evidence of German rout and disaster on every side. Clothing of all sorts, great coats, tunics, belts, rifles, bayonets, over-turned limbers and guns littered the country side. His dead lay sprawling in the trenches, along the roads and in among the growing wheat and corn.

A little further on I entered a village that up to the day before had been occupied by the German army. It was a pitiful sight. I found the pieces of our artillery the streets strewn with dead bodies of Germans and full of bricks and mortar from the ruined houses. I remember the day was a Sunday. The roar of the battle had ceased. The soft sunshine lit up the countryside. A strange and eerie silence lay over everything. The woods and fields to the eye were apparently undamaged. More than once I found myself half expecting to hear the church bells ring and to see the country roads crowded with people on their way to church.

In the cellars of the town we found every trace of a hurried and rapid flight. Food was lying around in considerable quantities, mostly bread and sausage, and a concoction which I suppose they call coffee, but which neither smell nor tasted in the least like it. The bread was exceedingly bad; very black and sour, even mouldy; fifty stuff. The sausage did not look in its own way much more appetizing. There was also a large quantity of canned meat. I did not taste it. It looked fairly good, but our fellows said it was horse-dung.

The courtyards and cellars were full of machine guns, telephone apparatus, clothing, mirrors, clocks and other things that the enemy had not time to make away with. To sum up, from personal observation I should be slow to say that the German army is short of anything vital with the exception of rubber. With regard to that commodity, I have conclusive evidence that they are absolutely without it. The straits to which they have been reduced through want of this are easily to be perceived.

A few days afterwards I had an opportunity of inspecting the whole of the guns captured during the battle. Every type was there, from the giant six-inch naval gun to the smallest type of trench mortar, not much bigger than a toy, and I do not think that anything has an uglier or more menacing form than a modern piece of artillery. There was only one gun there with any pretence to form or beauty. Over the breach it was beautifully engraved with the following motto: "Ultima ratio regis."

The wads are thrown every day with long columns of German prisoners. We also pass great numbers of captured guns. The amount of material we have taken is enormous. I often think we are like the Israelites of old. We have literally struggled through the wilderness and now stand in full view of the Promised Land. By going a few hundred yards along the road which passes by here and climbing a low green wooded hill I can see the fresh woods and fields and red-roofed towns of that terra incognita, which the enemy has possessed for the past four years. But the wilderness we have crossed is not the barren, more forbidding or desolate looking tract of land on the face of the earth. It has an aspect of savage destruction. It has been torn and tortured out of all semblance to civilization. I cannot describe it because it surpasses description; but if you could see it you would then realize how Germany's war is.

The destruction here may possibly be justified under that plea; but it is blind-force used in such brutal fashion that one may search history in vain for a parallel case.

I agree with you that it would only be bare justice for the war to be carried across the Rhine. I am not bloodthirsty as a rule, but I believe I could look on with great equanimity at the sacking of two or three German cities. As I write this the night sky is reddened by the glare of burning towns and villages deliberately set on fire by the Germans in their retreat.

We have just received the news that the Central powers have asked for an armistice. So whether this war will end before we cross the Rhine no one can tell.

I enclose as a souvenir a German five mark bill. It is a relic of the Amiens battle and was given to me by a German prisoner. I gave him a drink of water (he was slightly wounded) and this was my reward. I spoke to him in French.

He was quite convinced even then that Germany was unbeatable. He was born in Bingen-on-the-Rhine and nearly cried every time he started to talk about his native town.

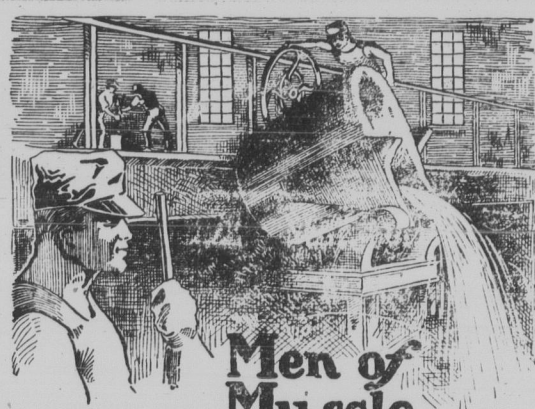

I have never taken out a commission although recommended for by one by colonel in the artillery. I did not feel at the time equal to it as no one can go through two years or more out here without feeling the strain.

Yours very sincerely,

W. B. O'HARE.

CELEBRATE PEACE.

It is expected that Germany may at any moment accept the terms for an armistice and thus end the war.

When announcement of such has transpired, every citizen should be ready to celebrate. The day which marks the end of the war is too great an occasion for anything but thanksgiving and celebration.

We would suggest that Campbellton follow the lead of St. John and appoint a committee to see that everything is prepared for such a celebration.

Toronto Globe—Canada is doing big jobs in these history-making days, and doing them well. The boys at the fighting front are hearing the brunt. But those of us at home have another opportunity to show them just how earnestly and effectively we are backing them up. Let's make the Huns think harder than ever about the necessity for unconditional surrender.

To the Publisher of the Campbellton Graphic, from a Canadian soldier across the sea:

My Dear Friend:

I dislike to write this letter for fear of annoying you but the time has come when I must ask your judgment on a question, the contemplation of which has caused me many nights of unrest as well as many days of anxiety.

You will understand my reluctance in writing to you regarding a matter of such importance when I tell you that many happy homes, even human lives have been upset by similar trouble, and I feel that in all sincerity it may mean life or death to me.

I have not communicated my state of mind to any other friends for they are not always to be relied upon, so in my distress and perturbation of mind, I can only come to you.

I know that I am asking a great deal of you but our friendship will warrant it and in deciding for me, lay aside your loyalty and tell me from the fullness of your heart. "Do you think that the Devil will down his brother, the Kaiser, after the war?"

We think that the Kaiser has so far outstripped the Devil in all his acts of "Kultur" that his satanic majesty will certainly abdicate in the Kaiser's favor and thus provide a throne for one who has proved himself such a worthy follower.—Ed.

DALHOUSIE

Dalhousie, N. B. Nov. 5.—The shiretown of Restigouche County contains very few citizens whom one might call rich. The owners of four saw mills located within the town limits are people who belong to other lands. The objective, that was settled upon by the Victory Loan central committee, was excessive when, conditions are fully considered. When the last loan was floated people belonging to the parish, could be approached, and were so successfully, and large amounts, were placed in Victory Bonds. To-day Messrs. Thos. G. Scott and S. Blanchard, who are working within the town limits, have not the same favorable opportunity, that was given to those who were collectors for the last loan. However, they are proving that they are the right men in the right place, and the patriotic citizens of Dalhousie, who can possibly do so, are investing their savings in Victory Bonds. From the first day, when the two town collectors were able to make an encouraging return to the Hon. H. F. McLaughlin, at Campbellton, every day since the daily return has been growing.

The people realize that when they lend their money to the government, it is not only used to maintain our soldiers, but it will keep in full operation all our industries.

Let us therefore lend our money for the good of the country, to assure democracy, let us lend for victory, for peace, for liberty, for happiness of the world.

There is such great interest taken in the war in the shiretown, that the sale of newspapers on the streets has doubled since last year. Since the report had been circulated that peace was near the sale of papers has increased 25 per cent.

Mrs. H. H. Woodworth, Sackville, is spending a few days with her Dalhousie friends. To-day she motored to Campbellton, where she will remain till Friday. She will then spend the week end with her sister Mrs. Fred. Ballen, before returning to her home.

SPANISH INFLUENZA RAGES IN CANADA

Thousands of Cases Reported With Many Deaths.

THOSE WHO ARE MOST SUSCEPTIBLE TO IT

"FRUIT-A-TIVES"—The Wonderful Fruit Medicine—Gives the Power To Resist This Disease.

The epidemic of Spanish Influenza which played such havoc in Europe, has reached this continent. Thousands of cases of the strange malady have appeared and many deaths are already reported; Surgeon-General Blue of the United States Public Health Service having stated that "Spanish Influenza will probably spread all over the country in six weeks."

Practically every ship which touches our shores from abroad, brings those infected with the disease.

Surgeon-General Blue urges that "the individual take all the precautions he can against contracting the disease by care and personal hygiene." Plenty of exercise should be taken; the diet should be regulated, etc.

Spanish Influenza affects most severely elderly persons and others whose powers of resistance are weakened by illness, work or worry, especially those who are "run down" or "not feeling up to the mark."

The really great danger from the disease is not so much in the disease itself, as that it often develops into pneumonia.

When everyone needs now is a general tonic like "Fruit-a-tives". This wonderful fruit medicine is not a germ-killer. It is a health-builder; a strength-maker; a blood-purifier; a power in protecting against the ravages of disease.

"Fruit-a-tives" regulates the kidneys and bowels, causing these organs to eliminate waste regularly and naturally as nature intended.

"Fruit-a-tives" keeps the skin active, and purifies and enriches the blood.

"Fruit-a-tives" tones up, and strengthens the organs of digestion, insuring food being properly digested and assimilated.

Everyone can take ordinary precautions, avoid crowded places, and use "Fruit-a-tives" regularly to insure sound digestion, to keep the bowels and kidneys clear and the whole system in the best possible condition. Then we are safe from disease.

"Fruit-a-tives" is sold by dealers everywhere at 60c a box, 6 for \$2.50, trial size 25c or sent postpaid on receipt of price by "Fruit-a-tives Limited, Ottawa, Ont."

It is an excellent likeness and many have been disposed of.**THE SOLDIER'S CHILD SPEAKS.**
"My daddy's gone to war. He says there's more'n a million brutes tryin' to get into Canada—to rob us, beat us, an' kill us, just like they did the Belgians. He isn't goin' to let 'em. The day he left, my, but he looked splendid in his bright, new soldier's uniform—he grunted his teeth an' he said he was goin' to see that nobody's goin' to lay hands on his little girl. Now he's over there shootin' brutes. Oh, but I know he's so tired! He's sleepin' on the ground, and wadin' through mud, and he said he wasn't coming back 'til he knew we were all safe again."

ABUSING TELEPHONE.

A telephone installed in the Post master's private office at his own expense, and intended for his use, has become such a nuisance, because of its use, by almost continuous questions and demands, many of them foolish in the extreme, and having no reference to Post Office affairs, that he was compelled to have it removed from his office.

1917'S MARK MUST BE BEATEN.All the Provinces are doing well. But remember they must all do better than they did last year.
"Saskatchewan, which, owing to bad crop conditions, started out to raise \$15,000,000, has decided that on no account must it be satisfied with less than last year. It is doing this, in spite of the fact that in some splendid wheat growing districts the yield is no more than five or six bushels to the acre.

This is the spirit that must be manifested throughout the whole of the Dominion. It is the spirit that removes mountains of difficulties. When Napoleon was reminded that the Alps barred his way into Italy he said, "there must be no Alps." What are obstacles to the Boys in France?

Every Victory Bond you buy is a policy of insurance against the destruction of your freedom, your happiness, your home, and your livelihood. France and Belgium and Serbia and Poland show what Prussian militarism would do to Canada if we should fail to crush it.

HARRY LAUDER IN GLASGOW PULPIT

Brings Tears to Eyes of Congregation With Word Pictures.

Glasgow.—From the pulpit Harry Lauder addressed a large congregation in the Highlanders' Memorial Church, Glasgow, on a Sunday afternoon. The occasion was the dedication of a magnificent pipe-organ from Mr. and Mrs. Lauder, in memory of their only son, who fell in France, and a stained glass window given by the Secretary for Scotland.

Wearing the kilt, Mr. Lauder, in a voice broken with emotion, said: "We talk about the brave men at the front. I say, thank God for the brave men at home who have helped and still are helping to fight this great fight. And every soldier at the front is great, be he Highlander or Lowlander. I am just back from Bullecourt, where it was thought impossible to cross the German barbed wire. I was right close to Hindenburg trench among the Lowland Divisions, the 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st, 22nd, 23rd, Mr. Lauder then sang softly and sweetly to organ accompaniment: "Have ye seen at the men frae the braes an' the glens?"

PATHETIC WAR INCIDENT.

Lieutenant Turner of Saskatchewan lost his eyesight at Ypres. Some time ago he was taking his coat from the check in a prominent London restaurant when a man behind him, not seeing his blindness, took it gently from him and held it while he slipped his arms into the sleeves. Believing the service was rendered by an attendant, Lieutenant Turner offered him a shilling as a tip.

"That won't be necessary," kindly said a friend of the lieutenant with an apologetic nod to the man who had held the coat. "The man who helped you was General."

The blind soldier blushed and asked the pardon of the general, but the latter was equal to the occasion.

"I won't accept your apology," but I'll accept your shilling and I'll treasure it as a souvenir of one of the bravest soldiers who ever fought for Canada and the Allies.

PORT DANIEL.

On Tuesday, Oct. 29th a pleasant evening was spent at the home of Mr. N. L. Dow the event being the parting farewell to Rev. H. M. and Mrs. Whiteley.

Owing to the prevalence of influenza, and the regulation of the Board of Health, only the church officers and a few old members were present. When all were assembled in the drawing room, an address was read by Wilfred Bisson on behalf of the congregation. After the address was read and the purse presented, Mr. Whiteley made a few fitting remarks, thanking those assembled on behalf of the congregation for their kindness to himself and family during their stay in Port Daniel.

He also thanked the Warden, Sexton and organist who each in turn deserve praise for their faithfulness to duty.

After Mr. Whiteley's address the parting hymn "God go with you till we meet again," was sung. Retirements were then served by Mrs. Dow after which a pleasant hour was spent in conversation. At ten o'clock the company repaired to their homes, after taking farewell of Mr. and Mrs. Whiteley and thinking the hosts for the pleasant evening spent.

The following is a copy of the address delivered to Rev. Mr. Whiteley, by Mr. Whiteley:

It is with mixed feelings that we the members of the congregation of St. James' Church assemble this evening to say farewell to you and Mrs. Whiteley. You are leaving us, but also feelings of joy and gladness are going to a better world, and that your removal will be to your future benefit and welfare. While heartily regretting your departure from among us, we wish you and your family all happiness and success in your new parish.

We are sure you will be the sentiment of the congregation when we say that your stay among us has been a source of good. We appreciate you not only as a minister of God's Holy work, but as a man of good christian example. In sadness and all our troubles we will need your counsel and help and comfort to us.

We cannot but regret your departure from among us without some tangible expression of our feelings, and could ask you to accept this small presentation as a slight token of our appreciation of your services among us, with kindest thoughts and best wishes from the congregation of St. James' Church Port Daniel.
