### SQUIBOGRAPHS.

The sharp advance in thread seems to be needless.

The Standard Oil Co. has been fined thirty millions, but it looks like thirty cents to John D.

The hired man who will not loan his rubber tired rig to his employer to drive to town is no gent.

Two Yankee explorers are already for another dash to the pole, but the pole don't seem to care a dash.

The Western farmers console themselves that if the crop is short they will not have to pay so much for harvest help.

Marconi is having trouble with his wireless telegraphy system. The operators complain that the barb interferes with the switches.

We have been receiving complaints lately regarding people tearing down bills which have been posted in the country. We would like to impress upon those who are guilty of an act of this kind, that this is a punishable offence for which they may be fined or imprisoned.

BUNTING, flags, Union Jack, special welcome designs.—SWIFT BROS.

Mr. Friend Thorpe, manager of Arkona evaporator, will have additional responsibilities placed upon his shoulders this fall, the Watford evaporator being placed under his charge. Since Friend has been managing plant in Arkona he has made a success of it.

GET our prices on furnaces before you buy. We have a couple of the newest and best makes, and can guarantee your satisfaction. The N. B. Howden Estate, agents for the Happy Thought range.

MR. Deadman Lambeth, has a singular monstrosity in the shape of a young porker, which, while having only one head is possessed of two tongues, two throats, three sets of teeth, two bodies attached at the shoulder and eight legs. The limbs are perfectly formed in every way.

THE Alvinston "Tigers," and the Watford "Cubs," two juvenile ball teams clashed at the Park on Thursday evening of last week. The game was hotly contested, requiring ten innings to decide. The "Cubs" won out by 17 to 15, and claim they can trim anything of their left in the west.

FLAGS, get them ready to go up. We have what you want.—SWIFT BROS.

DURING the storm which passed over Sarnia last Thursday afternoon, lightning struck one of the large crude oil tanks at the Imperial oil works. The refuse oil in the tank caught fire and despite the efforts to subdue the flames the huge tank was completely destroyed. Fortunately the tank had been emptied of crude oil about two hours before the fire started. The frame dwelling at lot 10, con. 1, Caradoc, near Christina, owned by John Muldoon of Strathroy, was struck by lightning at 2 o'clock in the morning of the 26th ult. The bolt is supposed to have entered through an open window. It struck a bed in which his daughter, Ida, was sleeping and burned a hole as large as a football in the mattress. The girl escaped without the slightest injury.

J. A. OSTER, of Brussels, who was associated with W. J. Hull, of this place, in the picture business for several years, died quite suddenly at his home in that town on July 30th, aged 34 years, from an attack of appendicitis. Deceased, who visited Watford three weeks ago in the best of health, is survived by a wife and one young daughter. The funeral took place on Thursday afternoon to Brussels cemetery.

THE Department of Agriculture is making a special effort to improve the raw material supplied to cheese factories by patrons. With this end in view, the Department are distributing 55,000 leaflets on the care of milk. The pamphlet impresses on the farmers the necessity for clean milk, and cool milk, to insure good cheese and butter. "Clean milk," says the pamphlet, "implies well cared for cows, careful and clean milkers, and clean utensils."

BUSINESS MEN and correspondents are requested to send in their favors a little earlier than usual next week. Our issue next, and the extra amount on Thursday next, and the extra amount on work in its preparation necessitates our going to press somewhat earlier than usual in order to catch the mails. Each subscriber will receive a copy of this illustrated edition in place of the regular issue. Extra copies will be on sale at five cents each.

At a meeting of the Presbytery of Sarnia, held July 31, in St. Andrew's church a call was presented to Rev. W. D. Bell, of Corunna, by the congregation of Finch in the Presbytery of Glengarry, and was accepted by Mr. Bell. A large deputation from Mr. Bell's present charge was present, and expressed the high esteem in which Mr. Bell is held by his congregations, and their deep regret at the prospect of losing him as their pastor. The change will take effect after next Sunday.

OUR clearing sale so far has been a great success. We still have a select stock of boots and shoes which we are selling at cost price. Call and inspect goods.—D. G. PARKER.

JOHNNY aged six, had formed a bad habit of running away, more for the excitement of being pursued than for any dissatisfaction with home conditions. His mother, after welcoming him back various times, with rejoicings, followed by the kind of punishment that hurts the punisher more than the punished, at last began to see into Johnny's motives. The next time he disappeared, no one made any movement to follow him. The little fellow was bitterly disappointed, but kept away until evening, when homesickness overcame his resolve not to go back until he was sent for. He slipped in quietly, but not the slightest noise was taken, nor any allusion made to his having been absent. At length, Johnny could bear this indifference no longer. "Well," he observed casually, "I see you've got the same old cat yet."

If you have made up your mind to live in a town, then stand up for it, and if you know of positively no good, then silence is golden. Do all you can to help along every man who is engaged in legitimate business. Do not send away for everything nice you want and still expect the home man to keep a stock to suit the whim of one or two customers. The success of your fellow townsmen will be your success. No man liveth to himself, and no man can do business independently of his fellowmen. Take the home paper. Do not imagine the big dailies fill up all the space. There are many little crevices of good cheer, social sunshine and personal mention, in the home paper, that the big dailies do not print. Do not abuse your neighbor. The main difference in the number of his faults and your own is that you see through a magnifying glass as a critic. The ill omened, the croaker, can do a town more harm in a minute than two good citizens can repair in a month.

WAGES are high in the Klondike, but they are offset by the great cost of living. Laborers are paid \$6 a day, and clerks from \$15 to \$30 a month; but the hotels charge from \$3 to \$6 a day, and even ordinary board and room cost from \$9 to \$15 a month. Beef, butter, and pork are quoted at 50 cents a pound, and coffee 65 cents. Rice is 10 cents a pound and flour 75 cents a quart—imagine the pride of an Alderney cow earning \$50 a day!—while canned milk retails at \$7.50 for four dozen cans. Apples are \$4 to \$6.50 a box, and oranges \$12.50 to \$25 a box. Singularly enough, there are no Klondike quotations on lemons.

PERSONAL.

W. J. Mitchell, Toronto, is visiting relatives in town.

Miss Mae Livingstone is visiting friends in Sarnia and Windsor.

Mr. and Mrs. F. R. Luckham returned from the west last week.

Dr. G. C. Seaman, Milwaukee, Wis., visited relatives here this week.

Miss Alice McLaren is home from the west for her holidays.

Miss Annie Davey, Berlin, Ont., is visiting her aunt, Mrs. J. L. Seaman.

Mrs. Martin, Toronto, spent Sunday with her father, Rev. W. H. Shaw.

J. H. Fowler, of the London Advertiser, spent Sunday at his home here.

Mr. and Mrs. John Thomas, Inwood, spent Sunday with Watford relatives.

Harold Crews, Guelph, is spending his holidays at the Methodist Parsonage.

Miss Jessie Taylor left Thursday to spend a few days at Preston Springs.

Miss Christina Sharp has returned home from a trip to Niagara Falls, N. Y.

Miss Edith Liddy, Hamilton, is spending her vacation with Watford relatives.

Misses Edna and Hazel Jackson, Strathroy, called on Watford friends Wednesday.

Chester Ward, Chicago, is spending a few days with relatives in Watford and vicinity.

Iva McWatters is visiting her aunt, Mrs. W. H. Arnold, 351 Clarence St., London, Ont.

Mrs. John Kersey and son, Robert Flint, Mich., are visiting relatives in Watford and Warwick.

Mrs. J. M. Robertson and son, Vernon, Toronto, are spending a few weeks with Watford relatives.

Mrs. W. M. Thomas and daughter, Della, of Marlette, Mich., are visiting Mrs. Margaret Harrower.

Master Charley Arnold returned home Tuesday after spending a few days with his uncle, T. McWatters.

J. M. McQueen, B. A., principal of the Carman Man, High School, is renewing old acquaintances in town this week.

Miss Olive Davidson attended the Ottawa Old Boys' Reunion last week, and will visit relatives in that city and vicinity, returning in November.

J. C. Wadell, of Petrolia, has been elected second vice-president of the Western Ontario Bowler's association.

### REUNION NOTES.

Are you a member?  
Only another week.

Company for tea, also dinner and supper.

Several automobile parties are coming to the Reunion.

No automobiles will be allowed inside the park grounds.

Last chance to get on the honor roll. Get your members ticket.

Dr. Leroy Lewis, of Ann Arbor, writes that he will be over with the crowd.

Applications for booths and privileges should be made to J. F. Elliot.

The Toronto boys are coming home strong. You can't lose Toronto.

The surrounding country is being billed with Old Boy's literature this week.

We may never have another gathering like this. Let all join in making it a success.

The program of sports is out and offers many attractions. All events are free to amateurs.

Every livery rig in Forest, Wyoming, Arkona and Strathroy is already engaged for the Reunion dates.

All committees are requested to meet in the council chamber at 8 p. m. on Tuesday to make final arrangements.

A program of sports has been prepared for public school pupils, who take part in the parade on Monday afternoon.

Negotiations are under way for a special train to leave Watford for the west after the concert on Tuesday evening.

Special meetings of the Reception Committee in the council chamber on Monday evening at 8 o'clock to arrange a program.

The Sarnia Old Boys have gotten out a handsome badge with a cut of the steamer Huronic, the words "Sarnia," and the Old Boys' colors.

James Garvey, of Postoria, Mich., is going to drive over. Mr. Garvey owns a horse with a mane five feet long. Watch for the long maned horse.

The whole town is on the Reception Committee. Everybody meet all trains and make visitors welcome. This is the biggest ad. Watford has ever had.

Mr. Chambers is making arrangements for a special electrical display at the park, and several of the Main St. business men will put on special lighting.

Bandmaster Stares, of the 91st Highlanders, writes that the Highlanders anticipate a pleasant trip to Watford and will bring their best players with them.

J. A. Hunter, of Cornwall, an old time Watford typo, now foreman of the Cornwall Standard, will be home for the Reunion. Adolphus couldn't stay away.

In order that there may be no misunderstanding, we repeat that members' tickets are good for both afternoon performances, and also admit carriages, but are not valid for evening entertainments.

Only a few weeks until the Reunion. Order your official badge now as the supply is limited, will be on sale at Dowling's, Guide-Advocate and Miss Nesbitt's studio, Main St., over Fitzgerald's law office.

Dick Roche is coming down from Winnipeg and thinks he can qualify for third base on the Old Boys' team. "Doescher" was pretty handy in 1885, but the game is a lot faster now and it may bother him to get inside the flag.

The Pt. Huron Knight Templars with their splendid drill corps, 50 strong, will be one of the special attractions. The Pt. Huron Sir Knights seldom come to a town this size and their fancy drill will be worth coming miles to see.

Watertown, Sask., is made up of Watford old boys and they will be represented at the Reunion. The colony includes Jas. Waugh, Ed. Bowlby, Jas. Anderson, Peter Anderson, Wm. Anderson, Harry Greer, Fred Kelly and Will Kelly.

Arrangements are being made to furnish lodging accommodation for all who are not otherwise provided for. The Billington Committee have about completed a canvas of the town, and will be glad to hear of any extra accommodation.

All public school pupils are requested to assemble at the Watford public school grounds at 1 p. m. sharp on Monday, where they will be lined up for the parade. Nearly all the rural schools for miles around will be represented in the parade.

Don't make too much fuss over company. They are coming home for a good time, and don't expect anything out of the ordinary. It is not necessary to spend all your time in the kitchen. Get out and enjoy the day with your guests. They will appreciate it more than fuming and fussing.

Bert Harvey, Leroy Kenney, the celebrated Arion Quartette of Berlin, Marie Macdonald and the Forest Excelsior Band will furnish one of the best concerts ever heard in Watford on Monday evening. Prof. Phelps, of London, will be the accompanist of the evening.

The Old Boys and the Home Boys will play ball on Monday forenoon, and on Tuesday forenoon the Canadian and American Old Boys will meet in deadly conflict. League managers from all over the continent are expected to pick up some of the star players overlooked by the police.

### Suspect Makes Full Confession.

Suspected of being a crook by Police Captain Kerwin, of Port Huron, Earl Bolton, alias Brown, was put in the "sweat box" Monday afternoon, and confessed to numerous thefts he had made in Canada. He had in his possession jewelry, razors, knives, etc., and admitted breaking into a hardware store recently. Authorities at Comber and Windsor were notified, and he was taken by Provincial Officer Campag from Port Huron to Sarnia, and thence to Windsor Tuesday morning. Bolton was released from Central prison, Toronto, in February, for a larceny charge.

The fire department of Petrolia will hold their annual picnic on the 23rd of August at Lake Huron Park.

### A Word About the Schools.

It is a mistake to teach children a little of everything, and nothing thoroughly. About all education can do for a man or a boy is to set him to thinking for himself. The germ of originality in the individual needs cultivation, needs stimulant. The head cramped with the ideas of other people has little room for its own thought. Many a boy is so thoroughly schooled that the common sense, the will power, the self-reliant manhood is driven out of him. A load of facts with no education in their use is of little value. The most successful business men in our cities are those whose scanty education embraced a thorough knowledge of simple rules and studies, but whose necessities have since demanded vigorous thought, incessant industry and the best use of every source of mind and body. The hot bed system of education enfeebls rather than strengthens. Only a few require the classics, astronomy, or a knowledge of the dead languages.—Leamington Post.

### Is Your Cold Better?

No, it's as bad as ever. Nothing seems to help. Why not use the up-to-date specific "Catarrhzone," which drives out cold in one day. Inhale Catarrhzone and you will be relieved in two minutes. Continue the treatment and cure is assured. Healing, germ destroying and pleasant, nothing for colds, throat trouble and Catarrh compares with Catarrhzone. Sold everywhere, 25c and \$1.00.

### Ontario Flour in the Eastern Provinces.

Only by wisely adopting new discoveries can the farmers of this Province compete on even terms with the West, whose specialty is wheat. Western flour has invaded Ontario, and the decline in the demand for Ontario wheat is to-day a fact only too evident to farmers. Ontario agriculturists, in many instances, buy Western flour, raise little or no wheat, and for what they do raise, are not receiving a price commensurate with their labor—all, largely because they will not use the flour made from wheat that they grow themselves, owing to a mistaken belief that the Western flour is better. In addition to this loss of market, the cost of feed is too high to enable stockmen and dairy-men to realize the profit which, under proper conditions, ought to be assured.

It will be somewhat of a surprise for most farmers to learn that Ontario flour is a favorite in the Eastern

provinces; and that in the face of strong competition, it has for several years been preferred in the Maritime Provinces, to the best Western brands. The discovery of flour-blending bids fair to re-open the demand for Ontario wheat; and this ought to attract the attention of Ontario farmers to a question of vital importance to the agricultural interests of the Province.

Blended flour is simply the best of Ontario's finely-flavored product to which a small proportion of Western wheat is added to bring up the percentage of gluten, for "strength." Freed from technicalities of chemistry and milling, it means both strength and flavor in the daily loaf. Viewed economically, it means an increased market for an Ontario-grown product which has won the unprejudiced favor of the East.

Whether this will prove true of Ontario, and whether such a demand will be created that the price of wheat will improve, and the cost of bran and shorts become lower, depends upon the individual farmer. Buying Western flour means a negative answer to the query; if, however, the Ontario farmer is alive to the situation, he cannot financially afford to neglect the latest discovery in practical economics and will insist on buying only the flour milled in Ontario.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system thereby destroying the foundation of the disease, and giving the patient by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

### The Future of Implements.

The rapid improvements being made in agricultural implements indicate that great changes are occurring in methods of farming. Gas and gasoline engines have enabled farmers to utilize power at the lowest cost, especially for such laborious work as shredding and preparing stock foods, or wherever such engines can be applied. The introduction of "auto" plows, harrows, cultivators, mowers and wagons will soon reduce the number of horses on farms, thus affecting a saving in the goods consumed, as well as reducing the space employed as a shelter and the investment of capital in farm buildings.

The farmer of the future will not be compelled to devote long hours and tedious labor to the various operations of farming. Even the dreaded process of milking by hand is about to be eliminated, the milking machine now being an actual reality, while the separation of the cream from the milk has long ago been accomplished by suitable appliances. Garden work has been reduced almost to a minimum by the combined seed drills, wheel hoes and cultivators. But for the assistance afforded the farmer by the improved implements and machinery in use at the present day this country with its large area and thousands of cultivated fields, could not supply its people with food, as human labor cannot be secured. The machine has driven the farm laborers to better methods of employment, and it is enabling the farmer to ride while he prepares his land, seeds down his crops, cultivates his soil, and harvests his products.

The improvements that have been made within the past ten years have been marvellous, and we may profitably meditate and conjecture regarding that which may happen in the future, but the farmer has ceased to be surprised at the lessening of his labor and the increase in yields of crops. The manufacturer of implements who prepares his plants with the newest machinery for turning out goods may witness his factory out of date in two or three years. Every season the farmer finds that he must buy something that he never saw before in order to keep up with his neighbors, and also because he must reduce the cost of production to the minimum. The manufacturer, with large investments, and hundreds of employes depending upon his operations, and who is prosperous today may tomorrow suspend work because of some invention against which he cannot complete, and which he knows will revolutionize his business, as well as perhaps change the present system of farming.—Implement Age.

## WATERY BLOOD

Nerves are Weak  
Face is Pallid  
You Lack Strength  
You Look Sickly.

Until You Ironize and Fortify the Blood There's No Hope of Cure.

Thousands of tired workers need the invigoration, the strength, the nerve-force which Ferrozone can supply.

Ferrozone imparts strength because it nourishes.

Ferrozone is able to nourish because it supplies to the blood the elements it lacks. Once the blood is vitalized, its tonic influence is circulated to every nook and corner of the body, carrying new life with it. Cases on record prove that Ferrozone builds up when else fails. Mr. Alonzo W. Douglas of Woodbridge, Ont., says: "I desire to state the results derived from the use of Ferrozone. Two years ago I was stricken with Pneumonia. So severe was the attack and so reduced was my strength that my life was despaired of. I had the very best medical attention, but made no progress towards recovery. When reduced to practically a skeleton, a kind friend told me of the remarkable powers of Ferrozone. An improvement began almost at once. I gained steadily in weight and strength until Ferrozone made me a new man. I will gladly answer inquiries from other sufferers if they care to have further particulars about my recovery. Ferrozone deserves its great measure of success."

When a man in Mr. Douglas' low condition can be quickly cured, aren't the chances good for you? Don't fail to try Ferrozone. Price 50c. per box at all dealers.

### PLYMPTON COUNCIL.

Council met July 27th, as a Court of Revision on the Gillatly drain. Five appeals were on file. Three appellants were represented by R. T. Towers, of the law firm of Cowan & Towers, Sarnia. Evidence was taken for and against at considerable length and the Court adjourned until Aug. 3rd.

**You Men and Women who have Irritated Bladders try "Bu-Ju" on a Guarantee.**

Doctors call it Cystitis. Whatever the name, it is due to weak Kidneys. The blood is bringing impurities to these organs faster than they can filter it out. This is often deposited in the Bladder; irritates the membrane so much that it cannot retain the urine. Instead of passing urine four or five times a day, it is passed twenty to thirty times. The urine is hot and scalding, and burns like fire.

My! what relief the first few "Bu-Ju" Pills give! They are like ice water to a parched throat. They neutralize uric acid, soothe the delicate lining of the bladder, and take away the burning pain. They strengthen the weakness—heal the Kidneys—stop that frequent desire to urinate, which is such an annoying feature of Cystitis. One man told us that "Bu-Ju" gave him the first uninterrupted night's sleep he had enjoyed in fifteen years.

Bu-Ju is sold by druggists all over Canada. If yours should not have them, send to us and we will see that you are promptly supplied. 50c. a Box, and your money refunded if they fail to cure.

**PETER MENASS KILLED.**  
 Run Over by Train in G. T. R. Yards  
 at Point Edward.  
 Peter Menass, a well-known Indian  
 from the Sarnia reservation, was killed in  
 the G.T.R. yards at Point Edward Thurs-  
 day afternoon by being run over by a  
 Grand Trunk train. Menass was in an  
 intoxicated state, and during the heavy  
 downpour of rain about half past four  
 o'clock got under a car to escape getting  
 wet. While in this position the yard en-  
 gine shunted the cars, with the result that  
 Menass was terribly mangled and almost  
 instantly killed. Both legs were cut off  
 and he was otherwise cut about the body.  
 Coroner Dr. Logie was notified and  
 after viewing the body and learning the  
 facts decided that an inquest was not  
 necessary and gave the order for the re-  
 moval of the remains.  
 Deceased was aged about 56 years and  
 leaves a wife and grown up family. The  
 funeral took place this morning at 11  
 o'clock from the undertaking establish-  
 ment of G. L. Phillips to the Reserve  
 Cemetery.

**AUGUST NOT A WARM MONTH.**  
 For Thirty-Two Years Mean Tem-  
 perature was 67 Degrees.  
 August, the month just entered upon,  
 will not see any heat prostrations, if the  
 weather of the month for the past  
 32 years can be taken as a standard of  
 prophecy. The mean temperature was  
 67 degrees, the warmest month being in  
 1900, with an average of 74 degrees and  
 the coldest in 1885 with a temperature of  
 63 degrees. The highest temperature was  
 92 degrees and the lowest, 41. The pre-  
 vailing winds for the month during the  
 32 years were northeast.

**A CURE FOR CONSTIPATION.**—Constipation  
 comes from the refusal of the excretory  
 organs to perform their duties regularly  
 from contributing causes usually disordered  
 digestion. Parmeiee's Vegetable Pills, pre-  
 pared on scientific principles, are so com-  
 pounded that certain ingredients in them  
 pass through the stomach and act upon the  
 bowels so as to remove their torpor and  
 arouse them to proper action. Many thou-  
 sands are prepared to bear testimony to their  
 power in this respect.

**IMPORTANT FOR SCHOOL TRUS-  
 TEES.**  
 Inspector Moshier Gives Some Timely  
 Advice.

Now that larger government grants are  
 given to rural schools with second or first  
 class certificates that if the same schools  
 employ a third class teacher, the trustees  
 should be sure that they know the grade  
 of certificates held by the teacher employ-  
 ed.  
 All certificates are very plainly marked  
 First, Second and Third class as the case  
 may be. Trustees should ask for the cer-  
 tificate to be produced when the engage-  
 ment is made and if there is any doubt  
 about it, have it referred to the public  
 school inspector at once.  
 In particular the trustees should not be  
 deceived by the term "non-professional  
 certificate." The higher grants are paid  
 only when the teacher holds a professional  
 second or first class certificate. Un-  
 fortunately in some cases the trustees  
 have thought they had a second class  
 teacher when they had not. In some  
 cases they have been deceived by the  
 term "non-professional," when the tea-  
 cher represented herself as holding a sec-  
 ond class, non-professional certificate but  
 omitted to say that since 1899 there has  
 been no difference between "non-profes-  
 sional" second class standing and "non-  
 professional" third class standing. That  
 was the first step towards abolishing  
 third class certificates, but it simply abo-  
 lished the old "non-professional" third  
 class examination, then called the Prima-  
 ry examination, and required all to pass  
 the Junior Leaving examination before  
 going to the County Model School for  
 training as a third class teacher. As the  
 Junior Leaving Standing would also admit  
 to Provincial Normal Schools it followed  
 that the "non-professional" standing for  
 third and second class teachers became  
 the same. Thus it has happened that

third class teachers sometimes told their  
 trustees that they hold non-professional  
 second class certificates, but omitted to  
 tell them that nothing lower would do for  
 third class non-professional standing. Nor  
 was it always explained that there was a  
 great difference between a third class pro-  
 fessional certificate. The former is issued  
 by the County Board of Examiners for  
 successful work at the County Model  
 School, the latter is issued by the Educa-  
 tion Department for successful work at a  
 Provincial Normal School. The terms  
 "First class certificate" or "Second Class  
 Certificate" or "Third Class Certificate"  
 appear only on professional certificates.  
 So it is not easy to make a mistake if trust-  
 ees require the certificates to be produc-  
 ed. The extra grant referred to above  
 amounts to \$20 for the year ending June  
 30th, 1907, or \$10 if a second or first class  
 teacher was engaged for half of that  
 time.

**D. D. MOSHIER,**  
 Inspector,  
 Vaccination for Blackleg and Anthrax  
 in Cattle.

The disease known as Blackleg in Cattle,  
 although entirely unknown in many  
 extensive agricultural sections of Canada  
 and not at all wide spread in any district  
 or province, annually causes quite exten-  
 sive losses to cattle raisers. Anthrax,  
 which is quite a different disease, al-  
 though frequently confused with black-  
 leg in the minds of many cattle raisers, is  
 also the cause of serious loss of stock.  
 The former disease is almost entirely con-  
 fined to cattle under 3 years and is gener-  
 ally fatal. The latter attacks other classes  
 of farm animals and the human subject  
 is not exempt from its infection which  
 generally results seriously.  
 By the aid of science cattle raisers are  
 now enabled to protect their stock against  
 these maladies. As the human family is  
 vaccinated against smallpox, in the same  
 manner cattle are rendered immune from  
 Blackleg and Anthrax. The Department  
 of Agriculture at Ottawa through the  
 Health of Animals Branch is now in a  
 position to supply preventive vaccine for  
 each of these diseases at the nominal cost  
 of five cents per dose. Until recently, by  
 special arrangement with extensive manu-  
 facturers in the United States, these pro-  
 ducts were secured at a reduced cost, and  
 were placed in the hands of Canadian  
 cattle raisers at ten cents per dose for  
 Blackleg vaccine and fourteen cents per  
 dose for Anthrax vaccine. It is due to  
 the fact that these preparations are now  
 being made at the Biological Laboratory  
 in connection with the Health of Animals  
 Branch that they can be supplied at five  
 cents per dose.  
 The vaccine for Blackleg may be ad-  
 ministered by any intelligent person by  
 means of an instrument supplied by the  
 Department at fifty cents.  
 Anthrax vaccine, which is also supplied  
 at five cents per dose, is more difficult to  
 administer requiring a qualified veterina-  
 rian to treat an animal.  
 Cattle raisers who have fear of an at-  
 tack of either Blackleg or Anthrax would  
 do well to apply to the Veterinary Di-  
 rector General at Ottawa for the proper  
 preventive treatment.

**Dogs Kill Lambs.**  
 St. Catharines, July 27.—"What is the  
 reason of the high price of lambs?" a  
 local butcher was asked.  
 "Scarcity," was the reply. "No, it  
 doesn't cost any more to raise a lamb now  
 than years ago, when the price was lower,  
 but the farmers have simply quit raising  
 lambs because they are so much trouble.  
 For myself, I would not be bothered with  
 them. You have to have your eye on  
 them all the time for fear of the dogs;  
 and I can tell you this, if the government  
 paid a bounty for the hide of every strange  
 dog caught snooping around the field  
 where there are sheep, there would be  
 more lambs than you see now."  
 Some of the country municipal councils  
 around here have already taken the mat-  
 ter up, realizing its importance, and are  
 offering a standing reward for the killing  
 of any dog caught worrying sheep.

**Presbytery of Sarnia.**  
 At a meeting of the Presbytery of Sarnia  
 held yesterday in St. Andrew's  
 church, a call was presented to the Rev.  
 W. D. Bell, of Corunna, by the congrega-  
 tion of Finch in the Presbytery of  
 Hengery and was accepted by Mr. Bell.  
 A large deputation from Mr. Bell's pre-  
 sent charge and expressed the high esteem  
 in which Mr. Bell is held by his congrega-  
 tions, and their deep regret at the prospect  
 of losing him as their pastor. The  
 change will take effect next Sunday.

**IT IS GOOD FOR MAN AND BEAST.**—Not  
 only is Dr. Thomas' Electric Oil of incom-  
 parable value in the household, but the  
 farmer and stockman will find it very ser-  
 viceable in the farm yard and on the cattle  
 range, often saving the services of a veteri-  
 nary surgeon. In injuries to stock and in

**ARKONA**

Arkona will hold Civic Holiday on August 20th.  
Mr. Jas. Jackson and family picnicked at Hillsborough on Monday.  
Miss Nettie Nelson, is visiting her sister, Mrs. C. Wilson, at Glenworth.  
Mr. and Mrs. Ward, of Stratford, are spending a few days with Mrs. A. Towns.  
Mrs. Fred Nelson and Mrs. Wes Fuller and family are camping at Hillsborough.  
See our Black Panamas to retail at \$1.00 at J. Geo. Brown's.  
Mrs. Shipman and daughter of Ridgetown, are visiting at Mrs. McDonald's.  
The hailstorm of last week did considerably damage to the crops in this vicinity.  
Mrs. W. Williamson, of Watford, spent a few days last week visiting her father, Mr. Showler Waterman, in the Ark.  
The Sarnia ball team plays here on Wednesday, August 14th. Our boys will play in Watford Aug. 19th with Forest, at Old Boys' Reunion.  
Shipments arrive weekly of Mooney's biscuits and cakes at J. Geo. Brown's.  
Mr. and Mrs. Swan and daughter Marguerite, who have been visiting at C. Cliff's returned on Tuesday to Mt. Pleasant, Mich.  
A garden party in aid of the English Church at Arkona will be held at Mr. B. Parker's on Wednesday evening, Aug. 14th. A splendid musical program has been prepared. Addresses will be given by John Farrell, H. J. Pettypiece and others. The Arkona band and orchestra will be in attendance. Refreshments served on the grounds. Admission 15c.

**PLYMPTON.**

Miss Mabel Dennis, Pt. Huron, is on a visit with her parents, Mr. and Mrs. J. B. Dell.  
Dr. Trizisky and wife, spent last week at "The Willows", Kertch, and returned Saturday to Detroit.  
Mr. and Mrs. Ben McCormick spent a few days last week with friends in Stratroy and returned on Sunday.  
Mrs. A. D. Minelli and children, Waukegan, spent a few days of last week with her brother, Mr. Tremaine toth com.  
Mr. Albert Donnelly, who has been absent for the past five or six years from home, gave us a pleasant surprise last week and we were all glad to see him although not looking or feeling so well as expected.  
Last week's storm did an immense damage to the corn, barley and oat crops along the sixth and seventh concessions and farmers in that vicinity say they will have to buy their oats. The orchards also suffered considerably the hail cutting and otherwise damaging the fruit.  
Kertch has been highly favored with the presence of an automobile lately, as it is no rare sight to have Mr. John Donnelly, of Detroit, drive out with his family to "The Willows" and give pleasure rides to any of the neighbors desirous of one.  
On the 28th ult. Divine service was held at Camlachie where an appropriate and instructive sermon was delivered by the Rev. J. M. Gunn to the Masonic craft, who numbered about eighty. Your correspondent has listened to Masonic sermons for the past thirty-four years and without exception it was the best he ever heard. It was purely Masonic and scriptural from beginning to end.  
A bolt of lightning, during the electric storm on last Thursday evening, struck Wm. Minelli's barn and before anything could be gotten out the barn and contents consisting of two buggies, one new, two cutters, two horses, three calves, 145 bushels oats, twenty-five tons of hay, besides all his farm implements were destroyed. Insurance on barn and contents including dwelling house etc. only \$1400, which will not cover more than half the loss.

For all kinds of Baking

—for Bread, Biscuits and Pan Cakes—for Pies, Cakes and Fancy Pastry—no flour, milled of a single kind of wheat, compares with a BLENDED FLOUR.

It bakes whiter and lighter—it contains more nutriment—and it yields MORE bread etc. to the barrel.

"Made in Ontario"

## Use A Blended Flour

(of Ontario and Manitoba Wheat)

and you use the perfect flour.

BLENDED FLOUR combines the splendid food properties of Manitoba wheat—with the lightness and nutty flavor of Ontario wheat.

TRY A BLENDED FLOUR—the result of your first baking will PROVE its superiority.

This trademark is on all fine BLENDED FLOURS. It is the sign of quality. Look for it on every bag and barrel you buy.

A FOREST citizen on July 11th ordered a book from a firm in London, England, to be forwarded by registered mail (which usually occasions a delay of a day or so). The book was received here on July 29th. Smart work.

THE two-day Alvinston band excursion to Sarnia and Detroit on August 15th promises to be as enjoyable as ever. The committee will leave nothing undone to make the affair a success, and we would advise our citizens and friends in the country to wait for this trip.

WE heard on the street the other day of a man who claimed he was too poor to take his home paper, but all the same he read a notice in one of our country papers telling how to prevent a horse from slobbering and sent \$1.50 for receipt. When the \$1.50 worth of information came, it said: "Teach your horse how to spit."

MINISTER (on return from holiday)—"Well, Daniel, my good man, and how have things been going on in my absence?" Daniel—"Deed, sir, a' things been gunn on brawly. They say that you meenisters when ye gang frae hame, aye tak guid care to send wur men than yoursels to fill the poptit. But you never dad that, sir!"

FOR two or three weeks an American company of capitalists have been drilling for oil in the immediate neighborhood of Glencoe. On Saturday last at a depth of about 1,000 ft., the drillers came in contact with a vein of oil on the farm of Archie Graham, which adjoins the village of Glencoe. A good quality of oil was found and about seven barrels were pumped out. The well will be shot in a few days.

MRS. ANDREW GRAY, of South Brooke, met with a painful accident last Saturday afternoon. It appears that she was cleaning on upstairs window when in some manner she lost her balance and fell down the back stairs, sustaining a fracture of the right arm above the wrist. The fracture was immediately set, and at present writing the patient is doing nicely.

GIVE a farmer a good team of horses and all the newest and latest machinery for use on the farm and he doesn't need very many hired men. On 100 acres of land the farmer, with a good boy who can put on a load of hay or grain, fix a hay fork and drive a team of horses, can manage very well without an additional help. With the manure-spreader, 2-furrow ploughs, disc harrows, wide mower and rakes, hay-loader, sheaf-carrier, hay fork and slings, farming is nothing like it used to be in the "good old days." And it is a good thing the farm machinery has been vastly improved, as the "farm help" is a serious problem even in this usually well-favored district.

### Contemptible.

Toronto, Aug. 1.—James A. Booking, of Walkerton, who claims to be an actor, was sentenced to forty days in jail this morning for stealing from several boarding houses. Some resident of Walkerton sent to the magistrate an unsigned letter giving a history of the Booking family. "That's a contemptible thing to do," remarked the magistrate as he threw the letter aside.

### IMPORTANT CHANGES.

Education Department's Policy Regarding Continuation Classes.

Toronto, August 20.—The education department to-day issued an important announcement in connection with the re-organization and consolidation of continuation classes in the rural schools.

The work will in future be divided into three classes, each of which will be financially recognized by the department. The equipment must include library, scientific apparatus, maps, charts, globes, etc., and drawing models. Towards this equipment the government will grant ten per cent. Fixed grants of from \$150 to \$350 per annum will be made to these classes. A grant of \$10 will be made when the teacher has the minimum qualifications and \$10 additional when the professional standing is higher.

The new regulations go into force at once and Mr. R. H. Cowley, provincial inspector of continuation classes, will tour the schools at the beginning of the coming-term.

### TOLL OF THE TRAINS.

Kill 461 Persons in the United States in Three Months.

Washington, July 11.—Shocking railroad accidents, involving great loss of life and property, occurred in the United States during the three months ended March 31, according to accident bulletin No. 23 issued today by the interstate commerce commission, which shows that the total number of casualties to passengers and to employes while on duty, during the three months, was 20,563, as compared with 20,944 reported in the preceding three months—a decrease of 381.

The total number of passengers and employes killed in train accidents was 421, and the number of injured 4,920, 53 less in the number of injured, as compared with the record of the preceding three months.

The number of collisions and derailments in the quarter was 3,991 (2,078 collisions and 1,913 derailments), of which 323 collisions and 229 derailments affected passenger trains. The damage to cars, engines and roadway by these accidents amounted to \$3,539,110.

### Cement Water Tank.

From time to time inquiries are made as to the construction of cement water tanks for use on the farm. Mr. David Carrothers, Middlesex Co., Ont., has had one in use for several years that has given the best of satisfaction. The materials used were Portland cement, one part to four of good sharp gravel. It stands inside the basement stable, next the north wall, and is 14 feet long, 3 feet 6 inches wide, and two feet deep inside. The tank wall next the wall of basement is 3 inches thick, and the bottom 5 inches. The latter is made up solidly from the ground, sufficiently high so that the bottom of tank is on level with the water trough from which the cattle drink. The tank contains ample water, for all the cattle and horses, and is supplied through galvanized iron piping from well and windmill pump some rods distant outside. It has never leaked.—Farmer's Advocate

### Regained Nerve and Vital Energy.

From Walton P. O., Que., comes the following from Mr. N. A. ... "If anyone had told me any remedy could build up my nervous system so well, I would not have believed them. Before using Ferrozone I was run down in nerve and vital energy, and in very weak health. I didn't get enough sleep at night, felt poorly in the day time. Ferrozone has filled me with energy and vim, increased my weight and made a new man of me."

### The Original Corn Cure.

No substitute has ever been devised that gives the quick, painless results of Putnam's Corn Extractor. For fifty years its success has been unequalled. For safety and thorough care use "Putnam's" only.

### 3 Dead, 4 Dying by Engine Exploding

Breckenridge, Mo., Aug. 1.—Three employes were killed and a fourth is dying as the result of the blowing up of a freight locomotive, No. 21, drawing a freight train 1 1/2 miles east of here last night. The explosion was heard three miles away. What is left of the boiler of the engine is in a ditch on one side of the track, and the trucks in a field on the other. Four cars were derailed and the engine was badly smashed.

### Terrific Hailstorm Sweeps Over Komoka.

Komoka, Aug. 2.—On Thursday the severest hailstorm ever known in these parts fell on Komoka and vicinity. Several were picked up that measured from 5 to 7 inches in circumference. Hail fell steadily for some time. The corn was cut into threads, the oats knocked down, white potatoes and all garden stuff were badly beaten, and in addition much damage was done to buildings. There is not a house or building in this vicinity that had windows on the north side that were not broken, some as high as thirty lights.

### Here's a Limerick for You.

For fall wheat they have started to plough—  
The right time to do it is nough—  
And when they get through  
The right thing to dough  
Is to have a tremendous pough-wough.

—Have you tried Holloway's Corn Cure? It has no equal for removing these troublesome excrescences as many have testified who have tried it.

### It Was His Dog

An automobile dashed along the country road. Turning a curve, it came suddenly upon a man with a gun on his shoulder and a weak, sick looking old dog beside him. The dog was directly in the path of the motor car. The chauffeur sounded his horn, but the dog did not move—until he was struck. After that he did not move.

The automobile stopped and one of the men got out and came forward. He had once paid a farmer \$10 for killing a calf that belonged to another farmer. This time he was wary.

"Was that your dog?"

"Yes."

"You own him?"

"Yes."

"Looks as if we'd killed him."

"Certainly looks so."

"Very valuable dog?"

"Well, not so very."

"Will \$5 satisfy you?"

"Yes."

"Well, then, here you are." He handed a \$5 bill to the man with the gun and added pleasantly, "I'm sorry to have broken up your hunt."

"I wasn't going hunting," replied the other as he pocketed the bill.

"Not going hunting? Then what were you doing with the dog and the gun?"

"Going down to the woods to shoot the dog."

### Story of a Clever Jackdaw.

In a small cottage in Herefordshire there lived a family who owned a very large but clever jackdaw which was noted for its very witty sayings. One day the jackdaw saw the lid of the stewpot partly off, so thinking he should like a meat dinner he went out and caught a frog and put it in the boiling water in the stewpot, which had in some pieces of beef. After this the jackdaw went quietly back to his perch and waited till dinner time. All went well till the cook began to share the dinner out before the family.

Every time she pulled a piece of meat out of the pot the jackdaw said, "That's not mine; that's not mine," till at last the cook pulled out the frog, when he exclaimed in a very triumphant voice, "That's mine; that's mine." The shock nearly made the guests faint away, but nevertheless the jackdaw got his meat dinner, while the others did without for a change.—London Answers.

### An Agricultural Surprise.

"Eastern visitors to the west are generally prepared for any phenomenal showing in the line of agriculture, stock raising and the like," says a Colorado man, "but once in awhile they are taken by surprise. A New Hampshire man who was spending his vacation on a ranch of a relative in Colorado went out one morning to inspect a large incubator in which the young chicks were hatching. In one corner of the incubator a neglected peach seed encouraged by the warmth of the atmosphere had burst, and a tiny sprout several inches long was growing out of it."

"Suffering Caesar!" exclaimed the New Hampshire man as this caught his eye. "Do you hatch out your peaches in this country?"

### Legend of the Moss Rose.

A German tradition gives the origin of the moss rose as follows: An angel came to earth in mortal guise. He sought a place of shelter and repose after his labors of love, but every door was shut against the heavenly visitor. At length the angel, being very weary, sank upon the ground and over him a rosebush spread like a tent. It caught upon its outspread leaves the falling dew which would otherwise have drenched the messenger of love. Waking, the angel said to the rose:

"Thou hast yielded the shelter that man denied;  
A proof of my love shall with the abode,  
And the green moss gathered about the stem  
While the dewdrops shone like a diadem,  
Crowning the blushing flower." —Circle.

### Story of a Greek Saint.

A member of the Royal Geographical society gives this little story of a Greek saint: "Our good St. Blasius gave us the phrase 'drunk as Blasius' for this saint was pleasantly done to death by having his flesh torn off by wool combs, and so he became the patron of the English wool combers, and as a high feast was kept up on his day and the people who frequented the feast were called Blasiers so the saying grew into the English tongue and remains there fixed and useful."

### Both Deceived.

Customer—You have deceived me outrageously! You told me that I would be provided with a good watch as long as I lived, and now after barely a fortnight it is quite good for nothing! Watchmaker—But it is not my fault that you were so thin and sick looking!—Translated For Transatlantic Tales From *Magasin Blatter*.

### Advice They Need.

"Yes, I'm going abroad at once. I gotta go."  
"Oh, you mustn't let the doctors scare you!"  
"I got this from a lawyer."

A wagon, carrying 360 quarts of nitro-glycerine from Leamington to Fletcher, broke down, scattering the contents on the road but no serious damage resulted.

# His Delayed Proposal.

By H. M. KERNER.

Copyright, 1907, by M. M. Cunningham.

For a moment Nell's hand faltered. The pounding of the machines and the endless click of the shifting stencils seemed to pierce her very brain. She cast a quick glance down the long workroom of the Rotary Addressing company.

Out through the windows at the other end could be seen a patch of blue sky, blurred now and then by a puff of steam from the pipes of the adjoining building; a modest seven story structure. Here and there some building larger than their own reared its head to cut the skyline, and through the open window there came occasionally sounds from the street below, sharp notes in the monotone of the machines.

Within, long rows of girls leaned over their work, their deft fingers forcing envelopes into the hungry maws of the machines with only a pause now and then when a fresh stack of stencils were needed. Between the aisles paced the sharp eyed forewoman. A man had been in charge of the room once, but the firm had found that he was too easy, too commiserate of the women under his supervision, and they had moved him into the office, sending in his stead the angular Miss Pettit, who forced the girls in her charge to the limit of their endeavors. Her sharp eye detected Nell's pause.

"Burrows," she called acridly. She never wasted time on "Miss." "If you have one of your silly headaches, put in your time at the office and go home. This is no hospital."

Nell's nervous fingers clutched a fresh package of envelopes, and the pounding of her machine added its noise to that of the others. She could not afford to go home. The pittance that

"IT'S ONLY MISS PETTIT," HE GROWLED. She came to her each Saturday was little enough without indulging the luxury of an afternoon off.

Jimmy Nelson, coming into the room to consult with Miss Pettit about an order, looked with kindly sympathy at the tired girl. When he had had charge of the room, he had been more gentle. She had told him something of her story in the noon intervals, when he had insisted upon standing treat to hot coffee to augment the scanty sandwich that usually constituted her lunch. Coffee costs 5 cents a day, and the errand girl who made the trips to the lunch room must be tipped in addition. The Rotary Addressing company paid only from \$3 to \$5 a week, and coffee was a luxury to those who did not live at home.

There had been a time when Jimmy had dreamed of a little flat wherein Nell should be mistress. That was just after he had been promoted to the office and had had his salary raised to \$15 a week. He had lacked the courage to make his proposal in person and had written her a note.

"I shall consider silence a polite negative," he had added.

Once Jimmy had aspired to the stage, and he had obtained the phrase from the advertisements in the dramatic papers that he studied with religious care. It had struck him as being a phrase of singular elegance. She need not refuse him. She could just ignore that he had not asked for an answer. It would have been as pleasant as ever to him, treating him with the same old friendliness and giving no hint of her reason for the refusal of his offer.

He longed to repent it. He wanted to be able to take her out of the place

from under the very nose of Miss Pettit, yet he lacked the courage to speak and he contented himself with coming into the room as often as his business with the forewoman gave him an excuse. Of course it would never do for the office force to chum with the girls from the operating room during the noon hour, and in the evening it was Jimmy's duty to see that all were out before he locked up.

So Nell struggled on. Just so many thousand envelopes must be completed to constitute a minimum day's work. A record was made each evening and the advancement or reduction of salary depended upon that. She had barely managed to complete the task when the gong struck and the girls began to cover their machines and put their tables in order. Nell staggered slightly as she took the last of her work to the timekeeper, who entered her record in the book. Miss Pettit eyed her sharply as she went back to her machine.

"Unless you are feeling better you had better not come tomorrow," she said crossly. "I can put on another girl who will make faster use of the machine."

"I will be all right in the morning," Nell answered. Miss Pettit could not know that the girl had had no breakfast. There had been medicine to buy, and until pay day came again she would have to walk to her home and make dry bread serve for food.

She was slow in preparing for the street and even Miss Pettit had gone when she stepped into the elevator. The street was dark and lonesome. Most of the places closed at 5, and there were few persons moving along the narrow strip of sidewalk as she stepped out.

On the corner a little knot of people had gathered about some object of interest, and she peered curiously over the shoulder of the office boy in front of her. The next moment she was pushing the men aside.

Miss Pettit had slipped upon the greasy sidewalk and lay moaning and half unconscious with pain. The girls had all gone on and a bootblack was trying to make her comfortable until the attention of a policeman could be attracted.

Nell pushed him away and took the woman's head into her lap, disposing her so that the wretched ankle was more comfortable. Then she turned to the lad who had stuck to her side, determined to at least share the interest with the newcomer.

"It is my forewoman," she said. "Run up to the Rotary Addressing company and ask Mr. Nelson to come quick."

The lad's statement that a lady was almost killed and was asking for him

## SAYS THIS IS BEST

A leading health journal in answering the question, "What is the best prescription to clean and purify the blood?" prints in a recent issue the following:

Fluid Extract Dandelion one ounce;  
Compound Salatone, one ounce;  
Compound Syrup Sarsaparilla, four ounces.

Shake well and use in teaspoonful doses after each meal and at bedtime. A well-known physician states that these are harmless vegetable ingredients, which can be obtained from any good prescription pharmacy.

This mixture will clean the blood of all impurities. In just a few days the skin begins to clear of sores, boils and pimples. It puts vigor and energy into run-down debilitated men and women. For many years Sarsaparilla alone has been considered a good blood medicine. But while it built up and made new blood, the impurities remained within and the good accompaniment was only temporary. Sarsaparilla, however, when used in combination with Compound Salatone and Extract Dandelion, works wonders. This combination puts the kidneys to work to filter and sift out the waste matter, uric acid, and other impurities that cause disease. It makes new blood and relieves rheumatism and lame back and bladder troubles.

brought Jimmy on the run. White faced he tore his way through the increasing crowd of curious people to come to a dead stop, when he perceived the situation.

"It's only Miss Pettit," he growled in mingled relief and disappointment. "I thought it was you."

"We must get her home, Jimmy," pleaded Nell. "She says she won't go in an ambulance. Please call a cab."

"The ambulance is plenty good for her," he growled, though to them the ambulance was but a shade less disgraceful than the patrol wagon. "Did not she talk to you like you were a dog this afternoon?"

"Get a cab for me," pleaded Nell, and Jimmy turned away.

It was not far to Miss Pettit's boarding place, and Nell hustled about making the tiny hall room more comfortable. Jimmy stunk doggedly, too, waiting to take Nell home. Miss Pettit sank back on the bed with a sigh.

"That will do very well," she said faintly. "The doctor will bandage my ankle, and then the girl will put me to bed. You were very good to me, my dear."

"It's all right," said Nell coldly as she turned to go, but Miss Pettit caught her hand.

"Wait a minute," she said. "I want to tell you something. Jimmy here gave me a letter to hand you some weeks ago. I wasn't going to have any fliriting in my room, so I didn't give it to you. Jimmy is a good boy, my dear, and here it is."

She sank back upon the pillow as Jimmy sprang forward. In his excitement he had forgotten Miss Pettit and his wrath against her. Now he only realized that Nell had not received his letter.

"And silence ain't a polite negative?" he asked. Nell smiled. Jimmy had loaned her some of his paper, and she recognized the phrase.

"If you want proverbs, Mr. Nelson," she said primly, "I can give you a better quotation—'Paint heart never won fair lady.' Ask me to my face like a man, an' maybe I'll say 'Yes.'"

Give the Chef a Chance.

It is my belief that the man who has dined in the best Parisian restaurants without finding them wonderful, says Julian Street, is either a dyspeptic or a self-reliant ignoramus who did not give the chef a chance. You know the story of the miner who, having "struck it rich," arrived in New York and, anxious to "do it right," went to Delmonico's for dinner. After studying the menu with growing despair he turned to a patient waiter with, "Just bring me \$45 worth of ham and eggs!" Some of our fellow countrymen give similar performances in Paris. I have known them to go to famous restaurants and order plain broiled chicken or steak and fried potatoes, dishes so elemental that the greatest chef could hardly cook them better than Maggie in the flat at home could do it. A Parisian chef broiling a chicken makes a pathetic figure. The asking him to do so is like requesting a learned professor of higher mathematics to add a laundry bill.—Travel Magazine.

O'Connell's Hat.

At a meeting of the County Kildare Archaeological society some years ago a hat worn by Daniel O'Connell was exhibited. O'Connell's name in his own handwriting was written on the inside of the hat, which was of large dimensions, the width inside being eight and one-half inches and its longer diameter ten inches. The chairman of the meeting put on the hat, which entirely covered his head and went down to his chin.

What He Took.

Mrs. Backpay—Good morning, sir. Will you take a chair? Installment House Collector—No, thank you, ma'am. I've come to take the piano.—Philadelphia Record.

The Thorn on the Rose.

In the old Bundesh of Zoroaster we are told that the rose grew fair and thornless until the entrance into the world of Ahriman, the evil one. According to this ancient narrative, the spirit of evil became universal, and not only man suffered thereby, but inferior animals as well as trees and plants.—Circle.

He-Could Count.

A very little boy was in the room where a young lady was practicing on the piano. She was counting aloud, "One, two, three, four." The little fellow, quite surprised, after a while went to her and said earnestly, "Ee next is five!"

Fish or Golf Story.

While driving to the fourth green on Newark golf course a local solicitor sent his ball into the river Devon and killed a two pound fish. Both ball and fish were found together, the latter bearing marks of its injury.—London Standard.

Two Phases.

"I detest that Mrs. Jones. She always tells what all her clothes cost."  
"Well, I detest Mrs. Brown. She never will tell what she pays for anything."—Detroit Free Press.

## ITS MERIT IS PROVED

RECORD OF A GREAT MEDICINE.

A Prominent Montreal Woman Tells How Lydia E. Pinkham's Vegetable Compound Completely Cured Her.

The great good Lydia E. Pinkham's Vegetable Compound is doing among the women of America is attracting the attention of many leading scientists, and thinking people generally.

The following letter is only one of many thousands which are on file in the Pinkham office, and go to prove beyond question that Lydia E. Pinkham's Vegetable Compound must be a remedy of great merit, otherwise it could not produce such marvelous results among sick and ailing women:

Dear Mrs. Pinkham:—  
"Soon after my marriage my health began to decline. My appetite failed me; I was unable to sleep, and I became very nervous and had shooting pains through the abdomen and pelvic organs, with bearing-down pains and constant headaches, causing me much misery. The monthly periods became more and more painful, and I became a burden and expense to my family instead of a help and pleasure. Lydia E. Pinkham's Vegetable Compound cured me within three months. Soon after I began using it I felt a change for the better, and at the time of my next period I noticed a great difference, and the pain gradually diminished until I was well. I am stronger and look better than I did before I was married, and there is great rejoicing in the house over the wonders your medicine worked." Mrs. M. A. C. Letellier, 732 Cadieux St., Montreal, Quebec.

If you have suppressed or painful periods, weakness of the stomach, indigestion, bloating, pelvic catarrh, nervous prostration, dizziness, faintness, "don't-care" and "want-to-be-left-alone" feeling, excitability, backache or the blues, these are sure indications of female weakness, or some derangement of the organs. In such cases there is one tried and true remedy—Lydia E. Pinkham's Vegetable Compound.

## ABYSSES OF OCEAN.

Extent of the Deep Waters and Their Tremendous Pressure.

More than half the surface of the globe is hidden under water two miles deep. Seven million square miles lie at a depth of 18,000 feet or more. Many places have been found five miles and more in depth. The greatest depth yet sounded is 31,200 feet, near the island of Guam.

If Mount Everest, the world's highest mountain, were plucked from its seat and dropped into this spot the waves would still roll 2,000 feet above its crest.

Into this terrific abyss the waters press down with a force more than 10,000 pounds to the square inch. The stanchest ship ever built would be crumpled under this awful pressure like an eggshell under a steam roller.

A pine beam fifteen feet long which held open the mouth of a trawl used in making a cast at a depth of more than 18,000 feet was crushed flat as if it had been passed between rollers.

The body of the man who should attempt to venture to such depths would be compressed until the flesh was forced into the interstices of the bone and his trunk was no larger than a rolling pin. Still the body would reach the bottom, for anything that will sink in a tub of water will sink to the uttermost depths of the ocean.—Exchange.

Old Age and Rushing.

You may join the mille a minute class, but no oil has been discovered yet that will keep all the cogs in condition. Good old age was never a sequel to a rush.—Manchester Union.

Modern Irish.

As a professional student of languages I have no hesitation in saying that modern Irish is more difficult than ancient Greek.—Manchester Guardian.

Art of Reading.

To get the best out of reading we must begin early and work hard. It is an art like music or painting and demands its stern apprenticeship. It remains true that a man who knows only his own tongue does not know that—Christian World.

Wonderful.

She—What interested you most in your travels, major? Major—Well, the mummy of a queen I saw in Egypt. It's wonderful how they could make a woman dry up and stay that way.—Philadelphia Inquirer.

A fool can talk without knowing what he ought to say, but a wise man's silence is due to his knowing what he ought not to say.—Chicago News.

A fight was started in the B. M. E. church on Sunday between two ministers, each wishing to occupy the pulpit. The police were called in to quiet matters.

## AS A WORKING TOOL

for the student and the writer, as an authoritative reference book for schools, teachers, families, business and professional men, there is one book which offers superior advantages in the solid value of its information, and the ease with which it is obtained.

One's admiration for Webster's International Dictionary increases daily as it comes to be better known. It never refuses the information sought and it never overwhelms one with a mass of misinformation illogically arranged.

The St. James Gazette of London, England, says: "For the teacher, the pupil, the student and the litterateur, there is nothing better; it covers everything."

The New and Enlarged Edition recently issued has 25,000 new words, a revised Biographical Dictionary and a revised Gazetteer of the World, 2250 pages and 5000 illustrations. It has just received

### TORONTO.

Toronto, August 6.—The run at the city cattle market this morning consisted of 59 cars, containing 900 cattle, 1,015 sheep and lambs, 250 hogs and 190 calves. Though the run was very light today business was not very brisk, except possibility in the choicer brands. There was but little of this grade on the market, however, and the sales in the rougher grades on the whole were draggy indeed. Good cattle are not coming in very freely, and as long as the market is not overcrowded present prices should hold all right. There is little inquiry for exporters and stockers and local exporters have almost ceased shipping cattle to the old country.

Quotations today were:

### McLane—McClure.

In Roseland, B. C., on July 11th, the residence of Mr. H. H. Johnstone, Butte street, was the scene of a quiet wedding when Miss F. Lillian McClure and Mr. Chas. E. McLane of Roseland, B. C., were joined in wedlock by the Rev. Dr. P. D. Knox, pastor of the Methodist Church, Roseland. The ceremony was performed at 7 o'clock in the morning in the presence of a few friends. The bride wore a lace robe over white taffeta with a white veil and orange blossoms. After the ceremony they drove to the Hotel Alton where a dainty wedding breakfast was served. Then they drove to the depot where a crowd of friends had assembled to say good bye to the happy pair who left amid a shower of flowers for a trip to the coast and other points. The bride's going away gown was of sapphire blue chiffon broadcloth with hat to match. The bride was the recipient of many valuable presents. Mr. and Mrs. McLane will be at home in Greenwood, B. C., after Sept. 1st.

### COMMUNICATIONS.

#### WATFORD BOYS IN WATER-TOWN.

We do not hold ourselves responsible for opinions expressed by correspondents.

We anticipate that the Old Boys Reunion will be an event that will long be cherished in the minds of those who will have the pleasure of being there. Consequently we are taking the opportunity of forwarding our membership fee, that we may be placed on the latter end of your large enrollment list. The west will be well represented in the old town August 19th. We are enclosing a few souvenir cards showing views of our picnic July 12th, at which over 800 people were assembled. The crops are looking fine in the Long Lake Country. Fishing and boating are the chief sports of the day. This lake is noted for its fine fish weighing from five to twenty lbs. Long Lake is fast becoming a summer resort, and in a short time its shores will be dotted with cottages. It also affords a good outlet for freight being sixty miles of navigable water. With expectations of being with you on August 19th we join in wishing you every success with the Old Boys' Reunion. Yours Respt.

### MOTHERS ANXIETY.

The summer months are a time of anxiety for mothers because they are the most dangerous months in the year for babies and young children. Stomach and bowel troubles come quickly during the hot weather and almost before the mother realizes there is danger the little one may be beyond aid. Baby's Own Tablets will prevent summer complaints if given occasionally because they keep the stomach and bowels free from offending matter. And the tablets will cure these troubles if they come suddenly. The wise mothers should keep these tablets always at hand and give them occasionally to her children. The tablets can be given with equal success to the new born babe or the well grown child. They always do good—they cannot possibly do harm, and the mother has the guarantee of a Government analyst that this medicine does not contain one particle of opiate or harmful drug. Sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Hicks Says Dry.

Rev. Irl Hicks promises a varied program of weather for August. It is to be cool and cloudy until about the 7th, then warmer with storm and rain. There is to be a new moon on the 9th, and possibly hot, threatening weather. Along about the 19th there is to be wind and thunder, and about the 23rd earthquakes and tropical storms are on the bill of fare. In contrast to the hot dishes on the menu for the first part of August, we are promised, by way of dessert, "more than a possibility of frost in northern sections during last week in August." He closes his monthly dispensation by repeating his belief that there will be a marked shortage in diffused rainfall over most grain-growing regions during the remainder of the summer. Scattering downpours, he says, will not meet general wants.
