Evening Mercury.

FRIDAY EV'NG, NOVEMBER 8.

ON STRIKE.—The journeymen saddle, harness and collar makers of Toronto are on strike at present. They were getting \$9 a week and want \$10, which the masters refuse to give.

INDUCTION.—On Wednesday the Rev. Mr. Wallace, late of Thorold and Drummondville, was inducted to the charge of the West Presbyterian Church of Toronto, in connection with the Canada Presbyterian Church.

HOME AGAIN.—Messrs. J. and A. Pratt, for the last twelve months on a visit to their friends in England, returned to Guelph last Wednesday, and appear to have enjoyed their sojourn in "merrie England" very much.

THANKSGIVING DAY.—The Moderator of the Synod of the Canada Presbyterian Church has recommended the observance of Thursday, 21st, as a day of thanksgiving for the favourable harvest, the general commercial prosperity of the country, the peace and security which we enjoy, and freedom from epidemic disease.

POULTRY SHOW.—At the Poultry show under the auspices of the Ontario Poultry Association, none being held in Toronto, the following prizes were awarded to exhibitors from this section:—Cochin China chickens of 1865, highly recommended, Rev. W. F. Clarke; coloured Dorkings, 2nd, Mr. F. W. Stone; Dorking chickens, 2nd do; Bantams, clean legged 1st, Mr. Clarke; Aylesbury duck, 1st, Mr. Stone; do, highly commended Mr. Clarke; Geese, any variety, 2nd, Mr. Clarke; do highly commended, Mr. Stone.

FLAX MILLS CLOSED.—We regret to learn that the flax mills of Messrs. Gooderham and Worts, at Streetsville, are about to be closed in consequence of the want of a market for its manufactures. The main product of the mill has been grain bags—an article placed out of the market by the cotton bags now in use. The suspension of the mills throws about 150 persons out of employment, and deprives the vicinity of a home market for the large quantity of flax grown in the adjoining townships.

SAD AND FATAL ACCIDENT.—John Peat, son of Thomas Peat, near the village of Ratho, township of Blandford, on Wednesday the 2nd ult., went to his father's field for a horse with which he intended to go to the Ayr Show, and nothing was seen or heard of him till the following Friday noon, when he was found lying in the field badly kicked and bruised by a vicious horse. He was just barely alive, almost unable to speak and died that same evening.

WATERLOO OIL WELL.—There is a stagnation in the boring business up in Waterloo. The efforts of the company that sought for oil at the depth of 1100 feet and found brine, have slightly exhausted their strength, and they have halted by tacit consent and are taking a rest. The brine has not yet been tested, and the Chronicle not liking this inactivity, wants to know why there is not a meeting called? It is probably because the Company has reason for believing that Waterloo is not a second Goderich.

CLOTHES STOLEN.—On Wednesday night last Mrs. Adam Robertson's clothes-line was stripped of a quantity of valuable clothes. It should be remembered that the propensity to become possessed of property by the easiest means, and by the shortest route is rapidly increasing; and nothing which can tempt a thief should be needlessly exposed. It may save a little work to leave clothes out all night, but it would save the owner's loss, and be one sin less charged to somebody's account, if they were taken in at night and put out again if necessary in the morning.

THEFTING.—Last night a beautiful and very valuable snuff-box was stolen from the Arts' Exhibition. The lid and the bottom were of onyx and amethyst, and the setting gold. The box was the property of Mr. John Mickle, who has lately returned from his European tour and exhibited it, with a number of other curiosities. It is evident there is somebody in Guelph who is of a more practical than theoretical turn of mind, one who prefers something real to mere empty show, and who would rather possess something intrinsically valuable than look upon the masterpieces of a Titian or a Correggio. Seriously the thief was a most foolish fellow. Any thief is so who will steal an article so rare, for there are fair grounds for the supposition that he stole it on account of its value, and not for its uniqueness, and any attempt on his part to dispose of it will be sure to bring him into an immense amount of trouble. The wisest thing that the person who took the snuff-box ever did would be to return it quietly, and save himself the shame and punishment attendant on detection and prosecution.

CHEAP.—The charge for thrashing an editor in Guelph, according to a sentence passed by the Police Magistrate there yesterday, is \$2.50. Thank Heaven the

District Rifle Match.

The following is the result of the District Battalion Match, ranges 300 and 500 yards, five shots at each range:

Table with 2 columns: Team Name, Score. London Light Infantry, 7th 52 69 111; Lambton Battalion, 27th 50 56 106; Middlesex Battalion, 26th 51 46 97; Huron Battalion, 35rd 48 47 95; Wellington Battalion, 30th 57 34 91; Perth Battalion, 28th 53 29 82; G T Battalion, St. Mary's 44 21 65

The following is the score made by the Wellington Battalion in the above match: 300 yds 500 yds 71; Corporal McDonald, Guelph 2224-13 2222-10 25; Private Heath, " 2022-3 2022-10 27; Private Holiday, " 2323-13 2034-14 27; Private Jack, " 2342-13 2020-2 15; Private Smith, " 2202-2 2022-10 19

The fourth match was for Regulars and Volunteers, Snider Enfield rifles, ranges 200 and 500 yards, 6 prizes, from \$20 down to \$3. None of the Wellington Battalion were successful in this match. The highest number of points made was 33. Sergt. Emalie, Guelph, 27; Lieut. McBride 25; Corporal McDonald, Bramoss, 25; and Private Smith, Bramoss, 25.

The fifth match was for Volunteers only, Spencer carbines, 150 and 200 yards; prizes five in number ranging from \$15 to \$4.50. The number of entries were sixty-two. Charles Heath, Guelph, took the fourth prize, making 28 points. The one who took the first prize made 30 points. In this match James Sturton, Guelph Artillery Company, made 27 points.

Liability of Express Companies.

A case was recently tried in Brooklyn, N. Y. in which an express company contended a claim of about two thousand dollars for the loss of a trunk and its contents. The defence set up was that on the back of the receipt given to the owner of the trunk it was stipulated that the company would not hold itself liable for any jewelry nor for any value over one hundred dollars. Such printed notice, it was contended, was a contract which, when accepted, bound the owner of property entrusted to their care. The judge held that in the hurry of railroad travel it would be impossible for every person to read the printed matter of such receipts before accepting them, and he therefore instructed the jury to bring in the verdict, which they did for the full amount claimed. This will be looked upon by the travelling public as a very just decision. If it were otherwise it would be a profitable business for the employees of express companies to lose the trunks of travellers, very few of which contain as little as one hundred dollars' worth of wearing apparel and other necessities. A lady's silk dress would almost reach that amount in value.

Export of Cheese and Butter to Britain.

We find, on referring to the British Board of Trade returns for 1865—the latest we can readily lay our hands upon—that in that year 95,587, 024 pounds of cheese were imported into the United Kingdom. British North America, one of the finest dairy countries in the world, occupied a very unsatisfactory position with regard to the quality which it furnished towards the great quota of food of the British people, for the whole of its cheese exports to Britain during that same year only amounted to 1,196,096 lbs.—a figure remarkably trivial compared with the vastness and resources of this country. The extent of our butter export was equally unsatisfactory. The returns already referred to show that in 1865 Great Britain imported 121,376,304 lbs. of butter, 3,541,216 lbs. of which came from "British North America." These figures should commend the earnest attention of every cheese and butter manufacturer in Canada. They have only to use a little extra care and attention, and see that a uniform quality of good flavor is placed on the English market, in order to take high rank in a market so vast that it can never be monopolized. They would also do well to remember that one county alone in the State of New York—Herkimer, and not the best grazing one either—sell butter and cheese to the amount of four millions annually, simply because its manufacturers spared no expense to produce a good article, and have now begun to receive their reward.—Gazette.

On Friday evening last, a house between

Berlin and Bridgeport, belonging to Mr. Wm Moyer took fire, and as it was of wood, and a strong wind blowing at the time, it was totally destroyed. The value of it was \$200. It was occupied by a German family who lost nearly all they possessed.

ART EXHIBITION LAST NIGHT.—There was again a large attendance at the Art Exhibition last night. The Band was present as before and regaled the company with some choice music. Several gentlemen also varied the proceedings by singing comic and sentimental songs. Messrs. Martin and Dyson played several duets in the course of the evening, and altogether the night was pleasantly spent. The Exhibition will be open again to-night, when Mr. James Ferguson will give a recitation, and songs will be given by Messrs. Anderson, Kribb, Brown, Klotz and Kaiser. Duets and choruses will also be rendered by Messrs. C. & H. Walker, and Wheatley, and Messrs. Savage, Jones, Burr and Brown, also instrumental duets by Messrs. Martin and Dyson. Mrs. Budd will preside at the piano.

SUDDEN DEATH.—The London papers state that Mr. George Hornal, an old citizen, for a long time in the employ of Mr. McCormack, confecturer, died suddenly on Wednesday morning. The deceased had been confined to his bed for about a week or ten days, and upon arising, to get out of bed, was taken with a severe cough, which caused the breaking of a blood vessel. He leaves a wife and family to mourn his loss. The relatives of the deceased formerly resided in Guelph.

The severe gale of the past few days must have done much damage to lake shipping. The steamer Clinton, which left for Saginaw on Sunday last, was compelled to put back to Goderich on Sunday evening. The schooner N. C. Ford lay at anchor in the offing on Sunday, but managed to get into the harbor on Monday morning, minus her tow-gear. Her loss is estimated at \$1,500, and is covered by insurance. Beyond this we have heard of no serious disasters.

Parliament of Canada.

SENATE CHAMBER, Ottawa, Nov. 7th.

His Excellency having retired, after delivering the Speech, Senator Campbell introduced a Bill relating to Railways. Senator Campbell moved that His Excellency's Speech be taken into consideration on Monday.—Carried.

Senator Campbell moved that the rules of the late Legislative Council of Canada be the rules of the Senate until otherwise provided.—Carried.

The Senate then, at 4 o'clock, adjourned until three o'clock on Monday afternoon.

HOUSE OF COMMONS, NOV. 7TH.

The Commons having re-assembled in their Chamber, Sir John A. Macdonald introduced a Bill respecting the administration of the oath of office.

Sir John A. Macdonald moved that His Excellency's Speech be taken into consideration to-morrow.—Carried.

Hon. Mr. Deyton inquired whether there was any truth in the rumour that one or more of the gentlemen on the Treasury benches had sent in their resignations. He said it was a matter of importance that the public should be informed of the truth of these reports, and also when explanations would be given.

Sir John A. Macdonald, in reply, said that the Secretary of State for the Provinces, Hon. Mr. Archibald, having failed to secure his seat in the House, placed his resignation in His Excellency's hands, and it had been accepted. That gentleman now merely held office until his successor was appointed. The Hon. Minister of Finance had also resigned his office. His resignation had been accepted, and he merely holds office till his successor should be appointed. Explanations would be given to-morrow.

NOTICES OF MOTION.

The following notices of motion have been given to the Commons:—Mr. Mackenzie gives notice that he will on Monday next, move an Address to His Excellency the Governor General, praying His Excellency to cause to be laid before this House a return of the sums paid out of the public chest, to defray the expenses of the elections for this House in the respective electoral divisions of the Dominion, distinguishing the particular services for which the payments were made and allowed by the government to the returning officers, and also the names of all parties to whom such monies were paid by the government and the returning officers.

Hon. J. H. Cameron is to enquire of Ministers whether in their Post Office Bill, or otherwise, they intend to submit a plan to Parliament during the present session for a Government Savings Bank.

SILVER COIN.

Mr. Bourassa will, on Monday next, move for a select committee for the investigation of all questions relating to the fixing of the legal value of silver coin, with power to send for persons and papers—said committee to report by Bill or otherwise.

Latest from Ottawa.

Mr. Fisher, of New Brunswick, will move the answer to the address in the Commons, seconded by Mr. Simard, of Quebec.

The dissatisfaction at Mr. Cauchon's appointment to the Speakership of the Senate is universal among members of the Senate. Some of that body openly announced their determination to vote for the election of their presiding officer, if the Government exercised the prerogative in so offensive a way.

It is generally understood that the Hon. Mr. Rose is likely to go into the Government to fill the vacancy caused by Mr. Galt's resignation. It does not seem to be settled fully how the offices of Finance, Customs and Excise are to be distributed between Messrs. Tilley, Howland and Rose. On the one hand, it is reported that Mr. Howland is to get the Finance Department; on the other it is said that Ministers would be glad to give the management of the finances into Tilley's hands, thus availing themselves of his position in the Dominion. Parliament, which he enters as an untried man so far as Ontario and Quebec are concerned, with a standing far different from that of Messrs. Galt and Howland. It is said that Mr. Tilley is afraid to undertake the task.

Garibaldi's Son.

Menotti Garibaldi, who has been figuring as the spirited Commander in Chief of the Italian revolutionary forces during his father's imprisonment in Caprera, is but twenty-seven years of age. We came across the other day, in a book published in 1859, a series of autobiographical sketches of the elder Garibaldi's life, translated by his friend and admirer Theodore Dwight. After his prescription in Italy in 1834, he went to Brazil, and before long was ardently engaged in assisting the struggling Republic of the Rio Grande. He married while there, amid the perils and hardships of war, the heroic Annita, who in September, 1840, became the mother of Menotti. The boy was cradled in danger. When but twelve days old he was hurried with his mother to go with the little army over mountains and plains and almost into battle. When he was three months old he was carried along a toilsome march, made desperate by storm and famine. For days the water, flooding the plains, was up to the bellies of the horses, and in crossing the rivers the father slung the little bundle of humanity in a handkerchief which he tied around his neck. The earlier years of his life were all thus passed in an atmosphere of war and tumult, and his father's subsequent career has left him little leisure to do otherwise than to follow and study it. What wonder that an early actor in the stirring scenes of Italian revolution.

The King of Prussia is said to have had a narrow escape of his life in a Wurtemberg railway. The train in which his Majesty was travelling was upset through running into a cart drawn by an oxen, near Gippingen, which was crossing the line. The cart was smashed to pieces and a child, who was inside, had his

To-day's Despatches.

Paris, Nov. 6.—The Emperor of Austria left Paris yesterday for Vienna. Florence, Nov. 7.—In the recent engagement near Monte Rotondo, the Papal troops were badly beaten until the arrival of the French troops, when the tide of battle turned.

Paris, Nov. 7.—There have been serious riots, incited by the party of action, in different parts of Italy, particularly at Milan, where it was found necessary to call out the troops to quell the disturbances. Many of the rioters were killed and wounded.

London, Nov. 7th, noon.—The disturbances caused by want of employment and scarcity of food continues in Devonshire. Riots are reported at Torquay, Exeter, and other places in the country. By the efforts of the authorities the troubles at Exeter, the capital of the county, were suppressed, and the town is now quiet. Many of the rioters there are now under arrest. A Royal Commission, to enquire into the Protestant Church establishment in Ireland, has been appointed, with the Earl of Stanhope as chairman.

The London Times of this morning has an editorial on the Alabama claims, commenting with much severity on the last despatch on the subject addressed by Secretary Seward to Mr. Adams.

The official returns of the Bank of England show a decrease of £404,000 stg. in the amount of bullion since Oct. 31st.

London, Nov. 7th.—The Italians assert that nine thousand French soldiers under command of Gen. Poles, belonging to the Division which first reached Rome, came to the assistance of the Papal forces during their last engagement with the insurgents, and the timely arrival of these reinforcements turned the tide of battle and caused the defeat of Garibaldi.

Paris, Nov. 7.—The *Moniteur* of to-day has announced that the Sultan of Turkey has ceased and that no more troops will leave that port for Italy.

London, Nov. 7.—The *Times* of to-day predicts that, should Napoleon fall in bringing about a general Conference of the European powers to settle the Roman question, he will abandon the defence of the temporal power of the Pope, and leave Italy free to decide upon the future position of Rome.

St. Petersburg, Nov. 7.—It is reported here on good authority that the Sultan of Turkey is making unusual military preparations. In support of the report, it is stated that 50,000 needle guns have recently been purchased by the Turkish government, while large shipments of rifled guns have been made to the Turkish forces in Asia. It is also known that the government has been restoring the Citadel, completing the walls and otherwise strengthening the fortifications of Kars.

Berlin, Nov. 7th.—All the towns in Schleswig-Holstein have joined the Zollverein, with the exception of Altona. The election of Deputies to the next Prussian Diet took place to-day. All the successful candidates belong to the progressive party.

THE VICE-REGAL SPEECH.

Paucity of material from which to form the Speech from the Throne has often been the great difficulty with Ministers in Canada. But on the occasion of the opening of the first Parliament of the Dominion of Canada this cause of complaint in former times cannot be preferred. Confederation is a fruitful theme on which His Excellency and advisers may safely descend to any length, and also make it the text for innumerable promises. The programme of legislation got up by the government is in truth most comprehensive, which we feel sure they will never, as a government, be able to see accomplished. Indeed the people of Canada may be thankful if the Federal Parliament be able to compass all the work sketched out in the next three years.

His Excellency begins by expressing his deep feeling of gratification that Confederation has been secured, and that his official position gave him an opportunity of assisting at every step of its creation. We believe him to be thoroughly sincere in what he says. Lord Monck since the first day when Confederation was proposed has labored unwearingly to have it accomplished, and it must be no less a source of pride than of satisfaction to him to be privileged to inaugurate our new political system by opening the first Parliament of the new Dominion. And while he sincerely congratulates the assembled wisdom on the auspicious circumstances which favor their first meeting, he expresses the no less sincere and fervent wish that the boundaries of the new Dominion will ere long extend from ocean to ocean. After touching on the powers and privileges which the new Constitution confers on the Legislature, he indicates the measures which it will be necessary for them to frame in order that it may be successfully and effectively worked. These are of the first importance and comprehensive in their nature. There is the amending and assimilation of the laws existing in the several Provinces relating to the currency, customs, excise and revenue; measures for securing a uniform postal system throughout the Dominion; for the management of the public works therein; for devising and carrying into effect a proper and well-considered system of military organization and defence; for the administration of Indian affairs; for assimilating and amending the patent laws, the criminal laws of the different provinces, and those relating to bankrupts and insolvents. These questions are all of paramount importance to the new Dominion, and its prosperity in a great measure will depend on the way in which they are treated.

The early construction of the Intercolonial Railway, and the beneficial results which will assuredly follow in connecting geographically and commercially the different parts of the Dominion, and thus strengthening the legislative bond which now unites the Provinces, receive prominent notice. Parliament will also be called to take into consideration the best means for opening up the North-west to immigration and settlement. It is to be hoped its deliberations will lead to some practical result, and that ere long the rich and extensive Red River territory will become part and parcel of the Dominion. Our marine interests and fisheries are also pointed out as important subjects for legislation, besides the question of the privileges of Parliament, the election laws, and laws relating to contested elections.

The Commons have a paragraph specially addressed to them, in which they are asked to legalize the expenditure of the Government since July—since which time they have been spending the public money without the sanction of Parliament. His Excellency also adverts to the improvement which has taken place in the organization and efficiency of the Volunteers, and to the fact that by the liberality of the Imperial Government they are now all armed with the Snider breech-loading rifles. The abundance of harvest is referred to in terms of congratulation and thanksgiving, and the Speech winds up with the fervent hope that the new nationality may prove a blessing to us and our posterity, and form a fresh starting point in our moral, political and material advancement.

RUMORED APPOINTMENTS.—Mr. Patteson, a lawyer of Toronto, has been appointed Assistant Secretary of the Province of Ontario. Mr. Tarbut, of Quebec, has been appointed keeper of the House. John Sandfield's government is determined to pursue an economical policy. The Sergeant-at-Arms will probably be a gentleman from the old Niagara District. So says the St. Catharines Journal.

A BAD SEASON.—Sportmen—"I can assure you, what with the rent of the moor, and my expenses, and what not, birds have cost me—a—a sovereign!" Keeper—"A'weel, sir! 'Deed

Financial Reform.

The idea is gradually forcing itself upon the minds of the public that Mr. Galt's plan of a national currency, or some modification of it, is necessary to the development of trade, the avoidance of gold panics, and the general prosperity of the people. Even the Witness—usually conservative on matters of finance—admits that something must be done. In a late issue it says: "The week has been an eventful one, owing to the failure of the Commercial Bank. Money was in great demand after that event, and in view of a probable panic, was very difficult to be had. Had a run on the Western banks been established, as appeared likely at one time, they would have had to suspend, and the business of the country would have been brought almost to a stand-still. This would have seriously affected merchants all over the country; the prices of produce would have gone down, and no one can say where the trouble would have ended. Such a danger seems to point to the extreme desirableness of a National banking system, in which government stocks, at market value, shall always be deposited with the government, sufficient to cover all the bank notes issued by each bank, and ten per cent. more. On these stocks, the banks would draw interest, and in case of any bank failure, the government would at once realize the stocks and redeem the bills of said bank.

A SEAT FOR MR. RICHARDS.—A day or two ago we copied a paragraph from the St. Catharines Constitution to the effect that Mr. Richards was to be provided with a seat in that district. Later information showed that John Sandfield Macdonald had been trying to induce Mr. Donald Robertson, member for Niagara Town and Township in the Ontario Legislative Assembly, to retire, and allow Mr. Richards to run for that constituency. Negotiations went so far that Mr. Robertson proceeded to Ottawa, no doubt to arrange the terms and fix the solatium for his retiring. It turns out, however, that no agreement has been come to, for the Globe's Ottawa correspondent says Mr. Robertson has returned without resigning his seat, and it is not expected he will do so. Mr. Richards must therefore look in another direction.

THE GEORGIAN CASE.—This case which has been the subject of great public interest for some time past, was finally heard before the Chancellor at Hamilton last week. A decree was made in favor of the plaintiffs, giving over the propellor Georgian absolutely to the United States. As against the defendant Jacob Thompson, the bill was dismissed without costs, as his Council at the hearing disclaimed all interest in the vessel.

A "BULL" ON THE BENCH.—An Irish "bull" was perpetrated at Cork recently. After the grand jury of the quarter sessions had finished their business, it was suddenly discovered that they had sworn their witnesses on a copy of Thomas Kemp's, instead of the Scriptures. The whole proceedings were gone over again in consequence. "Thomas-a-Kemp's" is a very good book, nevertheless.

OPEN-HANDED.—The London Era mentions, to the credit of one American manager at least, that Mr. T. W. Robertson received, a few days ago, from Baltimore, the payment of fees to a considerable amount for the performance of his comedy "Caste" in that city. Such a spontaneous acknowledgment of an author's claim which could not be enforced in the present state of international copyright, deserves to be recorded.

The Cleveland Herald says: "James Gordon Bennett, late manager of the New York Herald, was arrested on Broadway on Friday morning for drunkenness and disorderly conduct. He resisted the officer, and fought all the way to the station. It is said he has quarrelled with his father, been dismissed from the Herald and has 'gone to the bad'."

PRUNING TREES.—Most people have more time to prune in the fall than in the spring. Choice kinds of vines should always be pruned in November, laid on the ground and covered with a little earth just before hard freezing begins. Apple and other fruit trees may also be trimmed with good effect immediately after the leaves drop off.

ORIGIN OF THE NAME OF GUTHRIE.—Once upon a time that "sair scanter for the crown," King David, came to Dervie. His servants desired a fisherman to get a fish for the King's supper. "Gut twa," cried his Majesty. "I'll gut three," cries the loyal fishwife. "Gut three, for ever thou shalt be!" cried the grateful monarch.—Names and Surnames. Honorable Mr. Justice Hagarty, in addressing the Grand Jury at Kingston on Friday, after the presentment had been read, expressed a hope that the Ashburn treaty would yet be so amended as to facilitate the giving up of a certain class of criminal fugitives to justice, without having to go through the many forms at present required by the law, and which cause so much delay and disappointment. He instanced the prompt delivery of Ethan Allen and the three others as one of the benefits arising from speedy action and hoped that the time was not far distant when like action would be taken in every case.

A COOL FRIEND.—Charles James Fox, the English statesman, being once at Ascot races with his intimate companion, General Conway, missed his snuff-box. The General was lucky enough to discover the thief, and seize him before he got clear. Upon this the man fell on his knees, and with many tears besought Fox to pardon him and not to expose him to ruin, for he was a poor weaver in great destitution. Fox was greatly affected and not only let the offender go, but gave him a guinea. Shortly after this he missed it again, and turning to the General he said, "My snuff-box is gone again?"—"Yes," replied the latter. "I saw him take it the second time, when you gave him the money, but I thought I wouldn't interfere again."

FRIDAY EVEN'G, NOVEMBER 8.

NORAH CUSHALEEN

OR THE
HAUNTED CASTLE.

Terry's delight at this discovery could not be restrained. At one bound he leaped over the couch, and danced about the chamber with wild extravagance.— Then rushing back he caught up one of the bars which had been removed, and was about to use it against that which remained, when the noise of the removal of the grating of their own chamber reached their ears and filled them with consternation. It was not the hour at which the jailer visited them, and they dreaded lest a discovery of their proceedings had been made, when liberty was almost within their grasp.

They had barely time to lay down their implements and rush to the other side of the chamber when a quick step was heard in the passage and the Captain appeared.

He had not visited them since the day when Andrew and Terry were brought as prisoners, and his presence at such a critical and exciting moment was ominous.

The keen eye of the Captain must have noticed the emotion which the prisoners could not conceal, had he not been himself mentally occupied and troubled. There was a cloud upon his brow, and a dissatisfied look on his face, as from some unpleasant inward feeling which he was striving to overcome.

Glancing for a moment at Hargreave, he gave him a bow so hurried that it might have been called a nod, then, addressing himself to Andrew he said—

'Mr M'Spartle, are you aware of the grave nature of the position you occupy? My messenger has returned for the fourth time from Waterford, and there is no reply to your letter.'

'Well, sir,' returned Andrew very gravely, 'It's very thoughtless o' my sister Jenny. I'm sure I wrote the letter in round text, that she might be sure to understand it. I hope her reply will come in a day or two.'

'I hope so too,' said Captain Jack. 'It will be a bad business for you and an unpleasant matter for me. I should be very sorry should the extremity be resorted to in your case.'

'And what may the extremity be?' asked Andrew, with an innocent air.

'Death by hanging?' replied the captain, with startling abruptness.

'Save us and keep us!' cried Andrew, with strongly expressed horror. 'Captain ye surely wadna murder me?'

'Can't help it,' was the answer. 'I am powerless in the matter. An inviolable oath guides us all.'

'Confound yer oaths,' rejoined Andrew. 'Is a man to be strangled in a hompen cravat because you and your men tak unholy oaths? My oesie, but that's pleasant, or else it's no.'

'In your case,' added the captain. 'I will extend the time to two days longer.'

'Thank ye, I'm sure I'm muckle obliged to ye,' returned Andrew with a sarcastic politeness, which the captain did not seem to notice, for he turned away, and looking towards Hargreave, was about to speak, when he checked himself again, and began to pace to and fro in the chamber, the troubled, dissatisfied expression returning to his countenance.

Terry followed his movements with looks of dismay, for he went dangerously near the aperture they had cleared in the corner. But the captain's mind was too much occupied by its reflections for his eye to notice the disarrangement of the rubbish.

At length he again stopped in front of Hargreave.

'Well, the old miser has proved true to his character,' he said. 'His own ransom arrived some ten or twelve days ago, and he departed, leaving her, his wife, behind, and positively refusing to ransom her.'

'And she remains still?' said Hargreave, who amid the excitement of their operations, had forgot the hopeless occupant of the adjoining chamber.

'She does,' answered the captain; 'and the time appointed expires to-night.— 'To-morrow,' he added in a tone which he vainly strove to make indifferent, 'to-morrow the lots will be cast for her, and to-morrow night she suffers the fate to which our laws consign her.'

'Great heaven, but you will save her?' said Hargreave, much shocked.

'I cannot, if I would,' he answered quickly. 'But why should I? Does she merit mercy at my hands? Is it not a just retribution for her perfidy?'

'If you ask the questions at your struggling heart rather than at me,' responded Hargreave, 'it will reply that you should save her; and she does not merit mercy but justice from you; that justice points to her safe return to her husband's roof.'

'Impossible,' returned the captain in a deep voice. 'Her doom is sealed. I tell you I cannot save her if I would.'

'Would you if you could?' demanded Hargreave with pointed emphasis.

'Captain Jack winced; then he answered in a would-be careless tone—

'To tell you the truth, I did not contemplate that issue when I planned the scheme of the capture of that old doford her husband. Mercenary as I knew him to be, I did not think it possible that he could leave her in our hands. That contingency I certainly never contemplated.'

'Or you would not have done it?' added Hargreave, inquiringly.

'I say not that,' replied the captain, 'but this I might have done—I would have conjoined the sums. Dearly as the old money-bag loved his gold, he loves his worthless life still more. But why talk of this now? Regrets are idle.'

'Then you are prepared for your infamous fiendish law taking its course,' said Hargreave, in a tone of undisguised indignation.

'I am prepared,' answered the captain. 'I might have wished it otherwise. Cur that I am, my hate is not so strong as it should be. I have the weak near to be troubled, even though I recall her faultlessness and treachery in all its enormity.'

Business Education!

The importance of a thorough Business Education is pressing itself upon the attention of commercial circles more and more every day, and its advantages are perhaps more emphatically shown by nothing more than by the vantage ground on which it places the fully trained clerk above the imperfectly trained one, when looking for a situation.

The BRITISH AMERICAN COMMERCIAL COLLEGE has in full operation such a course of instruction as to give it practical fitness to do the work proposed. An important characteristic of this Institution is its thoroughly organized actual business system, whereby the College is made a type or model not only of an extensive business house, but even of a large trading community. Another distinctive feature of this College is that it attempts no extraneous teaching. Its work is one, and to the accomplishment of that work every effort is directed. Just as the University and Grammar Schools must be separate institutions, so the Commercial College and the Elementary School must be distinct. Common sense and experience alike show that such a combination is not compatible with efficiency.

The time required to complete the full course varies considerably, according to the attention, attention and ability of each student. Young men however are earnestly cautioned against the injurious practice of hurrying through the course from the mistaken idea that they will thus be gainers by the saving of money in the item of board. Infinitely more advantageous would it be to the student, since his full course of tuition is already paid for, to incur the comparatively small additional expense of a few weeks board in order to make himself completely master of the course; and thus, by small present outlay, qualify himself for some lucrative situation. The crudeness that such haste entails is highly detrimental, not only to the student himself, but also to the College where he graduates; and, besides, it brings opprobrium on Commercial Colleges generally. The common practice, therefore, of holding out this crawling system as an inducement to students is most deceptive and highly reprehensible.

We were again awarded the **First Prize** at the late Provincial Exhibition, Kingston, for the best specimen of Business Penmanship, and an Extra Prize for our system of Writing.

THIS ORIGINAL DOCUMENT IS IN VERY POOR CONDITION

The Irish Church Commission.

The *Freeman's Journal* is in a terrible state of mind respecting the appointment to act on the Government Church Commission. It is weary to see the traces of anger and mortification in our contemporary's elaborate and rather clumsy attempt at irony. The *Freeman* affects to regard the publication of the names of the Commissioners as "the greatest practical joke that has been successfully played on the Dublin press for a series of years," and apologizes for having fallen into the trap and unconsciously deceived the public and done an injustice to the government by the publication of the list in its columns. This is doubtless considered a vastly clever and wittingly sarcastic method of discrediting the commission, but it is not likely to influence any fair-minded and dispassionate man. The object of the *Freeman's Journal* to the constitution of the commission is that four of the gentlemen named are members of the Defence Committee of the Church Institution. It is not alleged that they are wanting in intelligence, in character or in position—these are qualifications which no journalist would have the hardihood to deny to such men as the Right Hon. Joseph Napier, Col. Robert Adair, Viscount de Vesci, and Mr. Evelyn Philip Shirley. The one insurmountable disqualification in the eyes of the *Freeman* is that they are protestants, attached to their church, anxious for its maintenance, and decidedly opposed to its spoliation. Now as the commission was appointed, not for the purpose of making out a case to damage the church like the mock "commission" of our contemporary, but to enquire and report on the existing condition of the establishment, we do not see how the sincere protestantism and torism of four of its members can be regarded as a valid objection. There are other members of the commission equally strong liberals, and one of them at least, Mr. Olive, the member for Hereford, holds opinions closely bordering on radicalism. They are all men of honour and integrity, and we have no doubt will carefully inquire into and truthfully report upon the subject they have been appointed to investigate. It may be safely assumed that any commission appointed by the present government would incur the hostility of the *Freeman*. The commission which would be thoroughly satisfactory to our contemporary should be composed either exclusively of Roman Catholics or of protestants known as determined opponents of the connection church and state in Ireland. Our contemporary is not so simple as to expect that a conservative government would pack a commission to report against the church, nor can he really believe that the nomination of three or four friends of the church as members of that body will be regarded by reasonable men as a serious objection.—*Saunders' News.*

HON. MR. HOWE ON IRELAND.—Mr. Howe in the course of his remarks at the St. Patrick's concert, Montreal, referred to the grievances of which Irishmen complain, he said there was something wrong in the way in which the land was managed. Irishmen were not to be blamed for thinking that something might be done to relieve the people of Ireland. In Canada we had the Seigneurial Tenure, but the Legislature stepped in and this was removed and gave satisfaction to the people. The sole sum and substance of the matter with Ireland was, that money went out of the country, and did not come back to improve it, the consequence was that the people lived on a diet which would not be tolerated in Canada for a week.

FARM FOR SALE.
THE subscriber offers for sale a first-class farm, being Lot No. 8, East half 3rd Con., Township of Erin, containing 100 acres, from 75 to 80 of which are cleared, and with the exception of about 10 acres, free of stump. This farm is well fenced, and in a high state of cultivation. There is a never-failing creek and a good well and pump on the premises; also, a never-failing creek runs across the Concession about ten rods from the corner of the lot. There are two good barns—a log 80x50 and a frame 85x60—and a good log house 20x30 feet, with a back kitchen and a frame stove, four bed rooms, &c. Also, a good young orchard of choice fruit trees, many of them bearing. This farm is about five miles from Acton Station, and about a mile and a half from the Erin gravel road. The farm will be sold on liberal terms, and a good title given. For further particulars apply personally, or by letter (post-paid) to the subscriber, on the premises.

PROOFS OF THE SUPERIOR QUALITY OF THE AMERICAN WATCH

WALTHAM, MASS.

Referring to their advertisement in a previous issue of this paper, the American Watch Company, of Waltham, Mass., respectfully submit that their Watches are cheaper, more accurate, less complex, more durable, better adapted for general use, and more easily kept in order and repaired than any other watches in the market.

They are simpler in structure, and therefore stronger, and less likely to be injured than the majority of foreign watches. They are composed of from 12 to 200 pieces, while in an old English watch there are more than 700 parts.

How they run under the hardest trial watches can be seen by the following letters:

PENN. RAILROAD COMPANY.
Office of the General Superintendent,
Altoona, Pa., 15th Dec. 1866.

GENTLEMEN,—The watches manufactured by you have been in use on this railroad for several years by our engineers, to whom we furnish watches as part of our equipment. There are now some 800 of them carried on our line, and we consider them good and reliable time-keepers. Indeed, I have great satisfaction in saying your watches give us less trouble, and have worn so long we wear much longer without repairs than any watches we have ever had in use on this road. As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation; but as a class they never kept time as correctly, nor have they done as good service as yours. In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years.

Respectfully,
EDWARD H. WILLIAMS,
General Superintendent,
American Watch Co., Waltham.

NEW YORK CENTRAL RAILROAD.
Locomotive Department, West Division,
Rochester, Dec. 24, 1866.

GENTLEMEN,—I have no hesitation in saying that I believe the great majority of Locomotive Engineers have found by experience that Waltham Watches are the most satisfactory of any for their use. They are with the greatest accuracy and steadiness, notwithstanding the rough riding of an engine, and as I have never known one to wear out, they must be durable. I have generally adopted your watches and furnish the same to all engineers they come as good service as yours. In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years.

Yours respectfully,
CHAS. WILSON, G. Chief Engineer,
Brotherhood of Locomotive Engineers,
American Watch Co., Waltham, Mass.

We now make five different grades of watches, named respectively as follows:
Appleton, Tracy & Co., Waltham, Mass.
Waltham Watch Co., Waltham, Mass.
P. S. Bortlett, Waltham, Mass.
Wm. Ebery, Boston, Mass.
Home Watch Company, Boston, Mass.

All of these, with the exception of the Home Watch Company, are warranted by the American Watch Company to be of the best material on the most approved improved principle, and to possess every requisite for a reliable time-keeper. Every dealer selling these watches is provided with the Company's printed card of guarantee, which is a solemn warranty that each watch sold, so that buyers may feel sure that they are purchasing the genuine article. There are numerous counterfeits and imitations of our watches sold throughout the country, and we would caution purchasers to be on their guard against impostors.

Testimonials can be obtained on application from many towns in Canada who have worn the watches with the greatest satisfaction.

VALUABLE FARM PROPERTY
For Sale or to Exchange.

THE undersigned offers for sale, or to exchange for Real Estate in the Township of Guelph, the undermentioned property, viz:
First.—A valuable improved Farm North of the Durbin Road, in the Township of Benluch, three miles from the Village of Durban, containing about 200 acres, of which about 100 acres are cleared and under fence. On the premises are a substantial Frame Dwelling House with good cellar, garden and well, with pump of excellent water. Also, a Frame Barn 60x30, with 18 foot stalls and underground stabling, and a never-failing spring in the barn yard for the supply of water to cattle. This is a very eligible property, and well worth the attention of those who wish to obtain a good farm.

Also—Lot 42, in the 3rd Concession of Benluch, west of the Garrafrax Road, 100 acres, about 12 acres cleared, with a Frame House on the Lot.—The Rocky Saugeen River crosses one corner of this lot, and has a valuable water power on it, capable of driving any machinery.

Also—Lot 25, in the 1st Concession, South of the Durban Road, three miles from the Village of Benluch, in the Township of Arden, 125 acres, are about 25 acres cleared and fenced on 1/2 lot with a good new Log House.

The above lands are well situated and timbered with the best kind of hard wood timber, with indispensible titles—the last two being direct grants from the Crown.

For further particulars, &c., apply to the proprietor.

Great Cure of Liver Complaint and Dyspepsia in Canada.

Concession, Prince Edward Co., C.W. March, 1867.

Messrs. Young & Chamberlain, Sirs—Having proved within my own person that there is at least a medicine that will induce cure Liver Complaint and Dyspepsia, I am induced to make this statement, under oath, which is to certify that I have been severely afflicted for the last three years, according to the Doctor's statements, with Liver Complaint and Dyspepsia. I had a feeling of sinking and yawning, uneasiness about the stomach, more than pain, a sensation of wind, occasional pain, drowsiness, constipation, uneasiness in the right side, headache, a poor appetite, &c., and was greatly reduced in strength. Hearing your new Indian medicine, the Great Shoshonee Remedy, spoken of so highly, I tried a bottle with your Pills, from a sense I must say I found but little change, but I took another and then found my health improving. I continued it until I have taken about ten bottles, using the Pills, and I find that I have quite recovered. I eat hearty without pain or uneasiness. I am well and have pleasure in attending to my business. The doctor remarked to me I was looking much better. I told him that the Great Shoshonee Remedy was doing it. I have recommended the remedy in several cases, and it has invariably given good satisfaction, and I would strongly recommend it to all afflicted as I was.

INDIA & CHINA TEA COY.
Home Depot at London and Liverpool,
Canada Depot, 23 Hospital Street,
Montreal.

THE India and China Tea Company beg to call the attention of the Canadian community to their directly imported Teas, which for purity and excellence will be found unequalled.

The Company have made arrangements whereby they have secured the entire produce of some of the best plantations in Assam and on the slopes of the Himalayas, and by a judicious blending of these magnificent Teas with the best varieties of China produce, they are enabled to offer to the public Teas of quality and flavour hitherto unknown to the general consumer. These Teas are in high favour in England and France, and a single trial will prove their superiority.

The Company supply two qualities only, either Black, Green or Mixed. Their Black Teas will be found to possess great brilliancy and flavour, combined with colour and strength, and to be entirely different to the fast and rapid article usually sold as Black Tea; while their Green Teas are altogether free from the deleterious mineral powder so commonly used for coloring the leaf.

PRICES: Rich full-flavored Teas, for family use, a real genuine and fine article, 70 cents per lb. Finest quality procurable, one dollar per lb.

The above can be had either Black, Green or Mixed.
To be had in packets of Quarter Pound, Half Pound, One Pound, and upwards, from the Company's Agents in all the chief towns of Canada, and in all the principal cities of the United States. All the packages are wrapped in tin foil paper, and the Teas will consequently retain their flavour and strength unimpaired.

THIS ORIGINAL DOCUMENT IS IN VERY POOR CONDITION

The Irish Church Commission.

The *Freeman's Journal* is in a terrible state of mind respecting the appointment of the gentlemen who have been chosen to act on the Government Church Commission. It is easy to see the traces of anger and mortification in our contemporary's elaborate and rather clumsy attempt at irony. The *Freeman* affects to regard the publication of the names of the Commission as "the greatest practical joke that has been successfully played on the Dublin press for a series of years," and apologises for having fallen into the trap and unconsciously deceived the public and done an injustice to the government by the publication of the list in its columns. This is doubtless considered a vastly clever and witheringly sarcastic method of discrediting the commission, but it is not likely to influence any fair-minded and dispassionate man. The objection of the *Freeman's Journal* to the constitution of the commission is that four of the gentlemen named are members of the Defence Committee of the Church Institution. It is not alleged that they are wanting in intelligence, in character or in position—these are qualifications which no journalist would have the hardihood to deny to such men as the Right Hon. Joseph Napier, Col. Robert Adair, Viscount de Vesci, and Mr. Evelyn Phillip Shirley. The one insupportable disqualification in the eyes of the *Freeman* is that they are protestants, attached to their church, anxious for its maintenance, and decidedly opposed to its spoliation. Now as the commission was appointed, not for the purpose of making out a case to damage the church like the mock "commission" of our contemporary, but to enquire and report on the existing condition of the establishment, we do not see how the sincere protestantism and toriyism of four of its members can be regarded as a valid objection. There are other members of the commission equally strong liberals, and one of them at least, Mr. Clive, the member for Hereford, holds opinions closely bordering on radicalism. They are all men of honour and integrity and we have no doubt will carefully inquire into and truthfully report upon the subject they have been appointed to investigate. It may be safely assumed that any commission appointed by the present government would incur the hostility of the *Freeman*. The commission which would be thoroughly satisfactory to our contemporary should be composed either exclusively of Roman Catholics or of protestants known as determined opponents of the connection church and state in Ireland. Our contemporary is not so simple as to expect that a conservative government would pack a commission to report against the church, nor can he really believe that the nomination of three or four friends of the church as members of that body will be regarded by reasonable men as a serious objection.—*Saunders' News.*

HON. MR. HOWE ON IRELAND.—Mr. Howe in the course of his remarks at the St. Patrick's concert, Montreal, referred to the grievances of which Irishmen complain, he said there was something wrong in the way in which the land was managed. Irishmen were not to be blamed for thinking that something might be done to relieve the people of Ireland. In Canada we had the Seigneurial Tenure, but the Legislature stepped in, and this was removed and gave satisfaction to the people. The whole sum and substance of the matter with Ireland was, that money went out of the country, and did not come back to improve it, the consequence was that the people lived on a diet which would not be tolerated in Canada for a week.

FARM FOR SALE.

THE subscriber offers for sale a first-class farm, being Lot No. 8, East half 3rd Con. Township of Erin, containing 100 acres, from 75 to 80 of which are cleared, and with the exception of about 10 acres, free of stumps. This farm is well fenced, and in a high state of cultivation.—There is a never-failing creek and a good well and pump on the premises; also, a never-failing creek runs across the Concession about ten rods from the corner of the lot. There are two good barns—a log 30x40 and a frame 36x60—and a good log house 20x30 feet, with a back kitchen and a beam-stoop, four bed rooms, &c. Also, a good young orchard of choice fruit trees, many of them bearing. This farm is about five miles from a Concession Station, and about a mile and a half from the Erin gravel road. The farm will be sold on liberal terms, and a good title given. For further particulars apply personally, or by letter (post-paid) to the subscriber, on the premises.

FARM TO RENT.

TO rent, the farm belonging to the estate of the late Robert Trotter, comprising Lot 19, in the 9th Concession, Garafraxa, containing 100 acres, 180 acres of which are cleared and in an excellent state of cultivation. The land is well fenced, and well laid out. There is a good comfortable log dwelling house on the place, with large and commodious barns and stabling. There is a good pump well on the premises, and the river Irvin runs through the back part of the lot. It is desirable, a lease for ten years will be given.—The tenant can have immediate possession.

For terms and other particulars apply, if by letter post-paid, to the following executors of the estate:

PROOFS OF THE SUPERIOR QUALITY

OF THE AMERICAN WATCH

MADE AT WALTHAM, MASS.

Referring to their advertisement in a previous issue of this paper, the American Watch Company, of Waltham, Mass., respectfully submit that their Watches are cheaper, more accurate, less complex, more durable, better adapted for general use, and more easily kept in order and repaired than any other watches in the market.

They are superior in structure, and therefore stronger, and less likely to be injured than the majority of foreign watches. They are composed of from 125 to 300 pieces, while in an old English watch there are more than 700 parts.

How they run under the hardest trial watches can have, is shown by the following letters:

PENN. RAILROAD COMPANY,
Office of the General Superintendent,
Altoona, Pa., 15th Dec. 1867.

GENTLEMEN:—The watches manufactured by you have been in use on this railroad for over 1 year by our engineers, to whom we furnish watches as part of our equipment. There are now some 300 of them carried on our line, and we consider them good and reliable time-keepers. I have great satisfaction in saying your watches give us less trouble, and have worn as long as we have ever had in use on this road. As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation; but as they never kept time as well as yours, nor have they done as good service as yours. In these statements I am sustained by my professional, Mr. Lewis, whose experience extended over a series of years.

Respectfully,
EDWARD H. WILLIAMS,
General Superintendent,
American Watch Co., Waltham.

NEW YORK CENTRAL RAILROAD,
Locomotive Department, West Division,
Rochester, Dec. 23, 1866.

GENTLEMEN:—I have no hesitation in saying that I believe the great majority of Locomotive Engineers have found to experience that Waltham Watches are the most satisfactory of any for their use. They run with the greatest accuracy and steadiness, notwithstanding the rough riding of an engine, and as I have never known one wear out, they must be durable. I hope to see the time when Railway Companies will generally adopt your watches, and furnish them to all their conductors, as in my opinion I would greatly tend to promote regularity and safety.

Yours respectfully,
CHAS. WILSON, Chief Engineer,
American Watch Co., Waltham, Mass.

We now make five different grades of watches, named respectively as follows:

Appleton, Tracy & Co., Waltham, Mass.
Waltham Watch Co., Waltham, Mass.
P. S. Bertlett, Waltham, Mass.
Wm. Eldery, Boston, Mass.
Home Watch Company, Boston, Mass.

All of these, with the exception of the Home Watch Company, are warranted by the American Watch Company to be of the best material and of most approved improved construction, and to possess every requisite for a reliable time-keeper. Every dealer selling these watches is provided with the Company's printed card of guarantee, which should accompany each watch sold, so that buyers may feel sure that they are purchasing the genuine article. There are numerous counterfeiters and imitations of our watches sold throughout the country, and we would caution purchasers to be on their guard against impostors.

Any grades of Waltham Watches may be purchased of the greatest satisfaction.

Testimonials can be obtained on application from many persons in Canada who have worn the watches with the greatest satisfaction.

VALUABLE FARM PROPERTY

For Sale or to Exchange.

THE undersigned offers for sale, or to exchange for Real Estate in the Township of Guelph, the undermentioned property, viz:

1st.—A valuable improved Farm North of the Park in Road, in the Township of Benlue, three miles from the Village of Durham, containing about 200 acres, of which about 100 acres are cleared and under fence. On the premises are a substantial Frame Dwelling House with good cellar, garden and well, with pump of excellent water. Also, a Frame Barn 60x20, with 18 feet posts and underground stabling, and a never-failing spring in the barn yard for the supply of water to cattle. This is a very eligible property, and well worthy the attention of those who wish to obtain a good farm.

Also, Lot 42, in the 3rd Concession of Benlue, West of the Garafraxa Road, 100 acres, about 12 acres cleared, with a Frame House on the Lot. The Rock Sauger River crosses one corner of this Lot, and has a valuable water power on it, capable of driving any machinery.

Also, Lot 25, in the 1st Concession, South of the Durham Road, three miles from the Village of Priceville, in the Township of Artemesia. There are about 200 acres cleared and fenced on this lot, with a 200 year log House.

The above lands are well situated and timbered with the best kind of wood, and are free from all disputes of title—the last two being direct grants from the Crown.

For further particulars, &c., apply to the proprietor.

Great Cure of Liver Complaint and Dyspepsia in Canada.

March, 1867.

Meers, Young & Chamberlain, Sirs—Having proved within my own person that there is at last a medicine that will indeed cure Liver Complaint and Dyspepsia, I am induced to make this statement, under oath, which is to certify that I have been sorely afflicted for the last three years, according to the Doctors' statements, with Liver Complaint and Dyspepsia. I had a feeling of sinking and vague uneasiness about the stomach, worse than pain, excruciating of wind, occasional pain, drowsiness, constipation, uneasiness in the right side, headache, a poor appetite, &c., and was greatly reduced in strength. Hearing your new Indian medicine, the Great Shoshone Remedy, spoken of so highly, I tried a bottle with your Pills, from a these I must say I found but little change, but I took another and then found my health improving. I continued it until I have taken about ten bottles, using the Pills, and I find that I have quite recovered. I eat hearty without pain or uneasiness, I am well and have pleasure in attending to my business. The doctor remarked to me I was looking much better. I told him that the Great Shoshone Remedy was doing it. I have recommended the Remedy in several cases, and it has invariably given good satisfaction, and I would strongly recommend it to all afflicted as I was.

Sworn before me at Consecoc, C. W., this 2nd day of March, 1867.
