## PREFACE.

In introducing to the public a Directory of the new and flourishing Prairie Province of the Dominion—MANITOBA,—the Publishers trust the utility of the work will be found evident, when the rapidly increasing intercourse and growing commerce between Manitoba and the sister provinces of the Dominion is taken into account, and that a much felt want will be supplied by their enterprise. Undertaken in such an early stage of the growth of the youthful Province, they venture to hope, that the undertaking will meet with due appreciation by the public, no pains or labour having been spared to make the MANITOBA DIRECTORY complete, reliable and varied in its information, and accurate in its details, so that it may be thoroughly adapted to the wants of all classes of the community.

This being the first and only Directory of Manitoba published, the Province having been created since the publication of Mr. Lovell's gigantic and valuable undertaking, the DOMINION DIRECTORY, the publishers trust that the labour and cost incurred in the production of this Directory may prove sufficiently remunerative to encourage them to keep pace with the rapid advancement of the new Province by the issue of an annual revised and improved edition, and that the MANITOBA DIRECTORY will be found in the Counting House of all places of business in the Dominion and elsewhere, where the cry is WESTWARD Ho!—It will also be found valuable as a guide-book to the Emigrant, directing him to the location of friends gone before him.

The publishers desire to state that they are unable in this DIRECTORY to give general legitimate information regarding places of business, officers and departments of the Hudson's Bay Company, the officers in charge at Fort Garry having, for reasons best known to themselves, politely declined to afford us the information sought for the purposes of the DIRECTORY, neither have we received from them the slightest encouragement in our enterprise. With this exception, we have no hesitation in stating that the DIRECTORY of MANITOBA will be found complete and accurate, and, for the assistance we have received in accomplishing this, it is alike a duty and a pleasure on the part of the publishers to return their grateful thanks to the following gentlemen who were kind enough to interest themselves in promoting the success of this the First volume of a MANITOBA DIRECTORY.

## PROVINCE OF MANITOBA.

MANITOBA, lying between the parallels of 49° and 50½° of north latitude, and 96° and 99° of west longitude occupies nearly the actual centre of the North American continent. Manitoba also lies midway between the Arctic and Tropic circles, and midway between the Atlantic and Pacific Oceans.

The present area of the Province by system of survey, and exclusive of road allowances, is 9,008,640 acres, deducting for Half-breed grant 1,400,000, Hudson's Bay Company's twentieth and school section reserves 707,680, leaving available area of 6,900,960 acres within the present boundary. Each township consists of thirty-six sections of one square mile each and road allowances in all cases will be one and a half chains in width.

Manitoba (then the Colony of Assiniboia), having after the troubles of 1869-70 accepted terms from the Dominion Government for its entering the Confederation, was created a Province in July, 1870, the population at the first census taken in December, 1870, was 11,965 divided as follows:

French Half-breeds.....	5,694
English do .....	4,076
Whites.....	1,614
Indians.....	581

At the present time the total population is roughly estimated at twenty-five thousand. As yet no agricultural statistics have been obtained.

The form of Government is similar to that of the other provinces of the Dominion, but the Legislative Council being abolished by act of the Legislature in February of the present year, the Legislature consists only of a Legislative assembly of twenty-four members representing twenty-four constituencies.

The executive consists of the Lieutenant-Governor, a Provincial Secretary, Provincial Treasurer, Minister of Public works, and Minister of Agriculture, who is also President of the Council.

A liberal homestead law is in force in Manitoba, which exempts from seizure the debtor's ordinary furniture, tools and farm implements in use, also "one cow, two oxen, one horse, four sheep, two pigs and the food for the same for thirty days," and "the land cultivated by the debtor, provided the extent of the same be not more than *one hundred and sixty acres*, in which case the surplus may be sold with privileges to first mortgagees. The house, stables,

lawns, fences on the debtor's farm, are, by this act, declared free from seizure, by virtue of all writs of Execution issued by any court of this Province." No limit is placed on the value of the farm or home thus secured to the family whatever its value may become. It may be safely asserted that this law will greatly advance immigration to this Province, and prove a blessing to thousands of worthy and honest men, women and children for every one unworthily shielded by its provisions.

The rapid increase of the steamboat trade of Manitoba on the Red River is the best index of its commercial growth, as will be seen from the following statement:

Increase of 1875 over 1874 .....	38,452,430 lbs.
Season of 1873 .....	23,613,036 "
Season of 1874 .....	37,626,200 "
Season of 1875 .....	76,078,680 "

This 76,078,680 pounds comprises every description of freight, a greater portion being of course bonded goods from other parts of the Dominion and Canada, the balance being American goods.

This freight would have loaded 3,800 cars, a comfortable traffic for a railway the first year; it employed a fleet of seven steamers, with barges and innumerable flat boats. The number of passengers carried on this line of boats the past season may be estimated at, at least, 8000.

The Red River rises in Minnesota, in the United States, close to the sources of the Mississippi, and enters British Territory at the Boundary line of Manitoba, about 120 miles from its mouth, where it discharges into Lake Winnipeg.

It is not within the limits of this Directory to enter into lengthy details of the resources and advantages of Manitoba to the Emigrant and Capitalist, as also of its climate, soil and agriculture. For such information of a reliable nature, we would recommend a careful perusal of Mr. Spence's excellent and complete pamphlet on Manitoba and the North-West, copyrighted. In giving a brief historical sketch of MANITOBA, we cannot do better than quote from an able article in LOVELL'S GAZETTEER OF BRITISH NORTH AMERICA, with the kind permission of the Publisher of that valuable work.

"The name *Manitoba*, taken from a large lake, a part of which lies in the province, is a contraction, made by the old French Canadian *voyageurs*, of the Cree word, *Manito-waban*. *Manito* signifies *supernatural, divine spirit*; and *waban* means *a strait*. As the waters of a strait in that lake are agitated in an unusual way, the Indians believed formerly there was therein something supernatural, a spirit that moved them, and so they called the lake *Manitowaban*."

The writer proceeds to say:

"This section of North America was first visited by the French. Chevalier de la Vérandrye built a fort at the mouth of the Assiniboine in 1731. The French continued to trade there alone for many years, but in 1767 the first English traders visited it, and soon several rival companies were in operation. These finally dwindled into the famous North West Company, which in its turn was absorbed by the Hudson's Bay Company, chartered

by King Charles II in 1670. The latter Company having sold a tract of land to the Hon. Thomas Douglas, Earl of Selkirk, on both sides of the Assiniboine and of the Red Rivers, his lordship planted there, in 1812, a colony known by the name of Selkirk Settlement, Red River Settlement, or also Assiniboia. In 1836 the Hudson's Bay Company repurchased from the heirs of Lord Selkirk the same tract of land ceded to his lordship in 1811, and continued to exercise authority over that portion of Rupert's Land by the appointment of the Governor and Council of Assiniboia, which, in course of time, especially after the settlers had declared independence of trade in 1849, formed a rather independent administration for the local affairs in the colony, the limits of which extended but fifty miles around Fort Garry. It is that colony that now forms the greatest part of the new province of Manitoba.

The Hudson's Bay Company never claimed any proprietary rights on the North West Territories proper. These territories formerly included nothing but the lands east of the Rocky Mountains, watered by the rivers running towards the Arctic sea. The Charter of the Company merely included Rupert's Land, *i.e.*, the lands watered by the tributaries of Hudson's Bay.

These two immense portions of country outside of the province of Manitoba are now known by the same name of North West Territories.

In March, 1869, the Hudson's Bay Company agreed to hand to the Imperial Government their territorial rights and governing responsibilities, and on the 16th of July, 1870, England handed the whole to the Canadian government. It was during that period that the Red River troubles took place. The transactions between England and Canada, as well as the Hudson's Bay Company, having been made without consulting and even paying any attention to the government and people of Assiniboia, a deep feeling of uneasiness arose, and the Canadian authorities, coming into the country before the transfer, met resistance. In the meantime a provisional government was formed by the settlers to secure their rights and come to an agreement with the Dominion of Canada, delegates were sent to Ottawa for that purpose and treated with the proper authorities. England urged the Ottawa Government to satisfy the people of Red River. Then the Bill of Manitoba and other guarantees were agreed to, and thereby the entry of Manitoba into the Confederation was effected.

Is in the extreme north west of the Province. It is traversed by White Mud River (Rivière Blanche), a beautiful stream of pure water, but named White Mud by the old settlers from a kind of chalk or white clay, found in the vicinity of the lake, with which the natives were accustomed to plaster their houses. The river is well supplied with fish and is navigable for lake steamers for about six miles. Pine Creek, Squirrel Creek, Rat Creek, Big Grass River, etc., afford fine facilities for good water. Population about 1000. Number of voters 426.

The boundaries of the City are as follows: "Commencing where the northerly limit off lot 224 in the Parish of St. John, according to the Hudson Bay Company's Register, strikes the water's edge of the Red River; thence North-westerly along the said limit of said lot to where the same intersects the eastern limit of the main highway, from Winnipeg to the lower parishes; thence along the said highway southerly across the said lot 224; thence North-westerly along the southerly limit of the said lot to the rear thereof; thence southerly along the rear of the lots in the settlement belt to the westerly angle of 249, originally bought from the Hudson Bay Company by William Drever; thence south-easterly along the southerly limit off the said lot 249, to where

the same would be intersected by the extension of the easterly limit of the street laid out by the said Hudson's Bay Company between lot pensioner's 54 and lot 1212, fronting on the Assiniboine River; thence southerly, along the east limit of the said street to the water's edge on the said Assiniboine River; thence along the latter, easterly to the Red River; and thence down the westerly edge of the same with the stream to the place of beginning." The present Mayor of the City is the Hon. W. N. Kennedy, his second term of office, being reelected at the annual election in January last; he is also Registrar for the County of Selkirk. The City is well laid out with wide streets, Main street being the principal, on which are already many fine and handsome brick buildings among which are the Pacific Hotel, (unfinished) the dwelling of Mr. Hespeler, immigration agent, the under part being occupied as a store and offices, the Custom house, Dominion Lands office, Hudson Bay Company's Land offices, Bertrand & Prud'homme's dry goods store, Cronn's Restaurant, the Ontario Bank, the Merchants Bank, Hon. Mr. Bannatyne's extensive grocery establishment, Ashdown's hardware store, the General Post Office and the new City Hall and Market. In the course of the present year several large buildings will be added. This fine street will in a short time be nearly equal to King Street of Toronto, or St. James street of Montreal. The import entries at the Custom House are rapidly increasing, the total value of Imports for the year ending 30th June, 1875, being \$1,243,309, on which a duty of \$171,430,86 was collected, and then remaining in warehouse under Bond, goods to the value of \$31,822 on which was a duty of \$14,344,47 of the imports to the value of \$782,284 were from the United States. The total exports for the same year, amounted to \$588,958. The value of lots within the City limits range from \$50 to \$3000. Among the educational establishments in the City are the Central, and the North Ward Public schools, the former attended by pupils of an intermediate grade; the latter is for primary pupils; the Wesleyan Educational Institute; the Manitoba College, under the auspices of the Presbyterian Church; the Roman Catholic Public School in the West Ward, and St. Mary's Academy in the East Ward. There is also in St. Boniface Parish, without the City limits on the East side of the Red River, beautifully situated, St. Boniface College, under the auspices of the Roman Catholic Church, an excellent and popular educational institution, established for many years. St. John's College is a similar institution, under the auspices of the Church of England. It is also prettily located in the parish of St. Johns just outside the City limits and has been in existence for many years.

The Press is represented in Winnipeg by the "Free Press" (Daily Evening), published by Messrs. Kenny & Luxton, and the "Manitoba Free Press" (Weekly), published by the same. The "Standard" (Weekly),

published by the Standard Printing and Publishing Company. The Press is also represented in St. Boniface by "Le Metis" (Weekly), the French speaking organ. There are several Insurance offices doing business in Winnipeg, and the City owns a powerful Steam Fire engine, having tanks of large capacity in different parts of the City. A Hook and Ladder, and Hose and Engine Company is also well and efficiently organized. There are two Steam saw mills, and a planing mill, the capacity of one being about 12,000 feet per diem, and the other 26,000 feet. The City is well supplied with Hotels, kept in first-class style. In conclusion we refer our readers to our ADVERTISERS BUSINESS CLASSIFIED DIRECTORY, for the principal Professional and Business men of the City and the whole province.

**ST. JOHNS,**

Is situated on the north limits of the city of Winnipeg and of the Parish of St Boniface. In 1820 the Rev. J. West came out from England as Chaplain to the Hudson Bay Co. One of his first works was the erection of a rude school house at St Johns, where he commenced to educate a few children. This building served also for a church. Mr. West only remained in the country for three years. He was succeeded, in 1823, by the Rev. P. Jones as chaplain of the Company. The Rev. Archdeacon Cochrane came in 1825, and commenced his long ministerial service of 40 years in the country, in the chapel erected by Rev. Mr. West. After a time the wood building was replaced by a stone building, which was known as the Upper Church, and in 1862, this in turn was replaced by the present St John's Cathedral. St Johns also possesses a very extensive College, known as St. John's College, particulars of which will be found in the miscellaneous directory.

**ELECTORAL DIVISION, No. 18,  
OR ROCKWOOD.**

No. of voters 584. Population about 1200.

The Electoral Division of Rockwood, comprised of twenty-four Townships, is the most extensively peopled rural Division in the Province. The population is made up almost entirely of people from Ontario who have immigrated since the creation of the Province. It possesses varied and valuable resources, being made up of rich prairie and heavily timbered land and contains inexhaustible quarries of gray limestone, very valuable for building purposes. The route of the Canada Pacific Railway lies across this Division. The settlements are thrifty, though the railway line reserve has been and is a considerable draw back to their growth.

ELECTORAL DIVISION, No. 20,  
OR ST. BONIFACE.

This Division comprises the Town and the Parish of St. Boniface, the Parish of Notre Dame de Lorette and the Settlement of Prairie Grove. No. of voters 215. Population about 1000.

ST. BONIFACE,

Which is now the Metropolitan See of the R. C. Ecclesiastical Province of St Boniface, was founded, in 1818, by Rev. J. N. Provencher, who was sent from Quebec with Rev. S. J. N. Dumoulin, at the request of Lord Selkirk, to establish a mission at Red River. The first chapel was built the year after their arrival. Rev. J. N. Provencher built the first stone house in the country. It was a small one, intended for his residence, and as an experiment to know whether he could succeed afterwards, with the material and hands in the country, to build a stone church. In fact, the success of the experiment induced him to erect a large stone cathedral, in 1833, which was destroyed by fire on the 14th December, 1860. The actual cathedral was erected, in 1862, by His Grace the Most Rev. Alexandre Taché, Archbishop of St Boniface. Rev. J. N. Provencher was nominated Bishop of Juliopolis, *in partibus*, and auxiliary to the Bishop of Quebec in 1820, Vicar Apostolic of the North West in 1844, and Bishop of St Boniface in 1849. Died 7th June, 1853. Archbishop A. Taché was elected Bishop of Arath and coadjutor to

the Bishop of St Boniface in June, 1850. Consecrated 23rd November, 1851, and succeeded to Bishop Provencher in June, 1853.

St Boniface is the proposed terminus of the Pembina branch of the Canadian Pacific Railway, which is to connect with the Trunk line near the point where this Main line crosses Red River. With these railway connections, the water facilities and the central position of the place, this locality will always be one of the most important places in the Province. The Town is well laid out with large and straight avenues and streets, and is growing with such rapidity as to become shortly a large and flourishing city. It possesses already a large woollen mill, three stores, well supplied, and several hotels, shops, general agencies, &c.

The Cathedral and the Archbishop's Palace are built of cut stone, from a quarry lying twelve miles below St Boniface, on the bank of Red River. The church is richly finished, and on the 24th June, 1875, a splendid organ, the first in the Province, was presented by friends from the Province of Quebec and inaugurated on that day.

St Boniface has also a college, a boarding school for young ladies, a large hospital, and an orphan asylum. These three last institutions are under the direction of the Sisters of Charity.

*Le Méis*, the organ of the French population, is printed here, and it has a very good job printing office.

The Town connects with Winnipeg, by means of a steam ferry, crossing Red River every five minutes. Mail daily.

#### THE MENNONITES.

The publishers intended to give the names of the Mennonites, settled in the Province, but on account of many new settlers arriving, they have thought proper to wait until next year, when they will be in a better position to give a complete list, with all the details regarding their settlements.

The actual settlement on the east side of Red River contains eight Townships in which are located 31 villages, and are settled by 414 families; each village comprises from six to twelve houses. The Townships are:—Township 4, Ranges 6, 5, 4, east; Township 6, Ranges 6, 5, east; Township 5, Ranges 6, 5, east; Township, 4, Range 6, east. The following are the names of the villages:— Grosmeide, Kronstnal, Postwall, Osterwick, Steinbach, Schoenfeld, Rosengart, Friedrichsthal, Blumenstein, Schoenberg, Schoenmiese, Shoenan, Rosenfeld, Blumenfeld, Grunfeld, Steinreish, Hochstadt, Bergfeld, Gnadefeld, Schoensec, Hochfeld, Blumenhof, Chortitz, Blumenort, Vannenan, Bergthal, Schoenthal, Blumengart, Rosenthal, Schoenmiese, Ebenfeld. There were in the spring 5,600 acres under cultivation, and about 5,000 bushels of grain were sown, and 3,200 bushels of potatoes planted. The settlement had 160 horned cattle, 65 horses, 22 sheep, and poultry at nearly every barn.

A new settlement is formed along the boundary line on the west side of Red River by new comers.

If for the United Kingdom.—A letter wholly unpaid is forwarded, but is rated with double postage, that is, 5 pence sterling per ½ ounce. If it is insufficiently prepaid, it is charged at the same rate, deducting what may have been prepaid.

If for other British Colonies or Foreign Countries (except France).—A letter whether wholly unpaid, or only insufficiently paid, is sent to the Dead-Letter Office, Ottawa.

Newspapers to France, and Samples are sent at the above "French Book Post" rates.

A "book packet" may contain any number of separate books, publications, works of literature and art, maps or prints, photographs, daguerotypes, when not in glass or in frames containing glass; any quantity of paper, vellum, or parchment (to the exclusion of letters), and the books, maps, papers, &c., may be either written, printed or plain, or any mixture of the packages must be open at both ends or both sides.

*Patterns.*—Rates between Canada and United Kingdom and France, same as for Book Post.

Patterns or samples must not be of any intrinsic value; and this rule excludes all articles of a saleable nature, and whatever may have a value of its own, apart from its mere use as a pattern; nor must the quantity of any material or article sent as a pattern or sample be so great that it could have on this ground an intrinsic value.

Patterns, &c., must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, and such like, which cannot be sent in open covers, may be enclosed in bags of linen or other material, simply tied at the neck, or provided that bags be transparent, they may be entirely closed, if they are for delivery within the United Kingdom. Bags, however, entirely closed, even though they be transparent, must not be used for the transmission of seeds to foreign parts. Patterns and samples of merchandise, not exceeding the weight of eight ounces, addressed to the United States, may be sent at the rate of ten cents for each package.

A packet of patterns of samples sent to France or Portugal, must not exceed 18 inches in length, and 12 inches in width or depth; a packet to any other place abroad must not exceed 24 inches in length, or 12 inches in breadth or depth.

The limits of weight are as follows :

Registration Fee,—5 cents.

Parcels can only be sent by Post to places in Canada. Postages and registration fee must be pre-paid. The limit of weight to Parcels is 4 lbs.

*Transmission of Patterns and Samples within the Province of Canada.*

Patterns or samples of merchandise, and goods for sale, may be posted in Canada, to be forwarded to any place within the Dominion, on pre-payment by postage stamp of a rate of one cent, per four ounces, under the following regulations:—

I.—Patterns or samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, and so forth, which cannot be sent in open covers, may be enclosed in bags of linen or other material, fastened in such a manner that they may be readily opened, or in bags entirely closed, provided that they be transparent, so that the officers of the Post Office may be able to satisfy themselves as to the nature of the contents.

II.—The packet may bear on the *outside* the address of the sender in addition to the address of the person for whom it may be intended—also a trade mark and numbers, and the price of the articles enclosed; *inside* there must be no enclosure but the samples or patterns themselves—the particulars, however, of the trade marks, numbers and price, may be marked on the articles themselves instead of on the outside of the packet, at the option of the sender.

III.—Any sample or pattern packet containing a letter, or otherwise violating the conditions of the preceding rules, is to be rated and treated as a letter.

IV.—The rate of 1 cent per four ounces is to be pre-paid by postage stamp,—and if such rate be not fully pre-paid by the stamps affixed, the package is to be rated with the deficient postage, and a fine of five cents in addition.

V.—Packets of samples or patterns may be registered on pre-payment by postage stamp of a registration fee of five cents in addition to the postage rate—and provided such packets be duly handed in to the Post Office for registration.

A registration receipt or certificate should always be obtained for such packages when presented for registration.

VI.—No packet of samples or patterns must exceed 24 ounces in weight; any packet exceeding that weight is to be sent to the Postmaster-General.

*Penal Clause.*—The Act contains the following penal clauses: To enclose a letter or letters, or any writing intended to serve the purpose of a letter, in a parcel posted for the parcel post, or to enclose a letter, or any writing, or make any written marks to serve the purpose of a letter, or to enclose any other thing in a newspaper, posted to pass as a newspaper, at the rate of postage applicable to newspapers, (except in the case of accounts and receipts of newspaper publishers, which are permitted to pass folded within the newspapers sent by them to their subscribers), is an offence punishable by a penalty of not less than ten and not exceeding forty dollars.

merchandise, when posted in Canada for any place in Canada, the rate of postage is one cent per four ounces in weight, to be pre-paid by postage stamp, or by the use of stamped Post bands when suitable for the purpose. No letter or other communication intended to serve the purpose of a letter must be sent or enclosed in any article of miscellaneous mail matter; and all transmissions authorized by this regulation must be put up in covers, open at the ends or sides, or in such manner as to admit of inspection to ensure compliance with this condition. Miscellaneous mail matter as above specified, when addressed to the United States or to Newfoundland, may be forwarded, when pre-paid the one cent per 4 oz. rate, as if addressed to a place in Canada, with the exception of packets of samples and patterns of merchandise addressed to the United States, on which the special rate of ten cents must be pre-paid.

1. The Post Office Savings Bank commenced operations in Ontario and Quebec on the 1st April, 1868.

2. The direct security of the Dominion is given by the Statute for all deposits made.

3. At each Savings Bank Post Office the Savings Bank regulations may be read by the public, giving full information with respect to the mode of depositing and withdrawing money, and these regulations are printed upon the cover of the Pass Book supplied to each depositor.

4. Any person may have a deposit account, and deposits are received daily during the ordinary hours of Post Office business, of any number of dollars, from \$1 up to \$300, the total amount which can be received from a depositor in any one year, except in cases to be specially authorized by the Postmaster-General.

5. The Postmasters of the Savings Bank Offices will act as agents for the receipt of the money deposited for transmission to the Postmaster-General, and for the payment by the Postmaster-General of money withdrawn by depositors.

6. Each depositor is supplied with a Pass Book, and the sums paid in, or withdrawn, are entered therein by the Postmaster receiving or paying the same. In addition, a direct receipt for each amount paid in is sent to the depositor from the Postmaster-General, and the Postmaster-General will issue a cheque payable at any Post Office Savings Bank desired, for any sum withdrawn.

7. Every depositor's account is thus kept with the Postmaster-General, and a depositor may pay into his or her account with the Post Office Savings Bank, at any of the Savings Bank Post Offices, which at the time may best suit his convenience, and exercise the same choice in drawing out money, subject only to the obligation of producing the Pass Book, in proof of identity, whenever paying in or drawing out deposits.

8. Interest at the rate of four per cent. per annum is allowed on deposits.

9. Postmasters are forbidden by law to disclose the name of any depositor, or the amount of any sum deposited or withdrawn.

10. No charge will be made to depositors on paying in, or drawing out money, nor for postage or communications with the Postmaster-General in relation thereto.

11. The Postmaster-General will always be ready to receive and attend to all applications, complaints, or other communications addressed to him by depositors or others, relative to Post Office Savings Bank matters.
