VOL. 38 BRIDGETOWN, ANNAPOLIS COUNTY, NOVA SCOTIA, NOVEMBER 30, 1910 NO. 33

### TWENTY-FOUR GIRLS PERISH BY FIRE IN BOX FACTORY IN NEW JERSEY

All Escape Cut Off and In Panic Many Jumped to Stone Pavement  
Sixty Feet Below.—Fifty Others Removed to Hospital

Newark, N. J., Nov. 26.—In twenty minutes twenty-four girls were buried alive this morning or crushed to death on the pavement by leaping from the windows and fire-escapes of the four-story brick factory at Orange and High Streets here.

The last counting shows that sixteen of the twenty-four bodies recovered have been identified, and that six girls are still missing.

They may be among the unidentified dead or may be in the ruins. The collapse of a wall tonight interrupted further search. Fifty girls were taken to hospitals, of which two may die.

**ALL TERROR-STRIKEN.**  
Among the injured is Jose Sloan, Deputy Fire Chief, who was overtaken by the falling wall and buried in bricks and rubbish. He is badly hurt but may recover.

The rush of the flames was so incredibly swift and threw such unreasoning terror into the huddled working girls on the top floor, that the body of one was found still seated on a charred stool beside the machine at which she had been busy when the first cry of "fire" petrified her with fright. Terrible as must have been what went on in the smoke of the crowded upper room, what befell outside in the sunlight was more horrible yet.

### BERWICK FORMS S. P. C. BRANCH

C. P. Henry and Mrs. Egan have just returned from Berwick, where they assisted in the formation of a branch society for the prevention of cruelty. The formation of this society was brought about by some flagrant cases in regard to the neglect of children in that district. There were five children involved, and the condition a most disgraceful one. When Mrs. Egan first found them, one child was crippled and another was suffering from a disease in the eye, communicated by the carelessness of the father. The case was tried on Thursday last and one child was handed over to the society. The custody of the other is pending on the decision of the magistrate. Already some of these children have been in the children's hospital in Halifax, where they were under treatment. The most prominent people of Berwick resolved to form a local society to cope with the difficulties around there, and at a public meeting on Thursday night it was resolved to form a branch society for the prevention of cruelty. The agents received very much kindness from the people of Berwick while they were visiting that place.

### YOUNG TEBO TOLD WOMAN STRANGE STORY

A Digby despatch to the Halifax Herald says:—At the preliminary examination of John Tebo, junr., charged with the murder of Edward McGregor, most of the day was occupied in getting on the minutes the evidence already brought out at the coroner's inquest. The only new evidence, that of two witnesses out of a list of twenty new witnesses to be called by the crown, was taken, when court adjourned until Tuesday morning at ten o'clock. Real progress in bringing out developments only showed itself when these two witnesses were taken in hand. They were Mrs. Mina Haight and her daughter, Mrs. Jane Farmer, of North Lubeck, Maine, who is visiting her mother here. The daughter's story corroborated that of her mother.

**TEBO TOLD WOMAN STRANGE STORY.**  
Tebo boarded with Mrs. Haight and between the time of his discharge on the first charge and his second arrest, Tebo told Mrs. Haight that a man went to the wicket of his cell and told him that an another man went out the railway track to McGregor's house to get a drink of liquor, and when they got to the house they looked through the window and saw three men with McGregor. They listened to a conversation about going for carrots and cabbage.

McGregor did not want to go at first but afterwards consented to come out. Locked the door and departed with the other three men. These two fellows, who were watching, followed them and saw them go into the woods and get one armful of cabbage and carrots and throw them down where something was sitting waiting for them. They then went back for more. When they came with the second armful, McGregor was trimming the cabbage leaves and right after their return all hands got arranging about something. One of the fellows then hit McGregor with the hand axe, now in possession of the authorities and used as evidence today. Then they threw the axe away.

**PROMISED TO CLEAR  
TEBO OF CRIME.**  
The man told Tebo that if he better got in jail the second time, he could clear him of all connection with the crime. This was Tebo's story to Mrs. Haight, but he did not tell who the man was. The Herald has already stated the fact that Sheriff Smith positively refused any person the privilege of conversing with Tebo while he has been a prisoner in his keeping. This is the substance of today's developments.

**WOLVILLE WANTS  
EXHIBITION NEXT**  
The Kings, Hants and Annapolis exhibition may now be said to have become an established institution. It appears to be meeting with a large degree of favor in the different sections in which it has been held and is making good in all that a horticultural show properly stands for. Unlike the high provincial exhibitions there are no deficits facing the management at the end of the campaign. This year the exhibition at Windsor was no exception to the rule and those who attended pronounced the show as a decided success and a credit to those who had it in charge. Six years ago the exhibition was held in Wolfville and although attended by very bad weather conditions, was a very successful one. Since then it has been held in Annapolis, Kentville, Middleton and Windsor, and next year comes back to Kings county and belongs properly to Wolfville. We would suggest that the town authorities take immediate steps to secure the grant and arrange for a bigger show than has been to be held in this town next autumn. No place in the province is better adapted to a show of this kind, and under the proper management there would be no reasonable doubt of its success. There should be no delay, however, in getting the work in progress.—Wolfville Academician

### Robb Tupper Meets Tragic Death

While Returning from Wedding  
Trip Is Swept Overboard from  
Deck of Steamship Yarmouth  
Into the Foaming Bay

The sad announcement reached Bridgetown on Saturday afternoon of the death by drowning in the Bay of Fundy of Robb Tupper, who was returning with his bride, from their honeymoon trip to Ottawa, Montreal and Niagara, on the S. S. Yarmouth on Saturday morning and in a heavy north-east gale was washed from the deck into the angry waters of the Bay. A number of passengers witnessed the accident. Among them was Harold Warren, of Digby, who was standing close beside Mr. Tupper and as the steamer made the fatal lurch he also lost his footing and was thrown to the deck, but some obstruction saved him from going overboard, though he suffered dislocation of the shoulder.

The steamer was stopped and an endeavor was made to get near enough to pick up the drowning man, who rose twice to the surface, and was seen to be making an effort to swim, having thrown off his heavy overcoat before coming to the surface the second time. Before a motor reached him the poor fellow sank to rise no more. No attempt was made to launch a life-boat as the sea was so high the ship's officers thought it useless. The hopeless and frantic grief of the young bride when her terrible bereavement was made known to her may be well imagined.

The marriage was chronicled in the columns of the Monitor last week, the bride being Miss Daisy Syda, of Digby, daughter of the late John Syda, who died about a year ago. The mother of Mr. Tupper is also a widow. Mrs. William Tupper, who a short time ago ago went to the homestead farm at Round Hill to this son, Robb, who was next to the youngest of a family of nine, and was but twenty-three years of age and a young man of fine promise.

Mrs. Tupper is making her home with her daughter, Mrs. A. F. Randolph, Bridgetown, and had just returned from a visit to Weymouth. The message containing the sad intelligence was sent to Mayor Hoyt, who communicated with Mr. A. F. Randolph, upon whom fell the sad duty of informing the mother of the accident and the loss of her dearly loved son.

The S. S. Yarmouth on her arrival at Digby at eleven p.m. was flying her ensign at half mast. All on board felt the catastrophe most keenly and the boat's officers state that it is the saddest accident experienced on the line.

The deepest sympathy of the community is extended to the bereaved relatives.

### LUNENBURG WOMAN GORED BY A COW

Mrs. Frank Rafuse, Aged Eighty-three Years, Had a Narrow Escape From Death.

Lunenburg, Nov. 24.—Mrs. Frank Rafuse, a lady aged eighty-three years, living at Northwest, three miles north of here, narrowly escaped death on Monday afternoon. At four o'clock she left the house to feed her hens, and when near the barn, was attacked by a cow. She was thrown against a fence, hooked and wrenched upon. Her breast bone was broken and one arm was very badly bruised. She would have been killed had not Eisenbar, a blacksmith, living near by, heard her calls for help. He chased the cow away and assisted Mrs. Rafuse to the house, where she now lies under the care of a physician. She is expected to recover, the shock was a severe one for a woman so advanced in years.

### NORTH EAST WIND STIRS UP DIGBY HARBOR

A Digby despatch to the Chronicle, Nov. 27 says: The longest and worst North East gale that can be remembered by the oldest inhabitant, commenced here yesterday morning, and still continues tonight. It blew the hardest however, about one o'clock this morning. The steamer Yarmouth, Capt. Potter, which left the Government Wharf at five o'clock last night owing to the heavy sea on this side of the harbor anchored off Granville a few miles above Fort Wade, and is still there, and will not likely go to sea before tomorrow.

The only vessel anchored off Digby was the schooner Mercedes, Captain H. Henshaw, loaded with piling from Clementsport for Boston. Notwithstanding that she had three anchors out she dragged anchor on Battery Point, north of the Government Pier at nine o'clock last night, just after high water, parting a heavy cable and both chains. All three anchors are just outside of low water mark and the tide leaves the vessel at low water.

Her keel is partly gone, her port bulwarks are smashed, and her deck load of fishings broken away by the heavy sea. She completely fills at high water. A survey will be held tomorrow. The Mercedes was built at Bellevue's Cove in 1890, built from Weymouth, is 140 tons register, and owned by her master and H. Hicks of Clementsport. The cargo is insured and the vessel partially insured.

The Mercedes left Clementsport for Boston on Thursday morning on her tenth trip of the season commencing in April, which was supposed to be the last this year, and it will now be the last without doubt.

The Government sloop Lady Lou broke from her moorings at the Government Pier and washed ashore near the Digby Landing. Her hull appears quite good but her gasoline engine is said to be badly wrecked.

John Raymond's large gasoline fishing boat broke from her moorings and is way up the Joggins on a sand bar.

The low run of tides is the only thing which prevented Digby's entire waterfront from being a complete wreck this morning.

Brier Island, Long Island and Digby Neck are cut off by a break in the telephone lines today, and it is feared that several marine disasters have occurred in that vicinity. As far as can be learned tonight Digby's fishing fleet, with the exception of the Dorothy M. Smart, Elie Morrey and Quickstep are in Yarmouth, the other vessels are fortunately docked in the Baquette, also the schooner Defender, of Freeport.

On land, ornamental trees, flag poles, etc., were blown down. The streets are deserted, the church services very poorly attended and the whole town presents a desolate appearance. Using the expression of an old marine man, the Basin has been "leather white" for forty eight hours.

**EXTENSION OF THE  
D. A. R. TO BEAR RIVER**  
Attorney-General MacLean and Mr. Pickup, M. P., interviewed C. P. R.

The Morning Chronicle says: Hon. A. K. MacLean, Attorney-General of Nova Scotia is in Montreal in connection with railway development in the Bluenose Province. Accompanied by Mr. S.W.W. Pickup, M.P., he had an interview with General Manager McNicholl, of the Canadian Pacific Railway, regarding the extension of the Dominion Atlantic into Bear River. These Nova Scotia members urged the importance of this extension from the point of view of development upon the C.P.R. authorities.

A recent telegram from Alaska speaking of a single herd of one hundred thousand caribou is confirmatory evidence of Ernest Thompson Seton's estimate, as given in his articles on "The Arctic Prairies," now running in Scribner's.

### ILL WILL AND PREJUDICE BETWEEN CANADA AND U. S. A. DISAPPEARING

Various Views Regarding Method of Celebrating Anniversary of One Hundred Years of Peace Since War of 1812.

Boston, Nov. 25.—The American Peace Society gave to the Press today a collection of suggestions received by it from publicists and educators in the United States Great Britain, and Canada, in regard to the methods of celebrating the anniversary of the hundred years of peace since the war of 1812.

John W. Foster, formerly secretary of State, and Professor John Besset Moore of Columbia University propose that the celebration be commemorated by a treaty of unlimited arbitration between the United States and Great Britain.

Sir Edward Fry, chairman of the British delegation to the second Hague Conference, recommends that the precedent of disamament be extended as well as commemorated.

**REMOVAL OF CUSTOMS**  
Lord Courtney of Penwith, President of the International Peace Conference at London, 1908, advises that the historic agreement for disarmament on the lakes be followed by the removal of Customs Houses along the American-Canadian border to reduce the cost of living, and do away with the last pretext for guardships and causes for international coolness.

**STUDY EACH OTHERS INTEREST**  
George N. Morang, a well-known publisher of Toronto, advises Canadians and Americans to study each other's interests as a means of promoting a better understanding among themselves.

**FINEST RAILWAY LINE  
ON THE CONTINENT**  
That is What Prominent Contractor Says of the Grand Trunk Pacific.

Montreal, Nov. 22.—The International Railway, built by Thomas Malcom, from Campbellton, N. B., to St. Leonard's, on the St. John River where it connects with the Grand Trunk Pacific and the C.P.R., is now completed, and the Federal and Provincial inspectors are going over the new road, which is one hundred and thirteen miles in length and which is destined, so it is said, to form a part of the Interoceanic.

Speaking of the Grand Trunk Pacific which is now completed from Moncton to the Quebec line, save about six miles, Mr. Malcom, who is acquainted with every mile of the road, said it is the finest road on this continent, and that an engine able to haul twenty cars on the I. C. R. will be able to draw seventy-five cars on the G. T. P. In fact, he is of the opinion that the whole line from Moncton to Point Lewis will be completed by mid-summer.

### BORDEN RECOMMENDS DAY OF THANKSGIVING

R. L. Borden, M.P., leader of the Conservative party in Canada, favors setting apart a day of thanksgiving with the ringing of bells and the observance of the anniversary in the churches of the Empire and the Republic. Mr. Borden also believes in erecting a permanent memorial in each country.

Approval of the celebration, but without suggestions as to its program given ex-Secretary of State, Elihu Root, who presumes that the actual forms of the celebration will be arranged by representatives of both countries.

**VIEW OF HALIFAX MEN.**  
Mayor Joseph Chisholm, of Halifax Dr. John Forrest, President of Dalhousie University, Halifax; Chief Justice Charles T. Townshend, and Judge J. W. Longley of Nova Scotia, also approved. Judge Longley observes that all traces of ill-will and prejudice are disappearing between Canada and the United States and rejoices in their growing friendship.

D. Russel Jack, Secretary of the New Brunswick Loyalists Society, St. John, N.B., welcomes the suggestion as a means of unifying the English-speaking races.

### CRIPPEN DECLARED HIS INNOCENCE TO LAST

London, November 26.—Lloyd's News today publishes a three-column statement from the late Dr. Hawley Harvey Crippen, which the paper received through Miss Leneve.

In this letter Crippen reaffirms most solemnly that he was wrongly convicted, and expresses the belief that facts are yet to come out which will prove his innocence. The letter refers in great detail the evidence as to the identification of the remains found in the cellar of the house on Hilldrop Crescent.

It says his conviction was a judicial error, created chiefly by prejudice, which has been built up in the public mind by the sensational story of his flight and capture.

The letter winds up with a warm tribute to Miss Leneve, "who" it says, "has loved me as few women love men. My last prayer will be that God may protect her and allow her to join me in eternity."

### That Red Rose Tea is of surpassing quality is accepted everywhere it is used as an undisputed fact, but it is in the Maritime Provinces especially that it has by unvarying goodness so well earned the term "is good tea."

Prices: 30c., 35c., 40c., 50c. and 60c.

**Don'ts in Colt Training**  
 Never break his spirits by long wearisome drives when he becomes so weary that his mind becomes so dull that he sees but does not observe, and the same objects later, when seen with fresh eyes, become the cause of a runaway.  
 The words "breaking colts" has become obnoxious to me, for I have seen too many well-trad, high-spirited colts broken in spirit and strength by some of the old-time methods of "breaking." A colt should be trained when his brain and body are alert. The training should not be a subordinate part of some other work. The future usefulness of the colt should be of sufficient value to make the lesson the only thing on hand at the time. Many colts are unnecessarily confused because the trainer was thinking more of the stone to be loaded on the drag, or of the errand he had to do when he reached his destination. When colt training is done as it should be eight or ten half hour lessons given in systematic order will accomplish more, and put a colt in condition to stand more severe tests than the haphazard go-as-you-please methods now commonly practiced.  
 The trainer should put his whole mind on the work at hand, and strive to keep the attention of the colt that he may get the idea of what is expected of him. As soon as he gets the idea repeat always in the same way until he understands his lesson thoroughly. No one can do this correctly until he has his mind on his work, and perseveres until he has gained the end sought. Whoever does this will find that he has enough to keep him busy without any other matter on hand.  
 There are several reasons why it is not good policy to train a colt by hitching it by the side of an old horse. The old horse is slow in starting, and plodding motion probably while the young one is impatient and lively. Soon the young horse, if it be ambitious, becomes confused when the old one holds it back and this confusion ends in balking. If the old horse starts before the colt, this leaves your lines slack and gives an opportunity for the colt to leap forward, and soon the pleasure of a good steady driver forever vanishes. There are very few old horses that are so free from bad habits that you would desire a colt to be justly exactly like them. Whatever the peculiarities may be they will be learned by the colt if compelled to endure the same conditions.  
 I try to make it plain that horses do not reason, and that their requirements cannot be explained by themselves to their own kind. If they could do so we would have no colt training to do. The colt's mother would do all that for us. Since the old horse can in no way explain to the colt what it ought to do, the old horse simply serves as so much dead weight to prevent the colt getting away, either sideways or forward, and becomes only a power to assist the colt to move forward if it does not desire to do so.  
 Rather than have the colt lunge against so much dead weight keep it loose. The old horse can in no way explain to the colt what it ought to do, the old horse simply serves as so much dead weight to prevent the colt getting away, either sideways or forward, and becomes only a power to assist the colt to move forward if it does not desire to do so.  
 Rather than have the colt lunge against so much dead weight keep it loose. The old horse can in no way explain to the colt what it ought to do, the old horse simply serves as so much dead weight to prevent the colt getting away, either sideways or forward, and becomes only a power to assist the colt to move forward if it does not desire to do so.

Monday afternoon a shocking accident occurred at Dominion No. 12, when by the accidental discharge of a revolver in the hands of Mr. H. D. McLean, of this town, a 28-calibre bullet crashed through the thin wall partition which separated the room he was in and the adjoining one, where his younger brother, William was standing.

The distressing affair was purely accidental. Mr. McLean was in the act of cleaning the weapon when the accident happened, and as he had previously emptied the chambers of the revolver, he believed he had extracted all the deadly missiles. However, in some unaccountable way the hammer struck sending a bullet crashing through the thin wall partition and striking his brother James in the forehead.

Hearing groans immediately follow the report, the distracted contractor, together with three young men who were with him when the accident occurred, rushed into the adjoining room and was horrified to see his brother lying on the floor with a frightful gash on the forehead.

Medical aid was hastily summoned when the victim of the accident was sent to the hospital, but the deadly weapon had accomplished its work and James McLean passed away early this morning.

What says C. H. Purdy, of Bear River, Warden of Digby Co. I was completely a cripple with rheumatism, saw

**EMPIRE LINIMENT**  
 advertised and tried, after every known liniment and rheumatic cure. Here I am today sound and well after using only a few bottles. I recommend it to all sufferers. Don't be without it.

**C. H. PURDY.**  
 The desperate struggle to do something worth while in the very thing which draws out our reserve force, and develops latent power says Orison Sweet Mar'ion in Success Magazine. Without this struggle, many people would never have discovered their real selves. Napoleon was never so resourceful, never so level-headed, never had that vigorous mental grasp, was never able to make such powerful combinations as when he was driven to desperation. It was when all bridges were burned behind him, and there was no possibility of retreat, that the possible Napoleon came to the rescue. Napoleon said of his great General, Massena, "that he never showed his mettle until he saw the wounded and dead falling all around him in a battle; then the lion in him was aroused, and he fought like a demon."

**SAYS WINNIPEG IS MOST RELIGIOUS CITY.**  
 Bishop of Niagara Says it is One of the Most Religious Cities in the Dominion.  
 Toronto, November 24.—"In my opinion, and I say this for obvious reasons, Winnipeg is a very religious city. During my visit there I was driven through the city and attended several churches and found it to be one of the most religious cities in the Dominion." These were the words used today by Bishop Dumoulin, of Niagara, in the course of an address on "Canada from east to west." He did not dwell further on the subject, which has been brought into the lime-light by reason of charges made against the city by Rev. Dr. Shearer, and which are now being investigated.

**SOMETHING NEW TO SKATE ON.**  
 (From the Newark News)  
 The newly-patented German substitute for skating ice is solid at summer temperatures and is claimed to provide a floor for rinks over which the ice skates slip freely as over natural or artificial ice.  
 The mixture includes magnesium, chloride, alum, boric acid, soda and strontium nitrate, with fats or oils that can be emulsified with water. The composition can be laid in tiles several inches thick over a concrete or wood floor, the interstices being then filled with a hot saturated solution of the material, after which the surface is scraped. No expensive machinery is needed for maintenance, as with artificial ice.

had otherwise. There should be nothing to divide his attention. Every attempt should be made to impress upon his mind that a certain signal means a certain action, and not allow that action to become confused with another signal. A very common mistake is to attempt to train a horse to do many things at a time. No horse, and but few people, can comprehend more than one thing at a time.  
 In some parts of the country it is a common thing to see a colt have the harness thrown on him, and then dragged and whipped up to the side of a wagon pole, hitched up and driven several miles, during which time the commands "Whoa" and "Get up" were given, and besides it was expected to turn to the right or left upon the slight pull of the bit upon the opposite side of the mouth. It was expected to learn the six or seven different signals given it, all in one lesson. Whatever you may have expected, it did not learn more than one signal, if any at all. If my many years of experience taught me anything at all it is this fact, a horse can get but one idea at a time. An idea may be more simple than is commonly expected. It is one thing for a colt to get the idea that "Get up" means to go, and another thing to learn that "Whoa" means to stand. Each of these commands should be taught separately and thoroughly drilled into the colt that whatever accident might happen the word "Whoa" would be associated with the act of standing and that stand it must. These commands should be taught, and can be taught more easily and comprehensively before attempting to hitch the horse. Although the double lines are fast taking the place of the "lead horse" with the single line, some farmers prefer the single line. The aim is to teach the horse to respond to the words "Get" and "Haw" or some such terms, to have the horse step right or left, just as taking the horse to the field and hitching to the plow with another horse tied to the leader, the work would be made more effective and pleasant if the commands were given in a small enclosure and each command thoroughly drilled separately. The teaching of the command is sufficient to keep either horse or man busy without anything else on hand.  
 These commands should be taught, and can be taught more easily and comprehensively before attempting to hitch the horse. Although the double lines are fast taking the place of the "lead horse" with the single line, some farmers prefer the single line. The aim is to teach the horse to respond to the words "Get" and "Haw" or some such terms, to have the horse step right or left, just as taking the horse to the field and hitching to the plow with another horse tied to the leader, the work would be made more effective and pleasant if the commands were given in a small enclosure and each command thoroughly drilled separately. The teaching of the command is sufficient to keep either horse or man busy without anything else on hand.

**Thought It Wasn't Loaded**  
 Was Cleaning Revolver in Shack When it Accidentally Went off, Penetrating Wall and Lodging in Brother's Forehead.

Monday afternoon a shocking accident occurred at Dominion No. 12, when by the accidental discharge of a revolver in the hands of Mr. H. D. McLean, of this town, a 28-calibre bullet crashed through the thin wall partition which separated the room he was in and the adjoining one, where his younger brother, William was standing.

The distressing affair was purely accidental. Mr. McLean was in the act of cleaning the weapon when the accident happened, and as he had previously emptied the chambers of the revolver, he believed he had extracted all the deadly missiles. However, in some unaccountable way the hammer struck sending a bullet crashing through the thin wall partition and striking his brother James in the forehead.

Hearing groans immediately follow the report, the distracted contractor, together with three young men who were with him when the accident occurred, rushed into the adjoining room and was horrified to see his brother lying on the floor with a frightful gash on the forehead.

Medical aid was hastily summoned when the victim of the accident was sent to the hospital, but the deadly weapon had accomplished its work and James McLean passed away early this morning.

What says C. H. Purdy, of Bear River, Warden of Digby Co. I was completely a cripple with rheumatism, saw

**EMPIRE LINIMENT**  
 advertised and tried, after every known liniment and rheumatic cure. Here I am today sound and well after using only a few bottles. I recommend it to all sufferers. Don't be without it.

**C. H. PURDY.**  
 The desperate struggle to do something worth while in the very thing which draws out our reserve force, and develops latent power says Orison Sweet Mar'ion in Success Magazine. Without this struggle, many people would never have discovered their real selves. Napoleon was never so resourceful, never so level-headed, never had that vigorous mental grasp, was never able to make such powerful combinations as when he was driven to desperation. It was when all bridges were burned behind him, and there was no possibility of retreat, that the possible Napoleon came to the rescue. Napoleon said of his great General, Massena, "that he never showed his mettle until he saw the wounded and dead falling all around him in a battle; then the lion in him was aroused, and he fought like a demon."

**SAYS WINNIPEG IS MOST RELIGIOUS CITY.**  
 Bishop of Niagara Says it is One of the Most Religious Cities in the Dominion.  
 Toronto, November 24.—"In my opinion, and I say this for obvious reasons, Winnipeg is a very religious city. During my visit there I was driven through the city and attended several churches and found it to be one of the most religious cities in the Dominion." These were the words used today by Bishop Dumoulin, of Niagara, in the course of an address on "Canada from east to west." He did not dwell further on the subject, which has been brought into the lime-light by reason of charges made against the city by Rev. Dr. Shearer, and which are now being investigated.

**30 Years of Success**  
 The B. M. Hyde Co. Offer a Remedy for Catarrh. The Medicine Costs Nothing if it Fails.

When a medicine effects a successful treatment in a very large majority of cases, and when we offer that medicine on our own personal guarantee that it will cost the user nothing if it does not completely relieve catarrh, it is only reasonable that people should believe us, or at least put our claim to a practical test when we take all the risk. These are facts which we want the people to substantiate. We want them to try Rexall Mucic-Tone, a medicine prepared from a prescription of a physician with whom catarrh was a specialty, and who has a record of thirty years of enviable success to his credit.  
 We receive many good reports about Rexall Mucic-Tone than we do of all other catarrh remedies sold in our store, and if more people only knew what a thoroughly dependable remedy Rexall Mucic-Tone is, it would be the only catarrh remedy we would have any demand for.  
 Rexall Mucic-Tone is quickly absorbed and by its therapeutic effect tends to disinfect and cleanse the entire mucous membranous tissues, to soothe the irritation and heal the soreness, stop the mucous discharge, build up strong, healthy tissue and release the blood and system of diseased matter. Its influence is toward stimulating the mucous cells, aiding digestion and improving nutrition until the whole body vibrates with healthy activity. In a comparatively short time it brings about a noticeable gain in weight, strength, good color and feeling of buoyancy.  
 We urge you to try Rexall Mucic-Tone, beginning a treatment today. At any time you are not satisfied, simply come and tell us, and we will quickly return your money without question or quibble. We have Rexall Mucic-Tone in two sizes, 50 cents and \$1.00. Remember you can obtain Rexall Remedies in Bridgetown only at our store.—The Rexall Store, W. A. Warren.

**THIS IS AN ARTICLE YOU SHOULD READ NOW.**  
 Many people if they stop to think it over, to weigh the pros and cons of the question, would not buy from a mail order house, but they are busy and send off their order on the spur of the moment says a writer in the Easy East.  
 For one thing, there is not the satisfaction in buying from a catalogue that there is in seeing the goods. You can get a good idea of the style of a garment from an illustration, but you cannot tell the quality of the article.  
 Another point, are you sure that the article advertised is cheaper than you can buy in at your own dealer's? Very often it is not. Make sure of this before you send your order in.  
 Then remember, when the mail order houses advertise satisfaction or your money back, they are counting on the fact that most people will put up with an unsatisfactory article rather than pack it off for shipment to a distance. It is quite another thing to take an article back to your own dealer from preparing to back ship it five or six hundred miles.  
 Every dollar kept in your community means more prosperity for you. It means that there is another dollar you stand a chance of getting hold of.  
 Lastly, when times are bad, and you want a little credit to tide you over, who is to extend you that credit? The mail order house?

ADVERTISERS ARE REQUESTED
to notice that changes of copy must
be in the hands of the foreman not
later than Monday noon to ensure
publication on following Wednesday.

M. K. PIPER

WEDNESDAY, NOVEMBER 30, 1910.

Among the measures which will
occupy the present session of the
Canadian parliament, are the following
as outlined in the Governor-
General's speech from the throne:—
Reciprocal tariff arrangements with
the United States; a bill to revise
and consolidate the law on copy-
right; a measure in furtherance of
the treaty recently passed with the
United States at the Hague Confer-
ence on the subject of contiguous
waters and the fishery rights; bills
respecting banks and banking; ter-
minal elevators at head of Lake Su-
perior; the investigation and better-
ment of industrial and labor condi-
tions and other subjects.

In addition to the above, Mr.
MacKenzie King gives notice of two
bills: "An act to prohibit the impor-
tation, manufacture, sale and use of
opium, for other than medicinal or
medicinal purposes" and "An act to
prohibit the manufacture and impor-
tation of matches made with white
phosphorus, and for other purposes
in connection therewith." The object
of this bill is to protect workmen
engaged in the manufacture of
matches.

Mr. Meighen, of Portage La Prairie
will move: "That in the opinion of
this House a substantial reduction
in the import duties on agricultural
implements is now due the agricul-
turalists of Canada, and is in just
accord with the true ends of a pro-
tective tariff."

The English parliament was dis-
solved on the 28th inst. and the
liberal government will go before
the people on the issue of the veto
power of the House of Lords. Non-
conformists are confident that the
issue will curtail the privileges of the
Upper Chamber and that reforma-
tion will follow.

The grievances against the Lords
are stated as follows by Winston
Churchill—

"The veto has been used against
the education bill, the plural voting
bill, the Scottish land bill, the U-
nionising bill. It stands as a barrier
to the oft-repeated demands of Scot-
land and Ireland and Wales. Pro-
gressive have long seen that they
are squandering time and money
and toil so long as this obstacle ex-
ists. How can free men live under a
constitution which, whatever gov-
ernment is in power, leaves the real
authority with the Tory party? We
ought to have been settled long
ago, and, to do them justice, the
Lords, by their high-handed action,
have brought it to a head."

In the name of Christian charity,
is this representative of twentieth
century civilization, occurring in
one of the model towns of our
Province, and reported in one of its
live and progressive journals?

"One of the male inmates of the
'Poor Asylum at Argyle escaped
yesterday and came to Yarmouth.
Chief of Police Durland was notified
and after a lively chase through
the streets, using a revolver, round-
ed the man up. He was taken
back by the proper authorities."
If it were not for mention of the

revolver one might suppose a stray
animal from a herd of cattle had es-
caped, but the use of the revolver
would indicate that a penitentiary
convict had been captured. No won-
der the poor creature tried to es-
cape if this is any indication of the
way they treat the unfortunate
poor at Argyle.

CORRESPONDENCE

ANNAPOLIS COUNTY HISTORIAN
APPROVES OF MEMORIAL
TABLET.

To the Editor of the Monitor:
It is very desirable that a memor-
ial tablet should be placed to mark
the spot where the flower of the
Annapolis Royal garrison fell a vic-
tim to savage methods of warfare in
1711. Mrs. Grace Dean McLeod's ac-
count is hardly intended for strict
history, but is rather historical ro-
mance. At the time of the massacre
the war between England and her
colonies on the one side and the
French and Indians on the other
was still raging, only one year hav-
ing elapsed since the capitulation of
Port Royal to Colonel Nicholson in
1710. The object of the expedition is
explained in the History of Annapo-
lis Co., but none of the English his-
torians show the fact that the mas-
sacre was perpetrated by a body of
Abenaki Indians from Penobscot un-
der the command of the half breed
Baron de St. Castin, who had come
over stealthily in canoes from Pen-
obscot the night before, in order to
way-lay any body of troops that
might be sent from the fort into the
French territory up the estuary.
Rameau, the able French historian,
thinks it likely that some of the
young Frenchmen may have joined St.
Castin. None of the ancestors of the
present population of the County
were in the Province "contemporary
with the event." All was occupied by
French and Indians except the fort
and territory around it within three
miles occupied and controlled by the
garrison. For the origin of the
Snow family and the office of that
name in this county see History of
Annapolis, pages 250 and 603.

A. V. SAVARY.

Obituary.

J. CHIPMAN KEMPTON
Died at Maitland, Annapolis Co.,
Nov. 29th, J. Chipman Kempton aged
66 years.
He had been ailing for three years,
but his illness was not considered dan-
gerous until nine months since. His ill-
ness developed into cancer of the
stomach. Two weeks before his death he
was taken to the V. G. Hospital in
Halifax, but it was too late for any
benefit. Mr. Kempton was a member of
the Kempt church, and was a teacher in
the Sunday School as long as his health
permitted. His wife was Mary H. Roach
of Clarence who preceded him to the
"Better Land" over twelve years ago.
They resided in Clarence for a few years,
where the many friends feel sad for the
children in the loss of a kind and loving
father. He leaves four children. His
eldest son came from Cambridge, Mass.,
to attend the funeral.

The interment was at Kempt cemetery.
The funeral was largely attended—
sermon by Rev. Wilson of North Brook-
field. The text was John 11:25 "The
Master is come and calleth for thee."
Two sisters of a family of twelve survive
him, Mrs. David Baxter of Maitland
and Mrs. Gifford Potter of Clementsvale.

MRS. ELIZABETH HEALEY.
Mrs. Elizabeth Healey passed peace-
fully away at the home of her brother,
Charles Crisp, Lawrencetown on Mon-
day Nov. 21st, at 5 a. m. aged 77 years.
She was born in England and when
fourteen years of age came with her
parents to this country. She married
Deacon Isaac Healey and resided at
Round Hill for a number of years until
the death of her husband. For a year
she has been failing in health and dur-
ing the last months of her life has calm-
ly awaited the change from earth to
Heaven. She was a beautiful Christian
character, and to her pastor she ex-
pressed her perfect trust. The funeral
service was conducted by Rev. H. G.
Mellick assisted by Rev. J. A. Hart, and
was largely attended. Interment took
place at the Whitman Cemetery.—Con.

MOTHER OF WINDSOR
RECTOR MEETS ACCIDENT.

Windsor, Nov. 22—On Saturday
night an accident happened to Mrs.
Elizabeth Martell, mother of Rev. G.
R. Martell, who while passing along
a passage way opened the wrong
door and fell down the cellar stairs
to the concrete floor. In the descent
her face struck the steps, dislocat-
ing her nose and otherwise injuring
her. She is a healthy old lady, and
is rapidly recovering from the ef-
fects of the fall.

Free Seed for Farmers

DISTRIBUTION OF SEED GRAIN
AND POTATOES FROM THE
CENTRAL EXPERIMENTAL
FARM, OTTAWA, 1910-11

By instruction of the Hon. Minister
of Agriculture a distribution is being
made this season of samples of su-
perior sorts of grain and potatoes to
Canadian farmers for the improve-
ment of seed. The stock for distribu-
tion has been secured mainly from
the Experimental Farms at Indian
Head, Sask., Brandon, Man., and
Ottawa, Ont. The samples consist of
oats, spring wheat, barley, field peas
Indian corn, (for ensilage only), and
potatoes. The quantity of oats sent
is four pounds, and of wheat or bar-
ley five pounds, sufficient in each
case to sow one twentieth of an
acre. The samples of Indian corn,
peas and potatoes weigh three
pounds each. A quantity of each of
the following varieties has been se-
cured for this distribution:—
Oats.—Banner, Abundance, Danish
Island, Wide-awake, Thousand Dollar
Improved Livewool, all white varieties.
Wheat.—Red varieties—Marquis and
Early Red Fife (early beardless sort
of high baking strength), Red Fife
(early, bearded) White varieties—
White Fife (beardless), Bobs (early,
beardless).
Barley.—Six-rowed—Mensury and
Merchman (a selection from Mensury).
Two-rowed: Standwell and
Invincible.
Field Peas.—Arthur and Golden
Vista.
Indian Corn (for ensilage).—Early
sorts: Angel of Midnight, Compton's
Early and Longfellow. Later vari-
eties: Selected Learning, Early Masto-
don, and White Cap Yellow Dent.

Potatoes.—Early varieties: Roches-
ter Rose, and Irish Coeur. Medium
to late varieties: Gold Coin, Cerise
No. 1, and Money Maker. The later
varieties are, as a rule, more pro-
ductive than the earlier kinds.
Only one sample can be sent to
each applicant, hence if an individ-
ual receives a sample he cannot
also receive one of wheat,
barley, peas, Indian corn or potato-
es. Applications for samples may be
made on forms which may be ob-
tained from the Experiment Farm,
Ottawa, or by mail. The samples will
be sent free of charge through the
mail.
Applications should be addressed to
the Dominion Cerealist, Experiment-
al Farm, Ottawa, and may be sent
in any time from the 1st of Decem-
ber to the 15th of February, after
which the lists will be closed, so
that the samples sent out may be
sent out in good time. Applicants
should mention the variety they
prefer, with a second or third alter-
native. Applications will be filled
in the order in which they are re-
ceived, so long as the supply lasts.
Farmers are advised to apply early
to avoid possible disappoint-
ment. Those who receive a sample of
corn or potatoes should bear in
mind that the corn is not usually
distributed until the middle of Feb-
ruary, and that the potatoes cannot
be mailed until after the middle of
February from frost in transit is over.
No postage is required on samples
addressed to the Experimental Farm
Ottawa.

WM. SAUNDERS,
Director of Experimental Farm.

CORRESPONDENCE

TO SUNDAY-SCHOOL WORKERS.
"Sunday School work may be the
most important work on earth."
This seems a strong statement to
make but we think it can be proven
to the satisfaction of every thinking
person, and we are going to attempt
to do it this year.

The time is approaching for the
annual district meetings of the An-
napolis Co., Sunday School Associa-
tion, when new officers will be ap-
pointed to carry on the work for the
year. The executive have taken as
their motto "Work" and we want
officers appointed who will be glad
to carry out the motto and do all in
their power to make this the first
year of organized S. S. effort in An-
napolis Co. We hope that one or more
representatives from every school in
the County may attend the annual
district meeting as well as all the
officers of the year, for it is only by
attendance at these meetings that
the enthusiasm, interest and im-
portance of the work may be carried
to the individual schools. The or-
ganization of the association is al-
most perfect and if every officer will
approximate his or her duty it will
go far toward placing S. S. work
where it belongs in the life of the
people. We have to raise \$2,20 this
year in the county work, a small
sum when we consider it is only four
cents per scholar enrolled. Another
fact. One hour out of every 208, or
one hour per week devoted to orga-
nized Sunday School work by every
officer of the county would make our
organization most effective. Every
man, woman and child should be in-
terested in this work. We want a
large attendance at the meetings
and it is only by the personal effort
of the local officers that this can be
accomplished.

In behalf of the Executive
R. J. MESSENGER,
Pres. Annapolis Co., S. S. A.

WHITMAN—GRANT.
The residences of Arod Grant, of
Port Lorne was the scene of an in-
teresting event on Monday evening,
Nov. 28th. At that time his niece,
Viola Ann Grant was united in mar-
riage to Anabel Whitman, of Mt.
Rose, by Rev. L. F. Wallace. After
congratulations the guests were
served with a beautiful wedding sup-
per. The bride was the recipient of
many useful presents. The happy
couple expect to occupy the new
house that the groom is building on
his farm at Mt. Rose. Many friends
unite in wishing them a long and
happy married life.—COM.

LOCAL AND SPECIAL

Dr. DeHollis went to Digby Monday to purchase a horse returned yesterday.

The Pickford and Black steamer Ananda, was reported overdue from Jamaica for Halifax yesterday.

Mr. James B. Murray, who has been the guest of Mr. H. E. Brown has gone to Bermuda.

Mr. and Mrs. J. K. Craig will be "at home" on the afternoons of Tuesday and Wednesday, December 6th and 7th.

Dr. A. S. Burns made a trip to Halifax last week. The Monitor regrets to state he is still crippled by his recent accident.

S. Kerr & Son, of St. John Business College have our thanks for the first calendar for 1911, a dainty reproduction of a painting in colors.

The tenth Annual Winter Fair to be held at Amherst next week is expected to eclipse all previous ones. Low rates of travel have been secured.

This (Wednesday) evening, in S. A. Hall, Brigadier R. Ahy will give a lecture on "Hygiene and their origin" John Irvin, K.C., in the chair.

Dr. and Mrs. V. D. Shaffner will be "at home" to their friends on Thursday and Friday afternoons, December 1st and 2nd at Lawrencetown.

November has sustained its record as a gloomy month, the sun shining only at rare intervals. No low winter temperature has been experienced yet.

J. A. Cameron, who recently sold out his business here to Thos. Marshall and went to Charlotte town, has removed from the latter place to Sherbrooke, N. S.

A dance was held in Ruggles Hall on Friday night. A number of young people from outside the town joined in the festivities and the Mitchell furnished the music. Mrs. A. L. Anderson and Mrs. Frank Dodge were the chaperones.

Robert G. Hervey, who was the first contractor on the Halifax and South-western railway, died suddenly at his home, near Brockville, Ont., on Monday. He had a successful career at railway building in the United States and Ontario.

Dieby Courier.—Dr. L. H. Morse has returned from a month's vacation much improved in health and has resumed his practice. He has engaged an assistant for the winter, Dr. W. W. Patton, of Oxford, N. S., who will probably arrive here this week.

A Hartford, Conn. paper announces that The Mikado is to be given by a company of amateurs and states that Mrs. Arthur Setler, who made such a hit in the Princess Bonnie is to have a leading part. Mrs. Setler was formerly Miss Lydia Munro, Bridgetown's prima donna.

The new house built by J. H. Hick and Sons for L.D. Shaffner, on the Troop property, has been purchased by Jas. G. F. Randolph, of Boston. Mr. Randolph will not occupy it at present and has leased it to Manager Bentley, of the Royal Bank.

A family in which occurred a birth on Saturday and the death of the father of the child on Monday is a case which should excite the sympathies of the benevolent. Thomas Francis died at his home on Monday, after a lengthy illness from consumption. Besides the infant referred to, his widow is the mother of three other children, by a former marriage.

The marriage of Anna Elizabeth, second daughter, of Mr. and Mrs. John Healey Roop, of Litchfield, Annapolis County to Frederick O. John son, of Belmont, Mass. took place at Cambridge, Nov. 16th. The bride has relatives in Bridgetown and Round Hill. Mr. and Mrs. Johnson will be at home after January first at 45 Marlboro St., Belmont, Mass.

Printer and Publisher, Toronto, "H.P. Good, who was manager of the Dominion exhibition at St. John, and now with the Sunday World, Toronto, has been appointed manager of the Vancouver exhibition; A.D. Merkle, formerly news editor of the Standard, and editor of the defunct New Star, is now in Halifax as city editor of the Halifax Echo.

Mr. Reuben Hearn, an Englishman who came to Bridgetown some twenty years ago to engage in market gardening, left on Friday to return to England, where he has sisters residing. It is unlikely he will return, and he desires the Monitor to extend his thanks to the people of Bridgetown for the kindness received by him and his family. A number of sons reside in this county, and two or three daughters are in the United States. His wife died a few years since.

LOCAL AND SPECIAL

A few more tons of gravel or cinders on each of our street crossings, please, Mr. Street Commissioner.

Small-pox is prevalent in Cape Breton. At Dominion last week there were nineteen cases quarantined and public gatherings were prohibited.

Steamer Boston has gone to Boston for repairs and will take up her winter sailings between Yarmouth and Boston about Christmas time.

At the beginning of the new year the D.A.R. offices at 245 Washington street, Boston, will be removed to the C. P. R. offices on the same street.

The bargain-hunter is simply acting upon the thrift-instinct. And the well-advertised store, in which bargain-hunting is always profitable, promotes and rewards thrift.

Solomon Sabean, of Port Lorne, is collecting funds for Edward Sanford of the same place, who lost his barn with all its contents including hay, grain and agricultural implements.

It is reported that John W. McCallum, of Paradise, has discovered manganese back of Morristown on the South Mountain. Mr. McCallum has had some eighteen or twenty years' experience in mining.

The gasoline engine belonging to Shaffner and Fisher, on their wharf, was upset by two boys in a lawless spirit of mischief on Sunday last and damaged so that it was necessary to send it to St. John for expensive repairs. The boys are at an age when they should be taught the value of property rights, which they do not at present seem to recognize.

London papers state that Bishop Taylor-Smith, the Chaplain-General to the Forces, who was in Annapolis Royal during the Bicenentenary celebration, is lying ill at his residence, Bromley, Kent. The Chaplain-General spent some years on the west coast of Africa, and his present malady is intermittent malaria, due to his sojourn in the tropics.

PORK STILL EASING DOWN  
Chicago Dealers Believe that the Bottom Has Not Been Reached.

CHICAGO, Nov. 25.—Fresh and cured hog meats in Chicago are perceptibly lower in price to the consumer than they were a month ago, but the widely heralded reduction in the quotations of beef has not reached the dinner table.

Pork, ham and bacon in retail quantities are procurable at lower prices than these edibles commanded a few weeks ago. As the prices of hogs at the yards are still going down and the supply is adequate, dealers express the opinion that the bottom for the consumer of pork products has not yet been reached.

There has not been the slightest reduction in the price of breakfast foods or cereals, although corn and oats are selling now for ten to twenty per cent. cheaper than a year ago.

THE POWER OF THE PRESS.  
Mr. Manley Weathers, whose advertisement for the lost dog appeared in a recent issue of this paper, writes—

Dear Monitor—You have made a \$75 find. We have the little fellow. The press is a mighty power. We thank you.

It gives the Monitor much pleasure to have been the means of restoring "the little fellow" to his owner.

Timothy Candy, of Montreal, who shot Constables Foster and O'Connell, while resisting arrest in May last, and whose case was referred for clemency of the Council, was hung on the 18th November.

Sir Wilfrid Laurier passed his 70th birthday on Sunday, 20th inst. and was the recipient of a large number of congratulatory telegrams, cablegrams, flowers and other loving tokens of esteem, from all over the world. Among them were cablegrams from King George, Premier Asquith and General Botha. The Premier is in excellent health.

TOWN OF BRIDGETOWN

WATER NOTICE  
Notice is hereby given that the Town water will be turned off the main pipe supplying the town on Thursday the first day of December next, at two o'clock in the afternoon, and remain off for two or three hours for the purpose of making connections with the dwellings of W. R. Calder and Edward Marshall.

By order of the water committee.  
H. RUGGLES, Town Clerk.

Fruit growers in Session

A. McNEILL, CHIEF OF FRUIT DEPARTMENT, ADVISES CO-OPERATIVE METHODS.

Windsor, Nov. 23.—The forty-seventh annual meeting of the Nova Scotia Fruit Growers' Association held its opening session here last evening.

The president, E. E. Archibald, Wolfville, occupied the chair and with him on the platform were Hon. M. H. Goudge, A. McNeill, chief of the fruit department, Ottawa; Colonel Spurr, Melvern Square; Robert Starr, Wolfville; R. J. Messenger, Bridgetown, and Wm. O'Brien Windsor Forks. About fifty of the leading fruit growers of Hants, Kings and Annapolis counties were in the audience.

The president's and secretary's addresses were read and adopted, with congratulatory references by several of the members.

PRESENTATION TO THE PRESIDENT  
In a neat speech Mr. R. J. Messenger presented the president with a gavel made from part of an apple tree taken from the Nova Scotia experimental station, referring to it as the "first fruits" of the plot.

The feature of the meeting was an address by Mr. McNeill on co-operation in the fruit business. He complimented the Nova Scotia fruit growers on their well cultivated orchards, saying they had more on blue than in any place on the North American continent, but he sounded a warning to the effect that he was afraid not enough work was being done by the young men. He spoke of the organized associations of young men fruit growers in Ontario and said the east had in them a formidable rival. They were going into fruit growing as a business.

He spoke of the British Columbia fruit and thought the east had little to fear from that district, provided she put into her work some of the enthusiasm and work of the west. He approved of experimental stations and congratulated the association on what it had already accomplished in that direction.

MANY PRACTICAL SUGGESTIONS.  
His address was full of practical suggestions. He related many incidents to prove that it was only by co-operative methods that the business end of fruit growing could be a success. He referred to the great work of the co-operative agricultural societies in Ireland, done more to subside Ireland than all the armies of Cromwell. He spoke of the great work done to improve the condition of the people of Denmark by the co-operative method of agricultural pursuits.

J. A. Chute, Berwick, and others followed Mr. McNeill in admirable addresses, showing the benefit of co-operation in farming and fruit growing.

Last evening a public meeting was held, when Mayor Curry read an address of welcome, followed by other prominent speakers. During the session, which closes today, Dr. Gordon Hewitt, Dominion entomologist, will speak on insect injurious to Nova Scotia.

FOR XMAS COOKING

**Ice-makers Lot is Not a Happy One**

The Man Who Makes the Artificial Has to Shovel Coal All Day

When the mercury is hovering about the 100 mark and you are rapidly melting into a greasy spot on the pavements during summer perspiring days, and someone should ask you how would you like to be the iceman, how would you like it?

Great, eh? Well, go ahead and think so. You are under the impression that being the iceman in the summer time is fine cool work. Nearly everybody thinks so.

But you are certainly mistaken; that is, about the man who makes artificial ice. His is anything but a cool, refreshing job. It's hot. In fact making ice is about the hottest job to be found in a hot city at the hot time of the year.

It takes heat and lots of it to make ice along modern lines. An up-date ice factory looks more like a machine shop, boiler room or a foundry than a place where congealed coolness is made. And the man behind the engine with the sweat on his brow and soot on his hands, he is the man. He makes the ice. And the job isn't cool at all.

Every time he throws a shovelful of coal into the firebox, every time he stops to wipe honest sweat from his face he is comforting himself with the recollection that he is helping freeze something like one hundred and thirty tons of ice a day.

At present it costs approximately eighty-five cents to make a ton of ice from distilled and aerated water. It costs twenty cents to harvest a ton of natural ice on many of our lakes.

The shipping rates from nearby points is about fifty or sixty cents per ton. Thus natural ice costs the big companies seventy or seventy-five cents a ton ready for delivery in this city while the manufactured article costs eighty-five cents.

To quote from an expert icemaker: "In an artificial ice plant it is necessary in order to produce transparent ice to remove the air and impurities from the water to be frozen. There are two methods of doing this; first, by agitating the water during the freezing process, which ice is known to the trade as "raw water ice"; and second, by thoroughly distilling and purifying the water before freezing.

"There is a number of systems in use in which the first method is employed, the most common being known as the plate system, in which freezing plates made of pipe coils or hollow cells are immersed in a tank filled with fresh filtered water. The cooling medium, either ammonia or cold brine, is circulated through the plates, causing the water to freeze on the sides of the plate, after the steam or electric current, in this process the water is agitated by injecting air into the water near the bottom of the tank.

"Another system, using the same method, is to place cans filled with fresh water in cold brine and inject a jet of air into the can to keep the water in agitation. This system produces a good quality of ice if the water is free from impurities.

"But the icemaker is not satisfied making ice in chunks for commercial purposes. He goes nature one better and makes artificial lakes with ice on them. He makes the lakes in comfortable, well-built buildings, where the populace is permitted to enter and skate at a small fee. Berlin and Paris long have led the world with their palatial indoor skating rinks with artificially frozen ice surfaces. Boston and Pittsburg have followed, and now the first artificial rink any size to be built in the Middle West is being erected at Van Buren and Paulina streets, Chicago, under the title of "The Ice Palace."

It takes about thirteen miles of piping to equip a plant of this kind, half of which is required to freeze the ice surface.

So if anybody asks you how you'd like to be the ice man, tell him, perhaps.

**A MIS-HIT**

Did you make a mis-hit the time you employed the last "help"?

Don't worry. There are lots of good fish in the sea, and a sure bait to catch them is a Want Ad.

**ROOM FOR MILLIONS IN WEST BUT THEY MUST BE RIGHT SORT.**

Rev. Neil Herman, of Windsor, N.S. who has just concluded his mission to Winnipeg as one of the representatives from the maritime provinces to the Baptist Union of Western Canada, will spend a few days in the west before returning to Nova Scotia.

Rev. Mr. Herman is the guest of Mrs. S. Campbell, 88 Spence street. Four years have passed since Mr. Herman was a resident of the prairie province. Mr. Herman says:

"The growth of Winnipeg's beyond the power of the ordinary tongue to express. You have to go away from Winnipeg for a few years and then come back to see the real growth of this great metropolis. What will be the size of this commercial center in the next five or ten years will exceed the imagination of the most extraordinary intellect. I am struck with the splendid appearance of the men and women who throng the streets. It is but a striking proof of the survival of the fittest.

"Only the best people physically and mentally can survive in this country. The weakling is bound to go to the wall.

"There is room for millions in this country, but they must be the right stuff. I never advise a mammy pambly fellow to come west."—Winnipeg Free Press.

Many school children suffer from constipation, which is often the cause of seeming stupidity at lessons. Chamberlain's Stomach and Liver Liver Tablets are an ideal medicine to give a child, for they are mild and gentle in their effect, and will cure even chronic constipation. Sold by all dealers.

**AMHERST STILL BELIEVES IN CAMERON.**

The Business Men of the Town Present the Speedy Marathon.

With a Purse of \$400.

Amherst, November 24—Being the conclusion of a mock trial, which has been conducted during the week, by local talent, H. J. Logan, K.C., president of the board of trade, tonight presented Fred S. Cameron, winner of the Boston marathon and other important running events, with \$400 in gold, from the business men of Amherst, in recognition of his clean record, and for the fame and honor which he has brought to Amherst, by his manly, upright and clean athletic career.

Mr. Cameron, in his own modest way, thanked Mr. Logan and the contributors for their generous gift and for the manner in which they had stood by him.

Mr. Cameron is resting and will not go into training again until after the first of the year.

BEHAVE MAN!

Silently the burglars proceeded from the pork pie to the Burgundy, from the Burgundy to the silver spoons.

But it was a house of antique build, and a board creaked.

"John," whispered a voice in the bedroom above, "I believe that there are burglars in the house."

"Well I don't!" came the gruff reply.

"Wake up, John, and be a man!" she urged.

"What shall I do?"

"Do?" exclaimed his better half. "Way go and catch them."

"All right, dear," answered John, and began slowly to crawl toward his dressing gown. Then an idea struck him. Seizing one of his sippers, and banging it upon the floor, he shouted, "Hi, there! I shall be down in a minute."

A FINANCIAL DEADLOCK

"Who is that man who has been sitting behind the bar day after day?" inquired the stranger in Crimson Gulch.

"That's Stage Coach Charley. He's in a peculiar predicament. He went to town last week and got his teeth fixed. Then he came home, and faint broke, ran up a bill on the strength of his seven dollars' worth of gold fillin'." Charley won't submit to having the muzzel's pried out an' the proprietor won't let him get away with the collateral, and there you are!"—Washington Star.

**SHE COULDN'T SING.**

Elizabeth, just six, had been going to kindergarten, and enjoyed very much the little motion songs taught there. She was very enthusiastic at learning all the words, but one day she realized that, try as she might, she could not make her voice harmonize with those of the other children. Thoroughly disheartened, she ran home to her mother, and with a such wail:

"Oh, mamma, I don't know what I shall do. I'm so full of words, but so empty of tune!"—Women's Home Companion.

**THE JOYS AHEAD.**

She—Father believes in the pleasures of anticipation.

He—"Do you agree with him?"

She—"Oh, yes, indeed! In the summer he promises to buy me a seal-skin coat the following winter if I'll give up going to the seaside, and in the winter he promises to send me to the seaside the following summer if I'll give up the seal-skin coat. So you see I'm always happy!"

Victor's Daughter—I suppose the rain kept you from the funeral last Tuesday, Mrs. Blogg?"

Mrs. Blogg—"Well, partly, miss; but, to speak true, not with rheumatism and dizziness away with the 'em and the cake afterward, funerals ain't the joints they used to be for me!"—London Opinion.

Little Margie—"Do you belong to a brass band, Mrs. Briggs?"

The Saller—"No, dear. What put that into your head?"

Little Margie—"Well, mamma said you were always blowing your own horn, so I thought you must belong to a brass band!"—Chicago News.

Croup is most prevalent during the dry cold weather of the early winter months. Parents of young children should be prepared for it. All that is needed is a bottle of Chamberlain's Cough Remedy. Many mothers are never without it in their homes and it has never disappointed them. Sold by all dealers.

**WAS FATALLY BURNED**

Berwick, Nov. 17—The funeral took place yesterday afternoon at Weston Kings County, of Seraphine Chase, wife of Reuben Loomer. About ten nights ago she heard cats fighting down the cellar, so she took a lighted lamp, and went to investigate. On going down the stairs she tripped over one of them and fell, as she did the lamp exploded and the blazing oil set her clothing on fire. Her screams aroused Mr. Loomer, who had gone to bed, and some of the neighbors, who put the fire out, but not before she was frightfully burned about the neck and face, her hair being burnt off. Dr. Balcom of Annsford, was summoned and dressed her wounds, and up to last Saturday she appeared to be doing well, when lockjaw set in. She suffered intensely until she passed away on Monday night. Mrs. Loomer was highly esteemed by all who knew her. She leaves a son in the States, and three daughters: Mrs. LeBaron Margeson, of Grafton; Mrs. Leslie Howell, of North Kings-ton, and one living at home. Mrs. Loomer was in her seventy-second year.

When a cold becomes settled in the system, it will take several days' treatment to cure it, and the best remedy to use is Chamberlain's Cough Remedy. It will cure quicker than any other, and also leaves the system in a natural and healthy condition. Sold by all dealers.

**JUENILE COURTS**

The first report of the first Juvenile Court in Canada has recently been made public. The court was established early last year in Winnipeg, with Judge T. M. Daly presiding. Two days in the week the Judge held court and during the year two hundred and forty-two children, ranging in age from eight to sixteen appeared before him, one hundred and seventy-four being boys and sixty-eight girls. About half the of the girls were charged with immorality, and of the boys, about half pleaded guilty to theft and like offences. Of them all only eight had to be sent to the Reformatory. The judge says that many of them were caught in time to turn them in the right direction. Of the causes of juvenile crime, he says that in nearly every case of serious delinquency the boy was found to be a truant from school.

His observation of the family history of those with whom he has had to deal, shows that ninety-five per cent. of the boys and girls who go wrong may be attributed to improper home surroundings—the fathers being much more to blame than the mothers.

Juvenile Courts—the first of which was established about ten years ago have justified their existence. Many large cities and the smaller ones in the United States have such courts now, and the effect everywhere on the child life is good. The one inspiration to many thousands of boys and girls to lead straight lives, they get in the treatment these courts give them. There should be one in every city in Canada.—Exchange.

**WOMAN'S DEATH**

James Wright of Chicago was taken into custody on a charge of causing the death of his wife.

As Mrs. Wright, who is 75 years old, attempted to sit down, her husband, it is alleged as a joke, pulled a chair from beneath her and she fell to the floor, injuring her spine. Death followed soon after.

An Englishman in Toronto says that his countrymen cannot get into their heads a clear idea of the vastness of Canada. An Oxford fellow-student had written to him stating that he was coming to Canada but could not stop at Toronto, as he was going direct to Winnipeg; but couldn't his Toronto friend drop into Winnipeg for the week end?

Whatever makes for the equality of man and woman makes for progress. Moral equality does not mean identity. The greatest argument for giving political rights to both sexes is that it would help to place the relationship of men and women on an equality. Goethe said, "the eternal woman leads us ever upward and on." The eternal woman leads us upward and on, and she can take comfort in the belief that pain is a sign of life and that life is infinitely worth while.—Edward Howard Griggs.

**THE LORDS IGNORE THE VETO BILL.**

Upper Chamber Adopts Lord Lansdowne's Resolutions and Sends Them to the House of Commons.

London, November 24—The house of lords tonight, without a division adopted the resolutions of Lord Lansdowne, the opposition leader of the house of lords, and decided to send them, together with Lord Rosebery's plans, for the reformation of the membership of the lords, to the house of commons. The upper chamber should be adjourned until Monday, when dissolution of parliament will take place.

Thus the government's veto bill has been ignored by the house of lords. A noticeable feature of the debate has been the number of liberal peers who supported Lord Lansdowne's scheme and opposed the government's veto bill.

The suffragettes continued their riotous conduct this evening. They gathered in Whitehall and smashed a number of windows in government offices. Sixteen of their number were arrested.

**ALFRED SHRUBB BEATS TOM LONGBOAT.**

The English Runner Wins Fifteen Mile Race in Boston by Three-quarters of a Lap.

Boston, November 24—Alfred Shrubb defeated Tom Longboat, the Indian, in a fifteen mile race here by three-quarters of a lap. Shrubb's time was 1 hour 25 minutes and 8 3/4 seconds. Shrubb led from start to finish, and owing to mix-up in counting the laps in the last mile, ran three laps more than the distance. Both men ran in good form and each had a sprint for the final round.

**SEVENTY NINE YEARS YOUNG**

**"Fruit-a-tives" Keeps Health Perfect**

OTTAVIA, Ont., July 8th 1910.

"I am a seventy-nine year old man, and a great believer in, and user of, 'Fruit-a-tives'." It is the only medicine I take, and I can truly say that "Fruit-a-tives" and exercise keep me in my present good health.

Strictly of the Bowels, was the complaint I suffered from and I found "Fruit-a-tives" to do me more good than any other remedy. My doctor advised me to stick to "Fruit-a-tives" and I have done so with the best results.

I have been in business here for a good many years and have been a resident of Ottawa for over fifty years, so that if you think this little reference from me will serve to induce some others to try "Fruit-a-tives," I hereby authorize its publication.

WM. PARSONS.

Obstinate Constipation, Paralysis of the Bowels and Stricture of the Bowels can never be cured by common purgatives, salts, senna, "liver pills" and oil have positively no action on the liver. They do not increase the secretion of Bile, which nature provides to move the bowels. They merely irritate the membranes lining the intestines. One may as well try to cure a headache by pounding one's head against a stone wall, as to try to cure Constipation with common purgatives. "Fruit-a-tives" is the only true liver stimulant. "Fruit-a-tives" is fruit juices and nerve tonics, and will always restore the liver to its proper condition and cure the most obstinate cases of Constipation.

50c a box, 6 for \$2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

**"Fruit-a-tives" Keeps Health Perfect**

OTTAVIA, Ont., July 8th 1910.

"I am a seventy-nine year old man, and a great believer in, and user of, "Fruit-a-tives'." It is the only medicine I take, and I can truly say that "Fruit-a-tives" and exercise keep me in my present good health.

Strictly of the Bowels, was the complaint I suffered from and I found "Fruit-a-tives" to do me more good than any other remedy. My doctor advised me to stick to "Fruit-a-tives" and I have done so with the best results.

I have been in business here for a good many years and have been a resident of Ottawa for over fifty years, so that if you think this little reference from me will serve to induce some others to try "Fruit-a-tives," I hereby authorize its publication.

WM. PARSONS.

Obstinate Constipation, Paralysis of the Bowels and Stricture of the Bowels can never be cured by common purgatives, salts, senna, "liver pills" and oil have positively no action on the liver. They do not increase the secretion of Bile, which nature provides to move the bowels. They merely irritate the membranes lining the intestines. One may as well try to cure a headache by pounding one's head against a stone wall, as to try to cure Constipation with common purgatives. "Fruit-a-tives" is the only true liver stimulant. "Fruit-a-tives" is fruit juices and nerve tonics, and will always restore the liver to its proper condition and cure the most obstinate cases of Constipation.

50c a box, 6 for \$2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

THE HOME

THE GIRL AND WORK.

"I'm going to keep my girls so busy between the ages of ten and nineteen that they will hardly know what is going on around them," said one of my neighbors the other day, with all the emphasis she could command. I probed a little to find the secret of this rather remarkable decree, and she went on at some length about the dangers that beset the mothers of the future between little girlhood and established womanhood. Her list of troubles was a rather long one. "Why," she exclaimed, "girls need to be learning—learning books, learning to work, not learning to be old society women."

ORDERING THE BABY.

There was great excitement in Babyland, For a message had come to say That the finest baby that could be made Must be sent to Earth that day. So the fairies left the fairy ring, To bark to the Queen's command. And seven were chosen to gather afar Rich treasures of sky and land. They hurried away on the quest intent Searching o'er land and sea, Six returned at the appointed time With gifts of rarity.

Used in Canada for over half a century—used in every corner of the world where people suffer from Constipation and its resulting troubles—

Dr. Morse's Indian Root Pills, stand higher in public estimation than any others, and their ever-increasing sales prove their merit. Physicians prescribe them. 25c. a box.

TO DISCARD LOW SHOES.

This is a time of year when you are especially liable to take cold, because of the changeable weather, the return to indoor habits of life in more or less imperfectly heated and ventilated rooms, the neglect of suiting one's clothing to the weather conditions, etc. "Contributory negligence consists many a time in the wearing of shoes that do not protect the ankles. Many girls continue to wear their Oxford ties and even pumps till the snow flies. Even with substantial cashmere stockings it is a risk to wear low shoes in the fall, while with thin stockings, the results of damp skirts wiping about the ankles, and cold winds, are distinctly unhealthy, not to say untidy. Boots that lace snugly around the ankles should be worn out of doors after the first of October in this climate, both for health's sake and appearance, and these boots should have substantial soles that keep the feet from the dampness and chill of the pavements. To the robust girl who thinks she can go on wearing her low shoes a while longer without any harm being done, let it be explained that her complexion is apt to suffer from such indiscretion, exposure of the ankles resulting in hindered circulation, redness of the nose, and other minor evils—if these can be called minor.

MOTHER'S PROBLEMS.

A simple diet, simple habits, simple clothes and simple amusements are best for the little folk. Careful mothers will not talk about their children with bearing of the little ears, for fear of encouraging conceit and vanity. When the new baby comes encourage the older children to feel that the newcomer is a blessing and make them feel a sense of ownership. If parents would do this there would be fewer unhappy first-borns. While the baby tries to walk be sure to rub the little legs every morning and night to strengthen and rest them. Do not give uncooked fruit to children late in the day. Stewed or baked fruits at supper time are more certain to agree with them and will insure a more restful night. Cracked wheat, steamed in a double boiler for four hours, is a nourishing easily digested and generally liked children's food. The last hours of the baby's day should be a happy one, not filled with struggle and fret that leaves him and exhausted. LIKE ATTRACTS LIKE. Did you ever think that the thing you are looking for is looking for you; that is the very law of affinities to get together? If you are coarse in your tastes, vicious in your tendencies, you do not have to work very hard to get with coarse, vicious people; they are seeking you by the very law of attraction. Everywhere affinities are seeking one another. When boys and girls go

to the city for the first time to seek positions, how quickly they find their affinities.

Those who are naturally wild, and those who wish to dissipate, do not have to look very far or very long to find these with the same coarse, animal tastes. Watch country youths who go to the city to seek their fortunes. Some seek the Young Men's Christian Associations, some the churches, some the saloons and the dance halls. Those with artistic tastes very quickly get into musical atmosphere. Those with artistic natures gravitate naturally to other artistic temperaments. Our thoughts, and motives, our desires, our longings, are forces which find their fellows. A USEFUL REMEDY. Hot water is a simple remedy, and so easily obtained that its value is not half appreciated. It is one of the best restorers of nervous energy it rests the weary, and it relieves pain, not only as an outward application, but as a remedy to be taken internally. A sudden and wearing attack of coughing often needs immediate attention, especially in consumptives and those chronically ill. In an emergency that ever-useful remedy will often prove effective. It is much better than the ordinary cough mixture, which disorders the digestion and spoils the appetite. Water almost boiling should be sipped when the paroxysms come on. A cough resulting from irritation is relieved by hot water through the promotion of secretion, which moistens the irritated surfaces. For the trying, dry cough, hot water is also excellent, as it promotes an expectation and brings relief. When you have a sudden attack of indigestion it is a good plan to take a cup of hot water as nearly boiling as can be borne. WALKING FOR HEALTH. There is nothing like air exercise, simple morning food, and plenty of sleep, to restore the health when one is run down. Avoid rich foods and late hours. Take brisk walks daily or twice a day if inclined to weakness that prevents much walking at a time. Do not exercise to the point of fatigue. Rest when you feel tired, but if possible take your daily rest on a porch and in the sun when you can.

MINARD'S LINIMENT CO., Ltd.

Gentlemen,—In July, 1905 I was thrown from a road machine, injuring my back and legs. I was obliged to use a crutch for fourteen months. In September, 1906 Mr. Wm. Minard of Lachute urged me to try MINARD'S LINIMENT, which I did with the most satisfactory results and today I am as well as ever in my life. Yours sincerely, MATTHEW BAINES. INDESTRUCTIBLE FRIENDSHIP. Where friends are teachable, quick to recognize their own defects, having the meekness of self control and persistent eagerness for the best that friendship may bring, when inner sympathy and deep reverence for the person of themselves and others are present; where each is a promoter of peace and each is ready to sacrifice for the other—there is a friendship that it is hardly impossible to break. It has something of the eternity of the nature of God himself. There is no personal relation of any kind in the life of any man where these great qualities have not their peculiar and inestimable contribution to make. The old, old story, told times with out number, and repeated over and over again for the last thirty-six years, but is always a welcome story to those in search of health—There is nothing in the world that cures coughs and colds as quickly as Chamberlain's Cough Remedy. Sold by all dealers. SURPLUS WOMEN PROBLEM. Boston, November 21.—The Women's Homestead Association, a local organization of large membership, has adopted and sent to the leading public men of the country resolutions containing the following: "What shall we do with the surplus women of the country aid them by obtaining homesteads; pension the surplus women for whom there is no demand; establish state and matrimonial bureaus? Legalize plural marriages or shoot off the surplus women as old horses who they can no longer pull their wagons?"

Shiloh's Cure

quickly stops coughs, cures colds, hoarseness, throat and lungs. 25 cents.

FINE STATIONERY

Would you like some fine stationery with your address printed on it? We have a fine line of note paper for social use in packages of one hundred sheets or by the pound on which we will neatly print your home address or your initial. Or you can buy it unprinted, if preferred, much cheaper than by the ream. Call and see it and get our tempting prices. MONITOR OFFICE, Bridgetown.
