GERMAN ELECTIONS.

A Small Majority Against the Bill According to the Latest Returns.

The Richter Radicals Remain Very Far Behind—Many New Ballots Necessary.

BERLIN, June 15.—The greatest constitutional struggle that the new German empire has known is in progress to-day. It is the people vs. the Kaiser and his Army bill, and the former are rendering their verdict at the ballot box. Although the campaign has lasted only a month, all parties have worked as they have never worked before. The Socialists alone have nominated 100 candidates. The Government has maintained a gigantic press bureau, which has not only newspapers in the empire, but has deluged the country with literature on the Army bill in the shape of leaflets, tracts and pamphlets. No less than fourteen parties have candidates in the field, and although there has been a vast amount of platform speaking, most of the canvassing has been carried out by means of the press.

The Army bill, which was defeated in the Reichstag last month by a majority of 48, calls for an appropriation in one lump of \$18,000,000, and for \$15,000,000 more annually for the next five years, and also for an increase of 80,000 in the standing army. This would place the peacetime force of the German army at half a million, and for the next six years. The Reichstag, however, the situation cannot be over-stated, and the whole of Europe is anxiously awaiting the result of to-day's election. The Government is exceedingly anxious to learn its exact strength as quickly as possible, and all candidates not elected by a majority to-day must again be balloted for within five days. Election day was bright and genial in all parts of the Empire. In Berlin the pavements have been scoring. Apparently the election has been a notably quiet one. In Berlin there are 631,000 voters, and all of them are present. Chancellor von Caprivi and von Bötticher, Secretary of the Imperial Home Office, voted at the Kaiserhof Hotel. The election has been a notably quiet one. In Berlin there are 631,000 voters, and all of them are present.

At two o'clock this morning returns had been received from 230 out of 391 electoral districts. In 98 candidates were elected, but in 122 second ballots will be necessary. The National Liberals, Conservatives, and Clericals are holding their own. The Richter Radicals remain very far behind. Of the 98 districts already elected, 42 are in favor of the Government, 30 are against, and 26 are divided. Since the reports received up to ten o'clock were sent out the despatches which the Government has gained two more seats and had lost one more old one.

CAPITAL NOTES.

Lieut-Governor Chapleau's Leave of Absence Extended—Fishing Within the Limit.

Dr. Montzamber's Defences of Grosse Isle Quarantine—The Governor-General.

(From our own Correspondent.)
OTTAWA, June 15.—Capt. Hardy, of Gloucester, is here again, this time having been sent up in the interests of the owners of the Louis H. Giles, which is now in custody of the collector of customs at North Sydney for fishing within the three-mile limit. No action, departmentally, can be taken until a report is received from Commander Sinn. Capt. Hardy says the Giles is a new schooner, worth \$13,000.

Lieut-Governor Chapleau has applied for the extension of his leave of absence in order that he may complete the course of treatment at the baths in Paris. The extension has been granted.

Capt. Boxer, R.N., inspector of Irish gillies and lighthouses, was in the city to-day. He is visiting Canada in the interests of a Cotton Powder Co., which supplies explosive signals made of gun cotton for use as fog signals. At some of the stations in Canada these explosives are already in use.

The Fisheries department has two Quebec salmon by express to the World's Fair. They were fresh, fine fish, one weighing 38, the other 33 pounds.

The Government has granted a grant for Grand Cascapedia, to-day for ten days salmon fishing. His Excellency has presented to the Government the house situated at the mouth of the Grosse Isle river and occupied by him for the last five years. The Quebec Government are at present offering the lease of the river for ten years for salmon fishing purposes, with the exception of that portion reserved for the use of the Governor-General. The minimum rental per year is to be \$5,000.

PANAMA CANAL.

Convictions of the Prisoners Quashed—The Indictments Irregular.

Prisoners Released From Custody—Their Punishment Proscribed by Limitation.

(Special to the Colonist.)
OTTAWA, June 15.—Considerable excitement has been caused by the decision of the court of exchequer on the appeal of Charles de Lesseps and other defendants, convicted of fraud in connection with the Panama Canal Co. The court handed down a decision to-day quashing the sentences on the grounds that the statute of limitations covered the offences charged, and that the indictment on which the prisoners were tried was irregular.

In consequence of this decision, M. Eiffel was at once liberated from prison. Charles de Lesseps, who is in St. Louis hospital suffering from an acute attack of dyspepsia, was informed that he was free, and he was too ill to leave the hospital.

The five defendants were convicted in the trial which ended on February 9 last. They were Ferdinand de Lesseps, his son Charles, M. Ferdinand de Lesseps, M. de Lesseps, M. de Lesseps, and M. de Lesseps. Ferdinand de Lesseps was sentenced to five years imprisonment and to pay a fine of 50,000 francs; Charles de Lesseps, five years imprisonment and 30,000 francs; M. de Lesseps, two years' imprisonment and 3,000 francs; Henri Cottu, two years' imprisonment and 3,000 francs; Eiffel, two years' imprisonment and 3,000 francs.

The officials of the department of railways and canal traffic presented their late Deputy Minister, Mr. Trudeau, with his portrait in oil. Mr. Trudeau made a feeling reply.

OTTAWA, June 15.—The High Commissioner has sent a letter to Hon. A. R. Angers, stating that copies of the bill have been received from Liverpool and Glasgow, and that over worn animals are being sent over from Canada to those ports which are hardly fit for food, and not worth more than the expense incurred in their transportation. Sir Charles thinks that every care should be taken to insure that only suitable animals be shipped from Canada. He also condemns shippers for sending too many cattle to one port to arrive about the same time. This causes a strike in the market and a drop in price.

KNIGHTS OF PYTHIAS.

The Grand Lodge Finally Adjourns After Three Days' Session.

List of Officers for the ensuing Year—The Prospects of the Order.

(Special to the Colonist.)
WESTMINSTER, June 15.—After three days' session the Grand Lodge Knights of Pythias of British Columbia finally adjourned this evening, and will meet a year hence in Victoria. The principal business this morning was the election and installation of officers, which resulted as follows:—
Supreme Representative for four years: James Crossan, Nanaimo, G.O.; H. J. Angus, Vancouver, P.G.C.; J. M. Hughes, Victoria, G.V.; J. G. Byrne, Victoria, Grand Prelate; L. Mounos, Wellington, G.M.; A. A. Richardson, Nanaimo, G.E. of R. and S.; W. K. Leighton, N.A.G.M. of E.; J. B. Kennedy, Westminster, fourth year; G. G. M. Nelson, Westminster, G.O.G.; G. J. Mills, Vancouver, Grand Master of the Exchequer.

There was paid out a total of \$769.40 in mileage allowances to Grand Lodge chief officers. District Grand Lodge Deputies and various committees were appointed. The receipts for the past year including the balance carried over, amounting to \$2,422.95, and the expenditure, \$1,800.95, leaving a balance on hand of \$621.00.

The report of the Grand Keeper of records and seals shows that two new lodges were instituted in B.C. last year, viz: Maple Lodge, No. 15, Duncan, with a membership of 28, and Granite Lodge, No. 16, Westward, with a membership of 63. The number of lodges in the province is 16, with 1,200 enrolled members. The order is in a good condition financially, and its prospects are of the brightest. According to the report of the Supreme Grand Lodge, British Columbia recorded the greatest gain of all lodges in 1892, 253 new members being added, a 61 per cent. increase. The total membership of the order in August last was 422, 170, and since then the ranks have been added to at the rate of 100 per cent.

This afternoon the steamer Delaware was chartered and the visitors and a large party of ladies were taken aboard. A grand banquet was tendered the delegates this evening and all leave for home to-morrow.

CANADIAN NEWS.

(Special to the Colonist.)
HAMILTON, June 15.—Because the management insisted on their acting as bricklayers in the construction of an addition to the premises all the glass workers in the employment of the Hamilton Glass Co. have gone out on strike.

SALT SPRING MARLB, June 15.—The entire force of stone cutters employed by Ryan & Hasey, on the big ship canal here, have gone out on strike. They demand an increase in pay from 40 to 45 cents an hour, and ask to be paid every two weeks, instead of every six weeks.

TORONTO, June 15.—(Special)—The Council of the Board of Trade yesterday passed a resolution favoring reciprocity in trade with the Australian colonies, and decided to act in conjunction with the British Columbia Board of Trade in this matter. The council also declares emphatically in favor of a first class mail service between Vancouver and Australia, and the laying of a telegraphic cable between Canada and Australia.

At yesterday's session of the Toronto Methodist conference, a resolution moved by Rev. Dr. Sutherland declaring that as far as treatment of the temperance question may not be expected by a committee of existing political parties, a Christian temperance movement be organized to forward the temperance cause. After a long and spirited discussion this was rejected by 38 to 34.

THE ARBITRATION.

PARIS, June 15.—Sir Richard Webster, of counsel for Great Britain, to-day continued his argument before the Behring Sea tribunal of arbitration. In the course of his address he protested against the assertion that the killing of seals was a crime, *per se*. He declared that the language used by F. K. Conard, of the counsel for the United States, in his speech to the court regarding the slaughter of female seals, and certain other contentions of American counsel, were exaggerated. Sir Richard maintained that no pup seals died on Pribilof Islands from starvation owing to their mothers being killed at sea. Neither the Government agents nor the Alaska Commercial company's agents had testified to any abnormal increase in the deaths of pup seals between 1884 and 1890, as the Americans declared had been the case.

Sir Richard Webster read from the evidence to prove that seals were not bound to go upon land in order to shed their coats. He declared that the United States claimed property rights would give them. America, he said, must prove that all the seals returned to the Pribilof Islands whereas, as a matter of fact, male seals that were too old for breeding purposes and barren females never returned to the islands, even if they are not caught by pelagic hunters. Numbers of seals were thus lost to the trade.

PARIS, June 16.—Sir Richard Webster continued his argument to-day before the court of arbitration, his address being interrupted yesterday by the rising of the tribuna. He was speaking on the habits of seals and the pelagic hunting, and continued as some length upon the same line this morning. He contended that the American seal herds is due to the scarcity of bull seals, lessened by the number of males killed at the Pribilof Islands. The decrease in the herds has been before the pelagic industry was introduced from Alaska. Sir Richard quoted from a report made by Henry W. Elliot and other reports heretofore adopted in the issues of such gold certificates shall be in force in the present issue.

St. Petersburg, June 15.—There is good authority for the statement that under the Russo-American extradition treaty to-day nobody will be surrendered to Russia except on evidence that will satisfy an American jury by which the accused may claim trial before being extradited.

IMPERIAL PARLIAMENT.

No Public Holiday on the Occasion of the Duke of York's Marriage.

Resolution Adopted in Favor of the Idea of International Arbitration.

LONDON, June 16.—In the House of Commons to-night, Mr. Gladstone, in reply to a question, intimated that there would be no public holiday on the occasion of the marriage of the Duke of York with the Princess May of Teck.

Mr. E. Comers, member for Shorefield, moved "That the House having learned that the United States Government had authorized the President to conclude treaties of arbitration, expresses the hope that the Government will open negotiations with the view of referring all differences to arbitration."

Right Hon. Sir John Lubbock seconded the motion. The Premier, Mr. Gladstone, cordially sympathizing with the purpose in view, hoped that Her Majesty's Government will find a ready co-operation to the Government of the United States.

JAMES GORDON BENNETT.

PARIS, June 15.—Mr. James Gordon Bennett, proprietor of the New York Herald, is making rapid progress toward recovery from the effects of his recent accident. He was much pleased to-day by the evidence the symptoms of his illness, which he had feared might be permanent, were disappearing. Senator John Morgan, one of the American arbitrators here, remarked that it was on the recommendation of Mr. Bennett's friends that the yearly killing of one hundred thousand seals was decided upon, and the following out of this recommendation had led to the present scarcity of seals.

AMERICAN EDUCATION.

ST. PAUL, June 15.—Archbishop Ireland was shown the dispatch from Rome, which in the Pope's name issued an order that in the diocese of St. Paul, United States, clergy must instruct the Catholic and Protestant children alike without distinction. The Archbishop of Ireland, however, issued an order that no such order had been or would be issued.

HAWAIIAN CONCERNS.

Commissioner Blount Has No Idea of Restoring the Royals to Position.

The Provisional Government Said to Have the Confidence of the People.

WASHINGTON, June 16.—Mr. Hastings, secretary of the Hawaiian legation, arrived in Washington last night direct from San Francisco, having left Honolulu June 1. He immediately repaired to the apartments of Minister Thurston, where the two gentlemen had a long conference over matters in which, as the representatives of Hawaii, they are interested. Mr. Hastings will shortly be left in charge of affairs here, for Mr. Thurston will go to Chicago to look after the Hawaiian exhibit at the Exposition. Another steamer for San Francisco, Mr. Hastings, was expected to touch at Honolulu on the 10th, and will soon be in San Francisco bearing the most recent developments. So far the annexation sentiment is concerned, I can only say that it is growing daily. There never has been any opposition on the part of Mr. Blount, either as commissioner or minister, to restore the Royals to power. We believe that when Mr. Blount submits his report it will be found to coincide with the views of those who have the welfare of the Islands at heart. The Provisional Government has the confidence of the people.

RUSSIAN EXTRADITION.

NEW YORK, June 16.—A number of well-known ladies and gentlemen, of this city, who believe that the Extradition treaty recently entered into between the United States and Russia was signed because of a misunderstanding and misrepresentation, met this afternoon. After an informal discussion, it was decided to form an organization, which shall be the nucleus of a national body. A constitution was adopted, and the local organization was named "The Society for the Abrogation of the Russian Treaty." The object of the society is to arouse public opinion, and to induce President Cleveland to take steps for its abrogation.

EVANS' ARREST.

VISALIA, CAL., June 15.—When Evans was arrested, the warrant served on him by one B. B. Beaver, Sheriff of Sherman County, served three warrants on him. Sheriff Kaye, of Tulare, claims the prisoner and will try to hold him. Deputy Sheriff Rajple, of Fresno, claims him. It is supposed that Evans had been captured by Sheriff Evans, but he could get him only after contest.

POWDER EXPLOSION.

ATHENS, June 16.—A Government powder magazine at Soanagama, a few miles from this city, exploded to-day. Twenty persons including officers and soldiers were killed, and great damage was done to surrounding property. The Crown Prince has gone to the scene to visit the sufferers. The loss is estimated at three million francs.

THE RICHTER RADICALS REMAIN VERY FAR BEHIND—MANY NEW BALLOTS NECESSARY.

(Continued from page 15.)
The Richter Radicals remain very far behind. Of the 98 districts already elected, 42 are in favor of the Government, 30 are against, and 26 are divided. Since the reports received up to ten o'clock were sent out the despatches which the Government has gained two more seats and had lost one more old one.

NORTHERN NEWS.

PORT TOWNSEND, June 15.—Advices received from Alaska to-day per steamer Crescent City and City of Topeka, state that seals are more plentiful in Behring Sea and along the coast of Alaska this season than known for years. The best catch is reported also for the schooner Henry Vessels of Seattle, of 1,400. The whaling vessels are having a poor luck. The Barkas found scattered broadcast over the country. Dr. Montzamber, chief of the quarantine station, lost no time, however, in giving an emphatic denial to the charge that he was a wholesale choker. These vessels were within the vicinity of Middleton Island, the steam whaler Mary D. Hume sailed from Seattle June 21, for the Arctic ocean.

At two o'clock this morning returns had been received from 230 out of 391 electoral districts. In 98 candidates were elected, but in 122 second ballots will be necessary. The National Liberals, Conservatives, and Clericals are holding their own. The Richter Radicals remain very far behind. Of the 98 districts already elected, 42 are in favor of the Government, 30 are against, and 26 are divided. Since the reports received up to ten o'clock were sent out the despatches which the Government has gained two more seats and had lost one more old one.

TROUBLED SAMOA.

An Armed Controversy Between Kings Mataafa and Malietoa Very Probable.

The American Authorities Considerably Exercised—Ill Supplied With Warships.

WASHINGTON, June 15.—Advices received by Secretary Gresham from Samoa are to the effect that affairs there have reached a crisis, and it may be that the United States will again be obliged to intervene between the parties. Ever since the establishment of the tripartite protectorate over Samoa the islands have been disturbed, and the best efforts of the representatives of the United States, Great Britain and Germany have failed to improve the situation. First, there was trouble growing out of the alleged arbitrary acts of Cederkrantz, the Swede who was selected by the parties to the Berlin conference as chief of the Samoan Land courts. Then there was the financial tangle, curiously like our own, resulting from the attempt of the German adviser to King to force the people to accept German banknotes at face value. Serious discontent was shown at the excessive burden of taxation, and, finally, rebellion has broken out. Mataafa, who acted as king during King Berlin's enforced absence, preceding the Berlin conference, never admitted that he had ceased to be king and, taking up a strong position on one of the islands of the group, he really maintained himself in native royal style. He has always had numerous adherents, and of late the troubles that King Malietoa has encountered in his efforts to govern the kingdom have driven many more of the inhabitants over to the side of Mataafa. The dissension has become so serious in extent that Malietoa has felt it to be necessary to crush out the aspirant for the throne, and the advice received at the state department indicate that open warfare is now about to begin. The United States, Great Britain and Germany have obligations to Samoa by the treaty of Berlin to preserve the autonomy of the Islands and to maintain order and peace. Under this agreement, it has been the custom for the United States to take turns in keeping a warship at Apia, or in the vicinity, and it happens that just now the German vessel is on guard. In this crisis, however, it is desirable that more force should be at hand, and it may be that one of the United States warships will be sent to Samoa. At present the nearest ships are the Boston and the Adams. Preparations for the Liberal Convention are well advanced. Over a thousand delegates are expected.

The disputed accounts arbiters will conclude taking evidence to-morrow on the question of interest and then adjourn to hear arguments at Quebec on July 10. G. B. Pattee and others of Ottawa are organizing a company to prosecute fruit growing in Southern California.

TO RELIEVE THE STRAIN.

NEW YORK, June 15.—The Clearing House association this afternoon adopted the following resolutions:—"Resolved, that a committee of five be appointed by the chairman with the president, to receive from the banks, members of the association, bills receivable and other securities to be approved by said committee, who shall be authorized to issue therefor such depositing bank loan certificates bearing 6 per cent interest per annum; and such loan certificates shall not be in excess of 75 per cent of the market value of the securities or bills receivable so deposited, and such certificates shall be received and paid in settlement of balances at the clearing house; and all the rules and regulations heretofore adopted in the issues of such gold certificates shall be in force in the present issue."

TROUBLED SAMOA.

(Continued from page 15.)
The Richter Radicals remain very far behind. Of the 98 districts already elected, 42 are in favor of the Government, 30 are against, and 26 are divided. The Colonist.

FRIDAY, JUNE 23, 1893.

"BRITISH COLUMBIA."

There has been published by direction of the Provincial Government, a handsome pamphlet of one hundred and ten pages, in which is given a full and fair description of the present resources and future possibilities of British Columbia. The description is carefully and conscientiously written. The writer is evidently determined to keep within the truth. He shows no disposition to notice immigrants by a glowing account of the fertility of the soil or the richness of the resources of the province; but on the contrary, if he errs at all, it is in the direction of understatement.

In the introduction he very properly warns the intending immigrant against expecting too much. "Let no one therefore," he says, "who may read the following pages imagine that because British Columbia is represented in the truth that the writer believes in, it is his true light, as a place of rapidly rising importance for its resource certain to find ample scope for his own abilities. He must rather consider what sacrifices he is prepared to make for the privilege of introducing himself and his family into a country so favorably circumstanced. He must deliberate whether the prospect of future success is worth the hazard of his present condition of life, whatever that may be; and should he finally determine upon a step which may prove to him irrevocable, let him blame no one but himself if the struggle turn out a hard one and the good times which he anticipated be long in coming."

It would be well if all books setting forth the advantages of new countries were written in this honest spirit. There would then be fewer sound and disappointed settlers, and the countries would have a higher character as fields of immigration. Emigration and deception are sure, in the end, to tell against the country which is overrated.

The description of the Province is full, nothing appears to have been slurred over or neglected. The careful reader of this pamphlet will know more about British Columbia and its resources than many who have lived in it a score of years. He will also gather from it a true estimate of the Province as a place of settlement and as a field for the investment of money. He may depend upon every statement of fact it contains as being as near the truth as the present development of the Province will permit. Our own opinion, as we have already hinted, is that if the reader of the book comes to British Columbia to seek his fortune, he will, after he is here a while, be ready to declare that it did not tell him half the truth with respect to the extent and variety of the resources of the Province.

We cannot close our notice of this little work without expressing our admiration of its excellent, both of typography and illustration. It is beautifully printed, and its illustrations would do credit to the best establishment in the Dominion. The work, in fact, is of itself a capital advertisement of British Columbia. The intelligent observer will immediately conclude that a Province which can turn out a book so artistically and mechanically perfect must have advanced far and rapidly in the march of progress. "British Columbia" is intended for distribution at the World's Fair.

MR. RAINSFORD'S REFORM.

The Rev. Mr. Rainford's plan for bringing about a reform in the liquor traffic, and for promoting temperance by improving the places in which liquor is sold, meets with no favor from the professional advocates of temperance. In their opinion, he would, by making drinking resorts more attractive, aggravate and increase the evil he proposes to diminish. He has been attacked by enthusiastic and earnest temperance men, as an enemy to their cause. They seem to think that his high character and his good intentions make it more dangerous than the great majority of the supporters and defenders of the liquor traffic.

Mr. Rainford is not daunted by the attacks. He makes allowances for the sincerity of his assailants, but he mildly and firmly maintains the stand he has taken. As many of our readers would, no doubt, like to have what he has to say for himself, we will reproduce two or three extracts from his article on "Reform of the Drink Traffic" in the June number of the North American Review.

Dr. Rainford says: "The fundamental mistake of nearly all Reformers seems to me an unwise haste. Quick methods are apt to be superficial; they may cut off the nestle at the head, while they leave the root still vigorous and untouched. He would proceed more slowly. He would cultivate in the drinker, who will get what he craves for, a love of decency, and would place him under better influences than those to which he is now exposed. It may be said here that Dr. Rainford's scheme is intended for the poorer classes in large cities. He says:

"It seems to a multitude of good people who judge hastily that nothing but harm can come of any movement or teaching which appears to make light of the evil of drinking. I must at present, I fear, rest under the onus of such. But what I plead for is a more radical dealing with the evil. As long as conditions of life provoke to drink, men will destroy themselves by drinking. As long as they breathe foul air at night, in sleeping quarters all too narrow, they will wake up in the morning with a craving for liquor. As long as they are denied all rational amusement, they will go in for 'soak' and 'debauch.'" You cannot better the condition of those who are being ruined by the present retail liquor business by attacking only that business which seems to be the immediate cause of their ruin. We must do more than this.

We must, if we love our fellow man, go down to the root of the matter and seek to alter that.

Mr. Rainford proposed not to shut up all drinking places but to establish better saloons under better regulations in which those who frequent them will be comfortable and will be able to spend their time less harmfully than by filling themselves with beer and whiskey. He considers that the establishment of a better class of saloons will advance the cause of temperance. This is what he says:

The necessary thing to our city workman in a place where he can spend his afternoon and evening. He has no home, only part of a room at best; perhaps a bed to himself and this is doubtful. The place where he sleeps is cold in winter evenings and intolerably hot in summer. He is actually driven to the saloon; there is no other place for him. To expose him to his single room and look at its bare walls is ridiculous. He might as well be in Sing Sing. Nor will your average workman wish to take advantage of your reading room, office-house, etc., as soon as you throw open its doors to him. He has prejudices. He is afraid of being assailed by those who look down on him, or with whose opinions he does not agree, and he has a righteous objection to being patronized. This is exactly the condition of scores of thousands of unskilled men (I have not time at present to deal with the question as it applies to the married man, whose case is scarcely better) in our large cities, and these are they who are the main support of the present saloon. In the saloon he meets his friends and spends most of his leisure time. With the saloon-keeper he is on friendly terms. Improve his place of resort and you do him to improve him. It is improving. The reforms most needed are those that hasten its improvement.

Here we have the stand taken by the Rev. Mr. Rainford very clearly stated.

There is nothing to be said against the man. He is a good man, whose earnest desire is to improve the condition, materially and morally, of the people among whom he lives. Are the means he is taking calculated to accomplish that end in any degree? There are many who declare in most emphatic terms and very decided tones, they are not. They believe that his scheme of reform is not reform at all, but the reverse.

There are others who listen to what he says patiently and attentively, and who say, "Give him fair play; let his scheme have trial and judge it by its results." It is said that a system resembling that advocated by Mr. Rainford has been in operation in Norway and has produced results that are very encouraging.

THE OROP.

The crop prospect is brightening almost everywhere. The cold spring on the side of the Atlantic and the drought on the other were most unfavorable to the growing crops of all kinds. Since then the weather has become warmer in America and there have been refreshing showers in Great Britain, which have stimulated vegetation and very greatly improved the outlook for the farmer. Still it is not expected that the harvest of 1893, in either Europe or America, will be anything like so abundant as that of last year. It is calculated that this year's wheat crop in the United States will fall far short of what it was last year. The average yield in the States, that yielded at least 250,000,000 of wheat last year, is estimated at from 75,000,000 to 100,000,000 bushels. In England it is believed that the yield of wheat will be 5,000,000 bushels below what it was last year. Of course a good deal still depends upon the weather. If the weather for the next two months is favorable, the returns will be much better than is now anticipated.

It must be remembered that there is a great deal of last year's crop still unaccounted for, and there will be enough left in August to make up to a very great extent for this year's deficiency. It was calculated that there was still remaining of last year's crop of Canada and the United States, on the last of June, 189,372,788 bushels. This, according to Deane's estimate of the 10th Inst., was apportioned as follows: East of the Rockies, 88,031,000; Pacific Coast, 3,019,000; Europe and Asia, 78,088,000 bushels. The probability is, therefore, that, although next year will not be one of extreme abundance, there will be no scarcity of the necessities of life in the civilized world.

OFFICIAL NEGLECT.

The collapse of Ford's theatre in Washington, which had been converted into a department building, has caused much excitement and a great deal of comment on the East. There were at the time of the disaster more than five hundred persons, clerks and others, in the building. Of these twenty-five were killed outright and over fifty more or less seriously injured. The building—the one in which President Lincoln was assassinated—was never a very substantial one. The alterations which it underwent to transform it into a department building were of such a nature that it did not tend to make it any stronger. It was still further weakened by an excavation which was made under it for the purpose of making room for an electric plant. There appears to have been a suspicion among its inmates for some time that the building was not in a safe condition. But as the authorities allowed it to be completed while the underground work was going on, the clerks and other work people naturally concluded that there was no immediate danger. It is now said that it had been long known that the building was unsuitable, and even dangerous, for the purposes for which it was occupied, and that the authorities are responsible for the dreadful catastrophe in which so many lives were lost and such a number of persons maimed. The indignation against Col. Ainsworth, who is at the head of the force of clerks that occupied the building, was intense. It is said that he was so strict that the men who believed that the building was in a very dangerous condition were afraid to make any representation to him. The feeling against him was so strong during part of the inquiry into the cause of

the accident, that it was feared that he would be made the victim of personal animosity. The fear that he would be the victim of such animosity is not without foundation. The truth was so general among the clerks that the Head of the Department thought proper to make the announcement that no person in the public employment examined at the request need fear dismissal for anything he might say while giving his testimony at the inquest. It is evident that there has been great carelessness, or great neglect, or such an accident could not have happened. If the examination of the public buildings had been what it ought to have been, Ford's theatre would have been condemned long ago, and would have been either demolished or made perfectly safe. It is astonishing how lightly some men, on the proper performance of whose duties the lives and limbs of thousands depend, depend upon their responsibility. It is likely that the man who is really responsible for this appalling disaster will never be called to account for the way in which he neglected his work.

THE BRITISH PACIFIC.

Among the passengers to San Francisco by the direct steamer to-day will be Mr. Frank Emory Bakeman, who is on his way to London, going by way of San Francisco and Chicago, to take up his residence in that city. He had pressing personal business in Chicago that made it absolutely necessary for him to return at once to his home in that city, and he is on his way for some days before sailing for England. He said: "The capital of the construction company, which you know to live in New York, has been secured, and I will stop in New York only long enough to transact what business is necessary with the subscribers before I sail. I suppose, however, before August before I can get my private affairs and those of the construction company arranged. I will then go to London and make the final arrangements between the construction company and the financial company, or the British Columbia Railway and Finance Corporation, as the latter is called. I think I have already told the COLONIST that the latter corporation will have a capital of a million pounds, and is to finance the whole railway project for us. "The capital of the construction company, which you know to live in New York, has been secured, and I will stop in New York only long enough to transact what business is necessary with the subscribers before I sail. I suppose, however, before August before I can get my private affairs and those of the construction company arranged. United States not by their appeal made a case proper cognizable in a court of equity; the objection was to the want of equity and not to the want of power.

The jurisdiction of the Circuit court was therefore not in issue, and within the intent or meaning of the acts of application of the United States, are construed. We are of the opinion that the order we are called on to review involved or drew in question neither one nor the other, in the sense that the action of the Circuit Court was invoked.

M. QUAD'S SKETCHES.

The Story of a Somebody Else—Up the Ravine.

(Copyright, 1888, by Charles R. Lewis.)

Suppose your name to be Richard Roe. Suppose you were required to legally identify yourself as Richard Roe, how would you do it? You would of course bring forward people who had known you for years, the record of your birth, the statements of parents or relatives.

One day nearly a century ago I awoke from a troubled sleep to find myself in a hospital ward in Philadelphia.

He had hunted through my clothing to find some clue, but nothing was secured.

He said it appeared to him as though moments had been made by a village tailor. My socks he was sure were home knit, while my shoes were custom made.

"Well, the doctor and I are agreed that you are about 17 years old," he replied. "You are a strong, healthy boy, and after you get out of here, I think everything will come back to you. Don't worry about it, however."

Among the caller at the hospital to see me was a wealthy old man, who had become interested in the case from a scientific standpoint.

there was a dim feeling that I had seen the place before.

I walked up stairs, turned to the left, and I had occupied the same place at supper and breakfast. I went straight to the foot of the long table, and the said I was night. Taking the inn as a point of departure, so to speak, I went on to Lancaster and Harrisburg.

"I had heard of the boy in Philadelphia and believed him to be the same, but had never written. I had grown older and stouter, and they could not identify me, but I have no doubt that I stopped there, but from what direction? I rode north, east and west for a distance of 50 miles, and was a runaway, from Harrisburg, I stopped at a farmhouse over night. As soon as I told my story the farmer laughed and exclaimed to his wife:

betraying by crying out. Before starting I whispered to Tommy:

"The Indians are coming, but if you keep still we shall get away all right. You will ride on my back. We are going among the brush and trees where it is very dark. If I fall down or the limbs switch your face, you must not cry out."

"No, ma no by out!" he whispered as I bent down for him to climb on my back.

"I heard the clatter of the ponies on the hard road as I left the back door, and I was only fairly concealed by the cedars when the Indians began yelling and battering at the door. The others had such a start that I could not overtake them. And, too, they turned into the first ravine on the right, while I kept straight on. A dozen times I almost fell headlong, and a dozen times the boy was almost brushed off my back.

European Staff OF PHYSICIANS.

THE GREATEST Surgeons & Specialists OF THIS ENLIGHTENED AGE.

Thousands of People have been saved from premature graves by these distinguished doctors, after being pronounced incurable by other medical men.

Young, Middle Aged or Old Men Suffering from Spermatorrhoea, Impotency, Nervous Debility, Loss of Memory, Headache, etc., will find relief in these Celebrated Specialists' medicinal fluids, as well as the latest medical advances in the land.

Patients Living at a Distance treated with unfailing success by correspondence. The visit desirable but not always necessary.

CURE FITS! When I say I cure, I do not mean merely to stop the pain, but to remove the cause of the disease.

MEDICAL DEPARTMENT UNIVERSITY OF CALIFORNIA. The Regular COURSE OF LECTURES will begin Thursday, June 1st, at 8 P.M., at the College Building, Shafter St., near Chestnut.

BIRD'S-EYE VIEW OF THE WORLD'S COLUMBIAN EXPOSITION.

over \$25,000 was paid and issued in money orders, and the number of letters handled exceeded 2,500,000.

It is very interesting to note the different stages of the fish hatching process as shown in the Government building which has been transformed into an aquarium filled with many kinds of fish, which might rightly be termed the happy family.

The almost priceless relics left by Columbus, and much that pertains to him, attract large crowds to the Corvint La Rabida. Close by, as if to keep guard over them, are the giant cannons sent over by Herr Krupp of Germany, and this exhibit is seeming with interest.

Disaffection is a mild way of expressing the feelings of those who speak in many tongues over in Midway pleasure concerning the manner in which they have been treated by the directors.

At Departure bay to lift port a few hours ago, clearing for August lock this morning.

CHICAGO, June 17.—The Court of Appeals has unanimously decided in favor of open Sundays at the World's Fair.

The decision means to a certainty that the World's Fair will be kept open on Sunday, and that settles the case for all time, as an appeal would have to go to the Supreme court of the United States, which does not meet till October, when the Fair will be ended.

CHICAGO, June 17.—Contract was severely commented on to-day at the coroner's remains of the Forda, though some of those who had his methods spoken as a practical mechanic.

head was as clear as a bell, and I realized the situation in all its details. It was 1 o'clock in the afternoon when the nurse came over to me and talked for about five minutes.

"I took you for a stranger," said the officer, "but perhaps you are a resident of the city. Can you tell? This is Philadelphia, you know."

"I may have lived here, but I can't say."

"I closed my eyes and groped for the past. I could go no farther back than 1 o'clock of that afternoon. When I told them this, the look that passed between the two men frightened me. They saw it in my face, and the doctor kindly said:

"There, boy, never mind. You are all right. In a day or two everything will be clear to you."

"When they had gone away, a great fear fell upon me. Who was I? Where did I live? Where were my parents and relatives? The doctor had said 'boy' in speaking to me. Was I a boy or an old man? I dared not repeat the questions to myself. I determined not to think of the matter, and after a little I put it away and was soon quite at ease.

"I can't say."

by it five or six times it was as familiar as my whin as day! He stopped here for dinner, and our dog drove him up a cherry tree in the yard, and he hollered like a good fellow.

"I had come from the north then, but I followed the road clear to Williamsport and failed to strike another clew. I might have come down the Susquehanna along distance by boat or raft or have come into the river road from some of the lateral highways. I continued the search for a year. In that time I rode several thousand miles on horseback in northern Pennsylvania and New York.

"I gave up all hope years ago. I am myself, and yet I am some one else. I am two beings, with two names and two identities. In a legal sense I am nobody. I could not prove that the boy who started for Philadelphia from somewhere over had an existence.

UP THE RAVINE. About 1 o'clock in the morning the settler whose cabin was on the Little Colorado river under the shadow of the Mogollon mountains aroused me from sleep and gave me the news that the Apaches had crossed the stream both above and below and were advancing on the house.

"There were the settler and his wife, while I, having charge of the little orphan, brought up the rear. All the children were awakened and sleep and only given time to half dress, and there was fear that the two little boys would

VANCOUVER, June 15.—Rev. R. R. Matland and family left for Nanaimo yesterday.

Dr. Gordon left as surgeon on the Mivora.

The reception to Rev. C. Watson by the congregation of the Homer street church, will be given on Friday.

Steamship Copeland left for the North yesterday morning.

Steamship Copeland arrived yesterday with 350 tons of cement.

The W. W. W. left last night from San Francisco with 45 tons of freight.

VANCOUVER, June 16.—The asphalt pavement is not meeting with universal favor.

Nine out of ten of the amateurs who have inspected it pronounce it a failure.

That portion at present laid is full of little holes flippd out by horses' hoofs and dug out by the narrow tires of heavy vehicles.

The cyclists, of course, are delighted with the pavement.

Fruit raisers say the unusual and incessant downpour of rain has raised the small fruits with the exception of raspberries.

Messrs. Watson and Poole, of Toronto, are in the city on business.

Strawberries were sold here yesterday at a York shilling a box. They were Seattle berries. Fruiterers were obliged to sell them at a sacrifice to save themselves.

Market days are to be on Saturdays, so as not to conflict with Westminster's market day, which falls on Friday.

Prohibition has been prohibited here from 10 a. m. to the close of the day.

Mr. Massey, secretary of the Sun Life Association, has taken \$250 to the new Y. M. C. A. building.

Dr. C. C. McGregor, of Winnipeg, arrived here yesterday to establish himself in Vancouver as agent of the Great North West Life Assurance Co. for B. C.

The shipping firm heretofore known as Chipman, Morgan & Co., will hereafter be styled W. L. Keen Co., the business being carried on by W. L. Keen.

H. V. Edmonds was in the city yesterday. He is convalescent from his serious illness.

Mr. and Mrs. (Foster) Magrath, of Victoria, are in Vancouver. Mr. Magrath goes to Kootenay on a business trip.

Rev. Covelley has resigned the past of the Homer street Methodist church, arrived in Vancouver this morning.

A hearty reception was given him by the congregation to-night.

Photographs of the Mivora were taken as she left the wharf.

Inspector Inland Revenue for B. C., W. Gill, is in the city.

Dr. Ferguson has presented the city hospital with an adjustable rolling invalid chair.

Inspector McLeod is engaged respecting the saloons and hotels.

Mr. Schmitz, of the Japanese consulate, leaves to-morrow for New York and Chicago on a six weeks' trip.

The committee in charge of subscriptions for the Princess May present, met this afternoon, and reported a respectable subscription so far.

of the citizens not comparing favorably with that of Victoria. The committee declined to make an active, determined canvass to see what could be done.

WESTMINSTER, June 15.—From Westminster and Haas, Mr. Mowatt shipped 1,000 lbs. of fresh salmon to Australia by the steamship Mivora, which sailed yesterday.

Mr. Mowatt had a good deal of trouble in getting the fish together in time, as it was only at the last moment that he found he could obtain from the cold storage department.

Mrs. Wm. Holmes, wife of Wm. F. Holmes, Sapperton, passed away this morning at the advanced age of 70 years.

Deceased had been confined to her bed by paralysis almost continually for the last 12 years, and bore her long illness with exemplary patience.

Mrs. Holmes was a native of county Kilkeny, Ireland, and came to British Columbia in 1860, a year after the arrival here of her husband.

She leaves a husband and two daughters, Mrs. M. J. Holmes, and Miss M. J. Holmes, both of this city, to mourn her loss.

The funeral will take place on Saturday afternoon, at the residence of the deceased.

The matress for the channel improvement being laid at the rate of one to one day. The work is not being done by contract this season.

The snow is fast disappearing from the peaked roof of the present building. There is more to be seen yet than is usual at this time of the year.

The water came up another inch last night, the highest registered being two and two inches above low water mark, and twenty inches above the highest point reached in 1888.

Alderman Lovi met with a serious accident on Monday night on his way home from the council meeting.

He was struck by a team and jumped from a York shilling box, when he was severely injured. He is recovering, but it is probable he will never recover the use of the arm again.

A few days ago, Provincial Officer Julien brought an insane jap up from Stevenson for admission to the asylum.

The authorities of that institution, in compliance with the new act, would not admit him, the papers being irregular.

Mr. Brown and family will shortly leave for Kamloops where they will spend the summer.

Mrs. Mason and Mrs. Nason will shortly leave Barkerville. They will be much missed.

Mr. Bohannon has gone East; he will take in the World's Fair.

Genial Dave, of Beaver Pass, has taken up a ranch in Chillicothe and has left there to-day, taking his family with him.

Crogs are making considerable lateen of the season, and all are in hopes of still having a good yield.

Some maliciously inclined person, in writing to Vancouver to-day, has stated that J. C. Boyd, late bookkeeper of the H. B. Co. store here, had been "fired."

That such was not the case his many friends will testify. He is recovering from the injuries of his townsmen, and by some means than Mr. A. McNaughton, the company's manager at this post, to occupy the position of cashier and bookkeeper of the Galena Trading Co. at Pilot Bay, Kootenay.

The San Juan Minor Co. are working on their claim back to Kootenay ranch, putting in a larger party so as to be able to cope with the work.

Mr. Wm. Houseman returned the other day to develop his claim on Dunbar flat.

Anthony Yeast is making a large wash up on his claim at the Bonanza, and is working at a discount.

Mr. J. P. P. Crease visited Dunoon on Sunday last.

Mr. H. Fry, C.E., returned from Nanaimo as usual yesterday.

The licensing board of the Municipality of Nanaimo, held on Wednesday at the Agricultural hall, the Mayor, Wm. Drinkwater, Councilors Wm. Dunoon and W. Hard, and H. O. Wellburn and Captain Barkley, J. P., forming the board.

The licensees, Messrs. Maple Bay hotel, Matt Howe, Horse shoe hotel, Chematus, the Quanchan hotel from James Daley to C. H. Dickie, and the Alberca hotel from C. H. Dickie to D. H. Adams, were also granted.

The Court of Revision and Appeal (as amended) of the municipality consisting of the Reeve and Councilors E. Barkley, W. C. Dunoon and W. Herd, was held yesterday (Wednesday). Between forty and fifty cases were listed, and finally only one on the ground of the appeal being overcharged on real estate. Appeals were heard until late in the afternoon, many requests for adjournment were granted, and adjourned the hearing until Saturday, in July, when the appeal undisposed of will be heard.

Dr. J. Nelson, Indian Agent Lomas and Constable Matland-Douglass arrived down from Nanaimo as usual yesterday (Thursday).

case and convert the one disseater, but without success, as before stated. At 7 o'clock, when the court re-opened, there was no change and the jury was discharged, having been just fourteen and a half hours considering a verdict.

The case will have to be tried over again at the next session, December 5.

It is understood that eleven of the jury were in favor of acquittal, but that they could not overcome the conscientious scruples of the twelfth, who was convinced of the prisoner's guilt.

Sentence was passed on the other prisoners convicted during the session, last night. The two Indians found guilty of housebreaking at Willow Creek, Comox, received very heavy sentences. The one, Yik-yik-lag-lag, being sentenced to three months' imprisonment; his companion that merely being sentenced to a month.

NANAIMO, June 16.—The District Licensing Court, which sat at Wellington has resumed its labors at the rate of one to one day. The work is not being done by contract this season.

The snow is fast disappearing from the peaked roof of the present building. There is more to be seen yet than is usual at this time of the year.

The water came up another inch last night, the highest registered being two and two inches above low water mark, and twenty inches above the highest point reached in 1888.

THE PIGEONS WIN THE DAY.

Live Bird Matches to be Abandoned by the Sportsmen's Association—Second Day's Shooting.

Scott of the James Bays Wins the Sloan & Scott Challenge Cup—Victoria's Fall Races.

It was in much more favorable weather than on Wednesday that the second day of the Sportsmen's Association tournament opened yesterday.

The morning was bright and clear, and the amoying wind that bothered the scores on the preceding day had either died away. Nine o'clock was the hour for the first event, but it was nearly 10 o'clock before the first squad of six men took their places.

The attendance and interest were considerable. The great attraction was the "Globe" championship match, and many spectators were present to witness it.

The rain, however, set in about noon, and the birds were hardly as lively as they had been. The great attraction was the "Globe" championship match, and many spectators were present to witness it.

The president of the association, Mr. Williams, thought it very well to discuss the question, but no change should be made without the subject being dealt with by delegates, one from each club, to meet in the afternoon.

The minutes of the meeting were then read and adopted, after which Mr. Eberly proposed that the club members, with live bird matches, should be abandoned.

The birds were always a loss to the place where live bird shooting was held, and as much as sixty cents apiece.

He moved to do away with live bird shooting in tournaments hereafter, but Mr. Scott of the James Bays pointed out that the "Globe" trophy was given over to the live birds and that the donors should be notified of the change. Mr. Smith was however, decidedly in favor of being away with live bird shooting, and he moved that it be done.

Mr. Williams moved, in amendment to Mr. Eberly's motion, that the action in the matter of the "Globe" trophy be deferred till next tournament. A number of gentlemen expressed themselves on the subject, the general consensus of opinion being in favor of doing away with live bird shooting.

Mr. Eberly's motion to that effect was carried.

It was decided after considerable discussion to refer the conditions under which the trophy should be competed for to a committee of the former winners for report.

Mr. Williams reported that the conditions to be: "At inanimate targets—30 singles and 10 pairs from five unknown traps at known angles and 30 pairs from 10 angles in the singles and in the doubles five pairs down with an indicated pull."

It was decided to hold the next annual tournament at Tacoma, in June, and the election of officers then proceeded with, resulting as follows: President—T. A. Bringham, Tacoma.

First Vice-President—Howard Lewis, Seattle.

Second Vice-President—T. B. Ware, Spokane.

Third Vice-President—D. L. Williams, Portland.

Secretary—E. E. Ellis, Tacoma.

Treasurer—W. A. Hardy, Seattle; C. E. Hughes, Portland; D. Cooper, Whatcom; H. T. Denham, Tacoma; and F. S. Maceure, Victoria.

After a vote of thanks to the retiring officers, the meeting adjourned to meet in Tacoma next June.

Beautiful shooting weather, was the general verdict of the members of the Sportsmen's Association who were present at Macaulay Point traps yesterday morning to begin the third day's shoot in the tournament.

There was fully as good an attendance as on previous days. The shooting went smoothly and pleasantly, the sportsmen expressing themselves as charmed with the arrangements and treatment received at the hands of the Victoria friends.

Nothing occurred during the day of any special interest, and the day closed with the sport, and Victoria's tournament is voted one of the most successful, most enjoyable and most enjoyable ever held.

Event No. 10. Single target, entrance \$1.00, added \$30.00. First prize, thirty per cent; 2nd prize, twenty per cent; 3rd prize, ten per cent; 4th prize, five per cent; 5th prize, three per cent.

The entries in this event were a numerous as in the first day's event. There were 55 competitors taking part. The circumstances under which it was shot were very favorable, the weather being bright and clear, and the birds were so numerous as to affect the scoring, which averaged well all through.

Those who made the full run of ten birds each were: P. A. Kinzie, E. B. Warren, W. A. Eberly, and C. W. Minor, while C. E. Hughes, J. F. Warren, E. E. Ellis, W. R. Dodge, J. Hardy, W. B. McKelvey, O. Welles, H. E. Johnson, and H. A. Munn each scored nine.

Event No. 11. Fifteen singles, entrance \$2.50, added \$60.00. First prize, thirty per cent; 2nd prize, twenty per cent; 3rd prize, ten per cent; 4th prize, five per cent; 5th prize, three per cent.

After a close and extremely interesting contest, Tacoma and Victoria divided the honors for first place, the only two making two birds in the match. The last event is only open to Provincial clubs.

To comfort the unfortunates who were not able to average over 70 per cent in events 1, 2, 3, 4, 5, 10, and 11 the Selby Club has arranged for a consolation race to-day, by themselves a consolation race to-day. The following are eligible to enter: J. C. Inks, H. A. Adams, D. H. Adams, W. Conover, C. T. R. C. Stewart, J. Hardy, E. G. White, W. J. Leary, T. C. Smith and W. H. Kenly.

A few of the sportsmen left for home last night, but the majority will see the tournament to a close.

THE STORM.

Clouds have decided upon the following program for the race to be held on the 24th inst.

Race No. 1—Running 7 mile and repeat. Catch weight. Prize, saddle and bridle. No. 2—Running 5 mile and repeat. Catch weight. Prize, saddle and bridle. No. 3—Trotting and pacing 1 mile heat; 5 No. 4—Trotting and pacing 1 mile heat; 5 No. 5—Running 1 mile dash. Gentlemen riders only.

A meeting of the club was held this evening to complete arrangements, and as a large number of horses have entered, a great day's sport is anticipated.

THE VICTORIA YACHT RACING.

The fall meeting of the Victoria Yachting Club has been arranged to take place at Club Park on the 10th, 11th and 12th of August—Thursday, Friday and Saturday.

The program includes the events best calculated to please the public, and as the purses being large enough to draw good boats from the Northwest and British Columbia will come here to open the fall circuit.

RACING AT ASOOT. LONDON, June 15.—At the Ascot meeting yesterday the race for the Royal Hunt cup, won by Baron de Rothschild's contender, with Pitcher second and Jewel third.

THE BOAT. SLOAN AND SCOTT'S OUP. Nanaimo, 15.—(Special.) The mile and a half sculling race for Sloan and Scott's cup was won this evening by W. Scott, of Victoria, completely out-pulling the other competitors. There were only three starters, viz: Sloan, of Victoria, A. E. Henderson, of Vancouver, and Dr. Hall of Nanaimo. A good start was made by Henderson, who took the lead, which he kept for about a hundred yards until overtaken by Scott, who was pulling a splendid, long, easy stroke. Hall for the time kept a good position, and after the turn was virtually not in. Scott took the turn first, Henderson being close behind.

Starting home both Sloan and Henderson were fairly even, but Scott gradually forged ahead with the same steady stroke, and when within a hundred yards of the winning post, increased his leading distance rapidly, completely out-pulling Henderson, and was within a few lengths ahead of Sloan, who was within a half in 11:53. Henderson won the cup last year, and Scott's victory necessitates another race. The cup must be preceded the winner, and the runner-up will not be in. Scott took the turn first, Henderson being close behind.

The Colonist. FRIDAY, JUNE 23, 1893.

INDEFINITE AND UNSATISFACTORY.

It sometimes happens that a strongly marked outline of a speech will give the reader quite as good an idea of its scope and significance as a full and carefully written report.

It strikes us very forcibly that the reader who has seen the sketch of Mr. Laurier's speech at the Ottawa convention, telegraphed by our correspondent, knows as much about the new Liberal policy as those who heard the speech from the first sentence to the last.

He learns from that sketch that Mr. Laurier's ideal fiscal policy is free trade. He also learns that he despairs of reaching his ideal—that he is obliged to admit that free trade for Canada is at present an impossibility.

So the Liberal leader is under the necessity of paring down his free trade policy until his tariff becomes a tariff for revenue. What this means neither he nor anyone else can tell.

It is one of those convenient phrases which sound nice and liberal, but which are so charmingly indefinite that they may signify anything or nothing as the speaker finds it convenient to admit.

It is no doubt, fortunate that he had everything his own way. Central Africa is too far from Downing street and communication is too difficult to permit of officials who know nothing about the state of the country or the kind of men with whom he has to deal.

It is not prepared to tell the people what action he proposes to take on that very important subject. He knows his own mind with respect to it, but he does not deem it expedient to take the people of Canada into his confidence just now.

He proposes to wait until the report of the commission is brought down—or until he sees more clearly in what direction the cat is going to jump.

Besides the three seals mentioned, we came across a fourth, a large kind, with small head, small fore-flippers, very thick blubber, and a more woolly skin. These seals were found in latitude 64 1/2° S., and long. 58° 22' W.

It is not a seal, but a whale, and the seal hunters had not, by any means, a bad time of it. They saw numbers of whales, but not of the kind they were in search of.

It is not a seal, but a whale, and the seal hunters had not, by any means, a bad time of it. They saw numbers of whales, but not of the kind they were in search of.

It is not a seal, but a whale, and the seal hunters had not, by any means, a bad time of it. They saw numbers of whales, but not of the kind they were in search of.

A FASHIONABLE WEDDING.

Miss Maudie Higgins and Mr. Thomas Corsan United in Marriage by Bishop Oridge.

Reception at the Residence of the Bride's Parents—List of the Wedding Gifts.

Under auspices so favorable that it seemed as if there were nothing more to ask for, surrounded by friends and well-wishers innumerable, and with hosts of happy hearts to speed them on the life voyage, Miss Maudie Higgins and Mr. Thomas Corsan were yesterday afternoon united in the holy bonds of matrimony.

The ceremony was performed by the Rt. Rev. Bishop Oridge at the Reformed Episcopal church, the little edifice being most tastefully decorated with floral emblems of the joyous event.

The bride was escorted to the altar by her father, and when the Bishop had pronounced the vows, the bride and groom sang a most appropriate anthem, "Behold now a good and pleasant thing it is for brethren to dwell together in unity."

The wedding march was played as the party were leaving the church. The bride was attired in a becoming costume of white brocade, trimmed with lace and orange blossoms.

The Bishop of Columbia having taken up his residence at Bishop's close yesterday, the occasion was pleasantly marked by a reception given to him in Christ Church cathedral last evening by the congregation.

The joint committee of Far West and Sunnet lodges, and Victoria Division No. 2, Uniform Rank, Knights of Pythias, met last evening to make arrangements for the decoration of the graves of the deceased Knights on the 25th inst.

Vancouver's Streets.

Fisherman Stagnant.

Business with retail dealers has been brisker this week than for many months past. The market is well stocked, but not glutted. Butchers are now importing their fatted cattle from the interior, instead of outside, as heretofore.

The standing retail quotations are as follows: Flour—Portland roller per barrel \$5.75. Oatmeal—No. 1 per barrel \$4.75.

The standing retail quotations are as follows: Flour—Portland roller per barrel \$5.75. Oatmeal—No. 1 per barrel \$4.75.
