WEEKLY REVIEW.

Receipts of grain were small this week, and prices were quite equal to the same week a year ago. Farmers all around the city are busy buying and cutting wheat. General reports are quite satisfactory for both the crop being quite heavy. Of course, wheat yields are only estimates, but it will only be a few weeks until we know how these estimates turn out. Prices here for all kinds of grain remain the same as a week ago, oats closing a small profit, if any thing. The butter market has been quite active, and prices are much higher. Checks sold on Tuesday for 10c, and pound rolls at 10c to 10c. Eggs held steady at 5c to 5c by the basket. Chickens, ducks and turkeys sold lower. The supply was no bigger than usual, but the demand was smaller. Cattle were steady, both in price and volume of trade. Hides have sold at 5c per pound higher all week, and closed steady, at 5c, 5c, and 5c. There is considerable uneasiness among buyers, because of the uncertainty of the American tariff. Almost all the hides of Canada go there, and there are no buyers of any account being made here, and it is only natural that dealers should be anxious to sell the duty question settled. Wool was active, at the for No. 1. In fruit circles, the crop of raspberries is now centered in raspberries and cherries. The former have come down considerably and are now selling at 5c to 6c per quart. Cherries seem scarce and are held firm at 6c to 8c per quart for red, and 5c to 6c for white. The rest of the fruit is in small lots. Among the vegetables we note a decline in butter beans, new potatoes, cabbage and cumberbuds, and an advance in good peas. New hay has sold remarkably well; some days last week at \$6.50, but the usual price was \$6. Live chickens, ducks, and geese sold slow and at lower prices. Young pigs were hard to sell. No cows offered. See the following list for prices:

Chickens, ducks and turkeys sold at the same prices as last week, but the demand was smaller. Meats were steady, both in price and quantity.

Hides have sold at 50c per pound, higher all week, and closed steady, at 50c per pound. There was a feeling of uneasiness felt among buyers, because of the uncertainty of the American tariff. Almost all hides of Canada and the United States sold on higher leather, of any account being made here, should be sold at 50c per pound. It is only natural that dealers should be in a position to ask a question when settled.

Wood was active, at 15c for No. 1. In all circles, the principal interest is now centered in raspberries and cherries. The former have come down to 10c per quart, and are now selling at 5c to 6c per quart.

Cherries seem scarce and are held at 15c per quart. The quantity, and so to 10c in small lots. The rest of the fruits are much the same.

Among the vegetables we note a decline in butter beans, new potatoes and green corn cobs, and an advance in good peas.

New hay has sold remarkably well, and is now selling at \$6.50, but the demand was not very hard to sell.

Live chickens, ducks, and geese sold slow and at lower prices.

Young stock very hard to sell.

No cows offered.

LOVE.
Love is the one thing lovely in life, says Hall Caine. It is lovely, it is poetry. Call it passion if you will, what would the world be like without it? A place where every human heart would be an island standing alone; a place without children, without joy, without excitement, without laughter. No, no; Heaven has given us love, and we are wrong when we try to put it away. We cannot put it away, and when we make the attempt we are punished for our pride and arrogance. It ought to be enough for us to let heaven decide whether we are to be great men or little men, and the greatest happiness of life is love. Heaven would have us to work a miracle to enable us to live without it. But heaven does not work such a miracle, because the greatest miracle of heaven is love itself.

THURSDAY, JULY 22.

• BREAKFAST — Oatmeal and cream. Grape marmalade. Hot buttered toast. Devilled eggs. Coffee.

• LUNCHEON — Salmon salad, Bread and butter. Easy sponge cake. Iced tea. Nutmeg melons.

• DINNER — Chicken curry with rice. Baked sweet potatoes. Sliced tomatoes. Blackberry charlotte. Tea.

Cut out these recipes and paste them in a scrap-book.

Grape Marmalade—At this season there is so much fresh fruit on hand that the housekeeper will find herself with "left-overs." About the most satisfactory way of using up a small quantity of fruit is to make it into marmalade. Take the grapes which have dropped from the bunches and take the seeds out, then weigh or measure, and allow measure for measure of fruit and sugar. Place all in a preserving kettle and boil slowly 25 minutes; then add the juice of one lemon to every quart or pound of fruit. Set away in marmalade or jelly glasses and serve very cold. Place in ice box the night before.

Devilled Beef—Take slices of cold roast beef, rub with little mustard if liked, lay them on broiler; broil over hot coals. Serve on a hot dish, with a little butter on each slice. Sprinkle salt and pepper over all.

Nutmeg Melons—These should be cut in half and the seeds removed before sending to table. A tablespoonful of strained honey in each half is a very nice.

Easy Sponge Cake—Three eggs beaten one minute, one and one-half cups sugar beaten for five minutes, add one cup flour and beat one minute; one-half cup of cold water, and another cup of flour, mix it into a batter mixed two teaspoonfuls of baking powder; beat all together one minute. Bake in a slow oven.

Chicken Curry—Boil a chicken with great care, skimming constantly and keeping covered with water. When tender, take out the chicken and remove the bones. Put a large lump of butter into a spider, drudge the chicken meat with flour, and lay in the hot spider; fry a nice light brown; keep hot and dry. Do not allow it to get hard. Take a pint of the chicken broth and stir into it two teaspoonfuls of curry powder, two of butter and three of flour, one of salt. Stir till quite smooth; then mix with the broth in pot; when well mixed, simmer five minutes; then add the browned chicken. Pour on large dish, garnished with rice.

Baked Sweet Potatoes—Scrub well with a small brush kept for that purpose. Bake as you would Irish potatoes, only giving them longer time. When ready to serve, place on a hot plate, and when well sweetened, then add one place a piece of butter inside. When the custard is cold, pour it over the whole; then beat the whites of the eggs to a stiff froth, add one-half cup of sugar, and flavor to taste; heap up on top and decorate with large berries.

Pallid faces indicate pale, thin blood. Rosy cheeks show the pure, rich blood resulting from taking Hood's Sarsaparilla.

For some years past she had resided with her daughter, Mrs. Lytle, of Huron street, Toronto, where another daughter, Mrs. Greenlees, also resided.

—Monday night Mr. Wm. J. Hindmarsh, one of Gal's well known musicians, died at his residence on North Water street, in his 71st year. Deceased was an old military man, having joined the Royal Canadian Rifles in England in 1842. The same year he came to Canada, and for 41 years was connected with Canadian military life. He served for 21 years as band sergeant at Niagara, London, Kingston and Montreal. Subsequently he was bandmaster of the 14th Battalion Band, Kingston; the 25th Battalion Band, Chatham; and the 24th Battalion Band, Galt. He was also bandmaster of the Citizens' Band here for a number of years. He leaves a widow, five sons and one daughter. Henry Hindmarsh, a son, died some time ago, and his widow, who was a daughter of the late Hiram Comfort, city assessor of St. Thomas, was left \$30,000. Her sister, Mrs. Toogood, and other relatives are now contesting the will.

—Goderich Star. The confirmation service at St. Peter's last Sunday afternoon was largely attended, and most impressive. Bishop O'Connor was assisted by Rev. Fathers West and Dixon, and the class numbered 26 candidates. His lordship, in asking the customary questions, made a clear and simple explanation of the principles taught by the church, and gave sound and commendable advice on the benefits and graces flowing from a religious life. His words, if followed up by the children, should give them much happiness through their lives. All the boys in the class were pledged to abstain from intoxicating drink till they should reach 21 years of age. Judge and Mrs. Doyle acted as sponsors for the children as they received their first communion, and the choir sang most impressively, "Come, Holy Ghost." Before concluding the service the bishop praised the congregation for what they had already accomplished in their new church, and exhorted them to continue faithfulfulness and sacrifices for the house of God.

THAT DOG'S HEAD.
The dog's head sent from this city to the Ontario health board recently for analysis by the expert, Dr. J. J. MacKenzie, to discover if it carried traces of hydrophobia, has arrived. It was so long getting there that the department sent word to those bitten by the dog that they had better go to New York and take the Pasteur treatment. And now that it has landed safely in the hands of Dr. MacKenzie the canine's head is found to be in a state of decomposition, so that they may attempt at analysis is impossible.

AT PORT STANLEY.
Mr. Woolbridge, of Boston, is staying here at present.

Mr. Wm. Harris has the contract for building a bridge over the millrace cut between the observatory and the

club house. It will be substantial enough for the passage of teams as well as foot passengers. It is expected that it will be ready for use this week.

Bert Day, St. Thomas, has purchased the general stock of W. Borra, Port Stanley, and taken possession.
"Suima" is the name of a camp in a shady nook just behind Dr. Moore's, Orchard Beach.

Mr. Alf. Robinson and his family have taken up their residence for the summer at Killillo Cottage.

The Cuba arrived yesterday from Montreal with freight and a number of passengers.

Mr. Joseph Scandrett is visiting his brother, L. H. Scandrett, and acquaintances on Orchard Beach.

The Flora has arrived from Cleveland with a large number of passengers.

The new bath house on the beach is supplied with all the conveniences required for bathing purposes, and is on a splendid strip of beach.

Elsie Clark, daughter of Arthur Clark, while examining a revolver, was accidentally shot through the hand. The bullet pierced the fleshy part, not breaking any bones. She was looking into the barrel a few minutes before it exploded.

A good well is being sunk on the beach in front of Liberty Hill. An "Aermotor" will be used to pump the water on the premises and pump the water into a large tank or water tower on the beach. It will be conducted through 2,000 feet of pipe to all parts of the grounds, lawns, cottages, etc., by gravitation. The water will be thoroughly filtered through 100 feet of sand. Mr. A. Armstrong is superintending operations.

THE NEW PROFESSOR.

Dr. Tupper Will Succeed Dr. Sykes at the Western University — A Young and Able Man.

At a meeting of the senate of the Western University yesterday afternoon, Dr. James W. Tupper, of Philadelphia, was appointed professor of English and history in the place of Dr. Sykes. Dr. Tupper is a post graduate of the Johns Hopkins University, and has testimonials of a very high order. Like Dr. Sykes, he is a young man, with the vigor and energy of youth. He is an active worker in the Presbyterian Church. The senate felt that they have made a wise selection.

The report of Rev. Canon Young, honorary financial officer, was very satisfactory, and the amount subscribed far exceeded the expectations of the members. A hearty vote of thanks was accorded to him for his disinterested services.

His honor Judge Edward Elliott was elected a member of the senate.

ORGANIZATION COMPLETED.

Middlesex Light Infantry Adopt Their Method for Rifle Practice.

A meeting of the Twenty-sixth Battalion Rifle Association was held at the Tecumseh House last night, Major McEwen in the chair. The organization of the association was perfected and Mr. D. Poussette, Mr. Kerrigan and Mr. Beecher were appointed to draw up ranges and other rules. It was decided to procure at once suitable ranges where the different sections of the various companies are located, and to institute a course of weekly competitive matches among the sections, beginning Aug. 7 and ending June 1, 1898, each section to fire at its own range to show that it is not less than six men at each meeting; additional credit marks to be given for a larger section, up to twelve men, and also for additional meeting over eight up to fifteen weekly meetings.

A handsome silver trophy will be awarded to the section making the best average marks for the year, each member of the section to be awarded a medal.

The company officers are to see that the ranges for their own sections are in order, and a preliminary practice for the sections near London will be held at the Tecumseh ranges on Saturday afternoon next.

A Sensible Move.

The opportunity of making others happy is more scarce than we imagine; to meet with it again; and the use we make of it leaves us an eternal sentiment of satisfaction or repentance.

We have no hesitation in saying that Dr. J. D. Kellogg's Dysentery Cordial is without doubt the best medicine ever introduced for dysentery, diarrhea, cholera, and all summer complaints, sea sickness, etc. It promptly gives relief and never fails to effect a positive cure. Mothers should never be without a bottle when their children are teething.

Never play yourself to discern the faults of others, but be careful to mend and prevent your own.

THE HOUSEKEEPER'S DUTY TO HERSELF.

The duties of the practical housekeeper are onerous, and demand a large share of physical strength. The time may come when feeble girls will generally hesitate to marry, and thus increase their miseries by taking upon themselves duties for which they are manifestly unfit; yet so long as the world lasts there will be sickness, and all women, married or single, will be subject to disabilities from time to time.

Every housekeeper owes it to her self to so arrange her domestic affairs as to secure for herself in so far as possible immunity from sickness, from overwork, and to so hold the reins of power in her own hands as to promote her own well-being, as well as to provide comfort for the various members of her family.

One reason why so many homes are broken up in favor of boarding-houses is because the housekeeper herself fails to grasp the importance of self-preservation in time to save a catastrophe.

By plainness of living, by cutting off superfluous drains upon energy, and by a liberal employment of help from time to time, housekeepers can often get well and keep well when otherwise they must drag on through weary weeks and months of illness. If economy must be studied, let there be less rich food, fewer farabows of dress, and far less bric-a-brac and household ornamentation. And let the mother's time and strength be saved, by all means, if she be the housekeeper.

We have no patience with the American notion of children first in all things. It is quite time that we learned that children well cared for are best kept in the background, and that their abundance of help, they
